

Fashion Hint for Times Readers

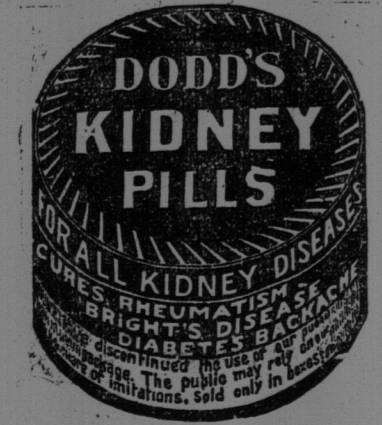

Of all the garments in my lady's wardrobe none is more practical and gives as great an amount of satisfaction and wear as the rubberized rain or utility coat. The designer for good hard wear are made of moire or a fine quality of English moire. They are semitailored, but suggest the graceful lines of the figure, being cut to curve slightly at the waist line and flare nicely at the bottom with a high turnover collar, the fronts fastening double breasted to the neck line and the sleeves, of moderate size and full length, are gathered slightly into a high puff matching the collar.

THE KING OF DIAMONDS

By LOUIS TRACY. Author of "The Wings of the Morning," "The Pillar of Light," etc. Copyrighted by J. McLeod & Allen, Toronto.

(Continued.) The other boy sprang to him without a word. He took them in his arms. He was shocked. From some hurried feet came long forgotten tears. He murmured their names, but not a coherent sentence could he utter. They were splendid fellows, he thought, tall and well knit, so nice-mannered, so thoroughly overjoyed to meet him. This was the best of it. They had sought him voluntarily. They knew his name, and were not ashamed to own him. During the long days and nights of ceaseless inquiry he was ever tormented by the dread lest his children, if living, should look on him as accused, a blot on their existence. He half hoped that he might discover them in some vile slum, where crime was hallowed, and convicts were heroes. He never pictured them as honest, well-meaning youths, sons of whom any father might be proud, for in that possibility lurked the gnawing terror of shame and repudiation. Mason's heart was full. He could not thank God for this mercy—that resource of poor humanity was denied him, and to his credit be it said, he was no hypocrite. His search's soul availed to avert feelings, as his eyes, his ears, his very heart, drank in fuller knowledge of them. But he was tormented in this joy by a agonized pang of remorse. Oh, that he could have met them with hands free from further crime! In some vague way he felt that his punishment for Philip Anson's death would be meted out by a sterner justice than the law of the land. He was too hard a man to yield instantly. He crushed back the rising flood of horror that threatened to overwhelm him in this moment of happiness. He forced himself again to answer their anxious inquiries, to note their little airs of manliness and self-reliance, to see with growing wonder that they were well dressed and wore spotless linen. A police station was no place for confidence. Indeed, both boys were averted by their surroundings. They passed into the outer office, and Mason went to thank Inspector Bradley. "Don't forget your ticket," whispered the pleased officer. The reminder jaded, but it was unavoidable. Mason got his ticket indoned, the leads looking on shyly the while, and the three regained the freedom of the street. "Let us find some place to sit down and have a drink," suggested Mason. "No, father," said John, with a frank smile. "Neither of us takes drink. Come home with us. We have a room ready for you." "I have lodgings—"

TRAIN FOR BUSINESS

Most men train their brains and almost entirely neglect their bodies. They do not seem to realize that keeness of judgment and clearness of thought depend as much on the body as on the brain itself. Any man can prove this to his own satisfaction by attempting to decide a weighty business problem while suffering with an acute attack of indigestion or a violent spell of biliousness.

The amount of work that the brain can do depends much on the healthfulness of liver, bowels, kidneys and skin. "Fruit-tives" are fruit juices in tablet-form. They act directly on liver, bowels, kidneys and skin—and enable these vital organs to rid the system of all impurities. Thus the blood will be kept pure and rich, the brain active, digestion sound, and life made pleasant.

"Fruit-tives" are now put up in two sizes—the new 25c box as well as the regular 50c size. If you are unable to carry them, write Fruit-tives Limited, Ottawa.

instantly became an old man. He set his teeth and jammed his thumbs against the woodwork of the cab, but, strive as he would, with his immense physical strength and his dogged will, he shook with a pain.

SCHOOLS ARE OVER CROWDED

From this St. John's Bridges Decides That St. John is Rapidly Growing in Population.

It is the opinion of Dr. Bridges, superintendent of the city schools, that the population of the city, at least of the north-end, is increasing rapidly. His reason is that the school population is increasing every year. Nine hundred permits have been issued from the office of the board so far this year, and the majority of these pupils are entering school for the first time. The number is about the same as last year, but very few have shown some increase. The superintendent thinks that it will be necessary for the board to erect a building in the north end somewhere between the Alexandra and Dufferin schools.

Ten years ago, when he took charge, Dr. Bridges said, there were 6,684 pupils in attendance at the city schools. Last year there were 7,200. In the meantime, he explained, the need of more accommodation by the decrease in the number of private schools in the city and the fact that parents keep their children longer in the schools than was the case some years ago. The only really new building erected in the province after the north end since the Indian town fire, Dr. Bridges said, that the Alexandra school, which took the place of the old one, was opened in 1899 with eight rooms and now there are ten and two more are being added. The school was opened in August, 1903, with eight rooms. That fall another room had to be added and two years later still another. Now the rooms are all filled and there is pressing need for more accommodation.

The winter street widening project of the public school act. Ten years ago there was no such crowding there, as there is today. The widening of the street will furnish a much needed relief to all the children in the city.

There are in the city nineteen school buildings. In the most modern of these are 1,200 pupils. Unfortunately, he was away on his holidays when—when you were released—or we would have met you then, and his presence was not aware of the circumstances. As soon as the superintendent returned he wrote to the governor, and was very much annoyed to find that you had slipped away in the meantime. "He wouldn't be so annoyed if he was these himself," growled Mason, good-naturedly.

"Oh, John didn't mean that, father," broke in Willie. "The annoyance was his, and ours. You see, we had not known very long where you were. We didn't even know you were alive."

"Of course, of course. Somebody has been looking after you well. That's clear enough. They wouldn't be always telling me that boys that their father was in Portland."

"I gave you such a shock when we heard the truth," said downright John. "But we were so glad to hear that our father was living, and that he should soon see his boys, that we didn't know when did you hear first?"

"About four months ago. Just before we took our present situation. We were saddlers and ornamental leather workers. Between us we earn quite a decent living. Don't you, John?"

PLAYS AND PLAYERS

CARMEN NEXT WEEK "Carmen" has always been one of the most popular operas, with devotees of music who never seem weary of its tuneful numbers. This ever welcome opera will be included in the repertoire of the Boston Opera Singers' Company during its engagement here. The artistic simplicity of Michale, the varying moods of the bewitching Carmen, the ardor of the young soldier beguiled by the charms of the cigarette girl, and the death of the tormented lover have always appealed to audiences the world over. There are few operas that so stir the blood. Many of the greatest prima donnas have won undying fame in the role of Carmen. It is said that the interpretation given this opera by the members of this company is of the highest order and both individually and collectively the company gives a well-rounded and capable presentation of Bizet's masterpiece.

NEW TALKING PICTURE AT THE NICKEL "Wanted: A Maid," is the new Hispano Co. bill at the Nickel today. It is very funny, not only were the stars charming beyond words with the great feature picture, "Samson and Delilah" yesterday, but the city folks themselves—who are used to the Nickel's good programmes—were thoroughly delighted and surprised by the starting realism of the biblical story as reproduced in living photographs. The scenes in which Samson carries away the gates of Gaza and tumbles the pagan temple are wonderful scenes of scenic reality and elicited great applause.

AT THE PRINCESS The Princess was well attended last night. The programme of motion pictures was—"The Circus," "Daughter," a strong drama showing the love of a father who has the dangerous calling of a fireman, "The Learned Doctor," taking the people for a trip in his airship which explodes in mid-air; "If Women Were Poets," a comedy film which tells its own story. Soky, the magician, has a new act of magic and illusion. Harry Newcombe is singing a new illustrated song. This programme will be repeated today.

OBITUARY Thomas Tyner Thomas Tyner died suddenly about 6 o'clock last evening at the residence of his daughter, Mrs. John McCoach, Haymarket square, with whom he made his home. Mr. Tyner, who was eighty-three years of age, had enjoyed fairly good health and was able to go out every day. Yesterday he had dinner and tea with the family but did not feel quite as well as usual and went to his room to rest about 6 o'clock. A few minutes later he was found by his wife in his room to be dead. He had passed away. Mr. Tyner for years was teamster for Messrs. Lee in their brickmaking business and he also owned a farm at Red Head. He is survived by four sons—Fred, in Lunenburg (Me.); Charles, in Minneapolis; George, in New York, and John, of the Telegraph engine room staff; also four daughters—Mrs. McCoach, of St. John; Mrs. George Ayr, in Boston; Mrs. Howard Hulton, in New York; and Mrs. George Wilson, Forest Hills, Boston.

Ambrose Kee Ambrose D. Kee, for a number of years chief night operator here for the New Brunswick Telephone Company when the exchange was in Market Square, died yesterday at his home in Jerusalem, Queens County. Mr. Kee was aged only thirty-two years but had been in failing health for some time. While in the telephone exchange here, Mr. Kee was painstaking and obliging and he made many friends who will be grieved at the announcement of his death. A brother is Charles A. Kee, very chief with the telephone company in St. John. He left for Jerusalem yesterday to attend his brother's funeral, which will be held on Friday morning at 10:30 o'clock.

HALIFAX CANADIAN CLUB MAY ERECT A TOWER IN THE DINGLE

Halifax, N.S., Sept. 16.—The Canadian Club has undertaken to raise a fund to erect a memorial tower on the "Dingle," the sand-ford Flemming's property on the North West Arm, which he has presented to the city of Halifax as a park. The cost of the tower will be \$25,000 to \$30,000. To this fund Sir Sandford gives a subscription of \$1,000, besides the site and the park. The municipality of Halifax practically declined to accept the park on the conditions that it erect the tower. Now the Canadian Club takes up the project and Sir Sandford is helping them out with his subscription. It is to be in commemoration of the 150th anniversary of the establishment of parliamentary institutions in Nova Scotia.

THE ELECTIONS

The federal elections will be held on Oct. 26th. PRESERVE FOR BIRDS

The suggestion made in a letter to the Times yesterday, that the destruction of feathered game on the marshy tract between Westfield Bridge and the covered bridge on the Nerepis, is one that should be taken up seriously by the provincial authorities.

IN SOUTH AFRICA

The following very interesting review of political conditions and pending changes in South Africa is from the Toronto World: "Next month will be important and may be historic in the history of South Africa."

adians it is one which is most likely to be satisfactorily answered by the free action of South Africans themselves. Certainly our Dutch fellow-citizens seem to have accepted the gift of free self-government under the British flag in the spirit with which it was made, and that this is the feature which holds out most hope for the future of South Africa.

"In anticipation of the conference the Hon. R. H. Brand of Johannesburg was commissioned to procure information regarding the working of federal institutions within and without the British Empire. Among other authorities to whom he applied was Mr. E. W. Thomson, the well-known writer on Canadian affairs in the Boston Transcript, and a recent issue of that journal contains a summary of the reply made. It is valuable and important and all the more so because it contains an opinion by Sir Wilfrid Laurier, based on his experience of the practical development of the Canadian constitution."

"The problem that confronts South Africa is highly interesting. It has the choice of four, more or less, divergent methods of accomplishing the desired object. In the United Kingdom, as presently constituted, it has the precedent of a unitary legislative body for all the constituent parts. In the United States it has a nation where the individual states that voluntarily formed it retained their sovereign rights—only parting with the control of such affairs as were common to all. In Canada, again, as Mr. Thomson points out, federation sprang more from the desire of Ontario and Quebec to get their truly local or provincial affairs separated than from the general tendency towards legislative union in America."

"Mr. Thomson's contribution to imperial politics takes the form of a vindication of the principle underlying the British North America Act. But he does not omit to point out that whatever similarities may be found between the constitution of Canada and the United States, there is one fundamental distinction in the shape of ministerial responsibility—government by ministers responsible to the representatives and responsible for everything put through or allowed to pass."

The delightful weather continues, and the exhibition continues to attract immense crowds. At times yesterday it was really difficult to move about the buildings except in the direction and at the pace set by the strolling throngs.

If the Temperance Federation is to present to the provincial government petitions in favor of a prohibitory law it should get as many signatures as possible. A little money and effort expended to that end would produce better results than a mere dependence on voluntary work.

Supt. Bridges points out that the number of pupils in attendance at St. John schools has increased by nearly a thousand in ten years. The school accommodation has not been proportionately increased, and the authorities must face the situation in a practical way.

Beauty calls and gives no warning, Shadows rise and wander on the day. We shall rise and smile and go away. Over the flaming leaves Press you, not I. It is the season grieves, Not you, not I. All our springtime, all our summer, We have spent the longest wars within. Now we leave the dreams we did not win. O we have wakened, Sweet, and had our birth.

(Newbook.) Many children are so crammed with everything that they really know nothing. In proof of this read these veritable specimens of dullness, written by public school children:

VISIT FROM HIS MAJESTY

Editor Evening Times: Sir—A great politician said—"Tell the truth when you can't tell a lie." I have made up my mind to reform. I've told as many lies as any man ought to tell. I would have kept on, but—it is this way—I had a dream last night. The house is so lonely since Hannah and the children went away.

ANNUAL REPORT OF CANADIAN PACIFIC

Decreased Earnings and Increased Working Expenses Makes Difference of Three and a Half Millions. The annual report of the Canadian Pacific Railway shows that the gross earnings for the year ending June 30, 1908, amounted to \$71,884,173, and the working expenses to \$49,501,807, leaving a net balance of \$22,382,366. In the previous year the gross earnings were \$72,942,215, and the working expenses, \$49,542,215, leaving the net earnings at \$23,400,000. To this had to be added \$1,127,300 earned by the steamships in excess of the monthly amounts, and other \$1,547,474 interest and dividends on various railway bonds held by the company, making a total of \$24,446,940. From this, fixed charges to the amount of \$2,770,076 had to be deducted, leaving a surplus of \$21,676,864, as against a surplus of \$19,165,922, in 1907. After payment of \$80,000 to the pension account, \$800,000 to the steamship replacement account, and \$14,822,648 for the various dividends, there remained a net surplus for the year of \$8,754,216, as against a net surplus for 1907 of \$8,200,000. The working expenses for the year amounted to 67.47 per cent. of the gross earnings, as compared with 68.98 and 65.04 per cent. respectively, in 1907. The report announced that the directors have arranged to get a substantial control of the Alberta Railway and Irrigation Company, at a cost of \$2,000,000. This company owns 18 miles of railway in Southern Alberta, as well as an important colliery, and about 425,000 acres of land, part of which is served by irrigation ditches. For some time it had been operated by its owners as a close friendly connection of your company, yielding to your lines a large revenue from traffic interchanged, and furnishing the company and settlers, along the way, a supply of coal. As to the proposal to increase the ordinary capital from \$100,000,000 to \$200,000,000, the report says that while recommending this increase as a precautionary measure, there is no immediate necessity for issuing any portion of the additional amount, as you have ample funds in hand, but with your vast property in a growing country the demands of stock, involving large outlays, are sure to continue, and you are therefore in a position to meet these promptly when they arise. In order to conform to a practice that they have had the habit of, more particularly in Europe, the directors announce that they have had the certified by a firm of well known chartered accountants, and it is their intention to pursue

CAPE BRITAIN MAN IS NOW A BISHOP

Rev. Dr. Macdonald has been Appointed Bishop of Victoria, B. C. The announcement of the appointment of the Rev. Dr. Alexander Macdonald, Vicar-General of Antigonish, N. S., to the bishopric of Victoria, B. C., came from Rome a few days ago. Bishop-elect Macdonald, of Victoria, B. C., was born at Mabou, N. S., on February 18, 1858. His education was begun in his native section, continued at St. Francis Xavier's College, Antigonish, and in the Proulx section, Rome, where he was ordained to the priesthood on March 8, 1884, by Cardinal Paronchi, when he received his Doctorate of Divinity. Soon after his ordination he was appointed one of the professors of St. Francis Xavier's College and took charge of the advanced classes in English, Latin, Philosophy and Christian Doctrine. In 1903 he took charge of the parish of St. Andrews, where he still labors. In 1900 he was appointed Vicar-General of the Diocese, and St. Francis Xavier's College conferred on him the degree of L.L.D., in 1905. He was appointed two years ago a member of the Theological Commission preparatory to the holding of a general council of the Catholic Church in Canada. Dr. Macdonald has always been an indefatigable worker. While attending with a most conscientious care to his appointed duties, he found time to write extensively for such Catholic organs as the Antigonish Casket, the American Ecclesiastical Review, the Homiletic and other Catholic publications on both sides of the Atlantic. During recent years the following works issued from his pen, namely, The Symbol of the Apostles, The Symbol in Sermons, The Sacrifice of the Mass, Questions of the Day, in two volumes, The Merits of the Sacred Heart and the Sacraments. As a theologian, as a linguist and as a writer he has few or no superiors in the Dominion of Canada. His removal to his new sphere will be an irreparable loss to his native diocese.

are more than 10,000 of these cars on the road and the passage of time has not developed any weakness in their make-up. In a six cylinder type he has the Ford model 40 h. p. car.

The Russell model G, 18 h. p. light touring car for 1908 is one of a type that has a worldwide reputation for efficiency and dependability. The design and construction of the Russell cars, which have remained the same from year to year, have come to be recognized as standard in the best practices both at home and abroad.

There are four models in which the Russell car is manufactured. These are G, H, K and L. The K model is perhaps the most popular, being a touring car built for seven passengers. It runs with great smoothness and is noted for durability.

As to the Gray marine motor, Mr. Pugsley thinks their reputation is so well established that little need be said. They have proved their worth and the motor using them have faith in them. They are delighted with their smooth running qualities, lightness, coupled with durability and the best quality of getting out of 2 to 40 h. p. and are sold with complete outfit ready to run.

Patterson, of this city since the opening of the big show.

EGGERLT HAD A NARROW ESCAPE

Drunken Man Almost Burned at Exhibition Yesterday—Fined for Drunkenness Today.

Louis Eggerlt, a German, aged 50, was a prisoner in the police court this morning charged with intoxication.

The German went to sleep in the compartments covered himself with straw. When he awoke, he lit a match to light his pipe.

The blaze attracted the attention of a colored man, who immediately notified Policemen McNamee and Ira Perry.

McNamee and Ira Perry, McNamee succeeded with much difficulty in extricating the foreigner, who was unable to help himself, and would assuredly have been burned if he had not been rescued.

After being rescued, "some fellow stole a long neck cloth a half on me." For some time he has been employed at Randolph & Baker's mill, and secured a holiday yesterday to visit his father.

MEN LEAVING FOR LUMBER WOODS

Good Wages Offered and Not Many Men Available—The Outlook of the Market.

(Frederick Gleaser.) Mr. W. J. Noble, of Cushing, Ltd., left last evening for the scene of his lumbering operations in Quebec, taking with him about 15 men for the woods.

The demand for men has been very heavy as yet, but still there is not a very large supply available.

The wages offered by Mr. Noble were about \$30 per month, and he hopes to pick up a good many men on the North Shore at that figure.

Indications now are that the lumbering operations this season will not be much more extensive than last year.

While the American market may brighten up this fall after the presidential elections, the advice received by local mill owners and lumbermen from their Liverpool agents are to the effect that the English market will not be really strong for another year as yet and that it will be best to go this season and not make the operations very heavy.

The Cushing, Ltd., have had a crew of men at the head of the St. John River all season clearing out the channel in the interests of the Cushing as well as other large operators, and also taking out logs. The men were also there so as to be on hand in the event of the water rising sufficiently to bring out seven million feet of logs which were hung up last fall after being brought out part of the way by Mr. Noble, who is generally counted as one of the most resourceful and energetic operators on the river.

POLICE COURT

Robert Dixon, to the astonishment of the court, pleaded guilty to drunkenness and was fined \$8 or two months in jail.

Charles Wood and William Ingraham, two old men, were fined \$4 or 10 days and the same punishment was meted out to Leonard Brooks, aged 22, found lying drunk in the I.C.R. yard and Fred Harrison, who claimed he was a journeyman tailor from Fredericton.

Arthur Evans, for intoxication and profanity, was fined \$8 or thirty days.

Andrew and William Stevens, the two West side brothers who created a fracas in the East side toll house last evening, were in a repentant mood this morning on realizing the punishment in which they had placed themselves.

Both were charged with drunkenness, and in addition the former faced the charge of resisting violently and the latter, interfering with a policeman.

Officer Rowe testified that Andrew was disorderly and abusive in the toll house and he arrested him.

William interceded, endeavoring to break the policeman's hold on his brother and his aggressive tactics culminated in the arrest of both men on serious accusations.

Officer Scott and Special Officer Adams arrested William, and Rowe took Andrew into custody. On the journey to the police station the latter was very unruly.

Both pleaded guilty to the respective charges. Andrew asked leniency as he has a family to maintain and on their good behaviour the brothers were liberated.

SALVATION ARMY CONGRESS ON TONIGHT

Commissioner Combs and Maritime Province Officers Will be Present at 29th. Annual Meeting.

The twenty-sixth annual congress of the Salvation Army for the Maritime Provinces and Bermuda will open in this city tonight. The opening meeting will be held in the Citadel on Charlotte street and will be conducted by the provincial and divisional staffs.

About one hundred and fifty delegates will be present from all parts of the provinces. There will be representatives from the various regiments and the meeting promises to be one of great interest.

Major McMillan will give a welcoming address which will be replied to by Brigadier Moreheu, of Halifax, representing the field and staff officers.

In the absence of Lieut.-Col. Turner, provincial commander, Major Phillips, the provincial secretary, will preside. The addresses will be interspersed with singing and instrumental music.

Commissioner Combs and party will arrive tomorrow morning from Newfoundland, where they have just concluded a very successful series of meetings. In connection with the commissioners visit to the island, the Salvation Army schools there were opened by the governor, Sir W. McGregor, who has always shown practical sympathy with the work and aims of the army in that colony.

The commissioner will lead a series of councils to-morrow at 9.30 a. m. and 9 and 7 p. m. in the Citadel. These meetings will be for field and staff officers only.

THE PEOPLE ARE SLOW IN MR. DIXIE'S OPINION

Mr. Dixie was on the fair grounds at 3.45 p.m. yesterday as announced on the 4 o'clock bulletin, where it was also announced that he would have his tea in the dining hall at 6.30, but even this did not effect his capture although many people were watching him at the doors of both the dining hall.

He was dressed in an English grey serge suit with an English pig-tail to match, his coat was one of these "By Jove" cuts with the high cuffed trousers generally worn by a cockney in one hand he held a pair of kid gloves and in the other a very light cane, and on his nose a golden "pin-neck" was fixed, doubtless many people remember seeing this well dressed Englishman during the evening.

No reports were received from him from 6 till 10, consequently no bulletins were hung out between these hours. It might be remembered that this is quite unusual from Mr. Dixie, but he seemed to be bent on not only fooling everybody but also not people who knew him best. He was not even recognized by the Dixie agent himself when he appeared at the booth counter about 9.30 and almost raised a big fight because they had not stocked "Gerth's Mixture" his favorite smoking tobacco.

When met up town at midnight by the agent he told him as much that the public was slow. He had taken in everything on the "pike" and in the amusement hall, and he stayed as long as two hours and a half at one time in the main building.

Fred Kelly thought he had captured Mr. Dixie about 7.30 but when we asked the victim his name he replied: J. M. Appleby, Nauwigewank, N. B. Mr. Lordly of the Lordly Furniture Co., Ltd., captured Herbert Bidder but Mr. Bidder is the head target coon on the pike.

Watch Mr. Dixie to-night. His make-up will not be so impenetrable.

Forest fires were raging the end of last week in a wooded section between Canterbury station and the river. It is reported that they were extinguished before much damage had been done.
