RAPIDLY WEARING THE GERMANS OUT

More Important Gains By Allies Though Fighting Severe

Surpasses in Volume That of March and May Offensives—Another Vain Effort by the Germans to Counter-Attack

Paris, July 24—Important gains were realized Tuesday by the Allies, particularly by the French troops who are bearing seventy per cent of the effort, in which they vie in bravery with the British, Americans and Italians.

North of the Marne in an advance of two kilometres the Allies took fortified farms and Barbillion Wood.

The fighting, he adds, surpasses in violence that of the March and May offensives, and the Germans are being worn out.

The wild talk of the German official statements, he says, proves more than anything else the confusion in Germany resulting from the Allied blow.

PURSUITS CONTINUE

Washington, July 24—Continued pursuit of the retreating enemy south of the River Ourcq is reported in General Pershing's communique for yesterday.

STILL HAMMER CROWN PRINCE

With the American Army on the Aisne-Marne front, July 24, 7.30 a. m.—(By the Associated Press)—The French, the British and the Americans are still hammering the flanks of the Crown Prince's army.

More favorable weather conditions brought out droves of aircraft this morning. The day was an excellent one for observation, and this is expected to change the character of the fighting somewhat, especially with regard to the artillery.

HUNS AGAIN BEATEN

Paris, July 24—The Germans last night at nine o'clock delivered a counter-attack upon the Allied lines in the vicinity of Vigry, five miles southwest of Rheims.

ON THE BRITISH LINES

London, July 24—Raids were carried out by the British troops last night in the region south of Bouquoy and northwest of Albert, says today's war office report.

from monies raised on the credit of the province and for the construction of the railway which is owned by the province.

The return of sums aggregating more than a quarter of a million dollars, paid out in connection with various Valley Railway contracts, has been demanded on behalf of the provincial government.

James K. Fleming \$100,000
William B. Tennant 188,000
Thomas Nagle 30,000

The Fleming matter goes back to the time when, while premier of the province, he arranged the first contract for the construction of the central portion of the road with A. B. Gould of Quebec City.

The Great Liner Justicia Sunk

Giant White Star Ship Torpedoed Off Irish Coast On Return Trip After Landing American Troops

An Irish Port, Monday, July 22—(By the Associated Press)—The giant White Star liner Justicia has been torpedoed and sunk.

The Justicia was formerly the Dutch steamer Statendam, which was taken over by the British government on the stocks at Belfast when she was nearing completion. She was 32,234 tons gross.

New York, July 24—The Justicia, reported sunk apparently somewhere off the coast of Ireland, was returning to an American port after delivering a large contingent of American troops.

London, July 24—The Justicia, says a Belfast despatch today, was sunk off the north coast of Ireland on last Saturday morning. She carried a crew of between 600 and 700. Eleven members of the crew are dead.

London, July 24—The news of the sinking of the Justicia was announced by the Belfast Evening Telegraph. It says the liner was torpedoed.

One of the crew is quoted as asserting that ten torpedoes were discharged. Four of them were exploded by gunfire from the ship.

The Justicia had a troop-carrying capacity of between 7,000 and 8,000 men.

ALL DAY FIGHT

An Irish Port, July 24—(By the Associated Press)—Four hundred of the crew of the Justicia have been landed here. The report that the liner was sunk after a twenty-four hour fight with submarines.

ENGLISH FULLY CONFIDENT, SAY THE PREMIERS AND MINISTERS

Canadian Party of Statesmen Home From Overseas

SIR ROBERT DID NOT RETURN

Will Probably Remain in England For Three or Four Weeks More—Food Situation Not so Bad as Often Pictured

A Canadian Atlantic Port, July 24—Three provincial premiers and two federal cabinet ministers, Premiers Norris of Manitoba, Martin of Saskatchewan and Stewart of Alberta, and Hon. Arthur Meighen, minister of interior, and J. A. Cahill, minister of immigration and colonization, who have been touring England and France since May 29, disembarked here yesterday and left immediately for upper Canada.

Mr. Tennant, it was stated, collected \$200,000 from the Nova Scotia Construction Company when their contract for constructing the southern section of the road was signed, another \$200,000 for the northern section, and \$18,000 at odd times.

"We had a rapid and pleasant voyage over," he said. "No, we did not see anything of the submarines. We were most fortunate all through our trip. We did not even experience a Zeppelin raid in London, although during our stay in France, German aerial raids at night were quite a common occurrence."

"Naturally, on reaching England, we were most interested in our own Canadian soldiers. We visited every division in England or the southeast, and were very proud of them."

"On the whole, the English people are fully confident of victory. The results of the latest drive will further heighten their spirit."

"The food situation is not nearly so bad as it is often pictured. Premier Borden did not return with us. He will probably remain in England for three or four weeks longer."

TO STRIKE SUNDAY ON GREAT LAKE STEAMERS

Cleveland, July 24—Union men on all Great Lake passenger and freight steamers will be called on strike at midnight on next Sunday, it is announced by Geo. Martin, local agent of the Seamen's Union. LEMON EXTRACT CASE GONE INTO

Retail Grocers on the Stand Relative to Supply and Sale

A case, which promises to be of interest to merchants, and druggists in particular, was taken up in the police court this morning—a charge against the Brayley Drug Company, Ltd., for selling lemon extract containing more than two per cent alcohol.

Inspector Wilson said that he got about four or five dozen bottles a month from the Brayley Drug Company, which he sold for domestic purposes. In answer to L. A. Conlon, representing the company, he said that he had been getting it for years from various firms and had been selling it to his customers for a long time.

Inspector Wilson testified that he had been burning his stores while elsewhere they have been set on fire by Allied shells. A great fire has been burning in the important base of Fere en Lardinois since Monday evening.

Magistrate Ritchie asked if the contents of two bottles produced in court had been analyzed. Mr. Wilson said that it had not, but that he intended to have it analyzed today.

Mr. Conlon said that it was not necessary, as there was no question as to the lemon extract having more than two per cent alcohol. He maintained that the dominion government has set a standard for the preparation of this extract and that the manufacturers must adhere to it.

He quoted sections of the law and said that if certain interpretations were made it would mean that all drug stores would practically have to go out of business. He said that every wholesale grocery store and nearly every retail store had extracts for sale for cooking purposes.

Mr. Wilson quoted sections of the act and gave his version and quite heated remarks passed between him and Mr. Conlon. The case was adjourned until Friday afternoon at two o'clock.

SUNK BY BOMB FROM SUBMARINE OFF MAINE COAST

The Robert and Richard, Of Gloucester, Is Destroyed

Shell Screams Over Bow

Crew Bring Vessel Up Into Wind and Take to Dories—German Board Schooner Place Bomb and Blow Her Up

Kennebunkport, Maine, July 24—Four men landed in a dory at Cape Porpoise to-day reporting that their schooner, the Robert and Richard, of Gloucester, had been torpedoed by a German submarine on Cape Bank, sixty miles southeast of Cape Porpoise at 10.30 o'clock yesterday morning. They said that other dories were coming in behind them.

The men said that the schooner had been destroyed by a bomb. The submarine, they said, came out of the water a few hundred yards distant and sent a shell screaming over their bows. The crew promptly swung the schooner up into the wind and took to their boats. Then the raider sent a boat, whose crew boarded the schooner, apparently took only her papers, placed a bomb and left her. A few minutes later an explosion sent the ship to the bottom. No other ships were in sight at the time. The submarine was last seen going south on the surface.

Portland, Maine, July 24—All those on the Gloucester fishing schooner Robert and Richard had been accounted for today.

PAPERS STOLEN FROM MALVY'S APARTMENT

Paris, July 24—Testimony taken yesterday in the case of Louis J. Malvy, former minister of the interior, had to do with a burglary committed in the Malvy apartment where important documents were stolen. One file dealing with the Morocco incident of July 1911, when the German gunboat Panther landed forces at Agadir in violation of the treaty of Algiers, was called the "ross of Agadir."

The case is dragging.

A HAPPY TIME

Members of the Senior Epworth League of Portland Methodist Church held an enjoyable outing to Sea Side Park yesterday. In the afternoon Miss Marjorie Chamberlain and Miss Mustel Purdy made all arrangements for a fitting reception for their colleagues, who were due early in the evening. When all had assembled a dainty supper was served. Games were played and a large bonfire was built and all enjoyed some of one of the members, Frank Merrill. Songs were sung and the party returned to the city after having thoroughly enjoyed the outing.

CHINA FACES
GOLDEN AGE

Her Great Contribution to World
Will Be Peace

Dr. MacGillivray's Task - Literature-
Missionary Tells of His Great Work
in Shanghai

(Toronto Globe.)
"What contribution can China make to the modern world? This was one of the many questions which the Globe in an interview yesterday put to Rev. Donald MacGillivray, D. D., the literate missionary of Shanghai, who is home on furlough.

"Apart from her material resources her great contribution would be to the peace of the world. The whole nation is a peace-loving nation," replied Dr. MacGillivray.

"Would you say they were a nation of pacifists?"
"O, no. Not peace at any price. Their history and their fighting today for principles of government show that. But their influence has always been on the side of peace. Their classical literature for three thousand years has set the ideal of universal peace as the ideal of government. China's entrance into the war will mean a great advance for the peace of the world. There is no yellow peril so far as China is concerned; that cry was raised by the Kaiser."

"What of Japan—would you call Japan the Prussia of the East?" asked the Globe.
"In some respects their government is fouler after the Prussian style than that of Prussia in our sense of the term, but the people of Japan are demanding extension of franchise. I have great faith in the future of Japan as a constitutional monarchy."

"What part will Japan play in the Siberian question?"
"The doctor was very frank in his reply. He said: 'Siberia struck me, on my three visits to that country, as being very like our own northwest. There are immense spaces which the Japanese would naturally like to occupy and cultivate. They have already got part of Manchuria, they have Korea and Formosa, and I think Siberia will probably be developed by the Japs in the future.'"

But Dr. MacGillivray's prime interest is not international politics. He is a combination of the literary man and the missionary enthusiast. Though short in stature, he is a giant in mental vitality. He has the head of a poet, the face of an agitator, and the temperament of a boy who is enjoying captivity to the full.

In answer to a question as to how he had lived for twenty-five years among Chinese, the doctor said:
"Missionary work in Shanghai is perfectly fascinating. We have a city as well equipped as Toronto. We are in touch with all the world and we receive reports of everything that is happening in every part of China. My work is done for the Christian Literature Society, something after the Religious Tract Society's work, only broader."

"I don't think there is anything in it—although one ought to speak cautiously about that. They believe in a golden age that was in the past. There are all kinds of descriptions of how good the people were and how great the rulers were in those days. They always longed to get back to the golden age. Now they believe the golden age is in the future. Up to the revolution China was facing the past, in the republic they see the coming of the new golden age."

A Native of Bruce.
Dr. MacGillivray is a native of Bruce county, Ont. He was gold medalist in classics at the University of Toronto in 1882. He is also a graduate of Knox College, where he was a classmate of Principal A. B. Baird and Dr. J. A. Macdonald. He went to China with Jonathan Goford and Dr. Charles Webster in 1888. He will remain in Canada on leave for about a year, and it is proposed that the Chinese should make use of his knowledge and experience in the great religious forward movement which is now under way.

IRISH LADS ARE JOINING THE NAVY
Dublin, July 23.—(Correspondence of The Associated Press.)—Lieut. Percy, director of naval recruiting in Ireland, declares that recruiting for the British navy was never more brisk in Ireland than it is at present. There are Irishmen in every department from the towns down, and the recruiters in the towns and villages throughout Ireland are always warmly welcomed.

Dublin has just given a cordial send-off to recruits of the "Draught" section of the Royal Naval Reserve. This branch appeals particularly to Irish fisher boys who have experienced in the past few months around the Irish coast the cruelty with which the German submarine campaign is conducted.

The recruits paraded the streets of Dublin accompanied by bluejackets and marines and the band of the Berkshire Regiment. Among the inscriptions on the banners in the procession were: "The Germans are sinking Irish ships and murdering Irishmen. Join us and avenge these crimes." "We are Beatty's boys, brother Irishmen, come along."

The goods which will be canned have not as yet been decided upon but it is expected that the demonstration will be a very practical and helpful one. The season at which it is given is most opportune.

HIS WIFE TOO BOSSY.
America's Soldier Protests Against Letter He Gets from Home.
There has been a humor shortage ever since the war began, and if the result has not been serious, it is undeniable that it has been ludicrous. Of course there is less in life to make a jest of just at present, and it may be that most of our bright young men who naturally see the lighter side of things have gone to France.

Rotary Work in Kansas City called forth an enthusiastic article from the Journal:
"Kansas City and all its people have a new appreciation for that organization which stands for business integrity, ideals of citizenship and patriotism in all dealings of man with man and in relation of man to society. Certainly Kansas City knows that the word Rotary means far more than mere business clamminess, more than mere commercial co-operation, more than plotting for gain. The ideals of Rotary are as big as the great revolving globe itself, and its principles are those of fine, generous active, and developed manhood."

The wide outlook of the Rotary movement is illustrated by a resolution passed by the New York club, advocating a federation of nations and a permanent parliament of peoples.
The Chicago city council has administered six distinct rebukes to Mayor Thompson.

The New Era. (Winnipeg Tribune.) Over in Britain where this year thousands of Englishmen for the first time observed the Fourth of July, they have formed a Sammy's Blighty League. "We are bringing together the British mother and the American mother—because we are going to take charge of the American mothers' sons," explains the leader of the league. By taking charge, the Blighty League means taking American boys in Britain into homes of British fathers and mothers whose own sons are across the

channel fighting the common enemy of mankind. Boys from American cities will be entertained in London homes, farm boys will be invited to spend a few days as the guests of British farmers.

It is evident that from now on Americans and Brits will be more than cousins.

No Shooting.

I hereby announce myself as a candidate for Probate Judge of Richmond County and pledge myself to abide by the result.—S. I. Riley.—Adv. in Columbia (S. C.) State.

AMERICAN INVENTORS TAKE UP WAR PROBLEMS

Yankee Genius in Shape of Engines of Destruction Before Long

Many Effective Weapons—Officials at Washington Well Satisfied With Results Attained by Scientists on Military Devices

(Special Correspondence of Bangor Commercial.)

Washington, D.C., July 17.—European armies will have a chance to judge before many months of war, inventions and specialties peculiarly American. Inventors of all countries set diligently to work in war time designing new and deadly agents, calculated to make soldiers in the battle line flinch and flee. There is great American invention, backed by a wealth of tradition, over the success of American invention in war as well as in peace. Undoubtedly America, as represented by the United States, will have large offerings in this line as the war progresses.

Strictly American designs for tanks have already been commented upon quite widely and it is no secret that Henry Ford, the Detroit manufacturer, is making "light tanks," as these have come to be known in the army, by the thousands and then of thousands. He builds them almost as quickly and efficiently as he has been wont to build the tens of thousands of light automobiles that are sometimes called "Henry's" and more often "Fords." His automobiles are numerous on every passable road in America and it is not improbable that in the course of a few months his "light tanks," armed with rapid fire guns, will send along ahead of United States infantrymen, mopping up machine gun nests and helping the pick and shovel of United States regiments are now being trained to man these tanks. They are undergoing special training, most of them at Gettysburg, right on the field of the famous and decisive battle of the Civil War. These crack infantrymen, all men of education and mechanical talent, have their barracks and tents in the midst of monuments and markers that perpetuate the valor of northern and southern organizations in that great struggle.

It was the original intention to train these men in England, but the plan was changed and when these thousands go over it will be with enormous carloads of "lights" and "heavies." Apparently these "tank corps" will not arrive on the ground in time for this year's campaign, but they will be ready to give an account of themselves when the campaign of 1919 opens.

The scientific talent of all the land has been concentrated at Washington for many months, working on gas problems and products. It is properly a military secret that has been accompanied by exhaustive tests, that it will not be long before the American armies will have gas shells as deadly and something in the way of deadliness and effectiveness to spare.

Secretary of the Interior Lane, one of the original members of President Wilson's cabinet, under whose office military weather brings this summer's fighting to a stop. American airplanes with their Liberty motors will also be over the lines in numbers before autumn, but after all the great and telling qualities of these newest articles of war equipments will be on the field of action next summer. Recent months have been

Bathing Suits and Trunks For Men and Boys

Please do not for a moment allow yourself to think that because a submarine happens to be off the Atlantic coast here and there, people will not go to the beaches nor go in bathing, for you need only to go to the beaches to learn that more people than ever are going to the seashore. Probably they hope to see a submarine out of curiosity but most probably because they enjoy a "dip" in the briny ocean.

HUN OFFICER HELD WITH CODE BOOK AND FORTUNE
G. B. Kuhlenschamp, Agent for Boy-Ed, Arrested in New York, Was Also Treasurer of German Club.

Gustave Bernhard Kuhlenschamp, a reserve officer of the German army, who has been in the importing and exporting business in New York city for several years, was taken into custody and held pending decision upon interment for the duration of his war charges for having a code book in his possession in violation of the president's proclamation.

Kuhlenschamp is reputed to be very wealthy. He is very frank in saying, even now, that he favors Germany. Previous to the entrance of the United States into the war, he was an active worker in furthering the designs of the paid agents of the Kaiser in this country. He received at least \$750,000 from the Deutch Bank of Berlin and paid this

RECENT DEATHS

The death of Mrs. Ernest Whittney occurred on Thursday last at her home in Whiteville (N. B.), after a short illness. The deceased was twenty-seven years of age. She was a daughter of Mr. and Mrs. John Curtis, of Whittney, and, besides her parents, there are left to mourn her loss her husband and one son, Harvey; also one brother, Edward Curtis, of Whiteville, and two sisters, Mrs. James Street, of Maple Glen, and Miss Grace Curtis, at home.

Hillsboro, July 22.—To a very large circle of relatives and friends the death of Mrs. Murdoch Steeves came as a keen shock. She died on Friday evening, July 19, at her home at Steeves Cove. Mrs. Steeves was forty-five years of age, and had been ill for more than a year, having been confined to her bed during the seven months previous to her death. She was a member of the Salem Baptist church, a woman of sterling worth, and who was beloved by all who knew her.

Reston, July 23.—The funeral took place at Chapel Point, yesterday, of Mrs. Richard Shirley. Mrs. Shirley was formerly Miss Bella Fahy, of Main River. She passed away at her home at Greenville (N.B.), after a long illness.

The many friends of Alexander Phillip will be sorry to hear of his death, which occurred at his home after a lingering illness, June 29.

The funeral services were conducted by the Rev. Gordon C. Pringle from his late home and Presbyterian church, of which he had been a lifelong member, and an elder for some years.

Mr. Phillip was born in Scotland seventy-three years ago, coming to Upper Kintore thirty-one years ago. He leaves to mourn their loss his wife, four sons, one of whom is serving in France, and one a prisoner in Germany; six daughters, and two brothers.

The circumstances are rendered particularly sad by the death of his son, William, the following Tuesday, at the Fisher Memorial Hospital, Woodstock (N. B.).

William S. Phillip died Tuesday at the Fisher Memorial Hospital in Woodstock, N. B. He was in his thirty-fourth year and is survived by his wife, his mother, four brothers and six sisters.

David Alton passed away at Penobscot last Sunday morning after a lengthy illness. He is survived by his wife, one son and two sisters.

Mrs. Elbridge A. Atherton passed away at her home in Bangor, Mr. last Sunday after a lingering illness. She was fifty years of age and was born in Coceague, N. B. Besides her husband she is survived by four children, two sisters and three brothers.

STRIKE AT MINTO

Fredericton, July 23.—The operators of the Minto Coal Company are said to be tied up on account of a strike of miners. Reports are to the effect that troops have been asked for to preserve order at the mines.

The strike, however, are foreigners and many of them alien enemies on parole. A demand for increased wages made some days ago, was met with an increase of sixty cents per day, but an increase in the price of explosives supplied the miners for their work caused trouble.

The strike coupled with uncertainty regarding the price for the company's coal set by the fuel controller threatens to cause a tie-up at Minto for sometime.

ST. JOHN'S GREATEST MERCANTILE EVENT COMES TO A CLOSE SATURDAY AT ONE O'CLOCK.

The firm of Oak Hall has been congratulated many times recently by their friends and customers on the splendid way in which they have handled this year's Annual Mid-Summer Sale. It is their Annual Mid-Summer Sale, but it is not a clearance sale of odds or ends, or a pre-stock-taking sale. It is simply this—Ten days have been set apart during which greater values can be procured for less money in every department of business than at any other time. During these days anyone who has visited Oak Hall knows the large volume of business that is done. The volume is such that they can afford to make the turnover at a very small percentage of profit. This method is found to be the most valuable kind of advertising. They get the volume their customers are benefited by getting high-class merchandise at extremely low prices, and in this way Oak Hall gets additional business from the long list of customers throughout the city and province.

RECENT WEDDINGS

The marriage of Miss Winifred Johnston, of Doaktown, and William Travis, of Blissfield, was solemnized at the Baptist parsonage in Doaktown on Wednesday evening, July 17, by the Rev. Mr. Kincaid.

A pretty wedding took place in Doaktown on Tuesday when Miss May Mitchell was united in marriage to George Brown. The ceremony was performed by Rev. Mr. Kincaid.

In the Methodist Church in Moncton last Wednesday Rev. Hamed Jones officiated in marriage Miss Abigail Hill and Private William Laparda. The wedding was the sequel of a romance which started in Newcastle three years ago. When the 43rd Battalion was leaving for overseas Private Laparda and Miss Hill met and during the former's long service in France they continued to correspond.

REMARKABLE VOW REQUIRED OF ALL GERMAN CLERGY

A correspondent writes to the Times: "Here is the solemn obligation pastors of the Established Church of Prussia must take upon being admitted to the ministry: 'I will be submissive, faithful and obedient to His Royal Majesty, and his lawful successors in the government, as my most gracious king and sovereign; promote his welfare according to my ability; prevent injury and detriment to him; and particularly endeavor carefully to cultivate in the minds of the people my care a sense of reverence and fidelity toward the King, love of the Fatherland, obedience to the laws, and all those virtues which in a Christian denote a good citizen; and I will not suffer any man to teach or act in a contrary spirit. In particular I vow that I will not support any society or association, either at home or abroad, which might endanger the public security, and will inform His Majesty of any proposals made, either in my diocese or elsewhere, which might prove injurious to the state. I will preach the Word as His Gracious Majesty dictates.' 'This from the New York Christian Advocate, he continues, shows the final and most positive development of the 'state principle' in religion. There is not a line in that marvelous covenant without social and theological significance. If they do this in the green tree what will any other in the dry? Is it any wonder none of the German clergy have had a word to say against the outrages?'"

The twins had gone in swimming without mother's permission, and they anticipated trouble.

"Well," said Tommy, philosophically, "we're both in the same boat, anyhow."

"Yes," returned Ray, the humorist of the family, "but I'm afraid it's a whale-boat."

SMALLPOX IN WESTMORLAND

At a meeting of the Westmorland County Council held yesterday it was learned that there were 200 cases of smallpox there during the past winter and spring.

W. H. Fairall of New York, who formerly conducted a business on Charlotte street, and who was called here by the death of his mother-in-law, Mrs. Newrey, will spend a few days in the city renewing old friendships.

Ontario Has Fully 100,000 Motor Cars

Toronto, July 24.—The number of motor cars operating in Ontario may be estimated at 100,000 although this number might be exceeded if complete returns from the various cities and towns were available. This, however, is considered by the Department of Public Highways as a safe and conservative estimate on which comparisons may be based. Of this total commercial cars form a very small portion slightly over five per cent. Toronto's share in the total registration is about 30,000.

Last year 78,138 cars were licensed in the province. For the first six months of this year an increase of 28,000 or twenty-eight per cent, is shown. What the complete figures will be by the end of 1918 is difficult to say, but they will be at least double the entire total of 1916 which was 39,280.

What these 100,000 cars represent in actual money is difficult to estimate owing to the varying prices of the many makes. The great majority of these cars are in the \$500 and \$700 class, but this is discounted to a great extent by the number, small as it may compare, of cars in the \$2,000 and \$3,000 range. Taking \$1,000 as an average value motor cars in the province have an initial expenditure of one hundred millions, which sum would be greatly augmented if the cost of repairs and new parts was taken into consideration.

The provincial registration of 100,000 up to date represents more than half of the number of cars in the whole of the Dominion in 1917. Based on a population of 2,500,000 in Ontario, this means that one out of every eight is the owner of a car.

A soldier and a girl, the latter about eighteen years of age, were found intoxicated in Prince William street, last evening. The soldier was taken in charge by the military police and the girl was taken to an hotel.

REMARKABLE CASE OF LOSS OF MEMORY

Charles Peary of Thorold Has Reconstructed Former Life Through Friends

Niagara Falls, Ont., July 23—Charles Peary, who left Thorold with the first contingent, and returned home recently, tells of a strange experience. He was seriously wounded at Festenberg, and was detained in one of the English hospitals for eighteen months before being sent back to Canada to receive his discharge. On regaining consciousness in the hospital in England, Mr. Peary found that he would have to start life all over again, as his early life was a complete blank. He did not even know who his parents

and relatives were. The cause for this puzzled the doctors for some time. In fact, not for several months was it discovered that Mr. Peary's skull had been fractured. When this discovery was made, the loss of memory was no longer a mystery. Peculiar to relate, although all past events were blank, the man found that he could read and write, and understood all that was told him, as well as ever. He made up his mind to fill in the gaps in the last few months of his convalescence were devoted to this task. He happened to have a few papers, and the addresses of some of his old friends in his tunic when he was wounded. Having again got possession of these, he wrote to the addresses thus found, explaining his dilemma, and asked for information as to his earlier life. One of these letters came to Thorold, and the details as requested were forwarded to England.

Other friends did the same, and in a very short time Mr. Peary had learned all about his early history. **NEW SCHEONER SOLD** The three masted schooner which has been built at St. Martins at the yards owned and operated by Premier Foster, Stanley E. Elkin, M. P., and A. F. and W. B. Bentley, has been sold to Toronto people. The vessel, which is 325 tons gross, and 477 tons net, has been rigged and painted and is practically finished and will soon be ready for launching. She will be launched on August 7 or 8, so soon as she has left the docks a second keel will be laid for a duplicate craft. It is intended to have a celebration in connection with the first launching from the new yards and the Premier will be assisted in the exercises by a party of invited guests.

ALL FEAR OF STARVING IS GONE FROM BRITAIN

Wheat Reserves Absolutely Safe—Better Bread and More Meat Coming

London, July 23—Wheat reserves in Great Britain now are absolutely safe even if the war lasts a considerable time, said John R. Clynes, the food minister, in a speech last night at Manchester. This situation will enable the government to release a greater quantity from reserves and also to improve the quality of flour soon. Mr. Clynes also announced an impending improvement in the meat supply. He said that instead of the present

seventy per cent, imported and thirty per cent, domestic, the proportions would be reversed, but that the amount of meat imported would be nearer twenty than thirty per cent.

G. T. R. TO CARRY ON

Ottawa, July 23—The Evening Citizen claims to have learned that negotiations which have been proceeding in London in connection with the purchase by the government of the G. T. R., have come to an agreement, but arrangements have been made whereby the company will carry on for another year. The Citizen states that Hon. Arthur Meighen and Hon. J. A. Calder, who sailed for some time ago, will bring word to this effect. A three pound lard pail is good for keeping fish in the ice box.

POSTMEN'S STRIKE

Toronto, July 23—The postmen's strike, which started in this city on Monday, is spreading rapidly from one end of the Dominion to the other. If all of the branches comply with the instructions of Alex. McMorde, secretary of the Dominion Federation, they will cease work tomorrow. Tonight Mr. McMorde announced that the postmen had quit work at Fort William, Calgary, Regina, Vancouver, Peterboro, Sault Ste. Marie, Saskatoon, Brandon, Kitchener and Medicine Hat. In addition to those who went on strike on Monday, Amherst (N. S.), reported "all ready," and it was stated that temporary employees at Van-

cover who went on strike had been dismissed.

Blondin Makes Promise.

Montreal, July 23—A postal strike in Montreal has been averted through a promise received from Hon. P. E. Blondin, postmaster general, of the appointment of a sub-committee to consider and discuss the demands of the letter-carriers. In the meantime cheques for \$350 bonuses are to be issued at once from Ottawa to all married men. The ordinary salaries of the postmen here range from \$750 to \$1,000 annually. The present demand is that these be raised to \$1,000 and \$1,400 respectively. **Will Wed Tomorrow.** On Wednesday Miss Mayme Lucas, daughter of Mr. and Mrs. Charles D. Lucas, and Marshall T. Anderson are to be married in Sackville.

STREET WORK.
Union street, between Chipman's Hill and Wellington Row, is closed to traffic while repairs are going on. At present it is being filled in with small stones, gravel, and other material. Paving work is being rapidly completed to make way for the paving.

MRS. THOMAS REED.
Many friends will regret to hear of the death of Isabella Alken, widow of Thomas Reed, at her home in Thorne avenue this morning. She had long been a resident of that part of the city, and although at the advanced age of sixty-three years, she maintained all her faculties up till about a week ago. Her husband, who died about seven years ago, was a successful manufacturer. She was a native of Danfermling, Fifeshire, Scotland, and leaves one son, William, at home, and two daughters, Mrs. John J. Scott of West Rosbury, Mass., and Miss Isabella Reed, at home, also three grandsons.

ROCKWOOD PARK PLAYGROUND.
There is an error in the city council report regarding the Rockwood playground. The word "purchase" should not appear. There is no question of purchase but simply of transfer by the Horticultural Association to the city. The association has expressed its willingness to make the transfer. Mayor Hayes suggests that the city go on and spend the \$1,000 granted for the purpose of fitting up a part of the area as a playground and leave until later the question of transfer, which might perhaps at a later date include the whole park property. The question concerning the transfer will be decided by the council tomorrow morning.

FINES OF \$1,100.
That Was the Aggregate in The Police Court This Morning
Maximum penalties were in vogue in the police court this morning and three defendants alone were fined \$1,100. Charles Anderson was fined \$400, John Lane \$200 and Fred Cochran \$500. The first two were fined for violation of the prohibition act and the last for wearing a returned soldier's badge without being entitled to do so.

QUESTIONS THE LOYALTY OF SOME PEOPLE HERE
New Brunswick, Home From Cleveland After 30 Years, Gets a Bit of a Shock
An interesting visitor to the city today is George Fox, a native of Fox's Beach on the St. John river, but for more than thirty years a resident of Cleveland, Ohio. Mr. Fox regrets to have to say that he finds less patriotism among some New Brunswickers he meets than is found in Cleveland, which is perhaps one-third German in its citizenship.
He bluntly says that if some remarks he has heard since he came to the province were made in Cleveland it would mean jail, without the option of a fine. For instance, in Cleveland a policeman casually remarked that he wished they had a president like the Kaiser. It cost him twenty years.
Mr. Fox says that men are arrested in Cleveland on the slightest pretext, so determined are the people to put down disloyalty and win the war. They have had wheatless days and one meatless day per week, and now there is talk of three meatless days, and the most rigid food restrictions are enforced without fear or favor. As to what Cleveland has done financially the following record of contributions to Liberty loans, etc., speaks for itself.

MRS. JOHN TAIT RECEIVES WORD FROM WOUNDED SON

Mrs. John Tait of 71 Somerset street, yesterday received word from her son, Charlie, who was wounded on June 26 and admitted to hospital in France. He wrote himself and said he was wounded in three places, as stated before; but was getting along fine at the time of writing. He was in an Australian Red Cross hospital. He spoke of how well he was used. Mrs. Tait also received a card from one of the nurses of that hospital telling her about her son.
