LOTS OF WORK FOR ENGINEER

City Board of Works Assign Him Many Matters for Consideration.

Purchases of Lots for Earth-Tilt Between Contractor and the Engineer.

The Board of Works held a very lengthy and business-like meeting last night, every member being present, also the City Engineer and Contractor Blight.

Mr. Blight was present for the purpose of defending himself against the repeated complaints of the Engineer, who claims that the contractors, Blight & Fielder, are not progressing as rapidly as they might with the construction of the granolithic walks, and that the material used for filling is poor.

Mr. Blight said in addressing the Board:—
"I have been told on several occasions by your engineer that we are not getting down the walks as rapidly as we might. I can assure you, gentlemen, that I am doing all in my power to get the gravel for the filling, but it is almost impossible to get it. If you can tell me of any place where I can procure this gravel, I will buy it to-morrow, providing that I can purchase it at a reasonable price."

Ald. Mounteer—I have been informed by Mr. Hadley that he is able to keep you going with gravel.

Mr. Blight—He can't do it.

Ald. Mounteer—Then I would advise you to lay off work until Mr. Hadley gets enough supply on hand to keep you going. How would it be to finish the Stanley avenue walk, and then lay off work two weeks, until you get enough material ahead to keep you going?

Mr. Blight—Now I am not trying to play funny with the Board, the Engineer has hinted that we have too many irons in the fire, but I tell you we can't get any gravel in the town, for I have tried my best to get it.

The Engineer—Why not use crushed stone?

Mr. Blight—We can't afford to use crushed stone. We would lose money on our contracts. We have been fortunate lately in getting cinders.

Ald. Mounteer—N. H. Stevens and the Taylors have been getting gravel all along and now that they are out of the field for gravel, why can't you get it from the same sources as they got it?

Mr. Blight—They got their gravel from Mr. Hadley, where we are now getting it from.

The matter was finally left with Mr. Blight to procure and use the gravel as fast as it was possible to get it.

Mr. Blight assured the Board that he would do his best towards pushing his work to a finish.

The following offers for earth to be used for city purposes, were received:—

From Bowers and Dunlop, who offered all the earth required in any part of the city for 50c a square yard.

From John Duff, an offer of the lot on the corner of Queen street and Park avenue, for \$250.

Mr. Marx, an offer of three small lots on Dege street 75x100 feet, five feet deep for \$100.

From John Northwood, an offer of 4 lots in the Northwood survey, \$240.

From Daniel Jordan, an offer of earth on the bank of the river, 77 feet by 250 feet, containing 2900 square yards, at \$150—\$75 to be paid this year and \$75 next year.

From the Weddell estate, an offer of a lot of 11-2 acres on Water street, for \$250.

From N. H. Stevens, an offer of a lot on Mary street, adjoining the Dover town line and drain, 75x130, for \$100.

From Geo. Fielder, two lots on Emma street, for \$400.

From T. A. Smith, an offer of one acre of land in the rear of his lot on the west side of Victoria avenue, with a right of way to the street, for \$250.

It was decided to act according to his advice.

Ald. Mounteer asked concerning the crossing on Queen street, near Terry's. The Engineer replied that it had been fixed yesterday (Wednesday).

It was decided to pay Messrs. Blight & Fielder their deposit of \$100, as they had carried out their agreement under which the deposit was made.

Ald. Mounteer—The catch basin on the corner of Queen and William street should be repaired.

The Engineer—it is impossible to procure new traps.

The Board of Health were granted the privilege of using the lot on the 2nd concession, Chatham township, which was purchased from the late Wm. Delahanty, as a dump lot.

Ald. Waddell—A lot on Water street has been used for some time as a dump lot. This should be stopped.

It was decided to put up a sign prohibiting this practice.

A number of accounts were left over to be certified to by the City Engineer.

George Plummeridge was appointed inspector for the Delaware avenue sewer.

Ald. Mounteer—There is a matter in connection with the digging of these sewers, which I brought up in the council last year, but it was not acted upon. As each sewer is completed the plans should be bound up in a stiff covered book and filed with the city clerk. This will save a lot of trouble when some citizen wants to tap a certain sewer.

The other members of the Board thought this was an excellent idea and it will be acted upon.

Board adjourned.

John McKay and Robert Biddell spent yesterday in Detroit.

The telephone at the waterworks station was burned out last night.

W. W. McGoig, of Blenheim, was registered at the Merrill House yesterday.

School Inspector Colles gave his annual report to the post office employees yesterday.

The Methodist Sunday school scholars of Ridgeway are picnicing at Erieau today.

E. W. Davidson, of Sarnia, formerly of this city, left last evening for Seattle, Washington.

A. J. Shafer, former Carpenter of the Hendrie Co., Hamilton, left this morning for Hamilton.

Miss Grace E. Shipley arrived in the city yesterday from New York, and is visiting friends and relatives.

Messrs. Sims, Higgins, Hubbs and Davidson, lacrosse players, of Thamesville, witnessed yesterday's game here.

Tom Martin, who has been visiting his parents, Mr. and Mrs. S. T. Martin, Victoria avenue, left to-day for Toronto.

Sam. S. Kennon, London, is spending a few days with his son, who is in the G. T. R. freight offices in this city.

The family of Chas. D. Williamson moved to Erieau Monday and are now domiciled at their summer residence, "The Red."

The Wellington street connection between the waterworks mains and the Gray & Sons private mains were made yesterday.

O'Keefe & Drew report the market somewhat easy in live hogs. The price paid this week is from \$0.25 to \$0.50 per cwt., with good receipts.

NEGRO BURNED AT THE STAKE

A Missouri Mob Made Short Work of Unfortunate Man—Fendish Assault.

Young Woman Positively Identified her Assailant who was Then Taken to Woods.

Clayton, Miss., July 17.—William Ody, a negro, who last night attempted to assault Miss Virginia Tucker, of this place, was burned at the stake at midnight. The assault was most brutal. The young lady was riding in the country when she was attacked, and was so violently pulled from her buggy by the negro that both her legs were broken. The scene of the assault was a lonely spot in a country road. Ody hailed Miss Tucker with the information that she had dropped a package. She stopped the horse, and the negro approached as if to pick up the supposed package. He seized the girl's wrists and dragged her violently from the vehicle, both her legs being broken in the fall. Miss Tucker screamed, and was found by a doctor, who was driving by a few moments later. She is now said to be at the point of death.

After Ody's capture by the posse, a mob quickly formed and took charge of the prisoner. He was brought before Miss Tucker who positively identified him, although he asserted his innocence. Ody was taken to a spot in the country near the scene of the assault, and a bonfire was built about a tree. He was told to prepare for death. When the manner of his execution became apparent he begged pitifully for mercy. He was securely bound, and in a short time only his charred bones marked the spot of execution.

St. Joseph's Literary Society met in their club rooms last evening. The following officers were installed:—

President—John Kehoe.
Secretary—Joseph Robert.
Financial Secretary—Ed. Casey.
Treasurer—John Conway.
Executive committee—T. J. Doyle, Parnell, Welsh, and Wm. Marshall.
Guard—Hector Robert.
Sponsor—Clarence Goudreau.

A ratepayer has to hunt up an alderman, the alderman brings the matter before the Board and hands it to the Chief of Police. The ratepayer goes to hunt up the Chief of Police, who may be out of town after some culprit, and then you have to wait—Growler.

Ald. E. A. Mounteer took a trip through Dover yesterday and was met last night by a Planet reporter. "What through Dover is looking well," said he, "and I think it will be an excellent crop. On the soft lands, however, it is not so good. Corn is looking splendid in spite of the heavy rains. Beans seem to be injured somewhat. Sugar beets are doing well, although they tell me that around Wallaceburg they are not so good. Generally, however, I think they will be a good crop."

A little boy named Fred. Keene ran under a butcher's cart at London, Ont., and was run over. His skull was fractured and his recovery is doubtful.

The ladies of Cape Town presented Mrs. Steyn with \$1000 before she sailed for Europe with her husband, the ex-President of the Orange River Colony, who is seriously ill.

The costs of the appeal of Robinson vs. The Chatham Dredging Co., were taxed yesterday before the County Court Clerk. J. G. Kerr appeared for the defendants, and Geo. Sayer for the plaintiff.

The waterworks department expect to connect the main across the river at the Aberdeen bridge. The pipe was disconnected to admit of the dredging of the Thames at the Blonde Co.'s dock.

In an article on cricket the other day the names of Dappling and Slagg were mentioned. Both are uncles of "Dick" Slagg, one his mother's brother and the other his father's. Dick knows them both well.

Well, routers, you failed in yesterday's game. A router cuts no ice when the Chatham club gets their brains touched up with lacrosse stick; such was the case in yesterday's game. With all the routers and ringers, poor old Kents lost the trophy, and it has been rumored that some of the Blenheim sports lost their summer wages on the game. The Growler staff congratulates the Chatham team on their success.—To-day's "Growler."

HOME AGAIN

Thomas Bennett, who returned on Tuesday from a trip to England, Ireland and Scotland, says that great changes have taken place since he was there the last time, twenty years ago, but they are far behind Canada in many things.

"I saw Sir Wilfrid in London," said he, "and he was a great drawing card. Bristol was the only city that I was in that had a half decent fire brigade system and, it wasn't of very much account. The naval affair at Spithead, was well worth seeing."

An ugly runaway occurred yesterday afternoon about two o'clock, near the Montreal House, Head street. Mr. St. Peter, of Dover, was going home when his horses became frightened and made a dash for liberty. The horses were attached to a wagon with a hay rack, in which were a couple of large tanks. The horses had not gone far the tanks were thrown out, lighting on the sidewalk, breaking them badly. The harness and the tongue of the wagon were also badly damaged. The team was stopped by Martin Kenny. Mr. St. Peter himself was also badly injured in the arm and foot.

OUTSIDE CENTRES

They are Crowding the Collegiate for Honors in Advanced Work.

In an interview with a Planet representative, Inspector Park gave some interesting information in regard to the number of pupils who tried the departmental examinations at the different centres.

At the C. C. I., fifty pupils wrote on part one junior leaving, or junior matriculation. Of these 32 were from the C. C. I., and 18 from outside points.

Twenty-four tried the part two, junior leaving examinations. All of these were from the C. C. I.

Three tried the part one, senior leaving only, and one wrote on the whole senior leaving examination and four wrote on honor matriculation. One pupil Chas. D. Farquharson, wrote on the scholarship examination.

Twelve students wrote on the commercial diploma examinations.

At Wallaceburg 26 wrote on the part one junior leaving and junior matriculation. Nine wrote on the junior leaving examination part two, and three wrote on the matriculation examination, part 2.

At Dresden 25 wrote on part 1, jr. leaving.

At Tilbury 20 wrote on part one junior leaving.

At Merlin, 12 wrote on this examination, and at Wheatley nine wrote.

ORIENTAL SPLENDOR

Slowly he raised his hand, and his movement had all the ease and freedom of a polished Parisian. As he pointed a shapely hand, the diamond on his finger sparkled in the brilliant electric lights, and gracefully the gentleman continued, with his gestures, all was a scene of dainty colors and bright interior furnishings. From the introduction you might think that this was the description of a ball-room scene at the Waldorf Astoria, New York—but it isn't. It is merely a pen picture of what transpired in the store of The 2 T's the other day when one of the firm, was exhibiting his finely appointed gentlemen's furnishing business to a party of Americans who had come up to the city of Chatham, and incidentally explaining the merits of the only Black and White front in the world.

A splendid new front was put in the store this spring. Above the plate glass Luxfer prism lights have been inserted. These made the store just as bright inside as out. The windows, too, have been all filled with beveled mirrors. One of the fine arts of successful advertising which The 2 T's have down to a science, is window dressing. Their splendid new show cases, made by John Piggott & Sons, are all electric lighted. The establishment has also been fitted throughout with quarters oak shelving, and new shelving of the same material. The floor has been tiled and a metallic ceiling constructed.

The 2 T's, Trudell and Tobey, are sole agents for the Mousch shirts. These garments are made by the largest shirt factory in New York. This firm purchase all their fine underwear in Saxony, Germany. The two proprietors are going to take turns about, one going over every year and the 2 T's intend in future to make all their large purchase of fine underwear and socks, after inspecting the stocks in factories in Germany.

The 2 T's sell the fine American hats which are the best on earth.

A large department of the store is devoted to the Slater shoe in all sizes, but in only two prices. "The only objection we have to the Slater shoe," said Mr. Trudell, "is that they wear so long that people don't come back often enough. Imagine wearing shoes for a year and longer."

New Method Clothing is specially adapted for all. The firm pride themselves on their beautiful triplicate mirror. This mirror shows the customer from any desired standpoint. The 2 T's feel so proud of the fit of their clothing, that they want their customers to see how the New Method clothing fits from every standpoint. To hold up the New Method trousers or any other trousers, the firm sells the Harris suspender, made by the greatest suspender factory in the world, and sold only by the 2 T's.

Local Briefs

Thomas Lailly spent yesterday in Detroit.

J. A. Stevenson, of London, was in the city today.

Miss Patterson, of St. Thomas, is visiting Mrs. Dan. Bardwell, Edgar street.

Fred G. Morley was the guest of Archie Park, Beverly Lodge, Erieau on Wednesday.

Miss Call, of Folkeville, Mich., is the guest of her uncle, Wm. McKenzie, Park avenue, west.

Duncan McKenzie was in the city yesterday, and took a new Park Bros. traction engine to his home at Mitchell's Bay.

Miss Cruickshank, John Blewett, and Mrs. Blewett and daughter Hazel are the guests of Mrs. W. W. Snider, Emma Street.

Quinn & Patterson have just received a stock of Fly Oil, which prevents flies from sticking on horses and cattle in the field.

For anything in the harness line or horse furnishings, go to Quinn and Patterson's, they have the best stock of these goods in the city.

Mayor Sulman and Barrister Pike called at this office yesterday morning. The Mayor says that Trustee Heyward's arithmetic is wrong and advises him to get a new one at the Bechive at once, before he makes any more errors.—Growler.

The powder puff may help to hide the ravages of time but it avails little to hide the ravages of disease. When the face is disfigured by eruptions, the treatment must go below the surface to the blood, which is corrupt and impure.

Dr. Pierce's Golden Medical Discovery cures disgusting eruptions which are caused by impure blood. It cures scrofulous sores, erysipelas, boils, pimples, eczema, salt-rheum and other eruptive diseases which impure blood breeds and feeds.

"I was troubled with eczema from the crown of my head to the soles of my feet," writes Mrs. Ella Quick, of Cass City, Texas. "I could not walk at times for wear my shoes. Thought there was no help for me—at least the doctor said there was none. I went to see friends at Christmas time and there heard of the good that Dr. Pierce's Golden Medical Discovery had done for them, and was advised to try it at once. For fear that I might neglect it, my friend sent to the village and got a bottle and made me promise that I would take it. I had been getting worse all the time. I took thirteen bottles of the 'Golden Medical Discovery' and ten vials of Dr. Pierce's Pleasant Pellets, and used 'Anti-Itching Salve,' which made a complete cure. It was slow, but sure. I was taking the medicine about eight months."

"I would say to all who read this; try Dr. Pierce's Golden Medical Discovery before wasting time and money."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less efficacious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pellets cleanse the clogged system from accumulated impurities.

THE HOLY CITY.

Jerusalem Still Resembles a Great Fortress of Middle Ages.

Jerusalem is literally "beiled upon its own heap." Below the houses, courts and paved streets of the present unkept city are the distinguishable remains of eight older cities—those of Solomon, Nehemiah, Herod, Hadrian, Constantine, Omar, Godfrey, Saladin, Suleiman—writes Walter Williams from the Holy City to his paper in Columbia, Mo.

Jerusalem has been besieged twenty-seven times, a record of vicissitude unparalleled in the history of the world's cities. It has been burned, sacked, razed to the ground, its inhabitants of every faith put to the sword, all the woes uttered by its own prophets against it have come to pass, yet Jerusalem still resembles a great fortress of the middle ages. Seen from the Mount of Olives, its massive gray walls, its flat roofed houses, its mosques and churches with their conspicuous towers and minarets, present a marvellous picture, beautiful, sublime, un fading, from the picture gallery of the mind.

The city itself has narrow, dirty streets. The water supply for its 70,000 people comes in a four inch pipe. The open courts are few and small, and the houses are bunched together with regard for room or cleanliness. Some houses are underground and others on top of the high inclosing walls. The people are fanatical, ignorant, selfish. There is much to detract from the ideal city, but despite all this and more Jerusalem from the Mount of Olives is the same in its essential details, the same in the framework of its setting, the same in fascinating suggestion, as the Jerusalem of which David sang and over which Jesus wept.

Points About a Good Horse.

There are some points which are valuable in horses of every description. The head should be proportionately large and well set on. The lower jaw bones should be sufficiently far apart to enable the head to form an angle with the neck, which gives it free motion and a graceful carriage and prevents it bearing too heavily on the hand. The eye should be large, a little prominent, and the eyelids fine and thin. The ear should be small and erect and quick in motion. The top ear indicates dullness and stubbornness. When too far back, there is a disposition to mischief.

Knowledge and timber should not be much used until they are seasoned.

A man has to be a financier to pass off a hard luck story as collateral for a loan.

Not Even Crazy People

would scour their faces with brickbats, but thousands of persons do things infinitely more foolish.

The skin of the face, though delicate, is rhinoceros hide compared with the mucous membrane of the stomach and bowels.

Yet these sensitive organs are constantly scourged with drastic medicines, to their incalculable injury.

The Cure for Constipation is not a violent cathartic, but a mild and tonic laxative—which is another way of saying

IRON-OX TABLETS

A Game of Leapfrog.

Napoleon Bonaparte, as is well known, was in the habit of walking with his arms crossed upon his chest and his head slightly bent forward. Isabeau, the painter, was at Malmaison, and he and some of the first consul's aide-de-camp were having a game of leapfrog on the lawn. Isabeau had already jumped over the heads of most of them, when at the turning of a path he espied the last player, who, in the requisite position, seemed to be waiting for the ordeal. Isabeau pursued his course without looking, but took his flight so badly as only to reach the other's shoulder, and both rolled over and over in the sand.

To Isabeau's consternation, his supposed fellow player turned out to be Bonaparte, who got up, frowning at the mouth with anger, and drawing his sword, pounced upon the unfortunate artist. Isabeau, luckily for himself, better at running than at leaping, took to his heels and, jumping the ditches dividing the property from the highroad, got over the wall and never stopped until, breathless, he reached the gates of the Tuilleries.

Isabeau, it was added, went immediately to Mme. Bonaparte's apartments, and she, after having laughed at the mishap, advised him to lie low for a little while.

Cemeteries Where Women Gossip. Friday, the Sabbath of the Moslems when all true believers of the masculine gender make a point of going to church, their wives, sisters, and daughters resort to the cemeteries and wall for the dead. But all their time is not spent in weeping, and sorrow is not the only emotion they display on these occasions. They take with them bunches and garlands of flowers and decorate the graves of their relatives and pray and weep over the dead for a time. Then, when this pious duty is performed, they gather in little groups and have a good time gossiping about the living.

Thus the day of mourning is very popular among the Moslem women. It gives them almost the only opportunity they have of cultivating the acquaintance of their neighbors, because it is not customary to exchange visits as in our country.

Different Kinds of Feet. As to national characteristics in feet, it may be said that the French foot is narrow and long. The Spanish foot is small and elegantly curved—thanks to its Moorish blood—corresponding to the Castilian's pride of being "high in the instep." The Arab's foot is proverbial for its high arch. The Koran says that a stream of water can run under the true Arab's foot without touching it. The foot of the Scotch is high and thick, that of the Irish flat and square, the English short and fleshy. When Athens was in her zenith, the Greek foot was the most perfectly formed and exactly proportioned of that of any of the human race. Swedes, Norwegians and Germans have the largest feet, Americans the smallest. Russian toes are "webbed" to the first joint. Tartarian toes are all the same length.

Queer Coronation Custom. One of the most extraordinary gifts made on the coronation day of Edward I, was that of 500 horses, which had been used by the royal princes and other personages in the procession to Westminster abbey. These horses, all richly caparisoned and harnessed just as they were, were let loose into the very midst of the mob after the benediction in Westminster hall that always succeeded a coronation in those days. The people in the streets were permitted to catch the animals, and to him who caught a horse it and its appointments belonged.

A Momentous Game. "How is your story going to end?" asked the publisher, who had dropped in to see the gifted author.

"That will be decided by the poker game I'm going to play this evening," said the gifted author. "If I win, the story will end with the hero and heroine marrying and everybody happy. If I lose, I shall kill off the hero, send the heroine to a nunnery and fill the last chapter just as full of misery as it can stick."

His Only Chance. Kindly Old Gentleman—Why do you carry that umbrella, little boy? It's not raining.

"No, sir."

"And the sun's not shining?"

"No, sir."

"Then why do you carry it?"

"Well, when it's raining he wants it, and when the sun's shining he wants it, and it's only this kinder weather I can get to use it at all."

Winning Her Papa. She—When you go to ask papa, the first thing he will do will be to accuse you of seeking my hand merely to become his son-in-law.

He—Yes? And then—

"And then you must agree with him. He's a lot prouder of himself than he is of me."

The Chief End. "What," inquired the student, "do you regard as the chief end of man?"

"Well," answered the professor, "it depends upon what you want the man for. If you want him to do brain work it's his head, and if you want him to run errands it's his feet."

Marrying For Money. When a girl marries for money, very often she has to make the divorce court her collection agency.

Archie McKishnie is spending the
day fishing at the Zoo.

John Anderson, of Tilbury, spent
yesterday with his Chatham friends.

B. G. Wells and A. L. Unsworth, of
Dresden, were Chatham visitors yesterday.

E. Higley, of Blenheim, formerly of
this city, spent yesterday with his
Chatham friends.

Miss Cora Dillon, of Merlin, is visit-
ing her aunt, Miss Julia Dillon,
King street.

D. Kennedy and A. N. Mills, of
Thamesville, were visitors in the city
yesterday.

Mrs. McKee and family, Mrs. H.
Bennett and Mrs. Slagg are spending
the day at Erieau.

Major G. Smartt and wife, Detroit,
Mich., are the guests of Mr. and Mrs.
Wm. Ball, Victoria avenue.

G. A. Fraser, Richard Howatt, Wil-
liam Fox and Ed. Dulong were specta-
tors of the Chatham-Blenheim lac-
rosse game here yesterday.

Miss Maggie McMillan, of West
Lorne, who has been visiting her aunt,
Mrs. Hutchison, William St., for the
past two weeks, returned home yester-
day.

"Something" ought to be done to-
wards keeping the tramps out of Vic-
toria Park," said a Landoner Ave.
resident to The Planet this morning.

"There were no less than five in there
last night."

Miss Unsworth, of Sombra, entered
the Public General Hospital and under-
went an operation this morning. She
is now doing nicely.

Mrs. Frank Sweeney, well known in
this city, died yesterday at her home
in Detroit. Deceased has been ill
for only a week with appendicitis and
her death was quite unexpected. Her
sister, Mrs. Thomas Smith, of this
city, attended her during her dying
hours. John Burkby, of this city, a
brother of deceased, left to-day for
Detroit to attend the funeral.

Dr. A. W. Thornton has received a
small booklet from Rev. S. James Al-
lin, of London, containing a paper on
"Christian Science, False and True,"
which was read by him (Mr. Allin)
before the Methodist Ministerial As-
sociation of London, and published by
request of the association. In the
front of the book is a picture of the
writer of the article. Rev. Mr. Al-
lin is well known in this city, having
at one time been pastor of the Louis-
ville Methodist church. His many
friends in the city will be pleased to
learn that he is meeting with much
success in London.

HE PAID THE LAST PENALTY

Rice Went to the Gallows this
Morning Firm and
Calm.

Illinois Robber and Murderer
Made a Fruitless Fight
For Commutation.

Special to The Planet.

Toronto, July 18. — Fred Lee Rice
was hanged here to-day for the mur-
der of Constable William Boyd, on
June 4, 1901.

Rice went to the scaffold without
an apparent tremor. He spent most
of yesterday with his spiritual ad-
viser.

After a good night's rest and a
light breakfast he again resumed
prayer, spending the time with his
spiritual adviser until the arrival of
Hangman Radcliffe. His pulse stop-
ped beating 12 minutes after the
drop.

Rice's body will be handed over to
the young man's mother, who is now
in the city, and will be taken by her
to her home in Champaign, Ill., for
interment.

Toronto, July 18, 1 a. m. — This
morning Fred Lee Rice will pay the
death penalty for the murder of
County Constable William Boyd, and
of the five men who were in the hack
on that memorable evening of June 4th
1901, when the revolvers were thrown
into the hack by an unknown man,
but one will remain. That man is
County Constable Walter Stewart.

Close upon the concerted attack of the
trio, and the taking of Boyd's life, was
Rice, Jones, alias Ryan, and Rut-
ledge were fleeing, a bid from a re-
volver in the hands of Constable Ste-
wart hit Jones and his death ensued at
the hospital. Then came the sensa-
tional suicide of Rutledge by jumping
from the upper balcony at the jail, and
now Rice goes to the scaffold, the only
one of the three prisoners to pay the
penalty of the law.

Though within a few hours of his
death, Rice retains his composure. He
said yesterday that the scaffold had no
terrors for him, but the shame that
was brought upon his mother was
what affected him.

Mrs. Rice and her daughter spent
last night at the home of Mr. Robert
Hall, city missionary, the spiritual ad-
viser of Rice, to whom the condemned
man has been greatly attached.

MOTHER TO GET BODY.

Through the instrumentality of Mr.
T. C. Robbette, an order to the sheriff
was signed by Acting Premier Har-
court last night that the body be given
over to the mother. It will be taken
to Champaign, Illinois, for burial in
the family plot. This order was secur-
ed only after the most strenuous argu-
ment before the Ontario cabinet yester-
day afternoon and evening by Mr.
Robbette. The great obstacle which
had to be overcome was the precedent
established in 1890, when Sir Oliver
Mowat declined the request to have
the body of Reginald Birchall, the
Woodstock murderer, buried in his
home in Quebec. Rice's counsel pointed
out that in Quebec the body was
handed over to the relatives, and the
Ontario law should be amended in ac-
cordance with that in Quebec. Yes-
terday's action of the cabinet may re-
sult in this amendment being made.

Another departure from the course
usually pursued in the case of the con-
demned is that there will be no
post-mortem examination. That
Rice's body is not to be buried in the
jail yard will doubtless meet with the
satisfaction of the general public, but
the mother and sister it has met a
response of sincere gratitude.

APPROACHED SIR WILFRID.

It is learned from an official source
in the United States that the authori-
ties of the State Department at Wash-
ington made representations to Sir
Wilfrid Laurier at London, in the hope
of saving the life of Rice. There ef-
forts, however, unavailing.

Sir Wilfrid telling the ground that the
case was not one in which Executive
clemency could be exercised.

The bell at St. Lawrence market will
toll the death knell for the execution
of Rice from 7.45 a. m. to 8.15 a. m.
Against this doleful demonstration and
that of raising the black flag, as was
the case just previous to the hanging
of Williams, numerous complaints are
being made by residents in the east
end on the ground that the practice
is a relic of barbarism. Mr. Robbette
said no provision for either of these
was made in the code of 1902.

RESIGNED TO HIS FATE.

Rice is resigned to his fate, and
would, he said, make no effort to end
his own life, even should the oppor-
tunity offer, which, however, was not
likely, as guards have been constant-
ly with him, keeping close watch over
his every action. The condemned man
realizes his position, and is prepared
for the end. He spent the greater
part of yesterday with his spiritual
adviser. He expressed great concern
for the future peace of mind of his
mother. His attitude is entirely dif-
ferent from what it was at the time
of his assertion that no rope would
ever be placed around his neck. He
is quite penitent and his concern for
his welfare in the next world has
brought about his altered frame of
mind.

Six years ago Fred Lee Rice was
the pride of his family in their happy
home four miles from Champaign,
Illinois. Fred was an only son, and
had been carefully educated by his
parents, who were then well-to-do.
He was secretary of the telephone

Chief Pritchard was a busy man last night. The lightning burned out the fuse in the tapper in Fireman Side's house, last night, and as a result of the circuit being broken the bell gave a number of rings. It was thought at first that there was a fire, but the cause of the bell ringing was soon found out and remedied. The tapper at the waterworks station was also out of gear, but was also soon repaired.

Michael O'Halloran, an old resident of Bothwell, was in the city yesterday calling on James Marshall, Queen St. Mr. O'Halloran lives just outside of Bothwell, and was born in Ireland in 1813, coming to this country in 1841.

He has good sight and hearing and transacts his own business. His memory is almost perfect and he is this morning related many instances in his youngest life. He has done well in this country and is quite well off.

The giant hippopotamus with the Adam Forepaugh and Sells Bros. consolidated shows has grown so large that a new den had to be constructed for his mightiness to ride in. It is the largest ever built and is handled by a team of twenty horses. The utmost care must be taken in loading it on the show trains because of its enormous size. The beast continues to grow and there seems to be no limit to his ultimate size. Already he is larger in the body than a majority of elephants. He easily is the leading feature of a wonderfully complete menagerie carried with the consolidation. It will exhibit here on Saturday, July 19.

At the face-off O'Brien secured the ball and started down the field until stopped by Bennett and Fetterly, the latter securing the ball and sending it to the other end of the field, where it landed in Knight's stick and was thrown back. It was at this point that Wilson made a beautiful one-hand catch and the ball returned to the Blenheim end, but to no avail, as the Blenheim defense was almost perfect. It was now Blenheim's turn to secure the ball and by some excellent combination work on the part of O'Brien and Shillington the ball got into the stick of McCallum, who shot Blenheim's first goal.

After the face-off the ball again wandered down into Chatham territory, where several hard rushes were stopped and some good stops made by "Judge" Richards in goal before the ball went between the flags on a good shot off Shillington's stick. As time was called for the first quarter the

game was played throughout under protest. The player who assisted the Wallaceburg team in their game here last week, when he masqueraded under the name of Wilson, appeared with Blenheim yesterday, this time giving his own name, O'Brien of the London team. He made a somewhat sorry exhibition compared with his work of a week before, Fetterly literally playing him to a standstill in their various encounters. O'Brien is a very fair player, but is easily discounted by such speedy stick-handlers as little Nonie Shillington or Frank Knight.

The game was a gentlemanly one and was very enjoyable. The Blenheim players, while hard checks and vigorous workers, are fair and sportsmanlike in their conduct and the spectators joined heartily in the cheers which they were accorded at the close.

WORLD OF SPORT

LACROSSE

LANDED THE CUP.
"Well, well," commented a gloomy city spectator to Walter Elliott after Blenheim had scored their third consecutive goal in yesterday's lacrosse match and Chatham failed to get a look-in, "well, well, they've got you badly this time!"

The big point man turned round and smiled good naturedly.

"Nothing of the kind," he answered cheerily. "The Blenheim boys are very fast and clever and we've learned to expect their rushing start. But they'll fade. They never hold the pace, while our fellows are stayers. Watch Chatham's finish and keep up your spirits."

The sturdy defence player had the situation sized and, as he predicted, Chatham turned the trick in a long and stubborn contest.

The boys from the Harwich town are unmistakably the prettier players. They started with a delicious dash, and their clever stick-handling, clean combination and wonderful speed made the Chatham boys look like counterfeit coin for the first and second quarters. In the parlance of the small boy Blenheim "played rings around" the home players, scored three goals, and after the other, and would have had more but for the good work of Richards between the flags. The large throng of Blenheim enthusiasts made the Park ring with their applause.

But gradually, as the game progressed, Chatham's weight and superior staying powers began to assert themselves. From the vicinity of the counterfeit coin for the first and second quarters. In the parlance of the small boy Blenheim "played rings around" the home players, scored three goals, and after the other, and would have had more but for the good work of Richards between the flags. The large throng of Blenheim enthusiasts made the Park ring with their applause.

A few moments before time Blenheim made a magnificent spurt and tied the score. The whistle blew. Referee Winters ordered a continuance of the game and the teams again took their places, a protest being filed by H. L. Brackin on behalf of the Chatham club. Ten minutes later Chatham added the winning goal.

The game was played throughout under protest. ball was hovering in the vicinity of the Blenheim goal.

The second quarter opened up with a fusillade on Chatham's goal, and Stevenson scored Blenheim's third goal.

Blenheim stock had now gone up, and their many enthusiastic backers ran around offering large odds.

In exactly one-half minute after the face-off Chatham scored its first goal. "Non" Shillington was accidentally struck on the head by Richards.

The little fellow was laid out for some minutes, but pluckily resumed the game and seemed to play even better than he had previously. So, at the end of the first half the score stood three to two in favor of Blenheim.

After a short interval play was resumed and the hard fight continued. Four minutes of the third quarter had elapsed when, by pretty passes among the home players, Angus, Brundage and McLeod, the ball snatched into the net of the Blenheim goal, and the score was tied.

By some very clever stick-work McLeod carried the ball down the field and scored the fourth goal for our boys, and when the last quarter began the score stood four to three in Chatham's favor.

The Kents right at the face-off worked their hardest, keeping the ball at Chatham, end and showering shots at "Judge" Richards. He made some beautiful stops, until at last Baird succeeded in pulling the ball between the poles in a scrimmage, making the score four-four.

It was now a battle to the bitter end, and never did Romans and Greeks fight harder than did the noble thirteen—the field captains worked as hard as the men—in yesterday's game. Near the end Angus had a good shot on goal, but it missed by a hair's breadth. Notwithstanding the hard play neither side had scored again before time was up.

A discussion now arose as to whether Chatham had to play extra time or not, but, according to the rules, the referee held he had the power to make them play any time, not exceeding 30 minutes. The referee then ordered 20 minutes' straight play, counting all stops. About ten minutes of the last quarter elapsed when by good combination and passes McLeod shot the winning goal.

After the face-off for the last goal Blenheim rushed down, only to be stopped by the good play of Elliott and Coupland, and when time was called no more goals had been scored, leaving it a splendid victory for Chatham by 5 to 4.

Referee Winters gave satisfaction in almost all his decisions. Sam Courtney and Wm. Geroe acted as time-keepers.

The scoring was as follows:—
1—Blenheim, by McCallum.
2—Blenheim, by Shillington.
3—Blenheim, by Stevenson.
4—Chatham, by Angus.
5—Chatham, by Brundage.
6—Chatham, by Wilson.
7—Chatham, by McGee.
8—Blenheim, by Baird.
9—Chatham, by McLeod.

Following was the line-up:—

GOAL SHOTS.
McKee is a whirlwind.
Now it's seven straight!
Elliott is a team in himself.
"Judge" made some fine stops.
Cramps seemed to be contagious.
The Standard Bank trio, Elliott, McLeod and McKee, cannot be beaten.

Much credit belongs to Blenheim. Their combination work was brilliant.
Chatham won the cup—and won it with her own boys. Here's looking at you!

The cup is ours! Let's fill it to the brim and drink to the health of the Chatham Lacrosse Club.
Wilson, Sowerby, Angus and the two Macs were responsible for many a pretty piece of combination.

The collection and tickets sold amounted to \$34.35, and the executive desire to thank those who assisted.

As a consistent worker and brilliant stick-handler, Frank Knight, of Blenheim, stands in a class by himself.

Officers Dezella and Dodson and Fire Chief Pritchard deserve congratulations on the order maintained in keeping the crowd back.

Ald. Fleming and S. J. Courtney each presented Field Captain Sheldon with a box of cigars for the Chatham team on their victory yesterday.

Mr. O'Brien, alias Wilson, alias Burke, was again seen on the Chatham field, but his pretty playing was considerably marred by Fetterly's good work.

That combination between Elliott and Coupland down by the Chatham goal may be the game, but it's very hard on the nerves of the spectators.

Dr. A. W. Thornton, one of the most enthusiastic supporters of the club, kept the players in excellent spirits by coaching, while he kept them in good condition with fine lemons at his own expense.

There was no more enthusiastic citizen in the throng than Caretaker Arthur Green. "I'm proud of the boys—real proud of them," he declared.

MRS. URQUHART LEE.

She Teaches Parliamentary Law at the University of California.

Mrs. Urquhart Lee of Chicago, who holds the chair of parliamentary law at the University of California, is the first woman in the country to undertake the teaching of parliamentary law.

Mrs. Lee is no novice at her present work. She was president of the Post Parliamentary Law club of Chicago before she took her present position in the California university and through her efforts in that organization became well known to the bench.

Mrs. Lee went to the Pacific coast with high indorsements and with ex-Speaker Reed's recommendation.

Members of congress, bishops, mayors of large cities, clergymen, attorneys at law, women of note, leaders of commercial bodies, high officials of secret societies who had been led by Mrs. Lee through the mazes of parliamentary law and who had been instructed by her in the science of conducting an assembly were all enthusiastic in their praise of her.

Hon. Thomas B. Reed, besides speaking in the highest terms of her skill

MRS. URQUHART LEE.

as a parliamentarian, also indorsed her little book on parliamentary practice, which is high praise indeed, coming from one who himself is the author of a manual of parliamentary rules of order.

"Women are peculiarly fitted to correct parliamentary usage," says Mrs. Lee.

"Part of the work is quickness and keenness of mind, qualities in which women excel. There is also a positive value to women in parliamentary practice.

"In the women's clubs it is absolutely necessary for the expeditions disposal of business; but, outside of that, parliamentary law gives women the just and judicial mind; it teaches them to do things in order; it corrects the tendency to personal prejudice; and does away with the possibility of stir chamber proceedings."

From under Mrs. Lee's tutelage have emerged some of the most expert women parliamentarians of this or any other age.

For some years Mrs. Lee was president of the Chicago Post Parliamentary club, which numbered among its members Mrs. Potter Palmer, Mrs. E. M. Honroth, Mrs. Franklin MacVeagh, Mrs. Daniel Manning and Mrs. Cyrus H. McCormick.

Since Mrs. Lee's advent upon the Pacific coast she has formed law classes outside of the university among the society women of the town—Philadelphia Press.

Soft, Red Lips.

Soft, red lips add greatly to a woman's appearance, and when they part over even, pearly teeth a face cannot but be attractive, even though the rest of the features be not as faultlessly classed as those of a Greek goddess or the complexion be lacking in that white transparency so eagerly sought after by the besighted multitude.

It is the girl with the full red lips and regular, white teeth, whose smiles chase one another across the landscape of her countenance as merrily as a fire-dances over the field of a summer's evening, who has the lovable disposition and a mind free from petty jealousies and spite. This is the girl we all love to look at.

When once the lips have permanently fallen into certain lines, it is difficult to change their shape. Still, whatever its shape or defects, a mouth may be improved upon and made more attractive, if in no other way, by cultivating a pleasing expression. That lift to the lips which Hardy gave to his Tess is bewitching, and in its quick upward movement expresses the same sentiment that a Parisienne voices in a shrug of the shoulders.

A mouth need not be small to be beautiful. Indeed, in a large mouth the lips are usually finer and more expressive, but they must be taken care of. Biting them to make them red will make them coarse and thick.

A Field For Women.
Cleansing wearing apparel is so simple that one has no excuse to wear soiled garments. For men there are companies which press and clean garments and make small repairs with regularity of time and payment. In time some enterprising woman will start a similar business for women, charging a monthly price for cleaning and pressing and needed stitches and perhaps something extra for repairs like bindings and belts, fresh bows and loops and collar and sleeve facings. She would charge for the materials used, of course, and a sum pro-

portionate to the other charges for the work.

There will be a good living in such a business if the woman understands the work and can do it in a professional manner. This is one of the fields of labor which women have missed in the past, just as reliable dressmakers are continually missing good opportunities. There are many, many women who have searched in vain for workers who cut and fit carefully and sew neatly—women who can copy designs from fashion books, who will use up whatever materials are offered them and turn out satisfactory results—reasonably satisfactory, I mean. Only the few can afford the expensive modistes, yet they seem to be the only ones to be found in an emergency.—Boston Traveler.

Religion in Our Daily Lives.

There are a few ordained women who have made religion their life work, but there are too few women who make their life work a religion. We provide books for Sunday schools and for free libraries, but how many of us ever think of furnishing books for our own servants—books which could be of help to them, which would provide an evening's refreshment for their minds while their days of manual labor? In the mapping out of domestic arrangements many of us thoughtlessly have the heaviest cooking and do the most entertaining on the day of the week set apart as a day of rest. Nor can we escape the difficulty by ordering our Sunday meals from the caterers, since we thus become responsible for the Sunday labor exacted from employees. Would it not be well to have plain living and high thinking at least once a week?—Mrs. Frederick Nathan in Woman's Home Companion.

Health of the Clever Girl.

The clever girl is not as a rule a sturdy girl. Under stress and difficulty she becomes irritable. If the strain be prolonged, she either backs out or breaks down. To be sure, her cleverness often enables her to do quickly what it takes her less excitable sisters longer to accomplish; but, take the clever girl as a whole, we are apt to find her efforts fragmentary, her course zigzag and her goal uncertain. But in the battle for life, alike for woman and for man, it is grit that wins.

There is no reason why a clever girl should not become physically as strong as one who is not clever, because a naturally delicate constitution may be hardened and rendered fit by proper training.

Lamp Shade Fringes.

Deep fringe shades depending from gas or lamp shades are extremely effective. They are usually made from beads of a single color and of a cut variety if possible, though the plain round glass bead about the size of a ball headed black pin is much used. Some made of these beads of a deep rose color became under the gaslight a brilliant accessory to a bell shade of metal that concentrated the light from a chandelier suspended over a dining

table. To add this fringe to the shade of a lamp intended for a wedding or other gift imparts the valued personal touch and is easily accomplished by even the amateur worker.

The Marrying Age Advancing.
A writer in Truth remarks that the marrying age in society is steadily advancing. Mothers now advise their daughters not to think of marrying until they are twenty-five at least, whereas in the old days it was regarded as a maternal achievement if the girls were all married off before they were twenty. The age of thirty-two is not now an unusual one for a woman to marry at, but some fifteen or twenty years since she would at that age have been regarded as hopelessly an old maid and would probably have been wearing a cap!

Smooth Folded Garments.
The housekeeper who lacks for hanging space for garments often bewails the creases acquired by folding. This trouble may be greatly obviated if newspapers are laid on the garment and folded with it before putting away. Papers laid between the folds have the same effect. It is also said that beeswax broken in small pieces and put between the folds of white silks and woollens which are to be laid away for a length of time will overcome a tendency toward yellowness.

Faucets.
Faucets should not "drip" after being closed. If they do, it indicates that they require new packing, which should be supplied by a plumber. There is nothing objectionable about the dripping except the annoyance. The waste pipes should be supplied with the requisite plugs attached by chains.

Hot Ham Sandwiches.
Every one likes hot ham sandwiches. Spread small, thin slices of bread with chopped ham that has been seasoned with made mustard; press sandwiches together, put one beaten egg into half cupful of milk and dip each sandwich into this; fry the sandwiches in hot butter, drain on paper and serve hot.

A few drops of oil of lavender poured into a glass of very hot water will purify the air of a room almost instantly from cooking odors and is especially refreshing in a sickroom.

No matter how small the income, a small sum should be put aside regularly for purchasing a home or for the proverbial rainy day.

JUBILATE DEO.

Thanksgiving at the return of Peace in South Africa.

Praise ye the Lord!
Unto our God lift up your voice!
Sing! For His word
Laden with victory hath been spoken,
Sound ye His praise,
Letting the heart and tongue rejoice!
Every tone of song
Doth holy praise proclaim,
Exalting His name
He hath been merciful and kind
Till of His love!
We have been ever in His mind;
His gifts excel:
Evil and wrong doth He quell,
Lovingly sing:
God is the King,
He doth all things well.

Refrain:
Loyal! then do we adore Him:
He hath imperiled our days;
Ours are the victories won;
Greater Britain bends low before Him,
Worshipping at the ways;
So we bring our wreaths and garlands,
Songs and praise.

Great is the Lord!
Marvelous truths by Him are taught;
Exalt His name!
He hath delight in our devotion;
His plans are wise;
National good His hand hath wrought;
Sundered and far apart,
He maketh one heart,
Sing unto God!
He hath made known His righteous will;
Our God is strong!
He hath been wisdom, might and skill;
Blood is the seal;
Ours hath been poured for the world.
Trustingly sing:
God is the King,
He doth all wounds heal.

Proclaim the joy,
Far over prairie, vale and main;
Raise high the anthem everlasting:
Wide as the world,
Rule of men doth Britain reign;
Great nations welded one
North Africa's burning sun,
Ring all the bells!
Circle the lands with cheer and chime!
Sweep every tone
Thrilling the harmonies of time;
Keep jubilee
On every shore and sea;
Joyfully sing:
God is the King,
Whom praise the flag floats free.

The Souls He Saved.
The pastor called at a Columbus home the other day, where little Freddie, a bright youngster, is a great pet. Freddie had previously heard his mother say that the pastor was very successful in saving souls.
During a pause in the conversation Freddie, who was sitting on the pastor's knee, asked:
"Do you save souls?"
"Yes, Freddie," replied the man of the cloth.
"Will you tell me," went on Freddie seriously, "how many souls you got saved up?"

POPULAR LINEN DRESSES.

They Are Made With Strapped Bodices and Trimmed With Coarse Lace.

Linen dresses are to be very smart this summer. There is a new shade of reseau green much used for dresses of this kind. It is trimmed with heavy white lace and touches of black velvet.

Linen dresses are made with fairly long skirts heavily strapped and are worn with Russian blouses decorated with lace or the smartest of coats with Irish crocheted collars. Scarlet and navy blue are perhaps the most useful shades, but there is just now a demand for purple and mauve, which make up charmingly with ecru lace.

A linen dress is harder to make than one thinks, and many a beautiful piece

LINEN SUITE.

Material has been spoiled by a sagging skirt and a sloppy looking waist. Linen requires careful fitting and accurately stitched seams to look at all well after even a couple of washings.

A very smart linen suit is shown in the illustration. The material is striped ecru and white, and it is trimmed with strapped applications of plain ecru linen. The blouse has a collar of all over lace over a pale blue foundation.

With this is worn a waist of tucked batiste, a pale blue sunshade and a hat of black and white straw trimmed with a pale blue and a tan ostrich feather.

fountains that many net and gauze skirts are covered almost to the waist with tiny frills. Tunic draperies are aptly tucked or alternately tucked and inserted from the top of the skirt, and fountains or frills of varying dimensions surround the hem.

Glaze or satin slips are usually made with a separate founce, but so arranged with a stitched strap over the waist that the effect is almost that of a plain skirt, but the edge is extremely full, and the back spreads out well. The heavier makes of Roman satin form delightful slips for the present limp trailing fashion of skirts, and with one in white or cream and another in black several variations can be effected with transparent robes.

This dainty muslin gown has both waist and skirt tucked in a down point. The sleeves are at the elbow and are supplemented by undersleeves of tucked white muslin. The neck is collarless, and the wide founce at the bottom of the skirt is headed and edged by two narrow founces. The costume is trimmed with perpendicular bands of lace insertion.

Valuable Advice to Rheumatics

Eat meat sparingly, and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nervine as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25 cent bottle today, test it, and see if this is not so. Polson's Nervine always cures rheumatism.

As an additional precaution against robbery watch dogs are to be purchased to accompany the guardians of the Louvre at Paris on their nightly rounds.

When a boy turns his bulging pocket inside out we wonder at the quantity and variety of articles he has stowed away. Odd lengths of string, marbles, a top, a whistle, a top, brass nails, hickory-nuts, an apple, and many more articles are garnered by this "snapper up of unconsumed trifles." We think of an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. The Lament of the Adult.

IN one of Dickens's novels—those novels which we are tearfully assured nowadays are not in the least funny—an ungrateful brick-maker rejects the little volume which has been brought him, because "it's a book fit for a baby, and I'm not a baby. If you was to leave me a doll, I shouldn't nurse it."

Something of this ungrateful spirit stirs within our middle-aged hearts when we read a modern story, or see a modern play. It is probably the oldest kind of a story, and the nicest kind of a play, and if we were only fourteen instead of forty, or fifteen instead of fifty, we should thoroughly enjoy them both. Nothing is better calculated to make us regret our lost youth than fiction and the drama as they exist today. With what glorious emotions we should have dilated in childhood over Mr. Crockett's desperate brigades, or Miss Johnston's dauntless heroines. How we should have steeped ourselves—aggravatingly speaking—in gore, and revelled in romance. Sicilian bandits, noble Indians, cruel half-breeds, courtly villains and heroines of wild, untutored beauty—time was when these things made our pulses jump. But now seventeen murders excite us less than one, and duels are no longer the thrilling episodes they were in the happy past. It is hard to grow old, and it is made harder by the fact that nobody, save one's family doctor, has anything untidily betsy-time was when these things made our pulses jump. But now seventeen murders excite us less than one, and duels are no longer the thrilling episodes they were in the happy past. WERE WEDDED

Pretty Ceremony Which United Two Popular Young People—Many Fine Gifts.

The home of Mr. and Mrs. E. C. Scarlett, 12th conception, Howard, presented a very pretty appearance Wednesday afternoon when Miss Bella Wells was united in marriage to D. C. Blackburn, of this city. The ceremony was performed by Rev. J. F. Sutcliffe, at 2:30 p. m.

As the bridal party entered the parlor, which was beautifully decorated for the occasion, Miss Bartha Shaw played Mendelssohn's wedding march. The bride was attired in white India muslin with lace and satin ribbon and carried a large bouquet of white carnations and ferns. The bridesmaids, Miss Pearl Everett and Miss Mabel Tegan, were robed in white batiste, trimmed with white medallions and carried pink carnations. The groom was supported by H. Merritt, of Dover. Both bride and groom are well known in the city, the latter being employed in Austin's store.

The following guests were present—Mr. and Mrs. N. M. Blackburn, of Chatham; J. H. Blackburn, Chatham; Geo. Finlay, Chatham; Mrs. Wm. Finlay, Chatham; Mr. and Mrs. W. Arnold, Morpeth; Mr. and Mrs. Cummings, of Howard; Bertha Chapman, Chatham; Nora Chapman, Chatham; H. Merritt, Dover; Grace Tegan, Detroit; Mabel Tegan, Detroit; Mrs. Geo. Tegan, Detroit.
