

PARLIAMENTARY ABILITY AND EXECUTIVE GENIUS FEATURE MEIGHEN'S NEW MINISTRY

While Ottawa Slept New Cabinet Sworn in Before His Excellency Lord Byng—Quebec Gets Full Representation—French Canada Aably Represented—Hon. J. B. M. Baxter New Brunswick Member.

Special to The Standard. Ottawa, Sept. 21.—At an early hour this morning, while most of Ottawa slept, Mr. Meighen's new ministry was sworn in before His Excellency, Lord Byng. The new cabinet, although substantially as predicted, contained some surprises. Mr. Doherty, Minister of Justice, retired and is succeeded by Mr. R. B. Bennett, the well-known lawyer politician of Calgary, and Captain R. J. Manion, M. C. of Fort William, comes in as the new Irish Catholic representative.

An outstanding new feature of the new Ministry is that it marks the result of Mr. Meighen's persistent efforts to give Quebec a full quota of representation in the Government. For the first time since 1917 French Canada is adequately and ably represented in its three Ministers Messrs. Monty, Bellefleur and Normand—being men of distinction and ability.

Representation by Provinces. The new Government contains no fewer than 11 members—one from the Maritime Provinces; three from Quebec; four from Ontario; one from Alberta; one from Saskatchewan and one from British Columbia. Taken as a whole, the representation of the provinces is as follows:

- Ontario—Five Ministers with portfolio and two without portfolio.
- Quebec—Four Ministers with portfolio.
- Nova Scotia—One Minister with portfolio and one without portfolio.
- New Brunswick—One Minister with portfolio.
- Manitoba—The Prime Minister.
- Saskatchewan—One Minister with portfolio.
- Alberta—One Minister with portfolio.
- British Columbia—Two Ministers with portfolio.

With the announcement of the new cabinet several figures, who have bulked large in the national spotlight for many years, pass from the stage. Sir George Foster, who has served under six premiers, and who has been a salient personality in the House of Commons since 1915, also leaves the scene. In recent years, Sir George has been prominent on the international stage, being one of Canada's plenipotentiaries at Paris, and it is said that he is slated for a high appointment. Mr. Wigmore, who was Minister of Customs, and Mr. Blomdin, who was Postmaster General, also pass out.

Cabinet of Ability.

The consensus of opinion here is that Mr. Meighen had produced a good cabinet. It is not a collection of talents, nor of intellectual giants, nor of supernumeraries, but a splendid average of parliamentary and executive ability. Of the new men, Mr. Bennett, Mr. Stevens and Mr. Stewart are excellent parliamentarians with youth and energy before them, and successful records behind them, while Dr. Manion is a young man of brilliant attainments, of unimpeachable integrity and of the parliamentary skill, in addition he is the possessor of a distinguished record in France and should be popular with returned soldiers.

Dr. Baxter, although not well known in upper Canada, has had a successful career before the bar and in politics in New Brunswick. He is an excellent platform speaker and should bring the Government strength where it was weakest—on the platform. Mr. Bristol and Dr. Edwards are not regarded as either strong popular appointments, but both have energy and industry, and may do better than many suppose.

Cabinet of Specialists.

In a sense it is a Cabinet of specialists. Thus, in the Department of Soldier's Civil Re-establishment, there is an eminent soldier, in Justice a famous lawyer, in the Labor Department a labor leader, in the Department of Agriculture a leading farmer, in Trade and Commerce, a successful business man, and so to the end of the chapter. Finally, it is a cabinet of fighters. The old ministry lacked militancy. It was without pep and punch, inclined to let things drift. And things drifted. The new Ministry is different. In Bennett, Stevens, Manion and Stewart, it has four of the finest fighting parliamentarians that politics has produced in years. Keen, able debaters all; fighters who scorn quarter and give none. They will make a formidable group in the debate and in the hustings.

MAKING STRONG CASE AGAINST ARBUCKLE

Reported to Have Made Certain Damaging Admissions re "Gin" Jollification.

(United Press) San Francisco, Sept. 21.—Highly important testimony against Reboc "Fatty" Arbuckle was given to the grand jury in Los Angeles by Al Semmacker, manager of Virginia Rappé, according to advice received here tonight by District Attorney Brady. Semmacker is quoted as having told the jury that Arbuckle admitted an alleged attack on her by Arbuckle in his hotel room during the party. Arbuckle is said by Semmacker to have made an admission in the presence of Lowell Sherman, actor now in New York. Fred Fishback, who accompanied Arbuckle to San Francisco on the trip immediately preceding the ill-fated party, and Harry McCullough, Arbuckle's chauffeur. Semmacker's statement created a sensation here, Brady announced that all present at the gin-jollification, except Sherman, have been subpoenaed to testify at Arbuckle's preliminary hearing. A first degree murder charge Thursday afternoon, and immediate arrest will follow in case any fail to appear. Sherman's presence in San Francisco is imperative, Brady said, and every effort will be made to bring him back.

AMERICAN GOVT EXPERIENCING DIFFICULTIES

Endeavoring to Clear Up Certain Misapprehensions Regarding Conference.

(United Press) Washington, Sept. 21.—The American government is now experiencing inevitable difficulties embodied in long range discussion among the Powers on questions covering as important an international conference as that on armament limitation and the Far East. Messages were taken today to clear up certain misapprehensions regarding the American attitude in the approaching conference. It is stated by high authority that, first of all, it must be well understood that the United States, anxious as it is for the conference's success, cannot be expected to effect such success at any and all costs. This announcement is made clear that America enters the conference with no thought that either the political future of the administration or fate of this nation is hinged on the outcome. The Administration feels its stake in the conference is less than that of other participating powers. The Administration spokesman clearly declared, in recent weeks, that America could and would go on building a navy until international agreements were reached whereby all would stop the armament race. The attitude of this government in the approaching conference, however, is not militant. It is made clear that the whole subject of armament and the far eastern problems are being approached sincerely and with most friendly feelings for all nations involved, and with hope and desire of removing all obstacles in the way of a practicable discussion. This pronouncement of the administration to the world is regarded as the most significant yet made in connection with the conference. The administration believes the forthcoming discussions should be carried on along strictly in formal and practical lines with a marked absence of the spectacular and the dramatic.

One ton of soft coal contains 1500 pounds of smokeless fuel 10,000 feet of gas, some benzol, some tar and some ammonium sulphate. The fuel would furnish about as much heat as the original ton of coal. The gas would run the average kitchen range two months. The benzol would run an automobile 40 miles or so. The ammonium sulphate would fertilize a garden.

Marshal Foch Trains For Trip To America

Brest, Sept. 21.—Marshal Foch, who on Oct. 21 will sail for the United States, has gone into training for the trip on his British estates a few miles from here. He will stay there for a month getting in condition to meet the rigors of a series of banquets he expects to attend while visiting the United States.

"Poor Marshal Foch was on the verge of dyspepsia when he returned from America," the marshal is said to have remarked jokingly, "and he has a much better stomach than I. If the Americans insist upon banqueting me as they propose, I am afraid the 'battle of America' will be my undoing."

Moncton Fire Does \$10,000 Damage

Two Wooden Buildings Gutted in Blaze Wednesday Evening.

Special to The Standard. Moncton, N. B., Sept. 21.—A fire which broke out about nine o'clock tonight and burned for two hours did about ten thousand dollars damage to wooden buildings owned by Mrs. G. H. Brown, and Eloi Cormier at the corner of Main and Mechanic streets. The greater part of the damage was done by the water which it was found necessary to pour into the buildings. The Brown building is occupied by White and Arsenault, electricians, and the Fontana Tea Rooms on the lower floor, and occupied by Mrs. Brown on the upper stories, as a residence. Cormier's building is occupied by himself as a restaurant and the Fontana Tea Rooms on the lower floor, and occupied by Mrs. Brown on the upper stories, as a residence. Cormier's building is occupied by himself as a restaurant and the Fontana Tea Rooms on the lower floor, and occupied by Mrs. Brown on the upper stories, as a residence.

Fredericton Fair Real Hummer

Record Crowds, Superb Exhibits and Banner Attractions Count for Success.

Special to The Standard. Fredericton, Sept. 21.—The Fredericton Exhibition, with a half week gone, tonight is assuredly on its way to the greatest success ever attended a fair in this city. The attendance today was large and it is confidently expected that when the tonight record is announced tomorrow morning another attendance record will be shown. Visitors pronounce the Fredericton fair to be the best so far held in the province in a number of departments. The agricultural and live stock sections have not been surpassed this year. Other classes or exhibits also are far above the average. The outdoor attractions are making a great hit with the public and the balloon ascension, although a feature of fairs for more than a generation, still attracts the greater attention. The aeronauts and live stock sections in a gale of wind which carried the big bag rapidly across the St. John river. He made two parachute drops landing safely near the mouth of the New Brunswick river. The balloon, an old one, which takes the place of that destroyed by fire in Tuesday's ascension, fell safely near the same spot.

Death Claims Digby Woman

Leader in Social Affairs Passes Away Under Particularly Sad Circumstances.

Special to The Standard. Digby, N. S., Sept. 21.—A death, under particularly sad circumstances, occurred this evening when Maad, beloved wife of Major M. C. Denton, of the firm of Denton & Condon, passed away after an illness of less than twenty-four hours. She was a daughter of the late John and Mrs. Byde, and was prominent in church work and in the social life of the town. When she was taken ill her husband was in Pictou County and when the seriousness of her condition was fully realized it was a difficult job to locate him. It was last evening before he could be secured and informed of his wife's condition and he then started a race with death. Autos and trains were taken advantage of and he reached Digby in time to see his wife die. The baby daughter, for whom she gave her life, died during the night. Besides her husband she leaves one son, Sydney, a mother, and a number of brothers and sisters. She was a great favorite and tonight the whole town is sorrowing with the bereaved ones.

If you suspect a man, do not employ him; if you employ him, do not suspect him.

LLOYD GEORGE PHRASES FINAL OFFER TO IRELAND

London Hears New Proposal Is In Words That Can Be Accepted.

(United Press) London, Sept. 21.—Lloyd George, surrounded by cabinet officials chiefly concerned in a solution of the Irish question, spent the greater part of today formulating a reply to Eamon De Valera's latest message asking for an "open" peace conference. Advice arriving from London, after the cabinet session, hints that Lloyd George would phrase a final offer in words that can be accepted by De Valera.

There is a feeling that this terms acceptable to Sinn Fein, second, it must make the necessary for a coalition with the parliament; third, it must avoid any loose characterization of the status of Ireland's delegates, and, fourth, it must place on De Valera the responsibility for breaking off of negotiations if the peace drive comes to a sudden failure. Apparently nothing in the nature of an ultimatum is being considered by the British Government, and everything points to a spirit of conciliation.

Speaking Campaign However Will Be Conducted to Enlighten People on Question.

(United Press) London, Sept. 21.—Lloyd George, surrounded by cabinet officials chiefly concerned in a solution of the Irish question, spent the greater part of today formulating a reply to Eamon De Valera's latest message asking for an "open" peace conference. Advice arriving from London, after the cabinet session, hints that Lloyd George would phrase a final offer in words that can be accepted by De Valera.

ELECTION RUMORS ARE DENIED

(United Press) London, Sept. 21.—Lloyd George, surrounded by cabinet officials chiefly concerned in a solution of the Irish question, spent the greater part of today formulating a reply to Eamon De Valera's latest message asking for an "open" peace conference. Advice arriving from London, after the cabinet session, hints that Lloyd George would phrase a final offer in words that can be accepted by De Valera.

It is understood the note is being framed with four purposes in view. First, it must be couched in simple terms. Second, it must make the necessary for a coalition with the parliament; third, it must avoid any loose characterization of the status of Ireland's delegates, and, fourth, it must place on De Valera the responsibility for breaking off of negotiations if the peace drive comes to a sudden failure. Apparently nothing in the nature of an ultimatum is being considered by the British Government, and everything points to a spirit of conciliation.

Two Baths A Week Held Necessary For Health

Washington, D. C., Sept. 21.—Every body ought to bathe at least twice a week in order to be healthy. The Saturday night scrubbing is not enough. This went down in the Government book as an official rule today advocated by the United States Bureau of Education, which has started a nationwide drive for healthier school children and teachers.

In addition to frequent bathing, the bureau declared the teeth should be brushed at least once a day; that children should sleep long hours with windows open, drink plenty of milk, but no coffee or tea, and that they should play out of doors every day.

Thousands Greet General Pershing

Arrived in Paris Yesterday to Confer Honor on Unknown French Soldier.

(United Press) Paris, Sept. 21.—General John J. Pershing arrived at Havre and proceeded here today. He was greeted by thousands of throngs. Pershing, in United States interview, reiterated the denial that his visit to France was connected with the possible withdrawal of American troops of occupation on the Rhine, and declared his sole mission was to confer Congressional medals upon the unknown French soldier buried beneath the Arc de Triomphe, and unknown British Tommy in London. In his program for the tour of France Pershing hopes to visit all American cemeteries and battle fields.

Lobster Subject of Discussion

Maritime Fishery Conference Considered Best Methods for Handling Crustacean.

Special to The Standard. Charlottetown, P. E. I., Sept. 21.—The lobster formed the main theme of discussion at the maritime fishery conference here today when fishery, fishermen and officers held a joint meeting. Chief Inspector Fisher, of Halifax, presided.

W. F. Tidmarsh, of Charlottetown, led off the discussion with a comprehensive paper on the economic loss suffered by the lobster industry for years past by the discoloration of the canned goods, quality of the pack, hazardous and unsanitary methods. There must be more scientific operation of canneries if the industry which is still full of great possibilities is to be prosecuted successfully. The illegal catching of lobsters was dealt with during the discussion. Inspector Galt was pointed out that, though this is election time, pressure might be brought to bear by politicians to suspend penalties or be lax in the enforcement of the law, there would be a violation if he knew of them. The best method of preventing the discoloration in the pack, caused by bacteria, was discussed at considerable length and Dr. Knight, the biologist, who has been conducting investigations for some time, declared that the scientists are now ready to announce the remedy to cover all cases. Two baths of one hour and a half with a cooling period between each would be helpful in killing the bacteria.

A resolution was passed calling upon the Federal Government to establish a modern cannery on the Island for carrying on scientific experiments and instructional work among packers, fishermen and fishermen. Another resolution was passed commending the Federal Department for the researches now going on. Demonstrations in bacteria development were given by Dr. Knight and Dr. Clarence Tidmarsh.

Knickerbockers and Politics Clashed

(United Press) Stafford, Penn., Sept. 21.—Knickerbockers—For girls—have entered politics and lost. Mrs. Elton E. Sullivan, candidate for school director on Republican ticket in Treduyarin township, wore 'em. They became the subject of a bitter political fight. Should she or shouldn't she? Pictures of the lady on golf links used in campaign. Town voted she shouldn't. Mrs. Sullivan was the defeated candidate.

Masonic Honor To Brooklyn Man

Doston, Sept. 21.—Leon M. Abbott, of Brooklyn, was elected most Excellent Sovereign Grand Commander, Supreme Council, thirty-third degree, Ancient and Accepted Scottish Rite, Masons for Northern Jurisdiction of North America. Abbott was past grand master Massachusetts Masons.

TERRIFIC EXPLOSIONS ROCK GERMAN CITIES CAUSING LOSS OF LIFE AND PROPERTY

Railroad Train Buried, Blocks of Houses Smashed and Occupants Killed—Cities Mad With Anguish and Shock Only Controlled by Stern and Impressive French Garrison Guards—Hysterical Women Beg to Search Ruins.

(United Press). Berlin, Sept. 21.—In confused and conflicting dispatches received here from Mannheim and Ludwigshafen on Rhine, Wednesday night, came evidence that there were explosions in Ludwigshafen, Wednesday, destroying portions of both cities with loss of life estimated between 700 and 1000. It was the worst disaster of the kind in Europe for many years. Not even bombing raids, to which the cities became more or less accustomed and which spread terror and panic were comparable in effects to the explosion in the Oppauer Chemical Works, of Mannheim which, apparently, caused other explosions in quick succession, and buried three railroad trains, smashed whole blocks of houses, killing occupants, and even caused windows to come crashing down in fragments in Frankfurt, over 40 miles away.

PEACE TREATIES TO BE RATIFIED BY AMERICANS

Harding Informs Senate Treaties With Germany, Hungary Must Be Settled.

(United Press) Washington, Sept. 21.—Peace treaties with Germany, Austria and Hungary, are to be ratified by the Senate with all possible speed, according to Senator Lodge, Republican leader and Chairman of Foreign Relations, tonight. This is in accord with the wishes of President Harding, made known in a conference with Lodge at the White House today. The President sent the treaties to the Senate shortly after it re-assembled today, accompanying them with a note of transmission. They were referred to the Committee on Foreign Relations. Senator Lodge called a meeting of the Committee for tomorrow and said he anticipated little delay in having the treaties favorably reported to the Senate. The Committee previously examined the German treaty and discussed it with Secretary Hughes, he explained. Every effort is to be made to have the Senate approve the treaties as soon as possible. Senator Lodge said it might be necessary to have a night session of the Senate during which all other matters would be excluded from discussion. The President desires to have the treaties out of the way before the Armament Conference on November 11, to avoid what might be an embarrassing discussion of foreign affairs on the floor of the Senate. It is also thought he wished to end as speedily as possible the confusion resulting from a continued technical state of war with the Central powers, both as regards America's relations with them and relations with the former allies.

GOVERNOR OF KANSAS SCORES THE LABOR BOSS

Claims Labor Unions Have Brought on the Conditions Now Existing.

(United Press) Chicago, Sept. 21.—"Kick the Radical stacker on top labor, break down the philosophy that the workman is entitled to do as little as he can for the most he can get, put the labor boss to work, make the profiteer let go." Governor Henry J. Allen, of Kansas, creator of that State's famous Industrial Labor Board says if those things are done the country will have jobs for every man and woman who wants to work. Governor Allen is here on a speaking engagement. Business men and conservative union men should take the reins of labor leadership away from a certain "rotten bunch of leaders that have imposed themselves on American labor," the Governor said. "I wonder if the people realize that the labor bosses who do not work themselves, but fatten on the work of other men, are taking \$50,000,000 a year from the slender purse of labor, and labor's purse now is quite slender" he said. During and subsequent to the war they promulgated the doctrine of less work and more pay principal, that has been one of the means of putting six million men on the unemployed list. Limiting the amount of work man may do has been one of the chief factors in bringing on the unfortunate situation in which labor now finds itself. Done to make labor prosperous, instead it has made labor poor."

Bishop Richardson More Comfortable

May Not Be Necessary for Him to Undergo Surgical Operation.

Fredericton, Sept. 21.—Very Rev. Scott Neales has received a telegram from Rivier du Loup, Que., from Right Rev. Dr. J. A. Richardson, Bishop of Fredericton, who was then on route to Montreal, stating that he had recovered from the acute attack with which he was seized at Bathurst Sunday, and that it might not be necessary for him to undergo the operation for which he had been ordered to Montreal.

STUCK IN A HOLE

One of the city's trucks which was assisting in the work being done by the water and sewerage department on Prince William Street, got stuck in a hole in front of the Consumers' Coal Co. office at 8.30 yesterday morning and could not be released for over half an hour.

Fire Followed Explosion

Fire broke out in debris immediately after explosion and continued to burn long after the explosion. A number of people homeless, their dwellings demolished in that awful instant, messengers described in dispatches which correspondents have been able to send through to Berlin by various resourceful innuovers. Some of these dwellings were a long way from the plant site; yet the explosion buckled walls and sent roofs crashing down on occupants, without even warning of cracking timbers. It was an instantaneous occurrence, according to advices here.

Bodische Aniline Soda Co. issued a statement Wednesday evening explaining that the disaster was caused by an explosion of 4,000 ton container of ammonium sulphate and saltpeetre. What caused the explosion the firm is unable to say, however, and explanation probably will never be known.

Estimates of number of dead still run long after midnight. Everywhere in Oppau are masses of ruins, and dispatches describe the sight of groups of dead and wounded lying in the streets.

Hospitals of Ludwigshafen and Mannheim are overcrowded with casualties. Surgeons and nurses know some into the stricken town to wait until the morning. Several hundred have survived the explosion today, according to Exchange Telegraph dispatch forwarded by way of Paris. The explosion was plainly audible in Mayence. From several sources the change correspondents received estimates of 1,000 dead all told, and many more injured.

The physician who attended the Lordship at Bathurst diagnosed his case as gall stones.

MUNICIPAL HOSPITAL FOR KINGS FORMALLY OPENED

Interesting Ceremony Yesterday Afternoon at Norton When Lieutenant-Governor or Officially Opens the New Institution—Large Crowd of Citizens Take Opportunity of Inspecting Splendidly Equipped Building Which Houses Both Hospital and Municipal Home.

Favored by delightful weather the opening of the new municipal hospital of Kings County took place yesterday and was an unqualified success. A large number of citizens took advantage of the opportunity to inspect the municipal home and hospital and all were loud in their praises of the institution.

The hospital is located in the third story of the municipal home and for situation could hardly be improved on. For the present there will not be a resident physician but there will be a resident nurse. The hospital is not only for the non-paying patients of the municipality but will take care of paying patients as well for a very moderate charge.

The Hon. J. E. Hetherington, M. L. A., provincial secretary, congratulated Kings County on the commission in charge of its municipal home who had provided the place for the hospital and in having men with vision enough to ask that such an institution be started in the county to care for sick of the community.

Mr. Justice White, one of the fathers of the hospital and the physician of the hospital, was the first speaker. He expressed his pleasure at the opening of the hospital, especially the ladies, at the institution of a lot of hard work, and at times abuse, in the effort to establish a municipal hospital for Kings County.

Dr. Gilchrist, one of the fathers of the hospital and the physician of the hospital, was the first speaker. He expressed his pleasure at the opening of the hospital, especially the ladies, at the institution of a lot of hard work, and at times abuse, in the effort to establish a municipal hospital for Kings County.

SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable On Record.

"Just a week before I started taking Tanlac I was down in bed so crippled up with rheumatism I could not move without help. My son had taken Tanlac, and I had done him a world of good, so one day he brought home a bottle and said, 'Mother, I want you to take this.' When I had finished that bottle, I felt like a different woman, and by the time I had finished my second bottle, I was out in the garden hoeing.

"Tanlac has simply done wonders for me; it almost seems like a miracle." This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1499 Powers St., Portland, Oregon, and is only one of tens of thousands from well-known men and women who testify to the power of Tanlac.

Continuing her wonderful statement, Mrs. Root said, "For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. In the last five years there was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I got very much worse and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I was so weak I could not do any housework. I couldn't even stand, and no rest day or night. Even to walk a few steps would tire me out completely.

When I tried to walk a little way, and when I could get up without any help, I could not stoop over far enough to pick up my shoes on the floor. I never knew what a night's sleep was, and would lie awake for hours. At times I would get very cold and would have to get up and sit by the fire all night long. My feet would get so cold I had to wear put hot water bottles all around me. I was treated by four doctors,

and took all kinds of medicine. Nothing ever did me any good. I am just like a different person now. All those terrible aches and pains have left me, and only the other day I was able to walk up four flights of stairs in an office building when the elevator was out of order.

"My appetite is just splendid now, and just today for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact, I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the benefit I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live.

Tanlac is sold in St. John by F. W. Mayo and by leading druggists everywhere.

Obituary

Charles Frederick Brown. The death of Charles Frederick Brown at his residence, 84 High street last night about eleven o'clock, will be heard of with keen regret by a large number of his friends. Brown had not been in robust health for about six months, but had only been confined to the house for a few days.

He was for over thirty years identified with the fire department of the city, and had for many years been the efficient district engineer of the North End. He was active in the Masonic Fraternity, being a 32nd degree man. A man who had the best interests of his native city at heart he would always be depended on to do his part in any movement for the betterment of the community.

He is survived by his wife, four sons, William L., E. Cecil, C. Walter and F. Tule; two daughters, Mrs. J. L. Heans and Miss Edith, all of this city; three brothers, W. K. of this city; A. G. of Campbellton, and Thomas of Calgary, and one sister, Miss Charlotte, of Halifax.

SUFFERED YEARS WITH ECZEMA

"Fruit-a-tives" Cleared Her Skin. Potato St. Pierre, P. Q. "I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good.

"Then, I used one box of 'Fruit-a-tives' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return.

"I think it is marvelous because no other medicine did me any good until I used 'Fruit-a-tives' and 'Fruit-a-tives', the wonderful medicine made from fruit."

MRS. JENNIE ROOT.

Weddings

MacDonald-Ross. A pretty wedding was solemnized at seven o'clock yesterday morning in St. Mary's church, when Rev. R. Taylor McKim united in marriage Miss Thelma Ross, daughter of Mr. and Mrs. Ross, of St. John, and Mr. Ross, of St. John.

Leger-Alexander. A wedding of interest took place yesterday afternoon at five o'clock at St. John the Baptist church, when Rev. A. W. Moohan united in marriage Miss Nettie Alexander, daughter of Mr. and Mrs. Alexander, of St. John, and Mr. Alexander, of St. John.

Moore-Hoover. At the Catholic church, paragon, 189 Princess street, last evening, the Rev. F. H. Bone united in marriage Miss Alice Augusta Hoover, of St. John, and Mr. Hoover, of St. John.

Small-Hughes. A very pretty home wedding took place last evening at seven o'clock at the residence of Mr. and Mrs. Small, when Rev. F. S. Dowling, pastor of St. Andrew's church, united in marriage Miss Nettie Small, daughter of Mr. and Mrs. Small, of St. John, and Mr. Small, of St. John.

Other speakers were: Mr. McKenna, mayor of Sussex and F. W. Wallace of Sussex and J. M. McIntyre.

History of Home. The municipal home had its inception in 1896, when through the efforts of the late G. G. Scott, Senator U. W. Fowler and Mr. Justice White, who at that time represented the county in the legislature, an act was passed creating the Home Commission for the County of Kings.

The present board of commissioners is: Thomas Gilliland, chairman; George Coghlin, William King, Charles Cook, J. D. McKenna, Charles Reynolds with J. P. Albertson, C. A., as secretary.

The Hospital Movement. About two years ago the question for a hospital was started and the county council was asked for a grant for that purpose. The amount asked

for was voted and last year a further amount was voted for the work and work began in earnest. It was decided to use the large attic in the municipal home and this was divided into four rooms, one of which will be used as an operating room. There is accommodation for seven patients and this can be increased if necessary.

Obituary

Charles Frederick Brown. The death of Charles Frederick Brown at his residence, 84 High street last night about eleven o'clock, will be heard of with keen regret by a large number of his friends.

He was for over thirty years identified with the fire department of the city, and had for many years been the efficient district engineer of the North End. He was active in the Masonic Fraternity, being a 32nd degree man.

A man who had the best interests of his native city at heart he would always be depended on to do his part in any movement for the betterment of the community.

He is survived by his wife, four sons, William L., E. Cecil, C. Walter and F. Tule; two daughters, Mrs. J. L. Heans and Miss Edith, all of this city; three brothers, W. K. of this city; A. G. of Campbellton, and Thomas of Calgary, and one sister, Miss Charlotte, of Halifax.

Notice of funeral will be given later.

What to Take for Disordered Stomach. Takes good doses of Carter's Little Liver Pills. The out of town guests were Mrs. Jack Kinghorn, Miss Louise Kinghorn, Mrs. A. S. Jackson, Mrs. Barrett, Mrs. Harman and daughter and Mr. and Mrs. Walter Mackay of Fredericton, Miss Laura Smith and Miss Alberta Ryan of Albert County.

THE ISSUE ON OCTOBER 10

The issue on October 10 is plain. It is a clear-cut choice between a greater measure of the FARCICAL "Prohibition" we have at present on the one side, and on the other unhampered personal liberty to import the world's best liquor at the lowest possible prices.

It is a choice between bad liquor at ruinously high prices and good liquor at low prices.

It is a choice between the encouragement of smuggling and bootlegging and a legitimate business, which pays into the sadly depleted public treasury greater duties and higher taxes than are paid on any other commodity.

In Great Britain last year the income of the Government from the drink business alone was 197,000,000 Pounds Sterling. While the Public funds benefited to this large extent, yet Lloyd George, himself a believer in temperance, opposes Prohibition, not only on financial but on moral grounds.

The old British Spirit is alive in Canada today, actively resenting the forcing of an American-made law upon our people. Besides, Canada cannot afford and New Brunswick cannot afford, either loss of revenue at the present time nor to continue the building up-of such an army of run-runners, smugglers and boot-leggers as now disgraces the United States, and which is rapidly growing up in Canada.

Prohibition created the boot-legger, he flourished during the years the war measure forbade inter-Provincial Trade in liquor, and he will not die if IMPORTATION is once more put under the ban.

The EVILS which have arisen under Prohibition are SO well-known that if any considerable body of the Electorate will express themselves, importation will be endorsed by a large majority on October 10.

GHOST STORIES COMING FROM KENNEBUCK, New Kind of "Spook" Specialty is Rippling—Hovers Over Girl.

United Press. Kennebec, Me., Sept. 21.—number of Kennebecians who before admitted rapings started altered their beliefs in this result of activities of a number of ghost which specialises in clothes and believed to be the Florence Harriman, daughter of Mr. and Mrs. Arthur Harriman, Kennebecport. Numerous investigators, none claims to have found spook is Margaret Deland, another legends her summers here. I land has declined to give an "manifestations." Harriman several friends assert for months admitted rapings started the girl when she went at that time. Rappings were at her home, her aunt's home here on a trolley car in Kennebecport car barns where a mother sought refuge one time night. Plaster has fallen concerning habit of aperting she first enters a room. Strange of all, however, several instances where her were ripped apparently by ghostly hands. "The girl's night torn from her body one night, she slept in her aunt's home, a dives as at the same time the great chunks torn out of the as if by huge steel claws. I changed rooms and relatives beside her for protection. But the "ghost" changed to whisked pillows from under the of the sleepers and tore shreds. Four persons were one night when Florence put her around her aunt's neck and something ripped off 'auntie' they put Florence to bed on and covered her with an eoc then something tore up the coc silk lining. But the crowing of the spook came when Florence poached a closet to inspect new silk shirtwaist. Rappings were heard from behind the door when opened the waist was tatters.

The whole Harriman family "the willies" except Florence, appears unconcerned and Members of the family and no hope that she is possessed of spirit which is trying his dogs to get out of her while a "spook" hereabouts claim the spirit, one's departed grandmother to warn her father of impending

spook

SOME MEMBERS OF THE REORGANIZED CABINET

RIGHT HON. ARTHUR MEIGHEN,
Prime Minister.

The following are the members of the new cabinet and portfolios held: The portfolios in which there are no changes are: Prime Minister and Minister of External Affairs—Right Hon. Arthur Meighen. Finance—Sir Henry Drayton. Militia—Hon. Hugh Guthrie. Marine and Naval—Hon. C. C. Ballantyne. Public Works—Hon. F. B. McCurdy. Interior—Sir James Lougheed. Agriculture—Hon. S. F. Tolmie. Labor—Hon. G. D. Robertson. Str. Edward Kemp and Hon. E. K. Spinney, (Yarmouth and Clare), remain as ministers without portfolio. The post of Solicitor General remains to be filled.

HON. S. F. TOLMIE
Minister of Agriculture

New Ministers There are also new ministers with portfolios and two without portfolios. The new men are: J. A. Stewart, Lunenburg, Minister of Railways and Canals. H. H. Stevens, Vancouver, Minister of Trade and Commerce. S. B. Bennett, K. C. Calgary, Minister of Justice. Dr. R. J. Manson, Fort William.

SIR JAMES LOUGHEED
Minister of Interior

Minister of Soldiers' Civil Re-establishment. L. P. Normand, Three Rivers, President of the Privy Council. J. E. M. Baxter, K. C., St. John, Minister of Customs and Excise. L. G. Belley, K. C., Quebec, Postmaster General. Dr. J. W. Edwards, Frontenac, Minister of Health, Immigration and Colonization. Rodolphe Monty, Montreal, Secretary of State. R. Bristol, K. C., Toronto, and James Wilson, Saskatoon, without portfolio.

SIR EDWARD KEMP
Without Portfolio

HON. J. B. M. BAXTER, K. C.,
Customs and Excise

HON. G. D. ROBERTSON
Minister of Labor

HON. C. C. BALLANTYNE
Marine and Naval

HON. HUGH GUTHRIE
Militia and Defence

R. B. BENNETT, K. C.
Minister of Justice

HON. F. B. McCURDY
Public Works

SIR HENRY DRAYTON
Minister of Finance

HON. E. K. SPINNEY
Without Portfolio

GHOST STORIES COMING FROM KENNEBUCK, ME.

New Kind of "Spook" Whose Specialty is Ripping Clothes—Hovers Over Girl.

United Press.—Kennebec, Me., Sept. 21.—A large number of Kennebecans who never before admitted belief in ghosts, have altered their beliefs in this respect as a result of activities of a new kind of ghost which specializes in ripping of clothes and believed to be haunting Florence Harriman, 22-year-old daughter of Mr. and Mrs. Arthur Harriman, Kennebecport. Among the numerous investigators, none of whom claims to have found spook spurious, is Margaret Deland, author, who spends her summers here. Mrs. Deland has declined to give an opinion on "manifestations." Harriman and several friends assert that the past month midnight rappings have followed the girl when she went around at that time. Rappings were heard in her home, her aunt's home here, and even on a trolley car in Kennebecport car barns where she and her mother sought refuge one tempestuous night. Plaster has fallen on Florence's head, and furniture has the disconcerting habit of appearing when she first enters a room. Strangest of all, however, there are several instances where her clothes were ripped apparently by unseen ghostly hands. The girl's nightgown was torn from her body one night as she slept in her aunt's home, and relatives say at the same time they saw great chunks torn out of the mattress as if by huge steel claws. Florence changed rooms and relatives lay down beside her for protection purposes. But the "ghost" changed too, and whisked pillows from under the heads of the sleepers and tore sheets to shreds. Four persons were present one night when Florence put her arms around her aunt's neck and at once something ripped off aunt's apron. They put Florence to bed on a couch and covered her with an overcoat and then something tore up the coat's nice silk lining. But the crowning stunt of the spook came when Florence approached a closet to inspect aunt's new silk shirtwaist. Rending sounds were heard from behind the door and when opened the waist was found in tatters. The whole Harriman family has "the willies" except Florence, who appears unconcerned and unafraid. Members of the family and neighbors opine that she is possessed of a sacred spirit which is trying its doggedness to get out of her while soothsayers hereabouts claim the spirit of Florence's departed grandmother is trying to warn her father of impending disaster.

Wrestlers Will Shake And Kiss

Anything More Vigorous in Punishment New York Will Likely Draw

New York, Sept. 21.—(Special)—Wrestlers will be allowed to kiss and shake hands in winter and fall bouts here but anything more vigorous will likely draw punishment from the boxing and wrestling commission under new regulations issued today. The 100-pound, which won the title for Frank Gotch is barred, the scissor hold with which Joe Stecher pinned Earl Craddock and won the championship is barred; the famous head lock of Ed. (Strangler) Lewis which finally dazed and defeated Stecher is also barred. These are deemed to be punishment holds which wear down a wrestler's strength but cannot pin a man to the mat. They are chased as foul and unfair with gouging, kicking, biting, striking and other refinements of professional wrestling.

Funerals

The funeral of Alexander Brisbane, a native of Bannockburn, Scotland, took place at ten o'clock yesterday morning from the residence of his daughter, Mrs. Chas. Murray, St. James street, West, to Cedar Hill. Service was conducted by Rev. John A. Morrison, D. D. The funeral of Mrs. Mary H. McClelland took place yesterday afternoon at three o'clock from her late residence, 104 Lansdowne avenue, to Greenwood cemetery. Service was conducted at the house by the Rev. John A. Morrison, D. D., assisted by Rev. W. H. Spencer. Friends of Mr. and Mrs. Lemuel Pudge, 52 Murray street, will sympathize with them in the death of their four months old son, Roy Burton, which occurred Tuesday. The funeral was held yesterday from his parents' residence to Cedar Hill. Rev. G. Hudson conducted service.

Married

KINGHORN-MYLES.—At 176 Wright street, on September 21, 1921, by the Rev. H. E. Thomas, Hayward Coburn, son of the late Mr. and Mrs. Wm. Kinghorn, Fredericton, N. B., to Minnie Gordon, youngest daughter of Mr. and Mrs. Jas. Myles, St. John, N. B.

Died

BROWN.—In this city on September 21st, at his residence, 38 High street, Charles Frederick Brown, in the 69th year of his age, leaving his wife, four sons, two daughters, three brothers and one sister to mourn. Notice of funeral later.

WILSON GREAT FIGURE IN ALL FUTURE HISTORY

Berlin Writer Regards Him as the Man to be Talked of 100 Years Hence.

Berlin, Sept. 19.—Woodrow Wilson will be the only one of all the men who distinguished themselves during the war whose name will be gratefully remembered by the whole world 100 years hence and it will be for giving life to the League of Nations. That is the firm conviction of Helmuth von Gerlach, one of the most popular German democratic writers, voiced in the Welt Am Montag. It is the first time Mr. Wilson has received such ostentatious praise from any German. Until now he has been held in contempt for all the unpleasant happenings Germany experienced in the last stages of the war and the armistice. "In 100 years the names of all the great men of the World War," he writes, "the names of generals, as well as statesmen, will be forgotten. Only one name will continue to live in the grateful remembrance of our great grandchildren. It is a name that today is the most despised and ridiculed—Woodrow Wilson. The last shall be first. Mr. Wilson was the only one who was induced by the war to give mankind a new idea—the League of Nations. Not that he can claim to be the originator of the idea. Others had it before him, but he has given it to the world with the fervency of an apostle, political reality, in spite of all the opposing forces. He made room for it in the Versailles treaty, lending thereby a glamour of eternity to this sacred document." Much, of course, can be criticized in the League, he continues, but the foundation at least has been laid. Von Gerlach hopes Germany will apply for admission soon to prove she has forgotten the past and is alive to the democratic present, but fears Foreign Minister Rosen will be the greatest obstacle, as in his opinion, Dr. Rosen is a representative of the old school of diplomacy and prefers secret negotiations to open discussion among nations. The archbishop had preached a fine sermon on married life and its beauties. Two Irishwomen were heard coming out of church commenting on the address. "It is a fine sermon his reverence gave," said one to the other. "It is," was the quick reply, "and I wish I knew as little about the matter as he does"—Life. Visiting Curate—"Mandy, is it necessary for you to leave all these young children at home and go out to cook?" Mandy—"Yes, sir; the doctor says I needs a rest."—Detroit News.

NEW TERRORS BESETTING THE RUSSIANS

"Whites" and Bolsheviki Using Sufferings of People for Political Purposes.

Reval, via London, Sept. 18.—With famine stalking through many provinces of Russia, the position of the famine sufferers is being made worse because of the fact that both the Russian "Whites" and the Bolsheviki are trying to use the suffering of the people for political advantage, leaving America the only impartial helper of the starving. "White" propaganda is trying to discredit the "Reds" by false stories. On the other hand, the Third (Moscow) International is continuing its world revolution agitation, and Leon Trotsky, Soviet Minister of War, speaking recently to the League of Communist Youth, included in whose membership are Americans and English, urged them to work to overthrow their governments. Executions Start New Terror. The execution of seventy-one bourgeois in Petrograd on August 24, full details of which have just reached here, constitutes an atrocity worthy of the worst days of the Bolsheviki. The charge that they were plotting against the Soviet government, and for which they were put to death, obviously was faked by the Extraordinary Commission, which is starting a new terror against the bourgeois. Among those put to death was a journalist named Akimoff and his wife, a poet named Guemloc, a sister of Charly named Kintsova, and Countess Schulemberg. A peasant from the German colony on the Volga brings here a frightful story of wholesale shootings and drownings and the burning of villages recently. This sombre picture is made even darker by the complete economic collapse in Russia, which even the Bolsheviki admit. The Trade on September 7 described the situation thus: "With the people without bread and fuel, the production of coal and naphtha has stopped. The industrial train cannot go further. Owing to the disappearance of reserve supplies in June, the number of miners employed in the Donetsk coal mines was reduced by one-half and several pits were flooded." Bandits for a mine Area. Refugees declare that the situation in the famine area is a nightmare and IF TORMENTED WITH CORNS USE GOOD OLD "PUTNAM'S." It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Patent Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," etc. everywhere.

that the Ural and the Bashkir stoppages are overrun with almost naked bandits. They assert that even the Bolsheviki troops in the town of Jamburg are without trousers. Special trucks are placed at every

railroad station in the famine area for the corpses of passengers who have died aboard trains they said. A provision train was detailed near the Latvian frontier a few days ago and twelve Latvians attempted to rob

the cars. Reports received here from Petrograd tell of the suffering among writers and artists there. Mlle. Muramova, a celebrated Russian girl dancer of the Imperial ballet, hanged herself from an electric light post.

ST. JOHN, N. B., THURSDAY, SEPTEMBER 22, 1921.

THE NEW CABINET.

It will, we imagine, be quite frankly conceded that Premier McLaughlin has made an excellent selection in the personnel of his new colleagues. They are all of them more or less well known in the public life of the country, and all have earned reputations which give great promise for the future. They may not all be Macdonalds, or Mevates, or Lauriers, but they are all men of whom we can be sure that they will comprise a government of all the talents; but taken as a whole the new cabinet is made up of men of more than average parliamentary and executive ability.

Trived ministers of whose ability the country has had ample proof remain in the persons of Sir Henry Drayton, as Minister of Finance; Mr. Guthrie, Mills and Defoe; Mr. McCurdy, Public Works; Mr. Tolmie, Agriculture, and some others; and they, together with the new members, may fairly be counted on to do yeoman service for the party in the forthcoming struggle.

One regrets to see the passing of such a militant and aggressive old warrior as Sir George Foster from the more strenuous portion in the political field, but it would be foolish to assume that his translation to the more serene atmosphere of the Senate will at all interfere with his active interest in public affairs. He has been in the game too long, and has been too prominently engaged in parliamentary life to be able to sit quiet and let others do it all. Of the other lesser lights who are to disappear from the government benches, Messrs. Calder, Bower, Doberty and Wilmore, the two former also go to the Senate, and places have yet to be found for the others.

The decks are now about to be cleared for the political fight that dissolution will bring on. It is not going to be a walkover for any party, in fact it promises to be as bitter as any campaign the country has seen for many years. Mr. McLaughlin and his colleagues and their followers, however, will face the electors with a programme consisting of policies that must commend themselves to the more thoughtful and serious minded element among the people.

STILL PUSSYFOOTING

A perusal of the report of the Hon. Mackenzie King's speech at Toronto Tuesday night discloses the fact that he is still as industriously engaged as ever at his old dishonest job of pussy-footing on the tariff. This job was begun in 1919 when the so-called National Liberal Convention, anxious to avoid a complete debacle in the West without committing disaster in the East, manufactured a formidable looking resolution, which called for abolition or reduction of duties on a list of eighteen articles, eleven of which were already free. Even at that the plank was considered dangerous in the East, and Mr. Fielding rushed in to assume the committee's position, like Pullman, platform were "merely made to go in on," and that consequently the Liberal tariff plank must be accepted "with interpretations and reservations." Since then Mr. King has adopted the principle of a "tariff for revenue" only, and instead of specific declarations for actual tariff reductions, as outlined at the 1919 convention, now puts forward a few benign Colonial preferences, which he obscures by a rhetorical fog.

The West having deserted him for Mr. Crozier, and the East in a mood for Free Trade, under whatsoever disguise he may offer it, Mr. King finds himself in danger of falling between two stools. The most straightforward course for him to adopt would have been to openly champion the policy which his party stood by in office for fifteen years; but honestly, apparently, he foregoes to Mr. King's make-up, so while coming back to Protection to suit Eastern interests and preaching a policy that differs from that of the Meighen Ministry in matters of detail only, he is constrained to camouflage his intentions by describing his policy as "a tariff of revenue only."

But there is another feature to be taken into account. Accompanying Mr. King on the platform at Toronto was the Hon. W. S. Fielding, an older politician than Mr. King and more experienced in political campaigning. He made no attempt to camouflage the Free Trade tendencies of his party, for in the course of his remarks he is reported to have said that "the doctrine of reciprocity was the greatest fortune ever committed against this country." Reciprocity being as our readers will well aware a virtual free trade compact with the United States. And then said Mr. Fielding: "No man need apologise for being a Free Trader. Free Trade is part of the natural order of things and needs no apology, but it is not desirable to adopt it under present conditions."

Which, being interpreted, means that he would adopt it if he dared. So here we have the pronouncement of the two leaders of the Liberal party, one an avowed Free Trader, the other a Liberal Protectionist in the character of a tariff reformer, and to reconcile the two is an almost impossible task. Just where are Mr. King and his party at?

Mr. King referred to several other matters, with regard to which space prevents us from more than noticing now. He expressed the view that the people of Canada "had had enough of Coalitionism." Was it for this reason that Mr. King gave up the task of endeavoring to get the Farmer party to unite with him?

As to the Government's dealings with the returned soldiers, who gave Mr. King any mandate to speak for them? If all the young men in Canada had been of the Liberal party, one an avowed Free Trader, the other a Liberal Protectionist in the character of a tariff reformer, and to reconcile the two is an almost impossible task. Just where are Mr. King and his party at?

Mr. King did not put forward in the more serene atmosphere of the Senate will at all interfere with his active interest in public affairs. He has been in the game too long, and has been too prominently engaged in parliamentary life to be able to sit quiet and let others do it all. Of the other lesser lights who are to disappear from the government benches, Messrs. Calder, Bower, Doberty and Wilmore, the two former also go to the Senate, and places have yet to be found for the others.

The decks are now about to be cleared for the political fight that dissolution will bring on. It is not going to be a walkover for any party, in fact it promises to be as bitter as any campaign the country has seen for many years. Mr. McLaughlin and his colleagues and their followers, however, will face the electors with a programme consisting of policies that must commend themselves to the more thoughtful and serious minded element among the people.

STILL PUSSYFOOTING

A perusal of the report of the Hon. Mackenzie King's speech at Toronto Tuesday night discloses the fact that he is still as industriously engaged as ever at his old dishonest job of pussy-footing on the tariff. This job was begun in 1919 when the so-called National Liberal Convention, anxious to avoid a complete debacle in the West without committing disaster in the East, manufactured a formidable looking resolution, which called for abolition or reduction of duties on a list of eighteen articles, eleven of which were already free. Even at that the plank was considered dangerous in the East, and Mr. Fielding rushed in to assume the committee's position, like Pullman, platform were "merely made to go in on," and that consequently the Liberal tariff plank must be accepted "with interpretations and reservations." Since then Mr. King has adopted the principle of a "tariff for revenue" only, and instead of specific declarations for actual tariff reductions, as outlined at the 1919 convention, now puts forward a few benign Colonial preferences, which he obscures by a rhetorical fog.

The West having deserted him for Mr. Crozier, and the East in a mood for Free Trade, under whatsoever disguise he may offer it, Mr. King finds himself in danger of falling between two stools. The most straightforward course for him to adopt would have been to openly champion the policy which his party stood by in office for fifteen years; but honestly, apparently, he foregoes to Mr. King's make-up, so while coming back to Protection to suit Eastern interests and preaching a policy that differs from that of the Meighen Ministry in matters of detail only, he is constrained to camouflage his intentions by describing his policy as "a tariff of revenue only."

But there is another feature to be taken into account. Accompanying Mr. King on the platform at Toronto was the Hon. W. S. Fielding, an older politician than Mr. King and more experienced in political campaigning. He made no attempt to camouflage the Free Trade tendencies of his party, for in the course of his remarks he is reported to have said that "the doctrine of reciprocity was the greatest fortune ever committed against this country." Reciprocity being as our readers will well aware a virtual free trade compact with the United States. And then said Mr. Fielding: "No man need apologise for being a Free Trader. Free Trade is part of the natural order of things and needs no apology, but it is not desirable to adopt it under present conditions."

WHAT OTHERS SAY

Application of a Principle.
 It is of particular interest just now to note the views of Otto St. Kahn, one of the leading banking authorities of the United States, on the protective principle. Retiring from an extended trip abroad, he is quoted as saying:

"I am in favor of the principle of a protective tariff for America to the extent that its application is necessary to preserve our industries and the American standard of wages and living. But that principle can no longer be applied with safety and advantage to the country and with fairness to the consumer in the old-fashioned, somewhat haphazard and sometimes extreme way."

In order to use the capacity of our industrial plants and to give full employment to our workers, we must make every effort to hold our own in the markets of the world. And that is only possible if the cost of production can be brought into line with existing conditions. To that end, the prerequisite are that waste and stupid methods of business be eliminated, costs brought down, the "get rich quick" does not think he can afford to pay for the paint and the painting, that is the funeral of the paint-maker and the painter. No argument can be advanced to the contrary. The same thing works through the whole business and necessities of life. And with these it is possible for the industrial fabric, with an exception in the case of the consumption to fluctuate as a result of prices. Too high a price means lower consumption.

"There can be tearing of hair about the situation, but it will avail nothing. A little plain thinking all around is what is needed. The country is a hole and it will have to crawl out. Jerking at the boot-top will not lift a pound.—Winnipeg Free Press.

A Struggle of Endurance.
 Constantine's private war has been ill-advised from the beginning. Early success must have redounded it and compelled attention from the Allies, even though the King himself would have remained an odious figure in Allied eyes, with an exception in the case of the consumption to fluctuate as a result of prices. Too high a price means lower consumption.

"There can be tearing of hair about the situation, but it will avail nothing. A little plain thinking all around is what is needed. The country is a hole and it will have to crawl out. Jerking at the boot-top will not lift a pound.—Winnipeg Free Press.

A BIT OF VERSE

PICTURES.
 "Some like pictures of women" (said Bill) "an some like 'orseboots.' As he fitted a pair of fancy shackles on to his old saw-heel."
 "Tut I like pictures of ships" (said he), "an' you can keep the rest. 'An' if I was a ruddy millionaire with dollars to burn that way, instead of a poor old seaman as I am, I'd go to some big paintin' guy, an' this is what I'd say—"
 "Paint me The Cutty Sark" (I'd say), "or the old Thermopylae, Or The Star of Peace as I sailed in once in my young days at sea, Shipwrecked, or the 'Blackwall' fashion too, as a clipper ought to be."
 "An' you might do 'er outward bound, with a sky full o' clouds, An' the tug just droppin' astern an' gulls flyin' in crowds, An' the decks shinin' wet with rain an' wind shakin' the shrouds."
 "Or else radin' up Channel with a sou'-wester blowin', Stuns' set aloft and allow an' a hoist o' flag showin', An' the tug just droppin' between her teeth, so 's you can see abe's goin'."

"Or you might do 'er off Cape Stiff in the 'igh latitudes yonder, With her main-deck a smother of white an' her lee-rail dipping under, And the big greybeards drivin' an' breakin' aboard like thunder."
 "Or I'd like old Tuskar somewhere around—'or Sydney, or Melbourne, Or Bar Light, or the 'Fall of the Bank, or a glimpse o' Circular Quay, Or a junk or two, if she's tradin' East, to show 'er the China Sea."
 "Nor I don't want no dabs o' paint as you can't tell what they are, Whether they're shadders or fellers' faces or blocks or blobs o' tar, But I want gear as looks like gear an' a spar that 's like a spar."
 "An' I don't care if it 's North or South, the Trades or the China Sea, Shortened down or everythin' set, close-hauled or runnin' free, You can't run a ship as is like a ship an' that 's 'er name."
 C. F. S.

THE LAUGH LINE
 The archbishop had preached a fine sermon on married life and its beauties. Two Irishmen were heard coming out of church commenting on the address.
 "No a fine sermon his reverence gave," said one to the other.
 "It is," was the quick reply, "and I wish I knew as able about the matter he was doin'."—Life.
 Employer—"Young man, I will pay

Benny's Note Book

BY LEE PAPE
 My sister Gladis made cheese cake today, being a all rite looking cheese cake and nobody wouldnt of had any suspicions againt it if they hadnt of knew Gladis made it, and she took a little peese on her plate like somebody trying to be polite and started to give a big peese to pop, and pop sed, No thanks, there a claws in my life insurants policy about taking unnecessary risks, no thanks, haw haw haw.
 Now father, I think your too mean for words, you see im eating a peese, dont you? sed Gladis.
 You have no family depending on you, haw haw, sed pop, and I sed, I'll take a hunk, I aint afraid to take a chance.
 Its the young that win the wars, haw haw, sed pop. And I ate 3 big slices, tastin' pritty good considerin' who made it, and after supper I almost had a stummick ache but not quite, and I went up to Gladiss room and she was in there reading a book with her hat on and waiting for Mr. Parkins to ring the bell, and I sed, Hay Gladis, I got a stummick ache.
 "Well, am I a doctor?" sed Gladis, and I sed, No but it was your cheese cake, shall I go down and tell pop about it, Gladis?
 If you think it will give him any pleasure, sed Gladis, and I sed, It will give him pleasure all rite, just wait till he hears about me gettin' a stummick ache after I ate 3 slices of your cheese cake, he'll laff every time he sees you for about 6 yrs.
 Dont you dare tell father anythin' of the kind, dont you dare, sed Gladis, and I sed, Well gosh, I aint going to wawk around with a stummick ache all to myself jess because you made the cheese cake, and she sed, Are you trying to blackmail me?
 No, Im jess tellin' you about my stummick ache, I sed, and she sed, O, how thawrill of you, and I suppose if I gave you a dime you wouldnt have any stummick ache, would you? and I sed, How can I tell? It mite be such a surprize the stummick ache mite go away. How can I tell?
 Hest, you post, sed Gladis. And she gave me a dime and I had a 10 cent cinnamon bun and ate it.

you to keep your eyes open while you are in the office."

Lumber Prices Will Advance
BUY NOW
 A careful survey of the lumber market has convinced us that prices have struck bottom, and an advance is certain in the near future. There is already a stiffening; certain sizes are off the market; others have been marked up in the United States, notably 2x8. This is especially true of rough lumber, also of doors and trim. BUY NOW and head off high prices as far as you are concerned.

FOUR GIRLS BA...
FROM 15,000-MIL...
16-MONTHS' WA...
 Took Chance on Getting Automobile Rides — For Jobs Everywhere.
 New York, Sept. 20.—Tanned faces, bobbed hair and stepping with packs slung over shoulders, girls arrived in New York yesterday leaving the dust of 15,000 miles behind them. The four girls left here May 20 last year, and back the message that there are dangers to women who are not looking for trouble.
 The four are Beatrice Cohen, Leah Davis, Anna Gingsberg, Bertha Rogovin. They went from New York out to the Pacific coast by a northern route, skirted up and down their eastern coast, hiked hawmover by a southern trail, and saw everything there is to be seen in the United States. They rode by rail for sixty miles and that only way they were headed off by a bit of trouble. Drury other mile hiked or asked rides from motorists.
 "Dangers" said Miss Davis, who picked out her trail only through pink districts this would not be significant. But we went through all fields of Texas, the black belt of the south, and the mining districts of Mexico, which people warned against. We advise all girls to a trip like ours. Don't go by motor car. An automobile tour never, they kept out of the way of our journey, never have any of us had the sensation of the end of the road.
 "We never know how far we could make in a day or where we would twenty-four hours ahead; but we ways made a town by alghall, we we put up usually at a hotel. There everywhere are good about picking up and giving you a lift. We were separated, but stuck together from the day we left. We had no an automobile with stop which not room for all we would give thanks and say that we preferred walk.
 When they reached the Pacific they took a side out into British Columbia. Then they retraced the steps to San Francisco, which they liked so much that they remained there for six months. Then they headed south. They dipped into Mexico, crossed the Mojave Desert, Colorado, back to Texas, on to Orleans, through the Gulf States, northward, crossing Alabama, Georgia and the Carolinas, to Washington and then Philadelphia, their last stretch home.
 Miss Cohen had this to say regarding the trip and how best to see jobs. "If an girl knows how to along in New York she can get along in any other village or city. It is enough to get the very best of cause we thought it would be fun and we wanted to see all of country. We did not have enough to live in de luxe fashion. We knew we would have to work and how glad we are now that did travel under the best of conditions of the country in which we had positions we found that California was the easiest place to get along in. It is surely the easiest place make a living. But a girl can get safely and happily everywhere. If she needs it just the ordinary amount of common sense."
 When the party started they had \$500 each. Which they placed in common fund. They did not touch their original capital until they reached the Pacific. They had money when they started east. When they left for the west it was on the way home their balance divided and when they arrived they had a little less than \$50 each.
TOMATO PICKLES.
 Green Tomato Butter.
 Cover the tomatoes with boiling water; let stand 20 minutes; remove and dry each tomato; then cut in small pieces and to each quart of tomatoes use 1 cup of granulated sugar, 1/2 level teaspoon salt, half lemon juice, 2 tablespoons green ginger root, 2 tablespoons green ginger root use 4 tablespoons candied ginger cut in thin slices.
 Cover tomatoes with the sugar sprinkle with the salt and put away fire; bring to a boil and simmer 1 1/2 to 2 hours depending largely on the tomatoes. Some take longer. Be sure to stir it often, so it will stick. Add lemon cut in thin slices, 1/2 into well-sifted flour; add water, which has been dipped in boiling water; put on sterilized lid, and when cool set in cool, dark place.
 Spanish Pickles.
 1 peck green tomatoes, thinly sliced
 2 cups thinly sliced onions.
 1 cup salt.
 1 tablespoon cloves.
 1 tablespoon allspice.
 1 tablespoon peppercorns.
 1/2 cup brown mustard seed.
 4 cups brown sugar.
 4 green peppers, finely cut.
 2 cups elder vinegar.
 Sprinkle alternate layers of tomatoes and onions with salt and let stand overnight. In the morning drain and put in a preserving kettle, adding mustard, sugar and vinegar.

For the NOVEL AND ARTISTIC NEEDLEWOMAN

By ADELAIDE BYRD

PUNCHED WORK ON TOWEL ENDS

HERE again is an opportunity to punch linen for your practical and artistic enjoyment. The punched work is so very easy, and gives the beauty and relief of drawn work. Do you know how to do punched work? First of all, your needle should be very coarse and, if possible, the three-sided sailor's needle. Linen thread is stronger for the purpose, although the absence of this from the working need not deter you from doing the fascinating work.

There is a wide-open pattern for an eighteen-inch end. Any soft huck toweling will be very effective when worked in either white or colors. A soft mercerized cotton is recommended. Work the design first. The leaves should be padded lengthwise with darning cotton, and use the solid stitch across the leaves. The roses can be worked solid in the petals or in the edges of the petals. This latter method is very quick. Pad around each petal with about two rows of long stitches, and work over and over, making the stitches a little longer in the center of each petal. Use French knots for the centers.

After filling in the slender outline with solid stitch change to buttonhole stitch as you work the lower edge of the border, for this is the most practical and usual finish for a scalloped edge. The punched work is then added to the design, making the beauty of the pattern doubly sure. Although this design is for towel ends, you need not be restricted to its application. It is lovely in colors on a bureau and chamber scarf. It is very effective in colors on coarse linen for library table runners, and I have seen it worked up on two ends of a pillow top. The under-side of the top is edged similarly, and the upper and under parts are laced together over a contrasting shade of linen. It is summer, but not too soon to begin to work those much-appreciated hand-embroidered gifts for Christmas. You will not have so much time later on, when dresses must be planned and the work of the winter makes decided demands. Try the joy of working a beautiful design on a practical article. The combination is too good to ignore.

DARNING AND MENDING

HERE is a great deal of truth in the accusation made against modern women that they do not know how to mend their clothes or their household goods properly.

Present-day women are apt to think that it does not matter how a thing is mended so long as it will hold together, or there is something to cover up the holes.

every week for the mending and get it all done up at that time; by so doing the housewife will not be confronted with a pile of mending that will appall her when she starts in to work.

Mending is an art, a distinct art, that should be taught in the schools. Then the girls should make use of the knowledge in keeping their stockings darned, clothes mended and table and bed linen patched wherever there is the slightest need of it.

Keep on hand a bag or box of small pieces of material for patching—wool thread, cotton thread and a box of mending tissue for mending tears that cannot well be darned.

Our great-grandmothers always darned their table napery in the pattern of the diamond and if they did not it is not possible for the housewife of today to do the same.

Perhaps the easiest way is the "window-pane" method. This is successful when the material is thin, like linen, batiste, etc. Pin the sheet of paper and the material together and hold them up against the glass of a window. With a sharp pencil draw on the material the design, which can be easily seen through the goods. If one-half of the design only be given, unpin the paper and turn the other side to the fabric. The strong light behind will make it plain.

A very good way, however, to mend linen of all kinds, table and bed linen, handkerchiefs, towels, dresses, blouses, etc., is to put the torn portion in an embroidery frame, stretching the linen around the hole so that it lies straight in the frame. Then it can be darned without trouble by hand, or can be placed under the pressure foot of the sewing machine, after it has been released from the pressure by unscrewing the screw directly over the top of the foot bar, then attaching back and forth, guiding the material with your hands as you work.

How to Transfer
HERE are suggestions for transferring the pattern before you to any material before working.

It is quite simple to darn linen on the machine so that it requires close inspection to detect the place where it was worn.

Stocks and all sorts of woolen garments should be carefully watched for worn places and, as soon as they become thin, should be darned before a hole appears. It is far easier

to darn a thin place than it is to darn a hole. Thin spots that they do not know how to mend their clothes or their household goods properly.

Large holes should be whipped around the edges before they are darned; then the threads will not pull out and the jagged place will present a neat appearance. If the hole is very large, an excellent plan is to tack a piece of net as near the color of the goods as possible over it, and work the darning threads in and out of the meshes, catching them in the edges of the material as you work.

Holes in woolen dresses should be darned with wooden thread, matching the material in color. A good way to obtain this is to unravel several strands from the material used and darn with it, working in and out with the weave; then press the darned place on the wrong side and you will scarcely be able to see where the hole once was.

Pat the scallops and work in buttonhole stitch. The chrysanthemum border is also lovely. Generally speaking, the same suggestions for working are applicable. Do the solid work first. Pad the petals, leaves and dots and work the design in solid stitch.

NECK ORNAMENTS OF FLOWERS

APPLE BLOSSOMS OF SATIN.

OF RIBBON AND LACE.

A BAR PIN OF FLOWERS.

AMONG the new importations of neckwear from the home of fashions are the attractive flower ornaments made to represent bar pins, brooches and buckles.

The clever woman who delights in making things for herself will be elated at the lovely miniature flowers she can fashion from bits of silk and ribbon. The scrapbag contains many small pieces of silk which seem useless since we no longer make patchwork quilts.

coloring, are always lovely, even when tinted with silk. Very lovely is an ornament fashioned of two blossoms. The flowers are made of palest pink satin. This is arranged to form petals resembling those of the apple blossom, each flower having four petals. Several loops of green ribbon are used to separate the flowers.

Here are given a few designs which may be easily duplicated by deft fingers.

Very effective is the butterfly-shaped ornament. First, a foundation of wire is made and covered with narrow ribbon any color desired. To this frame is sewn a small piece of lace, forming two wings. The center is decorated with the smallest of rosebuds of pink silk. Loops of ribbon and tiny flowers radiate from this. Three strands of soutache braid are attached to the center and each end is adorned by a bud fashioned of silk.

Only the woman who has fashioned these attractive ornaments for herself can realize the fascination of the work. Flowers are the loveliest of nature's children, and all lovers of beauty delight in duplicating their form and color, using any medium which talent permits them to command.

COMBINED WITH LEAVES.

LEAF OF STITCHES IN PUNCHED WORK

Keys And McBride In Straight Races

St. Stephen Horses Won Races at Fredericton and Peter Verdi Had

Special to The Standard. Fredericton, N. B., Sept. 2. Keys and McBride of St. Stephen won in straight heats here the second day of the exhibition, Saska 2:14 1/2 winning trot and Roqua F. winning pace. The third race furnished a tie between the day. In this race, Baton, a north Maine bred horse, won two heats in two races to Peter Verda, a Halifax bred horse made a game bid but first heat but went off his feet in running. He was set third place and Baton won and race.

Starter Webber announced Peter Verda was set back for performance, the horse running much of the last mile. The races produced nothing very the best time of the day was by Saska in the 2:18 trot second. Red Hamtram, with two Acheson won second money in two races furnished the interest of the ticularly in the 2:27.

The track was in good performance, the races on the card for the 2:27 stake pace, stake pace, and the free for all in the latter race Alfred Hamilton horse, and the expected by H. C. Jewett of Fredericton, expected to be the chief of though there also are good to the field.

2:18 Trot, Stake \$500. Saska, 2:14 1/2, b.m., by Atlantic Express, Keys & McBride, St. Stephen (Keys). Baton, 2:18 1/2, b.m., by Halifax (Hanafin). Miss Peter Giplan, Dr. L. deC. McIntosh, Hartland, (Brickley). Time—2:16 1/4; 2:13 1/4; 2:19 1/4.

2:24 Pace, Purses \$400. Roqua F., b.m., by George A. Fuller, Keys & McBride, St. Stephen (Keys). Baton, 2:27, b.m., by Halifax (Hanafin). Peter Verda, L. R. Acker, (Keys). Lou Miller, Keys & McBride, St. Stephen (Keys). Chimes Toll, Churchill & Humphrey, Presque Isle, (Willard). Miss Elmer, John F. Smith, Kinkora, P. E. I. (Steele) 4. Time—2:15 1/4; 2:17 1/4; 2:17 1/4.

The officials: Starter, R. J. Webber, St. Stephen; Judges, F. V. Halifax, F. D. Tweedie, W. R. M. Webber, St. Stephen, J. A. DeWitt, Presque Isle, Milton McKee, Fredericton, D. McCoy, Fredericton.

Settlement With Property Owners

Expropriation by Government Properties on Mill Street ranged in Exchequer. At a sitting of the Exchequer yesterday morning, Mr. Justice Gauthier, presiding, settlement of the matter of expropriation by the government of properties on Mill Street and near the Island Yards. The proposed new union dock case a tender had been made and the case was set for trial being reached yesterday. The council reported a satisfactory settlement and the figures presented by the court were confirmed. In the case of four leaseholders abandoned expropriation of the property, the court held in favor of the government. The following leaseholders:—Bank of Montreal, Mrs. J. R. Street and Hazel estate and with the leaseholders:—Mrs. Mary A. Mrs. M. M. R. Walsh and Mrs. O'Neill, as well as in the two Yard properties, the R. O. O'Connell and the R. G. Murray estate. C. F. Inches represented the with M. G. Todd, K. C., while one interested expropriated, presented by Barnhill, Sargis, Harrison, J. H. A. J. Fairweather, P. Raymond, D. Melin, K. C. Taylor, K. C., R. O. McInerney, Ryan, H. P. Paddington, and and Ross.

OVERFLOW OF GRAIN

Elevator foreman J. F. Smith staff of six men are now assisting in handling the overflow. The harbor of Montreal has been congested for several a number of steamers are being diverted to Quebec and will remain there for several days. The overflow of grain is estimated at 10,000 tons.

THE STANDARD'S SPORTING SECTION

Keyes and McBride In Straight Heats

St. Stephen Horses Won Two Races at Fredericton—Baton and Peter Verdi Had Battle.

Special to The Standard.
Fredericton, N. B., Sept. 21.—Keyes and McBride of St. Stephen won two races in straight heats here today in the second day of the exhibition race meet. Saska, 2:14 1/2, winning the 2:18 trot and Rogus F. winning the 2:24 pace. The third race furnished the excitement of the day. In this the 2:27 pace Baton, a north Maine horse, won two heats and then dropped one to Peter Verdi, a Halifax horse. The Verdi horse made a game bid for the first heat but went off his feet finishing running. He was set back to third place and Baton won the heat and race.

Starter Webber announced that Peter Verdi was set back for his bad performance, the horse running for much of the last mile. The three races produced nothing very stirring, the best time of the day was 2:13 1/4 by Saska in the 2:18 trot second heat. Red Hanafin, with two Acker horses won second money in two races and furnished the interest of the day, particularly in the 2:27.

The track was in good condition. The races on the card for Thursday include the 2:27 stake pace, the 2:18 stake pace, and the free for all trot. In the latter race Alfred King, a Hamilton horse and the Expositor owned by H. C. Jewett of Fredericton are expected to be the chief contenders though there also are good horses in the field.

Settlement With Property Owners

Expropriation by Gov't of Properties on Mill St. Arranged in Exchequer Court.

At a sitting of the Exchequer Court yesterday morning, Mr. Justice Ansdette of Ottawa, presiding, settlements were arranged in connection with the matter of expropriation by the Dominion government of properties in Mill street and near the island yard for the proposed new union depot. In each case a tender had been made by the crown but had not been accepted and the case was set for trial. On trial being reached yesterday morning counsel reported a satisfactory adjustment and the figures presented to the court were confirmed.

OVERFLOW OF GRAIN.

Elevator foreman J. F. Smith and a staff of six men are now at Quebec assisting in handling the overflow of grain. The harbor of Montreal having been congested for several weeks a number of steamers are being diverted to Quebec and will take on grain cargoes at the Harbor Commissioners' wharves.

Close Fight In American League

Wet Weather Prevents New York Yankees from Playing—Cleveland Won.

New York, Sept. 21.—(Special)—While the Yankees hung around home today, the wet weather preventing them from playing, this Speaker of the Cleveland team cracked the whip over the straining backs of his team driving them back to a near tie for first position in the American League. The Indians won back at the Red Sox in Boston, defeating them by a score of five to one. This gave the Indians a standing of six hundred and twenty-eight, one point below the New York Yankees. New York Nationals defeated Chicago, Pittsburgh lost to Brooklyn.

The following are the games of the American and National League teams along with the standing:—
NATIONAL LEAGUE.
New York 9; Chicago 7.
New York 113014049—9 16 1
Chicago 11010400—7 14 0
Nash, Douglas, Shea, Tony Smith; Snyder and Martin, Freeman, Jones, Funder and O'Farrell.
Brooklyn 2; Pittsburgh 6.
First game. (Called for rain.)
Brooklyn 1010000—2 7 0
Pittsburgh 0000000—0 4 1
Mitchell and Taylor, Morrison and Gooch.
Postponed Game.
Brooklyn-Pittsburgh second game postponed, rain.
Boston 7; St. Louis 6.
Boston 5100000—7 10 3
St. Louis 4000000—6 12 1
Watson and O'Neill, Walker, Dalley, North, Shearbell and Alasmith, Clemons.
Postponed Game.
Philadelphia-Cincinnati, postponed, wet grounds.

AMERICAN LEAGUE.

Postponed Game.
Detroit-New York, rain.
Cleveland 5; Boston 1.
Cleveland 00101000—5 9 1
Boston 10000000—1 5 0
Caldwell, Morten, Thornhill and O'Neill; Jones and Walters.
Postponed.
St. Louis-Philadelphia, rain.
Washington 3; Chicago 2.
First game:
Chicago 10010000—2 9 1
Washington 30000000—3 6 1
Faber and Schalk; Phillips and Gharriety.
Washington 4; Chicago 3.
Second game:
Chicago 000021000—3 11 1
Washington 000000010—4 8 0
Russell, Wilkinson and Schalk; Erickson, Woodward and Gharriety.

American League Standing.

OUTING OF Y. M. C. A. BUSINESS MEN

Annual Reorganization Planned for Next Saturday at Loch Lomond.

The Annual Reorganization Outing of the Y. M. C. A. Business Men is being planned for Saturday, the 24th. The party will consist of the "Y" building at 5:30 and going by automobiles to Johnston's Loch Lomond. An interesting program of sports, volleyball and baseball will be carried out, followed by supper and meeting.

IN POLICE COURT.

In the Police Court yesterday Frederick Givan was committed to stand trial on the charge of breaking, entering and stealing automobile accessories from J. C. Laska. C. J. McLaughlin appeared for the prisoner. Gilbert Donette, owner of car number 1127, was charged in the police court yesterday morning with passing standing street car while passengers were alighting. He pleaded not guilty. Policeman Lindsey gave evidence and the accused was fined \$10.

MAIL TRAIN DAMAGED.

Last night about 10:30 o'clock automobile number 1900 while coming up Mackinburg street on the corner of Sydney street, collided with the mail wagon. The shafts of the wagon were broken and the mail driver thrown to the street, but was fortunately uninjured. The car was not damaged.

Francis Oumet Was Eliminated

Harrison R. Johnston, the Minnesota Champion, Took the Measure of Medalist.

St. Louis Country Club, Clayton, Mo., Sept. 21.—(Special)—Francis Oumet, the Boston golfer and medalist was eliminated in the national amateur golf championship tournament here today by Harrison R. Johnston, Minnesota champion in a dramatic battle. Johnston won on the 36th green, one up, when Oumet missed a three putt stop ball which stopped on the lip of the cup. The entire match thrilled the great crowd following. Oumet came in the downfall to a putter missed by a one foot putt on the tenth of the last line and a four footer for a halve when he should have had a three. He later missed a six foot putt on the 22nd green. Defeat cannot be charged to putter without reservations however, as Johnston made beautiful shots, and it took a good man to win. Johnston's match was not only sensational, Jimmie Manion of St. John gave Willie I. Hunter the British amateur champion a battle that did not end until the 36th green when Hunter won two to one. Other matches finished as expected although Tommy Armour the Scot gave Bob Gardner the former with Gardner a hard battle which ended with Gardner a victor four and three. Rudy Knapper, the St. Louis flash defeated Ben Stein of Seattle easily seven and six and thus put the Pacific coast player out. A few minutes before Bobby Jones of Atlanta finished an easy match defeating Dr. O. P. Whiting of Portland nine and eight. Charles Evans beat Richard Bockenkamp four and three. Fred Hunter of Jesse Gullford of Boston won from Dewey Weber of Chicago three up, and Jesse Sweetser of New York defeated L. E. Bunning of Chicago four and three.

PERSONAL.

Frederick Green, chief clerk, and Arthur L. Robertson, cashier plant department of the W. U. Telegraph Co., were passengers on the Boston train last night enroute for New York. Mr. and Mrs. J. Bannin, of Halifax, are in the city, having motored to St. John from Halifax. Mrs. J. A. Christie and Mrs. Leighton Stewart, of Amherst are visiting Dr. Philip Nase and Mrs. Nase, 151 German street.

Live Topics On Many Ring Stars

Plenty of Good Fights Are Scheduled for the Remainder of This Month.

Billy Grupp has matched Eddie Anderson, his clever attack, Hassan bantamweight, to box Terry McLaughlin, eight rounds in Philadelphia on September 24 and Abe Goldstein at Madison Square Garden on September 30. Charles Harvey, manager of Bill Rice, has booked the English lightweight for a 10-round bout with Richie Mitchell, to take place at the Ocean City A. C. in Milwaukee on Sept. 23.

Leach Cross, the veteran lightweight, will don the gloves again on September 30 when he will meet Bert Spencer of Brooklyn in an eight round bout on September 30. Because of an abscess in his ear Young Bob Fitzsimmons has been forced to cancel his bout with Al Roberts, which was scheduled to take place at the Coosuecum A. C. in Newark Tuesday.

Joe Lynch, the former bantamweight champion, is in the Maine woods, where he is getting into shape for a strenuous ring campaign during the winter months. He hopes to score enough victories over worthy opponents to earn him another match with Pete Herman, to whom he lost his title.

Johnny Murray's book of ring engagements calls for his appearance in bouts with the following boxers: Sept. 23, Red Top Wilson at Madison Square Garden; Sept. 24, Freddie Jacks at Philadelphia; Sept. 26, Young Tiger at Jersey City; Oct. 3, Blodgett Richards at Dayton, Ohio; Oct. 10, Harry Bright at Oney Island.

Leo Flynn, manager of Bill Brennan has turned down an offer of \$12,500 for a match between Brennan and Fred Fulton made by J. Paulding, the Philadelphia promoter. Flynn believes Brennan will receive a much larger sum if he fights Fulton in New York.

Carl Tremaine will be seen in action for the first time in New York at the opening show in Madison Square Garden on September 23. His opponent will be Jackie Curran of Jersey City. The boys will box eight rounds.

Because of a strained legament in his right arm Pepper Martin, the New England featherweight, will be out of competitions for some time. His bout with Earl Bated scheduled to take place at Madison Square Garden on Sept. 30 has been declared off.

Suzanne Lenglen Tennis Champion

After Complete Failure of American Tennis Campaign She Sails for Home.

New York, Sept. 21.—(Special)—In contrast to tumultuous acclaim of greeting on arrival here a few weeks ago, Suzanne Lenglen, French and European women's tennis champion, slipped aboard La France almost unnoticed today to return home after a complete failure of her American tennis campaign due to ill health. Miss Lenglen said before La France shoved off that she very much regretted the unpleasant necessity of foregoing her exhibition tour for the benefit of devastated France, but explained that two physicians had counselled emphatically against her playing any more until quite fit. Twice she defaulted in her few appearances made here, the first and most dramatic occasion being her match with Mrs. Molla Mallory, during the American women's championship tournament at Forest Hills. Later she defaulted in an exhibition mixed doubles match.

"I wanted to play an exhibition series to show the American people an appreciation of their kindness," she said, "but my doctors said it would imperil my health if I continued."

PERSONAL.

Polaxozilla, to call off three matches. Willie Lewis has booked Abe Goldstein who kayped Paddy Owens in two rounds in New Haven, to battle Champion Pete Herman in Philly on October 5.

Charley Rose is gunning for work for his Brooklyn 125-pounder, Johnny Griffin, who has scored nine straight knockouts.

Value in full

QUALITY considered, the prices on Imperial Polarine Motor Oils are very, very low. Thousands of Canadian motorists are ready to testify that Imperial Polarine Motor Oils go farther. You get more miles of efficient lubrication for every dollar invested in them than you can get in any other way.

Imperial Polarine Motor Oils are always of uniform high quality. Their use reduces repair bills, frees you from excessive carbon troubles, slows up depreciation and cuts fuel costs to the lowest possible figure. Quality maintains economy. If we could find a more far-reaching way of proclaiming the merits of Imperial Polarine Motor Oils, we would use it.

Make our Chart of Recommendations your guide to correct lubrication. Consult this Chart at your dealer's, or write to 66 Church Street, Toronto, for a copy of our booklet, "Automotive Lubrication," which contains the Chart.

IMPERIAL OIL LIMITED

Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR.

This sign distinguishes dealers who are prepared and ready to give you expert crank-case cleaning service. Such dealers use Imperial Flushing Oil which enables them to promptly remove every bit of dirt and grit from your crank-case. It will save you hundreds of dollars per year if you have your crank-case cleaned and filled with fresh Imperial Polarine Motor Oils every thousand miles or less.

MACDONALD'S Cut Brier

MORE TOBACCO FOR THE MONEY

FROM the moment Cut Brier was offered to the Public, it was accepted by the great majority of smokers as an old friend. For Cut Brier has in convenient form the Macdonald quality that has been known and preferred in Canada since the "fifties."

The Tobacco with a heart

THE STANDARD'S FINANCIAL SECTION

Little Life To Yesterday's Market

Trend, However, Excepting Oils, Was Slightly Upward—Bonds Firm.

New York, Sept. 21.—There was little life to the market in the early trading today, although, with the exception of oils, the trend was slightly upward. Mexican Petroleum, Royal Dutch and Asphalt were decidedly heavy.

The earnings of Steel companies for third quarter of year will be out next month and are expected to show improvement. There has been good buying of Independent Stocks by people who believe the bottom has been reached in prices and production.

The only real exchange of stocks for money going on is in STP, where there is evidently liquidation by some big interests and they are finding poor market.

The bond market is quiet but firm. Province of Alberta's brought out yesterday have all been sold. Ten million dollars of Province of Ontario bonds are selling well. Money renewed at 4 1/2 per cent. Sterling exchange is practically same and other than the fluctuation in MNT, there seems to be nothing doing worthy of comment.

St. John, noon, 250.000.

E. & C. RANDOLPH.

Possibility of Germany Becoming Bankrupt Discussed in Paris

Paris, Sept. 20.—The general drop in several European rates of exchange has given rise to comment on what likely would happen in the Franco-German situation if Germany should go bankrupt. While the opinion of some economists points towards the failure of Germany, politicians assert that Germany herself will have recourse to bankruptcy.

Game Warden Slain In A Jersey Swamp Shot By Poachers

The warden's body, with a bullet through his heart, was found yesterday morning after an all night search. He was last seen by John Lynch, a farmer. Lynch told the police that Hohlitzel had gone into the woods unaccompanied by a guide.

Posse Finds Body of Wm. Hohlitzel After An All Night Search.

New York, Sept. 20.—William Hohlitzel, for more than twenty years State Game and Fish Warden of Union county, New Jersey, was shot and killed Saturday in a swamp near Kenilworth, a suburb of Elizabeth. It is believed that Hohlitzel was in revenge for his strict enforcement of the state game laws.

GOSSIP AROUND THE MARKETS

According to meat officials, the meat trade has been a poor week. Beef prices continue unusually low in comparison with the cost of other commodities.

Shadow Fighting Between Bavaria And Berlin Heads

Berlin, Sept. 20.—The shadow fighting between Berlin and Munich has again become acute on paper as the result of Chancellor Wirth's surprise offensive against Bavaria in publishing the confidential report of the Reich's Commissioner of Public Security, Dr. Weismann. Munich holds the charges, based on this confidential report, were the figments of a wild, unprovoked political imagination.

Madrid Squashed Paris Celebration

Paris, Sept. 20.—Christopher Columbus is causing a considerable amount of trouble in the old world just now, and awaiting people just as he used to be his balancing tricks with eggs. It has all arisen over a proposal to celebrate, on October 12, the 435 anniversary of the discovery of America. Under the leadership of Ramon Lopez Lombr, Consul-General of Uruguay, a committee was formed some time ago to celebrate the anniversary and by means of a "Latin week," bind the closer the cords of unity of the Latin races.

It has all arisen over a proposal to celebrate, on October 12, the 435 anniversary of the discovery of America. Under the leadership of Ramon Lopez Lombr, Consul-General of Uruguay, a committee was formed some time ago to celebrate the anniversary and by means of a "Latin week," bind the closer the cords of unity of the Latin races.

Nearest Approach To Lightning Yet Produced By Man

Schenectady, N. Y., Sept. 20.—One million volts of electricity, which was produced in tests for the first time in history this week at the Pittsfield works of the General Electric Company, is the nearest approach to lightning that man has yet made, declares Dr. Charles P. Steinmetz, consulting engineer of the company and a world authority on electrical transmission.

RANDOLPH'S ADVICE ON MEXICAN PETE.

New York, Sept. 21.—Edmund Randolph, commenting on Olla says: "Liquidation of the remnants of a large line of Mexican Petroleum, bought on the campaign against the shorts which resulted in the recent rise from \$4.12 to about 12, I favor leaving this stock alone. It is a gambling proposition and not a fair speculation. There is said to be only 50,000 shares of the stock, the rest is owned by the Pan-American, but I doubt it."

Has Become Biggest Joke of Present Fantastic Political Season.

More especially, Munich denied indignantly that the Kapp arch-revolutionists, Colonel Bauer, Captain Ehrhardt, Major Pabst and their followers lived unmolested in a strongly defended citadel near Munich, and that a platoon of Bavarian police, under the leadership of the Bavarian Minister of Justice, Dr. Eitel, and Munich police president Pohner, is used to guard the citadel and had the keys of the citadel as charged by the Chancellor.

Business Confined To Specialties

New York, Sept. 21.—It was quite clear from yesterday's market, which eased off to the lowest prices of the week, that these forces which had operated for the strength recently had spent themselves. A half of the business was confined to specialties and the price movements were either in the direction of lower levels or unimportant. The bond market, however, was in contrast. The government bonds gave a remarkable exhibition of strength. Yesterday the first time in eight weeks call money renewed at 4 1/2 per cent. and remained at that figure all day.

COMPOSITION OF HIGH COURT NOT PLEASING

English Speaking Nations (Two Judges While Spanish Have Three). FOURTH OF JOHN BASSETT MOORE AND V. COUNT FINLAY TO REPRESENT ENGLISH LAW.

Geneva, Sept. 21.—The election of the new International Court of Justice, which is considered by many the greatest step yet taken in the cause of international peace, was today, it resulted in the selection of a court, which while embracing the different systems of law, seemed great disappointment among the English speaking nations of the world.

In this court the English system law, embracing hundreds of millions of people, will have two representatives, while Spanish law, the contrary, will have three of eleven judges, and possibly one of four deputy judges. The eleven judges chosen were: John Bassett Moore, United States; Viscount Inlay, Great Britain; Yvoron Oza, Japan; Dr. Andres Wroblewski, Poland; Dr. Carlos Romo, Mexico; Dr. B. T. C. Loder, Holland; Dr. S. De Bustamante, Cuba; Judge Dr. Wilhelm Danneberg, Denmark; Dr. Max Huber, Switzerland; and Dr. Rafael Altamira y Crevea, Spain.

The three deputy judges so far might better have been: Denmark, Norway, of Rumania; Michailo Jovanovic, of Yugoslavia; and Mr. Wang Ching, China. There is an effort being made to elect Dr. Frans Kjaer of Austria as the fourth deputy and candidate Alejandro Alvarez, the candidate of the Spanish group.

It is the cause of much satisfaction here that American law, representative, as the belief is entertained that the United States, especially rally the convention of the court. The majority of representatives accorded the English law system against the Spanish and Napoleonic codes naturally is regarded as a triumph for the British and her Dominions, who were totally unprepared for the strength of the combinations shown by the Spanish and the French. The French, placing Spain, Brazil and Cuba on the bench of the world court.

Finds Street In Healthy Condition

Portland, Me., Sept. 20.—Charles P. Flagg, investment securities, who has just returned from a trip to New York says that he has seldom seen of the "street" in a healthier frame of mind. It is conservatively and confident, a combination which seldom exists there. He came back by way of Springfield, Mass., to complete the investigation of an 8 per cent. first mortgage bond in which with Redmond & Co. of New York he is interested. As one of the indications of the better feeling, he says that the mortgage factors whose bonds they are investing on, although they have refrained from any financing or bank borrowing during the great boom period, are now arranging this issue of bonds in order to be prepared for large contracts which the business revival will bring. It is one more sign of the approaching turn of the tide.

COMPOSITION OF HIGH COURT NOT PLEASING

English Speaking Nations Get Two Judges While Spanish Have Three.

WAS REFUSED FOURTH ONE

John Bassett Moore and Viscount Finlay to Represent English Law.

Geneva, Sept. 21.—The election of the new international court of justice, which is considered by many as the greatest step yet taken in the cause of international peace, was held today. It resulted in the election of a court, which while embracing all the different systems of law, has caused great disappointment among the English speaking nations of the league.

In this court the English system of law, embracing hundreds of millions of people, will have but two representatives, while Spanish law, on the contrary, will have three of the eleven judges, and possibly one of the four deputy judges.

The eleven judges chosen were: John Bassett Moore, United States; Viscount Inlay, Great Britain; Dr. Yoroda Oda, Japan; Dr. Andre Weiss, France; Commendatore Dionisio Amadi, Italy; Dr. Ray Barboux, Brazil; Dr. B. T. C. Loder, Holland; Antonio S. De Bustamante, Cuba; Judge Dierik Nyholm, Denmark; Dr. Max Huber, Switzerland, and Dr. Rafael Alez y Cereza, Spain.

The three deputy judges so far definitely elected are: Demetrii Negousson, of Rumania; Michailo Jovanovic, of Jugo-Slavia, and Mr. Wang of China. There is an effort being made to elect Dr. Franz Klein of Austria, the fourth deputy, and defeat Dr. Alejandro Alvarez, the candidate of the Spanish group.

"It is the opinion of most establishment here that America will have a representative, as the belief is entertained that the United States will speedily ratify the convention of this court. The penalty of representation accorded the English law system as against the Spanish and Napoleonic codes naturally has regard to the assistance by the representatives of Great Britain and her Dominions, who were totally unprepared for the strength of the combination shown by the Spanish side here, and which resulted in placing Spain, Brazil and Cuba on the bench of the world court.

"It looks as if the seat of the court might better have been fixed at Rio Janeiro than at The Hague," remarked Charles J. Doherty, Minister of Justice of Canada, after the election. The Australians also expressed their disappointment over the result.

Regret also was expressed after the composition of the court had been determined that only a minority of the judges selected were men of any judicial experience whatever, the remainder being either teachers or writers on international law. On the other hand, the Spanish and French seem well satisfied with the make-up of the court, the Spanish element naturally being jubilant at their success.

"It is a good court and France is satisfied," said M. Viviani, the French delegate. Britain and her dominions tried to get another representative of the English law system on the court in the person of Robert L. Burdon, former Canadian Premier, but France and the majority of the nations here were opposed to it largely on the ground that it would mean giving two places to the British Empire.

Answers in proceedings for the return to the United States of the seized British run schooner Henry L. Marshall have been filed in the Admiralty branch of the Federal-District Court, New York, by Charles H. Hyde as agent for Charles R. Albany of the Bahamas Islands, owner of the vessel.

The proceedings call for condemnation of 1,250 cases of liquor found aboard and the enforcement of penalties against the vessel.

Mr. Hyde asserted that at the time of the seizure the Marshall was upon the high seas and not within four leagues of the coast of the United States, and that therefore the ship and its cargo were not within Federal jurisdiction. The seizure, he states, was illegal and void, and he asks the court no pronouncement against the government's demands, with costs.

A despatch from Atlantic City Friday stated that Dr. Charles W. Holden, known there as a social specialist, had been arrested on a charge of smuggling, in violation of the customs law, in connection with the operations of the schooner Marshall.

C. G. S. Arras Made Capture Off Scatterie

Sydney, Sept. 19.—Bounding Scatterie Island, the Canadian patrol steamer Arras, Captain Barkhouse, sighted an American schooner, the Hansel Jackson, at anchor, inside the three-mile limit. The cutter held on her course and under the lee of Port Nova hailed a dory in which were a couple of fishermen. The latter had just finished killing a porpoise and the cutter was on board the dory when a boat from the cutter pulled alongside.

Third Class Rates To Europe Lowered

White Star-Dominion Line Announces Reductions to Continental Ports.

A general reduction in third-class steamer rates from Montreal to ports in continental Europe, to come into effect immediately, was announced yesterday by the White Star-Dominion Line, and is expected to be followed by similar announcements by other steamship companies operating out of this port.

The amount of the decrease is \$25 in each case and applies on passages to Hamburg, Bremen, Danzig, Pillau, Lubeck, Riga and Berlin, Hamburg and Bremen rates drop from \$125 to \$100; Danzig and Pillau, \$95 to \$70; Lubeck, \$145 to \$120; Riga, \$130 to \$105, and Berlin, from \$125 to \$100.

The same reductions will also be effective on steamers of the White Star and American Lines sailing out of New York, including a drop from \$121.50 to \$100 on passages to Antwerp and Rotterdam. The White Star-Dominion Line's rate from Montreal to Antwerp and Rotterdam has been \$100 for some time past, and will remain at the same figure.

Ex-German Liner Now The Arabic

The 17,000 ton ex-German liner Berlin, now the Arabic of the White Star Line, is due to leave New York at noon today for her first voyage in the White Star's Mediterranean service, bound for Gibraltar, Naples and Genoa.

She arrived at New York from Southampton last Friday afternoon after her maiden trip in the company's service, with first and second cabins filled to capacity.

Before the war the Berlin was one of the most popular of the German ships plying between New York and the Mediterranean.

When the war broke out the Berlin was in German waters and therefore was safe from capture. The German navy proceeded to fit her out as a sea raider of a new and destructive type. Laden with mines, she sailed in August, 1914, for the steamer line off the north of Ireland. There she sowed a field of mines. A British squadron of heavy naval ships was first to feel the effect of the mines, the battleship Audacious striking one and going down before she could be towed to port by the White Star liner Olympic.

The Berlin fled to the North Sea, and escaped into a Norwegian port. There she remained until the end of the war, when she was turned over to the Reparations Commission under the terms of the armistice. Later she was sold to the White Star Line, which named her Arabic, for one of its popular ships which the Germans sank by torpedoes in the war.

The Arabic is 17,200 tons register, 530 feet long and 60 feet breadth. She was built in 1908 at Bremen.

from confiscation by the Canadian craft. During the season a large number of American schooners engaged in awarding fish off the south coast, and it is claimed that on one occasion they slipped into port after dark and sold their catch to unscrupulous dealers.

The ships of these boats would rather take a fair chance of being caught by putting in and selling the day's catch, than to keep the fish on board and run the risk of the catch spoiling before an American port could be reached.

WANTED

WANTED—Middle aged woman for general house work. 12 Charles street, off Garden street.

GET OUT OR YOU WILL NEVER GET ON
In every town and city in Canada there are men who are deep in a rut, and will never get on while they stay in it.
But how to get out—that's the question!
Of course you can "take a plunge" but there is a better way:
Our Sales Department will send you free of charge the first two lessons of its course in Salesmanship.
You can thus see how you like the idea of joining the men who are making a good living and building up their future in the Canada Life.
If you are ambitious and capable, we will continue the course of instructions and afterwards place you in a position and help you to make good.
All inquiries are treated as strictly confidential.
Write Sales Department,
CANADA LIFE ASSURANCE COMPANY, Toronto.

Geneva, Sept. 20.—The recent international anti-alcohol congress held at Lausanne has raised a great controversy concerning the medicinal value of alcohol. A memorandum has been addressed to the Swiss Government by the Swiss Medical Association expressing the opinion that it would be good for the health of the Swiss nation if alcoholic drinks were entirely abolished.
The general opinion of the Swiss doctors, who rank generally very high in Europe, is that alcohol has its uses as a therapeutic agent, but that in certain cases it must be absolutely forbidden, especially to expectant and nursing mothers. One well-known doctor at the anti-alcohol congress described doctors who prescribe alcohol for women in these circumstances as ignoramus, but the general opinion is that the question of alcohol as a medicine, is far from thoroughly investigated, and it is urged that hospitals should make careful observations of the results of treatment in different cases with and without al-

AROUND THE CITY

PASSENGERS FOR BOSTON. The steamer Governor Dingley sailed yesterday morning for Boston with two hundred passengers.

NO CHANGE. There will be no change in the operation of the St. John Valley Railway with the coming into effect on October 2 of the fall time table.

HEAVY FROST. Quite a heavy white frost was noticeable in the city and country districts early yesterday morning, giving an intimation of what is to follow.

COMPLAINTS RECEIVED. Complaints were made that lines of workmen engaged along the transmission line from the hydro-electric station at Musquash are endangered by hunters who are shooting game in that vicinity.

MEMORIAL HOME. An enthusiastic meeting of the ladies interested in the Provincial Memorial Home, was held at the Home yesterday afternoon for the purpose of arranging for a large tea and garden party to be held shortly. Mrs. J. F. Emery was appointed general convener.

IS INCORPORATED. Letters patent have been issued incorporating Joseph A. Garson, Miss Frances Garson and Harry J. Garson, of St. John, as partners in a firm to be known as the Garson Co., the head office to be in St. John. The object is to carry on the real estate business.

ROOF FIRE. An alarm was rung in from box 145 at 6.50 last night for a fire which caught on the roof of Benjamin Slick's house, 7 Leveson Street. The fire was put out with the chemical before much damage was done. The "all out" sounded at 7.16.

SILENT COP DAMAGED. One of the city's cops was roughly handled when the silent policeman at the corner of Cavendish street and the south side of King Square was hit by a motor car yesterday afternoon. The cast iron lantern stand was badly bent.

INTERESTING HISTORY. The steamer Bay Queen arrived in port yesterday from Margareville. This little boat has had an interesting history, as she was a mine sweeper throughout the war. She was purchased from the British government by her present commander, Captain Noy, and she will run on the St. John-Margareville route.

RECENT APPOINTMENTS. Miss Hazel Estabrook of St. John is appointed a commission for taking affidavits to be read in the supreme court. Alfred M. Mandell and James Myles, 115 Wright street, St. John, are appointed justices of the peace, as also are Guy H. Flewelling of Hampton, Royal Stockton of Sussex and John Kirtley of Grand Bay.

LABOR CANDIDATES. The advisability of putting Labor candidates in the field for the next federal election, will be discussed at a meeting of the Trades Council, scheduled to take place in the council's headquarters, Prince William street, on Friday night. The attitude of organized labor towards the provincial by-election which will result from the entry of Hon. Dr. Baxter into the federal cabinet, will, no doubt be considered.

THE WOODS FATALITY. It is reported that the attorney-general of the province has applied to the coroner at St. Martins for a copy of the evidence taken at the inquest into the death of Haliburton Brown, who was shot in the woods there last week. If there is anything in the testimony to justify action against the two men, a bullet from the rifle of one of whom is said to have caused death, action will likely be taken.

LOCAL ILLUSTRATIONS. Recent issues of the Canadian Music Trades Journal, published by the Fullerton Publishing Company of Toronto, contain a number of illustrations of St. John, the cuts for which were forwarded by the local Board of Trade at the request of the publishers. Among the pictures were the bridges at the Falls, ships loading at West Side piers, Rockwood Park, Queen Square, etc.

ST. JOHN MAN KILLED. Word has been received here that William Demeas, a former resident of North End had been killed at Niagara Falls. Mr. Demeas had conducted a grocery store in Moore street until a few months ago, when he went to work with a hydro-electric company at Niagara Falls. His wife is ill in the General Public Hospital. Mr. Demeas leaves two sons, John and James, and two daughters, Mrs. Jennie McDonald and Miss Nellie Demeas, both of this city. The body will be brought to St. John for burial.

KINDERGARTEN OPENS. The new kindergarten in the Syrian Hall, Prince Edward street, was opened yesterday morning. Forty-five pupils were admitted, which is all that can be accommodated at present. More have already applied. The children are in charge of Miss Winifred Ross and Miss Florence Kierstead. A Victorian Order nurse was present to examine the children, and many mothers were also present. The room is airy and bright, at the corner of the hall, Mr. Stephens has spared no pains to make the room comfortable and pretty.

STREET WORK PROGRESSING. In order to expedite paving operations on Prince Edward street, the department of public works is endeavoring to have the truck laying crew of the Power Company shifted from Douglas avenue to Prince Edward street. As soon as the extra truck gangs are at work, the city will put two concrete mixers in operation on the eastern side. The work of laying the new main on Prince William is progressing rapidly and the new pipe is now laid street to Princess street.

DAMAGING EVIDENCE GIVEN AGAINST JOHN PARIS FOR MURDER

In Sadie McAuley Murder Case Walter Humphrey Tells Court That John Paris Wanted "Help To Cover Up Kid"—Wished Assistance to Kill Man for Insurance—Gives Description of Paris on Day Girl Was Murdered.

The Police Court was crowded yesterday morning when John Paris was charged with the murder of little Sadie McAuley in Riverview Park on or about August 2. Walter Humphrey was the only witness heard and his evidence proved very damaging to the prisoner, who maintained a cool and attentive appearance throughout the hearing.

Walter Humphrey, who resides at 133 Prince Street, West St. John, testified that on August 2 between 10.45 and 11.30, he rowed Paris across the river, from Frank Craft's slip to Waterloo street, and that Paris said: "Come up to the park, Bun," to which witness answered that he did not get out, and besides he had to get some fresh meat for Walter Cook's dinner. Witness then left Paris and rowed back to Craft's slip, and did not have any further conversation with the accused that day. Witness stated that he had known Paris for some time, and that he was a married man. He saw the accused on the next morning, August 3, while talking to Ernest Campbell, that Paris asked him where he was going, and that Paris, Campbell and witness had a conversation.

Help Cover up Kid. Witness said Paris had a bolt on his forehead which Campbell tied up, and that Paris asked witness to row him across the river again. Witness stated they went over a fence between James Stackhouse's lot and Britain's and got into the same boat they used on the previous day, and started out. On the way over, witness stated, Paris said he had been intimate with a girl in Riverview Park on the previous afternoon, and when asked by witness Paris said it was a white girl. Then when they reached shore Paris asked witness where he was going and said come up to the park. Witness replied he did not look fit, Paris said, "come up anyway," saying, "Bun, help me to do something." Witness asked him what it was, and Paris replied, "to help me cover up that kid." Witness said, "John, did you do that?" He replied, "Never mind, Bun, it's between us." Witness replied that he would draw the line there, and then left the accused and went back to the West Side and went home.

Kept Clear of Detectives. A few days later, said witness, he saw Paris sitting on his doorstep, and told him Sgt. Detective Power and another man were coming down Waterloo street. Paris asked witness where they went.

they went, then stepped backwards into his house, and called witness. Witness stated he did not stay long in the house, and that he saw Paris after that, but that Paris soon left town. He, witness, brought the matter of the murder up several times, but Paris would not talk. On examination by Sgt. Power, witness said that Paris had told him to go out and watch, after he told the accused about seeing the detectives. Paris had a brown coat, and khaki riding breeches with leather strappings, and tan boots on the 2nd day of August. Witness said that on August 3rd the accused was riding breeches when working at the house, as similar to that worn by Paris, but did not identify the coat or trousers. Witness said that on August 3rd the accused was riding a blue suit, a light cap, and white shirt.

Wanted Cook Killed. On cross-examination by accused, witness answered that they did not have any particular conversation on the 2nd of August; that the accused was riding breeches when working at the house long ago, and that the last time he saw Paris in his house was the day Sgt. Power was in Carleton Place. Witness remembered that his brother saw accused and asked Paris to keep Humphrey from hanging around with Paris.

Witness said he saw his brother Stanley sitting on the wharf on the morning of Aug. 2nd, when rowing Paris across the river. He didn't see Dykeman's net, at Carleton Place. On re-examination by Sgt. Power, witness stated he never had a row with the accused. The accused was then remanded to jail, the case being postponed till this morning at 11.15. G. H. Vernon, of Truro, N. S., is expected to arrive in the city to represent Paris.

Hearing In The Norris Murder

Son of Murdered Man Gave Evidence in Police Court Yesterday.

The preliminary hearing of Edward P. O'Brien and James Thomas Spillman on the charge of murdering Alfred Norris of Barre, in an alley off Erin street, September 8, was commenced in the Police Court yesterday morning. William M. Ryan represented O'Brien, G. Earle Logan, Spillman, and J. King Kelley the Norris family. Harris A. Norris testified that he was a son of Alfred and that he and his father came to the city on Thursday afternoon, Sept. 8, by auto, arriving about 4 o'clock. They left the car at their father's home, 129 Rochdale Avenue. Then witness and his father went up and bought a man, which his father carried to the house, witness going on upstairs. The next time he saw his father was in the alley near Ryan's house off Erin street, about four feet from the sidewalk. His father was lying on his right side, two pieces of board near him and his hat a few feet away. Leonard Roy Shannon, a man named Totten and other persons were there. Witness identified his father's hat and the pieces of board. He stated that his father, who was about 62 years of age, was finally taken to the Public Hospital. On cross-examination by Mr. Logan witness said that his father had been in poor health. To Mr. Ryan witness said he did not know how much money his father had with him, did not know where the hat was purchased, but knew that his father drank. The case was postponed till Friday morning at 11.

Canada's Naval Squadron Here

Cruiser Aurora, Torpedo Boat Destroyers Patriot and Patrician and Two Submarines

Canada's naval squadron, the cruiser Aurora, the torpedo boat destroyers Patriot and Patrician, and the two submarines C. H-15 and C. H-14, arrived in port and docked at berths 2, 3 and 6 on the West Side about two o'clock yesterday afternoon. A large crowd of citizens were along the harbor front to witness the arrival. The fleet left Halifax Wednesday morning, the destroyers and subs steaming away at a little after 7 a.m., and the Aurora at 8.30. The flag ship the Aurora was the first to enter the harbor here and was towed to her berth by the tugs Neptune and Alice R.

Official Visit. An official visit of welcome was made the squadron by His Worship Mayor G. H. Wood and party at 3 o'clock yesterday. He was accompanied by Commissioner Jones, R. E. Armstrong, president; Capt. A. J. Mulcahy, vice-president; and C. B. Allan, secretary of the Navy League. G. B. Lockhart, collector of customs; Lieut.-Col. Alexander McMillan, D.S.O., O.C. 62nd Regt.; Sheriff Amos A. Wilson, J. C. Chesley, marine and customs agents; Walter Brindley, of the Seaman's Mission, and others. The party were conducted over the Aurora, the Patriot, and the C. H-14 by the officers of particular was examined with much interest. The subs. were not built on spacious lines, and several precautions had to be taken by the party. Those of the gentlemen who were carrying guns were obliged to leave them on deck, and as the ceilings of the sub. are very low, they likewise discarded their hats after going below. The Mayor plans to have the Boy Scouts and the members of the cadet corps in the city shown through the district conference of their employees. W. G. Barber, commercial general superintendent of the Canadian National Telegraphs of Toronto, and L. S. Hemes, divisional superintendent of the same company in local offices which had proved successful were presented for discussion. Among those in attendance from outside point were T. U. Carroll, New York, general manager, having come by the Dominion Cabinet, and J. A. Simonds, also of New York, who are appointed by the Western Union Co. to attend and address each of the numerous conferences in local offices which had proved successful were presented for discussion.

The evening was devoted to social activities and the thirty delegates enjoyed a theatre party, taking in the comedy show at the Opera House. The meetings will be continued today and Friday.

CONGRATULATIONS SENT HON. DR. BAXTER

Large representative meeting of party workers of Simonds, in session, offer congratulations on your elevation to the Dominion Cabinet, and unanimously pledge their support to you and colleagues in forthcoming election. F. E. JOSSELYN, WALTER DRAKE, G. REED STURTEVANT, ANDREW R. MOORE.

POPULAR APPOINTMENT

Lieut. J. Frank Smith, of 233 Lancaster street, West, who suffered the loss of his sight as a result of the war, has returned from Pearson Hall, Toronto, where he has taken a course in massage, electro therapy and Swedish remedial gymnastics. Lieut. Smith made a very creditable showing in his examinations, having come out head of his class. He has been appointed masseur at the D. S. C. R. Hospital, Lancaster Heights, and started his duties there Monday morning. H. J. W. Powers and Roy H. Powers of Winnipeg are visiting in the city the guests of Mrs. E. S. Hemminger. H. J. W. Powers is secretary of the Winnipeg Typographical Union. Alexander Wilson, 21 Queen Square, is spending a few days at St. George.

Something Expected Western Union Convention Held Against John Paris

Evidence Towards His Identity as Guilty Man Looked for by Detective Dept.

John Paris, the mulatto who is receiving a preliminary hearing in the Police Court on the charge of killing the little girl, Sadie McAuley, will appear again before the Magistrate this morning. Yesterday most damaging evidence was given against the prisoner by William Humphrey, and while the Police, or Detective departments, are keeping quiet on what information they have received on the case, it is believed that something most startling against Paris is soon to be divulged to the court, which will go a great deal towards the conviction of the man who is being tried for the most brutal murder in the history of St. John. It could not be learned definitely last night, but it is hinted that most convincing evidence towards the identity of the man who lured the little girl to her awful doom will be established. Police officials who have been in close communication with Paris, while non-committal are not favored with his actions and it is generally believed that his smiling and quiet manner since placed in custody is being well acted by a man who at the same time is suffering under a considerable strain. Of course the evidence for the defendant has not yet been heard by the Court and perhaps Paris may be able to prove an alibi to all evidence, circumstantial or otherwise brought against him by the prosecution, but at the present time no case of his kind in the history of the city is causing so much interest as this one at present under trial.

THOS. McCULLOUGH INJURED.

A bad automobile collision occurred near Grandfido Tuesday morning when a McLaughlin roadster, owned and driven by W. Tremaine Gard, and a Chevrolet car, bearing an American license and containing a party of women, came together in a narrow stretch of road. Thomas McCullough, of the Vocational Department, D. S. C. B., who was with Mr. Gard, was the only person injured, the others escaped with a shaking up. Mr. McCullough received some bad bruises about the head, arms and shoulders and injuries to the nerve plexus of the right arm, resulting in partial paralysis from the shoulder down, which injury, it is reported, will right itself in a short time. He was taken to the residence of John Powers, O'Dell avenue, Fredericton, and Dr. Sterling gave treatment, and it was found that he was not so badly hurt as had been feared, no bones being broken. The occupants of the Chevrolet were unharmed and their car did not appear to be damaged, but Mr. Gard's was badly smashed.

LAINCHING SATURDAY. The new steamship, Canadian Confederation, will be launched from the Halifax yards on Saturday and will be christened by Mrs. F. B. McCurdy, N. B.

Hardware Merchants. Foot Balls. W. H. THORNE & CO., LTD. Store Hours:—8 a.m. to 6 p.m. Close at 1 p.m. Saturdays. Open Friday nights till 10 o'clock.

This is Home Sewing Week and... Macaulay Bros & Co. Limited. Exclusively a Woman's Store.

were refitted at the Yarrow yards and commenced the return trip June 3, arriving at Halifax July 20.

A big reception was accorded the squadron by the residents of the whole island of Jamaica, for which a sum of \$5,000 was spent. The Officers. There are six Imperial officers as of the Patriot and Patrician. Of the crew of the Aurora 114 are Canadian born, 16 of the Patriot and 19 of the Patrician. Of the officers two are signed to the Aurora and one to each French-Canadian, — Paymaster Sub. Lieut. M. J. E. O. Cossette and Surgeon-Lieut. A. G. Laroche, M.D., both of Montreal. They both serve on the Aurora.

EVERYBODY REGISTER. If your name is not already on the voters' list and you are a British subject, with residence in New Brunswick prior to May 3 of this year you are entitled to register before the county court judge in each constituency, thus placing your name on the list and entitling you to a vote in the Plebiscite of October 10. Application for registration in St. John City and County must be made THIS WEEK before Judge Armstrong in the County Court Chambers, Pugsley building, Canterbury street, at 11 or 3 o'clock of each day. Registration ensures a vote both in the Plebiscite and in the coming Federal Election. Don't neglect this important duty. Register today.

OPERA HOUSE. Always a Good Show. Matinee 2.30, Evening 7.30 and 9. The International Entertainer CHAS. LEONARD FLETCHER. REED AND TUCKER. 3 Other Big Acts. SERIAL AND COMEDY. WILL BE NO CHANGE. In reply to an inquiry from the St. John Board of Trade as to whether any change was contemplated in the method of shipment of molasses to Canada, the Barbados Chamber of Commerce, under date of September 8, states that the present stock of molasses in that island is very large and sufficient for the season of 1921, therefore it would be impossible for any change to be made before 1922. Most of the importers in Canada, says the letter, prefer molasses to barrels, therefore they do not see why any change should be made. Clifton House, all meals 60c.
