For many years the Lawrence town band was considered one of the foremost in Nova Scotia, but for the past two years, has not been organized owing to lack of funds. NEWSY NOTES FROM ANNAPOLIS

Fort Anne Chapter I. O. D. E. Do Splendid Work on "Poppy Day" Regret at Resignation of Rev. A. Gibson.—Personal and Social Items.

Annapolis Royal.—Armistice Day was fittingly observed here by the two-minutes' silence in the schools and through the town generally, by the wearing of the "poppy" and by the patriotic community service at the Town Hall that evening. An exceptionally large crowd attended, and Major L. Prikler, M. C., of Granville Ferry, acted as chairman, while the clergymen took part in the following programme:

Hymn—O God our help in ages past, Invocation—Rev. R. A. Neish. Hymn—From Ocean unto Ocean, Scripture Reading—Rev. A. Gibson. Prayer—Rev. S. J. Woodroffe, Hymn—Fight the good fight, Address—Rev. E. A. Kirker, Prayer—Rev. R. B. Thomas, Hymn—Jesus shall reign where'er the sun.

Benediction—Rev. A. Gibson. National Anthem—Mrs. R. Hardwick, organist.

Over five hundred poppies were sold by Fort Anne Chapter, I. O. D. E., who thus realized seventy-five dollars. The committee in charge were Mrs. W. C. MacPherson and Mrs. T. H. Fortier, with the following young ladies selling in town: Bernice Hardwick, Eleanor G. McCormick, Florence Cole, Katherine Owen, Jean Robertson and Elizabeth King; Miss S. Troop at Granville Centre and Miss Elsie McLaughlin at Leppile.

Messrs. R. P. Gorham of Fredericton, A. Kelsall, J. P. Spittal and Warren Harris, with Arthur Jefferson as guide, returned last week from a snouting trip, with a fine moose.

Mr. L. M. Fortier, Honorary Superintendent of Fort Anne Park, is spending his annual vacation in Halifax, and read a paper before a recent meeting of the Rotary Club, on historical relics of Annapolis Royal.

The many friends of Mr. and Mrs. William Farnsworth will regret to hear of the serious illness of their little daughter Florence, at the home of her grand-parents, Mr. and Mrs. A. D. Thomas, St. George Street.

Mrs. L. Robertson returned on Friday from a week's visit in Halifax. Guests at the home of Dr. and Mrs. L. B. Braine for Thanksgiving were Mr. and Mrs. T. R. R. Braine of Canso; Mrs. Margaret Zinck, of the teaching staff at Bear River, and Miss Winifred Braine, B. A., of the teaching staff at Middleton.

Miss Louise Harris, of the Academy staff, spent the holiday with her sister, Mrs. John Jackson, at Paradise, N. S.

Miss E. Bernice Power, at Sheffield Mills, Kings Co., and Miss Sarah Rose at Port Maitland, Yarmouth Co. The Vice-Principal, Mr. Dennis B. Wright with Mrs. Wright and their little son Millard, were guests of Mrs. J. M. Nichols, at Deep Brook.

The news that Rev. A. Gibson had tendered his resignation to the Annapolis Royal Baptist Church, was heard with universal regret. During his five years residence here, Mr. Gibson has endeavored himself to all creeds and all classes, and his influence for good has been felt in the whole community. He has accepted the position of Field Secretary, which work will take him all through the Maritime Provinces, but his home with Mrs. Gibson and their two little sons, will be at Wolfville. The change will take place shortly after Christmas.

Mrs. E. E. Amey returned on Friday from a trip to Boston and New York.

Mr. R. L. Hardwick gave a large bridge party at his home on St. George Street on Friday evening, and was assisted in receiving by his sister, Mrs. M. Gagner, of Kentville. The prize-winners were Mrs. W. Farnsworth, Mrs. F. M. Dargie, Mr. A. Gordon Banks and Mr. R. R. MacPherson.

Mrs. L. R. Howe of Barre, Mass., who had spent the past four months with Dr. and Mrs. Horsfall, returned home on Friday, being accompanied as far as Yarmouth by Mrs. Horsfall.

UNITED CHURCH NOTES
On Sunday morning five new hymn books of solid oak, were placed in the church, the gift of the young people of the congregation.

OBITUARY

Mrs. Alfred Layte

The community of Falkland Ridge was shocked and saddened when it heard on Tuesday morning that Mrs. Alfred Layte, one of its most respected friends and neighbors had passed away Monday night, November 9th, 1925.

The deceased was born in Springfield, and had lived there nearly half of her life.

She leaves to mourn her passing an aged husband, four daughters by a former husband, Mrs. R. R. Beamish, Los Angeles; Mrs. E. A. Gardner, Somerville, Mass.; Mrs. Mary Kendrick, Milton, Mass.; Mrs. Robert Swallow, of Falkland Ridge; five grand children, two great-grand children, two sisters, two brothers, beside a large number of relatives and friends.

The funeral services were conducted by the Rev. E. S. Mason. He spoke from 1 Cor., 15th Chapter.

Her favorite hymns were sung, "Nearer My God to Thee," "Beautiful Isle of Somewhere," "Rock of Ages," and "Abide with Me."

The deceased was 71 years of age and died of heart trouble.

DEEP BROOK

Mrs. S. Blaney, of Lower Granville, spent the week end, the guest of her daughter, Mrs. Howard Adams.

Rev. Frank Smith, while spitting wood on Saturday, had the misfortune to cut his foot quite badly. He was able to conduct the service at Deep Brook church on Sunday evening, by being carried to the church.

Mr. and Mrs. Aubrey Sanford (nee Blanche Berry) of Turbrook, are receiving congratulations on the birth of a son, (James Freeman.)

One of the most interesting services that has ever been held in the Baptist Church, was enjoyed by a large congregation on Sunday evening, November 15th, when the new organ, dedicated, Prof. J. D. Morse, of Annapolis Royal, presided at the organ.

Many of the beautiful old hymns were sung by the choir, while the story of the origin of the hymns was very sympathetically told by the pastor, Miss Annis, a teacher at Clements-ville, added very much to the success of the service by several well rendered violin solos.

YOUNG PEOPLES CONVENTION

Very Successful Gathering in United Church.—Inspiring Addresses And Good Attendance.

On Thursday, November 12th, the Presbytery Young People's Convention met in the United Church, with morning, afternoon and evening sessions. Several ministers of the Presbytery were present, a number of delegates and visitors, also Rev. Frank Milligan, leader of Young People's work.

Helpful addresses were given, stressing the importance of the church in the lives of young people. Rev. Mr. Kirker gave reasons for Christian life among the young—Christ himself was a young man. He made his most emphatic appeals to the young people of this day. He is the maker of true men and true women. As Christ needs youth, youth needs Christ.

Mr. Milligan spoke of the opportunities offered by church to the young—Fellowship, Study of the Bible, Service—power to go out and live the Christ life. He spoke of the call of Christ as a challenge—"Take up thy Cross and follow Me." So many tasks can be done only by youth. Youth has optimism, enthusiasm. The church needs these.

Supper was served in School Room of church to delegates, visitors, members of local young people's societies, with their leaders. After supper there were toasts, sing song, and a social hour together.

C. N. R. MADE NEW SPEED RECORD.
The new Canadian National oil-electric car bettered by nine hours the time of the ordinary steam train between Winnipeg and Montreal when she arrived at the former place Nov. 2nd in a trifle more than 39 hours. Col. Bent had a field day on Sunday. He spoke twice, in Lawrence town, in the morning at the United Church, afternoon at Middleton, at the evening service in the Baptist Church. His address at all times is interesting and impressive, but never more so, than this time. The vivid word pictures, the restrained but passionate expressions, as the speaker again told of scenes and incidents, thrilled his audience. Many eyes were tear filled and hearts pained, when as we were face to face with the terrible scenes. We cannot, we must not forget. Thousands rest in quiet graves. Thousands still suffer in hospitals, broken, helpless, till the end comes. Let all do what we can to help, comfort and support these brave ones, shut out of the busy world, alone to suffer and wait.

Press Comment

AMERICAN GENEROSITY

Baltimore Sun: This country is rich. It will make relatively little difference to us whether France meets her obligations in full, in part, or not at all. France, like all our foreign debtors, is poor. An increase in the strain on her resources may do her shaky financial structure lasting injury. And this important reality in the situation our Government has recognized in committing itself to the doctrine that the debtor's capacity for payment must be a guiding principle in any settlement.

JAPAN'S SOCIAL PROBLEM

Capt. M. D. Kennedy in the Nineteenth Century Review (London):—The more Japan becomes industrialized the less will agricultural pursuits be what Robertson Scott calls "the foundations of Japan." Industrialism is, therefore, striking at the very roots of Japanese social life. Little wonder, then, that the spirit of unrest and discontent is on the increase. This transition is, in its psychological aspect, similar to a revolution—political, religious or social—that has not been accompanied by a good deal of disturbance. Japan can hardly expect to prove an exception to this rule, though she can take—and is taking—steps to keep the situation under control.

THE DISEASE AND THE SYMPTOMS

London New Statesman: In too many cases they ("those who lament most loudly the plight of British industry") are still taking to themselves a poor comfort by putting the blame on the "agitator," and trying to believe that, if only the Trade Unions would be "good boys" it might yet be well. What they fail to understand is that the "agitator" or at least the success of his agitation, is purely a product of the situation. It is not because "agitators" are plentiful that trade is bad; it is because trade is bad that "agitators" get a good audience, and the "Left Wing" is dominant in the Trades Union Congress. To attempt to put things right by removing "agitators" is like trying to cure the small-pox by cutting off the spots.

CONTROL OF THE NILE

T. R. Barron in the Nineteenth Century: Within the period of a generation one of the longest rivers in the world, from its headwaters to the sea, should be completely harnessed to the service of man. Regulated, controlled, and disciplined, the achievement will be unsurpassed by any engineering feat, ancient or modern. How is the safety of these great works to be ensured? Egypt demands the evacuation of the Sudan by Great Britain, and the creation of a semi-independent State under her own direction. She demands that the water requirements of the Sudan, and thus its entire development, should be subordinated to her own needs. Great Britain offers Egypt a defensive alliance, a partnership in the administration of the Sudan, and the placing of the control of the Nile in the hands of a neutral and international body. In the opinion of the many thousands of foreigners living in Egypt, who are in a position to

form an unprejudiced judgement, England's offer is generous in the extreme.

EGGS OF TODAY AND YESTERDAY

Every householder must recognize the value of the grading of eggs. While in bygone times a certain percentage of every dozen bought for family consumption would probably be a bit tainted or stale, the housewife of today can know exactly what she is buying, whether special, extra, firsts or seconds. An eight-page pamphlet just issued by the Dominion Department of Agriculture that can be had freely for asking from the Publications Branch, Ottawa, goes into the value of eggs for food, tells what is being done to ensure their purity, gives particulars of the different grades and furnishes receipts of various uses to which eggs can be put. It also contains interesting facts of which the following are a few:

The wise customer in buying will insist on graded eggs.

Eggs are the breakfast food of the nation and have great food value.

Eggs contain all the necessary elements for the growth and proper development of the young and the replacing of waste tissues in the adult.

Eggs being a perishable product care should be taken in their keeping.

Keep eggs in a cool, dry place and away from anything smelly, such as fish, onions, cheese or kerosene.

There are no substitutes for eggs. Eggs enrich the blood and keep it in proper solution.

Eggs are invaluable and indispensable in health and in sickness.

The absence of eggs in the diet is harmful.

Mothers should consider how much eggs foster the growth and development of their offspring.

An egg, at least, a day is a practical necessity. Two or more are better.

CENTRAL CLARENCE

Mrs. Sable Mcintosh spent Thanksgiving with her parents, Mr. and Mrs. C. H. Jackson. Mr. H. D. Woodbury of Kingston was also a visitor at the same home.

Much sympathy is extended to Mr. and Mrs. J. W. Sproule on losing their home by fire on Wednesday last. A good many of their household effects were saved. The house burned so rapidly a great many things were destroyed in spite of the fact that a crowd was on the scene to do what they could. The family are now occupying the house quite recently purchased by Mr. Sproule from Edwin Whitman.

Raymond Marshall of Ayleford, Marion Smith of Kingston, and Mrs. Herman Forster of Nictaux Falls, were guests of Mr. and Mrs. S. R. Marshall for the Thanksgiving holidays.

Kenneth Marshall spent a couple of days last week at Karsdale with his friend, Edgar Covert.

Howard Starratt returned to Lynn, Mass. on Friday last, after spending several weeks with his mother, Mrs. H. D. Starratt.

Carmen Marshall, of the Royal Bank, Lawrencetown, spent the holiday with his parents, Mr. and Mrs.

DIPHTHERIA IN THE VALLEY

Some of the Valley communities find themselves threatened with diphtheria, a number of cases having developed of late in such a way as to indicate wide spread infection. The type of the disease is mild. Up to the present there has been little or no loss of life. Indeed the very mildness of the attack has contributed very largely to the difficulty of recognition. This has moreover led many persons—acquainted only with severer types, where deaths were frequent—to believe that the epidemic was nothing more severe than one of "common colds." Occasional severer cases, followed by paralysis, or in which fatal termination were averted only by the administration of antitoxin in large doses, have indicated the true nature of the outbreak beyond a possibility of doubt.

The Local Boards of Health, under the direction of the Medical Health Officer, are now making determined efforts to limit the spread of the disease, though they are hampered in their task by the fact that the outbreak has already assumed such a wide spread proportion before the nature of the epidemic was recognized.

In their efforts to relieve the situation they are meeting with the wholehearted support of the communities. This is of the highest importance and promises well for early control.

The Boards are endeavoring to secure the safety of the public with as little inconvenience or as little dislocation of business as is consistent with safety. Without a doubt some inconvenience will be experienced, but the measures being taken ensure that the inconvenience will be the minimum amount, which it is called upon for the individual or the community to undergo, and which, at the same time, necessary for community protection.

By wholeheartedly supporting the Local Boards of Health, the communities will greatly assist them in their important, though sometimes thankless, duty.

NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girlie was born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pains. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills. So I was advised by my husband to try it after I told him about it. I am very thankful to say that I was soon able to take a few boarders for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them about it. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. A recent canvass of women users of the Vegetable Compound report 98 out of 100 received beneficial results. This is a remarkable proof of its merit. C.

The shipment comprised 230 foxes in all, with a gross value of \$40,000. Several small shipments of animals were consigned to Norway last year and this large order has followed the success which the Norwegian breeders have had with those animals previously sent from this country.

A WHOLESOME BAKED DINNER
Most housewives do not realize that oven dishes require really less attention than those prepared on top of the stove. But those who are fortunate enough to have a self-heating enameled ware roaster, know from experience that this is a fact. The old-fashioned way of basting the meat every ten minutes or so did keep one almost constantly on the job if the meat was to be well-flavored and browned.

The enameled ware roaster, which not only roasts but bastes as well, has eliminated all the attention and thought that the old method involved.

Roasts are said to be much better for one than fried foods and an additional advantage is that potatoes and vegetables can be roasted with the meat, which saves considerable time. White and Bermuda onions are on the market now and for a change from the usual boiled and creamed style of preparing them, try roasting them with the beef and potatoes.

Select a six-pound roast, wipe with a damp cloth, sprinkle with salt, pepper and flour and cook in a very hot oven for twenty minutes. Then place around the meat six or eight large peeled potatoes and the same number of medium sized onions, cover and cook at the same temperature for forty-five minutes.

YOUNG'S COVE

Mrs. Merwin Britt, has returned home to the U. S., after a short visit with her parents, here, Mr. and Mrs. Wm. Bent.

Mrs. Grace Andrews is visiting relatives and friends at North Range, Newby County.

We are sorry to report, at last account, Mrs. Noble Margeson is no better. She has been ill for long time in a serious case of neuritis. Her friends still hope for an improvement soon.

Several of the men from here are still working for the Lincoln Pulp Company, in the woods and building camps.

On the evening of October 29th, Young's Cove lost its oldest inhabitant in the death of Mrs. Sophia Milbury, aged nearly ninety-six years. She was a life long resident of Parker's Cove and Young's Cove, living in the latter place for the last sixty years, and was the widow of the late William Henry Milbury, who died in 1874. She had nearly always enjoyed the best of health until a few months ago, when her age began to weaken her constitution. The remains were interred in the Young's Cove cemetery. The service was conducted by Rev. Mr. Gibson of Annapolis. She leaves to mourn, two sons, Wallace at home and Norman of St. John, and three daughters, Janet and Marie at home and Mrs. William Brown of Mount Rose, Annapolis County. The family have the sympathy of the whole community.

UNITED CHURCH NOTES

The Sunday morning service was in commemoration of Armistice Day. During sermon and song, thoughts were led to Flanders Field, and beyond—for courage to "keep the faith." Very sacred were the two minutes of silence at the close of service.

A note of glad Thanksgiving rang through the evening service. Mr. McKinnon spoke from Psalm 106—"They forgot His works—They forgot God—Nevertheless He remembered them—According to the multitude of His mercies." The choir was at its best, and seemed to enjoy the singing of the anthems, as the congregation enjoyed listening. Great credit is due Mrs. McKinnon as director. The music not only gave great pleasure; it all spoke of the "multitude of His mercies." The rich cantata of Miss Smith, added greatly to the singing of hymn and anthem, and her solo was much appreciated. The Dr. Beckwith there is always a welcome in the old home church. His presence in the choir is promise of a treat, which was realized Sunday evening.

TRIP TO THE PACIFIC COAST

Interesting Account and Notes by the Way From Mr. and Mrs. J. W. Peters in Journey to Old-Idolows and Rebokeh Convention.

(Continued from Last Issue.)

It is eighty-five miles from the Rocky Mountains, which can be plainly seen when the sun is shining on the snow-capped peaks. The Rocky Mountains extend from the Gap, just west of Calgary, practically to Vancouver, nearly six hundred miles of stopping place was reached at noon. We can never forget our first look at that little city among the mountains. The sun was shining brightly on a rocky of flowers upon which a pretty fountain was playing, pretty houses all around and the mountains all around so high that we could hardly see the top, so near that at first sight we thought it was only a very tiny village just at the foot of these wonderful mountains; we got in a car and drove miles it seemed to the hotel, and were still a long distance from them. We went for an early morning walk and could walk hours without seeming to get anywhere and which ever way we went the mountains were directly before us. Finally we did reach the foothills of Temple Mountain and climbed up some distance to get snap-shots.

We took the mountain drive to Lake Louise, a distance of forty-two miles, passing mountain range after mountain range. Mount Edith, 9154 feet, Castle mountain, 9140 feet high and extending for miles, looking at a distance like an old English Castle. Mount Banff, 10825 feet high, snow covered all the year. We wondered why some of the mountains were snow-covered and some were not and learned that the Chinook wind touches some of the peaks. Stopped an hour at Johnston Canyon, walked up a beautiful fall; then past Pilot Mountain, then Banff Wapiti National Park through Spocoan with Mount Ball in the distance, Mount Temple, 11666 feet, Valley of Ten Peaks, snow clad, Moraine Lake and Paradise Valley beyond, then the wonderful Glacier came to view and we reached Lake Louise Station, a quaint log cabin station and a nice village; then up a winding road for two miles, through a path of lovely pines to Lake Louise, a blue lake, as blue as turquoise, nestling at the base of Mount's LePoy and Victoria Glacier, so high that the clouds seem to be resting on them. On this Glacier the snow is four hundred feet deep, as the right is Beehive Mountain, with a Rest House on top, at the right of this is Lake Agassiz, with a little green-roofed Tea Room, called the Tea Room above the Clouds. The C. P. R. Hotel Chateau Lake Louise was built last winter, at a cost of five million dollars. Between the hotel and lake is a beautiful mountain garden extending to the shore of the lake. These mountain resorts are kept open from June 1st to September 15th.

We returned on our mountain drive in the evening, arriving at Banff about nine and next day continued our journey, and from the observation car, watched the mountains as we ascended until we reached the "Rocky Divide," the summit of the Great Mountains, extending clear across the Continent, from the Arctic Ocean to Central America, all the waters here divide into two streams, one eventually finding its way to Hudson Bay, and the other to the Pacific Ocean. We are now 5,326 feet above the sea level and six miles from Lake Louise. The boundary between Alberta and British Columbia is here. Soon after this we enter the Spiral Tunnels an ingenious piece of engineering costing \$1,500,000.00, reducing the cost from four per cent. to 2.2 per cent. Previously four engines were necessary to haul a passenger train over this section of the line, two now do the work. It is a perfect maze, the railway doubling back on itself twice, tunnelling under mountains, and crossing the river twice in order to cut down the grade.

These Tunnels are built under the Cathedral Mountain, which is 10,454 feet high. It only takes five minutes to pass through each of these tunnels, in one place the track forms a complete circle and passing under itself, emerges into daylight fifty-four feet below.

Field, B. C. is the gateway to a wonderful mountain resort, the famous Yoho Valley. Towering six thousand feet higher than the little town is Mt. Stephen and in front of it is the Kicking Horse River. We soon cross Stoney Creek Bridge over a small V-shaped channel, 200 feet below the rails, one of the loftiest railway bridges in the world.

The Selkirk Mountains are directly in front. Mount MacDonald, over two miles high, with its snow capped peaks almost above the clouds, we see a small opening in this gigantic mountain base, as we approach it grows larger and we enter the Connaught Tunnel, the longest tunnel on

BEAUTIFYING A RAILROAD SYSTEM

Strangers, traveling upon the railways in Canada find pleasure in passing through a country that is new and fresh and possessing a wild, primitive grandeur practically unattained. But in no small degree this pleasure is heightened and contributed to by a wonderful transformation wrought artificially to by a lavish use of trees and flowers which have been planted and cultivated under the supervision of expert horticulturists employed for the purpose by the railway company.

The most striking example of what can be effected by this means is to be seen along the Canadian Pacific tracks through the Prairie Provinces, according to an article on the subject in the April "Landscape Architecture" by E. L. Chicanot.

"Along the more than three thousand miles of main line," writes Mr. Chicanot, "there were naturally a good many men, station agents, section foremen and others who were garden lovers and to the best of their ability, cultivated little pieces of ground about the scenes of their activities. The planting of a little garden at a station, especially in certain bleak, treeless areas, was a conspicuous feature and added some little beauty to the surroundings. This gave to a higher official of the company, about thirty-five years ago, the idea of expanding the work of beautifying the grounds by assisting and encouraging agents and others in work of this kind. This took concrete form in the distribution of station-planters throughout the system of free packets of flower seeds. Inevitably, of course, some men did not bother about them but sufficient did to produce a very marked effect and make noticeably attractive those stations where the seed had been properly used and cared for.

"The impression was so striking that the Operating Department of the company proceeded to have small gardens laid out and planted at some of the principal stations and division points along the line. The result of this again was so impressive that a special study was made of the whole question, and subsequently it was decided to engage in the work thoroughly and systematically and to add an expert horticulturist to the staff.

"The work since that time (1908) has grown tremendously, each year seeing a number of new gardens laid out about the company's stations until today the Canadian Pacific Railway has the largest number of gardens of any railway company in the world.

"Now along the steel system from coast to coast lies a series of fair gardens and spots of green sward and often the coal and refrubring shrouding about the station constitutes the one cheerful feature of entry into a very obnoxious drab and unattractive."

OLD FASHIONED BAKED BEANS
Baked beans, prepared with bacon, make a very desirable one-dish dinner. It is especially nice for busy days when one doesn't want to spend too much time in the preparation of a meal. But, as every housewife who has tried has discovered, making good baked beans is something of an art.

Pick over and wash two cupsful of dried white or kidney beans the evening before, and put them to soak in cold water, enough to cover. In the morning boil the beans, adding one tablespoonful of salt. When the skins loosen and turn back, remove from the fire and drain.

Have ready one half pound of sliced bacon, one medium sized onion, one and one-half cupsful of molasses, and two tablespoonfuls of molasses.

A deep enameled ware baking dish is most desirable for preparing beans, because it is proof against acids in vegetables and will not affect or be affected by the tomatoes. Also, being dainty and china-like in appearance it can be used as a serving dish.

Cover the bottom of a baking dish with some slices of bacon, add half the beans, salt, pepper and half the onion and tomatoes. Add the second layer in the same order. Pour over the molasses and boiling water to cover. Bake for three hours in a moderate oven.

ANNAPOLIS - DIGBY BOYS' CONFERENCE

Meetings Held in Middleton United Church—Officers Elected.

Middleton. The annual Older Boys' Conference "for the counties of Annapolis and Digby" opened here Friday evening in the United Church with Rev. P. M. Milligan as Conference Leader. At the close of the devotional program, officers for the conference were elected as follows:

Grand Preter—Douglas Tupper, Bridgetown.

Deputy Grand Preter—Roy Chute, Bridgetown.

Grand Scribe—Arden Cox, Middleton.

Grand Comptroller—Morley Patterson, Annapolis.

A practical address on Investment of Life, by Rev. F. M. Milligan, followed, pointing out that as in money investments, one can squander youth, follow roscate schemes which in the end may prove a failure, or follow the teachings of the Great Leader of all, which will crown a life with success.

The conference was then divided into three squares, under the leadership of Rev. W. R. Turner, C. L. Andrews and a Leader's Square under the conference leader, Mr. Milligan.

The separate squares then organized and held their first square meetings, which all met together and closed the first session by singing the hymns.

Saturday morning's session, opened with a service of worship conducted by one of the conference officers, Rev. W. D. Wilson then addressed the boys on the subject of "The Problem of Habits." This was followed by a discussion. The separate squares then again went into session and after the business period took up the subject of "Temptation" in which leaders and boys joined. The conference then again met for a brief closing.

TRIP TO THE PACIFIC COAST

(Continued from Page Three.)

Greatest 'Musical Evangelist'.

The business sessions of the different branches of the Order were held in the forenoon of each day, the afternoon and evenings were spent in sightseeing and various entertainments. The hospitality of the western people is unlimited.

Portland is an ideal city in which to spend a week, a city of homes and called the "Rose City" because roses grow in profusion and bloom the whole year. A mild climate throughout the year, average temperature 50.0 lowest temp. in February 37.0, highest in August 71.0. The city covers seventy square miles and has a park area of 2,046 acres and 18 public play-grounds, splendid schools, fine churches, public buildings and stores. Portland is one of the leading exporting ports. A number of mills are situated on the Columbia River. It is the terminus of five trans-Continental Railways, giving service north, south, east and west.

From Portland we took the famous "Shasta Route" to San Francisco, this trip was full of interest as we climb the Siskiyou mountain, in the trip of one hour, a distance of seventeen miles, we go up 2,135 feet, the grades being overcome by horse curves, with the track winding round the mountain and visible at one point in three places, each below the other, in Conner Gulch, one tunnel crosses directly above another tunnel. Pilot Knob, a prominent landmark of the Indians appears to view and soon we get our first glimpse of Mount Shasta, snow-covered, and rising to the height of 14,580 feet. As the train winds around the mountain it appears first on one side then on the other. Several other peaks of the Coast Range can be seen in the distance and away east in the distance the Cascade Range.

We have crossed the boundary line between Oregon and California, the temperature is falling fast, we are now 322 miles from Portland and 407 miles from San Francisco, and 460 miles above the sea level. From Weed we run south through the foot hills of Mt. Shasta which towers 12,000 miles to the east and presents the most remarkable clean-cut view of a mountain of such height and grandeur. Later on we run six miles on a plateau above the Sacramento River Canyon. The river is a thousand feet below, a turn is then made into the Timpani Canyon and then for hours follows the river, crossing it eighteen times in thirty-two miles.

At Shasta station the train stopped long enough for all passengers to get out and have a drink of the sparkling Shasta Mineral water, which is piped in at the station from the famous Shasta Springs a few miles away. The route, the mountain and the mineral water made its impression on the memory of a never to be forgotten trip. Indeed it was hard for a lover of nature to leave the exhilarating zone of the sweet scented woods and tang of mountain air for another three hundred miles in the study train.

At Davis Creek we get our last glimpse of "Shasta" and are now descending very rapidly and are coming into the fertile lands of California, passing some large oaks, the white oaks on low lands and black oak on uplands. Corning is the centre of a large fruit and olive plantation. Two olive canneries are located here. Orland is the sight of a Government irrigation system, storing the waters of Stoney Creek to irrigate the twenty thousand acres lemons, oranges, raisin grapes and alfalfa. Farming districts, vineyards, fruit canning districts are then seen and then Sacramento, the capital of California, the largest inland city of the State, and principal manufacturing city and shipping point. It is situated on the Sacramento River, which is navigable for seventy-five miles from the city. The Capitol building is situated in a beautiful park of thirty-five acres and cost \$2,000,000. Sacramento is only 89 miles from San Francisco.

Richmond is one of California's younger cities and has a population of 27,000. Berkeley is the seat of the University of California and is a charming city. The University campus is a place of imposing granite buildings, green lawns, fine groves of ancient oaks and towering eucalyptus trees, a bell tower 267 feet high, Greek Theatre and the University of California Memorial Stadium with a seating capacity of 50,000, this was completed in 1924 at a cost of \$2,000,000.

Oakland is a fine city of beautiful homes and handsome business buildings, well as a commercial centre. Oakland Pier extends mile into the bay, here we boarded one of the ferry steamers and the trip of four miles was made in eighteen minutes, landing at Ferry Station at the foot of Market Street, San Francisco.

San Francisco has a population of 800,000 is built upon a commanding heights overlooking the Bay. Its position marks it out as a fine seaport. Golden Gate, the entrance to the harbour is a Strait about five miles long and two miles wide, fifty-five to fifty-seven feet in depth at low water. The Presidio with its cantonments of regular troops, holds an important place among the nation's garrison-posts. Golden Gate Park is the centre of its outdoor life and covers 1,012 acres. It is a huge made park and a wonderful interesting place with its Japanese Tea Garden, Museum, Art Gallery, Aquarium, trees and flowers, and eleven lakes with their Dutch Windmills. For some unknown reason we were not impressed with San Francisco as with the other cities we visited. We may have expected too much.

Twelve hours ride on the Southern Pacific Coast Line passing through most interesting Cities, Towns, farming districts, olive and walnut groves, all wells, orange and apricot groves, fields of sugar beets and beans, and following the shores of the Pacific Ocean for many miles we arrived at Los Angeles. Spanish "Nuestra Señora la Reina de los Angeles," meaning Queen of the Angels, that is why it is called "City of Angels" and it was here to judge all the people who live there by the folk we met while there, it well deserves its name.

Los Angeles is the largest city in western America, and has a population of 1,150,000 and covers an area of 410 square miles. It has three Continental Railway Systems, the Southern Pacific, Union Pacific, Santa Fe, also the Pacific Electric touching all the principal points in Southern California, and motor stage lines, running in all directions. Nearly one hundred and fifty steamship lines connect Los Angeles harbor with the world's markets. Its factories turn out annually \$1,200,000,000 worth of manufactured goods. Its paved streets, attractive homes, parks, play-grounds—open all the year—and its schools are among the best in the nation. One of its great achievements was the building of Aqueducts, 230 miles long, bringing pure water to the city from Owen River on the east side of the Sierra Nevada Mountains, across the Mojave Desert and beneath the Coast Range. William Mulholland was the chief engineer, employing four thousand men. It was built at a cost of \$24,000,000.

Los Angeles ranks high among the oil producing districts of the world. Thirty-five oil tanker lines are operating out of local harbours. The oil is piped direct to the harbour from the oil fields. Experts say that there is so much oil beneath the surface that decades will pass before the supply is greatly depleted.

While there we found some former Bridgetown people, who are doing well in this western city. Miss Reta Abbott, daughter of Mr. and Mrs. Harry Abbott, has been there about four years and is now private secretary to the President of the California Bank. Laurie Palfrey is climbing high in the Merchants National Bank, is now in the General Books Department, he and his wife are very popular among their many friends. Gerald Palfrey, B.A., who has been teaching in Winnipeg for a number of years, has accepted a position in Gardfield High School, one of the best schools in Los Angeles, and is taking special Universities studies for M.A. degree. HEALTH BROKE DOWN

Could Not Get Sleep for Hours After Going to Bed.

"It is not natural for me to sit down and write a letter in praise of a proprietary medicine as I had always been skeptical as to their virtues." Thus writes Mr. Arthur Seguin, Storhocks, Sask., who further says:—"But three years ago I opened a general store here in Storhocks and placed on my shelves a few lines of the best known proprietary medicines. Among these, naturally, were Dr. Williams' Pink Pills. As there were three of my customers who were obtaining good results from taking the pills, and as I was in need of a medicine I decided to try them myself.

"I had been suffering from catarrh for years, and my inside work had completely broken down my health. I was coughing all day, suffered from indigestion, and could not sleep until three or four hours after retiring. I started the pills, not with any great confidence, but by the time I had finished the second box I marked much improvement. At the fourth box I felt quite recovered, but continued them for some further time. My cough has left me, the indigestion has disappeared and I now fall asleep almost as soon as I am in bed. In my store now I do not hesitate to recommend Dr. Williams' Pink Pills to anybody who are feeling run-down or without energy. I think they are a blessing to mankind."

If others who may feel skeptical will give Dr. Williams' Pink Pills a fair trial they will be convinced of the truth. You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

of Mrs. Palfrey, has been in Los Angeles for twenty-five years. He has not only been financially successful but he and his wife are filling a large place in church, social and lodge work. Their nephew Harold Barnes is a fine young man, a former soldier, and though he is having a hard battle for health as the result of trench life, he is bravely fighting and winning, and has been financially successful, owning a home and other property in Glendale.

Mr. and Mrs. Charles Eldridge are living at Pasadena, a few miles from Los Angeles, and are doing well in the Real Estate business. Mrs. Eldridge, nee Lillian McAlpna, R.N., is formerly from N. B. Saw service in France and filled responsible positions in the Hospitals of Calgary and Los Angeles.

Dr. Francis, pastor of the First Baptist Church, Los Angeles, is from Nova Scotia and is filling a big place ministering to the people of one of the leading churches of the west.

At Santa Monica we met Flora Dodge who is well known here. Miss Dodge is one of the girls who having become wealthy knows how to use her wealth, always doing for other. At a picnic given by her at Santa Monica beach, we met Rev. Clayton Legg and his sister, Miss Susie Legg, who is with her brother since her mother passed away. Rev. Legg is a man for Bridgetown to be justly proud of. Our friend Edith Crosskill was also at that Nova Scotia picnic.

At Pomona we saw Willie Whitman and family and his sisters, Mrs. Trewbridge and Eve Whitman. Mr. Whitman is a leader in citizenship and church work, he is S. S. teacher, leader in boys work and deacon of the First Baptist Church for the past seven years. This church has a membership of 560, average attendance at the Sunday school last year was 524.

At Pomona we also met Mr. and Mrs. Alfred Dodge and James Dodge, brothers of Miss Flora, another brother, Rev. Arthur C. Dodge is graduating from Theological Seminary, Alexandria, Virginia, in the spring.

At Long Beach we had the pleasure of spending an hour or more with Mrs. Livingston, nee Nellie Hoyt, in their splendid home. At San Diego we saw Dr. Williams, Mr. and Mrs. Parnsworth and Ernest Williams, all doing well and enjoying Southern California.

We returned home by Santa Fee to Chicago, Michigan Central to Detroit. At Montreal we met two young doctors, students of McGill Medical College, Class 1925, Rev. Sather and Brinton Hall, also Myrtle Hayward, B.A., B.S.C., spent part of Sunday with us. Miss Hayward is Science teacher in MacDonald College, St. Anne, Quebec. MacDonald College is affiliated with McGill College and at all classes and public functions she has a place with the other professors of both institutions.

We feel justly proud of all the former Bridgetown people and others from the Maritime Provinces whom we met while away. It is to be regretted that so many have to leave home to secure higher education and seek their life work but since they do we are glad to know that the influences and environment of their early life has helped them to excel in whatever vocation they have chosen.

CANT OUT-TALK A PRINTER. The late P. T. Barnum said: "If you have \$19 to use, put \$10 of it into advertising. I can out-talk any man but a printer." The man who talks every week to a thousand men while I am talking to a few, is the man I am afraid of and I want to be his friend. Trade with the man who advertises and you get bargains and the worth of your money. Pa-

trize your paper as your paper and as you would any other enterprise, because it helps you. The local papers are religiously read and are the very best avenues for imparting to customers or profilers simple, but extremely important information."

There are two sides to everything—except the most expensive photograph records.

OBITUARY

Beniah W. Potter

The angel of death separates father and mother, who had been blessed with twelve children and twenty-five grandchildren.

The father, Beniah W. Potter, was the son of Reuben C. Potter and a descendant of the Rev. Israel Potter, of Upper Clements. He was born in 1852, he married Phoebe Ruzgley, the daughter of George and Isabel Ruzgley, of Smith's Cove. At this time they went to live in the home on Quarry Road, which was built by him previous to his marriage. This home is a monument to the genius and skill of the father, who labored on the farm and in the woods during the day and "went back to the bushes" for the house during the evenings by the light of the lantern.

Here he lived until four years ago when he and his wife went to Lynn, Mass., to live with their two sons, Harold and Clayton. From there they made occasional visits to the old home.

While the father had been ill from heart trouble for many years his death came as a surprise to the family, since, on Saturday after returning thanks, he ate his evening meal with the family and retired to his room for the night. At midnight he asked for a little water and without a struggle passed to his eternal rest.

On Wednesday at 2:30 p.m. a funeral service was held at the home of his sons, 54 Atkinson Street, Lynn, Mass. On Thursday the body was forwarded to Clementsvale, Nova Scotia. Accompanying the body were two of his sons, one daughter, and his beloved wife. It arrived on Friday and was taken to his home on Quarry Road, from which place he was buried under a bower of flowers on Sunday morning at 10 a.m.

He leaves to mourn their loss a wife, Phoebe, and twelve children, Leonard Benton, of Tipperville; Ralph Nelson, Willis Fenley, George Harry, and Fred Oakley, of Clementsvale; Watson David, Harold Elvin, Clayton Millette, Isabelle Mary, Edith Marion Starratt, and Jennie Louise Barlett, of Lynn, Mass., and Albert LeRoy, of Stoneham, Mass.

90TH BIRTHDAY OF MRS. ELIZABETH FRITZ CELEBRATED IN CLARENCE

On the afternoon of Friday the 30th day of October, a gathering of unusual interest took place at the home of Mr. and Mrs. Stuart H. Elliott. The occasion being the 90th birthday anniversary of Mrs. Elizabeth Fritz, Mrs. Elliott's grandmother. Although the venerable lady was quite surprised, she received graciously, and thoroughly enjoyed the social hour, where a delicious supper was served. A birthday cake with lighted candles, pretty decorations and the dates 1835-1925, reminiscent of the flight of time adorned the table.

After the supper Miss Harding kindly favored the company with music. Letters from absent sons, and cards and loving messages from grandchildren were read, also an address presented in behalf of neighbors and friends, voiced the love and esteem in which Mrs. Fritz is held and the appreciation of her life which also filled with industry and toil had also the hearty desire for the "better things" instead of the noble ones she has reared, her interest in Church and community life and the fact that she is a charter member of the W. M. A. S. organized in 1873.

With mind and memory unimpaired, she has been a keen and appreciative observer of the many changes in industrial and civil life since her girlhood, and all present enjoyed her bright references to by-gone days. Her husband, Mr. William Fritz, an esteemed citizen died twenty-eight years ago. To them were born four sons, Dr. Emdon, eye, ear and throat specialist, of Manchester, N. H.; Dr. Joel, dentist, of Providence, R. I.; Oscar, on the homestead and Ingram, the bright boy who awaits his mother in the "better land." A sister, Mrs. Ruth Bails, of Greenwood, eighty years of age was present at the birthday party.

After singing "Blest be the Tie that Binds Our Hearts in Christian Love" the company dispersed.

After the death of her husband, Mrs. Fritz resided for a short time in Brooklyn, N. S., and also in Lawrencetown, where she made many friends who will join in congratulations and all good wishes.

U. S. LEADS IN CRIME

Ohio Chief Justice Blames People and Courts.

Atlantic City, N. J.—More crime is committed each year in the United States than in the remainder of North America, all of South America and in Europe outside of Russia and the Balkans, according to Chief Justice C. T. Marshall, of the Ohio Supreme Court, leading speaker at the Middle Atlantic District of Civilian Clubs, in session at the Ambassador today.

Our delays and technicalities, weakness of law enforcement officers, and persons who hold the law in contempt, are to blame for the conditions, in the opinion of Justice Marshall.

"The banker who buys liquor from his private bootlegger at his back door should not have much to say about the robber who breaks into his vaults," declared the justice. He said he believed most executives actually were cleaned on a basis of non-enforcement of law and he charged to grant most of the failures in law enforcement.

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results by Using Baby's Own Tablets.

When a child shows the first symptoms of a cold, sneezing, redness of the eyes, coughing or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple, safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are tasteless and harmless. Mrs. Joseph Cadieux, Holyoke, Mass., says:—"I have used Baby's Own Tablets for my children and find them a very satisfactory medicine. When my little boy had a cold I gave him the Tablets at regular intervals and he was well again in a few days. I give them to the children for constipation and they always do good. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I recommend the Tablets to all mothers who have small children and believe they should always be kept on hand."

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ANNIVERSARY IS CELEBRATED

Lawrencetown.—Mr. and Mrs. Thomas G. Bishop, of Lawrencetown, celebrated the fortieth anniversary of their marriage at their home on Bridge Street on Wednesday afternoon and evening. A large number of guests gathered and tendered their sincerest congratulations.

Mr. and Mrs. Bishop were married by the late Rev. R. D. Porter, a former pastor of the Lawrencetown Baptist Church. Mr. Bishop occupied a successful business for many years in South Williamstown, afterwards removing to Lawrencetown, where he has been prominently connected with every phase of the town's progress. He has also been a leader in the work of the church, having served the church faithfully as clerk for over thirty years, and for several years as Deacon and Sunday School Superintendent.

Mrs. Bishop was formerly Miss Marietta Marshall, daughter of the late Calvin Marshall, of Williams-town.

To them have been born five children, three sons, Carmen, Clyde and Fred; and two daughters, Mrs. Paul Darling and Mrs. Alton Brown, all of whom live in Lawrencetown.

Luncheon was served in the dining room which was decorated for the occasion. Mrs. Clyde Bishop presided at the tea table, assisted by Mrs. Paul Darling and Mrs. Alton Brown. Mrs. Fred L. Bishop received the guests.

The honored couple were the recipients of several valuable and useful gifts, among which was a gift from the teaching staff of the Lawrencetown Baptist Sunday School and another a substantial sum in gold from the five children.

U. S. LEADS IN CRIME

Ohio Chief Justice Blames People and Courts.

Atlantic City, N. J.—More crime is committed each year in the United States than in the remainder of North America, all of South America and in Europe outside of Russia and the Balkans, according to Chief Justice C. T. Marshall, of the Ohio Supreme Court, leading speaker at the Middle Atlantic District of Civilian Clubs, in session at the Ambassador today.

Our delays and technicalities, weakness of law enforcement officers, and persons who hold the law in contempt, are to blame for the conditions, in the opinion of Justice Marshall.

"The banker who buys liquor from his private bootlegger at his back door should not have much to say about the robber who breaks into his vaults," declared the justice. He said he believed most executives actually were cleaned on a basis of non-enforcement of law and he charged to grant most of the failures in law enforcement.

ROLL CALL AT BAPTIST CHURCH

On Wednesday evening of last week the annual roll call of the Bridgetown Baptist Church took place. There was a large number of members present and messages and contributions in money were received from non-resident members.

Those with the offering amounted over \$175.00.

Rev. A. N. Marshall, D.D., of Wolfville, delivered a splendid address giving many interesting reminiscences of the past and referred by name to many of the pillars of the Church in days gone by. He also drew contrasts between conditions religiously in the old days and conditions as at present. There were then more revivals and the old fathers seemed close in touch with the realities of religion. They loved their church and the fellowship of believers was a fact not a fancy.

They had a strong appreciation of the church as a brotherhood. He referred also to a number of other things which with all progress and improvements in many ways we are to-day the poorer because the church has dropped these former characteristic features.

At the close of the service adjournment was made to the vestry where a short musical and literary programme was given, consisting of selection by quartette composed of Mrs. J. S. Moses, Mrs. Abner Williams, Miss Beryl Hayden and Mrs. Eugene Saunders. Readings were given by Mrs. W. A. Warren and by Mr. Walter Ricketson, after which refreshments were served and a social hour pleasantly spent.

Mr. Elias Vidito had the misfortune to have his horse killed on Sunday evening as the result of a collision with an automobile just this side of Middleton town limits. Mr. Vidito said that the car was travelling pretty rapidly and without lights and collided with his team.

He states that he did not know the occupants of the car, some four or five men. However, they evidently recognized these "responsibility" as they gave him \$25.00 compensation for the loss of his horse and took a receipt. The windshield of the car was broken and some other damage done, but fortunately no one was hurt to any extent.

FATHER AND SON BANQUET

This Will Be Held in Oddfellows Hall.—Feature will be an Address by Mr. Taylor Statton.—Good Toast List Prepared.

On Friday evening there is to be a Father and Son Banquet in the Oddfellows Hall and the gathering will be fortunate in having with them Mr. Taylor Statton, of Toronto, whose work as Canadian National Boys Secretary in known and appreciated all over the country. Mr. Statton was here in 1921, the last occasion on which a Father and Son Banquet was held and he was most favorably impressed at that time with the work done here among the boys and at its results.

Arrangements for this Banquet were made at a recent meeting of the Boys Work Board, under whose auspices it is being held. Officers were appointed as follows: Chairman—Rev. A. D. MacKinnon, B.D.; Sec.—Treas.—Mr. H. B. Hicks. These with the clergymen of the town, two representatives from each church and the leaders of the Taxis Squares form the executive. Arrangements were made to continue the University Extension Course lectures, which have been held for several seasons here with great success. Dr. Armstrong and Inspector M. C. Foster were appointed lecture course committee. Arrangements are being made regarding two representatives to Boys Parliament at Sackville in January. The organization here cooperates with the others in Digby and Annapolis Counties to select the representatives.

At the last Banquet here in 1921 there were 175 boys and fathers in attendance and it is expected that about the same number will be present on Friday evening at the Oddfellows Hall. An address will be given by Mr. Statton, an interesting and inspiring treat. There will be a toast-list at the Banquet and a very pleasant evening is promised confidently to all who attend.

INTERESTING MOCK TRIAL AT B. Y. P. U.

At the B. Y. P. U. service on Friday evening, a very interesting and entertaining programme was carried out in the form of a Mock Trial. The cast of characters was as follows:—Attorneys at the Bar—Lindsay Gorman and Walter Ricketson; Clerk of Court—Mary Miller; Sheriff—John Piggott; Prisoner—Roy Miller; Witnesses—Mr. and Mrs. Harry Stronach, and Aileen Miller, fiancée of prisoner; The charge against the prisoner was that of stealing a box of valuable throat lozenges from Harry Stronach. The case both for the Crown and Defendant was ably presented by the Attorney's. The three witnesses were cross examined in a very masterly fashion, and after the strong and able address of the judge to the jury, which had been carefully selected, they retired, and after much deliberation returned with the verdict "guilty." The prisoner then received the very hard sentence of a life-long term at pumping the organ of the United Baptist Church with the further punishment of singing at the same time.

Miss Mary Miller acted as Crier, John Piggott as Sheriff, and A. Clark as foreman of the jury.

Before the adjournment of the court a hearty vote of thanks was extended to all who had contributed to the success of the entertainment.
