The copy filmed here has been reproduced thanks to the generosity of:

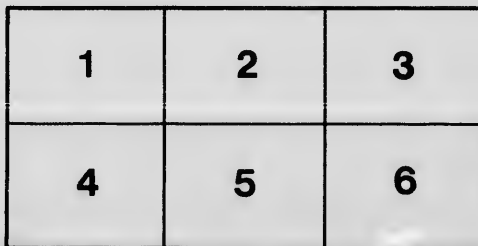

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

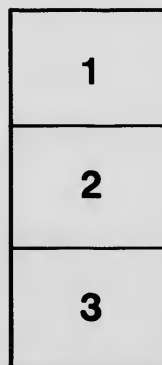

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

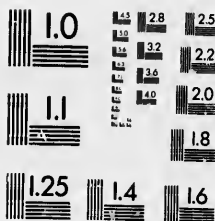

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

A FEW POINTS TO BE OBSERVED WHEN ORDERING GOODS.

Being Publishers, Manufacturers, and Importers of all kinds of Music, Musical Instruments, and Trimmings for same, everything is produced or purchased at the least possible cost, and all articles are retailed at close net prices, it being possible, in conducting a business of this character, to sell goods for less money than they could be purchased for elsewhere.

We do not misrepresent goods, but tell in plain words what they are, and then guarantee that they will be found as represented.

Our methods have won our immense trade, and fair treatment has retained it.

We honestly endeavour to satisfy every reasonable demand, and have spared neither time nor money to please every customer. The most satisfactory proof to us that we have succeeded is the tremendous growth of our business, which stands without a parallel among the business enterprises of its kind in this country.

We treat our customers in a manner calculated to secure their permanent patronage, and consider that a well satisfied customer is the best advertisement we can have.

We want to do business with you. A trial order will convince you, as it has thousands of others, that we can supply your wants in a satisfactory manner and at lower prices than you can possibly secure elsewhere.

Distance makes no difference. We can serve you at any time and in any place. Our goods go everywhere, and we sell everything in the MUSIC AND MUSICAL INSTRUMENT line. No matter how small your order may be, it will receive the same prompt and careful attention as if it were ever so large.

WRITING ORDERS.—When sending orders, always write plainly your **Name, Post Office and Province.** state exact amount of money enclosed, and whether you want goods sent by Express, Freight or Mail. When shipping instructions are not given, we use our best judgment as to the cheapest mode of sending.

Occasionally our customers forget to sign their names to orders and letters. Don't make such a mistake.

TERMS.—Money must accompany all orders. It is only a waste of time to order goods unless you send the money. Our SILENT SALESMAN will do about ten men's work. Its transportation from Toronto to you is two cents. Now, a five-cent salesman who does ten men's work can afford to sell cheap; therefore, it is necessary to have the cash with the order.

HOW TO SEND MONEY.—We prefer that money be sent us by Post-office Order, Express Money Order, Cash by Express, Bank Draft; but, when impossible to do this, send by Registered Letter. **AVOID SENDING MONEY UNREGISTERED.** Amounts less than \$1 may be enclosed in postage stamps.

Address all communications to

The Regina Music Boxes

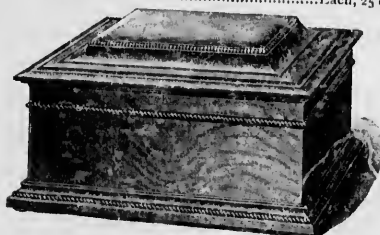

AN AMERICAN-MADE MUSIC BOX, WITH INTERCHANGEABLE MUSIC DISCS

The principle of having each tune cut or stamped upon a separate metal disc is the means of making a single Music Box of this class capable of playing thousands of different airs. This new invention has met with such phenomenal success as to have virtually transplanted the musical box industry from Switzerland to America. New Tunes heard upon the stage or concert hall are added from week to week, thus the REGINA MUSICAL BOX is always fresh and up-to-date, and the purchaser does not have a chance to tire of its selections. Some styles of Regina not only entertain, but can be made money-earners by the addition of the Coin Drop.

Zobo

A WORD WITH YOU.

The Zobo has been out but a few months, yet nearly 50,000 Zobos, Zobo Cornetts, etc., are now in use. It is impossible to adequately describe the manner in which the Zobo takes with the people, or the unlimited possibilities of the little instrument. It is not a toy for the street boy, but finds its way into homes of all classes of society. For home amusement, church or society entertainments, street parades, "high old times," on the stage, for dancing, for quartettes, choruses, solos, or duets, in bands and orchestras, anywhere and everywhere it finds a place and furnishes entertainment.

Improved Comic Vocophones

WITH PISTONS. COVERED WITH SILVER PAPER.

The Vocophones are an imitation in shape of different musical instruments used by Bands and Orchestras. They are made of a composition of paper fabric, wood, etc., giving them extreme lightness combined with durability. The name "Vocophone" signifies that the tones they bring forth are produced by the human voice, and it is from this very fact that any person who can sing can play them. Can be used for the same purposes as the Zobo.

CLARINET SCALE.

Every Clarinet player requires our new Clarinet Scale, which includes forty-five examples on the use of the extra "C" sharp and "B" flat keys. Since these improvements have been added to Clarinets hundreds of inquiries have been made concerning the best and various uses to be made of these Keys, which is absolutely indispensable to all persons having a Clarinet with the additional improved Keys. Clarinet players making themselves familiar with those examples would find them most advantageous when brought in contact with the difficulties frequently met with.
