Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Academy of Medicine Collection
The Toronto Hospital

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Academy of Medicine Collection
The Toronto Hospital

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminent par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

EXPLANATIONS AND NOTES

(1) Graded A+ by Council on Medical Education in 1914—Colleges which are acceptable.

(2) Graded A by Council on Medical Education—Colleges which need improvement in certain respects but which are acceptable.

(3) Graded B by Council on Medical Education—Colleges which, under present organization, might be made acceptable by general improvement.

(4) Not listed by Council on Medical Education.

x—Admission requirement is a Bachelor's degree.

xx—Admission requirement is three years of College work.

Admission requirement in the case of other Colleges is two years of College work.

UNIVERSITY OF ALABAMA

Two years of the College of Arts and Science of the University, or of some other recognized institution of equivalent grade, including one year of College Physics, Biology, a modern foreign language and two years of College Chemistry.

September 28th—June 5th, 32-33 weeks.

Six years—2 years in College—4 years in Medicine.

UNIVERSITY OF CALIFORNIA MEDICAL SCHOOL

Admission.

- (1) Graduates of approved Colleges and Scientific Schools with satisfactory training in Science and a reading knowledge of French or German.
- (2) Third Year undergraduates in Arts of the University of California.
- (3) Students who have satisfactorily completed at least two full years of Collegiate work and who hold the Junior Certificate or its equivalent.

Notes and comments.

- (1) The subjects for the Junior Certificate are: English, American History and Civics, Mathematics, Chemistry, Zoology, Physics, and French or German.
- (2) Latin is not required.
- (3) The standard is not indicated.
- (4) Students are urged to qualify for admission under (2) above, and to take five years in Medicine. This means eight years in all.
- (5) Undergraduates of other Colleges are treated on their merits.
- (6) The age for admission is not stated.
- (7) The syllabus for any of the Courses for admission is not given.
- (8) The recognition of equivalent certificates under (3) above, opens up a wide question.

Course.

Academic Year—Nine Months—Middle of August—Middle of May.

Length of Course—Five Years—the Fifth Year in Hospital or Laboratory work.

Divisions of Course:—

DIVISION I.			
(3 Half-years).			
<i>First Year.</i>		Histopathology	240

Note.—1. It is impossible to divide the time. The Bulletin makes no division. 2. The above time does not include the last half of the fourth year, which is devoted to electives.

LELAND STANFORD JUNIOR UNIVERSITY

Admission. Three years of Collegiate work in Stanford University or its equivalent. This must include one year of Physics, Chemistry (including Qualitative Analysis) and Physiology or Biology, with Laboratory work and a reading knowledge of French or German.

Note.—For admission to the preparatory course an applicant must be at least sixteen and must offer credentials amounting to fifteen entrance units.

The three years' Course stresses Science, and for the most part omits History, Latin and Mathematics.

Session. September 2nd—May 17th.
Course. Eight years—three in Arts and five in Medicine.
Degree. Bachelor of Arts and Doctor of Medicine.
Fifth year. Hospital work.

Uni-

quire-

ty, or

s be-

college

(ii) Of having completed successfully two years of College work of at least 15 hours per week.

(2) Special.

All must submit evidence of having completed satisfactorily courses in General Physics, Laboratory Physics or Physical Chemistry, General Inorganic Chemistry, Organic Chemistry and General Biology, equivalent to the corresponding courses in Yale. A reading knowledge of German is required.

Year—Thirty-five weeks divided as follows:—

(a) September to February.

(b) February to June.

Length of Course—Combined College and Medical Course—6 or 7 years.

(Preclinical) Largely in the Laboratory—Courses must be completed in Anatomy, Physiology, Physiological Chemistry, Histology, Embryology, Bacteriology, Pathology, Psychology, Pharmacology.

(Clinical)

(a) Junior Year—Most of the didactic work, laboratory work, in clinical medicine and preliminary general chemical work in the Dispensary and Hospital.

(b) Senior Year—More advanced clinical work in the Dispensary and Hospital.

HOWARD UNIVERSITY

1. Those who have satisfactorily completed the Chemical-Admission. Biological Course which leads to the A.B. Degree in Howard University.

2. Those who hold a Degree in Arts or Science from an approved College or Scientific School or are graduates from ap-

proved High Schools and who furnish satisfactory certificates of two years of College work, including Physics, Chemistry, Biology (Lectures and Laboratory), and a reading knowledge of French or German.

3. Those who give evidence by examination of the general education implied by a Degree in Arts or Science from an approved College or Scientific School, including, French, German, Latin, Physics, Chemistry and Biology.

Required subjects.

The above shall include English, History, Mathematics, Chemistry, Botany and Zoology, French or German, Latin—Practically a two-year course.

Seven years course. Course.

For others the University provides a seven years' Course. October to June. Four years.

NORTHWESTERN UNIVERSITY OF CHICAGO

Credit for two years of work in an approved College. In Admission. those two years there must be completed at least 9/20 of the total number of hours or units required for Graduation; and in the schedule of work there must be included not less than a year each in,—

- (a) Chemistry, comprising General Inorganic Chemistry and Qualitative Analysis;
- (b) General Physics;
- (c) Biology.
- (d) A foreign language.

October to June. Four Years.

UNIVERSITY OF ILLINOIS

Admission.

1. Fifteen units (1 years) High School work as follows: English, 3; Algebra, 1; Geometry, 1; German, French, Latin or Greek, 2; American History and Civics, 1; Electives, 7.

2. Sixty semester hours (2 years) of College Credits, including:—

- Physics—8 hours.
- Chemistry—8 hours.
- Biology—8 hours.
- German and French—6 hours.
- Electives—30 hours.

High School credits are accepted from certain schools. They may be obtained by examination and also College credits.

Year.

Thirty-six weeks from October to June.

RUSH MEDICAL COLLEGE

Admission. A four-year High School or Academy course and 18 majors (6 quarters) of the usual College course, or a full equivalent (18 majors—two years). Credit for the High School work may be obtained by examination or by certificate. For the subjects see page 27 of the Calendar. A special list of accredited schools is given on page 28. The two years of College work must include Trigonometry, Chemistry (Organic and Inorganic) and Qualitative Analysis, Physics, Biology; a reading knowledge of French or German; Latin.

Degree of B.S.M.D. There is provision for obtaining in 6—6½ years the two degrees.

Division of year. Each year is divided into quarters:—

Autumn—October 1st to December 23rd.

Winter—January 2nd to Friday between March 18th and 24th.

Spring—Monday between March 28th and April 3rd to Friday between June 12th and 18th.

Beginning of year. Summer—Monday between June 15th and 21st to Friday between August 28th and September 3rd.

Fifth year. First day of Summer Session.

For those graduating in 1917-1918 and thereafter a fifth year as an Interne or in advanced work will be required.

The Dean in a letter states that the approximate total of work for the Clinical Department is: Lecture, 500 hours; Laboratory, 442 hours; Clinics, 1,470 hours. In addition each student is required to take work—usually research or advanced clinical work, aggregating about 240 hours.

INDIANA UNIVERSITY

A. Credentials for admission to the College of Liberal Arts of Indiana University—A total of 16 units as follows: English, 3; Mathematics, 2; Foreign Languages, 2; History, 1; Science, 1. Two additional units from the foregoing subjects. Five elective units. The subjects recommended are: History, Language, English, etc., leaving the Sciences for the College Courses.

B. Credentials of credit for two full years (60 hours) of Pre-Medical Collegiate work. The work must include General Chemistry, Qualitative Analysis, Organic Chemistry, including 90 hours of Laboratory work, English Composition, Physics, and Zoology, including Embryology and a fair reading knowledge of German or French.

Candidates for the B.S. Degree by electing the first three years of Medicine as the last two years of the Collegiate Course by registering in both Colleges may complete the work for the B.S. Degree with two years' credit in Medicine; thus in six years a candidate may obtain B.S., and M.D.

THE JOHNS HOPKINS UNIVERSITY

1. Satisfactory completion of the Chemical-Biological Course Admission, which leads to the A.B. Degree in this University.

2. Graduates of approved colleges or scientific schools who can furnish evidence: (c) Of an acquaintance with Latin and a reading knowledge of French and German; (b) Of such a knowledge of Biology, Chemistry and Physics as may be obtained in a Collegiate course of at least one year.

3. Those who can give evidence by examination that they possess the general education implied by a degree in Arts or in Science from an approved college or scientific school and in addition the knowledge of Physics, Chemistry and Biology of a year's course and a satisfactory knowledge of Latin, French or German.

Trimesters—1. October to Christmas.

2. January to March 15th.

3. March 15th to the end of academic year.

HARVARD UNIVERSITY

Admission. 1. Graduates in Arts or Science of approved Colleges or Scientific Schools, who furnish evidence of a knowledge of Physics, Biology, General Chemistry, Organic Chemistry, such as may be obtained from one year's Course in those subjects in approved Colleges and Scientific Schools, and of a reading knowledge of French or German.

2. Students who have completed two years of work in a College or Scientific School of high rank, provided they present certificates,

- (1) Of having stood in the upper third of their class.
- (2) Of having taken one year's Course in Physics, Biology, General Chemistry and Organic Chemistry, and,
- (3) Of having a reading knowledge of French or German.

Course. From the Monday preceding the last Wednesday in September to the Thursday preceding the last Wednesday in June.

<p>Curriculum. First Year. Anatomy. Histology and Embryology. Physiology. Bio-chemistry.</p> <p>Second Year. Bacteriology. Pathology. Anatomy. Preventive Medicine and Hygiene. Pharmacology. Medicine. Physical Diagnosis. Clinical Pathology. Surgery. Surgical Pathology. Surgical Technique. Neurology. Dermatology.</p> <p>Third Year. Medicine. Surgery. Roentgenology. Obstetrics. Pediatrics. Dermatology. Syphilis. Neurology. Psychiatry.</p>	<p style="text-align: right;">Genito-Urinary Surgery. Legal Medicine.</p> <p>Fourth Year Electives. Anatomy. Physiology. Comparative Physiology. Bio-chemistry. Bacteriology. Pathology. Comparative Pathology. Preventive Medicine and Hygiene. Pharmacology. Medicine. Tropical Medicine. Roentgenology. Pediatrics. Surgery. Orthopedic Surgery. Obstetrics and Gynecology. Dermatology. Syphilis. Neuropathology. Neurology. Psychiatry. Ophthalmology. Otolology. Laryngology. Combined Course in Gynecology, Ophthalmology, Otolology and Laryngology.</p>

NOTE.—1. Fourth Year work is devoted to electives, including three months' work as clerk in Medicine and Surgery.

2. Summer Courses are provided which, under conditions, are accepted in lieu of regular work.

3. Work listed above as Clinical includes much of Clinical lectures.

BOSTON UNIVERSITY

Either (a) a Diploma for the First Degree in Arts, Admission, Philosophy or Science, or

(b) Certificates of successful completion of two years' Collegiate work at any recognized institution of higher learning. The certificate shall include Collegiate work in Biology, Chemistry, Physics, and a modern language.

October to June—three terms:—

October 5—December 21.

January 2—March 17.

March 26—June 6.

Course.

A five-year Course is offered, but the fifth year is optional.

Five year course.

That year may be spent in clinical work or in special laboratory work.

UNIVERSITY OF MICHIGAN

Admission. Graduation from the College of Literature, Science and the Arts of the University of Michigan or of collegiate departments of other universities or of approved colleges and scientific schools. Evidence of an acquaintance with Latin and a fair reading knowledge of French or German are required; also credentials of a year of collegiate work in Biology, Chemistry and Physics. Briefly, the requirement is graduation from an approved High School plus two years of College work.

College year. Tuesday preceding first Thursday in October, to last Thursday in June.

COLUMBIA UNIVERSITY

Satisfactory completion of not less than two full years of ^{Admission.} study or the equivalent in an approved college or scientific school. The courses must have included one year's instruction in Physics, Inorganic Chemistry, Biology, French or German.

Note.—In 1918 applicants will be expected to have more knowledge of Science, and they are urged to take three years of college work.

The programme provides for a six or seven years' course, ^{Combined course.} leading to A.B. and M.D.

September 27th to June 6th—4 years. ^{Course.}

Note.—The number of hours is approximately correct, having been obtained by working from the data given in the Calendar of 1916-17. The College year is estimated at 35 weeks.

SYRACUSE UNIVERSITY

1. The minimum requirements for entrance to the College of Medicine in the regular course are the first two years' work (60 hours) of a recognized course in a college or school of Science, during which the student must acquire a reading knowledge of German or French or another modern language; College Chemistry, including general chemistry and qualitative and quantitative analysis; College Physics with laboratory work for one year; College Biology and Free-hand drawing. A grade of at least 75 per cent. in these subjects is required.

2. Furthermore, it is necessary for every student entering a Medical College in the State of New York to present to the college a Medical Student's certificate.

The University has provided two combination courses by which a student may earn the degrees B.S. in Medicine and M.D. in six years, or A.B., or B.S., and M.D., in seven years. The faculty strongly recommends the pursuit of one of these combination courses.

Four years.

THE OHIO STATE UNIVERSITY

Admission.

- (1) An Ohio State student's certificate from the Entrance Examiner of the State Medical Board.
- (2) A certificate of work in secondary schools; graduation from a High School covering 15 standard units.
- (3) A certificate of credit for at least two years of college work to include:—

A foreign language	8	Semester	hours.
Chemistry	8	“	“
Physic	8	“	“
Biology	8	“	“

Note.—Under certain conditions a candidate may be admitted to medicine for the First Year who lacks part of the full requirement.

Session.

Middle of October to June.

Seven-year Course.

There is an Arts-Medicine Course—Three years in Arts and four in Medicine.

Six-year Course.

There is a Science-Medicine Course—Two years in Science and four in Medicine.

THE JEFFERSON MEDICAL COLLEGE

Admission.

A course of study equivalent to first grade four-year High School work or college preparatory courses, and in addition,
 (A) For the session 1916-17 two years of Collegiate work including the usual subjects; or a single Medical preparatory course.
 (B) After January, 1917, two years of study in an approved College of Arts and Science, with specified courses in Physics, Chemistry and Biology, amounting to 8 semester hours each.

Session.

Last week of September to June.

Course.

Four years.

UNIVERSITY OF PENNSYLVANIA

Note.

Courses are given in detail with great care.

Admission.

1. Four-year High School Course or its equivalent, and
2. Two years in an approved college of Arts and Science aggregating not less than 30 units, and including Courses in French or German, Physics, Chemistry, Gen. Biology, and Zoology with Laboratory work.

Note.—A unit of College work is the equivalent of one hour of lecture or recitation, each week for the year or two hours of Laboratory work each week.

Admission on examination.

Certificates of having met the above requirements are necessary, and must be accompanied by the Laboratory Note Books. Those who cannot meet the requirements by certificate may apply for examination in the subjects in which they are deficient. In case of Science, examination is not enough. The Note Books are essential.

College work.

For details see pages 26, 27 and 28 of the Calendar.

Session.

Last Friday in September—Third Wednesday in June.

Course.

Four years.

Size of classes.

In the First and Second years, classes are limited to one hundred each.

UNIVERSITY OF PITTSBURGH

A four-year High School Course or its equivalent plus two Admission. full years of recognized College work, including one year each with Laboratory work of Inorganic Chemistry, Organic Chemistry, Physics, Biology with two years of German or French. These courses are to be essentially the same as the two-year pre-medical course of the University.

The six-year course leading to B.S.M.D. is recommended. Six-year combined course.
The first two years are as follows:—

<i>First Year.</i>	<i>Second Year.</i>
Physics 264	Organic Chemistry 264
Inorganic Chemistry 264	Biology 264
French or German 99	French or German 99
English 99	Psychology 99
Elective (not in Natural Science) 99	Physical Chemistry 33
	Elective (not in Natural Science) 99

The minimum pass mark is 75 per cent. Standard.

Divided into trimesters. Session.

- September 27—December 18.
- January 3—March 18.
- March 20—June 14.

Curriculum.	First Year.	Hours.		Hours.
	Gross Anatomy	407	Neurology and Psychiatry	11
	Histology	198	Obstetrics	99

WOMEN'S MEDICAL COLLEGE OF PENNSYLVANIA, PHILADELPHIA

B. A. from an approved College or University provided it ^{Admission.} covers requirements in Science and Languages, or

(a) Diploma from an accredited High School, Normal School or Academy requiring for admission evidence of the completion of an eight-year course in Primary and Intermediate Grades and for graduation not less than four years of study; or an examination in studies yielding a total of 60 counts.

(b) In addition to the four-year High School Course there is required work equivalent to the first and second years in recognized Colleges, the same to include Physics, Biology or Zoology, and Chemistry, and two languages other than English, one to be French or German.

Four years.

EXPLANATION AND NOTES.

(1) Graded A+ by Council on Medical Education in 1914—Colleges which are acceptable.
 (2) Graded A by Council on Medical Education—Colleges which need improvement in certain respects but which are acceptable.

(3) Graded B by Council on Medical Education—Colleges which under present organization might be made acceptable by general improvements.

X—After January, 1918, the admission requirement will be two years of College work.

XX—Beginning with the session 1917-18, the admission requirement will be two years of College work.

THE GEORGE WASHINGTON UNIVERSITY

- (A) Minimum—One ^{Admission.} of college work (not less than fifteen credits including Physics, Chemistry and Biology) and if practicable three credits in French or German.

Note.—The College year must be preceded by fifteen units of secondary school work as follows:—

- (1) Required (7 units), Eng., Math., Fr. or Ger., Lat. or Greek, Hist.
- (2) Electives (8 units) from Eng., Math., Lat., Greek, Fr., Ger., Sc., etc.

- (B) B.A. from approved College or University, including one year in Chemistry, Physics, Biology.

Note.—The University provides an examination in May and September for entrance to the Premedical Course.

The Premedical year is given in Columbian College. ^{Premedical Year-Course.}

- (1) Six-year Course—Two years at Columbian College; 4 years in Medicine; Degree—Bachelor of Science in Medicine and Doctor of Medicine.
- (2) Four-year Course—Degree—Doctor of Medicine.
- (3) Seven-year Course—Degree—B.A., M.D.

Last Wednesday in September to Wednesday following ^{Academic Year} the Wednesday nearest the first day of June. Two half years of four months each.

EMORY UNIVERSITY, ATLANTA MEDICAL COLLEGE

- Admission.** 1. A certificate of at least 14 units from an accredited High School, and
 2. A certificate from a standard Literary or Scientific College showing attendance for one year with credits in Physics, Inorganic Chemistry, Biology and German or French.
- High School Requirements.** For admission to preliminary college year—a four-year course of at least 14 units in a standard accredited High School or other recognized secondary school, or its equivalent as demonstrated by an examination conducted by the professor of secondary education.
- Subjects of Secondary School for Admission to Preliminary College Year.** Required—(7)—Eng. (2) ; Math. (2) ; Fr. or Ger. (2) ; Hist. (1).
 Elective—(7)—Eng., Math., Lat., Greek, Fr. or Ger., Span., Scan., Hist., Se.
- Preliminary College Year.** A session of 32 weeks equal to Freshman year; at least 30 semester hours.
 Subjects—Physics, Chem., Biol. (8 semester hours each)
 Fr. or Ger. (6 semester hours).
- Two Year College Work.** After January, 1918, two years' work in a college will be required for admission.
- Combination Course.** A candidate for the B.S. Degree may take the first two years in the School of Liberal Arts, the other two in Medicine. With two additional years he will complete the course for M.D.

UNIVERSITY OF GEORGIA

Admission. Fourteen units of High School work and one year of College work, which includes Physics, Chemistry, Biology, French or German, to be certified by the professor of secondary education in the University as equivalent to the training given in the University Pre-medical Course.

Preparatory Courses by University. 1. One-year Pre-medical for admission to Medicine.

	<i>Hours per week.</i>
Physics	4
Chemistry	4
Zoology	4
French or German	3
English	3
Drawing	2

2. Two-year course, the first half of the work for B.S., which is conferred at the end of the second year in Medicine.

Note.—After January, 1918, the two-year college course may be required.

BACHELOR OF SCIENCE COURSE.

UNIVERSITY OF LOUISVILLE

Conditions are those of Association of Medical Colleges. Admission.

- (1) A Medical Student's certificate from the Medical Student's Examiner, representing the State Board of Health.
- (2) A four-year High School Course totalling 14 Carnegie units.
 - (a) A Diploma and Transcript of Record from a fully accredited High School showing completion of a four-year High School Course or the equivalent of 14 Carnegie units.
 - (b) Examination in the following, totalling 14 units:—

(i.) Required (7)—Eng. 2; Math., 2; one foreign language (Fr. or Ger.) 2; Hist. (Amer. and Civil Gov.) 1.

(ii.) Elective (7)—Eng., Math., Lat., Greek, Ger. or Fr., Span., Scand., Hist., Sc., Agr., Drawing, Man. Tr., Dom. Sc., Music, Eng., Math., Lat., Hist.

(3) Premedical College Course of one year of 32 weeks, including Physics, Chemistry, Biology, Ger. or Fr.

Session. Eight months, beginning with latter part of September. The year is divided into three periods. September—Christmas; January—March; March—End.

Course. Four years.

DETROIT COLLEGE OF MEDICINE AND SURGERY

Admission. A Medical Student's certificate granted by a State Medical and Licensing Board or a Board empowered to grant such certificate. One of the following requirements must be met:—

- (1) B.A. from an accredited College or University, including a certificate of not less than eight semester hours in each of Physics, Chem., Biol. and Fr. or Ger.
- (2) A Diploma and Transcript of Record from a fully accredited High School or similar school for admission to which there is a standard course, and for graduation the completion of a standard four-year High School Course, including
 - 2 years of Mathematics—two units.
 - 2 " English—two units.
 - 2 " Latin—two units or
 - 1 year Latin and 2 years of a foreign language.
 - 1 " Amer. Hist. and Civics—1 unit and
 - 7 years (7 units) of further credit in Lang., Lit., Hist. or Science, making a total of 14 units; and in addition
 - 1 year each of Physics, Chem., Biol. and German or French of College Grade, of each not less than 8 semester hours.

(3) An examination in the following branches totalling 14 units,

- (a) Required, 7 or 8 units.
 Math., at least 2 years, max. 3 years.
 English, at least 2 years, max. 4 years.
 Latin, at least 1 year, max. 4 years.
 A foreign language at least 2 years, max. 4 years.
 History (U.S.) and Civics.
- (b) Elective, 8 or 7 units.
 English, foreign languages, Advanced Math.,
 Natural Science, Physical Geog., Geology
 and Agr., Astronomy, Drawing, Hist.,
 Economics, Man. Training, Book-keeping.

One college session of at least 32 weeks; its value is equal to the work of the Freshman Year in Standard Colleges and Universities. It includes courses in Physics, Chem., Biol. and Fr. or Ger. Preliminary
College
Year.

After January, 1918, the minimum requirements will be two years of College work. Increased

ST. LOUIS UNIVERSITY

**Admission
Four-Year
Course.**

1. B. A. Degree from approved College or University provided such degree includes:

Physics.....192 hours (2/3 being Lab. Work)
 Chemistry.... " " "
 Biology..... " " "
 Fr. or Ger....128 "

2. One year of College work including the above work, in addition to an accredited four-year High School Course.

**Five-Year
Course.**

1. Graduates of accredited High Schools who can present a Diploma and official transcripts of fifteen credits of work.

2. Candidates who can present evidence of admission to an accredited College of Arts requiring fifteen credits for entrance.

**Change in
Admission
Require-
ments.**

After November, 1917, for admission to the four-year course two years of acceptable college work will be required in addition to the high school work.

Session.

October to June.

Biology 256 hours
 Chemistry 256 "
 Physics 256 "
 Modern Language 160 "

**College
Medical
Year.**

The College Medical Year plus the four-year medical course make up the five-year course.

UNION UNIVERSITY, ALBANY MEDICAL COLLEGE

A Medical Student's certificate from the examination division Admission. of the Board of Regents of the State of New York.

The minimum requirement for the Medical certificate is the successful completion of an approved four-year High School Course or its equivalent.

The Regents will accept as equivalent to the required academic education, one of the following, provided that the course completed includes one year of Biology, Chemistry, Physics.

(1) Evidence of successful completion of four years' work in an approved secondary school, or

(2) Evidence of successful completion of one full year's work in an approved College or University, or

(3) Evidence of the successful completion of work in another State or in a foreign country equivalent to the completion of a four-year course in an approved New York State Secondary School.

In addition to the Regents' certificate the student is required to submit evidence of the successful completion of one year's work in an approved college, including Physics, Chemistry and Biology.

Subjects of Medical Certificate. The certificate issued upon examination must be earned as follows: English (3 years) 5; Physics, Chemistry, Biology, 15; a second year foreign language, 10; American History with Civics, 5; electives, 10; for elective sup., 15.

One-Year Pre-Medical Course. The University offers the following Pre-Medical Course for admission: Physics 4 hours; Biology 4 hours; Chemistry 4 hours; German 3 hours; English 3 hours.

Two-Year Pre-Medical Course. In 1918 the course will be two years.

Seven-Year Course. There is a combined seven-year course.

Year September 25th to June.

Curriculum.	<i>First Year.</i>	<i>Hours.</i>		<i>Hours.</i>

Admission.

1. A Medical Student's certificate.
2. Certificate of credit from an approved College of Liberal Arts or Science, for the successful completion of at least one year's work of 8 semester hours in Physics, Chemistry, Biology, and 6 semester hours in French or German, or the successful completion of the Pre-Medical College Year.

Requirement in 1918. Course. Pre-Medical College Course.

In 1918 two years of college work will be required.
September 20th to June 1st—4 years.
Required 7 units—Eng., 2; Alg., 1; Geom., 1; Amer. Hist. and Civ., 1; Chem., 1; Fr. or Ger., 2.
Elective, 7 units—Eng., Math., Lat., Greek, Mod. Lang., Hist., Science, Drawing, Shop-work, Music.

NEW YORK UNIVERSITY AND BELLEVUE HOSPITAL

Admission. Four-year High School course and one year College work, including Chemistry, Physics, Biology, French or German.

Increase in Requirements. After January, 1918, evidence of the completion of two years' College work will be required, including at least one year of Chemistry, Physics, Biology, French or German.

Preparatory Course. The University offers a one-year preparatory course. It is arranged in two divisions:

- (a) Those completing the High School course in June may take the College year from September to June.
- (b) Those completing their High School course in January may take the College course from January 31 to September 23rd.

Admission to Preparatory Course. One of the following:

- (a) A Diploma of Graduation from a four-year High School course recognized by the Regents of New York State.
- (b) A certificate of the College Entrance Examination Board, covering 15 units of secondary school subjects.
- (c) Entrance examination of the University College covering 15 units of secondary school subjects.
- (d) A certificate of admission to the Freshman Class of a recognized College.

Subjects of Preparatory Course.
First Term.
 English.
 French or German.
 Physics.
 Chemistry.

Biology.
Physical Training.
Second Term.
 Same as First Term.

Latter part of September to June.

Session.

HAHNEMANN MEDICAL COLLEGE

One of the following:

Admission.

(1) A degree from an accredited University or College of Arts or Science with one full year of credits in Science and a Modern Language.

(2) A four-year High School course and one year's College credits in Science and Modern Language.

Note.—The Pre-Medical year provides the year's College work.

(3) A State Preliminary certificate issued by the Pennsylvania Bureau of Professional Education and specifying that the requirements in Science have been met.

First Year.

Major Subjects—

Anatomy.
Histology and Embryology
Chemistry—Organic.
Chemistry—Inorganic.
Minor Subjects—
Pharmacy.
Terminology.
Principles of Homoeopathy.
History of Medicine.

Materia Medica.

Medicine.
Surgery.
Minor Subjects—
Obstetrics.
Gynecology.
Neurology.
Laryngology.
Ophthalmology.
Otology.
Jurisprudence.

Curriculum.

Second Year.

Major Subjects—
Anatomy and Applied Anatomy.
Physiology.
Pathology and Bacteriology.
Minor Subjects—
Pharmacology.
Pharmacodynamics.
Toxicology.
Physical Diagnosis.
Bandaging and Technique.

Fourth Year—

Major Subjects—
Medicine.
Surgery.
Materia Medica and Therapeutics.
Obstetrics and Gynecology.

Minor Subjects—
Neurology.
Laryngology.
Ophthalmology.
Otology.
Pathology.
Hygiene.

Third Year.

Major Subjects—
Pathology.

UNIVERSITY OF TENNESSEE

- Admission.**
1. Graduation from an acceptable High School or the equivalent thereof to be followed by
 2. At least one year's Collegiate work, including Biology, Chemistry, Physics and French or German.
- Evidence of satisfying the requirements in
1. High School—
 - (a) A certificate acceptable for admission in the Pre-medical Courses or
 - (b) A certificate of admission without condition to the class of a recognized College of Arts or Science.
 2. College Work—
 - (a) Completion of either the one-year or the two-year Pre-Medical Courses in the University of Tennessee, or
 - (b) A certificate of having completed one full College year of not less than 32 weeks in an institute of collegiate rank, including Biology, Chemistry, Physics, French or German.
- Pre-Medical Course.**
- (1) Arts—Medical—6 years—A.B., M.D.
 - (2) B.S.—2 years' Preliminary Course and 2 years in Medicine.
 - (3) One-year Course.
- Admission by Certificates.**
- Entrance credits on certificates—
- (1) From accredited Secondary Schools in Tennessee and other States accredited by Tennessee University.
 - (2) From the schools accredited by the Association of Colleges and Preparatory Schools of the Southern States and the schools accredited to the State Universities included in the Association.
 - (3) From the examinations of the College Entrance Examination Board.
- By Examination.**
- Examinations are held in September.

VANDERBILT UNIVERSITY

Admission. Four-year High School course covering at least 14 units and a year in College, which must include Chemistry, Physics, Biology and a modern language.

Four-Year High School Course. Required—7 units—Eng., 2; Math., 2; Lang. (Latin, Greek, German, French), 2; Amer. Hist. and Civics, 1.
 Elective—7 from English, Foreign Language, Advanced Mathematics, Natural Science, Chemistry (2 years), Physics (1 year) and Biology, Botany, Physics and Zoology (½—2 years), Earth Science (Physical Geography, Geography and Agriculture ½—1 year), Astronomy (½—1 year), Drawing (½—1 year), History (Ancient Med. and Mod.) and Eng. (1 year each), Economics (½—1 year), Man. Tr. (1 year), Book-keeping (½—2 years).

Note.—1. A unit in a subject is the equivalent of work in that subject for 4-5 periods a week of at least 45 minutes for a year of at least 36 weeks.

Pre-Medical Course. 2. A preliminary College year should extend through a College session of at least 32 weeks.

Physics—192 hours (2/3 Lab. work).
 Chemistry—192 hours (2/3 Lab. work).
 Biology—128 or 160 hours (Lab. work 128—64).
 German or French, 128 or 96.

Session. October to June.
 (1) October to February.
 (2) February—June.

Course. Four years—8½ months each.

UNIVERSITY OF TEXAS

Admission. Fourteen units of High School credit and a year of College work of five full courses.

In the High School work, the following are obligatory: English, History, Mathematics and a foreign language.

Among the five College courses, Biology, Physics, Chemistry, English and French or German must be taken.

Beginning with 1917-18, two years of College work consisting of ten full courses will be required. Extent of Course.

Note.—A full course implies three class-room hours a week or their equivalent throughout the year. Three hours of Laboratory work are counted as equal to one class-room hour.

October to June.

First Year.

Major Subjects—
Anatomy.
Biological Chemistry.
Materia Medica.
Normal Histology.
Physiology.
Minor Subjects—
Organic Chemistry.
Embryology.
Pharmacy.

Therapeutics.
Special Pathology.
Applied Anatomy.
Gynecology.
Minor Subjects—
Hygiene.
Nervous Diseases.
Venereal Diseases.
Clinical Pathology.
Dermatology.
Diseases of the Eye.
Diseases of the Ear, Nose and Throat.

Session.

Curriculum.

Second Year.

Major Subjects—
Anatomy.
Physiology.
Pathology.
Pharmacology.
Minor Subjects—
Physical Diagnosis.
Bacteriology.
Minor Surgery.

Fourth Year.

Major Subjects—
Practice of Medicine.
Practice of Surgery.
Gynecology.
Obstetrics.
Pediatrics.
Minor Subjects—
Nervous and Mental Diseases.
Dermatology.
Diseases of the Eye.
Diseases of the Ear, Nose and Throat.
Medical Jurisprudence.

Third Year.

Major Subjects—
Practice of Medicine.
Practice of Surgery.
Normal Obstetrics.

UNIVERSITY OF VERMONT

Admission.

1. B.A. from a College or University which maintains a satisfactory academic standard, provided that laboratory courses in Physics, Chemistry and Biology have been completed.

2. Satisfactory completion of one year in a College or University which maintains a satisfactory academic standard, provided the course completed includes Physics, Chemistry and Biology and an advanced course in French or German.

Pre-Medical Course.

English, French, German, Chemistry, Physics, Biology, Military Science and Physical education.

Course.

End of September—end of June. Four years.

Curriculum.	First Year.	Hours.		Hours.
Anatomy	333		Eye, Ear, Nose, Throat.	65

UNIVERSITY OF VIRGINIA

Evidence of the completion of a four-year course at a recognized public or private High School, or acceptable certificates which represent work equivalent thereto, and

Evidence of the completion at an approved institution of collegiate rank of one year of work of not less than fifteen session-hours each. The College course must include a year's work in English, Mathematics, Inorganic Chemistry, Physics, Biology and French or German.

Note.—A session-hour is one hour a week throughout the session of lecture or recitation or two hours a week throughout the session of laboratory work.

Three terms—12 weeks, 10 weeks, 10 weeks.
Four years.

Medical Colleges and Schools

REQUIRING FOR ADMISSION

Two Years of College Work

**Summary Statement of Courses with Reference to Courses
of the University of Toronto and Courses of the
College of Physicians and Surgeons of Ontario**

PREFATORY NOTE

The purpose of the Summary Statement submitted herein with regard to Medical Colleges and Schools is to direct attention to the amount of time devoted to the courses. Where it has been considered advisable and of value, a comparison has been made with the University of Toronto. It must be kept in mind, however, that such comparison applies only to the question of the time prescribed in the Calendars.

It should further be noted that an effort has been made to tabulate the courses in the order in which they are named on pages 17 and 18 of the Announcement of the College of Physicians and Surgeons of Ontario.

UNIVERSITY OF ALABAMA

1. The Entrance requirements is two years of College Chemistry and one of Biology and Physics.
2. *Anatomy*.—Two courses of about the same length as Toronto.
3. *Physiology*.—A course of 286 hours in the second year.
4. *Histology*.—A course of 240 hours in the first year.
5. *Chemistry*.—A course in each of Organic and Physiological Chemistry.
6. *Materia Medica and Therapeutics*.—Two courses of 96 and 32 hours.
7. *Pharmacology*.—A course of 130 hours.
8. *Medicine*.—Courses in the 2nd, 3rd and 4th years—inferior to Toronto in clinical work.
9. *Surgery*.—In clinical work Alabama surpasses Toronto.
10. *Obstetrics and Gynecology*.—Two courses, but inferior in time to Toronto.
11. *Bacteriology*.—A course in the 2nd year.
12. *Pathology*.—Courses in the 2nd, 3rd and 4th years.
13. *Pediatrics*.—Courses in the 3rd and 4th years, of about the same length as Toronto.
14. *Legal Medicine*.—A short course in the 3rd year.
15. *Eye, Ear, Nose, Throat*.—Courses in the 4th year.
16. *Hygiene and Preventive Medicine*.—A lecture course of 64 hours in the third year.
17. *Nervous and Mental Diseases*.—Longer courses than Toronto gives.

GENERAL.—From actual count the total number of hours of the Alabama four-year course is about the same as the Toronto five-year course.

UNIVERSITY OF CALIFORNIA

1. The entrance requirement of two full years of College work, including Chemistry, Physics and Zoology is prescribed. These subjects do not appear in the Medical Course.
2. *Anatomy*.—An extensive two-year course.
3. *Physiology*.—An extensive course of 336 hours, in the second half of the first year.
4. *Histology, Biochemistry, Pharmacology*.—Courses are provided in each, but in the aggregate they demand less time than Toronto courses.
5. *Bacteriology—Protozoology*.—A course of 176 hours in the second year.
6. *Immunology*.—A course of over 100 hours in second year.
7. *Pathology*.—Courses in the 2nd and 3rd years, but not as extensive as Toronto.
8. *Materia Medica and Therapeutics*.—A course of 32 hours in the 2nd year and of 64 hours in the 3rd year.

9. *Medicine*.—Courses in General Medicine and Clinical Pathology cover a period of three years. Clinical work receives much attention.
10. *Surgery*.—Courses in the 2nd, 3rd and 4th years.
11. *Obstetrics and Gynecology*.—Courses in the former are given in the 2nd and 3rd years, and in the latter in the 3rd and 4th years.
12. *Pediatrics*.—Courses in the 3rd and 4th years exceed in time those of Toronto.
13. *Neurology and Psychiatry*.—A course of 36 hours in the 3rd year.
14. *Urology*.—Courses in the 3rd and 4th years.
15. *Eye, Ear, Nose and Throat*.—Courses in the 2nd, 3rd and 4th years.
16. *Hygiene and Preventive Medicine*.—Two short courses.
17. In the case of some subjects such as Histology, Physiology, Biochemistry and Anatomy the courses are extensive, being limited to one or two years but with considerable time assigned to each. It is regretted that the calendar does not clearly indicate the division between didactic and practical work.

The second half of the fourth year is devoted to electives.

The course is a five-year course, the fifth year being spent in hospital or laboratory work.

LELAND STANFORD JUNIOR UNIVERSITY

1. The Entrance requirement of three years of College work stresses Science with Laboratory work.
2. *Anatomy*.—This College devotes as much time in one year as Toronto does in two years to Anatomy.
3. *Neurology*.—Courses are given in the 1st, 3rd and 4th years.
4. *Histology and Physiology*.—Considerable time is given in the first year.
5. *Chemistry—Physiological and Organic*.—In the second year.
6. *Pharmacology*.—A course in the second year on a par with Toronto.
7. *Medicine and Surgery*.—Courses in the 2nd, 3rd and 4th years—not as strong in clinical work as Toronto.
8. *Obstetrics and Gynecology*.—3rd and 4th year courses—inferior to Toronto in time.
9. *Bacteriology*.—A course in the second year, about the same as Toronto.
10. *Pathology*.—Courses in the 2nd and 3rd years with considerable time.
11. *Pediatrics*.—Third and 4th year courses, comparing well with Toronto.
12. *Therapeutics*.—A lecture course of 32 hours on Physical Therapeutics in the 2nd year.
13. *Eye, Ear, Nose and Throat*.—Courses in the 4th year—less extensive than Toronto.
14. *Hygiene*.—A lecture course of 32 hours in the 4th year.
15. *Psychiatry*.—A lecture course of 48 hours in the 4th year.

GENERAL.—(1) For the degree a fifth year in hospital or a laboratory is required. (2) Toronto is superior in clinical work.

UNIVERSITY OF COLORADO

1. The Entrance requirement is the standard of admission to Arts, with two years of College work, including College Chemistry, Physics and Biology.
2. *Anatomy*.—A two-year course in which the laboratory work is taken up for the most part in the first year.
3. *Physiology, including Biochemistry*.—Courses are given in the 1st and 2nd years.
4. *Histology and Embryology*.—A course of 300 hours in the 1st year.
5. *Chemistry*.—Organic in the 1st year and Biological in the 2nd year.
6. *Pharmacology*.—A course in the 2nd year of 170 hours.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years, but inferior in clinical work to Toronto.
8. *Surgery*.—Much more time given to didactic work and less to clinical work than in Toronto.
9. *Bacteriology*.—Course is about the same as that of Toronto.
10. *Pathology*.—Courses are given in the 2nd, 3rd and 4th years.
11. *Pediatrics*.—Two courses—equal to Toronto.
12. *Therapeutics*.—A course of 32 hours in the 3rd year.
13. *Jurisprudence*.—A course of 32 hours in the 3rd year.
14. *Eye, Ear, Nose and Throat*.—Courses in the 3rd and 4th years aggregating 199 hours.
15. *Hygiene*.—A course of 64 hours in the 2nd year.
16. *Psychiatry*.—A course—didactic and clinical in the 4th year.

GENERAL.—Toronto is much superior in the extent of her clinical work.

YALE UNIVERSITY

1. The minimum Entrance requirement is two years of College work, including courses in Physics (General and Laboratory), Chemistry (Inorganic and Organic), and General Biology.
2. *Anatomy*.—A two-year course with the greater part of the practical work in the first year.
3. *Physiology, Histology and Embryology*.—Courses in the first year.
4. *Physical and Nervous Physiology*.—A course in the second year.
5. *Physiological Chemistry*.—A course of 180 hours in the first year.
6. *Pharmacology and Therapeutics*.—A course in the former in the 2nd year, and courses in the latter in the 2nd and 3rd years—more extensive than Toronto gives.
7. *Medicine*.—Courses are given in the 2nd, 3rd and 4th years—much inferior to those of Toronto.
8. *Surgery*.—The same comment applies as to Medicine.
9. *Obstetrics and Gynecology*.—Considerable time is given these subjects in the 3rd and 4th years.
10. *Bacteriology*.—A course of 135 hours in the 1st year.
11. *Pathology*.—A course of 220 hours in the 2nd year.

12. *Pediatrics*.—A course of 143 hours in the 3rd and 4th years.
13. *Eye, Ear, Nose and Throat*.—A course of 60 hours in the 4th year.
14. *Principles of Public Health*.—A course of 180 hours in the 3rd year.
15. *Psychiatry*.—Short courses in the 3rd and 4th years.
16. *Miscellaneous*.—Short courses are given in the 4th year in Dermatology, Urology, Tuberculosis and Radiology.

GENERAL.—The Toronto course for the degree requires twice as much time as the Yale course.

GEORGETOWN UNIVERSITY

1. The Entrance requirement is two years of College work, including Chemistry, Physics and Biology.
2. *Anatomy*.—A two-year course is given, equal in time to that of Toronto. In the third year a short course is given in Surgical Anatomy.
3. *Physiology*.—Courses in the 1st and 2nd years—inferior to Toronto.
4. *Histology and Embryology*.—Courses in the first year—inferior to those of Toronto.
5. *Chemistry and Toxicology*.—Much inferior in Chemistry, but superior in Toxicology to Toronto.
6. *Pharmacology, Materia Medica and Therapeutics*.—Courses are given, the 1st in first year, the 2nd in the second year, the 3rd in the third year.
7. *Medicine*.—Three courses are given—much weaker in clinical work than Toronto.
8. *Surgery*.—Extensive course in didactic and clinical work.
9. *Obstetrics and Gynecology*.—Three courses are given—inferior in clinical work to Toronto.
10. *Pathology and Bacteriology*.—Extensive laboratory courses are given.
11. *Pediatrics*.—Courses in the 3rd and 4th years—superior to Toronto in time assigned to clinical work.
12. *Jurisprudence*.—A fourth year course of 30 hours.
13. *Eye, Ear, Nose and Throat*.—Four year courses, as extensive in time as Toronto gives.
14. *Psychiatry, Neurology and Dermatology*.—One course is given in each.

GENERAL.—The courses are inferior to Toronto in time, especially in clinical work.

HOWARD UNIVERSITY

1. The minimum Entrance requirement is two years of College work, including Physics, Chemistry, Biology (theoretical and practical).
2. *Anatomy*.—Three courses are given—in laboratory work the courses are equivalent in point of hours to those of Toronto.
3. *Histology and Physiology*.—The number of hours is fully the equivalent of the number given by Toronto.
4. *Materia Medica*.—A course of 118 hours is given in the first year.
5. *Chemistry*.—The only course given is a short one in Physiological Chemistry in the first year.

6. *Medicine and Surgery*.—The courses are limited to the 3rd and 4th years.
7. *Obstetrics and Gynecology*.—Extensive courses in practical work are given.
8. *Pathology and Bacteriology*.—Several courses are provided, including special Pathology.
9. *Pediatrics*.—The course is confined to the 3rd year.
10. *Therapeutics*.—In the 2nd year a course of 118 hours is given.
11. *Eye, Ear, Nose, Throat*.—Courses in the 4th year aggregating less in time than Toronto courses.
12. *Jurisprudence*.—A course of fifteen hours.
13. *Nervous and Mental Diseases*.—A 4th year course—15 hours didactic, 100 hours clinical.

GENERAL.—Course is weak in Chemistry and on the whole inferior to Toronto, especially in clinical work.

NORTHWESTERN UNIVERSITY

1. The Entrance requirement is two years' work in an approved College, including at least one course in Chemistry (General Inorganic and Qualitative Analysis), General Physics and Biology.
2. *Anatomy*.—A three-year course, including Neurology.
3. *Physiology*.—A two-year course—less time than in Toronto.
4. *Histology*.—A course in Histology and Embryology—Toronto has three courses.
5. *Chemistry*.—Courses are classified as (1) Problems, (2) Organic, (3) Physiological, (4) Urinalysis.
6. *Pharmacology*.—A course in the 2nd year of 272 hours.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—much inferior to Toronto in clinical work.
8. *Surgery*.—A two-year course that compares well in time with Toronto.
9. *Obstetrics and Gynecology*.—Two courses—superior to the majority of American Colleges.
10. *Pathology*.—One course of 250 hours.
11. *Bacteriology*.—One course of about the same length as Toronto course.
12. *Pediatrics*.—A course of 48 hours' didactic and 48 hours' practical work.
13. *Sanitary Science*.—Lecture course of 32 hours in 4th year.
14. *Eye, Ear, Nose, Throat*.—Clinical course in the 3rd year of 160 hours; in the fourth year a course on the Eye of 248 hours.
15. *Medical Jurisprudence*.—Course of 16 hours in 4th year.
16. *Neurology*.—Courses in the 3rd and 4th years—longer than those of Toronto.

UNIVERSITY OF ILLINOIS

1. The Entrance requirement of two years of College work includes Physics, Chemistry and Biology.
2. *Anatomy*.—Three courses aggregating as many hours as are required by Toronto.
3. *Physiology*.—Two courses—less time than Toronto requires.

4. *Histology*.—This subject is included in the calendar under Cytology, and Microscopic Anatomy. Illinois is not up to Toronto in this subject.
5. *Chemistry*.—A course in Organic and one in Physiological Chemistry in the 1st year—inferior to Toronto.
6. *Pharmacology*.—Under this subject are listed: (1) Non-pharmaceutical Therapeutics, (2) Pharmacology, (3) Prescription Writing and Pharmacy, (4) Pharmacology and Therapeutics. The courses take more time than Toronto assigns to them.
7. *Medicine*.—Courses are given in the 2nd, 3rd and 4th years—not as extensive as Toronto.
8. *Surgery*.—Courses are given in the 2nd, 3rd and 4th years. The time is about the same as in Toronto.
9. *Obstetrics and Gynecology*.—On a par with Toronto.
10. *Pathology*.—Courses in the 2nd, 3rd and 4th years; practical work throughout.
11. *Bacteriology*.—A course in the 2nd year about the same length as Toronto.
12. *Pediatrics*.—Courses in the 3rd and 4th years which compare well with Toronto.
13. *Jurisprudence*.—A course of 16 hours in the 3rd year.
14. *Eye, Ear, Nose, Throat*.—A course in the last three is given in the 3rd year, and one on the Eye in the 4th year.
15. *Hygiene*.—A course of 32 hours is given in the 2nd year.
16. *Psychiatry*.—Courses are given on each of Neurology and Psychiatry in the 4th year.

GENERAL.—The calendar does not divide the time between laboratory and clinical work; Toronto devotes more time to such work, largely because of her 1st year work.

RUSH MEDICAL COLLEGE

1. The Entrance requirement is two years of College work, including Chemistry (Organic and Inorganic and Qualitative Analysis), Physics, Biology.
2. *Anatomy*.—The course is given in the first year.
3. *Physiology*.—Courses are given in the 1st and 2nd years and comprise about the same time as the Toronto course.
4. *Histology and Embryology*.—Courses in the first year each of the same length; in the case of the latter Rush College gives more time, and in the former less time than Toronto.
5. *Neurology*.—A course is given in the 1st year.
6. *Chemistry*.—Courses are given in the 1st and 2nd years in Physiological Chemistry.
7. *Materia Medica*.—A course of 96 hours is given in the 3rd year.
8. *Pharmacology*.—A course of 108 hours is given in the 2nd year. A lecture course of 28 hours is given in the 2nd year in the Chemistry of Drugs.
9. *Medicine*.—Courses are given in the 3rd and 4th years with considerable clinical work.
10. *Surgery*.—Courses are given in the 3rd and 4th years—longer courses than Toronto gives.
11. *Obstetrics*.—Two courses are provided: attendance on fifteen cases is prescribed.

12. *Gynecology*.—Two courses—3rd and 4th years.
13. *Pathology*.—Two courses are given with considerable laboratory work.
14. *Bacteriology*.—A course is given in the 2nd year as long as that of Toronto.
15. *Pediatrics*.—A lecture course of 24 hours in the 3rd year and a clinical course of 48 hours in the 4th year are given.
16. *Therapeutics*.—A lecture course of 72 hours is given in the 3rd year.
17. *Jurisprudence*.—A fourth year course of 36 hours.
18. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years, longer than those of Toronto.
19. *Preventive Medicine*.—A short course in the 3rd year of 24 hours.
20. *Psychiatry*.—A lecture course (24 hours) in the 3rd year, and a clinical course (48 hours) in the 4th year are provided.

GENERAL.—There is considerable clinical work provided that is not tabulated. This fact is stated by the Dean in a letter.

Those who graduate in 1917-18 and thereafter will require to spend a fifth year as an Internist or in advanced work.

INDIANA UNIVERSITY

1. The minimum Entrance requirement is two years of Premedical College work, including General Chemistry, Qualitative Analysis, Organic Chemistry (90 hours of Laboratory work), Physics and Zoology (including Embryology).
2. *Anatomy*.—Courses in the 1st and 2nd years, but the practical work is done in the 1st year—equivalent in time to Toronto's courses.
3. *Physiology*.—A course in the 1st year; lecture course shorter and practical work longer than Toronto gives.
4. *Histology*.—A course in the 1st year—shorter than that given by Toronto.
5. *Chemistry*.—A course in Physiological and Pathological Chemistry in the 1st year. The time is much less than Toronto gives. In the 2nd year a lecture course of 17 hours is given in Colloidal Chemistry.
6. *Materia Medica*.—A course of 34 hours in the 2nd year.
Toxicology.—A course of 24 hours in the 2nd year.
Pharmacology.—A course is given in the 2nd year, 51 hours to lectures and 102 hours to practical work.
7. *Medicine*.—Courses are given in the 2nd, 3rd and 4th years. The time assigned to laboratory and clinical work is equal to that assigned by Toronto.
8. *Surgery*.—Courses are given in the 2nd, 3rd and 4th years. More time is devoted to didactic work, and about the same to clinical work as in Toronto.
9. *Obstetrics and Gynecology*.—Courses are given in the 2nd, 3rd and 4th years. They compare well with Toronto.
10. *Pathology*.—Courses in the 2nd, 3rd and 4th years aggregating for lecture work 97 hours—less than Toronto—and 264 hours for practical work—more than Toronto.
11. *Bacteriology*.—A course is given in the 2nd year—shorter than that of Toronto.

12. *Pediatrics*.—Courses are given in the 3rd and 4th years—longer than those of Toronto.
13. *Therapeutics*.—Courses are given in the 2nd, 3rd and 4th years—very much longer than the 4th year course given in Toronto.
14. *Jurisprudence*.—A short course of twelve hours is given in the 4th year.
15. *Eye, Ear, Nose and Throat*.—A lecture course of 39 hours and a clinical course of 77 hours are given in the 4th year.
16. *Hygiene and Social Service*.—A course of 57 hours is given in the 4th year.
17. *Nervous and Mental Diseases*.—Courses are given in the 3rd and 4th years.

GENERAL.—Toronto excels in the amount of clinical work to the same extent that Indiana College excels in laboratory work.

UNIVERSITY OF KANSAS

1. The Entrance requirement is two years of College work.

NOTE.—The work and the time are tabulated in an unsatisfactory manner. In point of time the courses would appear to be up to the average. Such subjects as Anatomy, Pathology, Biochemistry, Medicine, Surgery, Obstetrics and Gynecology are taken up in extensive courses.

BOWDOIN MEDICAL COLLEGE

1. The Entrance requirement is two years in a "reputable college," in which particular attention is given to Physics, Chemistry and Botany.
2. *Anatomy*.—The course is divided between the 1st and 2nd years, the most of the laboratory work being taken in the 2nd year; the course is not as extensive as that of Toronto.
3. *Physiology*.—Courses in the 1st and 2nd years—inferior to those of Toronto.
4. *Histology and Embryology*.—A course in the 1st year—about the same as that of Toronto.
5. *Chemistry*.—Courses are provided in the 1st and 2nd years—Organic and Physiological—shorter than those of Toronto.
6. *Materia Medica, Pharmacology and Therapeutics*.—Courses are given in the 3rd and 4th years—longer than those of Toronto.
7. *Medicine*.—Courses in the 3rd and 4th years—much shorter than Toronto courses.
8. *Surgery*.—Courses in the 3rd and 4th years—with less time than Toronto for clinical work.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—a little more time than Toronto gives.
10. *Pathology*.—A course in the 2nd year, with more practical work than Toronto gives.
11. *Bacteriology*.—A shorter course than Toronto gives.
12. *Pediatrics*.—A course in the 4th year—longer than that of Toronto.

13. *Jurisprudence*.—A course of 16 hours in the 4th year.
14. *Eye, Ear, Nose, and Throat*.—Courses of about the same length as those of Toronto.
15. *Hygiene*.—Courses in the 1st and 3rd years—fully as long as those of Toronto.
16. *Mental Diseases and Neurology*.—Short courses are given in the 4th year.

GENERAL.—The courses are much weaker than those of Toronto.

THE JOHNS HOPKINS UNIVERSITY

1. The Entrance requirement is a degree in Arts or Science, with adequate training in Physics, Chemistry and Biology.

The calendar gives much information, but in such form that it is impossible to tabulate the courses and give the number of hours assigned to each. Practical work is stressed.

HARVARD UNIVERSITY

1. The minimum Entrance requirement is two years of College work, including one year of Physics, Chemistry (General and Organic), and Biology.
2. *Anatomy*.—Courses are given in the 1st and 2nd years. The practical work is nearly all taken in the 1st year. The course includes Histology and Embryology.
3. *Physiology*.—A course is given in the 1st year—124 hours of lecture and 191 hours of laboratory work.
4. *Histology*.—See under Anatomy.
5. *Chemistry*.—A course in the 1st year of Biological Chemistry—200 hours of laboratory work.
6. *Pharmacology*.—A course of 80 hours is given in the 2nd year.
7. *Medicine*.—Courses are given in the 2nd and 3rd years. The 4th year is devoted to electives, including three months' work as clerk in Medicine and Surgery.
8. *Surgery*.—Courses in the 2nd and 3rd years—weak in practical and lecture work.
9. *Obstetrics*.—Two lecture courses are given.
10. *Gynecology*.—A very short course is given in the 3rd year.
11. *Pathology*.—Including Neuropathology and Surgical Pathology—three courses are given in the 3rd year and considerable practical work is given.
12. *Bacteriology*.—A course in the 2nd year of 160 hours.
13. *Pediatrics*.—A course in the 3rd year—more extensive in clinical work than Toronto gives.

14. *Eye, Ear, Nose, Throat.*—Courses in the 3rd and 4th years—similar in length to those of Toronto.
15. *Hygiene and Preventive Medicine.*—A lecture course of 96 hours in the 2nd year.
16. *Neurology and Psychiatry.*—Courses in Neuropathology, Neurology, and Psychiatry, with more clinical work than Toronto gives.

NOTE.—(1) The fourth year is devoted to electives including three months' work as clerk in Medicine and Surgery.

(2) It is difficult to compare Toronto with Harvard in respect to such subjects as Medicine and Surgery.

BOSTON UNIVERSITY

1. The Entrance requirement is two years of College work, including Physics, Chemistry and Biology.
2. *Anatomy.*—Courses in the 1st and 3rd years—the time compares well with that given by Toronto.
3. *Physiology.*—Courses in the 1st and 2nd years—180 hours of laboratory work in the 2nd year.
4. *Chemistry.*—Courses in the 1st and 2nd years—more time is given than Toronto gives.
5. *Pathology, Bacteriology and Preventive Medicine.*—Courses in the 2nd and 3rd years, with 257 hours of laboratory work.
6. *Pharmacology, Materia Medica and Therapeutics.*—Lecture courses in the 1st, 2nd and 3rd years—250 hours in the 3rd year.
7. *Medicine.*—Courses in the 2nd, 3rd and 4th years—very much inferior to Toronto in time.
8. *Surgery.*—The same remark as to Medicine applies.
9. *Obstetrics and Gynecology.*—Courses in the 2nd, 3rd and 4th years—about the same as Toronto in length.
10. *Mental and Nervous Diseases.*—Courses in the 3rd and 4th years—much heavier than Toronto course.
11. *Eye, Ear, Nose, Throat.*—Longer courses than Toronto gives.

GENERAL.—The figures considered are those submitted at special request by the College authorities.

THE UNIVERSITY OF MICHIGAN

1. The minimum Entrance requirement is two years of College work, including one year of Biology, Chemistry and Physics.
2. *Anatomy.*—A course of 575 hours in the 1st year.
 - (1) During the period, October to February inclusive, in the forenoon, 8 to 12—the subjects, Embryology, Histogenesis, Histology, Organology, Anatomy of the special sense organs and the nervous system are studied.
 - (2) During the period, March to June, in the forenoon—8 to 11, Regional Anatomy is taken up. From 11 to 12 there are lectures in Physiology.
 - (3) During the period, October to February, the hours 1 to 5 are devoted to gross human Anatomy and dissections.

3. *Physiology*.—

(1) See (2) above.

(2) In the 2nd year, during the 1st semester, there is a lecture of one hour five days a week.

(3) The laboratory course is given five afternoons a week for eight weeks.

(4) The total time is 145 hours of lectures and 160 hours of laboratory work—less on the whole than Toronto gives.

4. *Histology and Embryology*.—In the 1st year a total of 270 hours—more than Toronto gives.

5. *Chemistry*.—In the 2nd year—a course of 225 hours.

6. *Materia Medica, Pharmacology and Therapeutics*.—A course of 300 hours.

7. *Medicine*.—Courses aggregating over 500 hours.

8. *Surgery*.—Courses aggregating over 600 hours.

9. *Obstetrics and Gynecology*.—162 hours assigned to the former and 126 hours to the latter.

10. *Pathology and Bacteriology*.—304 hours to the former and 320 hours to the latter.

11. *Pediatrics*.—A course of 84 hours is given.

12. *Jurisprudence*.—A course of 30 hours is prescribed.

13. *Eye, Ear, Nose, Throat*.—Two courses aggregating over 200 hours.

14. *Hygiene*.—A course of 45 hours is given.

15. *Mental and Nervous Diseases*.—A course of 213 hours.

NOTE.—The calendar does not apportion the time; hence comparative statements have not been made throughout.

THE UNIVERSITY OF MINNESOTA

1. The minimum Entrance requirement is two years in the College of Science, Literature and the Arts.
2. *Anatomy*.—A course of 336 hours in the 1st year—less than that of Toronto.
3. *Histology and Embryology*.—A course in each in the 1st year—longer than the courses of Toronto.
4. *Physiology*.—A course of 256 hours in the 2nd year—less time than Toronto gives.
5. *Chemistry*.—In the 1st year a course of 96 hours in Physical Chemistry and one of 160 hours in Physiological Chemistry.
6. *Pharmacology and Therapeutics*.—A course of 64 hours in the 3rd year, and in the 4th year 16 hours of Therapeutic conference.
7. *Medicine*.—Courses in the 3rd and 4th years—decidedly inferior to Toronto.
8. *Surgery*.—Courses in the 3rd and 4th years—also weaker than Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—shorter than Toronto courses.
10. *Bacteriology*.—Courses in the 1st and 2nd years.

11. *Pathology*.—Courses in the 2nd and 3rd years—in time they compare well with Toronto.
12. *Pediatrics*.—A course of 56 hours in the 3rd year.
13. *Jurisprudence*.—A course of 16 hours in the 4th year.
14. *Eye, Ear, Nose, Throat*.—A course of 48 hours in the 4th year.
15. *Section Clinics and Clerkships*.—200 hours in the 3rd year and 544 hours in the 4th year.
16. *Electives*.—3rd year, 216 hours; 4th year, 200 hours.

The courses are shorter by over 100 hours than those of Toronto.

WASHINGTON UNIVERSITY

1. The minimum Entrance requirement is two full years of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Three courses aggregating 392 hours—much less than Toronto gives.
3. *Physiology*.—Two courses. Lecture, 130 hours; laboratory, 130 hours.
4. *Histology*.—A course of 144 hours in laboratory work, 1st year—shorter course than Toronto gives.
5. *Chemistry*.—1st year courses in Biological, Organic, and Analytical Chemistry and in Biochemical preparations with much laboratory work.
6. *Pharmacology*.—A course in the 2nd year of 110 hours.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—clinical work less in time than Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—not as extensive as Toronto gives.
9. *Obstetrics and Gynecology*.—3rd and 4th year courses—shorter than Toronto gives. A minimum of ten cases is required.
10. *Pathology*.—A course in the 2nd year—strong in laboratory work.
11. *Bacteriology*.—A course of 110 hours in the 1st year.
12. *Pediatrics*.—A 3rd-year lecture course of 66 hours and a 4th-year clinical course of 92 hours.
13. *Jurisprudence*.—A 4th-year course of 22 hours.
14. *Preventive Medicine*.—A course of 30 hours in the 2nd year.
15. *Psychiatry*.—A course of 54 hours in the 4th year.

GENERAL.—Between Toronto and Washington University there is a difference in time of about 1,000 hours. In the amount of clinical work the difference is quite marked.

UNIVERSITY OF NEBRASKA

1. Entrance requirement—two years of College work.
2. The college year is 30 weeks.
3. *Anatomy*.—Including Histology and Organology, Embryology, and Neurology. Courses in the 1st and 2nd years that in length compare well with Toronto.
4. *Physiology*.—A course in the 2nd year—88 hours' didactic and 195 hours' laboratory.

5. *Histology* is included under *Anatomy*.
6. *Chemistry*.—Courses in the 1st year in Organic and Physiological Chemistry.
7. *Pharmacology*.—Courses in the 2nd and 3rd years, with an average amount of laboratory work.
8. *Medicine*.—Courses in the 2nd, 3rd and 4th years, more time being devoted to lecture and less to clinical work than in Toronto.
9. *Surgery*.—Four courses in the 3rd and 4th years. The same comment applies as in the case of *Medicine*.
10. *Obstetrics and Gynecology*.—Courses in the 2nd, 3rd and 4th years— inferior to Toronto in practical work.
11. *Pathology*.—Courses in the 2nd and 3rd years, with over 100 hours of laboratory work in each.
12. *Bacteriology*.—A course in the 2nd year as long as Toronto course.
13. *Pediatrics*.—Courses in the 3rd and 4th years—clinical work is as extensive as in Toronto.
14. *Therapeutics*.—Courses in the 3rd and 4th years of 36 and 18 hours.
15. *Jurisprudence*.—A course of 12 hours in the 4th year.
16. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—as long as those of Toronto.
17. *Sanitation*.—A course of 18 hours in the 4th year.
18. *Psychiatry*.—Courses in the 3rd and 4th years—as long as those given in Toronto.

COLUMBIA UNIVERSITY

1. The Entrance requirement is "not less than" two full years of study in an approved college, including one year's instruction in Physics, Inorganic Chemistry, Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years, equivalent in time to Toronto's courses; Neuro-Anatomy in the 2nd year.
3. *Physiology*.—Courses in the 1st and 2nd years of 150 hours each.
4. *Histology and Embryology*.—The work is confined to the 1st year— Toronto has courses in the 1st, 2nd, 3rd and 4th years.
5. *Chemistry*.—Courses in the 1st year in Organic and Physiological Chemistry of 135 hours each.
6. *Pharmacology*.—A course of 135 hours in the 2nd year.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—somewhat extensive in the last two years.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—fully as long as those given by Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 2nd and 3rd years. In addition, three weeks' practical instruction is given in the hospital.
10. *Pathology*.—Courses are given in the 2nd year in Pathology and Clinical Pathology.
11. *Bacteriology*.—A course in the 2nd year—shorter than that of Toronto.
12. *Pediatrics*.—Courses in the 3rd and 4th years—a little longer than those of Toronto.
13. *Eye, Ear, Nose, Throat*.—Courses in the 3rd year—longer than those of Toronto.
14. *Neurology*.—Diseases of the nervous system, 3rd year, 90 hours; Neuro-pathology, 4th year, 50 hours.

GENERAL.—As stated in the other report the time is estimated from the calendar.

CORNELL UNIVERSITY

1. Entrance requirement is degree in Arts or Science.
2. *Anatomy*.—Courses in the 1st and 2nd years, including Embryology, Histology, Neuro-Histology, Topographical and Applied Anatomy. The aggregate of hours is not as great as that of Toronto.
3. *Chemistry—Organic and Physiological*.—A course in the 1st year—not as heavy in number of hours as Toronto.
4. *Materia Medica, Pharmacology and Applied Pharmacology*.—Courses in the 2nd and 3rd years—longer courses than Toronto gives.
5. *Medicine*.—Courses in the 2nd, 3rd and 4th years—strong clinical courses, but not up to Toronto.
6. *Surgery*.—Courses in the 2nd, 3rd and 4th years—also weaker in time than Toronto.
7. *Obstetrics and Gynecology*.—Courses with more time than Toronto gives.
8. *Pathology*.—General and Special and Pathological Anatomy—courses with more time than Toronto gives.
9. *Bacteriology*.—A course in the 2nd year—a little longer than Toronto's course.
10. *Pediatrics*.—A clinical course in the 4th year—longer than that of Toronto.
11. *Therapeutics*.—Courses in the 3rd and 4th years.
12. *Jurisprudence*.—A course in the 4th year.
13. *Eye, Ear, Nose, Throat*.—Courses similar in length to Toronto courses.
14. *Hygiene*.—A course of 18 hours in the 4th year.
15. *Psychiatry*.—A course of 36 hours in the 4th year.
16. *Neurology*.—Courses in the 3rd and 4th years.

GENERAL.—The courses given by Cornell are very much similar to those of Toronto in length and character, to judge by the development and division of the work.

SYRACUSE UNIVERSITY

1. The Entrance requirement is two years of College work, including College Chemistry, General Chemistry, qualitative and quantitative analysis, College Physics with laboratory work, College Biology.
2. *Anatomy*.—1st year, practical, equal to Toronto; 2nd year, applied, short course.
3. *Physiology*.—2nd year—less time than Toronto gives.
4. *Histology*.—1st year—less time than Toronto gives.
5. *Chemistry—Organic and Physiological*.—Weaker in didactic, but stronger in laboratory work, than Toronto.
6. *Materia Medica*.—A course of 64 hours' laboratory work in the 2nd year.
7. *Pharmacology*.—A course of 120 hours' laboratory work in the 2nd year—course is longer than Toronto gives.

8. *Medicine*.—Courses in the 3rd and 4th years—not as long as Toronto courses.
9. *Surgery*.—Courses in the 3rd and 4th years—not as full as those of Toronto.
10. *Obstetrics*.—Courses in the 3rd and 4th years—equivalent to those of Toronto.
11. *Gynecology*.—A course in the 4th year—equivalent to that of Toronto.
12. *Pathology and Surgical Pathology*.—Courses in the 2nd year—strong courses.
13. *Bacteriology*.—A course in the 2nd year.
14. *Pediatrics*.—A course in the 4th year—longer than the two courses of Toronto.
15. *Therapeutics and Dietetics*.—An average course in the 3rd year.
16. *Eye and Throat*.—Good courses in the 4th year.
17. *Hygiene and Sanitation*.—A good course in the 4th year.
18. *Mental Diseases*.—A short course in the 4th year.

GENERAL.—Stronger in laboratory work, but much weaker in didactic and clinical work than Toronto.

THE OHIO STATE UNIVERSITY

1. The minimum Entrance requirement is two years of College work, with Chemistry, Physics and Biology.
2. *Anatomy*.—Including Histology, Embryology, Neurology and Applied Anatomy—courses not as extensive as Toronto gives.
3. *Physiology*.—A course in the 2nd year—similar in length to that of Toronto courses.
4. *Chemistry—Organic*.—A course in the 1st year—much shorter than the Toronto course.
5. *Biochemistry*.—A course in the 1st year—much inferior to Toronto.
6. *Materia Medica, Pharmacology, Toxicology and Therapeutics*.—Courses in the 1st, 2nd and 3rd years—more extensive than Toronto courses.
7. *Medicine*.—3rd and 4th year courses—much weaker than Toronto.
8. *Surgery*.—2nd, 3rd and 4th year courses—very much inferior to Toronto.
9. *Obstetrics*.—A short course in the 3rd year.
10. *Gynecology*.—Courses in the 2nd and 4th years—somewhat more extensive than Toronto gives.
11. *Pathology*.—General, Special, Surgical and Clinical—more extensive than Toronto courses.
12. *Bacteriology*.—A longer course than is given in Toronto.
13. *Pediatrics*.—A course in the 4th year of about the same length as Toronto course.
14. *Eye, Ear, Nose, Throat*.—Courses shorter than Toronto course.
15. *Preventive Medicine*.—Is included under Medicine.
16. *Psychiatry*.—A course on nervous diseases is included under Medicine.
17. *Hospital Clinics* in each of the 3rd and 4th years, cover 340 hours. These are not included under Medicine and Surgery. Even with the addition of these hours, Ohio University is still inferior to Toronto.

WESTERN RESERVE UNIVERSITY

1. The Entrance requirement is the completion of three years in an approved College or Scientific School.
2. *Anatomy*.—Including Histology, Embryology, Neurology, Microscopical and Applied Anatomy—courses in the 1st, 2nd and 3rd years, about the same in length as Toronto courses.
3. *Physiology*.—Courses in the 1st and 2nd years—not as strong as Toronto gives.
4. *Chemistry—Organic*.—Much shorter than the Toronto course.
5. *Biochemistry*.—A course in the 1st year—much shorter than Toronto course.
6. *Pharmacology, Materia Medica, and Therapeutics*.—Courses in the 2nd, 3rd and 4th years—as long as those of Toronto.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—weaker in clinical work than Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—weaker in clinical work than Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—similar in length to those of Toronto.
10. *Pathology*.—General and Special—a course of 300 hours in the 2nd year.
11. *Bacteriology and Protozoology*.—A shorter course than Toronto gives.
12. *Pediatrics*.—Courses in the 3rd and 4th years—similar to Toronto.
13. *Eye, Ear, Nose, Throat*.—A course in the 4th year—similar to Toronto course.
14. *Hygiene and Preventive Medicine*.—A course of 18 hours in the 3rd year.
15. *Nervous Diseases*.—A short course included under Medicine.

GENERAL.—Toronto gives more extensive courses.

UNIVERSITY OF OREGON

1. The Entrance requirement is two years of College work, including one of advanced Physics, General Biology, General Chemistry with laboratory work.
2. *Anatomy*.—Including Histology, Neurology, Embryology and Topographical Anatomy—courses in the 1st year (Topographical in the 3rd year)—not as extensive as Toronto.
3. *Physiology*.—Courses in the 1st and 2nd years—much less than Toronto gives.
4. *Chemistry*.—Courses in the 1st year in Organic and Physiological Chemistry, with considerable laboratory work.
5. *Pharmacology, Toxicology and Therapeutics*.—A course in the 2nd year, longer than that of Toronto.
6. *Medicine*.—Courses in the 2nd, 3rd and 4th years—quite extensive, but with not as much clinical work as Toronto.
7. *Surgery*.—Courses in the 3rd and 4th years—not as extensive as Toronto.

NOTE.—There is also dispensary work in the 3rd and 4th years amounting to 256 hours, which affects several subjects.

8. *Obstetrics*.—Courses in the 3rd and 4th years—less extensive than Toronto gives.
9. *Gynecology*.—The same comment as in *Obstetrics*.
10. *Pathology*.—General in the 2nd year and Special in the 3rd year—considerable time is devoted to practical work.
11. *Bacteriology*.—A course in the 2nd year as long as the Toronto course.
12. *Pediatrics*.—A course in the 4th year.
13. *Jurisprudence*.—A course of 16 hours in the 4th year.
14. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—about the same as Toronto.
15. *Nervous Diseases*.—Courses in the 3rd and 4th years.

GENERAL.—On the whole, the courses are less extensive than those of Toronto.

JEFFERSON MEDICAL COLLEGE

1. The Entrance requirement is two years of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st, 2nd and 3rd years—as extensive as Toronto courses.
3. *Physiology*.—A course in the 2nd year—not as extensive as Toronto's course in the 2nd and 3rd years.
4. *Histology*.—Including Embryology—not as extensive as Toronto course.
5. *Chemistry*.—Courses in Physiological Chemistry and Toxicology in the 1st and 2nd years, aggregating 456 hours.
6. *Materia Medica and Therapeutics*.—Courses in the 2nd, 3rd and 4th years—270 hours.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—quite weak in clinical work.
8. *Surgery*.—Courses in each of the four years—weak in clinical work as compared with Toronto.
9. *Obstetrics*.—Courses in the 3rd and 4th years—with more time to didactic but less to clinical work than Toronto.
10. *Gynecology*.—Courses in the 3rd and 4th years—time about the same as Toronto gives.
11. *Pathology*.—Courses in the 2nd and 3rd years—considerable time is given.
12. *Bacteriology and Hygiene*.—Short courses in the 1st and 2nd years.
13. *Pediatrics*.—Courses in the 3rd and 4th years—more time than Toronto gives.
14. *Eye, Ear, Nose, Throat*.—More time than Toronto gives.
15. *Nervous and Mental Diseases*.—Courses in the 3rd and 4th years—as much time as Toronto gives.

GENERAL.—This College is very inferior to Toronto in clinical work. Didactic work is stressed.

UNIVERSITY OF PENNSYLVANIA

1. The Entrance requirement is two years of work in an approved College of Arts or Science, including courses in Physics, Chemistry, Biology, with Laboratory work.
2. *Anatomy*.—A strong practical course in the 1st year; applied Anatomy in the 3rd year.
3. *Physiology*.—A 2nd year course with considerable laboratory work.
4. *Histology and Embryology*.—A laboratory course of 192 hours in the 1st year.
5. *Chemistry—Physiological*.—A course in the 1st year—160 hours of laboratory work.
6. *Materia Medica, Pharmacy and Pharmacology*.—Course in the 2nd year—80 hours' laboratory work.
7. *Medicine*.—Courses in each of the four years—the total time being about the same as that assigned by Toronto. But Toronto gives more of its time to clinical work.
8. *Surgery*.—Courses in the 3rd and 4th years—the comments in the case of Medicine apply to Surgery.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years with practical work—not as much practical work as Toronto.
10. *Pathology*.—Courses in each of the four years with 140 hours' practical work in the 2nd year.
11. *Bacteriology*.—A course in the 1st year with 190 hours of laboratory work.
12. *Pediatrics*.—Courses in the 3rd and 4th years—longer than those of Toronto.
13. *Jurisprudence*.—A course of 16 hours in the 4th year.
14. *Eye, Ear, Nose, Throat*.—Short courses in the 3rd year—about the same as Toronto.
15. *Hygiene*.—A short course—32 hours—in the 3rd year.
16. *Mental Diseases*.—A course of 32 hours in the 4th year.
17. *Toxicology*.—A course in the 2nd year—16 hours of didactic and 40 hours of laboratory work.

GENERAL.—Didactic work is stressed but clinical work is weak.

UNIVERSITY OF PITTSBURGH

1. The Entrance requirement is two years of College work, including Inorganic and Organic Chemistry, Physics, and Biology, with laboratory work.
2. *Anatomy*.—Courses in the 1st and 2nd years including neurology—most of the practical work is done in the 1st year.
3. *Physiology*.—A course of 242 hours in the 2nd year.
4. *Histology and Embryology*.—Work in the 1st year.
5. *Chemistry—Physiological*.—A course of 242 hours in the 1st year.
6. *Materia Medica, Pharmacology and Pharmacy*.—Courses in the 2nd year.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—about the same in length as Toronto.
8. *Surgery*.—The same comments apply as in the case of Medicine.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—more time is given to these subjects than in Toronto.

10. *Pathology*.—Courses in the 2nd, 3rd and 4th years—considerable time is given.
11. *Bacteriology*.—Courses in the 1st and 2nd years of about the same length as Toronto courses.
12. *Pediatrics*.—Courses in the 3rd and 4th years—longer than Toronto courses.
13. *Therapeutics*.—Courses of 33 and 49 hours in the 3rd and 4th years.
14. *Law and Ethics*.—Six hours in the 4th year.
15. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years.
16. *Hygiene*.—A course of 51 hours in the 2nd year.
17. *Neurology and Psychiatry*.—Courses in the 3rd and 4th years.

GENERAL.—The time is not apportioned in the calendar between didactic and practical work. It is, therefore, impossible to make satisfactory statements by way of comparison with Toronto.

WOMEN'S MEDICAL COLLEGE OF PENNSYLVANIA

1. The Entrance requirement is two years of College work, including Physics, Biology or Zoology and Chemistry.
2. *Anatomy*.—Courses in the 1st and 3rd years—less time is given than Toronto gives.
3. *Physiology*.—Courses in the 1st and 2nd years—less didactic and more practical work than Toronto gives.
4. *Histology and Embryology*.—A laboratory course of 235 hours in the 1st year.
5. *Chemistry—Organic and Physiological*.—A course of 100 hours' didactic and 200 hours' practical work is given in the 1st year.
6. *Materia Medica, Therapeutics and Pharmacology*.—Courses in the 2nd and 3rd years.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—weaker in clinical work than Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—fair courses but weak in clinical work.
9. *Obstetrics*.—Courses in the 2nd, 3rd and 4th years—considerable clinical work.
10. *Gynecology*.—Courses in the 3rd and 4th years—more time than Toronto gives.
11. *Pathology*.—Courses in the 2nd and 3rd years.
12. *Bacteriology*.—A course in the 3rd year—fair course.
13. *Pediatrics*.—Included with Medicine.
14. *Eye*.—Included with Medicine.

GENERAL.—Courses are not strong.

MEDICAL COLLEGE OF SOUTH CAROLINA

1. The Entrance requirement is two years of College work.
2. *Anatomy*.—Course in 1st year that compares favourably with Toronto.
3. *Physiology*.—A course in the 2nd year not as strong as Toronto.
4. *Histology*.—1st year—weaker than Toronto.
5. *Chemistry*.—1st year—weaker than Toronto.
6. *Pharmacology and Toxicology*.—A course in the 2nd year—similar to Toronto.

- Materia Medica, Pharmacy and Pharmacodynamics.**—A course of 104 hours in the 2nd year.
7. **Medicine.**—Courses in the 2nd, 3rd and 4th years—less time than Toronto gives.
 8. **Surgery.**—Courses in the 2nd, 3rd and 4th years—much weaker than Toronto courses.
 9. **Obstetrics.**—Courses in the 3rd and 4th years—more time is given in Toronto.
 10. **Gynecology.**—A clinical course of 105 hours in the 4th year.
 11. **Pathology.**—A course in the 2nd year—over 200 hours of laboratory work and 72 hours of clinical work.
 12. **Bacteriology.**—A course in the 2nd year—about the same length as Toronto.
 12. **Pediatrics.**—Courses in the 3rd and 4th years—more time than Toronto gives.
 14. **Therapeutics.**—A course of 55 hours in the 3rd year.
 15. **Jurisprudence.**—A course of 30 hours in the 3rd year.
 16. **Nervous and Mental Diseases.**—Courses in the 3rd and 4th years.
 17. **Eye, Ear, Nose, Throat.**—Courses in the 3rd and 4th years—more time than is given in Toronto.

GENERAL.—The courses on the whole are less extensive than Toronto courses.

MEDICAL COLLEGE OF VIRGINIA

1. The Entrance requirement is two years of College work, including Physics, Chemistry, Biology.
2. **Anatomy.**—Gross Anatomy in the 1st year, Applied Anatomy in the 2nd year—courses compare fairly with Toronto.
3. **Physiology.**—A course in the 1st year—not up to Toronto.
4. **Histology and Embryology.**—Courses in the 1st year—not up to Toronto.
5. **Chemistry.**—Courses in the 1st and 2nd years—more time is given than in the great majority of American colleges.
6. **Pharmacology.**—A course in the 2nd year of 192 hours.
7. **Medicine.**—Courses in the 2nd, 3rd and 4th years—inferior to Toronto in clinical work.
8. **Surgery.**—More attention to clinical work in Surgery than in Medicine—compares more favourably with Toronto.
9. **Obstetrics and Gynecology.**—Courses in the 3rd and 4th years—with clinical work as extensive as Toronto provides.
10. **Therapeutics.**—A didactic course of 96 hours in the 3rd year; Applied Therapeutics (40 hours) in the 4th year.
11. **Jurisprudence.**—A course of 32 hours in the 3rd year.
12. **Bacteriology.**—A course in the 1st year with 128 hours of laboratory work.
- 13.—**Pathology.**—General—A course in the 2nd year of 272 hours.
Clinical—A course in the 4th year of 116 hours.
14. **Pediatrics.**—Courses in the 3rd and 4th years—equivalent to Toronto courses.
15. **Eye, Ear, Nose, Throat.**—Course in the 4th year.
16. **Neurology and Psychiatry.**—Courses in the 3rd and 4th years.

GENERAL.—Weak in clinical work.

MARQUETTE UNIVERSITY

1. The Entrance requirement is two years of work, including Science.
2. *Anatomy*.—One course of Gross Anatomy and one of Topographical Anatomy and one of Neurology.
3. *Physiology*.—Courses in the 2nd and 3rd years.
4. *Histology and Embryology*.—A course in the 1st year.
5. *Chemistry*.—Three courses (1) Physical, (2) Physiological, (3) Psychology—not as strong as Toronto.
6. *Pharmacology, Materia Medica and Toxicology*.—A course in the 2nd year—158 hours of laboratory work.
7. *Medicine*.—Courses in the 3rd and 4th years—fairly strong clinical courses but inferior to Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—much inferior to Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 2nd, 3rd and 4th years, mostly didactic.
10. *Pathology*.—Courses in the 2nd, 3rd and 4th years with considerable laboratory work.
11. *Bacteriology*.—A course in the 2nd year, including 135 hours of laboratory work.
12. *Pediatrics*.—Courses in the 3rd and 4th years—more extensive than Toronto courses.
13. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—clinical for the most part.
14. *Therapeutics*.—A short course in the 4th year.
15. *Neurology and Nervous and Mental Diseases*.—Courses in the 3rd and 4th years.

GENERAL.—The amount of practical work measures up well with Toronto. In the 4th year there is provision for Clinical Clerkship in Medicine and Surgery.

PART III.
"B"

Medical Colleges and Schools

REQUIRING FOR ADMISSION

One Year of College Work

Summary Statement of Courses with Reference to Courses
of the University of Toronto and Courses of the
College of Physicians and Surgeons of Ontario

PREFATORY NOTE

The purpose of the Summary Statement submitted herein with regard to **Medical Colleges and Schools** is to direct attention to the amount of time devoted to the courses. Where it has been considered advisable and of value, a comparison has been made with the University of Toronto. It must be kept in mind, however, that such comparison applies only to the question of the time prescribed in the Calendars.

It should further be noted that an effort has been made to tabulate the courses in the order in which they are named on pages 17 and 18 of the Announcement of the College of Physicians and Surgeons of Ontario.

INDEX

STATE.	MEDICAL INSTITUTE.	LOCATION.	PAGE
Dis. of Columbia	George Washington University Medical School	Washington	119
Georgia	Atlanta Medical College	Atlanta	119
Georgia	University of Georgia	Augusta	120
Kentucky	University of Louisville	Louisville	111
Louisiana	Tulane University of Louisiana School of Medicine	New Orleans	121
Maryland	University of Maryland School of Medicine	Baltimore	122
Massachusetts	Tufts College Medical School	Boston	122
Michigan	Detroit College of Medicine and Surgery	Detroit	123

THE GEORGE WASHINGTON UNIVERSITY

1. The Entrance requirement is one year of College work including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years—as extensive as Toronto—one of the best of the American Colleges.
3. *Physiology*.—Courses in the 1st and 2nd years.
4. *Histology and Embryology*.—A course in the 1st year, with 164 hours of laboratory work.
5. *Chemistry*.—Courses in the 1st and 2nd years, with considerable laboratory work.
6. *Pharmacology and Materia Medica*.—A course in the 2nd year.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years, with extensive clinical work.
8. *Surgery*.—Same as Medicine.
9. *Obstetrics*.—Courses in the 3rd and 4th years with practical work.
9. *Gynecology*.—Same as Obstetrics.
10. *Pathology*.—A course in the 2nd year with considerable laboratory work.
11. *Bacteriology*.—A course in the 2nd year.
12. *Pediatrics*.—Courses in the 2nd, 3rd and 4th years—longer than Toronto courses.
13. *Therapeutics and Radiotherapy*.—A course of 72 hours in the 3rd year.
14. *Eye, Ear, Nose, Throat*.—Courses in the 2nd, 3rd and 4th years.
15. *Hygiene*.—A course in the 2nd year.
16. *Neurology and Psychiatry*.—Courses in the 2nd, 3rd and 4th years—greater than those of Toronto.

GENERAL.—Courses are good, although in the aggregate Toronto gives more time.

ATLANTA MEDICAL COLLEGE

1. The Entrance requirement is one year in a College with Physics, Inorganic Chemistry, Biology.
2. *Anatomy*.—Two courses, and one course of Surgical Anatomy. The courses compare well with Toronto.
3. *Physiology*.—A course in the 2nd year.
4. *Histology and Embryology*.—Courses in the 1st and 2nd years.
5. *Chemistry*.—Organic and Physiological—One course in each in 1st year.
6. *Pharmacology*.—A course in the 2nd year—longer than Toronto courses.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years. Weak in practical and clinical work.

8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—much less time given to clinics than in Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—considerable time given to didactic work; less to clinical work than in Toronto.
10. *Pathology*.—Courses in the 2nd, 3rd and 4th years, including clinical and surgical Pathology—much more time is given to laboratory work than in most American Colleges; more than in Toronto.
11. *Bacteriology*.—A course in the 2nd year—longer than the Toronto course.
12. *Pediatrics*.—Courses in the 3rd and 4th years—longer than the Toronto courses.
13. *Therapeutics*.—Didactic courses in the 3rd and 4th years.
14. *Jurisprudence*.—A short course of 15 hours in the 3rd year.
15. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years.
16. *Psychiatry*.—A course of 15 hours in the 4th year.

GENERAL.—In clinical work the courses are very deficient. In laboratory work the College is on a par with Toronto.

UNIVERSITY OF GEORGIA

1. The Entrance requirement is one year of College work including Physics, Chemistry and Biology.
2. *Anatomy—Gross*.—Two courses—1st and 2nd years, with good laboratory work.
3. *Physiology*.—A course in the 2nd year—somewhat shorter than Toronto.
4. *Histology and Embryology*.—A course in each in the 1st year.
5. *Chemistry*.—A heavy course in the 1st year.
6. *Pharmacology*.—A course in the 2nd year equal to that of Toronto.
7. *Medicine (including Therapeutics)*.—Courses in the 2nd, 3rd and 4th years—practical work, fair.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—not up to Toronto.
9. *Obstetrics*.—A course in the 3rd year.
10. *Gynecology*.—A course in the 4th year. Both Obstetrics and Gynecology receive more attention in Toronto.
11. *Pathology*.—A course in the 2nd year, including 275 hours of laboratory work.
12. *Bacteriology*.—Courses in the 1st and 2nd years.
13. *Pediatrics*.—A course in the 4th year—more clinical work than in Toronto.
14. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years.
15. *Hygiene*.—A course of 30 hours in the 2nd year.
16. *Nervous and Mental Diseases*.—A course in the 4th year.

GENERAL.—Strong in laboratory but weak in clinical work.

UNIVERSITY OF LOUISVILLE

1. The Entrance requirement is a year of College work, including Physics, Chemistry, and Biology.
2. *Anatomy*.—Courses in the 1st and second years which excel Toronto in length.
3. *Physiology*.—Courses in the 1st and 2nd years—shorter than those of Toronto.
4. *Histology*.—This subject is included with Anatomy.
5. *Chemistry*.—Courses in the 1st and 2nd years.
6. *Pharmacology and Materia Medica*.—Courses in the 1st and 2nd years.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years, fairly strong in clinical work.
8. *Surgery*.—Same as Medicine.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years.
10. *Pathology*.—Courses in the 2nd and 3rd years; over 200 hours of laboratory work.
11. *Bacteriology*.—A course in the 2nd year.
12. *Pediatrics*.—Courses in the 3rd and 4th years.
13. *Therapeutics*.—Courses in the 3rd and 4th years.
14. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years.
15. *Hygiene*.—A didactic course of 30 hours in the 3rd year and a clinical course of 192 hours in the 4th year.

TULANE UNIVERSITY

1. The Entrance requirement is one year of College work, including Physics, Chemistry, and Biology.
2. *Anatomy*.—The total time assigned is as great as in the case of Toronto.
3. *Histology, Embryology and Neurology*.—Over 300 hours of laboratory work are prescribed.
4. *Physiology*.—128 hours of didactic and 160 hours of laboratory work are prescribed.
5. *Chemistry*.—Physiological—176 hours of laboratory work. Inorganic— and Organic—128 hours' didactic and 96 hours' laboratory work are given.
6. *Materia Medica, Pharmacy and Pharmacology*.—128 hours of didactic and 32 hours of laboratory work.
7. *Therapeutics, and Prescription Writing*.—64 hours of didactic and 32 hours of laboratory work.
8. *Medicine*.—Considerable laboratory and clinical work, but not nearly as much as Toronto gives.
9. *Surgery*.—Inferior in clinical work.
10. *Obstetrics and Gynecology*.—Courses that measure well up to Toronto courses in point of time.
11. *Pathology*.—350 hours—more than Toronto gives.
12. *Bacteriology*.—A shorter course than Toronto gives.
13. *Pediatrics*.—Longer courses than Toronto gives.
14. *Jurisprudence*.—A course of 30 hours.

15. *Eye, Ear, Nose and Throat*.—Courses as long as those of Toronto.
16. *Hygiene and Preventive Medicine*.—64 hours of didactic and 62 hours of laboratory work—more than Toronto gives.
17. *Diseases of the Nervous System*.—Courses as long as those of Toronto.

GENERAL.—The figures quoted are not given in the calendar, but were obtained by special request to the University. It is regretted that the time has not been apportioned to the several years.

Laboratory work seems to receive much attention. In clinical work this college is not up to the standard of Toronto.

UNIVERSITY OF MARYLAND

1. The Entrance requirement is one year of College work. The calendar does not furnish enough data to assist in tabulating the courses. A request addressed to the University for a statement in hours has not brought forth any fruit.

TUFTS COLLEGE

1. The minimum Entrance requirement is one year in a Premedical course.
2. *Anatomy*.—A heavy laboratory course (576 hours) in the 1st year and a didactic course of 36 hours of Nervous Anatomy in the same year.
3. *Physiology*.—A course of 370 hours (270 laboratory) in the 1st year.
4. *Histology and Embryology*.—Over 280 hours in the 1st year.
5. *Chemistry*.—1st year—Physiological, 180 hours. 2nd year—Biological, 414 hours.
6. *Pharmacology*.—Lecture course, 144 hours; 2nd year illustrated with laboratory work.
7. *Medicine*.—The course covers the usual subjects, but less time is devoted to clinical work than in Toronto.
8. *Surgery*.—Fair courses are given.
9. *Obstetrics*.—Considerable time is devoted to the subject.
10. *Gynecology*.—As much time to lecture work as Toronto gives, but inferior in clinical work.
11. *Pathology and Bacteriology*.—Shorter didactic courses, but longer time is given to laboratory work.
12. *Pediatrics*.—Two courses are given.
13. *Jurisprudence*.—A course of 36 hours.
14. *Hygiene*.—A course in the 3rd year, as long as that given in Toronto.
15. *Eye, Ear, Nose and Throat*.—Short courses, as long as Toronto courses.
16. *Mental Diseases*.—Course in the 4th year.

NOTE.—The clinical work is given as 432 hours in the 3rd year and 324 hours in the 4th year.

GENERAL.—The course covers the subjects prescribed for a degree, although the time in some cases is short as compared with Toronto requirements.

DETROIT COLLEGE OF MEDICINE

1. The Entrance requirement is the prescribed four-year High School course and one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses as long as those of Toronto.
3. *Physiology*.—Courses are shorter than those of Toronto.
4. *Histology and Embryology*.—Shorter courses than Toronto gives.
5. *Chemistry—Organic and Physiological*.—A course in each.
6. *Pharmacology and Therapeutics*.—Longer courses than Toronto gives.
7. *Medicine*.—Much less time is given than in Toronto.
8. *Surgery*.—Inferior in practical work.
9. *Obstetrics and Gynecology*.—Longer courses than Toronto gives.
10. *Pathology and Bacteriology*.—Courses are fair extent.
11. *Pediatrics*.—As long a course as Toronto gives.
12. *Jurisprudence*.—A course of 32 hours.
13. *Eye, Ear, Nose, Throat*.—Courses as long as those of Toronto.
14. *Preventive Medicine and Public Health*.—A longer course than Toronto gives.
15. *Neurology and Psychiatry*.—More work than Toronto assigns to the subject.

GENERAL.—In some respects this College is equal to Toronto. From the figures given, it appears that in clinical work Detroit is weaker than Toronto.

ST. LOUIS UNIVERSITY

1. The Entrance requirement is one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years covering Anatomy, Histology, Neurology and Biology—over 675 hours of laboratory work.
3. *Physiology*.—Course in the 2nd year—a good course.
4. *Chemistry*.—A course in the 1st year—organic and physiological—not quite as strong a course as Toronto gives in the 1st year.
5. *Pharmacology*.—A lecture course of 64 hours in the 3rd year.
6. *Materia Medica*.—Course in the 2nd year included with Physiology.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—deficient in clinical work.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years. The clinical work compares well with that of Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—much the same as Toronto.
10. *Bacteriology and Pathology*.—Courses in the 2nd and 3rd years—more laboratory work than Toronto gives.
11. *Pediatrics*.—Courses in the 3rd and 4th years—superior to those of Toronto.
12. *Therapeutics*.—Courses in the 3rd and 4th years of 64 and 32 hours.
13. *Medical Law and Ethics*.—A course of 40 hours in the 4th year.
14. *Ophthalmology*.—Courses in the 3rd and 4th years—longer than Toronto courses.

15. *Ear, Nose, Throat*.—Course in the 3rd year similar in length to Toronto courses.
16. *Hygiene*.—A course of 32 hours in the 3rd year.
17. *Nervous and Mental Diseases*.—Courses in the 3rd and 4th years. More time is devoted to them than in Toronto.

GENERAL.—For a four-year course the subjects of study receive close attention. The laboratory courses are very heavy. In clinical work lies the inferiority to a five-year course.

ALBANY MEDICAL COLLEGE

1. The Entrance requirement is a Medical Student's certificate from the Board of Regents of New York State, and one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years that compare well with Toronto courses.
3. *Physiology*.—A course in the 1st year, with over 275 hours of laboratory work.
4. *Histology and Embryology*.—Courses in the 1st year—not as heavy as Toronto courses.
5. *Chemistry—Organic and Physiological*.—A course in each in the 1st year. The total time is about the same as that specified by Toronto.
6. *Pharmacology*.—Course in the 2nd year somewhat longer than that of Toronto.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years, with extensive clinical work in the 3rd and 4th years.
8. *Surgery*.—Extensive courses.
9. *Obstetrics*.—Courses in the 2nd, 3rd and 4th years.
10. *Gynecology*.—Courses in the 3rd and 4th years.
11. *Bacteriology*.—A course is given in the 2nd year with 140 hours of laboratory work.
12. *Pathology*.—Courses in the 2nd year, including Pathology of the Nervous System, with considerable laboratory work. In the 2nd and 3rd years there are courses in Clinical Pathology; and in Surgical Pathology in the 3rd year.
13. *Pediatrics*.—A course of 129 hours in the 3rd year.
14. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years that compare well with Toronto.
15. *Hygiene*.—In the 2nd year a course of 192 hours is given on Public Health, and a short course in the 4th year.
16. *Neurology and Mental Diseases*.—Courses are given in the 3rd and 4th years—longer than Toronto courses.

GENERAL.—In the cases of such subjects as Medicine, Surgery, etc., the calendar does not apportion the time between didactic and clinical work.

FORDHAM UNIVERSITY

1. The Entrance requirement is the same as in the case of Albany College.
2. *Anatomy*.—*Gross*—a heavy course in the 1st year. *Applied*—a short course in the 2nd year.
3. *Physiology and Biochemistry*.—Courses in the 2nd year, with 241 and 126 hours of laboratory work.
4. *Histology and Embryology*.—Courses in the 1st year, not as extensive as those of Toronto.
5. *Chemistry*.—*Organic*—a course including 100 hours of laboratory work is given in the 1st year. *Physiological Chemistry* is included under *Physiology and Biochemistry*.
6. *Materia Medica, Therapeutics and Pharmacology*.—Courses in the 2nd, 3rd and 4th years—more laboratory work than Toronto gives.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—much weaker in clinical work than Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—very deficient in clinical work.
9. *Obstetrics and Gynecology*.—Courses in the 2nd, 3rd and 4th years, including 95 hours of clinical work, and in addition practical work in each of the 3rd and 4th years; two weeks per man.
10. *Pathology*.—Courses in the 2nd and 3rd years. 2nd year—General and Special—128 hours' laboratory work. 3rd year—Pathological Anatomy, 15 hours. 3rd year—Clinical Pathological Conference, 30 hours.
11. *Bacteriology, Hygiene, and Preventive Medicine*.—Courses in the 2nd, 3rd and 4th years. Courses are not extensive.
12. *Pediatrics*.—Courses in the 3rd and 4th years—as extensive as those of Toronto.
13. *Eye, Ear, Nose, Throat*.—Short courses in the 3rd and 4th years.
14. *Jurisprudence*.—A course of 15 hours in the 3rd year.
15. *Mental Diseases and Diseases of the Nervous System*.—Short courses in the 4th year.

GENERAL.—The tone of the calendar impresses the reader with a certain thoroughness of the courses, yet, in spite of the abundance of clinical material, the time devoted is much less than in Toronto.

THE LONG ISLAND COLLEGE HOSPITAL

1. The Entrance requirement is the same as in the case of Albany College.
2. *Anatomy*.—Courses in the 1st and 2nd years—longer than those of Toronto. There is also a course in applied Anatomy in the 2nd year.
3. *Physiology*.—A course in the 2nd year.—Didactic course, 236 hours; Laboratory course, 492 hours.
4. *Histology and Embryology*.—Courses in the 1st year—less time is devoted to these subjects than in Toronto.
5. *Chemistry*.—Organic and Physical in the 1st year and Biological in the 2nd year. The time is the same as that given to the 1st year course in Toronto.
6. *Pharmacology*.—A course in the 2nd year—not as long a course as the Toronto course.

7. *Medicine*.—Courses in the 2nd, 3rd and 4th years, with laboratory and clinical work—much inferior to Toronto in clinical work.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—weak in clinical work.
9. *Obstetrics*.—Courses in the 2nd, 3rd and 4th years—deficient in clinical work.
10. *Gynecology*.—Courses in the 3rd and 4th years, with only a fair amount of clinical work.
11. *Bacteriology*.—Courses in the 1st and 4th years—inferior to Toronto.
12. *Pathology*.—Courses in the 2nd year—Theoretical, Pathological Histology, Surgical Pathology—of about same length as Toronto courses.
13. *Pediatrics*.—Courses in the 3rd and 4th years—as long as Toronto courses.
14. *Therapeutics*.—Courses in each of the four years.
15. *Jurisprudence*.—A course of 12 hours in the 3rd year.
16. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years as long as Toronto courses.
17. *Hygiene and Preventive Medicine*.—Short courses in the 3rd and 4th years, longer than Toronto courses.
18. *Neurology*.—Short courses in the 3rd and 4th years.

GENERAL.—In didactic and in laboratory work this College surpasses Toronto. In clinical work it is surpassed by Toronto.

NEW YORK UNIVERSITY AND BELLEVUE HOSPITAL

1. The Entrance requirement is one year of College work, including Chemistry, Physics, and Biology.
2. *Anatomy*.—1st year—Gross and Microscopical Anatomy and Embryology. 2nd year—Surgical Anatomy. 3rd year—Pathological Anatomy. The courses are unusually heavy.
3. *Physiology*.—Courses in the 1st and 2nd years that compare well with Toronto courses.
4. *Chemistry*.—Physiological in the 2nd year and Pathological in the 4th year—not as extensive as Toronto courses.
5. *Materia Medica and Pharmacy*.—A course in the 2nd year—longer than Toronto's course.
6. *Medicine*.—Courses in the 2nd, 3rd and 4th years. The time is not nearly so much as Toronto gives.
7. *Surgery*.—Courses in the 2nd, 3rd and 4th years. In this subject Toronto is surpassed in point of actual time assigned.
8. *Obstetrics*.—Courses in the 3rd and 4th years, and in addition three weeks at the Lying-in Hospital are prescribed.
9. *Gynecology*.—A course in the 4th year—much inferior to Toronto.
10. *Pathology*.—Courses, General and Applied, in the 2nd, 3rd and 4th years—quite extensive.
11. *Bacteriology*.—A course in the 2nd year, with 96 hours of laboratory work.

12. *Pediatrics*.—Courses in the 3rd and 4th years—more time than Toronto gives.
13. *Therapeutics*.—Included under Medicine.
14. *Eye, Ear, Nose, Throat*.—Courses in the 4th year—more time is given than in Toronto.
15. *Hygiene*.—Courses in the 3rd and 4th years.
16. *Mental Diseases*.—A short course of 32 hours.

GENERAL.—Considerable time is classified under Section Teaching and Conferences. It is not easy to accurately apportion time between didactic and clinical work.

BUFFALO UNIVERSITY

1. The Entrance requirement is one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years—390 hours' practical work. Applied Anatomy in the 3rd year. Embryology—1st year—66 hours' laboratory work.
3. *Physiology*.—1st and 2nd years—132 hours of laboratory work and 188 hours of lectures.
4. *Histology*.—1st year—course not as strong as that of Toronto.
5. *Chemistry*.—1st and 2nd years—courses as long as those of Toronto.
6. *Pharmacology and Advanced Physiology*.—2nd year—course is longer than that of Toronto.
7. *Medicine*.—Including Clinical Pathology—Courses in the 2nd, 3rd and 4th years—weaker than Toronto in clinical work.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—compares favorably with Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—about the same in length as Toronto.
10. *Pathology*.—Courses in the 2nd, 3rd and 4th years—courses are extensive.
11. *Bacteriology*.—Courses in the 2nd year, similar in length to Toronto.
12. *Pediatrics*.—Courses in the 3rd and 4th years—longer than those of Toronto.
13. *Therapeutics*.—Courses in the 2nd, 3rd and 4th years—aggregating 110 hours.
14. *Jurisprudence*.—Course of 30 hours in the 4th year.
15. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—as long as Toronto courses.
16. *Hygiene*.—Courses in the 3rd and 4th years.
17. *Neurology and Psychiatry*.—Courses in the 3rd and 4th years.

GENERAL.—In didactic work Buffalo is on a par with Toronto; also in laboratory work. The inferiority is seen in the amount of clinical work.

HAHNEMANN MEDICAL COLLEGE

1. The Entrance requirement is one year of College work with Science.
2. *Anatomy*.—Including applied Anatomy, Histology, Neuro-Histology and Embryology—Courses in the 1st and 2nd years—not as extensive courses as Toronto gives.
3. *Physiology*.—A course in the 2nd year—much weaker than Toronto.
4. *Chemistry*.—Courses in the 1st year—as long as those of Toronto.
5. *Materia Medica, Therapeutics*.—Courses in the 1st, 2nd and 3rd years—heavy courses.
6. *Toxicology*.—A course in the 2nd year.
7. *Medicine*.—Courses in the 1st, 2nd, 3rd and 4th years, inferior in clinical work to Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—considerable clinical work.
9. *Obstetrics*.—Courses in the 3rd and 4th years—shorter than Toronto courses.
10. *Gynecology*.—3rd and 4th year courses—inferior to Toronto in clinical work.
11. *Pathology*.—Extensive courses in the 2nd, 3rd and 4th years.
12. *Bacteriology*.—A course of 90 hours in the 2nd year.
13. *Pediatrics*.—A course of 16 hours in the 4th year.
14. *Jurisprudence*.—A course of 32 hours in the 3rd year.
15. *Hygiene and Preventive Medicine*.—A course of 32 hours in the 4th year.
16. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—about the same as Toronto courses.
17. *Neurology and Psychiatry*.—Courses in the 3rd and 4th years—fully as long as those given by Toronto.

GENERAL.—Laboratory work is stressed. Clinical work is deficient.

UNIVERSITY OF TENNESSEE

1. The Entrance requirement is one year of College work, including Biology, Chemistry, Physics.
2. *Anatomy*.—Gross—Courses in the 1st and 2nd years—as extensive as Toronto courses. In addition there is a course in Embryology, longer than Toronto course.
3. *Physiology*.—Courses in the 1st and 2nd years—shorter than the courses of Toronto.
4. *Histology*.—A course in the 1st year—much shorter than Toronto course.
5. *Chemistry*.—A course in the 1st year—somewhat shorter in laboratory work than the course given by Toronto.
6. *Materia Medica and Pharmacy*.—A course in the 1st year.
Pharmacology and Therapeutics.—Courses in the 2nd and 3rd years—longer courses than those of Toronto.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—much weaker in clinical work than Toronto.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years with clinical work as extensive as that of Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—longer than the courses given by Toronto.
10. *Pathology*.—A course in the 2nd year with considerable laboratory work.

11. *Bacteriology*.—A course in the 2nd year of about the same length as Toronto course.
12. *Pediatrics*.—Courses in the 3rd and 4th years longer than the courses given by Toronto.
13. *Jurisprudence and Ethics*.—A course of 32 hours in the 3rd year.
14. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—of about the same length as those of Toronto.
15. *Hygiene*.—A course of 32 hours in each of the 2nd and 3rd years.
16. *Neurology*.—A course of 32 hours in the 3rd year.
17. *Psychiatry*.—A course of 52 hours in the 4th year—longer than that of Toronto.

GENERAL.—In amount of clinical work this College is very much inferior to Toronto.

VANDERBILT UNIVERSITY

The calendar is not sufficiently explicit to permit of a reliable tabulated statement of the courses.

BAYLOR UNIVERSITY

1. The Entrance requirement is one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*, including (1) *Gross Anatomy*, (2) *Osteology*, (3) *Embryology*, (4) *Neurology*, (5) *Topographical and Applied Anatomy*.—Courses in the 1st and 2nd years—a little longer than the courses given in Toronto.
3. *Physiology*.—Courses in the 1st and 2nd years, not quite as long as Toronto courses.
4. *Histology*.—A course in the 1st year—not as long as Toronto courses.
5. *Chemistry*.—Organic and Physiological—courses in the 1st and 2nd years—not as long as Toronto courses.
6. *Materia Medica, Pharmacy and Pharmacology*.—Courses in the 1st and 2nd years—not as long as Toronto courses.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—inferior to Toronto in clinical work.
8. *Surgery*.—Courses in the 2nd, 3rd and 4th years—inferior to Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—longer than those of Toronto.
10. *Pathology—General and Special*.—Courses in the 2nd and 3rd years—quite extensive.
11. *Bacteriology*.—In the 2nd year—150 hours of laboratory work.
12. *Pediatrics*.—Courses in the 4th year—more time than Toronto gives.
13. *Jurisprudence*.—A course of 30 hours in the 3rd year.
14. *Eye, Ear, Nose, Throat*.—Courses in the 4th year—longer than those of Toronto.
15. *Hygiene and Preventive Medicine*.—A course of 60 hours in the 3rd year.
16. *Nervous and Mental Diseases*.—A course in the 4th year—longer than the Toronto course.

GENERAL.—Didactic work is quite heavy. Clinical work is exceptionally light.

UNIVERSITY OF TEXAS

1. The Entrance requirement is one year of College work, including Physics, Chemistry, Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years—Laboratory work is heavier than that of Toronto. A course of 112 hours is given in Surgical Anatomy in the 3rd year.
3. *Physiology*.—Courses in the 1st and 2nd years—about 200 hours of laboratory work.
4. *Histology and Embryology*.—A heavy laboratory course in the 1st year.
5. *Chemistry—Organic and Biological*.—Courses in the 1st year—not as long as those of Toronto.
6. *Materia Medica*.—A course of 42 hours in the 1st year.
Pharmacy and Pharmacology.—Courses in the 1st and 2nd years.
7. *Medicine*.—Courses in the 2nd, 3rd and 4th years—inferior to Toronto in clinical work.
8. *Surgery*.—Courses in 2nd, 3rd and 4th year, including laboratory work—not inferior to Toronto.
9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years—more time than Toronto gives.
10. *Pathology*.—Courses in the 2nd and 3rd years not as extensive as Toronto courses.
11. *Bacteriology*.—A course in the 2nd year—similar to Toronto course.
12. *Pediatrics*.—Courses in the 3rd and 4th years—as long as those given by Toronto.
13. *Therapeutics*.—A course of 56 hours in the 1st year.
14. *Jurisprudence*.—A course of 38 hours in the 4th year.
15. *Eye, Ear, Nose and Throat*.—Courses in the 4th year longer than Toronto courses.
16. *Hygiene*.—A course of 28 hours in the 1st year.
17. *Nervous and Mental Diseases*.—Courses in the 3rd and 4th years—longer than those of Toronto.

UNIVERSITY OF VERMONT

1. The Entrance requirement is one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years—not as extensive as Toronto gives. Courses in Applied Anatomy are given in the 2nd and 3rd years.
3. *Physiology*.—Courses in the 1st and 2nd years—not as extensive as Toronto gives.
4. *Histology—Including Embryology*.—Two courses in the 1st year—not as extensive as Toronto gives.
5. *Chemistry*.—A course in the 1st year—much shorter than that given in Toronto.
6. *Materia Medica*.—A course of 33 hours of didactic work in the 2nd year.
Pharmacology.—A course in the 2nd year—much longer than that of Toronto.
7. *Medicine*.—Courses in the 3rd and 4th years, inferior in clinical work.
8. *Surgery*.—Courses in the 3rd and 4th years.

9. *Obstetrics and Gynecology*.—Courses in the 3rd and 4th years similar to Toronto.
10. *Pathology*.—Courses in the 2nd and 3rd years with considerable laboratory work.
11. *Bacteriology*.—A course in the 2nd year—similar in length to Toronto.
12. *Pediatrics*.—Courses in the 3rd and 4th years—longer than those of Toronto.
13. *Therapeutics*.—A course of 65 hours in the 3rd year.
14. *Jurisprudence*.—A course in the 4th year.
15. *Eye, Ear, Nose, Throat*.—Courses in the 3rd and 4th years—as long as those of Toronto.
16. *Hygiene*.—Course in the 3rd and 4th years—as long as those of Toronto.

GENERAL.—Strong on lecture work, but weak in the amount of clinical work.

NOTE.—In the 3rd year there are 188 hours of dispensary work, and in the 4th year 202 hours. In the 4th year there are also 392 hours of ward work.

UNIVERSITY OF VIRGINIA

1. The Entrance requirement is one year of College work, including Physics, Chemistry and Biology.
2. *Anatomy*.—Courses in the 1st and 2nd years—not as extensive as Toronto courses.
3. *Physiology*.—A course in the 2nd year—not as extensive as that of Toronto.
4. *Histology and Embryology*.—A course in the 1st year—not as extensive as that of Toronto.
5. *Chemistry—Organic and Physiological*.—Courses in the 1st year—similar to Toronto courses in length.
6. *Materia Medica and Toxicology*.—Courses in the 3rd year.
7. *Pharmacology*.—A course in the 2nd year—similar in length to Toronto.
8. *Medicine*.—Courses in the 3rd and 4th years—much inferior to Toronto.
9. *Surgery and Gynecology*.—Courses in the 3rd and 4th years—not up to Toronto in length.
10. *Obstetrics*.—Courses in the 3rd and 4th years—far heavier than Toronto courses.
11. *Pathology*.—A course in the 2nd year—260 hours.
12. *Bacteriology*.—A course in the 2nd year—much shorter than Toronto course.
13. *Pediatrics*.—A short course in the 4th year.
14. *Therapeutics*.—A course of 44 hours in the 4th year.
15. *Eye, Ear, Nose, Throat*.—A course of 160 hours in the 4th year—superior to Toronto.
16. *Hygiene*.—A course of 96 hours in the 4th year.
17. *Nervous and Mental Diseases*.—A course of 36 hours in the 4th year.

PART IV.

CONDITIONS

OF

Admission to Advanced
Standing

IN

MEDICAL COLLEGES

ADMISSION OF STUDENTS FROM OTHER COLLEGES

Each Medical College prescribes the conditions under which students from other colleges may be granted credit for work done and permitted to pursue courses for the degree of M.D. The conditions common to practically all Colleges are:—

1. Letters of honorable dismissal.
2. Attendance at accredited, acceptable or Class A Schools.
3. Preliminary education equivalent to that prescribed for admission to the College the applicant desires to enter.
4. Submission of credentials including statement of time and amount of work done, examinations passed.
5. One year of residence in College the applicant enters.
6. Courses completed to be of the same scope and extent as those for which credit is sought.
7. In some Colleges only graduates in medicine are admitted to the final year. As a rule admission is restricted to the second and third years.

ALABAMA.

University of Alabama.—Credentials from accredited schools showing the satisfactory completion of courses equivalent to those for which credit is asked. At the discretion of the school an examination may be prescribed.

CALIFORNIA.

University of California.—Evidence of satisfactory completion in a Class A School of Courses equivalent to those for which credit is asked. At the discretion of the Dean an examination may be prescribed.

Leland Stanford University.—No provision appears to be made for admitting students to Advanced standing.

COLORADO.

University of Colorado.—Evidence of satisfactory completion of all the work for which credit is asked. Applicants from Grade B Schools are admitted only on examination.

CONNECTICUT.

Yale School of Medicine.—Admission is granted only to the second and third years and on passing an examination. Candidates must be free from conditions. Certificates of unusual merit may be accepted in lieu of examinations.

DISTRICT OF COLUMBIA.

The George Washington University.—Applicants are required to pass an examination or to present certificates of examinations covering courses equal to those in this school.

Georgetown University.—Applicants must be from accredited colleges and present evidence of having passed satisfactory examinations in the branches for which credit is asked. The Dean shall obtain reports from the school from which the candidates wish to withdraw. Conditions must be removed.

Howard University.—Letter of honourable dismissal and credentials signed and sealed from the Dean or Secretary showing that he has been a registered student and in residence for the time for which credit is asked. Satisfactory evidence is required as to the amount and character of the work completed.

GEORGIA.

Atlanta School.—Credentials, "Passed cards," evidence of satisfactory attendance required. Deficiencies in as many as two branches may be made up by entrance examination on admission. None admitted with conditions.

University of Georgia.—Credentials covering High School and College work are passed upon. The applicant's record in all subjects of the course completed will be passed upon by the heads of the departments. An examination may be required.

ILLINOIS.

Northwestern University.—Applicant is required to present with official credentials letters of honourable dismissal. Admission to the fourth year is granted by special action of the faculty, and usually only to graduates in medicine.

University of Illinois.—Applicant is required to present letter of honourable dismissal and evidence of eligibility for promotion in the college from which he comes.

Scholarship and time credits are accepted for work done in medical colleges having standards equal to those of this college in so far as the work coincides with and is the full equivalent of the courses prescribed by the University.

Rush Medical College.—Applicant is required to submit full information *re* preliminary education, including college work in medicine, the exact number of hours given to each subject to be stated.

To students from schools whose standards are fully equivalent to those of this college credit may be given for time spent (estimated in months), and for work successfully completed, provided it is equivalent to corresponding work in this college.

INDIANA.

Indiana University.—Applicant is required to possess the entrance requirements prescribed by the Indiana State Board and by the college. Advanced standing is determined by evaluation of official credentials or by examination.

KANSAS.

University of Kansas.—Credit is granted for the first and second years upon examination to those who have successfully completed that work in acceptable schools.

KENTUCKY.

University of Louisville.—Applicant is required to present letter of honourable dismissal with certificate of work taken in a college whose curriculum and entrance requirements are equal to those of this college.

An examination on courses taken is prescribed, but in special cases it may not be necessary. But all credit is dependent upon the quality of the candidate's work during the first semester of residence.

LOUISIANA.

Tulane University.—Admission on evidence of work and attendance is granted to the second, third or fourth years.

MAINE.

Bowdoin College.—Applicant is required to present satisfactory evidence of completion of courses for which credit is asked. Admission is granted on examination.

MARYLAND.

The Johns Hopkins University.—Admission to students from acceptable colleges depends on vacancies. Applicant is required to submit satisfactory evidence of the completion of equivalent courses. No conditions are allowed. He must be prepared to pass examinations at the beginning of the session in all the subjects already taken by the class he desires to enter.

NOTE.—Applicants from Universities providing for a degree two years of collegiate and two years of medical work are not eligible for admission to the third year.

University of Maryland.—Provisions are not specified.

MASSACHUSETTS.

Harvard Medical School.—Applicant is required to submit the usual evidence of the successful completion of equivalent courses, including certificates of laboratory and practical work. He must pass examinations or receive credit for all examinations prescribed for the class he desires to enter. He must pass the first general examination to be admitted to the third or fourth class. This includes subjects of the first and second years. For the degree of M.D. one year of residence is required.

BOSTON.

Boston University.—Applicant is required to present the usual evidence of preliminary education and successful completion of equivalent courses.

Tufts College.—Admission is granted by examination or on presentation of satisfactory credentials.

MICHIGAN.

University of Michigan.—Applicant is required to present satisfactory evidence of full entrance requirements, attendance at approved medical school, successful completion of courses equivalent in character and amount to those prescribed by this college. Before entering he must pass examinations on all subjects already pursued by class he desires to enter.

Detroit College of Medicine and Surgery.—Applicant is required to submit satisfactory evidence *re* preliminary education, registration and residence in an accredited medical college, successful completion of courses of same scope and extent as those for which credit is asked. Graduates of other schools are required to attend the final year and to take the examinations.

MINNESOTA.

University of Minnesota.—Applicant is required to present official credentials of admission requirements equivalent to those of this school, also time and subject credits in medicine and records of successful examinations. Such examinations may be accepted at face value or be supplemented by review examinations.

MISSOURI.

Washington University.—Applicant is required to submit evidence (1) of having studied as a matriculated student in a medical school for a period at least equal to that spent by the class he seeks to enter, (2) of having fulfilled the terms of admission *re* preliminary education, (3) of having satisfactorily completed courses equivalent in kind and amount to those taken by the class he desires to enter. He must pass satisfactory examinations in the subjects for which he seeks credit.

NOTE.—(1) At the discretion of the instructors the examination may be waived.

(2) Students from schools whose entrance requirements are not equivalent to those of this school must take examinations in all the subjects for which they seek credit. See page 69 of calendar.

St. Louis University.—1. Time credit is given for attendance at legally qualified medical schools of high rank.

2. A student from a recognized school may receive subject credit provided he has passed satisfactory examinations in the branches completed and satisfies the Council that the work is the equivalent of that given in this college. Those who have not taken an examination or the character of whose work is in doubt must pass an examination.

NEBRASKA.

University of Nebraska College of Medicine.—Applicants are of two classes:

1. Those from institutions whose admission and graduation requirements are equal to those of this college are given full credit in so far as their work applies but not to exceed the senior year.

2. Those from other colleges are given credit in proportion to the rank of the institution from which they come.

Requirements.—Letter of honourable dismissal, certified evidence in detail of work done, including length of course in weeks, recitations, laboratory courses, grade received. Similar evidence *re* secondary school work is required. The granting of subject credit is at the discretion of the head of each department.

NEW YORK.

Columbia.—Applicant is required to present a medical student certificate based on at least two years of college work before beginning medicine and certified evidence of the successful completion of one or two years of study in a Class A School.

NOTE.—1. Provision is made for making up at a summer session deficiencies in Physiological Chemistry, Clinical Pathology and Physical Diagnosis.

2. No provision is made for admission by examination.

Cornell.—Applicant is required to have attended a Class A School. Certificates of attendance and courses signed by instructors to be submitted and approved. In the absence of approved certificates credit will be given on examination.

Syracuse.—Only students from the first division of Class A Schools will be admitted on certificates, certifying to the subjects completed, hours accredited and the grade attained.

Graduates from registered medical colleges may obtain degree of M.D. by presenting evidence of equivalent preliminary training, certificates of work done, by attending senior class and taking final examinations.

Albany.—Applicant is required to submit evidence of completion at approved school of the courses from which exemption is desired. He is also required to pass examinations prescribed by the heads of the department.

Fordham.—Admission is granted only to the second and third years. For a degree an applicant is required to spend the third and fourth years at the college. He is required to present certificates of the satisfactory completion of the work already taken.

The Long Island Cottage Hospital.—Applicant is required to submit a medical student certificate, to meet entrance requirements of the class he seeks to enter, to present satisfactory evidence of the courses he has taken. Only two conditions are allowed.

University of Bellevue Hospital.—In addition to meeting the entrance conditions an applicant is required to submit evidence of the successful completion of certain laboratory courses, and unless his credentials are accepted he is required to pass certain examinations. Admission is granted only to the second and third years.

Buffalo.—Admission to any class is subject to conditions prescribed by the Council on Medical Education of the American Medical Association and by the Administrative Board.

Admission to the fourth year is granted only upon the action of the Administrative Board.

OHIO.

Ohio State University College of Medicine.—Under certain conditions graduates in Arts or Science or graduates of Colleges of Pharmacy or Dentistry may be given subject credit in Chemistry, Physiology or Bacteriology on presentation of satisfactory credentials.

Students from acceptable Medical Colleges may be admitted on presentation of satisfactory credentials *re* entrance requirements, registration

as medical students, residence in college, completion of courses of same scope and extent as those for which they seek credit; they must satisfy the head of each department of their proficiency.

Western Reserve University.—Advanced time credit is given only for residence in accredited medical schools. Students who have commenced their course in other colleges on the six-year Combined Course will be required to drop back one year in their classification in order to meet seven-year minimum requirement of this school. Acceptable credits will relieve them of subjects.

OREGON.

University of Oregon Medical School.—Credits are given to students from other recognized medical institutions whose entrance requirements and standard of work are equivalent to those of this school. A certificate of honourable discharge and evidence (such as laboratory note-books) of the exact amount of work successfully completed are subject to the approval of the heads of the department concerned and of the Dean.

PENNSYLVANIA.

Hahnemann Medical College.—Students who have attended one or more annual terms in other registered Medical Colleges may matriculate and enter the following annual term provided they can meet the requirements of the Pennsylvania Bureau of Professional Education.

Jefferson Medical College.—Applicants shall comply with entrance requirements. Credentials from Class A Medical Colleges are accepted without examination so far as they cover the work of the year or years for which credit is desired provided they are eligible for promotion in the college from which they come. A certificate of honourable dismissal is required. Applicants must comply with promotion requirements in this college, that is, not more than one condition shall be allowed in the second and third years.

University of Pennsylvania.—Usual conditions *re* admission requirements, attendance at Class A School, evidence of successful completion of equivalent courses. Examinations are at the discretion of the heads of the departments; letter of honourable dismissal—no condition. Admission to the fourth year depends upon the practicability of adjusting the curricula of the two schools.

University of Pittsburgh.—Compliance with preliminary education requirements, submission of properly certified records of work. Standing is granted on the merits of the credentials; otherwise examinations are necessary.

Women's Medical College of Pennsylvania.—Students of Class A School are eligible for admission to any year except the fourth on presenting the necessary credentials. Graduates of a school requiring four years may be admitted to the fourth year. Examinations may be prescribed.

SOUTH CAROLINA.

Medical College of South Carolina.—Admission is granted to students from other colleges of equal grade upon submitting satisfactory credentials. The entire work of the senior year must be taken in residence to qualify for the degree.

TENNESSEE.

University of Tennessee College of Medicine.—I. Students from standard colleges of liberal arts or science may secure subject credit on submitting satisfactory evidence of successful completion of equivalent courses. Subject credits cannot shorten the four years of medical residence required for graduation.

II. Time and subject credit for courses already taken in Medicine may be granted on the usual conditions *re* entrance requirements, honor of dismissal, residence as a matriculated medical student for not less than one year as the residence of the class he desires to enter, a detail of all courses taken.

III. (1) To students from Class A Schools time credit is given for not more than three years, and subject credit, without examination, in all subjects for which certificates of attendance and passes are held. (2) To students from Class B Schools time credit for not more than two years, and subject credit without examination in those subjects of the first and second years for which he holds certificates of attendance and passes which are acceptable to the Committee. (3) To students from Class C Schools time credit for not more than one year, and subject credit for the courses of the first year by examination only.

Vanderbilt University.—A student who has attended one or more courses at a Medical College which is a member of the Association of American Medical Colleges and which is in Class A, will be allowed credit on presenting credentials from the Dean as to moral qualifications and the exact work done.

TEXAS.

Baylor University College of Medicine.—Students who have attended one or more official courses in a Class A Medical College, and whose entrance credentials are equivalent to those of the class he desires to enter shall, upon examination, receive credit. Students from Class B Schools are not granted standing higher than entrance to the third year. Credit is granted only on the recommendation of the head of each department. Students from Class C School are not granted standing higher than entrance to the second year, and then only after thorough examinations in all first year subjects have been passed.

University of Texas.—Admission may be granted on receipt of satisfactory evidence *re* equivalent preliminary education, *re* equivalent courses, didactic and practical laboratory or clinical, and by passing examinations with a grade of sixty per cent. A statement of honourable dismissal is also required.

VERMONT.

The University of Vermont.—Students from other accredited Medical Schools must meet the same standard of preliminary education and be subject to the same rules in regard to advancement as students in this college.

VIRGINIA.

The University of Virginia.—Admission is granted to the second or the third year; applicants are required to satisfy entrance conditions. Certificates from accredited schools, showing the completion of equivalent work to that for which credit is sought, exempts candidates from examination.

Medical College of Virginia.—Admission may be granted to the second, third and fourth year upon the presentation of satisfactory certificates of having completed the work and of having successfully passed the examinations of the preceding year or years. No exemption from the examinations of the senior year is allowed.

WISCONSIN.

Marquette University.—Applicants must meet the entrance requirements in force at the time the class they wish to enter was admitted to the first year. For time credit, official credentials must be submitted from the Registrar, and for subject credit, a detailed statement of credits. This statement must be accompanied by certificates from the Registrar, a catalogue of the courses, note-books of laboratory work. An examination may be prescribed. No advanced standing will be granted to students from Class C Schools and from Class B Schools not higher than entrance to the second year.

PART V.

STATE BOARDS

In the case of the State Boards listed herein a brief statement is submitted, the object being to show as concisely as possible the requirements for a license to practice medicine.

ALPHABETICAL LIST

Note.—Information in the case of the following State Boards has not been obtained: Kansas, Maine, Michigan, Nebraska, South Carolina, Texas.

ALABAMA

A circular from the office of the State Board of Medical Examiners, dated June 1, 1916. Source of Information.

Every applicant for a license must undergo an examination. Examination Imperative.

1. A diploma from a reputable medical college must be presented before registration for the examination will be allowed. Requirements.

2. Each applicant must furnish, at the time of registration, his diploma, an unmounted photograph, and other evidence of identity.

Anatomy, Chemistry, Physiology; the Etiology, Pathology and Symptomatology of Diseases; Surgery, Obstetrics and Gynecology; Physical Diagnosis, Hygiene and Medical Jurisprudence, Diseases of the Eye, Ear, Nose, Throat. Examination subjects.

Examinations are held twice a year, on the second Tuesday in January, and on the second Tuesday in July. Time of Examinations.

The fee is ten dollars. Fee.

The standard is seventy-five percent. Standard.

CALIFORNIA

An Act Regulating the practice of Medicine and Surgery, April 1915, and Information Blank. Source of Information.

The Board consists of ten members, appointed by the governor, each of whom shall have been a citizen of the State for at least five years next preceding his appointment, and shall hold a license under one of the Medical Practice Acts of the State. The term of office is four years. Members shall not own any interest in any College or School engaged in medical instruction, nor shall more than one member be appointed from the Faculty of any one University, College, or any other educational institution. Composition of Board.

A.—Preliminary Education.

1. Diploma from a California High School, four years' course or its equivalent. Application for Physician's and Surgeon's Certificate.

2. Evidence of having passed a satisfactory academic examination acceptable for admission to the academic department

of the University of California, Stanford University or the University of Southern California.

3. After January 1, 1919, there will also be required evidence of one year of work of college grade in each of Chemistry, Physics, and Biology.

B.—Professional Examination.

Applicants must have attended in an approved school four courses of study of not less than 32 weeks each. The minimum requirements are as follows:—

Group 1.—775 hours.	hours.		hours.
Anatomy	550	Genito-Urinary Diseases..	45
Embryology	75	Nervous and Mental Dis-	
Histology	150	eases	110

Group 5.—940 hours.		Obstetrics	165
Dermatology and Syphilis	45	Miscellaneous	30
General Medicine and Gen-		Ethics, Jurisprudence, etc.	30
eral Diagnosis	600	Total	4,000

C.—Subjects of Examination.

Applicants for Physicians' and Surgeons' certificates filing an application fulfilling requirements listed under subdivision A and B, must pass a written examination in the following subjects: Anatomy and Histology, Physiology, Bacteriology, and Pathology, Chemistry and Toxicology, Obstetrics and Gynecology, Materia Medica and Therapeutics, Pharmacology, including Prescription Writing, General Medicine, including Clinical Microscopy, Surgery, Hygiene, and Sanitation.

- Fee.** The fee is twenty-five dollars.
- Reciprocity.** There is provision for granting certificates by reciprocity.

COLORADO

Source of Information. An Act Relating to the Practice of Medicine in the State of Colorado.

Composition of Board. The Board is composed of nine practising physicians of integrity and ability, licensed to practice in the State. They are appointed by the Governor.

An applicant may be granted a license without examination. ^{License without Examination.}
In determining this question, the Board shall consider his general reputation, preliminary education degrees received from educational institutions, licenses to practice in other States, practice and hospital experience, etc.

A candidate may elect to take the examination.

Examination

The subjects of examination are:—Anatomy, Physiology, Chemistry, Symptomatology, Toxicology, Pathology, Surgery and Obstetrics.

Subjects.

Seventy-five per cent.

Standard.

Twenty-five dollars.

Fee.

DISTRICT OF COLUMBIA

Circular from the office of the Board of Medical Supervisors. ^{Source of Information.}

Licenses may be issued either (a) after examination, or (b) upon the basis of license issued by other States and countries. ^{Licenses.}

Examinations are held quarterly in January, April, July and October. ^{License by Examination.}

A fee of ten dollars must accompany the application. ^{Fee.}

Only those who hold the degree of Doctor of Medicine are admitted to the examination. ^{Those who may be admitted.} Those who received the degree before June 30th, 1898, must have studied medicine not less than three years, and those who received it after that date have studied not less than four years before graduation. The applicant must present his diploma.

The examination is oral and written. It includes: Anatomy, Physiology, Chemistry, Bacteriology, Pathology, Materia Medica and Therapeutics, Hygiene, Histology, Practice of Medicine, Surgery, Obstetrics, Gynecology, Diseases of the Eye and the Ear, Medical Jurisprudence, and such other branches as may be from time to time determined by the Board of Medical Supervisors. ^{Examination Subjects.}

1. Applicant must be of good moral character, and free from mental defects and drug habits. ^{License by Reciprocity.}

2. He must be in good standing as a Physician in the jurisdiction in which he resides.

3. The conditions under which he acquired the right to practice must have been equivalent to those with which he would have had to comply in order to have practiced in the District of Columbia.

4. The jurisdiction, whose license the applicant holds, must grant to licentiates of the Board of District of Columbia privileges equivalent to those he seeks.

5. The applicant must pay the fee, fixed and required by the regulations of the Board—said fee to be not more than that charged under similar circumstances by the jurisdiction whose license he holds.

CONNECTICUT

Source of Information.	Rules for Examination issued by Medical Examining Board.
Qualifications of Applicants.	All candidates must be graduates of an acceptable Medical College (Class A or B). They must present to the Secretary at least two weeks before the examination: <ol style="list-style-type: none">(a) Medical Diploma.(b) Diploma from an accredited High or Preparatory School, or evidence of its equivalent.(c) For all graduates in Medicine after January 1st, 1915, a certificate of the successful completion of the first year in a recognized Scientific School or College of Liberal Arts in which were taken full academic year courses in Chemistry, Physics, and General Biology, before beginning Medicine.
Examination.	The examination is conducted in writing, but practical demonstrations may be expected Examinations consist of ten questions in each of the following subjects, usually in the order named: 1. Anatomy. 2. Physiology. 3. Surgery. 4. Obstetrics, including Gynecology. 5. Hygiene and Medical Chemistry. 6. Materia Medica, including Therapeutics. 7. Practice, including Pathology and Diagnosis. Questions in the specialties under respective headings.
Standard.	Average of 75 per cent.
Fee.	Fifteen dollars.
No Reciprocity.	A license or an examination in another state is not accepted.

GEORGIA

Source of Information.	An Act to establish a composite Board of Medical Examiners, approved August, 1913.
Composition of Board.	Ten practicing physicians of integrity and ability, residents of and duly licensed to practice medicine in the State; graduates of reputable medical schools and with five years' experience in this State, appointed by the Governor.
Application for License.	<ol style="list-style-type: none">1. Evidence of good moral character.2. Preliminary educational requirement is fourteen Carnegie units.
Standing of Medical College.	The Board has the power to pass on the standing and reputation of colleges.
Subjects of Examination.	An applicant for a license is required to pass on Anatomy, Physiology, Chemistry, Hygiene, Surgery, Obstetrics, Gynecology, Pathology and Diagnosis.
Fee.	The fee is twenty dollars.

ILLINOIS

Illinois Medical Practice Act, 1915.

Source of
Information.

The Board is known as the State Board of Health.

Name of
Board.

The composition of the Board is not given. It may be assumed that the same is specified in another Act.

Composition
of Board.

Application for a license shall be in writing and accompanied by the fee, proof of good moral character, proof also that the applicant is a graduate of a medical college in good standing, as may be determined by the Board.

Application.

If the application is found to be satisfactory, the candidate shall be summoned for examination. The examination may be in whole or in part in writing. It shall embrace the general subjects and topics, a knowledge of which is required for the degree of doctor of medicine by reputable medical colleges.

Examina-
tion.

Note.—1. The examination subjects are not stated.

2. Graduates of legally chartered medical colleges in Illinois, in good standing, may be granted certificates without examination.

The State Board of Health has the power to establish the standard of preliminary education for admission to a medical college.

Preliminary
Education.

Note.—The State Board does not recognize the examinations for admission that have been conducted by the Faculty of a Medical College.

There is provision for granting a license without examination on the payment of the fee to one who has been licensed in another State, provided that similar privileges are accorded by that State.

Reciprocity.

The fees for examination are ten dollars in medicine and surgery, and five dollars for certificate.

Fee.

INDIANA

(1) Indiana Medical Law of 1897, with amendments of 1899, 1901, 1905 and 1909.

Source of
Information.

(2) Circular of information, "How to Obtain a License to Practice Medicine in Indiana."

Five members appointed by the Governor—two to serve for one year, one for two years, one for three years, and one for four years; their successors for four years each. There is provision whereby no school or system of medicine may have a majority on the Board. The members are selected from reputable physicians of the State, graduates of a college of good repute. No professor or teacher in a medical college can be appointed. Each of the four schools or systems of medicine having the largest numerical representation in the State is entitled to one representative on the Board.

Composition
of Board.

**Preliminary
Education
for
License.**

Applicants who obtained their medical and preliminary education in a State other than Indiana must meet practically with the same requirements that were in force in Indiana at the time of their matriculation.

Applicants matriculating subsequent to Jan. 1st. 1911, are required to submit satisfactory documentary evidence of having completed one-half of the work in a recognized university or College of Arts and Science, for the degree of B.S.

Only graduates of colleges recognized by the State Board at the time of graduation will be recognized.

A diploma from a High School or Academic School outside this province must be accompanied by a statement from the State Department where the school is situated that it is a first-grade school.

Only graduates of colleges recognized by the Indiana State Board are eligible to secure a license.

Fee.

The fee is twenty-five dollars.

**Examination
Subjects.**

Anatomy, including Histology and Embryology, General Surgery, Materia Medica and Therapeutics, Theory and Practice, Obstetrics, Pathology, Bacteriology, Chemistry, Hygiene, Sanitation, Physiology, Neurology, Gynecology, Medical Jurisprudence, Physical Diagnosis, Otology, and Pediatrics. Examination consists of 100 questions—1,000 possible points. A general average of at least 750 points must be obtained, not falling below 75 per cent. in Physiology, Obstetrics, Medicine, and Physical Diagnosis, nor below 60 per cent. in any of the remaining subjects of examination.

There is provision for taking part of the examination at the end of the second year in Anatomy, Pathology, Bacteriology, Chemistry, and Physiology.

Reciprocity.

License may be obtained through reciprocity. The fee is fifty dollars. The applicant must have practised for one year in the State from which he comes. If he holds a license for more than one State, he must furnish official endorsement of each State.

Indiana has reciprocal relations with many States.

1. *On the basis of examination.*

Georgia, Illinois, Louisiana, New Hampshire, New Jersey, New York, North Dakota, Pennsylvania, Texas, Virginia and Wyoming.

2. *On the basis of either examination or diploma, provided diploma and license were issued prior to March, 1901.*

Arkansas, Colorado, District of Columbia, Kentucky, Maine, Maryland, Michigan, Minnesota, Missouri, Mississippi, Nebraska, Nevada, North Carolina, Ohio, Oklahoma, Tennessee, Utah, Vermont, West Virginia, and Wisconsin.

KENTUCKY

Circular of information from State Board and pamphlet ^{Source of information.} containing amendments of 1904.

Eight members, legally qualified registered practitioners under the medical law of the State—seven appointed by the Governor, by and with the advice and consent of the Senate; the eighth shall be secretary and executive officer, and shall be appointed by the Board. One shall be a homeopathic, one an eclectic, one an osteopathic, the others allopathic. The Governor shall select from lists of three names for each vacancy. No member shall be a stockholder or member of the faculty or board of trustees of any medical college. ^{Composition of Board.}

1. A diploma from a reputable medical college, legally chartered under the laws of this State; or
2. A diploma from a reputable and legally chartered medical college of some other State in the Union; or
3. Satisfactory evidence from the person claiming the same that such person was reputably and honorably engaged in the practice of medicine in this State prior to February 23, 1884. ^{Requirements for Admission to Examination.}

Anatomy (including Histology and Embryology), Physiology, Pathology, Chemistry, Surgery, Obstetrics, Gynecology, Bacteriology, Hygiene, Ophthalmology, Otology, Medical Jurisprudence, Mental and Nervous Diseases, Materia Medica and Practice of Medicine, Etiology and Physical Diagnosis. Practical examination with the Microscope will be given when possible. ^{Subjects of Examination.}

Three days. ^{Length of Time.}

An average of 70 and a grade of not less than 60 in any branch. ^{Standard.}

Only *bona-fide* residents of this State, and graduates of recognized colleges located within the United States. ^{Eligible for Admission.}

Note.—An application must be accompanied by an unmounted photograph of the applicant on the reverse side of which must have his or her full signature, duly attested under the seal of some official of this State authorized to administer oaths.

To be classed as "reputable" a medical college shall comply with the following:— ^{Reputable Medical Colleges.}

1. It shall exact the State Board requirements for matriculation.
2. It shall literally observe its own requirements for admission, tuition, attendance, graduation.
3. It shall have adequate equipment for instruction in the various departments.
4. It shall have clinical and hospital facilities based upon a minimum municipal population of 75,000.

5. It shall require attendance upon 80 per cent. of each of four courses of not less than thirty continuous weeks in four separate years.
6. In the cases of students admitted to advanced standing from other colleges, such shall not receive credit for work beyond the third year; full credentials on the standing of such students shall be required. The applicant must also have passed the second and third year examinations before a State Board.

Admission to Medical Colleges.

The State Board prescribes the minimum educational requirement—a certificate from a preliminary examiner appointed and under the control of the State Board of Examiners of the State in which the college is situated. The credentials acceptable are:—

1. A diploma from a reputable college granting a degree of A.B. or B.S.
2. A diploma from a registered High School, Normal School, or seminary legally constituted and issued after four years of study.
3. A teacher's permanent certificate.
4. A certificate of admission to a university that is a member of the Association of American Universities.
5. A certificate of admission for entrance to the freshman year from a reputable college or university, issued upon a minimum of 15 units, 30 points or 60 counts of academic work.

LOUISIANA

Source of Information. Rules and Regulations of State Board of Medical Examiners and the Medical Law of Louisiana.

Requirements for Examination.

Each applicant must be twenty-one years of age.

He must have had an education equal to a four-year High School course, the equivalent of fourteen units. There is provision for accepting equivalents.

After June, 1915, an applicant will be required to submit evidence of the successful completion at an approved college of one full year of work in Biology, Physics, Chemistry, and French or German.

Examination.

Applicants are given ten questions in each of the following branches:—Anatomy, Chemistry, Gynecology, Obstetrics, Pathology, Physiology, Surgery, Materia Medica, five questions on Physical Diagnosis, and five questions in Theory and Practice of Medicine.

Reciprocity.

There is provision for granting license without examination.

Fee.

The fee for examination is twenty-five dollars. The fee for a license by reciprocity is fifty dollars.

MARYLAND

Law Regulating the Practice of Medicine in Maryland, 1916. Source of Information.

Since June, 1902, there have been two Separate Boards: (1) Two Boards. One representing the Medical and Chirurgical Faculty of the State; (2) The other representing the State Homeopathic Society of the State. Each consists of eight members selected by the Medical and Chirurgical Faculty of the State and by the Maryland State Homeopathic Medical Society respectively. Two are elected for four years, two for three years, two for two years, and two for one year. Thus two are elected each year. Each has exclusive right to examine, pass upon qualifications, and license its applicants. No examiner shall be a member of any Medical College or University in which he passes upon the qualifications of graduates.

At the first meeting of a Board or at a stated or special Examination Subjects. meeting steps are taken to arrange for examinations in Anatomy, Physiology, Medical Chemistry, Surgery, Practice of Medicine, Materia Medica, Therapeutics, Obstetrics and Pathology.

Application shall be made to the president of the Board. Application. The applicant shall submit satisfactory proof that he is twenty-one, is of good moral character and has received either a Age, Character, Diploma. diploma conferring the degree of M.D. from a legally incorporated Medical College in the United States or a diploma or license conferring the full rights to practice all the branches of medicine and surgery in some foreign country. The diploma, if from a college in the United States, must have been conferred by a legally incorporated college having entrance Entrance. requirements and a standard of education as defined by the Association of American Medical Colleges.

License may be granted without examination to applicants License without Examination. who present proper certificates of proficiency and professional standing issued by the National Board of Medical Examiners or Boards of Medical Examiners of the District of Columbia and of other States, the requirements of which are of as high a standard as those of Maryland, provided that such States or districts grant the same privileges to licentiates of Maryland.

Medical students at the end of their second year of study Examination at end of Second Year. who have completed the studies of Anatomy, Physiology, Medical Chemistry, and Materia Medica, on application shall be examined therein by the State Licensing Board. The result shall be considered part of the final examination.

Diplomas from graduates of foreign colleges may be accepted if the standard of such colleges were, when issued, the Diplomas from Foreign Colleges. equivalent of the standard defined by the Association of American Medical Colleges.

Twenty dollars. Fee.

MASSACHUSETTS

Source of Information. Public Document No. 56, being the 22nd Annual Report of the Board of Registration in Medicine for the year ending December 31, 1915.

Composition of Board. Seven persons, graduates of legally chartered medical colleges, ten years actively employed in the practice of medicine. No member shall belong to the faculty of a medical college, and no more than three shall at any one time be members of any chartered State Medical Society.

Meetings shall be held in March, July and November.

- Application for Registration.**
1. Application to be signed and sworn.
 2. Satisfactory proof to be submitted that applicant is 21 or over, of good moral character, that he has received the degree of M.D. or its equivalent from a legally chartered medical school having the power to confer degrees in medicine.
 3. Fee—\$20.00.
 4. Board of examiners—four.
 5. Subjects of examination—Anatomy, Surgery, Physiology, Pathology, Obstetrics, Gynecology, Practice of Medicine, Hygiene.

NOTE.—No mention is made of academic qualifications.

MINNESOTA

Source of Information. Medical Practice Act from Secretary.

Composition. Nine qualified resident physicians appointed by the governor.

Examination. Examinations are held in January, April, June and October.

Requirements. (1) Successful completion of four entire sessions of twenty-six weeks each at a recognized medical school.

(2) The subjects in which an applicant shall be examined are, Anatomy, Physiology, Chemistry, Histology, Materia Medica, Therapeutics, Preventive Medicine, Practice of Medicine, Surgery, Obstetrics, Diseases of Women and Children, Diseases of the Nervous System, Diseases of the Eye and Ear, Medical Jurisprudence and such other branches as the board shall deem advisable. A practical examination is required in Laboratory work in Pathology, Histology, Bacteriology and Urinalysis and in Clinical Diagnosis.

Reciprocity. Under certain conditions Minnesota reciprocates with other State Boards.

MISSOURI

Circular from Missouri State Board of Health.

Source of Information.

It is required of applicants that they shall be graduates of an accredited High School or State Normal School, College, University or Academy, or be the possessors of a certificate from a County School Commissioner certifying that they have satisfactorily passed an examination equivalent to a grade from an accredited High School or State Normal School, College, University or Academy.

Requirements (a) Preliminary.

It is required of all applicants who have graduated since March 12, 1901, that they shall have received a diploma from some reputable medical college of four years' requirements at the time of graduation. If graduation occurred prior to March 12, 1901, it is required that applicants shall have received a diploma from some reputable medical college of two years' requirements.

(b) Medical.

Examinations are conducted in the branches of Anatomy, Chemistry, Physiology, Therapeutics, Obstetrics, Gynecology, Surgery, Practice of Medicine, Bacteriology, Medical Jurisprudence, Hygiene, Ophthalmology, Pathology and Pediatrics. Applicants are required to answer seventy-five per cent. of such questions as are asked them before being granted a certificate.

Examinations

The fee for examination for a license is fifteen dollars.

Fee.

NEW YORK

Handbook issued by the University of the State of New York on Higher Education.

New Source of Information.

Board of Regents of the University of the State of New York.

New Name of Board.

Nine members appointed by the regents. They hold office for three years. The regents annually appoint three to fill vacancies. No one shall be appointed who is not eligible to receive a license.

Composition of Board of Medical Examiners.

1. *Academic Standing*—Medical student certificate. Admission to Examination. Qualifications. A certificate may be obtained by presenting evidence of successful completion of four years' work in an approved secondary school and of one full year's work in an approved college or university.

Similar provision is made for those prepared in another state or country.

2. *Professional Requirement*.—Four satisfactory courses at least seven months each in four different calendar years in medical schools registered by the regents as maintaining satisfactory standards.

3. *Licensing Examination.*—A candidate is required to pay fee of \$25.00, submit evidence verified by oath and satisfactory to the department that he is,

- (1) More than 21, (2) of good moral character, and
- (3) has met the preliminary and professional requirements specified above.

Examination Subjects.	Anatomy, Physiology, Chemistry, Hygiene, Sanitation, Surgery, Obstetrics and Gynecology, Pathology and Bacteriology, Diagnosis.
Standard.	Minimum of 75 per cent.
Partial Examination.	There is provision for an examination in Anatomy, Physiology, Chemistry, for those who are 19 and who have completed two years of study in a medical college.
License by Indorsement.	There is provision for indorsing the medical license of other States provided all other requirements of the New York State have been met.
License by Approval.	There is provision for indorsing the license of a physician from another State on the approval of the regents.

OHIO

Source of Information.	Rules and Regulations, State Medical Board, January, 1916.
Composition.	Seven members, physicians in good standing, appointed by the governor with the advice and consent of the senate.
Application for License.	Application shall be made under oath. Proof shall be submitted that the applicant is twenty-one and of good character.
Entrance Examiner.	The board shall appoint an Entrance Examiner who shall not be directly or indirectly connected with a medical college and who shall determine the sufficiency of the preliminary education of applicants.
Sufficient Educational Credentials.	A diploma from a reputable college granting the degree of A.B., B.S., or equivalent degree. A diploma from a secondary school after a four-year course. A teacher's permanent life certificate. A student's certificate of examination for admission to the freshman class of a reputable literary or scientific college. In the absence of the foregoing the examiner may examine the applicant in the branches required for graduation from a high school.
Certificate and Diploma to be Presented.	The applicant must present a certificate from the Entrance Examiner and a diploma from a medical institution in good standing.
Examination.	Anatomy, Physiology, Pathology, Chemistry, Materia Medica and Therapeutics, the Principles and Practice of Medicine, Diagnosis, Surgery, Obstetrics and such other subjects as the board requires.

OREGON

An Act, Chapter 252, Laws of Oregon for 1915.

Source of
Information.

An applicant for a license to practice medicine in Oregon is required to submit satisfactory evidence of graduation from a medical college, four terms of instruction of eight months each.

Require-
ments.

The application shall be supported by an affidavit setting forth the time spent in the study of medicine and surgery, the time spent in the practice, if at all, of medicine.

The subjects of examination are:

Examina-
tion.

Anatomy, Physiology, Chemistry, Materia Medica, Therapeutics, Practice of Medicine, Surgery, Obstetrics, Diseases of Women, Medical Jurisprudence and such other branches as the Board may deem advisable.

Ten dollars.

Fee.

The holder of a license from a State that recognizes licenses issued by this State on submitting a certificate from his State Board certifying that he is well qualified to practice medicine and surgery, and that it had subjected him to a thorough examination, on paying the fee of \$25.00, may be granted a license without examination.

Reciprocity

PENNSYLVANIA

Bulletin No. 5 issued January, 1917.

Source of
Information.

Admission to medical practice is granted by the Bureau of Medical Education and Licensure (1) on the results of an examination, (2) as a result of reciprocity with other States.

Name of
Board.

Applicants must (1) meet the preliminary requirement, (2) meet the professional requirement, and (3) pass the licensing examination.

License by
Examina-
tion.

Satisfactory completion of four-year high school course, one year of college work with credits in Biology, Chemistry, and Physics. Applicant must also submit a certificate of preliminary education issued by the Bureau of Professional Education. The amount and character of the work are detailed in the bulletin.

Preliminary
Require-
ment.

Attendance on four graded courses of not less than thirty-two weeks of not less than thirty-five hours each in different calendar years in a reputable and legally incorporated medical school or college, recognized by the Bureau of Medical Education and Licensure, and a year as interne in an approved hospital.

Professional
Require-
ment.

A candidate must pay a fee of \$25.00, submit evidence verified by oath that he is 21 years of age, of good moral character, is not addicted to the intemperate use of alcohol or narcotic drugs, and has met the preliminary and professional requirements.

Subjects
of Ex-
amination.

Anatomy, Physiology, Chemistry as applied to medicine, Hygiene and Preventive Medicine, Pathology as applied to Medicine, Bacteriology, Symptomatology, Diagnosis, Surgery, Gynecology and Obstetrics, Medical Jurisprudence and Toxicology, Practice and Materia Medica and Therapeutics.

Special
Examina-
tion.

A special examination at the bedside may be held for applicants graduated from extinct schools in the United States.

Time of
Examina-
tions.

July and January.

License by
Reciprocity.

The basis on which reciprocity shall obtain between Pennsylvania and any other State is a license earned by examination. Applicants must be graduates of colleges recognized in good standing.

Some
Rules and
Regulations
of the
Bureau
of Medical
Education.

1. Each applicant shall present from the Bureau of Professional Education a certificate covering the required preliminary education.

2. He shall produce evidence that prior to graduation (1) he personally attended not less than twelve cases of obstetrics, (2) Assisted at not less than six surgical operations in the operating rooms, (3) administered under competent supervision an anesthetic not less than six times, and (4) participated in not less than six autopsies.

3. He shall acquire a general grade of not less than 75 per cent.

TENNESSEE

Source of
Information.

House Bill No. 726 and Senate Bill No. 365 with amendments.

Composition
of Board.

Three members to be known as the State Board of Preliminary Examination—appointed by the governor. They shall be educators of recognized standing.

Fee.

Each applicant for the preliminary examination shall pay a fee of five dollars.

Require-
ments.

1. An applicant is required to present himself to the State Board of Preliminary Examination or to transmit to said board his general educational credentials. He may register with the board before entering a medical school, his high school diploma or its equivalent and shall submit such other evidence as may be required.

2. The Board requires satisfactory proof of the successful completion of a four-year course embracing Anatomy, Physiology, Pathology, Surgery, Gynecology, Obstetrics, Chemistry, Bacteriology, Symptomatology, Diagnosis, Hygiene and Sanitation.

3. After 1919 all applicants will be required to have a diploma from a medical school, whose curriculum is as high as that of the University of Tennessee.

If the applicant's qualifications are found to be satisfactory he is granted a certificate authorizing him to take the professional examination. The subjects are: Anatomy, Physiology, Materia Medica and Therapeutics, Chemistry, Practice, Pathology, Surgery and Obstetrics. Professional Examination.

VIRGINIA

Medical Bill, February, 1916.

Source of Information.

The Board of Medical Examiners consists of one member from each congressional district in the State and five from the State at large, two being homeopathic. It was provided that in 1914 one should be homeopathic and one osteopathic. The term of office shall be four years, and the members shall be legal and active practitioners. Board.

The members shall be appointed by the governor from a list of names to be recommended by the Medical Society of the State, except the homeopath and osteopath, who are nominated by their respective State Medical Society. Appointments.
