

## BUSINESS SYSTEM IN THE SPENDING DEPARTMENTS

Premier Borden Arranges to Implement Another Pre-Election Pledge.

NEW PLAN WORKED IN THE TREASURY BOARD

Will Exercise Closer Control Over Expenditures by the Spending Departments—Ministers to be Relieved of Much Routine Work.

Special to The Standard.  
Ottawa, Nov. 4.—More thorough checking of the estimates of the spending departments of the government has been decided upon by the cabinet which is this morning effecting the report of Sir George Murray. The report, in so far as it affected the government itself, as distinguished from the civil service, has been under consideration for some time and has just been brought into operation by the requisite order in council.

The first meeting of the treasury board under the new system was held this afternoon. Hon. W. T. White, minister of finance, who had the matter in hand, has diverged somewhat from the Murray recommendations, especially with regard to the board. Sir George had recommended its abolition. The government has decided to retain it but to make it of much greater utility.

The general idea of Sir George Murray, that of increasing the discretionary powers of individual ministers is being followed. One of the reforms has to do with methods of bookkeeping in the various departments. Heretofore the power of regulating these matters in each department was not exercised and as a result there was a lack of uniformity. Upon the suggestion of Mr. White the treasury board is now empowered to select a committee of officials or to engage outside experts who will report as to the existing systems of accounting and suggest improvements as may be necessary to secure uniformity of method.

A Closer Control.

Another new departure is the exercise of a closer control by the treasury board over the expenditures of the different departments. While the finance department, which supplied the money has always checked the accounts, Sir George Murray pointed out that the examination was largely cursory and directed more to totals than to details. Under the present system the draft estimates do not reach the department until a short time before they are to be presented to the house and the result is a more or less hurried revision in place of "persistent criticism of details" as urged by the British expert.

Hereafter, when any item is to be inserted in the draft estimates it will receive the approval of the minister, as to its necessity, the reliability of the estimated cost and the succeeding appropriations that will be necessary. Consequential expenditures due to the work, and to what extent they may be necessary will also be considered. Every department in preparation of its estimates must submit to the close of the calendar year will hereafter, as items of outlay are approved, forward them to the department of finance to the end that closer consideration may be attainable. The different estimates will then be brought from time to time before the treasury board for its consideration. When all the items constituting the main estimates have been considered the board will deal with the gross amount of money to be advanced and make such further revision or reduction as may be necessary.

Another Reform.

To give effect to another reform proposed by Sir George Murray, legislation will be necessary. The report referred to the "almost intolerable burden" imposed upon the ministers who have to touch to do and do too much. It was pointed out that three or four thousand orders in council are passed every year, the subject matters varying from those of the utmost importance to the appointment of light keepers or the changing of names of schools. Sir George recommends that the authority of ministers individually be extended, that they have powers of awarding smaller contracts, promoting officials and that a committee of council should review all the duties now discharged by the ministers with the view of defining what could be left to the individual authority of each and what should go to the whole council.

The treasury, on Mr. White's recommendation will now look into this matter and if the changes suggested are concurred in legislation will be necessary. The series of reforms constitute a step in the fulfilment of one of the Premier's pre-election pledges.

COAL DUST RESPONSIBLE FOR TERRIBLE DISASTER.

Dawson, N. M., Nov. 4.—Coal dust was the predominant force in the explosion that wrecked Mine No. 2 of the Stag Canon Fuel Company, October 22, and resulted in the death of 283 men, according to a statement issued today by R. H. Bedford, state mine inspector. It has not been determined what ignited the dust. The statement declared that gas played little, if any, part in the explosion.

## BELIEVE U. S. SOON FORCED TO INTERVENE

London Morning Papers Express Decided Opinions on Subject.

ORDER MUST PREVAIL THROUGHOUT MEXICO

Leading Dailies Point to Necessity of Step to Protect Panama Canal—Believe Fight Inevitable.

London, Nov. 5.—The London morning papers, in editorial on the Mexican situation, express the belief that although the report of the nature of the Washington communication might be inaccurate, President Wilson would ultimately be driven to intervention.

The Morning Post says: "It is more important for the United States to secure good government in Mexico than in any of the smaller states, and if this end can be achieved only by intervention her people will not be daunted by the cost."

The Express contents that delay only increases the difficulties, and that the United States must either act and rescue Mexico from chaos, or the Monroe doctrine must be revised.

The Times thinks that any attempt to break down Huerta's influence without intervention would result in increasing his prestige to pose as a patriot and the champion of national rights. It adds:

"If President Wilson can secure a firm and honest government in Mexico without a preliminary season of bloodshed and chaos, he will perform a very remarkable diplomatic feat. But the damage to American interests by continued disorders is so great that we can understand his attempting it."

The Chronicle says: "Whether or not a formal ultimatum has been sent, the effect is the same. Huerta must surrender or the United States must undertake a Mexican war, and it is quite unlikely that Huerta will yield. The European nations, although they have great interests there, cannot conceivably contemplate going to war with Mexico, but are ready to give sympathy and passive support to the United States."

The Chronicle expresses the opinion that the Panama Canal has been the deciding factor in determining the United States to shoulder "such an enormous and perilous task."

## COPPER MINE STRIKERS TO FIGHT IT OUT

Open Stores and Prepare to Stay Out During the Winter—Output About One-fifth Normal.

Calumet, Mich., Nov. 4.—The copper mine strikers today began preparing to carry their fight for recognition of their union through the winter. Stores have been opened at several points, and others will be opened. The stores will be stocked with provisions contributed by strike sympathizers, and labor unions. Donations of money are being received from organizations affiliated with the American Federation of Labor.

Tomorrow starts the sixteenth week of the strike. The Calumet and Hecla is the only mining company which has brought its output up to almost normal through the employment of imported men, but other companies are adopting a similar course to break the strike. Present production is about one fifth of the district's normal.

## INVESTIGATES THE LIBERAL MISDEEDS.

Special to The Standard.  
Ottawa, Nov. 4.—G. T. Ferguson, who is investigating the alienation of public domain under the Liberal administration is in the city examining witnesses on the striking lease proposition which resulted in the resignation of Frank Pedley, deputy superintendent of Indian affairs. All afternoon was spent in the examination of an official of department of immigration who has been located in the United States doing immigration work for many years. His examination will be continued tomorrow.

## TAMMANY GOES DOWN TO A COMPLETE DEFEAT IN NEW YORK ELECTIONS

Fusionist Candidate for Mayor Elected in Gotham by Huge Majority.

SULZER ALSO WINS OUT FOR ASSEMBLY PLACE

Indications are New York Democrat Organization Will Not Even Save Smaller Offices—Democrats, However, Win in Massachusetts Contest.

New York, Nov. 4.—Charles R. Murphy, leader of Tammany Hall, at 8.15 o'clock conceded the election of Mitchell for mayor.

New York, Nov. 4.—Election returns at a late hour tonight showed a complete triumph for the Democrats in Massachusetts, where a governor and state ticket were shown in a four-cornered fight, the selector of a Democratic governor and state ticket in Virginia without contest, the ascendancy of Fusion over Tammany in New York City, with indications of Republican victory for the New York assembly, and judicial ticket, and a close fight for the state ticket in New Jersey, where President Wilson's administration forces fought to elect James F. Fiedler to the governorship.

In Massachusetts David L. Welsh, Democrat, president lieutenant governor, was elected by a plurality of about 50,000 over Augustus P. Gardner, Republican, Charles E. Bird, Progressive, and Governor S. N. Foss, Independent. Henry C. Stuart was chosen governor of Virginia, together with an entire state ticket, Republicans and Progressives having declined to name candidates because of inability to agree on a united ticket.

Rebates from New Jersey were delayed through Democratic leadership claimed a safe plurality for James F. Fiedler for governor over Edward C. Stokes, Republican, and Everett Colby, Progressive. In the early returns Stokes and Fiedler were running neck and neck. The Democratic claimed Hudson county for Fiedler by 2,000, while Republicans asserted supremacy for Stokes. Fiedler, who succeeded President Wilson as governor of New Jersey, had the support of the national administration, several members of the cabinet taking the stump in his behalf. National Republican leader in the contest, Mr. McArthur, and President Wilson and his policies were made the dominant issue.

Fusion Triumph.

In New York city, the triumph of the Fusion ticket was assured and late returns from the Hudson Bay Railway from Le Pass to Port Nelson, is in the capital in consultation with the department of railways for the work mapped out, and steel will be placed on the grade as completed.

Professor Kokovesoff Scorns Idea of Jews Killing Christians for Religious Purposes—The Defence Scores.

Kiev, Nov. 4.—The defense scored today in the proceedings against Mendel Bellis, who is on trial for the alleged murder of the Christian boy Yushinsky, when Professor Kokovesoff, who is making every effort to ridicule the idea that the Jews practiced ritual murder. Prof. Kokovesoff, who is attached to the St. Petersburg University, and is a relative of the Russian premier, said:

"Wee I told that the body of a child had been drained of its blood, and were it proved to me that this had been done by a Jew, the supposition that the crime had been perpetrated for the purpose of eating would be less absurd to my mind than the theory of ritual murder."

The witness could find nothing in the Talmud, he said, which directed the ritual murder of Christians.

The prosecutor's questions indicated that he attached much weight to the evidence of Father Panatka.

INJURED IN WRECK, DIES IN HOSPITAL

Mooselaw, Nov. 4.—Daniel Brooks, of Edmonton, one of those injured in a wreck here on Monday morning, died in the city hospital tonight. This brings the death list up to two. The other injured are reported to be doing well and no further casualties are expected. Brooks was a locomotive engineer, and was coming to Mooselaw to work. He was 27 years old.

The railway company has issued no official report in connection with the wreck. The incident will be resumed before Coroner Brown tomorrow morning.

Contractor J. D. McArthur in Ottawa Optimistic of Next Season's Operations—Stores of All Kinds Arranged For and Placed in Depots—Government Plans Proving a Success.

Special to The Standard.  
Ottawa, Nov. 4.—J. D. McArthur, who has the contract for the Hudson Bay Railway from Le Pass to Port Nelson, is in the capital in consultation with the department of railways for the work mapped out, and steel will be placed on the grade as completed.

Regarding the work on the Port Nelson harbor and terminals, Mr. McArthur said it was a gigantic and necessary work, and one that presented enormous difficulties. In such a unique work, never before attempted, there would be found many unforeseen difficulties, but that so far the government's plans seemed to have been carefully thought out and met with great success.

next year. Supplies of every kind have been arranged for, and will be taken in and placed in depots along the proposed grade so no delay is expected to be experienced next year. There is also every prospect that the labor supply will be found sufficient for the work mapped out, and steel will be placed on the grade as completed.

## THE SIX DAY "BIKE" GRIND IN BOSTON

Boston, Nov. 4.—After sixteen hours of riding, all but two of the teams in the six-day Bicycle race at the Arena had covered 379 miles at ten o'clock tonight. Willie Coburn, of Newark, and Clarence Carman, of New York, with Fred Keeffe, of Australia and Joe Kopshy, of New York, struggled in vain to make up the lap last yesterday.

An exciting spilt in which Grends, Ryan, Lawrence, Cavanagh, Carman, and Fogler figured, resulted in nothing more serious than bruises and scratches.

## INDIANAPOLIS POLICE HAVE REFUSED DUTY

Hand in Badges Rather Than Board the Street Cars.

PASS RESOLUTIONS AGAINST VIOLENCE

Officers Offer to Fight Crowds in Street—Are Sent Back to Patrol Duty After Resignation Refused.

Indianapolis, Ind., Nov. 4.—The refusal of thirty members of the police force to ride with strike-breakers, caused the fourth day of the strike to pass without car service here. The policemen turned in their badges, which were returned with orders to remain on patrol duty. It was announced that charges would be preferred against all after the strike had been settled. In spite of the presence on the street of an unusually large number of men due to the election holiday, little rioting was reported. The strikers and strike sympathizers gathered at a large meeting on this court house grounds and cheered several ministers who addressed them, counselling them to avoid violence. Resolutions denouncing violence were passed by the strikers.

The refusal of the police to act as strike-breakers for a trial trip. The first three squads of ten policemen refused to get on the cars, and the reserve squads protested so vigorously that it was decided to give up the trip. The policemen said they would march with the car, would fight in the streets, use their guns and clubs at risk to themselves, and face the mistakes of the crowd, but they would not board the cars.

Mayor Shaughnessy modified a former statement attributed to him defending the police. "After my conferences of the last few days," he said, "I believed the lives of all policemen running the cars were in danger, and I do not want any bloodshed. When the police are sufficiently reinforced, and I believe that can only be done by the state militia, I will see that every policeman does his duty."

Another death directly traceable to the troubles of the traction employees resulted today. John Brogan, who was shot October 23 during a riot in the downtown district, died of his wounds. Brogan was a union soapworker, who with others took part in a parade after a union meeting. James Gorman, a contractor, was charged with the shooting.

## QUEBEC RITUAL MURDER TRIAL FLOODED BY HEAVY SEAS

Quebec, Nov. 4.—The steamer Cascapedia, Captain Hearn, of the Quebec Steamship Company, which arrived here this afternoon from the Maritime Provinces, had a very stormy passage, having her saloon flooded. While between Cape Roster and Fame Point, from three o'clock on Saturday afternoon to half-past five o'clock on Sunday morning, she made only 25 miles, against a northeasterly gale, accompanied by snow flurries, with the thermometer registering 24 degrees. The wind then began to drive the steamer back.

A heavy sea washed over her bow onto the saloon deck, smashing in the two forward saloon doors. The steamer then ran down to Cape Roster and anchored under the lee of the cape until the gale abated. Captain Hearn, a veteran mariner, says he never saw such heavy weather in the Gulf of St. Lawrence before. The Cascapedia left for Montreal at five o'clock this evening.

## WILSTER LEAGUE BEING FORMED IN CANADA NOW

With Executive Committee in Toronto—Practically All Provinces Organize Branches—Hundreds Join.

Toronto, Nov. 4.—Official confirmation of the formation of a Unionist party in Toronto has been received in the following communication to the newspapers today from the secretary, J. A. Jackson:

"There has been formed in Canada a Canadian Unionist League, the executive council of which is in the city of Toronto. The object of the league is to enlist all Canadians who are willing to assist the Unionists of Ireland in maintaining the position they at present occupy in the Empire and to the utmost of our power we propose to assist the Unionist party in Ireland under the present trying circumstances in which they are placed."

## HUERTA STILL SILENT REGARDING

Has Not Replied to Order to Resign the Reins of Government.

BRYAN REFUSES TO MAKE A STATEMENT

Situation Serious Say Mexican Officials—Huerta Must Comply or War is Inevitable is General Belief—Battleships at Vera Cruz.

Mexico City, Nov. 4.—The undercurrent of the conversation at the National Palace tonight carried rumors regarding President Huerta's attitude in the face of Washington's demands that he retire, but the president himself preserved an enigmatical reserve.

Huerta's intimates are familiar with the terms of the communication, which they regard as practically mandatory. The memorandum from the Administration at Washington states that unless General Huerta retires immediately, and thereafter have nothing to do with the conduct of affairs, or the formation of a new government, the President of the United States will issue an ultimatum, which, if rejected, will cause him to call upon Congress to authorize him to use sterner methods.

The language used caused Huerta's friends to regard the American communication in itself as conclusive, since General Huerta has given no choice regarding further participation in Mexico's official affairs.

In the memorandum, it is impressed upon Huerta that his retirement from the presidency, and non-interference on his part are the only steps which will be acceptable to the American government. He is pointedly reminded that any attempt upon his part to leave as his successor any of those men connected with the coup d'etat by which he obtained the presidency, or to utilize in the proposed government any of these chosen in the recent elections, even those named as congressmen, would result in the definite breaking off of all relations.

It is understood that General Huerta be succeeded by some man or by some small group of men who will conduct the affairs of government temporarily somewhat on the line of a commission form of government, and that it be understood that this man or group of men shall immediately take steps to call new elections for the purpose of establishing a permanent government.

General Huerta is reminded that the United States is anxious to avoid trouble, as much for the welfare of Mexico as to preserve international peace. He is finally urged to abandon power, and to do it immediately, since the American government, it is indicated, will tolerate no further tormenting.

Washington, Nov. 4.—The Mexican situation was the subject of widespread comment in Washington today, but the day's developments in official quarters added little of a definite or tangible character concerning the exact status of affairs. The reports from Mexico City that a new and somewhat summary move had been made by the United States toward the elimination of General Huerta, brought no response from the state department, or other official sources, beyond a brief statement from Secretary Bryan, that no "ultimatum" had been presented.

A JAPANESE DOCTOR ISOLATES THE CAUSE OF RABIES IN THE BRAIN. CULTIVATES RABIES GERMS IN THE LABORATORY. HOPE THAT IMPORTANT DISCOVERY WILL LEAD TO IMPROVEMENTS IN TREATING DISEASE—MAY EFFECT CHANGE IN PASTEUR'S METHOD—MANY PREVIOUS ATTEMPTS MADE.

(Mail and Empire.) It is announced from the Rockefeller Institute that Dr. Hideo Noguchi, the brilliant young Japanese investigator, has isolated the germ of rabies and has succeeded in artificially cultivating it. Just what this discovery may lead to in the treatment of rabies is, of course, uncertain, but it is hoped that it may change the present treatment for the disease. Five doctors had a chance to fight it even after it has stormed the citadel of the brain itself. Many previous attempts have been made to locate the specific germ, and for some time it was supposed that Negri had done so, but it would appear that the bodies that he first identified and which have been called by his name were not the germs, but a protozoan. Before Noguchi's announcement it was not definitely known that the germ of rabies belonged to the protozoa family, or was indeed a living organism. If quinine will keep one kind of protozoa, as it undoubtedly does in the malaria, it is not too much to hope that it might be generally used with success upon another kind, the cause of the germ of rabies. A very suggestive indication in any event, the discovery of Noguchi cannot be regarded as a most important step in the direction of conquering the disease.

Germ's Long Latent. The Pasteur method, it ought to be understood, does not aim to eradicate the germ of hydrophobia, but to prevent them multiplying and reaching the brain. When the virus from an animal suffering from rabies is deposited in a wound, as from the bite of a rabid dog, for instance, it remains latent for an indefinite period. It has been known not to manifest itself until almost nine months had elapsed, while at other times it will develop in a few days. It is not of record, however, that a man who has been infected shows immediate symptoms. The stories of victims of supposedly rabid dogs who have frothed at the mouth, growled, barked and otherwise behaved as though demented in a few hours after having been bitten may be true enough, but if so, they are the result of a species of autohypnotism. The unfortunate victims' fears have so acted upon them that it simulates a condition that is not present.

Rabies and Tetanus. In a case of true rabies, as soon as the germ reaches the body it proceeds to travel toward the brain, and it is not until it has reached the brain that there are any trustworthy symptoms. There is here an odd contrast to the course taken by the germ of tetanus, a disease which in many respects exactly resembles rabies. In tetanus the germ remains where it enters the body, but it produces there a toxin, and this toxin flows toward the brain. Quite recently a means has been discovered of neutralizing this bacteria and the result is that tetanus is no longer the terrible disease it formerly was. The Pasteur treatment for rabies can only be successful when the treatment is applied before the germs which are travelling toward the brain can be intercepted and prevented from incubating. We're it not for this period of incubation a bite from a rabid animal would be as fatal as a bite of a cobra. The period of incubation, however, gave Pasteur a foothold from which to wage his battle, and it is claimed that only one patient is lost out of every thousand who are treated.

Pasteur's Cure. Pasteur did not use what is ordinarily termed a virus. From the virus of a rabid dog he got what is called a "street" virus, and this he transferred to other rabbits, increasing its virulence in each case until he was in possession of a virus whose period of incubation became fixed. That is to say, he could tell certainly just how long it would take to produce death. The remarkable thing about the fixed virus is that while it is absolutely deadly to the rabbit, it is innocuous to human beings and dogs. In fact, it has strong anti-toxin qualities when used upon either. It is not this virus that

EGZEMA ON FACE, SCALP AND HANDS. Came Off in Scales, Itched Badly, Had to Tie Hands, Little Watery Pimples, Cuticura Soap and Ointment Completely Cured.

1307 Davenport Road, Toronto, Ont.—"My eczema first started when I was a baby, on my face and scalp. It seemed dry and when I scratched it, it came off in scales. It itched very badly and I was obliged to have my hands tied up so as to prevent scratching my face. Little white watery pimples came out on my hands and face and I had to stay home from school for nearly two weeks. It caused my face and hands to look badly. The eczema took a very bad form, appearing on my face in little watery ulcers so bad that I could hardly bear to be touched. My hair turned naturally very thick I found by getting thinner and wondered what could cause it to fall out.

"My mother tried — and — and spent no end of money trying to get me better but it did no good. At last a friend recommended Cuticura Soap and Ointment and my mother used them. We applied the Cuticura Ointment to my face, head and hands and washed with the Cuticura Soap and the eczema began to disappear. Before six months had passed I was completely cured." (Signed) Miss Constance Gray, May 28, 1912.

Cuticura Soap and Ointment do so much for pimples, blackheads, red, rough skin, itching, scaly scalps, dandruff, dry, thin and falling hair, chapped hands and chaps on the face, that it is almost impossible to use them. A single set is often sufficient. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 35-cent book, send post-card to Peter D. TAMMANY GOES DOWN TO A COMPLETE DEFEAT. Continued from page one. New York City today, electing John Purroy Mitchell, mayor by approximately 55,000 plurality and retaining control of the important board of estimates by a vote of 100,000 to 90,000. Tammany Hall saw its nominee for the mayoralty, Edward E. McCall, go down to defeat by one of the biggest pluralities ever given against a candidate of the organization, and it looked near midnight as if it might not even save the New York county offices out of the wreckage. PROSECUTION IS COMING FOR SEVERAL. The Masters and Mates Must Hold a Certificate. MAJOR BIRDWHISTLE VISITING THE CITY. Long Record of Excellent Work of St. John Ambulance Association—Its other Branches.

"Every candidate for a master's or mate's certificate will in future be required to have a certificate from the St. John Ambulance Association to show that he is qualified in first aid work, and before he will be granted the papers, was the statement made by the Standard last night by Major Birdwhistle, general secretary of the Canadian branch of the St. John Ambulance Association. Major Birdwhistle is in the city visiting the local branch, and will be here for the next few weeks touring the maritime province in connection with the work of the association.

OBITUARY. The death of Mary, wife of Captain W. B. MacLean of Main street, occurred at her residence last evening. Deceased was in her 81st year. She was well known in the North End and held in high esteem by a large circle of friends and acquaintances who will regret to learn of her death. Mrs. MacLean has been in illing health for some time. About a year ago she fell on the ice and received injuries from which she never fully recovered. She was a daughter of the late James Dorcas and Mrs. Dorcas, of Boston, one son, Charles H. of Boston, and a daughter, Mrs. Robert Wisely of this city, also five grandchildren. A particularly sad circumstance in connection with her death is the fact that her sister, Mrs. Duncan, died on Monday and the two sisters lie dead in the same house. The funeral of the latter takes place today, while that of Mrs. MacLean will be held on Friday afternoon.

Next to Consumption. There Are More Deaths From PNEUMONIA Than Any Other Lung Trouble. Pneumonia is nothing more or less than what used to be called "Inflammation of the Lungs."

DR. WOOD'S NORWAY PINE SYRUP. Consumption may be contracted from others, but as a rule pneumonia is caused by exposure to cold, and wet, and there is only one way to prevent pneumonia, and that is to cure the cold on its first appearance.

GIRLS ASSOCIATION IS MAKING PROGRESS. At the regular meeting of the association held yesterday afternoon in the rooms of the Association, Union street, Miss Pitt reported that the season had been inaugurated most auspiciously with an entertainment. The proceeds of the entertainment are to be devoted to the fund for building a summer camp for the girls. The amount realized at this entertainment, was very satisfactory and will aid materially in carrying out the scheme which will no doubt prove of great advantage to the members of the association.

CRASHED INTO ICE MOUNTAIN

Manchester Commerce Limps into St. John's, Nfld. with Bows Crushed in after Hitting a Berg.

St. John's, Nfld., Nov. 4.—Landing heavily to port and with her bows crushed in as far as the forward bulkhead, as the result of a collision with an iceberg, the Manchester Commerce freight steamer Manchester Commerce, which was bound for Montreal, was damaged in a collision with an iceberg in the Gulf of St. Lawrence.

The force of the impact was terrific. The steel prow of the liner was crumpled up like a piece of tin as far as the collision bulkhead and the decks were covered with fragments of ice from the berg. Captain Couch made a hasty survey of the damage, notified his agents at Montreal of the accident and headed his ship for St. John's. The sea was swept by a heavy storm and the steamer had a hard time making port. Torrents of water poured into the hold through the shattered bow, the pumps, although constantly in operation, could no more than hold their own against the rushing flood.

The Manchester Commerce reached here in a perilous condition. Shipping men declared that she was the worst iceberg wreck that had ever entered the harbor. The steamer carried 1,000 tons of general cargo, which is believed to be undamaged. Her lower hold, above which the water did not come, was filled with timber, while the main, four and other holdstuffs were on the deck above. The repairs to the steamer will require about two months. The Manchester Commerce carries a crew of about forty officers and men. She is built of iron and registers 5,363 tons gross.

REMODELLING PRINCE RUPERT. Two of the Holds being Converted into Passenger Apartments—Wireless and other Equipment.

A summary of the alterations being made to the Prince Rupert will be of interest to those along the water front of St. John and other ports where the Rupert was well known and to the travelling public as well. The hold being converted into passenger quarters, just above the funnel, and a wireless house on the same deck put further aft. There is to be a separate galley in the crew's quarters for some time. It is for the Rupert to be practically a passenger boat, for there will be little, if any, freight space.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial? Especially if you could try it for fifty cents!

Peps is the discovery! Peps are little tablets, neatly wrapped in air and gum-proof silver foil. They contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the capillaries and stay it sees in the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing. Peps are entirely distinct from the old-fashioned liquid cough cures, which are merely swallowed into the stomach, and never reach the lungs. Peps treatment of coughs and colds is direct treatment.

If you have not yet tried Peps, put out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto, Ontario, Canada. The name will then be sent you. All druggists and grocery stores sell Peps at 50c. box.

BREAK WHISKY'S GRIP ON YOUR LOVED ONES. Drunkards will tell you with tears of sincerity that they do not want to store. Ask for Free Booklet telling the inflamed membranes of the stomach drives them to it. Alcura will soothe the trembling nerves and remove the craving that is ruining your home and stealing an otherwise kind husband or father from you. It costs only \$1.00 per box and if it does not cure or better after a trial, the money will be refunded.

Alcura No. 1 is tasteless and can be given secretly in tea, coffee or food Alcura No. 2 is taken voluntarily by those willing to help themselves. Alcura can now be obtained at our Store. Ask for Free Booklet telling all about it and give Alcura a trial. E. Clinton Brown, druggist, St. John, N. B.

ST. JOHN, N. B., WEDNESDAY, NOVEMBER 5, 1913.

THE NEW YORK ELECTIONS.
From the result of the New York elections as told in despatches received up to an early hour this morning, it would appear that the electors of America's biggest city have used the operating knife rather freely upon the cancerous growth that for many years has fattened at the expense of its political good name.

In the elections yesterday, John Pomeroy Mitchell, running as the Fusionist nominee for the mayoralty of New York, had as his opponent Edward E. McCullough, the choice of the Tammany organization, and returns of the voting received up to two o'clock indicate the victory of Mitchell by a majority expected to reach from 40,000 to 50,000.

Knowing the power, resourcefulness and unscrupulousness of the Tammany leaders, the utmost precautions were taken in New York yesterday to insure an honest vote. On Monday night warrants were procured for the arrest of 5,000 men, who, it was feared, might attempt to repeat, personate or engage in other illegal practices during the voting. These warrants were distributed among the different polling booths with instructions that they should be executed at every sign of offence. At the same time, and to make sure that corrupt police officials would be unable to save the political crooks in their district, every police captain in New York received a twenty-four hour transfer to a station sufficiently removed from his own to prevent any possibility of wrongdoing.

This safeguarded the decent citizens of New York went to the polls to rescue their city from the clutches of the spoilsman and the grafter. It looks this morning as if their fight had been successful. The Tammany candidate for Mayor is reported defeated and, unkindest cut of all, William Sulzer, ex-Governor of the State, who was condemned by what he, himself, termed the "high court of infamy," convened by the Tammany leader, has been at least partially vindicated at the court of public opinion and elected a state assemblyman for the Sixth District. With Sulzer again an active participant in municipal and state politics in New York, Tammany can count another very aggressive addition to the forces working for the downfall of that nefarious organization.

AN EXPERIMENT IN "GETTING THERE."
An experiment, which will be watched with interest by military men will be made next Saturday in Montreal when seven corps of the Canadian militia will demonstrate how quickly they could march in war time if the safety of the country should depend upon their ability to reach a designated position at a certain moment.

In most of the great war occasions have arisen when the ability to perform a forced march has had an important bearing upon the ultimate result. Such occasions were not infrequent in South Africa and later, during the first war between the Balkan States and Turkey. Still more recently, in the second Balkan conflict there were notable instances when the ability of the forces to move rapidly from place to place stood them in good stead.

There is little possibility that Canada will ever be attacked by a land force, but it is well to know just to what extent our militia forces can be depended upon in all sorts of emergencies. This is the plan the Minister of Militia has determined upon for the training of the Canadian soldiery; to reproduce, as far as possible, the conditions of actual warfare. Already military experts have remarked upon the great improvement in the Canadian forces since Col. the Hon. Sam Hughes took charge of the militia department. It is safe to assume that this improvement will be maintained. The Montreal experiment of Saturday next furnishes one of the best tests of the marching ability of Canada's citizen soldiers and as such will be watched with interest.

SIR WILFRID AT ST. HYACINTHE.
The people of Canada can hardly imagine Rt. Hon. R. L. Borden's expression to any sentiments that the papers supporting him would be afraid or ashamed to publish. In this respect the Conservative newspapers are more happily situated than their Liberal competitors. There is a case in point. Premier Borden made a speech in Halifax which Conservative newspapers were proud to publish at length. Sir Wilfrid Laurier, on the other hand, addressed an audience of French-speaking Liberals at St. Hyacinthe, Quebec, and, in the course of his remarks, made sneering references to the British government as the "high-brows of Downing street."

The Standard invited the Telegraph to print the full text of Sir Wilfrid's address in order that St. John Liberals might be fully advised of the high patriotic expressions indulged in by their leader. Up to yesterday, however, the Telegraph could not summon sufficient courage to place its leader's opinions of "the high-brows of Downing street" before this community. Instead, the Pugsley organ attempts to bluff its way out of the difficulty by asking the Standard to print the full, uncut address. Rather an ingenious idea, but hardly relevant. The Telegraph itself should either defend the utterances of its leader or confess that it lacks the courage to do so.

DIARY OF EVENTS

HISTORIC DAYS IN CANADA

Sir George Cathcart, who fell fighting gallantly at the battle of Inkerman and died fifty-nine years ago today, had a long and brilliant military career in British America. The hero of Inkerman was born in 1824 and was the eighth son of the first Earl Cathcart, a distinguished soldier and diplomatist. He was military attaché at St. Petersburg while his father was serving as British minister to Russia. Returning to England he rejoined the army, and was aide-de-camp to Wellington at Waterloo. After Napoleon's defeat he became a lieutenant-colonel in which rank he held a command for some years in Nova Scotia, and also in the West Indies. He retired in 1854, but three years later, in consequence of the rebellion in Canada, he returned to the service and was dispatched to this country, and was placed in command of the troops and militia south of the St. Lawrence. What was his first action? Quoted, Sir George again retired, but in 1852 he was appointed governor and commander-in-chief of the Cape of Good Hope, where he put down a native rebellion. When war broke out in the Crimea he was appointed to the fourth division of the army.

November 5 is the anniversary of the abandonment and destruction of Fort Erie by the Americans in 1814.

THE PASSING DAY

GUY FAWKES DAY.

This is Guy Fawkes Day in England—the anniversary of the discovery of the plot of Guy Fawkes and his fellow conspirators to send King, lords and commonwealth shooting in one grand explosion by springing a gunpowder mine under Parliament House, November 5, 1605. Once the great patriotic festival of British youngsters, Guy Fawkes Day is no longer generally observed, and only a few cling to the time-honored custom of lighting bonfires. Fawkes' night and eating "parkin." The latter is a cake made of oatmeal, molasses and ginger, and for centuries its consumption has been inseparably connected with the fifth of November festival.

In threatening to blow up public buildings the English militant suffragists have but followed the example of Guy Fawkes and the others implicated in the gunpowder plot. If the "wild women" should seriously undertake the job, however, it is highly probable that their destructive efforts would have more serious results than did the plot of the seventeenth century conspirators. They were men, and lacked the finesse of the bash-bazookers of the twentieth century.

Religious animosities such as now threaten to engulf Ireland in a sea of trouble were responsible for the Guy Fawkes plot. The laws of Elizabeth, in relation to Roman Catholics, had been characterized by injustice and cruelty. With the coming of James II. to the throne the adherents of Rome expected an amelioration of the law, but they were disappointed, as the laws against them were enforced with even greater vigor. In retaliation Robert Catholicism and other Catholics hatched the gunpowder plot. Thirty-six barrels of the explosive were stored in a vault under the stone wall nine feet thick. The king was to convene Parliament on the fifth of November, when Guy Fawkes was to fire the powder and send monarch and lawmakers to destruction. A letter of warning sent to one of the Catholic lords resulted in the discovery of the conspiracy before it could be put into effect. Guy Fawkes confessed or gave the names of his fellow plotters, and with his lips still sealed was sent to the scaffold. Several other prominent Catholics were executed. The execution of the act of Parliament the fifth of November was proclaimed a day of thanksgiving "forever."

THE HUMAN PROCESSION

A NOTED SOCIALIST

Eugene Victor Debs, perpetual candidate for the presidency of the United States on the Socialist ticket, was born in Terra Haute, Ind., fifty-eight years ago today. Four times he has been the standard-bearer of the red flag party of the United States, and while he has been consistently and persistently defeated, he has received a constantly increasing vote. Debs is now engaged in running for the presidency in 1916 and 1920. He has been a locomotive fireman, a grocer, a bricklayer, a printer, a member of the Indiana legislature, and president of the American Railway Union. While managing the railway strike in 1894 he was sent to jail for contempt of court, and it was while he was behind the bars that he began to study socialism and became a convert to the Marlan school of industrial revolutionists. Not long ago the persistent Debs, and his charming and intellectual wife shocked Terra Haute society by taking a woman from the street into their home. It has since been alleged that the woman has fully reformed.

STANDARD OIL'S NEMESIS

Miss Minerva Tarbell, who wrote "The History of the Standard Oil Company," is a native of Erie county, Pa., and makes no secret of the fact that she will pass her fifty-sixth milestone today. Her father was one of the pioneers in the development of the Pennsylvania oil fields. The famous woman journalist declares that she feels no need of suffrage for herself, and has expressed doubts as to whether it would be of any real value to the masses of women. The chief argument against woman suffrage, she declares, is that women do not take advantage of the opportunities for advancement already within their grasp. She is a stern critic of the suffrage movement, and this attitude, which she says is in bad taste and extravagant.

ROOSEVELT'S SON-IN-LAW

Birthday congratulations are due today to the world's most distinguished son-in-law, Nicholas Longworth, who passes his forty-fourth milestone. Mr. Longworth is a millionaire, a lawyer, an ex-congressman and a poet, but he is chiefly famous as the husband of Alice, nee Roosevelt. Mr. Longworth was first married to a daughter of Congress last fall by Stanley E. Bowdler, who led in the race by the mere margin of eighty-five votes.

IN LIGHTER VEIN

Of Course.
"Why did you allude to the restaurant we just left as the 'Light Brigade Cafe'?"
"Oh, the wild charge they made."
Always.
"Do you give your wife an allowance, or does she ask you for money when she wants it?"
Both.
Tut, Tut.
"How did you feel when Jack kissed you through the tunnel?"
"I felt as if I never wanted to see his face again."
Resistance.
"What do you think? That lady cop tried to kiss me and when I refused to let her she arrested me."
"Arrested you! On what charge?"
"Resisting an officer."

SEE IF THE CHILD'S TONGUE IS COATED

If cross, feverish, constipated, give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act normally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Oh, Dear.
"Ow, said Mrs. Lonsweid, "you men are all alike. Before marriage you are forever paying compliments, but after marriage—"

A New Field.
"Hello! Practising your piano lesson?"
"No, I'm studying aviation."

Force of Habit.
"How is this for salubrity? Ferdinand never addressed me without beginning, 'Fair miss,' or something like that."

Force of habit, my dear. He acquired it when he used to be a car conductor."

Me Ran.
"Now take me," said the selfish man who looked the part. "I always look out for number one, don't you?"

"Not exactly," replied his tete-a-tete, who chanced to be a widower, "I'm looking out for number two!"

An Infallible Sign.
"Ah, yes, I'll know I drank too much at the banquet."

"Why, you are walking straight enough."

DISMISSES SECTION OF GOVERNMENT
Yuan Shi Kai Expels Miang Tang Party from Parliament — May 1 Serious Effect.

Peking, Nov. 4.—The struggle between the Chinese parliament and the president Yuan Shi Kai has brought drastic action by the president. In the opinion of many, with its serious effect on parliamentary government. Lengthy presidential nominations were issued at midnight compelling the Kwo-Ming members numbering more than three hundred members, from parliament. The nominations recount the difficulties with which the government has been struggling since the Manchurian and describe disasters which are said to follow if parties, such as Kwo-Ming Tang are permitted to remain. The Kwo-Ming Tang party formerly headed by Dr. Sun Yat-sen was the first provisional president of who is now in exile, but during recent rebellion was required by Shi Kai to dismiss its southern members. Nevertheless, members of the party continued to fight in parliament for the curtailment of Yuan Shi Kai's authority.

A crisis in the situation was averted when the draft proposed constitution made the president absolutely dependent upon parliament. The Martial law is in force in Peking, the authorities are engaged in making arrests, and many executions, which have numerous since the rebellion. It is understood, will continue parations are under way for the statesmen who served under the cabinet to resume their positions. At various legations, the opinion held that only by strong action the president prevent the disintegration of China by her own people. The has been accomplished by the president, which has devoted its opposing the president since it is averted, while disorders are spreading.

HEART WAS SO B Could Not Do Her Housework

Many women get run down and unable to look after their household owing to the heart action becoming impaired or the nervous system unsound. To all such sufferers Milburn's Nerve Pills will give prompt permanent relief.

Mrs. Thomas Melville, Saltcoats, writes:—"I thought it my duty to write and tell you how much you and Nerve Pills did for me. My was so bad I could not sleep, could not walk about the house. I could not do my housework at all, and what my hand could not do had to go to my I had two small children depending besides three men to cook for, so I was not able to do any of my household duties. My husband had taken some of your pills some years ago, and insisted on trying them, so I started, and I had taken them two weeks considerably better, and before taken two boxes I was doing my own again. Any one suffering from or nerve trouble should just give pills a trial. If anyone cares to write I will gladly give them all the information I know concerning your wonderful medicine."

### DISMISSES A SECTION OF THE GOVERNMENT

**Yuan Shi Kai Expels Kwo Ming Tang Party from Parliament—May have Serious Effect.**

Peking, Nov. 4.—The struggle between the Chinese parliament and President Yuan Shi Kai has brought about drastic action by the president, which, in the opinion of many, will have a serious effect on parliamentary government. Lengthy presidential proclamations were issued at midnight, expelling the Kwo-Ming Tang party, numbering more than three hundred members, from parliament. The proclamations recount the difficulties with which the government has been struggling since the Manchou regime, and describe the disasters which are certain to follow if parties, such as the Kwo-Ming Tang, are permitted to exist. The Kwo-Ming Tang party was formerly headed by Dr. Sun Yat Sen, the first provisional president of China who is now in exile, but during the recent rebellion was required by Yuan Shi Kai to dismiss its southern leaders. Nevertheless, members of the party continue to fight in parliament for the curtailment of Yuan Shi Kai's authority.

A crisis in the situation was reached last week when the draft of the proposed constitution made the president absolutely dependent upon the parliament. Martial law is in operation in Peking, the authorities are engaged in making arrests, and summary executions, which have been numerous since the rebellion began, it is understood, will continue. Preparations are under way for the elder statesmen who served under the Manchou to resume their positions in the cabinet.

At various legations, the opinion is held that only by strong action can the president prevent the disruption of China by her own people. Very little has been accomplished by parliament, which has devoted its time to opposing the president since it convened, while disorders are spreading.

**A NEW AND SIMPLE PROCESS**  
Embroidery Patterns That May Be Easily and Clearly Transferred Many Times.

Those who do embroidery and have used the old-fashioned methods of transferring the designs to the fabric by use of a hot smoothing iron were not infrequently annoyed and disappointed to see a pattern come out smudgy or incomplete, and once when this undesirable result was the chief and certainly unwelcome feature of the operation it was almost impossible to remedy the matter. The best feature, however, is that these new patterns are the only ones that will transfer more than once.

With the imperial patterns which are being distributed by The Standard no hot iron is used and an entirely new and simple process is employed by which from the negative a sharp and satisfactory positive impression is always obtained. The imperial Pattern Outfit contains over 160 designs of the latest styles, a booklet of instructions and a metal hoop, all for six coupons and 70 cents, or 10 cents extra if to be mailed.

### REFORM COMMISSION TO VISIT UNITED STATES PENAL INSTITUTIONS

Kinross, Ont., Nov. 4.—G. M. MacDonald, chairman, stated today that members of the Prison Reform Commission would leave on the 13th of November to visit the penal institutions of the United States. They intend going to Stillwater, Minn.; Mansfield, Ohio; Concord, N. H. The commission will be away for a week or more, so this will mean that it will be the end of this month or possibly early in December before the commission resumes its sessions here again.

In addition to the evidence of more convicts, the commission has yet to hear the charges preferred against H. Best, assistant overseer at the Penitentiary Hospital.

### SUPERIORITY OF OUR RAILWAY COMMISSION

**Canadian Method of Dealing with Transportation Problems far in Advance of United States.**

Special to The Standard. Ottawa, Nov. 4.—"I am impressed with the superiority of our own railway commission, with jurisdiction over all rates even if only between two points in the same province," said Assistant Chairman Scott of the Railway Commission who has returned with Commissioner Goodve from the National Association of Railroad Commissioners at Washington.

"There is apt to be more or less friction when you have jurisdiction divided between inter-state commission and different state boards as in the United States," continued Mr. Scott. The physical value of railways, that is the determination of what they are worth in actual dollars and cents, a matter of vital interest in the western freight rates inquiry at present in progress, is the main subject of investigation and the whole topic of discussion in United States railway circles.

The Canadian commissioners attended the meeting chiefly as spectators though in reply to an address of welcome from the convention they explained the Canadian method of controlling transportation.

### RELIGIOUS TRAINING Bishop Richardson, in Address to Diocesan Synod, Urges Need of Teaching Children.

Fredericton, Nov. 4.—The forty-fifth annual convention of the Diocesan Synod of the Church of England in New Brunswick was opened in Church Hall today by Bishop Richardson with over 200 delegates in attendance. The Synod service in the cathedral in the morning was conducted by the Bishop of Huron.

In opening his remarks Bishop Richardson paid tribute to the memory of Rev. T. W. Street, George E. Fairweather and Ernest Shepherd who had passed away during the year, and made special reference to the activities of Mr. Fairweather who for many years was associated with Stone Church, St. John, and who for fifteen years served as treasurer of the old Diocesan Church Society.

His Lordship, referring to the British and Foreign Bible Society, remarked that without the aid of the society it would be difficult for the church to carry on its missionary propaganda amongst peoples of different languages and dialects. The Bible Society, he said, lent most valuable assistance to the church in Canada, and desired that in future the members would interest themselves more deeply in its welfare.

The Sunday school as a medium for the religious training of the young was in the eyes of the Bishop a most valuable agency, and he strongly approved of the children being carefully instructed in the Sunday school. The lack of proper training in the home, the speaker pointed out, necessitated all the attention possible being shown there where they could come under the influence of the Bible. It is the duty of the public schools, through the teachers, earnestly endeavoring to impress the principles of faith on the children.

His Lordship remarked that every effort should be made on the part of the church to make the Sunday school work as complete as possible, and in order to do this, he said that the assistance of the laity in the various parishes was most essential.

In regard to the religious training of the young, he said that they might try, despite previous failures, to at least partly reverse the present policy of the public schools in relation to the Bible. Here, the speaker said, was an opportunity for Christian unity to accomplish something.

His Lordship spoke of the rapid advancement of the church in Canada and gave the standing of the leading non-Catholic bodies as follows:

### AMERICAN NEWS OF INTEREST IN THE MARITIME PROVINCES

**Big Increase in New Brunswick Farm Produce Shipped to United States—Echo of Richardson Murder Case before Courts—Law to Protect Farmers.**

(Special Correspondence To The Standard) Boston, Nov. 4.—Trade from Canada has increased rapidly of late, especially in farm products. The shipments of New Brunswick potatoes are large, especially from the St. John river country. The First Baptist street church of Haverhill has extended an invitation to Rev. Edward D. Webber, who was born at Sackville, N. B., in 1860. He was graduated from Acadia College at Wolfville in 1881 and from the Tremont Theological Institution in 1892. He was ordained at Wallaston, Mass. in 1902 and was pastor there until 1908, when he was called to the Baptist street church at Wolfville. He recently resigned his Nova Scotia church and is expected at Haverhill Dec. 1.

Rev. W. E. Hinson, formerly of Moncton, recently had the distinction of officiating at an elaborate Chinese wedding in a Portland, O., Baptist church. The bride, Miss Rosalind Good, daughter of Good Dip, Chinese consul, had a dowry of \$10,000. Good Dip is one of the richest Chinese men in the United States. The bridegroom was Lew Gaste Kay, a university graduate. The bride's gown was imported from Paris.

An echo of the case of Clarence N. T. Richeson, a former Baptist minister, who was executed for the murder of Miss Avis Linnell, last year, is before the Boston court. Dr. Howard A. Lothrop has sued the county of Suffolk for \$25 to recover fees for a surgical operation performed on Richeson at the Charles street jail. The doctor claims that his patient, Richeson's life and has not been paid by relatives or the authorities.

### DEATHS CHARLOTTETOWN MAN VICTIM OF ACCIDENT

Thought to have Tripped while getting off Train and Fallen to Death—Head Struck Post.

Charlottetown, P. E. I., Nov. 4.—This morning the remains of James J. Mahan, aged 35, a traveling baggage master on the Prince Edward Island Railway, were found lying in the mud close to the advanced grade. He had arrived from Summerside at 11 o'clock last night, attended to his baggage as usual, and got in the train when she was being run. He was in the habit of getting off the train in the yard and taking a short cut home by walking across the tracks. The track runs within a few feet of the edge of the breastwork, and it is thought that in alighting from the train he may have stumbled over the oil tank pipes running alongside the edge and fallen into the water.

### FUNERALS. Miss Mary Elizabeth Gallagher.

The funeral of Miss Mary Elizabeth Gallagher took place yesterday afternoon from the Mater Misericordiae Home to the Catholic cemetery, Sanson Cove. The burial service was read at the home by Rev. Dr. J. J. O'Reilly.

### CHRISTIAN SCIENCE. Present indications point to a big attendance at the lecture on Christian Science which is to be delivered at the Opera House this coming Sunday, November 9.

The lecturer, Virgil O. Strickler, is a member of the board of lectureship of the First Church of Christ, Scientist, in Boston (Mass), and he may say on this subject may be taken as authentic. Mr. Strickler is said to be a pleasing lecturer and has lectured on this subject in all quarters of the continent—fully six thousand persons thronged the great edifice at Boston to hear him lecture there.

### SEAMEN'S MISSION. A meeting of the board of management of the Seamen's Institute was held last evening, when plans for the coming winter season were formulated.

The treasurer reported, in consequence of the withdrawal of the Expresses it would be necessary to call upon the citizens of St. John to make up the collections heretofore received from these steamers, which last season amounted to about \$700. It is expected that the forthcoming season will be a very heavy one, and the help and sympathy of the citizens is urgently solicited.

### CANADA'S HELP NEEDED MORE THAN EVER NOW

**Lord Charles Beresford has Called Attention to Urgent Need of Assistance from Dominions.**

(Montreal Star.) Lord Charles Beresford called attention the other day to a novel feature of the new naval situation which is very often lost sight of by even sincere students of international affairs. By way of proof of his statement that, while "the British fleet is stronger than it ever was, it was not weaker as compared with other nations," he pointed out that "there are 150 Dreadnoughts built, building or projected in the world, of which British owns thirty-nine."

That, there are a lot more nations seriously entered in the naval race now than there used to be, it is not so very long since it was Britain first and France second, and all others nowhere. There was not a single other navy of importance in existence. Britain maintained a two-power standard against France and Russia; and this made her secure from any possible combination.

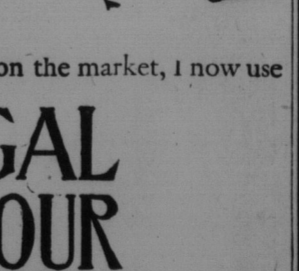

### LOCAL EXAMINATIONS FOR MUSIC COURSE In Connection with Mount Allison Ladies College—If Successful will Found Scholarship.

A scheme of local examinations in music in connection with Mt. Allison Ladies' College has been evolved, the scope of which will be from the elementary to the advanced grades. In each grade a high standard will be maintained. The subjects will be: piano, six grades; singing, violin and organ, each four grades. The promoters are confident that the results will be the best, and test the more advanced students for a further course of study in any of the recognized musical institutions.

"After trying every flour on the market, I now use REGAL FLOUR exclusively because I have found that no other flour gives such invariably satisfactory results. With Regal I know I can make bread and pastry that will always excel. There isn't a doubt in a barrel of Regal. It's all good and always good. That's why I always use Regal and recommend it to other housewives. They take no risk in trying it for they can buy a barrel subject to the condition that if not satisfactory they can get their money back."

### NEW MILITARY GROUNDS FOR M'GIVNEY JCT.

**Treasury of New Brunswick to be Enriched by \$130,000—65,000 Acres Secured.**

Special to The Standard. Ottawa, Nov. 4.—James Graham White, of Winnipeg, has been appointed chief weighmaster for Canada with headquarters in Fort William. The duties of the position are the general supervision of grain weighing. The treasury of New Brunswick is to be enriched by \$130,000 as a result of the concluding of an agreement between the federal and provincial governments for the handing over of a manoeuvring area at McGivney Junction, N. B. The area consists of 55,000 acres and is to be paid for at the rate of \$2 per acre. It is situated about the centre of the province where the Transcontinental and the Intercolonial railways cross, so as to afford easy access from all directions. The surface is diversified and will afford excellent facilities for training.

### ENDS BACKACHE AND KIDNEY DISORDERS

**Croxone Helps Lifeless Organs Regain Health, Strength and Activity**

It is useless, dangerous and unnecessary to be tortured with the dragging, twisting pains of backache or suffer disagreeable kidney and bladder disorders when Croxone is guaranteed to promptly and surely relieve all such misery.

Croxone masters these troubles because it quickly reaches the cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood the waste and poisonous matter that clog the system and cause such troubles. It does not matter whether you have but slight symptoms or a chronic aggravated case it is practically impossible to take Croxone without results.

An original package of Croxone costs but a trifle and all druggists are authorized to return the purchase price if you are not entirely satisfied the very first time you use it.

"I am not in a position to invest now"

This is an all too frequent reply which investment houses receive when they send out security offerings.

Outside of the really well-do in this country, the number is surprisingly small who are in a position to invest.

We devote so much time to the earning of money that we have neither the time nor energy left for the proper consideration of its investment. And so it goes, with little or nothing to show for it.

To invest intelligently means not only to save and protect at which you have already earned, but to make this investment in earning more.

If you are not in a position to consider an outright security purchase now, why not start on a modest scale with a partial payment plan? We'll gladly show you how.

**FAMOUS ENGLISH POET HEARD  
IN NEW DELIGHTFUL LECTURE**

Alfred Noyes, a Sturdy Advocate of Peace, Scores Militarism and World's Mad Rush for Armament — Lecture in Nickel Theatre under Auspices of High School Alumnae.

Vulcan, the giant of labor, already is reaching for his hammer to smash the soulless machinery of Moloch, and when the giant swings his hammer he will probably swing it so hard that the spirit of militarism will give up the ghost, and those who are at present mismanaging civilization will get busy trying to solve the social problems which are troubling humanity or be relegated to oblivion, according to Alfred Noyes, the English poet, who delivered a lecture entitled "The Green Table," in the York Theatre last evening under the auspices of the High School Alumnae before a large audience.

**Opposed Militarism.**  
Mr. Noyes with trenchant eloquence delivered a "vision of idealistic view" what he called the sophistry of militarism, ridiculed the arguments of the militarists, declared that even sober statesmen admitted that the race for armaments was sheer madness or folly, made a plea for a clearer and more up-to-date conception of patriotism, and painted an idealistic view of the possibilities of civilization when it has outgrown the childishness of barbarism, and devoted its mighty resources to the uplifting of humanity.

In opening his address Mr. Noyes recited his poem on the Origin of Life, an answer to the statement of a scientist that life was the result of a fortuitous concourse of chemical elements.

**The Race of Armaments.**  
Taking up the arguments of the militarists, he claimed that they were nothing but sophistries. This being an age of specialism, militarists only saw one aspect of the question, and involved themselves in contradictions. One argument was that man was a fighting animal and unless we had wars peoples would degenerate.

English militarists reduced this argument to absurdity by their cry that our safety depended on having two ships to one of our enemies. Such a cry was a confession of inferiority and degeneracy. Admiral Mahon, the writer on sea power, declared that the statesmen of the world could only maintain peace through mutual fear, and a few sentences later said the inability of European nations to make peace in the Balkans was due to their fear of one another. Yet the admirable seaman with his shortsighted and specialized views was totally incapable of seeing that his two statements were contradictory.

All the nations were moving in vicious circles, and pouring vast sums into armaments while millions of their people had no more assurance of a livelihood than the foxes in their holes. Yet statesmen were powerless or thought they were, and allowed their nations to rush blindly along driving the people to distraction, beneath their burdens.

**Should Heed Labor's Voice.**  
The speaker said that it behoved the statesmen and leaders of all sorts to give heed to the rumblings and mutters of discontent in the underworld of labor.

In the days of barbarism war while always an evil may have performed a useful function in organizing the scattered tribes into nations, and extending the domains of knowledge, but with the rise of civilization the uses of war have been outgrown. It lingers upon the stage as a relic of barbarism, and is as antiquated and foolish as duelling. It is a game for children. Next to an unsuccessful war nothing is more disastrous than a successful war.

**The New Patriotism.**  
The speaker thought that the spirit of patriotism has outgrown the old forms in which it manifested itself, and that the spirit which inspired Drake and Froisher has no place in the age of battles with great machines, when the issue of war is a matter of mathematical calculation. The idealism which sent the mailed kings to the Holy Land without thought of gain had no place in modern wars, carried on for gain. When an English financier read how a band of British soldiers in South Africa decided to die rather than abandon their wounded comrades he said: "That was nonsense."  
That was the spirit of the patriots who were always howling for increased armaments and more dividends.

**True Patriotism.**  
Continuing the lecturer gave his conception of true patriotism adapted to modern conditions, and pointed out that imperialism in its best sense was akin to the religious aspiration for the recognition of the common humanity of men. It was unthinkable that the final goal of evolution would be bounded by the combination of a few countries for commercial purposes. Militarists in England represented Germany as a united people inspired by a common purpose and that purpose hostility to England, but it was an obvious fact that in all countries there were able men, whose classes of men, thinking their own thoughts, and hoping for greater unity among peoples of all races, to the end that the burden of militarism might be thrown from their backs. Men are being stirred by a feeling of kinship, that when it expresses itself in action may send many throngs tottering into the abyss and overthrow their vast bulwarks of militarism.

**How to Prevent War.**  
As to the way to prevent wars the speaker declared that when the peoples developed habits of right thinking, came to outgrow their childishness and formed really intelligent and scientific conceptions of the world in which they are living, war will appear as absurd to them as duelling does. Even religious needed the aid of science to help it get rid of those superstitions and prejudices which divided men, and prevented the realization of the real purpose of religion.  
Dr. H. S. Bridges acted as chairman, and in introducing the speaker said

the High School Alumnae was to be congratulated as St. John was the only city in Canada in which Mr. Noyes had agreed to speak. In that they had one advantage over Halifax.

After the lecture the poet recited by request his poem "The Highwayman."  
Mayor Frink moved a vote of thanks to the lecturer, saying that he agreed with the lecturer that when the workers, the people who did the fighting, decided not to fight one another war would cease. What statesmen were powerless to do the workers could accomplish any time they willed not to fight.

W. S. Carter seconded the motion. Dr. Bridges in tendering the vote of thanks to the lecturer said it required unusual courage for a man to come to St. John and deliver such a message as that of the poet.

**MANCHESTER SPINNER ARRIVES.**

The Manchester Liner Manchester Spinner, Capt. Musgrave, arrived in port yesterday afternoon after a voyage of eighteen days from Manchester. Despite the fact that the voyage had been a long one and full of hardships the captain was full of smiles and did not grumble. The ship docked at the Long Wharf about two o'clock and it was only a short time before the longshoremen were discharging the freight.

The ship had a large cargo and on deck carried four seventeen-ton boilers which are consigned to parties in Philadelphia where the ship will go after discharging a portion of the cargo here and taking in some cargo for Manchester.

In speaking of the voyage Captain Musgrave said that it was one of the worst in his history in crossing the Atlantic. There was only one fine day during the eighteen since leaving Manchester and that was on Monday last. It was all head winds and tremendous high seas, but the Spinner being a staunch steamer, came through without breaking a rope yarn. With the strong head gales and seas the ship was forced to make a slow passage being at times almost driven back or kept in a position where she could not forge ahead through the elements. Although late the ship which was some days over the time when she should have made the voyage under favorable circumstances arrived safe and sound.

**Hooray! For Me, I Can Eat!**

Stuart's Dyspepsia Tablets Bring Joy to the Starving Dyspeptics Who Cannot Safely Eat.

To seat one's self at a festive board or a heavily laden table and not be able to eat is positive sorrow to most dyspeptics and stomach sufferers, and likewise pain.

"I Walk to My Meals and Eat All I Want, Then a Stuart's Dyspepsia Tablet Makes Good for Me."

When your system is robbed of its natural digestive juices, in their correct proportion, a little candy-like Stuart's Dyspepsia Tablet gives to them the qualities they lack and you thereby rest the digestive apparatus and allay irritation, pain, gas and stomach trouble.

Pepsin such as used in a Stuart's tablet is one of nature's greatest aids; and when this is combined with the other ingredients you simply bring happiness to every worn-out nerve of the stomach, liver, intestines, pancreas and other organs.

Prodiges foods will not aid nature if she insists on manufacturing the wrong juices. Besides this the bowels need coarse and heavy foods in order to make bowel pack which is vitally essential to health.  
Stuart's Dyspepsia Tablets mix with the food in the stomach, have a tendency to stop gas formation, sour stomach, decay, etc.; then as the food passes into the lower digestive tract (the intestines) it takes the Stuart's digestive agents with it, and there is where the real work is done.  
The nutritive value of food and tablet is separated from the waste matter and is assimilated and distributed into the proper parts of the body. The blood is enriched and the liver stored with the qualities the system needs.  
Go to your druggist now and buy a box of Stuart's Dyspepsia Tablets, price 50c, and then eat what you will; but take a tablet afterwards. Then will come to you the beginning of the end of all your stomach troubles and food fears.

You May Win Anywhere From \$250.00 Down to \$3.00 by Correctly Solving the Puzzle Offered in This Contest. Get Busy Now. Only This Week Left, But it is Time Enough for Those Who Really Try.

There are no double numbers. Nine is the highest—the figure nine has a straight-tail, while the tail of the figure six is curved

The Standard offers 120 prizes amounting to \$1310.00 and ranging from \$250.00 to \$3.00 for correct solutions to this puzzle. You add up the figures and send your answer to The Standard along with any amount from one dollar to six dollars which will apply on new or renewal subscription to the Daily or Semi-Weekly Standard.

If there are more than 120 correct solutions a second puzzle will be offered for the purpose of deciding ties. This will be open only to those who send in correct solutions to the first puzzle, and it will not be compulsory to send any money on the second solution.

**The More Money You Send With Your Solution the Larger Will Be the Prize Which You May Win**

**Here is the Prize List**

- 120 prizes are offered which together form a total of \$1,310.00. The amount of each individual prize will to some extent depend upon the amount of money sent in by the individual winners. The prizes are as follows:
- FIRST PRIZE—\$100.00 in gold to which will be added twenty-five times the amount paid in by the subscriber with the winning solution. This prize may be worth \$250.00.
- SECOND PRIZE—\$50.00 in gold to which will be added twenty times the amount paid by the subscriber with the winning solution. The value of this prize may be \$170.00.
- THIRD PRIZE—\$30.00 in gold to which will be added ten times the amount paid by the subscriber with the winning solution. The value of this prize may be \$90.00.
- FOURTH PRIZE—\$20.00 in gold to which will be added ten times the amount paid in by subscriber with the winning solution. This prize may be \$90.00.
- FIFTH PRIZE—A fixed amount of \$30.00 in gold without any additional dividend.
- FIVE PRIZES of \$10.00 each to which will be added two times the amount paid in by the subscribers with winning solutions. Each of these prizes may be worth \$22.00.
- TEN PRIZES of \$5.00 in gold to which will be added the amount paid in by subscribers with the winning solutions. Each of these ten prizes may be worth \$11.00.
- FIFTY PRIZES of \$1.00 each to which will be added the amount paid in by the subscribers with the winning solutions. These prizes may be worth \$7.00 each.
- FIFTY OTHER PRIZES of \$3.00 each without any additional dividend.

**Contest Closes Saturday, November 8, 1913**

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.  
The payment of from \$1.00 up to \$6.00 on your subscription allows you one solution; but the payment of \$6.00 on your subscription gives you one solution and six times as much in dividends.  
An additional payment of from \$1.00 up to \$6.00 entitles you to another solution.  
Remember, the larger the amount you pay on your subscription the larger will be your dividends should you win one of the dividend prizes.

# LIVE TOPICS OF SPORT AT HOME AND ABROAD

## YACHT CLUB PRIZES WON ARE AWARDED

The quarterly meeting of the R. K. Y. C. was held last evening in their rooms, Germain street, when the prizes won during the past summer were presented to the winners by Commodore Gregory.

Section 2 of chapter 3 of the bye laws were amended to read as follows: The annual subscription shall be \$7.50 except for members residing more than twenty-five miles from St. John, when it shall be \$2.

The prizes presented were as follows: Commodore Gregory's cup for the arbitrary handicap which was the first race of this kind held by the club, went to the Janet owned by A. H. Likely. This race was not run by measurement but by the past performance of the yachts. The Wanderer, owned by Vice-Commodore H. C. Wetmore, was second, and like the Pel Yuen, owned by Charles E. Elwell, the Edith, owned by Robert Dall, and the Privator, owned by H. C. McCluskey, all received cash prizes.

Dingy race—Series of five races; the McAvity cup and cash prize went to E. N. Harrington with S. B. Bustin second.

Beveridge cup—Vagabond, owned by Dr. A. H. Merrill, this being the third consecutive time that the Vagabond has won the cup, it becomes the property of the doctor.

Commodore Thomson's cup—Pel Yuen, owned by Charles Elwell. Trask cup—Cachou, owned by Peter Clinch.

During the year cups were donated by Commodore Gregory, Percy D. McAvity, and prizes by T. McAvity and Sons, A. W. Adams, A. E. Everett and Vice-Commodore Wetmore.

During the winter months it is most probable that there will be a bridge, pool and billiard tournament.

The rooms of the club have been thoroughly renovated and are just out of the hands of the decorators and present an excellent appearance.

**THE TWO MEN LEAGUE.**  
In the two men league on the Victoria Bowling Academy Alleys last night Morris and Bisset took four points from Kiley and Slocum.

The score by stricks follow:  
Kiley—81 80 81 71 84—397 79 2-5  
Slocum—84 92 85 85 86—432 86 2-9  
165 172 166 156 170 829  
Morris—87 84 86 105 75—437 87 2-8  
Bisset—86 67 88 93 78—412 82 3-5  
173 151 174 198 153 849

At eight o'clock tonight Roxborough and Ferguson will roll Labbe and Featherstone.

At nine o'clock Roxborough and Ferguson will roll Brown and Footley.

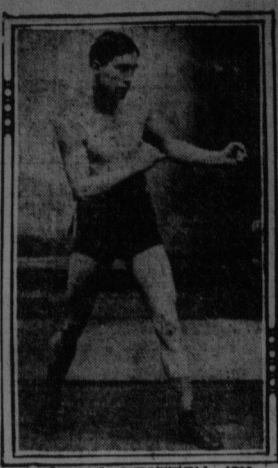

**VICS ROLL OFF.**  
On the Vic's alleys last night the prize for the daily roll off was won by Roland Johnson, who made a score of 125.

**RINK A NUISANCE.**  
London, Ont., Nov. 4.—Claiming that curlers are a noisy lot and that in the ecstasy of battle they gave vent to warlike whoops that offend and ruffle the nerves, Mrs. Jennie Taylor of Strathroy, has entered an action here for \$500 damages against the officers of the curling club of that city. Her residence adjoins the curling rink, and she asserts that the curlers are so bothersome during play that the rink is a positive nuisance and should be removed if necessary by the mailed fist. The suit will be tried with several others at a special session of the County Court, to be held here on Wednesday.

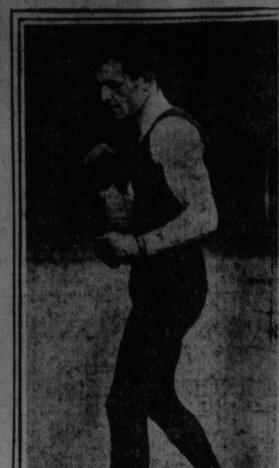

**MURPHY GOES TO EUROPE.**  
Chicago, Nov. 4.—President Charles W. Murphy of the Chicago Nationals will leave Chicago tomorrow for New York, whence he will sail on Thursday for Queenstown. In addition to a trip through England and an automobile tour of Ireland, Mr. Murphy's program includes a visit to Scotland. He will not return in time for the National League meeting at New York next month, but the Chicago club will be represented by Harry Ackerland of Pittsburgh, who bought Frank Chance's stock in the club.

**DAVIS WON LONG RACE.**  
Phoenix, Ariz., Nov. 4.—Olin Davis won the Los Angeles-Phoenix and San Diego exposition automobile race today, reaching this city at 1:48 p. m. Davis finished the 574 mile drive in 15 hours and 47 minutes.

## THIS OUGHT TO BE A GOOD SCRAP.

JACK BRITTON

PACKEY McFARLAND

Professor "Packey" McFarland, the Chicago wizard, has another job on his hands. He is scheduled to clash with "Jack" Britton on November 26 in Milwaukee. This will be the third meeting between these two classy lightweights, and it ought to prove an interesting scrap.

## BARRY HONORED.

Worcester, Nov. 4.—Worcester fans, the Old Brookfield band from Connie Mack's home town and men world-famous in the national game, gave a banquet tonight at the Bancroft Hotel to Jack Barry, shortstop of the Athletics, who formerly was a star player on the Holy Cross team and who now makes his home in Worcester.

About 500 attended the banquet and reception which followed a street parade witnessed by thousands along the line of march, which was lighted with red fire.

Congressman Winslow was toastmaster. Barry was presented with a magnificent bronze Chelsea clock by Worcester fans, also a silver loving cup three feet high by Captain S. Z. Poll.

The Hon. Samuel J. Elder of Boston was one of the speakers, also ex-Mayor James Logan. Among the baseball men present were Connie Mack and Stuffy McInnis of the Athletics, Umpire Tom Connelly, who was an umpire in the world's series, and Geo. Wright, an old-time player.

**LANGFORD VS. SMITH NOV. 17.**  
"Gunboat" Smith and Sam Langford will probably come together in Boston before the members of the Atlas A. A., on Nov. 17. It has been agreed to select a Boston man to referee.

## COUNTY COURT SESSION

McIntyre Case up  
Prisoner's Counsel B  
—Travis to be  
Again.

The November sitting of the County Court opened yesterday morning. Honor Judge Forbes presiding. The docket was unusually small, there being but one civil case entered for trial and no criminal business. No jury had been summoned. The motions in the case of the King vs. MacIntyre, charged with the theft of \$10,000 from the Bank of Nova Scotia, had been received and His Honor instructed the clerk to enquire the counsel for the defence if the case would not be tried with a jury. In view of the confession made in the police court he would not, dispose of the case at any time that was suitable to the prisoner's counsel.

In the case of the King vs. Thomas, assault, J. A. Barry represented the attorney general, said that it was the intention of the Crown to bring a new trial.

A. A. Wilson, K.C., who appeared for the prisoner at the last court, the jury disagreed, said that the defendant was not in court because understood he was not to appear. He called for instructions were to have Thompson appear in court on Monday morning at 11 o'clock.

In the case of the King vs. Charles Boylan, assault, in which the defendant skipped his bail, the sureties, Fred Brennan and Arthur F. Cameron were called upon to produce the defendant and Mr. Barry announced falling this, he would move for a writ of habeas corpus at the end of the court.

The only civil case in the jury of James F. Shephard vs. Wm. W. B. Wallace, K. C.

The naturalization papers of John Dornis and Jacob M. Tanzman read by W. H. Harrison.

The petit jurors are D. Arnold, James A. Cooper, Theo. Cogger, Roy W. Gizey, Michael J. L. Mulvan (excused), George D. Wanan (excused), Robt. D. Campbell, De Malcom (absent), Frank S. Aitken, Frederick R. Paterson, R. M. Bar J. M. Scovil, Jr., Frank A. King, William F. Rhea, Richard N. J. John R. Cummer, Jr., John T. Gowen, A. Chip Ritchie, Walter Sprout (absent), David L. Soules, L. Sippell.

The court adjourned until ten o'clock on Monday morning.

**The Travis Case.**  
At the adjourned Circuit before Justice White, yesterday morning the case of the King vs. John T. J. B. M. Baxter, K. C., who appeared for the attorney general, said that the intention of the Crown was to try the prisoner again on the charge of being and entering Estey and Company premises in Dock street. The case was adjourned sine die and the trial will take place before Judge Keown at the November circuit.

In the case of the Murray Prisoner Limited vs. the Fatherly Medicine Company, Limited, application of E. C. Weyman for a writ of habeas corpus was granted by Justice McKeown for a commission issue to take the evidence of Murray and others in Toronto. J. Teed opposed the application.

**TWO CASES OF THEFT IN UNION STATION**

Two cases of theft in the Union Station supposed to have occurred last night have been reported to the police. One is that of a young English girl, Miss Clara Mason, and the other of Charles Buchanan, who was asleep in the waiting room while waiting for the midnight train to take him to Amherst. He says he had several \$10 notes pinned on the inside of his shirt and that they were taken from him while he slept. Policeman Smith of the I. C. R. happened along and placed him under arrest, charging him with drunkenness, though the prisoner said he had not been drinking. An effort is now being made by the police to get some trace of the thief.

**SENTENCED TO DEATH**

New Haven, Conn., Nov. 4.—Eusebio J. Wakefield and James were sentenced in the superior by Judge Burpee this afternoon to hang at the state prison on Monday next for the murder of Wakefield, the woman's husband.

Joseph Bergeon who shot and killed Mrs. Elizabeth Doucette in city was sentenced to be hanged February 4, next.

VICTIM OF THEFT IS THE STORY TO COURT

Young Man Robbed of \$170, in Union Depot, Leaves Town after a Short but Exciting Stay.

At yesterday's afternoon session of the police court, a variety of cases were disposed of by Magistrate Ritchie. Two drunks were brought in and given their liberty, one on condition that he keep out of saloons for a year, the other so that he could go back to work.

The case of a young man arrested in the Union Depot on Monday for being drunk was continued from the morning session and he was given his freedom. His arrest was but one of the troubles he encountered during his brief stay in the city. He told the court that he had just come out of the woods, in Maine, where he has been working since May.

The Magistrate allowed him to go in company with Officer Scovill Smith of the I. C. R. and try to find something more about the loss of the money. Up till last night, however, he had failed to get a trace of the missing money and left on the Halifax train last night considerably dejected over his visit to the city.

Andrew Wallace is spending a short vacation in St. John.

E. G. Gordon, cashier in the Bank of Nova Scotia here, left on Wednesday for a vacation trip to Quebec City.

C. P. R. TO TAKE FOSTER BUILDING

Foster Building, Corner of King and Germain Streets to be Made Over into Office Building.

The arrangements by which the C. P. R. will become owners of the building at the corner of King and Foster streets, were completed yesterday. The difficulties which have held up the negotiations, that is, the fact that the building which was under lease to W. J. Fraser, of Fraser, Fraser & Co., was subject to a number of tenants, and all these had to be settled with before the sale could be completed, have been satisfactorily adjusted, W. J. Fraser told.

The C. P. R. will take possession about the first of February and an arrangement has been reached with the present tenants of the building to vacate by that date. At present occupying the building are J. M. Roche, R. J. Logan, Miss Frost, D. & J. Paterson, Smith Kline & Co., Neckwear and Novelty Co., Ltd., J. Shane & Company.

As soon as the tenants vacate the work of remodeling the building and fitting it up as the C. P. R.'s new office headquarters will be started. Another storey will be added to the present structure, and in remodeling the building accommodations will be provided for the general offices, ticket offices, telegraph office and Dominion Express Company. As soon as the new owners acquire possession the work of reconstruction will be rushed along as rapidly as possible.

A VALUABLE PAPER READ IN MUSEUMS

Regular Monthly Meeting of Natural History Society, Last Evening—Many Fine Donations Received.

The regular monthly meeting of the Natural History Society was held last evening with President W. F. Burditt in the chair. An interesting feature of the meeting was the reading of a valuable paper on the "Evolution of the Modern Museum," by the curator, Wm. McIntosh, who briefly traced the history of great museums.

The meeting last evening was the first occasion at which Mr. Burditt presided since his election to the presidency of the society, and in formally opening the meeting he took an opportunity of addressing a few words to the members.

At the meeting Venerable Archdeacon Raymond and Frank B. Ellis were appointed additional members of the council.

The routine business of the society was transacted and after discussion was held on one or two important matters the following members were elected to membership:

Regular—S. M. Wetmore, Associate members, Miss Abbie Colgan, Mrs. W. H. Fowles, Mrs. S. M. Wetmore, Miss Lillie White, Mrs. R. G. Zwicker, Junior associate members, Miss Helen Bailey, Miss Murie I. Ellison, Miss Gladys McLaughlin.

The following donations were received for the museum: N. Louis Brennan, glass case for exhibition purposes; S. L. Day, shed skin of garter snake; Mrs. D. McIntosh, Micmac beaver work; Herbert Armstrong, old iron split used in ancient times for roasting meat and a pair of pot hooks; A. Gordon Leavitt, fossils from Kings and St. John counties.

After the business of the meeting was concluded the paper of Mr. McIntosh was read touching lightly on the great museums of the day. The paper was by F. A. Lucas, curator in chief of the museum of Brooklyn, arts and science, and proved most interesting. The reading was beautifully illustrated by reflectoscope views of great museums and some of their important exhibits.

The paper traced the history of ancient museums previous to the time of Alexander the Great and following the history of the greatest museums told in an interesting manner of the extent of the museum of today.

At the conclusion the paper was discussed by E. Gordon Leavitt and Dr. Matthew, and a vote of thanks was tendered the curator of the society.

WIFE SPOOLS HER SIDE OF THE PICTURE

Mrs. Wilson Thompson Gives Version of Trouble With Husband.

DENIES ALL REPORTS OF A RECONCILIATION

Instead, She Declares, He has Made Life so Miserable for Her that She will not Return to Him.

"More sinned against than sinning." That is the motto that the friends of Mrs. Wilson Thompson use when the case of a few days ago is mentioned. It will be remembered that on Saturday night last, in a Charlotte street boarding house, a policeman was called to quell a disturbance, as the police report book states.

The disturbance between Mr. and Mrs. Thompson. Then, on Sunday afternoon Mrs. Thompson gave her husband in charge of the police, as she claimed, he had threatened to cut her throat with a razor and to shoot her.

Thompson was arrested, and his story of the proceedings was a rather sorry one. He stated that he had been worried for over two weeks, he had not slept for nearly that length of time; that the actions of his wife were the chief causes of his worry; and that, at the last of it, he did not know what he was doing. He said he had been married but three weeks and that he suspected his wife of improper conduct; that he had not tasted liquor for ten years or more, and his actions were due to worry.

After the disturbance on Saturday night in the boarding house, he said he thought the whole matter had been settled and, on Sunday morning he took his three-year-old boy to church, and a couple hours after his return he was surprised when called on by a police officer and placed under arrest, having been given in charge by his wife.

Mrs. Thompson's Story.

The friends of Mrs. Thompson, the three weeks' bride of the widower, tell a different story, and Mrs. Thompson, while talking with a Standard reporter yesterday, after a long new light on the question. Mrs. Thompson said that for about a year she has acted as nurse to Thompson's little boy, who looked on her as a mother. She looked after him just as kindly as any mother would. When Thompson came to St. John, he came with him, and was known as his sister. She not only looked after the little fellow as regards his clothing and health, but she looked after his spiritual welfare and taught him to pray. It did not look good for her to be here in St. John as a nurse for the little fellow, and in fact, her reason Thompson called her his sister.

Marrying a Failure.

Still this did not appear to be just the right manner of living so three weeks ago last Monday night she and Thompson were married. "In that three weeks it has been simply awful for me," said Mrs. Thompson. "My husband showed the brute; I did everything possible to please him, but he was beyond endurance. I looked after the little boy, who is called Robert, and even went without things for myself to make matters comfortable for him. He looked on me as his mother, and last Saturday night when Raymond and Frank B. Ellis were appointed additional members of the council, he shot himself, and when I went out he rushed at me. He got me to the boarding house and on Saturday last he produced a razor and said that he would cut my throat. Then he held a loaded revolver to my head and said that he would shoot me. Before this started he told little Robert, his son, to kiss mother, and then told him to go down stairs, then he produced the revolver and said he would shoot me."

Kept in Terror.

"For three hours I was kept in terror, and it is no wonder that I don't wish to live with such a man. I have always been a good living woman. My husband asked me on Sunday morning last to go to church with him and I refused, saying that after the scene on Charlotte street Saturday night, I would not go with him. When he came back he asked me to pray with him. I told him I would not pray with him as he said that he did not believe in God, but that I would pray by myself, pray for him, but that I would not pray with him. "There was something to be done, as I was afraid to live with him and it was decided that one of us must leave the house. After he was arrested he sent me notes."

No Reconciliation.

One of these notes was produced by Mrs. Thompson and was a request from her husband that she would not prosecute him, and if she did not, he would leave the city. Mrs. Thompson said that an evening paper said that after they left the police court on Monday morning, there was a reconciliation, but this she said was untrue. "There was a request that I go back and live with him but I positively refused after what had happened and I never will."

Mrs. Thompson said that the statements as given out against her by her husband were entirely false. The lady with whom Mrs. Thompson boarded

Red Cross Boats will inaugurate Service Commencing about Middle of December—Agent here.

St. John is to become the terminus of another steamship line. The Red Cross line which, some time ago, made application for accommodations at this port will establish a service between here and New York beginning this month. The arrangements for the inauguration of the service were practically completed yesterday and the representative of the Red Cross company, W. J. Cosgrove, who is in the city assured that the Standard last night that the service will be inaugurated. He spent yesterday looking over the port facilities in order to secure accommodation for the boats and announced that the first sailing of the new service will take place between the fifteenth and twentieth of this month. The plan is to start with a ten day service, a fresh service being the intention at first. Gradually it is hoped to develop a passenger traffic. One boat will be placed on the route until the traffic assumes sufficient proportions to require an additional boat.

Discussing the new service last night Mr. Cosgrove said he had spent the afternoon in company with Mayor Prink and Mr. Wright, who will act as the company's agent here, looking over the facilities. This is his first visit to St. John and what he has seen of the port impressed him very agreeably. He could not say definitely just where the permanent accommodation for their boats would be. The detail has not been definitely settled, but the service would be started just the same. The plan is to have a sailboat about every ten days. The first will be some time around the middle of November and at present one boat has been ordered. The basis of the new service will be freight traffic at first, but he expected that a passenger traffic would eventually develop. Mr. Cosgrove is very optimistic about the development of traffic over the new line. The new tariff arrangements will no doubt mean a considerable amount of farm products being shipped through as this will be the first direct steamship service between New Brunswick and New York, and this arrangement with the reduction in tariff on New Brunswick products will no doubt prove an impetus in developing trade between the two places.

The application of the company at the beginning was for accommodations on the eastern side of the harbor, but should this be impossible it is probable that space will be found on the west side. For the time being the company's boats will be based on the Donaldson pier, the wharf, the lower section and will make use of a part of the warehouse used by the Donaldson pier. The boats, however, arrangements will have to be made. In the meantime however this plan will be followed until permanent accommodation can be provided.

With the addition of the Red Cross line St. John promises to be a busy port, but should this winter despite the loss of the Empresses. The expectations are that the New York-St. John service will develop rapidly and will soon become an important addition to the trade of the port.

Is Destitute

Clara Wason, from whom was stolen a ticket to her home in England and a sum of money, over four hundred dollars, on Tuesday evening in the Union Depot is still being cared for at the home of the King's Daughters, being left in their custody as a result of the theft. No trace has been found of the man suspected of having removed the handbag from the car.

There is one particular lady in this city who is a model of neatness and a criterion of style. It is the general belief of her friends that she is always the pink of perfection in dress. The other day one of her intimate friends asked her how she managed it. Her reply was that "she bought her waists and had all her dresses made at F. A. Dykeman & Co's store." They can make any lady look as neat and as attractive as this lady if she will only go to their store. They have just received a first shipment of their Christmas waists and they are putting them on sale now at very attractive prices to see if they can clear out this lot and reorder again for the Christmas season. These waists are just such styles as the lady referred to above buys from them and they are really clean and expensive. You will find with dainty embroidery from \$1.25 to \$4.50. Silk waists from \$2.25 to \$7.50. Lawn waists from \$1.00 to \$3.50.

also informed The Standard that Mrs. Thompson was a good woman and that all the trouble was caused by the husband.

Mrs. Thompson feels the affair keenly and says that if she had known of the statements made about her by her husband before she went to the police court Monday morning, she would have had the case tried out in court and told the whole story.
