WILL SPEND \$700,000 ON IMPROVEMENTS IN CITY

Public Works Estimates at Ottawa Show a Cut of \$4,000,000, and Total of About \$150,000,000, Nominal Reduction of \$6,000,000—Less for Navy, More for Militia—\$25,000,000 for N.T.R.

BIG HARBOR PLANS FOR TWIN CITIES

OTTAWA, Jan. 10.—(Special.)—The first main estimates of the new government were laid on the table of the house this afternoon by Hon. W. T. White, minister of finance. They show a total appropriation of \$149,789,877, as against \$155,079,538 for the year 1911-12. As compared with the total estimate presented to parliament by the Laurier government last year, this shows a decrease of \$6,289,661, but as compared with the main estimates brought down by Mr. Fielding, there is an increase of \$10,926,477. Mr. Fielding's main estimates totaled \$138,863,200, to which were subsequently added three supplementary appropriations aggregating \$17,250,080. Until the supplementary estimates of the present are brought down later in the session it is impossible to make a definite comparison as between the expenditure for the current year and the year which will commence on April 1 next. The total for 1912-13, as brought down to-day, is made up of \$104,919,514 on consolidated account and \$44,870,372 on capital account, as against \$109,616,917 and \$46,462,621 respectively in 1911-12, showing decreases of \$4,697,403 on consolidated revenue account and \$1,592,248 on capital account.

Cut in Public Works. The largest decrease occurs in the public works estimates, amounting to \$4,065,650, the total for the year being \$14,530,380. Under the heading of arts, agriculture and statistics, there is a decrease of \$310,000 accounted for by the absence of the appropriation for the census. The total for this year amounts to \$1,945,500 as against \$2,255,500. Another large decrease is shown in the naval service column amounting to \$885,000. The appropriation amounts to \$3,091,500 as compared with \$3,976,500. The principal decrease in the naval service is one of \$1,340,000 in the item including the purchase and maintenance of ships, upkeep of dock yards and maintenance of training schools, the drop being from \$3,000,000 to \$1,660,000. Most of the other items in this service show increases in part accounted for by the proposed purchase of two new fisheries protection vessels for the Pacific, and a new survey ship for the Atlantic.

\$25,000,000 for N.T.R. Capital expenditure shows appropriations of \$20,000,000 for the Hudson Bay Railway, \$25,000,000 for the National Transcontinental, \$3,000,000 for the Quebec bridge. There are no large appropriations for either the Georgian Bay or Welland Canals, though in connection with the latter there is a vote of \$50,000 for surveys. Trent Canal appropriation is \$1,900,000 as against \$2,250,000. The promised car ferry across the strait of Northumberland and the standardization of gauges of the P. E. I. Railway are provided for in an appropriation of \$400,000. Good to Militia. Militia appropriations include an increase of \$405,000 under the heading of drill, and another \$25,000 under the heading of cadet corps. Provision is made in the estimates of the department of agriculture for additional branch experimental stations, to cost \$200,000, an increase of \$100,000. There is also a new vote of \$100,000 toward the erection of a Dominion building in connection with the Canadian National Exhibition at Toronto. There is a capital expenditure of \$15,000 under railways, for the purchase of the car Canada for His Royal Highness the Duke of Connaught. The Fort Colborne elevator is to be enlarged, at a cost of \$200,000, and the breakwater extended at a cost of \$75,000, in addition to which there is a vote of \$145,000 for general improvements at Fort Colborne.

Harbors and Rivers. Proposed capital expenditures on harbors and rivers include \$1,000,000 for harbor and river improvements at Port Arthur and Fort William, \$150,000 for a deep water wharf at Lewis, Que., \$500,000 for navigation improvements in the River St. Charles, \$1,000,000 for St. John, N.B., improvements, \$137,000 for Timm Harbor, Ont., \$184,000, Victoria Harbor, B.C., \$50,000 for Victoria harbor, B.C., and \$50,000 for Vancouver, B.C. Under income there is an expenditure of \$1,000,000 for the National Exhibition at Toronto.

I.C.R. NEEDS FEEDERS UNDER ITS OWN CONTROL

Hon. Mr. Emerson Suggests Broad Policy of Extensions, But Mr. Cochrane is Cautious.

OTTAWA, Jan. 10.—(Special.)—Parliament got down to business with a rush when it met this afternoon after the Christmas adjournment. The estimates for the fiscal year ending March 31, 1913 were laid on the table and the house indulged in a debate on the advisability of purchasing branch lines as feeders for the Intercolonial, the question being brought up by a resolution of Hon. H. R. Emerson, Hon. Frank Cochrane, intimating that the government favored the suggestion.

Change Deferred. "No, I deny what he says," was Mr. Beck's reply. "The government contemplated in the eastern and northern parts of the province, as well as in the Niagara district, and the machinery being available to carry out a much more extensive project than was originally intended, decided to defer making the change in the nature of the commission that had been contemplated. I may say, I was surprised that Mr. Rowell should suggest that the municipalities have been dissatisfied, or would suffer from political influence or intrigue in the administration of the hydro-electric scheme by the government or the commission in the interests of the municipalities. No such fear has been expressed to the commission by any municipal council or any member thereof, either as regards the past conduct of the affairs of the commission or of its future, either by the commission or by the government," he added.

WOMAN DIES IN POVERTY IN REAR OF CITY HALL. Lying neglected and in wretched squalor, Mrs. Annie Thompson died yesterday in 24 Teraplay street, in one of the clapboard shacks opposite the city hall. The woman, who was 24 years of age, had been ailing for some time. She is said to own considerable property in the city. Chief Coroner Johnson is investigating the death and an inquest may be held.

BIG C.N.R. BUILDING FOR UNIVERSITY AVE. CORNER. Rumors were rampant last night that Mackenzie-Mason interests had purchased the northwest corner of University-avenue and Queen-street and would erect thereon a big building. Some said it would be a hotel, others the railway's head office, but most rumors were agreed that it would have something to do with the proposed federal square scheme. It was impossible to verify the truth of the rumor, as all the big C. N. R. men are out of town, and those men who might know, just shook their heads when asked about it.

KILLED BY OPERATION. GALT, Ont., Jan. 10.—The sudden death of Miss Grace Hartwell of Galt, at the home of her sister, Mrs. J. B. Johnston, following an operation, is claimed to have been caused by the lancing for quinsy of the woman's neck by the attending physician, during which the Jugular vein was accidentally severed. The family absolutely refuse to discuss the matter, refusing to give the doctor's name or in any way talk of the affair. There is talk of a coroner's inquest.

THEIR MAJESTIES HOMEWARD BOUND. BOMBAY, Jan. 10.—(Can. Press.)—King George and Queen Mary embarked to-day on the steamer Medina, homeward bound.

CARRY COMPLAINTS DIRECT TO WHITNEY

Northwest Ratepayers Grow Tired of Waiting for Much Needed Improvements to Car Service. At a meeting of the Northwest Ratepayers' Association last night at the Kent School, the street railway service was generally condemned and a resolution was passed advocating a committee of representatives to wait upon Sir James Whitney. They are to be instructed to lay the ideas of the ratepayers with regard to the street railway service before Sir James, with a view to obtaining some immediate improvement throughout the city, and especially in the north end. In the regular way this matter should come before the Ontario Railway Board, but the ratepayers have become impatient over the lack of transport means, and intend to have the matter hurried thru by seeking more direct assistance.

COMMISSION IS RETAINED BY HYDRO

Hon. Adam Beck Says Plans Have Been Altered Because of Widespread Demand for Power and Machinery Being Available—No Foundation for Mr. Rowell's Attack.

Hon. Adam Beck was seen by The World yesterday with reference to the development of the hydro-electric system in the province. Mr. Beck had just been having an interview with Geo. E. VanKennen, chairman of the conservation commission of New York State, who had paid him a visit in connection with the development of water powers of an international character, which is now engaging the attention of the New York authorities. Mr. VanKennen's visit was for the purpose of further discussion of details regarding the New York State development. It is the wish of the governor of the state to discuss the situation with Mr. Beck, who has been invited to meet the governor at Albany for this purpose. "How are the negotiations going on with the eastern municipalities?" Mr. Beck was asked. "The almost unanimous endorsement of the electors on the bylaws submitted gives the government the assurance necessary to proceed with the project in the east as outlined previous to the municipal elections."

SECURITIES WORTH \$50,000,000 RECOVERED FROM RUINS OF FIRE. But Certificates Representing Values of Many Hundreds of Millions May Not See Light for Weeks—Search for Bodies of Victims Thus Far Unavailing.

NEW YORK, Jan. 10.—(Can. Press.)—More than \$50,000,000 in stocks and bonds was recovered from one of the smaller vaults in the burned Equitable Life Assurance Society building late last night, but it will probably be a week, perhaps two weeks, longer before the great vaults of the society and the Mercantile Safe Deposit Co. give up their half billion or more in securities. Further examination of the gaunt, ice-shrouded building, swept on Tuesday by fire, showed more conclusively this afternoon that the vaults are still intact. In the opinion of those who have inspected the premises—an opinion reinforced by the revelation to-day that the smaller vaults had kept their treasure safe—their contents will suffer little, if at all. Buried as they are, under hundreds of tons of ice and debris, it may be a matter of weeks before it will be advisable to open them.

Handled Rich Salvage. The smaller vaults of the Mercantile Trust Co. were the ones reached this afternoon. As soon as it was seen they could be entered, 50 clerks were dispatched from the Bankers' Trust Co. to remove thither the securities as they were taken out. Between \$50,000,000 and \$70,000,000 in stocks and bonds were thus quickly transferred without untoward incident. The Bankers' Trust Co. owns the Mercantile Trust.

Just what is the value of the securities yet imprisoned is mere guess work. It is known that the Equitable securities are close to \$20,000,000, and those of the Harriman estate, in the vaults of the Mercantile Safe Deposit Co. are understood to approximate \$125,000,000. It is also said that Thomas F. Ryan has approximately \$100,000,000 in securities there. The Gould estate nearly a similar sum. However, the Mercantile Safe Deposit Co. refuses to give out any list of those having boxes, and, furthermore, has no knowledge of the amounts its clients stored away. No Bodies Recovered. The gutted structure continued to-day to cling to its dead. Searching in the building is extremely hazardous and no further trace had been found to-night of Battalion Chief William Walsh. Nor had the body of William Champion, chief of the Mercantile guards, been recovered, although it is partly in sight. Alexander Miller, secretary of the Harriman lines, viewed the ruins to-day to ascertain, if possible, if the vaults and safes of the line were intact. Mr. Miller thought that they were, including the big vault containing the lists of the railroad's security holders, which had been reported lost.

Canadian Wheat Low in Quality. Prominent Miller Talks Pessimistically—Thirty Million Bushels Unfit for Milling. MONTREAL, Jan. 10.—(Can. Press.)—In reviewing the present Northwest-crop situation, F. W. Thompson, vice-president and managing director of the Ogilvie Flour Mills Co., said: "The total quantity of wheat marketed to date exceeds 100,000,000 bushels. The bulk of what is now remaining in the country is low grade. A large proportion of this, variously estimated at from 25,000,000 to 30,000,000 bushels, is totally unfit for milling. "From a milling standpoint the grading of this year's crop has been most disappointing. Up to Dec. 31 less than 4 per cent of the total crop inspected was No. 1 and not over 18 per cent No. 2. "In view of the existing conditions the question naturally arises as to there being a sufficient quantity of good wheat for seed requirements next spring. It may become the duty of the government to make a thorough and early investigation of these conditions. "Even Canadian millers may experience considerable difficulty in getting sufficient high grade wheat to fully meet their requirements and the question of an export duty on the high grade wheats as a matter of protection to home requirements and, seed may with every justification be seriously considered."

Russia Offers to Mediate

ST. PETERSBURG, Jan. 10.—(Can. Press.)—The foreign office to-day announces that the Russian government has informed China of its willingness to mediate in the Chinese-Mongolian conflict. The Mongolians wish according to officials here, firstly, the withdrawal of the Chinese garrisons from Mongolia; secondly, the recall of Chinese functionaries; thirdly, the cessation of Chinese attempts at the colonization of Mongolia. The Russian government, it is said, is affording friendly assistance to the Mongolians, but Chinese sovereignty over that country is not impaired.

FRENCH CABINET FORCED TO RESIGN

Premier Caillaux, Unable to Fill Vacancies, Had No Other Course Open Than to Surrender Reins—Paris Newspapers Violently Accuse Him of Bad Faith.

PARIS, Jan. 10.—(Can. Press.)—The downfall of the Caillaux cabinet came suddenly to-night. That the ministry would be overthrown in the chamber of deputies in the next few days was the general belief, but the announcement of the resignation of the ministry to-night caused considerable surprise. It was logically due, however, owing to the failure of Premier Caillaux to secure a majority to complete a political combination which was practically confronted with the certainty of speedy collapse. The resignation last night of the foreign minister, Justin D. Seives, resulted in immediate discussions in the cabinet. Theophile Delcasse, the minister of marine, accepted the portfolio of minister of foreign affairs, but M. Millerand, ex-minister of public works, Admiral Germain and Pierre Baudin, to whom the marine portfolio was successively offered, in turn declined the honor.

Premier's Hand Forced. Finally, M. Delcasse sought the premier and declared that he had agreed to accept the foreign ministry only on condition that a parliamentary order of distinction could be found for the important portfolio of the navy, for the regeneration of which he had labored for months. M. Caillaux therefore accepted the inevitable and went to Elysee Palace and announced to President Fallieres the retirement of himself and colleagues. Later he issued a statement regretting that he was unable to retain the premiership and mount the tribune and defend himself against charges and calumnies. Among the names mentioned as most likely for the new cabinet are M. Delcasse, Bourgeois, Raymond Poincare, Millerand, Ex-Premier Briand, and possibly Ex-Premier Clemenceau.

Attacks on Caillaux. The Paris newspapers, which unapologetically regret the D. Seives-Caillaux incident as likely to do harm to the prestige of France abroad, quickly lined up for and against the premier. The Liberte accuses M. Caillaux of secret negotiations with Germany before the dispatch of a German warship to Agadir, and while he was minister of finance, and after the Agadir incident, while he was premier, the result of which would have been the transference of the Congo to Germany, the overthrow of all French foreign policies, the compromise of the dignity and security of France both in Africa and Europe and the abandonment of the triple entente, thru the entente with Germany. Fortunately, the paper claims, President Fallieres and Foreign Minister D. Seives learned of the project, which subsequently was allowed to drop. Other charges brought in the newspapers against M. Caillaux assert that he has been trying to secure the admission of German securities to the Paris bourse and has threatened King Alfonso of Spain with the loss of the dynasty unless he acceded to the French demands in the Moroccan negotiations.

For the Defence. On the other hand, The Temps makes a strong defence of the premier in a page review devoted to "The real negotiations prior to the Agadir incident were devoted exclusively to economic collaboration, authorized by the accord of 1909." The paper adds that these negotiations never touched political or territorial questions. The projected return of M. Delcasse to the foreign office was hailed as an event of international importance, sacrificed, it pointed out, in a moment of panic with Germany, his return would have had a significance which could not fall to satisfy French self-esteem.

Alarm in Berlin. BERLIN, Jan. 10.—Prior to the fall of the French cabinet the German papers commented on the appointment of M. Delcasse as foreign minister.

Will Be Buried in New York. NEW YORK, Jan. 10.—(Can. Press.)—It has been decided by relatives of the late Alfred Tennyson Dickens, son of the English novelist, that the body of Mr. Dickens shall be buried in New York. It was placed in a receiving vault at Trinity cemetery, following his recent death here, and as soon as weather conditions permit, it will be buried.

CHILDREN AND AGHESON HAVE TO FACETRIAL

True Bill Returned by Grand Jury—Movement to Place Wires Underground.

HAMILTON, Jan. 10.—(Special)—J. D. Chlman and Joseph Agheon will have to face trial on the charge of robbing the Canadian Express Company's office last September, of \$7500, the grand jury this afternoon having returned a true bill against the two young men on the charge. The grand jury hearing in the case, which was in camera, and which began yesterday afternoon, occupied nearly all of to-day, and it was not until late in the afternoon that the case was finished. The trial is set for to-morrow morning. This is the only case with which the present grand jury has to deal.

Cold Disturbed Judge.
 The cold weather temporarily put the machinery of justice in Hamilton out of business this morning, when the frigid atmosphere in the court room, where the winter asides of the high court are being held, forced Justice Testzel to adjourn court for an hour to allow the room to warm up. At the end of the hour, the court room was still too cold for comfort, and Justice Testzel and council in the cases to be tried sought protection by the overcoats, which they wore beneath their court gowns.

The trouble was caused by the fireman of the court house opening the windows last night to ventilate the room, and leaving them open too long.

A verdict for \$1500 damages was rendered this afternoon by the jury which tried the action of Cunningham v. the Michigan Central Railroad, for injuries sustained by the plaintiff, by being hit at Watford last April by one of defendants' trains while in the performance of his duties as a T. H. & B. Railway freight brakeman.

Underground Wires.
 An order to compel the telegraph and telephone companies going by lines in Hamilton, to lay their wires in underground conduits, will be asked for from the Dominion Railway Commission, if the council adopts the recommendation passed by the hydro-electric board this morning, that such action be taken by the council. An appeal has already been made to the Ontario Railway and Municipal Board to compel the Cataract Company to put its wires underground.

Lure of Pool Rooms.
 "Poolrooms are paths to destruction for many a young man, and I advise you to stay away from them in the future," said Magistrate Justice, to a 17-year-old Fred White, who pleaded guilty to the lad who appeared in police court to answer a charge of vagrancy preferred by his mother. The magistrate allowed him to go on the understanding that he was to obey his parents and stay away from the pool rooms.

Detective Cameron's Investigation.
 In the supposed assault committed on J. T. Reid, a few days before his death, has failed to disclose any evidence tending to confirm Reid's statement that he had been beaten up while on his way from work. Dr. Davey, who attended Reid, is, however, quite positive that there was not the cause of his death, and the police will continue their investigation.

Key Firm Busy.
 Several small fires, such as usually follow in the wake of a cold spell, kept the city firemen on the jump to-day. At 8:30 this afternoon, a small blaze at Ham's fireworks plant on West King-st., called out the department. A fire at 118 South James-st., at 6 o'clock destroyed a stable and burnt a horse to death, and about an hour later the fire fighters were called to the corner of Locke and Canada-sts., where a little fire was quickly extinguished. About 9 o'clock, a fire started in the cellar of a house at 21 Tuckett-st., and did considerable damage before the firemen succeeded in putting it out.

BERLIN'S FURNITURE EXPOSITION.
 BERLIN, Jan. 10.—(Special)—The Twin City Furniture Exposition being held here this week is proving a very successful event. Several hundred buyers have visited the factories and express their admiration of the exhibits. The furniture buyers will be banqueted Thursday night in Masonic Hall, by the manufacturers, who have under consideration the erection of a six-story exhibition building where semi-annual exhibitions could be held similar to those in Grand Rapids and Chicago.

A Skin Tightener To Reduce Wrinkles
 (From Popular Medicine.)
 In beauty culture, as in the treatment of disease, the tendency nowadays is to seek the removal of causes, rather than to treat symptoms or effects. In the matter of wrinkles, for instance, we know that the lines or furrows are caused by the skin becoming loose in places, so it does not perfectly fit the flesh beneath. The skin then "wrinkles" or sags. Naturally the proper thing to do is to tighten the skin—make it fit—then there's no room for lines, wrinkles and folds, and no surplus skin to sag or bag.

The best known formula for the purpose is: Sixty, 1 oz., in 1-2 pint witch hazel. Use as a wash lotion. The effect is truly remarkable, especially as results are immediate. Ask the druggist for the powdered salicylic, which dissolves more quickly than any other form.

VICTIM OF POLITICS?
 Solicitor for ex-Reeve Greene, Accused of Theft, So Intimate.

CHATHAM, Jan. 10.—(Special)—A. W. Greene, ex-reeve of the Township of Zone, charged with the theft of \$39.10 of township moneys, got his preliminary hearing before Magistrate Stanworth this afternoon, when he was committed for trial at the June sessions.
 Four charges were preferred by the crown. One for the theft of \$15, another for \$19.10, another for \$21, and one fourth for \$41.
 The defence did not attempt to put Greene in the witness box, but J. P. K. K.C., solicitor for Greene, declares they have a strong case, and that it may be proved that the prosecution was pushed by interested parties, because of a certain political antipathy.

BEST CURE FOR SKIN SORES IS ZAM-BUK.

An illustration of the way in which Zam-Buk cures even the most serious and chronic cases of ulcers, eruptions and sores is provided by Mr. K. H. Barker, of Glencairn, Ont. He says: "I would not have believed that any remedy could cure so quickly, and at the same time so effectively, as Zam-Buk cured me."
 "My face became covered with a kind of rash, which itched and irritated. This rash then turned to sores, which discharged freely and began to spread. I first tried one thing and then another, but nothing seemed to do me any good, and the eruption got worse and worse, until my face was just covered with running sores."
 "Apart from the pain (which was very bad), my face was such a terrible sight that I was not fit to go out. This was my state when some one advised me to try Zam-Buk. I got a supply, and, marvelous as it may sound, within little under a month every sore on my face was healed. I was so amazed that I have told the facts to several persons, and I have no objection to your stating my experience for the benefit of other sufferers."

Zam-Buk is purely herbal in composition, and is the ideal balm for babies and young children, for whom tender skin coarse ointments are so dangerous. Zam-Buk is a sure cure for cold sores, chapped hands, frost bite, blood poison, varicose sores, piles, scald sores, rashes, inflamed patches, babies' eruptions, and chapped lips, cuts, burns, bruises, and skin irritations generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful substitutes.

YOUTHFUL THUGS SENTENCED
 Trio, Who Assaulted Otagonian Near Cornwall, Found Guilty.

CORNWALL, Jan. 10.—(Special)—The winter assizes held here this week by Mr. Justice Clute were principally concerned with the trial of three boys, Fred White, William Arthur Tye and James Tye, against whom there were two charges of assault with intent to murder, and assault occasioning serious bodily harm with intent. The victim was George Gallinger, aged 51, a resident of Cornwall Township, and a brother of Justice Gallinger, U.S. senator from New Hampshire, who on Nov. 26, 1911, was badly beaten.

White being 18 years of age, and the Tyes who are not relatives, being both under 18 years, they had separate trials. White was sentenced to three years in the Kingston penitentiary. Arthur Tye was sentenced to St. John's Industrial School for three years, and James Tye, who had previously a good record, was let go on suspended sentence.

APARTMENT WANTED
 Miss Hoffman, "Baron" Max, Cook "Julia," Etc., Don't Like Hotels.

Gertrude Hoffman, who brings her husband and two children to the Royal Alexandra Theatre week after week, refuses to live in hotels while on tour, and as a consequence there have been inserted advertisements in the papers desiring information concerning an apartment in which this much-talked-about young woman may reside during her Toronto week.
 Miss Hoffman and "Baron" Max, her husband, carry with them on tour a retinue of servants, seven dogs, two Persian cats of royal lineage, a couple of mice, a hamster, several birds, and a M. Jules Langlois, known to every epicure in New York as "Julius." Julius is the celebrated chef who made the cuisine at Martin's in New York famous throughout the world. Miss Hoffman ate her dinner one night last summer at Martin's, liked the cooking, and took the cook on tour with her.

WILL BUILD CARS IF NEEDED.
 Manager Fleming of the Toronto Street Railway stated yesterday that his company should have been allowed to build the new downtown tracks five years ago, and that the people in the press who supported the aldermen in refusing to allow them, were responsible for the bad service in the past.

"We have not had the tracks and for years we have been held back from acquiring more equipment because the tracks at our disposal were already overloaded."

Mr. Fleming said that if the tracks are sufficient and the traffic warrants it the company would build as many more cars as are needed.

JARVIS OLD BOYS' DINNER.
 The annual dinner of the ex-pupils of the Jarvis-st. Collegiate Institute will be held on Wednesday, Jan. 24, in the Metropolitan Assembly Rooms, from 8:30 to 10:30 p.m. The speaker will be one of the speakers.

Force Had to Haul Heavy Load.
 Charles McGraw, driver of the Elias Rogers Co., was summoned to police court yesterday, on a charge of cruelty to animals. McGraw was complained of as having given his horses a load of 800 pounds to haul. He asserted he had put the load on at the command of the office boys, and Magistrate Kinross ordered that defendant appear again on Friday, when the man who was responsible for the unreasonable load would be subpoenaed.

SOCIETY

The Daily Hint From Paris

Mrs. E. F. B. Johnston of St. George-st., gave a very jolly house dance last night in honor of the friends of her daughter, Miss Jessie Johnston, who was in a very smart frock of pale grey crepe meter and pink coral embroidery. Mrs. Johnston looked handsome in yellow satin veiled with mignon to match, and diamond ornaments. At midnight supper was served from a table decorated with carnations.

The committee of the Hunt Polo Club dance to be given at the King Edward on Feb. 1, is Mr. A. O. Beardmore, chairman; Mr. B. L. McGarthy, hon. secretary; Major Bickford, hon. secretary; executive committee, Col. Victor Williams, A. D., Mr. R. J. Christie, Mr. Stephen Haas, Mr. Albert Dymont, Mr. John Lyle in charge of the decorations.

Mrs. T. J. Clark was the hostess of a particularly nice tea yesterday afternoon in her beautiful house in Walmer-rd., when she was wearing a beautiful French gown of white and black lace over white and pearly. Mrs. Ross was also present in a black gown with wide lace collar. The drawing room was decorated with daffodils and palms and the polished tea-table was almost covered with a silver stand of pink roses and silver candelabras. The assistants were Mrs. W. R. Maclean, Mrs. R. J. Christie, Mrs. Willis Lee, and Miss Jeanette Barclay.

Mr. and Mrs. Arthur Morrice are leaving Montreal and will return to Toronto to reside.

Miss Beatrice Hagarty has gone abroad for an extended stay.

Mr. and Mrs. Gordon Oaler have gone abroad for Mr. Oaler's health.

Mrs. George Burton gives a small dance this evening for her nieces, the Misses Biggar.

The Oratorio Society of Toronto, and the Philharmonic Orchestra of New York will give their first concert in Massey Hall this evening.

PROTECTING CHINESE RAILWAY

Foreign Troops Not in Sufficient Force to Repel Serious Attack.
 PEKING, Jan. 10.—(Can. Press).—Capt. J. H. Reeves, the military attaché of the American legation at Peking, and Capt. Thomas Hojcomb, Jr., a special attaché, have returned here after making an inspection of the section of the Imperial Chinese Railway between Tangshan and Lanchow, which American troops will guard. They say it will not be necessary for the Americans to go into camp. The British troops, who are guarding the American section, in addition to their own, are occupying the railway buildings.

The British commander at Tientsin, Brig-Gen. E. J. Cooper, informed Capt. Reeves that the foreign force is not intended against serious attack. The several nations, in the event of attack, could send sufficient reinforcements from Tientsin to resist a large body of troops. At Tientsin there are 1500 British soldiers, 700 Indian, 900 French, 250 German, 800 Japanese and 300 Russian.

Absorption Process Makes Faces Young
 (From the Home Maker.)
 Success has at last come to scientists who for years have sought some effectual method of removing the outer facial skin in cases of unsightly complexion, which would be both painless and entirely non-injurious. The new process is so simple, the man's so old, so young, so inexpensive, the wonder is that no one had discovered it before.

It has been amply demonstrated that common mercurized wax, to be had at any drug store, completely removes, by gentle absorption, all the withered, lifeless cuticle, showing the youthful, rose-like skin underneath. The mercurized wax is applied at night—like cold cream, but not rubbed in—and washed off in the morning. The absorption also cleanses clogged pores, increasing the skin's breathing capacity and capillary circulation, preserving the tone, color and natural beauty of the new skin.

THE T. EATON CO. LIMITED

FOUR-DAY INVESTIGATION OF STREET CAR SERVICE

Ontario Railway Board May Continue Sitings Indefinitely—Crowding Endangers Health.

The seriousness of the street railway situation in this city is amply demonstrated by the announcement of the Ontario Railway Board that four days will be devoted to the investigation of the indignities and delays to which the citizens are being subjected of late. It was originally intended that the board should hold its sitting on Jan. 9, then a change was made to two days, Jan. 12 and 15. The latest announcement is for two days extra, Jan. 16 and 17. If no clear case of breach of contract be found against the company, a fine of \$100 could be imposed.

One clause of the regulations governing the city's attitude towards the railway stated that "cars are not to be overcrowded, a comfortable number of passengers for each class of car to be determined by the city engineer and approved by council." Only three of the five night car lines ordered have been put in operation.

Car congestion is extremely dangerous to the public health, according to

Dr. Hastings, the city medical health officer.

"There are 25 to 40 per cent. of people in winter in perfect health who carry the germs of pneumonia and diphtheria," he said. "When people cough the danger of infection is often great."

Dr. Hastings thinks the continued attacks on Manager R. J. Fleming will do no good. Sir William Mackenzie, he infers, is really the one that is responsible. If the city gets after Sir William, Dr. Hastings predicts good results within three months.

The Chinese of Toronto, Hamilton, London and from other Ontario points celebrated the birth of the new Chinese republic by a monster procession in Toronto. A page of views showing this week's Sunday World Art Section.

FILTRATION PLANT FOR OTTAWA

To get up-to-date ideas for a new filtration plant for Ottawa was the chief object of Dr. J. W. S. McCullough's visit to New York and several other of the leading American cities in the east. Dr. McCullough has arrived home & Hamilton with the latest ideas in improved sanitation.

ISLINGTON FARM SOLD.

John Jefferson of Islington has sold his 100-acre farm north of the Eaton farm, out Dundas-street, for \$15,000. Goulding & Hamilton put thru the deal. Securities, Limited, were the purchasers.

I.C.R. NEEDS FEEDERS UNDER ITS OWN CONTROL

Continued From Page 1.

error-general and the British ambassador at Washington or the British Government on the subject stirred up the premier to enquire whether the late government dealt with the home government thru the ambassador at Washington. He did not see why a recommendation to the imperial authorities should not go thru the regular channels.

Hon. H. R. Emmerson proposed the following resolution: "That, in the opinion of this house, it is desirable in

furtherance of the transportation interests of this Dominion that the sphere of influence of the Intercolonial Railway as a government operated railway should be widened and extended by securing by lease or otherwise such of the branch lines of railway now connecting the Intercolonial, as will serve as direct and profitable feeders to the traffic of the said railway."

Run on Business Lines.

There should be no difference, he said, between the methods of the C.P.R., the Grand Trunk, and the government railway system. As a business proposition the I.C.R. should acquire feeders the same as the other systems. It had suffered from the lack of them in the past by the diversion of traffic to other roads. The sooner action was taken the better.

Hon. Frank Cochrane declared that the ex-minister did not make the reforms he now advocated when he was

in power. The present government would investigate and take over all branch lines that would be profitable.

Hon. William Pugsley expressed regret that the minister limited his acquisition of branch lines to those that were profitably operated. The revenue point of view was not the only one. Would the government deal with the Georgian Bay Canal merely as a revenue-producing proposition?

I.C.R. Profitable Venture.

Very few of the branch lines of Ontario were paying their way until they were taken over by the great railway systems. It would be the same with the Intercolonial, which was the most profitable venture the country had ever made, even the as a matter of bookkeeping it might not show a balance on the right side.

J. G. Turfiff (Assiniboia) has no use for government owned railways. He wanted the government, instead of buying branch lines, to consider selling or leasing the I. C. R. to a private company, which he claimed would develop the system as no government could.

Hon. R. L. Borden introduced a bill to amend the act respecting the department of external affairs, in place that department under the premier instead of the secretary of state.

Turfiff Must Wait.

In asking J. G. Turfiff (Assiniboia) to allow his bill to amend the Railway Act, by providing for the submission of special tariffs to the railway commission to stand pending the consolidation of the Railway Act, he gave no hope that this would be undertaken at the present session. In answer to a question by J. A. Barrette (Berthier), the premier de-

clared that the administration of the marine yards at Sorel would be included in the investigations of the commission recently appointed to enquire into the civil service. Mr. Lemieux was informed that an order-in-council had been passed making the usual grant to the dismissed annuitants agents.

Opening of the High Park and Willowvale Park toboggan slides is pictured in a series of views in this week's Sunday World. Perhaps you are in one of the pictures. Buy a copy from your newsdealer or newsboy.

NOT TRUE, SAYS GUTHRIE.

GUELPH, Jan. 10.—(Can. Press).—In regard to the story that Hugh Guthrie, K.C., M.P., will become leader of the opposition in place of Sir Wilfrid Laurier, Mr. Guthrie characterizes it as a "deliberate falsehood, every word of it."

He has not been in Ottawa and has had no communication with anyone there.

POISON FOLLOWED QUARREL.

Following a dispute with her father over money, Nellie Day, living with her parents at 51 Brookfield-avenue, her parents at a small quantity of caraway seed yesterday morning. Fortunately the dose was not enough to produce fatal results. She is only fifteen years of age. She is in the Western Hospital.

FIVE BURNED IN QUEBEC

Four Children and Hired Man Perished—Parents Narrowly Escaped.

QUEBEC, Jan. 10.—(Can. Press).—Fire, due to an overheated stovepipe, destroyed the home of Joseph Desrochers at Notre Dame du Sacre Coeur, Lotbiniere Co., and took the lives of four children and a man.

Desrochers was awakened about 1 o'clock this morning by smoke in his bedroom. He aroused his wife, who was partially suffocated, and made for the room where their four little children were sleeping. He found his way cut off by the flames, and had to seek the open air, which was ten degrees below zero.

By this time Mrs. Desrochers had turned, and rushed into the burning house in an attempt to rescue the children. She fought her way thru the flames and fought her way back to the life had not neighbors had arrived, dragged her back.

The hired man also lost his life, and all the bodies were practically incinerated. Mrs. Desrochers' life, too, is despaired of, while the husband is in a bad way.

The fire could not be fought because no water was available. It quickly spread to the house next door and destroyed it. A new church, 20 feet away, was saved by men and women covering the side and roof with snow.

C.P.R. Earnings.

MONTREAL, Jan. 10.—C. P. R. earnings for traffic week ending January 7, 1912, \$1,602,000; same week last year, \$1,349,000; increase, \$253,000.

St. Mary's Outclass Seaforth. ST. MARY'S, Jan. 10.—An intermediate O.H.A. game between Seaforth and St. Mary's was played here tonight. St. Mary's outclassed the visitors and picked up a score of 10 to 2 at half time. The final score was 20 to 5. Biddell and Schultz did some brilliant work for the home team. The line-up: Seaforth: (3)—Goal, Cass; cover, Planet; point, Reed; rover, Jones; centre, Duncan; left, Reeves; right, Stricker. Referee—W. Hern of Stratford.

Edgar Dey Fined Fifty Dollars. HALIFAX, Jan. 10.—Edgar Dey, the hockey player imported from Ottawa by the social hockey team, who assaulted "Patsy" Seguin, the French-Canadian hockey star from Montreal, in a game at the Arena, was fined \$50 this afternoon in the magistrate's court. Dey had been taken off in the first period of each of the three matches he had played and once by the police. It is likely he will be released next week.

Canadiens Surprise Wanderers and Win Very Easily

MONTREAL, Jan. 10.—There was surprise galore in N. H. A. hockey to-night, when Wanderers lost to Canadiens at the Montreal rink.

A week ago Wanderers whitewashed the fast Canadian team. To-night the situation was reversed and Canadiens were five up before the Wanderers scored a goal.

The Canadiens were in the lead from the start and, after far from being in shape, proved to be the hardest nut Wanderers have yet had to crack.

"Fud's" far-famed poke was very much to the fore, and, during the part of the game, Brantford played cover, he scored no goals, yet he was the means of many tallies not being recorded by Wanderers.

Coming on the top of three straight wins, the showing made by Wanderers was most disappointing to their supporters.

Wanderers (1)—Goal, Broughton; point, Brantford; cover, O. Broughton; right, S. Cleghorn; left, Russell. Canadiens (5)—Goal, Vesina; point, DuBois; cover, Vesina; rover, Payas; right, Pitre; left, Giesse. Referee—Tom Melville and Russell Bowie.

Kingston Wins in Overtime. BELLEVILLE, Ont., Jan. 10.—One of the best hockey matches seen for some time was played to-night, when the local junior team crossed sticks with the Ontario team at the Belleville rink.

The game was a tie, each team scoring five goals in the play-off of Kingston, the second game being a draw. In the first half of the game the score was 2 to 2 in favor of Frontenac, and in the second half, after a goal by Kingston, Frontenac took the lead.

The line-up was as follows: Belleville (1)—Goal, Fitzgerald; point, Tuttle; cover, Moore; rover, Whalen; centre, Wallace; right, Wilson; left, Flindie. Frontenac (1)—Goal, Cook; point, Campbell; cover, Stanton; rover, Purtille; centre, Little; right, McGuire; left, Gunn.

Sarnia in the Final Rush. WATFORD, Jan. 10.—Sarnia and Watford met on local ice to-night for the first time this season in the Intermediate O. H. A. In the first half the locals were slow in getting started, and as a result Sarnia had scored two goals in a few minutes' play, the score at half-time being 2 to 1 in favor of Sarnia.

The line-up was as follows: Sarnia (5)—Goal, Cameron; point, McCann; cover, Wilson; rover, Fitzroy; right, Sanford; right, McClellan; left, Cameron. Watford (4)—Goal, Brown; point, Rogers; cover, Elliott; centre, Stapleton; rover, Thorne; right, L. Dodds; left, T. Dodds. Referee—E. Rankin of London.

Berlin, Jan. 11.—(Special.)—A very fine picture of Berlin's new \$100,000 public school will appear in this week's Sunday World.

HYDRO-ELECTRIC NOT IN POLITICS.

There will be a good deal of satisfaction and even relief among the municipalities over the assurance contained in Hon. Adam Beck's statement that the hydro-electric commission will remain in statu quo.

The World believed that the formation of a department and the creation of a portfolio for a minister of power need not either help or hinder the efficiency of the hydro-electric service.

But there could be no question as to the value of Hon. Adam Beck to the hydro-electric movement. Mr. Beck has devoted nine strenuous years to the work of the hydro-electric cause, and his reward is in the esteem with which his fellow-countrymen regard him.

But apart from this consideration, personal to Mr. Beck, there remained the point of view of the municipalities, for whom and for the government the hydro-electric commission was in the position of joint trustee.

The opposition newspapers appear, in the language of Sir Boyle Roche, to have smelled a rat, and when they saw it floating in the air, decided to nip it in the bud.

THE GREAT GRIEVANCE.

The grievance that overshadows all others in the Canadian west is railway rates and railway service, and this includes freight, express, passenger, telegrams and the equipment and trackage necessary to give a good service.

At last the board of railway commissioners propose to go into the tariffs of the railways in the west and they are asking the government to appoint counsel to represent the public.

Why does not the government appoint a permanent counsel to enforce the Railway Act with power to name as many others as are necessary to aid the public in presenting their case.

There were two marked characteristics of the late government: they were slow to enforce the Railway Act, they neglected to provide for the appointment of counsel in the interest of the public.

BRITISH STREET RAILWAY POLICY.

In the city hall of Sheffield, England, last month, the manager of its civic

street railways, Mr. A. R. Fearnley,

was the recipient of a presentation in acknowledgment of his services as retiring secretary of the Municipal Tramways Association. The lord mayor, in speaking on the occasion, said that perhaps the best testimony he could give was that through his long public and business career in the city, he had never heard one word of complaint against the Sheffield tramways (street railway) undertaking.

In acknowledging the compliment, Mr. Fearnley referred to the increasing activities and responsibilities of the association. Alluding to the growth of public street railways in the kingdom, he stated that municipalities were now responsible for two-thirds of the total capital expenditure on street railways in the country, and were still spending money at the rate of \$10,000,000 per annum.

Other parts of Mr. Fearnley's address disclosed in a significant way the consideration given to the successful solution of the most pressing problems connecting with sparsely populated districts, and with facilities for dealing with parcels traffic in the streets. One municipal manager had already some striking proposals to advance. The problems connected with the congestion of traffic in city streets was, he added, one of increasing anxiety, and in the matter of fares, the action of the Glasgow City Council in effecting such sweeping reductions as the provision of a ride of a mile and a half for one cent, was likely to result in changes in street railway finance of far-reaching effect.

THE BANK OF TORONTO.

Shareholders of the Bank of Toronto have reason to congratulate themselves over the excellent report made at their fifty-sixth annual general meeting and published elsewhere in this issue. The net profits for the year ending Nov. 30, last, after all deductions and allowances, were \$777,864.22, equal to 16.57 per cent. on the average paid-up capital as compared with 17.74 per cent. earned in the previous year. This amount, together with \$194,777.09 brought forward and \$908,050 of premium on new stock issued, made a total of \$1,880,711.31 available for distribution.

The statement presented by the directors revealed in a very satisfactory way the strong position held by the Bank of Toronto. During the past year loans and investments increased by \$5,003,632, and now stand at \$45,639,322; deposits increased by \$4,140,944, now aggregating \$41,128,664; while the total assets of \$57,067,944 show an increase of \$8,753,267. The readily available assets totaled \$15,509,864, representing over 33 per cent. of the whole liabilities due the public, while the rest account now standing at \$41,558,080, exceeds by no less than an even million the paid-up capital. This reserve forms a splendid protection for both depositors and shareholders and alone represents more than 12 per cent. of the total amount due the public. The directors expressed their deep regret at the loss sustained through the death of their late colleague, Mr. Robert Meighen, and reported that the vacancy had been filled by the election of Lt.-Col. Frank S. Meighen.

PETER RYAN MAKES REPLY.

Rev. C. O. Johnston, Toronto. My Dear Sir,—I cannot expect you to view the Jesuit order favorably, but I am astonished at your statement that the oath, which you say is a part of the Jesuit obligation, exists, or that it ever existed. Do you think that anybody within any Christian church could exist, and repeat times beyond counting, that the oath which you charge them with was never taken by any of the much reviled order, or that it ever formed a part of their obligation?

Surely the Jesuit order would fall to pieces if its members had first to take a horrid oath, and then were instructed to deny it. As one whose early days were spent at the feet of the priests of the order of Jesus, I can bear my poor testimony to the fact that the oath which you quote is a pure invention, and that the Jesuits were never sworn to it. Let me again assure you that your charge is founded on the vilest calumny, and that this so-called Jesuit oath, never had a place in the practice

THE NEW YEAR

Is a time for making resolutions, taking stock of the mistakes and neglected opportunities of the past, and turning over a new leaf.

That in 1912 you will greatly improve your financial position by spending less than you earn, by saving a fair proportion of your income, and depositing it so that it will earn interest for you. If you open a deposit account with us now it will assist you in keeping this resolution. You may begin with a dollar.

NOT A BONAFIDE TRANSACTION

The case of Jas. Grice, London, Eng., v. J. B. Bartram, a Toronto attorney, held its second day's session in the non-jury assize court, before Mr. Justice Kelly. The case seems to be one involving complicated technicalities, and concerns the attempt of Mr. Grice, London, Eng., to compel Mr. Bartram to pay off the liabilities of the General Construction Company, of which the former is a shareholder, so that the organization may be "put on its feet."

Beaten on the head with the baseball bat of his son in the hands of his wife, William Wickens, 288 Ryding-avenue, faced a charge of trespass in police court yesterday morning, he having violated the order of protection granted to his wife, who was acquitted of a charge of assaulting him when he went to her home at 442 Pacific-avenue.

DIZZY HEADACHES CURED IN ONE NIGHT

If Troubled with Head-Fullness, Ringing Noises, Specks Before the Eyes, the Stomach is at Fault.

"I had terrible pains in my head. My appetite faded away and when I did eat anything it disagreed and made me very sick for hours after each meal. The active pains in my stomach and the dizzy headaches I had to endure almost set one wild. Sometimes attacks came on so severely that I had to go to bed. I would feel so worn, depressed and utterly miserable that for hours I wouldn't speak to my family. My system was poisoned with wastes and nothing helped me till I used Dr. Hamilton's Pills. Without this grand system-cleaning remedy I would be sick, but each day brought me better health and spirits. I was cured and made as strong, ruddy and healthy as I ever was. I can now eat and sleep and look as one could wish, and will always use and recommend Dr. Hamilton's Pills."

"MRS. B. C. CURRAN, Westport, N.Y." Thousands who are in a poor, low state of health are making this their motto: "I will use Dr. Hamilton's Pills. They cure blood impurities, pimples, rashes, bad complexion, nervousness, stomach and kidney troubles, mild derangements, and all ailments of the system. Beware of imitations and substitutes. 25¢ per box, or five boxes for \$1.00; at all dealers, or the Cattaraugus Company, Kingston, Ont.

WINTER

Hail! Rugged monarch, Northern Winter, hail! Disperse the clouds, dispel the gloom, With Frost and Fire, whose Health and Age reside, Whose Northern Lights electricity the soul Of Mother Earth, whose throne is near the Pole.

Why should the children of the North deny The sanitary virtues of the sky? Why should they fear the cold, or dread the snow, When ruddier blood than their hot pulses flow? If we remain in bed, we never get the sea, Then we brave Beavers should not lack a meal. The little squirrels chatter high with glee, When winter roasts their seed in nut-tree. The happy snowbirds search the tasseled weeds, And make a banquet of their only seeds. We have the Vikings' blood in our veins, The Saxon's muscled flesh, and scorn to groan, Unless we do not bark in Caylon's isle, Where Hober says, that "only seas are vile."

Suppose Bharat's heat one year should rage Around a melting world, then would the rage Of human history contain—"The End" And Chaos on the earth once more descend. The mighty glaciers would engulf the land, And man would mingle with old Ocean's sand. Suppose an extra month of heat to burn Beyond its bound, it would then consume The glass of Time; who dares to prophesy What pestilence would then consume the sky? What insect hosts would breed from earth and air, What floods and fires would spread a black despair? But never fear, the Grand Geometrical Axiom sits aloft in its position; Since Noah's rainbow shone in Bible story, That signet of Jehovah's vast His glory.

Let scientists explore the vast Unknown, And fight with theories as a bonanza of Of auriferous madmen, or Samson's donkey. Or search for missing links 'twixt man and monkey. But we, as laymen, will not follow their lead, Kind Winter is our theme. How joyous swirls That medley of snow from the electric belts! Swirl on the ice, Young Canada is gay, With colored toques and mad with hockey play. The air is pure champagne, and the snow on the ground, Shows of silver—Show us on the ground.

THE RAILWAYS AND THE DROVERS.

Some time ago the railways submitted to the drovers a new form of bill of lading for the shipment of cattle and more particularly for those doing business with the live stock market in Toronto. In this new bill of lading the railways are seeking, so the stockmen say, to contract themselves out of liability for damage to cattle in transit.

Mr. Walsh of the Manufacturers' Association and Mr. Mahlon Cowan, an attorney, are representing the drovers. As a result of the objections taken the railways will first have to secure the approval of the board of railway commissioners before they can make any change. It is likely a hearing will take place at an early day.

ROCHESTER, Jan. 10.—(Can. Press.)—William Twyman, an insane negro, ran amok at Scottsville, near Rochester, today, killed his father and barricaded himself in a house. Deputy Sheriff Birmingham of Rochester was killed and two other deputies wounded by the negro, who held off the posse with a revolver. In response to a message from Sheriff Hamill, a posse of National Guardsmen and police left Rochester for Scottsville in automobiles. At 3 o'clock an order was obtained from Supreme Court Justice Benton by the district attorney to take a one-pound gun from the state armory to Scottsville to bombard the house in which Twyman was barricaded. At 4 p.m. Twyman walked out of the

Spasms of Coughing

And Frantic Gasping for Breath Common to Bronchitis and Asthma.

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Both bronchitis and asthma are diseases of the nerves as well as of the bronchial tubes, and for this reason only slight irritation or excitement is required to bring on the terrible coughing spells and frantic gasping for breath. There is nothing like Dr. Chase's Syrup of Linseed and Turpentine to bring relief to sufferers from bronchitis and asthma. It soothes the irritated nerves, eases and prevents the attacks of coughing and enables the system to throw off the disease. In fact, the great popularity of this medicine is largely due to its success in curing bronchitis and severe chest colds. Since permanent recovery depends largely on getting the nervous system thoroughly restored, Dr. Chase's Nerve Food is of the greatest assistance in re-vitalizing the system to throw off the disease. This combined treatment is ideal as a cure for bronchitis and asthma, for while the Linseed and Turpentine brings relief to the organs of respiration, the Nerve Food restores the body to full health and strength, and enables it to fight off disease. There are many imitations of Dr. Chase's Syrup of Linseed and Turpentine. The portrait and signature of A. W. Chase, M.D., are on every bottle of the genuine; 25c a bottle, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Porcupine Stocks Irregular -- General Trend is Firmer

Wheat Market Closes Firm After a Severe Break in Prices

Bearish Conditions Depress Sentiment in Early Trading, But Market Closes on Sharp Rally--Corn and Oats Firm.

CHICAGO, Jan. 10.—Reports that the interstate commerce commission had decided to refuse permission for reduced freight rates from the Canadian Northwest, helped rally the wheat market to-day, after a decline due to better weather in the Argentine. Closing figures were firm, shade lower to 1-8c higher than last night. Corn finished 1-8c to 3-8c up, oats unchanged to 3-8c advance, and hog products varying a nickel each way from 24 hours before.

The news regarding the alleged decision adverse to the reduction of railroad charges on Canadian wheat came from Minneapolis and tended to dispel gloom as to the cash situation. During the greater portion of the day, however, the market was depressed largely as a result of improving harvest conditions in the Argentine. The cold wave, too, seemed to slacken business all around.

Corn Movement Slow. Speculators were the best buyers of corn. Their motive appeared to be the fact that the extreme cold was making the actual movement of the crop very slow from farms and the terminals. Many ranged between 64 1-4c to 64 3-8c and 64 1-4c, leading to the first named figures, a net gain of 1-8c. Cash grades were steady.

Belief that feeders were using oats in preference to corn because of the relative cheapness, led to considerable covering in the former cereal.

Northwest Receipts. Receipts of wheat in cars at primary centers were as follows:

Table with columns: Week Ago, To-day, Yr. Ago. Rows: Chicago, Duluth, Minneapolis, Winnipeg.

European Markets. The Liverpool market closed to-day on wheat 1/4d to 1/2d lower than yesterday and corn 1/2d to 1/4d lower. Argentine wheat was 3/4d lower. Antwerp wheat closed 1/4d to 1/2d higher and Soda Feed 1/2d higher.

Winnipeg Inspection. Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 2 cars; No. 2 northern, 11; No. 3 northern, 45; No. 4 northern, 25; No. 5 northern, 15; No. 6 northern, 30; feed, 11; rejected, 7; no grade, 11; winter, 3; Oats, 11; Barley, 4; Flax, 1.

U. S. Steel Statement Shows Big Tonnage Increase for Dec.

Wall Street in Cheerful Mood Market Scores Sharp Advance

Prices Run Up Quickly in New York Exchange Under Sustained Buying Demand—Short Covering the Feature.

NEW YORK, Jan. 10.—Losses in the stock market during yesterday's session were largely recovered to-day. The tone was much better. Anxiety occasioned by the Equitable fire was removed, although the financial district did not slip back entirely into the accustomed routine. The decision of the governing board of the stock exchange to relieve traders affected by the fire from the necessity of delivering securities for an indefinite period, put an end to fears of embarrassment on that score, although the fact that vast quantities of stocks and bonds were tied up in the vaults of the ruined building served to restrict business.

Dull, But Firm.
The market became active and strong in the latter part of the session, which had been dull after an opening spurt. Traders took the view that the list was firm throughout the day, with a constant upward tendency. Union Pacific recovered more than two points of yesterday's loss and virtually all of the active issues improved substantially. Much of the buying came from the steel industry. The monthly statement of the U. S. Steel Corporation was a surprise to the street. Preliminary estimates of the amount of unfilled orders ran from \$4,000 to \$60,000,000, the showing of \$45,000,000 indicated that the revival in the steel business last month was a decided one.

No Spurt in Steel.
The market's reception of the steel figures was disappointing to the bulls. United States Steel rose more than a point on the day, but there was no spurt, when the figures were made known, and the report seemed to be less of a factor than bear covering in elevating prices. Traders took the view that the effect on United States Steel of the monthly statement was largely offset by the bearish influences exerted by the Stanley investment suit and prospects of a heavy reduction of the steel tariff schedule.

U. S. Steel Report
Makes Good Showing
Unfilled Orders' Statement Reflects Good Business—Big Rail Orders.

NEW YORK, Jan. 10.—Announcement was made to-day by the United States Steel Corporation that the unfilled tonnage on its books for the month ending December 31, 1911, was 5,684,761 tons. The unfilled tonnage on the books of the company for the month ending November 30 last, was 4,418,855 tons. The increase, therefore, is about 28 per cent. The increase is due to the fact that the company's production has averaged over 70,000 tons daily since the first of the year. Independent are also receiving heavy orders. Plants of the corporation are working at 85 per cent, with every open hearth furnace of the company in operation.

Montreal Market
Inclined to Drag
Apathetic Trading in Eastern Exchange—Sustained Demand Shown at Lower Prices.

MONTREAL, Jan. 10.—The Montreal market was on the dull and uninteresting side to-day; the volume of trading was small, and price movements irregular with what trend there was downward.

European Bourses.
PARIS, Jan. 10.—Prices were heavy on the bourse to-day.

Dale Sunday School Anniversary.
The annual anniversary of the Dale Athletes' Church Sunday School was held last night. Many excellent numbers were rendered. Mr. and Mrs. Bobb, Falconer presented gold watches to the boy and girl selling the greatest number of tickets to the Mussy Hall entertainment.

Currency Movements.
NEW YORK, Jan. 10.—Sub-treasurer gained \$28,000 from the banks yesterday, and lost \$1,880,000 since Friday.

Russia Stepped Into Controversy
on Request—Favors Autonomy
For Mongolia.

ST. PETERSBURG, Jan. 10.—(Can. Press).—An explicit statement on the course of Russian diplomacy in the Mongolian controversy was made to-night at the direct instance of M. Kokovtsov, the premier and minister of finance, who is the author of Russia's announced policy with regard to that province. The alleged distorted account of Russia's action, as given out at Peking, which affected the bourse unfavorably, hastened the publication, which is tantamount to the recognition of the Mongolian Government.

Two Sailors Drowned.
HALIFAX, N.S., Jan. 10.—The schooner John Harvey, Captain Curling, went ashore at Wintling Point, four miles off Gabarus last night in a hurricane and is a total wreck. Two of the crew, John Poole and John Kerping of Ballorah, Newfoundland, are reported to have perished through exposure. The Harvey was bound from Gloucester to St. Pierre, with a general cargo.

Great Year for Cooke's
Report Shows This Downtown Church
Is Not on Want.

Both religiously and financially, last year was the best Cooke's Presbyterian Church has had in twenty years. All the reports go to prove in the most convincing manner that Rev. Dr. Taylor, the pastor, has done exceptional work both in increasing the membership and in putting the church on a sounder basis financially. In the past year the membership has increased to 1240, the number of new members being 180.

Century Baptist Church
Purely routine business was transacted at the annual meeting of Century Baptist Church last evening, presided over by the pastor, Rev. C. H. Schuchman.

First Avenue Baptists
It was reported at the annual meeting of the First Avenue Baptist Church that the Sunday school attendance had out-grown the capacity of the present quarters, and the trustees had been contemplating the erection of a new building, which will cost about \$16,000. The same healthy congestion obtains in connection with the church auditorium, and as a result it will either be re-located or enlarged.

Important Notice
To Manufacturers of
Commercial Motor Cars
Motor Boats and Gas Engines

An unusually favorable opportunity of securing control of a valuable and important business is now opened by the offer for sale by Private Tender under Judicial Liquidation of the Assets as a going concern of CANADIAN GAS POWER AND LAUNCHES, LIMITED, Dufferin Street, Toronto.

The assets include a magnificent freehold manufacturing site, with an average frontage of 245 feet of each of two streets by a depth of 305 feet adjacent to and with shipping facilities over the lines of two large railway systems; first-class concrete and completely equipped manufacturing premises; and a stock-in-trade of completely and partly manufactured engines with repair parts and raw materials. The whole is valued at approximately \$210,000.

Reasonable terms of payment can be arranged. Interested parties may, upon application to the undersigned, receive full particulars of the business and assets, and facilities for the inspection of the latter. Tenders will be received by the undersigned up till 4 o'clock p.m. of the 31st day of January, 1912, upon the terms set forth in a circular offer dated 13th November, 1911, approved of by the Court, and which will be furnished by the undersigned to all applicants.

EXPANSION IN STEEL TRADE.

NEW YORK, Jan. 10.—While some extravagant predictions of the pace steel works operations would take after Jan. 1 have not been realized, the volume of new business in some important lines having been large. It is more than might have been expected for first ten days of a new year and particularly after very heavy contracting in December.
