MONDAY EVENING, JULY 28, 1873

Town and County News.
The first of the Y. M. C. A. goal prayer-meetings came off successfully yesterday.

FOR PULNICH LAKE.—The employees of Messrs Hepburn & Co., with their wives and friends, started this morning for Pulnich Lake to spend the day in healthful recreation.

The St. Catharines Times says there was an "excellent" partaken of at the close of a hop at the Stephenson House, in that town, one night last week. We are not prepared to inform our readers what kind of a thing it is, but we suppose it must be some new kind of vegetable.

The Orangeville Sun says:—Since the late rains the crops have wonderfully improved in this section, and the yield will be far in advance of what was at one time anticipated. Hay is a very fair crop in most sections; while even fall wheat has headed out beautifully, and will be at least a fine sample, and, we believe, a much better crop than that of last year. Oats, peas and barley also look well. Taken altogether a "silver lining" has certainly appeared on the dark cloud that but lately threatened the agriculturists of Ontario.

NARROW ESCAPE.—About half-past eight o'clock on Saturday night a narrow escape from instant death occurred at the Grand Trunk station. A woman was crossing the track to the platform just as a special freight train going east came up. Either from not observing the train, or some other cause, the engine was close upon her, when some passengers who saw her imminent danger shouted to her. She made a rush and gained the platform just in time, being helped up by the friendly arm of Mr. McLaren, the baggage master.

THE MAPLE LEAF CLUB.—We are not indebted to the members of the MAPLE LEAF club for the reports we have been giving during their eventful trip east. From some cause, known of course to themselves, they failed to furnish us with the score each day, while the Herald has been the recipient of all these favors. The fact is patent to the readers of THE MERCURY that we have, during the season, given base ball matters a prominent place in our columns—and especial prominence to everything pertaining to the champions. Why they should give us the cold shower now is more than we can divine. We are not aware that we have done anything to merit such treatment at their hands.

PULNICH LAKE.—A correspondent from the Wellington Foundry sends us the following:—Through the kind liberality of the Messrs. Inglis & Hunter, the whole of their employees, with their wives, sweethearts and friends, were given a most enjoyable outing by visiting Pulnich Lake on Saturday. The party started in six pleasure vans, hired for the occasion from Messrs. Deverill and Hower, and were accompanied by the principal of the firm and his family. The ride out was exceedingly pleasant, the earth having been cooled by Friday's rain. Arrived at the lake the party embarked in what the Pulnich mariners term boats, but in our opinion they are merely pieces of wood nailed so as to exclude the water. However, not disposed to stick at trifles, the party soon landed on the island, and after some good drinks the party dispersed. The going having sounded, the cloth was quickly relieved of the savoury viands. Various enjoyments came next such as dancing (music supplied by Messrs. Doty & Beard), balling, boating, swimming, &c. After spending a few hours very pleasantly, with another good lot of the creature comforts, the party left the island and on landing again indulged in sports and games. They started for home by way of Hespeler, again enjoying a beautiful ride, and on reaching home, Waterloo Road and Wyndham St. were made to resound with cheers and songs of "Old Lang Syne," "Rule Britannia," and finally "God Save the Queen." The party, whose number was between seventy and eighty, felt highly gratified with their day's outing, and very thankful to Mr. Inglis, who, with his lady, added no small amount of pleasure by their courteous and affable bearing.

ACCIDENT ON THE RAILWAY.—An accident of a serious character occurred on the Toronto, Grey and Bruce Railway, on Sabbath last. It appears that a train started from the station here, going west, with three or four flat cars and a van; there were a number of persons on board, and when turning the curve near the crossing on Broadway, inside the corporation, it met another train coming from the west, consisting of engine, tender and a van. Owing to the curve they did not see each other in time to stop before the trains met, although the drivers of the engines did everything in their power to do so. The consequence was that there was a terrible collision which almost destroyed both engines, and inflicted serious injury on several persons on the trains. Both engines were badly hurt, one being severely scalded. The two engines that collided were the Gordon, Thomas Graham, engineer, and Robert Walker & Sons, Joseph Prince, engineer. The cost to the Company must be very great, as one engine and tender were very badly smashed.—Orangeville Advertiser.

POLICE COURT.
Before T. W. Saunders, Esq., P. M.
July 28.
Jas. Robertson was charged by the Chief Constable with disorderly conduct in the Market Square on Sunday. Prisoner resisted violently when being taken into custody, and Mr. Kelly had to use his truncheon freely, causing prisoner to bleed considerably. Fined \$2 and costs.

Local and Other Items.

St. Andrew's Church, Paisley, is to have an organ.

The British and Foreign Bible Society collects and expends about one million dollars a year. Last year it circulated no less than 2,592,946 copies of the Bible, New Testament, and parts of each.

The contract and agreements for the erection of the Hamilton Inebriate Asylum have been definitely fixed and arranged. Donald Nicholson has been awarded the general contract. Work was commenced this week.

On Saturday, about 4:30 p. m., a brakeman named Robert McConnell fell from the top of a freight train while shunting at Widdler station, and two cars passed over him, breaking both of his legs. One leg is very badly jammed, but the doctor thinks they can both be saved.

MESSRS. E. BENDISLARI & Co. of Toronto, who were induced into the kite-flying business by the late firm of Ritchie, Gregg, Gillespie & Co. of Montreal, to the extent of \$50,000 to \$70,000, are asking a compromise from their creditors for the sake of the stock. Mr. McMillan, also of Toronto, assigned last week from the same cause.

THERE has been a company formed at Cobourg for the purpose of manufacturing sugar from the sugar beet. Mr. John Purser, President; Mr. A. F. Burnett, Managing Director. The experiments thus far made prove highly satisfactory, and there is no doubt but that the enterprise will be a success.

FRIGHTENED TO DEATH BY SNAKE.—A few days ago Western papers reported that while a party of young persons were enjoying a picnic, one of the boys killed a snake and thoughtlessly threw it around the neck of a young lady. She was greatly frightened, fainted, and was made quite ill. She recovered, however, but a few days later, unexpectedly meeting the boy in the street, she was so shocked by the recollection of his act that she was thrown into convulsions and died.

The Gananoque Reporter remarks that one source of wealth has been discovered there which is rather surprising. Many a man from Gananoque has, when visiting Montreal and other cities, looked with admiration on the monuments of "Aberdeen granite." Such a pretty colored stone, such a beautiful polish, and so enduring—never dreaming that every time he went fishing he made the base of his operations an exhaustless bed of "Gananoque granite," a stone very much like the "Aberdeen," but superior in color and susceptibility of polish. Yet such is the case, and Mr. Forey, of Montreal, has now a gang of men at work quarrying the granite and working it into monuments, posts, water basins, and other ornamental articles, for all of which he has orders, some of the monuments to the cost of \$2,000 when finished. The shipping and rough work is done here; the polishing is done in Montreal, where steam power is used.

The Paisley Advocate, speaking of the crops, says:—This season the rapid growth of crops within the last few weeks has been most remarkable. Scarcely a drop of rain fell in June, and but little in May. Creeks and rivers were very low, and the ground of course parched, while the prospects for hay and spring grain was poor indeed. At last the rain fell in abundance. The ground being warm and thirsty, vegetation advanced with astonishing vigor, and fields which a short time ago looked almost bare, are now clothed with waving grain, which is nearly as high as the fences. Fall wheat has looked well all along through the season, and now spring grain promises a magnificent yield, and even hay will be much better than was at one time expected, the late fine rain giving a good opportunity to save it.

MOSQUITOES.—Two gentlemen who have just returned from spending a night at one of the hotels on Burlington Beach, report that the crop of the above interesting insect is greater this summer than ever it was known to have been in the memory of the "oldest inhabitant," or the "latest arrival." Shortly before retiring they state that a small dog in the peaky crevices invaded their sleeping apartments and commenced operations, which were conducted with a persistence worthy of a nobler aim during the entire night. One of them looks quite pale and stricken, and the other states that he fooled the mosquitoes by putting the clothes over his head and breathing through the counterpane, a plan which succeeded admirably for a time, but the irrepressible and rapacious insects soon discovered the dodge, and creeping through made him fairly howl with pain. Their bills are as long as of an extravagant newly-married woman, and their bites venomous as a poisoned arrow. If any of our readers intend slumbering on the Beach, our advice is to look out for them.—Times.

THE INTERNATIONAL BRIDGE.—Work on the International Bridge at Buffalo is going on steadily, and by the coming fall it is expected that it will be completed. The obstacles arising from the natural formation of the river bed, and which at first seemed insurmountable, have been overcome, and the success of the undertaking so far is said to be a great triumph of engineering skill. The length of the bridge proper is 1,967 feet. Crossing Squaw Island is a trestle-work, 1,200 feet long. The total length, including a span across the Erie Canal, is upward of 3,600 feet. There is a double draw bridge in the middle, 318 feet long, turning on a centre pier. The completion of this stupendous work will bring the Great Western, Grand Trunk and Canada Southern Railway in direct communication at Buffalo with the great American road running east, without the annoyance and delay of ferriage.

The Board of Fire Underwriters of New York have resolved to raise the rate of insurance on all buildings with Mansard roofs, and invite all insurance companies in the country to unite with them.

Madrid, July 26.—The Insurgents at Carthagen have made preparations to attack the German frigate now in that harbor, but it is believed they will not carry out their design, as their vessels are not properly supplied with either officers, men, or engineers.

A report is in circulation at Paris to-day that the French Government had determined to recognise the belligerency of the Carlists, but it is pronounced this evening to be without foundation.

At a meeting of the Spanish Liberals at Biarritz, France, over which Marshal Serrano presided, it was resolved to offer, through Admiral Topete, their support to Senor Salmeron in his efforts to restore order in Spain. The Liberal leaders in this city also held a meeting, and adopted resolutions of a similar character.

Two more Generals and two Colonels of the Republican army have been cashed for expressing sympathy for the cause of Don Carlos.

Madrid, July 27.—The Cortes has declared itself in favour of the abolition of capital punishment.

The Carlist force which was threatening Bilbao has retired from the neighborhood. Don Carlos is reported at Arcos in the Province of Logrono. The railway from Madrid to Valencia has been cut in several places.

The Government troops attacked Valencia yesterday. After a desperate struggle of five hours, fighting was suspended, and the insurgents offered to capitulate, but their terms were refused, the Government demanding an unconditional surrender. Heavy reinforcements have been sent forward, and the attack will be resumed if the insurgents do not yield. Seville has also proposed to return to its loyalty to the national Government on certain terms, but, as in the case of Valencia, the Government will accept nothing less than an unconditional surrender. It is believed the insurgents will soon give up the city unless relieved. San Ferdinand was attacked on Friday by an insurgent column.

Bayonne, July 16.—Don Carlos, with a force which his sympathizers in this city claim numbers 16,000 well-armed men, have arrived at a place named Elinsondo, near Pampeluna.

The Republicans are concentrating near Elinsondo, and it is probable that a desperate struggle will take place.

New York, July 26.—A despatch dated the 26th inst. says that fighting has occurred in the streets of Malaga between opposing Republican factions.

Barcelona, July 26.—Five thousand inhabitants of the town of Mataro, fifteen and a-half miles north-east of here, have sought refuge in this city, fearing an attack upon Mataro by the Carlists.

The funeral of General Cabrinitz took place yesterday and passed off quietly.

Bayonne, July 26.—A heavy cannonade is now going on south of this city on the Spanish frontier.

New York, July 26.—The Herald's special from London, dated 26th, says:—After a slight resistance the force under Don Alfonso captured Reus, the second city of importance in that section to Barcelona. The latter city is threatened with isolation. Numerous able-bodied Catalanian refugees are crowding the French frontier. They will be called upon by Don Alfonso to join the Carlist standard, or bear the consequences of refusal.

Baltimore, July 26.—The Sun this morning estimates the loss by fire at \$500,000, and says good judges estimate the loss as low as between \$300,000 and \$1,000,000. The Gazette estimates the loss at from \$600,000 to \$800,000. The American says it will approximate to \$1,000,000. The insurance is estimated at \$200,000, and the entire loss is not estimated to exceed \$1,000,000 by any one, and some insurance men still put the loss as not to exceed \$400,000. Committee relieving all cases of distress.

Paris, July 27.—The Portuguese mails are interrupted in consequence of the troubles in Spain.

San Francisco, July 26.—The Republican County Convention to-day adopted an anti-subsidy, anti-Chinese platform.

Cumberland, Ind., July 27.—This morning an engineer on the Baltimore and Ohio Railway lost control of his engine on the down grade, near Altamont. The engine ran away, and while running over forty miles an hour, struck the rear of a freight train, demolishing twenty cars loaded with corn, cotton and tobacco. The engineer and two men were killed; the conductor, brakeman, and a driver were badly injured.

Bangor, Me., July 27.—On Saturday evening two spans of the bridge on the European and North American Railway between Oldtown and Milford, 300 feet long, were completely blown away by a tornado, and an engine and tender, with the fireman, which was crossing from Oldtown, plunged into the river. The engineer, George MacLellan, was killed; the others escaped.

New York, July 27.—Forest fires on Long Island have burned over an area of at least fifty square miles.

Indianapolis, Ind., July 27.—Three fatal cases of cholera is reported in one family here.

Louisville, July 27.—The cholera has broken out again in Lagrange, Ky., on Friday night. Two deaths occurred on Saturday and three to-day. Excessive labor has disabled the physicians of the place, and application has been made to this city for physicians and druggists.

Louisville, Ky., July 28.—There is good accounts of the tobacco crop in Eastern and Central Kentucky, but advices from Western Kentucky report great damage to the tobacco by drought.

The fruit crop in the great fruit-growing region of the State is badly damaged by the late frost.

New York, July 28.—The stables of the Broadway and Twenty-third Street Stage Line were almost wholly destroyed by fire this morning.

Fort Garry, Man., July 26.—In the Gordon case, the prisoners Hay, Kegan, Fletcher and Bentley, are refused bail. Merriam has been admitted in \$4,000.

New York, July 26.—John C. Babcock, referee of the late College regatta at Springfield, publishes his final report, and makes the final award as at first, namely, Yale first, Wesleyan second, and Harvard third. The race was disgracefully mismanaged.

FRAMES OF LIGHTNING.—About half-past eight o'clock on Friday night, a small frame house, occupied by a man named Williams, wife and son, situated on Mills street, Hamilton, was struck by lightning. The electric fluid first struck the brick chimney and followed its course to the bracket upon which it was set, knocking out the stovepipes and scattering them in all directions over the room; then, passing down the wall, entered the cellar and returned into the kitchen, at the same time tearing the joists into splinters and raising the boards of the floor. Then it pursued its course to the front room and passed out at the north corner, tearing away a portion of the post and boards, the splinters being thrown a distance of twenty feet from the house. Mr. Williams was sitting in the back room at the time, leaning against the wall, and when the fluid passed up from the cellar it passed along his right leg, from the knee down to his toes, scorching the hair upon the leg and burning a narrow strip of the skin from the ankle to his great toe. Before he could realize his position he heard his wife and child screaming, and as soon as he could recover himself he went to their assistance. They had been knocked down by the severity of the shock, and Mrs. Williams seems to be considerably injured, without any outward appearance. The child was not hurt. Mr. Williams thinks that he will not suffer any inconvenience from the effects. Simultaneously with this Mr. George Betschelder, in company with Joseph Lee, were entering their barn about eight feet of Williams's house, when he felt a sudden pressure, as if there was some great weight upon him, and then saw a flash of light, which passed close to his face, the heat from which he compares to the heat of a bar of hot iron, and at once was knocked down, and instantly recovering himself he endeavored to get up, but found that his right side was paralyzed. With the assistance of Lee, who was also stunned, he went into his house, and in about an hour he recovered the use of his limbs. There are no external marks upon him. A short distance east of this, a horse belonging to a carter was turned out to graze, and this morning found killed. The concussion caused by lightning at half-past seven, was perceptibly felt over a radius of two hundred yards. In several parts of the city, large branches of trees have been blown down, and on Main street West, several telegraph poles have been shattered, besides many other casualties of minor importance.—Spectator.

A CHINA letter says the Japanese-Chinese ratified treaty was exchanged at the Shanse Gihlshah, Tien-tsin, a large fine building situated in the northern suburb of the city, on the 30th of April, in the presence of a large number of foreign officers. After the treaty was exchanged, a breakfast was given in the same building, to the ambassador and all the Japanese officials, by the Chinese viceroy—an entertainment which surpassed in magnificence all other entertainments of a similar kind that have ever been previously given at Tien-tsin. It is said that Li Hsing Chang was considerably astonished, at his first interview with the Japanese envoy, to find a gentleman dressed in foreign clothing. In deference to this indication, the defender was served in foreign fashion—knives, forks, foreign plates and dishes being used, and foreign wines drank.

A RAIL, and presentation of an address to the captain, came off on board the steamer "Tranquil Smith," at Prince Arthur's Landing lately.

Four conductors on the Grand Trunk Railway have been arrested at Toronto on a warrant charged with embezzling monies belonging to the railway authorities. The names of the accused are Daniel Williams, William Coulter, J. H. Hunter, and Alfred Richardson.

Sunday was the seventh anniversary of the landing of the cable at Newfoundland, and to-day it has been opened seven years for business. Sunday evening was celebrated by a banquet and to-day by boat races.

A valuable horse, lately imported to this country from Canada by Mr. West a short time ago, has become so disabled that recovery is despaired of. Some think that the lameness is the effect of foundering, but good judges of horseflesh attribute it to defective shoeing.—Nor-West.

Supplementary letters patent have been granted to the Canada Sewing Machine Company of Hamilton, empowering it to increase its capital stock from \$24,000 to \$100,000.

MONDAY EVENING, JULY 28, 1873

The Manitoba Squabble.

The New York Tribune, speaking of the Manitoba kidnapping case, makes the following sensible remarks: The escape of those Minnesotans who went over the border to capture and bring back to his anxious bail the English adventurer known in New York as "Gordon Gordon," is gradually beginning to assume an undue importance. It was a foolish enterprise, marked with a rattle-headed carelessness in its beginning and its execution. It was one of those boyish tricks which invest their perpetrators with a sort of humorous credit if they succeed, and cover them with ridicule and embarrassment if they fail. Our Consul Taylor, instead of confining himself to an effort at mitigating the inevitable punishment of the men who had got into the scrape, chose to defend their action on grounds of international law. He advanced the absurd claim that the common law doctrine which gives to a bail the right to arrest his fugitive principal wherever found included the right to pursue and capture him upon foreign soil. No other publicist ever made this claim, if we except Gen. Dix, who put forward some such theory to justify the chase of Rebel raiders over the Vermont border. After the trick had been tried and failed, the judicious course for the friends of the prisoners was manifestly to make as little disturbance as possible over the case, but try to have them beaten with as few stripes as possible.

The St John (N. B.) Telegraph follows up its refusal to shield the Government any longer by demanding that "explanatory statements be at once made, without awaiting the meeting of Parliament." The Telegraph further says: "It is ruinous to Ministers, and most injurious to the country" to withhold those statements.

Several robberies were committed in St. Catharines, on Friday night and a considerable amount of money carried off by the thieves. They got into Mr. S. G. Dolson's house, and carried off his pants, in which there were two settled, though unrecouped, notes for \$1,000.

It is reported that the Directors of the Royal Canadian Bank intend to re-establish an agency in St. Catharines.

Two car loads of silver, 32,000 pounds, were recently sent to the Philadelphia mint from the mines in Chihuahua, a Northern Mexican State.

A girl who had become tired of single-blessedness thus wrote to her intended: Dear Jim, come right off if you're comin' at all. Edward Kelderman is insistin' that I shall have him and he hugs and kisses me so continually that I can't hold out much longer.

An important decision in a case of appeal against the assessment of bank stock has been delivered by Judge Burrows, of Kingston. The points decided are, that bank stock is liable to assessment, that its actual cash value is the proper basis of taxation; that no matter where situated, it may be assessed at the place of business or residence of the owner.

A confidence game story is reported in Montreal, of which the following is the outline:—A person accosted a farmer, saying that he had a bond which he wanted exchanged, but as the brokers' offices were closed, it would be a great favour if he (the farmer) would give him money for a cheque for \$400, which he displayed, and the foolish farmer gave him the money.

John McColl, the brakeman who fell from the train at Brighton, died about 9 o'clock on Friday night.

A neatly-dressed gentleman, supposed to be from Cleveland, Ohio, a passenger on the steamer Bohemian, leaped from that boat on Friday evening, just as she was reaching the Lachine Rapids, and was drowned. It was supposed that he was laboring under mental aberration.

WHAT IS BEST TO BE DONE.—If you are suffering from rheumatism, lame back, sprains, strains or bruises, sick head aches, tooth ache, colic, bowel complaints, burns, frost bites, &c.; decidedly the best thing to get is a bottle of "Canadian Pain Destroyer." The cost is trifling, and its effects certain. It is a never failing remedy, and no family should be without it. Sold by all medicine dealers.

OR THE TEMPTATION. CHAPTER XXX.

THE ENCAMPMENT OF THE CHEROKEES—A TOROUB MEETING—THE SETTLEMENT IN DANGER.

The encampment of the Cherokees to which Jim was conducted was large and...

And that they were now on the war-path was fully attested by the red paint besmeared them...

Jim had time to note these things, and draw his inferences from them...

It was therefore with but a divided interest that he approached the assembly of warriors who awaited the coming of himself and his party.

A cluster of huts very rudely constructed, and evidently for the most temporary object, had been erected in the centre of the encampment...

Winding thus between the groups of motionless warriors, whose only emitted sounds were occasional grunts or "ugh's," Jim was at length brought to the centre...

Jim gave a great start, his lips opened to utter a joyous exclamation, and impulsively he was about to spring towards them...

Suppressing, therefore by a violent effort the signs of that gladness with which he was bursting, Jim marched forward with stately step, and stood silent with folded arms...

At this they stared, Philip and Stevie came carelessly towards them, and Jim, watching them from the corners of his mischievous eyes...

As for Philip, his interest was not roused at all, for as they came near he continued his conversation with the trapper...

AN UNDERGROUND ENCAMPMENT.—About a mile and a half up the Assiniboine, on the estate of Mr. Mulligan, is an Indian mound, about sixty yards in circumference...

BASE BALL.
The following are the runs each inning in the MAPLE LEAF vs. BOWMANVILLE game on Saturday:-
Maple Leaf 2 1 0 4 4 3 0 0-25
Bowmanville 0 1 0 0 0 1 0 0-2

The following are the total runs made by the MAPLE LEAF in their four last week, which we have been requested to repeat:-
Maple Leaf vs. Coburg 36 to 6
Kingston 19 to 10
Ogdenburg 10 to 2
Port Hope 35 to 10
Newcastle 25 to 2
Bowmanville 25 to 2

Majority for Guelph 100.
The noted Kinross club are coming to GUELPH to play for the championship on Friday, the 8th of August—so we have been informed.
There is to be a meeting of the MAPLE LEAF at the Queen's—tomorrow night at 8 o'clock. See advertisement.

The Port Hope paper, speaking of the base ball match in that town on Thursday, says:—The Silver Star B. B. club of this town met the Maple Leaf Club of Guelph, the champions of Canada, on the old cricket field. The day was most beautiful, and over 1,000 spectators assembled to witness the match. The wind which blew stiffly in the face of the strikers made batting and fielding somewhat uncertain. The Maple Leaf winning the toss sent the Silver Stars to bat, at 2.50 p.m., but some time was lost in clearing the field of carriages. After reporting the innings in detail it says:—The game, after three hours concluded, the score standing 33 to 9 in favor of the champions. Mr. Salisbury, of Coburg, acted as umpire; Mr. M. Tinker being scored for Guelph, and Mr. E. Gandio for Port Hope. The Band of the 46th Regiment furnished music on the grounds, besides playing to and from the field. In the evening the Guelph Club partook of a supper at the Queen's Hotel, where they stayed till morning.

(Communicated).
A match was played on Saturday last between the INDEPENDENTS and REGULATORS, both of this town, on the grounds adjoining Messrs. Bowers'. It was evident from the start that both clubs were pretty equally matched, and this, of course, enhanced the interest in the match. The playing throughout was excellent and would have done credit to older and more experienced players. The utmost good feeling prevailed during the match, both among the players and amongst the spectators, who were present in large numbers, and who cheered friends and foes alike. In the ninth inning a very difficult fly caught by Chamberlain and returned to first base was an excellent instance of double play on the part of the INDEPENDENTS. So ended one of the closest and most exciting matches ever played by two junior clubs in Canada. The INDEPENDENTS may justly feel proud of their victory, considering that they had to contend against the lightning pitching of Cositt. Mr. W. Mays officiated as umpire, and discharged his duties to the entire satisfaction of all parties, his decisions being fair and faultless. The following is
THE SCORE.
REGULATORS 2 0 2 1 0 1 0 1 0-14
INDEPENDENTS 0 2 2 1 4 1 0 1 3-24

Time of game 2 hours.
[The above game was one of the best we have ever seen played in town by juniors, and in many respects it would be hard for seniors to excel them. The REGULATORS are now a strong nine, they throw accurately, and catch well, and to crown all have a swift pitcher. On the other hand, the INDEPENDENTS have also a swift pitcher, and is ably backed by his basemen and fielders. Should either of the above clubs tackle the juniors of any other town, we have no doubt they would give a good account of themselves if they got fair play. We should like to see them both represented in the Brantford tournament to come off shortly.—R.]

The Maple Leaf ground was all alive again on Saturday afternoon last, this time the contesting parties being the employees of the Messrs. Bells' Organ Establishment—the TURNERS and ACTION MAKERS. Some goose-eggs were served out and some broke in the serving, and on the whole a pretty good game was played. The TURNERS would no doubt have led the score had not a misfortune occurred on the second innings, which compelled them to play with only eight to their opponents nine men during the rest of the game. The following is
THE SCORE.
ACTION MAKERS 2 0 2 1 0 1 0 1 0-14
TURNERS 0 2 2 1 4 1 0 1 3-24

The match on Saturday in London between the club of that place and Sr. Mary's, was won by LONDON in one innings.
LACROSSE.
The Beaver club held their meeting, as we announced, on Friday evening, and decided to get a suit composed of black trousers and caps and white shirts and stockings, and also to play a practice game on Wednesday next. A goodly number of new members enrolled themselves, and the club now looks healthy.

The match for the junior championship of the country, between the MONTREAL and TORONTO twelve, played in Toronto on Saturday, ended in a drawn game, each side winning two games.
CRICKET.
That favorite piece of music—the Claudiobe Galop—is selling rapidly at Anderson's bookstore. He expects to order another supply shortly.

The GUELPH BOATING CLUB will hold a meeting for business to-morrow evening. See advertisement.
A foot race for a purse of \$100, distance 120 yards, took place between Barry and Jackson, at Bradford on Saturday. Barry came in five yards ahead, a easy winner.

Iron in the Blood
PERUVIAN SYRUP
MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Selection of the Protocole of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures a thousand ills, simply by Tonicing up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damage and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.
This is the secret of the wonderful success of the remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Bolls, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.
See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.
J. P. DIMMORE, Proprietor,
No. 30 BAY ST., New York.
