ATTACK ON RIGA MAY MEAN STARTING OF NEW WAR

Lettish Government Is Expected To Make Appeal for Military Help-Peace Conference Will Be Asked To Furnish Troops To Resist General Von Der Goltz.

London, Oct. 11.—Allied powers have the hardest problem that they have encountered since the armistice, thrust upon them by the German-Russian attack on Riga. It is believed the Lettish Government will expect the peace conference to furnish troops to resist General von der Goltz and his Russian supporters, but who will furnish the new armies is a very serious question. There is certainly no enthusiasm in Great Britain for embarking on more military expeditions and shedding more Eritish blood.

VOLUNTEER ARMY ABSORBED. All of Great Britain's new volunteer army has been absorbed in the making up of forces of occupation in the Near East. Drafted soldiers are still in the service, and their relatives are agitating for their return from India, Egypt and Mesopotamia. At the same time, more than 50,000 troops are engaged as an army of occupation in Ireland. The withdrawal of the British expedition from Archangel has just been fin-ished, under pressure of the strongest public feeling. GERMANY SCHEMING CONTROL.

Latest news received by the Government is described as confirming the view that Germany is deliberately scheming to secure a controlling position in Russia, and that she probably contemplates the occupation of Petrograd. There are more than 100,000 German soldiers with headquarters at Mitau. The Baltic States, with the exception of Finland. appear to have agreed upon a policy of arranging an armistice with the Bolshevik Government, but declining peace terms on the ground that the solict government is too unstable to arrange a permanent peace. Altogether, the Baltic situation is recognized as presenting acutely danger-

GERMANS REGARD PLAN OF SELECTION AS A

Berlin Friday, Oct. 10.—Discussing the coming International Labor Conference at Washington, the Vorwaerts declares it is "impossible for Germany to submit to the humiliation of seeing her delegates wait in penitential garments while Haiti, Liberia and other negro republics may decide for themselves whether they will attend the conference." The newspaper thinks that before the International Labor Bureau, before whom the matter has been laid, can reach a decision, it may be too late to send German delegates too late to send German delegates to Washington.

"Is this not, perhaps, the intention of the inter-allied governments?" the

Identity of Vessel Has Not Been Ascertained—Loss of This Ship Is the Greatest Sea Tragedy in the World's History Troops Lost Are Believed To Have Been British Soldiers Who Embarked From Arch angel For England.

Archangel, Friday, Oct. 10.-Two thousand lives have been lost in the wreck of an unnamed British ship on the Norwegian coast, according to a wireless dispatch received here from Helsingfors.

If the loss of life in the wreck reported in the foregoing dispatch is as large as indicated, the disaster will mark a new record in the annals of the sea. It would seem probable the ship which was wrecked was a military transport bringing British soldiers from Archangel, from which port Great Britain has been embarking large numbers of men during the last month. It is known that troopships have sailed quite recently from Archangel, Copenhagen advices received yesterday stating that Lettish soldiers who have been on the Archangel front have just landed at Riga, and have been rushed to the front south of that city to meet onslaughts of German and Russian forces.

### Doctor Tells How to Detect Harmful Effects of Tobacco

Try These SIMPLE TESTS

New York.—Doctor Conner, formerly of Johns Hopkins Hospital, says: Many men who smoke, chew or snuff theessantly, and who are seemingly healthy, are suffering from progressive organic atimenta. Thousands of them weuld never have been afflicted had it not been for the use of tobacco, and thousands would soon get well if they would only stop the use of tobacco. The chief habit-forming principle of tobacco is nicotine, a deadly polson, which when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One vill be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervous-ness, sleeplessness, loss of memory, lack of will-power, mental confusion, etc. Others may suffer from heart disease, bronchial trouble, hardening of the arteries tuberculosis, blindness, or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests: Read aloud one full page from a book. If in the course of reading your voice becomes muffled, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by catarrah, and it may be the beginning of more serious trouble. Next, in the morning before taking your usual

### MORE TRAFFIC IS NEEDED FOR **CLEVELAND BOAT**

& P. S. R. Issues Frank Statement Concerning Lake Connection.

A candid intimation to shippers and travellers of London, St. Thomas and Western Ontario that the newly established all-year Cleveland and Port Stanley steamship service cannot survive on the measure of patronage at present accorded it, has been issued by the London and Port Stanley.

The warning has been given out in the hope that a friendly interest may be taken in the new connection, while it is developing its field. The L. & P S. R. commission has agreed to share the first month's deficit, but the fear is held that unless a change for the better occurs the owners will throw up the sponge.

Those who have used the new boat which was placed in service in the latter part of September, are agreed that riding qualities are splendid, that the ship is maintained in an excellent condition and that there is nothing to be desired in matter of convenience or accommodation. The steamer, "Pere Marquette Line No. 9," sails from Port Stanley each Tuesday, Thursday and Saturday night, and from Cleveland each Monday, Wednesday and Friday night. Passengers are allowed to go to their berths at 8 o'clock in the evening and to remain there, if they desire, until late in the morning.

Cheap Rates.

The fare from London to Cleveland is only \$3.70, as compared with \$8.33, for the all rail-ride from London to Cleveland is the all rail-ride from London to Cleveland i the ship is maintained in an excellent

the all rail-ride from London to Cleveland via Detroit, or \$10.37, for an all-rail trip via Buffalo. Reduced rates for return tickets via Port Stanley afford an even more favorable comparison.

Fares from various parts of Western Ontarlo, where a certain amount of patronage is being found, are also advantageous. Even Toronto people are finding it convenient and profitable to proceed to Ohio through London and Port Stanley. A Toronto man can go Port Stanley. A Toronto man can go to Cleveland by this route for \$7.75, rail-ride from London to Cleve-cheap "fur" sets. Port Stanley. A Toronto man can go to Cleveland by this route for \$7.75, covering the 225 miles in about 12 hours. If he wishes to go to Cleveland by train, via Buffalo, his mileage increases to 282, his journey consumes 11½ to 13 hours, and his ticket costs him \$9.12. Occasionally Toronto travellers go to Cleveland via Detroit, the cost of that 400-mile trip being \$12.83. Thus it will be seen that the man who uses the Cleveland-Port Stanley passenger service finds it profitable.

Splendid Freight Service. Splendid Freight Service.

There is likewise a substantial saving in freight charges to shippers who use the trans-lake service. The service is incomparably better than can be secured from the all-rail carriers. A London and Cleveland shipment of goods is never known to come through in less than eight days, and sometimes deliveries are delayed as long as a month. Such shipments, if placed on the boat in Cleveland one day are delivered by the L. & P. S. R. in London on the nextx day. The service from London to Cleveland is equally as good. It is in fact express service at freight rates.

rates.

Thus it will be seen that the service is adequate and that lack of patronage must be due to other causes. Since the commencement of operation the number of passengers per trip has varied from seven to thirty. Less than fifty passengers makes it certain that the ship cannot pay her way. There has been a small volume of freight from Cleveland for London and Ontario points, shipments from London, or the Canadian side, for Ohlo, are almost nil.

An Appeal. An Appeal.

An Appeal.

The situation then is that London Chamber of Commerce, and St. Thomas Board of Trade worked painstakingly to secure a service which the people are not using. Unless patronage increases it is feared that the results of this painstaking effort will be lost. If that occurs it will unquestionably be a more difficult matter to interest any other boat company in a second attempt.

The London and Port Stanley Railway regards it as expedient to state the situation frankly to the people. The remedy is more patronage. Every shipper canvassed expresses great gratification that the connection has been secured. Everyone proclaims its desirability. But unless a special interest is taken in the service until it gains strength and maturity, the fear is held that it cannot survive.—Advt.

Take Salts at First Sign of Bladder Irritation or Backache.

Berlin, Friday, Oct. 10.—Gustav Noske, minister of defence, has sup-pressed the newspaper Freheit for three days because of its accusation that "central murder stations" were being maintained in Berlin which were offer-ing assassins big money inducements, and employing weak-minded persons for similar nurroses. The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish: the eliminative tissue log and the result is kidney trouble, bladder weakness and a general decline

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick neadache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad salts: take a tablespoonful in a co water before breakfast for a few days and your kidneys will then act fine. This famous saits is made from the acid of grapes and lemon Juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the kidneys and liver. urine so it no longer is a source of irritation, thus ending bladder discreters. ### THREE TURKEYS AMONG 60,000 BEST MARKET COULD DO FOR CITY TODAY; MURE CHICKENS AND DUCKS

Police in Hopes of Making the Arrest Soon.

Turkey for Thanksgiving? Yes, if three may be divided among 60,000 people, for that was the exact number which appeared on the market this morning. One of these sold for 40 cents a pound, another for 50, and the other for 60 cents a pound—in fact, their price seemed to depend altogether on the conscience of the seller. The poultry market, however, featured ducks, any quantity of which were displayed at fairly reasonable prices. Chickens, too, were very plentiful, and sold from 19 to 22 cents a pound live weight, This price, however, became expanded to from 30 to 35 cents retail.

Fruit Scarcer,

The fruit market has now dwindled the trade out the trade out the trade of the strikes in Great Britain.

"Why, there are a million barrels of apples in Nova Scotia alone, originally destined for the old country, which must be disposed of in some way," he declared. "Oh, the apple market has fallen away off," he said, and actually accompanied his words with a sigh. The Advertiser reporter was inclined to shout for joy at the news, but restrained the impulse on remembering that the inspector would probably hate to see his beautiful fruit going so cheap and especially Spies, which are the big feature this year.

Weather Bad.

The drizzling rain which fell on the market square this morning dampened to sample a place of the strikes in Great Britain.

"Why, there are a million barrels of apples in Nova Scotia alone, originally destined for the old country, which must be disposed of in some way." he declared. "Oh, the apple market has fallen away off," he said, and actually accompanied his words with a sigh. The Advertiser reporter was inclined to shout for joy at the news, but restrained the impulse on remembering that the inspector would probably hate to see his beautiful fruit going so cheap and especially Spies, which are the big feature this year.

The fruit market has now dwindled down to apples almost entirely, although there are still a few grapes being imported. No grapes were shown by local growers, and this is probably the last week in which this fruit will be obtainable at all. Tomatoes even yet show their rosy faces on wagons of local yenders a phenomenal occur. of local vendors, a phenomenal occur-rence on the Thanksgiving market. Citrons at \$1.50 and \$2 a dozen are

> Women Obtained Many Votes, But None Qualified For Election.

The first stage of the election of seven new directors of the chamber of commerce was completed last night, when the ballots cast in the primary nomination election were counted.

While the personnel of the board of directors will be constituted wholly of men for the year 1919-20, the number of votes obtained by women members was remarkable. Miss Isabel Armstrong almost qualified, but required a few more votes to have her name appear on the final election ballot.

The fourteen members receiving the highest number of votes in the primary election will be voted on later to fill the beven vacancies on the board, half of which retires each year.

No Figures.

It is not the intention of the election committee to give out figures in connection with the vote, but the following facts may be of interest:

Some of the lady members, particularly Miss Armstrong, polled a large vote. She, however, failed to secure the number necessary to qualify for nomination. Those securing the larger number of votes, but insufficient to secure nominations were: W. H. Abbott, Miss Isabel Armstrong, Morley Aylsworth, E. V. Buchanan, Major Hume Cronyn, M.P., R. H. While deploring strikes and lockouts, the principles set forth that the right of strike or lockout "should not be denied as an ultimate resort after all possible means of adjustment have been exhausted." This right, however, should apply only to private industry.

In public utility service it was proposed that the state impose such regulations as would assure continuous operation, at the same time providing adequate means for the prompt hearing and adjustment of complaints and disputes. For the settlement of disputes in private industry, it was proposed that each establishment be regarded as an industrial unit with adequate methods for adjustment of misunderstandings between employees and management. Other of the principles dealt with conditions and hours of work, wages and the right to associate, and it was declared that every association whether of either employees or employeers "must be equally subject to public authority."

### Husband Shoves Wife Off Train; Decree Granted

Judge Codd Says No Man Ever Can Have Occasion for Such an Act.

Detroit, Oct. 9.—It was as much as intimated in high legal circles Thursday afternoon that a husband really has no right to shove his wife off a moving train. The point came up in Judge George P. Codd's court, when he was hearing the divorce case of Florence J. Hamilton vs. Spencer Hamilton.

Mrs. Hamilton's sister was on the witness stand to corroborate the plain-tiff's claims of brutal treatment. "You have witnessed such treatment have you," asked the plaintiff's law-yer of the sister.
"Yes," said the witness, "once he shoved her off a moving train."

"Really now," put in the court, "can a man ever have any occasion for shoving his wife off a train?" Mrs. Hamilton got a decree.

A few moments later the case of Jennie LaMonde vs. John S. LaMonde was in progress. Today is their twenty-first wedding anniversary. Mrs. LaMonde said that John left her several years ago "as he did not want the responsibility of maintaining a home. "Mr. LaMonde was in court. The decree was granted.

New York, Oct. 10.—Aviation enthusiasts at the American Flying Club here last night were loud in their praise of the feats accomplished by Lieut. Maynard and Capt. Lowell H. Smith, who met at North Platte, Neb., on their way west and east. Some of them saw the end of all transportation difficulties within a few years. Chance M Vought, chairman of the contest committee of the club, said: "Lieut. Maynard's arrival in Cheyenne, Wyo., 1,696 miles away from the point he started from Wednesday morning, flying only in daylight and with compulsory stops at official controls en route, and Capt. Smith's performance, coming east, admirably cial controls en route, and Capt. Smith's performance, coming east, admirably demonstrated the purpose of the contest.

"Neither leading pilot has experienced any mechanical trouble, flying through snowstorms, rain and wind and over mountains, lakes and extensive forests, and these remarkable performances disclose the tremendous possibilities of In One Week's Time in Many Instances acrial development and travel in the next two years.

For Oct. 23rd.

Rev. L. Armitage took as his text, "Beware, Lest Ye Forget" from Deuteronomy, viii. He illustrated the olden times in the days of the Israelites, and told how they corresponded with the people and times of today. He said that people were prone to forget the goodness of God as the Israelites did in the forty years of their travels, and how in the end they came to the Promised Land.

Today in the hustle of business after

the 33rd Comrades' Club, in the G. W.
V. A. building last night, the program was discussed and some minor details settled.

Although the prince has asked that the morning of the 23rd be kept free from engagements efforts will be made through the mayor to have him attend the ceremony, which will occupy only about twenty minutes of his time.

Today in the hustle of business after the war people are so occupied with material things that they never find time to visit the church and thank God for the many benefits. "We take things to naturally," said Mr. Armitage." "We know there is a harvest every every year and that is all that is thought about it. We never once give a thought as to who provides the harvest and what would happen if it failed."

in uniform. They will leave for the cathedral at 10:45 a.m.; where the prince is expected to arrive at 11:90. All ex-officers of the battalion who are in Canada will probably be present. It is hoped that Capt. E. B. Gandier and Lieut. C. McQueen, who were the bearers when the colors were placed in Canterbury Cathedral, while the battalion was in England, will act in that capacity on this occasion.

The officers will knock at the door and ask admission from Bishop D. Williams, who is to officiate at the ceremony. On gaining admittance they will proceed to the altar, where the colors will be given to the prince, who will hand them to the bishop.

An effort will be made to have them placed in a prominent place, as the 33rd was one of the senior battalions to have their colors presented in Canada. The I. O. D. E. presented them to the battalion, and their wishes in regards to the disposition have been consulted.

The club has secured free surgical treatment for four dependents of members who died overseas. The military authorities are taking charge of the operations, which are to be performed in civilian hospitals.

A case has been brought to the attention of the club of an aged couple who are in dire need because their son who was their only support was killed overseas. No provisions are being made for them by the Government. club officials were informed. An investigation will be made and aid secured for them.

### WEDDING BELLS

SIFTON—JARVIS.

The home of Mr. and Mrs. J. W. Jarvis, 195 Emery street, was the scene of a quiet wedding on Tuesday, when Ethel Marion, their youngest daughter, was imited in marriage to M. C. Vivian Sifton of Halifax, son of Mr. and Mrs. J. Sifton of Montreal. Rev. J. A. Agnew performed the ceremony in the presence of immediate relatives. A wedding dinner was served following the ceremony. Mr. and Mrs. Sifton will reside in Halifax after visiting in Toronto and Montreal. The bride traveled in a pretty suit of taupe broadcloth with hat to match.

HODGKINSON—OSBORN.

A quiet wedding was solemnized at St. George's Church on Thursday, October 9, at 10 o'clock, when Mina May, eldest daughter of Mr. and Mrs. Albert E. Osborn became the bride of Ernest Hodgkinson, this city, son of Mrs. William Patrick of Iona. Rev. Canon G. B. Sage officiated. The bride looked very becoming in a navy blue suit, with hat to match, and wearing a corsage bouquet of roses and sweet peas. The bride was attended by her sister, Miss Jeon Osborn, and Ernest Osborn, brother of the bride, assisted the groom. After the ceremony, a dainty wedding breakfast was served at the home of the bride's parents, 78 Albion street, Mr. and Mrs. Hodgkinson left later for Chicago and Milwaukee, Wisconsin. On their return they will reside in London. HODGKINSON-OSBORN.

### LONDON LABOR NOMINATES.

By the nomination of Dr. Hugh A. Stevenson as the local candidate of the Ontario Labor Party, and the withdrawa! from the contest of Mr. Andrew Robson, recently given the Liberal fined to Sir Adam Beck and Dr. Stevenson, and can begin to grasp it. becomes a distinctly defined contest between a platform that is essentially Liberal. The meeting which selected Dr. Stevenson as standard-bearer was thoroughly representative of London trades unionists, forty locals of the city, nomination. No better selection could have been made than that of Dr. Stevenson from the point of view of both the general public and the labor classes

Dr Stevenson for many years has been active along every line of London's affairs. Through his profession he has been closely allied with every instrument associated with citement? the public health, and as the city's chief magistrate for three terms managed municipal maters with notable efficiency and economy. He is a man of high ideals, unquestioned probity. and has always been an aggressive champion of the cause of labor. His services to this city along many lines have been distinguished. In naming him for a wider service the Ontario Labor Party is making a wise choice.

### MR. ELLIOTT WITHDRAWS.

J. C. Elliott, for the last eleven years West Middlesex's representative in the Ontario Legislature, has decided that he will not be a candidate in the coming provincial elections.

His withdrawal is a matter for regret throughout the constituency he has served so long and efficiently, and the province generally will be a distinct loser by his retirement from the contest. The Legislature has had no more faithful member than Mr. Elliott, and few his equal in debate and the business of the House

MYSTERY OF HOW RATS CARRY EGGS.

This mystery is enacted, in one form or another, annually on thousands of farms and sometimes even in city homes. The housewife has an accumulation of eggs ready to go to market. They partially fill a wooden crock, set on a box in the cellar. One or how they have gone.

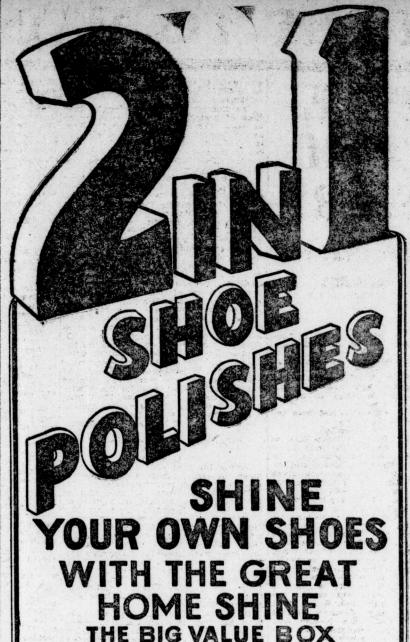

Or maybe the farm boy has a hen sitting on fifteen eggs, in a box high up from the floor. He finds the hen off after several days, and casually fear that paralyzes you and enable you to live seem possible, yet the farm boy knows the explanation really is rats. They have been practicing such

magic in the poultry house for generations. How do rats carry eggs? Some time ago th query was put to the most famous of all American naturalists, John Burroughs, who, according to the Scientific American, admitted that he didn't know, farmers, but he couldn't say that it was the correct

The mystery of how rats carry eggs is unsolved "officially" after hundreds of years of conjecture. That eggs disappearing are borne off by rats is proved clearly enough by the discovery of whole uncracked eggs beneath floors, in partitions and other hiding places. In farming communities var ous theories are advanced, and every now and then someone actually claims to have seen rats at work. These eyewitnesses of a most unusual thing say the rat holds the eggs between chin and forefeet, or off elevations deftly protecting the egg as he falls; that usually there is a crowd of rats about to drag the egg rat, lying on its back, by the tail across th floor to the hole.

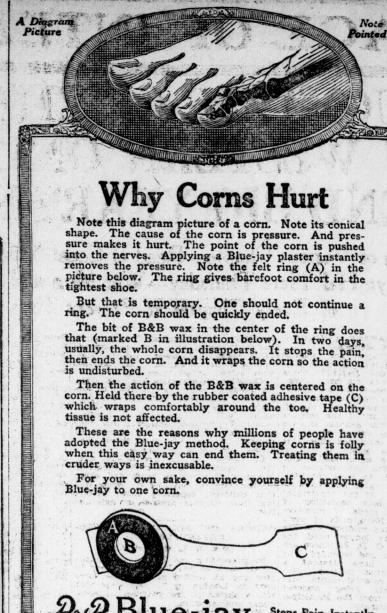

Others say the rat carries the egg, held betwee folds of skin under the chin, without assistance. The general testimony, however, would explain such a conflict of opinion. It is agreed that rats work in gangs when egg-carrying, and that it is difficult to determine from a distance exactly what they are doing among themselves. It is said there is always squealing, but whether because setting hurt, or by contrast are hugely enjoying

themselves, is not indicated.

# The NAVY LEAGUE of CANADA

Its Vital Work for Canada

THE Navy League of Canada fosters the splendid spirit that made the British the greatest of maritime nations. It organizes loyal Canadians so that practical work may be accomplished for the development of Canada's direct interests at sea.

The human side of Canada's mercantile marine is the League's especial interest training Canadian boys to become the sturdy

type of British manhood that won its laurels again and again in the great war-relieving distress among victims of the submarine warfare—and giving the sailor ashore an alternative place for rest and recreation to the places of doubtful entertainment that abound in port.

# Why the \$500,000 is Needed

On Nelson Day, October 21st, starts a 3-day campaign throughout the Dominion to raise \$500,000 necessary to finance the coming year's work of the Navy League of Canada. Help the work by giving liberally. As a nation whose expanding trade will depend on exports, we must educate our boys to the highest type of seamanship so that they will be equipped to man our ships to carry our exports to foreign markets.

You will do your part in this work by contributing liberally to the support of the Boys' Naval Brigades. the organizations by which the Navy League trains boys for our merchant marine.

Every dollar subscribed will be used to further the work of the Navy League in Canada-the work in which you are person ly interested as a patriotic citizen. Help by giving.

Scholarship For Poor.

We are deeply interested in young boys and girls and feel that we must in some way give them a chance to become good citizens. As we all know every boy and girl is unfortunately not so placed that it is possible for them to continue in school after 14 years of age. The family need financial aid, perhaps, and the child is required to help out. Sometimes the child, owing to difficulties, has not been able to pass the entrance into the Collegiate at the age of 14. He or she becomes discouraged, leaves she becomes discouraged, leaves school altogether, or it may be they cannot afford to go on. Books are expensive, as also are clothes, and one

expensive, as also are clothes, and one requires both.

Just at this time the National Chapter is hoping to raise a fund to promote the educational work of the order as a memorial to the Canadian men and women who have died so gloriously in the defence of the empire. Scholarships or their recognized equivalent are to be arranged for. Can we not as chapters in this western district help in the creation of a scholarship for boys and girls who are in need of assistance?

MARY ARMSTRONG CHAPTER, (Miss Mary Nettleton.)

During February the chapter sold tickets for a Ford car, proceeds amounting to \$1.146.13, so that the members were able to give \$1,074.96 to the Merchant Marine Fund; \$25 to the Strathroy Hospital; \$25 to the Salvation Army and \$11 to the National Chapter.

Last spring the chapter assisted the Great War Veterans, Strathroy, in remodeling and furnishing their club rooms.

We also sent \$50 to the Byron Sana-

ploy this method of increasing our funds and two very enjoyables ones were held, adding about \$325 to our treasury.

A small donation was made to the local branch of the G. W. V. A. with a request that they advise us of some of their requirements. In response to this we are buying the Bugle Band instruments which we had given at organization to the 110th (Perth) Battalion and presenting them to the veterans.

Donations were also made to the French rellef and the Relief of India's women and children.

In commencing a new season's work great enthusiasm is being shown, and we trust we will have a most satisfactory year.

MAJOR-GEN. MCRAE CHAPTER, GLENCOE. (Mrs. C. M. Wright.)

(Mrs. C. M. Wright.)

We are in our second year's work, and have 64 members. Last November we sent overseas 50 boxes, amounting to \$250. Each box contained a pair of stocks, Christmas cake, tobacco and other good things. We have given three banquets to 40 of the returned men, wives and relatives. As each filed out they were given a pair of socks. We have still a number of men to banquet. From donations, teas, dinners, concert, etc., we have raised \$516.83, making a total of \$766.83. We propose to build a memorial hall in the spring, and have already bought the property for \$1,000. I might say here, the junior chapter, which only has a few members, gave us \$75 towards the property. We intend to put forth a great effort to raise the money for the hall and carry on the good work.

(Mrs. Clayton Baughmann.)

During the past year, the Selkirk of Baldoon Chapter, I.O.D.E., Wallaceburg, has raised in the neighborhood of \$2,200. This amount has been collected in various ways. Monthly collected in various ways. We also sent \$50 to the Byron Sanatorium, and a number of subscriptions to the Byron Breeze.

In May we held a little dance. Our receipts were not large, around \$40, but we purpose trying again on Hallowe'en Night, October 31.

In July the chapter took part in the Old Boys' celebration. A number of the lodger of the output of the logical series and prisoners of war, Serbian relief,

RUMSEY CHAPTER, ST. MARYS.

(Miss R. Eddy.)

Since the signing of peace and more especially since Canada is becoming readjusted, we find a short reaction in the chapter's work, but in spite of this we feel we have a very successful year to report. Since October 1, 1918, our financial statement shows receipts of \$1,442.45, expenditures of \$1,141.64, and a balance on hand of \$300.81.

An endeavor has been made to respond to all worthy appeals of which there have been so many, our prisoners of war, four of which we had fully adopted, were supported as long as necessary, and we were glad to be the means of a public reception to one of them, our own St. Marys boy who had been two years and a half in the prison camps.

Then we were honored by a visit from Mrs. Gooderham and Mrs. Bruce, our national regent and treasurer. We had a most delightful meeting, and were not only entertained, but incited to "Carry On."

to "Carry On."

Of course, we took part in the peace parade and held our banner high, and now the period of reconstruction and rehabilitation calls for a different kind of work and we have helped in a memorial drive and given banquets for our returned men, and held a tag day for the blind soldiers. As we have formed a habit of knitting, we are still making sweaters for our brave men making sweaters for our brave that go down to the sea in ships.

GEN. BROUGH CHAPTER, GODERICH.

(Mrs. Macdonald.)

During the years of the war the Gen. Brough Chapter was actively busy in many branches of war work. It responded by larger or smaller amounts to nearly all the appeals it received. Its members knitted countless pairs of stocks and made many garments for French and Belgian refugees.

Through bazaars and garden parties, but c Vefty through a tea-room which it operated for a long time, it raised some hundreds of dollars which it gave to charities, noticeably through the Red Cross, the Friends of France and the Secours Nationale.

Beside war work, the chapter col-Secours Nationale.

Beside war work, the chapter collected and sent magazines to lumber camps for many months; it adopted a school in Manitoba and gave often and

The Ahmeek Chapter has had a most successful year, having raised altogether the sum of \$1,152 by tag days. sales of papers and social evenings. This chapter donated \$375 to the soldiers' memorial fund, a goodly sum to the local hospital, and a great many other charities. The chapter also assisted at a street fair, by which the handsome sum of \$1,500 was raised for a new hospital.

SYDENHAM CHAPTER, DRESDEN.

(Mrs. McVean.)

There are but four chapters in Kent County, the Sydenham Chapter, Dawn Chapter, Jack Wells Chapter and Katharine McVean Chapter. Yet during the war over \$\$1,000 was raised by them.

During the last year the Sydenham Chapter raised \$52 through donations, \$55.89 through teas, \$17.50 by fees, \$56.26 through sale of tea-room supplies, etc., and \$128.69 on tag day. This was the first tag day ever held in this district, and the chapter has decided never to have another, preferring to raise trict, and the chapter has decided never to have another, preferring to raise money by other means.

Eighty-five dollars and fifty-four cents was expended in the purchase by the chapter of the handsomest service flag in the Dominion of Canada, as a war memorial. Money was also expended in flags for soldiers graves, school charts and donation to Nurses' Home. At present there is \$677.90 in the bank.

We assisted the Canadian Club in tendering a banque to Gen. Sir Arthur Currie.

There are now three chapters in Chatham, and it is hoped that soon a municipal chapter will be formed there.

### CHEERING ST. T. C. I. STUDENTS REMIND CITY OF VICTORY

Boy and girl students of St. Thomas Collegiate Institute impressed upon downtown London last night the fact that the local Collegiate rugby team was drubbed by the visitors at the Collegiate annual field day sports in Tecumseh Park yesterday afternoon. Tecumseh Park yesterday afternoon. Fifteen to one was the score. Schoolmates of the St. Thomas winners carried the news into cafes and ice cream parlors last night, noisily, with ribbons fluttering from excited arms. "Oh, well, I don't mind. They're visitors, and they're having a good time," remarked the proprietor of an ice cream dispensary last night with an expansive smile, when a troop of St. Thomas students left his establishment without paying for its treats. Earlier in the day the London students paraded the streets to Tecumseh Park, determined to keep the purple and gold fluttering victoriously. The skies smiled brightly until the sport program had been almost completed, but even the rain failed to deter the efforts of the students from finishing the day as the most pleasurable in the school's 1918 history.

Tah, you guys are real Indians all right. Couldn't win yourself and had to let the squaws work for you," was the way one St. Thomas blue and white follower put it to a gold and purple after the sports were over at the Park yesterday and the colors changed to black. The girls of the L. C. I. in their 12 to 11 victory over the girls' basketball team of the St. Thomas Collegiate certainly counterbalanced the defeat of the school's rugbyists right afterwards. The game was an interesting one from the start and play was fast and keen throughout, with the result never absolutely certain.

The line-ups were as follows:

AUDEVILLE ACTS AND DOUGLAS FAIRBANKS III "ONE OF THE BLOOD" AT THE GRAND TWICE

The five-act Keith vaudeville bill presented at the Grand again today is most enjoyable one. Bert Wilcox, a most enjoyable one. Bert Wilcox, Josephine LaCroix and Company are the headliners. Lester and Vincent, the black face comedy pair, present "Community Service." Tom Parillo offers a most pleasing repertoire of popular and classical selections on the accordion. Peggy Vincent in "Tunes and Tales" is another entertaining feature of the bill. The Aerial Lavails in "Looping the Loop on the Trapeze" concludes an excellent bill.

Particular interest attaches to the presentation of "One of the Blood," the Douglas Fairbanks picture which will be shown at the Grand for the last time today, because it is the first offering of United Artists' Corporation—the so-called "Big Four."

"RAFFLES" PICTURE AT THE GRAND MONDAY, TUESDAY AND WEDNESDAY — JOHN BARRY-MORE IN SCREEN VERSION OF WELL-KNOWN STORY—FIVE B. F. KEITH VAUDEVILLE ACTS ON SAME BILL.

The screen version of "Raffles," a thrilling detective drama, will be shown at the Grand Monday, Tuesday and Wednesday in conjunction with the vaudeville program. It contains all the essentials necessary to a production of importance, featuring the noted stage and screen star, John Barrymore. Mr. Barrymore acts with an ease and nonchalance which is very refreshing. He gives a dashing and attractive portraiture of the amateur cracksman. His performance is al-

more. Mr. Barrymore acts with an ease and nonchalance which is very refreshing. He gives a dashing and attractive portraiture of the amateur cracksman. His performance is almost as skillful a, touch as Kyrle Bellew, who was starred in the original stage production some years ago. The story is both appealing and forceful, and Mr. Barrymore brings to the part youth and vigor.

"Raffles," the amateur cracksman, well-bred and highly educated, steals for the love of it. His greatest fun lies in baffling the police. The story begins with Raffles on shipboard in pursuit of a swindler who possesses a priceless ruby. Raffles finds that the ruby is hidden in the swindler's shoe. He gains an entrance to the latter's stateroom and steals the gem. Feeling sure of an outcry on board the vessel when the theft is discovered, Raffles empties a cartridge from his revolver of the powder and buillet and substitutes the ruby. Raffles is searched, the ship's officer breaks the gun, releasing, all cartridges, including that containing the ruby. Raffles grabs the cartridges, puts them in his mouth and jumps overboard, swimming miles to land. He saves the ruby. But, in leaving the ship, he is seen by Mrs. Vidal, a society woman. Later Raffles, who travels with rather an exclusive set in London, meets Mrs. Vidal, who recognizes him at once. She is in love with him and tries to win his love by threatening to tell of his past. Raffles, however, is in love with Gemendolyn, and defles Mrs. Vidal. About this time the famous Melrose jewels disappear. Raffles is a guest at the house of Lady Melrose. Mrs. Vidal suspects him and threatens to expose him. Capt. Bedford, an amateur sleuth, becomes active in the case and makes a wager with Raffles that he will land the thief. From that point the centre of interest in the story is the ingenious

Details of Arbitration Proposal Placed Before Parliament-First, Second and Third Preference Stocks and Common Stock To Be Taken Over-Value To Be Determined by Three Arbitrators.

OTTAWA, Oct. 16.—Negotiations which will result in the acquisition by the Government of the Grand Trunk Railway System were completed today, and the details of the arbitration plan were placed before Parliament. This will give members of the House an opportunity to study them before Parliament resumes on Tuesday after the Thanksgiving holiday.

When the House met at 3 o'clock, Sir George Foster, the acting prime minister, was able to announce that legislation would be introduced. Later in the afternoon the resolution embodying the terms of the agreement were made available, and at the evening sitting Hon. Arthur Meighen read a mass of correspondence covering the negotiations, including a letter of vesterday's

placed on the order paper of the House, and Sir Alfred Smithers' letter of to-day acquiescing in the proposals made.

Mr. Meighen explained that Sir Alfred Smithers' acquiescence was recom-mendatory in character, while the Government had to secure the approval of Parliament. He invited the fullest discussion, which probably means that the House will remain in session for another fortnight.

The agreement provides that the Government is to acquire the first, second

and third preference stocks, and the ordinary or common stock of the system amounting to a total face value of £37,073,431. Their actual value will be determined by the board of arbitrators. To

pay the award, whatever it may be, there will be issued a new non-voting stock. The new stock will bear interest at four per cent, and be redeemable after thirty years at par.

So far as the debenture stocks are concerned, they are taken over, the Government becoming responsible for the interest. These stocks amount to £31,926,125. The four per cent guaranteed stock of the company is also reated by the Government as an obligation, and the interest will be paid there-

on by the country. The immediate obligations of the country will be the payment terest on this stock, and this amounts to \$2,500,000 per annum. The interest on the debenture stock is a fixed charge of earnings. The full obligation assumed will not be established until the face value of the stock the Govern-

### Letters full of Praise-A Wonderful Record of Healing

Gin Pills, the greatest help in overcoming Kidney Troubles, have relieved so many thousands of people throughout Canada, that the verbal praise, from mouth to mouth, is not enough to satisfy those who have suffered and been made well by Gin Pills. They write continually to us, and here are some extraces from the letters which have reached us recently:-

Sid Castleman, a prospector in the Larder

Lake District, wrote thus:

"I am writing to thank you and to tell
you the good your Gin Pills did for me.
I had been suffering for some time with my I daeys and urine. I was constantly par ag water, which was very scanty, some days as many as thirty times, and some days as many as thirty times, and each time the pain was something awful, and no rest at night. I began to feel quite worn out. I sent my chum out to get Gin Pills (about 60 miles) for me, and in less than six hours I felt relief. In two days the pain had left me altogether. I took about half a box, and to-day feel as well as ever I did, and my bidgether. well as ever I did, and my kidneys are acting quite naturally."

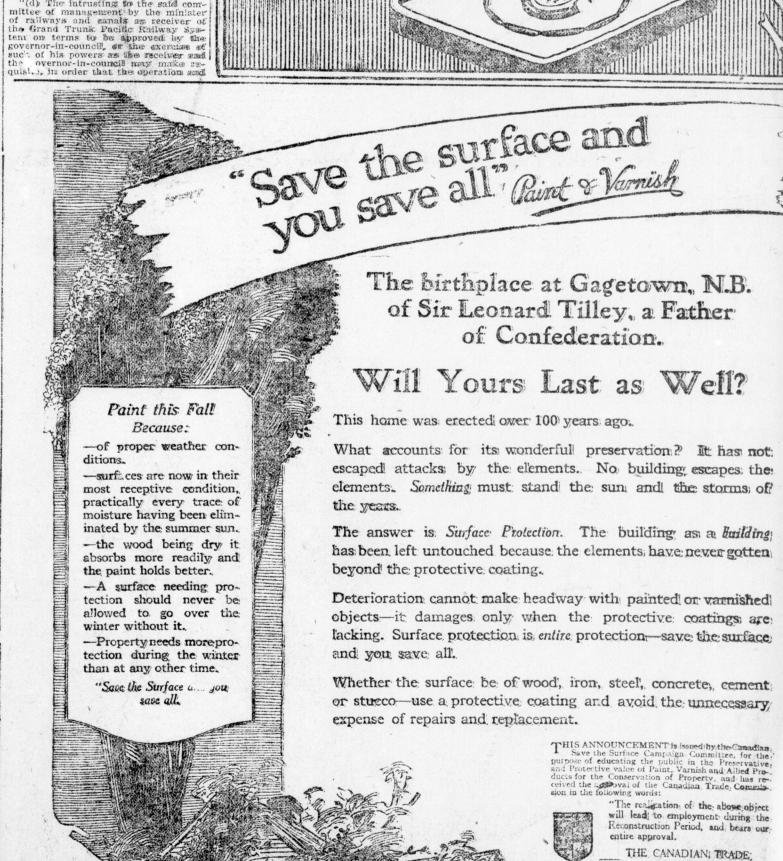

Mrs. E. Dean, Whiting, Ind., had this to say: "When I sent for the last box of Gin Pills, I was all crippled up with rheumatism and my face was so badly swollen that I could hardly see out of my eyes. After taking six of the pills, I felt better. After a few days I had no more pain."

"I beg you to publish my letter," writes Isidore Thomas, of Tilley's Road, N.B., 'so that people may know what Gin Pills did for me. Everybody expected my death. I tried Gin Pilis and in a short time was well again, and soon had gained 20 pounds.'

If you have pains in the back or sides, constant headaches, stiff and swollen joints, rheumatism, sciatica, neuralgia, dizziness, constipation or stone in the bladder, take no chances. Get Gin Pills at once. They may save you from a critical operation.

### CIVIL SERVICE THREE YEARS CHAIRMAN GETS \$1,000 INCREASE Will Be First of Ratifications

Salary is To Be \$7,000-Other Commissioners To Get \$6,000.

NO OPPOSITION

Reclassification Bill Passes Committee Stage, Goes For Third Reading.

OTTAWA, Oct. 10.—The civil service reclassification bill put through the committee stage in the House of Commons this evening, and will come upfor third reading on Tuesday next. There was but little opposition to the details of the bill, which had been thoroughly gone over by a special committee of the House, and no amendments were brought forward. Before it was taken up, a resolution providing for an increase in the salary of the chairman of the civil service commission from six to seven thousand dollars per annum, and from five to six thousand dollars in those of commission from six to seven thousand dollars per annum, and from five to six thousand dollars in those of the other commissioners was carried.

A. E. Fripp, championing the cause of the temporary employees of the civil service, wished to have provision made for granting these clerks permanent appointments without insisting on their passing the civil service commission examinations. He helieved an examination in office duties would be sufficient.

This view was not concurred in by Hon. A. K. MacLean, in charge of the bill, who thought nothing could be more injurious to the service than legislating temporary employees into permanent positions.

A request of Dr. R. J. Manion, that a returned soldier be appointed to the commission prompted Mr. MacLean to state that, though he considered such an appointment unnecessary, in view of the fact that soldiers were given preference in appointments to the civil service.

preference in appointments to the civil service, he would not opose an amendment providing for such an ap-pointment if introduced on the third reading.

# More Farms-Good Times

### How it Affects You

Among our returned soldiers there are thousands of practical farmers. Still other thousands are studying farming under Canada's supervision, by hiring out to farmers, and by taking courses in agricultural colleges. These men want to "go on the land," but they have no capital. So, through the medium of the Soldiers' Land Settlement Act, Canada says to them "If you are fully qualified to farm, I will iend you money to purchase land, stock and implements. You may pay it back within a stated time, and for the loan of it, I will charge you only a moderate rate of interest."

Canada makes this offer, not only because men who have fought deserve well of their country, but because it is of prime importance that more land should be cultivated.

The love of outdoor life and the resourcefulness of our soldier citizens are just the qualities to make them successful farmers, and upholders of the best Canadian tradition.

As evidence of the value of the Land Settlement Act, the following figures were available on August 15:--

Number of applications from soldiers ..... 29,495 Number of applications investigated and

70c FOR FRANCE MEN

40c and 20c Respectively For Every Day Served in England or Canada.

OTTAWA, Oct. 10.-An alternate plan assisting veterans, according to length and character of service, was submitted to the special committee on soldiers' civil re-establishment this afternoon by Col. J. W. Margheson, a ember of the board of pensions comnissions. His plan was presented as ming from himself and not from the Government or any member. Neither

was it presented as coming from the Ottawa branch of the Great War Veterans' Association as such. Col. Margheson's plan is to give every man who served in a theatre of war as a combatant. 70c per diem from enlistment to discharge. Men serving in England or Siberia would receive 40c per diem, and men who served in Canada 20c per diem. There would be a limit of \$1,500 on the amount any men could receive, this to include gratuities. In that way officers who had drawn big stratuities would not receive any large amount in re-establishment grants.

Col. Margheson would treat married and single unen alike with the exception that regardless of the amount of gratuity already paid a married man, he would be considered to have only been paid the rate of a single man.

Only \$500 Cash.

He would limit the amount of cash to 3500 and place the rest of a man's re-establishment to his credit with the Government, so that he could draw on it for any amount of the Government's re-establishment plans.

Under Col. Margheson's plan widows of deceased soldiers would be paid a stated sum, all alike, regardless of their husbands' service, this sum to be paid as additional to their pensions.

Col. Margheson said his plan had been placed before the Ottawa branch of the Great War Veterans' Association, but had not been voted upon. Col. Margheson said his plan had been placed before the Ottawa branch of the Great War Veterans' Association, but had not been voted upon. Col. Margheson son said, including cash and credit, his acheme would cost from \$180,000,000 to 2200,000,000. Of this he estimated fully \$40,000,000 to dolders had served an average of 800 days in France, a cost to the Government of \$168,000,000 to ash would be needed, and \$115,000,000 would be placed to the men's credit. The Great War Veterans' Association figure of 235,000 was too low to allow for casualties, etc. The G.W.V.A. total of \$200,000,000 for their plan was approximately \$40,000,000 too low, in Major Brown's opinion.

OTTAWA, Oct. 10.—While passing through Ottawa from the meetings at Pembroke and Almonte yesterday on the way to Picton, where he is to speak lonight. If this was a fair interpretation of the law, why was this application never thought of until the week before a general election?

of until the week before a general election?

By no special ruling could the whole-sale importation of liquor, equal to proof spirits of 62.84 per cent, be justified.

Mr. Dewart added:

Not Against Jews.

"Mr. Flavelle says that the board feels justified in assuming that the authorities of the Jewish Church have acted in perfect good faith. The charge is not against the license commission; the responsibility and duty is theirs. The charge still stands, that this license board, in the interest of its masters, the Hearst Government, in their hour of emergency in an election campaign, has lent itself to an illegal act. The board should have known that its action was illegal. If they do not know it, the members of the board are not fit to hold their positions. If they do know it, they should be dismissed for their misconduct.

Sensational Discoverd of Misleading Tactics by Referendum Committee

House-to-House Canvass, Distorting the Issue, Confusing and Misleading the Women Voters

EVIDENCE is accumulating of a widespread campaign of distortion and confusion by the Referendum Committee in an effort to stampede and dragoon the women voters to vote according to the wishes of the Referendum Committee.

Canvassers have been going from door to door all over the Province spreading two absolute untruths-confusing and misleading the innocent-utterly nullifying the effort of the Government to obtain an honest, straightforward, well-advised vote of the people. Independently-minded women who disagreed with them were subjected to tirades of abuse.

It is one of the greatest scandals in the political history of Ontario-a sensational development in the campaign-a grave reflection on, and indictment of, the honesty of purpose of the entire Referendum Committee.

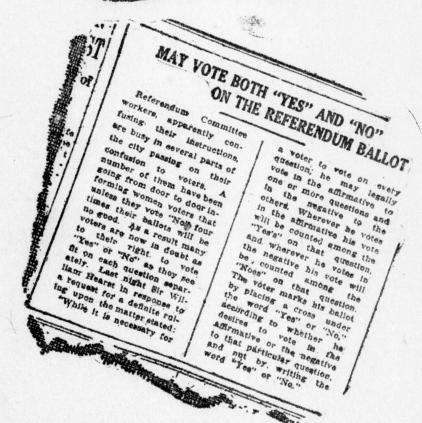

FIRST .- Flamingly colored and sensational circulars have been sent broadcast over the Province in which it is claimed that—in the words of the advertising as shown in the copy reproduced to the right-"To vote 'Yes' in one column and 'No' in the others makes your ballot worthless." Further, self-constituted advisors to the electorate have gone from house to house solemnly making the same declaration—that if you vote "Yes" in one column and "No" in the others, your ballot will be spoiled. That statement by the Referendum Committee is an absolute untruth, and has been publicly branded as such in the columns of the "Mail and Empire," October 4th,

by Sir William Hearst, the Premier of the Province. The Premier's statement is reproduced to

SECOND.—These demagogues and representatives of the Referendum Committee have distributed wholesale a distorted ballot in which it is claimed the man or woman who votes "Yes" to Questions 2 and 3 votes for intoxicating beer. That is an absolute untruth. The beer for which you will vote on October 20th, the Beer of the Ballot, is not intoxicating, has been proven nonintoxicating by scientific experiments and thorough research by a board of fourteen qualified experts.

The Citizens' Liberty League hereby calls upon the Referendum Committee to make a public explanation, retraction and apology that will set the people right—or stand condemned of trickery unworthy of public men and women.

HOW YOUR BALLOT WILL READ The questions as they will appear Are you in favor of the repeal of the Ontario Temperance Act?

Vote "Yes" to all four questions and support the broad-minded men and women of the Citizens' Liberty League in their efforts to obtain sane, moderate temperance legislation.

# Vote "YES" to All Four Questions

Mark your ballot with an X. Any other marking will spoil it. Remember also-every voter must vote on every question or his ballot will be spoiled.

SUNDAY AND MONDAY,
OCT. 12-13.

Sunday is not to be a fortunate day for mundane affairs. For mental pursuits or investigation into higher laws and phenomena it is splendidly fostered under the trine of Mercury to Uranus, Avoid quarrels, impulsive actions and litigation, also change or journeys. Those whose birthday it is should be cautious, cool and conservative. A child born on this day will be original, inventive, restless, erratic and changeable.

Monday's forecast is illuminated by three strongly benefic Lunar aspects. The Luminaries in trine promise promotion or honors, favors and increase of salary, the Lunar trine to Jupiter enhances the financial advantages, and the sextile of Moon to Neptune denotes benefits to be received through combinations, trusts, secret organizations, societies or affiliations. There is danger from wrangling or wordy wars via tongue or pen, and the domestic situation is not happily influenced. See to thy health.

Those whose birthday it is have the prospect of a successful year with promotion and increase of moneys. They should guard the health and abstain from wrangling. A child born on this day will be popular, generous and successful despite carelessness and a tendency to dissensions.

What Outstanding Men Say About Liquor Traffic-Proved Benefits of the Ontario Temperance Act

Prime Minister of England

"I have a growing conviction that nothing but foot and branch methods would be of the slightest avail in dealing with the evil."

Premier Hearst The Ontario Temperance Act, in my opin

ion, increased our economic strength, increased our efficiency and generally added to the fight-

ing strength of the province in war time. Any change in that Act now would, I believe, be

other deadly drugs. The money annually wasted in alcohol would pay the public health bills of a continent over and over again."

Andrew Carnegie

"I say to you that you are more likely to fail in your career from acquiring the habit of drinking liquor than from any of the other temptations likely to assail you. You may yield to almost any other temptation and re-

form, but from the insane thirst for liquorescape is almost impossible."

### North America is Dry

Every province in Canada has enacted a measure of prohibition. The United States is permanently dry. France has abolished absinthe. Scotland has now a local option law. England is initiating a great campaign for temperance reform. The movement is world wide.

The Ontario Temperance Act in three years has reduced crime by over one third, and drunkenness in public places has practically disappeared.

The Ontario Temperance Act has eliminated cases of alcoholic insanity from among the admissions to the hospitals for the insane, and Gold Cure institutes for the treatment of alcoholism have been obliged to close up for lack of patients.

The Ontario Temperance Act has saved the people of this province an annual drink bill of \$36,000,000, more than enough to pay Ontario's interest on the national war debt.

Many a man struggling in vain three years ago with the habitchains of "booze", to-day is free and thanks the Ontario Temperance Act for it.

### Liquor People Admit Evils

The apologists for the liquor traffic will tell you there is more drunkenness and debauchery under prohibition than under the License system. Don't believe them. Under the Act a drunken man is liable to arrest on sight yet the jails are half empty.

The Liquor interests will tell you they admit the evils and don't want the restoration of the open bar. They want the cafe system where drinks are served at little tables. But-Alcohol is alcohol whether swallowed standing at a bar or sitting at a table.

They'll tell you 2.51% beer (alcohol by weight) is "light" beer, and non-intoxicating. The law of Ontario says different. It says: "Any liquor which contains more than 2.50% proof spirit shall be conclusively deemed to be intoxicating." In no other province is the limit higher, Quebec included, and in some it is still lower. The Beer proposed by the Ballot is 5.46% proof spirits—over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

To repeal the Ontario Temperance Act would be a calamity. To carry any of the amendments proposed would make it practically worthless. Ontario must not fall back.

Abraham Lincoln was right. The only way to regulate the liquor traffic is to cut it out—"root and branch.

### Get Soiled First

EVERYONE knows that the cuffs are the most exposed

portions of the shirt. They get soiled first. If you turn the cuffs you can wear the shirt a day or two longer before sending it to the laundry.

But if you turn an ordinary cuff it bulges and looks unsightly. You wouldn't be seen with it.

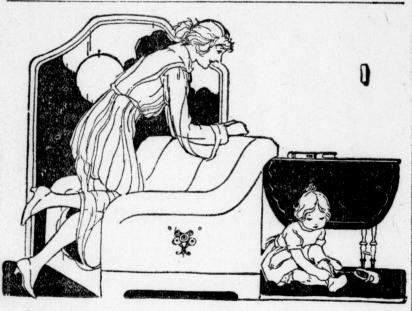

The new "Double Wear Cuff" is different. It folds just as neat and flat when turned in as when turned out. Your friends cannot tell which side is turned out.

One trip to the laundry is harder on a shirt than two days' wear. Every time you turn your cuffs you save laundry money and get more wear out of the shirt. Get the habit -turn your cuffs-it pays.

### IRISH QUESTION AND LABOR PROBLEMS TO BE GIVEN PRIORITY

These Will Be Discussed First When British Parliament Meets.

LONDON, Oct. 10.—Labor problems and the Irish question will be given priority over other subjects of discussion when parliament meets Oct. 22. The alien bill is down as the first matter for consideration, but it will probably be postponed. The special cabinet committee dealing with Ireland, composed of Lord Birkenhead, the lord chancellor; Sir Laming-Worthington-Evans, the home minister for pensions; Edward Shortt, secretary for home affairs; H. A. L. Fisher, minister of education; Walter Long, first lord of the admiralty; Sir Eric Geddes, minister of transport; Sir Ian MacPherson, chief secretary for Ireland, and Viscount French, lord-lieutenant of Ireland. The plan of procedure will be drafted during the ensuing meetings.

be drafted during the ensuing meetings.

The nature of the debate on the Labor situation will depend upon the attitude taken by the Labor party in connection with the conference with the prime minister yesterday regarding nationalization of the coal mines. Robert Smillie, president of the Miners' Federation, and Frank Hodges, its secretary, state that the miners will probably take no immediate steps with reference to nationalization, since the matter is now in the hands of the Trades Unions Congress. C. W. Bowerman, secretary of the congress, said that if a special congress were considered necessary to discuss the steps to be taken the gathering would probably not be held until after the return from Washington of the British delegates to the international labor conference.

This contest is open to present bon

Anyone in this territory may enter the contest upon payment of not less than \$2.00 or more than \$12.48. This amount will be applied to subscription to The London Advertiser at regular subscription rates. It may be applied on either the morning or evening edition, or both.

You may submit just one solution or as many different ones as you wish. With each solution you must pay not less than \$2.00 or more than \$12.48. The total amount paid, whether you send one or more than one solution, will be applied to one continuous subscription, unless you otherwise direct. If you are already a subscriber the amount, or amounts, you pay will be applied to extending the time you are paid to. If you are a new subscriber the amount paid will be credited to you and your subscription started at once.

This contest is open to both men and women. You may order the paper sent to someone else if you wish, names and addresses being subject to any changes that later may be desired.

# **DECIDING**

In the event of ties those tleing will be required to solve a second puzzle in order to determine who shall receive the prizes. This second puzzle, if one should be required, will be equally as attractive and practical as the first. Under this plan those who win will be assured of receiving the full value of their prizes without having to divide them with other contestants. Should still further ties ensue, a third problem of the same order as the second will be submitted to those again tied to solve. This plan will be continued until all have been eliminated except the actual prize-winners. Should there be no ties on the first puzzle, only the one, of course, will be presented. In the event that a second puzzle is required, one week will be allowed in which to solve it. This will prevent the contest being prolonged for any unusual length of time.

# WEALTH IN TEXAS OIL

Would You Risk \$10 In An Oil Opportunity That Promises Bigger Returns For the Investment Than Anything Else You Can Buy?

### We Have Put Up Our Own Hard Cash

We have purchased with our own money a number of leases right in the heart of the famous oil lands of Texas.

These leases have been paid for in full to the last dollar.

With these leases we have organized and completed the Empire Texas Oil Company.

We have no debts, there is no preferred stock, no bonds, no mortgages. We are now ready to develop these leases, to drill as many wells as will produce oil. And to that end and for that purpose we will sell a limited amount of capital stock.

# Are You Alive to a Great Opportunity?

The group of men composing this company are not professional promoters, we are not speculators, we have what we consider a life-time opportunity to make some real money, big money, by developing the property we already have and may acquire.

Now we need working capital, money for the purpose of drilling. And this is a fast and expensive undertaking. All our profits must come out of the ground, it is oil we are after, and if we strike it, we strike it rich, if not, we are out of luck. As against the thousands we have put into the company we solicit subscriptions of \$10, \$20 or up to a hundred dollars or more, from those who are willing to risk the price of a new hat or a suit of clothes on the chance of making a stake, striking it rich. The money from the sale of stock goes to drilling wells, no Turkish rugs, no ornate furniture, no magnificent private offices nor fancy salaries. We want you to know all the facts.

### Subscribe Quick On a Money Back Guarantee

Let us get together on this big enterprise at once. We want to get at the oil without delay.

Send in for 100 shares at \$10; 200 shares, \$20; 500 shares, \$50; 1,000 shares, \$100—as many shares as your venturesome spirit tells you is worth the risk

If within ten days after sending your receipt and prospectus of the company, you are not satisfied, if after the fullest and freest inquiry and investigation you have any doubt as to the genuineness of this undertaking, simply demand the return of your money, and it will be sent to you without a word or quibble.

### Come In With Us On This Square Deal

Every share of stock represents an equal interest in all the assets of this company, now owned or that may be later acquired. Stockholders will be informed from time to time of the progress the company is making. All stock being sold is treasury stock. The officers are out to get oil in paying quantities and lots of it. None of the officers of the company have received any remuneration for services rendered, although they are devoting their full time to the business management of this company.

### The Officers of the Company

Successful Businessmen
—not speculators

John C. Henry, President, Belmont, N. Y., Successful Oil Producer

Roy H. Clark, Vice-President,

Ralph B. Cornwell, 2nd Vice-President.
Wellsville, N. Y., Mercantile Business.

Byron Gray, Treasurer. Belmont, N. Y., Grain Dealer.

Asher M. Clark, Secretary. Belmont, N. Y., Manufacturer,

There was never a more open and above-board enterprise offered.

We propose to make some real money in a fair and square way by getting the co-operation of a sufficient number of live-wires to produce oil. We have the land all paid for. And everyone knows that if oil is struck at all, it is big money. If we strike a gusher we all share in a fortune, if it is more than one gusher we are millionaires over night. A host of men are rich today because they bought on the same basis that we now offer stock in this company.

### The Man In Personal Charge

JOHN C. HENRY, President and General Manager of the Empire Texas Oil Company, is a practical, thoroughly experienced oil man. He has been an oil producer for seventeen years, and has a personal knowledge of the oil fields in many states. Mr. Henry is in no sense a promoter. He is in personal charge of the development of the company.

# All Ready For the Big Drilling In the Gusher Pools

The biggest returns ever made on money invested has come to those who got in early in the Texas field. Here is an opportunity to share in the square deal development of 7 mighty valuable Texas oil leases that are located right in the heart of the oil pools. These properties that have been secured by acknowledged oil producing authorities who personally picked out the leases.

### Remember This---Gusher Leases We have three gusher leases in two defined pools—WAGGONER and

We have three gusher leases in two defined pools-WAGGONER and DESDEMONA.

You get into a reality at once, no speculation, no promotion, a genuine enterprise on our own land in two of the famous oil producing territories of Texas.

### Get Your Share of Oil Wealth

We offer you the opportunity of your life to get your share of oil wealth. Some people think that because they can invest but little, it is not worth while, but that is a mistake. Recently the stockholders of the Fortuna Oil Company, in a short time made the following enormous profits: For each dollar invested, \$2,500; each ten dollars, \$25,000; and each one hundred dollars INVESTED, A QUARTER OF A MILLION DOLLARS.

A few more examples:

\$100 invested in Pinal Oil Co. paid...\$ 10,800 100 invested in Lucile Oil Co., paid... 16,000 100 invested in Home Oil Co., paid... 40,000 100 invested in Paraffin Oil Co. in ten years paid....... 492,000 175 invested in Coline Oil Co. paid... 80,000 175 invested by twelve men in Ardmore and Healdton, Okla., paid each....... 83,000

250 invested in Central Oil Co. paid. . 45,000

The New Oil Fields of Texas have possibly enriched more poor people than any other discovery of natural wealth in modern times, if not in the entire history of the world, because they have offered opportunities for the little man along with the big fellow, for the purchase of stocks at low prices. One of the strangest and most prodigious instances in connection with these wonderful discoveries is embodied in the actual experience of the Baptist

wonderful discoveries is embodied in the actual experience of the Baptist Church at Merriem, near Ranger, that is reported to be receiving an income of \$200,000 a year in royalty from the church lands, and has refused an offer of \$1,000,000 for the right to drill wells in the graveyard adjoining the church; thus the ways of fortune in the great Texas Oil Fields today are past all human understanding.

Every word in this page is based upon absolute fact, no exaggeration—a square deal enterprise through and through.

EMPIRE-TEXAS OIL COMPANY,
Belmont, N. Y.

# ACT TODAY! DON'T WAIT!

The time to take advantage of an oil opportunity is during the initial period of development. When oil has been struck, when the wealth of the earth, it may be fabulous wealth, has been struck and flowing every minute of each 24 hours, it is then too late to buy stock at a profit. So get it now, mail the coupon today, before actual drilling begins.

No officer or member of this company is a speculator or promoter, all are successful businessmen.

A limited amount of the capital stock is now offered to those who recognize that all the big enterprises, the famous money-makers and wonderful dividend-payers had their beginnings in just such co-operation as this. And the fact that you can participate in this splendid and popular opportunity, at such a small figure should bring your subscription at once. Mail the coupon today.

Empire Texas Oil Co. Belmont, N. Y.

### Where Your Money Will Be Invested

The Empire Texas Oil Company owns over 760 acres of undeveloped leases in four of the best oil "pools" in Texas.

One lease, Wichita County, located 2 miles south of Burkburnett in the heart of the shallow pool.

THREE LEASES IN TWO DEFINED GUSHER POOLS.

One lease, Wichita County, located in block 96 Waggoner Pool, Red River lands, surrounded by gushers.

One lease, Eastland County, about three miles west Desdemona, near Lewis well, reported doing 4,000 barrels daily.

One lease, Erath County, about four miles east of Desdemona, near wells reported doing 3,000 barrels daily.

The others while less famous as yet, are far better prospects than the now known bonanzas were at the start of their development.

For the development of oil lands, money is necessary—oil land is nothing but land until the oil is brought to the surface, and it takes money to get it to the top.

To secure money for this development work to put this land into producing territory, a limited amount of capital stock is now being sold on the basis of 10 cents per share, with minimum allotment of 100 shares, an investment of \$10.00 or more, to any one purchaser.

### Oil Speculation Has Made Thousands Independently Rich

Speculation has been essential in all oil enterprises that have poured forth the underground wealth of Mother Earth and made thousands vastly wealthy. This company has bought and paid for valuable leases that are located right in the proven territory of big production. There's the element of speculation, yes; but the best informed experts indorse our leases and locations.

### The Tank Trucks Are An Inspiration

In the past few years you have seen big Delivery Trucks in all large cities with names of Independent Oil Companies that reflect the marvelous development of Texas oil. They all began in just the same way the Empire Texas Company is starting, the acquisition of leased land in known oil producing territory. Their chances were no better than ours. They simply went after the oil just as we propose to do. And their holdings jumped in value to prodigious figures.

The Fowler farm lease sold recently at a profit of \$16,000 on each \$100 originally invested.

The Humble Oil Company started eight years ago with \$10,000. It recently sold one-half of its Texas holdings for \$20,000,000.

The Hoffman Oil Company was organized two years ago with \$1,800 cash capital. It now has a daily production of 1,000 barrels, and assets worth over \$2,000,000.

In Midway Oil, Winchester Oil and Trapshooter Oil Companies, each \$100 original investment is worth today, \$8,000, \$9,000, \$25,000, respectively.

Many more instances like these can be cited by anyone familiar with the oil business of the southwest in the past few years.

Would you have liked to have been "in" on some of these? The Empire Texas is what we believe to be a parallel opportunity, and NOW is your chance.

What a National Bank President Says

W. J. Richardson, president of the Citizens' National Bank of Wellsville, N. Y., has this to say regarding the active head of this company: "Mr. Henry is a man of character and ability. He has had large experience in the oil business, and has been very successful. I have been closely acquainted with Mr. Henry for a long time, and have always found him reliable in every business transaction. I recommend him as entitled to your fullest confidence."—W. J. Richardson, president Citizens' National Bank, Wellsville, N. Y.

W. A. McCallum, Esq., District Manager, Mutual Life of Canada. City.

Dear Sir:

Respecting the premium due this month on my policy on the all-life plan with The Mutual Life of Canada for \$1,000, I am pleased to note that my annual dividend has again been increased. My premium was originally \$22.75, but is now reduced to \$15.15, or over 331 per cent. in the 11th year.

I notice also that the annual increase in cash surrender value has overtaken the annual premium. So that the protection is now being carried without cost. If this is a sample of the Company's dealings

with others, it would appear that the policyholders of this Company are "profiteering." Yours truly, 211 Angus St.,

Port Arthur, Ont. (Sgd.) Harold B. Raynon. Jan. 8/19. We receive numberless testimonials similar to the above though perhaps not all are as happily worded. But these letters clearly show that the policyholders of

Steels and Electrical Equipments Gain Two to Seven Points—Rails Active.

NEW YORK, Oct. 10 .- Bull pools were in undisputed control of today's stock market, the broadest and most active session in several weeks, their further operations in miscellaneous

issues being well supported by extensive buying of representative steels, coppers and rails.

The demand for steels preceded the publication of United States Steel tonnage figures for September, which showed an increase of about 175,000 tons, and seemed to have its basis in favorable reports from mill centres. tons, and seemed to have its basis in favorable reports from mill centres.

United States Steel made an extreme gain of 2 points to 112½, its best price since the inception of the strike, and affiliated shares, especially Harvester, Sloss-Sheffield, Crucible and Republic, were 2 to 5 points higher.

The same conditions probably accounted for the strength of steel and electrical equipments, where gains of 2 to 7 points were made by General Electric, Westinghouse, Pressed Steel Car, New York Air Brake and Baldwin Loco. tric, Westinghouse, Pressed Steel Car, New York Air Brake and Baldwin Loco-

New York Air Brake and Baldwin Locomotive.
Southern Pacific overshadowed the other rails, its rise of 3½ points being accompanied by the heaviest transactions in many weeks. Other transportations, notably St. Paul. common and preferred; Texas and Pacific and Reading gained 1 to 1½ points.

All the prominent coppers were included in the inquiry for metals, more stable trade conditions being attended by reports of foreign buying and another advance in the quotation for the refined product.

ofined product. Shippings owed their irregular advance to the strength of Atlantic-Gulf and United Fruit, but tobacco and food seues manifested little of their recent activity. Chandler Motors led that group, gaining 35 points, kindred issues and their specialties rising 3 to 12 points.

points.

Mexican Petroleum featured the oils at the new high of 250½. Sales of stocks amounted to 1,675,000 shares.

Bonds, excepting utilities, were steady to strong on diversified dealings. Total sales (par value) aggregated \$12,450,000. Old United States bonds were unchanged on call. changed on call.

### COLD WEATHER SENDS CORN VALUES DOWN ON CHICAGO CHANGE

Prices Also Unsettled-Oats Weaken With Corn-Provisions Advance Slightly.

thorono maranto ongitely.
CHICAGO, Oct. 10 Opinions that
husking would be stimulated by the
cold wave now on the way eastward
forced the corn market lower today.
despite prevalence of bullish sentiment
in the beginning. Prices closed un-
settled at 4c to 1c net lower with
December \$1.22% to \$1.22%, and May \$1.21% to \$1.21%. Oats lost %c to %@
\$1.21% to \$1.21%. Oats lost %c to %@
%c. In provisions the outcome ranged
from 25c setback to a rise of \$1.
Continued rains here and misgivings
that as a result corn movements from
first hands would be interfered with
tended to make corn prices move higher.
A little buying resulted from forecasts
of a killing frost Late, however, the
majority of traders switched to the
selling side and took the position that
freezing temperatures would cause
husking to become general and would
increase the volume of offerings of new
grain to arrive, especially as the west
reported the weather clear as well as
cold.
Oats weakened with corn. It was
said the exporters had withdrawn from
the market.
Falling off in the movement of hogs
to western packing centres gave an up-
ward swing to provisions. Commission
houses and shorts were conspicuous

MONTREAL, Oct. 10.—There were no new developments in the local cash grain market today, prices generally being steady. There was no improvement in the demand for oats, and business was quiet for both domestic and country account with carlots of No. 2 Canadian western quoted at 94½c. No. 3 C. W. and extra No. 1 feed at 93½c; No. 2 feed at 91½c and sample oats at 91½c and sample oats at No. 2 feed at 91½c and sample oats at 92½c a bushel, ex-store.

WINNIPEG, Oct. 10.—Yesterday's snowstorm, reported fairly general throughout the prairie provinces, caused a higher opening on the local grain market this morning, but most of the gains were materially reduced before the close, Oats closed ½c higher for May. # THE LOCAL MARKET Bad weather interfered with the market this morning, so it was not as large as the usual Thanksgiving market. Poultry was, of course, the feature. Only a few turkeys were offered, with widely-ranging prices. One man was asking over 50c, while some of equally good quality were selling at 40c per 1b. Mostly ducks and chickens were offered. Ducks were selling from \$1 25@ 160 each, and chickens were offered. Ducks were selling from \$1 25@ 160 each, and chickens at \$1@ 160 each. Geese were being sold at 25c per 1b. Potatoes were scarce and the price remained steady. Spanish R. Also Gains—Can. AFTER LONG REST ON FEATURE ISSUES ON TORONTO EXCHANGE MONTREAL EXCHANGE

Volume of Bond Trading Sets One of Largest Totals in Year.

MONTREAL, Oct. 10.—Trading in listed stocks on the local stock exchange today fell only slightly below the total for the preceding day, but dealings in bonds increased by about \$300.000, a total of \$449,400 being dealt in. This is one of the largest totals for the year the heavy dealings in the 1933 Victory bonds amounting to \$294,000, being the main factor in the increase. In the market for listed stocks dealings in Iron amounted to more than one-fifth the total trading, some 5,400 shares changing hands. On this turnover the price rose to 70½ and closed at the best with closing bid further advanced to 70%. The net gain for the day was 1½ points. Steel of Canada made a net gain of a full point.

Spanish River, common, was the second most active stock on the board, dealings amounting to 1.800 shares. The close at 58½, after reaching 59 was a net gain of 1½ points. The remaining paper issues were extremely irregular, losses amounting to 1½ points, and gains ranging up to 11 points. Howard-Smith was the feature of this group, with a net gain for the day of 11 points. Abitibl recovered five points of the preceding day's eight-point loss by selling up to 140, but stock was offered at 139 at the close with no bids.

The weaker papers included Wayagamack which lost 1½ points at 68½: Brompton, % at 67%, and Riordan, % at 149.

# POULTRY EXPECTED TO BE FEATURE OF

Chickens in Great Demand For Thanksgiving

Some 70 loads of hay were sold on the local market during the week, prices being strong, with the exception of Wednesday, when hay dropped \$1 per ton, selling at \$26. Thursday and Friday the demand was good, the price going back to \$27. There will be no market Monday (Thanksglving Day), and it is expected that there will be a fair demand for hay next Tuesday. Oats went up in price Friday, and are now selling from \$2.80 to \$2.90 per hundred. Last week the price was \$2.75 to \$2.80. Eight loads were disposed of on the market Friday, and the demand for next week promises to be good.

There has not been much wheat sold on the market during the week, although there was a ready demand at from \$1.90 to \$2 per bushel.

A general weakening in the potato market is being looked for. Prices this week ranged from \$1.30 to \$1.50 per bushel, and a drop of at least 10 cents a bushel is looked for today.

The quantity of butter and eggs disposed of this week has not been overly large, and the demand has been brisk. The prevailing price for eggs, wholesale, has been 58 cents, and retail 62c.

The funeral, which will be of a private nature, will be held on Monday afternoon from the family residence to Woodland Cemetery. Rev. D. C. MacGregor will conduct the services.

FUNERAL OF E. L. EDY.

Ele Elsie Edy, photographer, who died at his home suddenly on Wednesday morning, was buried on Friday in Woodland Cemetery. The funeral was held from the family residence to Woodland Cemetery. Rev. D. C. MacGregor will conduct the services.

In the studio where he had worked for many years, the remains of Mr. Edy rested among a bower of floral tokins friends and the various lodges to which he was attached. Among them were two beautiful wreaths from the Canadian and American photography associations and floral emblems from the Masonic lodges, of which he was a member.

The pall-bearers were six brother masons, which he was a member will be a fair the private will be not make the private and on Filay in the file of the private and the study of th

### **VOICE OF THE PEOPLE**

WHISKEY PROFITS.

To the Editor of The Advertiser: Dear Sir,-I called this morning at he Ontario Government dispensary to buy a bottle of Imperial whiskey, but buy a bottle of Imperial whiskey, but not having a medical prescription I had to go without whiskey. They offered me a 40-ounce bottle of Walkers' Imperial whiskey for one dollar and eighty-five cents (\$1.85), which is equal to seven dollars and forty cents (\$7.40) per gallon of 160 ounces. The last quotation I had from Walkers for similar whiskey was one dollar and fifty-five cents (\$1.55) per gallon in bond. The excise duty is now one dollar and eighty-seven cents (\$1.87) per gallon; freight, five cents (\$1.87) per gallon; freight, five cents (\$5.0) making a cost in London of three dollars and forty-seven cents (\$3.47) per gallon, which deducted from seven dollars and forty cents (\$7.40) leaves a balance of three dollars and intey-three cents (\$3.93) for profit in favor of the dis-(\$3.93) for profit in favor of the dispensary. In the old days of licenses I sold thousands of barrels of this same kind of whiskey at a profit of from ten cents to fifteen cents per gallon, or ir other words from four dollars to sig dollars' profit on a barrel containing forty gallons. The consumer now pays one dollar and eighty-five cents (\$1.85) plus two dollars (\$2.00) for prescription, or three dollars and eighty-five cents (\$3.85) per quart, or fifteen dollars and forty cents (\$1.540) ner gallon of 180
