

Japan: With great pleasure I have received the aggressive news of your glorious victory in Galicia. I hasten to express to your imperial majesty my sincerest congratulations on the occasion of the high military feat of your army. (Signed) Yoshimoto.

"In order to arrest our advance on Lovro (Lemberg), the enemy, strengthened by elements brought from other fronts, has made furious counter-attacks at many points against the troops of Gen. Brusiloff.

"West of the Town of Kolk, on the Stry, last evening the enemy, under the violent fire of our artillery, took the offensive in the region of the Village of Gadowa. His attack was repulsed, and our troops, pressing on the enemy's heels, broke through his position on the northern bank of the Stry, taking 15 officers and more than 800 men prisoners.

"Flight for Stokhod River. Northwest of Rostk, on the Stokhod River, in the course of the day, the Russian troops, under the leadership of Gen. Brusiloff, repulsed a furious counter-attack by the Germans, who were supported by a brilliant attack of the village of Svidnia, taking four officers and 800 men prisoner. The Russian troops, supported by their artillery, brilliantly charged three times, extending the line of the enemy and also secured two machine companies.

"Our cavalry at noon yesterday occupied Svidnia, and the enemy, who was in flight, continued to drive back on Brody (northeast of Lemberg).

"The enemy was driven out of Stary, Moyal and Potchelski, as well as the old convent of Potchelski, and both places were occupied by our troops yesterday.

"An army corps commander, who was an eyewitness of the fighting, says the one of the Stry districts, says the enemy was in flight on the entire battlefield, throwing into the stream cotton by the aid of our batteries, Germans and Austrians, intermingled, fell in hundreds. Bridges of our batteries at full gallop occupied the open posts, whence they fired point-blank on the fugitives. The death of our troops was irretrievable.

"Flight from Stry. In the region of Stry, the enemy is furiously attacking the Russian troops. An enemy column was thrown back across the River Tchernava, and the Russian troops, in the region of Dvinsk our artillery

continued to bombard the enemy positions with visible success. The Russian official statement issued Sunday says:

"On the front of Gen. Brusiloff's army, the enemy maintains his resistance, making repeated counter-attacks, which our troops repulsed successfully, pressing the enemy more closely in various directions and taking prisoners and booty.

"Carried Town Saturday. Yesterday, at 4 o'clock in the afternoon, Gen. Letchinsky's troops captured by assault the bridgehead at Cernowitz on the left bank of the Fruth. After desperate fighting for the possession of the bridge, the enemy was repulsed, and our troops, occupying Cernowitz, are pursuing the enemy, who is retreating in the direction of the Carpathian passes. In the course of the capture of the bridgehead we took over 1000 prisoners and also seized guns in Cernowitz.

"Details From Front. The following details have been received of the fighting on the remainder of the front:

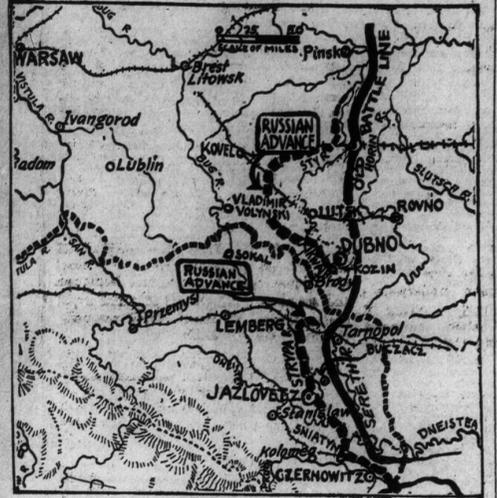

"The troops of General Kaledine have repulsed desperate enemy counter-attacks, in which German troops from the French front were engaged. In the region of the Village of Gadowka, on the Stry, a hot engagement occurred. This far the German and Austrian prisoners amount to 7000 men and 200 machine guns. We have also taken eight machine guns. The Germans furiously attacked the Village of Gadowka, on the north bank of the Stry. We repulsed the attack, despite the fire of the enemy's armored trains. Semirnof charged twice on the flank against the enemy, who had assumed the offensive. The Cosacks captured five machine guns, put a great number of Germans to flight, and the others to disorderly flight, and took as prisoners two officers and many German soldiers.

"Took 70,000 Prisoners. According to the latest particulars of the fighting from the fifth to the 17th, Gen. Kaledine had taken as prisoners 1200 officers, 10 surgeons, and 70,000 men and 25 guns, 25 machine guns and an enormous quantity of material.

"In the region not the right bank of the Stry, the enemy, who had assumed the offensive, but being repulsed by our artillery and fire, he retreated to his trenches.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

Scenes of fighting on the front between the Priepet marshes and the Rumanian frontier, where the Russians are launching their big offensive against the Austrians.

centre untenable, and that the Teutons will soon have to retreat or be cut off. The two weeks' fighting has given the Russians practically a straight line between Lusk, Buczac and Cernowitz, and Russian military critics hold that the capture of Radziviloff, the driving of the enemy forces to Brody, and probably further in the direction of Lemberg, will almost inevitably compel the withdrawal of the Austrian centre in the Tarnopol region. The Russians advancing across the Volhynian-Galician frontier are less than 60 miles from Lemberg, and the fact that they have pressed forward this far is taken as an indication that the Austrians have recognized the futility of seriously endeavoring to oppose the Russian passage of the frontier.

According to the Italians the Austrians have refrained from withdrawing troops from Trentino to oppose the Russians, and they are stubbornly persisting in their original scheme. Rome says that a withdrawal of troops from the Italian front will be all the more difficult at this time, in view of the counter-offensive that our ally has begun. In brief, the Italians aim at holding the Teuton troops now engaged in this theatre. Advances by the Italians were made by an intense fire from hostile artillery and by the strength and dispositions of the enemy with many machine guns in a deeply wooded country. On their side, the Austrians made desperate attacks in the Asiago basin, and on each occasion they were repulsed with heavy losses.

The French report the presence of two fresh German divisions on their front at Verdun. They assert that the proportion of the men belonging to the 1916 class, that is men who will be 20 some time this year, brought up as reinforcements has increased considerably, and that they are also able to establish the presence of young soldiers belonging to the 1917 class, or boys of 18 to 19, in the German ranks.

The feature of the fighting before Verdun yesterday was the furious attempt of the Germans to recapture the new French positions on Le Mort Homme, their posts and defeated the enemy, but the French soldiers stuck to captured some elements of German trenches driven in their first lines on Hill 204, and they took 200 prisoners. This activity drew many attacks from the Germans, who tried and failed to force the French lines north of the Thiaumont works.

In the aerial fighting the French aviators fought many German machines, which attempted to make an air raid on Bar-le-Duc, and brought two of them down. Three others were hit by French machine gun fire and forced to descend vertically. Four French machines also engaged four Fokkers to come down. A French bombing squadron also attacked and dropped 24 bombs on German depots near the Semde station, 20 large bombs on Etglin, German machines, under cover of night, threw bombs on Pont-a-Mousson, Nancy and Baccarat, doing only insignificant damage and no loss of life.

Aerial activity has also been the principal feature on the British front, where one British machine attempting to intercept a German reconnaissance plane, drove a hostile machine down close behind the trenches of the enemy. This British machine then tried to cut off the remaining seven and engaged the near aeroplane of the enemy, bringing it down a few miles behind the Teuton lines. Also Sir Douglas Haig is modest in his report on defeated eight machines of the enemy, stating that a single British aviator attacked and captured in all, with no decisive results, were fought on the British front. The official communique of Sir Douglas Haig records the usual number of successful raids on the lines of the enemy, with bombing, artillery and mine attacks.

FEDERAL DUTY TO LEAD RECRUITING

W. F. Maclean, M.P., Speaking at Hamilton, Touches on Registration.

STIMULUS IS NEEDED City Short Nearly Thousand Men of Required Complement.

HAMILTON, Monday, June 19.—"The Dominion Government should assume the leadership in the work of recruiting and if necessary order a registration of all men in Canada fit for military service," was the keynote of an address delivered by W. F. Maclean, M.P., at the big open-air meeting held in Gore Park last night. Mr. Maclean said that Hamilton had responded generously to the call for volunteers and had sent officers and men to the front who had rendered memorable service and earned fresh laurels for Canada. Parliament had voted money liberally for the pay of soldiers and the care of dependents, but the success of the war would depend upon the number of men the allies were able to place in the field.

Canada Leads U.S. About two years ago, Canadians had been engaged in the material development of the country and had seemed never likely to reach the Dominion, but with the outbreak of war the Canadian people had been sobered and uplifted. Many people regarded Canada as of second-rate importance. The United States seemed to be the great country of the continent, but now in the words of the poet, "The world has assumed the leadership of America. (Applause.)

Mr. Maclean said that Germany had made extensive preparations for the struggle, ostensibly for a "place in the sun," but now, as people know, for world domination. He said that an autocratic government would impose the free peoples of the world. The efforts of the allies had not been to conquer Germany, but to destroy the German system of autocracy and enable the German people to get in harmony with the liberty-loving and progressive nations of the world.

Military Meet. The Canadian Mounted Rifles military meeting at the Hamilton barracks on Saturday, drew a large crowd and was a marked success. The day was an off one at the recruiting depot, as the number of recruits that applied for overseas service only one was fit, and he signed up with the 17th Highlanders, who are now at Niagara.

Hamilton is short 900 men of her share of the 600,000 that is Premier Borden's intention to equip and send overseas, and the Government is to do the Motherland. Appeals will be sent to all the local organizations of men, particularly the Y.M.C.A., to contribute to the desired number of recruits. Yesterday in all the churches the quota was announced in view of the city's quota was announced in the pulpits.

Departmental Shake-up. The reorganization of the works department is the paramount question at the city hall, and a meeting of the board of works on Saturday night. (Mayor) Walters will attend, will be held on Thursday next. Though there is considerable doubt, it seems likely that Secretary Archie Kettle, of the works department, will be appointed as manager and assistant engineer. Gray to be engineer.

S. H. Hubert, chief government engineer, will visit Hamilton this morning to make an inspection of Binkley Hill road, where a contract has been let to do work that will cost about \$3,000 to repair. He will try to ascertain whether the original cause of the cave-in was due to the breaking of a water pipe, or whether the cave-in was responsible for the breaking of the main.

EXCAVATION COMMENCED FOR BAPTIST CHURCH. The work of excavation has now commenced for the erection of the new Earlscourt Baptist Church on the site corner of Boon and St. Clair avenue west.

The building will be of brick with stone facing, and the interior of cypress finish with stucco walls. The seating capacity will be about 400. It is intended that the basement only will be used in the meantime for services, the cost of which \$10,500 has been secured and in the hands of the treasurer of the building committee, W. O. Jarrett. The basement will be given an attractive finish, and a complete hot water heating system will be installed.

COLLIDED WITH AMBULANCE. While riding his bicycle along Queen street Saturday night, William Prouse, 460 Euclid avenue, collided with a military ambulance, driven by Private Robert Hammond, A.M.C., of the 11th Battalion, at the corner of Queen and Markham streets. He was badly injured about the head and was removed to St. Michael's Hospital in the police ambulance.

Electric Wiring and Fixtures Cheaper During Summer Months. So that they may keep their entire staff of expert electricians employed during the holiday season, the Electric Wiring and Fixture Co., of 261 College street, are offering to wire houses for electric light, concealing all wires without breaking the plaster or marbling the decorations and install the electric fixtures at a small fraction above the actual cost. Labor will be scarce this fall and those who are contemplating putting electric light into their homes will be fortunate in seizing this opportunity. Phone Colgate 1278 and they will estimate on your work free of charge.

MOTOR CARS COLLIDED. When two motor cars, driven by James Bamford, 23 Pine street, and William Rankin, 451 Gladstone avenue, respectively, collided at the corner of Wilson ave. and Yonge st. last night, Mrs. Batty, a passenger in one of the cars, had her face badly cut by flying glass from a broken wind shield. She was taken to the General Hospital in the police ambulance.

BROKE LEG IN FALL. Mary Montgomery, 202 East Queen street, broke one of her legs when she fell down a flight of stairs in her home Saturday night. She was taken to St. Michael's Hospital.

FRENCH BEAT FOE IN VERDUN FIGHTS

Germans Bring Up Two Fresh Divisions to Banks of Meuse.

CAPTURE MANY BOYS Enemy Uses Numerous Lads Amongst Latest Drafts.

Special Cable to The Toronto World. LONDON, June 18.—Fighting again broke out at Verdun today with the Germans on the offensive against a new French position, Le Mort Homme and against French trenches north of the Thiaumont fortification. The Germans came on repeatedly to the assault, but the French repulsed the enemy on Saturday by ejecting him from their advanced lines in which he had driven an enclave on Hill 321, north of the Thiaumont fortification. The Germans brought up fresh troops to hold the French in case they had aggressive intentions. A despatch from Paris says: "An official statement issued today says: 'We have identified by prisoners taken two fresh divisions on our Verdun front. The proportion of men belonging to the 1916 class has increased considerably. We are able to ascertain the presence of young soldiers belonging to the 1917 class.'"

Proceeded by Bombardment. The attack on the new positions on Le Mort Homme was preceded by a bombardment of the French trenches with jets of flaming liquid in the hands of German soldiers failed to gain any ground for the enemy, whose purpose was to force the French to evacuate the positions. The French positions were not gained any ground. He also said that the German troops in the neighborhood of Hill 320 and was driven back in discomfiture.

In Argonne the French exploded a mine at La Fille Mortie, producing a vast crater and by near like way, the southern edge of the cavity. Their long range guns also bombarded the German positions, and the movements of troops had been noticed, and they caused a fire to break out in it.

South of the Somme the French compelled a strong German reconnaissance party to retreat after a fight in their trenches before Fay.

PEEL UNIT PLANNING COUNTY ROUTE MARCH. Battalion to Leave Barracks on July Third and Many Stops Will Be Made.

The residents of Peel County will shortly have an opportunity of seeing a body of soldiers in real camp life and on the march, by near like way, the conditions as possible. The march of the 234th in planning this march had their first consideration the affording of an opportunity for the whole county to see the boys in action, not only on the march, but camp life and conditions. This trek is carrying out the original plans outlined by the executive of the County of Peel County auxiliary at their first meeting in Brampton some two weeks ago, that the residents of the county would be given an opportunity to see their own soldier boys back amongst them in a body, and also to walk across the second or third line of the front, which has done to merit the financial support of the County of Peel has promised.

The expedition will leave Ravenna barracks at Verdun on Monday morning, July 3, at 7 a.m., and the general direction of the march will be thru Dixie, Port Credit and Clarkson, Ontario, and will be back to Brampton, Snellgrove, Ingwood, and Alton, thence across to Caledon, Mono road to Bolton, thence south via Castleton, Waterloo, and back to Toronto. It is expected that the trip will occupy about three weeks' time to complete. It is hoped that this march will be a most interesting one, and that a deeper interest in the war will be created in the 234th Battalion.

Some of the officers of the battalion were immediately with the proposed route, and are now collecting suitable camping sites and arranging for provisioning where possible.

BLOOR STREET VIADUCT. Workmen Now Crossing on the Top Deck of the Rosedale Section to Castle Frank.

The middle one of the three great steel arches that will make the whole of the main span over the Rosedale Ravine was completed on Saturday of last week, and workmen were able to easily walk across the second or Rosedale section of the Bloor street viaduct.

The Don viaduct also taking on shape, and there is a great lot of steel on the ground for the three main spans; but until more of the concrete is carried up higher little of it can be raised into position. Plans were made for these spans is now being erected, and the big cranes to hold it into position are all ready to do that work.

The striking thing about the two viaducts above the street is the provision made for the railway viaduct underneath the main deck. Immense steel girders are put into the structure, twenty feet lower down than the main deck, and at high speed, the bridges are to be raised or lowered by means of the top surface.

It begins to look as if the Teravault system might be the best hatched big bridge.

VOLUNTEER FORCES CALLED TO BORDER

At Least One Hundred Thousand Men Expected to Answer Call.

Plans Do Not Contemplate the Immediate Invasion of Mexico.

(Continued From Page One.) would make them available for any duty under the federal government, see in effect July 1, 1916.

Disposition of Regulars. The entire mobile regular army in the U.S. several provisional regiments of regular coast artillery serving as infantry, and the National Guard of Texas, New Mexico and Arizona, now on the border in Mexico. Definite figures have never been made public, but it is understood Gen. Funston has about 40,000 regulars, and probably 5,000 or more guardsmen of whom 10,000 regulars are with Gen. Pershing or scattered along his line of communication from Nampulpa, Mexico, to Columbus, N.M.

Messages to Governors. Telegrams calling for the militia were sent tonight to the governors of all states except the three whose guardmen already have been mustered in after an all-day conference at the war department, attended by Secretary of War Baker, Major-General Scott, chief of staff, and other high army officers. For three months the economic situation, which General Carranza has been attempting to solve without foreign financial aid, has been growing steadily worse. Unrest has been manifested in many parts of the republic, and agitators, whose purposes and affiliations are not clearly known here, have seized the opportunity to stir the encounging anti-American feelings throughout northern Mexico.

WAR AND POLITICS. Special to The Toronto World. NEW YORK, June 18.—The possibility of a war with Mexico is causing considerable discussion in political circles. Should the country become involved in war, which is not likely to happen, something like a slump in favor of the president, especially if the administration should be sustained in its attitude in war, would be expected. Apart from the war cloud the principal item of political interest during the past twenty-four hours has been the announcement that the Republican candidate, Frank H. Hitchcock, is not to be the chairman of the Republican National Committee.

Mr. Hitchcock has been actively engaged for the past six months in promoting the nomination of Mr. Hughes as the Republican candidate for president. Mr. Hitchcock is a former postmaster-general, and that he lost no time in accepting the nomination which Mr. Hitchcock did not decline to accept. The question is being asked on all sides who did set Hitchcock to work and who supplied the funds for his elaborate and admirably conducted campaign?

The American today figures out that the result of the coming election, if Hughes and Wilson are the only candidates, presented, will depend upon the six states of New York, New Jersey, Ohio, Indiana, Wisconsin and Michigan. In the three western states the German vote is a factor of considerable importance, while in the eastern states the German vote is a factor of considerable importance, while in the western states the German vote is a factor of considerable importance.

BY CONTINUOUS RAIN. Condition of Grain Crop Worse Than is Generally Supposed.

Reports from all parts of the country indicate very clearly that the condition of the grain crop is more serious than was generally supposed. While large tracts of land have never been seeded to spring grain at all, a good deal of that which is sown has been in a measure damaged by water logging on it and it is doubtful if it will ever fully recover. Fall wheat has stood up remarkably well, but the wet weather is even too prolonged for this and there is an abnormally rank growth. Clover in some parts is the best crop in years (that is the first crop) and alfalfa, which is now about to be cut is heavy. One farmer on the 6th concession of Markham Township, north of Unionville, who has a very heavy growth of alfalfa, a week ago cut down the whole 10 acres in one day and has not since been able to save any portion of it, the plant being so heavy and rank. Only fine dry weather will enable the farmers to get ahead and save the hay crop. Not one in ten of the farmers throughout York, Ontario and Peel counties have any portion of their mangold or turnip crop yet sown and little or no corn has been put in. While the season is about a month late, the mangolds will be sown until the last of June, in the hope of a long open fall, giving time, the most important crop of the Ontario farmer, time to mature.

NEW METHODIST CHURCH. The work of excavation for the new Methodist Church on their property recently purchased on the corner of St. Paul and St. Clair, commenced on Saturday last.

The building, when completed, will cost \$40,000 and have a seating capacity of 300.

The frontage of the land is 135 feet, with a depth of 120 feet. Arrangements are being made for the corner-stone laying, which will take place on July 1.

Auto Clips. The petition in connection with the citizens' express and freight campaign is now being circulated in the northwest and other districts of the city in which no deliveries take place. Merchants and others are being urged to sign the petition. The following is the wording of the petition: "We, the undersigned, citizens of the City of Toronto, petition your board to issue an order directing the Canadian Express Company, the Dominion Express Company, and the Northern Express Company, to deliver express freight everywhere within the city limits of Toronto.

"We make it known that the refusal of the said companies to deliver express and freight and to collect same in our districts is a serious detriment to our business and a very great hardship and that there is no reasonable excuse for their not doing so."

YORK COUNTY AND SUBURBS

HUNDRED NAMES ARE HANDED IN

Promises to Join York Rangers' Battalion Given at Earls Court.

Thru the courtesy of Manager Geo. McCullough of the Royal George Theatre, Earls Court, and the French Comforts League, under whose auspices a concert was held last evening in the building to help the boys now in the trenches, the officers of the 220th (Tanks) Overseas Battalion were enabled to make an appeal for recruits, during an interval in the program.

Controlled R. H. Cameron, who presided, spoke of the good work being accomplished by the French Comforts League. "There is a larger work, however," said the controller, "that is the recruiting men for overseas. The call is for men and more men, and we must never cease to put forth every effort to enroll every man who is eligible to fight for and protect our country, and all we hold dear and dear to us."

The speaker paid a splendid tribute to Lieut.-Colonel Brown and the 220th Battalion. "A finer man and a better body of men it would be difficult to equal," he said.

Pte. Bradshaw, 3rd Battalion Grenadiers, returned wounded, and four months a prisoner in Germany, told of the inhuman treatment he received at the hands of the German surgeons, who performed an operation upon him without the use of an anesthetic.

Nearly 100 Names. Lieut. W. H. Jamieson, 220th Battalion, spoke of the work of the recruiting staff, and said: "We look to the men of the district north of Bloor street, which is allotted to the 220th Battalion for recruiting purposes, to fill our ranks, and I would ask the audience to hand our cards around the room and get the names of eligible men who will help us to complete our number."

At the conclusion of the proceedings nearly 100 names of eligible men were handed in.

The meeting was declared to be one of the most successful ever held in the Earls Court district.

MRS. ALAN O'NEILL DIES AT NEWMARKET. Christian Church Conference Closed Yesterday—Big Recruiting Meeting Held.

Mrs. Alan O'Neill of Newmarket, widow of the late John O'Neill, died at Newmarket yesterday after a short illness, aged 82. She is survived by her husband, three sons and eight daughters. The funeral services will be held at the Roman Catholic Cemetery.

A conference of the Christian Church, which has been in session in Newmarket for the past four days, closed yesterday after a very successful meeting.

Major Fitch made a very interesting appeal on the Newmarket square on Saturday night in favor of recruiting for the 220th Overseas Battalion. The speaker was one of the speakers and the band of the 220th rendered a fine musical program.

### Sports Hosiery

An Important Detail of the Outing Costume.

The shortness of the sports skirt demands careful study of harmony and design in the choice of one's stockings. And especially is this the case with the athletic Summer girl, on tennis, golf or boating bent. For the whirl of the skirt invariably reveals either good or bad judgment in the selection of one's hosiery. Very smart and new are the delightful striped effects in silk models, while for those who find them more comfortable for use with outing shoes there are stockings of soft white cashmere.

**SOFT WHITE PLATED CASHMERE STOCKINGS** are made from wool faced and cotton backed yarns, full fashioned and seamless, with double sole and 3-ply heel and toe. All sizes. Price, per pair, 65c, or 2 pairs for \$1.25.

### NIEMEYER DISGUSTED WANTS TO GO BACK

Told Loew's Audience He Was Heartily Sick of Statements Made Against Him.

MISS WYSEMAN SPOKE

Appealed to Men to Realize Their Duty and Fight for Canada and Honor.

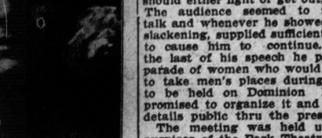

Enthusiastic tho the crowd was that packed, Loew's Theatre last night it failed to yield many recruits for the 198th Battalion in spite of the stirring addresses given by Lieut-Col. Cooper, Miss Wyseman and others.

Miss Wyseman was given rousing cheers when she stood up to speak. She told the audience that Germany, if victorious, would try to Prussianize England, but the Huns did not desire that little country, which was now overcrowded, and could almost be lost in Lake Ontario, but the Kaiser would like to send his Huns to Canada in order that they might have more room, and to colonize it. If Canadians wished to keep Canada it was up to them to fight for it. With Germany victorious there would be no soft jobs for Canadians, who would soon be replaced by Huns.

An Appeal to Civilians. She said she did not wish to belittle the splendid manner in which Canadians were aiding the empire, but she wished that the men now in civilian would realize their duty and get in khaki. She wished that women had the strength to fight, as they would not be slow in raising an army as the men were. She asked that every woman in the audience who would volunteer to engage in war work, if given the opportunity, would stand up and give her name to the

he had done as a recruiter in England. He came to Canada on a promise of a commission which, he stated, had failed to come thru. Sick and disgusted he had asked for his old position at the front with the 19th Alberta Hussars.

Then the sergeant proceeded with his favorite attack upon the men in the audience, and stated that Toronto had 6000 of them, and they did not care a rap for their country. "They should either fight or get out," he said. The audience seemed to relish his talk and whenever he showed signs of slackening, supplied sufficient applause to cause him to continue. Toward the last of his speech he proposed a parade of women who would volunteer to take men's places during the war, to be held on Dominion Day and promised to organize it and make the details public thru the press.

The meeting was held under the auspices of the Park Theatre Recruiting League, with George H. Allan in the chair. Fourteen recruits came forward and the collection amounted to \$77.77. Several musical numbers, including one by Marcia Boal, added greatly to the program.

OTTAWA WILL NOT PROTECT THE ISLAND

Authorities Declare Responsibility Rests With Harbor Board.

Claiming that the responsibility for the protection of the Toronto Island rests with the board of harbor commissioners, the Dominion government has refused to take any action in the matter. This intimation was received by Mayor Church Saturday morning in a letter from the assistant deputy minister of public works, A. S. Laurent.

The mayor is confident that the harbor board is not liable and is being informed by other officials who go to Ottawa and interview Hon. J. D. Reid, the acting minister of public works, in an endeavor to have the question settled satisfactorily. He telephoned A. Claudio Macdonell, M.P., who is in Ottawa, on Saturday morning.

A conference was also held with Harbor Engineer Cousins, Parks Commissioner Chambers and R. C. Harris, the commissioner of works.

ALD. McBRIDE TO FIGHT APPOINTMENT OF KILMER

Declares Selection of Temporary Counsel Was Left to Capt. Geary.

Ald. McBride declares that in the event of a temporary corporation counsel being appointed the selection of a man for the position is left to Capt. G. R. Geary. He maintains that the bargain made with Mr. Geary before he took up military duties will be broken if the mayor succeeds in having George H. Kilmer, K.C., appointed to the position. The agreement made with Captain Geary by the board of control and later ratified by the city council is as follows: "The board recommend that the application of the corporation counsel for leave of absence during the war be granted and that his present salary only be continued and paid during such absence, this consent being conditional also upon the substitutes retained by the corporation council at his own expense to look after the duties of his office being satisfactory to the board."

When Mr. Geary left for England he made arrangements for the city to use the services of D. E. Thomson, K.C., A. C. McFaster, K.C. of Toronto, and T. G. Meredith, K.C. of London, in view of this Ald. McBride will fight any scheme to put Mr. Kilmer in the position.

NOTIFICATIONS OUT FOR TAX RETURNS

Toronto Firms and Corporations to Receive Theirs This Week.

BUSINESS TAX ACT

Office Opened in City for Collection of Statistics Only.

Toronto firms and corporations liable under the business tax adopted by the Dominion Government at the last session are being notified regarding their returns for this week. R. W. Bredner, who is in charge of the collection of the tax at his home, which is at 41 Albany avenue, on Sunday. He told "The Toronto World" reporter that of the 15,000 notices to be sent out by the finance department regarding this tax those for the west and those for Hamilton had already been mailed. He expected two or three thousand for Toronto would be mailed Monday or Tuesday. "We are about half thru," he said, "I expect all the notices will be out by Wednesday or Thursday."

"But the fact that any firm or company does not receive such a notification from Ottawa does not in any way relieve them of their obligation to send returns as required by the act," said Mr. Bredner, who emphasized the difficulty of getting in Ottawa exact and exhaustive knowledge of all the companies and firms throughout Canada. These returns must be made direct to Ottawa. The office opened on Victoria street, Toronto, is purely for the collection of statistics regarding the companies and firms liable under the act for this tax.

The notices as mailed out from Ottawa include a copy of the act and a copy of the form which the firm is required to fill in and return. They should be returned, according to the act, by July 1. Assessment will be made by September 1, and payments must be made by November 1. The first payment will include arrears as the tax is retroactive. The tax is 25 per cent of all profits since war began in excess of 7 per cent for incorporated companies, and in excess of 10 per cent for firms, individuals and partnerships.

SPLENDID SCENERY

Excursionists Highly Impressed With Beauty of North-ern Ontario.

A large crowd at the Don Station early Saturday morning presented a very animated appearance. It was the annual picnic of the Canadian Northern Railway Club. The club is composed of the various members of the staff of the railway. Street car after street car deposited groups at the station up to 10 o'clock, and as they stood around the station waiting the arrival of the long train of ten coaches, baggage car and two locomotives, they made an interesting gathering. Here and there were family groups of six or more children each, each lugging a portion of the family lunch, and each desiring to go to a different place along the platform, while their parents tried in vain to shepherd them together in one spot. Then there was the flash of boys and girls from the offices, who were lunge and black bass that had been reared from the waters of Lake Couchiching. These men rather took to themselves in small groups looking very mysterious, as though they knew the exact place the large fish were waiting, and carried in addition to rods and lunch, parcels and poles that carried the lure with which the wary fish were to be induced to bite a hook. Then, too, there was the large crowd of boys and girls from the offices, who on this day did not have to carry on conversation of interest to them behind the apparent subject of leaves and white dictating letters about railway routes.

CASUALTY TELEGRAM AWAITED DR. GRANT

Returned From General Assembly, Winnipeg, to Hear of Son's Death at the Front.

On his return to Toronto yesterday from the Presbyterian General Assembly at Winnipeg, Dr. A. S. Grant, the chairman of the finance board of that denomination, found a telegram awaiting him conveying the sad news that his eldest son, Lieut. Oswald W. Grant, had been killed in action on June 15.

The late officer joined the 33rd Battalion at London and went overseas a year ago with a draft from that unit. He then became attached to the 1st Battalion at the front, with which he served in the trenches for eight months. Promotion came rapidly, and he was appointed brigade general officer, and later was recommended by his commanding officer for decoration in recognition of "consistent good work from the start."

Lieut. Grant was 23 years of age and was educated at Upper Canada College, where he was prominent in athletics. He later attended the University of Toronto and played on the junior arts football team, who were inter-collegiate champions in 1911, and on the Ontario tennis team, intercollegiate champions in 1912. He received his B.A. degree when he graduated in 1911. He was a law student at the Osgoode Hall and studied with the firm of Dewar, Maw and Hodgson.

Saturday's military games at the Exhibition grounds brought the 127th York Rangers Battalion to the front. Their marching, which won them the massive trophy donated by The World, spoke eloquently of the training this battalion has undergone since its mobilization at Newmarket, on April 11 last. On Saturday its marching was described by Lieut.-Col. Lang as perfect. For size the men were almost uniform and of excellent physique. Marching in their long suits, they have been dubbed "Clarke's foot cavalry." Their mobilization was carried out by means of a march from Newmarket to Keesling to go to the barracks, the engineers only supplying the lumber and other materials. On going into camp last week the men of the 127th prepared their own camp, putting up the tents, installing the water system and constructing the necessary buildings. Since then they have dismantled the Kodak Barracks and shipped the material to Niagara. Few battalions in this division have the record.

DUNLOP TIRES advertisement featuring an illustration of a child and text: 'Now of all times Tire Buyers should absolutely know which tire companies can stand the Canada Test.' 'If, when purchasing a new car, you show an unalterable preference for Truly-Canadian tires—Dunlop "Traction" or Dunlop "Special"—you will find that you can get them no matter what tire equipment is on the car at the time. When any opposition is shown to giving you Dunlop Tires you can at once distrust the argument because the salesmanship which does not seek to please, surely cannot be regarded as seeking to satisfy.'

Editor World: In reply to General Logie's appeal for 2500 men, I make the following suggestion: Let the following officers be enlisted, each of whom shall agree to the following: From the 10000 men who are being drafted a chance no doubt a very large number would be quite willing to take.

INDIAN LIEUTENANT RECRUITING IN ONTARIO

Chief Objection to Enlistment He Finds is Lack of Full Citizenship Rights.

OTTAWA, Ont., June 17.—Lieut. Charles A. Cook of the Indian Department and himself an Indian, has been recruiting among the reserves of Ontario, and he finds, he states, that the chief objection of those who refuse to enlist is that they have not the full rights of citizenship.

In this connection he brings back an extraordinary story from Manitoulin Island. Chief Joseph Peltier of the Ojibways is a successful farmer on the island. His two sons helped him to work their fine farm, but they have enlisted and he was compelled to secure help. He has hired two French-Canadians from the Province of Quebec.

And now Chief Peltier is face to face with real unfair treatment. The two French-Canadians who are employed by him have voted, but neither he nor his two sons who are assisting Canada and the empire in this crisis have a voice in the affairs of the country.

At this time the Government is stated that over 800 Indians have enlisted, and they have contributed about \$25,000 to the Patriotic Fund. There is an Indian regiment being recruited at Cayuga.

Why Not Root? If the Republic desired to nominate the best man, and cared nothing about personal popularity, why did it try to elect Roosevelt? This was a trick played by the German-American Alliance in the ultimatum they were put to the convention, namely, Roosevelt, Root and Hughes. The German Alliance was in the United States so and nominate either Roosevelt or Root. The alliance did not tell the convention it must nominate either Roosevelt or Root. If you must not nominate anyone else, you must not nominate anyone else.

Germany wants Wilson beaten for several reasons. In the first place, he has been held up to the German people as the vessel of England, who did not enjoy the success of the American people. This would encourage that notion. Then, again, if Germany really wants peace, her intermediary son having to rely on the United States to get as good terms as possible. But the German people would not take kindly to any mediation on the part of the United States so long as Wilson is president. Hughes, a new man, can probably do more with all the belligerents than a president who has been constantly expostulating and re-nouncing war. At any rate, the election of Hughes would give the German national pride and give a certain new-found importance to the German-American vote. The Democrats want Hughes to repudiate the German-American vote. Three million votes, if he can get them, will come in quite handy in November. Yes, it is possible that in holding the Teutons, Mr. Hughes may arouse the indignation of the Allies, that will either defeat him at the polls or force him to retire from the Republican ticket.

GERMAN MONEY USED IN SUPPORT OF HUGHES

Such is Charge Made and it is Causing a Sensation.

PARTY IN DILEMMA

Democrats Seize Chance to Get Both Hands on the Flag.

Special to The Toronto World. NEW YORK, June 17.—German money and German influence are said to have controlled the recent Republican national convention. They nominated Charles E. Hughes for president, and they will wield a tremendous influence in bringing about his election. On the other hand their efforts to help are beginning to hurt.

For fifty years the Republican party has been the champion of the German-American alliance. President Wilson's policy has been to break this alliance politically. The Democratic platform denounces any political party that is not in sympathy with the views of political groups laboring in the interest of a foreign power. The Democrats are attacking the Republican party for its policy of "Grabbing the Flag."

No wonder the Republicans are dazed when the Democrats having already seized the full-dinner-pail grab for "Old Frank" Roosevelt. The Republican party has considered the flag as their personal property. They fought for it, they have won it, and they intend to pull it to pieces. That historical fact is not the least significant in the old-fashioned campaign. The old-fashioned campaign was a matter of dollars and cents. The Democrats will follow in about the same way. They will follow in about the same way. They will follow in about the same way.

It came as a shock to the ordinary Republican when it was learned that the Democrats were going into this election endorsing the well-filled dinner pail as their program. They were so much even more startled to learn that the Democrats had taken the flag and intended to wave it vigorously.

The charge is made that a lot of German money has been used in the campaign. We all know that a steady stream of money has been pouring into the campaign since the time of the flag and filling the dinner pail. Before Wilson's time the Democrats only blundered into office on one occasion and financial panic followed in about the same way. They will follow in about the same way. They will follow in about the same way.

All this took money. The no doubt, some delegates had to have their expenses paid. In Chicago, a certain amount of money was spent in always open in nominating anybody for president. The money certainly came from the German-American Alliance.

There was, of course, some assistance from the country in favor of Mr. Hughes. He was recognized as a progressive policy, the Grand Trunk Railway are now operating a new type of Pullman sleeping car, for their Montreal-Toronto service.

Many improvements have been included in these truly magnificent examples of modern railway equipment. One of the most noteworthy of these innovations is the arrangement of the berth curtains. Each upper and lower berth has been provided with its own set of curtains, superseding the larger common room curtains for both berths. This new arrangement makes for the greater privacy in traveling, a condition long sought for by the passenger. Removing as it does the possibility of the passenger, who has been disturbed by the opening of the curtain by the occupant of the other berth.

Other new features of this 1916 type of Pullman cars are mirrors in the up-berths, new lighting and ventilation system, more seating accommodation, the installation of a new type of dental fittings in the drawing-rooms, which have also been fitted with a new type of window shade to give increased privacy.

Similar cars, representing the last word in the railway car builder's art are being placed in the various Canadian service of the Grand Trunk Railway in accordance with the company's policy to maintain its service at the highest possible standard. 45871

By a Staff Reporter. OTTAWA, Ont., June 17.—An announcement is expected in a few days regarding the personnel of the commission which is to enquire into the railway situation in the Dominion and report to the government regarding the policy which should be adopted to deal with it.

TROPICOLUM BY HEAD LANDS STEEPLECHASE

Geo. W. Beardmore's Old Jumper Rewards Backers at Long Odds—Racing at Ottawa.

OTTAWA, June 17.—After seventy-two hours of almost steady rain the sun came out this morning and racing conditions at Compton Park this afternoon were more pleasant than on any day of the meeting. The pleasant weather brought out an immense gathering, the crowd being one of the largest that ever visited the course.

George W. Beardmore furnished the winner of the steeplechase, in his good summer Tropicoolum, which was making his first appearance of the season. There were five starters, with Early Light as the prohibitive favorite. Tropicoolum went to the front directly after the start and set a fast pace. Simpson took him under slight restraint after they went a quarter and relaxed him at the last quarter with the result that he had a little left when Harvey Boyle brought the favorite up with a bold challenge. Early Light responded gamely and was gradually wearing the leader down. Tropicoolum, however, hung in with determination and in a grueling finish lasted long enough to win by a head. Brush-Broom was third, beaten six lengths for the place.

TRADING SLOWED UP

Business in General Booked for Months to Come.

The market recovered from these levels occurred before the close, but the undertone was inclined to heavy.

## EMPIRE DAUGHTERS DINNER AT MARKET

Sir William Osler Chapter Scored Another Success Saturday.

### PROMINENT GUESTS

Proceeds Pay for Ambulance Presented to Toronto Light Infantry.

The big dinner at St. Lawrence Market on Saturday noon scored one more success for the Sir William Osler Chapter, I.O.D.E., and its hardworking and popular regent, Dr. Caroline Brown.

By the aid of many flags a great rectangle of the interior square was curtained off, enclosing numerous long tables, from which it is estimated some 1000 citizens and country people enjoyed the substantial menu which the boys of the 201st had prepared and the offerings of public generosity had provided.

"Yes, everything has been contributed," the smiling regent told the World, and "everything" included great plates of roast meat, fried fish, beans, peas, rice pudding, apple, fig, raisin, peach and plum pie, salads, ice cream, tea and coffee. Nothing staid—everything on the generous plan.

The band of the 201st met guests at the entrance, or entertained them at dinner with the patriotic message "Keep the Home Fires Burning," while Sergeant Redfern, superintendent of the cooking, and his "cooking mates" in khaki and white caps dished up the steaming fare to the hungry patrons. Others of the "boys" waited at tables.

Dr. Caroline Brown was assisted by Mrs. D. R. Nasmit, Mrs. F. H. Pratt, Miss Whatmough, Mrs. C. W. London, Miss Noble, Mrs. Gilchrist, and Mrs. W. E. Groves representing the Auxiliary of the 201st Battalion. Lance Corporal Gretton and Pte. Harold Barron were amongst those who did good service in waiting at table.

Among the guests were Lady Eaton, Mr. and Mrs. Hezlewood, W. E. Groves. The booths were open during the evening, the electric lighting being generously donated by the Hydro Company. The Robert Simpson Co. supplied the hundreds of flags, and did the decorating.

Proceeds will go to pay for the ambulance presented the 201st by the Sir William Osler Chapter.
