LONDON, Sept. 28.—The campaign of the Roumanians in Transyl-vania is becoming one of the fleroest yet fought in the war, according to advices received from Austrian sources. The Roumanians are advanc-ing against Hungary by two routes, on the Tilistitui Mountain Range and the region of Hermannstadt, and further to the south, where the frontier runs north and south. The Austrian official communication admits that the fighting is bit ter east of Petroseny, but it claims that in the Hermannstadt region the situation has become favorable to the Austrians thru the repulse of-Roumanian attacks. In the eastern Carpathians, where the Russians and Roumanians

In the eastern Carpathians, where the Russians and Roumanians have linked up their forces, they have begun an offensive. The regions affected by this drive are southeast of the angle formed by Roumania, Bukowina and Hungary, the Kirlibaba region, the Ludowa region and the Arta Pass.

Instead of declaring war on Bulgaria, as previous despatches sugges would be done at once, King Constantine and his advisers are still wat for an answer from the allies to an official Greek offer of participation, s mitted ten days ago.

A cable from Paris, no doubt based on the semi-official reports issued by the French general staff every day in addition to the official communications gives a hint of the future direction of the alles' campaign. According to this view the fighting will not run thru Belgium, but it will run eastward thru northern France, and Luxemburg will be the scene of a greater Sedan How this can be done the despatch does not say, but hints are given of the diocking of the other German lines of communication into Belgium and France. This blocking could be achieved by the bringing of Holland into the war, by the landing of a British army, perhaps, on the Belgian coast and the con-sequent turning of the German left fiank, by the destruction of the bridges of the Rhine by gigantic aeroplane exactlitions, or lastly, and most probably, by by the landing of a British and left fiank, by the user and most probably, by the Rhine by gigantic aeroplane expeditions, or lastly, and most probably, by continuing to advance eastward from the River Somme, instead of wheeling and driving over the watershed between the Somme and the Oise and the Scheldt and the Sambre. Paris believes that great developments will shortly come to pass. Perhaps she is too optimistic; they may be delayed until spring.

Press correspondents with the Russian armies represent the recent gain of the Slavs in the Carpathlans as highly important. The Russian troo have cut the highway between Kimpolung and Maramaros Sziget, some mil above Kirlibaba. In desperate battles they captured a mountain overlooki the highway and a range overlooking Kirlibaba. That town has been broug under their artillery fire. On the upper Sereth River the Russians have ma an advance against strong German reinforcements and have captured 18 men. Interesting light is shed on the British losses in the recent fighting on the Somme by the official communication issued yesterday, saying that the casi-alties numbered only about double the total of prisopers taken. As 5000 Ger-mans were captured in the two days' period referred to, the British losses were not more than 10,000. This happy diminuiton in the mortality rate is owing to the increasing effectiveness of the British artillery fire, to the ex-perience gained in the battle drill, and to the fact that the army is now ad-vancing in practically open country.

Nervousness in Quebec Is Caused by Ministers

Special to The Toronto World. MONTREAL, Q., Sept. 28.—It may be surprising, but it is the fact never-theless; that French-Canadians here of theless; that French-Canadians here of the conservative stripe are getting somewhat nervous over the persistent campaign of the French ministers against any form of conscription, as they say Casgrain, Blondin and Pate-naude are burning their bridges. The statement is also made that Hon. Mr. Casgrain, who speaks here on Satur-day, will once more take the ground that French Canada having done as well as the other sections of the Do-minian, conscription is unnecessary minion, conscription is unnecessary and will not come to pass. But, say the politicians, if enforced registration is brought about, which will have the same effect on this ticklish province, they are afraid that the trio of cabinet men from Quebec will have as a natural consequence to get down and out. A leading member of the Liberal-Conservative Association said in fact that it was the prime minister's weak-ness that brought all the trouble.

Misses' Smart Winter

Coats, \$8.75

"Perfectly charming," aptly describes these coats, and the price doesn't give the slightest suggestion of their splendid style and excellent materials. There are seal-ettes, chinchillas, beaver cloths, tweeds, checked chinchillas, and other wool mixtures and fancy weaves in dozens of styles, all with smart convertible collars, many fur trimmed. The skirts have splendid flare, some rippling from shoulders, others belted. They are all beautifully finished, and lined. Colors navy, browns, greens, greys, black and check mixtures. Sizes for misses and juniors, 13 to 19 years. Remarkable bargain for Saturday, \$8.75.

Misses' Skirts, in serges, corduroys, tweeds and check ma-terials. Some showing patch pockets and belt effects; others made in plain styles, all well tailored and perfect fitting. Colors havy, green, grey, tweed and checks. Sizes 22 to 25 waist; 31 to 38 length. Price, \$1.95.

Extolling The Graces of The New Silken Skirts

Straighter of Line and Somewhat Narrower Than Formerly, But Despite a Graceful Simplicity of Design Fashioned of the Richest, Most Sumptuous Materials Imaginable T HAS BECOME a cult, this vogue of the separate skirt, of more-than-ordinary-magnificence - a cult that has taken on a new lease of life with the introduction of the Russian blouse. For worn with this new form of tunic and blouse in one, even a simple skirt, provided the material be rich enough, becomes a modish and striking afternoon dress, while a soft blouse of lace or Georgette will transform it into a charming frock for theatre or semi-evening wear.

In the Women's Skirt Department is a collection of lovely models made of the richest of silks-the ultramodish satin and charmeuse, pussy willow taffeta, crepe de Chine, soft gros grain, the new matinee silk, as well as panne and velvet - some in striped or barred effects, some brocaded, some inwoven with color.

The new modes show several new features-not only the straight fullness and greater length occasioned by the change of silhouette, but such ideas as draped girdles, fringed sash ends, metallic and fur trimming, side panels and one side different from the other.

Strikingly new and smart is a skirt of matinee silk, with draped girdle, pannier-like draping on the left side, the folds faced with vivid scarlet. Price, \$27.50.

Showing the new panel effect at the sides is a gathered skirt of charmense, the girdle draped from right to left where it is held by an oxydized ornament. Price, \$35.

The skirt illustrated presents the new mode of sash-like panels at the sides. This is known as "cascade," and is made of a curious striped chenille-like plush in black and white, is closely gathered beneath its frilled heading and is edged with moufflon. Price, \$60.

In taupe charmeuse is a most bewitching model, its fulness caught at the waist in unpressed pleats, and having at the sides four big tucks just above the knees, each held by an enormous button that looks like an unfolding rose. Price, \$37.50.

The vogue for white is exploited in several pretty skirts of white charmeuse. One of these hangs in straight plain folds, with two side pockets, and has a narrow girdle of moleskin, with buttons to match. Price, \$30.

A plainer skirt of heavy black silk is distinguished by a girdle draped from the right to the left hip, and ending in a single, wide, fringed sash end. Price, \$25.

Showing the very modish narrow box pleats all round, is a skirt of midnight blue satin, its wide girdle fastened in front with two seal buttons. Price, \$22.50. -Third Floor, James St.

Both materials and trimmings are of the best, and included are velvet, panne, and felt hats, also various combinations of velvet and silk, and the colors are most representative, showing such new shades as Burgundy, wine, cathedral grey, leaf and Havana browns, taupe, Russian and balsam greens, a range of shades that is worthy of special note in a season when there is such a decided vogue for a hat to match the suit. All half price, ranging from \$5 to \$50. -Second Floor, Queen St.

The New Coatings Provided for **Fashionable Wearing**

Show That Velours and Zibeline Finished Fabrics are First in Favor With Fine Chinchilla Weaves a Close Second

AND EVERY ONE of them is supple and soft as coatings never were before! For you must know it is the will of Fashion that coats shall hang with a slight outward tapering from the shoulder line, shall be bloused in Russian effect, or shall follow in some measure the curves of the figure, and for all these styles fabrics that will hang in soft folds are necessary.

In the Coating Section you will find a most interesting assemblage of such materials, especially noteworthy being the prominence of velours.

One of these has a lovely soft velvety pile, is warm without being bulky, and is obtainable in five shades, navy, brown, taupe, Russian green and prune. Price, \$3.00 a yard.

In lighter weight is an even more supple velours in myrtle green, navy, nigger brown, Burgundy and black at, \$3.00 per yard.

A velours cord, a very handsome material, can be had in two shades of blue in tan and black at \$2.50 a yard.

Very smart is a velour finished plaid of most wearable dimensions in black and white, with green, blue and tan overcheck. Price, \$3.00 a yard.

Other plaid coating velours, with a somewhat larger check, are to be had in black and white, with blue overcheck, in brown with grey overcheck, and in green with yellow overcheck. Price, \$2.50.

> Plaid zibelines are also most attrac-tive and are obtainable in four de-signs, and in very pretty colorings at \$3.00 a yard. -Second Floor, Albert St.

Oppose Lemieux Act.
By an overwholming mejority, the Trades and Labor Congress went on record at the afternoon session as being opposed to the Demieux Act in its entirety. This action followed several long sessions devoted to the discussion of the administration of the Lemieux Act and also to a draft act which the executive council had drawn up by J. O'Donoghue at a cost of \$1000 at the request of the last year's convention, before the convention as favoring the amendment of the Lemieux Act, according to Mr. O'Donoghue at a cost of \$1000 at the request of the last mended by Delegate Rees of Fernie, B.C., seconded by D. Irvine, both members of the United Mine Workers of America, that the congress ask that the act be repealed. This amended motion was adopted almost unantmousty, thus killing any desire that any of the delegates might, hava to accept the act. He was strongly in favor of the act. He was strongly in favor of the sect.

Delegate O'Dell of the Boot and Shoe

Workers' Union of Montreal, was op-posed to the act and told the delegates posed to the act and told the delegates of the unarimous opposition of the Hallway Brotherhoods of the United States to naving such a law passed by corgress. Delegate Todd, of Toronto, was against the act, but strongly in favor of conciliation and arbitration. He was told, he said, that it was the intention of the minister of labor to administer the act in the interests of administer the act in the interests of labor, but it did not matter which gov-

Delegate McCutcheon of Winnipeg-told of the operation of the act in Winnipeg in the dispute between the Railway Shopmen and their combine Railway Shopmen and their employ-ers. It was simply used to keep the men from striking until the shops were barricaded and nonunion workmen obtained.

Delegate McVety of the Vancouver Trades and Labor Council, stated that while neither government nor opposi-tion moved a hand to keep down the high cost of living, both parties were high cost of hving, both parties were keen to keep down the rate of wages. City's Finances "Justify Appre hension."

Mr. Bradshaw's statement that the city will have \$5,000,000 overdraft to provide for by the end of the year can only surprise the amateur financiers of the city council and those who innocently and unwisely followed the demand for a reduced tax rate.

It is scarcely necessary to recapitulate the often-told tale of our "cheap and nasty" methods of civic finance postponing all necessary improve-ments until they could no longer be put off, but piled up with inevitable and unavoidable insistence.

The tax rate should have been main tained at the necessary level this year to cover all requirements, but Mayor Church weakly succumbed to the clamor of those who think more of making an impression than of making a success. Mayor, Church's policy of paying as we go in 1915 was an

pay their gas or electric light bills. Mr. Bradshaw points out that with in the next few years it will be necessary to decide what shall be done about taking over several public utilities, and "it would be no less than a catastrophe if, when that time approached, we found ourselves financially at a disadvantage to handle them in a manner which would prove to be in the best interest of the city and its taxpayers."

For this, if for no other of the weighty reasons Mr. Bradshaw adduces, the serious attention of the city council must be given to his state-

ment.

Once more it has been officially stated in Great Britain that suggestions of peace from neutrals at the present time will not be acceptable by the entente allies. The interview given to the press by Right Hon. David Lloyd George carries with it all the weight that attaches to the office of the secretary of state for war, as re-presenting the - British Cabinet. No doubt Germany after the awful drubbing of the last week would be glad to uit with what gains she still retains. Germany has had her turn in the first two years of the war, but she has played all her trumps and her oponents now have the lead in their strong suit. The game must be play

ed out. The British Empire will respond with one heart to Mr. George's statenent on the idea of neutral intervenion in the interests of peace.

"Britain," Mr. George declared, "asked no intervention when she was not prepared to fight. She will tolerate none now that she is prepared, until Prussian military despotism is broken beyond repair. There was no regret voiced in Germany over the useless slaughter. There were no tears by, German sympathizers when the few thousand British citizens, who never expected to be soldiers, whose military education started only a few months previously, went out to be hattered, hombed and gassed, to receive ten shells for every one they could fire; went out, fought and died like sports-men without even a grumble. I repeat that there was no whim-pering then, and the people who are new moved to tears at the thought of what is to come, watch-ed the searly rounds of the unequal contest dry-wed." It all depends on whose ox is being gored, and the Teutonic ox is only be-ginning to feel the horn. Mr. George whose military education started.

He had talked with two Conserva-tives there who had told him that tho they had been bitterly opposed to the act when it was passed, what they had seen since it went into effect had con-verted them. Commissioner Smith said that at the New Liskeard Fair, which he had attended, there had been only one drunk, where formerly they had been drunk, where formerly they had been thick on the streets. The board re-membered anecdoles of the state of things as they had found them in Halleybury when they visited the north country and arrived in that town when the men were coming back from the New Liskeard Fair. The change was marvelous, said they. A more exact idea of the rosults achieved by the new act will probably be available soon after the end of the first month, for the board is seriously considering gathering from the various chiefs of police thruout the province statements as to the number of drunks before the act went into effect and after it. Chairman Flavelle, speaking of the bringing in of liquor over the border, intimated that the board would not take any special action unless it was found that iravelers were bringing in liquor to give to others, or for "blind pigging." Then there was no doubt in the mind of the members of the board, action, and drastic action, would be taken. The act has placed liquor carrying across the line in the light of smuggling. Any person guilty of bring-ing it into the country renders him-self liable under the new act for hav-ing it on his person. It was Anna Case who first sang in comparison with M'dison's Re-Creation of her voice to test his new artto determine whether the Wizard had in fact achieved his ambition to Re-Create the human voice so perfectly that a singer's performance could not be distinguished from his record of it. Anna Case was the first to prove this to the world. Today over one hundred thousand of the most critical and cultured music lovers in America have heard minilar tests. The musical critics of-more than one hundred of the leading newspapers in this country have confessed that their trained ears cannot distinguish, by actual and direct comparison, an artist's performance from Edison's Re-Creation of it. For All Complexion Ills

If the skin be colorless, sailow, muldy, over-red, blotchy or freekled, nothing will so surely overcome the condition as ordinary mercolized wax. It literally takes off a bad complexion-absorbs the dead and noar-dead particles of surface skin, gently, gradually, causing no in-convenience at all, -A new complexion is then in evidence, clear, spatiess, dci-ort, y sof, and beautiful. One surce of this wax, procurable at any drug store will rejuvenate even the worst complex-ion. It is used like cold cream.

A representative gathering of wom-en of various societies met in the parliament buildings yesterday after-noon, when Lady Hendrie called the meeting to order and explained its object. A small preliminary meeting had been held last week, and from it she had been requested to call the meeting of yesterday. Col. Fraser ex-plained in detail that the object was to interest the women of Ontario in the presentation to her royal highness the Duchess of Connaught of a fund which would serve the purpose of a farewell gift and at the same time go to benefit Canadian soldiers. When first approached on the sub-ject her royal highness had declined to allow any collection on account of war conditions, but when it was ex-plained that this would be a disap-pointment and would make her case an exception to that of her predeces-sors, she consented on condition that the fund collected should go not in a personal gift to herself, but to in-crease her fund for prisoners in Ger-many.

Women's Patriotic League and other organizations will be circularized at an early date. Mrs. Plumptre explained that the Prisoners' War Fund was distributed by Mrs. Rivers Buckley thru the Red Cross, and was mosily expended on extras in the shape of tobacco and cigarettes. The meeting was in favor of a portion of the amount which may be collected being spent on Christmas cheer for the soldier prisoners. Mrs. Van Koughnet was appointed honorary secretary and the names of the different societies represented were taken. A representative from each will form the executive. The Domin-ion Bank branches and the post office thruout the province will be asked to that what two chapters of the I.O.D.E. in Ottawa had already given five him dred each. The idea, however, was that every woman would give as much as she felt she could afford, the idea being not so much the amount as the kindly feeling towards her royal high-ness and our own soldiers. On motion of Mrs. Plumptre it was decided that the scretary's consense of the movement be taken from the funds. Only Common Justice to Treat All Citizens Alike

The following letter was received yester terday by the secretary of the citizens' express and freight campaign committee from Dr. N. S. Coyne, dentist, 623 St. Claft svemue west, a copy of which was forwarded to the Dominion Railway Board. Ottawa. It reads as follows: "As a ditizen and taxpayer of Toronto, might regard to unqualified free express and freight delivery in Toronto? At present thousands of citizens of Toronto are pay-press because we happen to live in a district in Toronto cutside the express delivery limits and heavy taxation area. Tt seems to me only common justice that alike in this respect. Hoping for your favirable consideration."

course of instruction in elementary education will be started in the con-valescent homes of the city for re-turned soldiers. The work will be first undertaken in the College Street Convalescent Home, and the Bishop Strachan Home, and the training will be in the hands of two thoroly com-petent and qualified teachers. The number of teachers will be increased as the classes increase in size. This work is being undertaken by the Soldiers' Aid Commission in con-junction with the board of education. W. D. McPherson, M.L.A., chairman of the Soldiers' Aid Commission, yes-terday explained the nature and pur-pose of the work is be undertaken. "It is for the purpose of recognizing in a small way the service that these men have rendered to the empire, and as a reward as far as can be done to make their condition in life as pros-perous or even more prosperous than it was before they went overseas. In other words, it is that the men shall not be losers by the sacrifice that they have made, that this work is under-taken."

taken The start will be made with elemen-tary training, and personal survey will be made and the qualifications of each man who desires to take the course will be looked into to learn what course will be looked into to learn what his present training will adapt him for. From that his education will develop into such technical training as will seem to be necessary in the case of each. Every injured soldier is elig-ible for this course of instruction, and it is expected that a large number will avail themselves of this opportunity. It is the intention of the commis-sion to establish similar classes in dif-ferent eities thrucut the province, as sion to establish similar classes in dif-ferent cities thruout the province, as London. Hamilton, Kingston and Ot-tawa. Dr. F. W. Merchant, director of technical education in Ontario, ac-companied by T. B. Kidner, yocational officer representing the military hos-pital commission, will visit London to-day for the purpose of investigating the situation in that city and organizing classes. It is expected that classes will be commenced in each of the cities above named, about the middle of next week. W. W. Nichol, principal of the Ottawa Technical School, has been engaged as general supervisor of the work in Ontario.

The new British American Nickel Corporation has passed the stage of talk and is getting into action. This company will carry out all their oper-ations here in Canada from the min-ing to the refining. A power plant is being constructed at Wahnipitae River and work is progressing under the direction of Mr. J. Wurtelle. The lo-cation of the corporation's plant will be at Nickelton on the Algoma Eastern Railway and a large number of men will be engaged in the work at that point. This will be but a very short distance from the Murray mine, which is the big property of the company, and which is about 4 miles outside of Sudbury. Sudbury. It is understood that the capital is British and a London man is presi-dent-Mr. James Dunn.

PRICE OF SILVER

NEW YORK, Sept. 28 .- Bar sil-

ver 69%c. LONDON, Sept. 28.—Bar silver is off 1-16d at \$2%d.

The second states soard room of the Bank of Hamilton yesterday. The annual report of the directors and the financial statement for the fiscal year ended June 30, 1916, already published, were approv-ed, and the officers and directors were re-elected without change. The im-provement in the company's position was favorably commented on at the meeting, and reports as to present con-ditions are satisfactory, the company having no difficulty in its finding a market for product at satisfactory prices. The labor outlook is one of the few clouds on the horizon, difi-culty in keeping up the output being feared as a result of the scarcity of first-class mea. The company, as has a been previously announced, defored bond interest for 1915 and 1916 until 1922. **VEIN OF HIGH GRADE VEIN OF HIGH GRADE** No. 2 wheat, st.01%. Old crop trading 2c above new crop. No. 1 commercial, 61d erop, \$1.85 to Arc-Active, The Toronto Stock Market held is, for yesterday in the matter of prices, but trading was somewhat concentrat-ed, the issues primarily under con-sideration being Maple Leaf and Steel Corporation. The former made a fur-ther high at 109, then worked within a narrow range and closed near the fop. Dominion Steel was well bought all day without ostentation and closed at the high, 60 1-2. The movement in such issues as Republic Steel on Wall street is pointed out as an indi-cation of what might happen in Do-minion Steel, should speculation break holders are again dissatisfied in the matter of dividend and some liquida-tion of the stock occurred. A little rading in Penman on this market was soccasioned by the rumor of a boaus with the next quarterly dividend. Steamains and Brazilian had fair business, but showed no buoyancy. The attractions of the New York mar-attractions of the New York mar-ite interest and not until this sub-sides is it expected that the Toronton market will run into any active trad-ing. 1.35 - 1133 - 8.75 rorcupine (Members Standard Stock Exchange). 56 KING STREET WEST, TORONTO.
