## SERIOUS BREAK IN WATER SYSTEM

Whole Business and Most of Residential Section Without Water.

A very serious break in the water pipe leading to a hydrant in front of the C. G. R. depot has deprived all of the town east of Sugarloaf street of water. The break occurred about 12:30 last night and as soon as the town engineer was notified the water was turned off and a crew of men commenced excavating to find the break. On account of the frozen ground this was slow work, but the engineer hopes to have repairs made this evening. In the meantime citizens are experiencing a water famine, and the town is without fire protection. The water did not do much damage. Allingham's basement was flooded, but there was no goods stored therein. About a foot of water covered the station basement floor, but the section men made a drain which speedily carried off the surface water.

**ARRIVED IN ENGLAND.**  
Mr. and Mrs. Bryan Annett this week received a cable from England announcing the safe arrival there of their son, Louis, who has been a prisoner of war. Pte. Annett enlisted early in the war with the 6th Mounted Rifles and after a short training at Amherst and in England was sent to France. He was taken prisoner in June 1918 and his numerous friends will be glad to know that he is in England again and expects to be home in a short time.

## POPULAR MARIA YOUNG MAN DEAD

Chas. W. E. Clapperton Accidentally Killed on New Years Day.

The whole community of Maria was shocked by the tragic death of Mr. Charles W. E. Clapperton at his home in New Richmond on New Years day. The unfortunate young man was taking his gun down from the wall, when it is supposed it fell, striking a cream separator causing it to explode and the charge, lodging in the face and head, caused instant death. He was alone at the time of the accident, his wife, a bride of only three months, being at church. Deceased, who was 42 years of age was a son of W. H. Clapperton, Ex. M. P. of Maria and is survived by his wife, also three brothers, Harry of Minneapolis; George of New Richmond; T. B. of Maria Capes and two sisters, Mrs. Henry McIntyre of Campbellton and Mrs. Thos. Mill of Maria. The funeral was held on Friday and was very largely attended. The service were held in New Richmond church and the body entered in the family plot at Maria. The wife and family of the deceased have the sympathy of all in their sad bereavement. Coroner Dr. Dewolf of Paspebiac held an inquest and a verdict of accidental death was returned.

## RUSSIA GOES BACK TO VOYKA

License System Adopted to Obtain Money for Cost of New Army.

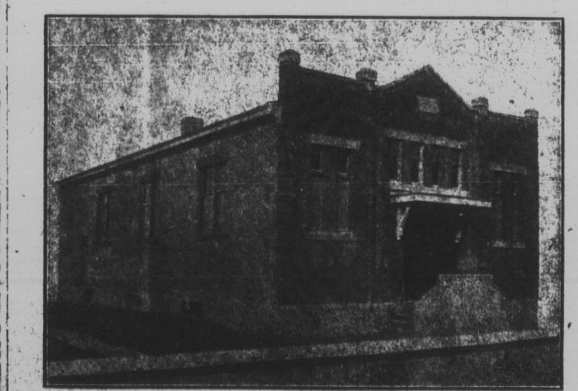

Vladivostok, Jan. 1.—Beginning the Russian new year, the Koleschak government removes the prohibition on the manufacture and sale of vodka imposed by the late Czar at the commencement of the war. The license system will be adopted with high excise charges, for the purpose of obtaining money to defray the cost of the new army.

## CURLING SEASON COMMENCED MONDAY

First Round of Series Being Played—Rink Improved.

The curling rink is the centre of interest these days, as the season opened Monday. The soft weather made ice making difficult and although one sheet of ice was ready on New Years, the second was only in shape Monday. Two match games are being played each evening and things are going with a swing. Next Wednesday, Campbellton plays the winner of the Amherst-Bathurst cup. The rink rooms have been greatly improved and there is now plenty room for spectators to watch the games from inside.

## S. A. CITADEL IS A CREDIT TO TOWN.

**NEW S. A. CITADEL**  
S. A. Citadel — a two story building, the new Salvation Army Citadel, a picture of which is herewith printed was erected under the direction of Ensign Squarbridge during the past summer. About a year ago plans were prepared and tenders asked for its erection, but after carefully considering these Ensign Squarbridge felt confident that he could make a considerable saving by erecting the building by day work, and so proceeded with the work. He himself worked with pick and shovel in excavating and later in many capacity in which he could be useful and he was assisted by other members of the corps with a competent staff of work men, and soon this handsome building was the result of their handwork. Mr. Thos. Dickie was in charge of all the mason work. The building, as can be readily seen is a one story structure of brick with concrete foundation and trimmings. The building is divided into two, the main auditorium with a seating capacity for over three hundred. The interior is furnished in harmonious tints and is very comfortable. The room in the rear is used for S. A. corps meetings. The site occupied was the old barracks stand before the Campbellton fire.

## NEW JOB FOR THE TOWN POLICEMEN

Will Take Census of All Children Under 14 Years of Age.

A meeting of the Town Council was held Tuesday evening. His Worship Mayor Alexander presiding. Councillors, Champoux, Harquail, Goss and Miller were present. The minutes of the last meeting were read and approved. The application of Wm. Nelson for job at the power house was read and referred to the Electric Light Committee.

The Assessment and Appeal Committee reported recommending that Assessors when making the next assessment, assess the stock-in-trade of the J. & D. A. Harquail Co. Ltd. Coun. Harquail said that his firm had no objection to paying any taxes which were legally due, but thought that the several other firms, who were exempt from paying taxes should be treated in the same manner. If all were treated alike his firm would be only too happy to pay taxes. Assessed. The Assessment Committee had authority to ask the assessors to look into this matter and see that all stock-in-trade of exempted companies was assessed when making the next assessment. Coun. Champoux thought that Coun. Harquail's statement was very fair. Any other firm carrying stocks for sale should be assessed on same. The Councillors were elected to see that all were treated fairly.

A communication from W. H. Wallace, re the Harquail exemption was ordered placed on file.

A discussion on the Curfew Law, Compulsory Education and Vocational training was entered into and the Councillors were unanimous in regard to these measures. So that information may be obtained as to how many children are not attending school, the Police have been instructed to take a census of all children under fourteen years of age, with a view of having the law regarding compulsory education brought into force.

On motion of Coun. Goss, Chief Adams was granted an increase of \$10.00 per month or \$120.00 per year.

Coun. Miller stated that he had an offer of \$125.00 for the old mare and that Mr. Wallis was at present in town with a carload of horses. There was one suitable team among the lot and the price was \$25.00. Coun. Goss moved that the Public Property and Streets Committee be authorized to sell the old mare for \$125.00 and purchase a team for the best possible price.

In speaking in favor of the motion Coun. Goss said it was impossible to keep the streets in good condition with one pair of horses. Coun. Miller agreed with Coun. Goss, Campbellton's winter streets are said to be the best in the province and we should take pride in keeping them good.

Coun. Miller said that he had been offered the Parson's ditching machine for \$5000. and was authorized to continue negotiations.

The motion carried. Coun. Miller reported that Mr. W. H. Wallace had met a committee on the matter of the right of way for the sewer through the C.G.R. property to Union Street and agreed to accept \$25.00 for such right of way. On motion this offer was accepted. The Electric Light Committee were authorized to move a light from Central Street two hundred feet up Windsor Street.

The Council then adjourned.

## MILLION DOLLAR DRIVE UNDER WAY

Arrangements Made for Soliciting Funds for S. A. Work.

Mr. A. A. Andrew who some time ago at the request of the Salvation Army agreed to assist in the organization of this County for the Million Dollar Drive the Army is putting on Jan. 19th to 25th, last week called a meeting for Friday in the town council chamber for the above purpose. The meeting was well attended and the work of organization heartily got into by all.

Mr. A. A. Andrew was chosen chairman and Mayor Alexander Sec. Treas. The following gentlemen were appointed an Executive Committee: His Honor Judge McLatchy, J. B. Champoux, J. W. Connors, D. A. Stewart.

Organizers for the various districts: Durham—Hon. Arthur O'Connell and D. A. Stewart. Flat Lands—Nathan McDavid, W. G. Cooling. Dalhousie—Hon. C. H. LaBelle. Upsalquitch and Main River—Arthur Murray. Glen Levi and Glenora—S. M. Ferguson.

Tide Head—Joseph Duncan. Balmoral, Red River and Shannonvale—S. S. Harrison. Matapedia—Alex. Pratt. Point La Non—John Dickie.

Restigouche county's allotment is \$3,000 and the hope was expressed that this county would supply the desired amount. The Salvation Army has done noble work in providing for soldiers, and so far has made no appeal for funds to the people. The increased responsibility the Army is now taking upon itself in providing comfort not only for those now overseas but for those returning has resulted in this appeal now being made, and it is hoped the amount asked for will be fully subscribed.

## APPOINTED HARBOUR MASTER

Capt. J. A. Roy, who returned from overseas some time ago has been appointed Harbour Master at the port here. His appointment to this office is subject to the approval of all concerned.

An honest to goodness real live baby will be given away to lucky ticket holder at the first performance Friday evening. A genuine novelty will be introduced at the Opera House Friday evening, when during the first performance a real live baby will be given to the lucky ticket holder. There is no commingling about this, the baby is really and truly none of the living away of it will prove to be a few moments of real fun and hilarity. A great programme is also slated for presentation Friday and Saturday.

## ALL RESTRICTIONS WILL SOON BE REMOVED

Ottawa, January 8.—It is probable that before the end of the present month most of the existing restrictions on travel and business will have been removed. It is the policy of the Government to remove them just as rapidly as conditions will permit. Some laws to be maintained by reason of restrictions still in force in the United States and Great Britain in the season of the necessity for cooperation of Canadian officials of those countries. It is thought that the operation of the Canada Food Board and the War Trade Board will cease within the next two or three weeks.

## Tired, Overworked Mothers What You Need is Vinol

War conditions have made the demand upon a mother's time and energy unlimited. In their zeal to do all in their power for their loved ones, they continually overwork and are soon in a nervous, run-down condition. Vinol, the non-secret cod liver and iron tonic, will build you up and make you strong.

HERE IS PROOF

**Whitman, Mass.** "I suffered from a nervous, run-down condition and loss of strength so it was hard for me to get around and do my work. After other medicines had failed to help me Vinol restored my health and strength and I heartily recommend it to anyone suffering from a nervous, run-down condition."—Mrs. E. M. Little.

**Cleveland, Ohio.** "I kept house for my husband and myself and got into a weak, run-down condition, no strength, languid and no ambition. After doctoring for awhile and getting no better I tried Vinol and to my surprise it built me up and strengthened my whole system. It is certainly a good tonic."—Mrs. Wm. D. Dawson.

## COLONEL ROOSEVELT DIED MONDAY AT OYSTER BAY

III With Inflammatory Rheumatism Since New  
Year's But Death Unexpected.

Was Found Dead by His Wife at 4 O'Clock Monday Morn-  
ing—Pulmonary Embolism Immediate Cause of Death  
—Telegrams of Condolence Began to Pour in—Sketch  
of Life from Puny Boy to Great Place in Nation.

Oyster Bay, Jan. 6.—Col. Theodore Roosevelt died at his home here early today.

New York, Jan. 6.—News of Theodore Roosevelt's death was received here by Miss Josephine Striker, the colonel's secretary, in a telephone message from Mrs. Roosevelt.

Miss Striker said that the colonel had suffered an attack of inflamma-  
tory rheumatism on New Year's day and had since been more or less con-  
fined to his room.

Oyster Bay, N. Y., Jan. 6.—Colonel Theodore Roosevelt died in his sleep early today at his home on Sagamore Hill, in this village. One of his doctors said that the immediate cause of death was pulmonary embolism of a blood clot from a broken vein lodging in the lung.

In announcing Colonel Roosevelt's death Miss Striker said: "Mrs. Roosevelt called me on the telephone a little before 7 o'clock, saying that the colonel had died early today. She did not give me any particulars, and I am leaving at once for Oyster Bay."

"The attack must have been very sudden. On New Year's day inflamma-  
tory rheumatism developed in Col-  
onel Roosevelt's right hand which be-  
came very much swollen. Mrs. Roose-  
velt sent for a nurse in the village and the colonel was made as comfortable as possible. It did not occur to me at that time that he was seriously ill."

Miss Striker went to Oyster Bay last Saturday to pay the colonel a visit. She said: "At the time the colonel was sleeping in his room and I did not see him and there was nothing in the circumstances of his illness as possible. It did not occur to me at that time to indicate to me that death was near. When Mrs. Roosevelt called me this morning and told me of the colonel's death I could hardly believe it."

It is understood that only Mrs. Roosevelt and the nurse were with him at the time of his death. The other members of the family are in other parts of the country or abroad.

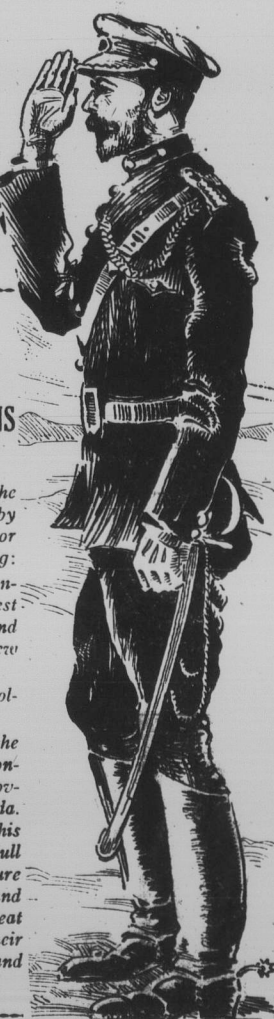

A telephone message received later this morning from Oyster Bay said that Colonel Roosevelt had died at 4 o'clock this morning.

The colonel suffered a severe attack of rheumatism and sciatica on New Year's Day, but no one believed that his illness would likely prove fatal. The former president sat up most of Sunday and retired at eleven o'clock last night. About four a.m. Mrs. Roosevelt, who was the only member of the family at Oyster Bay, went to her husband's room and found that he had died during the night.

Mrs. Roosevelt telegraphed to Col-  
onel Alan Roosevelt, cousin of the former president, and he came to the Roosevelt home immediately. Tele-  
grams were despatched to the col-  
onel's children, who were in other parts of the country. Two of his sons, Major Theodore Roosevelt, Jr., and Captain Kermit Roosevelt, are in service abroad. Captain Archie Roosevelt and his wife left New York last night for Boston, where his father-in-law is ill.

Details for the funeral have not been arranged, but an announcement is expected later today. Telegrams of condolence and sympathy began to pour in from all parts of the country today as soon as the news of Colonel Roosevelt's death became known.

The former president came to his home on Sagamore Hill from the Roosevelt Hospital on Christmas Day but a week later was stricken with a severe attack of rheumatism and sciatica from which he had been suffering for some time.

## KING GEORGE'S NEW YEAR MESSAGE TO THE CANADIANS

OTTAWA, Jan. 2.—The following cablegram was sent by His Excellency the Governor General to His Majesty the King:

"I respectfully desire to convey to Your Majesty the best wishes of the Government and people of Canada for the New Year."

His Majesty replied as follows:

"I am much gratified at the good wishes which you have conveyed to me on behalf of the Government and people of Canada. In thanking them I welcome this occasion when our hearts are full of hope and expectation to assure them once more of my deep and abiding interest in their great country and of my wish for their ever-increasing happiness and prosperity."

Just a Little Strategy.

"What is it that makes you find so much fault with your stenographer?" "Well, she's the best stenographer I ever had, and I don't want to lose her. So I've got to shout around a little as to convey the impression to any stenographer scouts that she wouldn't suit the government."

Helps the Labor Crisis

"So you approve of the Govern-  
ment's action in taking over the rail-  
roads?" "Yes," replied Mr. Gorman, "I approve of that, and prohibition for several reasons, one of them being that now a lot of people can quit lec-  
turing on the subject and go to work."

"Will it be all right to say that France took President Wilson to her bosom?" "Say, rather, to her breast."

"Are you in favor of government ownership?"

"Yes," answered Senator Sorghum, "on one condition."

"What is that?"

"My own great political party must be running the government."

A Mean Remark.

"Dead men tell no tales," observed the Sage.

"Maybe that is the reason why so many widows get to marry again," commented the Fool.

## REAL HEROISM IN RAILWAY WRECK

Heroes From Flanders Acted  
With Utter Disregard for  
Personal Safety.

(Frederick Glenhor.)

Returned soldiers on the wrecked troop train which left the rails on the Transcontinental Railway at Glen-  
dysie, near the border of New Brun-  
swick and Quebec and rolled down over the embankment, showed the same  
heroism in the railway wreck that  
made the Canadian names as fight-  
ing men in France and Flanders.

Lieut. G. H. F. Babin, late of the MacLean Highlanders, who arrived here from Edmonton last night to report to No. 7 District Depot on his charge, reached the scene of the return from overseas to get his dis-  
creet with the first emergency train that was sent out from Edmonton and he tells first-hand stories of the exceptional acts of bravery of the returning soldiers.

The real hero of the wreck was Lance Corporal G. W. Johnson, of Mimico, Ont., who gave his life in a successful effort to save Pte. Olson, of Chicago, who was killed. Johnson was an original First Contingent man, having gone overseas with the 15th Battalion in 1914, and having been in the thick of the heaviest fighting practically all the time since then. It was his military training that taught him to act quickly in an emergency and also to have little or no regard for his own safety when in the performance of what he conceived to be his duty.

Immediately after the cars left the rails and while they were still rock-  
ing about from side to side, Lance Corporal Johnson suddenly saw Pte. Olson thrust through the side of the car in such a manner that his arm was wrenched off, being practically pulled out of the socket at the shoulder. It was evident that unless he was given immediate aid Pte. Olson would be killed and in less than it takes to tell the N.C.O. was rendered assistance. By almost super-human efforts Lance Corporal Johnson suc-  
ceeded in rescuing Olson, but just as he got this done, he himself almost beheaded by heavy plate glass in the wreckage which fell and cut off the whole top of his head.

Lance Corporal Johnson died from his injuries but Pte. Olson was taken to the hospital at St. Basil, near Ed-  
mundston, where he is now recover-  
ing. Lieut. Babin states that he talked Olson over after the accident and that he gives Lance Corporal Johnson full credit for having saved his life under the circumstances stated above. With references to stories sent out from Quebec to the effect that Olson had been cut off with an axe, Lieut. Babin states that Olson told him that his arm was wrenched off in the wreckage within a few moments before he knew what had happened.

The "Cost of Living" branch of the Department of Labor, having made an investigation, reports that the chief cause for the exorbitant prices of oranges has been removed, and prices should be "decidedly lower." Now watch them tumble in the usual way! At \$1.20 a dozen there is lots of room for the drop.

## Salvation Army's Million Dollar Campaign Jan. 19th to the 25th.

HELP OUR RETURNED SOLDIERS BY CONTRIBUTING  
TOWARD THE SALVATION ARMY FUND.

Hostels for returned soldiers, centres of good cheer were from 50 to 200 soldiers can get substantial meals, comfortable reading, writing and recreation rooms, clean beds and pleasant surroundings, at moderate charges are an immediate necessity for transient soldiers passing through the larger cities to their final destination; for soldiers who have no kin to welcome them; no fireside to give them cheer, for the jobless soldiers, discharged from the Army and without work and for those who in many emergencies require decent accommodation under good christian supervi-  
sion.

Demonstrate to the Army, in a practical way, that you appreciate what they have done, and intend doing for our soldier boys and their families.

Solicitors will call upon you sometime during the above mentioned week.

## ACTION NEEDED.

After four years of war and its consequence disruption of certain staple lines of trade the period of "reconstruction" which we have all read so much about is upon us, and if the Bay Chaleur country is to hold its own in the matter of trade expansion it will be necessary to take some steps to see that such trade does not pass our doors and go to more progressive communities.

With the opening up of the regular trade routes to Great Britain and Europe, as well as other countries of the world, which have been practically shut off from us for over four years, the demand for the products of the forests will be great and if our country is not passed by we should enjoy a considerable trade expansion this year.

There are numerous projects which should now be gone after in an energetic way. Our harbor needs dredging. The wharves need repairs and we need increased accommodation. And what about the highway bridge over the Restigouche.

The pulp and paper industry of Canada was never in a better condition than it is to-day, and paper manufacturers say that it will continue good. Is this then not a good time to suggest Campbellton's advantage to interested capitalists?

The high price of coal and the consequent increase in the price of generating power has turned men's thoughts towards our rivers as a means of generating electric energy economically, and already in other sections of the province surveys of streams have been made with this in view. What are we in Restigouche doing? Let us not fall by the way-side.

Boards of Trade throughout New Brunswick are awakening from their sleep and are now becoming active in all these matters, and if Campbellton is to grow we must have a live Board of Trade. Will the last elected President get busy and call a re-organization meeting.

## OUR RAILWAY SERVICE.

Campbellton is back to the same old water train service. No communication from the coast except during the night. The Suburban was taken off the time card with the change of time Sunday last.

During the past two or three years the citizens of Restigouche were led to believe that it was necessary to put up with the curtailment of service to aid in "winning the war," but no such excuse exists to-day and we certainly should get busy and together with citizens between Campbellton and Bathurst bring pressure to bear to have this train restored.

It is not necessary for us to point out how the people are inconvenienced by the withdrawal of this train. It was the only train from the east which arrived here during the daylight hours and by which passengers could reach points down the line in the evening.

The loss of this train means thousands of dollars to Campbellton merchants, and they should call a meeting of their association and together with the Board of Trade if that organization can be brought to life, get after the C.G.E. management to re-install this important train. If we do not make some move we will never get anywhere in this matter.

We understand that the Suburban was one of the best paying trains running to Campbellton, and there should be no excuse for its removal. However this point should not be the important one. The people require the service and the People's Road should supply it.

## PROVINCIAL FINANCES.

The provincial accounts for the fiscal year ended October 31 last, published to-day, deal with the first full year during which the Foster government has been in office. It was in office during but a part of the previous

fiscal year, and at the end of that period there was a huge deficit, made up of the liabilities incurred by the old regime. That large amount was funded, and the result appears in the greatly increased ordinary interest charges in this year's accounts.

For the last fiscal year the government shows a deficit of \$38,000 if interest on Valley Railway bonds is included, or a surplus of \$35,000 if Valley Railway interest is excluded. The province gets forty per cent. of the gross revenue earned by the completed portion of the railway, and this amounted to \$99,272; but the interest charges on the road were \$175,000, so the province had to pay the difference, \$76,197. This was paid out of current revenue, and with this payment there is a deficit of \$38,494. Next year, when the Gagetown-Westfield section of the railway has been completed, the interest charges which the province will have to meet on railway account will be much greater—more than \$300,000, perhaps \$350,000, so that unless the Federal government takes the line over, or its earnings are greatly increased by through traffic, New Brunswick will be facing interest charges which it cannot begin to meet from the sources now in sight.

At the beginning of its term the new government faced rising expenses in every department owing to the increased cost of labor and material, and a doubtful revenue outlook due to war conditions and the unsettled state of the lumber business. It was compelled to find new sources of income, and to tap old sources more heavily. Its opponents, and some of its friends, recorded dismal prophecies as to its ability to find the money. The money has been found. Thanks to increased stumpage charges, wild land tax, the larger income from motor vehicles, the amusement tax, and other receipts, the total revenue stands at \$2,255,000 as compared with \$1,572,000 for 1917. From this total \$172,000 may be deducted, that amount having been received from the seed grain and fertilizer which were bought and sold to the farmers. Territorial revenue which was \$544,191 in 1917 rose to a new high record last year—\$791,387, although the lumber cut was much less than in the year previous. The higher stumpage and the tax on wild lands accounted for most of the increase, and the figures indicate how thoroughly the business of collection was carried on. As the conditions for cutting and exporting lumber return to normal the annual cut should be increased considerably, and even this year's record receipts may be largely exceeded.

The ordinary interest charges have now reached the very formidable total of \$452,968, as compared with \$405,545 in 1917. The rate is higher, and the province is now paying interest on the immense deficit left as a legacy by the old government. In this connection we may refer again to the Valley railway interest. If when the road is complete the total interest or the cost of construction must be paid by the province, the total annual interest to be raised—Valley railway and ordinary interest combined—would be nearly \$750,000, a somewhat terrifying charge against a total revenue of perhaps \$2,250,000.

The government is following a prudent course in using the automobile tax to pay interest and sinking fund charges in connection with the construction of permanent roads. The people have demanded better roads, and the administration had already done much to satisfy that demand. The cost has been high, unavoidably, for labor and material were at war level prices. This expenditure must go on, and it will be costly, but the results will justify it, and it may be anticipated that a rising revenue from motor vehicles will continue to take care of the cost of the permanent roads.

Considering the extraordinary conditions the government faced when it took office, the heavy burden left by its predecessors, and the extremely high cost of work and material, the results now disclosed by the publication of the accounts are most creditable.—Telegraph.

## THEODORE ROOSEVELT.

Theodore Roosevelt, whose unexpected death took place Monday morning was one of the greatest men the United States has produced since the time of Washington. A man of big heart and great ideals, possessed of immense vitality, he preached the gospel of the strenuous life and practiced it. But above all he was a leader of men. By his picturesque and forceful language, his virile personality, and his enthusiastic patriotism, he captivated the imagination of the common people and compelled respect and admiration. Whether in office or out of it, he has been a powerful force in moulding public opinion in the United States and in inspiring the young to wholesome, honest, self-reliant citizenship. Not only the United States, but the world at large, is the poorer for the death of Theodore Roosevelt.—Ex.

Ottawa reports say a government expenditure of daily thirty-five million dollars must be made on trucks, bridges and roadbed before the recently-acquired Canadian Northern can be put into adequate operation. The figure is big enough to make the average Canadian wonder what the government bought with the large amount previously invested in the Canadian Northern. Another interesting railway announcement is that the year's operating deficit on the government railway system was eight million dollars. If the new management of Canada's national railways is given a free hand, untrammelled by political pull, it should be possible to great tasks ahead.—Globe.

The more rapidly demobilization is carried out in Canada, and the fewer the difficulties put in the way of men seeking their discharge, the less danger will there be of that dissatisfaction so plainly making itself manifest in other countries, including Great Britain.—Ex.

An Associated Press despatch of January 3 records the discovery that Germany has some fifteen thousand killed, and in reality prisoners who had never been reported. No doubt there are many colonials among these unrecorded thousands, news of whose safety will bring joy to homes where "missing" had long ago been succeeded by the fear that no further word would ever come.

CAN. DA'S AID TO THE ALLIES EDITION

The Montreal Standard has issued a special number entitled "Canada's Aid to the Allies." The edition is a whole library in itself. 152 pages, comprising 37 sections, pages in color, full-plate pages, and a treasure-house of all sorts of absorbing and informing matter about Canada's war effort and well-informed Canadian can really achieve that no patriotic and remain ignorant of and that could not be got except by months of labor digging into war records and histories of the war, which if measured in time any money would run into a small fortune. As a journalistic feat it is unparalleled—14 of Canada's finest presses employed in the manufacture of the printed and illustrated pages, and the whole edition being produced at an enormous cost in brains and labor. It is the one great opportunity for every Canadian, at little cost, to get a mine of the golden nuggets of the right information about Canada's Aid to the Allies. The Central Book Store has them at \$1.00 a copy.

A BUSY JOB.

If any of our readers think it is an easy job to get up a newspaper every week they should try it. Just for a sample of what it is like, sit down some leisure moment and write a few items describing such local events as you can call to mind. Then reflect that a sheet of note paper will contain about enough material for about two inches, or one tenth of a column. Now fill from twenty to twenty-five columns every week, hustle the subscribers, look after the funds, see to the advertising, make up the forms, run the press, take a turn "at type setting, feed the job press a few thousand times, and you have an idea of what a country printer does for a pastime.

A Mean Remark.

"Dead men tell no tales," observed the Sage.

"Maybe that is the reason why so many widows get to marry again," commented the Fool.

The Pikers Suffer.

"Who is that poor fellow with the guards watching him?" asked the visitor to the penitentiary.

"Oh, he's a desperate criminal," replied the warden. "He's doing twenty years. He wrecked a train."

"And who is that trusty who seems to have so many privileges?" asked the visitor.

"Oh, he's a financier," replied the warden. "He is doing two years. He wrecked a railroad."

## DROVE BRITISH LIKE SHEEP ALONG DESERT

Terrible Hardships And Cruelty Inflicted Upon Prisoners by Turks.

London, Jan. 5.—A British officer who was a prisoner in Turkey gave an account today of the terrible hardships and cruelty inflicted upon British prisoners by the Turks. Describing the march from Kut-el-Amara to Bagdad, the officer says the prisoners were driven like sheep along the desert ways. They were denied food, were short of water, and the Turks refused to allow them to rest. They were bayoneted or clubbed if they stopped and were struck with rawhide whips when they faltered.

Roughly speaking, according to the officer, from 75 to 85 per cent. of the British rank and file in Turkey died. One battery surrendered at Kut-el-Amara 117 strong; 11 are now alive. Other batteries are almost in the same condition. One describing the march from Kut-el-Amara 300 strong, of whom only 55 are now living.

The British Consular guard at Bagdad before the war consisted of two Indian officers and 35 men. When the war broke out they were interned in perfect physical condition. All of them are dead.

## TO BE KNOWN AS CANADIAN NATIONAL RAILWAY

A circular has just been issued over the signature of the President, Mr. D. B. Hanna, announcing that effective January 1st, 1919, all Government Railway Lines, heretofore known as Canadian Northern Railway System, including its eastern and western lines, and Canadian Government Railways, composing the National Transcontinental Ry., Intercolonial Railway of Canada and the Prince Edward Island Railway, will hereafter be known and operating under the name "Canadian National Railways," the headquarters of which will be in Toronto.

All officers of the system are requested to use the name "Canadian National Railways" in the course of operating correspondence and general conduct of affairs. It is also desirable that the public and the railway's connections adopt and put into practice at once the new title in addressing communications, reports and general correspondence to the various officers of the Canadian National Railways.

## ARE THESE YOUR METHODS?

From "somewhere in Missouri" an answer to a world-old query reaches the editorial desk, a rather clever one it is too. And there is about much truth as real poetry in the lines which we reproduce here in the hope that they may cause some devoted "dad" to sit up and take notice. We quote: "Why did you leave th' farm, my lad? Why did you bolt and leave your dad? Why did you beat it off to town? And turn your poor old father down? Thinkers of platform, pulpit and press Are a-walloping in deep distress. They seek to know the hidden cause Why farmer boys desert their past.

"Well, stranger, since you've been so frank, I'll roll aside the hazy bank: I left my dad, his farm, his plow, Because my calf became his cow. I left my dad, 'twas wrong of course, Because my colt became his horse. I left my dad to sow and reap, Because my lamb became his sheep. I dropped the hoe and stuck the fork, Because my pig became his pork. The garden truck that I made grow Was his to sell, but mine to hoe.

"It's not the smoke in the atmosphere, Nor the taste for life that brought me here. Please tell the platform, pulpit, press No fear of toil nor love of dress Is driving off the farmer lads. It's just the method of their dads. 'My boy become his pig!' Yes, we had once. It was not the best one in the litter either when we were given the right to call that runt our own. We found out afterwards that this merely meant the right to stuff and coddle that blessed pig to the limit of our desires; for it grew into a wide-backed, thrifty, 'bully' sort of pig; quite good enough to go into the regular course of trade in breeding stock, and our fancied ownership was never altogether recognized. Perhaps that was a boy's own exaggerated idea of what belonged to himself by right of conquest, as it were; but he always considered that father really got the bacon. That is not exactly the explanation as to why this particular boy left the farm. There were more weighty reasons. But there is, nevertheless, some food for thought in the rhymistic lines.

## MR. HURLEY LEFT STRANDED IN DALHOUSIE

On last Friday evening a program had been arranged for presentation at the Opera House in Dalhousie in aid of the Hotel Dieu. The theatre with the picture programme was given gratis and a local committee was to look after the securing of local talent. S. C. Hurley, the manager of the Opera House was to take part, and left for the shiretown on the limited Friday noon.

As far as he was concerned everything was in readiness for the evening entertainment, when about seven o'clock he was summoned to be present. He was advised that the Campbellton talent could not manage to be present.

To resist to slant "Steve" was up against it but was willing to make the best of such regrettable circumstances. A large number gathered in the theatre to hear the "concert," the pictures were shown and after a word of explanation from Mr. C. H. LaBelle, Mr. Hurley appeared and for nearly an hour kept the audience in good humor by the recital of comedy and dramatic stories. During his performance he imperceptibly fifteen different characters and although the only one on the program, he was successful in overcoming the obstacle so abruptly placed in his way to add to the Hotel Dieu fund.

## BORN

At Campbellton, Dec. 27th, to Mr. and Mrs. Harry Miller, a son.

## LEAVING DALHOUSIE.

The branch of the Bank of Nova Scotia at Dalhousie will be closed early this month.

## OBITUARY

Miss Helen Pratt.

Mr. and Mrs. Alex Pratt of Matapedia will have the sympathy of many friends in the loss of their little seven year old daughter, Helen Eudora, which occurred on Monday evening, Dec. 30th at the Hotel Dieu Hospital, Campbellton, after a short illness of appendicitis. Several brothers and sisters survive.

The funeral service was conducted by Rev. J. R. McKay of Tide Head, and interment was made at the Matapedia Cemetery.

Many beautiful wreaths and flowers were sent, among them being ones from Mr. and Mrs. Frank J. Scott, and family, Aunt Minnie and Aunt Lizzie, Lincoln and Richard Adams, Mr. and Mrs. Robt. Ferguson and family, Robbie, Marvin and Jackie Ferguson. Also one from the pupils and teachers of Matapedia Model and Elementary School at which the little girl was a student.

Mr. Jos. Keeley.

The death occurred at St. John, N. B., on New Year's Eve of Mr. Jos. Keeley, after an illness of pneumonia. He was fifty-three years of age. He leaves to mourn their loss, two daughters, two sons and one sister. The late Mr. Wm. Keeley of Athol, was a brother.

George Mann.

The death of Mr. George Mann of Head Tide took place at the home of his son Albert Mann on Dec. 29th, aged 83 years. Deceased was a native of Maine's Settlement and was one of the pioneer settlers of Restigouche. He is survived by five sons, Albert of Head Tide, Gordon of Matapedia, James of Oregon, Finlay of Matapedia and Walter of Campbellton, and two daughters, Mrs. Thomas Moore, Matapedia and Mrs. Jos. Downs of Campbellton.

The funeral was held New Year's day and was largely attended. Interment was being in the Matapedia cemetery. The services at the house and grave were conducted by Rev. J. R. McKay.

Mrs. Alexander LaBelle.

Mrs. Alexander LaBelle, County loss of its oldest and most respected residents in the death of Mrs. Alexander LaBelle, which occurred on Wednesday evening, Jan. 1st, at the age of seventy-seven years. Although not enjoying real good health during recent years; yet she was able to nurse her sick husband, who has been tied to his room for several months as the result of a fall. She became suddenly ill on Christmas Day with inflammation of the lungs and heart trouble. The news of her death spread a gloom over the community. She was born in Carleton, P. Q. and was married fifty-nine years ago. Not having been blessed with any children herself, her charitable disposition led her to help several, among others Elizabeth Muir, Minnie L. Blane, John Auderoid, Alice Savoie, Jos. J. Swine. The deceased was a sister of William Alford, retired Custom House Officer of Carleton, P. Q. and for over half a century made the old LaBelle home one of cheer and hospitality. The death and the sympathy of many goes to the griefed husband in his sad bereavement.

The funeral was held on Saturday morning to the R. C. Church of St. John Evangeliste, where a solemn Requiem High Mass was celebrated by Rev. Father St. Laurent. There was special singing during the service which was accompanied on the organ by Miss Yvonne Frenette. The pall-bearers were Alfred LaBelle, Emile Guite, Charles LaBelle, Alphonse Leonard, Nelson LaBelle, P. Allain.

## BUSINESS PROFITS

BRING TWICE AS MUCH AS EXPECTED

Ottawa, Jan. 6.—The total amount of assessments made under the business profits war tax act to date is more than \$53,000,000 of which more than \$54,000,000 have been collected. It is estimated that by the end of the present fiscal year about \$65,000,000 will be realized. This is more than double the estimate made in the budget speech in which the business profits war tax act was introduced.

## NOT QUITE CORRECT.

Chief of Police Adams states that the Police are not responsible for many of the arrests effected here. None of the Police books. He says however, that in six months there have only been about three dozen arrests or less a month so it will be evident that the three policemen are not overburdened with work.

## The New President of the C.P.R.

THE Presidency of so vast a system as that of the Canadian Pacific Railway is no easy position to fill—so varied are the interests and covering so large a manifold a territory. The railway itself has eighty thousand employees and more mileage even than any of the great systems of the United States—no less than 18,000 miles of track being operated or controlled from Montreal. The C. P. R. Telegraphs comprise over 100,000 miles of wire with no less than 15,000 offices where messages may be received. The C. P. R. hotels, involving an investment of over \$25,000,000 and representing eighteen caravanserais from the small station hotel to the huge edifices at Quebec, Winnipeg, Calgary, Banff, Lake Louise, Vancouver, and Victoria—the Vancouver Hotel, for instance, having establishment of 600 rooms—involve great responsibility. Then there are the lands in Western Canada with the \$17,000,000 irrigation scheme west of Calgary and the extensive colonization programme of ready-made farms and the like. The mining and smelting interests of the C. P. R. in British Columbia are also considerable, involving not only a large investment of capital but also relations with a labor element which has been somewhat difficult to manage. Then again there are the great Angus Shops at Montreal, with other large shops also at Winnipeg and Calgary, where so much of the rolling stock and equipment is built and repaired.

Subsidiary to the railway company itself are the Canadian Pacific Ocean Services, representing one of the largest passenger fleets of the world, amounting to almost 400,000 tons, and providing one of the most vital links between Europe and the Orient.

No finer description could be given to the railway serves all the large interests of Canada—agricultural, industrial and on the Board of Directors. The opinion of the President on financial questions carries enormous weight in the commercial—and is naturally in close touch with the big financial institutions, several of which are represented in the Board of Directors. The opinion of the President on financial questions carries enormous weight in the commercial—and is naturally in close touch with the big financial institutions, several of which are represented in the Board of Directors.

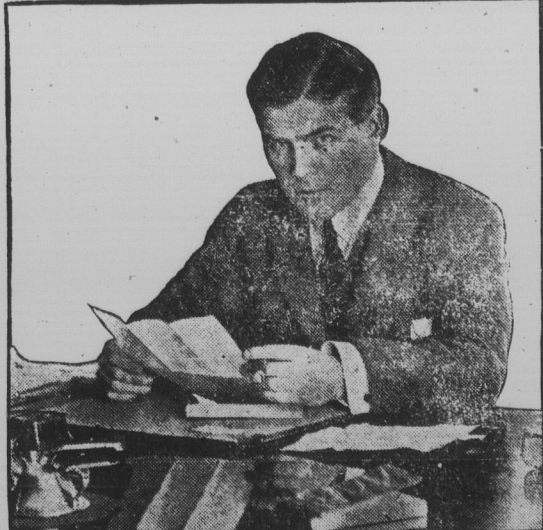

Owing to its economic position the Canadian Pacific is naturally of great interest to the political leaders at least as an expression of opinion from the Canadian Pacific President. In this respect it is known that the comparative youth has proved in many cases his mature and sound economic judgment.

Shaguness, in the official statement regarding the confidence not only of the political and business leaders of Canada, but also of the employees of the Canadian Pacific Railway itself.

Among the many public expressions of that of the Toronto Globe is interesting, and follows:—"Railway history has many chapters of personal romance, but it was few parallels to the career of Mr. E. W. Beatty, who at the age of forty-one, becomes the head of the greatest transportation system in the world. Even in this classic country of opportunity no advance has been emotional. Mr. Beatty is the first Canadian-born president of the C. P. R., a sign that Canada has no longer any need of looking beyond her borders for railway talent of the highest class."

Mr. Beatty was born in Thorold, Ontario, forty-one years ago, of Canadian parents—his father being Henry Beatty, a prominent steamship owner. He graduated from Toronto University; studied law, and entered the C. P. R. service in 1881, in the legal department. He was appointed vice-president in 1914, and director in 1916.

## Press Advertising Sold Victory Bonds.

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,000! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the war, the amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks, a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the

campaign in advertisements. No argument was overlooked. No selling point was neglected. The result is that Canadians today are a nation of bondholders.

They know what a convenient, safe and profitable form of investment bonds are. Instead of one man in two hundred owning bonds, now nine Canadian in eight—men, women and children—own a Government Security.

This complete transformation in the national mind and habit was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to the (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan, 1918, said "The press publicity campaign will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but never found it as easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods, you are interested in selling.

## NEW C.P.O.S. LINERS

THE ship played by the Canadian Pacific Ocean Services in the great European war will make a big chapter in Canadian history. Undoubtedly the sea supremacy of Great Britain was one of the most potent factors in the winning of the victory which was obtained, and the ships of the C. P. O. S. took a big part in making Great Britain supreme at sea. There are few branches of sea service in which they did not take part. Mounted with guns some of them were where there was fighting to be done.

Over 4,000,000 tons of cargo and munitions of war have been carried in addition to many thousands of men and miles.

The C. P. O. S. have carried from the outbreak of hostilities to October 31st, 1918, 1,040,000 troops and passengers all over the world, unharmed, to China and Japan; Singapore, Bombay, Madras, Rangoon, Calcutta, ports in the Mediterranean, the Red Sea, the Persian Gulf, the Indian Ocean, the South Atlantic, the Pacific, the North Atlantic, and the Arctic.

The company's vessels steamed 22,400 miles.

Over 100,000 men and women were found out of the company's service for the Royal Navy, Royal Air Force, and the R.C.M.P., while many others

have received decorations and been mentioned in despatches.

The Mianmala, a C. P. O. S. steamer, was the first big vessel to sail on her maiden voyage from Great Britain to Canada after the outbreak of the war in 1914, a sister ship, the Metagama, sailed on her maiden voyage from Liverpool, March 26th, 1915. These two splendid ships have been followed by two larger ships, the Melita, which sailed from Liverpool Jan. 20th, 1918, and her sister ship, the Minnedosa, on her maiden trip from Liverpool Dec. 26th, 1918 to St. John—the first steamer to sail since hostilities ended. The Minnedosa is a splendid acquisition to the already large fleet of C. P. O. S. vessels. She has a gross tonnage of 14,000, length 644 feet, width 87 feet, depth 46 feet and a total cargo capacity of 483,000 cubic feet.

There is accommodation for approximately 500 cabin and 1400 third class passengers. The Gymnasium on "A" Deck (or Boat Deck) is fitted with the latest mechanical devices for exercise and amusement. On "B" Deck (or Upper Promenade Deck) are located the Cabin Smoking Room, Club Drawing Room, and Cabin Lounge.

The Entrance Hall from the exterior Promenade Deck with its sunning, mirrors and staircase is an attractive approach to the Dining Saloon.

The Smoking Lounge with its charming old English fireplace and large windows is fitted with comfortable seating. It is most comfort

## CANADIAN RAILWAY TROOPS DID GREAT WORK IN CONNECTION WITH THE FINAL ADVANCE

During the Month of November the Canadian Railway Troops Laid 308

Miles of Track, all of which Was in the Area Evacuated

by the Enemy, and Necessary to Aid in the

Advance for the Forwarding of

Food and Other Supplies.

OTTAWA, Dec. 30.—Operations of the Canadian Railway troops in the field were of the utmost importance in connection with the final advance and a summary of the work received by the Department of Militia deals with this feature up to the signing of the armistice.

During the month of November the Canadian Railway Troops laid 308 miles of track all of which was in the area evacuated by the enemy and necessary to aid in the advance for the forwarding of food and other supplies. It was necessary in that time to repair 300 miles of grade. To perform this work there was a force of 6,783 men of the Canadian Railway Troops aided by 9,890 men attached from other units a daily working force of 16,763 being employed on railway work under Canadian direction. In addition to this force there were employed for maintenance duties 1,309.

The care of narrow gauge lines

required 1,231 men for construction and 1,358 for maintenance. In all, force of 20,641 was required to further the activities of the Canadian Railway Troops.

The report on the work for November, while the enemy was retreating very rapidly and was being hard pressed by our advancing troops, he yet managed to carry out a very systematic demolition of railway lines and bridges. In order to cope with this all the battalions of the Canadian Railway Troops with the exception of a few small detachments were concentrated on standard gauge reconstruction work, for the most part in the area between Le Cateau and Tureing.

The report mentioned that all the gauge lines had been completed up to destroyed lines in the territory recently occupied by the Germans.

### SPLENDID WORK OF INTELLIGENCE MEN

Germany Was Kept in the Dark as to Gallipoli With-drawal, Tanks, Cambrai Offensive and Final Smashing Drive.

LONDON, Jan. 1.—Brigadier-General George K. Cockrell, the retiring director of special intelligence at the War Office, in his farewell message to his associates in that department, calls attention to the fact that although many persons in Great Britain knew of the preparations for the counter-offensive, which led to the downfall of the German armies, by the construction of tanks and other military secrets, not one word had the enemy.

In his message Brigadier-General Cockrell says: "You have been the chief agency in preventing leakage of naval and military information. To mention a few instances of your success, the withdrawal from Gallipoli, the construction of tanks, the preparations for the offensive at Cambrai, and also for the recent counter offensive which destroyed the German armies were all known to numbers of people in this country; but you have kept it secret."

"There is no evidence," he says, "that enemy submarines ever received information of the departure of shipping from ports. In most cases the arrest of a spy has quickly followed his entry into this country. Thanks largely to your efforts, no act of destruction has been committed by enemy agents in this country."

"In the opinion of the Minister of Blockade, your work has contributed factory working of the blockade. In practically every case of contraband in a very large degree to the satisfaction before a prize court, the evidence has been furnished by you. The estimated value of prize cargoes, excluding ships, is over 200,000,000 pounds. You have stopped enemy remittances to the value of 70,000,000 pounds and

completely destroyed the enemy overseas communications so far as they were vulnerable.

The Safe Method. Mr. Asquith does not often tell funny stories, but relates one which, both on account of its rarity and humor, is worth repeating. He told it, in an after-dinner speech, of an M. P. who is now prominent. But he did not give away the name.

The M. P. had addressed a meeting, and it was question-time. Suddenly a facetious questioner hurried this at him:

"Say, gov'nor, how do you tell a bad egg?"

The M. P. did not ignore the question. He gave it his careful attention, and answered:

"Well, if I and anything to tell a bad egg, my friend, I would break it gently."

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and drug stores here are kept well supplied with this remedy. It is a sticky substance which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, itching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue. This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### HABBIT'S EARS NOT HANDLES

Belief That Seems Commonly Accepted is Incorrect, According to Writer in Boy Scouts' Magazine.

Some people seem to think that because rabbits' ears are so long it is a good reason to use them as a handle, says Harry Bradford in Boy's Life, the Boy Scouts' magazine. They have told me that "the mother rabbit carries her young around by the ears."

I have had a pretty good opportunity to observe such a feat, but I have never seen such a performance. It is all right to hold them by the ears, but I always put my hand or arm under their hind legs to lift them up, and then I know I am not hurting them.

One peculiarity I have always noticed about rabbits is their apparent lack of clear vision. If you will notice their eyes, you will see that they scarcely, if ever, move the eyeball to look up or down or at either side, as a cat does. You can't tell when they are looking directly at you as you can with a cat.

If you throw a carrot to them, they will not sight it and go directly to it, but will snuff about with nose to the ground till they find it, and they may go six inches past it a few times before they strike it!

Put a rabbit on a chair, table or box, and he will go carefully to the edge, leaning his head over and seemingly wondering how far he is from the ground, whereas a cat would think nothing of springing down from such a height.

### FIRST AERIAL MAIL IN 1803

To President Jefferson Really Belongs the Honor of Instituting Something New in Message Line.

While all unite in praise of Postmaster General Burleson in inaugurating an aerial mail service between New York and Washington, Americans should not make the mistake of crediting the present administration with the first aerial mail service between the two cities.

As a matter of fact, that honor falls to the administration of Thomas Jefferson more than a hundred years ago. It all attended the transmission of the deeds of the Louisiana purchase to France.

Mr. Jefferson, of course, was very anxious about the matter, and after the deeds had been sent from Washington to Paris, and the time had come when the vessel bearing the signed treaty, sailing from this country was due, Mr. Jefferson, unable to withhold impatience, sent some carrier pigeons to New York to be held until the vessel arrived and then released, bearing word of the fact of their arrival. This was done, and accordingly the first aerial mail service dates back not to this spring but to the year 1803.

### MR. G. TURGEON M. P. HAS FOOT AMPUTATED

The hosts of friends of Mr. O. Turgeon throughout the province will be pleased to know that he is doing splendidly after undergoing what is for a man of his age a very serious operation. At Campbellton on Tuesday of this week Dr. Pinault and Veniot removed the foot which for several years had made Gloucester's member of Parliament almost a helpless cripple and the latest word from Mr. Turgeon is that he continues to make almost remarkable progress toward recovery.

The operation was decided on Monday after a thorough X-Ray examination showed that Mr. Turgeon's foot was becoming diseased. Several years ago the veteran statesman had his ankle broken, and since that time has injured it several times, with the result that he has never completely recovered from the original injury, and during the past few months has been suffering much pain. It is expected that the removal of the affected member will change all this and that in a short time Mr. Turgeon will be able to get around with his old time facility by the aid of an artificial foot.—Rathurst Northern Light.

### ORGANIZE TEACHERS TO PRESS SALARY CLAIMS

Fredericton, N. B. Jan. 4.—The New Brunswick executive of the Maritime Teachers' Association met here on Friday. Consideration was given the organization of the province for establishing of minimum salaries for teachers. The minimum in all cases is higher than the average salaries now in effect. By combination it is expected to enforce payment of these salaries. Two hundred teachers in this province now are in the organization and it is expected to bring in practically all.

### TO SURRENDER NEWEST WARSHIP

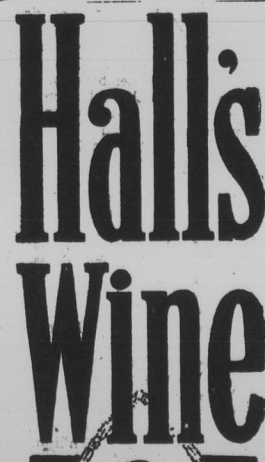

Germans to Give Up the Baden to British.

LONDON, Jan. 4.—Germany's newest battleship, the Baden with a displacement of 28,000 tons and of the very latest type, will be surrendered at a British port within a few days in accordance with the terms of the armistice, according to announcement here.

### U. S. PRESIDENT IS RECEIVED BY POPE

Rome, Jan. 4.—President Wilson was today received at Vatican by Pope Benedict.

The president's arrival was announced by the master of the chamber to the Pope, who awaited the president in the throne room, where two gilded arm-chairs had been placed. The president was admitted immediately to the presence of the Pope.

## Soldiers Home Coming Campaign

### War Work and After-War Work of the SALVATION ARMY

"FIRST TO SERVE—LAST TO APPEAL"

The Salvation Army has for 53 years been organized on a military basis—inured to hardship, sacrifice and service. It is always in action, day and night.

It has maintained Military Huts, Hostels and Rest Rooms, providing food and rest for tens of thousands of soldiers each day. 1,200 uniformed workers and 45 ambulances have been in service at the front—in addition to taking care of the needs of soldiers' families here at home, assisting the widows and orphans, and relieving distress arising from the absence of the soldier head of the family.

Notwithstanding all the Government is planning to do, notwithstanding the pensions and the relief work of other organizations, hundreds of cases of urgent human need are constantly demanding the practical help the Salvation Army is trained and equipped to render.

## The Salvation Army Million Dollar Fund

### January 19th to 25th

While it could do so, the Salvation Army has carried on without any general appeal. Now the crisis is arising with the return of the 300,000 soldiers. The budget for essential work during the coming year has been prepared. A million dollars must be raised to continue the after-the-war activities, which include:

- Hotels for Soldiers**—Soldiers are vitally necessary for the protection and comfort of the soldier at the many stopping places between France and his home here. These Hotels—military hotels—provide good food, clean beds, wholesome entertainment, and place the soldier an effort to pay. If the boys did not have a Hotel to go to, WHERE would they go?
- Care of the Wives, Widows, Dependents and Orphans of Soldiers**—Scores and hundreds of cases could be cited where soldiers' families have been abandoned by the absence of the soldier. The Salvation Army has stepped in to relieve their families from dire need. As an instance, a mother has six children in need—no fuel, weather freezing, food and funds exhausted by sickness and other troubles. They are taken to Salvation Army Emergency Receiving Homes. Winter and 300,000 soldiers returning because the demands on the Salvation Army, whose personal help alone is of avail. Consider, too, the vast and complex problems arising out of the care of soldiers' widows and orphans.
- Keeping the Family Unit Intact**—The women of the Salvation Army on their visiting rounds accomplish a seemingly impossible task. Is the discharged soldier out of a job? They find him out. Is the wife sick, the home-work piling up, the children neglected? They nurse the wife, mother the children, wash and scrub, is there urgent need for food, fuel, clothes or medicine? They are supplied. It takes money, but more important is the loving spirit of service in which the work is done.
- When the Soldier Needs a Friend**—The Salvation Army Lane provides the boys with hot coffee, the pie, chocolate, magazines, writing materials, and the spiritual comfort which the boys in Khaki need. Until the last home-war-soldier is re-established in civilian life, will you not help the Salvation Army to combat the discomforts and trials that beset his path?

The service of the Salvation Army, founded on sacrifice, demonstrates the true spirit of the Master. It is directed to the extension of the Kingdom of Christ. For two generations the Salvation Army has stood out and out for God.

It approaches practical problems in a practical way and achieves RESULTS. It co-operates with all—overlaps none. It recognizes neither color, race nor creed. It is always in action, day and night. No organization does greater work at less cost. To carry on its great work it must have financial help, and on its behalf members of the Dominion Government, business men and returned soldiers endorse this appeal for funds.

## DALHOUSIE.

Dalhousie, Jan. 8.—The annual meeting of the Dalhousie Social Club will be held this evening in the Club Rooms. Mr. James Wallace, the President will take the chair at 8 o'clock. On Tuesday the 21st, the regular January meeting of the Restigouche County Council will open here. It is not known that there will be any question of great importance brought before the council.

Jas. Duncan returned from Carleton Place, Ont. where he is Collector of Customs to close his house for the winter. His daughter Miss M. M. Duncan will leave on the seventh to visit her brother William Duncan of New York for the winter.

The Whist Party held in the Arsenault Hall, at Upper Charlo, in aid of the new R. C. Church, at that place, was a splendid success, notwithstanding the inclemency of the weather, the handsome sum of \$125 having been realized.

The entertainment given in the Opera House here, by Mr. S. C. Hurley, manager of the Campbellton Opera House, in aid of the Hotel Dieu Sisters of Campbellton, was well patronized in spite of the bad weather. The sum of \$75 was received for the tickets sold by the young ladies who deserve great credit for the interest they took. Mr. Hurley delighted the audience with his reading. Mr. LaBille, whose only sister is a nun of the Hotel Dieu Order, with thirty years experience at Chatham, N. B., and four years in one of the Chicago large hospitals, spoke briefly. He referred to the noble work that was being done by the sisters, who made a sacrifice of their lives for the benefit of mankind, and congratulated those who had subscribed to aid in the building of a modern hospital for the sisters at Campbellton, which was an ideal location to serve the people of Restigouche County and the good people of the whole Gaspé district. Mr. LaBille spoke of improvements needed to the "Star Theatre" in Dalhousie, for the comfort of the public.

To this Mr. Hurley amid applause stated that he would consult with the members of the hall and would submit a plan at an early date to the people of the shiretown for their approval. Miss Marie LeBlanc furnished the accompaniment on the piano.

Mr. W. A. Gallop, the new owner of the Skating and Curling Rink, has started in well with his winter plans for the amusement of the young people. During the holiday season a real good time was enjoyed in the rink with curling, hockey and skating. Good music and splendid order.

Attractive posters are hanging in prominent places in Dalhousie, announcing the Salvation Army Drive to be held from Jan. 19th till Jan. 25th. A meeting will be held shortly at the residence of Alderman W. McDonald to organize the town drive.

The Salvation Army entered upon their work it is now obliged to sustain within ten days after Germany invaded Belgium and rendered service to 26,000 fighters for the Allies.

The Salvation Army put into the trenches for the Allies 90,000 actual fighters from its membership.

The service of the Salvation Army is non-sectarian and practical. Is economical and devoted wholly to the cause of God and humanity.

Brave Balmoral. Congratulations to Miss Anna Poirer, who won the first prize on Dec. 31st in the Moncton Evangeline newspaper contest. The prize is \$100 in cash. The details are not yet known about the ten or twelve other candidates, but it is known that our popular Restigouche worker had over a million votes to her credit.

The success of the "Evangeline" contest will enable the stockholders to issue here long a semi-weekly paper. This will prove to be a great boon to the French people.

The new year begins with several changes being made in some of our business firms. Mr. Philippe R. Hussey, having severed his connection with the P. Q. Lumber Company, Mr. R. R. Secher, of Michigan, U. S. has been appointed manager of the company, with headquarters at Dalhousie.

The Dalhousie Mercantile Co. which was organized in 1903 held its annual meeting this week. Hon. C. H. LaBille was appointed President and his eldest son Albert C. LaBille, who was recently discharged from the Canadian Militia, was made Secretary.

**SUPPRESSION OF LIQUOR TRAFFIC.**

W. D. WILSON,  
Chief Inspector  
N. B. Prohibition Act.  
Jan. 9-1-wk.

Treas. and will conduct an Insurance Business as well in this district.

Our good citizen Thos. G. Scott, received a cable despatch recently stating that his son Harry Scott, who is now in England, had been awarded the Distinguished Conduct Medal, also a Belgian Honor. Both Mr. Scott's sons have done great honor to Restigouche County in this great war.

Mr. R. G. Mowat, Harvey, N. B. principal, Miss Margaret L. Wright, Rexton, Miss Farrell, Fredericton, have arrived here and taken charge of their respective departments in the Dalhousie Superior School. With Miss Emma Harquail, of Dalhousie, they will be the full teaching staff of our public school for the balance of the term.

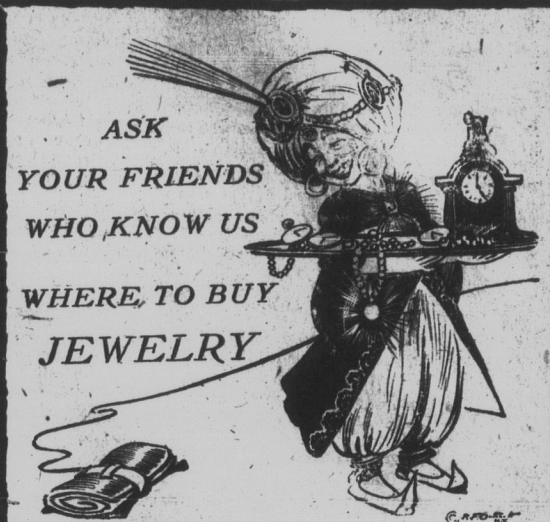

M. r. and Mrs. F. R. Gaudet and two children returned from a four weeks visit to Montreal, on Tuesday's Limited. Mr. Gaudet is much improved in health. Mrs. Gaudet found her sister Mrs. Clara Allan and family very comfortably located in Montreal, and all the grown up children holding good positions.

While a great many girls have lost positions in Montreal, on account of ill times, we are glad to report that Miss Jennie Bateman, of Dalhousie, received a promotion recently.

Th Misses Anna and Alice Poirer, of Upper Balmoral, spent Sunday in town the guests of their sister Mrs. Frank Senette.

Miss Kathleen Meahan, Bathurst, is spending a few days in town, the guest of her sister Miss Margaret Meahan.

Mr. and Mrs. John L. LeBlanc, Campbellton, were the guests on Monday, of their son Mr. Louis J. LeBlanc. They are looking forward to the return of their two sons who did such good work during the war.
