CARVELL RESIGNS

HON. F. B. CARVELL, MINISTER OF PUBLIC WORKS, RETIRES FROM POLITICAL LIFE

The New Brunswick Member of the Cabinet Authorizes the Announcement That He is Retiring Not Only from the Government But from Political Life as Well—Declines to Discuss His Future—Stated That He Will Likely Succeed Sir Henry Drayton on Railway Commission—Rumor That Sir Douglas Hazen Will Become Minister of Public Works.

Ottawa, Aug. 1.—Carvell retires from political life. The Ottawa Citizen this afternoon carries an authorized announcement from Hon. F. B. Carvell that he is retiring not only from the government but from political life as well. He declined to discuss his future, but the newspaper states that he is likely to be succeeded as minister of public works by Sir Douglas Hazen, chief justice of New Brunswick, who is here today, and that Mr. Carvell will probably either succeed Sir Douglas on the bench, or become head of the Railway Commission in place of Sir Henry Drayton, who is slated for the ministry of finance. Sir Henry Drayton has arrived at the capital, and according to current gossip, will succeed Sir Thomas White as minister of finance. The new minister of agriculture, in place of Hon. T. A. Crerar, will be F. S. Tolmie, member for Victoria, B. C. The changes are expected to be announced tomorrow.

HON. F. B. CARVELL, who retires from the government and political life as well.

LABOR ORATORS BOASTED OF GRIP STRIKE COMMITTEE HAD ON CITY OF WINNIPEG

Witness from Minneapolis Gives Damaging Evidence Against Defendants Held on Charge of Seditious Conspiracy—Says Trend of Speeches from Labor Men on the Second Day of the Strike Impressed Him That Winnipeg Was Practically Under Soviet Control — Ivens Claimed Labor Temple Would Soon Be in Parliament Buildings—Disregarded Constituted Authority.

Winnipeg, Aug. 1.—"My impression from Wm. Ivens' speech was that Winnipeg was practically under Soviet control," said W. E. Davis, Minneapolis advertising man, referring to a speech made by Mr. Ivens in Victoria Park on the second day of the strike, at the hearing of the labor leaders charged with seditious conspiracy. "It impressed me in the minds of the audience strongly the fact that two strike committees were able to do anything they pleased," he added.

Boasted of Control. Mr. Davis stood about forty yards from the speaker's platform, and Mr. E. B. Russell and several other labor men spoke. "Mr. Ivens first congratulated the audience on the solidarity of labor," he said, "and passed in review points which showed the strong grip of control the strike committee had on the community of Winnipeg. He told of the control of the police, the firemen, the telephonians, street cars, food, particularly bread and milk. He said the strike committee intended to limit the use of telegrams and to close newspapers, mails and control the waterworks."

"He explained how he had got in touch with unions connected with the production of newspapers," said the witness, "and that Typographical Unions, and there would soon be no dailies published unless the strike committee published one. He said 'I think we have Defoe (managing editor of the Free Press) and Richardson, (president of the Tribune) now powerless to do us this time what they did in past strikes,' said witness. He went on continuing speaking of the bread and milk situation, he said they had been required to allow partial distribution because of many cases of sickness of babies. "While recounting the strong control on the community held by the strike committee he said: 'The partition of the city is now in the Labor Temple instead of the City Hall.' "Referring to the war of employers and working classes, he said 'If you will but stand firm, in a short time we will bring them crying on their knees to you saying 'what shall we do to be saved'."

Will Occupy Parliament Buildings. "He said the storm is about to break, and this time the lightning will strike upward instead of downward. Some of the brothers are talking about passing money to build a new labor temple."

COMMISSION HEARS STORY OF PERMIT CARDS

The Soviet Wording "By Permission of the Strike Committee" Was Purely Accidental Says Pres. of Trades and Labor Council.

Winnipeg, Aug. 1.—James Winning, president of the Winnipeg Trade and Labor Council, testified again today before the Robson Commission, his evidence dealing with the "by permission of the strike committee" card, the wording of which, he asserted, was purely accidental and without any motives. Ernest Robinson, secretary of the Council, followed Mr. Winning on the stand, contrasting the iron-masters' idea of collective bargaining with that of the employees.

History of Cards. Mr. Winning related how Mr. R. B. Russell and himself had interviewed Mayor C. F. Gray, who had recommended that they appear before the council for the purpose of appointing a sub-committee from that body, and a board from the Strike Committee. This body was composed of Alderman J. K. Sparling, J. Queen, F. Fisher, Mr. Winning and Mr. Russell, and at the first meeting managers of the Crescent Creamery and several leading bakers were present. The permit cards were gotten out at once, and witnesses testified that Mr. J. Milton, of the Milton Bakery Company, and A. Reilly, of the Canada Bread Company, called for the cards personally.

Mayor Objects. The first intimation that the cards were objectionable came from the Mayor's office, witness said, and later Premier T. C. Norris said they would have to be taken down, that the Provincial Government otherwise would not be able to effect settlement. Cards were thereupon removed. Witness did not think that the cards were made conditional by the strikers to the distribution of bread and milk. Referring to a decision at the City Hall of the cards, witness did not remember that they had been objected to by any members of the committee.

OVER TWO HUNDRED AMERICANS KILLED BY MEXICANS

Washington, Aug. 1.—Two hundred and seventeen American citizens have been killed in Mexico since the end of the regime of Porfirio Diaz on May 25, 1911, the Senate was informed today by Secretary Lansing in response to a resolution by Senator King, Democrat, Utah. Claims filed by American citizens, asking damages because of Mexican depredations during the time have totalled \$44,000,000.

GERMAN WHITE BOOK BY WEIMAR GOVERNMENT

Deals With Peace Offer of Germans and the Armistice That the German People Might Know the Truth, According to Preface.

MILITARY AGAINST CIVIL AUTHORITIES

Conference on Aug. 14, 1918, at Which Emperor Was Present, Decided That War Could Not Be Won.

Berlin, July 21.—(By The Associated Press).—A "white book" was published at Weimar today containing all the documents relating to the period from August 13 to November 11 last, dealing with the peace offer of the German government and the armistice. In a preface the Government says it decided upon publication of the documents because the people want to know the truth. One of the most important negotiations dealt with by the White Book is the conference in which Emperor Wilhelm took part at Spa on August 14, 1918, at which it was decided that General Ludendorff's declaration that war could be won was wrong, and that an understanding between Germany and the enemy must be reached.

Field Marshal Von Hindenburg and Dr. Michaelis, the Imperial Chancellor, thought it would be possible for the Germans to obtain in France territory, and thus obtain a pledge for the peace negotiations, the documents show. The previously held belief that the attempt to start negotiation be made through a neutral was altered by this conference.

Decide to Appeal to U. S. Hindenburg was still opposed to a direct appeal to the enemy, while sanctioning the idea of working through a neutral power. Meanwhile Austria had to be consulted because of the special plans she was making.

September 21 the book reveals, developed a decision appeal directly to the United States. Admiral Von Hintze, who was then foreign secretary is quoted as replying to a question that date as follows: "On order of His Majesty, and by agreement with the Chancellors at Vienna and Constantinople, I advise an offer of peace be made on the basis of President Wilson's fourteen points, and that he be invited to call a peace conference in Washington, after demanding an immediate armistice. That this board agree, the newly forming German government will find a proper way to get the offer to President Wilson."

The affair entered a new phase at this point, for the army leaders, who had previously insisted upon their own arrangement, now demanded that the military situation be relieved at once.

On October 1st, several letters and messages arrived from headquarters, saying it was uncertain what might happen at the front from moment to moment, and that a break was imminent. General Ludendorff declared that the peace offer must be dispatched instantly, while he held up the army's retreat for forty-eight hours.

Maximilian Takes Hand in Game. On October 2nd, Prince Maximilian, of Baden, appeared before the party leaders of the Reichstag and opposed any action towards peace by that body, because the military situation was critical, and he feared that such action would affect the developments unfavorably. He said he had been offered the chancellorship on October 1 on condition that he would make peace immediately.

On October 2, General Ludendorff asked for a summary of the proposed peace note and telephoned his suggestions regarding it. The note to the United States was formulated at Great Headquarters on the night of October 24.

Prince Maximilian declared he fought against the note because he considered the time premature. He said he thought General Ludendorff had been affected by a case of nerves and that the situation was not so serious as he general painted it.

Paris, Aug. 1.—Ratification of the German peace treaty was today recommended to the Chamber of Deputies by its Peace Committee by a vote of 24 to 1. Two members were absent.

NEW LABOR CRISIS GROWING OUT OF HIGH COST OF LIVING FACES WASHINGTON GOV'T

SIR DOUGLAS HAZEN, distinguished citizen of St. John, mentioned as probable successor to Mr. Carvell.

SYDNEY COMES OUT FORCIBLY FOR THE O. B. U.

What is Thought to be Virtually a Bid for Recognition by Gov't Officials of O. B. U. Contained in Message to Premier Borden.

Sydney, N. S., Aug. 1.—What is thought to be virtually a bid for recognition by government officials of the O. B. U. is contained in a message forwarded yesterday by the executive of district twenty-six to Robert Borden, Hon. Gideon Robertson and Tom Moore. The miners of Nova Scotia practically refuse to attend the labor convention called by government today that suggested that any wage increase be made retroactive to August 1, 1919, the Union leaders here said they would remain firm for retroaction to January 1, 1919. The strike, according to reports, was chiefly effective in the Middle West and Southeast. In the latter section 25,000 men laid down their tools, union officials said. All over the country, and especially in the Middle West, union locals were voting tonight on the strike pool. Tomorrow will see a big increase in the number of men on strike, union officials believe.

The local unions had disregarded the advice of their international officers at Washington, who had been conferring with the Railroad Administration and who, yesterday, instructed the men not to strike. The request for increased wages from 68 to 85 cents an hour for machinists, and from 46 to 69 an hour for helpers, was made the first of the year.

VALIANT DEEDS OF CANADIANS

A Voluminous Gazette, Issued in London, Gives Particulars of Decorations Awarded Canadians.

London, Aug. 1.—(Canadian Associated Press).—A voluminous Gazette gives particulars of decorations awarded to Canadians whose names have already been cited.

Among them appears the name of Lieut.-Colonel James Ralston, 85th Nova Scotia Battalion, for saving a situation by refusing to be relieved when wounded at Cambrai, in September, 1918.

So Pressing Are Demands of Railroad Employees for Increased Wages to Maintain Their Standard of Living Pres. Wilson Requests Congress to Abandon Proposed Recess and Remain in Washington to Cope With Situation—Commission Board Recommended Whose Decisions Shall Be Mandatory Upon Rate-Making Bodies.

Washington, D. C., Aug. 1.—A new labor crisis, growing out of the high cost of living, is facing the railroad administration.

So pressing are the demands of the railroad employees for more pay to maintain their standard of living that President Wilson, following extended conferences with Director General Hines, today asked the House of Representatives to abandon a proposed recess of five weeks, beginning tomorrow, and remain in Washington to consider the creation of a commission which would determine all questions concerning the wages of railway workers.

The House tonight on the eve of its planned recess voted to comply with the president's request, which, previously, had been endorsed by the Republican legislation steering committee at a special meeting.

The president took a new step in railroad legislation in suggesting to Congress that the act to create a commission should "make the decisions of that body mandatory upon the rate-making body, and provide, when necessary, increased rates to cover any recommended increase in wages, and therein the cost of operating the railroads."

President's Decision Has Good Effect. Chicago, Aug. 1.—Officers of the Chicago District Council of the P. O. E. U. of M. A. C. U., which called a nation-wide strike of railway shop workers this morning, were favorably impressed by President Wilson's request today that Congress create a Commission to consider wage increases for railway employees. When reports were received that the President had suggested that any wage increase be made retroactive to August 1, 1919, the Union leaders here said they would remain firm for retroaction to January 1, 1919. The strike, according to reports, was chiefly effective in the Middle West and Southeast. In the latter section 25,000 men laid down their tools, union officials said. All over the country, and especially in the Middle West, union locals were voting tonight on the strike pool. Tomorrow will see a big increase in the number of men on strike, union officials believe.

BELA KUN STILL IN CONTROL OF THE HUNGARIAN SOVIET

Contest Between "Lion and the Mouse" in Efforts to Establish a New Government in Hungary.

Vienna, Thursday, July 31.—(By the Associated Press).—Bela Kun, head of the Budapest Soviet government, after conferring today with those seeking to establish a new government in Hungary, told them that "it was a contest between a lion and a mouse," but he would give an answer by August 5. The conference took place at Bruck on the frontier.

Bela Kun went from Budapest to Bruck part of the way by train, and the remainder on a handcar. At Bruck he met General Boehm, his Minister of War, and others who had been conferring with Colonel Cunningham, the Allied representative at Budapest, concerning the proposal that Bela Kun resign and that a Socialist government be formed to replace the Soviet.

A number of communists have been arrested at Budapest, charged with corruption. Among those accused is M. Salgvaal, Commissioner of Production, who is charged with horse and cattle stealing.

APPROVES THE NEW LEGISLATION

Berlin, Aug. 1.—The German National Assembly at Weimar approved the new German legislation yesterday by 262 to 75. Konstantin Fehrenbach, President of the Assembly, formally declared the legislative constitution interrupted, and the Japanese, judging from various expressions, apparently see the necessity of arranging the details for the return of Shantung to China as quickly as possible.

U. M. W. TO MEET IN CONVENTION AT SYDNEY AUG. 25TH

Convention Called to Discuss the Five Day Week and Other Matters of Importance.

Sydney, N. S., Aug. 1.—The big United Mine Workers' convention, which has been called to discuss the question of the five-day week and other matters of vital importance to the Mine Workers of Nova Scotia, will open in Sydney, August 25, according to an announcement this morning at the headquarters of the United Mine Workers of America at Glace Bay. It is not as yet known whether the mine operators will meet the men at that time in joint session as was done a few months ago with most beneficial results.

JAPANESE MAY RETURN SHANTUNG TO CHINA SOON

Tokio, Tuesday, July 29.—The collision between Chinese and Japanese troops in Manchuria, announced in an official statement yesterday, is regarded as significant in showing the extent of anti-Japanese feeling throughout China over the Shantung question. The situation is particularly tense in Manchuria, while news also has been received of a clash between Japanese and Chinese civilians near Moeheng, in Shantung province, in which casualties occurred.

In fact, all information reaching here from China is to the effect that the anti-Japanese sentiment is continuing uninterrupted, and the Japanese, judging from various expressions, apparently see the necessity of arranging the details for the return of Shantung to China as quickly as possible.

The St. John Standard

Published by The Standard Limited, 55 Prince William Street, St. John, N. B., Canada. H. V. MACKINNON, Manager and Editor.

ST. JOHN, N. B., SATURDAY, AUGUST 2, 1919.

MR. VENIOT'S ROADS.

It would be utterly absurd on the part of any newspaper to contend that under the direction of Mr. Veniot no work of value is being done, and no improvement made, in the provincial highways. Even Mr. Veniot, resourceful as he may be, would find difficulty in spending such enormous sums as have gone out from his department without having something to show. That this does not alter the fact that new stretches of highly expensive highway here and there, and creation of an occasional tract of good roadway, to be used to divert attention from the many miles of neglected roads, is not in accordance with the ideas of the people of New Brunswick who desire that reasonable attention shall be given to all districts. As outlay of fifty thousand dollars in Gloucester County fails to compensate the people of York for the neglect of highways so apparent in that county, and seventy-seven thousand spent in one year in Westmorland in poor consideration of the neighboring residents in Albert who are unable to find any notable results from the outlay of ten thousand made in their community. Of course here and there Mr. Veniot is getting results, but the occasional stretches of reasonably satisfactory main roads will not blind the eyes of the people to the condition of the greater portion of our highway mileage.

Yesterday The Standard received a letter from a gentleman in St. Stephen who is not concerned politically in road-making, but who is interested in the welfare of New Brunswick. He says, among other things: "I note from time to time with a great deal of pleasure your writings in regard to roads in this province, and more particularly that part from St. Stephen to St. John, which I certainly think should be made the best road in the province, inasmuch as it is the entrance for tourists from Maine and other states, and with a first-class road this line of business would certainly boom in the province, and would prove of great benefit not only to St. John, but to other points that would naturally be visited. Being on the border as we are, we hear some frightful knocks and having personally returned from a considerable tour of the province, going as far north as Edmundston, one can easily see where the money is spent, as the roads in Victoria and Madawaska Counties are certainly far superior to those in the southern part, and in most places are equal to or better than the state road through the State of Maine. The same thing applies to the roads on the North Shore, and I certainly think it is time some attention was given to the southern counties which contribute very largely to the revenue of the province. If you keep hammering the Honorable Peter long enough he may yet be ready to hand out justice."

The southern part of the province to which this correspondent refers is generally regarded as comprising the counties of Albert, St. John, Kings, Queens, Sunbury, York, Carleton and Charlotte. In these eight counties Mr. Veniot spent last year \$284,665, while in the other seven counties, consisting of Westmorland, Kent, Northumberland, Gloucester, Restigouche, Madawaska and Victoria, his outlay was \$270,377. In view of the comparative population of these districts and their contributions to the Provincial Treasury, that division of the road money which gives the seven northern counties a considerably larger share than is appropriated for the eight more densely populated and wealthier counties is hardly a division which will appeal to the unbiased resident.

CARELESS DRIVING.

Mishaps in the use of automobiles, resulting in personal injury or property damage, are not of frequent occurrence in St. John. Those reported are for the most part of an accidental nature, for in the city on busy streets a reasonable measure of care is exercised by drivers who realize that they are under observation and very naturally desire to avoid complications with the law. But on the country roads, and particularly within twenty or thirty miles of the larger centres of population, carelessness displayed by some motorists is almost criminal in its nature, and the wonder is that fatalities due to recklessness are not of more frequent occurrence. There are men and women, boys and girls, driving motor cars through this province, speeding, racing and taking all kinds of chances, who have no license whatever to be permitted at the wheel of a high-powered car. An impression seems to prevail among some of these that they can do as they please when beyond the observation of the traffic officers, which impression becomes the more dangerous in view of the incapacity of these drivers. On almost any evening in the summer, and on any road leading to St. John, people of this type may be seen playing with fate. In their minds is the belief that ability to start and stop the car and to handle the steering wheel with reasonable skill constitutes ability to drive.

A matter of fact these and the other mechanical actions required are the least necessary of all phases of this occupation. First and most important is commonsense, secondly comes presence of mind, and thirdly quick judgment. The purely mechanical features are secondary. And this view is very generally recognized in those communities where the use of the motor car is more widespread and where automobilism has been a popular pastime for a longer period. In the ordinary course of events this province will wait until some scores of people have been killed by carelessness before we take any action. A series of fatalities is needed to create a sentiment, but if we were wise, New Brunswick, instead of waiting for these events to occur, would adopt the sensible policy of establishing a standard of efficiency and permitting only those who are capable of passing a rigid examination to operate motor cars in this province. It is, of course, true that among our local people there are many, no doubt the majority, who are highly proficient, who exercise all possible caution, and who could readily pass any test that might be imposed, but these careful drivers suffer from the recklessness and ignorance of others just as much as do the irresponsible ones themselves.

OUR BIG TIME.

Arrangements for St. John's big celebration seem to be coming along very nicely indeed. It is of course unfortunate that the Railway Board cannot see its way clear to granting the concessions asked for in the way of facilities for the transport of soldiers desiring to come to the city for the celebration. But in reality an unfavorable answer to the request was not entirely unexpected, and while it will prevent provincial assistance being extended, this is after all but a small matter. Those men from outside districts who had thought of coming to St. John for the Joy Day and the welcome to the Prince will not be deterred by the added outlay involved in the price of a railway ticket. While some members of the committee look upon the decision of the Railway Board as disappointing, The Standard believes it will not prevent a single man from coming, and that the influx of visitors will be as great as though the most favorable arrangements had been possible. We must prepare for a great number of guests. Our efforts should not slacken through the idea that the crowds from outside will be reduced. They will find ways and means to come, for the programme which is being arranged and the occasion of the Royal visit form two very definite reasons why people should come here at that particular time. The committees are doing nobly, and enthusiasm seems to be spreading. Everything looks well so far, and the indications are that this gathering will surpass in interest and pure entertainment anything St. John has attempted in a generation.

THE PRICE IS NOT SETTLED.

Because the members of the city commission, persuaded by a group of citizens—many of them the same ones who foisted commission government on an ignorant community—decided not to offer objection to the price named in the bill on harbor commission then before the federal government, The Globe contends that the purchase price of the harbor is settled. This is a strange deduction. The purchase price is not settled and will not be settled until the ratepayers of St. John have had an opportunity to pass upon that phase of the subject. The commissioners themselves, even by unanimous vote, have nothing whatever to say about this matter, nor have those other few who persuaded them to this action, any more than has the ordinary taxpayer whose opinions have not, so far, been deemed worthy of consideration. The proposal to be placed before our people is not merely whether we shall sell the harbor, but whether we shall sell at the price named and under the conditions imposed—conditions which on their face are sufficient to practically destroy the future prospects of this port.

WHAT THEY SAY

A Comfort.

He ought to have seventy times as much say as a rich bachelor. A bachelor ought to be classed with mules, marble statues and wooden Indians.

A BIT OF VERSE

ENGLAND AND AMERICA.
(H. Varley, in New York Times.)
By the graves of our hero dead,
By the sight of our flags entwined,
Through the tears and blood
Of the war's red flood
We have found what was good to find.
We looked deep in each other's eyes,
When we gave all we had to give,
And it made us friends
For our common ends—
That the best in us both should live.

WAR HAS KILLED MANY AGE-OLD LIES.
Fed with hatred and purpose dire,
Ere but half-way done
In the blaze of our friendship's fire
May it burn with a white-hot flame
To destroy what would come before
All the false things said
And the truths long dead—
Keep the trust in us strong and clean!

IF WE STAND AS WE STOOD IN WAR,
Through the strain of the coming years,
Then the threatened blows
Of a world of foes
Cannot touch us nor wake our fears
As the blood in our veins is drawn
From one ancient and honored source.
We should live always
As in war's days,
Friends and comrades through life's
Whole course.
We must watch—for the venomous
Tongues
Speak again with the poisoned word
They would break the ties
With their vicious lies
Or their half-truths we long have
Heard.
We must strike each lie's ugly head
As it rears in its foul red way—
For the love we bear
To our "boys out there,"
Who, with theirs, sleep till God's
Great Day.

A BIT OF FUN

Some men always do their best—including their best friends.

The School Teacher—"Willie, can you tell me the meaning of 'lesure'?"
The Bright Scholar—"It's the place where married people repent."

Daughter—"Mother, dear, I want some money. Will you ask father for it?"
Mother—"No, you must ask him yourself. You'll have a husband some day, and now is your time to practice."

Father—"Listen, Harold! The camel can go eight days without water. Isn't that wonderful?"
Harold (sceptical)—"Not very. You ought to hear Charlie Brown tell you!"

"I always believe in saving something for a rainy day."
"How much have you saved?"
"Oh, I haven't saved anything, but I believe in it."

Chance to Learn.
"No, Bobby," said his mother, "one piece of pie is quite enough for you!"
"It's funny," responded Bobby with an injured air, "you say you are anxious that I should learn to eat properly, and yet you won't give me a chance to practice."

Had Been to Uncle's.
"Do you mean to say," said Griggs, "that you have never discovered a redeeming feature in a habitual criminal?"
"Yes, I did once," admitted Briggs, the prison warden.
"Ah, I knew it!" cried Griggs triumphantly. "No one is at all bad. What was it? Love of home? Kindness to animals? Love of children?"
"No," came the uncompromising reply; "it was a pawn ticket."

Wanted to Find Out.
"I have come to consult you," she said to her lawyer.
"What is the trouble?"
"I have received three proposals of marriage, and I do not know which to accept."
"Which man has the most money?"
"Do you imagine," she asked, "that if I knew I would consult you or any other lawyer?"

Had to Do It.
Five-year-old Jimmie was telling his mother about some medicine he had taken

My cousin Artie came around last night, and me and him sat on the setting room floor and started to make up riddles, and pop sat in the Morris chair smoking and thinking, me saying to Artie, Wat goes up and never goes down?
Wat? sed Artie, and I sed, Do you give it up?
Yes, sed Artie, and I sed, A elevator.
Go on, an elevator goes down, sed Artie, and I sed, No it don't neither, it comes down.
Thats rite, sed Artie, and pop sed, Yes gods.
Heere one, sed Artie, wat wawks with 8 legs and cant stand on its hed?
Wat? I sed, and Artie sed, Give it up? and I sed, Yes, and Artie sed, 2 horses.
Grate Sesser, sed pop.
Heere one, I sed, wat is it you cant lift up by its handle?
Wat? sed Artie, and I sed, Give it up? and he sed, Yes, and I sed, A cootose with the handle broke off.
Help, ade, sucker, sed pop.
Heere one, sed Artie, wat has a thousand feet and none of them touches the ground?
Wat? I sed, and Artie sed, Give it up? and I sed, Yes, and pop sed, I warn you, go easy, because if its anything like the other ones I may not be able to stand it. Im dizzy already.
A centerpede, sed Artie, and I sed, A centerpede foot touch the ground, dont they? and he sed, No! wen its on its back.

when recovering from the flu.
"Yes," he said, "I took some combination of cod-liver oil, and—"
"You mean emulsion, don't you—not cod-liver oil?" said the visitor.
"Well, no," said Jimmie. "There was a good deal of cod-liver oil in it."

Very Energetic.
The new recruits were drilling, and they were all very keen; one man especially made the N.C.O. tired. The order was given to march, and the enthusiastic one who was in the front rank, set off with a will. He strode out, arms swinging, head erect, and eyes strictly "front," and never noticed that he had left his comrades several paces behind. The N.C.O. swallowed hard, and then called sweetly, "Say! You! When you get there, send us a picture postcard!"

PROPAGANDISTS SHOWER LEAFLETS FROM AIRPLANES

Paris, Aug. 1.—(By the Associated Press)—Bolshevik propagandists in aeroplanes are showering the northern Russian army in the Pskov vicinity with leaflets, declaring British and Americans are imperialists, according to despatches received here today from Lieutenant A. A. Grandstad, of Kansas City, dated Pskov, July 26.
Russian officers retailed by sending bread and white flour through the Bolshevik lines, with the result that the Bolsheviks are deserting to the well-fed anti-Bolshevik forces in large numbers.

STOMACH TROUBLE

Comes When the Blood is Weak and Watery.

Thin blooded people generally have stomach trouble. But they seldom recognize the fact that thin blood is the cause of their indigestion, but it is. This blood is one of the most common causes of stomach trouble; it affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened, and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition that good, rich, red blood.
Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon the effect of these blood-making pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. You are on the road to sound, good health and care in your diet is all you need. If your appetite is feeble, if you have any of the distressing pains and symptoms of indigestion you should begin to cure yourself at once by taking Dr. Williams' Pink Pills.
These pills are sold by all dealers in medicine or you can get them by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

A Diamond Never Depreciates
Part of the satisfaction in having a diamond is that no matter how long you have it, or how much you wear it, its value never depreciates. Should it happen that you ever want to dispose of it, it is just as good a diamond as it ever was—and while you have been enjoying it, its value has been increasing.
We are showing a good assortment of carefully selected stones of highly desirable brilliance, color and cutting. The price range is from \$25 to \$1,000.

OBITUARY
Mrs. Elizabeth J. Bishop, Waterford, Albert Co., July 29.—The death of Mrs. Elizabeth J. Bishop, wife of Peter Bishop, a former resident of Riverdale, Albert Co., occurred on the 29th July at the home of Miss Sarah and Jennie Lawrence of Harvey Bank. Her death caused much regret throughout the community, as she was beloved by all who knew her. She was a member of the Episcopal church, Riverdale. Services were held at Harvey on Sunday and remains were taken to Hopewell Hill cemetery. She is survived by one daughter, E. Mae Bishop, and a step-daughter, Mrs. Ina E. Webber, both of Salem, Mass. and one brother, Mr. John Cairnes, of Vancouver, B. C. Deceased was 86 years of age. Much sympathy is extended to the bereaved family.
Michael Brown, a well known farmer of Public Landing, passed away yesterday. He was eighty-three years of age and had a wide circle of friends. He is survived by three sons: Michael of Detroit (Mich.), James of Cincinnati, and John, at home, and two daughters, Mrs. E. J. Teachen of St. John and Miss Sadie Brown at home.
The funeral will be held on Sunday at 2 o'clock. Interment will be at Public Landing.

Political Gossip
About The Country
The Liberal Leadership — Martin Not Wanted — Liberals Gathering — Want Orange Minister — Toronto Globe's New Liberalism.

The Liberal Leadership.
La Presse, in its issue of July 30, referring to the choice of a Liberal leader at the forthcoming Ottawa convention, states:
"In the choice of a Liberal leader at Ottawa next week, the delegates of the Province of Quebec will do well to remember open Liberals who never betrayed Laurier and who remained faithful to the old flag in adversity as well as in good times."
Another editorial note in the same issue of La Presse states:
"At the same time that an English Ontario newspaper states that Sir Lomer Gouin is the most striking personality in view for the Liberal leadership, others lay down the principle that the future leader should not be a French-Canadian Catholic. Why this exclusioniveness?"
Martin Not Wanted.
The Montreal Gazette says: "Premier Martin, of Saskatchewan, has dropped out of the race for the leadership of the Liberal convention at Ottawa. As one who would destroy the protective feature in the tariff, and lead Eastern Canada into a great catastrophe, he never had any real chance of getting support from Eastern Liberals."
Liberals Gathering.
An Ottawa dispatch says the chief feature of the Liberal convention will be the platform leadership and organization. Of the platform resolutions, the most important will be the tariff public ownership and soldiers' civil re-establishment. To formulate the latter, invitations have been sent to many prominent soldiers of Liberal affiliations. Among others invited to participate in this work are Hon. Dr. Heland, Lieut. Col. C. M. Edwards, Lieut. Col. G. M. Stewart, Lieut. Col. Ralston, Lieut. Col. Lafleche, Major George Vanier, Major A. F. Groche and Captain L. Plante. Among the prominent Liberals who have arrived for the convention are Sir Alan Aylesworth, Hon. W. S. Fielding, D. D. McKenzie, M. P., Hon. Frank Oliver, O. Turgerson, M. P., Senator McSweeney and L. J. Gauthier, M. P.
There is great activity in the opposition camp preparing for the convention, which opens next Tuesday. The convention managers seem to have decided upon Hon. W. S. Fielding as the best leader and are busily engaged in procuring him for the post. They evidently figure that he is the best man to unite East and West and Laurier and Unionist Liberals. As an Easterner, he is a protectionist during his fifteen years as Finance Minister, it is thought he will appeal to the protectionist Liberals, while as the father of reciprocity it is believed he would be satisfactory to the West.
Want Orange Minister.
Officials of the Grand Orange Lodge meeting at Ottawa have asked for an interview with the Prime Minister, and it will probably be granted for Friday. It is believed they will urge on the Prime Minister that recognition be given the powerful Orange Order by including one of its prominent members in the reconstructed Cabinet. Among the prominent members of this order in the Commons are H. B. Morphy, North Perth, W. A. Boyd, South Simcoe, H. C. Hocken, West Toronto, and Dr. J. W. Edwards, Frontenac. Dr. Edwards probably will go to the Senate. Of the others it is probable that either W. A. Boyd or H. B. Morphy may be solicitor-general. H. C. Hocken, it is understood, has no desire for political promotion.
Liberals and the Globe.
(Ottawa Journal)
When some one asks the Toronto Globe what Mr. Rowell out of the Liberal party because he refused to associate himself with Mr. D. D. McKenzie, the Journal pointed out that Mr. Rowell's chief sin against Liberalism was continued devotion to causes and policies which the Globe professes to champion. In its defence of his position, published over the week-end, the president of the circular drives home this point with singular force and logic. Cutting through tergiversations and underbrush of mere partisan rhetoric, Mr. Rowell goes straight to the heart of the question in issue, by asking in effect, what constitutes a Liberal? If a man supports Liberal, forward-looking, progressive policies, if he declines to ally himself with a party or rump of a party, which, however progress with its lips, constantly fights it with its votes, is he an enemy of Liberalism? Or, again to quote Mr. Rowell's is a man an enemy of Liberalism, because, continuing to carry out the mandate given him in 1917, he stands by the present government.
(1) In carrying out its pledge to parliament to submit the peace treaties for consideration before ratification;
(2) In supporting Canada's approval of, and participation in, the League of Nations to preserve the world's peace;
(3) In striving for development of the Dominion on a basis of equal partnership within the Empire, as opposed to imperial centralization on the one hand and mere colonialism on the other;
(4) In endeavoring to make permanent by executive enactment the elimination of political patronage from political life;
(5) In seeking to develop a great policy of nationally owned and operated railways;
(6) In effort to validate the liquor prohibition laws provided by order-in-council; and
(7) In seeking to devise a scientific tariff that will bear as lightly as possible upon the consumer and give the greatest measure of justice to every class in the community.
Prohibition — Public Ownership — Canadian constitutional development — these are all Mr. Rowell points out as cardinal principles of the Globe's political faith. Since when, then, has it become heresy to Liberalism, to support them? Is Mr. Rowell an apostate to what the Globe stands for because he declines to bow the knee to an opposition which—

New Occasions
Teach New Duties
A National Campaign — Churches, Representing 50 Per Cent. of Canada's Population, Form An Inter-Church Organization.
Perhaps no better explanation can be given for the "forward movements" so characteristic of church life and work today than the words of the poet:
"New occasions teach new duties."
The Anglican, Methodist, Presbyterian and Congregational churches have decided that if the forward movement in religion is to affect the nation's life as it ought to, then these churches must move forward together, and with this end in view they have united their forces into one inter-church organization, known as the United National Campaign. Under the direction of a national executive committee composed of official representatives from the churches participating, every province in the Dominion is being organized for an intensive campaign in the fall.
A Significant Movement.
This is perhaps the most significant development in Canadian church history of which there is any record. It differs from the Layman's Missionary Movement of some years ago in that it is an official and executive body, whereas the Layman's Movement was an optional and more or less local affair, and confined its activities solely to missionary propaganda. The Inter-Church National Campaign movement aims at increasing the effectiveness and carrying out the plans of each denomination without in any way interfering with denominational policies. The leadership of the laymen as well as that of the response will be utilized to the fullest possible extent.
A Distinctively Spiritual Aim.
By means of public and private prayer, by sermons and addresses, by articles in newspapers and periodicals and by conferences of ministers and laymen it is hoped to rouse the spiritual energies of all members of the various communions and to relate these energies to the tasks of the church. The campaign has definite financial objectives for the carrying out of a programme of missionary and other work at home and abroad.
The House of Bishops to Meet.
The Anglican House of Bishops will hold a special meeting in Toronto early in September to consider the church's part in the national campaign, and the movement will be inaugurated in all the churches on Sept. 21st. The Baptist church is not officially in movement owing to not having a central organization, but represents the whole Dominion. The Baptist church in Canada is divided into two conventions and is not so mobile as the other churches. There are, however, several prominent Baptist laymen and church officials on the inter-church committee who are taking an active part in its organization.

SAVINGS BANK RETURNS.
The deposits at the Dominion Savings Bank during the month of July amounted to \$73,302.44. The withdrawals for the same period totalled \$61,123.56. For several months past the deposits exceeded the withdrawals, the sum in July being over \$11,000.
Mrs. S. M. Boyer and Miss Blanche Kelly of Hartland, N. B., were weekend guests of Mrs. Luther Smith, 28 Dufferin Row, West St. John, on their return home from Boston.
Mrs. W. L. Wyman and youngest son, Bruce, of Edmonton, Alberta, are visiting Mrs. Wyman's parents, Mr. and Mrs. R. A. Johnston.
principle of woman suffrage:
(1) Joined hands with the big interests and denounced nationalization of railways;
(2) Stood with the liquor interests and fought ratification of prohibition; and
(3) Opposed establishment of a Court of Commerce to give the masses of the public a square deal?
If he is, then heaven help Canadian Liberalism, or at least the brand of Liberalism represented by the Globe. But no! no one knows better than the Globe that neither the conduct of Mr. Rowell nor the course of the Unionist party has been in violation of sound Liberal doctrine, by which we mean neither irresponsible radicalism nor mere partisan devotion to hoary shibboleths, but sound progressive, democratic administration or policy. Its attitude is not prompted by anything so worthy. What it fears for is not the maintenance or success of Liberalism, but the success of a political organization which is miscalled Liberal; and it is well that its hypocrisy should be exposed, as assuredly Mr. Rowell has exposed it.

MARKET REPORTS STOCKS, BONDS AND PRODUCE

BULL POOLS IN SPECULATIVE ISSUES WERE AGAIN ACTIVE At the Early Session of Market Trade Was Under the Shadow of the Money Market, But Strengthened Later in Day.

New York, N. Y., Aug. 1—Stocks were under the shadow of the money market during the early part of the day, but strengthened very generally later, when fears of a repetition of yesterday's stringency proved to be groundless.

Call loans opened at six to seven per cent., those quotations ruling until shortly before the close, when large offerings reduced the rate for mixed collateral five per cent., and that for all industrial to six and a half per cent.

Tomorrow's recess was a factor in the day's relatively light turnover, but the increasing agitation connected with certain domestic problems, particularly the high cost of living, has materially diminished public interest in the market.

Bull pools resumed their operation in several of the most speculative groups, such as tobaccos, leather, paper and chemical shares. United Clear and United Retail Stores evidenced the final hour, the first named gaining almost twelve points.

Oil, steel, motors and equipments constituted the other features of the later dealings, when heavy covering of short contracts extended to rails and shippings with metals and utilities. Pacific Gas and Electric rising almost five points.

Sales amounted to one million shares. Recent conflicting changes in bonds marked today's moderate operations in that quarter. Most domestic issues, including the Liberty group, were irregular, with steadiness in Internationals.

Total sales, par value, aggregated \$10,800,000. Old United States 2's were quarter per cent. higher on the week.

CALL MONEY RATES EASED OFF FRIDAY Oil Stocks Made Best Recovery, as a Group, and the Leather Stocks Were Active.

(McDOUGALL & COWANS.) New York, Aug. 1—The market did somewhat better in the afternoon. Call money rates eased off somewhat and selling pressure abated accordingly.

U. S. Steel sold 1 1/2 points and Cru. four points above the day's low, though both lost a small part of their recovery. The oil stocks made, perhaps, the best recovery as a group, and the leather stocks were active and higher.

The despatches were current concerning a strike of 25,000 railroad shopmen at and around Chicago which threatened to tie up the roads entering that city, but the market paid little or no attention to these first reports which may be exaggerated.

DOMINION IRON WAS FEATURE OFFERING ON MONTREAL

Montreal, Aug. 1—Dominion Iron was the feature of today's market. The stock opened weaker at 6 1/2 in sympathy with the rest of the list, but later strengthened, particularly in the p.m. when it sold up to 67.

Trading in the balance of the list was quiet and, with few exceptions, fluctuations small and of no importance. Laurentide was one of the weakest selling off at 218. There was a better demand for the war loans than we have had for some time, the Victory loan 1933 advancing 1/2 a point from last night's close, selling at 103 1/4.

There were large buying orders in market for short term securities. MONTREAL MARKETS Montreal, Aug. 1—OATS—Extra No. 1 feed, \$1.00. FLOUR—Government standard, \$11 to \$11.10. ROLLED OATS—Bag 90 lbs., \$5.25 to \$5.50.

NATIONAL MOTOR TRUCKS

Grit and Endurance Heavy, rigorous, straining hauls that would soon play out the ordinary truck, are easily discharged by National Trucks as part of their day's work. The reason is that National Trucks are built especially to endure the hardships of everyday haulage and to meet the climatic road conditions of Canada, being built by Canadians in a Canadian plant. Right in your own locality you will find scores of concerns who have chosen National Trucks, because their haulage problems insisted upon a Truck that has a record of dependable performance in Canada. Unit for unit, and size for size, the National Truck will compare to advantage in design, construction and price with any Truck on the market. Put the National side by side any other Truck and choose—that is our challenge to you. There are six National models—a size to suit your requirements.

CANADIAN CORDAGE FOR CANADIAN INDUSTRIES

THE FISHERMAN, the Shipowner, the Farmer or the Lumberman who purchases cordage is wise if he exercises caution in his selection. Certain rope is on the "free list," not subject to duty, and the result is that undesirable qualities of cordage are finding their way into Canada. Imported rope may or may not be worth what it costs, and care should be taken to avoid cheap, unserviceable rope. LION BRAND Cordage, made in Canada by Canadian labor, is backed up by the guarantee of the manufacturer. It is consistently uniform in quality, and sells at a price that makes it most attractive, if service is a consideration.

When you purchase LION BRAND Cordage you secure a product that has given employment to Canadians—a product that, dollar for dollar, is the most economical to purchase—a product that will meet your requirements. Forty Deal Charters.
Danfield & Company, at St. John,
Halifax, Pictou, Pugwash and other
points, are busily preparing for the
completion of one of the greatest runs
of business in the lumbering industry his-
tory. The company has received from
various parts of the world orders
for deals to the amount of over 35,
000,000 feet, comprising some forty
charters. The schooner Minna Prince,
which sailed from here for Parrsboro
recently, was one of the carriers for
this company, and there are now on
route to this port three other schooners
to load deals for the company—the
four-master Anus, the tern Lejak and
the Danish bark Marjorie.

WANTED—

AROUND THE CITY SHOWERS

DONATED TEN DOLLARS. The West St. John Glee Club Sewing Circle, Mrs. I. J. McCook, president, recently donated \$10 for the new Protestant Orphanage.

PROCEEDS TO PLAY. Fifteen dollars for the Protestant Orphan's Home was handed to H. C. Rankine, treasurer, the proceeds of a play Wednesday evening given by some little children summer residents at Lakeside.

HIS LEAVE EXTENDED. Major S. S. Wetmore, deputy acting adjutant and quartermaster general for military district No. 7, has been granted a leave of ten days more, as his strenuous duties have caused a breakdown of his health.

WAS BADLY INJURED. John Hannah, aged sixteen of Coldbrook, was taken to the General Public Hospital in an auto on Wednesday evening as the result of injuries sustained in a bicyclist accident in the vicinity of Coldbrook. Young Hannah was badly cut and scratched about the face.

FIRE IN RUINS. The fire department was called to Lansdowne avenue last evening on account of a fire in Taylor & White's building. After more than an hour's work the flames were put out. The building had been gutted by fire several months ago and the damage last night was confined to the ruins.

ARRESTED YESTERDAY. William Moore, aged 17 years, was arrested yesterday afternoon at his home and is charged with breaking and entering a box car on the C. N. R. siding, and with interfering with the police in the discharge of their duty. He was working at the dismantling of the pulp mill, when arrested. A brother was arrested some time ago on a similar charge.

OVERHEAD CROSSING. The need of an overhead crossing in Mill street was again emphasized yesterday afternoon, when many vehicles were held up on account of the shutting of trains. The stalling of traffic at this important point has become an almost daily occurrence. Citizens generally are looking forward to the time when the proper arrangements are made for this railway crossing.

DISAGREEABLE WEATHER. St. John had some more disagreeable weather yesterday and citizens who duty called out of doors were compelled to hold their umbrellas and rain coats close at hand. The change in the weather came on Thursday evening when a heavy fog set in. This was followed by rain early Friday morning and during the day the rain came on at frequent intervals. Last evening was not particularly hot, but the fog still held and at times the dampness was verging on rain.

MAY BE A LEAK. Along Prince William street between the Post Office and Market Square for some time past water has been oozing through the broken pavement along the street car tracks and there has been a trickle of water in the gutters. Some people have remarked that there may be a leak in the water mains somewhere, but at City Hall they know nothing about it.

DRAWING OF PRIZES. The drawing conducted by the Trades and Labor Council for the benefit of the Fairville pulp workers took place last night, with the following results: 1st prize, No. 3,541, barrel of flour, James Robinson, Mainway, South Road; 2nd, half barrel flour, 1,519, W. Payne, 22 Peters street; 3rd, No. 2,860, ham, Pauline Morris, Pleasant Point; 4th, No. 480, five lbs. King sole shoe, J. T. Dover, 24 Adelaide street. Orders for delivery of the prizes will be mailed the winners in a few days on presentation of tickets to A. D. Colwell, 2 Benny street.

WANTS INFORMATION. A unique communication has reached the Board of Trade through Ottawa from Japan. It is an inquiry from a Japanese merchant regarding certain lines of trade here, partly written, partly printed on both sides of a very small piece of paper. The note is addressed to the "Chamber of Commerce," St. John, N. B., and reads: "Please inform me of the names, addresses, wholesale importers, prices of nut, tea. Please send me your annual reports, leading journal directory of members and other publications." That is all on one side, and on the other is the name of the merchant, S. Tomoyama Fujisawa, Ima-Gun, Saitama, Japan.

WARMLY WELCOMED. After having been overseas with the American forces, Pte. Kenneth Watson of North End returned home yesterday morning on the Boston train and was warmly welcomed by many friends. He is a son of Mr. and Mrs. Louis Watson, of Durham street. Private Watson was a member of the 115th Battalion in St. John, but was turned down at Valcartier because of his eyesight. He was greatly disappointed, and going to the United States enlisted in the 301st Infantry Battalion, known as "Boston's Own." On its arrival in France early last year, the battalion was broken up and many of them were sent to the marines. Private Watson included. After the armistice he was sent to the rear and employed on convey duty from St. Nazaire in Col. Lentz, Germany, bringing up food for the army of occupation.

Mr. and Mrs. M. B. McKay, Mr. J. K. McKay and Miss McKay, Houlton, Me., and Mrs. F. S. Tribou, Presque Isle, Me., are in the city for a few days on an automobile tour of New Brunswick.

Miss Clara Grass of Fredericton returned to her home Thursday after spending a month with her sister, Mrs. Harry H. Hurder at Randolph.

RACES AT SUBSEX. Horse races at Subsex this afternoon after the arrival of the C. P. R. from St. John. The track is in good shape.

St. John Housing Commission Met

At Session Yesterday Afternoon Large Number of Applications for Loans Were Considered—Applicants to be Advised as to Conditions

A meeting of the St. John Housing Commission was held yesterday afternoon. Commissioner Bullock presiding. A large number of applications for loans were considered, and the commission found that in spite of the amount of advertising given to the Dominion Housing scheme many applicants did not appear to know much about it. Many are asking for loans to assist in building two or three story tenements, and of course assistance to this class of building was never contemplated by the Dominion government. The idea of the government was to encourage the building of cottage homes by men of moderate salary and retired soldiers, but some of the applicants appear to think they are entitled to borrow the government money to put up flats which they will be able to let to other families. No assistance can be given to houses of the two flat type without a change in the act, and it is not likely that any such change will be made to meet the demands of certain people in St. John.

It is admitted that owing to the topography of the St. John district there are certain reasons why the two flat type seems desirable, but the object of the government is to encourage model housing. Applicants for loans will be advised as to the conditions under which money will be available, and they will have to submit plans of the building they propose to erect.

PLAYGROUNDS ASSN. EXECUTIVE MEETING

Gratifying Reports Received Last Evening from Different Playgrounds—Committee Appointed to Arrange for Soldiers' Day.

The regular meeting of the executive of the Playgrounds Association was held last evening. Captain Mulcahy occupying the chair in the absence of the president, A. M. Belding, who is ill. Reports were received from the different playgrounds which were of a gratifying character, showing that the work was being carried on with success. The disorders which prevailed on one or two of the grounds had been overcome, partly through the control of the supervisors, and partly by the influence of the police who make occasional visits. Captain Mulcahy reported that he had been made a presentation of \$30 by the West End Improvement League to be expended on the West Side grounds. The idea of the donor was to provide amusements for the children during wet weather, and to offer prizes for the best results in handicraft work. A vote of thanks was extended to the league. The question of the representation in the various plans for Soldiers' Day was discussed, and Mrs. A. C. D. Wilson and Captain Mulcahy were appointed a committee to see to it that they find out in what way the association could best help in making Soldiers' Day a success.

The secretary reported that through the generosity of several citizens she had been able to present a football to the boys of the South End grounds who under the leadership of John Scammell are having a very successful season. She also reported a gift of knitting wool for the girls. Com. Fretwell, who was present, asked a lot of questions about the work of the association, and expressed satisfaction with the answers. Com. Fisher is taking a keen interest in the playgrounds.

ST. JOHN'S TIDAL SLIP IS BEING UTILIZED

Pending Construction of Courtenay Bay Drydock the Market Slip Proves Grand Place for Beaching Ships.

Pending the construction of the Courtenay Bay drydock the Americans have discovered that the Market Slip can be utilized to beach ships needing some repairs or a cleaning of their bottoms. Yesterday the steamer Inca, of New York, was hauled into the slip, breaking an ancient by-law which prohibited the use of the slip by any craft over 200 tons. The Inca is having her bottom cleaned, but there were poor facilities and a lack of men for the job when the tide went out last night. The steamer's bottom is very foul, and it will be possible to clean off the worst of the barnacles. There are a large number of American ships at present which have bottoms in bad condition, and as the name of St. John's tidal slip at the foot of King street spreads, more ships may possibly come here.

CHAMPIONSHIP SPORTS AT MOOSEPATH TODAY

Don't forget the Big Athletic meet under the auspices of the Y. M. C. at Moosepath this afternoon. The sports will start at 2.30, daylight time. City Cornet Band will be in attendance. Street car service to grounds.

BRINGS ACTION. In the case of Akersley vs. Robertson summons for directions were taken out yesterday morning before His Honor Chief Justice McKeown. The summons was made in the ordinary form but the place of trial was left open for further application. Daniel Mulholland, K. C., for the plaintiff; H. Robertson for the defendant. This is an action brought by the plaintiff, Frank Akersley, for malicious prosecution and false arrest.

Inquest On Death Of Lester Brown

Jury Find Death Caused By Bags of Sugar Falling From Improperly Loaded Sling—Recommend Experienced Men Instead of Boys at This Work.

"We, the jury empaneled to inquire into the death of the late Lester Brown, who died in the General Public Hospital, July 24, from injuries received at the Atlantic Sugar Refinery, July 21, find that he came to his death by bags of sugar falling from an improperly loaded sling.

"We recommend that experienced men be put at this work instead of boys of 16 years of age. We recommend that the law be so amended that boys cannot have charge in work where life is endangered, and we recommend that placards be posted up in all such places of danger.

"Walter Brown, foreman; Frank A. Hollis, Patrick Cosgrove, Frank Wetmore, William E. Craft, William Craft, Blake Purvis. The above verdict was handed in to Coroner Kenney last night by Foreman Brown, after an hour's deliberation following the evidence that was given by a number of witnesses regarding the accidental death of Lester Brown, at the Atlantic Sugar Refinery, Monday morning, July 21, ultimo.

Dr. Levy Murray, Callen, Princess street, was the first witness called. He had attended the injured man, who was suffering from a simple fracture of the left leg and a fractured spine. His death, three days after the accident, was caused by the spinal fracture. Those injuries could be inflicted by bags of sugar falling from a certain height.

Alfred Bentley, 232 Britain street, the next witness, stated that he was employed as a checker at the refinery. He was about four or five yards away from the crane at the time of the accident, and was checking the loads of sugar as they were taken up by the hoist. One bag was seen to fall, and he saw it strike Lester Brown, and he thought they did not strike Brown, but the other three fell at the end of the sling, and he heard a shout from the crane man and looked up. He saw three bags of sugar fall and running behind a wire fence at the end of the shed found Brown among the pile of fallen bags. One bag was seen to fall and another was over his right shoulder; he was on top of the remaining sling contained 20 bags of the nitrate salt. The bags were away at once, and he thought they did not strike Brown, but the other three fell at the end of the sling, and he heard a shout from the crane man and looked up. WITH FINGERS!
CORNS LIFT OUT
Freezone is magic! Corns and calluses lift right off— Doesn't hurt a bit

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, itching corn or callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on bottom of feet. So easy! So simple. Why wait? No humbug!

Mr. W. F. Cassidy spent Wednesday and Thursday in Amherst.

WANG FOO

Continued from Page 9.

If you please, before we part, what earthly connection has all this with the case of the rice-stealing on the wharf, that you showed up so cleverly?"

"Why, you see, that involves some Chinese family connections that you European gentlemen do not often take note of—but which we always particularly inquire into. The wharf-coolie's wife lives next door to the basket-maker's where I stay, and we heard the whole story from her. In her anxiety to exonerate her husband, she let out the word, "Those rice-coolies have longer socks on their shoulders than they have on their feet," and it led me to suspect the little bamboo trick, of which I had once heard in Hong Kong."

"But why didn't he expose them himself?"

"Gentlemen, his life wouldn't have been worth a Mexican dollar if he had. They were thirty men against one. Times were hard and they were desperate for food—that is all."

"I think, after this, we will weigh the coolies as well as the rice," remarked the Inspector. "Oh, Mr. Wang?"

"Yes, and bring your own scales so that they can't tamper with them beforehand!"

The Biggest Value in Popular Priced Tailored-to-Measure Clothes in the World
A Broad Statement, But Absolutely True

Our Standardized Prices Will Not Be Advanced —Though You Will Profit By Ordering Your Fall And Winter Clothes Now

THE average layman may argue to himself that because of the war being over, woollens will recede in price. The reverse is true—at no time during the progress of the war have woollens been as costly as they will be this fall and winter—"Ready-Made" clothes will command record high prices, when these seasons arrive.

Because of this condition we strongly urge our patrons to anticipate their wants and provide for them now—as our tailor shops will be crowded with orders later in the season, and we will be unable to give the prompt service you are entitled to.

"PROFITEERING IN GRAVES."
A recommendation by the Cemetery Committee to increase the fee and charge for interments before the

Lewisiam Borough Council. Councilor Sykes said it was a clear case of the council's attempting to

in Lewisiam Cemetery nor in Hither Green Cemetery had cost them more, yet they proposed to put the price up.

Last year the cemetery's accounts showed a profit of from 700 pounds to 800 pounds.

After some discussion the recommendation was referred back to the committee.

Dearest Kiddies:— Here we are again saying farewell to another summer month, and isn't it sad to think that there is just one more to come. At least that is the way I feel about it, for I dearly love the summer time, especially when it brings lots of warm sunshiny and days pleasant enough to live in the outdoor world.

Answers To Letters

NORAH A.—Indeed, I did like your letter and am always interested in your doings. You will surely remember Peace Day from the very way you enjoyed and celebrated it.

MURIEL H.—Very pleased to have you join our Corner and with the many pals you have about you I am sure you have lots of jolly times. Hope the coming season will be a pleasurable one, and what a nice chance for you to tell me all about it when you return. I shall expect a real good account of it.

HANFORD PEARSON—Welcome to our Corner and hope you will enjoy being one of us. I like the name you have for your horse, because the first horse I remember had the same name, but we spelled it Gypsy. How good you were to those little birds and I am sure they chirped many a "thank you" to you for your kindness.

OLIVE P.—We are just as pleased to welcome you too Olive, and will hope to have a letter from you before very long. Lots of kiddies think of joining in the summer time, probably because there is no school to take up their time.

BENJAMIN P.—I think you won't consider the weather dry now, after all the rain storms of the last few days. Glad to hear from you again, and to know you were successful in finding so many bird's nests. Continue to enjoy your holidays and have all the fun you can while they last. Are you going to improve your writing next term. That will be something to plan for.

GERALD H.—What a busy fellow you are this summer. But work that keeps you out of doors is so good for you, especially if you don't do too much. Hope you get the bicycle you wish so badly.

MARY G.—I think you must be a jolly little girl by the notes you write. They just show mischief in every line. Yes, the membership is very large, but you see it keeps changing as new ones join others become too old to belong. I don't think you write any too often at all nor I just enjoy getting the kiddies' letters and would not want to have a page for them.

JAMES B.—I certainly will be pleased to print on our page anything which the kiddies send if I consider it something which the members will enjoy, but you must reserve the decision of what is worth while printing.

MARGARET C.—It is a pleasure to enroll you as a new friend. Let me know how your brother succeeds in taming the rabbit. They are like all other wild things, rather timid and take some time to get acquainted, but kindness will do a lot toward winning them. Thanks for the invite, but it is not easy to accept. Hope to hear from you often.

UNCLE DICK. The celebrated Lessing was remarkable for a frequent absence of mind. Having missed money at dinner times, without being able to discover who took it, he determined to put the honesty of his servant to a trial, and left a handful of gold on the table.

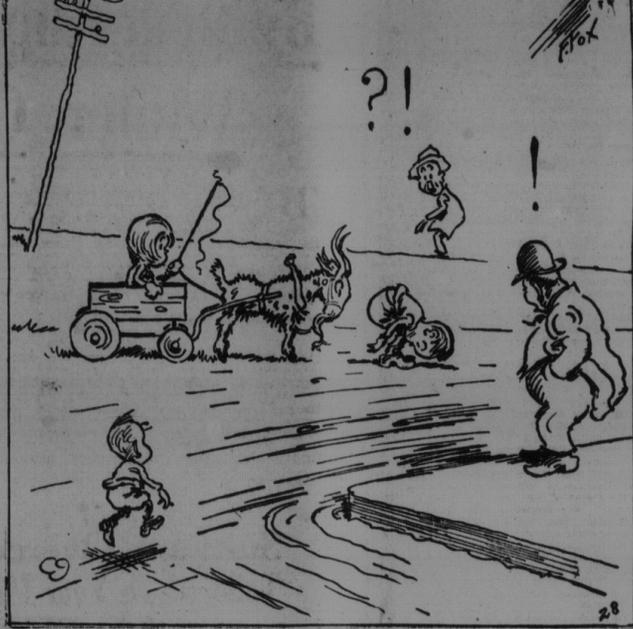

Moving Picture Funnies. A splendid luncheon was served in the meadow where they played, wifes and cigars following, all of which the novice, who, in reward for good work done in the field, was most lavishly treated by the other players, thoroughly enjoyed, afterwards taking his position in the field when play was resumed. At the finish of the match a high tea was ready, and once again the gamekeeper appreciated the good things set before him.

The New Church Organ. The merits of a new church organ were recently thus described by a local paper:—"The swell died away in a delicious suffocation, like one singing a sweet song under the bedclothes."

DICK DUBBIN'S DESPERATION For Older Boys of Children's Corner

Here is a chance to make pocket money for yourself. Good boys are wanted in every village in these provinces to act as agents for the Pictorial Review magazine. This is a magazine for women, the best of its kind printed in America, and is issued every month, usually reaching agents about the tenth. It is delivered to the agents at fifteen cents per copy, and is sold by them at twenty cents, so that the boys make five cents each copy. One had not thirty customers in one day in a little village and expects to double that number before the next issue comes out. Another secured eighteen in one day as a start and is getting more right along. These boys thus earn their own pocket money and are enjoying the work which takes very little of their time.

Half an hour later the Headmaster of Mappleton was considerably surprised when Farmer Bulltop requested the name of an interview. He was even more surprised at the nature of Bulltop's business. While thanking the farmer warmly for his unexpected generosity, Dr. Bailey naturally wanted an explanation. What he got was that suggested by Mollison. "I ain't been playing the game, sir," said Bulltop. "An' two of your boys 'as made me see things in a different light."

The great stage scene of the piece was a shipwreck, and after the vessel had gone down only the comic man and the heroine were to be seen tossing on a frail raft on the boundless ocean. The humorist had expected that his woebegone appearance would raise a laugh, but even he was astonished at the roar which went up when they saw him. At last he was able to get a hearing. "I wish," he said to the heroine, "that we could get out and walk home, but it's so wet."

Robinson was pouring out his woes to his sympathetic adviser, Jinks. "Do you know," he began sorrowfully, "my wife's pet Persian and fluffy Pidge practically rule our house." Jinks, however, began to laugh. "Nothing to grin about," said Robinson. "Nunne, old chap, but I was thinking that it was a case of reigning cats and dogs."

Johnnie—"Pa, am I made of dust?" Pa—"That's what they say." Johnnie—"Are you made of dust, too?" Pa—"Well, your mother and sister seems to think so—and of gold dust at that."

Judge Owl

(Judge Owl sings for a wife and finds himself in an unpleasant situation. Peggy and Billy Begum sympathize with him, but can't help laughing at his troubles.)

Judge Owl, held fast in the embrace of Miss Snowy Owl, struggled violently to get free, but she held him with a grip he could not break. Then Judge Owl tried strategy. He began to recite one of his poems.

"So I met Mollison and Trimm secretly in the lane and propounded my little scheme. While I hid away in the cottage of the game-keeper—who is a staunch friend of mine—Mollison and Trimm were to come to you, and negotiate in the matter of the pavilion. They acted their part right well, and things might have been worse, after all. We are satisfied with things as they are."

Farmer Bulltop still watches the games at Mappleton School, but it is from a comfortable seat in the new pavilion. (The End) Quite Safe. The great stage scene of the piece was a shipwreck, and after the vessel had gone down only the comic man and the heroine were to be seen tossing on a frail raft on the boundless ocean.

The Acid Test

(By H. Harper.) "Can you tell me whether this is pure gold or not?" The question was asked by a stranger of a jeweler into whose establishment he came. As he spoke he laid a piece of jewellery on the plush pad of the glass-case before him.

"This is a very rare ornament, and I should judge of great age. An heirloom, I suppose?" "Yes, it has been in the family for four generations."

"It looks like the real thing," said the jeweler, "but one cannot tell from a superficial glance. I must apply another test to be sure." Taking a bottle from a cupboard he poured a few drops of the contents on the setting of the stone.

"If you are to be congratulated on possessing such a rare gem in such a plain and beautiful setting?" "What kind of liquid did you put on it?" the stranger asked. "That was nitro-hydrochloric acid," he said. "If the setting had not been pure gold the acid would have quickly eaten into and destroyed it. As it was, it had no effect whatever."

Did you know when bathed in dew how sweet the little violet grew amidst the thorny brake? How fragrant blew the ambient air O'er beds of primroses so fair. Your pillow yow! forsake. Student (thoughtfully): "There's my father says my studies are costing him no end of money—and yet I don't study so very much." Judge Owl didn't pause a minute. He turned back with Miss Scream Owl and led the way to the hole in his hollow tree. "Here it is," he cried. "Go in quick!" He pulled the stick aside, and as Miss Scream Owl popped within he snapped it back into place. From a full clatter, squawking, screeching and hooting. "Good night, ladies," hooted Judge Owl with a chuckle, and off he flew as fast as he could. But the stick broke and three angry lady owls, snapping and tearing at each other, tumbled out and chased after him.

STANDARD'S SPORTING SECTION

Races At Sussex Were Called Off

Big Card Arranged for Today —Free for All Will be the Feature.

Special to The Standard. Sussex, Aug. 1.—The races, which were to have been held today at the Sussex driving park had to be called off on account of the inclement state of the weather. The races scheduled for tomorrow, Saturday, will draw a great crowd if the weather is fine. The free for all should be a big drawing card with such horses entered as White Socks, Fern Hill, Prince Rupert, Peter Parson and others of the speedy ones. There will be two other events beside the free for all and the races will be called on at 2:30 o'clock.

Players' Shares In World's Series

Spoils Will be Split Three Ways —New Plan Announced by Commission.

Cincinnati, Ohio, Aug. 1.—The National Commission has announced that the club members of both the National and American leagues had voted favorably on a new plan for distribution of the players' shares in the world's series, whereby the players will participate in the division of the spoils. Sixty per cent. of the world series receipts for the first four games will go into a pool which may be augmented by fifty per cent. of the players' share of any inter-city games played between the team finishing second and third in both leagues. Seventy-five per cent. of this pool will go to the teams participating in the world's series, sixty per cent. of this to the winner and forty per cent. to the loser. The remaining twenty-five per cent. of the pool will be apportioned between the second and third teams in each major league, sixty per cent. to the winner and forty per cent. to the loser. The remaining twenty-five per cent. of the pool will be apportioned between the second and third teams in each major league, sixty per cent. to the winner and forty per cent. to the loser.

Fifty per cent. of the players' share of the receipts of all post-season games between the second and third teams in the National and American leagues shall be divided between the participants, sixty per cent. to the winner and forty per cent. to the loser. The other fifty per cent. of the players' share goes into the big pool. Players taking part in the world's series and post-season games must have been under contract to the club with which they play on August 31 previous to the series.

LAVERNE FATOR

The event of the day at the Empire City Racing Association's summer meeting at New York was the sale of a jockey just out of the apprentice class for \$10,000. The buyer was Samuel G. Hill, owner and trainer of Purchase, Scullite and other cracks; the seller, Stewart Poik, of Billings, Mont., and the lad that changed hands, Laverne Fator, who will not be eighteen years old until August 21, and who hails from Twin Falls, Idaho.

BOXING COMMISSION.

The Toronto Mail and Empire editorially endorses Mayor Church's suggestion for a boxing commission for Toronto and suggests the names of Messrs. Franklin Elmore, Francis Nelson and Tom Flanagan as competent men for positions on the board. The article adds: "Such a commission empowered to grant boxing permits and to refuse them in cases where the proposed boxers are not considered properly matched or capable of giving a creditable performance or whenever any suspicion of profiteering, partiality or double-dealing of the part of the promoters exists would put the old English sport of boxing on a firm footing, and rescue it from the evil associations which have long helped to debase it."

JENNINGS SUSPENDED.

Boston, August 1.—Notice of his definite suspension was received by Manager Hugh Jennings of the Detroit Americans before the Tigers left this city for New York last night. This action by President Johnson, of the American League, was a result of an argument between Jennings and Umpire Moriarty during the double-header here Wednesday.

LITTLE BITS OF SPORT CHATTER

The sports under the auspices of the Y. M. C. I. will take place this afternoon at Moospath. This is the first big meet to be held here since the war, and, judging from the interest shown, there should be good competitions in all the events.

The Carpenter-Beckett heavy weight bout appears to be indefinitely postponed. The promoter has had difficulty in securing a proper place for the fight, and the French authorities seem reluctant to allow Carpenter to leave France before the first of the year. The promoter will try to make some arrangements with the French authorities to release Carpenter for the bout.

It is expected that racing in Montreal will start early this month. It is expected that a string of American horses will be taken to Montreal for the races. It is understood that all the half-mile tracks about Montreal will be in operation in the next few weeks.

Saratoga is full of followers of the racing game. The best stables in America are now quartered there and some of the biggest purses ever offered will be up for competition. Saratoga is to America what Ascot is to England, a convention point for all that is fashionable in the social line as well as in horse racing.

Bat Masterson, of the New York Telegraph, has been an active fighter for the past thirty years and has been a very battle of any prominence, so when he utters an earnest his murmurs have a ring of authority. He has lately painted American sport writers for the readiness to call the English Referee Corri for giving Wilde the decision over Pat Moore. English papers just to hand give Moore great credit for his fight, but declare his fouling lost him the verdict.

Jack Britton will defend the welterweight boxing championship at Canton, Ohio, against Jack Malone, St. Paul. Signed articles calling for a 12-round bout at League Park have been received. Malone is the speed marvel who performed at Toledo in the Leaveness-Willard fight, and showed remarkable cleverness both with his hands and his feet.

Wilfrid Vian is going to sell his racing establishment. The Canadian horseman, who owns such splendid animals as Westy Hogan, Omar Khayyam and others, is going to live in Paris. It is possible that his colors will be seen at Longchamps and Autell as well as the English tracks next year.

THE FLAPPER AND THE WILLORY YOUTH

Stout Commercial Travellers Are Generally Happy, But One Who Arrived Thursday Paid His Respects to the Girls and Boys.

"This is the day of the flapper and the willory youth," said a stout commercial traveller Thursday night, as he nudged up King street, jodging the groups of people who parade in halcyon their sessions in the middle of the sidewalk.

Asker for an explanation, he had less of them. He had been forced to stay in the smoker all the way from Moncton, because giddy girls and effeminate youths persisted in crabbing all the seats, turning them vis-a-vis and making two do the work of one. After being banished like a kipper in the smoking compartment of the car, he thought a walk to the hotel would be the proper thing, but all the way up into the King street he had to dodge groups of half-grown boys and girls who were walking four and five abreast, and then skirt to the gutter to avoid a family reunion on the public pavement. "Boys will be boys and girls will be girls," he sighed, "but I think a lot of the girls are taking the place of boys, especially those I meet on Mill and Dock streets every time I come to the city."

TRADE WITH ARGENTINE.

B. S. Webb, Canadian Trade Commissioner in Argentina, who has been sent to the maritime provinces by the Department of Trade and Commerce to assist manufacturers in these provinces to develop the trade opportunities which await them in the Argentine, left yesterday for St. Stephen to confer with exporters in that town. Whether it has been lack of transportation facilities or other causes, Mr. Webb said his Buenos Ayres office had received enquiries from but two St. John manufacturers. With the increasing facilities for shipment which Mr. Webb has been instrumental in promoting, it is expected that Canadian manufacturers will make a stronger bid for business in the South American markets.

Mr. Webb visited Upper Canadian cities before coming to the maritime provinces and in Hamilton alone he found sixty requests awaiting him for conferences with the manufacturers of that city. Mr. Webb will return to St. John today and will be at the disposal of St. John manufacturers, through the local Board of Trade office, all day Monday.

TORTURED BY RHEUMATISM

"FRUIT-A-TIVES" Brought Quick and Permanent Relief.

MR. P. H. MCHUGH, 103 Church Street, Montreal. December 10th, 1917. "I was a great sufferer from Rheumatism for over 15 years, I consulted specialists, took medicines, used lotions; but nothing did me good. Then I began to use "Fruit-a-tives" and in 15 days, the pain was better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. Also, I had severe Eczema and Constipation, and "Fruit-a-tives" relieved me of these complaints; and gave me a good appetite; and in every way restored me to health."

Why You Are Paying High Prices for Meat

The comment of the American press on U.S. Federal Trade Commission's report on the packing industry would tend to show that the people do not seem to be worrying over the precise percentage of profits made by Mr. Armour and Mr. Swift and Mr. Wilson and the rest, nor are they so deeply concerned lest these gentlemen branch out too widely into the grocery business. What they do ask is: are the packers profiteering; are they keeping up the price of meat and other products they handle; are they one of the props of the High Cost of Living? While the packers have their defenders among the newspapers, there is a widespread belief that the "Big Five" can not be held guiltless of all blame for the continuance of high food prices, as is shown in the leading article in THE LITERARY DIGEST for August 2nd.

- Other features of more than ordinary interest in this number of "The Digest" are: Peace Can Only Come When Everybody Goes to Work Again; Does Germany Consider the Treaty A "Scrap of Paper?"; "Dry" America As An Example to England; The Uproar Over Shantung; A Race Riot At President Wilson's Door.

White Trucks

Constant Service Pays Big Dividends

QUANTITY and Quality of truck service cannot be purchased at a low price. You have the choice of buying trucks built to sell at a price—or buying trucks built to defy wear and tear, which are necessarily higher in cost. Where White Trucks are used in mixed fleets you will find them selected for the longest hauls, the heaviest loads and the roughest routes.

Think it over, and you will decide that you prefer to pay for quantity and quality of service that you can be absolutely sure of. Do not handicap yourself by trying to use trucks that will not stand the strain of constant service. Do not experiment by tinkering with inferior hauling machinery.
