The White Cockade.

no further attempt is ever likely to be made ne of Great Britain, at least by force of arms, I can, now, without prejudice to any one, tell the story of the strange adventure which brought me face to face for the first and last time with Charles Edward Stewart, commonly known as the Young Pretender. Late in the afternoon of Sept. 22, 1750, I

received the following letter:

"DEAR FRIEND: By the time this is placed in your hands I shall be at sea on my way to Antwerp. It is all over. Under the name of John Douglas the Prince has been in London for nearly a week, and nothing has come of it. There is no prospect of a rising. Gentleman of quality and influence, however devoted to the Pfince, have no mind to risk their lives and estates by marching on London unless supported by a strong body of regular troops, believing the exile, or more regular troops, believing the exile, or more probably the scaffold, would be the sure and regular troops, believing the exile, or more probably the scaffold, would be the sure and certain end of any such rash undertaking. To speak the plain truth, I am much of that way of thinking myself, and, having wife and child, will not draw my sword until I perceive some fair prospect of success.

"I write to warn you of that which concerns you nearly. The other day the Prince came unexpectedly to a party at Lady Prince rose's, greatly to the consternation of ther ladyship and of most of her guests. Indeed, he met with but a cold reception from any

he met with but a cold reception from any but your betrothed, Miss Kate Gordon, and her cousin, Andrew Macintyre, who were h present.
'Miss Gordon went down on her knees "Miss Gordon went down on ner knees before them all and kissed his hand. It was very bravely done and moved him greatly, but, indeed, it was scarcely prudent. Macintyre followed her example, and I heard him whisper to the Prince that if his Royal Hishbert would doing to hope a big nor to her with the table and beneath the couch and even opened the door of an empty cupboard and HICKS & SANCTON MANUFAC-TURING COMPANY has this day Highness would deign to honor his poor house with a visit this evening (ye 22d) he would meet with a very different kind of

I asked breathlessly. wished to speak with her. He was gone me time and I was sure that he was inagainst the wall white and trembling. forming Macintyre of my presence before arrying the message to Kate. It would speech with her; but presently I could hear brotal looking wretches, with swords and at every door and at the head of every which he found at hand. This was more have surprised me little had I been refused intyre with half a dozen strange men-coarse her fresh, girlish voice, high and sweet and

clear, singing "The White Cockade." ear, singing

Til sell my rock. I'll sell my reel
My rippling kame and spinning wheel
To buy mysel a tartan plaid.
A broadsword, dark, and write cockade.
O he's a ranting, roving blade!
O he's a brisk and bonnie lad!
Betide what may, my heart is glad
To see my lad wi' his white cockade.

She sang it defiantly as she came down the broad staircase, a flush on her braye young face, her eyes shining with a kind of pas sionate enthusiasm, the sweetest maid in all broad England, and to my mind, at that morockless child playing with fire, and I could have snatched away the white cockade she

my heart leaped with joy to perceive that all traces of coldness that had been for some

her into a sitting room brilliantly lighted with wax candles as though for the reception of a distinguished guest. I closed the door opened the door of an empty cupboard and glanced hurriedly inside. She was very pale, and the candle trembled in her hand as she returned it to its place. Then she suddenly sank into a chair, covered her face with her

hands and broke into stifled sobs. "Why, Kate," said I, "this is not like you what is the matter?"
"Indeed, I-I scarce know, Frank," she made me grind my teeth and grip the hilt of my sword. I would have given all I posessed to spring forward and settle the matter with the cold steel, but I knew that with a shouth he could bring his outthroats upon me, and began to think I could hear strange noises, whisperings at the door, and footsteps on the stairs, until I was quite sure there were strange men in the house. I thought one might be in the cupboard there, watching us and listening to all we said. I think it must have been fancy. If not what can it must have been fancy. If not what can it must have been fancy. If not what can it must have been fancy. If not what can it must have been fancy. If not what can it must have been fancy. faltered, raising her pale face and smiling "The house is in a lonely situation, and I am convinced that these scoundrels are concording some plot to betray the Prince, and are making use of Miss Gordon's grace and beauty and well-known devotion to the Jacobite cause to entice him into a trap. I tried to give the Prince a hint of this, but he listened to me coldly, and, indeed, of late he has become notoriously impatient of advice from his best and truest friends.

"That house is in a lonely situation, and I am convinced that these score of rince and and childish of me, but I—I am so frightened. Andrew and his mother are out, and all the servants have been sent away, and I have been alone in the house for hours, with no one to speak to but that odious wretch, Donald Fraser—and—and I got nervous and began to think I could hear strange noises, whisperings at the door, and footsteps on the string nutil I was quite sure there were

ade on your breast, to meet him. Oh, Kate, grinding my teeth in impotent fury while Yet it was no very pleasant task for me you foolish child, can't you see that this vile to interfere in the matter, for there had alman, this glib, plausible, double-faced spy ready been a sharp quarrel between Kate and traitor, Andrew Macintyre, is using

Ezra was the man for this work, and he woice to lead him to victory, who would not live or die with Charlie?"

His eyes dwelt on her with a look that made me grind my teeth and grip the hilt of keeping of your future husband, and I pray wrote it in a new script—Kethay Asharis, and the coadjutors, the elders, collected the scattered records of earlier days and made the first canon of the Pentateuch. They wrote it in a new script—Kethay Asharis, and the coadjutors, the elders, collected the scattered records of earlier days and made the first canon of the Pentateuch. They wrote it in a new script—Kethay Asharis, and the coadjutors, the elders, collected the scattered records of earlier days and made the torm.

please God, and so sail for France till better times. Farewell."

Kate could not speak for the sobs that choked her, and I—well, I feel no shame at the confession—knelt down and kissed his hand with tears in my eyes. 'Twas the last we ever heard of Prince Charlie, the bravest and most unfortunate of all the Stuarts.

The proverbs of the nation were of the particular to an arising the provents of the particular to the second century before the Christian era. The book of Daniel, for instance, was composed to inspire a people, fainting under Syrian oppression, for the Maccabean revolution. And all this later literature was struggling for acceptance into the Bible until the canon of the Old Testators. and most unfortunate of all the Stuarts.

Towards Macintyre and his accomplices he behaved with unusual elemency. They were released when it was too late for them to interfere with his departure.

I have still the white cockade Kate wore on her breast that night, but I think even

CAPTAIN JOSHUA SLOCUM REACHES NATAL, SOUTH AFRICA. Captain Joshua Slocum and his little 40-

At Bridgetown, Annapolis Co, N. S.

Terms: \$1.00 per annum in advance. WEDNESDAY, FEBRUARY 16th, 1898.

ation of the flour mills lately established at New Glasgow, shows that it is quite possible for Nova Scotia to produce good wheat and to manufacture good flour, for which there is a ready sale for a limited quantity. We do not for an instant suppose that this province can ever hope to raise a sufficient quantity of grain to turn its attention to any considerable export business, in competition with the great granary of the west, but we do believe it possible and practicable for the farmers to raise enough for home consumption. Recent experiments have shown that Nova Scotia wheat will make a high grade of flour, and at average prices a wheat field will yield a farmer a fair profit. There is room in the province for two or chance for one in the Annapolis valley. Its establishment would add a new value to farm lands and encourage farmers to engage in a new industry. The New Brunswick government is now considering a scheme for nusing grist mills and our own government would do well to offer some encouragement along this line also.

-The local government came in for some pretty hard raps at the meeting of the Farmers Association at Truro last week, because of its announced intention to discontin government aid to that body. The case of the association was outlined pretty clearly, session to carry on the work of the association even though the usual government apciation has a large and representative membership, and exercises a strong influence in dealing with questions affecting agricultural interests. We are quite sure the people of Nova Scotia would like to see them continue to draw the \$1000 grant from the public treasury. The Association should great agricultural problems that to-day confront Nova Scotia farmers, and its usefulness should not be impaired by the withdrawal of government aid, since the other sources of revenue are necessarily restricted.

-Mr. Wickwire, the member from Kings, has introduced a bill in the legislature that deals with insurance matters in a way that they have not been dealt with in the days gone by. The new measure proposes t empel fire insurance companies to eliminate from their policies those clauses which virtually leave the payment of the great majority of claims at the option of the policy makers. Legislation along this line was sorely text for the dispute of nearly every claim that can arise. In the interests of business a simple promise to pay the policy holders that is required. An owner who carries policies to cover the value of his property regards them with anything but complacen cy when he reads of the disputed claims that are being continually heard in the courts. Mr. Wickwire's bill is attracting a wide interest and is undoubtedly one of the most important measures before the house.

-The importance of a newspaper has just been peculiarly illustrated. The London Times is blamed for the failure of Great Britain to place the Chinese loan, which would have been regarded as one of the greates diplomatic coups of the century. The Time published the news that the British govern ment was trying to head Russia and Franceoff in buying an interest in China, and the spread of the news resulted in such strong protests from Russia, that China, just on the verge of concluding the deal, was forced to reconsider her determination to borrow. Her credit is apparently good enough for any amount; she is unfortunately beaset by friends who are pressing their money on her and she dares not accept from one for fear of giving offenee to the others. The Times was the first newspaper to publish the designs of Great Britain and is thus blamed wholly for the failure of the scheme to purchase with British gold a controlling influence in the far East.

There is now every indication that Hal. from Russia, that China, just on the verge of

-There is now every indication that Halifax and Yarmouth will be connected by a railway, to be completed probably before 1900. The terminal ports are using every influence to forward the project and the counties through which the road will run are supplementing their efforts. The proposed road will likely be a continuation of the Coast railway and will follow the shore throughout the entire distance. It will be an important venture and can hardly fail to increase the prosperity of the southern counties that have hitherto been denied the privileges of proper railway communication with the business centres. The new line will constitute quite a formidable rival to the D. A. R., and will strengthen the position of the Yarmouth—Boston traffic.

—Some idea of the greatness of Canada's trans-continental railway may be gathered from the printed results of the year's business, which, by the way, show that 1897 was the best year in the history of the road.

—Economy at Ottawa.

**Local Board formed.

A Local Board of the Equitable Savings Loan and Building Association of Toronto, has been established in this town by Mr. S. H. Smith, the travelling representative of the Association, with the following Officers and Directors:—

President, J. W. Beckwith; Vice President, J. W. Benson, Chas. Shafner, H. R., Shaw. The Association gives monied men and women an opportunity to the privileges of proper railway communication with the business centres. The new line will constitute quite a formidable rival to the D. A. R., and will strengthen the position of the Yarmouth—Boston traffic.

—Some idea of the greatness of Canada's trans-continental railway may be gathered from the printed results of the year's business, which, by the way, show that 1897 was the best year in the history of the road.

Canadian Finances.

Canadian Finances.

Ottawa, Feb. 12.—The financial statement for the month of January will be gazetted to during the month at \$3,512,000, an increase over the same month last year of half a million dollars, while for the seven months, ending dollars, while for the seven months, ending an increase of almost a million dollars. The expenditure for the same period was \$19, which is largely in the majority, are deprived of their rights. Government by the minority must be unpleasant, but it will have to be endured during President Kruger's term.

How the description of the Mictaux, Spring field and Digby churches. In it he figures out the average financial support given the churches in the United States and Canada by the members, for comparison: United States are gives \$15.41 per member; Ontario, \$7.36; Nova Scotia, \$3.75; Western Association, \$3.30; Annapolis Co., \$2.97.

—On Thursday evening of last w

During the year the lines in Kentville and

Wolfville have been renewed with cedar poles. New lines have been built from Bridgetown to Tupperyille and Roundhill; from Lawrencetown to Clarence and Williamston.

Ninety four instruments were placed during the year. The total now from Hantsport to Digby is 450.

It has been found necessary to sell only half of the authorized new stock.

The directors recommend that a dividend of 7 per cent. be paid.

The committee on proxies reported 3381

The directors recommend that a dividend of 7 per cent. be paid.

The committee on proxies reported 3381 shares represented at the meeting.

The old board of directors was re-elected. They are A. W. Savary, H. MacLean, S. W. W. Pickup, W. H. Weatherspoon, C. R. H. Starr, Dr. J. A. Sponagle, A. E. Calkin. A. J. Morrison and A. B. Gates.

H. A. Beldon and G. C. Miller were appointed auditors and A. B. Gates and W. H. Weatherspoon the committee on proxies for next year.

At a subsequent meeting of the directors officers were re-elected as follows: President, A. W. Savary; vice-president, J. A. Sponagle; secretary, A. B. Gates; treasurer and manager, A. J. Morrison; accountant, H. A. Beldon; head operator, Mrs. H. A. Tate. The following resolution was passed:

"Resolved, That on and after the first of June next the manager require all central

June next the manager require all central offices to be kept open during noon hour, and that notice also be given all subscribers that after that date the tolls will be increased from ten to twenty cents to subscribers. This change, however, is not to apply to messages going over joint lines."

Dramatic Entertainment The dramatic event of the season will take place to morrow evening when the Bridge-tows Dramatic Club will present the popular farce "A-Box of Monkeys." The following cast of characters is sufficient guarantee that the performance will be staged in a credit

MRS. ONDEGO-JHONES,—an admirer of rank. MRS. W. D. LOCKETT. RA BENGALINE, her niece, a prairie rose Miss Grace Healey.

Lady Guinevere Llandpoore,—an English primrose, daughter of the Earl of Pay-naught. Miss Madge Morss. "A Family Album," which was presented here seven years ago and is to be repeated by request, is considered one of the most amusrequest, is considered one of the most amusing performances ever put on a Bridgetown stage. The impersonator of Aunt Jerusha Spooner, who exhibits the "Album," is a lady of histrionic as well as musical ability. Miss Arnaud, of Annapolis, has kindly consented to give a character song in costume. Rev Mr. Greatorex will give one of his inimitable readings. Members of the 69th Band will also render assistance. The proceeds are to be donated to the fund for building a Sunday-school house in connection with St. James Church.

Hymeneal. STRONG-PRAT.

Strong—Prat.

St. James Church was filled, on Wednesday morning last, by an interested assemblage to witness the marriage of one of Bridgetown's most enterprising and prosperous young merchants, Mr. C. H. Strong, to a very highly esteemed and popular young lady, also of this town, Miss Sadie, eldest daughter of Mr. Frank Prat. Rev. Mr. Greatorex, rector of the church, officiated.

The bridg was striged in a handsome and Mr. Frank Prat. Rev. Mr. Greatorex, rector of the church, officiated.

The bride was attired in a handsome and becoming travelling costume of green cloth, trimmed with fur, and carried an exquisite bouquet of roses. She was attended by her youngest sister, Miss Katharine, who wore a neat costume of gray novelty cloth. The groom was supported by Mr. Robert Cutler, of Halifax.

Among the guests present were Mr. and Among the guests present were Mr. and among the police guests and assault ing the policeman.

Local Board Formed.

Economy at Ottawa. The gross earnings for the year just past were over twenty-four millions of dollars. These figures do not merely indicate the revenue of the railway, they tell the story of a growing country lying on either side of that great highway of traffic. The Canadian Northwest is developing into a marvellous country and the C. P. R. has been a mighty faction in this development. The business of the past is as nothing to that which the future promises and we would not be surprised to see the yearly income of the road equal the revenue of the Dominion in a very few years.

The realection of Paul Kruss te the country to some extent and we desire therefore to have in this session as few expenditures as we possibly can, consistent with a prose soil of the country. Ottawa, Feb. 10. - Sir Richard Cartwright's

— The Local House is making haste slowly with the bill to legalize the election of a Mayor and three Councillors for Bridgetown. It was introduced by the Attorney General a fortnight ago and has not yet passed its second reading.

—The "Pink Tea" held at Mrs. Morgan's, Lawrencetown, last Monday evening, re-flected great credit on the ladies of the Aux-iliary and Mission Band. The decorations were extremely pretty and the tables were loaded with the choicest dainties. Last year, at the Acadia Dairy, Wolfville

Last year, at the Acadia Dairy, Wolfville, 740 tons of milk were received, from which 50,270 lbs. of butter and 21.574 lbs. of cheese were manufactured and disposed of. Milk and cream to the value of \$248.00 were sold making the total receipts for the year \$14, 333.60.

—The Western Union Telegraph Company will establish an office in Medical Hall early in the spring. This is the result of the efforts of the Board of Trade to secure a more convenient service, and will be much appreciated by the residents of the town. The office in the railway station will still be maintained. Mr. Weare, the proprietor of Medical Hall, is an old hand at the business. - Mr. G. W. Shipton is promoting an enterprise that will meet with favorable recognition from the the sporting fraternity. He proposes to organize a company and procure a large game preserve in this county where feathers, fur and scales may be propagated. The scheme is a good one and if acted upon in a few years would make Annapolis county an attractive resort for an army of visiting. an attractive resort for an army of visiting

The proposed Vukon railway is the subject of much discussion just now in the Federal parliament. The opposition and some of the government supporters claim that the contractors have been granted a subsidy entirely too large for the class of road that is to be built. It is not unlikely that the Senate may pronounce against the passing of the bill. Four million acres of land in the Yukon district is a big concession to grant in view of the value at present attached to that land.

Nova Scotia Gold in Boston.

Boston Post of Saturday says: "In relation to the item which appeared it yesterday's Post about the display in a local railroad office of nuggets of gold in quartz. valued at \$3000, and samples from the famous Jubilee Mine, Repfrew, Hants country, Nova Scotia, it is stated that this valuable mining property was originally purchased for \$180, and on steamer Boston, arriving at Lewis' wharf last Sunday, was one of the stockholders controlling a sixth interact. An expert offered \$50.000 for the property, which is held in abeyance."

a heat costume or gray noverty cloth. The groom was supported by Mr. Robert Cutler, of Halifax.

Among the guests present were Mr. and Mrs. Henry Prat of Kentville, Mr. and Mrs. George Prat of Wolfville, Mrs. George Wilcox and Miss Annie Prat of Windsor, and Mrs. and Mrs. Percy Strong of Middleton. The church was nicely decorated for the occasion with choice potted plants.

Following the ceremony a reception was held and a wedding breakfast served at the home of the bride's parents, after which Mr. and Mrs. Strong left on a short trip to Halifax.

The Montron offers congratulations and best wishes for a happy and prosperous life.

Obituary.

Mr. George V. Knight.

The sudden death of Mr. George V. Knight took place on Sunday evening last. Mr. Knight was a man of remarkably hale and vigorous appearance, and though in his 74th year had apparently none of the infirmities of age. His death, therefore, occurring after an illness of only three or four days, comes with the more of a shock. His malady was deemed at first to be of a slight nature, and me protested that medical aid was unnecessary. However, on Saturday morning a medical adviser was summoned, who found a manufacture of the summoned and the province of the summoned and the province of the summone of the summone of the summoned and the province of the summoned of the police court in the and day for The convention adjourned to meet in May. Benediction by Pastor Webb. E. M. Barteaux, Secretary. South Meadowale, Feb. 1st 1898.

Mr. and Mrs. Leonard Banks, of West Inglisville, were the guests of her parents, Mr. and Mrs. H. O. Whitman, over Sunday.

Monday, Feb. 14th.

Pointers for Horsemen.

Mr. John C. Blackadar has shown us a friends in Paradise, returned home last Friday.

Rev. H. D. deBlois organized a Rand of Hope here on Saturday, Feb. 5th, This hopeful Band consists of 43 members under the leadership of Mr. E. D. Purdy. We wish him and the Board of Directors success in the good work which they have begun.

Port Lorne.

Mr. John C. Blackadar has shown us a sample of silk manufactured in Paris, France, and the wood, no doubt was exported from the Dominion. The silk is of fine texture, and is equal in appearance to that manufactured in Japan. This making of silk from spruce pulp suggests the idea of starting factories in this country for its production, and why not establish one in Yarmouth!—Yarmouth Herald.

Prince Albert.

A recent Winnipeg despatch says: Black diphtheria has broken out in one of the camps on the Crow's Nest Pass railroad. Two young men from Nova Scotia have succumbed. They were left in a box car without medical attendance or comfort, everybody being afraid to go near them. Four or five other cases are reported.

A SINGLE PHRASE MAKES AN IMPRES-There is one piece of advice which I would give with intense earnestness to all; it is: Never be tempted with curiosity to what a very little reading shows you to be a

bad book, says Dean Farrar in the Indpen-dent. Bad books—by which I do not mean merely ignorant and misleading books, but those which are purient and corrupt-are They pollute with plague the moral atmosa good book, read by a boy, has been the direct source of all his future success; has inspired him to attain and to deserve eminence; has sent him on the paths of discovery; noblest in his character: has contributed the predominant element to the usefulness and

happiness of his whole life.
Benjamin Franklin testified that a little Cotton Mather, read when he was a boy, influenced the whole course of his conduct, and that if he had been a useful citizen "the public owes all the advantages of it to that lit-tle book." Jeremy Bentham said that the single phrase "the greatest good to the greatest number," caught at a glance at a | the strain. The surgeon in charge told me pamphlet, directed the current of his thoughts and studies for life. The entire career of as if in the anticipation of a blow. Charles Darwin was influenced by a book of travels which he read in early years. On the other hand, it is fatally possible for any one—especially for any youth—to read him self to death in a bad book in five minutes. The well known minister, John Angell James, narrated that when he was at school to lasting good-byes spoken as if only a short a boy loaned him an impure book. He only and beautiful journey were ahead; to see read it for a few minutes, but even during pain soften itself into peace and a tired and these few minutes the poison flowed fatally into his soul, and became to him a source of bitterness and anguish for all his after years. The thoughts, images and pictures thus glanced at haunted him all through his life like foul spectres. Let no one indulge his evil curiosity under the notion that he is safe. "He that trusteth in his own heart is a fool."

"O; who can hold a fire in his hand. Were we not warned 2000 years ago that "he who toucheth pitch shall be defiled?" and three millenniums ago the question was asked, "Can a man take fire in his bosom and his clothes not be burned, or can one walk upon hot coals, and his feet not be

corporations and firms," explained a prominent lawyer to a reporter, "is now in very general use. It originated in England, and almost every business concern there is a limited partnership. Of all the cities in this country Philadelphia has more limited partnership. Comes.—Rev. Amory H. Braddon. nership than any other, though there was not one there 25 years ago. Philadelphia nnial, and, it having been found by experience to be a good the extent which is stated in the articles of

fore may be \$5,000, while the limit of another may be ten times that amount, or one-tenth or any other part. Thus, in the firm of named in the articles of incorporation. In which allows them to limit their responsibility also requires that the word 'limited' that all may know exactly that, though there may be a large number of very heavy men financially interested in a concern, their interest and responsibility are limited. It is a fair thing all around, for it prevents the use of big names, which have some used to boom enterprises and corporations, when in reality the owners of the names have had but little interest in the concerns. -Washington Star.

able gas when heated, and even petroleum will cease burning in its presence. Farmers are advised to have bottles, glass stoppered, around in different parts of the barn buildings, where they will not be disturbed; and should a fire break out, the heat would burst the nearest bottle, liberating the gas, and thereby sealing its own fate. This is per-haps the cheapest and most practical method that farmers can use for this purpose. It was the suggestion of a committee of the Polytechnic Society of Munich for use where

Owing to the conbustible nature of its contents, a barn presents a difficult subject for even a fire department, where one may be near. It is difficult to get at the fiames directly, owing to spapeeness of windows, and hence the best thing is some chemicals twig fork is grasped with the palms upward, ticle, and the strangest thing of all will be suitable for the purpose, and these every barn owner should have. Then let him rig-orously enforce the law of "no matches orously enforce the law of "no matches tobacco or lights about the barn." Allowing tramps to sleep in the barn is a bad and always dangerous piece of charity. Imper-fect glass in windows will cause fires by acting as a "burning-glass," concentrating the sun's rays.

A Curious Superstition.

A Curious Superstition.

Among the superstitions of the Seneca Indians was one most beautiful one. When a young maiden died they imprisoned a young bird until it first began to try its gowers of song, and then, loading it with caresses and messages, they loosed its bonds over her grave, in the belief it would not fold its wings nor close its eye until it had flown to the spiric land and delivered its precious burden of affection to the loved and lost one.

St. Nicholas.

Sensations of Soldiers Under Fire.

A correspondent of the London Daily Telegraph at the front in India describes some of the sensations of men under fire for the first time. It may seem difficult to be-lieve that fifty bullets could fall in a camp only a few hundred yards square-crowded with animals and men-without any other result than to hit a single mule in the tail. Such was, however, the fact. This shows of what value a little active service is to the soldier. The first time he is under fire he imagines himself to be in very great danger. He thinks that every bullet is going to hit him, and that every shot is being aimed at him. Assuredly he will be killed in a moment. If he goes through this ordeal once or twice he begins to get some idea of the

odds in his favor. He had heard lots of bulthen that which we are not likely to use lets and they have not hurt him. He will fresh, Veedy boils in well-salted water. She get home safely to his tea this evening, just as he did last time. He becomes a very much more effective fighting machine. From a military point of view the perpetual frontier wars in one corner or other of the Empire are of the greatest value. This fact may one of these days be proved when our soldiers are brought into contact with some peace-trained conscript army. Though the firing produces very little effect on the troops -most of whom had been through the extrial to the wounded, whose nerves, shattered by pain and weakness, was unable to bear

The Dread of Death.

To look upon the face of a friend as he goes away; to be one of the group whose tears will not cease, while the one who is dving is worn body go to sleep like a weary child-that takes away the dread of death as nothing else can. When a strong man or frail woman looks upon such a sight, he feels, "Well, I, too, dare go along the pathway that has been so light before the feet of one love." It may seem as if meditation on death were not wise, but that is a mistake. Brooding over it no doubt leads to fear: but, on the other hand, more fear and suffering results from the surprises of those who have been too carefully guarded from the face of the guest who "knocks at the palace and the

cottage gate."

We should not stay long in the charnel house, but it is good now and then to look in, at least often enough to see that it is not al-ways a place of chills and glooms, but for nany a mansion of peace and rest. Look upon the face of a good man who is waving his farewell to the earth, and you will understand that he is embarking on no wild sea. Listen to the good byes of those who have loved you, and it will not be so hard to speak

Trivial Mistakes. natured, like to have our mistakes pointed | dark colored paper to entirely exclude the thing, it has grown constantly. It means that those interested in a firm are only interout. We may appear not to mind correc- light, and keep in a cool place, tops down, ested to a limited extent—that is, only to human nature to smart under correction, although some of us may be clever enough to conceal the smart. Hence the fewer mis-

takes we call attention to in others the or any other part. Thus, in the firm of Brown, Jones & Co., limited, Brown may Why, then, notice them? Yet some people have three-fourths of the stock, and Jones do, and do so constantly. A person speaks and the others the remaining fourth. It of having done a certain thing on Thursday, limits the responsibility, as it makes a mem- when in reality it was done on Wednesday. imits the responsionity, as it makes the firm liable only for that which is If no important point is involved, why call attention to the mistake? What good does this kind of corporation or firm the law it do to have the exact day set right? It is a matter of no importance, so why insist upon correcting the trivial error? Stanch friendships have often been pricked by this needle of useless correction. It is a great art-this art of learning to allow others to be mistaken when the mistake is unimportant. Few learn it, but those who do are among the most comfortable friends one can have. - Exchange.

> Perpetual Motion. Albert S. Russell of Jefferson, Ia., is sure that he has solved the problem of perpetual motion- "I have really invented perpetual

Ownership of Home Desirable. To bring out the best of farm life and to bring land up to its fullest capacity resident who owns the farm he tills has incentive to of his place, and he alone reaps the benefit learn from our mistakes and failures. The of his enterprise. An owner having a family that will be so fine in its appointments from thinks of schools, roads and permanent improvements of the farm. The dollar that he is his bank, in which constant investment of money and labor is natural and profitable. the soil, the planting of fruit and ornamental trees and the development of specialties. The results of his study and work are all his own. Where townships are wholly given up to tenant-farming, they usually lag along lines that help to make farms that which they should be-the most desirable of homes.

Mystery of the Divining Rod. United States, the divining rod has gained a worth of the Michigan School of Mines, who the branches entering the clenched hands from the sides farthest apart, the twig will while his competitors stand aghast at what must curve. Water or no water, mineral or no mineral, the result must always be the same when the conditions are fufilled; and it can be easily understood. Prof. Wadsworth adds, how an ignorant operator may deceive himself and be perfectly honest i

Agricultural.

Fresh Meat the Year Around. I want to tell the farmers in our P. I amily how my wife has fresh meat of our wn raising for our table the year around. I am sure the hard times have prevented small farmers like ourselves, especially thou who are paying interest, from patronizing the butcher's cart. Under these circum stances, it is a great convenience to have fresh beef, mutton, veal or poultry always at hand. We usually kill a beef (occasionally a sheep instead) as soon as the weather becomes cooler in the fall, selling half or three quarters of it. Of the remainder we ase what we like before it becomes tainted,

says "always put the meat to cook in boiling water." (I fear she has been looking over my shoulder.) When thoroughly done she emoves the meat from the broth, then reoves the bones and gristle from the meat. She next cuts the meat into convenient pieces and drops them loosely into glass fruit jars. When the broth has cooled she removes the cake of tallow from the top and pours as much of the broth over the meat as the cans will hold. If any remains she fills a can of convenient size and has the foundation for oups and gravies. Next she drops a few small sticks or headless nails into the boiler and on these places an inch board, with corners rounded, so it will nearly fit, leaving just enough space so the water will pass under freely. She puts boiler on the stove with enough cold water in it to prevent cans from becoming hot till the proper time. The cans are now put in the boiler with only the glass cover and metal ring placed lightly on each.

inches of tops of cans and covered closely to keep the steam in. When the water begins o boil she looks at the clock and keeps it boiling one hour and a half, then draws boiler back of stove, and after wiping all grease and steam from tops of cans and covers, puts on the rubber rings and seals as she does fruit. She then boils for another hour, leaving cans in boiler until nearly cold, when she takes them out, wipes them dry and turns them upside down on a table. If in a few hours she finds that no broth has run out, she wraps each in a thick brown paper and keeps them tops down in a cool plac tops down in a cool place. When wanted, she removes the meat with an old-fashioned meat fork, such as our grandmothers used, and serves it cold or heating it serves it as

plain boiled meat, hash, meat loaf, meat pie, etc. The jelly into which the broth has turned can be made into an excellent gravy for a dressing. Some of our town friends think chicken pie a great troat, so Veedy cans a few chickens or fowls, removing only the larger bones, and is thus always prepared to "make a spread" for these visitors. She says there are a few points that must be observed, for want of which her first attempt to can meat was a complete failure, which, however, resulted in her experimenting till uccess crowned her efforts. The meat must not be kept till it is tainted before caninng. sure the cans will seal. If uncertain, test

inute capillary vessels of the skin. -Minard's Liniment for Rheumatism. "I Beg Your Pardon."

A civil word is the cheapest thing in the orld. The story has been told of a young lady who abruptly turned a corner and very udely ran against a boy who was ragged small and freckled. Stopping as soon as she could, she turned to him and said:

"I beg your pardon; indeed, I am sorry." The small, ragged and freckled boy looked up in blank amazement for an instant; then, taking off about three-fourths of a cap, bowed very low, smiled until his face was beaming and answered: "You kin hev my parding and welcome, miss; and yer may run ag'in me and knock me clean down, an' I won't say a word." After the young lady passed on he turned

to a comrade and said half apologetically: "I never had anyone ask my parding, an' it kind o' took me off my feet.' -Emerson in his day was fond of telling a story of a little Quaker girl, which he admitted always called the tears to his eyes. A wise and saintly Quakeress with whom he was acquainted was once asked by her small daughter if she might do something which took her fancy for the moment. Her moth er replied: "What does the voice in the say ?" The child went off and after a while returned to say: "Mother, the little voice says No!" There is certainly a voice which

speaks for God in the soul. But unless that voice is felt to be the voice of God and distinguished from the many false accents which constantly sound within the heart little of moral benefit will result.' Conscience must be educated by a close reference to God's word. There is an objective test as well as a subjective experience that must be regarded.—New York "Observer."

If a man never takes the first drink he will ever die a drunkard. If the pockets are deep enough a boy's first air of trousers always fit. If some men had to eat their words they

would soon die of indigestion. If you want to make a man howling mad just keep cool while he abuses you. If an alligator could talk he would prob ably insist that he had a small mouth. If some people were to think twice before speaking they would never say anything. If a man is able to swim he should never ecome a pauper. Swimmers are self-sus
