RILEY AND BARTZ

CHINESE SMUGGLERS

Arrested at Fort Erie, Will fight extradition.

WELLAND, Dec. 10.—(Special)—William Riley and Edward Bartz of Welland, who arrived in Fort Erie yesterday, and the police there are the men who were smuggling Chinese over the river to Buffalo on the morning of Nov. 12 when four of the party of 11 were drowned and three others were dashed to pieces on the ice.

Appearing before Magistrate Burger, a remand was made until Dec. 15, but it is probable a hearing will be given to-morrow. The charge against them is manslaughter, and they announced that they will fight extradition. Both men are married. Riley is 26 years of age and Bartz is 40.

Rush Nearly Over.

PORT ARTHUR, Dec. 10.—(Special)—To-night saw the end of the big rush season at the elevators, and a few cargoes will likely be loaded tomorrow and Saturday. The Wells is expected in for 20,000 bushels of grain.

Altogether to-day about three-quarters of a million bushels were loaded.

Old Man Stricken.

Thomas Dion, 63 years, was found by his son lying unconscious in his study at 24 Victoria street last night.

He had suffered a stroke and was removed to his home, 51 Gould-street, in the police ambulance.

and every man was

**BURKHOLDER AND ROGERS ARE GUILTY OF PERJURY**

Will Be Sentenced at Conclusion of Sessions—Overdraft Will Be \$100,000.

HAMILTON, Dec. 10.—(Special)—Will Burkholder and John Rogers, two of those charged with perjury in connection with the raid on a gambling club at the corner of King and Catherine-street east a year and a half ago, were found guilty at the sessions today and will be sentenced at the conclusion of the session. Rogers was tried first and the jury was out some hours. While waiting for it Judge Skinner called for Burkholder's case, and Burkholder was not present. The judge made out a warrant for his arrest and had handed it over to the courtiers just as Burkholder entered the court. Both jurors recommended the accused must go to prison.

Burkholder and Rogers were amongst those caught in the raid on the establishment and at police court, swore that there was no gambling done on the night of the raid by the policemen who then looked through a window and saw the gang busy with dice. The following will face a similar charge Friday. W. Cornell, J. O'Reilly and Chas. Baird.

Arthur Linton, 44 Gore-street, a young Englishman, was arrested to-night on the charge of forcing his attentions on a young lady.

Jas. Quirk, 73 West Jackson-street, was struck on the head by a falling plank at the steel plant this afternoon.

Rev. S. E. Marshall, Berlin, was the speaker to-night at the first of the fortnightly luncheons of the Canadian Club held at the Royal Hotel. The Prince of Wales' Cup was the subject. The sound banking institutions, the fact that divorce was almost unknown and the people God fearing and law abiding were some of the good qualities upon which he laid emphasis.

**Big Overdraft.**

The finance committee this evening deferred action on the motion to establish a lending house to be controlled by the charitable societies with city funds. The treasurer's statement showing that the overdraft amounted to about \$100,000 was discussed and Mr. Farrar thought some of the committees ought to be censured. A by-

**Only a Common Cold.**

**BUT IT BECOMES A SERIOUS MATTER IF NEGLECTED.**

Pneumonia, Bronchitis, Asthma, Cataract or Consumption is the result. Get rid of it at once by taking Dr. Wood's Norway Pine Syrup.

Oscinate cough yields to its grateful soothing action, and in the racking, persistent cough, often present in Consumption cases, it gives prompt and sure relief. In Asthma and Bronchitis it is a successful remedy, rendering breathing easy and comfortable, enabling the sufferer to enjoy refreshing sleep and often affecting a permanent cure.

Mr. Henry Smallpiece, Brudenell, Ont., writes: "I was always subject to a cough and could get nothing to relieve me until I saw an advertisement of Dr. Wood's Norway Pine Syrup and thought I would try a bottle, and when I had taken a few doses I found I was getting relief, and when I had finished it I was cured. I procured a bottle of the same and have had it ever since. I have had a few doses every time I have had a cold. I would advise anyone having a cough, to give Dr. Wood's Norway Pine Syrup a trial and I am sure they will never be without it."

Dr. Wood's Norway Pine Syrup 25 cents per bottle at all dealers. Put up in yellow wrapper, and three pine trees the trade mark. Refuse substitutes. There is only one Norway Pine Syrup and that one is 'Dr. Wood's.'

**Adults Shoplifting.**

Mrs. Sarah M. Brown pleaded guilty yesterday before Judge Winchester to shop-lifting. She is to appear for sentence, her husband having gone home.

**Marie Cahill's Diamonds Lost.**

NEW YORK, Dec. 10.—Miss Marie Cahill, star of "The Boys and Betty," appealed to the police to aid her in recovering \$100 worth of diamonds, which had either been lost or stolen.

Miss Cahill, during the performance last night, appeared with only one article of jewelry—a ring.

**VIADUCT WOULD RUIN BEAUTY OF CITY FRONT**

Railway Expert Offers New Objection to Elevation of Tracks.

That the romance and picturesqueness of the city will be destroyed if a viaduct is erected along the railway front is the newest objection raised against the scheme by the railway company.

Frederick Guittilis, the C.P.R.'s expert witness, was placed on the stand. He is general superintendent of the Canadian division and formerly assistant chief engineer of the company in Toronto.

Mr. Guittilis declared that the appearance of the City, as seen from abroad, would be seriously affected by the proposed viaduct. From the lake side a view of the streets would be entirely cut off, and a high continuous masonry structure of 15 feet in height would hide a view of the buildings on Front-street; and a person would have to stand above King-street to get a glimpse of the lake, and then he could only see one a mere sliver of blue far out on the horizon.

He also averred that the railways could not operate in their yards during the period of raising the tracks to the proposed height, and there was no available place for the depot yards during the work of construction.

He could not say whether this would mean a loss to the companies of \$500,000, or \$1,000,000, but it would be sufficient, in either case, to decide them in favor of bridges.

"The level crossings that would be created on the viaduct itself, would be almost as numerous as the tracks the viaduct was supposed to overcome," said the witness. He couldn't imagine any other method of so effectively killing the district south of the tracks.

The witness was prompted by Mr. Blackstock, witness said that usually where grade elimination was effected it was accompanied by closing of several streets.

"There was no doubt in his mind that the technical and proper solution of the elimination of grades on the Esplanade was by means of overhead bridges.

Get Down to Rock.

Witness insisted that it would be necessary to account for the nature of the soil, which he characterized as "soup" to carry the foundations down to rock bottom instead of supporting them on piles. He stuck to this theory all the time. Corporation Counsel called for cross-examination in the afternoon so far as the York Esplanade was concerned; but admitted that he had personally constructed several stations and freight sheds on sand and gravel, and that he had no objection to be built that way; but he hastened to interject that a freight shed was constructed to be torn down and re-constructed.

"But in that case the sand was thrown into the piles dry, was it not?" suggested Mr. Fullerton.

At police court this morning Fred Wall admitted that he stole harness belonging to D. S. Gilles and Frank James, but elected to be sentenced by the magistrate. John Dillon was sent up for trial on the charge of breaking and entering.

The following will face a similar charge Friday. W. Cornell, J. O'Reilly and Chas. Baird.

Arthur Linton, 44 Gore-street, a young Englishman, was arrested to-night on the charge of forcing his attentions on a young lady.

Jas. Quirk, 73 West Jackson-street, was struck on the head by a falling plank at the steel plant this afternoon.

Rev. S. E. Marshall, Berlin, was the speaker to-night at the first of the fortnightly luncheons of the Canadian Club held at the Royal Hotel. The Prince of Wales' Cup was the subject.

The sound banking institutions, the fact that divorce was almost unknown and the people God fearing and law abiding were some of the good qualities upon which he laid emphasis.

**Action Dismissed.**

Judge Morson yesterday dismissed with costs an action for damages by George M. Smith against the Canadian Tire Co. for \$100.

Commercial Travellers' certificates are to be had of Fred Johnston, room 600, Bank of Hamilton Building, Hamilton.

**Baseball Making Laws****Yachting Rochester Wires Again****Bowling All the Scores****NOTE AND COMMENT**

Tom Rennie is starting out to repeat his last bowing triumphs on the ice. Yesterday at the Grantham he had a friendly game with Uncle Simpson Rennie, and the veteran won the majority of the 11 ends. A useful four made the final total 9 to 6.

The press stunt being sent out from New York would make the race next Tuesday a clinch for Tom Longboat. In fact on the strength of the boats a friend of Tim O'Rourke wagged \$400 to \$100 on the Indian, who was foolish odds, the betting in New York at present being even money.

The press stunt being sent out from New York would make the race next Tuesday a clinch for Tom Longboat. In fact on the strength of the boats a friend of Tim O'Rourke wagged \$400 to \$100 on the Indian, who was foolish odds, the betting in New York at present being even money.

The report of Longboat's 10-mile trial in 55 miles yesterday on a day of record breaking weather, in fact, his ten miles in the morning, 14 laps to mile, ten seconds slower, was a creditable performance for a sick man. Longboat may go to the mark in fit condition, but what has he ever shown indoors? His best was forcing Bonhag to make a three-mile record, and then he lost.

Dorando Pietri is in the finest possible condition for the Marathon distance, and at Madison-square track, ten laps to the mile, the Italian does out to defeat the Indian.

When squirming under the lash of London Elgar and Track, James E. Stewart, the champion, who would disclose things terribly shocking about the English Athletic Union. Possibly the sores are healing and the Boss will deem it wiser to forget.

According to the exchanges, in the death of Taylor, America loses one of her best middle distance runners, and the colored race its foremost amateur athlete. Taylor is the man Harry Labouchere says are the only white in the Olympic 400 metres trials.

The latest from the Rochester Yacht Club makes it appear that the Royal Canadian Yacht Club will bring down the Canadian Cup next year by building a boat that can defeat the Seneca.

**Sporting Notes.**

According to a Los Angeles dispatch, Jockey V. Phillips, who will ride in England next season, as Leopold de Rothschild is alleged to have offered him a retainer of \$10,000, has winter racing made at El Paso, Texas, promises to prove a success. Many of the horse owners have gone to the races, and the Murray residence of the racing, but Murray says the meet will last 60 days. The track is in good condition and the horses are in fine fettle.

Elmer Hart has a spacious hockey rink on Parliament-street, corner of Elmwood. He would like to secure some league team.

K. Smith, who was to have fought Johnston in Montreal on Dec. 9, broke his wrist in a severe fall while riding his bicycle on Friday. The bout will, in consequence, be postponed until the first week in January.

The American team figured their ranking in football down to a nicey. The correct standing of the eastern teams is as follows: Pennsylvania, 1; Harvard, 2; Yale, Dartmouth, 3; Princeton, 4; Brown, 5; Syracuse, 6; West Point, 9; Annapolis, 10; Amherst, 11; Williams, 12.

It will be noted that the Indians are number twelve. This is due to the fact that the Carlisle Indian School cannot be ranked as a collegiate institution if it were, the Indian eleventh would deserve to be ranked with the leaders of the Big Six.

Turning to the west, there is no doubt that the Indians are the champion of that section, but judging from the results of the Chicago, Cornell and Pennsylvania Cornell comes in western division, and an equal distance back the east. The Neal team is the best of the visitors. Mr. Hart advanced the National League meeting yesterday that the necessities between himself and Mr. Ebbets are pending.

There is little chance that the spiritual will be discussed by either league at the present time, but Charlie Murphy's enthusiasm has waned. As it was, he was playing a lone hand.

At the National League meeting resolutions of sympathy on the deaths of Henry (Father) Chadwick and Frank de Haas were adopted.

President Charles Ebbets announced that all plans of landing Dabiles as a player or the manager had been abandoned.

In all probability Harry Lumley will be given a chance to pilot the ill-starred team, and, as far as the players are concerned, there will be no misunderstanding on the part of the owners of the major league clubs. The bolters, or, as they call themselves, the "bolters," are, in my mind, more clear than they are for peace and not for war.

According to the club owners who compose the bolting minor leagues their meeting will result in the announcement of the position as it relates to baseball in the national association.

This action will probably be taken by the inability of the national association to make a statement of its side of the case. The bolters, or, as they call themselves, the "bolters," are, in my mind, more clear than they are for peace and not for war.

### HOT DEBATE AT GUELPH ON WOOLEN INDUSTRY

Manufacturers and Dealers Had Lively Session at Winter Fair.

GUELPH, Dec. 10.—(Special)—All day long the interest in the winter fair was centered around the discussion of live stock was finished, the seed exhibit, the lectures on sheep, swine and cattle were of an high order, productive of much practical benefit.

The "Guelph Woolen Show" was on exhibition and Mr. Featherstone of Yorkshire fame from Stratford won out in the bacon hog class.

Professors Klinck and J. Buchanan completed their awards in the woolen competition and the 70 entries in wide open the five prizes were awarded after much difficulty in deciding the valuable qualities of each. The results are valuable. The following awards were made:

Mr. George, of Larchmont or Loree, Collingwood, on "New Sensation"; 2 James McLean of Richmond Hill, on "Irish White"; 3 John McLeod of Lucknow, on "White Danish"; 4 John Cooper of Aberfoyle, on "Lincoln"; 5 James Baird of Lucknow, on "Sen-

### SULLIVAN'S IOLANTHE SUNG BY LOCAL AMATEURS

Fair Audience Hears Opera at Massey Hall, With Miss Corbett Stellar Attraction.

It was a pleasant change from the list of professional musical performances to hear a company of amateur performers last night at Massey Hall. The opera was given under the auspices of the Argonaut Rowing Club, and a fair audience greeted the performance.

As might be expected on a "first night," the principals, chorus and orchestra did not quite attain their best; but the performance was notable for at least one result, namely, that a new singer was

## THE REGULATION OF MINING COMPANIES.

The World is of the opinion that the law in regard to the organization of mining companies should be liberal up to, and that a reasonable amount of protection should be secured to those who invest their money in mining propositions. But there is one thing that always should be remembered, and it is this, that the law in regard to mining incorporation and its enforcement can be made too rigorous to admit of mining enterprise, whereas the main object of the law ought to be to secure and encourage the development of the mines of the province.

Ontario to-day happens to have, or in all probability will have, the greatest, the richest, silver mines in the world, and Ontario as a province is to-day deriving very considerable revenue from these mines as well as from the incorporation of companies, the licensing of prospectors, and the granting of titles; while many Ontario investors have made good dividends out of their investments; and labor has been provided for many men. Traffic, both in freight and travel, has been furnished in such quantities by the mines as to ensure the immense success of the Ontario and Temiskaming Railway; and in other ways the whole silver proposition of the Temiskaming country is to-day the most promising thing we have in this province. Therefore there is good reason why we should be careful how we regulate the incorporation of companies and the enforcement of the law providing for the protection of investors.

It must not be forgotten that mining is more of a gamble or speculation than an investment, especially in the inception of all such enterprises; and no way could have been found of financing the great bulk of the mines in the world to-day other than as speculative propositions involving incorporation often extravagantly capitalized.

The whole history of the South African mines corresponds to the history of the Cobalt mines, but speculation in "Kaffirs" on the London market was much more pronounced and their capitalization more excessive than are Cobalts to-day in Ontario. All the copper mines of the United States—the mines that have made cities like Boston and New York immensely rich—the silver mines of the western states, and the gold mines of that country have been organized on exactly the same basis, and so have all British mines in other portions of the world than South Africa. They are all floated in this way, and we challenge anybody to show the mining world how money can be raised for mining purposes other than by having what is called "curb brokers" selling shares to men who are of a speculative turn and who are willing to take big chances on the prospect of big profits. Other business propositions have other ways of organization, but so far there is no other way of getting the needed capital into Ontario than by way of the curb broker. Let us therefore not blind ourselves to this fact. It was the curb broker of New York and Toronto who got money for La Rose, for Nipissing, for Kerr Lake, for Temiskaming, and all the properties in the Cobalt country. There may be three or four exceptions where the prospect-

85 King Street West

or first purchasers had lots of money or credit of their own. It is therefore all very fine for critics to say that the law ought to be stringent in regard to the incorporation of mining companies and the conditions under which brokers shall offer shares in mines. But it is incumbent on those who want greater stringency to show in what other way Cobalt could have been made what it is to-day, and to show in what other way the coming and greater mines which we believe are in sight north and west of Cobalt can be financed and developed.

The World believes that the silver mines of Cobalt in a year or two will be turning out a product in money value equal to from 50 to 100 millions of dollars a year. In other words two or three small townships in the wilds of northern Ontario will be turning out a product equal to half of the whole grain export of the Canadian northwest, of which we have heard so much.

Comparatively few people have been hurt up to date by the purchase of Cobalt shares, while on the contrary a great many people have been benefited, a great new industry has come to Ontario and to-day these mines are advertising Ontario and attracting the attention of the world at large more than any other thing we have. They are taken from the police records; they are official and therefore not disputable. Why did not the Massey Hall speakers use them and honestly face their story? Why does not The Globe or The Star?

In their address to the electors the advocates of reduction tell us that last year Toronto had 8760 arrests for drunkenness. This is important. What is the significance of the figures. Do they prove that license reduction has been a good thing for temperance? Hardly. Assuming that our population has doubled since 1887 these figures show that the record of intemperance is worse by 1576 annually under license reduction than it was when we had over two hundred licenses.

Nor are these the only figures of which The Globe and The Star can, if they will, avail themselves. They can, if they will, compare Toronto's record under license restriction with the records of neighboring American cities, where similar conditions prevail, except that the licensed sale of liquor is comparatively unrestricted. Buffalo, Rochester and Detroit are convenient for this purpose. They are situated very much as Toronto is, and their people are no more moral, temperate and law-abiding than ours. The three in 1896 had a population estimated at 861,220. We take 1896 as being the last year for which we have data. They have 3300 places licensed for the sale of liquor-barrooms. That is one for each 260 of the population. Estimating Toronto's population at 290,000, we have one licensed hotel for each 1823 of the population. In other words these three cities have seven times as many licensed places for the sale of liquor by the glass. Last year, as has been said, Toronto had 8750 arrests for drunkenness, while the three American cities had 12,264. That is with only one-seventh the number of licenses we had one arrest for drunkenness to every 32 of the population, while they had only one to 64.

Just at present the people of Toronto are not called upon to say by their votes whether the barroom or the treating system is beneficial or harmful. They may be interested in more or less learned disquisitions upon the economic principles which apply to the purchase and sale of groceries and liquors; of dry goods and wet goods, but they are not called upon to vote upon economic abstractions of that kind. They are asked to say whether the number of licenses for the sale of liquor shall or shall not be reduced by 40. They are being told on the one hand that the city is larger and more populous now than when, three years ago, the people decided that in their opinion 150 licenses were not too many; that the arbitrary cancellation of 40 licenses would be unjust and confiscatory; and that concentrating and congesting the licensed sale of liquor will be far more likely to increase inebriety than to promote temperance.

On the other hand they are told that Toronto does not need 150 licensed hotels and that when the people, three years ago, thought it did they were mistaken; that even if the measure does involve some hardships it is not unlawful to spoil the Egyptians in a good cause; and that license reduction will promote temperance by lessening temptation.

To get at the facts as between these two sets of contentions is not difficult, one would think, and much learning and scholarship and long drawn out economic disquisitions are not needed, except, perhaps, by those who want to baffle the question.

Toronto has tried the experiment of reducing the number of licenses before; what was the result, and did it promote temperance or diminish

drunkenness? To answer this question truthfully would do more, one would think, towards enlightening the citizens as to their duty in respect to the bylaw, than many disatributes against barrooms and much learned dissertation on the difference between the economic principles that govern the sale of sugar and beer. Why did not the Massey Hall speakers give us the official records that would answer and settle this question? Why does not The Globe or The Star give them?

Three years ago the Municipal Reform Association, the name under which the license reductionists of that day did business, published a table, which showed that while the city's population had been increasing by 46 per cent., intemperance, as evidenced by arrests for drunkenness, had increased 153 per cent. Why has not this table been brought down to date and published? Why does not The Globe give it, or The Star?

This neglect due to the remembrance that the citizens' committee then opposing license reduction promptly seized upon the table and used it with telling effect for the discomfiture of its authors? The citizens' committee at that time pointed out that during the four years preceding the license reduction of 1887, while the number of arrests averaged 216, the arrests for drunkenness had been 15,198 or 3799, on an average yearly. They also pointed out that during the next four years after the licenses had been reduced to 150 the number of arrests for drunkenness had jumped to 20,555, a yearly average of 5139. As the city's population had all but remained stationary during the time, the committee held that license reduction and the consequent concentration of the traffic must be held accountable for the yearly increase of 1240 drunks.

These figures are all available, they are taken from the police records; they are official and therefore not disputable. Why did not the Massey Hall speakers use them and honestly face their story? Why does not The Globe or The Star?

In their address to the electors the advocates of reduction tell us that last year Toronto had 8760 arrests for drunkenness. This is important. What is the significance of the figures. Do they prove that license reduction has been a good thing for temperance? Hardly. Assuming that our population has doubled since 1887 these figures show that the record of intemperance is worse by 1576 annually under license reduction than it was when we had over two hundred licenses.

Nor are these the only figures of which The Globe and The Star can, if they will, avail themselves. They can, if they will, compare Toronto's record under license restriction with the records of neighboring American cities, where similar conditions prevail, except that the licensed sale of liquor is comparatively unrestricted. Buffalo, Rochester and Detroit are convenient for this purpose. They are situated very much as Toronto is, and their people are no more moral, temperate and law-abiding than ours. To get at the facts as between these two sets of contentions is not difficult, one would think, and much learning and scholarship and long drawn out economic disquisitions are not needed, except, perhaps, by those who want to baffle the question.

Toronto has tried the experiment of reducing the number of licenses before; what was the result, and did it promote temperance or diminish

stock, \$300,000, there was applied to the payment of bank premises furniture \$96,750 and \$6000 was transferred to the officers' pension fund. The balance of undivided profits carried forward at credit of profit and loss account was thus \$405,991.22.

Between the last and the immediately preceding year the compensation general statement shows that the Bank of Ottawa has, like other banking institutions, been affected by the trade depression which while decreasing loans has strengthened the bank's reserves. Deposits increased from \$23,988,769.99 in 1907 to \$24,085,416.04 in 1908. On the other hand current loans fell from \$22,206,704.33 to \$20,799,235.43. As a consequence the sum of readily available assets has risen from \$45,300,000 in 1907 to \$46,302,000 in 1908.

The strength of the Bank of Ottawa is shown too in the fact that the rest account stands at \$3,000,000—equal to the fully paid capital stock, with \$405,991.22 of undivided profits on hand. The net undivided profits for the year amounted to \$10,000. David MacLean, president, was re-elected and later appointed Mr. David George Bryson vice-president, for the current year.

## More About the Saw-Offs

It has already been pointed out that the defeated candidate at an election may have a defense for not filing a protest (even tho' he knows that corrupt practices were resorted to) because of the great expense and unavoidable delay involved in making an election contest. A more delicate question is raised by the proceedings last Saturday at Fredericton, N. B. There Geo. W. Fowler, the defeated candidate for Kings and Alberts, was determined to file a protest, being unable to make any other form of a fight, there seemed no reason why he should not do so. "But," said the Liberal organization, "If Fowler files a petition then we will see that petitions are filed by others." And the Conservative party returned from New Brunswick at the last election.

How far, if at all, can Messrs. Crockett and Daniel be excused for trying to pull Fowler off?"

What occurred at Fredericton is thus described by The Moncton Transcript (Lib.):

"Bets were freely offered that the efforts to induce Mr. Fowler to file a protest would prove unsuccessful. As 4 o'clock approached the legal representatives of the members interested, with the exception of Mr. Jonah, took their seats around the clerk's table, and sat watching each other, the Liberals ready to file a protest, in response to any such move on the part of the Conservatives. When the hands of the office clock pointed to four, there was a general roar from the members, and the bettors were jubilant. Mr. Allen stood up, and his announcement that there were five minutes yet and that he would take the time by his own watch only, served to add to the excitement. A shout arose with the news that the time was right, and bettors were congratulating everybody else that there would be no protest, when word was brought in that Mr. Jonah, pursued by several Conservative politicians in hot argument, had been seen hurrying down the street.

"Mr. Jonah dashed in exactly at four minutes to four and placed his petition and \$1000 in bills in the clerk's hands. Then everyone was silent, and the bettors, in the other three protests were elated. It was said that Mr. Jonah's watch was wrong and he thought he had twenty minutes to spare. It was very exciting.

The Conservative friends of Dr. Daniel and Mr. Crockett are very angry with Mr. Fowler."

The Montreal Gazette (Con.) is of the opinion that the result of the sawing-off scandal will be to the prejudice of the opposition:

"The 'sawing-off' or election petitions and charges, of which much is being written and said now, is not a wholesale process. It is a process by which the opposition loses most. It creates the impression that in matters of electoral corruption one party is just as bad as the other and removes from some minds a reason for voting against a corrupt government."

The Charlotte-Guardian, a Liberal paper, but usually fair in its views, says: "Well, we'll let the election go on to the fact that one-fourth of the members-elect are affected. 'There is occasion,' it says, 'for the opposition to be angry, but it is doubtful if the conditions could be repeated in connection with any parliamentary body outside of Canada.' Finally, The Star, John, N.B., Globe (Lib.), says: 'Elliott's party may be theoretically right, but it was a step in the right direction to remove election contests from the house itself to the courts that in practice the much-needed reform has been adopted.'

The Globe says: "All contests would be disposed of before the opening of parliament. As a matter of fact, parliament dies of old age, while the lawyers are quibbling about the return of the writ."

(Opposite the Postoffice).  
TORONTO.

**FOOT AND MOUTH DISEASE  
CARRIED BY IMMIGRANTS**

U. S. Secretary of Agriculture  
Says It Was Not Introduced  
By Live Animals.

WASHINGTON, Dec. 10.—That the  
outbreak of the foot and mouth disease  
now prevalent in several states was  
due to the importation into the United  
States of such material as straw with  
meat, mutton or in a clover or ef-  
fects of contaminated meat, is the opinion of  
Secretary of Agriculture Wilson.

He gave this as the most plausible  
explanation in an appeal to day to  
the house for an emergency approp-  
riation of \$500,000 needed by the de-  
partment of agriculture to fight the  
disease.

"It now seems clear that the present  
outbreak had its origin near Detroit," in-  
ferred the secretary, "and that the in-  
fection in the other states came from  
that source. In view of the strict  
quarantine on imported animals, it  
does not seem possible that it would  
have been brought in with live ani-  
mals."

**METHODIST HERESY CASE  
AGAINST DR. WORKMAN**

Appeals of Ex-Professor and Mont-  
real Conference Both  
Disallowed.

Rev. Dr. Workman's appeal against his  
dismissal from the Wesleyan College,  
Montreal, on the ground of heretical  
teaching was dismissed by the  
Methodist Court of Appeals at New  
York, and at the Metropolitan  
Church at 7.30 Rev. Dr. Carman presided.  
Only the members of the court were admitted to the room. Rev. Dr.  
Workman, who had made an oral  
appeal, and Rev. E. R. Thomas, who  
presented an appeal on behalf of the  
Montreal Methodist Conference, awaiting  
the judgment in the lecture hall.

The points at issue were considered  
by the court yesterday. At 11 o'clock Rev.  
Dr. Carman opened the door and said,  
"Are the litigants present?" Dr. Workman and  
Rev. Mr. Thomas were then admitted  
to the court, and were informed that  
both the appeals had failed.

Rev. Dr. Carman said that he had  
written a judgment which would be  
prepared to-morrow.

Rev. Dr. Workman said to The  
World that he felt that he was suf-  
fering great injustice. He had been  
sustained by the deep sympathy which  
had been extended to him from many  
friends.

Rev. E. R. Thomas said that he had  
no comment to make on the decision.  
So far as the Montreal Conference was  
concerned, that body did not make the  
appeal on the personal issue, but to  
ascertain if professor could be dis-  
missed by a college board in the mid-  
dle of a college year without a charge  
being made for the professor being  
given a trial, by a mere resolution of  
a college board.

The court of appeals will meet again  
this morning.

**THE "SAVOY,"  
Yonge and Adelaide Streets.**

Mid-Day Lunch for Busy People  
Every day, 12.00 till 2.00. Try it.

**THE WEATHER**

**METEOROLOGICAL OFFICE, TORONTO,** Dec. 10.—(8 p.m.)—A shadow depression is  
centered to-night over Lake Superior and  
the Great Lakes, and also over a large portion of the continent. The weather has  
been generally fair to-day throughout Canada, except cold air in the prairies and in  
St. Lawrence Valley, elsewhere more  
moderate temperatures have prevailed.  
Minimum and maximum temperatures:  
Dawson, 34°; 41°; 12-inches. Victoria, 52°;  
Vancouver, 34—41; Kamloops, 30—34; Cal-  
gary, 4—24; Edmonton, 10—28; Qu'Appelle,  
30—34; Moose Jaw, 28—34; Fort Macleod,  
Parry Sound, 18 below—20; Toronto, 2—  
27; Ottawa, 8 below—2 below; Montreal,  
2 below—4; Quebec, 10 below—4; St. John,  
2—10; Halifax, 10 below—6.

**ARABIAN PROBABILITIES**

Lower Lakes and Georgian Bay,  
southerly shifting, westerly and  
northwesterly; partly fair and milder,  
with some light falls of snow of late.  
Ottawa and St. Lawrence River, Sirocco  
winds, southerly, shifting to southwesterly  
and westerly; partly fair, with higher  
temperatures; light snowfalls or flur-  
ries.

**LOWER ST. LAWRENCE AND GULF**

Fresh winds, becoming easterly; fair and  
decreasing.

**Superior**

Fresh, westerly and northwesterly; fine and  
decidedly cool.

**Maritime**

Fair to fresh winds, mostly northwesterly  
and north-northwesterly; fine and  
decreasing.

**Gray's Elegy**

in a Country Churchyard."

**Then came a surprise.**

Bob Smith's voice rose with the words of "The Arab

Love Song" in the same theatre.

Reeve's "Song" rang thru the forest.

I did not expect to hear the words

of a new popular air in the remote

northland, and I said: "Where on

earth did you hear that?"

Bill Cameron, afterwards recited

"Gray's Elegy in a Country Church-

yard."

That night I, too, first heard "The Arab

Love Song" in the same theatre.

Reeve's "Song" was very close in sentiment to the northland.

Rain fell that night, lightly at first

and then becoming a downpour. We

were drenched to the skin, but slept

in moist, cool air, which was by

the strenuous work of a

The surveyors took a compass line

thru the forest to Everett Lake, but

we met again two weeks later, our

canoes passing each other on Lake

Gowganda.

Reeve's "Song" was still in my

head, and I said: "What's that?"

Reeve carried a great pack, which

made him look for all the world like

a giant spider. That pack was

gorgeous with dynamite, candles, pork,

bacon, beans and all the rest of a

prospector's layout.

As dusk commenced to clothe the

forest in a mantle of shadows, we had

our eyes open for a suitable camp site

which would be near running water

and where a few standing dead trees

would add to the dangers.

Eventually a curl of smoke was seen

ahead. We called and got an answer-

ing response.

Some people had set up camp

ahead of us, and we stopped to

see what they were doing.

Reeve had not seen us for years, and

with whom he had prospected for

gold in Southern British Columbia.

Truly, the mining game, if it makes

strange bedfellows, effects also many

interesting stories.

That evening we learned a lesson in

the geography of the mining fields of

the Pacific Province.

### AN "IDEAL" GIFT FOR THE HOME

Insures perfectly pure drinking water, prevents water-borne diseases, saves doctors' bills, absolutely germ-proof. No more boiling of water. Will last a lifetime.

Highly recommended by the medical faculty. Call and see them or send for illustrations.

*Aikenhead's*  
AIKENHEAD HARDWARE LIMITED  
TEMPERANCE ST.

### HIS MAJESTY'S HEALTH.

Has Received Decided Benefit From Trip to Brighton.

LONDON, Dec. 10.—The disquieting rumors abroad The Lancet is authorized to state that the health of His Majesty the King gives no cause for anxiety.

The King contracted a slight cold and suffered from symptoms of influenza and neuralgia, but he improved under treatment and he has derived decided benefit from the change of air at Brighton.

A stock broker's wire yesterday flashed the news that his majesty was stricken with appendicitis.

The Amalgamated Press of England have declared a dividend of 40 per cent.

### FREIGHT RATES GO UP.

WASHINGON, Dec. 10.—Transcontinental freight tariffs, beginning Jan. 1 next will be advanced on all east-bound traffic, both by rail and water, and will remain as they are now. The commodity rate on westbound traffic from Atlantic seaboard points to Pacific coast terminals will be increased approximately ten per cent.

This announcement was made to-day by the Interstate Commerce Commission.

Montreal has 456 policemen and the chief has asked for 200 more. Burglaries average one a day.

### FOR RIVAL PHONE LINE.

Movement for Independent Service Makes Rapid Headway.

BRAMPTON, Dec. 10.—(Special)—The enthusiastic advocates of municipally controlled telephone systems for the Township of Chinguacousy have now a committee of representative men, headed by Messrs. Elliot, Wilkinson and South, which has a petition in circulation in every part of the township. The petition is being largely signed and asks the council to submit a bill to the zoning commissioners at its meeting on Tuesday next, when there is no doubt that the prayer of the petition will be granted and every voter given an opportunity to express his opinion on the ballot.

Nowhere public meetings are held in every polling sub-division in the township, at which addresses will be delivered by those who have made a study of the question, and interesting information will be furnished. Discrepancies will be exposed, and the voter of the old-line companies continuing their high rates and inefficient service will have a chance to present their views.

Before the taking of the vote it is intended to hold a public meeting for a big general meeting at Brampton which is the centre of the township. At this meeting addresses are expected from W. F. MacLean, M.P., and other advocates of government and municipal ownership.

Five hundred subscribers may be secured in the one township.

### GERMANY MOST PROGRESSIVE

Prof. Horning's Tribune—Characteristics of the Nation.

Dr. Horning's address to the Empire Club yesterday on "Germany of To-day," was packed full of first-hand information.

Germany could not be understood, he said, without knowledge of the different states of Prussia, of Brandenburg, and of the Hohenzollern family.

The rise of democracy in the empire was the clue to its present condition.

The French indemnity of 1871 had flooded Germany with wealth and led to the industrial expansion which now makes 60 per cent. of the population dependent on industrial work.

The necessity of finding markets made Germany dangerous to England. The domestic problems of the nation, Poland, the eastern question, Alsace-Lorraine, the Danish party, and the differing temperaments of the north and south Germans occupied their attention.

It was characteristic of the German people that professors and students who were not of the same political opinion from everybody else. Hence the existence of 17 or 18 parties in their parliament. Nothing could stop the progress of democracy, yet the German Emperor claimed to rule by divine right.

The German Emperor was attributed to King Edward, who was known in Germany as "the Silent Edward." Every cartoon dealing with international politics had the "Silent Man" somewhere in the background.

It was characteristic of the German people that professors and students who were not of the same political opinion from everybody else. Hence the existence of 17 or 18 parties in their parliament.

No. 1 Suspended Filter is less expensive, principle is the same, from \$10.00 each.

Highly recommended by the medical faculty. Call and see them or send for illustrations.

### RUTHERFORD'S NOBEL PRIZE

Former McGill Professor Reaps a Rich Reward.

STOCKHOLM, Dec. 10.—The official announcement of the award of the Nobel prize is as follows:

Literature, Prof. Rudolf Eucken of Jeni University.

Physics, Prof. Gabriel Lippman of the University of Paris.

Chemistry, Prof. Ernest Rutherford, director of the physical laboratory of the University of Manchester, England.

Medicine, divided between Dr. Paul Ehrlich of Berlin and Prof. Elias Metchnikoff of the Pasteur Institute, Paris.

Peace, divided between K. P. Arnoldson of Sweden and M. F. Bajer of Denmark, ex-parliamentarians.

Prof. Rutherford was formerly of McGill University, Montreal. He is now of Manchester University. He is well known when he advanced the theory of radioactivity. Two years later when he published the complete results of his researches, he received the Rumford Medal. Prof. Rutherford is only 40. He was born in New Zealand.

Mr. Bajer is a student of the Law Society of Stockholm.

Mr. Ehrlich is a professor of medicine.

The Nobel prizes are awarded annually in accordance with the will of the late Dr. Nobel, the Swedish chemist and inventor of dynamite, to those who shall be considered to have done most or best for mankind in the field of science, literature, and art.

# COBALT--Kerr Lake and Chambers-Ferland Are in Demand--COBALT

## New York Curb Lively Over 91,000 Cobalts Handled

Kerr Lake Continues to Make Big Gains for Fortunate Stock Holders.

World Office, Thursday Evening Dec. 10.  
The market for Cobalt stocks was not quite as active today and altogether there was some irregularity without however, any loss in the general good done to the market. The decrease in activity was due largely to the tied-up position of many of the traders, who have still a number of outstanding short contracts to keep them interested.

There was two spots of strength in today's dealings, viz., Kerr Lake and Chambers-Ferland. The strength of these issues was due to outside purchases of the Kerr Lake from New York buyers, and New Liskeard from Montreal orders. It is rumored that there will be some good information for Chambers-Ferland shareholders given out some time later in the month, and they may take advantage of it in small way by some local investors to day.

The new strikes on Cobalt Central and Temiskaming were interesting items of activity disclosed in the market and especially occurred in the Cobalt Central stock on the New York Curb where upwards of 75,000 shares changed hands.

Outside of the market there was a splendid inquiry for Hargrave stocks. This was not very freely offered and the transactions were therefore limited on this account.

The demand for Hargrave was occasioned in part at least because of the general advance in Kerr Lake. The Hargrave adjoins the Kerr Lake and the workings of the latter are up close to the Hargrave line.

Crown Reserve was quiet during the day and sold low at \$2.60.

Editorial despatch says: "Trouble of a rather unexpected character has developed among the insiders in Crown Reserve, and one of the large holders is busy trying to get prominent shareholders to withdraw in order to change the complexion of the by-laws. The by-law in question, it is claimed, gives the directors the right to buy or sell any stock they may desire, and that the company should be controlled by the foreigner. The large holder, who has put after proxies, claims that such a by-law is a menace to the company and should not be allowed to stand any longer. Developments are looked for shortly."

Financial reports were received over the private wire of Wallace and Eastwood, in connection with the new Temiskaming find.

"It is said that the newly struck vein has gone to 18 inches. The stock was fairly firm, but off a few points and Gifford was steady at both morning and afternoon sessions.

### KERR LAKE STRONG.

And Buying Orders for Hargrave Are Stimulated Thereby.

Kerr Lake is now riveting the attention of everybody interested in the Cobalt Camp. It is being watched daily with the keenest interest by both the speculative and investment public.

The fact that the Lake has struck millions of bonanza ore in its lower levels goes to prove conclusively that the Cobalt Camp generally has but "scratched the surface" in a large way.

Many of the mines now down from 100 to 200 feet will be eager to go on actively sinking to lower depths with the object of putting more and more ore in sight and thus making their properties permanent good dividend miners.

This will undoubtedly have a very stimulating effect on the general Cobalt market. Many Canadian and American investors are now satisfied with holding their stocks in shares as they get frequent dividends of a size that compares most favorably with those from other investments.

In fact there are many instances where individuals paid or have already paid back their original investment. This is the reason why good Cobalt dividend-payers are getting scarce.

Kerr Lake shareholders have fared exceedingly well. They have been getting regular three per cent dividends and the last annual statement disclosed that less than half what was earned was paid.

The existence of large quantities of bonanza ore running 7000 to 10,000 oz. per ton, and round the level of 1000, in addition to a great quantity of fine ore in the other levels, makes it possible for shareholders to look forward for larger dividends, and three per cent quarterly regular and three per cent quarterly extra is now being predicted.

The stock took another jump yesterday, sales being made here at 725. The Hargrave promoters might be said to have "struck it rich" as they adjoin the Kerr Lake and the second level of the Kerr Lake actually touches the Hargrave line. The third level is about three or four feet of the Hargrave line, the fourth level, where the bonanza ore lies, is within a few feet of the Hargrave line.

The situation surrounding the Hargrave has developed a very active derivative stock. There was quite a heavy load here yesterday afternoon, and orders came in from New York, Montreal, Hamilton and numerous points in Ontario. Cobalt was also up sharply to-day. A continuance of such demand as was seen yesterday is likely to cause an upward movement in the next few days. Kerr Lake was steady around 800 last week, while the absorption was on. When all the stock around 800 was absorbed it rose rapidly to 1000 on Monday and advanced another 37 points to-day.

**Private Cobalt Wire.**  
Over Wallace and Eastwood's private wire yesterday it was announced

## BAD JOLT FOR SHIPPERS APPLES ALL IN BAD SHAPE

Consignment Marked "Not to Be Shipped," Reached English Market

OTTAWA, Dec. 10.—(Special)—On-  
tario apple shippers get a bad jolt in  
a report recently delivered to the trade  
and consumers demanding that the  
active trade commission in Birmin-  
ham, in which, after dealing out high  
praise to British Columbia apples, he  
stated that he came next to a ship-  
ment of five hundred barrels of apples  
from a prominent Ontario shipper, all  
of which were rotten or half decayed.

The peculiar thing is that in each  
case the barrels were marked "Not to  
be shipped," "Falsely marked." It  
was said that the barrels collected in  
advance and that the apples were thus  
sent forward.

Enquiry at the fruit branch of the  
department of agriculture revealed that  
the active trade commission in Birmin-  
ham, in which, after dealing out high  
praise to British Columbia apples, he  
stated that he came next to a ship-  
ment of five hundred barrels of apples  
from a prominent Ontario shipper, all  
of which were rotten or half decayed.

Bill introduced in Washington to  
prohibit dealing in cotton and grain  
futures.

Large combination of lumber inter-  
ests forming in Detroit.

U. S. Realty earnings for November  
established new high monthly record.

Stock Exchange will close on Sat-  
urday following Christmas day.

Two and a half million dollars in  
gold engaged for export to France.

High officials of Pressed Steel Car  
Co. say that so far as they know  
there is no truth in the report that  
the U. S. Steel Corporation has ac-  
quired control of that company.

Joseph says: The market talks for  
steel and iron products are well  
bought. The report that it will again  
assume control of Chesapeake & Ohio  
is not true. Harman is still  
to add "not to be shipped" and an  
investigation will be made as to who  
placed this mark upon the barrels or  
if it happened that when so marked  
they were allowed to be sent to Eng-  
land.

### CATTLE MARKETS

Cattle Unchanged—Hogs Up 10¢ to 20¢  
at Buffalo.

NEW YORK, Dec. 10.—Beefs—Receipts

544. Total Beef 1,000,000 lbs., Dec. 10.—Cattle-

Receipts 123 head; steers, prime

steers, \$35 to \$35.

Veal—Receipts 150 head; active ani-

mals, \$10 to \$10.

Hogs—Receipts 200 head; active and 100

to 200 higher; heavy, \$6 to \$6.50; mixed,

weak; sheep, \$3.00 to \$3.50; Canada lambs,

\$8.50 to \$7.50.

Chicago Live Stock.

CHICAGO, Dec. 10.—Cattle—Receipts

8000; market weak; steers, \$4.00 to \$7.80;

heifers, \$2.50 to \$4.00; calves, \$1.50 to \$2.50;

stockers and feeders, \$2.50 to \$4.50;

calves, \$1.50 to \$2.00; cattle, \$1.50 to \$2.50;

sheep and lambs—Receipts 4800; market

weak; sheep, \$3.00 to \$3.50; Canada lambs,

\$8.50 to \$7.50.

British Cattle Markets.

LONDON, Dec. 10.—London cables for

cattle are steady to 10¢ per lb. dressed weight; refrigerator beef is quoted at 9¢ to 10¢ per lb.

Aunt Was Killed at Same Spot.

DUNNVILLE, Dec. 10.—Evidence in

regard to the killing at the railway

station here of Mrs. Geo. Miller and

her infant son will be taken to-morrow

afternoon.

The last accident at this same crossing

was on Tuesday, Jan. 26, 1897, when

Mrs. Miller's aunt, Mrs. Joshua Bow-

man, and her husband, along with

their team, were all instantly killed.

Twenty-eight below has been repor-

ted from places in the Adirondacks,

New York State.

### SCARCITY OF THE GOOD STOCKS.

World Office,

Thursday Evening, Dec. 10.

A strong undertone marked several of the local listed securities in to-day's market, and in several instances it was found difficult to get stock. This was reported to be the case with Northern Navigation stock, Traders' Bank, Commerce and some of the other bank shares. The bid on Traders was advanced to 137 to-day, and there were no offerings. The active speculative stocks simply drifted fractionally up and down at about previous prices, and had no other feature. The scarcity of the good stocks is regarded as one of the strongest traits of the market.

HERBERT H. BALL.

**NATIONAL TRUST COMPANY  
LIMITED**  
DIVIDEND NO. 36.  
Notice is hereby given that a dividend of Two Per Cent. upon the paid-up capital stock of this Company has been declared for the three months ending 31st December, 1908, being at the rate of Eight Per Cent. per annum, and that the same will be payable on and after Saturday, the 2nd day of January next.

The Transfer Books will be closed from the 21st to the 31st of Decem-  
ber, 1908, both days inclusive.

By order of the Board.

Toronto, Dec. 2, 1908.

W. T. WHITE.  
General Manager.

## Union Pacific Statement Aids Bullish Sentiment

Buoyancy at New York Ceates in Low-Priced Rails—Investments Hard to Fill at Toronto.

World Office,

Thursday Evening, Dec. 10.

The business at the Toronto Stock Exchange was quiet to-day, and it is thought that the general increase in activity until after the holidays. The news during the day was not of material consequence to the market.

The weekly statement of the Bank of England showed that funds continue free at the world's leading centre, and also that the proportion of reserve to liabilities increased in a small way.

The best buying in the market to-day came from investors, but the individuals confined their orders to high-grade shares. The most of these orders were not executed because of the prices were not available at the prices bid for the shares.

Northern Navigation was in good demand as far, but only a small amount of the stock was available at this figure. It is understood that this company's name is for the time not as large as those of the previous year, will be still sufficient to warrant the payment of the eight per cent. dividend.

Traders' was the strong issue among the bank securities and the price of this stock was advanced two points without buying orders being filled.

Wall Street Pointers.

Bank of England price unchanged.

Net earnings of U. S. Steel will probably be \$91,000,000.

Copper producers, who are holding the metal at 14-1/2c a pound, are now making concessions to secure sales.

Steadiness of Consol. French rents and similar securities indicates European political situation looks peaceful.

Bill introduced in Washington to prohibit dealing in cotton and grain futures.

Large combination of lumber inter-  
ests forming in Detroit.

U. S. Realty earnings for November established new high monthly record.

Stock Exchange will close on Sat-  
urday following Christmas day.

Two and a half million dollars in  
gold engaged for export to France.

High officials of Pressed Steel Car  
Co. say that so far as they know  
there is no truth in the report that  
the U. S. Steel Corporation has ac-  
quired control of that company.

Joseph says: The market talks for  
steel and iron products are well  
bought. The report that it will again  
assume control of Chesapeake & Ohio  
is not true. Harman is still  
to add "not to be shipped" and an  
investigation will be made as to who  
placed this mark upon the barrels or  
if it happened that when so marked  
they were allowed to be sent to Eng-  
land.

## Day's Doings in YORK COUNTY

West Toronto  
North Toronto  
East Toronto

### EAST TORONTO COUNCIL WILL MEET TO-NIGHT

Telephone Matters Will Occupy  
Attention of Members—News  
Notes From County.

**EAST TORONTO, Dec. 10.**—(Special)—The council to-night will be asked to grant a franchise to the Scott Telephone Company so as to permit entrance into East Toronto before Dec. 15th, when annexation goes into effect. The independent telephone system which will thus be connected with East Toronto serve a population of 10,000 people, and it is important for them as it is for us that the connection be made as soon as possible.

It will then be only a matter of time until legislation can be obtained which will end the period of the independent lines to be connected thru the East Toronto exchanges with Bell subscribers in the city.

East Toronto citizens realize that they will have a big advantage if a company can take over the service, and there will be a big turn out at the council meeting to-night to impress upon the municipal authorities the urgent importance of immediate action.

After the 15th the town will be tied up by the Toronto Bell telephone lines, unless the council acts to-night.

It would seem like an act of almost criminal folly for East Toronto to herself up to a monopoly when she can still compete with companies and to refuse this opportunity of telephone communication with the rich and populous communities which are anxious to be connected.

**BOARD WILL DECIDE.**

Lake Shore Road is Narrow and Rainy Way Wants It All.

For sometime the relations between the Stark Telephone, Light and Power Co. and the Toronto and Ryerson railway have not been of the most harmonious nature, due to the fact that the Stark people in their desire to install electric light in Mimico are placing their poles side by side on the Lake Shore-road, and the railway company is at one place about a mile and a half out, the railway company's wires are placed in such a position that the Starkie people were compelled to stop work. In view of the fact that Ontario's Railways Board stepped in and ordered the Stark people to cease work and there the matter rests for the present.

**WEST TORONTO.**

Board of Health Hold Their Final Meeting.

**WEST TORONTO, Dec. 10.**—The final meeting of the board of health for the year 1908 was held to-night.

The board's annual general was favorable, contagious and infectious diseases being comparatively few.

The M.H.O. has recommended that a public lavatory be built somewhere in the city.

From Feb. 1 to Dec. 1 the number of contagious diseases within the city limits were: Scarlet fever, 55; diphtheria, 13; typhoid, 108 (from April 1 to Dec. 1).

A meeting of the public school board will be held to-morrow evening.

Runnymede L.O.L. No. 1997 held its annual meeting last night.

**THORNHILL.**

Former Resident of This Village Dies in Galt.

**THORNHILL, Dec. 10.**—G. H. Charlton, a former resident of the village, recently returned from a visit of his health, and was visiting friends at Galt when he was taken ill and died yesterday morning. The funeral will take place to Thornhill Cemetery to-morrow (Friday) afternoon.

The Recreation Club expect to open their skating rink on Saturday evening. Wright Bros. have put in the dam and will soon be able to do chopping again.

**NORTH TORONTO.**

Want Annexation Submitted—Silver Wedding in Town.

**NORTH TORONTO, Dec. 10.**—The Annexation Association met last night, and an entertainment committee consisting of Messrs. Adamson, Jury, Reid, Gilliespie, McGehee and President Ellis. Their duty was to consider initiating and promoting social evenings, and was decided to rent a piano for the occasion.

A resolution was passed that the petition be presented to the town council on Tuesday.

At the public meeting on Saturday evening next, the subject of "Parks and
