**His Eminence won Derby**  
Sannazarro Second in Great Kentucky Turf Event and Driscoll Third.  
WINNER WAS AHEAD ALL THE WAY.

**His Eminence won Derby**  
Louisville, April 29.—The Kentucky Derby has passed into history, and not one of the 20,000 people that saw it can say except that it was a race from flag until the good son of Falsetto passed under the wire a winner in the good time of 2:07 1/2. The second place was made to order it could not have been more propitious and there was not the slightest thing to mar the most successful occasion in the history of the new Louisville Jockey Club. The track was lightning fast. In the betting ring big money came in on His Eminence at 6 to 2, and when some more venturesome bookmakers backed up 3 to 1 against the colt money came in so lively that it was impossible to handle it.

**All Green Beat All Gold.**  
New York, April 29.—About 6,000 persons attended the races at Aqueduct today. Two favorites got the judges' fiat. The favorite of the day was All Green, who was ridden by Bullman carried off the jockey hours with a lead which was never in doubt. All Green went to All Green, a Metropolitan Handicap, and All Green, who was ridden by Bullman, closed finishing at 7 to 5. Burns had the right on the second race, and then All Green gradually overtook and passed the other horses. All Green won the race in a fine style. The third race was a handicap, and All Green was again the favorite. All Green won the race in a fine style. The fourth race was a handicap, and All Green was again the favorite. All Green won the race in a fine style.

T. EATON CO. LIMITED A Boot Bargain for Working Men The man who needs must have a good heavy pair of boots will find pleasing satisfaction in this line for Wednesday. There is double satisfaction—the quality of the boots and the smallness of the price. Then, to make it still more interesting, we have decided to reserve this lot until fifteen minutes after twelve o'clock Wednesday noon, so that no one need lose time at work in order to take advantage of this chance: ON SALE WEDNESDAY AT NOON 350 pairs Workingmen's Medium Heavy Smooth Finished Black Buff Leather Boots, whole foxed, round toe, solid leather, these boots look well, fit well and wear well, sizes 6 to 11, regular value \$1.50, Wednesday, 12.15 noon, for...

Clothing Hats and Underwear We are willing to let these three lines of Clothing be the test of that department. They are types of scores of others equally as good we could select from the same Clothing stock. They give you an idea of the way we do the Clothing business. They show the class of Clothing we believe you should buy and wear. They are examples of how reasonable we can afford to make prices:

Men's Black Suits, in black clay twill and Venetian finished worsteds, made in single-breasted and three-buttoned cutaway style, narrow silk-stitched edges, choice Italian cloth linings, sizes 35 to 44, at \$15.00 Men's Waterproof Coats, single-breasted paddock style, made of English covert cloth, dark fawn and Oxford grey colors, heavy striped satin lining in sleeves and shoulders, silk stitched edges, rubber-faced bottoms, sizes 35 to 44, at \$12.50 Men's Spring Overcoats, in medium short box back style, in blue grey mixed cheviot cloth, with velvet collar or with plain collars and silk-faced lapels, good linings, sizes 34 to 44, at \$12.50

The same way with Men's Hats. Our prices are so reasonable, the styles and qualities so pleasing and our varieties so satisfying that we cannot help but win sales and keep trade. Now we have introduced the genuine Dunlap Hat, the latest styles for spring and summer, 1901, at \$4.50 each. From our regular stock we select three specials at \$1.00, \$1.50 and \$2.00 respectively. You can pin your faith to any of these lines:

CITY SERVICES TO NON-RESIDENTS In refusing to sell water and grant sewer connection to the residents of outside municipalities, the City Council is pursuing a decidedly chest-John policy. To be sure, the city is not in a hurry to do this, but in regard to the applications which are constantly being made for city privileges by outside residents. Some of these latter have influence enough to work the members of the council and obtain what they apply for. Other applicants who have no pull are denied any privilege whatever. Whatever policy the city adopts in regard to the treatment of outsiders, it should be the same for all. The city of Toronto should be free from partiality in dealing with non-residents. Our view of the question is that the city should deal with outside applications for water and sewer services in just the same way as it does with those of its own citizens. The gas and electric companies make no distinction between city and suburban residents in supplying gas and electric current. It is purely a matter of business. They grant or refuse the service according as it is profitable for them to do so. If the city can make a profit by supplying water to non-residents, it ought to supply it. The theory that the refusal to supply these services will prevent non-residents from coming to the city is a mistaken idea to suppose that the city would be the gainer by forcing the suburbs to amalgamate with the city. The taking in of any of the suburbs would result in a substantial loss of income to the city. It would be an expensive to police, light and gas free protection to the scattered suburban districts, whose residents would be continually clamoring for services they would not be fairly entitled to. Nothing that the city can do in restricting its services will prevent the development of the suburbs. The present boom in the suburban districts ought to convince the Council of this fact. The Council should be satisfied if the residents of the city can secure the trade of suburban residents. The city will never grow rich by the collection of taxes. The only point to be guarded against is that our merchants do not lose the trade of out-of-town residents. What is the city doing to prevent this? It is doing nothing. It is doing nothing to prevent the suburban residents' provided the stores of the city get the balance of its salary? Toronto's chief and almost sole interest in the residents of the city is that they buy their goods from city merchants. It is a matter of indifference whether the city or an outside municipality supplies the sidewalks or does the policing of any given district. There is no more in the job for either.

THAT SIMCOE ST. PAVEMENT

Mayor Thinks Least Ontario Government Can Do is to Pay Cost of Putting it in Condition.

WILL SEE PREMIER AND CABINET

And Place a Suggestion Before Them With a View to Finally Settling the Matter.

About the Simcoe-street pavement, the Mayor at the Board of Control yesterday afternoon said that the least the Ontario Government could have done was to insert in its estimates for the entertainment of the Duke and Duchess of Cornwall and York an amount sufficient to place the road in a decent condition.

The Ontario Government in Toronto received the benefit of exemption, and the local improvement taxes they were relieved of increased the value of their property.

When they wanted to dispose of this property they had the benefit of the added value out of the revenue of the city.

His Worship thought that an account should be kept of the taxes that could be levied on Government property, and if it was sold for exempt purposes, the city should be entitled to collect the taxes out of the amount paid for the property.

Will See Government. The Mayor also suggested that the Government be waited upon with this proposal and also to see how the matter can be settled. His suggestion will be acted upon.

Opposed to Request. A letter was read from Assessment Commissioner Fleming, in which he stated that he was opposed to granting the request made to surrender a piece of property on Bonaventure-avenue for the taxes. His reason was that the York County Loan Company were after it, for the owner.

Also Lamb took the ground that all property which had been purchased for taxes by the city should be sold to the highest bidder.

The Mayor was of the opinion that this should only be done when it was known that the owner intended to make no effort to recover the property.

On motion of Ald. Sheppard, the Assessment Commissioner was instructed to prepare a list of all the property bought in the city for taxes, and to have the same complete overhauled. His interior has been handsomely decorated and no doubt will be found more comfortable for her guests.

He Salaries of Officials. In connection with a motion by Ald. Sheppard, the Corporation Counsel reported that it was clearly within the powers of the Council to direct the City Treasurer to pay wages that are not due, but the second part of the resolution, "that the Treasurer be forbidden to accept or receive from any civil official any assignment of his salary," was in his opinion a dangerous provision that would lead to trouble and possibly to the City Treasurer.

Depressed Tracks. The City Engineer reported on the suggestion that the tracks in South Parkville be depressed so as to afford a safe entrance into High Park. It would cost, he said, \$200,000, including existing damages.

The Board referred the matter back for further consideration.

Island Fire Protection. A deputation of Island residents waited on the Fire and Light Committee yesterday afternoon, with the request that they be given increased fire protection. They asked for 600 more feet of hose, additional hydrants, a chrysalis, and a pump.

Wanted a Decent Agreement. Mr. William Mackenzie says lack of it is in the way of Extension of the Radial Lines.

Mr. William Mackenzie, president of the Toronto Railway Company, was seen by a World reporter yesterday afternoon, and queried as to the plans of his company for the extension of the radial electric railway system in the near future.

The company, he said, have no program laid out, except the extension of their line two miles on the Kingston road, an extension which was promised some time ago.

"Let me make a proposition now," said Mr. Mackenzie, "we are anxious to get things shaped up, and are prepared to go ahead with the extension of the line to the centre of the city. The Council should appoint a committee with full authority to deal with the company. All we want is a decent agreement."

Asked why the company did not join the city and the city lines at Simonsville, and give a continuous service, Mr. Mackenzie said some years ago they urged the city to take the matter up and secure an overhead crossing, but nothing came out of the proposal.

QUICKLY CURES TOBACCO HABIT

Anyone Can Have a Free Trial Package by Sending Name and Address.

Men need no longer face the trying ordeal of weaning-off from tobacco. A well-known chemist of Cincinnati has discovered a remedy that actually offsets the desire

for tobacco, stops the craving for cigarettes, and relieves the habit. It makes it impossible to chew tobacco. One good feature of this remedy is the fact that it is tasteless, so that ladies mix it in tea or coffee, and cure their husbands, sons or brothers, without their knowing it.

Any man who desires to quit using tobacco may now do so in a very pleasant but thoroughly effective manner, without any suffering or nervous tension. The remedy is perfectly harmless, and anyone may have a free trial package by sending name and address to the Rogers Drug & Chemical Company, 2155 Fifth and Race-streets, Cincinnati, Ohio.

FIRE, DEATH, DESTRUCTION

Blaze at Pittsburg Yesterday Caused the Loss of One Life and Consumed a Dozen Buildings.

A SCORE OF FAMILIES HOMELESS.

The Life Lost Was That of a Child Whose Mother Fell While Rushing for Safety.

Pittsburg, Pa., April 29.—Fire at the corner of Carson and 17th-streets, South-side, to-day, cost one life, a property loss estimated at \$225,000, consumed over a dozen buildings and rendered a score of families homeless.

The flames were discovered in the basement of a 4-story department store of George E. Lorsch & Brother, and in a very short time the entire building was burning furiously. It was in ruins within 20 minutes, and a panic ensued among the customers and employees, which resulted in what seemed at first a well-founded report that eight persons had perished. This was quickly proven untrue after the fire had been controlled, the only fatality being the burning to death of Mrs. Kate Donley's 2½-year-old child.

When the fire broke out Mrs. Donley's child was on the fourth floor of the Lorsch building. In her haste to escape, the mother fell on the stairway and was rendered unconscious. The excitement the child was either forgotten or burned before aid could reach her.

A shower of burning timber was thrown from the Lorsch building, carrying destruction in all directions. E. & A. Barnard's clothing store, on the opposite side of the street, was the first to catch, and was not entirely destroyed. The grocery of F. McGrath, next door to Lorsch, was entirely consumed, followed quickly by the drug store of J. B. Steinger and several other buildings between 16th and 17th-streets.
