In the first inning Rickleys watled the ball for three bases, Keefe failed to get the ball over the plate for Connors, and he went to first, Kearns drove the leather to right centre for a home run, which also brought in Rickley and Connors, and three earned runs were scored.

In the second Atkisson hit safely and went to third on a wild pitch. By the kindness of Mr. Keefe, who pitched five balls to Mr. Oldfield, that gentleman arrived at first safely, Rickley's drive to Sweeney, who threw him out at first, allowed Atkisson to score and Oldfield to get to third. Connors hit safely and Davy scored. Connors tried to steal second and was caught, and Kearns went out at first, retiring the side. McLaughlin opened the third by fanning ozone thrice. Burke lit onto one of Keefe's drops for a base, stole second, went to third on Keefe's wild throw to Troy, and crossed the plate on Mansell's out to 'Baker. In the fourth Oldfield hit a fine groundling out to Stuars, which he failed to stop, and "Davy" reached third. Rickley fouled to M. Hacket. On nearly all the parties considerable money was found, one man's pile amounting to over \$900. The arrests were made under Senator Abbott's Buckes Shop Bill passed at the last session of the Dominion Parliament. The brokers prided themselves, that they had hit upon a scheme which would beat the bill, but the County Crown Attorney thinks that there may be vital flaws in it. Anyhow he is bound to take issue with them in the courts. At 11 o'clock last night all of the prisoners with the exception of Padden and McCoppen had been released on bail in two aureties of \$100 etch and themselves in \$100. They took their arrest coulty, and will appear in the and been reseased on ball in we success of \$300 each and themselves in \$100. They took their arrest coolly, and will appear in the Police Court this morning.

Inspector Archabold told The World last night that the arrests had been made under Senator Abbott's Gaming Act, and that he expected to make his case. The matter had been carefully weighed before any action was taken.

The brokers, according to their own statemens, on the other hand are equally certain of being able) to break up the act. They claim that they are determined to carry the case, which they have decided to make a test one, to the highest courts and have already employed Mr. Robert Mr.Gibbon, Q. For Sale byall Leading Houses. FLOUR There has been a good demand for flour dur-the past week. Spring stocks are running out and a livelier trade is ensuing. Stasight roller is quoted at \$4.50 a barrel: 90 per cent patent, \$4.60 and \$4.50: Manitoba patent, \$4.75; and strong bakers, \$4.20 and \$4.40; and family flour strong bakers, \$4.20 from \$3.75 to \$4.50, Wool.

Weel.

The situation in wool continues about the same. If anything there is more offering, but prices remain at 19½ and 20 cents a pound for merchantable wool. Rejects are quoted at 14 and 15 cents; unwashed, at 9½ and 10 cents; and pure Southdown at 23 to 24. Hides and Skins.

There has been a slight improvement in trade during the past week, the demand from the tanneries increasing. Dealers pay \$5.25 per cent. for No. 1 hides; \$4.25 for No. 2 and \$3.25 for No. 3, and charge for cured and inspected. \$6 for No. 1; \$5 for No. 2, and \$4 for No. 3. Lamb skins are wanted at 35 cts., and sheep pelts at 25 cts. Calf skins are nominal. There is no demand for them. Builders'Hardware Lawn Mowers, Rubber Hose.

mundred for fafs, and \$5.50 to \$6.75 for stores.

Sheep and lambs were in large supply. About 1.50 lambs and butchers' sheep were left over. Shippers' sheep were all cleared out at 3½ to 3½ cents per pound for bucks and 4 cents per pound for ewes and wethers. Butchers' sheep sold at 3 to 3½ cents per pound, and lambs from \$1.50 to \$3.75 each. Calves were in moderate demand at from \$3 to \$7.

The most important feature developed of late in the dry goods trade is the probability of a rise in the price of cottons—principally of shirtings, tickings, denims and cottonades. The price ruling some time ago, 36 cents per pound, was broken and until now the mills have been solling at what they could get, Prices have been quoted as low as 31 cents. At present, however, there is a disposition to resume the old price. Gibson of Marysville, N. B., is the only dissident mill owner if he comes to an agreement with the others wille, N. B., is the only dissident mill owner. If he comes to an agreement with the others prices will advance. Apart from this circumstance there is not much change in the condition of trade, As the season advances the orders come in more liberally, but the volume of trade is scarcely up to that of this time last year. It is found that placing orders ahead is a difficult thing. Reports from travelers say that the state of things between Kingston and Cobourg is very bad. The crops promise almost nothing, and the merchants are averse to loading up with goods which have little prespect of sale. The wholesale men themselves show little inclination to force orders in that district. On the whole, however, there is not much cause for complaint. Business is moderate; payments are made with fair regularity and money is easy. Some buyers have left for the old country to select spring goods. The millinery houses report trade rather slow.

The Coal and Trade Journal reports the pro duction of anthracite in the United States for the week ended July 14, at 787,704 tons, compared with 727,565 same week last year. The total production since January 1 is 17,736,52 tons, as against 17,973,618 tons same time in 1887

A Word for the Boss. Beprinted from yesterday's World.

How much have we not read and heard of the wrongs and rights of 'labor, of the bloated monopolist, the grinding capitalist'! But who ever puts in a word for the poor "boss." By boss we mean that peculiar product of our humanity, the man who goes it into his head that he must serve his fellows by sinding wages for a portlonot them, and that the happlest work he can engaged in its "abstracts".

I am very borry to find your name enrolled amongs the striked out by bankers of whom he has staged common to hand among sixty million people without better hindrance."

How nice all this appears to be, and how designable, to be sure? But let us glearly understand that protection does not interfere with the Printers' Union. In fact, our business and that protection does not interfere with any exchanges between various zones which are really rendered necessary or destrable through difference of bons did a natural conditions. WATCH REPAIRING. As it Often is versus as it Shrinkle be.

Given at Toronto this 18th day of July, 1888.

As it often is, versus as it should be.

Having lately taken in to repair quite a few watches that have been recently repaired by others, without success, and for which work excessive charges are said to have been made, it occurs to me to inform the public that my charges vary from 50c, to \$1.50 and but rarely exceed this. My numerous customers will bear me out in the assertion that it does not cost them more than from \$1 to \$2 to get good time from their watches the year round. I do not charge my conferes with overcharging for the work done, the mistake is in needlessly ported to account the first watches the year round. In the work done, the mistake is in needlessly ported to account the mistake is in needlessly ported to account the mistake is in the cause of the difficulty. Which may be a mere trifle. Excess of praise is hardly possible when speaking of the new and superbly beautiful design, which is intended to me the demand for a more expensive exterior or cabinet, togeth with a most superbaction. This organ is of most substant and pleasing proportions, and of a style of finish suitable any situation. In pleasing balance of proportions, practicutility of form, richness of ornamentation and delicacy finish, this instrument will not only compare favorably w the best but surpass all organs of any make; while for streng and purity of tone, variety of expression and freedom of acti it is far in advance of anything yet produced.

New York's Chinese Town Half.

A skilled Chanese wood-worker has arrived in New York to take sharpe of the fangy work of the new Chinese town hall now being built in Most-steet. He is said to be the most skilled Chinaman of his profession in the United States, and he can make chairs, tables, cabinet cases and even houses without the aid of a single nail. American cabinet-makes, according to this expert's opinion; could not earn their to-bacco money in China, as most of their work, while grand to the eye, was coarse in construction. Any allful Chinese wood-worker, he said, could make a bedstead that would be worth \$10,000 in China, but it wouldn't pay to make such a one here, as it would take three years' time, and no American would be willing to pay such a price for a bedstead except as a curiosity. In China, he said, bedsteads are valued as ornaments, as pianos are here.

The Musical Opinion and Music Trade Review, published in London, Eng. April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLINDIES EXHIBITION, has the following:

Referring to Piano Fortes of Messrs, Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called upon to make a report, all the more important mistruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the tone was full and rich, I also tried a specimen style No. 9, which was equally deserving of unqualified praise."
