BRITISH LABOR SHOWS AUTOCRATIC MOVE

SHELVES PLAN TO PROVIDE FOR GENERAL STRIKE

Levy On All Affiliated Members Was Proposal

MATTER TALKED

Moderates Argue Projected Change Would Mean Ruin Of Union Movement

SCARBOROUGH, Eng., Sept. 8.—The Trades Union Congress today discussed a resolution proposed by one of the more extreme sections, seeking to give almost autocratic power to the general council of the organization, but eventually it was rejected by the council's consideration.

The resolution declared the time was ripe for power to be given the general council to levy upon all affiliated members, to call a stoppage of work by affiliated organizations in support of any union defending a vital trade union principle, to arrange with a co-operative wholesale society to provide and distribute food in the event of the strike, and to call upon all the organizations to alter their rules in conformity with this position.

Speakers for the moderate section, argued that if the general council was given the power to call upon any union to down its tools without any union being directly concerned in the issue, it would mark the first step toward destruction of the trade union movement.

ROTHESAY CADETS MADE BEST SCORE

Lead Province But Are Not Eligible For Strathcona Prize Award

Special to The Times-Star. FREDERICTON, Sept. 8.—Fredericton High School again have won first prize among the Cadets of the Provinces. This is the fifth successive year that the local cadets have occupied first position.

Following are the corps with the instructor in order of merit: 1st, Fredericton High, J. E. Page; 2nd, Aberdeen High, C. R. Barlow; 3rd, Boys' Industrial Home, E. H. Wiley; 4th, Chatham Grammar, W. J. Duncan; 5th, Normal School, A. L. Ivers; 6th, Hartley Academy, A. L. Barry; 7th, Edmundston High, C. E. A. Proch; 8th, St. Stephen High, H. E. Clements; 9th, Milltown, Raymond Johnson; 10th, Albert School, Saint John, D. V. Pella; 11th, St. Peter's, Saint John, D. V. Pella; 12th, Woodstock High, J. R. Eyles; 13th, King George, Saint John, D. V. Pella; 14th, Grand Falls, E. S. Chapman; 15th, Dorchester Superior, G. E. Scott; 16th, McAdam Superior, A. S. McFarlane, Jr.

NAMED FASCISTI CHIEF

ROME, Sept. 8.—General Prince Marsia Gonsaga has been officially appointed chief of the Fascist militia in the province of Grosseto, where he died August 30.

ADMITS KIDNAPPING BUT DENIES MURDER

Escaped Asylum Inmate Faces Life Term For Slaying of Six-year-old.

FREDERICTON, Sept. 8.—Fire Marshal McLellan, of Saint John, is in the city today, carrying on an investigation into the fire which occurred two weeks ago in F. C. Jewett's grocery store. The investigation is behind closed doors. Only three of 20 witnesses have been examined.

STERLING EXCHANGE. NEW YORK, Sept. 8.—Sterling exchange irregular. Great Britain 48 1/2; France 46 1/2; Italy 30 1/2; Germany 28 1/2. Canadian dollars 1-3/4 of one cent discount to par.

IS FINED \$20 AND MUST REPAIR AUTO

Geo. Douglas Dealt With in Magistrate Allingham's Court After Collision.

WASHINGTON, Sept. 8.—Failure of diagonal bracing was held largely responsible for the Shenandoah disaster in an informal report to Secretary Wilson yesterday by Rear Admiral C. W. Dixon, who made an independent investigation for the navy secretary.

IS FINED \$20 AND MUST REPAIR AUTO

MONCLAIR, N. J., Sept. 8.—Harrison W. Noel, 30 years old, former college student and escaped inmate of an insane asylum, who kidnapped and killed six-year-old Mary Daly because of a craving for \$4,000 in ransom money, seems likely to be ordered confined for life, as were the slayers of Bobby Frank, in Chicago.

FREDERICTON, Sept. 8.—The largest fish taken on a fly at the Hartt Island Salmon Pool this season was caught this morning by Roland Whelan, of Kingsclear. It weighed 23 pounds and was landed after a fierce battle which lasted nearly an hour.

Boy Wins \$1,679 and Cup As Tortoise Wins 25-Yard Race

French, of Ponca City, won second "Pepper's" time for the 25 yards was 1 minute and 15 seconds. Twenty terrapins at the shot of a pistol started their dash when a cage was lifted in the centre of a ring, 150 feet in diameter.

World News In Short Metre

BERLIN—Former Chancellor Wirth left for the United States today to attend the congress of the Inter-parliamentary union, in Washington.

TOKIO—Authorities today announced that five cases of cholera have been discovered in Tokyo. Previously 41 cases were reported at Tokojama.

BERLIN—Dr. Hugo Eckener, head of the Zeppelin works and builder of the Shenandoah's sister ship, the Los Angeles, made the claim yesterday that under German management the Shenandoah disaster would not have happened.

PARIS—The Ministry of War states that it received a dispatch from Syria today reporting that all was calm at Sidon, where rebellious Druse tribesmen have besieged the French garrison.

LONDON—The Central News, Constantinople, reported today, earthquake destruction of three villages in the Thrace district. The following statement as to casualties was lacking.

DUBLIN—Difference of opinion exists among the Free State judges as to "the dress to be worn on the bench. So far since the change of regime, the judges have appeared in ordinary everyday dress, though the baristers continue the use of wig and gown.

OTTAWA, Sept. 8.—Hon. Arthur Meighen Sunday night issued the following statement on the subject of his election pronouncement on Saturday.

"The country will hear with a sense of relief that the Government has at last surrendered to the public demand for a general election.

"The intimation given by Premier King two weeks ago that there were no imperative national considerations necessitating an appeal and that the Government would wait until there were such considerations has been revoked, and rightly so.

"There was no need of elaborating a lot of so-called reasons. The public were aware of good enough reasons already.

"That the country is very prosperous and soon to be more prosperous still.

"That the country is being destroyed by Mr. Meighen's speeches.

"That the Government has enjoyed abundant support and large majorities during this Parliament.

"That because the Government is not a majority in this Parliament it is compelled to 'stand pat' and cannot solve the problems of the nation.

"These contentions destroy themselves.

QUEBEC, Que., Sept. 8.—Spencer Wood was the scene of a unique event last evening, when Lieutenant-Governors from seven provinces, and their wives, gathered there as guests of Lieutenant-Governor Perreault and his daughter, Mrs. McKenna, and were entertained at dinner.

Representatives Will Discuss Questions of Interest to Dominion

WOODSTOCK, N. B., Sept. 8.—The weather was favorable for the opening of the big Fair at 8 o'clock, when Hon. D. W. Mercer, Minister of Agriculture, delivered the opening speech, followed by Mayor Belyea and W. F. Anderson, warden of the county.

The racing should be particularly interesting. For this afternoon the classes are 234 trot stake and 217 trot and pace.

A garden party is planned for today, and the evening the Government of the province is tendering a dinner at the parliamentary club. Conference on questions of interest to the Dominion, will be held by the governors.

THOSE PRESENT. From the west, Mr. Newlands, Manitoba; Hon. W. C. Mackenzie, Saskatchewan; and Hon. W. C. Nichol, British Columbia, are attending the conference. Hon. R. G. Brett, Nelson, was attended by Hon. Harry Cookshott, Ontario; Hon. W. P. Field, New Brunswick, and Hon. J. R. Douglas, Nova Scotia, and Hon. F. R. Hearst, P. E. I., complete the party.

The matters to be discussed have not as yet been definitely announced, but a agenda will be drawn up until the conference meets.

OTAWA, Sept. 8.—Hon. Arthur Meighen Sunday night issued the following statement on the subject of his election pronouncement on Saturday.

"The country will hear with a sense of relief that the Government has at last surrendered to the public demand for a general election.

"The intimation given by Premier King two weeks ago that there were no imperative national considerations necessitating an appeal and that the Government would wait until there were such considerations has been revoked, and rightly so.

"There was no need of elaborating a lot of so-called reasons. The public were aware of good enough reasons already.

"That the country is very prosperous and soon to be more prosperous still.

"That the country is being destroyed by Mr. Meighen's speeches.

"That the Government has enjoyed abundant support and large majorities during this Parliament.

"That because the Government is not a majority in this Parliament it is compelled to 'stand pat' and cannot solve the problems of the nation.

"These contentions destroy themselves.

Montreal Board Of Trade Opposes Grain Rate Action

Notes: Below is the first article received from A. M. Belding, who left Saint John Friday on an active canvass of Canadian importers and exporters in favor of the more general use of Canadian ports by Canadians. Other articles and dispatches will be published by The Telegraph-Journal and the Evening Times-Star as they are received.

BY A. M. BELDING. MONTREAL, Sept. 7.—The Montreal Board of Trade and Corn Exchange are strongly opposed to the action of Chairman McKewen and Mr. Oliver of the Railway Commission in regard to the grain and flour rates from the prairies to Vancouver. The following telegram tells the story.

Dear Sir—I am directed to make application to your Board on behalf of the Montreal Corn Exchange Association under Sections 51 and 59 of the Railway Act, Chapter 68 of the Statutes of Canada, 1919, to rescind Order No. 36789 of September 2, 1925, in the matter of the application of the Province of British Columbia for an order reducing the rates on grain and flour, moving westward for export, to the same rates, proportioned to distances, as the same would apply if moving eastward for export, and for a reconsideration of the case as part of the general investigation.

Neither the Montreal Corn Exchange Association nor the Montreal Board of Trade, of which this Organization is a branch, were notified of the hearing in this case, nor were they given an opportunity of being heard.

Orders-in-Council P. C. 836 of June 5, 1925, directs the Board, among other things, to make a thorough investigation of the rate structures of railway and railway companies subject to the jurisdiction of Parliament with a view to the establishment of a fair and reasonable rate structure which will, under substantially similar circumstances and conditions, be equal in its application to all persons and localities, etc.

Copy of this application is being mailed today to Mr. J. A. Allstair Fraser and Mr. E. P. Flintoff, of the Canadian National and Canadian Pacific Railways.

On Saturday Mr. Smith sent the following telegram to F. C. Cornell, the expert engaged to prepare the case for the Maritime Provinces for presentation to the Railway Commission.

MEMBER of the Montreal Board of Trade said today that the grain rates from the prairies to Montreal were fixed by Act of Parliament, and the present is the first attempt made to extend that basis to any other section of Canada. Once adopted it must in fairness apply to all parts, and he added that the Maritime Provinces would be especially justified in demanding it, because railway operation there is less expensive than through the Rockies.

He pointed out that if the rate fixed by Parliament from the prairies to Fort William were made universal it would make good deal of difference to the Central as well as the Maritime Provinces. The present rate from Fort William and the new rate, to Atlantic ports, based on the new Railway Commission decision would be as follows:

To Montreal Present Rate New Rate 34 1/2c 23c To Portland 35 1/2c 23c To Saint John 35 1/2c 23c

To Halifax the new rate would be a little higher than to Saint John and to Quebec it would be about the same as to Montreal. It is contended here that these new rates set of Fort William must go into effect if British Columbia is to get them, and that railway deficits would result.

Quebec, in view of the decision of the Railway Commission, will be determined than ever to get a low rate over the National Transcontinental. In view of all the circumstances the feeling in Montreal trade circles is that all the rates should be considered together, as Premier Rhodes of Nova Scotia, as Premier Rhodes of Nova Scotia requested, and no decision affecting one part of the country arrives before that is done.

THE Montreal Gazette on Saturday broadly hinted that in its view the decision by two members of the Railway commission, when three other members are opposed, partakes of the nature of politics. At all events, Chairman McKewen and Mr. Oliver are under fire, and a country-wide sensation has been developed.

Commissioner Boyce declares the order was improperly issued, without the knowledge of himself, or Commissioner Lawrence, who had given notice in writing that it was proposed to issue any judgment, they desire to express their views. He says the Canadian National Railways protested that they also had received no notice of complaint, although its revenues would be affected to the extent of over a million dollars.

Commissioner Lawrence says he also was denied the privilege of pronouncing on the matter, as it had been discussed by the full board without action.

Commissioner McLean agreed with Boyce and Lawrence that the whole matter of rates should be considered before any decision was rendered. The Trades and Labor Congress has gone on record as opposed to enforcing minority decisions of the Railway Commission. At time of writing the views of Ontario have not been recorded.

PRELIMINARY WILL BE HELD ABOUT SEPT. 25

Brigid and Chamberlain Plan Meeting Today

Belgium and Italy to Be Consulted Tomorrow In Expectation

GENEVA, Sept. 8.—The Allies definitely decided to invite C. M. de Brouckere, here for the League of Nations meeting, plan to meet with Premier Baldwin of Great Britain regarding the security negotiations with Germany.

PARIS, Sept. 8.—The allied foreign ministers, it was said in official quarters today, have practically decided to meet Foreign Minister Stresemann at Germany at Lausanne about September 25, as a preliminary to the conference of ministers which will attempt to draft a Rhineland security pact.

ALLIES CONFERENCE. GENEVA, Sept. 8.—The British Foreign Secretary, Rt. Hon. Austen Chamberlain, and the French Foreign Minister, M. Briand, here for the League of Nations meeting, plan to meet with Premier Baldwin of Great Britain regarding the security negotiations with Germany.

The statesmen will seek an agreement concerning the desirability of dispatching an invitation to Foreign Minister Stresemann of Germany to attend a preliminary conference to consider the proposed Rhineland pact.

Tonight or tomorrow the British and French ministers will consult with Foreign Minister Vandervelde of Belgium, and Vittorio Scialoja respectively, Italy on the same subject.

MEMORIAL SQUARE IN P. Q. DEDICATED

Many Canadian and U. S. V. Men Attend Ceremony

COOKSHIRE, Que., Sept. 8.—Several hundred residents of this community, including many American visitors, were present for the formal opening and dedication of Cookshire's Memorial Square yesterday afternoon.

The rector of St. Peter's, Major The Rev. R. D. Deane, presided over the invocation.

Address were given by Hon. Jacob Nichol, K. C., provincial treasurer, of Sherbrooke; Brig. Gen. D. C. Draper, C. M. G., D. S. O., of St. John; and Major The Rev. W. H. Hill, of Belvoir; Rev. C. T. Lewis of Bury; Hon. Senator R. B. Pope, Mayor John W. Robinson, R. Cromwell, and Major The Rev. A. W. Buckland, of Cookshire.

35 Fishermen Are Drowned In Typhoon

MAILA, Sept. 8.—Thirty-five fishermen are believed to have been drowned in a typhoon in the Sulia Sea, near the island of Palawan. An account of the tragedy was brought ashore by five survivors, who drifted in a sailboat after battling with a gale for several days.

The Weather

SYNOPSIS—Pressure is comparatively low over the Gulf of St. Lawrence and on the Atlantic Coast, while an area of high pressure has come in over the Great Lakes from the Northwest. The weather has been unsettled with showers in Quebec and the Maritime Provinces, and cloudy to fair in Ontario and the west.

Table with columns: Location, Highest during 8 a.m., Lowest during 8 p.m., Yesterday night.

VIVIANI, EX-PREMIER OF FRANCE, IS DEAD

Was Born in Algiers and Was Government Leader During First War Year.

PARIS, Sept. 7.—Former Premier Rene Viviani died this morning.

Rene Viviani, ex-Premier of France and internationally famous lawyer and statesman, was born Nov. 8, 1863, in the thriving little village of Sidi Bel Abbas, in the interior of Algeria.

He graduated from the University of Paris and immediately began the practice of law in Algiers. He overcame many obstacles to establish himself in Paris, yet his rise was meteoric and he took high rank at the bar and an enviable niche in politics.

His first election to the Chamber of Deputies occurred in 1893, when he was sent from the Department of the Seine, including Paris.

The fateful year of 1914, which ushered in the World War, saw Viviani with the reins of government in his own hands for the first time, after the Chamber had refused to accept a cabinet formed by Alexandre Ribot.

For more than a year he guided the war cabinet, and then continued to take a less active role as vice-president. He retired from the Government Sept. 12, 1917.

Human Eccentricities

(Montreal Herald.) A long list of authors in whom eccentricities were found has recently been published by an inquisitive somebody whose hobby is oddities of human conduct.

Browning shuffled his feet when he sat. Zola would never accept a dinner invitation. Renan wore his fingernails abnormally long. Dostoevski wore corsets.

Dickens was fond of flashy jewelry. Holmes carried a horse-chestnut in his pocket. Hawthorne always washed his hands before reading a letter from his wife.

Regardless of whether "genius is to madness close allied," such eccentricities no doubt could be found in all great men. But if the truth were known would not something just a trifle abnormal be discovered in everybody? Is it not too much to expect that the brain should always be well balanced under the terrific strain to which modern conditions of life subject it?

A Believer in Unity

(Ottawa Citizen.) Baron Byng of Vimy has seen more of Canada in his extensive travels than most Canadians. He knows the physical Canada thoroughly.

In addition he knows the calibre of Canadian men as few have had the opportunity of knowing it. This appraisal he made when commander of the Canadians in France.

With this dual knowledge, he is convinced that Canada, in her men and resources, possesses the essential requirements of greatness. But he sees in the divisions that mark the Dominion certain signs of weakness, which, if they continue to exist, are bound to affect this country's progress.

So he appeals for unity, for a united Canada, united in the cause of peace as Canada was united at Vimy Ridge and upon other battlefields in France in the cause of war.

That his work will bear fruit is assured. Evidence of an improved feeling is already visible and this tendency will be hastened by such inter-provincial meetings as those that have been held between political leaders of the different provinces and that are to be held this year under the auspices of the various boards of trade of the Dominion.

13,000 MILES TO MARRY

LYONA, Kas., Sept. 8.—Robert Riddell and Miss Pearl Wilkinson, journeyed all the way from Dundedin, New Zealand to Lyons, 15,000 miles, to have Rev. Randolph Hallett marry them.

They became acquainted with him when he was a missionary in New Zealand.

How Far Up is Your Child?

Did your youngster fail to be among the leaders in marks last year? Why?

It has been proven over and over again that 60 p. c. of backward children have some large or small Sight defect. Glasses make all the difference.

Even among grown-ups, piece-workers increase their production 28 p. c. to 42 p. c. on adopting Glasses. Their Sight improves and their strength improves when Glasses lift the dragging strain.

Your child may get through school a year or more sooner if you see that its eyes are right.

SAINT JOHN, N. B., SEPT. 8, 1925.

THE ELECTIONS.

THE ELECTIONS. The dissolution of Parliament and the North York speech of Hon. W. L. Mackenzie King, presenting the issues upon which his administration proposes to appeal to the people, give the signal for an election campaign of unusual length, which will occupy the attention of Canadians increasingly from now until the close of the balloting on October 20.

Under the redistribution following the last census, the new House of Commons will contain 245 members, the Western provinces having twelve more seats than they had in the last House, and the Maritimes two less.

Those who are reviewing the prospects of the parties at this time will turn naturally to the results of the last election. In the election of 1921 the fortunes of the parties are shown in the following summary:

Table with 3 columns: Party, Seats, Total. Rows include Ontario, Quebec, Nova Scotia, New Brunswick, P. E. Island, Manitoba, British Columbia, Alberta, Saskatchewan, Yukon, and Totals.

The other three seats were carried by Labor, one in Manitoba and two in Alberta.

In the interval the by-elections have changed the standing of the parties very little. The Conservatives captured Halifax and Kent, so that to-day New Brunswick has four Liberals, six Conservatives and one Progressive; Nova Scotia has fifteen Liberals and one Conservative, and the four Island seats are Liberal. Against this showing must be cited the recent results in the Maritime provincial elections, the hearing of which upon federal affairs is interpreted largely according to the partisan views of those making the survey.

The railway problem, it is evident, will be one of the outstanding issues of the campaign. It presses strongly for solution because of its direct bearing upon national prosperity, and it will tax the ingenuity and the statesmanship of all party leaders. The tariff, the question of taxation reduction, immigration and the status of the Senate are other leading issues, and still others, we may be sure, will emerge as the campaign develops fighting intensely.

THE EXHIBITION.

The Saint John Exhibition is away to a fine start, with every prospect of unusual success. The Labor Day crowd, estimated at 20,000, made up at attendance well up to the highest record in the whole history of the enterprise. While most of those present were Saint John folk there was a great number from all parts of the province, and their comments upon the exhibits, the attractions, and the incidental entertainment indicated a high degree of satisfaction.

The addresses given by Premier-elect Blaxter, Mayor Potts and President Dykeman of the Exhibition Association were heard with keen interest, and were at once optimistic and impressive. Hon. Mr. Blaxter, who lately received such signal honor at the hands of the electors, dwelt upon the immense business importance of the Exhibition, brought home to his audience the extent of our agricultural and industrial activities and their bearing upon our prosperity, and made a very effective plea for buying home products.

He impressed upon the representative gathering the effective ways in which this province can be built up, the first by giving preference in buying to what we ourselves produce, our natural resources and the output of our industries, our shops, our every local enterprise, the second by solving our transportation, questions, and so, gaining access steadily to larger outside markets.

President Dykeman made the welcome announcement that every department of the fair is filled to capacity. The big show deserves the most liberal patronage.

Sir Henry Thornton, who confirms the announcement that negotiations are in progress for the sale of the elevators and the terminals of the C. N. R. at Portland, to the State of Maine, says coyly: "Naturally you would not expect me to say more at this time." If Sir Henry Thornton does not say more, whatever the actual intention is with respect to Portland, the public is entitled to the facts. If the purpose is to continue to handle a great portion of traffic of Canadian origin through the Maine seaport, that must be made known. If the intention is otherwise, the country is entitled to know how that intention is to be translated into effective action, and when.

Sir Henry, in speaking of the Maritime ports, says he would like to feel that the people down here are willing to rely upon the fidelity and patriotism of those in charge of the C. N. R. and give them time to work out the problems involved in the conditions by which they are confronted. He adds that he has again urged upon the Department of Public Works that the work in Courtney Bay be proceeded with, and says he will give further attention to the matter of improvements at the Saint John railway station. The business of trusting and waiting, and relying has been rather onerous, as far as the people of Saint John are concerned. What was long ago required the hands of Sir Henry Thornton was a definite plan for the expansion of C. N. R. business through this port, and evidence that the national system was making every possible effort to do business here.

Something like a storm has brewed about the head of Chief Commissioner McKeown as a result of his decision, reducing the rates on grain and flour for export by way of Vancouver. While British Columbia and Alberta naturally hail the decision with satisfaction, Manitoba is critical. The Winnipeg Free Press criticizes the decision and calls upon the provincial authorities to see to it that loss of revenue to the railways in crossing the Rockies is not made up by increased charges in the Prairie country. The Montreal Gazette savagely attacks the decision, intimates that it savors of politics, and asserts that the British Columbia rates should have awaited completion of the investigation of the whole rate situation from coast to coast. The Montreal Board of Trade and Corn Exchange is reconsidering. The East is disposed to seek corresponding reductions in rates, a question in which the Maritimes are very deeply interested, but the question asked everywhere at the moment is: What will be the effect upon the two railway systems of very great reduction in their revenues? As yet the answer is not available.

A signal honor to Canada is the election of Senator Dandurand as President of the sixth Assembly of the League of Nations. He modestly attributes the choice to a desire to give recognition to Canada rather than to his merits, but his election indicates the extent to which his own personality, eloquence and vision have impressed his associates.

You Can Smell 'Em

(Christian Science Monitor) So America's famous Bean City bids fair to become some day familiarly known as Onion City, if one is to believe the report of Dr. A. E. Cance, head of the department of agricultural economics at the Massachusetts Agricultural College. For Dr. Cance has recently pointed out that Boston's appetite for this delicacy amounts to twenty-five pounds annually for each person—a quantity representing the largest among any of the cities of the United States. Putting it in another form, we read in a newspaper story, "900,000 bushels of onions arrived here each year for the 1,501,230 persons in Greater Boston." This means, it appears, that each individual Bostonian averages a consumption of, for example, eleven pounds yearly, more than the average New Yorker. Dr. Cance, by the way, is the senior author of the "Marketing Onions" bulletin, just published by the United States Department of Agriculture, so that he surely ought to know the facts in the case.

CONSCIENCE FUND George K. Foster, Miles City, Pa., merchant, has reason to believe that the general run of people are honest. In the last 18 months he has received \$84 from conscience stricken customers. The last contribution to his conscience fund was \$20, which had been stolen from his store.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

He Wins (Boston Transcript.) New Canaan, Conn., takes its place among the homes of famous men. It is a citizen who has won distinction by wearing the same collar button for fifty-five years. According to latest returns, he is clearly entitled to the collar-button championship.

A Strike Lacking Strategy. (New York Herald-Tribune.) The public can afford to remain quiet. The situation is uncomplicated by the bituminous and railroad strikes which in previous years have aggravated intricate stoppages; there are large stocks on hand, and there is a much wider knowledge than ever before of the advantages of bituminous, coke and oil as substitutes. The public can afford to remain calm and allow the anthracite industry to work out its own economic salvation. Anthracite is not a necessity of life. Although the exportation is low, all but 6 per cent. of the world's anthracite comes from Pennsylvania, which means that most of the world gets along without it, and that the Northeastern States can do so as well. There is a limit beyond which it will not pay either miners or operators to raise the prices.

Women as Chauffeurs. (New York Sun.) After a series of experiments conducted by the Institute of Government Research, the American Automobile Association has announced that women automobile drivers are just as competent, if not a little more indeed, than men. It has been found that they are likely to err, if they do not maintain perfect control of a machine, on the side of extreme caution. Student groups from George Washington University, both sexes having had a similar period of practice, provided the experiments from which these conclusions were drawn. Two important tests were made of men and women. They were the degree of speed with which the driver reacts to danger and takes steps to avert it and the consistency with which the driver responds under such conditions.

Things that Count. Not what we have, but what we use. Not what we see, but what we choose. These are the things that make or bless the sum of human happiness. The things near by, not things afar. Not what we seem, but what we are. These are the things that make or break. That give the heart its joy or ache. Not what seems fair, but what is true. Not what we dream, but what we do. These are the things that shine like gems. Like stars in fortune's diadems.

First Things First. Uncle Moses Jackson announced his candidacy for Alderman from the colored ward. "What makes you think you can be a successful politician, Uncle Moses?" asked a friend. "Well, sur," replied the dandy, "fo' one thing, Ise the father of a family." "That's very commendable, but what has that to do with politics?" "Well, aub," explained Uncle Moses, "they is sixteen votas in dat family."

No Such Person. Thomas was not a prime favorite with his rich uncle. In vain did he try to impress him, but the old man was not easily impressed. One evening the young man went to his uncle's home for a call, and in the course of conversation, asked: "Uncle, don't you think it would be rather foolish for me to marry a girl who was intellectually my inferior?" "Worse thab foolish, Thomas," was

the reply. "Worse than foolish—impossible." More important. Modern Mother—"Yes, I know the baby is pretty, Auntie, but the question is, has she style?"

Qualified. Father—"I want to apprentice my boy to you." Master Plumber—"Where is 'e?" Father—"He's forgot his references and has gone back home for them." Master Plumber—"Right!—I'll take 'im!"

All Animals. "Every one in our family is some kind of animal," said Jimmie to the amazed preschooler. "I think you should say that," the good man exclaimed. "Well," said Jimmie, "mother's a

dentist. "You say this tooth has never been worked on before, but I find small flakes of gold on my instrument." "I think you have struck my back collar button," moaned the victim.

Service Accuracy. The full value of high-class optical work, is only obtained when the most accurate lenses are supplied, absolutely true to the prescription. An accurate test of the eyes would be worthless if the lenses are not ground to conform with the test. My 25 years of experience enables me to test eyes correctly, and duplicate any lens, no matter who made them for you. (My prices are very moderate). S. GOLDFEATHER, EST. 1877. THROGGATTENDS FOR OPENING OF EXHIBITION

Estimated 20,000 People Were on Grounds on Labor Day

SPEAKERS URGE ENCOURAGEMENT

Hon. Dr. Baxter, Mayor and F. A. Dykeman Speak—Features Reviewed

EMPLOYERS and employees, laborers and clerks, grandfathers and children of all ages from the cradle up, men and women, farmers and city dwellers, a crowd of 20,000 yesterday afternoon and evening pushed its way through the crowded aisles of the Exhibition buildings, swarmed about the shows on the midway, accepted impartially the samples, literature and advertising matter given out, filled the grandstand for both shows, visited the poultry exhibit, cattle barns and other livestock branches and generally made the day a holiday when cares were forgotten and the business of having a good time was all that counted.

The main commercial building had many new exhibits and new displays for some of the old ones. The Natural History Society gallery was well attended during the day by many interested in the collection of curios shown. The art show was closed until 7.15 in the evening but drew a vast attendance after that time. Part of the room was devoted to a showing of the trophies won by some of the local athletes and the rest was given over to the Saint John Art Club exhibit of amateur drawing and the loan collections of Canadian painters.

The free attractions before the grandstand proved highly popular during the afternoon and evening, the stand being filled to capacity with more people desiring admission on both occasions.

PERFORMER MISSING. The act that had been intended as a closer for the bill failed to show up and its absence spoiled the effect of climax planned by the management. The officials announced last night that they were at a complete loss to account for the failure of the performer, Edward Knight, to appear, as they had had a letter from him about a week ago saying that he intended to bring his horse in Maryland on Sept. 21st in order to be here in plenty of time. The opinion that he might be taking the boat from Boston, says goes to St. John's, N.B., was hazarded.

GYMNASTICS GIVEN. The first number was a gymnastic display by the boys of the St. Peter's cadet corps led by Captain D. V. Fallon. They gave a fine amateur tumbling and pyramid display, bringing into use several innovations polished up lately for this occasion. The lads were given a generous measure of applause by the audience.

Wheeler and Wheeler, in a fancy roller skating act, followed and offered a good performance. They were handicapped somewhat by lack of space as they had to use a mat on the platform but showed the skating fans of Saint John something new in the way of moving figures.

The Everett Trio of clowns appeared twice. On their second appearance, in a knockabout skit with stunts on a bounding sheet, they earned more applause than in their first.

Ruth Clayton provided the thrills of the program in her trapeze and ring act on the top of a 50-foot steel mast. She swung by hands and feet on the rings and trapeze and capped her act by a hand-stand on the top of the pole and a whirling glide to the ground down a rope from the top.

Crandall's Brazilian Equestrian Circus held the last place on the card in the absence of Knight, the bicycle rider and diver. In an improvised circus ring on the platform two performers, a woman and a man, gave a fair exhibition of bareback riding, leaping on and off the big white horses as they circled the ring.

The best part of this act was the comedy riding school staged with four young volunteers from the audience. These youths were fitted in a special harness, hoisted on a rig especially prepared to prevent accident and swung onto the horses' backs. Their gyrations and their attempts to cling to the backs of the animals caused a great deal of laughter.

The evening show was capped by the best exhibition of fireworks in recent years. Several new and beautiful ideas were carried out and the only incident marring the show was the accidental setting off of the "Good-night" set piece about the middle of the performance. The piece was ignited when the wind blew some sparks from a revolving apparatus against it.

DR. BAXTER SPEAKS. Appealing to the people to buy at home and sell abroad, and all to work together for the good of Saint John and the Province of New Brunswick, Hon. J. B. M. Baxter, Premier-designate of the province, yesterday afternoon formally opened the Saint John exhibition of 1925. He was addressing a concourse of people that filled the large grand stand and overflowed to the aisles and other standing places, while many hundreds more fringed the circular space in front of the stand.

The opening ceremonies were simple and of interest because of the speakers and the sentiments all expressed. The ceremonial had been set for 3 o'clock and very soon after that hour came a procession of President F. A. Dykeman and the directors of the Exhibition Association to the stand, traversing the space from the main entrance in escort of Hon. Mr. Baxter and His Worship Mayor Potts. Arrived there, the proceedings were at once begun. The speakers spoke from the raised platform in front of the stand, where were seated the members

Officiate At Opening Of Saint John Fair

F. A. Dykeman, president of Exhibition Association presides over exercises.

Hon. J. B. M. Baxter, premier-designate, officiates at ceremonies at Exhibition.

F. L. Potts, Mayor of Saint John, delivers address and welcomes visitors.

of the Faddette's Ladies' Orchestra from Boston. PRESIDENT TELLS OF FAIR. President F. A. Dykeman was first to speak. With the weather fine and the holiday spirit pervading the grounds, he said it was almost an imposition to ask the people to listen to speeches and his remarks would be but brief. It was fitting that the formal opening should be on Labor Day, for it was the culmination of the efforts of the directors and officials for the success of the exhibition. He felt the result of the efforts would speak for itself. It was for his leaders now to pass judgment on those in charge as to whether they had been faithful in the discharge of their duties.

DEPARTMENTS FILLED. Referring to features of the fair, he said that every department was filled to capacity. It was thought at first there would be a small showing in the live animal department but arrivals were so many as to compel them to provide for more than last year. In view of the new portable industries for the province, the directors had thought it well to encourage the production of bacon pork and extra prizes in this department were offered. The result had been very gratifying.

FAIRS AREN'T ALIKE. People were wont to say that the exhibitions were all alike. Perhaps to the superficial observer that seemed so, but to the one who went beyond a casual glance at this and that there was a marked difference and improvement from year to year in the quality of stock exhibited and the nature of the industrial, they would find a great improvement this year in the dairy department. The Made-in-Saint John exhibit was 50 per cent. better than that of 1924 and a close study of what Saint John manufacturers were making would serve to dispel the gloom that seemed to be in the minds of some here in the last year or two. Mr. Dykeman closed with an appeal to the people for co-operation by their sympathy and their attendance. He then introduced His Worship Mayor Potts.

PLEASURE TO SPEAK. His Worship said it was a pleasure to speak at the opening of the Saint John Exhibition and to see that the weather was so auspicious for the Labor Day ceremonial. It was refreshing to those who labored to come to realize the manufactures of this city and many no doubt did not know the variety of articles that were made here. He said that if the people in general realized the amount of gratuitous work done by those responsible for the exhibition they would not envy them their positions.

His Worship again counseled the people to buy at home. Looking at the exhibits they should make up their minds to help the good cause, to help those who worked and to buy first Saint John goods, then those of the province and of the Dominion.

FAITH HELD JUSTIFIED. Hon. J. B. M. Baxter, the last speaker of the day, said it seemed a pity to keep so many of those attending from enjoying the displays of the exhibition which were of more than usual interest, and so he would not speak at length. He would like to emphasize the thought expressed by the previous speakers that the faith of the Exhibition Association had been fully justified in making this an annual event. The seemingly almost record attendance on the first day showed that the Saint John fair did not pay lip religion.

He spoke of the possibilities lying in the exhibition. If those who viewed it were content to say this was a nice exhibition and that was wonderful and another splendid it seemed to him that the point was missed. As they looked over the agricultural department it was something to remember that, while some of the New Brunswick farms were small, in the aggregate they added \$35,000,000 a year from the soil to the wealth of the province; the fisheries nearly \$5,000,000 and the forest wealth \$25,000,000. Agriculture led, but the others were important. He did not have figures of the industrial life. He felt it was for all to try to devise some way in which production in New Brunswick could be extended in every possible direction.

TWO COURSES OPEN. The first way and the best way was to say to themselves they would have what was made in New Brunswick, other things being given second choice. That was the most effective way to build up the province. The second way was to find out where New Brunswick markets for the products of the province, then grow and build and expand from this. In the line of agriculture it need not enough to feed themselves. Transportation, and cheap transportation, was a great help to agriculture, to the fisheries and to other lines of industry.

DECLARES FAIR OPENED. Buy at home and sell abroad, he said, meant advance but it was necessary that all work together for Saint John and the whole province. And with this

thought of unity, enterprise and faith in ourselves, he declared the exhibition opened for the enjoyment and interest and development of the thought of the people.

At the conclusion of the address of Hon. Mr. Baxter, Clive Dickson led the large assemblage in the singing of O Canada, to the sympathetic accompaniment of the Faddette's orchestra. The specially outdoor performance was then begun by the performers brought here by the Exhibition Association.

MANY HEAR ORCHESTRA. The Faddette's women's orchestra from Boston, proved a great attraction indoors, crowds filling the gallery of the south wing to capacity and hanging on the rail four, five and six deep throughout the three indoor concerts given by this organization.

The time between the evening concerts was agreeably filled by little Miss Wilhelmina Flett, who gave a violin solo accompanied by her sister, Miss Rosella Flett. The Made-in-Saint John exhibit in Machinery Hall was well patronized during the day. The exhibit contained a good many remarkable displays and served to drive home to the public some idea of the scope of manufacturing in the city.

MANY AMUSED. Many of those in the crowd about the grounds got a great deal of amusement through watching those on the whip and the caterpillar and noting the expressions on their faces when they went around the wide, fast sweeps in the former or when the cover was lifted in the latter.

An effort was made by the management to do away with the congestion of would-be ticket buyers at the grandstand entrance. The offices were kept open for an hour after the afternoon show and were reopened an hour previous to the evening performance. The people failed, however, to take advantage of the plan and it was decided in future to have one of the offices open all the time between the two shows.

The dairy, agriculture and floriculture shows in the wing of the main building attracted many sightseers. Judging was commenced in the cheese and butter classes and will probably be completed this morning.

The livestock and poultry houses were filled with a steady throng of visitors and comments on the good quality of the animals on exhibit were general. The poultry judging was started yesterday and the cattle and other classes will get away to a start today.

Weddings

Belyea-Wilcox. A pretty wedding was solemnized in St. Jude's church, West Saint John, on Monday evening at 8 o'clock when Rev. J. H. A. Holmes officiated at the marriage of Miss Annie Geneva Wilcox, daughter of Mr. and Mrs. J. T. Wilcox, of City Line, and Ronald Almond Belyea, son of Mr. and Mrs. Milton Belcher, of West Saint John. The bride was decorated with flowers and ferns by the girl friends of the bride and the marriage was performed under an arch from which was suspended a floral ball. The bride, who was given away by her father, looked lovely in a white crepe de chine dress with crystal trimmings, bridal veil and orange blossoms and carried a bouquet of Columbia roses. She was attended by her sister, Miss Mary Wilcox, who wore a rose satin dress and black picture hat with rose trimmings and carried a bouquet of sweet peas.

The groom was supported by Colby Beattie. As the bridal party entered the church the choir sang "The Yoke That Breathed O'er Eden," and while the register was being signed sang "O Perfect Love." Miss Lorna Cochrane was the organist and played Mendelssohn's wedding march as the bridal party left the church. Wilson Evans and William Bennett acted as ushers and the dining room was tastefully decorated with pink roses and pink candles. White ribbon streamers extended from the chandelier to the neatly appointed set table, which was centred with the bridal cake and vases of roses. Mrs. E. P. Cliff and Mrs. Marshall McAllister poured. Mrs. C. M. Belyea, Mrs. Wilson Evans, Miss Hazel Belyea and Miss Charlotte Wilcox served. Both young people are very popular. The groom is assisting in the management of the grocery business conducted in the North End by his brother, C. M. Belyea.

Mr. and Mrs. Belyea will postpone their honeymoon trip until a later date on account of the illness of Mr. Belyea's brother. The bride until recently was a member of St. Jude's choir and is a teacher in the Sunday school. Numerous and beautiful gifts were received, including silver, cut glass and linen. The gift of the bride's parents was a walnut bedroom suite and a substantial check and a dining room suite of antique oak from the groom's parents.

Shortly after 9 o'clock Monday evening a short distance beyond Renfrew station, there was a collision between a car with license plate 18207, registered in Miss Thorne's name, with a car driven by a Mr. Baker. The Thorne car was rolled over an embankment in a three foot drop. The two passengers

SESSIONS RESUMED BY SUNDAY SCHOOLS

Good Attendance of The Pupils Following Shut-down For Summer.

Sunday schools which had been closed for the summer months reopened in the city on Sunday with a good attendance of pupils and some of the congregations which had united for services during the summer had services conducted by their own clergymen in their own churches. Several of the uniting congregations will not separate until next Sunday. On last Sunday Rev. W. J. Williams, Hamilton, Ont., conducted the services for Knox and St. Matthews congregations, Rev. David Hutchison occupied his former pulpit in Main street Baptist church.

IN ST. COLUMBA. Rev. W. M. Fraser, of St. Andrews, was the preacher in St. Columba Presbyterian church, Fairville, on Sunday evening and the morning services in the church was conducted by Evangelist George Knight. Rev. W. M. Townsend, minister of St. Columba, was the preacher for the congregation of the Presbyterian church in Canada services in the Church of England Institute.

The morning service at the Church of the Good Shepherd in Fairville was conducted by Rev. John Uss worth, curate of St. John's (Stone) church, and the evening service by Rev. K. Taylor McKim, rector of St. Mary's church. Rev. F. J. LeRoy, rector of the Church of the Good Shepherd is in ill health but was reported yesterday to be improving.

Deaths

W. H. Davidson. At the age of 16 years, Whitfield Harris Davidson, eldest son of Mr. and Mrs. Harris Davidson, of East Saint John, passed away on Sunday afternoon at 8 o'clock at the General Public Hospital, having been ill for a short time suffering from appendicitis. He was a very bright lad and very popular with his young associates and was generally very highly regarded. He was a member of the Edith avenue Baptist church and assistant scoutmaster of the Boy Scout Troop No. 6 in East Saint John. He was a pupil of the East Saint John school and making excellent progress with his studies. The sympathy of the community has gone out to the bereaved. He leaves his parents, two brothers, William and Beaumont, and two sisters, Audrey and Bessie, all at home.

Miss Sadie L. Watson. The death of Miss Sadie L. Watson occurred on Sunday at the residence of

her uncle, Maurice Cavanaugh, at Little River, after a lengthy illness. She had resided for the most part of her short life with her uncle, Mr. Cavanaugh and aunt, Miss Elizabeth Cavanaugh, and was greatly beloved by all who knew her. Her father, John Watson, and her step-mother, arrived yesterday from their home in Brewer, Me., and besides her father she is survived by two brothers and three sisters residing in Brewer. The funeral will take place on Wednesday morning at 9 o'clock from her uncle's residence to the Stella Maria church.

Marjorie L. Titus. Much sympathy is extended to Mr. and Mrs. Raymond Titus, 163 Britain street, in the loss of their infant daughter, Marjorie Leonore, who died on Monday morning after an illness of one week, at the age of five weeks. Besides the parents one sister survives.

William A. Driscoll. Much sympathy will be extended to Mr. and Mrs. Daniel Driscoll, 71 Queen street, West Saint John, in the death of their second son, William A. Driscoll, which occurred on Sunday at the General Public Hospital. Besides the parents three sisters and one brother survive.

YARMOUTH, Sept. 7.—The death occurred at the home of her parents, Mr. and Mrs. Horace Rankine, Arcadia, on Sept. 1, of their daughter, Miss Helen, after an illness of five years. Miss Rankine was twenty-two years of age and, besides her parents, she leaves four brothers, Albert, in Everett, Mass.; Fred, of Malden; Kenneth, in Medford, Mass., and Lloyd, of the firm of Porter and Robbins, Yarmouth. The funeral was held from the home of her parents Friday afternoon.

2 Killed, 3 Injured As Train Hits Auto

MONTREAL, Sept. 7.—Mrs. A. Auclair, of Ville St. Pierre and her baby are dead; Mrs. A. Guerin, of Lacelle is in a critical condition and not expected to live; and the husbands of the two women are in hospital. Mr. Guerin at Montreal, and Mr. Auclair at Hawkesbury, Ont., as a result of a collision between a eastbound Canadian National train and an automobile, containing the five persons noted, on level crossing at Rockford, Ont., near Ottawa this afternoon.

Fashion Exposition Autumn 1925 WEDNESDAY AND FOLLOWING DAYS

Autumn, which finds nature in her gala dress, puts a zest for new clothes into the heart of every woman. Haven't you felt the urge already? Then you'll be delighted with the wearables that have been assembled here from the best style-centres of the world. You are invited to view them.

Fur Trimmed Coats Subscribe to The Flare. "Flares" would probably be more correct, for rare is the smartly turned out coat of this autumn that does not gaily flaunt at least two flares. You will like these coats the minute you see them, but your real surprise and pleasure will come when you try them on. They are so becoming in their dashingly rippled lines and soft, alluring fabrics.

Among the colors favored by fashion for autumn are rich Copper Shades, Wine Reds, Black Prince, Harvest Browns, and plenty of Blacks.

Frocks Are Delightful And Moderately Priced. Handsome frocks of lustrous satin or soft crepe-de-chine are autumn's own with their slightly molded bodices and their graceful lines darting out at the side or back in youthful gaiety. They are so varied in their trimming and so vivid in their coloring that it is difficult to choose—however, it's very pleasant! For Dress, for general utility, for afternoon or for evening you'll find many models that will meet with your idea of style-rightness.

Smart Tailored Suits In Black and Navy. Fall is the time for tailored suits and NOW is the time to select the one you will wear this autumn. New varieties here now offer pleasing choice. Coats are longer than for previous seasons, reaching almost to the bottom of the trim tailored skirt. Long slender sleeves are an important item and new neck lines that conform nicely to the needs of fashionable fur neck pieces are worthy of note.

Accessories Are Important. There's an art in choosing the correct accessories—and yet the choice is limited. The most tastefully dressed women wear, for instance, the slip-on glove in neutral shades of suede. Hose are often light in color and very glossy. A soft little scarf, colorful perhaps, is knotted smartly about the throat. Let us show you these. Also newest Purases, Furs, Lingerie and Jewelry novelties.

Just Imported Prediction of the return of more elaborate styles in Evening Wear is confirmed by our latest importations which we are anxious to have you see. They Will Be on Display Tomorrow. Make it a point to see them early for there is no telling how many of them will be selected by noon.

Orchestral Program Wednesday 10 to 12 am 3 to 5.30 pm.

No "hills or valleys" rob you of rest The thrifty Slumber King never sags

Do you go to sleep hanging on to the edge of your bed and waken cramped down in the middle?

Examine your spring. If it is a steel-fabric type, probably stiff wires tie its steel strips together. Weight on any one drags the others down. Then see the Slumber King. Four

rows of sensitive coil springs join its 26 rustless steel strips. On both sides are heavy border strips and cables. These exclusive features stop sagging in the center and at the edges.

No other similar spring built yields so much comfort yet costs so little. Study it, test it and you'll buy it.

CALAIS CHILD DIES IN AUTO ACCIDENT

Car Runs up on Sidewalk Pinning Youngster Against Pole.

ST. STEPHEN, Sept. 7.—An automobile swerved to avert a collision with the six-year-old son of Mr. and Mrs. Roy Cookson, of Calais, Me., was almost instantly killed at the corner of Barker and Swan streets, in Calais, at about noon today. The car, owned and driven by Roy Daggett, of Pembroke, Me., had swerved to avert a head-on collision with another car which Daggett had seen only a few feet away. In the quick as he turned the corner, the quick turn Daggett's car ran up on the sidewalk striking the young boy, who is believed to have been leaning against a post. It broke the post in two. The lad's head was practically severed from his body and death was instantaneous.

Having Love For One's Work. (Calgary Herald.) An Eastern newspaper quotes a school teacher as saying, after retiring from forty years of service with a wealth of happy experiences: "For one who loves it, teaching is a

Stop ACID DECAY it destroys Teeth

Adopt this safe and Pleasant way to Prevent Tooth and Gum Troubles

It is at The Danger Line—those tiny V-shaped crevices where teeth meet gums—that food particles collect and ferment, forming acids which lead to Acid Decay. Pyorrhea, loss of teeth, lowered vitality—all may result from infection due to Acid Decay. You can prevent Acid Decay—and reduce the peril of Pyorrhea—by using Squibb's Dental Cream, made with Squibb's Milk of Magnesia. It is the sure, safe means for protecting teeth and gums at The Danger Line. For Milk of Magnesia, from which Squibb's Dental Cream is made, has long been recognized by physicians and dentists as the safest and most effective product known for neutralizing the acids in the mouth which form at The Danger Line. The regular use of Squibb's Dental Cream protects the health of the entire mouth. Progressive Canadian druggists now have Squibb's Dental Cream; get a tube to-day and use it regularly, morning and night. SQUIBB'S MILK OF MAGNESIA—The Standard of Quality—From which Squibb's Dental Cream is made—is recommended by physicians everywhere. It may be purchased in large and small bottles from your druggist. If you have not used Squibb's Milk of Magnesia, we urge you to try it and note its delicate superiority.

SQUIBB'S DENTAL CREAM

London Comment on Supremacy in Matter of Big Finance

Divergent Views in Labor Party - Topics They're Discussing in Empire Metropolis.

Correspondence of The Times-Star. LONDON, Aug. 20—Since the war, the talk has been constantly of New York ousting London as the world's financial centre.

How long the Labor Party as at present constituted can carry on without shedding either its head, its tail, or its midriff has puzzled a good many people.

LORD D'ABERNON. Our Berlin ambassador, handsome, debonair Lord D'abernon, received a shower of 68 birthday congratulations yesterday.

BACK AGAIN! There is a serious moral in the return to our London streets of an old horse bus said to have started its career in 1837.

Searching

HE does it every evening when his father comes home. What he hopes most to find is a package of Life Savers—those wholesome candy mints with the hole.

They're great for children. Hard, you know. Wonderful flavors. Good for little tummies; safe for tiny teeth. You can be generous with them.

Quick Safe Relief CORNS

Dr Scholl's Zino-pads

Put one on—the pain is gone!

The joy a letter gives

FRENCH ORGANDIE Writing Paper

Vaseline Household Necessity

Vaseline PETROLEUM JELLY

CERTO Concentrated Fruit Pectin

the positive furor of popular amazement aroused by this horse bus does suggest how rapidly the wheels of life spin nowadays.

DEFIANT SEA LORDS. A naval authority suggests to me that in fulfilling the economy bargain they struck with Mr. Churchill when they defeated him over the cruiser programme the other day the Sea Lords are metaphorically making rude ges-

tures at the Treasury. First they insist on cutting down allowances that closely concern the comfort of the fighting men in the fleets, without laying a finger on the civil staff at the Admiralty, though that is now much bigger than when the British Navy stood at swollen war strength.

according to my weighty informant, the scrapping of torpedo repair ships. In making this decision the Admiralty is not really saving money at all.

handicap on Lord Jellicoe's Scapa Flow command. What the Sea Lords have done, therefore, is to make unpopular economies, and those bound to be made up again at the first opportunity.

FEARS OF THE FRANC. The French Government is very anxious to believe that the weakness of the franc during the last few days is a

matter of no importance that will promptly but itself right. The City of London and business men in France do not share this cheerful view, and there is now a general belief that a serious break is coming very soon.

the heavy autumn maturity of bills without inflation in some form or other.

man for the excellent purpose, not of actually playing for hire on the streets in competition with out modern jugglers, but of touring London with parties of genuine sightseers, who really want to remember what they see.

There must be thousands of people who would love a ride across London on top of an old horse bus, so the revival may extend its scope a little. But

The link that binds friendship

Note Dated Sept. 1—Italian Navy Sends Party to Rescue

PARIS, Sept. 6.—A despatch to the Journal from St. Raphael says that a bottle containing a message, pencilled on a sheet of paper and dated September 1, signed by Lieutenants Smythe and Brandt, saying they were wounded and starving on an island near Cape Corca, the northern point of the island of Corsica, has been picked up by an Italian torpedo boat destroyer.

LIKELY NEXT WEEK

Hon. Mr. Baxter Expects to Take Over Government Then.

Hon. Dr. J. B. M. Baxter, K.C., Premier-designate of New Brunswick, said last night that he had no definite information as to the date on which he would be sworn into office, but he believed that it would be some time next week. He said that he did not expect to be Premier when he officially opened the Fredericton Exhibition on Saturday of this week.

LUCK IN CLOVER LEMPSTER, N. H., Sept. 6.—Mrs. Nina Thurber now thinks that good luck will follow her all her days. She was spreading clothes on the grass near her home when she noticed an unusual looking patch of clover. She examined it more closely and found 39 four-leaf clovers, four seven-leaf and 111 five-leaf clovers.

Documentary Treasures Seen At Archives Fair Exhibit; Deal With Maritime History

ORIGINAL parchment, manuscripts of great interest and value and some with famous autographs, and many volumes, all dealing with New Brunswick as Maritime Province history, are displayed in the exhibit of the Dominion Archives at the Saint John Fair.

Among the original documents is a plan of Saint Andrews made in 1784 for the Loyalists, which was part of a report sent to John Wentworth by Charles Morris, who had the unassuming title of "Surveyor-General of Woods in the Province of Nova Scotia, and All Other His Majesty's Territories in America."

ASKED FOR PRIZE MONEY.

A petition on behalf of the militia at Liverpool, N. B., for a share in the prize money of the United States schooner Dolphin, amounting to \$297 66, \$44.4, a petition by Francis Peabody and others in 1862 to Sir Thomas Peabody and others in 1863 to Sir Thomas Carleton for a grant of land on the "Tablantac," as the Tablantac River was then spelled, a book containing general and district orders for the forces in New Brunswick from 1800 to 1818; the record book of the Supreme Court from 1782 to 1809; the New Brunswick Supreme Court and Superior Court cost book from 1782 to 1809; an assessment schedule for the Parish of Sackville in 1847; the rate book of the Parish of Fredericton in 1840; and an original document dealing with the war of 1812, which appears to be the diary of an officer, complete the documents shown in the first case.

IN SECOND CASE.

A bound copy of the first volume of the Royal Gazette and New Brunswick Advertiser, one of New Brunswick's earliest newspapers; a New Brunswick Almanac of 1812; the "Story of the Great Fire of 1877" in Saint John, and a photostat copy of the Sackville Town Books of 1762 to '84 are shown in a second case. The photostat copy shows

PLANS ANNOUNCED FOR CENTENARY

Special Services at Saint John's (Stone) Church Beginning on Friday.

The completed program for the centenary celebration in John's (Stone) church will be received from the printers shortly. The celebrations commence on Friday of this week which is the exact date of the dedication 100 years ago. Special services will be held on Friday and on the two following Sundays. On Friday there will be a celebration of Holy Communion at 10.30 a.m. and a special service in the church in the evening. At the evening service Rev. L. Fleming, the rector, will give a review of the church's history. The corporation of Trinity church will attend in a body, representing the mother parish from which St. John's was formed. There will also be present the corporation of St. Mary's church to represent the daughter parishes and the corporation of the granddaughter parishes of St. Bartholemew's in Coldbrook and All-Saints in East Saint John.

SCHOOL HOUSE FOR TEA

FRANKLIN, N. H., Sept. 6.—An old school house, built by Daniel Webster's father, has been sold by the city, and now is used as a tea room.

OLDEST CIGAR STORE

LANCASTER, Pa., Sept. 6.—This city claims the oldest cigar store in America. It has been in business here since 1770. The store is a treasure house of relics. It contains the first bathtub in Lancaster county, more than a century old.

BEE STING KILLS MAN

AMERICUS, Ga., Sept. 6.—Walter Knox, 82, died here as the result of a bee sting. Physicians believe his system was in unusually bad condition and that the sting must have carried more than the usual poison carried by a bee.

NEW TOOTH AT 79

OLATHE, Kas., Sept. 6.—Folk were astounded when E. Hunsinger, 79, and the town's blacksmith, walked down the street, stopping acquaintances and showing them a new wisdom tooth he had just cut. Hunsinger had been toothless for six years.

Parliament Dissolved; General Election Set For October 29

Where 14 U. S. Airmen Lost Their Lives

Here's close-up picture of the middle section of the giant ship Shenandoah, taken shortly after it crashed to the ground near Ava, O., early Thursday morning, resulting in the death of 14 men. The struts and network of steel supports were crushed. Scores of farmers and town-folks, seen in the picture, rushed to the scene of disaster and assisted in disintegrating the dead and the injured. This exclusive picture was taken to this city by auto, airplane and fast mail through special arrangements made by NEA Service and The Times-Star.

OCTOBER MARITIME PARLEY TO CONSIDER REPAIRS FOR DOMINION

P. E. L. People Interested in Seaboard Development; Want Wider Markets For Produce; Farmers' Achievements Inspire Visitors, Says Belding

By A. M. BELDING "In the hearts and minds of the delegates who assembled in this room on Sept. 1, 1864, was born the Dominion of Canada. Providence being their guide, they builded better than they knew. This tablet is erected on the occasion of the fiftieth anniversary of the event."

GORDIAL WELCOME

A warm welcome awaited me at Summerside, where we arrived just in time to attend the banquet tendered by the Summerside Board of Trade to the Federated Boards and the Institutes, which had been in session all the afternoon. One of the first to greet me at the Victoria Hotel was J. E. Brennan, of the Summerside Journal, whose editorial I had met many years ago at a press convention and excursion, of whose members, once well known in provincial journalism, there are but two or three survivors.

HYNDMAN'S ADVICE

President Hyndman of the Associated Boards of Trade had urged in his annual address that the committees to prepare data for the October conference be appointed at once. Premier Higgins of the Maritime Board was also active in the matter, and there was thus created a deeper interest in what I had to say concerning the situation in its local and national aspects, and in relation to the coming national conference. I had intended addressing the Rotarians on another subject, but was requested to report the substance of my remarks at Summerside; and as the press gave very full reports, the citizens generally had the whole matter of Maritime and national conferences brought to their attention.

"RAILROAD" REPORT

The copy of a prospectus of the St. Andrews and Quebec Railway of 1859, shown in the third case, and the signatures of Hon. W. Chipman and J. W. Lawrence. The printed report of Joseph Howe to Rt. Hon. Lord John Russell on the Government of British America has the signature of its famous author, but the name is spelt "How."

LETTER FROM GOVERNOR.

A letter from William Shirley, Governor of Massachusetts Bay, to His Grace the Duke of Newcastle, which is dated 1748, gives an account of the siege of Louisbourg and other operations against the French settlements of Cape Breton. This is the second oldest of the Archives exhibits, being surpassed in longevity only by a pamphlet report of a thanksgiving sermon by Thomas Prince in South church, Boston, on July 18, 1748, for the taking of Louisbourg. This pamphlet was printed in 1748.

THROUGH FINE COUNTRY.

J. R. Barr, formerly on the staff of this newspaper, with some accounts conveyed me by motor car from Borden to Summerside. The fortunate man who gets the young lady at the wheel as his chauffeur for life will not be long loitering by the wayside. We journeyed through a delightful country where harvesting was in progress, with every evidence of a rich crop. The island has good roads, but is somewhat handicapped by an utter absence of gravel pits. At several points the roads over a surface of gravel that had been imported from New Brunswick. That, of course, is an expensive covering.

"For Ten Years"

"Each summer my last and principal shopping on leaving Halifax has been to purchase chocolates to bring to Boston with me. Will you kindly inform me if there is any agency here for the best chocolates made? I refer to Moire's." Very sincerely yours, H. H. MacDONALD

PREMIER ANNOUNCES CHANGES IN CABINET

In York Speech Defends Liberal Administration and Gives Four Reasons Why He Feels People's Mandate Needed.

RICHMOND HILL, Ont., Sept. 6.—Parliament is dissolved Addressing his constituents or North York here Saturday afternoon, Premier King declared his intention to appeal to the polls and announced that His Excellency the Governor-General had dissolved Parliament, from 3 p. m. Saturday, and that October 29 was fixed for the date of polling. Many cabinet changes and Senate appointments were indicated by Hon. Mr. King.

THORNTON CONTRACT RENEWED.

Premier King announced also that Sir Henry Thornton's contract as president of the Canadian National Railways had been renewed for a further period.

In his speech, the Premier dealt at length with the record of his administration. He cited four reasons why he considered there should be an appeal to the polls—the necessity of dealing with the problems of transportation, immigration, fiscal questions, and the Senate.

After thanking the voters of North York for the support given him, Premier King said that under the election act his government could hold office until February, 1927. He cited cases where Conservative governments had held office to the full limit and sometimes beyond. He expressed his belief that his government held the confidence of the electorate, as they had, after contesting by-elections, larger majorities than when he assumed office.

While it was true they had a majority, it was not large enough to properly carry out the policies of the government and he felt the time had come to ask the voters to express their approval of the acts of the government and give them a sufficiently large majority to carry on to better advantage. He criticized Hon. A. Meighen, and said the speeches of Mr. Meighen were one of the main factors in delaying prosperity of the country.

The speaker had been told the country was not asking for a general election at the present time, and he believed this to be true, but a contest must come in the next year and a half and he had asked himself the question, "What is better for the country, an immediate appeal and get it over with or a prolonged uncertainty and a continuance of deterioration to which they had been subjected?"

Another reason for making the appeal to the country now was the important national problems which had to be faced and which could not be solved unless the government of the day had a substantial majority behind it. "That brings me to a consideration of these outstanding national problems of the greatest importance. The transportation problem, the problem of immigration, and the fiscal problem. To these I should like to refer first, the constitution and powers of the Senate, can see no solution of the problems of taxation, no means of reducing materially our public debt, our income tax, our sales tax and other taxes, apart from a satisfactory solution of the four problems here mentioned, all of which are inter-related and in more ways than one inseparably intertwined."

NEW HOUSE NEEDED.

"May I say further, I believe each of the problems mentioned is a pressing one. I do not believe that any one of the four can be dealt with effectively at a last session of Parliament. They can only be satisfactorily dealt with by a House of Commons fresh from the people to carry out their will. I would say further, I do not believe that any one of the four can be dealt with effectively by a Government which is not supported by a substantial majority in the House of Commons."

INTERESTED AT 86.

Mr. McCready, at 86 years of age, contributes a daily column of bright comment to the Guardian, and is as keenly interested in public affairs as he was 40 years ago. He had many questions to ask of the Premier after the elections, the federal outlook, old friends in Saint John and journalistic changes of recent years; and the time was taken for a conversation of great interest. In the Guardian office also I had a word with J. R. Burnett and D. K. Currie, and found that the staff of this newspaper lay great stress upon what these provinces must do for themselves if they would win through to prosperity and stop the drift of population to other parts.

CAR SEAT OFFERED.

At the close of the banquet Premier Stewart and Mrs. Stewart kindly offered me a seat in their motor car to the quiet and beautiful brooding in the darkness on either side.

JOINT ACTION SOUGHT.

Mr. Stewart believes that in regard to certain institutions joint action to provide one for the three provinces might be desirable, as it would materially reduce the overhead and other expense. There had also been a suggestion that one set of school books for the three provinces would reduce the cost of printing to a considerable extent. It is worth noting in this connection that uniformity of study courses for public, secondary and normal schools in Manitoba, Saskatchewan, Alberta and British Columbia occupied the principal place in the agenda of business of a conference of educational representatives opened in the Legislative buildings at Edmonton last week.

INTERESTED AT 86.

Mr. McCready, at 86 years of age, contributes a daily column of bright comment to the Guardian, and is as keenly interested in public affairs as he was 40 years ago. He had many questions to ask of the Premier after the elections, the federal outlook, old friends in Saint John and journalistic changes of recent years; and the time was taken for a conversation of great interest. In the Guardian office also I had a word with J. R. Burnett and D. K. Currie, and found that the staff of this newspaper lay great stress upon what these provinces must do for themselves if they would win through to prosperity and stop the drift of population to other parts.

EXPERIMENTAL FARM.

My departure from the Guardian office was hastened by the arrival of Mr. Boulter, Secretary for Agriculture and Deputy Minister, who was accompanied by A. E. Dewar, president of the Potato Growers' Association. They took me to the Experimental Farm, which is just outside the city, and where we were joined by the superintendent, J. A. Clark, and shown over the farm. Rich fields, with growing crops of all kinds, and where every kind of experiment in growth is made, along with the study of plant diseases, were inspected, as well as the pens where egg-laying contests for the Province have been conducted with growing success for nine years.

FLOWERS DISPLAY.

The display of flowers in the gardens is beautiful beyond description. Time did not permit of a thorough inspection of the farm, but enough was seen to make it clear that in Superintendent Clark the province has a servant who knows his task and takes real pride in its performance. There are eight demonstration farms in the province, and through their agency much is done to enlighten the farmers on matters relating to field crops and live stock. At the Rotary Club luncheon, at which J. W. Boulter presided, the members of the committee listened to my story revealed their deep concern over the national situation in its relation to the Maritimes, and individual expressions of this interest were conveyed to me at the close.

Secretary Boulter then took me in his car for the run across the Island to Borden. It was a ride never to be forgotten, because of the loveliness of the pastoral scenery, the remarkably abundant crops all along the way, and the fine farm buildings

GREAT BRITAIN AND THE UNITED STATES

The electorate has shown within the very recent past that it wishes no more of either form; that what each believes the existing situation requires is a national party representative of all parts of the country sufficiently strong in the representation it sends to Parliament to ensure the carrying out by the Government of its plans and policies.

C. N. R. IMPROVEMENT.

"In the actual operation of the Canadian National Railways, there is marked improvement. As was the case with the public accounts of the regular Government services, operating deficits have been changed into surpluses during the period of the present administration.

"The figures are as follows: "Balance of account of operating expenses for calendar year 1920 were: Deficit \$84,832,701.76. Calendar year 1921: "Balance of account of operating expenses for calendar year 1921, surplus \$20,711.45. Calendar 1922, surplus \$20,480,640.05. Calendar year 1923, surplus \$17,244,861.45. Total surplus three years, \$40,881,912.11.

"I am informed on the best of authority that unless something wholly unforeseen happens, the surplus on operation account of the Canadian National Railways this year will exceed last year's.

TWO SOLUTIONS POSSIBLE.

"There seems to be two possible solutions of the railway problem in Canada:

"1.—The amalgamation of the Canadian Pacific and Canadian National Railways under some equitable scheme which would reasonably protect the proprietors of both systems. (2) The continuance of the two systems as separate entities but with the interlocking of their financial and operating accounts of a sufficient degree of control over both systems to eliminate waste. Of those who advocate amalgamation, the believers in private ownership of railways would absorb the Canadian National Railways in the Canadian Pacific.

HOW LACK OF STATIC BEAT KING'S YACHT AT COWES REGATTA

News of the regatta was being broadcast through 2-L-O, the British Broadcasting station, and guests on the Shamrock were listening through a superheterodyne receiver, the announcement said. A sudden squall blew up and soon grew alarming. On the King's yacht the crew were soon shortening sail, and the skipper of the Shamrock was giving the same order to his men when Mr. Johnson intervened. The signals from Station 2-L-O were coming in quite clearly, evidence that no static existed. Because there was no static, Mr. Johnson turned to Sir Thomas and said: "Don't shorten sail; wait while the air is clearing and the storm is passing. It won't reach us."

"Don't shorten sail; wait while the air is clearing and the storm is passing. It won't reach us." "Don't shorten sail; wait while the air is clearing and the storm is passing. It won't reach us." "Don't shorten sail; wait while the air is clearing and the storm is passing. It won't reach us."

It was a progress through a rich country, of undulating surface, without any rocky hills, but yet with almost continuous movement up one slope and down another, through a well watered region where enough trees are left in the fields to beautify the whole landscape. As we rode Mr. Boulter told me much about the growth of the co-operative spirit and the efforts being put forth to find new ways of sending out their products in a more finished state.

At the Summerside meeting the Hon. Mr. Myers, Minister of Agriculture, who made a very striking speech before the Maritime Board of Trade last year, declared that not for years has the province had better crop prospects than this year. The visitor who traverses any portion of the Island will not be disposed to question this estimate.

The small blow over, as Mr. Johnson predicted, and the Shamrock had gained such a lead in the interval that she was able to beat the Britannia, so the story goes, thus showing that a weather prediction based on the behavior of the radio was justified.

PREMIER ANNOUNCES CHANGES IN CABINET

York Speech Defends Liberal Administration and Gives Four Reasons Why He Feels People's Mandate Needed.

Continued from Page 8.

There is another aspect of the railway problem which, I think, is equally important, in some respects, it is a parallel aspect. I mean the position of the Canadian Pacific Railway Company.

Both have been recognized as competing systems, but also have been dealt with by the government as great national enterprises, deserving of like impartiality of treatment at the instance of the state.

As I have always contended, as you know, that government ownership of railways should be given a fair trial.

That obligation has been fulfilled, and Sir Henry's services retained for a further period. I think it will be generally conceded, that we have the right man in the right place, and that the government has acted wisely.

not establish some system of railway control. Why should not considerable saving be effected by running rights being granted by each railway to the other, over its lines where traffic is light?

How a policy of regulated or controlled competition is to be brought about, is a matter of detail, and details are a matter for parliament.

As respects railway rates and charges, we inaugurated, as you know at the last session of Parliament, a policy of equalization of rates, the task of effecting equalization being assigned to the Railway Commission.

What I want to make clear, and repeat at the moment, is that we have no problem more urgently in need of solution than the railway problem, and without its solution there is little or no chance of reducing our national debt, and the income and other taxes.

I have mentioned that the railway problem is only part of the problem of transportation; there is the problem of transportation by sea, as well as by land, of ocean rates as well as railway rates.

While Sir William Peterson's death has occasioned some delay and alteration in the Government's plans, it has not altered the Government's intention to cope with the problem, nor has it in any way lessened the magnitude of the problem itself or the necessity of finding some effective means of safeguarding the interests of producers and consumers against the possible manoeuvres and exactions of a powerful shipping monopoly.

Already the wisdom as well as the necessity of Government action is becoming more and more apparent. The intention is unaltered.

policy had its origin in the Government's attempt to find a means of cheaper transport to the British market of our cattle and other products and merchandises.

How closely allied the problems of transportation and immigration are will be apparent in a moment's reflection. The one without the other is incapable of a satisfactory solution.

Are the prophets of despair to be put in charge of the administration of the country's affairs? We need, at least, men who have faith in Canada, men who are not continually decrying the conditions under which they live.

deputy speaker of the House of Commons, has accepted the portfolio of minister of immigration and colonization. Under his able and energetic direction, we may look for immediate and important developments in this branch of the government's policy.

DUTIES REDUCTION.
"We have already given substantial evidence of our resolve to carry out our policy of reduction of duties as the instruments of production and of our ability to do so in a manner which, whilst of immediate benefit to consumers, and producing a large, calculated, to prove of benefit also, and not of injury to the industries most concerned."

"The Robb budget of 1923, was comparable to the Fielding budget of 1907, in what it affected by way of tariff reductions, with unmistakable advantages to the great basic industries of agriculture, lumbering, fishing, and mining, and consequent benefit to all industry deriving its raw material and its markets from these sources."

"Our fiscal reforms have not stopped there. Another feature of our policy has been the encouragement of export trade by means of the encouragement in particular of inter-imperial preferential trading in a manner which will help our ports and railways. By giving a discount of 10 per cent of the preferential rate of duty on goods entitled to the British preference and the conditions we have attached to other preferential treaties, we have practically the entire trade with the Mother Country, and sister Dominions, to our own ports, much to their benefit, and to the benefit of our railways as well."

"We have removed the sales tax in whole or in part, from a large list of commodities in the nature of the necessities of life and on all implements of production, and we have made not a few other tariff reductions. Whilst being careful to have regard for existing conditions and the well-being of established industry and trade, we have moved steadily in the direction of freeing industry and the consuming public from a burden of taxation they would otherwise have had to bear."

BEARING ON RAIL PROBLEM.
"Our policy of reducing duties on the implements of production in the basic industries has an immediate bearing upon the railway problem and the problem of immigration of which I have just been speaking. All industry is a process of the transformation of raw materials, by the aid of capital and labor, into commodities and services available for human use. Whatsoever increase the quantity, or decrease the cost of production of the raw material is assisting all the other processes of industry, is assisting trade at home and abroad, and is of direct benefit to producers, and consumers alike."

"Let me say a word about national policy, the N. P., so-called, of the days of Sir John A. Macdonald, and the national policy of today. The national policy of the days of Sir John A. is what Mr. Meighen says he is today advocating—a policy that will establish home markets. Stop for a moment, and consider the position of Canada, and of industry in Canada, in 1879, when Sir John introduced the N. P., and today. It was with a view of helping to draw these provinces and territories together that Sir John stressed the need for home markets, and proclaimed the national policy as a means to that end. Today, it is world markets even more than home markets, that Canada needs, and Sir John A. were he living at this time, would be one of the first to proclaim them."

STATUS OF CANADA.
"Canada is no longer an aggregation of loosely-knit communities, feeling their way from a colonial status into the consciousness of nationhood; it is a nation within the community of nations which we call the British Empire, a nation in the League of Nations, holding an acknowledged position in world affairs. We have no longer stretches of railways unconnected and process of construction, we have the two largest systems of railway in the world. Our trade on the Pacific Ocean bids fair to rival our trade on the Atlantic. We reach Europe as well as the Orient via the gateway of the Pacific."

"A national policy of today is not a policy which will give Canada a place in her own eyes. It is a policy which will give Canada a place in the eyes of the world. It is a policy not of home markets, but of world markets."

ing in or corresponding with the very officials who under the proposed arrangement will come to the permanent members of the board.

TO GET WOMEN'S VIEWS.
"We have felt that in tariff and taxation matters, the views and opinions of women have been so largely ignored, that the needs of the home have not received the consideration that was their due, that no one perhaps is better able to speak for and to safeguard the interests of the consumer than one who is in a position to gather and to present the points of view of the woman in her home, with her special knowledge of family needs. We intend, therefore, to have representation given to the women of Canada on the advisory board."

"I believe the people should be given an opportunity to pronounce upon a policy as far reaching as that which is involved in this method of dealing with the tariff, and other problems of taxation. That is another reason why I feel the time of a general election should not be postponed."

SENATE TROUBLES.
"I come now to the fourth of the reasons I have mentioned why an appeal should not be delayed. I have spoken of the difficulties with which the present Government has had to contend through not having a majority in the House of Commons. Our difficulties, unfortunately, have not been confined to the Commons. We have, in fact, been face to face with a Senate chamber politically hostile to our own, and one that has not hesitated to make its hostility known and felt on innumerable occasions. I need not enumerate the many measures that have passed the Commons only to be thrown out or emasculated by the Senate—measures of social and moral reforms, of restriction of gambling, of railway aid, of relief to Home Bank depositors, of extension of rural credits, measures of special concern to returned soldiers, to labor and to others."

"To amend the constitution and the powers of the senate, two steps are necessary. The senate itself must be a party to the reform recommended, and the imperial parliament must act. It is reasonable, I think, to assume that before the imperial parliament would enact the necessary legislation by way of amendment to the British North America Act, it would expect on a matter of this kind, an address from both houses of the Canadian parliament. It is as reasonable to assume

He didn't have the energy to fight
LOST . . . another big order . . . the fourth defeat that day. All because he didn't have the energy to fight when his prospect said "No." Something had blunted his senses and stolen his strength. What was he coming to?
That "something" was constipation, the world's most universal disease. What a shame so many people suffer from constipation when there is really such an easy, pleasant, sure way to bring permanent relief—the regular use of Kellogg's ALL-BRAN—two tablespoonfuls daily; or in chronic cases, with every meal.

KNOW THE TRUTH ABOUT BRAN.
To be effective, bran fiber must go through the various digestive processes without submitting to any of them. It must pass through the entire alimentary tract without its form being changed. After the saliva has acted upon it, it passes through the stomach and into the intestines, where every part which is not fiber is absorbed. In ALL-BRAN the quantity of fiber is so great that it furnishes bulk enough to prevent and relieve constipation. In a part-bran food, the quantity of fiber is so small that there is only a puffy amount to do a haphazard task. ALL-BRAN brings sure results. Demand it.

that upon such an address from both houses, it would not hesitate to act. There are two ways of bringing about between two houses the matter of an address to the imperial parliament; one, the indirect method of summoning a conference of representatives of all the provinces of the Dominion, and seeking at such a gathering to obtain unanimity of view with respect to the amendments of the constitution and powers of the senate, the other the appointment of senators prepared to support senate reform. An agreement reached at such a conference, if introduced in the form of a resolution, would scarcely fail to pass both houses.

TO CALL CONFERENCE.
"As is known, the government has declared its intention of calling a conference of the provinces to deal with the question of senate reform. Mr. Meighen is asking why the conference has not yet been called. I shall give

him the answer. It is that the conference should be preceded by a general election at which the reform of the senate is a principal issue, in order that its deliberations may be influenced by the known will of the people."

ISSUE UP TO PEOPLE.
"That is another reason why I think an early election is advisable. I have undertaken if the government is in office, to see that the conference of the provinces will be held before another session of parliament. It will be for the people at a general election to make their will and wishes known. The conference method at its best is reform from without. There still remains need for action endorsing the conference proposals on the part of the senate itself. That, with respect to some who are at present members of the Upper Chamber, is more too certain. What is required is to reform the senate from within, not from without."

PROVIDENCE AIDS PARTY.
"In this great and good work Providence has been aiding the Liberal party. When we came into office the Tory majority was 26. At the close of the last session of parliament it was 22. Yesterday it was 23. Today,

Reform from within can be effected only by making certain of the presence in the senate of a sufficient number of members who can be relied upon to support and carry through that chamber whatever measure of senate reform may be sent from the Commons as a part of government policy."

SCIENCE AND EXPERIENCE PRODUCED THIS GAS RANGE
EXPERIENCE taught McClary's the needs of gas users. Science showed how to meet these needs. The result is McClary's Gas Range—a range in which all the requirements of gas cooking are met—a range which incorporates every quality that makes for fast, efficient, satisfactory cooking.

If you cook with gas, cook with McClary's Gas Range. Its beauty of design lends enchantment to the kitchen. It gives a lifetime of service, makes cooking a pleasure and insures results that repay your investment a hundredfold.

McClary's GAS RANGE

I am happy to say, it has been reduced to 18 through the appointment within the past 24 hours of eight senators each of whom has expressed his intention of supporting whatever measure of senate reform the present government may submit in furtherance of its policy to bring the constitution and powers of that body more into accord with the spirit of the time in which we live.

Built to combat wear—Fairbanks Globe Valves
The disc and seat in Fairbanks Globe Valves are specially constructed to combat wear. Sediment and scale which lodge on the ordinary flat seat and score the disc cannot lodge on the rounded seat of Fairbanks Globe Valves.
A very superior composition disc is being used in these valves which resists wear. Moreover, the metal of the disc holder is spun over the edge of the disc. Thus the disc cannot break and clog the pipe line.
The integral disc and disc holder can be renewed in less than a minute.
These valves are strong, heavy and well proportioned. Can be packed under pressure when wide open.

Death from Starvation!
That's the Fate that Awaits Every Moth-Worm that Tries to Live on "Sani-Bilt"
IN their search for a method of a permanently mothproofing furniture, a group of scientists and industrial chemists discovered that moth-worms need a certain food element called "Keratin," which is present in wool, feathers, fur and many other materials. Without "Keratin," a moth-worm could not live. It is as vital to them as milk is to a baby.
Remove the "Keratin" or make it unobtainable, and moth-worms could not live on mohair, wool, feathers, fur and other materials that moths use for food.
These men found it useless to use poison. Liquid arsenic, for example, soon dried into a powder and evaporated into the air. Other poisons lost their strength in time and left the "Keratin" still there and the materials an easy prey for moths.
But patience was at last rewarded. After years of study and research, a chemical compound was found that changed the "Keratin" and made it useless as a food for moth-worms. Not being able to eat the "Keratin," the moth-worms could not exist on materials treated with this compound.
This chemical compound and the process of applying it to the materials not only changes this "Keratin" into an unobtainable element, but it can never change back again to "Keratin." Thus, fabrics and fillings given this process of moth-proofing are forever mothproof. As long as the materials last, they are permanently mothproof. Death from starvation awaits any moth-worm, that by any chance, happen to get on any material mothproofed by this process.
Furthermore, this mothproofing process does not injure materials in the slightest. It is colorless, odorless and does not change the appearance or feel of the fabric.
If you are invited to buy other mothproof suits, just ask these questions:
1. Are they mothproofed by a poison?
2. Are the fillings as well as the coverings mothproofed?
Remember, poison wears off or evaporates. Death by starvation—the Snyder process—is the only permanent method. Also, remember that the fillings must be mothproofed, as well as the coverings. Merely spraying bug poison is a make-shift.
Look for the Snyder "Sani-Bilt" trademark under the cushions, also the Guarantee Tag attached to each chesterfield and chair. Then, you'll make certain of permanently mothproof upholstered furniture.

Snyder's SANI-BILT LIVING ROOM FURNITURE
Guaranteed Moth Proof
Features:
1. Permanently mothproof.
2. Fresh, clean, new fillings, thoroughly sterilized. No old, second-hand or renovated fillings used.
3. Double cone spiral springs and more springs than ordinarily used.
4. Strong, substantial frames of Canadian hardwood.

MERGER REPORT
A GAIN LIFTS
ASBESTOS PRICE

Thousand Shares Change
Hands, Up 3 1/2—Brazilian
Most Active Stock.

RISE IN QUOTATIONS
FEATURE WALL ST.

Pierce Arrow Common and
Preferred Both Reach
New High Records.

Canadian Press.

MONTREAL, Sept. 8.—Following the announcement during the holiday that Asbestos Corporation was willing to enter a merger with six other asbestos companies, the common stock opened this morning up 3/4 at 94 1/2, providing the feature of the early trading on the local stock market. Nearly 1,000 shares changed hands within the first 10 minutes, the price fluctuating violently from the first quotation of 91 1/2, from which it strengthened to 92. The preferred was entirely neglected. The most active stock was again Brazilian, with a turnover of more than 2,500 shares. It eased to 7 1/2. Dominion Textile and Price Bros. were both firm on good demand, the former rising to 88, up 1/2, and the latter to 82, up 1/2. Dominion Bridge gained 1/2 to 98, while Canadian Salt was up 1/2 to 184 in a single board lot transaction. The only other price changes occurred in Winnipeg's Rail and Montreal Power, which were off 1/2 at 40 and 6 1/2 to 208 respectively. Consolidated Smelters sold unchanged at 120.

IN WALL STREET

NEW YORK, Sept. 8.—Rising prices characterized the resumption of stock market trading, after the double holiday. Pierce Arrow common and preferred opened at 44 and 94, respectively, both new high records for the year, and initial gains of 1 to 3 1/2 points were recorded by Allis Chalmers, Chrysler, R. H. Macy, Dupont and Sears Roebuck. American Can was heavy.

WINNIPEG GRAIN MARKET.

Table with columns: To 12 noon, High, Low, Noon. Includes October wheat, December wheat, etc.

Morning Stock Letter

NEW YORK, Sept. 8.—The stock market had a very sharp break on Tuesday and Wednesday of last week and then recovered sharply. The reaction was caused quite a sharp up-turn. Because of the holiday there was a reaction in the street, we believe there will be some attitude made this week to lower prices again. Bears had counted on firming of money rates during this month as a factor in helping them lower stocks, but indications now point to continued ease in money for the immediate future. On weak spots we believe a number of stocks can be bought, including most of the rails, some of the steels, copper, specialties and the food oils.

LIVINGSTON & CO.

Gun cotton is made by soaking pure cotton in a mixture of equal parts of nitric and sulphuric acid. Its explosive power is said to be 50 times that of gun powder of equal weight.

Graduates In Work
Of Y.M.C.A. For Boys

Clarence M. McCully, secretary of boys' work in the Y. M. C. A. here for the last two years, returned during the week-end after a vacation at his home town, Petticoat, following a graduation course in boys' Y. M. C. A. work at the summer school, Lake Couchiching, Ontario, a point on the lake opposite Orillia. At the summer school there were 136 students from various parts of the Dominion and the maritime provinces in attendance included also Earle Wilson, of Truro, Wentworth Smith and George Walker, of Charlottetown, and Alexander McDachter, of Glace Bay. Mr. McCully was the only one to complete a several years' course. He is now a full-fledged professional Y. M. C. A. worker and graduated honorably.

EIGHT NAMED TO
GO TO SENATE

Announcement of Cabinet
Changes Also Is Made
at Ottawa

Sir Henry Thornton re-engaged
as C. N. R. Chief at In-
creased Salary.

OTTAWA, Sept. 6.—New appointments to the cabinet were announced last night:

G. N. Gordon, Deputy speaker of the House of Commons, becomes Minister of Immigration and Colonization.

G. H. Boivin, Liberal member for Shefford, is appointed Minister of Customs and Excise.

Lucien Cannon, Liberal member for Dorchester, becomes Solicitor-General.

Herbert Marler, member for St. Lawrence-St. George, enters the cabinet without portfolio.

As expected, Hon. James A. Robb becomes Minister of Finance.

Sir Henry Thornton has been re-engaged as president and chairman of the Canadian National Railways at an annual salary of \$65,000. This is an increase of \$15,000. The new contract runs for a period of three years.

Ministers retiring from the cabinet are:

Hon. Jacques Bureau, former Minister of Customs and Excise.

Hon. H. S. Beland, former Minister of Health and Soldiers' Civil Re-establishment.

Right Hon. W. S. Fielding, former Minister of Finance.

NEW SENATORS

New appointments to the Senate are announced as follows:

Hon. Jacques Bureau and Hon. H. S. Beland, for Quebec.

John Lewis and Hon. Charles Murphy, for Ontario. Mr. Lewis was formerly chief editorial writer of the Toronto Globe.

W. A. Buchanan and W. P. Lessard, for Alberta.

J. J. Hughes and Creelman McArthur, for Prince Edward Island.

THOMAS VIEN NAMED

The appointment of Thomas Vien, former member for Lotbiniere, in the House of Commons, to the vacancy on the Board of Railway Commissioners, is announced.

The following judicial appointments have been made:

H. M. P. Desroches is appointed judge in Saskatchewan.

J. E. Thompson, James E. McGlade, James L. Killoran are appointed county court judges in Ontario.

JUDGING AT DOG
SHOW IS BEGUN

Alf. Delmont Welcomed to
Bench Show as Judge
of Canines

"Lady Nero" Completes Points
For Championships in St.
Bernards—Results.

With a record entry list of 225 canines and an attendance of 1,800-2,000 visitors, the seventeenth annual dog show of the New Brunswick Kennel Club got away to a good start yesterday afternoon at the Exhibition. Five classes, St. Bernard's, Newfoundland's, Pointer's, English and Irish setters were judged yesterday afternoon and evening. Alf. Delmont, of Wynnewood, Pa., is acting as judge of all breeds at the show and was greeted by many old friends on his arrival in the city. Mr. Delmont judged the 1915 show of the N. B. Kennel Club.

AMONG HONORS

In the St. Bernard's class, E. F. Jamieson's "Lady Nero" completed her points for a championship. E. S. Buchanan's "Donald B." carried off the honors in the Pointer dogs' classes, while Allan McAvety's "Princess Eva" captured premier honors in the Pointer bitches. G. B. Taylor's champion "Barney Byng," a veteran of the show ring and 11 years old, took first place in local dogs and bitches in the Irish setter entries.

The following is a detailed account of yesterday's judging:

ST. BERNARDS (ANY COAT)

Open Dogs. Winners dogs, "White's Express," H. C. Green; reserve, "White's Dispatch," H. C. Green.

Open Bitches. Winners bitches, "Lady Nero," E. F. Jamieson; special, "White's Express," H. C. Green; reserve, "Queenie," Mrs. In. Donavan.

NEWFOUNDLANDS

Winners dogs, Champion "Native Rover," T. E. Rising.

Novice and Open Bitches. Winners bitches, "Lady," R. L. McPherson; special, "Native Rover," T. E. Rising; reserve, "Lady," R. L. McPherson.

POINTERS

Puppy Dogs. 1st, "Speculation," Robert Orr.

Canadian Bred Dogs. 1st, "Donald B.," E. S. Buchanan; 2nd, "Jimmy," F. G. Wilson; 3rd, "Jerry," James Latimer; 4th, "Bun," J. Stanley McMillin.

Novice Dogs. 1st, "Speculation," Robert Orr.

Limit Dogs. 1st, "Donald B.," E. S. Buchanan; 2nd, "Jimmy," F. G. Wilson; 3rd, "Jerry," James Latimer; 4th, "Bun," J. Stanley McMillin.

Open Dogs (55 and Over 55 Pounds). 1st, "Jimmy," 2nd, "Jerry," winners dogs, "Donald B.," reserve, "Jimmy."

Puppy Bitches. 1st, "Flo," H. Chadwick; 2nd, "Brownie," Mrs. William Rostrom; 3rd, "Jess B.," E. S. Buchanan.

Canadian Bred Bitches. 1st, "Princess Eva," Allan McAvety.

Novice Bitches. 1st, "Brownie."

Limit Bitches. 1st, "Princess Eva," 2nd, "Flo."

Open Bitches (Under 50 Pounds). 1st, "Princess Eva," 2nd, "Patch," J. A. Scott; 3rd, "Ridgeway Starter," J. A. Robertson.

Open Bitches (50 and Over 50 Pounds). 1st, "Flo," winners bitches, "Princess Eva," reserve, "Patch," special, "Ridgeway Game Feather," Keltie Wilson.

Local Dogs and Bitches. 1st, "Bun," 2nd, "Flo."

ENGLISH SETTERS

RIVER CRUISE
WAS BIG SUCCESS

Forty-Eight Boats Take Part
in Outing Over
Week-End

Sunday Service Held at Jenkin's
Cove—St. Mary's Band
Assisting.

The Saint John Power Boat Club cruise to Jenkin's Cove on the Belleisle during the week-end was one of the most enjoyable the club has yet held. There were 48 boats on the cruise with Commodore James Barnes and F. M. McKelvie in the lead and a number of the Royal Kennebecs Yacht Club sailing boats accompanying the power boats. The fleet left Indiantown on Saturday afternoon at 3 o'clock and arrived at Jenkin's Cove about 7 o'clock in good time to attend the picnic social in the local hall. St. Mary's Band went along and furnished greatly enjoyed music during the cruise. George F. Jenkins extended cordial hospitality and provided sleeping quarters for the band, his assistance being very greatly appreciated.

CHURCH PARADE

On Sunday afternoon the open air service was held on Mr. Jenkin's grounds and St. Mary's Band led the church parade of the club members and the visitors from the wharf to the grounds. People had assembled from great distances, many coming from as far as Gagetown and the parade extended for about a quarter of a mile with men, women and children all joining in. The service was conducted by Rev. M. Woodworth, Baptist student of that district.

In the evening there was a sing song on the wharf with the band playing the accompaniment. Special selections included a vocal duet by Bruce Holder and Harold Friars, a vocal solo by Douglas J. Thorne with Miss Gregory accompanying, and a violin solo, "In the Garden of Tomorrow," by Bruce Holder with the band accompanying. Four large bonfires were built and the sing song continued until a late hour. The D. J. Purdy made a special trip to the Cove on Sunday, arriving at 1 o'clock and its crowd of passenger

helped to swell the attendance at the service.

BASEBALL GAME

A ball game between teams of the handmen and the club members at Jenkin's Cove went 11 innings to a two all tie and had to be called because of the sun affecting the eyes of the players.

The boats returned to the city last night and, arrived at the club anchorage at Marble Cove by 10 o'clock. On the return the speeder boats waited for the others at Boat's Head and the

whole fleet moved in procession into Indiantown Harbor. St. Mary's Band was on board the Nashwaak which followed directly behind the commodore's boat and the band played the cruise home.

INSTINCT OF BIRDS

Sparrow hawks and other birds of prey usually make their attacks with a quick plunge. For this reason many birds build their nests in thorns and thick bushes so if the enemy plunges he is liable to kill himself against a thorn.

TO SALVAGE PART OF WRECK

CALDWELL, O., Sept. 7.—Portion of the wreck of the navy dirigible Shenandoah will be salvaged for study, planning future airships.

HE PUTS 'EM TO SLEEP

An inventor in Cheshire, Eng., produced a machine which is said to throw a series of twelve differently colored light rays across the insect's flight's face, putting him to sleep in 15 minutes, the inventor claims.

Saves so much Suffering

when you have ABSORBINE JR. handy in the medicine cabinet. If the younger children develop Toothache, Ear-ache or Sore Throat in the night, a little ABSORBINE JR. will soothe and relieve and send the sufferer off to sleep. It scalds and relieves—a cut finger, burnt hand, sprained ankle, bruised arm, wrenched shoulder or bleeding cut—apply at once.

It prevents infection, soothes the pain, starts healthy healing, and is a dependable "first aid" for any injury. It does not grease or stain bandages—has a clean, aromatic odor that freshens up a sick room.

GERTRUDE EDERLE
ABANDONS PLANS

Fails to Swim English Channel
and Returns to the
United States

CAPE GRIS NEZ, France, Sept. 8.—Gertrude Ederle has abandoned her plans to swim across the English Channel this year. She will sail for the United States Saturday aboard the Cunard liner Mauretania.

Since Miss Ederle collapsed in mid-channel about a month ago, during an attempt to negotiate the channel she has continued training, but unfavorable weather conditions finally compelled her to admit there was no chance of success until next year.

Of the dozen or more swimmers who challenged the channel from one shore to another this summer, not one got across.

Col. Benard, Cyril Freyberg, an Englishman, came closest to success August 4-5 when he was removed from the water one and one-half miles off the English coast after 16 hours and 40 minutes swimming.

Among other swimmers who tried and failed were Jane Sion, of France, and Lillian Harrison, of the Argentine.

STRIKE COLLAPSE DENIED

HULL, England, Sept. 7.—Addressing the striking seamen at a meeting here last night, several speakers denied that the strike was collapsing, as had been stated.

Toronto Mother Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicine, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one."—Mrs. HARRY WESTWOOD, 543 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine blessing is proof of its great merit. Why not try it now yourself?

Associated Gas and Electric Company

Public Service to 2,000,000 Population with 300,000 Consumers in 900 Communities

Sections Served Include: Rich agricultural sections of central New York State

Extensive coal and industrial areas of western Pennsylvania

Diversified manufacturing and residential areas in New England

Portions of New York City now experiencing rapid development.

Tobacco and cotton producing sections in Kentucky and Tennessee

Growth of Business Since 1920

Includes all properties for entire period. Growth of Company through acquisition of new properties has been much more rapid.

Four Factors that Merit Attention

1. Stability of Earnings of the Associated properties is provided through: (a) geographical distribution of properties in 11 leading eastern states and the City of Manila and (b) unusually large variety of enterprises served ranging through almost the entire list—agricultural, industrial and mining.

2. Steady Growth. Gross earnings since 1920, as graphically shown above, have increased nearly 50%, number of consumers 65% and net earnings 140%.

3. Conservative Financial Structure is reflected in the policy of building for the future by restricting issues of underlying securities and maintaining a substantial excess of earnings over interest requirements.

4. Management. The board of directors is composed exclusively of men connected for many years with the various phases of public utilities; operations are under the supervision of the well-known and experienced personnel of The J. G. White Management Corporation.

CONSOLIDATED EARNINGS (Including Subsidiary and Affiliated Properties Now Operated*) 12 Months ending May 31, 1925

Table with columns: Gross Revenues, Operating Expenses, Maintenance and Taxes, Net Earnings, Bond Interest, Preferred Dividends of Subsidiary and Affiliated Companies and Annual Interest Requirements of Secured Bonds, Balance. Values range from \$24,165,807 to \$4,552,772.

* Based on 100% ownership of common stock of Pennsylvania Electric Corporation. ** Includes deduction for minorities' net earnings, but excludes Federal Income Taxes and Depreciations. Balance as above equals 4.14 times annual interest requirements of 320,000 Option Warrants, \$35 Paid, and Convertible Debenture Certificates.

The Company is now offering rights to its stockholders to purchase 65% interest Bearing Option Warrants, \$35 Paid, each warrant carrying 1/4 share of common stock. These Warrants when fully paid entitle the holder to the option of either a Debenture Bond or Preferred Stock. Information about the securities of the Company on request.

MONCTON PLAYS WATER DEPARTMENT HERE TOMORROW NIGHT

MAY OPEN THE FINALS HERE ON SATURDAY

City League Champions To Play Return Game In Moncton Friday

THE Moncton A. A. A. team, winners of the series with the Cardinals, will play the Water Department team, City League champions and winners of the series over Sussex, in the first game of the semi-finals of the New Brunswick senior amateur baseball champions here on the East End grounds on Wednesday night, according to an announcement this morning by W. E. Stirling, vice president of the M. P. B., in charge of the play-offs. The game is carded to start at 6.30 o'clock in an effort to try and get in nine innings.

Under present plans, the locals and Moncton will clash in their second game on Friday night at Moncton and provided the Watermen clean up both games as they are favored to do, the first game of the series for the New Brunswick title will be played here on Saturday afternoon with Bathurst, who enter the final round by virtue of an easy win over Charlottetown yesterday. The Cardinals have not been decided yet and the issue is put up to today's game at Westville. A win for Bathurst will give them the title while a loss would tie up the series and necessitate a fifth and deciding game.

BEAT CARDINALS. The Watermen's stock to win the provincial title was given quite a boost yesterday when they defeated the Moncton Cardinals, finalists in the Moncton city series by a score of 17 to 0. The Cardinals made the M. A. A. team play good ball to beat them and the easy manner in which the locals disposed of the Cardinals led many fans to believe the locals will clean up the Moncton series in straight games.

NELSON'S GREAT WORK. At Moncton yesterday, Earl Nelson, pitching for the Saint Johns, struck out 18 of the M. A. A. team, winning the game 2 to 0. The morning game went to the M. A. A. by a score of 4 to 0. Nelson worked on the phenomenon. He allowed but two hits and with faster fielding these might have been gathered in. The game went the full nine innings. Nelson walked only one man. The Royals star suffered a bit of tough luck soon after his arrival when some youths stole his club-bag, containing his glove and his ticket for the closing banquet on Thursday night. The Moncton police were notified and have the matter under investigation.

MONCTON MEET

Longest, Fern Aubrey and Just Tramp Winners on Opening Day.

MONCTON, Sept. 7.—Longest, Fern Aubrey and Just Tramp were the winners of three classes in the harness races on the local speedway this afternoon. The Summary 218 Class. Dominion Champion, 1925

One year ago, "Beef" Malcolm was an unknown quantity in track athletics. One day last June at Rothsay he was persuaded to pick up the 165-pound shot and try it. Since then, he has been the most promising Canadian athlete they've uncovered in years.

MODEL YACHT RACE ACCEPTANCE OF CUT

The Saint John Model Yacht Club has arranged for a programme of races on Lily Lake this evening starting at 7 o'clock. Yachts of 50, 40 and 30 inch classes will sail, and if possible there will be a race for "C" class boats.

SPHOON SHOOT HELD

The M. D. No. 7 Permanent Force Rifle Association held a spoon shoot on the range yesterday morning. C. P. O. I. Hurst and Staff Sergeant Cowan tied for "A" class spoon and in the shoot-off Sergeant Cowan won the "B" class spoon was won by Sergeant Brown and Sergeant McEwen captured the "C" class spoon.

SATURDAY GAMES

Table with columns: Team, Won, Lost, P.C. National League: New York 10, Philadelphia 10, Philadelphia 10, 14 12 2. Brooklyn 8, 9 0 1. Second game—Brooklyn 4, 9 1 1. Pittsburgh 6, 14 2 2. St. Louis 5, 11 2 2. Chicago 6, 10 0 0. Cincinnati 0, 6 1 1. American League: Philadelphia 0, 6 1 1. New York 6, 9 2 2. Boston 7, 10 1 1. Detroit 6, 12 4 4. Cleveland 4, 9 2 2. Chicago 8, 13 8 8. International League: Reading 9, 10 0 0. Second game—Reading 4, 11 2 2. Jersey City 8, 10 2 2. Rochester 2, 4 2 2. Toronto 3, 9 0 0. Second game—Rochester 1, 3 0 0. Toronto 2, 7 1 1. Syracuse 1, 3 0 0. Buffalo 18, 12 2 2.

TORONTO LEAFS ARE SCANT TWO AND ONE-HALF GAMES BEHIND ORIOLES

NEW YORK, Sept. 8.—From a sprint for the championship, the American League pennant race within two weeks has turned into a triumphant Washington march. The Athletics now trail in the dust of twelve straight defeats, nine full games behind the Pirates, Mack's team on its home field yesterday, lost to Washington twice, 3-1 and 7-6. After a masterful pitched opening game by Walter Johnson, the Senators mugged blows with the Athletics in a slugfest and came out on top when the Quaker infield crumpled.

Second Game Is Set For Tonight

The St. Andrews and Sons of England teams will play a soccer football match on the Allison grounds this evening starting at 6.30 o'clock. This is the second game for the McAvilly cup and promises to be interesting. The lineups are as follows: St. Andrews—Tapley, Kerr, McIntyre, Montgomery, Ross, Kettle, Hughes, Neil, Doolittle, Laidlaw and Burton.

ROY MITCHELL LOST

Tommy Robson, Boston, Given Halifax Bout Yesterday on a Foul. HALIFAX, Sept. 7.—Tommy Robson, Boston, won by a foul in the fourth round of his scheduled 10-round bout with Roy Mitchell, of Halifax, last night. The two heavyweights put up a fine exhibition until the fourth, when Mitchell struck low. The foul was said to be accidental.

LESTER GETS DECISION

TUSCON, Ariz., Sept. 8.—Pat Lester, Tuscon heavyweight, was given a ten round decision over Captain Bob Roper here last night.

FLOWERS IS WINNER

CLEVELAND, Sept. 8.—The referee stopped the scheduled ten round bout between Tiger Flowers of Atlanta, and Ted Moore, English middleweight, in the sixth round, last night, because Moore refused to fight. Moore did not appear to be in very good condition. Flowers had him against the ropes several times and showed him with rights and lefts to the face, and body, without a return.

MORRIS FAILS TO SHOW UP AT STARTING LINE

Joe Reardon Beaten By Jerry Shea at New England Regatta. MUCH conjecture has been caused in sport circles over the failure of Morris K. Morris, winner of the Diamond Sculls event in 1923, the year Hilton Beltes of this city competed for the historic trophy to show up at the starting line at Baltimore yesterday for the senior singles event of the Middle States regatta. Earlier in the day Morris drew a number for the race, which was won by Walter Hoover, Duluth oarsman, but when the race was called he failed to appear at the starting line. It is probable some trouble developed between the English oarsman and the Baltimore authorities. When Beltes competed at Buffalo several years ago against Hoover, he was at a big disadvantage owing to cramps in the canal course, in addition to leg cramp. Although the local oarsman got into great difficulties in the closing moments of the race, Hoover was only able to beat him by scant inches.

ROWS FOR UNDISINE

Walter M. Hoover, National champion and former Diamond Sculls titleholder, won the Middle States Senior Singles sculls championship under the colors of the Online Barge Club of Philadelphia. Hoover's time for the mile was 6.31.

REARDON LOSES

WORCESTER, Mass., Sept. 7.—The fall regatta of the New England Amateur Rowing Association took place on Lake Quinsigamond today, the races being run in a cold drizzling rain. Joseph Hines, of Halifax, favored to win the senior singles, finished third. Jeremiah J. Shea, of Boston, was first, and John A. Crooks, of Boston, second. Reardon, steering badly, lost distance when he had to shift his course to avoid an abutment of a bridge under which the contestants rowed. Shea's time was ten minutes and 2-5 seconds. Shea has competed against Beltes here, Beltes winning.

ROY MITCHELL LOST

Tommy Robson, Boston, Given Halifax Bout Yesterday on a Foul. HALIFAX, Sept. 7.—Tommy Robson, Boston, won by a foul in the fourth round of his scheduled 10-round bout with Roy Mitchell, of Halifax, last night. The two heavyweights put up a fine exhibition until the fourth, when Mitchell struck low. The foul was said to be accidental.

LESTER GETS DECISION

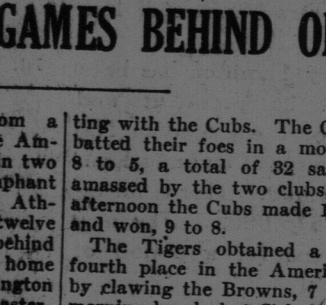

TUSCON, Ariz., Sept. 8.—Pat Lester, Tuscon heavyweight, was given a ten round decision over Captain Bob Roper here last night.

FLOWERS IS WINNER

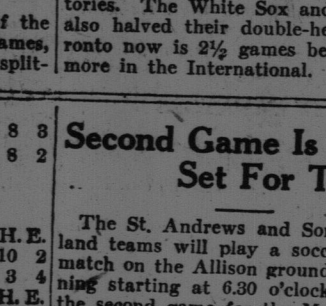

CLEVELAND, Sept. 8.—The referee stopped the scheduled ten round bout between Tiger Flowers of Atlanta, and Ted Moore, English middleweight, in the sixth round, last night, because Moore refused to fight. LOCALS DO WELL AT AMHERST MEET

Rubins, Donohoe, Thomas and Bayley Clean up Big Honors.

AMHERST, N. S., Sept. 7.—An athletic quartette from Saint John captured major honors at the annual Cumberland county carnival athletic meet, held here today. Rubins won first in the mile and second in the half mile run. Thomas captured the half mile with ease, while Bayley was credited with second position in the shot put, broad jump, 220 and 440 yard dashes. Donohoe won the broad jump and thirty yards, and took second place in other events. D. R. Chisholm, of Antigonish, was the star athlete of the day, having four first places to his credit in the 100, 200, and 440 dashes, and also the hammer throw.

Ten Mile Championship.
The Maritime ten mile championship was won by John Mills, of Sydney, who on Saturday took the Canadian championship five mile at Halifax, lapped York and McEwen of Parrboro and Amherst, four times while the race endured. He covered the distance in fifty-seven minutes and thirty seconds. Over one thousand people attended the sports, and the large entry from Saint John added greatly in making the day a splendid success.

PAL MOORE WINS.
OSHKOSH, Wis., Sept. 8.—Pal Moore, Memphis bantamweight, decisively defeated Henry Leonard, South Chicago, in 10 rounds here yesterday.

BILLY DAFEO WINNER.
GREAT FALLS, Mont., Sept. 8.—Billy Dafoe, New York, defeated Don Tippero, Bingham, Utah, in a 10-round bout here yesterday.

R. Q. M. S. Moore Is Winner of Trophy

On Saturday the Fusilliers Rifle Association held the annual shoot for the cup donated by R. Q. M. S. Moore for annual competition. Weather conditions were not promising at the start and it was decided to begin at 8:00 yards, then 600 and finish at 200. The shooting was good, some excellent scores being made. With the fine score of 97, R. Q. M. S. Moore was successful in winning the cup he donated. The scores follow:

A Class—	200	500	600
Pte. Gow, 2nd ...	28	25	32
R.Q.M.S. Moore, cap. ...	32	33	37
Sergt. Jones, spon. ...	25	33	39
C.Q.M.S. McLaughlin ...	27	30	35
Lieut. Scott ...	26	29	34

The annual closing of the Westfield Country Club proved most enjoyable yesterday afternoon and evening. Golf was played in the afternoon and was followed by a tea and the presentation of prizes to the winners of different events during the season. Those receiving prizes were:

Ladies' foursomes, prize donated by E. R. Machum, won by Mrs. Ken Creighton and Mrs. D. W. Puddington. Mixed foursomes, prize donated by President D. W. Puddington, won by Mrs. E. T. Barbour and Mr. D. Foster.

Men's singles, championship cup, Ken Creighton. Men's doubles, John H. Moore and Ken Creighton. Mixed doubles, J. H. Moore and Miss Marion Sourel.

Waking.
(Jeremy Taylor.)
In the morning when you awake, accustom yourself to think first upon God, or something in order to His service; and at night also let Him close thine eyes; and let your sleep be necessary and healthful, not idle and expensive of time beyond the needs and conveniences of nature; and sometimes be curious to see the preparation which the sun makes, he is coming forth from his chambers of the east.

AUDIENCES ENJOY OPERA HOUSE REVUE

Paramount Company Open Week's Engagement With Pleasing Programme.

Patrons of the Opera House were given an opportunity to enjoy a musical comedy of variety in amusement yesterday, when the Paramount Revue, composed of 25 performers, put on dances, songs, comedy sketches, whistling, accordion playing and chorus work of pleasing quality.

The show was given twice in the evening, and the programme will be given until Thursday, when a completely new offering will be presented. The company will play here this week and will then go to Halifax for four weeks.

What a Mother Does.
(Syracuse Post-Standard.)
The average mother with four or five children, has been under scrutiny by an investigator in home economics. He finds the equivalent of 1095 loaves of bread, 86 cakes and 169 pies, prepares meat which if assembled, would make one or two cows and about six hogs, 5,110 potatoes, makes 1,200 beds, dusts 7,000 chairs and 80 to 100 garments, exclusive of mending and darning and the sewing on of buttons.

YINS BY KAYO.

"Tess" Packs London House

LONDON, Sept. 8.—The first production in London of Thomas Hardy's play, "Tess of the D'Urbervilles," by a professional cast, took place in the Barnes Theatre last night. The event had caused tremendous interest, and thousands of persons were disappointed when they were unable to obtain seats. The show was considered a great success.

BETTY COMPSON AT UNIQUE THEATRE

Theodore Roberts Also in "Locked Doors."

The William de Mille-Paramount production, "Locked Doors," written and adapted for the screen by Clara Beranger, opened at the Unique yesterday.

The story opens in the home of a wealthy architect—Robert Edeson. Others there include his wife, Betty Compson; the latter's father, Theodore Roberts; and the architect's sister, Kathlyn Williams.

A rapid mystery melodrama of stirring situation is "Raffles," which opened at the Gaiety Theatre yesterday.

For Life or Dinner

Your success in life depends on your motive. There is an old fable about a dog that boasted of his ability as a runner. One day he gave chase to a rabbit but failed to catch it. The other dogs ridiculed him on account of his previous boasting. His reply was, "You must remember that the rabbit was running for his life while I was only running for my dinner."

There is recorded the surprise of a Secretary of the Navy, not now living, who boarded a vessel and peered down into the hull. "Why," said he, "the incentive is all important. If blame thing's hollow."

PRAYED DESK IS MEMORIAL TO MRS. G. F. SMITH

Unveiling Ceremony Takes Place in Saint John's (Stone) Church

TRIBUTE TO HER IS PAID BY RECTOR

Rev. A. L. Fleming Speaks of Outstanding Life as Church Member

As a memorial to the late Mr. George F. Smith, a prayer desk was dedicated in St. John's (Stone) church at a special service on Sunday morning. Rev. A. L. Fleming, the rector, presided at the service, and the souls whose outstanding characteristics were loyalty to her God. The prayer desk, with the choir fronts, which are expected to arrive in four weeks' time and will take the place of those at present in use, complete the memorial, which is the gift of Mrs. Smith's three daughters. The daughters, Mrs. Guy Robinson and Mrs. Allan A. Magee of Ottawa and Mrs. Norman Guthrie of Ottawa were at the service yesterday and with them was Miss Adams, a cousin, and Miss K. Wheeler, who for more than 40 years was Mrs. Smith's faithful helper in her home.

DEDICATION CEREMONY.
The acting wardens, G. A. Kimball and Alfred Morrissette, asked the rector to accept and dedicate the memorial and the brief ceremony was held. The music was specially chosen and the anthem sung by Mrs. Douglas Frits was "God So Loved the World."
Mr. Fleming took the text of his sermon: Matthew 24:44, "Be Ye Also Ready." He said in part:

RECTOR'S TRIBUTE.
"This morning we have dedicated the first portion of a very handsome memorial to one whose name is loved and revered, not only within this parish and city, but throughout the diocese and beyond. I would therefore take this opportunity of thanking, most sincerely, the donors for their gift. "We are deeply grateful to them, not simply because it will beautify our church and channel and meet a practical need, but we are grateful chiefly because it will serve to keep before us the memory of all time the name of one of Christ's true and faithful servants. Of her it may be said with literal truth that in everything she did there was a dignity and charm all her own—everything she touched she beautified by her graciousness. "We have been much rejoiced lately because of the number of improvements that have been made in our church fabric, thanks to the Church Workers' Association and to members of the congregation who have given memorials to beautify God's sanctuary. In this work Mrs. George F. Smith took a most active part. She was a member of the joint committee appointed by the vestry and Church Workers' Association to deal with various modifications in connection with the painting of the church, the tiling of the chancel and the new entrance from the parish house. "There was no perfunctory interest in the work. She entered into the details of all that should be done, and expressed her opinion frankly, but always in such a way as should help towards attaining the best possible results."

LOVED AND VALUED

"Our joy, therefore, is mixed with pain in connection with the beautifying and valuing so dearly and who had labored so faithfully and untriflingly to this end, should not be with us at this time to rejoice with us in its finished completeness—yet we feel sure she does so rejoice with us this day. She has simply left the Church Triumphant. "It is safe to say that no member of our congregation was more deeply interested in the welfare of this church than our beloved friend, Mrs. George F. Smith. She loved her church, because it was hers, and because she loved the principles for which it has stood through the century. "It has been my privilege to know many outstanding personalities, but none so complete and rounded out as hers of whom we speak. She lived a very full life, for hers was a many-sided nature. Her keen intellect, combined with a remarkably gracious spirit and a tremendous capacity for work, caused her to be sought after as a leader in society and in a vast number of organizations, philanthropic, patriotic and political. But the name of Mrs. George F. Smith will remain specially sacred in the annals of the church life of this city and diocese. Outside her parish church her chief interest lay in the work of the Woman's Auxiliary. For years president of the diocesan branch and as vice-president of the Dominion board, she made an outstanding contribution to the advancement of the kingdom of Christ."

LOVED HER CHURCH

"When we think of her work in the parish, words fail me. She was one of the few who had learned the full meaning of the injunction to be 'in the world, yet not of it.' There was nothing of the recluse about Mrs. Smith. She found her keenest rest in life—but she never allowed her interest in society to rob her of her love for God and for His house. She was one of the few whom we count on to be in her place in church twice each Sunday and she always attended the weekday services, whether they were in the morning, afternoon or evening. Truly she loved her church and proved it not only by words but by deed. "When the church made any call for service, or money, Mrs. Smith responded gladly and instantly. She gave the first \$50 towards the boiler fund for the

Mr. and Mrs. D. C. Campbell, of West Saint John, announce the engagement of their daughter, Audrey Louise, to Hedley Cooper Wilson, the marriage to take place in October.

HOME FROM BORDER.

Mr. and Mrs. E. O. Arbo of Pleasant Point, accompanied by Mrs. E. M. Straight of Fairville, have returned after a motor trip to St. Stephen, where they spent the week-end and holiday as the guest of Mrs. Stephen's daughter, Mrs. G. A. Brittain, and Mrs. Brittain. Mrs. Brittain is receiving congratulations on having won first prize for the best cake at the St. Stephen Exhibitions and also prizes for canned goods.

BOY OPERATED ON.

Mr. and Mrs. Pearl Townsend of this city are hopeful of the complete recovery of their little boy, Ralph, who had been a sufferer for some time of crippled limbs, brought on by infantile paralysis shortly after birth. They took the lad to Dr. Abbott, an orthopedic doctor, of Portland, Me., when the latter was in St. Stephen recently, and he gave them encouragement to have an operation. This was performed on Saturday in the General Public Hospital, with Dr. W. Stevenson assisting. John MacCullum, grandfather of the little boy, who has been in poor health for two years, was able to visit his place of business at the corner of Carmarthen and Lester street for a short time last week.

SPEEDY TRIALS CASE

Mrs. Annie Dreskin Faces Charge of Having Stolen Goods in Possession.

Mrs. Annie Dreskin was tried this morning in the County Court before Judge J. A. Barry under the Speedy Trials Act on a charge of having stolen goods in her possession, knowing them to be stolen. The goods in question, was said, were stolen from the C. E. R.

The evidence for the prosecution consisted in depositions of witnesses from Upper Canada and the testimony of Detective Biddiscombe and local railway investigators. The accused took the stand in her own defence, and was under examination when counsel took recess until this afternoon. Starr Tait appeared for the Crown, H. McLean, Jr. for the C. P. R., and E. J. Henneberry for the accused.

parish house. She gave the first donation towards the expenses of the camp for girls which was run this summer with such marked success. "She was always wise, kind and delicate in her decisions, and on more than one occasion her rector was indebted to her for wise and sane advice on some delicate problem. "She was one of those choice souls whose connection with the church was loyalty to her God and this is the planation of her preparedness for death, when the sudden call came. She had lived a life of beauty and trust in Jesus Christ as her Lord and Saviour, and in her living she was prepared and made ready for dying. When the fatal words were spoken by the doctors, she did not rebel, but quietly made ready for the day that was so swiftly approaching when she would enter in to see the King of the Beauty. Like Mary of old, she loved her Lord, and as it is written, 'perfect love casteth out fear,' she had no fear of death. "Her death was revealed in the fact that, in these days of waiting, she was waiting for the summons to come, she gathered her loved ones by her side and together they read from the sacred page, words of cheer and comfort. She looked beyond the hills of time across the dark waters of Jordan, and saw the shore she knew she would meet those she loved who had gone before. "Yet to each and all of us her going has made a blank that can never be filled, and by few except her own kin, probably, will she be more sorely missed than by her rector. We shall think of her with loving pride and thankfulness. God has loaned good to us in allowing us to have the privilege of knowing one of whom we can honestly say—'than God on every remembrance of her.' "Our heartfelt sympathy goes out to her sorrowing family—in their affliction we are afflicted. No words of ours are needed to comfort their hearts, for they know so well that neither they nor we have any cause to be sorry as those without hope for her who has left us. Her's was a victorious trust in the living, reigning Saviour. Were she here this morning she would speak to us after the fashion of the words of Sir Edwin Arnold: "Yet ye weep, my erring friends, While the one whom ye call dead, In unspoken bliss instead, Lives, and loves you, lost, 'tis true, By such light as shines for you: But in the Light ye cannot see Of unfiled felicity In changing Paradise. Lives a life that never dies. Farewell, friends! Yet not farewell: Where I am, ye too shall dwell. I am gone before your face, A moment's time, a little space. When ye come where I have stepped, Ye will wonder why ye wept: Ye will know, by wise love taught, That Here 'tis all, and there is naught. "Therefore, 'Be ye also ready.' Today we miss her gracious and radiant personality. Let us ask God to give us grace, so to follow her inspiring lead that, at the end of our day on earth we, too, may be permitted to enter through the gates of death into the realms of the Blessed, where now she lives, and serves the Master whom she loved and loved for her below."

FREDERICTON MAN IS NEW PRESIDENT

W. J. Maxwell Elected by Optical Society of Province at Annual Meeting Here.

The New Brunswick Optical Society held its annual meeting, Monday morning, in the Board of Trade rooms with a good attendance of members. Frank L. Thompson, of Moncton, was in the chair. A. C. Rockwell, secretary treasurer, reported the society to be active along educational lines. Routine business occupied considerable time. The election of officers resulted as follows: President, Warren J. Maxwell, Fredericton; vice presidents, Grover C. Campbell, Woodstock; C. P. Hickey, Chatham and J. M. Fraser, St. Stephen; secretary treasurer, Eli Boyaner, Saint John. The new member of the board of examination, Grover C. Campbell. After this meeting the council of the association met to arrange for examinations and to deal with special cases of jurisprudence. Mr. Thompson presided. The next examination will be on October 12 in Saint John. The council is composed of the members who were appointed by the general society and two by the provincial government as follows: Dr. L. M. Curran of Saint John, Frank L. Thompson of Moncton, A. A. Christie of Fredericton, A. G. Rockwell and Eli Boyaner of Saint John.

MISS JENNIE LONG IN AUTO ACCIDENT

Severely Injured When Car Goes into Ditch at Hampton Village.

Miss Jennie Long of Saint John was quite severely injured last night at about 10:45 o'clock in an automobile accident at Hampton Village but the extent of the injuries will not be known until a report has been received from an X-ray taken this morning at the General Public Hospital. The car in which Miss Long was driving had as passengers the driver, another lady and four children. They were driving up the main street of the village when they met two cars. In his efforts to give these cars plenty of room the driver pulled too far to one side and went into a ditch. Miss Long was the only member of the party hurt. Dr. P. H. Wetmore was summoned to attend her. She was cared for during the night at the home of Mrs. Howard and this morning brought to the hospital.

TO REPORT ON PLANS FOR COURTENAY BAY

Alexander Gray, Engineer, Receives Call From Minister of Public Works.

Alexander Gray, engineer in charge of Saint John harbor, has been called to Ottawa by a telegram from the Minister of Public Works, on matters relative to Courtenay Bay facilities for the Canadian National Railways. Mr. Gray is asked to bring with him all available information regarding the site of the capital within the next day or two. Last week Mr. Gray was in Montreal and while there he was in consultation with the engineers of the C. N. B. on this matter.

IS ON WAY TO TEST N. B. TOBACCO CROP

Expert Goes up River to Note Result of Experiment in Province.

H. A. Freeman, tobacco expert from the central Dominion experimental farm, Ottawa, arrived in the city yesterday and this evening will leave for up river farms to inspect the crops of tobacco which have been planted there as an experiment this year. Through the efforts of the Board of Trade several farmers were induced to try tobacco growing this year. The farms of W. W. Hubbard and T. H. Estabrooks have been used in the testing out of this new venture.

TO WED THIS MONTH

Mrs. Agnes Nice announces the engagement of her daughter, Margaret Anthony Miles, R. N., to George Frederick Morrison Baillie, son of the late M. and Mrs. Baillie, 127 Queen street, West Saint John. The wedding will take place in the First Presbyterian church, West Saint John at 3 o'clock on September 16.

As Hiram Sees It

MONTRÉAL—Well, here I be back to Montréal agin, and hevin' a great time. The Red Caps an' the porters was all glad to see me—'n' the waiters was jist waitin' to see I didn't go hungry as long as they was a bite in the place. They wasn't any band at the station—but the orchestra 's goin' to play fer me at dinner tonight. I got along first-rate in the train comin' up. The chunk o' pumpkin pie I had at McAdam was jist as good as the one I had last fall 'n' 'most as good as Hanner makes. Ye might 'phone Jim Woodman an' tell him I said so. I'm kinda sorry I'm gonto miss the exhibition—fer I hear they're hevin' a hull orchestra o' nice gals from Boston—an' a great show altogether. I'll tell 'em up to Toronto if they want to see a real exhibition they orto come to Saint John—Yes, sir, I'm gonto up to Ottawa, too—an' I'll be in the King an' I'll be in Melghen is both waitin' fer me—yes, sir."

His Salary Is Million a Year

Chas. M. Schwab, manager of the United States Steel Corporation at a million dollars a year, worked his way up from the bottom. To do that he followed a few rules. He gives one of them here—lay by a certain amount of money all the time.

You can lay by a stated amount at regular intervals and draw Bond size interest on it by booking a Bond on our special plan of Systematic Investment. A system that sets you a steady pace with more encouragement than any other. Ask for explanatory booklet.

"No man can prosper unless his expenses are kept below his income."
—Charles M. Schwab
