GOOD PASSAGE FROM PORT NATAL

Transport Brought 1639 Officers and Men—Six Troopers Were Slightly Ill.

Halifax, July 29.—The Leyland steamer "Cestrian," from Port Natal, South Africa, July 2, arrived here at 4.30 this afternoon. The steamer had a good passage and no accidents or deaths occurred on the voyage.

Six of the troopers are slightly ill, and have been sent to the military hospital, but outside of those, all on board are well.

The "Cestrian" anchored in the stream, and will remain there until the morning. The steamer brought 1639 officers and men, and the work of paying off was commenced as soon as the steamer came to anchor. The officers are as follows:

Third Regiment—Lieut.-Col. V. A. Williams, Capt. C. T. Vanstrubenz, W. Henderson, S. A. MacKenzie, A. A. Nameth, E. A. Arnold, Lieuts. H. Reed, C. H. Hill, A. H. Test, V. B. Paterson, A. E. Shand, G. S. Spokes, V. W. Odlem, W. G. Bishop and W. H. Butcher. Non-commissioned officers and men, 400.

Fourth Regiment—Col. Boulanger, Capt. Mackie, Capt. Pene and Capt. Williams, Lieut. Lawlor, Sully, Williams, Dickie and Papeau. Non-commissioned officers and men, 400.

Sixth Regiment—Lieut.-Col. A. C. MacDonnell, Capt. B. E. Strickland, S. Strange, F. H. Bagley, Lieuts. F. Cross, L. Hooper, C. Harin, H. H. Nash, J. E. Sargeant and Worshop. Surgeon-Lieut. Thomas. Non-commissioned officers and men, 300.

Sixth Regiment—Lieut.-Col. Irving and Gordon, Capt. Urtache and Ross, Lieuts. Cooper, Gatchers, Bradburn, Robins, Irvine, Sullivan, McKinley and Holland. Non-commissioned officers and men, 242.

Ten men discharged irregularly: Lieut. Woodside and 41 men of the Second Canadian Mounted Rifles also came on the "Cestrian."

The men will be landed in the morning and entrained for the west.

MOB HOOTS NON-UNIONISTS.

Police Charge Crowd Gathered Around the Collieries.

Stamok, Pa., July 29.—One thousand men, women and children assembled at the Mineral Company's Colliery this evening, and hooted and cursed non-unionists as they came to work. A delegation of boys stoned several non-unionists as they entered town. Chief Burgess Thomas and the police charged the crowd, and put them to flight. The Colliery Company officials say they will ask for troops to help if there is a continuance of the attempts to annoy the workmen.

PEMBELLED BY THE MOB.

Mr. Carmel, Pa., July 29.—Two crowds of strikers, numbering fully 3000 men, women and children, collected at the head and Union Company operations between here and Stamok this evening, and hurled stones and sticks at the non-union men. Six of the latter were captured by the mob near Richard's Colliery, and were badly punished.

INJURED IN A RUNAWAY.

Galt, July 29.—Mr. and Mrs. James Brown of Beverley are in the hospital here as a result of an accident today. They were driving to market, when their spirited team took fright and bolted, throwing them out on the roadway.

Mr. Brown's head was fractured, and one of his eyes was also injured, and all his front teeth, upper and lower, twelve in all, were knocked out. The physician found a fracture of the spine, and besides several ribs were broken.

Several ribs broken. Almost both the patients are suffering greatly from their injuries. It is expected that they will recover.

GALT STATION ROBBED.

Galt, July 29.—Between 12 and 1 o'clock today at noon a sum of money, amounting to about \$75, was stolen from the till at the C.P.R. station.

Entrance to the office was gained by prying up a window and breaking the catch.

The till is underneath the counter, in front of the ticket wicket. It was pried open by means of a chisel, the marks of which are plainly visible on the wood. Suspicion rests on Percy Smith, a desperado in the vicinity, and the police are now after him. But it is thought they will have a hard time catching him as he is known to be a fellow of exceedingly wily ways.

CROPS NOT ALL DAMAGED.

Reports of the damage to the crops throughout the province by the recent rains show that it is not so heavy as generally thought, except to hay which was cut, the continuous wet weather preventing it from being cured. The injury to the grain crop was confined mainly to the soft white wheat, which the rains prevented being harvested, and which is sprouting in consequence. This will not prevent it being milled, but the quality of the flour, lessening the nutritive value.

WILL SWIM THE RAPIDS.

Niagara Falls, July 29.—Sometime in August Charles D. Graham will attempt the feat which Capt. Matthew Webb, the great English swimmer, attempted in the year 1883 and in which he lost his life, the swimming of the Whirlpool Rapids, from the Canadian Bridge to the Whirlpool.

On numerous occasions Graham has navigated the rapids in a barrel, and on one occasion he swam the lower rapids from the Whirlpool to Lewiston, but he now intends to culminate his feat by a journey thru the rapids in which Webb was killed.

DROWNING AT PORT DOVER.

Fishermen Changed Seats and Arthur Brock Lost His Life.

Port Dover, July 29.—A sad drowning accident happened at this place at 9 p.m. today. As a number of men employed in the fishing business were crossing the harbor in a small boat, the men, by changing places in the boat caused it to partly capsize, when one of the occupants, Arthur Brock, fell into the water, and, being unable to swim, quickly sank. On the other, Taylor, jumped into the water to attempt to rescue Brock. During the struggle Taylor was pulled to the bottom in a drowning condition. At this moment, James McDonald, one of a crew of the American yacht "Wahwa Taysee," lying in the harbor, immediately went to the assistance of the drowning men, and succeeded, by diving, in bringing Taylor to the surface, and by the aid of Dr. Hicks and Kennedy, who were quickly summoned, they succeeded in resuscitating him. In the meantime Mr. Donald, who was the slightest swimmer, turned his attention to securing the body of Brock, and in a few minutes succeeded in bringing the body to the surface, where many willing hands quickly placed it on shore, and after the greatest exertions of the medical men, found it impossible to restore life.

FOUND ON THE TRACK.

Scotia Junction, Ont., July 29.—The body of J. W. Ebes, a farmer, was found lying on the track about three-quarters of a mile south of Scotia this morning. The man is supposed to have been struck and killed by a train.

ALL FEARS NOW BANISHED.

King Able to Walk and All Restrictions as to Diet Have Been Withdrawn.

London, July 29.—The latest and most reliable information indicates that King Edward's doctors were not mistaken in fixing Aug. 9 as the date upon which His Majesty could be crowned. The sinister rumors which have pervaded all classes for the last few days now appear to have lost that semblance of probability which made even the members of the cabinet nervous lest another postponement of the coronation might be necessitated.

The apprehension that King Edward would be unable to stand the strain of the coronation ceremony has been greatly lessened by the announcement that His Majesty is now permitted to use his feet, and with the aid of a stick, has done a little walking.

Another late telegram from Cowes, Isle of Wight, saying that nearly all King Edward's doctors had been withdrawn, as evidence that the recent opinion deductions were drawn without due allowance for the doctors' extreme caution. While the King was testing his ability to walk, two stout jockies stood at his side. After this experiment, which bowed well for his future the necessary coronation functions at Westminster Abbey, King Edward sat smoking on the deck of the royal yacht and watching the racing of the small yachts off Cowes.

Those who drew inferences from the fact that the invitations to Westminster Abbey were not dated, have had their fears dispelled by the proclamation published in The Gazette this evening, fixing Aug. 9 as the date for the coronation which post dates, and altogether more important than anything, which might or might not have appeared upon the cards of invitation.

According to the present arrangements, King Edward and Queen Alexandra will leave Cowes either Aug. 6 or Aug. 8, for Buckingham Palace, and will return to the royal yacht Aug. 18, when the entire fleet will pass before King Edward and salute him, thus making a second naval review. After his return to the yacht, the King is expected to take an extended cruise to the northward, and, subsequently, to spend some weeks at Balmoral, where preparations for the arrival of their Majesties have already been commenced.

Mr. Joseph C. Dimdale, the Lord Mayor of London, expects King Edward to visit the City of London the week ending Oct. 11, when the jubilee luncheon will be held in the Guild Hall, which is to be followed by a royal procession thru the south of London, and these plans may not be carried out to the letter, but their arrangement, combined with the emphatic promises of the King's physicians, is generally regarded as assuring the success of the coronation for Aug. 9.

THREE IN FULL BLOOM.

A horse chestnut tree in Bellwoods Park in full bloom excites the admiration and wonder of the residents of the neighborhood.

Caused by Jealousy.

The following letter will speak for itself. THE SICHED GAS COMPANY is the only Company that is uniformly successful. It is the only Company selling a machine using carbide of calcium for lighting, heating and power purposes, that is always on deck ready for instant operation, and never out of order. Hence rivals lie about, but read this letter:

We have your letter of yesterday to hand and were very much surprised at its contents. In regard to the Gas Machine you mention for use in three months ago (a 35 light machine), we wish to say that it has given perfect satisfaction both in regard to lighting itself, as well as the piping and fixtures, which have been very highly praised by the public, and we wish to deny any statements you may have heard as to our not being satisfied with it.

We may say that a number of residents of our village have examined it, and all have agreed that it is the most perfect machine on the market. One gentleman is using a machine of the same type, is so satisfied with it, he wishes that he wants to get rid of his and install one like yours.

If at any future time you hear any such report as stated in your letter, we give you our authority to deny it as being untrue.

We are yours truly,
Messrs. McDonald & Son have the largest general store in King, represent the Messrs. Harris machinery, and have the postoffice. A more reliable firm is not in business, and what they say carries weight. Siche's reliable going in all over the land, and King can't stop it. Write "83 York-street, Toronto," for illustrated catalog, or phone Main 1971.

RESPECT THE BOERS' WAYS

Mr. Chamberlain Deals Comprehensively With the Past and Future of South Africa.

London, July 29.—Mr. Chamberlain's appearance in the House of Commons to-day was marked by a speech which won the applause even of such opponents as Henry Labouchere. Mr. Chamberlain dealt comprehensively with the past and future of South Africa, and the slightest government support will be given to compulsory labor.

Petition in N. Grey Election Filed Yesterday at Owen Sound.

Owen Sound, July 29.—The petition in the matter of the protest against the return of A. G. Mackay and asking for a scrutiny of the ballots in the North Grey election was filed with the local registrar to-day by William Mason, solicitor.

TWO INDEPENDENTS.

Kingston, July 29.—R. A. Graham, Pembroke, and Dr. Channonhouse, Egansville, are out as independent Liberal candidates in North Renfrew.

NO EXPORTING OF HEMLOCK

The Government Deceals That It Must Not Be Sent Out of the Country in a Rough State.

IT IS ON SAME FOOTING AS PINE

With Regard to Exportation and the Restrictions Imposed Are of a Similar Nature.

An Order-in-Council was passed by the Ontario cabinet at a meeting held yesterday afternoon, prohibiting the exportation of hemlock in rough condition. The order will go into force at the expiration of the present license year, which is April 30, next.

By the passage of this order, hemlock is placed on precisely the same footing as pine. This restriction will apply to hemlock on crown lands only, and not to timber on private lands, held by patents.

The government's object in prohibiting the exportation of the time is the same as it was in the case of pine.

The cabinet, at its meeting, also voted \$500 to assist in the search that is being made for oil and gas in East York County. The citizens in the neighborhood have subscribed \$2000 for the same purpose, and the government was requested to aid to the extent of \$500.

MONTREAL TAKES ACTION

Board of Trade Adopts Resolution Favoring Twenty-Three Knot Line.

MONTREAL A SUMMER TERMINUS

And St. John or Halifax in Winter—Improvements to the St. Lawrence.

Montreal, July 29.—At a special meeting, held here to-day by the Montreal Board of Trade, the following resolution was adopted by 32 to 15:

"Whereas the establishment of a full Atlantic steamship line from a Canadian port to a port in Great Britain would increase our export trade, especially in perishable products, would greatly increase the volume of passenger travel thru Canadian channels, and would give an impetus to ship building in Canada, and would, with the aid of our transcontinental railways, bring the different parts of the empire more closely together;

"Be it resolved that steamers employed in this service should have a speed of at least 23 knots an hour; that speed should be the first consideration in the selection of ports of call, and that in the conduct of the enterprise the Dominion government should have sufficient control to enable them to fully safeguard the interests of the Canadian people;

"That in the opinion of this meeting it is in the interests of the Dominion that the Canadian ports for this service be Quebec, Montreal, in summer, and Halifax or St. John in winter; and be it further resolved, that this meeting would respectfully urge upon the Dominion government the importance of carrying out as speedily as possible the necessary improvements to navigation to make the St. Lawrence route from Montreal to the sea safe for the class of vessels that would be required under this general resolution, and, further, that this meeting does not favor the subsidizing of freight steamers."

THIEVES AT ST. THOMAS.

St. Thomas, July 29.—The residence of Sheriff Donald Brown, 71 Wellington-st., was burgled last night. The residence of Sheriff Brown had been entered by cutting holes in the back door and unlocking it. The house was ransacked, but nothing was missed. Col. Burke lost half a dozen silver spoons, a revolver, \$3 worth of postage stamps and several other articles.

BOURNON VERY WEAK.

Ottawa, July 29.—Sir John Bournon was reported to-night to be very weak. There has not been the slightest sign of improvement for the last three weeks. His recovery is exceedingly doubtful.

TRADE COMMISSIONER IN LONDON.

LIGHT ON EVANS MYSTERY

Front-street Warehouse Stock Short Five Hundred Dollars' Worth of Spirits of Alcohol.

POSSIBLE MOTIVE FOR WORSE CRIME

Startling Information Furnished the Coroner's Jury Investigating the Cause of Whalley's Death.

There were interesting developments in the Evans' warehouse mystery last night, and facts brought out before the coroner's jury that may supply a motive for the possible murder of Edward Geen and George Whalley and the persistent effort made to fire the building the night of May 30, when the vault was tampered with.

The discovery has been made that the stock of Evans & Sons is short of five hundred dollars' worth of spirits of alcohol, ninety-nine gallons.

The startling information was given to the jury by John B. Spencer, present manager. The statement came late in the evening, and had been anticipated by various questions put to each employee who took the stand, touching the manner in which shipments were made, whether or not they knew of any goods being taken from the stock in an irregular manner and how checks were kept on shipments from the warehouse. It was clear the Crown Attorney possessed information showing that the stock had been tampered with. None of the employees knew anything of the kind, and it remained for Manager Spencer to supply the facts.

Discovered a Week Ago.

Mr. Spencer's testimony was that he had discovered that between the dates of March 31 and July 22 ninety-nine gallons of alcohol had disappeared from the business of the Evans' warehouse. To a World reporter he stated later that he had made the discovery a week ago.

"How did you happen to look at the alcohol?"

"I recalled that another house in that building had recently lost considerable quantity of alcohol, and I had our stock examined. The result was that, according to the invoice, it was short ninety-nine gallons."

"Where was this stock kept?"

"In the back part of the house."

"Have you examined other valuable supplies in the stock?"

"Yes, some, but I had my suspicions about the alcohol."

"How was your attention called especially to the alcohol?"

"Well, now, I want to treat the press nicely, but I can't say more, but you will get something out of me in a minute that I don't want to tell."

Mr. Spencer walked hastily away. Evidently something occurred about July 22 that excited attention to the alcoholic supply of the warehouse. Just what it was is not clear, but it was probably the result of some of the research made by Detectives Davis and Siemsen, as the disposition of so large a quantity of alcohol in an irregular way could not be made without leaving some trace that a shrewd officer could pick up on investigation. The indications are that these officers are now directing all their energies toward discovering where this alcohol went, if they can find where it was disposed of, they can easily locate the man who sold it, and the supply would be traced back to the thief and the person who has found in the warehouse the evening of May 30, when the tampering effort was made to burn the house.

Here is a reason or some person who tampered with the stock, but the stock and building were destroyed the evidence of the theft would never be cleared. This would also account for the bogus work on the vault to make it appear that a burglar had been in the building.

The motive might be established so strong as to show that a person might even desire to shed human blood to avoid detection. If Geen and Whalley, the two men who were shot, had been connected with the work in the warehouse, where the alcohol was kept, had discovered that the spirits had been stolen and knew where the thief was, a motive would be supplied for a man desiring their destruction.

A man desiring the stock.

The fact that the stock has not yet been made, and other supplies may be short. This is rapidly being done now, and figures will be secured from the Montreal end of the firm to verify the figures here.

A month ago a drug firm within a block of the Evans place was the scene of an arrest for the theft of a considerable quantity of alcohol, and the man, a watchman, is now awaiting trial. There is nothing to indicate a connection between these events, but it is significant that Manager Spencer declares that he recalled that a robbery of this kind had recently occurred, and had the alcohol supply examined, and thus secured the first evidence that the firm had been systematically robbed. It was March 31 that this quantity of alcohol was received at the Evans warehouse, so it is impossible to determine just exactly when the theft occurred, as the spirits were not examined until July 22.

RAGE TO TESTIFY.

Former Manager Rags was in charge of the business of the firm until July 1, and he is still out of the city. He was in town Monday, and knew that he was expected to testify at the inquest last night, the officers trying to summon him were informed yesterday that he had gone to Buffalo, and the jury will have to do without him.

Shed Gutter By Fire.

A shed in the rear of 150 Spence-street, occupied by Mrs. C. Collins, was gutted by fire by shooting her with a revolver at her home, shortly before 4 a.m. to-day. The woman now lies in the Notre-Dame Hospital in a critical condition. The fire is unknown.

ACTION AGAINST DIRECTORS.

Claim Made That They Disipated Assets of the Company.

Montreal, July 29.—The Western Loan and Trust Company and the National Trust Company, Limited, as liquidators of the same, under the authorization of Hon. Judge Doherty, have taken action thru Foster, Martin, Archibald and Mann, for \$250,000, and against the old directors of the company, Messrs. W. H. Woodstock, Brockville; Robt. Knight, Woodstock, the heirs and representatives of the late Hon. A. W. Ogilvie, William Strachan, R. Prefontaine, M.P., and J. N. Greenhalgh, K.C. The plaintiffs claim that the directors during the time defendants acted as directors of the assets of the company were dissipated illegally and unwise investments made, and that the ruin of the company and its final liquidation was the result of the failure of the directors to exercise a proper supervision over the management of the company.

The directors, on the other hand, are contesting the action, claiming that they are not responsible, inasmuch as having employed reputable auditors they were entitled to accept the certificates of such auditors as to the condition of the company, and were not obliged to constitute themselves aud

WILDCAT WORST JOHN L.

Beast Barked Its Teeth in the Champion's Leg.

Stratford, Ont., July 29.—John L. Sullivan, who has stopped playing Simon Lee in Uncle Tom's Cabin, drove over from Bridgeport to McGovern's training quarters here, where he arrived at 10 o'clock a.m. Sullivan was waiting on the porch of the hotel, kicked against a cage that held a wildcat, which started at him. John L. took the cage, and the wildcat, and the angry cat sprang out like a flash and fastened its teeth in the surprised Sullivan's leg.

MANY VESSELS LOST.

San Francisco, July 29.—A special from Tucson, Arizona, says that a tornado visited the Gulf of California on Thursday night, wrecking and damaging many buildings in the coast cities. The water has been down and news of the disaster has just been received.

TEXAS HIT HARD.

Austin, Texas, July 29.—Central Texas was last night visited by one of the most terrific storms ever known in this section. In this city the rain came down in a regular deluge, flooding the principal streets of the city from curb to curb, and washing into many of the stores. Rivers and small streams are out of their banks, and railroad service is seriously interfered with.

ANOTHER CLOUDBURST.

Hornellville, N.Y., July 29.—Another cloudburst occurred at Canaseraga last night, and 1000 feet of the Shawmut Railway was moved 30 feet. This road has not been operated since the previous flood. The Erie Station is under two feet of water, and trains are detained for the safety of the building.

Known in Other Places.

The alleged murderer, Mr. Wood, arrested here last week, has not, it appears, confined himself to Toronto. After his arrest here, he was photographed and copies were sent to American cities. Yesterday Inspector Stark received a letter from Detroit, stating that the picture had been recognized as that of "Red Henry Martin," who had worked the same game there.

IT LAYS A SPILLING HAND ON PAIN.

For pains in the joints and limbs and for rheumatic pains, neuritis and lumbago, Dr. Thomas' Electric Oil is without a peer. Well rubbed in, the skin absorbs it, and it quickly and permanently relieves the affected part. Its value lies in its magic property of removing pain from the body, and for that good quality it is unequalled.

DEATH OF MR. COLIN M'RAE

A Prominent Business Man of Hamilton Taken Off Rather Suddenly Yesterday Morning.

PUNISHMENT FOR TWO OFFENDERS.

They Stole From Rev. W. F. Wilson's Residence—Notes From the Ambitious City.

Hamilton, July 29.—Colin McRae, one of the most prominent business men, died this morning at the age of 81 years. He had lived retired for some years. A few months ago, however, he was in the city, and a rupture became necessary. Death came rather suddenly today.

At Judge Squire's Court. At Judge Squire's Court today, Joseph and George Mulholland were found guilty of stealing a fatten and a bottle of polish from Rev. Dr. Wilson's residence. Joseph was sentenced to Central Prison for two months, and George to three months.

LIGHT ON EVANS MYSTERY

Continued From Page 1.

During the investigation, a small piece of manila paper was handed to Arnold Smith, Whalley's assistant, who handed it to the jury. The manila paper was a piece of the envelope that the dead man did, and he was asked if that was part of the envelope he had received his money in that Saturday afternoon. His name which he had received, and he said, after receiving it, he had torn it into two or three pieces and cast it into the floor. Whalley, he said, had taken the envelope at the same time, but he did not see what he did with it.

Officers Working Hard. The detectives did not begin work on this phase of the case until several days after the body was found, yet they had gone thru the scrap paper heap, which was made up of bits from this warehouse, in a remote part of the city, and had found the paper of the envelope which was torn by Whalley. They did not find it, but they were sure that Whalley had taken it with him when he left the house.

Did you see him in the building at that time? "Yes, I did." "Who did you see in the building at that time?" "John and William Clark. They were with me when I went to the building to take any medicines around the building. Whalley was with me when I took the medicine." "Did you see him in the building at that time?" "Yes, I did." "Did you see him in the building at that time?" "Yes, I did."

Learned of Fatality Monday. The first news of the death of Whalley was learned on Monday. "Whom did you see in the building at that time?" "John and William Clark. They were with me when I went to the building to take any medicines around the building. Whalley was with me when I took the medicine." "Did you see him in the building at that time?" "Yes, I did." "Did you see him in the building at that time?" "Yes, I did."

Did you see him in the building at that time? "Yes, I did." "Who did you see in the building at that time?" "John and William Clark. They were with me when I went to the building to take any medicines around the building. Whalley was with me when I took the medicine." "Did you see him in the building at that time?" "Yes, I did." "Did you see him in the building at that time?" "Yes, I did."

PREMIER'S NAME HOOTED

Objection Taken to Hon. G. W. Ross Being an Officer of the Ontario Alliance.

OTHER PROTESTS CREATE COMMOTION

A Ten Thousand Dollar Fund to Be Raised for the Referendum Campaign.

Matters other than those which might be regarded as the most practical towards the advancement of prohibition launched the Ontario branch of the Dominion Alliance into a state of chaos yesterday afternoon, which was, perhaps, only paralleled in the history of that organization by the memorable meeting in the Horticultural Pavilion last July. Principal among these matters was the addition of several names to the Business Committee, and the taking up of a couple of questions, the relevancy of which evoked heated discussion.

The convention was opened in Association Hall with Rev. Dr. MacKay of Woodstock, chairman of the branch, in the chair, and between 500 and 600 temperance workers in attendance. Among those on the platform were Senator Vidal, J. H. Carson, Rev. Dr. Carman, general superintendent of the Methodist Church; Mrs. McKee, W. W. Buchanan and Rev. Dr. Shutt.

Prayer was offered by Rev. Mr. Shutt, and F. S. Spence, secretary of the Alliance, moved that Rev. Mr. Cooley, Henry Moyles, Toronto, and Mr. Carson, Montreal, be appointed recording secretaries. This was agreed upon.

Upon motion the following were then appointed: Business Committee, H. P. Moore, Acting; Rev. J. S. Ross, W. Kerton; T. E. Parrott, Chatham; Rev. J. A. Oliver, Litchfield; Rev. Mr. Shutt, L. C. Peake, Mrs. A. O. Rutherford, and S. G. E. McKee, Joseph Gibson and F. S. Spence.

President's Annual Address. Rev. Dr. MacKay then delivered his annual address, in the course of which he said: "Another year has come and gone, bearing with it more than the usual quota of opportunities, encouragements and discouragements. Some of you think the discouragements have predominated, and that is why we sound our trumpet note, not in the minor key, but in the major, [hear, hear.] No doubt we still see the liquor traffic in full blast in our land, giving its deadly work upon the hearts and homes, the bodies and souls of our people; we see both our political parties prostrate before it and shamefully corrupted before its seductive and church itself in too many places asleep, as if chloroformed by the fumes of strong drink.

"Repeatedly during the year we have waited upon our provincial government and reminded it of solemn promises, some of them typewritten, given us so frequently and with apparent good faith. With little or no result we went into the election in May last, we made our first fighting record on the political field, and we were greatly encouraged by the result. [Hear, hear.] I emphasize that. [Applause.] We opposed no man but we were a Conservative. We are not opposed to the Liberal or the Conservative party, as such, we are opposed simply because the candidate, Liberal or Conservative, was against prohibition or against us as a professed friend of it. We have no intention of ever reaching the treasury benches, like the political parties. We elected some, we defeated others, we changed the result in many places, and we convinced every politician in the land that we were a power in politics that could no longer be ignored or belittled. [Cheer.] We are going to call us 'hypocrites and humbugs,' that preached and prayed and talked temperance, but voted every time, regardless of principle. That day is gone—cheer—gone, we hope, forever. Men who are prohibitionists simply as far as it will help their political party must now fall to the rear, go back and sit down."

Now for the Referendum. Continuing, he paid a tribute to the services rendered by Secretary Spence and W. W. Buchanan, and went on to say: "Perhaps the most important duty now before us is to prepare for the vote on Dec. 4. I have already referred to the conditions of the referendum, but, nevertheless, we must bend all our energies to the work of rolling up, not for the referendum, but for prohibition, on this occasion, the biggest majority ever achieved in this province. [Cheers.] In all probability another election is near at hand, the parties are so evenly balanced that a crisis must soon be reached. From these elections the friends of moral reform dare not hold aloof. We are prepared, as never before, to fight the foe on the political field. We have an organization that can reach every home and every intelligent elector. May the Spirit of the Lord arouse the people to a solemn sense of responsibility in the exercise of the franchise, until the barroom of our land is swept out of existence, even the all hell shout rally to their defence.

"In the coming campaign let there be no compromise with the bar-room. The people of this country do not want bar-rooms. This fact we are going to make clear by bringing out the vote on Dec. 4. Remember, if that vote is small, it will be cast up to us as a taunt for several years to come, as a reason why the cursed traffic should be allowed to go on. Every vote will tell, and whatever the total may be, if the majority is large, no government will venture to ignore it. We are not asked to vote for the referendum, but for prohibition, which is as righteous and necessary to-day as ever it was in the past. Then let none be faint hearted, none to complain, but all to the work. It is as much easier to complain than to work."

In conclusion Dr. MacKay advised the delegates to restrain themselves and not engage in any stormy scenes. "We seek to preserve the unity of the spirit," he said. "The reports of the last convention in the newspapers, he thought, gave the public the impression that the last convention was inharmonious. To his mind there never was a more harmonious gathering of prohibitionists.

Appreciation of the reverend gentleman's remarks was evidenced in an outburst of applause as he resumed his seat.

SUNDAY LIGHT SOAP

Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, reports that Sunlight Soap contains "the highest percentage of oil or fat necessary to a good laundry soap."

Ask for the Octagon Bar

instructed to take immediate steps to secure a live working organization in every electoral district in which such action has not yet been taken, and to send at once to all such organizations a circular of instructions regarding the prohibition of the manufacture, importation and sale of alcoholic liquor for beverage purposes throughout the Dominion of Canada can alone be regarded as a settlement of the liquor problem of this country; the view of the recent decision of the Privy Council defining the jurisdiction of the province and extending to legislation upon the sale of liquor, this convention believes that pressure should be brought to bear upon the Dominion authorities in order to place it on the agenda of the present meeting with a view to prohibition to any province, which may, by a plebiscite vote, declare itself in favor of such a measure."

Irrelevant Clause Laid Over. The last clause was debated upon at length, and finally upon a motion it was decided to place it on the table, as being irrelevant to the plan of the convention in connection with the referendum.

Rev. Dr. Carman moved that the report be sent to an appropriate committee to be reported upon, and in doing so speak vigorously in support of the action they should adopt in the coming campaign, exhorting all to give their moral tone to the referendum a magnificent vote. There were many good men who averred that the moral tone of the referendum was the key to the moral tone of the nation, and that the moral tone of the nation was the key to the moral tone of the world.

Senator Vidal seconded the motion. He said he had been charged with being in a terrible mood, and that his friend, Rev. Dr. MacKay, had actually said, "Come in and help us to lift the moral tone of our land, giving its deadly work upon the hearts and homes, the bodies and souls of our people; we see both our political parties prostrate before it and shamefully corrupted before its seductive and church itself in too many places asleep, as if chloroformed by the fumes of strong drink."

Remarks were uttered with every evidence of excitement on the part of the representatives when the chairman put the question to a vote, saying: "It is not a matter of life and death, but it is a matter of principle, and it is a matter of principle that we are voting upon."

At the evening session the convention accepted a suggestion of the W.C.T.U. to offer individual prayer every day at noon for success on December 4th. Rev. Dr. Chedwin of Manitoba conveyed the greetings of the temperance workers of the prairie provinces.

At the afternoon session the Resolution Committee made the following report, which was adopted: "That we request the Executive Committee to appoint a committee to conduct a campaign for the purpose of definitely presenting the temperance interests to the best possible advantage before the public through the press and conduct any discussion which may arise."

SIX FIREMEN INJURED

Fire in Five-story Building Destroyed Two-story Building in Pittsburg.

Pittsburg, July 29.—Six firemen injured, two eight-story buildings almost completely destroyed, a number of others slightly damaged and a property loss estimated at \$300,000, is the result of a fire on Liberty-street, which raged fiercely for seven hours to-day.

The fire spread rapidly and soon the adjoining building occupied by Stewart Bros., dealers in rubber goods, was also destroyed. As the fire spread there were frequent explosions. About 2 o'clock when the flames appeared to be dying down there was an explosion, which shook the building and shot fire men were badly burned, and the hands and face by this. They were once taken to a hospital and then removed to their homes, but their injuries were not serious.

Remains of the Bonanza King Will Rest in England Until September 10.

London, July 29.—Many American and English friends of the family were present to-day at a regular mass celebration in St. Mary's Catholic Church, Cadogan-square, for the repose of the soul of John W. MacKay. The members of the family present were: Clarence MacKay, the Princess Colonna, her young son, and the daughter and two sons of the Countess Telfer. Mrs. MacKay, who is still prostrated, remained at home with her mother, Mrs. Hungerford. The Countess Telfer is quite ill at the Walsingham Hotel.

Big Blaze at Hillcock's. Loss Estimated at \$4000 in an Afternoon Fire.

Fire got into the three-story brick building at the southwest corner of George and Queen-streets, occupied by John Hillcock & Co., manufacturers of refrigerators, in an instant their building, which was filled with stock, including horses, 75 butchers in harness, and a large number of other goods, was completely destroyed.

Civil Holiday Excursions. Take your family for a nice outing from Saturday afternoon until Tuesday, to Lake Simcoe, Lake Couchiching, Muskoka Lakes, etc. Single fare for round trip. Call at Grand Trunk City office, northwest corner King and Yonge-streets, for full information.

Horse Kicked a Boy. Fred Willis, a young lad, was kicked in the head by a horse attached to a city wagon cart yesterday morning. The lad, after which he was taken to his home.

Miss Laura Howard, President South End Ladies' Golf Club, Chicago, Cured by Lydia E. Pinkham's Vegetable Compound After the Best Doctors Had Failed to Help Her.

"DEAR MRS. PINKHAM:—I can thank you for perfect health to-day. Life looked dark to me a year or two ago. I had constant pains, my limbs swollen, I had dizzy spells, and never felt well."

MISS LAURA HOWARD, CHICAGO. The first meeting of the Penitentiary Railway Commission was held yesterday morning at the Parliament Buildings, all of the commissioners present. Mr. A. E. Ames was elected chairman. Mr. D. E. Thomson, K. C., Toronto, was elected secretary.

Temiskaming Railway. The first meeting of the Penitentiary Railway Commission was held yesterday morning at the Parliament Buildings, all of the commissioners present. Mr. A. E. Ames was elected chairman. Mr. D. E. Thomson, K. C., Toronto, was elected secretary.

FREE CURE FOR WEAK MEN

A FREE TRIAL TO ALL. Nothing to pay until you are cured. "I say 'free trial' and I mean it. I am prepared to send you a BOTTLE FULL OF FREE TRIAL, my improved BELL'S STIMULANT non-burning non-irritating BELL'S TONIC. I will send you my famous BELL'S TONIC, with all attachments. You wear three months then, if cured, you pay me. If not cured, you send it back to me. I have the most perfect of all. It is far superior to the commonest of all. It is a sure cure of all. It never uses vinegar and never burns. Guaranteed for three years. It has cured thousands and weak men's troubles after all other remedies failed. It is a positive cure, and, best of all, can be had by any constant man or woman for the asking. Why pay for that which can be had free? I will also send free my illustrated Medical Book, written by me, and other treatments. It is a handsome medical work and will be sent as a Free Gift to each person who writes me. This valuable work should be in the hands of all. This is the most generous offer ever made to cure a really good article within the reach of every man or woman who needs it. I have never tried an electric belt, hesitate no longer, but write to me at once. Electricity is the modern treatment. I apply it in the best and most improved manner. I know I can cure weak men, and have confidence in them to pay me when cured. Write today. Delay no longer. Remember, positively guarantee to cure now to be had for the asking. Let me hear from you. Building Sale of Summer Hats

These are big days in our hat business, because people have learned that this building sale of ours is a real reduction sale. Our business has grown so much in the last three years that we find it necessary to put a four storey addition to it, and to make things easier for the workmen. We have to clear out our summer stock. Only one way by reducing prices—sacrificing everything.

Genuine Panama Hats—Were 8.50, for 5.00; were 12.00, for 7.75; were 20.00, for 10.00; were 30.00, for 15.00.

R. SCORE & SON, Tailors and Haberdashers, - 77 King St. W.

WILL MEET THURSDAY NIGHT.

Tailors Will Discuss Grievances Against Employers.

The Tailors' Union has called a special meeting for to-morrow night to discuss what action to take in the case of the employers who send out clothing to be finished. The men employed in the shops where the grievance exists threaten to strike unless the employers finish the clothing in their own shops.

The new officers of the council of the Amalgamated Woodworkers' Union were elected as follows: President, John Boland; vice-president, F. Crusky; secretary, George McNeil; treasurer, W. Macintosh; delegate to the Dominion Trades Congress, Samuel Moore.

The newly-instituted Picture Framers' Union met last night and completed organization. The new union already has a large membership, and is affiliated with the American Federation of Labor.

Exhibition Affairs. Mr. R. C. Bannister, Canadian government agent in New Ontario, writes: "We are making an effort to secure an exhibit as large as that of the C.P.R. of last year. The prospects for good crops are very flattering, and our exhibit depends entirely upon the amount procured from the farmers."

Prof. H. Harcourt of the Chemical Department of the Agricultural College, will have charge of the sugar-beet demonstrations this year. They will be conducted on exactly the same scale and in the same manner as last year.

Professor Dean of Guelph and Professor Hurdick of Ottawa will be in town to-day to make arrangements for installation of the equipments in the new dairy building.

Sudden Death of Mr. Cooper. The death occurred yesterday afternoon at 153 Adelaide-st. of John Cooper, 29 years an employe of the mechanical department of the Consumers' Gas Company. On Thursday last Mr. Cooper attended the excursion of the Veterans of '98 Association, of which he was a member, and on Saturday the picnic of the Gas Company employes, at which he was present. He was suddenly seized with a paralytic stroke, and, although everything possible was done to save his life, he died at 3 o'clock yesterday afternoon. Mr. Cooper is survived by a widow and five children, and was an active member of McKinley L.O.L., No. 273, of the Grand Lodge of the O.C.F. & I. of O.E.S. of the same name.

Temperance Conventions. The Temperance Legislation League is arranging for two large district conventions. The first, for the Niagara Peninsula and Hamilton District, at Grimsby, on Aug. 22, and one for Eastern Ontario, at Kingston, early in September.

A Guest of the City. Gordon C. Bannister spent last night at the Court-street Station. He is on his way from Sault Ste. Marie in charge of Sheriff's Officer Stevenson, to Kingston Penitentiary, where he will serve a term of five years for theft.

BREAD! BREAD! BREAD!

When You Want Reliable Bread Buy WESTON'S "AUNT MARY'S"

LIGHT, MOIST AND DAINTY. SWEET AND TOOTHsome. JUST THE THING FOR LUNCHES.

In preparing "Aunt Mary's" Bread for our trade we have been led to consider the desires and demand of the bread-eating public.

The desire is for a loaf, with proper ingredients, that will keep moist instead of drying out quickly, as bread will sometimes do. We have the loaf, Aunt Mary's.

The demand of the people for clean bread has been met. Every loaf is put in paper bags.
