

LIFE IN THE VALLEY TOWN.

Record of Boozing Told at the Assize Court

In Highway Robbery Case Heard This Morning.

To-day's Sessions Were Devoted to the Criminal Business.

Harry Patterson and James McInerney were before Justice Latchford, at the Spring Assize this morning, charged with highway robbery. It is alleged that they assaulted and robbed John Henderson. All parties reside in Dundas. Mr. W. H. S. Knowles appeared for the prisoners, who pleaded not guilty.

Henderson was called and told of the assault and robbery. Witness said he knew McInerney. On the night of the assault, he and the prisoners left Haley's Hotel, Dundas, at 11 o'clock. After walking about 200 yards, McInerney he swore, ran up behind him, put his knee in his back and threw him. Patterson then went through his pocket. Witness said that he wanted to know what they were doing this for, and was told to shut up. After taking the money and watch and chain the prisoners ran away. Witness said he received a cut in the head. He met McInerney later, and told him that he would not have him (McInerney), arrested if he gave the watch back.

Under cross-examination witness admitted that he had been drinking. Witness then made the remark, "After leaving Haley's he struck another hotel and I told the bartender to set up the drinks for all those present who were on the Indian list." "Who are the Indians," asked Mr. Knowles.

"I mean all those on the prohibited list," was the reply.

In reply to Mr. Knowles, witness said he did not have a drink of whiskey during the evening. He denied giving Patterson 35 cents to procure liquor.

In regard to the cut in the forehead, witness said he did not stumble and fall in the gutter, earlier in the evening.

John Henderson, junior, a lad about 12 years of age, was called and witness told of finding the watch on the front door step of his father's house. This occurred a couple of days later. It was wrapped in a red handkerchief and an old newspaper.

Joseph McKie, bartender at Haley's, said that he had seen everyone in the bar a drink, Indians and all.

Cross-examined by Mr. Knowles, witness said that Henderson went in about 9 o'clock. He stayed in the bar until it closed. Witness said that Patterson bought a flask. Witness was not sure that Henderson had had a drink that night.

Chief Twiss said that at the point where Henderson was assaulted and robbed there was no house within a distance of fifty yards. For the defence Edward Haley said Henderson was about half drunk. Witness said McInerney, Henderson and another man drinking out of a 40 cent flask of whiskey. Cross-examined by Mr. Arnoldi: "Do you spend your evenings in the hotel?"

"Some of them."

"Are you on the prohibited list?"

"No, I am not."

"He is just qualifying, Mr. Arnoldi," testifies remarked his lordship.

"Why didn't you have a drink?" continued Mr. Arnoldi.

"I guess I didn't have the price," replied the witness.

"Akims said he was in Haley's when Henderson entered. The Reynolds was called, and said he had three men, presumably Henderson, McInerney and Patterson, drinking out of a flask on the street."

"How do you know they were drunk?" asked Mr. Arnoldi.

"By the little manoeuvres of their feet," replied the witness.

James McInerney, one of the prisoners, was next called. He said he went into the bar at Henderson's general invitation for all to drink. After some time Henderson wanted to buy a flask of whiskey. Patterson got the whiskey, and the witness, together with Henderson and Patterson, drank it. Several more drinks followed in the hotel, and outside in the street. He denied that he and Patterson had followed Henderson and robbed him. Witness got home about twenty minutes after eleven. Next day he met Henderson, who accused witness of stealing his watch.

In reply to Mr. Arnoldi, witness stated that he had been convicted four times, and had served at different times one month to six years.

Harry Patterson, the other prisoner, corroborated the story of McInerney in regard to Henderson's state of drunkenness. Mr. Arnoldi called to the attention of Patterson the fact that he had been convicted three or four times of various serious offences.

Mrs. McInerney, wife of the prisoner, went on the stand and swore that she did not take the watch to the doorstep of the Henderson home and leave it there. She said that she went to the house, and asked Mr. Henderson if he had recovered the watch, and was told that he had.

Henderson was recalled and said that he did not have any drinks prior to the one he had had on the street after the bar in Haley's hotel was closed.

His lordship then adjourned the court until 1:30, when the addresses to the jury will be given.

THREE MONTHS IN JAIL.

Peter Nusser, an Italian, was before Judge Moxie this morning on a charge of attempting to stab James Grier. M. J. O'Reilly, K. C., appeared for the prisoner, and pleaded not guilty to the charge. There were six witnesses for the crown and three for the defence. The crown witnesses swore that they saw Nusser attempt to stab Grier. Nusser, on the stand, denied the story. His honor found the prisoner guilty, and sentenced him to three months in jail.

SUSTAINED CALL.

Toronto, Ont., March 2.—The Presbytery this morning sustained the call from Petros to Rev. John McNair, of Oakville.

DEVELOPMENTS SOON IN THE KINRADE CASE

NEW LEADER.

J. Herbert Summers Appointed by Wesley Church.

Wesley Church has been fortunate in securing the services of J. Herbert Summers as choirmaster. Mr. Summers has been the tenor soloist there for some months past, and has been giving every satisfaction. Recently Mrs. Sheffield, soprano soloist and leader, tendered her resignation, and the Music Committee selected Mr. Summers to fill the place. Mr. Summers is enthusiastic regarding the future of the choir, and has every reason to believe that it will be among the leaders within a short time. It has been recently re-organized. Mr. Summers will continue in the capacity of tenor soloist.

BOYS CAUGHT.

Broke \$50 Worth of Glass at Drill Hall.

Constable Cameron last night caught eighteen boys, ranging in age from 13 to 16 years, amusing themselves by throwing stones through the back windows of the old and new armories. The boys destroyed almost every window in the place, and the damage will amount to \$50 or more. The constable made a lucky catch and took eighteen names, one or two getting away from him, despite the fact that he was alone. The names were turned over to Col. E. W. W. Moore, and it is likely the boys will be summoned on charges of wilful damage if they or their parents do not pay for the damage done. Of late many complaints have been registered by the military authorities against boys throwing stones through their windows, and Constable Cameron pleased them mightily with the catch he made.

A BREACH.

Street Railway Union Divided on the Old Question.

A breach is threatened in the ranks of the Street Railwaymen's Union, owing to the action of the younger members who are anxious to have a clause inserted in the new agreement whereby they will be allowed more time off. At the meeting held last Saturday night this question was brought up but the proposition met with considerable opposition from the older members who contend that the men who have been longest in the employment of the company should get the major portion of the privileges. The question was put to vote and the old men won out by a majority of 34 votes. A few changes were made in the new agreement which will take effect on the first of April if approved by the company. A slight increase was asked for all around and an increase in the overtime scale for the young men. An effort will be made to get shorter hours.

HAS SUFFERED.

Fifty Per Cent. of Wheat in Niagara Winter Killed.

Beamsville, March 2.—(Special)—Fall wheat has gone through a terrible ordeal this winter, and it is estimated that fully fifty per cent. of it has gone under in the Niagara Peninsula. Many fields that looked promising in November have been badly touched up. On the whole wheat has been exposed steadily to alternate freezings and thaws from the middle of December, with no protection against the elements.

Gentlemen—Our Store Window

Will worth your attention the next few days. The sweeping reductions on suits, overcoats and hats will wind up this sale in ten days. Be sure and see the bargains—Fralick & Co., 13 and 15 James street north.

Police Authorities Made An Important Announcement To-day—The Case Not So Mysterious Now.

Miss Kinrade's Physician Thinks it Would be Unwise to Examine Her at the Inquest To-morrow Night.

Did Miss Kinrade Have a Vision of the Murderer When Being Examined by Detectives Yesterday?

THE POLICE THEORY.

THE THEORY ON WHICH THE POLICE ARE NOW WORKING AND WHICH THEY HAVE HOPES WILL PROVE PRODUCTIVE OF RESULTS IS THAT THE MURDERER CAME HERE FROM THE SOUTHERN STATES. THEY THINK THEY SEE A POSSIBLE MOTIVE FOR THE MURDER, BUT WILL NOT DISCUSS THE CASE. IT WILL PROBABLY TAKE SOME TIME TO FOLLOW UP THE DIFFERENT CLUES AND MAY NECESSITATE AN OFFICER GOING TO RICHMOND, VA.

Is the Kinrade murder mystery near a solution? There is reason to believe that it is, and the police practically promised this morning that there would be important developments perhaps in a week. This is a broader admission than they have made at any time since they have taken charge of the case. While they refuse to disclose what they have up their sleeve, they hint that the murder will not remain a mystery long. This is the first time they have publicly admitted that they had strong hopes of solving the case, and it is taken for granted that they have unearthed some new evidence that gives them a clue to the person who so foully murdered Ethel Kinrade.

Chief Smith, who yesterday afternoon declared very emphatically that he had his own conclusions, conclusions that could not be divulged at present, was very optimistic this morning. "There will be developments in the case, all right," he said, but further than that he declined to discuss it.

An officer who has been in close touch with the case from the start assured the Times this morning that the police were almost satisfied now they could clear the mystery. "There will not be any developments to-day," he said, "unless something unusual turns up, but there are sure to be developments."

From the way the police talk it looks as if they might intend making an arrest, but it is impossible to get any official confirmation of this. An officer who was present yesterday when Florence Kinrade was being examined declared to-day that there was no morbid curiosity, saying that the sisters had had a quarrel over a man in Virginia. They had a few words, but it was impossible to construe it into a quarrel. The members of the Kinrade family are leaving nothing undone to assist the police in untangling the mystery.

WHAT WILL INQUEST DISCLOSE? After the first twenty-four hours had passed without any solution of the murder mystery being in sight or any theory advanced that would seem to fit in with the stories which the police had been able to gather of the crime, the public mind began to turn to the inquest as the only means of getting the necessary information on which to base a theory that would hold together. Now the question is, "Will the chief witnesses be in a condition to be examined to-morrow night?"

Of course, Miss Florence Kinrade will be the chief witness. She has been in a state of hysteria almost ever since the shooting, whenever any reference was made to the deplorable crime, and has been under constant care of the family physician, Dr. James White. "I should very strongly advise against trying to examine her to-morrow," said Dr. White, when the Times asked about her condition to-day. "The sight of the crowd in the court room, the officers of the law and the grim old court would be almost sure to set her off again, and then nothing could be accomplished."

Yesterday there was a story around the streets, and it seemed to have reached almost everybody's lips, that the ordeal was proving too great a mental strain for Miss Kinrade and that she was likely to lose her reason. "Nothing of the kind," said her physician, when asked about it. "She becomes hysterical and that is all."

Mrs. Kinrade, mother of the dead girl, has been kept quiet ever since the tragedy. (Continued on Page 12.)

with the case from the start assured the Times this morning that the police were almost satisfied now they could clear the mystery. "There will not be any developments to-day," he said, "unless something unusual turns up, but there are sure to be developments."

"Nothing of the kind," said her physician, when asked about it. "She becomes hysterical and that is all."

Mrs. Kinrade, mother of the dead girl, has been kept quiet ever since the tragedy. (Continued on Page 12.)

QUEBEC HOUSE.

First Session of 13th Legislature Opened by Pelletier.

PREMIER GOUIN.

(Special Despatch to the Times.) Quebec, March 2.—The first session of the thirteenth Legislature of Quebec was opened this afternoon by Lieut.-Governor Pelletier. His Honor arrived from Spencerwood, escorted by mounted troops of the R. C. G. A. A summons was immediately sent to the members gathered in the Legislative Assembly to meet His Honor. Dr. G. Pelletier, of Sherbrooke, and Dr. C. F. Delage, of Quebec county, were proposed Premier and Sir Lomer Gouin as Speaker and Deputy Speaker respectively, and were duly elected. The Lieutenant-Governor then read the speech from the throne, in which much important legislation to be presented during the session was foreshadowed.

SAVED BY DOG.

Mrs. Driscoll's Bow-Wow Deserves Life-Saving Medal.

The sagacity displayed by some dumb animals is marvellous, and especially is wisdom noted in the common house dog. Last night a dog belonging to Mrs. M. Driscoll, who resides on the third floor of 46 1/2 James street north, saved several families from what might have been death by fire.

In the rooms above Winn's pool room about half a dozen different families are living, and Mrs. Driscoll and her dog occupy one apartment. This morning at about 1:20 Mrs. Driscoll was awakened by loud barking. She tried to quiet her dog, but it continued to bark, and rushed hither and thither in the room, and sniffed at cracks in the wall. Mrs. Driscoll got up to take a look around, and found that at each crack that the dog had been sniffing at smoke was filtering through. She awakened the rest of the roomers and all got out in safety, and an alarm was turned in. The fire was in the rooms occupied by St. Patrick's Club, started by a smouldering cigar stub. Damage to the extent of \$100 was done before the blaze was mastered, and Mr. Winn's ceiling, immediately under the club, was damaged slightly.

HE LAUGHS.

Inspector Birrell Says He Has Department's Approval.

"That was great hot air," said Inspector Birrell at Police Court this morning when he was asked about a contemporary's despatch yesterday from Toronto to the effect that he was to be fired and Detective Heakley appointed to his job.

"It is the work of that gang that has been working against me for some time," continued the inspector, "but don't let them get me started, or I'll tell something about them. I've been keeping my eyes open for the past eight or nine months."

The officer stated further that he was in Toronto on Friday last, and the heads of the license department expressed approval of and satisfaction with his work.

A GOOD STOP.

County Constable Springslead Made One To-day.

There was a wild runaway at Stoney Creek this morning and County Constable Springslead made a good stop. A team of horses belonging to Norman Pettit and drawing a milk wagon from which Pettit was delivering milk, became excited while Pettit was away, and dashed down the main street at Stoney Creek with only the three-year-old son of the owner to guide them. They collided with a post, and the wagon was turned over, and the milk spilled all over the little boy. His face was cut, but otherwise he was unharmed. The horses were stopped by Springslead, whose head was painfully bumped in the mixup.

Kindly Call

And sample the different qualities of Tetley's Tea which is being demonstrated at our store all of this week. We would be most pleased to have you call and bring your lady friends with you. Beautiful enameled canisters with every pound. Bain & Adams, 89, 91 King street east.

DR. LYLE FOR MODERATOR.

He Was Nominated by Hamilton Presbytery To-day.

Smithville Minister Accepts Call to Red Deer.

Rev. E. C. Curry Has Declined Call to Dunnville.

The regular bi-monthly meeting of the Hamilton Presbytery was held in Knox Sunday school to-day. The attendance was good, and much important business was transacted. Rev. S. H. Grey presided. The clerk intimated that Rev. E. C. Curry had declined a call to Dunnville. A letter was read from Rev. Dr. McIntyre, of Beausville, thanking the Presbytery for its letter of condolence in his bereavement in the loss of his wife. Rev. Dr. Fletcher presented a call from the congregation of Olds, in the Presbytery of Red Deer, Alberta, to Rev. F. D. Rossborough, of Smithville. The call was unanimous, the stipend \$1,000, a free house, and a four-weeks' vacation. Rev. A. E. Mitchell and J. B. Peain were heard in prosecuting the call on behalf of the Red Deer Presbytery. Messrs. Harker and Taylor, of Smithville, pleaded with the Presbytery not to grant the translation asked for. The call was then put into the hands of Rev. Mr. Rossborough, who, after referring to the happy relations which existed between his present congregation and himself, signified his intention of accepting the call, subject to the approval of the Presbytery. The translation was granted, to take effect after the 14th of this month. Rev. W. S. Wright was appointed to act as interim Moderator, and to declare the Smithville charge vacant, on Sabbath, March 21.

Rev. Dr. Smith presented the report of the Home Missions Committee, which was adopted.

On motion of Rev. Dr. Radcliff, seconded by Rev. John Crawford, Rev. Dr. Lyle was nominated for the Moderatorship of the General Assembly, which meets in Central Church on the first Wednesday in June.

A petition from Greensville was presented by Rev. Mr. Fisher, asking for the establishment of Presbyterian services there. A committee was appointed to look into the matter and report back at the next meeting.

The meeting then adjourned until this afternoon.

LEFT \$8,191.

How Philip VanSickle Divided Up His Estate.

There have been various stories going the rounds regarding the worth of the estate of the late Philip VanSickle, some estimating it at \$5,000 and some even less. According to the will, as seen this morning, the estate is valued at \$8,191.50. The estate is divided as follows:

Melita, Emmet and Martin VanSickle each receive one cow, valued at \$45.

Melita, Emmet, Elmer and Martin VanSickle receive one-seventh share of the residue of the estate, amounting to \$71.50 each. This amount is subject to certain provisions.

Melita and Martin VanSickle receive the Northwest 50 acres in common, valued at \$4,000.

Edgar VanSickle receives the northeast 25 acres of the northeast 50 acres, valued at \$1,000.

Seth VanSickle receives the southeast 22 1/2 acres of 145 acres, valued at \$787.50.

Marifland VanSickle receives the southwest 22 1/2 acres of 145 acres, valued at \$787.50.

The shares in the estate of Martin, Melita and Edgar VanSickle are to be ratably charged with a payment of \$250 to be made in cash to the said Melita. It is not ascertained whether or not the deceased's son and daughter, Martin and Melita VanSickle, predeceased the testator. If so, in default of issue, the specific devise to them will have lapsed into the residuary devise, and be distributable accordingly.

PHILIP MAURO.

Eminent Washington Lawyer Is to Speak Here.

Mr. Philip Mauro, the Washington lawyer, who will be in the Gospel Tabernacle to-morrow afternoon and evening, while addressing a large body of Bible students in Toronto, referred to the General Assembly now raging in that city, and stated that there was a lot of juggling with the word "science." He challenged any scientist to submit one scientific fact that in any way contradicts the teaching of the Bible. Mr. Mauro was for many years an avowed materialist and a devoted student of science, theosophy and occultism. His addresses are characterized by a clearness of thought and expression that makes it pleasant and edifying for his hearers.

FOREIGN BUYERS BACK.

R. McKay & Co.'s two buyers have returned from the semi-annual purchasing trip in the interests of the King street east big store. They visited every noted fashion and manufacturing centre both in Europe and on the continent in search of correct style goods for the coming spring season's business. Mr. R. McKay, head of the firm, reports making many splendid purchases, some as manufacturer's lots of every description at tremendous savings. Some are already arriving and will play a part in some of the most gigantic sales ever attempted in Hamilton, and it will pay the women of Hamilton to watch their advertisements in this paper announcing these big sales.

THE MAN IN OVERALLS

DAMAGED THE FURNITURE. Joseph Barrett's Spree Will Cost Him a Lot.

LITTLE WAIF IN BIG STORE. Two-Weeks-Old Baby Girl Abandoned Yesterday Afternoon.

Joseph Barrett, John street south, faced a serious charge this morning at Magistrate Jelfs' court. Barrett was charged with being drunk and pleaded guilty. He was fined \$2.

I can see that the Street Railway Company is ready to let a maximum spend a lot of money in improvements. I hope the City Council won't jump in and stop the business.

Mr. Edwin Mills, of the firm of Stanley Mills & Co., met with a decided surprise yesterday afternoon, a few minutes to closing time, when he found a tiny two weeks' old baby girl lying in one of the compartments of the clerks' room on the second floor.

"You can't do that. This is an indictable offence," said the magistrate. The idea of a charge of wilful damage being an indictable offence was something new to some attendants at the court. The indictment was made out at once and read, and it was shown in it that wilful damage to an extent of \$50 was indictable. Barrett pleaded guilty and elected to be tried by Magistrate Jelfs. He said he was working steadily and was willing to pay a stated sum every week as long as it would take to square up.

I have received a gilt-edged invitation to attend the opening of the new department store of Selfridge & Co., London, Eng., on March 15th. I don't think I could get my suit case packed in time to make the trip.

Mr. Mills was making his rounds shortly before closing time when he saw a small bundle on a seat in the room. Upon investigating he found the wee mite of a girl sleeping peacefully in scanty wraps. A pink flame-lettte dress, a crocheted hood, the usual swaddling clothes and a blanket wrapped around its feet were intended to protect the child, although it needed little protection in the cozy quarters where it had been left. Constable Campbell arrived shortly after the message was delivered to him and the child was still slumbering, and after it had received much handling the officer came to the conclusion that it was under the influence of some sleeping draught, as its sleep was altogether too deep.

This idea appealed to the court and Barrett was remanded for two days for sentence. If he and the complainant arrange the payment between them in the two days Barrett will be given his liberty.

This unhappy tragedy has given the yellow journalist and the camera fiend the time of their lives, and they have made the most of it. Last night the Hamilton Herald had the following editorial paragraph: "Not sympathy, but morbid curiosity, drew most of those five thousand people to the Kinrade home yesterday to witness the funeral of Miss Kinrade. What satisfaction could be obtained from a view of the coffin and the mourners and the hearse, it is hard to understand." Yet, may I ask the ghoul, what satisfaction could be obtained from a view of the coffin and the hearse pictured on its front page? It is hard to say.

Some time ago the police had about ten cases of child desertion on their hands in little more than ten weeks. It became a regular thing to get such reports once a week or so. Only a couple of these cases were ever unravelled.

James McFee, charged with being drunk and an "Indian" denied Inspector Birrell's allegation that he had been served with a notice that his booze was stopped. The inspector was equally positive that the notice had reached McFee. "It really doesn't matter," said Magistrate Jelfs, "you're drunk and you're fined \$20 or one month."

The net result of the snow by-law fines this winter would hardly pay for printing the summonses.

There was a wild runaway at Stoney Creek this morning and County Constable Springslead made a good stop. A team of horses belonging to Norman Pettit and drawing a milk wagon from which Pettit was delivering milk, became excited while Pettit was away, and dashed down the main street at Stoney Creek with only the three-year-old son of the owner to guide them.

Your throat may be rough and raspy or it may be slightly inflamed. We have just the thing to relieve all throat irritations. Rowntree's menthol and eucalyptus pastilles are for all incipient throat troubles. Sold at 15c per box, equally positive that the notice had reached McFee. "It really doesn't matter," said Magistrate Jelfs, "you're drunk and you're fined \$20 or one month."

Those ward foremen who are to be discharged might be retained for a year as consulting foremen. Don't they deserve consideration?

St. Catharines, Ont., March 2.—Thorold Town Council last evening decided to send the office of night policeman, which was abolished a year ago, and the old occupant of the position, Jacob Rueter, was re-instated.

Genuine Health Pipes. Alborio pipes are the cleanest and healthiest pipes to smoke and color quickly. They are sold in all shapes, with rubber mouthpieces, for 10 cents at peace's pipe store, 107 King street east.

March may now be expected to do the lion act at the close of its engagement.

NIGHT POLICEMAN. Thorold Wants New Fire Insurance Rating.

There was a wild runaway at Stoney Creek this morning and County Constable Springslead made a good stop. A team of horses belonging to Norman Pettit and drawing a milk wagon from which Pettit was delivering milk, became excited while Pettit was away, and dashed down the main street at Stoney Creek with only the three-year-old son of the owner to guide them.

The waterworks system having been completed the Council will ask the Canadian Fire Underwriters' Association to give the town a new rating on SAFETY DEPOSIT BOXES.

In this age of rush and push you must keep your name before the public. If you don't, the other fellow will have your trade. Business will come your way if you advertise in the TIMES

Use the Times for Wants, For Sales, To Lets—10 per word, Daily and Semi-Weekly. Special price for three and six insertions. Always on hand—For Sale, To Let and Boarding Cards for windows.

A FAIR TRIAL Is the only means of deciding whether you can save money by using our GENUINE GAS COKE We are not afraid of comparisons in price or quality. We know we have the cheapest fuel, and you'll know it if you try it. Phone No. 89 to-day. HAMILTON GAS LIGHT COMPANY PARK STREET NORTH

KELVIN The roads here are not in very good shape at present. Mrs. W. Smith was calling on friends here a few days ago. The Ladies' Aid of Harley were entertained at the Methodist parlour here recently. Quite a number from here attended a very pleasant birthday party at the residence of Mr. and Mrs. W. Lee on Tuesday night. Mrs. Fred Watson, of California, is spending a few weeks with Mr. and Mrs. William Watson, of this place. Mrs. William M. Robertson has returned home from Woodstock, where she has been spending a few days with relatives. A number from here attended Mr. Alton Fiddlin's auction sale on Monday afternoon. A grand social was held at the Methodist parlour here on Friday evening. It was a great success, and a nice sum of money was realized. Mr. and Mrs. M. Smith and children spent Saturday with Mrs. Smith's parents. A number here are sick with bad colds.

SMITHVILLE Rev. S. H. Sarkissian, of Binbrook, preached two very able and eloquent sermons in the Presbyterian Church here on Sabbath. A meeting of the Monck Farmers' Institute was held at Brant's Hall on Saturday last. The attendance was good, and the meetings were addressed by Mr. C. W. Nash, of Toronto; Mr. D. Z. Gibson, of Willow Grove, and Miss Yates, of Guelp. Mr. Nash took "Our Bites," and "Our Insect Pests;" Mr. Gibson, "Growing Corn and Fall Wheat," and Miss Yates, "Management of Poultry and Our Servants," as their subjects. Miss C. Lynch had charge of the musical part of the programme, and Mr. Marshall sang some solos. Mr. John Deans accompanied. Rev. S. H. Sarkissian gave his thrilling lecture on his escape from Armenia, and a sketch of the massacres by the Turks to a packed house on Monday evening. There was a fine musical programme, accompanied by the Smithville orchestra, and a really enjoyable time was spent. Must be a Best-Seller. "What do you think of my latest novel?" "It has my warmest sympathy." "What do you mean?" "It is the victim of a vile plot."—Boston Transcript.

GLANFORD Mr. and Mrs. George Armstrong are moving to Angola, where they intend to reside. The Epworth League of Mount Hope presented Mrs. L. Shafer with a gold-headed umbrella previous to her removal to her new home. Mr. Henry Reed is visiting relatives in Erin township. A baby girl arrived at the home of Mr. and Mrs. Charles Dalton on Thursday last. Mr. Richard White is moving into the house recently occupied by Mr. G. Armstrong. Whooping cough and pneumonia are quite prevalent in this locality. When Paw Was Sick. Doc Follabee thumped on his chest and said: "An' made paw stick out his tongue an' said: 'He didn't need nuthin'! He had in stock—' 'Just rest an' peace an' quiet,' says Doc. 'It's all T.P. needs an' paw took the twin An' Lizzie girl, too. An' Folliehar, too."

THE HAMILTON TIMES

TUESDAY, MARCH 2, 1909.

A PROVINCIAL CRIME.

Should the Legislature of a province be permitted by the abuse of its powers of legislation or should its Government be allowed to prostitute its executive powers, to encroach upon the property rights of individuals and to close the courts against them when they seek to obtain justice?

This, in brief, was the question discussed in the Commons last night on a motion by Mr. Clarke, M. P., P., calling for the correspondence and other documents relating to the application for the disallowance of Whitney's act whereby he took the Cobalt Lake Mining Company from one set of claimants and gave it to another, and denied the dispossessed access to the courts to test its rights.

The amount at issue is about a million dollars. Mr. Clarke did not attempt to pass judgment upon the rival claims; what he contended for was that the closing of the courts of justice against the men who alleged a wrong was an outrage and a violation of the first principles of freedom in British countries.

Mr. Aylesworth, Minister of Justice, pointed out that some length his reasons for advising the Government not to disallow the legislation. He frankly conceded that if the question had arisen before 1896 the legislation thus confiscating property without remuneration would have been disallowed, and he quoted largely from Chief Justice Draper, Sir John A. Macdonald and Hon. J. A. Oimmet to show that legislation interfering with private property rights without compensation was regarded as sufficient reason for disallowance.

Speaking for himself, Hon. Mr. Aylesworth declared these views of provincial rights: I believe that this principle is of greater importance to the welfare of the Dominion as a whole than even the sacredness of private rights or of property ownership. I am even willing to go so far as to say that a Provincial Legislature having, as is given to it by the British North America Act, full and absolute control over property and civil rights, might, if it saw fit to do so, repeal Magna Charta itself.

This, many will think, is the extreme view of the provincial rights theory. Given an unprincipled Government, and a subservient majority in the Legislature, it makes it possible for justice to be trampled; and it assumes that while on a trivial matter of policy respecting the chartering of a railway or a manufacturing industry the Dominion is justified in acting within the provincial sphere, its excess being "public policy," but that when the sacredness of the rights of property and the safeguard of an open court are attacked—when Magna Charta itself is virtually repealed—by the actions of a Provincial Legislature or Government, "public policy" does not require or permit the Federal Government to intervene.

We have always been a strong upholder of provincial rights; but we confess that we have always recognized limitations to the extent to which the theory should be carried; and we are unable to view the confiscation without compensation of private property and the denial of access to the courts to citizens who would seek redress as coming fairly within the description of provincial rights. To the mass of the honest people of the country it will present more the appearance of provincial wrong.

of civilization and freedom. Let it bear in mind that "Hours are long on the clock of fate." Our contemporary will probably not contend that Christianity should be abandoned because after eighteen centuries all the nations have not accepted it and made it the rule of their individual and national lives. The Golden Rule is said to be as old as Confucius, and yet some—a good many—men and nations still refuse to apply it to themselves. But Britain is not worrying. She follows her policy not only from conviction that it is right; she profits by it. And the right thing is always the best in the end.

BETTER DAYS FOR IRELAND.

We sometimes hear a good deal about the poverty of the Irish people, and Canadians are apt to conclude that the inhabitants of the Green Isle are sinking year by year into a condition little less than hopeless. Such a conclusion, however, is far from being warranted by the facts. Every evidence usually accepted as indicating progress in an improving direction exists to show that the Irish people are year by year becoming better off. The Irish joint stock bank reports show that the deposits and cash balances have increased every year since 1888, the year 1907 only excepted. In 1888 the amount was £30,310,000; in the year 1908 (June 30), it had increased to £50,596,000. That is a large sum of money, and the fact that there has been an almost unbroken return of increases for twenty years warrants the presumption that it fairly reflects general improvement in the condition of the people. Nor is the showing of the post-office savings bank figures less prosperous. In 1888 the deposits were £3,128,000; in 1908 they had risen to £10,637,000. They were £10,000 more in 1907, 1908 showing only decline in this long period. Here is, roughly speaking, \$306,000,000 in hard cash the deposits of the Irish people in these two classes of savings institutions. But that does not by any means exhaust the savings of our Irish friends. The Bank of Ireland pays out dividends upon no less a sum than £38,210,000 of Government funds, India and other stocks, all of which equal cash savings of the people. These three items total a savings reserve of about \$600,000,000, or about \$100 a head of the population. That is not the showing of a helpless and hopeless people. Ireland has made great progress since the days when Mr. Gladstone labored and vacillated to better her position. The amendment made to the land laws have resulted beneficially to the masses and there has been a steady advance toward meeting the reasonable demands of the country. Some very important legislation has hardly yet had time to show its beneficial effect in the published statistics; but we have every reason to expect that the result of it will be to confer still greater bonus upon Ireland and still further ameliorate the condition of its people.

EDITORIAL NOTES.

That \$2,000 reward looks tempting. Now we shall see what the sleuths can do to earn it. But don't let the tramp theory exclude all other possible explanations of the Herkimer street murder. While France shivers under a blizzard our farmers are shaping up for their spring work. Send word to Rudyard Kipling. Quit feeding tramps at the doors. Let the authorities lock them up and make them earn their keep by the sweat of their brows. The U. S. parcel post service to foreign countries will henceforth be practically uniform with a postage rate of 12c a pound and a weight limit of eleven pounds. The Roblin Government has now inadvertently confessed that it included in its 1908 telephone receipts over \$100,000 of rentals for a portion of 1909. People are getting to know how that telephone surplus was obtained. If Hamilton became known as the city which locked up tramps and vagrants and compelled them to work in the sewers and on the streets to pay for their food and lodging, it would be but a short time till they gave it a wide berth. Brick prices are said to have been reduced from 88.50 to 86. That ought to help to encourage building. Incidentally it ought to throw light on combine methods. The man who paid last year's prices was hit for about 4 1/2 per cent. tribute on his supply. The so-called Tariff Reformers, as the British protectionists call themselves, made a dead set to west. Forfarshire from the Liberals on Saturday, that constituency being opened by the raising of Mr. John Sinclair to the Peerage. The result was: Liberals, 6,422; Protectionists, 2,452. The Toronto Telegram parishes its "old-age pensions" as "the biggest glory in the history of the Laurier Government." It describes it as a plan "to divorce Age from Want in this Canada of ours." The Telegram makes but one mistake in the matter. Sir Richard Cartwright's scheme is not one of pensions. Sir Richard believes that Age and Want are not to be divorced save by industry, thrift and foresight; therefore the scheme he devised is one of annuities. It aims at encouraging self-help by keeping those willing to take the trouble to pro-

vide by a trifling sacrifice for the evening of their lives. It is not a something-for-nothing scheme; it does not bonus extravagance, idleness and unthrift.

Mr. Roblin is asking glorification on the plea that Liberals named in his committee to inquire into certain changes against the preparation of the Manitoba voters' lists refuse to act. Very naturally they do. The charges to which the inquiry is restricted are not the charges which the Liberals made in the Legislature. Those charges Roblin refuses to allow to be investigated.

The Attorney-General proposes a statute revision bill, which will amend the law of libel so as to restrict the activities of the class of cormorants that exist by promoting suits for libel against newspapers. The measure is not yet completed, but it will probably provide remedies for some of the evils recently pointed out to the Government by a deputation from the Press Association.

The trustees were again assured by the Government that when the Technical College is started there is no place left in Hamilton for a location than Hamilton-Spectator. The trustees did not need that assurance from the Government. Something much more important and to the point would have been an assurance that the Technical College would be established in this eminently suitable city. But the Ministers took care not to hint at such a thing.

The pension evil in the United States is a growing one. Something over 30 years ago, General Garfield, as a member of the House, predicted that it would never amount to more than \$30,000,000 a year. It was more than three times that much before Garfield's death. Now the pension bill has reached \$160,000,000 a year, besides the private pensions which could not be granted under the general law. Army, navy and pension lists are the greatest burdens our neighbors have to carry.

The local board would press for a large grant towards the building it is erecting if there was any doubt about the college being located here, but does not want to do so for fear of injuring chances for the \$1,000,000 college.—Spectator.

The solicitude of the organ is that Whitney be not embarrassed by a demand from Hamilton for a consideration of its claims. And what is the sense in talking about "injuring our chances" of getting this mythical \$1,000,000 college by pressing for a large grant if, as the organ pretends, there is no doubt about our getting it?

It is estimated that the Provincial Government is about to establish a general constabulary for the Province. There is room for an improvement for the policing of Ontario, but it is a work that must be undertaken systematically, and upon well-defined principles. The Provincial officers should be men of ability and training, and they should be always available for service at a moment's notice whenever occasion requires. A well organized and capable force could be of great use; anything less would be a waste of money.

In an article in the March American Magazine, entitled "Where Every Penny Counts," Ida Tarbell makes some striking presentations of how the protective tariff has burdened United States industry and built up combines to tax the people who can least bear taxation. It is estimated that the "building up" of the tin plate industry, which employs about 5,000 people, cost in ten years \$60,000,000 of taxation upon the people. This industry now sells tin plate vastly cheaper abroad than at home, and does so by paying 25 per cent. less wages on export goods than on goods for the home market.

OUR EXCHANGES

Courtesies. (Toronto Telegram.) Osgood Hall has decided that certain Hamilton journalists can be called editors by courtesy. It's an awful strain on courtesy. What Would John Say? (Toronto Star.) While critics high and low may scarp throughout the livelong day, We wonder do they think, mayhap, What would John Wesley say? Kept on the Move. (Brantford Expositor.) Brantford is singularly free of tramps and bums, thanks to an efficient police force. Such a people find no rest for the soles of their feet hereabout. Anticipation. (Toronto News.) How merrily the baseball crank Goes on his joyous way, Not many weeks to wait until He hears the signal, "Play!" Three-Fifths. (Galt Reformer.) The Lord's Day Alliance wants the three-fifths clause applied to votes on Sunday street cars. Why not. It would be just as fair as its application to local option votes. No Tory Paper There. (Guelph Mercury.) At a Conservative convention in Red Deer it was declared that there was not a Conservative paper in Alberta. Then, what the party wants is not a leader so much as a leader of public opinion. Meaning Miller. (Toronto Globe.) The death of Chief Detective John Murray removed the one man of first-class detective standing, and were it not for the ability displayed by the most recent appointment, the force to-day would be, in some respects, worse than

FRUIT—THE GREAT PHYSICIAN

Wonderful Medicinal Value of Apples, Oranges, Figs and Prunes.

How many people realize what remarkable curative principles are contained in fruit juices. There are twice the bitter and the highest percentage of bitter principle and thus are the most healthful.

It was a theory of a physician in Ottawa, that if the amount of bitter principle in fruit juice could be doubled, the curative property would be increased, not twice, but many times. After many tests, this physician succeeded in forcing into the combined fruit juices an additional atom of bitter principle, and in doing so formed an entirely new compound. To the combined juices were added valuable tonics and antiseptics and the whole made into a palatable beverage.

These are "Fruit-atives"—the only remedy known to science that is made of fruit. The wonderful cures in cases of Stomach Trouble, Biliousness, Constipation, Rheumatism, Chronic Headaches and Neuritis, indigestion, Liver and Skin Diseases are due solely to the fact that "Fruit-atives" contain the medicinal properties of fruit. 50c a box, 6 for \$2.50, or trial box 25c. At all dealers or from Fruit-atives, Limited, Ottawa.

Not Lincoln's Phrase First. (Literary Digest.)

L. K. Fink writes to the New York Post to remind his countrymen that Lincoln's famous phrase, "Government of the people, by the people, and for the people," was not used with Lincoln, but was used by Theodore Parker, Daniel Webster and others in 1830 or earlier. Not only so, but it goes back to still earlier times, for he says that in the introduction of the Wycliffe Bible, issued in 1384, will be found these words: "This Bible is for the government of the people, by the people, and for the people."

Trouble Ahead. (Trade Review.)

Now that wages are to be reduced, there is plenty of gossip bearing upon pending strikes of steel workers, wood workers, from Pittsburgh, and still other workers will oppose any radical cuts in their wages. It was stated this morning that wage reductions would range from 10 to 25 per cent., although this is a question that has not been taken up for consideration as yet.

The Steel Corporation has not experienced a general strike in seven years, and every effort to prevent strife between employers and employees will be made.

Manitoba Telephone Deficit. (Winnipeg Free Press.)

If the Government were honest in its presentation of the results of its telephone operations its balance sheet for the year 1908 would be like this: Total receipts, 1908, \$722,612.00; Less unearned rentals for 1909, (estimated) 120,000.00; Net total, \$602,612.00; Expenditure, \$602,612.00; Cost of operation, etc., \$238,133.00; Departmental expenses, 19,579.00; Interest on debentures, 168,231.00; Balance on main account, \$176,929.00; Less outlay on main account, equal to 25 per cent. on capital, 104,478.00; Additional allowance for depreciation, 25 per cent. on capital, 104,478.00; Actual deficit, \$ 32,027.00. We invite the most ardent apologist of the Roblin Government's telephone enterprise to challenge the reasonableness and accuracy of this tabulation.

OWNERSHIP SCHEME

A Town That Gets Its Experience at Heavy Cost. In 1896 the gas and water works of Rhondda, Wales, were taken over by the municipality. In order to get the taxpayers to consent to this they were told that the profits which then went to the stockholders would be applied toward the reduction of taxes. The result has been the exact reverse of the prediction, for local plants have had deficits which have had to be made up by taxation, although no reduction has been made in prices.

In the last year of private ownership the profit on the gas works was 10 per cent. on the investment. Last year there was a loss of \$11,425, which had to be paid out of taxes, and which is equivalent to increasing the price of gas eight cents a thousand feet. The writer in the Western Mail who gave these figures assigns as one of the causes that much less gas is made per ton of coal than was the case when the plant was under private management. The result is now six times as many consumers as there were in 1896.

GREAT 4-DAYS' SALE

Last Call—All Winter Goods at the Right House.

Wonderful bargains for everyone tomorrow and following days at the Thomas C. Watkins' store. All lines of early spring and winter goods that you need for personal wear or for your home are brought out and marked to greatly reduced prices for this last great four days' clearance sale. They are just the things you need for now and for the next twelve weeks to come.

Missing the sale would be missing the chance to save many dollars. Read the Right House advertisement in this paper—it will give you an idea of how the prices are slaughtered.

Spain fears that the agreement between France and Germany regarding Morocco may be detrimental to Spanish interests in North Africa.

WEDNESDAY, MARCH 3, 1909 SHEA'S May Mantle Patterns and Catalogues Patterns 10c Catalogues 15c OUR WINTER CLEARING SALE The last week of it. Don't miss the wonderful chances to save that you will find in every department. Everything of a Winter character will be on sale at slaughter prices, some cases less than half price. Mantles, Skirts, Underwear, etc.

EVANGELISTS. Victoria Avenue Baptist Young Men Have Organized. At a well attended meeting last night the evangelistic band of Victoria Avenue Baptist Church was organized. The objects will be to conduct missions, open air meetings and engage in all sorts of evangelistic work. Any young Christian man of any denomination is eligible for membership. The band will meet every Monday night at the close of the young people's meeting for the purpose of studying methods of Christian work. The officers are: Honorary President—Rev. H. E. Allen, President—A. Skentelbury, First Vice-President—W. Birdsall, Second Vice-President—H. F. Cuttriss, Secretary—Frank Farrington, Treasurer—Robert Newlands, Musical Director—W. H. Harding.

OBITUARY. Former London Lady Passed Away Here Yesterday. After an illness of nearly three months Mary A. Custance, wife of Geo. A. Custance, passed away yesterday at her home, 134 Queen street north, in her 27th year. Cerebral hemorrhage was the cause of death. Deceased came to this city from London about ten months ago, and during that time had made many friends, who will sincerely regret her death. The remains were sent to London this morning at 9:45 o'clock via the G. T. R., and the funeral will take place from her former home in that city on Thursday at 2:30 o'clock.

BASKET CO. Beamsville Board of Trade After a Factory. (Special Dispatch to the Times.) Beamsville, Nov. 2.—Beamsville's new Board of Trade are after the Niagara Veneer Basket Company, who intend to locate in the district. The company at present are issuing stock and getting their prospectus into shape. A person very closely connected with some of the directors said on Saturday that if favorable inducements were offered, he thought this town would be as good a location as any of the lakes. Freestone Lodge, E. O. O. F., had open house last night for the wives and sweet hearts of the members, and it was a fine house warming too. In lieu of the regular meeting an excellent programme of local talent contributed to the occasion, and Freestone's members outdid themselves in order to give their guests an evening of enjoyment. After the music and songs a light repast was served. The whole affair was a great credit to the lodge.

ON BANKING. Mr. B. O. Hooper Addressed Y.M.C.A. Cabinet. The regular meeting of the Y.M.C.A. Cabinet was held last evening. Supper was held, as usual, at 6:30 o'clock, seventeen members participating, after which the business of the organization was transacted in the latest parliamentary manner. The feature of the programme was an address on "Banking" by Mr. B. O. Hooper, manager of the East End branch of the Bank of Hamilton. Mr. Hooper's address was replete with words of wisdom and sound advice, and his story of banking from its beginning to the present time was a revelation to the inexperienced. Mr. Hooper showed himself to be master of his subject, and the effect of his address was decidedly educational. There were some fine passages of dry humor interspersed with the more weighty remarks that kept his audience constantly in good humor and in close attention. Mr. J. H. Crocker, secretary of the Board of Trade, will be invited to the Cabinet meeting next Monday, and will give an address, after the reports from the various departments have been read by the cabinet members. I. O. F. Court King Solomon Celebrated Fifth Anniversary. The fifth anniversary of Court King Solomon, Independent Order of Foresters, was celebrated last evening by an address to the members over Traders' Bank. About one hundred and fifty guests were present and a very pleasant evening was enjoyed by all. A good programme was prepared, the chair being ably occupied by Bro. Henry Carpenter, of Court Hamilton. These taking part were as follows: Miss Kate Dittman, vocal solo; Miss Mabel Cline, vocal solo; Miss Gladys Johnson, recitation; Mrs. Shuler, singing solo; Mrs. Segal as accompanist; Miss Minnie Newman, reading; Sig Davidson, vocal solo and reading; Miss Eva Sevy, vocal solo; Bro. Henry Davis, reading; Mr. Miller, phonograph selections. After this programme had been concluded, refreshments were served by handsome young ladies, after which a short session of dancing was included. The committee having charge of this successful affair was composed of Bros. Max Morris, Chairman A. Kulick, J. Grossman, C. Shapiro and J. Mitchell. Court King Solomon is growing in membership, and will continue to grow, judging from the interest shown by members and requests for night recruiting membership. SNOW IN EUROPE. Berlin, March 2.—Snow has been falling almost without interruption since Sunday over Central Europe, and it is still coming down. Railroad, telegraphic and telephonic communication is greatly disturbed in the eastern provinces of Prussia, and the snow generally is from six inches to two feet deep. DIDN'T MOURN. Amoy, China, March 2.—A committee arrived here yesterday from Pochow to investigate the case of the Spanish Chinaman, Malcalmpo. This man persisted in keeping open a local theatre during the period of mourning for the late Emperor in defiance of the authorities. On Feb. 6 he was arrested and the French consul here, who represents Spain, demanded his release.

SPRING SHOES NOW HERE VALUE AND STYLE ABSOLUTELY THE HIGHEST POSSIBLE FOR THE PRICE. Thirty cases of New Spring Shoes have arrived, and fifteen cases will arrive in a few days—so that it will be but a short time before our full stock will be here. SELECT—Every pair of these Shoes were made to our order from selected stock, by the best makers in Canada and the States. Absolutely True. It cannot be truthfully denied that the Hagar Best Shoes made in Canada. In order to supply the increasing demand, Hagar has cut out all children's shoes and devoted the whole factory space to Women's and Men's Fine Shoes. The name "Hagar" is stamped on the sole of every shoe. OXFORDS THAT FIT. Oxfords are going to be worn by almost every person this summer. We will show the best range ever shown in the store for men, women and children. SOMETHING NEW. For some time we have been selling a woman's high lace comfort shoe—and they became so popular that we concluded to have a line of Oxfords made in the same way, which we now have in two styles—price \$3.50. CHILDREN'S SHOES. We will show the most range of Fine Shoes and Slippers for children ever handled by us. FINDINGS. We keep a full line of Findings, such as Silk Laces, Dressings, Shoe Trees, Cork and Rubber Heel Pads, Rubber Heels, Insoles, etc. We would like to have YOU for a customer. J. D. CLIMIE 30 and 32 King St. W.

TO REGISTER ALL GUESTS.

Cheap Lodging Houses to be Licensed by City.

Police and Sanitary Inspection to be Provided.

Assistant City Hall Caretaker Employed During Winter Only.

The Kinrade murder mystery has stirred the aldermen to action and they promise to use a firm hand in dealing with the tramp question.

It was originally intended to charge only a nominal fee of a dollar for the licenses, but Chief Smith advised the committee to make the fee large enough to cover the cost of supplying the lodging houses with a register.

The aldermen then proposed a fee of \$25, and then decided that \$10 would be sufficient. The by-law is as follows:

1. No person shall carry on the business of, or keep a lodging house unless and until he shall procure a license so to do, and every person so licensed shall be subject to the provisions of this by-law.

2. There shall be taken out by every person who carries on the business of, or keeps a lodging house, a license authorizing him so to do, for which said license the person obtaining the same shall pay at the time of taking out of such license, a fee of \$10.

3. Every house, place or premises licensed under this by-law shall be liable to be inspected by any person authorized by the chief constable, and any police officer or other person duly authorized in that behalf, and any person who shall refuse admission to such officer or person, after demand made, shall be subject to the penalties of this by-law.

4. All licenses granted under this by-law shall be for the year current at the time of issuing thereof and shall expire on the 31st day of December next, succeeding the date of the same. No license shall be granted unless approved of by the chief of police.

5. Every person licensed to keep a lodging house shall keep a book in which the licensee shall enter at the time of application for lodging, the name and residence of any person who may apply for lodging, and shall enter opposite the name of each lodger in such book the date of his leaving the said lodging house, and such book shall at all times be open to the inspection of the chief of police or any inspector of Police or other person in the employ of the Police Commissioners.

6. This by-law shall not apply to the owners or keepers of taverns holding licenses under "The Liquor License Act" nor to private boarding or lodging houses.

7. Any person found guilty of a breach of any of the provisions of this by-law shall be liable to the penalty imposed by Revised By-law No. 68.

George Mallen, the assistant caretaker of the City Hall, will be employed during winter months. He will be paid at the rate of \$600 a year.

Estimates were prepared for the Council showing how it is proposed to expend the appropriation allotted the committee by the Council.

MARCH 19.

Date Set For the Canadian Club Oratorical Contest.

The Canadian Club oratorical contest held last year proved such a splendid success that it has been decided to make the event an annual affair, and the 1909 contest will take place on March 19th in the Association Hall.

C. H. W. Grace, representing the Societies of Central Church; F. J. Sullivan, A. O. H. Literary Society; A. Vipond, Emerald Street Y. M. C. U.; J. M. Poole, Victoria Baptist Literary Society; F. J. Schenck, St. Patrick's L. and A. Club; Harold A. Mitchell, Hamilton Collegiate Lyceum; R. W. Treleven, Hamilton Law Students' Association; R. J. Mcarty, St. John's Men's Guild; and J. Cunningham, P. A. Schenck, W. B. Smith, F. C. Waller, G. C. Copley, D. B. Wood, C. Walters, M. E. Smith, Dr. E. J. Lamin, H. O'Hair, A. G. Gates, P. H. Vardlaw, C. H. Stearns, H. B. Browne, S. M. Gardiner.

THE VELDT.

T. F. Best Tells of Heroes of South Africa.

There was a large attendance at the lecture given by Mr. T. F. Best, General Secretary of the Y. M. C. A., last evening, in the Market Street German Evangelist Church. His subject was "Heroes of the Veldt," and for two hours he held the individual attention of his hearers, who by frequent applause showed their appreciation.

To give variety to the entertainment a ladies' quartette, Misses M. and A. Scharp, Clara Brezmetz and Laurinda Ely, sang and the gathering joined in the opening and closing hymns, "O'ward Christian Soldiers" and the National Anthem. The chairman, Rev. W. H. Wing, tendered a hearty vote of thanks to the speaker.

A CURIOSITY?

Some months ago the statement was credited to one of the really prominent men of this continent that within twenty years, provided proper preventive measures were adopted, a case of consumption would be as rare as to be almost a curiosity.

Great progress has been made in the warfare waged against this dread disease, and there is reason to hope the prophecy will be fulfilled. Every man, woman and child has a vital interest in preventing this fearful and insidious disease, and should take every precaution to guard against infection.

Consumption frequently owes its presence to the carelessness which treats the common cough and cold as of little consequence. At the first indication of a cold steps should be taken to check it at once. One of the simplest and most effective remedies to break up a cold quickly is the mixture of a half-ounce of Virgin Oil of Pine with two ounces of Glycerine and a half pint of Whiskey.

Take a teaspoonful every four hours. It is claimed this mixture will cure a cough that is curable, and affords speedy relief for any sub-acute affection of the throat and bronchial tubes. Purchase the ingredients separately and prepare the mixture at home.

The well-known healing virtues which the pines are known to possess are present in Virgin Oil of Pine, which is put up for dispensing only in half-ounce vials, each vial securely sealed in a round wooden case. Be sure to get the genuine, which is prepared only by Leach Chemical Co., Windsor, Ont.

IRISH PENSIONS.

170,000 OLD AGE PENSIONS PAID IN IRELAND.

70,000 Receiving Aid Not Entitled Thereto—One Woman Who Was Allowed Old-Age Pension Has Since Given Birth to a Child.

London, March 1.—In his speech in the House of Commons Mr. Balfour, touching on the old age pensions, said that he was fairly staggered at the extraordinary and abnormal number of the aged poor in Ireland, and he invited the Government to make a thorough investigation into the matter. There seems to be ample ground for wonder on this point.

A member of Parliament, writing to the Times, gives some official figures which during the autumn session were supplied to him in answer to questions in the House of Commons. Put shortly, this is what he wishes to have explained:

Number of persons in Ireland of 70 years and over 184,000 Of these there are in receipt of pension law relief 170,000 Leaving the highest possible number of pensionable persons at 102,000

Yet the number of claimants is 209,000 And the number actually granted is 170,000

An investigation will probably be made into this state of affairs by the Chancellor of the Exchequer and will result in some remarkable facts to light. The members whose figures have been quoted above says that "it is estimated that between 50,000 and 70,000 persons of all ages in Ireland are today receiving old-age pensions which are not qualified under the Act."

It was declared in the lobbies of the House of Commons that one of the women to whom an old age pension had been allowed had since given birth to a child.

A by-law was passed appointing Mr. J. Mitchell and J. J. Haines sanitary inspectors in place of W. G. Mallen, resigned.

An account of \$7.50 from Tyrrell & MacKay, for survey of Carnegie Library lot was ordered to be paid and charged to the Library fund.

The Mayor drew attention to the fact that a large number of lots were in arrears for taxes, and it was decided to look into the matter with a view to forcing payment of these arrears.

Mr. Reece Lawson suggested that the glass factory, which is practically the property of the town, be sold and the proceeds applied towards providing an isolation hospital, owned by the town. The matter will receive attention later on.

Councillor Pennington drew the Council's attention to the fact that the town's Chief Constable is not only the town's Chief Constable, but is also a county constable and also a provincial constable, and that it is impossible for him to properly fill all these positions, and steps should be taken to secure his whole attention to the town's interests, especially at the present time, when the deputation of numerous tramps were seeking the community. Neglect of necessary care of the town duty was also complained of. A special committee, composed of the Mayor, Reeve and Councillors Boyle and Bertram and moved that the Council should consider the matters alluded to.

A good, long discussion on the town's financial condition took place before adjournment.

H. R. Dymond has purchased six and a half acres of land in the W. S. Lyons survey, on the Hamilton road, north, east, south and west. He will move into it and implement his business as a wholesale butcher and drover.

Rev. J. T. Smith and W. J. Kerr will represent the Dundas Central Temperance Executive Committee at the convention of the Dominion Alliance in Toronto this week.

At the regular meeting of Justitia Rebekah Lodge, I. O. O. F., held in the Odd-fellows' Hall, John Street, north, last evening, there were initiated 28 new members—15 sisters and 13 brothers. Among them were 12 from Caldwell, who intend to open a new lodge in that town. Besides a large turn-out of local members, there were present over thirty members of Primrose Lodge, Dundas. After the business of the evening light refreshments were served, and dancing indulged in.

WHOLE TIME OF THE CHIEF.

Dundas Council Discuss the Duties of Officer Twiss.

Legislature to be Applied to re Floating Debt.

Some Talk of Establishing a Town Hospital.

Dundas, March 2.—The March meeting of the Dundas Town Council was held last evening, all the members being present, Mayor Lawson presiding. In reply to a question by a Councillor, Treasurer Fry stated that no returns had been coming from promoters of races at the park, nor from past inmates of the isolation hospital. Concerning the use of the park for race meets, the Council seemed agreed that the charges should be paid in advance.

A number of accounts were presented for payment among them being one from St. Peter's Home for keep of Cecil Hill and Peter Case, \$182.50, and one from Miss Johnston, nurse at the isolation hospital, \$184.

An anonymous letter from Toronto, signed "Old Citizen," asked that an old boys' reunion be held. The communication was received.

A motion by Councillors Moss and Pennington that the Carnegie Library Committee be requested to negotiate a lease for a building for the library, and to secure satisfactory arrangements, was carried.

GOOD DEBATE.

First Methodist Young People Discuss Compensation.

Annual Exhibition of Canadian Cement and Concrete Association.

Dr. Reaume.

Toronto, March 2.—The coming building material is cement. It will be used in public buildings, dams, sidewalks, pavements, and in many other ways. Foster your industry, you men, and you will reap a great benefit in business."

This statement, concluding an address by Hon. Dr. Reaume, Provincial Minister of Public Works, preceded the signal for the opening of the cement exhibition at the St. Lawrence Arena. A moment later a whistle shrieked out, the heavy machinery was put in motion, and amidst the whirring of wheels and the cheering of the big crowd the initial exhibition of the Canadian Cement and Concrete Association was fairly under way.

Some sixty manufacturers are represented. The exhibition will be open until Saturday.

"During the past three years," began the Hon. Dr. Reaume, "the Ontario Government has been attentively observing and studying cement and concrete, and as a result its use has been recommended to the municipal councils. Now all bridges of any consequence will be built with cement abutments and structural steel, and cement will even be used in the construction of the floors. We have taken the lead in this matter, and our own Government bridges of any importance will be constructed of concrete." As instances he cited a bridge across the Mattawa River, built at a cost of \$21,000, and several across the Spanish River, erected at a cost of \$70,000. Fifteen years ago, he said, when the people of the northern part of the Province needed bridges and had no money to build them the Government had built wooden bridges. Many of these are now decayed; a large number have been swept away by the spring freshets and some destroyed by the forest fires which have raged at various times throughout these districts. "We have learned our lesson well," he went on, "and have determined to give the people of the Province works of a solid, permanent character." He was glad to see that the people, the farmers among others, were utilizing cement in the construction of buildings. Farmers were having it put into the foundations of their barns and in the floors, and concrete silos were being built in many places. The Government, he said, were contemplating the construction of four or five large dams, to be used for water power, and cement was to be the chief material used, because of its cheapness and permanent use.

# CONCERNING HEALTH and BEAUTY

By MRS. HENRY SYMES

Capricious Lines all hidden

Each Curve Exaggerated

## How Clothes May Affect the Figure

The Style that Gives Added Breadth

Almost Willow

**A** PPEARANCE of slimmness may be acquired in other ways than by incessant exercise. It needs only a little knowledge to dress so that a girl of decided plumpness may vie in length of line with her sylph-like sister. If you wear furs, you have at your disposal a nice and very advantageous arrangement, for you may choose the kind of fur that will be wide enough to hide the defects of your figure.

The girl wearing the set of pointed fox, you can see, has chosen a wide stole and a muff with depending tails, which add much to the straightness of line. Her dress, too, is neat, so the straight falling material will apparently add several inches to her height, while her hat is broad and, by contrast, does its part toward giving the effect of a thin woman. Were the skirt of the gown cut in narrow gores, she would appear even slimmer.

The same figure is shown wearing narrow furs and a short-cut suit with a circular skirt. You may see at a glance how the narrow lines of fur accentuate the breadth of the hips and shoulders, while the hat is of the style to make her face look broad. I need not go into the details of the costumes. A single glance will show you the force of my argument.

But it is not only on the street that the girl must be thin. If she chooses her dresses carefully, she need ever know that she weighs any more than she should.

If she wishes to dress that make her appear at her very best, then she should choose those of no very decided color. But even then, the beauty of the final apparition depends upon cut and trimming. The girl in the empire gown of light satin is unobtainably fat—any one who saw her would immediately so describe her in front. The high waist line, while it takes many inches from the front, the thickness of the sleeves, too, are distinctly wrong. They give breadth and detract much from the grace of the wearer, while the sash in the back does

nothing but increase the size of the waist, both natural and assumed.

How very much better she looks in black! Of course it is a very plain gown, but the total absence of any trimming serves to give the figure the curves of beauty, while it adds nothing to the weight. The long, plain sleeves and the straight, unbroken line of black over the bust make the whole figure of the wearer appear slim and straight, while the long train detracts from the thickness of the hips.

As to evening gowns, how remarkably stout the figure we are watching looks in the pink satin with the overskirt abruptly cut across the front! The waist line, too, is of dark shade, so the broadest possible effect is given. It is not that the gown is other than extremely handsome and artistic, but it certainly is not the gown that best suits the girl who wears it.

Turn your eyes, however, to the figure in black. You would hardly believe it could be the same girl, would you? Yet the color and cut of the gown easily make that difference. See how the line of white lace in the bodice is arranged to give an appearance of flatness, and see, too, how the tight sleeves do not add anything to breadth. At the artificial waist line at the center front is a depending band of satin, which hangs perfectly straight and hides whatever curve the figure may have at that point. The back of the skirt is plain and tight, while the train is long enough to add a few imaginary inches to the height. Surely a more graceful figure could not be found than this.

Did you ever realize before what power you had toward making yourself look as you would like to be? Would any time spent upon the cut of your gown be wasted if you finally looked at you as you would like to be? By so arranging your clothes that you will look slim you may make the time to reduce your weight by exercise, the only healthful way, if you can do this, you surely need not think too much about basting and drugging. Both are very distinctly wrong. They give breadth, and dressmaker's bills are in the end cheaper than the doctors'.

Light Gowns Always Make One Appear Larger

Dark Gowns are a Safe Selection

### Aids to Correspondents

**O**WING to the great amount of mail received and the limited space given this department, it is absolutely impossible to answer letters in the Sunday issue following their receipt. The letters must be answered in turn, and this oftentimes requires three or four weeks.

All correspondents who desire an immediate answer must inclose a self-addressed stamped envelope. This rule must also be complied with in regard to personal letters.

**A Red Nose**

My Dear Mrs. Symes:—I have a red nose and large pores. I use a good powder, but it does not seem to do any good. Can you give me any advice?

A red nose is caused either by too tight clothes or by poor circulation. I am printing the recipe for a lotion which you will find beneficial, but besides using this, rub your nose from tip to bridge three or four times a day. This will help to empty the little blood vessels. Do not use powder on your nose, no matter how good the powder may be, or it is sure to close up the pores and make it very unsightly.

**Lotion for Red Nose.**

Powdered calamine..... 1 dram  
Zinc oxide..... 30 grains  
Glycerine..... 1/2 dram  
Cherry laurel water..... 1/2 ounces

This lotion should be well shaken before it is rubbed on the nose. It may be used both morning and evening.

**Stubborn Freckles**

My Dear Mrs. Symes:—I have a very bad case of stubborn freckles. I have been troubled with them all my life and if I am out in the sun or wind for a very short time the freckles are so bad that I cannot go out. I feel very embarrassed to go out with my complexion. I am 15 years of age and shall be very much obliged if you will give me a recipe for freckles which I think will remove them without any trouble. To prevent your skin from freckling you should wear a corallored veil. It is wonderful how this stops the blushing from appearing.

**Obstinate Freckles.**

Oxide of zinc..... 1 dram  
Suboxide of bismuth..... 1/2 dram  
Dextrine..... 1/2 dram  
Glycerine..... 1/2 dram

Spread the paste upon the freckles at night before going to bed. In the morning remove what remains with a little powdered borax and sweet oil.

**Vaseline on Eyelashes**

My Dear Mrs. Symes:—I am troubled with my eyelashes. I am used to using vaseline on eyelashes

It is impossible for me to give you the address you desire. However, I will give you the recipe for Dr. Vaucaire's remedy, and you can have it filled at any reliable drug store.

**Dr. Vaucaire's Remedy for the Bust.**

Liquid extract of calina..... 1/2 dram  
Sulphate of lime..... 1/2 dram  
Sulphate of iron..... 1/2 dram  
Sulphate of zinc..... 1/2 dram

The dose is two spoonfuls with water three or four times a day.

**A Fat Nose**

My Dear Mrs. Symes:—I have a fat nose. I have published something for a fat nose. Will you kindly put the notice in again? Could you do anything

for a slanting chin? I thought you could give me some advice to make it fatter.

**Thick Lips**

My Dear Mrs. Symes:—I have thick lips. I have published something for thick lips. Will you kindly put the notice in again? Could you do anything

Complexion Troubles

My Dear Mrs. Symes:—I have a complexion trouble. I have published something for complexion troubles. Will you kindly put the notice in again? Could you do anything

My Dear Mrs. Symes:—I have a complexion trouble. I have published something for complexion troubles. Will you kindly put the notice in again? Could you do anything

### ADVICE ON SOCIAL CUSTOMS

**When Entertaining Children**

**S**OMETIMES wish that you would tell me what particular points of etiquette you would like to hear about.

I try to choose for you subjects that will interest you, and I never feel sure that I have selected the right one.

Today I find that many of my friends have written to ask my advice in the matter of entertaining children, and I think it would make a good subject for a talk.

The first rule in giving such a party is to make each little guest feel at home. The hostess should take as much trouble to make the little ones feel comfortable as she would were they her guests. The hostess should be kind and considerate in age and rank. The earliest seeds of shyness and self-consciousness are planted in the brain of a child at the first party, and in the beginning they only cause a little discomfort. In later years the child must pay in full for the mistake and discourtesy of former hostesses. Make the children happy even though you leave the room, thus making them depend upon themselves for entertainment.

**A GOOD IDEA**

By the way, that reminds me of the clever young mother who made her guests feel at home in a most original way. She had the refreshments—ice cream, bread and butter and cake—served during the first moments of the party. It worked to a charm. In the delight of sharing the dainty goodies the children soon lost all the stiffness which they possessed with their Sunday best clothes, and the result was that each child had a lovely and happy time. The idea might well be copied by other worried young mothers, and I feel sure they will be delighted with the result.

your case, then I advise you to stop drinking it.

Too much talcum powder will hurt the complexion; it causes enlarged pores.

**Pimples.**

Obstinate Blackheads of the Skin.

**Cucumber Lotion or Cream.**

**Pimples**

My Dear Mrs. Symes:—I have pimples. I have published something for pimples. Will you kindly put the notice in again? Could you do anything

**Two Marks of Beauty**

**B**AUTIFUL eyes and brows are, in one sense, a special gift of nature. Many a plain woman is redeemed by fine eyes; many a pretty face spoiled by red-rimmed, dull, lusterless eyes. But at the same time a great deal may be done to make even unpromising eyes clear and attractive, to render eyes which are only passably pretty really beautiful.

Attention to the general health will go far to make the eyes clear and bright and prevent fatigue, even when they are called upon to do a great deal of work. Have you never noticed the dull eyes of a person afflicted with dyspepsia, the yellow tinge of overfeeding and neglect of the liver, the lusterless eyes of the woman who sleeps in an ill-ventilated room, who takes no exercise and spends all her spare time reading novels over the fire?

**Perplexities Solved**

**Wedding Queries**

**A FEW DON'TS**

One thing I should like to mention: Do not serve to the unfortunate ones ice cream and lemonade. They are not sufficiently wise in the matter of food-stuffs to discriminate. Water is quite sufficient and may form the only beverage.

When dressing the children, do not make little Mary wear anything more dressy than a dainty white frock, with perhaps a wash. The boys must, of course, wear their best clothes, but it is fortunate that the days of the Fauntleroy have passed. The elaborate velvet suit with the lace collar happily is seen no more, for it took all the manhood from the average boy and made him a thing to be almost despised. Dark blue serge suits are very becoming and suitable to little boys, and in them they will feel the self-respect and self-reliance that usually becomes submerged under the imposed grandeur of the black velvet.

Poor children! Put them at their ease and let them be happy as they may. Do not hold virtue up before them, and leave their training to the hour at home when you discuss the merits of the past entertainment. If Bobby pulls Ned's hair let the incident pass and restore peace as best you may. Afterward you might point out that perhaps had father been in such a position he would not have done anything quite so precipitous,

**A FEW DON'TS**

One thing I should like to mention: Do not serve to the unfortunate ones ice cream and lemonade. They are not sufficiently wise in the matter of food-stuffs to discriminate. Water is quite sufficient and may form the only beverage.

Simple fare, regular daily exercise, fresh air night and day in the home are all essential. Then the health of the eye itself must be guarded. The girl who reads in a bad light, who does not care whether print is good or bad, who sits in a huddled position, with her head forward, is deliberately spoiling any beauty of eyes she may possess.

Continuous reading on railway journeys is bad for the sight. Always read in a good, steady light; rest the eyes occasionally when working by looking into the distance or lowering the lids.

The eyebrows give expression to the face almost as much as the eyes themselves. We can do a great deal to alter and improve the shape of the brows.

Daily care will improve the growth and gloss of the brows, and by gentle stroking between the fingers should be well moistened with olive oil or vaseline, which also stimulates growth.

**The Lips**

**M**ANY women bite their lips just before entering a drawing room so that they will become a pretty red. They make a great mistake when doing this, for, besides the fact that the color thus produced lasts but a moment, frequent biting makes the lips tender and predisposes them to chapping.

If the lips are naturally dry and rough, rub them slightly at night with equal parts of water and glycerine. Do not pass the tongue over the lips. It is contrary to the law of good breeding, and the moisture is injurious.

Fever blisters are most distressing. If they appear, touch them lightly with powdered alum and they will soon be cured.

To preserve pretty lips, constant smearing should be avoided, also grimacing and all bad habits of the mouth (many persons screw up the mouth and push out the lips in speaking).

**A Foot Warmer**

**W**HEN retiring at night take a large, soft feather pillow and place directly over the feet; it will keep them delightfully warm on the coldest of nights.

shower. Avoid all sweets and, above all, do not lead an inactive life.

**At a Formal Reception**

My Dear Mrs. Adams:—I should be glad to know if the daughters of a widower to be bridesmaids on the occasion of his second marriage, but it is purely a matter of feeling, and if every one wishes it there is nothing to be said against it. It is, of course, for married men to be best men? JACK.

It is very unusual for the daughters of a widower to be bridesmaids on the occasion of his second marriage, but it is purely a matter of feeling, and if every one wishes it there is nothing to be said against it. It is, of course, for married men to be best men? JACK.

**Which Should be Served First?**

**MUSIC AND THE DRAMA**

One of the cleverest and most laugh provoking farces seen at Bennett's vaudeville theatre this season is the one-act comedy, "Handkerchief No. 15," presented by Fred Bond and company, yesterday. The sketch deals with a gay old Lothario, who has not sufficiently forgot the days of his youth to avoid gay female attachments of the music hall variety. The piece is not only exceedingly funny, but it also affords wide scope for the display of some real histrionic ability, and the cast take every advantage of the opportunity. There are five people in the company, including Miss Fremont Benton, an actress of marked ability. She gives a delightfully clever conception of the lady of the music halls and never oversteps the mark of politeness. Mr. Bond, as the gay old sport, showed himself to be a comedian of no mean ability.

Another very pleasing sketch, entitled "A Hunter's Game," was presented by Frank Stafford and Marie Stone. Mr. Stafford gave some clever imitations of birds and animals. The act was very pretty staged.

Snider and Buckley, musical comedians, made one of the hits of the bill in their offering, "No Smoking Allowed." It was one of the finest burlesque musical acts ever presented at the house. Sebina and Grovini, novelty jugglers and acrobats; Harry Burgoyne, an English coter singer; Charles E. Colby and Lily E. May, ventriloquists, contributed to the excellent bill. As the bill is strong in comedy it should draw large audiences during the season.

**THINK IT OVER.**

**Board of Trade Hears the Maple Leaf Proposition.**

A meeting of the members of the Board of Trade and the representatives of the Maple Leaf Amusement Company was held yesterday afternoon at the board rooms. President H. H. Champ was in the chair, and Mr. Walters, assistant to Mr. Samuel L. Robertson, manager of the company, outlined the scheme that the company has in mind at the present time. He asked the endorsement of the Board of Trade in projecting an exposition to open the park, and have it run for two weeks. This exposition would be run for the benefit of the merchants and manufacturers of the city, and it was the opinion of Mr. Walters that it would help greatly to advance the interests of the city. It was not the intention of the company to intrude its own personal interests in the matter of the exposition, and for that reason, it would be necessary to secure the co-operation of the business men. While the company intended to finance the proposition, and was not asking for any help in that regard, it was thought by Mr. Walters that when the business men saw the opportunities that would be willing and ready to enter into the scheme with enthusiasm.

The members of the Board decided to make further enquiries, and give their decision later.

**TO UNION MEN.**

**Visiting Delegate Urges Them to Stick to Union.**

The attendance at the open meeting of the Building Trades Council, held last night in Kennedy's Hall, was small. J. H. Cunningham presided and introduced the speakers, J. Bruce, president of the Toronto Building Trades Council, and T. H. Gibbons, of the Toronto Machinists' Association, who is an Australian, told of the conditions that exist among the working men of that country. He then talked along the lines of organization, and urged the men to stick to their unions, as a revival of trade wars in sight and unity would mean that they could keep what they already had, and perhaps get a little more.

Mr. Cunningham spoke along the same lines, urging the men to be loyal to their unions under all conditions. The speakers were accorded a hearty vote of thanks.

**W.P. BURNS.**

**Delightful Hour With the Cotter's Saturday Night.**

Mac-Nab Street Presbyterian Church was well filled last evening to hear Rev. R. E. Knowles, of Galt, give a brilliant exposition of Robert Burns' masterpiece, "The Cotter's Saturday Night." Mr. Knowles has a most pleasing appearance and a delightful style, affording in a way, yet convincingly earnest. Mr. Knowles took up the poem, verse by verse, and in each one proceeded to show its worth. He first took up the pastoral life of the Scotch, showing the pleasure and contentment of the Scottish home. He paid a high tribute to the industry and frugality of the Scot, which has in no small measure proven the backbone of the nation. He then took up the scene of family worship mentioned in the poem, eulogizing the simplicity and grandeur of the Scottish religion. The love scene came in for its share of interesting observations. Mr. Knowles referred to the patriotic spirit that fired the poet's heart, and held it up as a worthy example in these days.

In conclusion, Mr. Knowles gave a short sketch of the life and character of the great poet.

Rev. Beverly Ketchen was the chairman of the evening. Mrs. McArthur sang twice, Miss Stuart playing the accompaniments.

**ASK TENDERS.**

**Separate School Board Will Try It This Year.**

The Separate School Board held its regular monthly meeting last evening, and passed accounts amounting to \$201.12. There was very little business to be transacted, and the meeting lasted but a few minutes. A motion was passed that tenders be called for coal. At the present time the board secures coal from the city at the rate of \$5.75 per ton. Mr. J. B. Turner was appointed representative of the separate schools on the board of entrance examiners. Robert Cruikshank, the contractor for the St. Ann's school, presented an account for \$84, which was not included in the specifications. The matter was laid over till the next meeting, when the architect will be present. T. J. Coughlin presided.

**MUNICIPAL RIGHTS.**

**Steps Taken at Montreal to Resist Encroachment by Companies.**

Montreal, March 1.—At an important gathering at the City Hall to-day, at which all the Mayors on the Island of Montreal were present, it was decided to petition the Government that no electric or other companies be permitted to enter Montreal, or any other municipality on the island, without first getting the consent of the municipalities interested. In other words, steps were taken which it was hoped would put a stop to the Legislature and Parliament giving away important and valuable municipal franchises.

New Law Closes 200 Saloons.  
 Cheyenne, Wyo., March 1.—Anti-liquor legislation was the feature of the session of the legislature just closed. Among the laws enacted were those absolutely prohibiting the sale of liquor outside incorporated cities and increasing the county license to \$1,000. These laws will close 200 saloons.

The first two months of this year have shown an appreciable improvement in the building line in Toronto over the condition of things in the first two months of last year, and so far as the City Architect's record of building permits is concerned, it is regarded as a pleasing indication of returning prosperity.

**HURLED EIGHTY FEET.**

**Man Struck by Train and Fatally Injured Near Brandon.**

Brandon, March 1.—Leaving town on Saturday night, Harry Linsted, farmer, drove down the G. N. R. track until he met a train. The horse swerved and escaped, but the cutter was splintered to pieces.

Linsted was thrown eighty feet, and landed at midnight in a near-by house. He came from England, and leaves a bride of fifteen months. He has no other known relatives.

**DAUGHTERS OF EMPIRE.**

**Annual Meeting of Hamilton Municipal Chapter.**

**A Year of Excellent Progress Was Shown.**

**Mrs. Nordheimer, National President, Gave an Address.**

The annual meeting of Hamilton Municipal Chapter, Daughters of the Empire, was held yesterday afternoon in Centenary Sunday school. The attendance was the largest in the history of the society, and a keen interest was taken in the reports which were all of a very satisfactory nature. Mrs. P. D. Crerar, Regent, presided, and in her opening remarks referred to the pleasure it afforded her to face so large a meeting. The first report presented was that of the secretary, Mrs. Harry Fearman, which follows:

In presenting this ninth annual report of the Municipal Chapter, Daughters of the Empire, we wish to thank the merchants and all those who have responded so generously again and again to our requests for assistance. There have been eight regular monthly meetings, six special meetings and one executive meeting, all of which were very well attended.

The first work of the year that was undertaken was the "Feast of Blossoms," a Japanese garden fete which was held in the Conservatory of Music for one week, beginning April 21st. His Honor Sir Mortimer and Lady Clark and Miss Clark attended the formal opening, which was a brilliant success. As a result of the hard work connected with the entertainment the handsome sum of \$962.53 was realized, and \$900 was devoted to the erection of the Daughters of the Empire cottage at the Mountain Sanitarium. This cottage was presented to the Hamilton Health Association in May, on the occasion of the celebration of the sanitarium's second birthday. Dr. Horrook received the gift in a well worded speech at a social hour was spent and many of those present availed themselves of the opportunity to inspect buildings and grounds.

Under the auspices of the Daughters of the Empire a collection was started to raise funds for the temporary erection of a hospital at Quebec. By request of the doctor in charge, a corresponding secretary was appointed. The letters received by her and read at our meetings have added greatly to our interest in that particular work. Photographs of the hospital and our cot, with nurse in charge of patient, have been received and shown.

In November two Klondike bags were provided for patients in Empire Cottage at a cost of \$22.

Two flags were donated to country schools: S. S. No. 5, Glanford, and S. S. No. 3, West Flamboro. Letters have been received from teachers of the schools thanking your chapter for the gift. The sum of \$100 was sent to Hamilton Health Association, to assist in furnishing the doctors' offices of the free dispensary. By request of Miss Constance Boulton (editor of Echoes), an Echoes secretary was appointed, Mrs. Denholm Burns filling that position most acceptably, and through whose efforts twenty-nine new subscriptions to that very excellent paper have been secured. At a recent meeting it was decided to present a rifle to Highfield School, and one to the Collegiate, as prizes to be competed for in June. As the suggestion of the executive council of the National Chapter, it was decided to contribute toward the erection of a tenor bell for the chime in the Nelson Memorial Church, Burnhamthorpe, England. We deeply regret to record the death of our beloved standard bearer, Mrs. J. Rose Holden. In honor of her memory the post of standard bearer was left vacant until appointed, when Miss Kate Rennie was appointed. To the various chapters of the Daughters of the Empire in Hamilton the past year has been most successful, and we predict for the coming year results quite as satisfactory.

Mrs. (Dr.) J. T. Rodgers submitted the financial statement, which showed the receipts to be \$1,745.42; disburse-

**MENTAL MEN.**

**Mendelssohn and Chopin Anniversaries Celebrated.**

A most enthusiastic meeting of the Men's Association of Central Church was held last evening in the lecture hall of the church. The event was a special one, taking the form of an anniversary celebration of two of the world's greatest musicians, Mendelssohn and Chopin. The programme was instructive as well as interesting. Mr. C. Percival Garratt gave a short history of the lives and works of the two composers, together with a couple of numbers on the piano, the "Consolation" from Mendelssohn's "Songs Without Words," and "The Rain-drop Prelude" by Chopin. He pointed out the differences between these great styles of composition. Mr. Garratt was warmly applauded at the conclusion of his efforts. During the course of the evening, Mr. Armstrong gave a paper on Darwin. Mr. J. M. Eastwood a paper on Edgar Allan Poe and Mr. Dryman spoke on Abraham Lincoln. The musical programme was as follows: Solo, Mr. Gartshore; cornet solo, W. McDougall; solo, George Kerr; recitations, Mr. Willis and Mr. Laidlaw. After the meeting had adjourned, light refreshments were served, which brought this most delightful and pleasant meeting to a close.

**Notice to Housekeepers.**

When buying house supplies do not forget to order Gerrie's Perfection Baking Powder. It is the strongest, purest and highest grade powder sold; 2,500 of Hamilton's best housekeepers use it. Try it and you will use no other. Price, 30c per lb. Gerrie's drug store, 32 James street north.

**Something New.**

Laxa-Food Cookies are now on the market at ten cents per package. They are very tasty and are equal to home-made; no cheap ingredients are used. Ask your grocer. A. W. Maguire & Co.

The following officers were unanimously re-elected:  
 Mrs. S. O. Greening, First Vice-Regent.  
 Mrs. VanAllen, Second Vice-Regent.  
 Mrs. J. T. Rodgers, Treasurer.  
 Mrs. H. H. Fearman, Secretary.  
 Miss Kate Rennie, Standard Bearer.  
 Mrs. Southam, Mrs. Robert Evans, Mrs. R. A. Lucas, Mrs. T. W. Watkins, Mrs. H. C. Baker, Mrs. N. Martin, Miss Unsworth, Mrs. Henderson, Mrs. Oliver, and Mrs. Edwin Raw, Councilors.

The reports of the primary and children's chapters were then presented by their respective secretaries, and all showed a year's work of gratifying progress.

Mrs. Nordheimer, President of the National Chapter, delivered a short but interesting address on the work of the Daughters of the Empire. Charitable work appeals to all women, she said, and the women of Canada are not lacking in sympathy for the poor, and in interest in the affairs of the Empire. Many of our youth move to the United States, when they reach their majority, and the impression that that country offers better opportunities to the enterprising young. It is up to the Canadian statesmen to divert this valuable stream, and the Daughters of the Empire might do something along this line. Mrs. Nordheimer spoke of the splendid work this Chapter was doing in the fight against the white plague, and thought they should be given every encouragement in such a noble work. She advised the military chapter to encourage the forming of rifle corps in the schools. We have not yet arrived at a state of civilization when we can do without an army. Encourage Canadian art by buying the work of Canadian artists. In conclusion Mrs. Nordheimer congratulated them very heartily upon the excellent work they had accomplished during the year.

A breach has been caused in the London Municipal Chapter by the unreasonable action of the Regent, who refused to change the design for the Queen's statue which did not meet with the approval of the National Chapter. The design shows the figure of a Canadian soldier at the apex of the monument, with a small lance of Queen Victoria underneath. As it now stands the monument will be more of a tribute to the Canadian soldiers than to the Queen. To show their approval of the action of the National Chapter, a resolution, moved by Mrs. Southam and seconded by Mrs. Robert Evans, was passed, upholding the National Chapter in this matter.

Tea was served at the conclusion of the meeting.

MISS MARIE HALL.

tour at the Grand this evening. She will be assisted by Miss Lonie Basche, pianist, and Mr. Harold Bealey, baritone. The programme will be as follows:  
 Concerto in E minor Mendelssohn  
 Allegro Molto Appassionato  
 Andante  
 Allegretto Molto Vivace  
 Miss Marie Hall.  
 (a) Song without words, E flat, Mendelssohn  
 (b) Scherzo in E minor, Liszt  
 (c) Dance, Miss Lonie Basche  
 (d) Duet, Miss Marie Hall, and Dvorak  
 Song, prologue to Pagliacci, Leonovanni  
 Mr. Harold Bealey.  
 (a) Valse, Chopin, Tor Adlin  
 (b) Capriccio all'antica, Sinigaglia

 Miss Marie Hall.

**AT THE SAVOY THEATRE.**

The stirring war drama, "Northern Lights" was presented at the Savoy last night by the Selman Stock Company. The drama deals with life in the West-ern States, at the time of the Custer massacre. It was enjoyed by a large audience.

The play was given a good interpretation by the clever company. There are two exceptionally strong characters in the play, and both are admirably played. Mr. Selman as John Swiftwind, an educated Indian and assistant surgeon at the army post, has a powerful role, and never lost sight of its wondrous possibilities, giving probably the best character study of the season. His make-up was very artistic and was ever in the picture. Cecil Owen played Sidney Sherwood, one of the best acting parts in the realm of drama, an army surgeon who does not hesitate to sacrifice human life in the interest of science. He gave a brilliant interpretation, and his scene with Florence when he injects the death-dealing cholera germs into her quivering arm is a bit of dramatic realism that will not soon be forgotten. His scene with Swiftwind was also remarkably well done. Albert Tavernier was good as Colonel Gray, who is called upon to court-martial his own son, a deserter and a victim of pre-moral influence. In this role Thaddeus Gray made a striking stage figure. His impassioned plea for his life in the third act is one of the strong bits of the play. Stuart Beebe was all that could be desired as Charlie Sherwood, a delightful light comedy role which fits his pleasing personality. Doty-glas Dumbrie played Elliott Barrington played Dan Horton in conscientious style.

Of the ladies, Miss Marie Pettes was a remarkably sweet and sympathetic Florence—the victim of morphine and the wife of Sidney Sherwood. She met all the demands made upon her, giving a very strong presentation throughout. Dainty Pearl Gray was excellent as the charming "little major"; delightfully

Job Printing of every description from a three-sheet mammoth poster, plain or in colors, to an address card.

**IMMIGRATION RUSH.**

**Several Steamers Bringing Settlers to Canada.**

Montreal, March 1.—Steamship men state that the immigrant season will open with a rush this week, and, according to present indications, it looks as if more immigrants will be passing through Montreal during the coming week than during the corresponding period of any previous year.

"Considering that spring has not yet opened up, it certainly looks as though we are going to have a busy year in the immigration business," said Mr. Robert Kerr, passenger traffic manager of the C. P. R., this morning. "For instance, the Empress of Ireland, which is due to arrive in Halifax next Thursday night, is bringing 1,217 passengers, whom 762 are steered, and our other boats are proportionately well filled."

According to information received from the Alien Line office this morning, the large turkisher Virginian, recently overhauled, will sail from Liverpool on Friday evening with an extra large number of passengers, as bookings up to date have been exceptionally heavy. The Dominion, of the Dominion Line, which is due in Halifax on Saturday morning from Liverpool, has on board 94 cabin and 301 steerage passengers.

**A JURY OF GROCERS.**

**Will Try the Standard Oil Company This Time.**

Chicago, March 1.—Roy Cunningham, of Belvidere, Ill., is the only farmer on the Standard Oil re-trial jury, which was completed in United States District Judge Anderson's court to-day. The preponderance of agriculturists on the first panel of veniremen caused its dismissal at the request of the defence. Attorney John S. Miller vividly remembering that it was a farmers' jury which made possible Judge Landis' fine of \$29,240,000. Mr. Cunningham's companions in the jury box include five grocers, a mechanic and a live stock dealer.

The trial of Mr. Philippe H. Roy, former Speaker of the Quebec Legislature, and ex-president of the defunct Banque St. Jean, has been again postponed.

MARKETS AND FINANCE

Tuesday, March 2.—There was practically no change of prices on Central Market this morning, the offerings being small and buyers scarce. The wheat market is strong at present. The price jumped from \$1 to \$1.05 on Saturday, but was down to \$1.03 to-day. The high price on Saturday and Monday caused many of the farmers to unload, which is responsible for the drop to-day. Oats also advanced in the price. Business was brisk on the fish market, and prices were steady.

Standard prices at 8 a. m. were: Dairy Produce. Creamery Butter 0.30 to 0.32, Dairy Butter 0.27 to 0.29, etc.

Poultry. Chickens, pair 0.80 to 1.50, Geese, pound 0.12 to 0.15, etc.

Fruits. Apples, bush 0.25 to 0.50, Snow apples 0.20 to 0.30, etc.

Vegetables, Etc. Carrots, basket 0.20 to 0.30, Lettuce, per bush 0.25 to 0.30, etc.

Smoked Meats. Bacon, sides, lb. 0.15 to 0.18, Bacon, backs, lb. 0.15 to 0.18, etc.

Meats. Beef, No. 1, cwt. 7.50 to 7.75, Beef, No. 2, cwt. 7.00 to 7.25, etc.

Fish. Good supply and demand, no change. Salmon Trout, 2 lbs. 0.25 to 0.30, etc.

The Hide Market. Hair, demand small, prices steady. Wool, pound, washed 0.14 to 0.14, etc.

Grain Market. Receipts and deliveries fair, prices steady. Barley, white, bush 0.12 to 0.13, etc.

Hay and Wood. Straw, per ton 1.20 to 1.40, Hay, per ton 12.00 to 14.00, etc.

TORONTO MARKETS. LIVE STOCK. Receipts of live stock at the Union Stock Yards were 64 carloads, etc.

COBALT MINING STOCKS. Toronto Exchange. Monday Morning Sales. Otsise—500 at 53, 1,000 at 53, etc.

TORONTO EXCHANGE. Monday Morning Sales. Otsise—500 at 53, 1,000 at 53, etc.

STANDARD EXCHANGE. Monday Morning Sales. Amalgamated—500 at 11, 1,000 at 12, etc.

By Special Arrangement THE TIMES is able to give the closing quotations on New York and other Stocks each day in the SECOND EDITION, published at 3.45

NEW YORK STOCKS

New York, March 1.—(Non-Item.) The early market developed irregularly, with traders scalping within a narrow range for leading issues. London was a moderate buyer of stocks. Numerous railroad reports for January were at hand, showing net decreases by Canadian Pacific, North Western and N. K. & T., but the New Haven, L. N. S. R., Wis. Central, Pennsylvania and a number of other increases.

Wisconsin Central buoyant on exception of announcement, 25 deal with Soo. Denver was very firm under accumulation which has been persistent all through recent recessions.

Pacific preferreds showed signs of recovery, but Central Leather will, according to best opinion, have to buy in the United States Leather preferred stock owned by interests not subject to upward of \$3,000,000.

There was good buying in Denver, U. P. Reading and Steel. There was some influential offerings of steel which did not materially affect the price. The cutting of wages by Lackawanna Steel & Iron is in line with necessities of the period.

Some other plants are reported about to resume, among them American Car Foundry plant at Berwick with orders for 450 cars. Atchison was steadily absorbed on earnings at rate of about 14 per cent. on the common and there is said to be good buying at 107 1/2.

Morning sales, Toronto Stock Exchange report for the Times by A. E. Carpenter, broker, 102 King Street East.

Toronto R.R. 54 at 122 1/4, 50 at 122 3/8, 50 at 122 1/2, Canada Permanent, 219 at 150 7/8, 215 at 150, Twin City, 25 at 102, 100 at 108 3/4, Winnipeg, 23 at 109, St. Lawrence, 85 at 115, Northern Navigation, 2 at 101, Mexican L. & P., 25 at 73, Con. SOUVENIRS ON SALE AN INSULT TO THE IRISH. Chicago, March 2.—The Irish Fellowship Club will meet on Saturday to consider vigorous protests on the part of the members against the display in the shops of certain St. Patrick's day emblems, which they declare to be "gross travesties upon an intelligent and high-spirited people."

APPEAL TOO LATE. John King, of Saltfleet, through his solicitor, H. Carpenter, has entered an appeal against the decision of Magistrate J. J. Jeffs, who awarded a \$25 bonus to Ernest Chip, an employee of King's, to whom the latter refused to pay the bonus on account of alleged incompetence. The suit was before Magistrate Jeffs on February 24, last Wednesday.

TEN MEN HURT. Hammond, Ind., March 2.—"Have a drink, boys," said John Luka, as he entered John Mikus' saloon at Indiana Harbor. Luka evidently did not realize what he was starting when he extended the invitation to the twelve thirsty Hungarians who were loafing in the saloon. Almost before he had taken a step toward the bar there was a wild stampede for places of vantage at the drink counter. Sam Tonia and Nick Ponca tried to reach the goal first and became involved in a fight with knives, slashing at each other and incidentally striking the thirsty who crowded on their heels.

LATE MRS. ALDERSON. The funeral of Mrs. Thomas Alderson, of Cardiff, took place yesterday afternoon, and was largely attended. Rev. G. Francis Morris conducted service at the house and also at the church, and officiated at the grave. The pall-bearers were four sons, Christopher, Samuel, John and Thomas, and two nephews, John M. Alderson and William Wallace. The floral offerings, which were very beautiful, were as follows: Pillow, the family; anchor, Mr. and Mrs. Geo. M. Alderson, sons, and family; wreaths, mother and sisters, Mr. and Mrs. R. Rowe; sprays, Ladies' Aid Society, Mr. and Mrs. Wm. Cairns, Mr. and Mrs. Battram, Mr. and Mrs. John Bradley, Mr. and Mrs. Osborne Wingrove, Mr. and Mrs. H. Slater, W. F. Nicholson.

PILE. Dr. Chase's Ointment is a certain cure for hemorrhoids, piles, and all guaranteed cures for each and every case of itching, bleeding and protruding piles. It is a certain cure for each and every case of hemorrhoids, piles, and all guaranteed cures for each and every case of itching, bleeding and protruding piles.

THE BEST WAY TO INCREASE YOUR BUSINESS IS TO PLACE AN AD IN THE TIMES.

ARE GROWING. Crown Point Methodists Have Enlarged Their Church.

CATHEDRAL SITE.

Buffalo, March 2.—The house and lot at 1033 Delaware avenue, owned by the estate of George J. Hamlin, has been sold to Bishop Charles H. Colton, for the Roman Catholic diocese of Buffalo.

THE MAURETANIA. Makes New Record From New York to Queenstown.

Queenstown, March 2.—The steamer Mauretania passed Dunn's Rock at 2:47 a. m. to-day, establishing a new record for the eastbound passage from New York of four days 20 hours and 2 minutes. Her average speed for the run was 23.28 nautical miles per hour.

CUT IN WAGES. Lackawanna Steel Plant Makes Reduction.

Buffalo, March 2.—A reduction of ten per cent in the wages of practically every employee of the Lackawanna Steel Company goes into effect to-day. The Lackawanna is the largest independent concern outside of the Gary Plant, and this is the first announcement of a cut in wages in the Independent since the war of prices with the U. S. Steel corporation began. The reduction hits the wages of all classes of workmen and the office force.

Special Values. Pearl Handle Dessert Knives and Forks. In cases of one and two dozen. \$10.00 to \$20.00.

STRATFORD NOW TIE.

Railway City Team's Great Fight.

Jack Johnson Arrives at Honolulu.

Great Work of Detroit Checker Player.

Stratford, March 2.—The Stratford Indians demonstrated their class last night in the most exciting and nerve racking game ever witnessed on local ice when they defeated Ingersoll by 9 goals to 3 and tied the round in the O. H. A. semi-finals.

The game was wonderfully fast from the goal which tied the round, and when the going rang every man on the team was pressing hard. The last-minute score was 6-3, but the last period was all Stratford, the Indians scoring four goals and shutting the pork packers out.

Stratford (9)—Rankin, Forbes, Preston, Eason, Simpson, Barlow, Dunbar, Referee—Whitehead.

SOLDIERS IN THE FINAL. Kingston, March 2.—The 14th Regiment team defeated the Toronto A. C. here last night in the second game of the O. H. A. senior semi-final play-off by 18 to 6. The ice was in good condition.

Pin Boys

Following is a schedule of the games to be played at the H. B. & A. C. alleys to-morrow night:

At 4.15—Revenues vs. Traders' Bank. At 7.30—Hamilton Gun Club vs. Grocers, Crescents vs. Originals, Letter Carriers vs. Postal Clerks, Hamilton Gun Club No. 2 vs. Terminals.

At 9.30—Kaufman Colts vs. Knockabouts, Midnights vs. T. H. & B. Railway No. 1, Wanderers vs. St. Patrick's A. C. No. 2, R. H. Yacht Club No. 2 vs. Victoria L. B. C.

Duquesne Gardens, Pittsburg, March 2.—The minor events fell into line along with the five-man event in the American bowling congress tournament, now running in this city, when local players opened the ball in the doubles and singles yesterday afternoon.

The famous old one-eyed bowler of New York city in past years, and now a local resident, proved the hero in the minor attacks on the pins by taking first place temporarily in the doubles, with Jim Blair as his partner, the pair registered 1962.

Green ran second an hour later in the singles, with 364, John Locks, of this city, putting up a really creditable showing with 397 pins. The players in the minor events were badly handicapped yesterday by the extreme cold of the hall, the fires under the steam-heating plant having been allowed to die down over Sunday, and the big hall being colder than a barn. President George Meyers has issued orders that steam be kept on full day and night until the meet end, for fear of a duplication of Cleveland's chilled meet.

their feet and working with tremendous energy, without any risk of slipping or fouling a lying stone. Often the player will himself catch up the running stone, and three brooms will be at work before it reaches the hog.

ARE SPORTSMEN.

But the finest thing about this great tournament at Crossmyloof is the spirit of sportsmanship that pervades it. It is always so with curling—the most generous of games. We fight to the last ditch, and are routed. And although we do not like to return to our fellow-curlers in the home club with a record of defeat, we are genuinely delighted that our visitors should win.

He beamed on me as one who had good news to impart. "We had a glorious game, sir," he said, "I never enjoyed a game so much in my life. We were six down."

The Police Commissioners have increased the pay of all the men on the St. Thomas force. Chief Armstrong goes up from \$1,080 to \$1,200 a year; Sergt. Ketchabaw from \$840 to \$900, and six officers from \$720 to \$780.

# MAY REPEAL MAGNA CHARTA

### Hon. A. B. Aylesworth on Powers of the Provinces.

### Mr. Aylesworth Condemns Cobalt Lake Decision.

### Mr. Lancaster's Resolution on the Telephone Question.

Ottawa, March 1.—"I trust the day will never come when the electors of Ontario may see reason to regret that they did not condemn, as it ought to have been condemned, this manifest encroachment upon the rights of property and upon the rights of resort to the courts of the Province."

These were the closing words of a powerful speech delivered in the House of Commons this afternoon, in which Hon. Mr. Aylesworth, as Minister of Justice, clearly and emphatically asserted the right of the Provincial Legislatures to legislate without interference by the Dominion Government, and as an elector of Ontario condemned in scathing terms the manner in which the Ontario Government had exercised that right in the case of the Cobalt Lake and Kerr Lake Companies act of 1907.

so, repeal Magna Charta itself. Having this view, I was not called upon to think at all of the injustice, of the outrageousness, of the legislation. My one inquiry was whether or not there was anything in the legislation which transgressed the power of the Provincial Legislature to pass a law referring alone to property and civil rights within the province."

AUTHORITIES QUOTED.

Mr. Aylesworth then quoted as precedents for his view the opinions of Hon. David Mills and Sir Charles Fitzpatrick, former Ministers of Justice, and proceeded, said: "I believe that is the true spirit of our constitution. We have advanced since the days of 1867, or 1881, or 1883. The doctrine of provincial rights, which has always been the peculiar property of the political party which I am a member, has of late years found strong supporters even in the ranks of our political opponents. We welcome accessions to the principles for which the Reform party in Canada has fought so simply Confederation, and acting on those principles, and because I was brought up to believe in them, I do sincerely and honestly think it is best for this country that each Provincial Legislature, within the scope of its authority and jurisdiction, should be supreme and amenable only to its constitutional judges—the electors of its own province."

TAKING AWAY A CITIZEN'S RIGHT.

Proceeding to discuss the legislation from the standpoint of a voter in Ontario, Mr. Aylesworth said: "In my judgment it simply means, speaking as a voter, that our present Provincial Government has arrogated to itself the right to say to any citizen of the province, 'You shall not litigate,' it makes no difference how just you think your claim is. The present Ontario Government says: 'We have the right to step in and deny you the open door to the courts. We have the right, and in this present instance we choose to exercise it.'"

### THE PROVINCE'S POSITION.

The Minister of Justice did not act without sending to the representatives of the Crown in Ontario, and through them to the Provincial Government, a copy of the representations made by those asking disallowance. And in reply it was stated that one of the principal grounds upon which the legislation in question was rested was that it affected the revenues of the province. No doubt it did. There were one million dollars hung up before the eyes of the voters of the province of Ontario, and because the Ontario Government had secured from this operation the magnificent sum of one million dollars, the voters of the Province were asked to ratify what they had done, and to say that it was a proper and legitimate transaction. "I wonder if it occurred to any of my fellow-electors to think that the Government of Ontario could at any time make a good many million dollars, if they pleased, for the revenues of the province by confiscating farms enough and logging up those farms into the pockets of anybody prepared to pay for them. The majority of my fellow-electors seem to have been content. I only trust the day may never come when they may see reason to regret that they did not condemn at that point, as it ought to have been condemned, this manifest encroachment upon the rights of property and upon the right to resort to the courts of the province."

### MR. LANCASTER'S REPLY.

Mr. Lancaster endeavored to score a point by suggesting that the Minister of Justice would better prove his claim as a defender of Provincial rights by attending the Railway Committee, of which, he said, Mr. Aylesworth was a member. But the member for Lincoln was promptly informed by Mr. Aylesworth that he was not, and never had been a member of the Railway Committee.

After Mr. Gordon (Nipissing) had expressed the opinion that the Florence Mining Company had never had any claim to the property, Mr. Gordon rose and in a few sentences roundly condemned the Minister of Justice for what he considered an unwarranted attack on the Whitney Government. The motion was then passed.

### TELEPHONE RATES.

Mr. Lennox initiated a discussion based on a resolution declaring that the people of Ontario outside the zone of "Provincially operated lines, were paying too high a rate for telephone service, and that it was the immediate duty of the Government to carry out such measures as would remove existing abuses in the regard.

Mr. A. K. Maclean (Lanenburg) in an effective reply traversed the figures of Mr. Lennox, and showed that the reduction of rates in Manitoba had been dictated simply by political expediency. He considered that it would be most fortunate if Canada embarked upon a policy of nationalization of telephones, as history and experience were against it. He moved an amendment, approving the legislation recently passed, placing the telephone companies under the control of the Railway Commission, and declaring that until the remaining Provinces followed in the footsteps of Manitoba, Alberta and Saskatchewan in the acquisition of telephones, such Government control was ample for the protection of the public.

### RIGHTS OF THE PROVINCES.

"Speaking for myself," said Mr. Aylesworth, "I say at once that I entertain, in all honesty and sincerity, the view that it is of vital consequence to the well-being of the Dominion that the rights of the Provinces to legislate within the scope of their authority should not be interfered with, and that every Provincial Legislature, within the limits prescribed for it by the terms of the British North America Act, is and ought to be supreme. I believe that this principle is of greater importance to the welfare of the Dominion as a whole than even the sacredness of private rights of property ownership. I am even willing to go so far as to say that a Provincial Legislature having as is given to it by the British North America Act, full and absolute control over property and civil rights, might, if it saw fit to do

### SALE OF FIREARMS.

Mr. Lewis introduced a bill providing

# BABY BURNED IN FOREST FIRES.

THROUGHOUT Canada the terrible forest fires, which raged last summer, carried great sorrow and suffering. Hundreds of people lost all they possessed, and not a few, still more unfortunate, lost their lives. Scores of people, running for dear life from the all-devouring flames, had their clothes burned, their limbs scorched, and sustained bruises more or less serious from the falling and burning timber. Zam-Buk in hundreds of cases eased the pain of severe burns, cuts, lacerations, &c.

Mrs. E. A. Simmonds, who now resides at 131, Niagara Street, Victoria, B.C., writes as follows:—

"I am sending you an unsolicited testimonial, because I want people to know how wonderful a healer of burns is your great salve, Zam-Buk. We were in the great fire which destroyed Fernie on August 1st last year, and were fighting the flames from three o'clock in the afternoon until eleven o'clock at night. When we had to rush from the house, I made up a small parcel of necessities, and included a box of Zam-Buk. I then wrapped my baby up well, and put a cap on. In rushing past the flames, however, the netting caught fire, and I had to tear it off and throw it away. Just as we were nearing safety, a branch from a burning tree fell down upon us. It fell, all blazing and hissing, right across my baby's forehead; and I feared the little thing was killed. I rushed on, however, and we got down to the river side. We sat on some stones in the middle of the river until four o'clock in the morning. I got out my tin of Zam-Buk and bandaged the baby's forehead, which was very badly burned and cut. The balm soothed the injury, and after a time enabled her to get a little sleep. When daylight came, we were able to walk several miles to Elko, and then on to Cranbrook, where we got food, and I could renew the Zam-Buk dressing on my baby's forehead.

"Not only did the Zam-Buk prove useful for baby, but for myself and several others who had sustained serious burns. It eased pain in a truly wonderful way, and we got more good from it than I would have thought possible. I may say that it has now healed my child's burn and cut completely; and what I am particularly thankful for is that, although the injury was so serious, Zam-Buk has healed it in such a way that no scarring is left. Our own burns are also healed.

"There are not many women who are burned in forest fires, but there are scores who sustain burns in their own houses, and I want all to know how they can get ease and cure for such burns, however serious, by using Zam-Buk."

**FREE BOX**

Send this Coupon, name and date of paper, and its stamp to Zam-Buk Co., Toronto. A free box will be mailed you.

Zam-Buk is a positive and certain cure for cuts, burns, bruises, sprains, piles, festering sores, ulcers, scalds, blood poisoning, eczema, warts, chapped hands, cold-cracks, chilblains, ringworm, scalp sores, bad leg, dislocated ankles, and all other skin diseases and injuries. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and sciatica. All Druggists and Stores sell at 50c. box, three for \$1.50, or post free from Zam-Buk Co., Toronto, for price. Refuse the harmful imitations sometimes represented to be "just as good."

### WHAT MOTHERS SAY OF ZAM-BUK.

MRS. B. SWITZER, of Wetaskiwin (Alta.), says:—"Zam-Buk is the handiest balm possible for a woman to have in the house. It cures, in fine form, cuts, bruises, burns, and cold-sores. I have tried it for all these, and in every case it cured rapidly. I always keep it handy, and use it in emergencies. It is such an effective remedy that I would advise all women to keep it in the house."

Hundreds of mothers have expressed similar sentiments. Keep a box of this soothing first-aid in the handiest place. The kettle may boil over or lurch from the stove at any moment, and there is daily risk of similar mishaps to men, women, and children alike. "A burnt child dreads the fire"—but if mother has applied Zam-Buk, it lowers this pure healing balm ever afterwards.

The great advantages of Zam-Buk are its remarkable purity, and the fact of its being so readily absorbed by the skin. In Zam-Buk there are no rancid animal fats or essential poisons to clog the pores and irritate a delicate skin. It contains only the pure rich balsams of the best healing plants, and these balsams are so refined that the skin absorbs them at once, and is immediately stimulated into healthy activity. Zam-Buk is the ideal healer for all chafed, irritated, and injured conditions of the skin.

### COBALT LAKE ACT.

The occasion was a motion by Mr. Clarke (South Essex) calling for copies of correspondence, orders in Council and other documents relating to the application for disallowance of the act passed by the Ontario Legislature confirming the right of the Cobalt Lake Mining Company to property claimed by the Florence Mining Company and sold to the former for \$1,000,000.

Mr. Clark indicated that his object in bringing the matter up was to have it placed on record that in refusing to disallow the legislation the Dominion Government had so acted because they regarded disallowance as beyond their jurisdiction, and not because they contemned the legislation itself. In stating the facts before the House he carefully avoided passing any opinion upon the merits of the Florence Mining Company's claim. While pointing out that, according to that company's contention, the Ontario Legislature had confiscated property to which they claimed they were entitled, he dwelt more particularly on the fact that the act passed by the Legislature in 1907 the company was prevented from exercising their right to have their claim decided by the courts. He commented on the fact that the whole three readings of the act were passed in one day, suggesting undue haste, quoted Mr. Justice Riddell's strictures, and pointed out that the legislation had been generally condemned by the financial and independent press.

### VIEW OF THE MEMBERS.

Mr. Wilson (Laval), while not expressing any opinion as to the justice or equity of the legislation, held that the Dominion Government had no power to interfere.

Mr. Boyce took up the role of defender of the Whitney Government, claiming not only that they had acted within their jurisdiction, but also that they had acted properly and wisely.

Hon. John Haggart took the view that the Dominion Government had power to disallow Provincial legislation if it violated certain principles, but that it ought to be exercised only in cases of extreme urgency.

### THE MINISTER OF JUSTICE.

Hon. Mr. Aylesworth, in explaining the reasons which had moved him to advise the Government to refuse to disallow the legislation, said he had not attempted to pass upon the justice or the validity of the two claims. The large question of principle presented was whether or not the Provincial Legislature had the power, without control, to take away one man's property and to give it to another, and to take away from the person so injured any right to redress in the courts. The question had arisen before 1896, the legislation passed by the Ontario Legislature would have been disallowed, because up to that time the decision in such matters had been in accordance with the views expressed by Hon. Mr. Haggart. He quoted from Chief Justice Draper's judgment in 1873 and from Sir John Macdonald in 1881 to show that the views then held were that the Dominion Government had the power to disallow Provincial legislation which violated private rights and natural justice. He also quoted the opinion of the acting Minister of Justice, Hon. J. A. Oimet, in 1892, that if Provincial legislation interfere with the rights of property without providing compensation, that afforded sufficient reason for the exercise of the power of disallowance.

### RIGHTS OF THE PROVINCES.

"Speaking for myself," said Mr. Aylesworth, "I say at once that I entertain, in all honesty and sincerity, the view that it is of vital consequence to the well-being of the Dominion that the rights of the Provinces to legislate within the scope of their authority should not be interfered with, and that every Provincial Legislature, within the limits prescribed for it by the terms of the British North America Act, is and ought to be supreme. I believe that this principle is of greater importance to the welfare of the Dominion as a whole than even the sacredness of private rights of property ownership. I am even willing to go so far as to say that a Provincial Legislature having as is given to it by the British North America Act, full and absolute control over property and civil rights, might, if it saw fit to do

### SALE OF FIREARMS.

Mr. Lewis introduced a bill providing

## If Very Thin, You're Liable to Catch Pneumonia or Fever

People who are so awfully thin run great risk—they have but little vitality and no energy to ward off disease germs. Invariably consumption takes root in people who are thin and run down. Thinness is not only a danger, but sheer wickedness in this land of plenty, where it can be so easily overcome. Probably the best remedy consists in taking Ferreroze at meal time. It is a remarkable blood forming and tissue building remedy that in thousands of cases has added five pounds in a single week. Ferreroze supplies the system with richer and better blood; the muscles and nerves are nourished, and it's small wonder that the body fattens when supplied three times daily with the concentrated nutrient in Ferreroze. Under its tonic effect new life and energy is imparted to the whole system and you feel the good results in sound sleep, strong digestion, hardy nerves—All these are the results of the rebuilding your body is undergoing. No one can afford to risk thinness when reminded of the helping hand of Ferreroze—if you are earnest in wishing to be stronger, to have better health and looks, then commence Ferreroze to-day, 50c. per box at all dealers.

### NO NEW ASYLUM.

present situation," added the Minister, "no doubt lies in the adoption of such legislation dealing with existing conditions and future conduct as will remedy the difficulty and evolve a new system. And I believe it can be brought about without serious increase in expenditure."

The department has asked for a detailed report from the superintendents of all its institutions, and upon the data thus secured it is probable the Government measure will be drafted. It seems likely that, under its provisions, some system will be determined under which the counties will be held responsible for the care of the indigent poor. It has come to the attention of the Provincial authorities that many of the patients committed to asylums in the past were suffering only from physical disability, which has resulted in natural mental strain. This has been particularly the case with women. Instead of being cared for by their relatives or the municipalities, physicians' certificates have been secured and the unfortunates despatched to asylums in the care of the Province. The situation is regarded as sufficiently serious to call for a general departmental investigation. In the meantime counties who have violent insane are being provided for by a system of exchange under which the Province takes over the care of the dangerous lunatic and sends to the county house of refuge one of the harmless unfortunates at present housed in the asylum.

### GOVERNMENT WILL INVESTIGATE SYSTEM NOW IN FORCE.

Reports Indicate Serious State of Affairs—Have Municipalities Got Rid of Their Poor by Declaring Them Insane?

Toronto, March 2.—There is probability of early legislation, radically affecting the conduct of the Provincial asylums—or hospitals for the insane, as they are now termed—and the conditions under which patients are admitted and retained in these institutions.

A serious condition of affairs confronts the Provincial Secretary's department at the present time. The asylums at Mimico, Hamilton and London are filled to their utmost capacity and there are calls for accommodation almost daily from county jails, houses of refuge and private parties. Recent crimes by maniacs have precipitated the public demand for protection, and the agitation has been heightened by declarations by Crown officials and others as to the number of individuals of unsound mind abroad in the Province.

The demand from the southwestern part of the Province is most acute, and the counties of Kent and Essex have given voice to their sentiments by petitions presented to the Legislature last week, praying for the erection of a new Provincial asylum at or near Chatham.

Hon. W. J. Hanna, the Provincial Secretary, has been carefully studying the whole situation, and inclines to the view that under existing conditions the expenditure of erecting, equipping and manning another Provincial institution would not be justified. "If the counties," said he in an interview, "had done their duty to the patients now in the asylums, present conditions would never have arisen. Had many of these unfortunates not been shipped away simply because there was no other place to which they could be consigned so cheaply, there would be no present need of additional income. The solution of the

### WENT TOGETHER.

Western Bank Teller and Five Thousand Dollars Missing.

Saskatoon, March 1.—Frank Lee, teller in the Northern Crown Bank here, is missing, and so is the sum of five thousand dollars of bank funds. Lee left town about the days ago on pretence of going to see his mother at his home near London, Ont., who was said to be dangerously ill, but an inmate of a house of ill-fame accompanied him. Investigation of his accounts followed by Inspector Yule of the bank staff, and the shortage was revealed. His misappropriations had been skillfully concealed, but as he was acting as well as teller this was comparatively easy. There is as yet no trace of his whereabouts. Lee was bonded for the full amount with the Imperial Guarantee Company, and the bank will thus lose nothing.

Detectives are already on his trail. Lee is a young man who had been in the bank's employ for a considerable time, and implicit confidence was placed in him. He had occupied several important positions previously.

### Joliet, Ill., Stands From Under.

This city was one of the first to engage in municipal lighting. A gas plant was installed in 1877, bonds to the amount of \$200,000 being issued. It proved a financial failure, and after 18 months the city was glad to turn the plant over to a company, which agreed to assume the bonds in exchange for a 25-year franchise.

Competent insurance men estimate that the annual premium payments for fire insurance at Joliet will be reduced \$125,000 by the installation of the high pressure system.

### THE LAW OF LIBEL.

HON. MR. FOY INTIMATES THAT CHANGES WILL BE MADE.

Time for the Issue of Writ for Libel Will be Materially Shortened—To Consider the Requests of Pressmen.

Toronto, March 2.—According to a statement made in the Legislature by the Attorney-General yesterday afternoon, some of the disabilities under which newspapermen suffer at present with regard to the law of libel are to be removed. Hon. Mr. Foy, in introducing the bill to amend the statute respecting libel, said that it would probably be of interest if he made one or two observations in regard to it.

One of the Government's proposals was that the time for the issuing of the writ against a newspaper for alleged libel should be practically shortened. At present three months was allowed for the issue of the writ after the alleged libel had come to the notice of the plaintiff, and the Government thought that that time should be materially shortened, with the object of bettering the position of the paper and making it somewhat better for the public.

Again, it was proposed that some change should be made in regard to the consolidation of actions—the consolidation of cases brought by one person against a number of papers for practically the same alleged libel. It was proposed in this respect that the provisions of the existing act should be somewhat extended. It had been found in practice that the intention of the act with regard to consolidation had not been accomplished in many cases. Under the law as it stood cases for practically the same libel might be consolidated, but that was got over by the person bringing the action in several papers. Exactly the same alleged libel might be in various newspapers, but the plaintiff might take one paragraph or one sentence in his action against one paper and another sentence or paragraph

### Colonist Excursions to Pacific Coast and Mexico.

Daily until April 30th, the Grand Trunk Railway system will issue one-way second-class colonist tickets at low rates to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., Los Angeles, Cal., San Francisco, Cal., Mexico City, etc. Full information from Grand Trunk agents.

The long illness of Herr Bebel, leader of the Socialist Democratic party in the German Reichstag, has developed dangerously. His kidneys are seriously affected and his recovery is doubtful.

Harry Morel, M. P. P. for Nipissing, is seriously ill at his home in Mattawa with pneumonia.

### NO NEW ASYLUM.

present situation," added the Minister, "no doubt lies in the adoption of such legislation dealing with existing conditions and future conduct as will remedy the difficulty and evolve a new system. And I believe it can be brought about without serious increase in expenditure."

HOW THE ENGINES WHICH CAUSED THE DELMAR WRECK WERE TELESCOPED BY THE COLLISION.

The two engines lay directly in the track of the southbound Norfolk Express, from New York and Philadelphia, and before the latter could be stopped there was a terrific collision. Seven men and a valuable horse burned to death in the fire which followed the impact. The men were railroad employes. Only two passengers were injured. It is charged that carelessness in leaving the engines in the track of the express caused the wreck.

### "NEVER BE CATS."

Bishop of London Gives Sound Advice to Girls.

London, March 1.—The Bishop of London gave some remarkable advice today to the students of a fashionable girls' school in the West End. The cause of that part of London, said he, was not what might be called open immorality, but the prevalence of a cat's spirit, by which he meant the way in which many people spent their lives saying ill-natured things about other people. He had known the reputation of good men and women to be taken away by the cat's spirit prevalent in the West End drawing rooms. "Never be cats," the Bishop advised his young audience. "There is all the difference in the world between an old maid and an old cat. Some old maids in London are the most loving and gracious people in it, and you needn't be afraid of being an old maid so long as you are not an old cat."

### CANADA'S ADMIRAL

Not Discriminated Against by British Government.

London, March 1.—In the House of Commons to-day Mr. Reginald McKenna replying to a question respecting Admiral Kingsmill's retirement and the alleged resentment in Canada because of it, said it was customary to retire captains and flag officers after six months' service on colonial or other appointments of considerable duration. No reason could be seen for reconsidering the decision in the case of Admiral Kingsmill, who was aware of the condition before he accepted the Canadian appointment. Officers are lent foreign navies for short periods only under entirely different conditions. If the period of their service with the foreign navy were protracted, they too would retire.

### SWEPT BY BLIZZARD.

Many Deaths From Exposure Reported From France.

Paris, March 1.—Snow has been falling in Paris almost continuously for the last forty-eight hours, and a blizzard of unprecedented proportions prevails throughout the whole of France. Many deaths are reported from exposure.

Several inches of snow have fallen in the Department of Alpes-Maritimes, and the conditions at Cannes and Antibes are exceedingly wintry. Other southern resorts are also suffering from the worst cold snap in years. There are no signs at present of improved weather conditions.

The Toronto journeymen tailors and their employers have entered into a new agreement.

ISOLATION HOSPITAL.

Dr. Roberts Made Strong Plea For New Building.

Conference of Medical Men and Board of Health.

Differences of Opinion as to the Best Course.

A powerful plea for funds with which to build a new isolation hospital was made by Dr. Roberts, Medical Health Officer, and a deputation from the board of health, at a special meeting of the Board to consider the matter yesterday afternoon.

Dr. Carr strongly favored the enlarging of the present buildings on the hospital grounds, emphasizing the city's financial condition at the present time.

Dr. Langrill, Medical Superintendent of the Hospital, had stated that the nurses could not go from the General Hospital to the Isolation Hospital, as was done in Ottawa.

Mayor McLaren suggested as the best scheme that a site be purchased for a General Hospital for all purposes.

As a ratepayer Dr. Storms said he could find no fault with the suggestion.

City Solicitor Waddell expressed the opinion that in view of the present conditions it was not necessary to submit a by-law to raise the money.

Mr. Quinn pointed out that the citizens had approved of an expenditure of \$75,000 for a hospital, but the ex-Mayor had balked it.

Dr. Roberts made out a strong case. He said in part, "I am in a large part responsible for the resolutions passed by the Board of Health. I am proud to have been responsible to a certain extent for it, because I believe it represents the views of modern sanitarians of the continent in regard to the control and suppression of contagious and infectious diseases.

Dr. Hopkins, who is a member of the Finance Committee, is a strong advocate of enlarging the present buildings.

He pointed to London and Boston as places where the isolation and general hospitals were on the one site.

Dr. Roberts made out a strong case. He said in part, "I am in a large part responsible for the resolutions passed by the Board of Health. I am proud to have been responsible to a certain extent for it, because I believe it represents the views of modern sanitarians of the continent in regard to the control and suppression of contagious and infectious diseases.

nate self esteem, if I consider myself as competent as any medical man present to say what is the best thing to do with the present state of affairs.

"In the first place, I take exception to what Ald. Hopkins says, that it is a modern idea to have the isolation and general hospital combined.

"The people there voted \$100,000 for an isolation hospital, but the staff of Harper Hospital backed it for two or three years. The Medical Health Officer eventually carried his point, however.

"In company with one of the members of the board," said the doctor, "I visited the present building and a fair computation shows that the patients have about 500 cubic feet of air each to breathe.

"You medical men know that in the schools 800 or 1,000 feet of air is required for each pupil. You know what the lady may not know, that it should be our aim not to sanction the idea that it is necessary for the children to contract these diseases.

"The whole cry from the medical men seemed to be about the expense involved, but when the new Alexandra wing was being built the medical men had no hesitation after \$50,000 was voted in coming back for an additional \$35,000 to elaborately equip and furnish the new wing.

"The terrible expense entailed was brought up when it was a matter of doing something for the children.

"You are willing," he said, "to give any amount of money for the grown-up people for their accommodation in this new hospital, but you are not willing to expend a sufficient sum for the children to see that they will not get the disease and having got it, if they go through the sickness and the period of convalescence in such a satisfactory way will never become candidates in adult life for this sumptuous palace within a few feet of the isolation and candidates for the operating table.

"Regarding the statements of Dr. Carr about expense, they are so characterized in my opinion by exaggeration that they hardly appeal to me as being honest."

The doctor declared that the net cost of maintaining the new institution

would not be more than \$800 for the city's share. One of the greatest objections of parents to let their children go to the present buildings was the small space in which they had to be confined for six weeks.

Dr. Roberts declared he would do all in his power to see that the nurses did not go from the wards of the general hospital to either of the diphtheria or scarlet fever wards, and become infected with the disease or cross infection from one hospital to the other.

The Finance Committee appointed a sub-committee to consider the matter and make a report as soon as possible.

NOT A CASE WAS READY.

Mr. Justice Latchford Had Unique Experience Yesterday.

Tory Plugging Case Calls For Some Remarks.

Reference In the Case of Ross vs. Townsend.

Justice Latchford had a rather unique experience yesterday afternoon, at the opening of the Spring Assizes, and he did not appear to appreciate it very much.

This was his first visit to Hamilton, and he spent the greater part of the afternoon in idleness. Most of the lawyers kept out of his sight, during the entire afternoon.

It is stated that none of the legal fraternity were ready to go on with their cases. His Lordship went through the entire list, during that time, and there was not a lawyer in the court room.

Coming to the case of Lee Hing vs. Lee Sing, he called the action twice. No one replied, and he said, "I'll have it struck from the list in a minute, if something is not done."

This did not have the desired effect, and His Lordship promptly struck the case off the list. He then remarked that he would retire for a while, and he hoped that something would be accomplished by the time he came back, or he would have to know the reason why.

He then turned to the clerk of the Court, Mr. T. H. A. Beggs, and requested him to "stir the lawyers up a bit."

Mr. Beggs did as he was requested, and called up every lawyer whose name appeared on the list, with the result that inside of a half hour, the barristers' room was full of lawyers, none of whom were anxious to go into the court room, however.

By this time it was nearly 4:30, and His Lordship came back shortly after and adjourned the court until this morning.

In the early part of the afternoon, Louis Perrini, who pleaded guilty to a charge of aiding and abetting of impersonation, was let go on suspended sentence.

Mr. Frank Arnoldi, K. C., Crown Prosecutor, said that there was some doubt as to Perrini's last trial as to whether he was present during the time Cordetti was signing the ballot, as an interpreter, or had a purpose in view.

It was on this point that the jury had disagreed. Mr. Arnoldi said that he was willing to let the charge drop.

Mr. T. C. Robinette, K. C., Toronto, counsel for Perrini, said that the latter had borne the best of character, and it was to save time that the prisoner had pleaded guilty.

Some jurists might put a different construction on his act, while others might see it in his favor.

FREE TRADE WINS.

Protectionist Candidate Beaten in Forfarshire.

London, March 1.—The by-election in Forfarshire on Saturday resulted in a victory for Mr. James Falconer, the Liberal candidate.

Mr. Falconer received 6,322 votes and his Unionist opponent, Mr. R. L. Blackburn, 2,452. Tariff reform was the main issue in the contest, which was rendered necessary by the elevation of Mr. John Sinclair to the Peerage.

Mr. Blackburn held up protection as a partial cure for unemployment, while Mr. Falconer denounced it as the curse of the workman, and predicted that it would mean an addition of three, four or five shillings a week to the workman's expenses.

An attempt was made to inject the woman suffrage question into the election, but neither candidate would pledge himself definitely to vote as the suffragettes desired.

The result of the election is no surprise to anyone, as, with the exception of the by-election of 1894, Forfarshire has gone Liberal at every election since 1852.

LUNDY'S LANE.

Niagara Falls Council Wants Battlefield and Cemetery Cared For.

Niagara Falls, March 1.—At this afternoon's meeting of the City Council a motion was carried authorizing Mayor Slater to wait upon Lieutenant-Governor Gibson, Attorney-General Foy and Chairman Langmuir, of the Queen Victoria Park Commission, to ask if the Government will take over the care of Lundy's Lane battlefield and cemetery.

The battlefield has always been under the care of a board of trustees, but only one of the trustees is now living. The plot has not been properly cared for, and should the Government decide to make the historic spot its personal care, Queen Victoria Park Commissioners may be delegated to include the ground under their charge.

At Arichat, N. S., two men were moving a house and went under it to fix skids. These gave way and the men were crushed to death.

FINE TALK ON TACTICS.

Major DuBury to the Hamilton Tactical Society.

Infantry In Attack, Assisted by Artillery, the Subject.

Local Military Men Show Deep Interest and Appreciation.

Before the Hamilton Branch of the Tactical Society last evening Major DuBury, of the Royal Military College, delivered an able address on "Infantry in Attack, assisted by Artillery," in the lecture hall of the new Armory.

The attendance was large and the loud burst of applause the lecturer was tendered at the close of the address was an evidence of the favorable impression he had made.

Major DuBury is a student of military tactics and few are better qualified to speak on this subject than he. Infantry, he said, is the unit with which battles are won, but the aid of artillery is necessary to cover their movements.

The moral effect of gun fire is supposed to be greater than that of rifle fire, but statistics show that the casualties resulting from artillery is only 15 per cent, as compared with 50 per cent. rifles.

There is no case on record where the mere moral effect of artillery has caused an enemy to vacate their entrenchments.

Infantry, in advancing on the entrenchments of the enemy, should take advantage of every available cover and expose themselves as little as possible, and should always reserve their fire until they are within effective range.

The duty of artillery when the infantry is advancing across an exposed place is to distract the fire of the enemy's guns. If the advancing party are checked by the rifle fire of the enemy they, the artillery, must fire on the entrenched infantry, or if the advancing party is checked by the gun fire of the entrenched forces then the artillery must silence these guns or draw their fire upon themselves.

No more guns should be used than is absolutely necessary to subdue the hostile fire. The task of keeping the enemy constantly under cover and in such a position that their rifle fire is ineffective against the stormers falls upon the artillery. The artillery should keep up their fire upon the entrenchments of the enemy until the advancing infantry is within a few yards of that position, and they are in danger of hitting their own men.

In Manchuria the Japanese artillery kept up its fire until the Japanese infantry had occupied the position of the Russians and put up little yellow flags as a signal to stop firing.

As a consequence, they killed a few of their own men, but they were requested to do so by the Japanese Infantry, who would rather lose a few of their men by the shots of their own guns than lose a large number of men by the shots of the enemy.

Every soldier knows that when he goes to war he risks death, but he will not consent to be shot down by his own troops. Sentiment enters here, and he would rather have large casualties through the undisturbed fire of the enemy than small casualties through the fire of their own guns.

Major DuBury stated that co-operation was absolutely necessary between the infantry and artillery when making an at-

SKELETON FOUND.

Workmen on Wellington St., West Toronto, Dig Up Remains.

Toronto, March 2.—The discovery of a skeleton in an excavation on the south side of Wellington street west yesterday afternoon has provided an interesting problem for the city's antiquarians.

The discovery was made by men excavating for a new warehouse to be built in the rear of the building occupied by J. Stevens & Sons, 145 Wellington street west.

The skeleton was that of a man about five feet seven inches in height. Only the skull, arms and upper part of the body were there.

They were in a good state of preservation, the only part being in the skull, where the spine of the workman had pierced it. The teeth were in a good, sound condition, indicating that in his lifetime the man was a healthy specimen.

The head was a peculiar shape, but no expert upon Indian skulls was at hand to say whether or not it was an Indian's skull.

Philadelphia, March 2.—A dramatic scene was enacted in the First Presbyterian Sunday school at Sixteenth and Tioga streets on Sunday afternoon, when David Burnett, teacher of the Bible class, a leader in the church and one of the prominent business men of the Tioga section of the city, dropped dead while singing the hymn "There is Sunshine in My Soul."

The teacher had shown more than usual animation in expounding the lesson of the day, and impressing upon the young men the truth of immortality, and the necessity of leading an upright life in order to attain it.

"Remember, boys," he said, "that the call of death may come when least expected. Be always prepared for the summons of the Master." Mr. Burnett spoke with marked fervor, and his class noted a strange exaltation in his face.

At the close of the lesson the hymn named was given out, Mr. Burnett joining in the singing with earnestness. At the closing line, "There is Sunshine in My Soul," he reached the word "sunshine" when he fell backward into the arms of his nephew, gasped and was dead.

Spoke From Experience. Teacher—What is the application of the Golden Rule? Schoolboy—Dunno, but it must be fierce.—From the Bohemian Magazine for March.

DODD'S KIDNEY PILLS. CURES ALL KIDNEY DISEASES. RHEUMATISM. BRUISES. GOUT. GRAVEL. NEURALGIA. MIGRAINE. HEADACHE. BACKACHE. STIFFNESS. SWELLING. PAIN. ITCHING. BURNING. URINARY AFFECTIONS. ALL AFFECTIONS OF THE URINARY TRACT. THE PUBLIC MUST BE WARNED AGAINST IMITATIONS. SOLD ONLY IN BOTTLES.

CHOICE OF PRINCIPAL.

Two Names Mentioned For the New Technical School.

Wentworth Street People Will Put Up a Fight.

Hospital Board Declines to Discuss Isolation Question.

Two names are prominently mentioned for the position of principal of the new technical school. One is a Hamilton man, a brother of Architect Witton, and the other F. L. Fairbanks, principal of manual training in the Mechanics' Institute, Rochester.

It is expected that a big deputation of Wentworth street people will be at the Board of Works meeting to-night to object to tracks being laid on that street.

The chief business for the Fire and Water Committee to consider to-morrow night is the manning of the new east end fire station.

The Hospital Board decided yesterday afternoon to install one large meter instead of the six or seven being installed.

Chairman Ferguson of the Finance Committee was present yesterday at the meeting of the hospital governors and enquired what their ideas were about enlarging the isolation buildings.

The city is advertising a sale of land for taxes in arrears. The back taxes amount to about \$6,700.

In the absence of Mayor McLaren, who is in Toronto today, Ald. Robson is acting Mayor.

Burned to a Crisp

Chicago, March 2.—The tragic death of Alice Ryan, a 16-year-old invalid, was reported to the police today. Ill of hip and spine disease from infancy, unable to move, she sat in an invalid chair in front of the fireplace yesterday while her mother was at work in the kitchen. A spark ignited her clothing, but she was unable to stir or cry out.

TWO CHARGES.

John Campbell Accused of Housebreaking and Theft.

John Campbell, 96 Wentworth street north, was arrested shortly before noon by Detectives Campbell and Sayers, charged with housebreaking and theft.

BRITANNIA RINK.

The Britannia Roller Rink's Wednesday matinee for ladies are becoming more popular than ever. The fair sex are not slow to show their appreciation of this delightful pastime.

MUNICIPAL ART GALLERY.

The Municipal Art Gallery will be closed until next Friday evening, March 5th, for the purpose of making alterations and changing exhibitions.

TEA TABLE GOSSIP.

Mrs. H. Trebilcock will receive on the first Tuesday of each month at 300 Main street east.

The tenth annual meeting of the Canadian Forestry Association will be held at Ottawa on Thursday, 11th inst.

Mr. and Mrs. Archdale Wilson and Miss Katharine Wilson have returned from a four months' trip to England and the continent.

Frank M. Regan has been appointed farmer at the Asylum for the Insane, to succeed Thomas McQueen, who, after holding the position for twelve years, resigned in December last.

Mrs. Richard Butler has prepared a splendid programme for the musicale, to be given under the auspices of the Day Nurseries Committee, at her home this evening, to which every one is welcome.

Mr. Philip Mauro, who is to give a series of addresses in the Gospel Tabernacle, commencing to-morrow afternoon, will be the guest of Mr. Hugh Brennan, Main street east, while staying in Hamilton.

Capt. Henderson assumed his seasonal duties yesterday, and will be found on the hurricane deck of the staunch little Maecasa when she sails on her route between here and Toronto as soon as the ice floats away.

The final papers have been signed by Sister A. Witton and the purchase of the old Central Church property. It is stated that the well known architects will erect a four-storey building on the property, to be used for light manufacturing purposes.

A. T. Fred, Masonic Grand Master, will give a reception by London Masons within a short time, although the exact date has not as yet been decided upon.

A very enjoyable sleighing party was held last evening at Watkinson, Mrs. J. H. Summers and the Misses Farmer gave the treat to about thirty of their friends.

At a joint meeting of Chalmers' Presbytery and Barton Stone Church, held in the former church last evening at Mount Hamilton, it was decided not to proceed with a call to a minister until later.

Miss Kennedy and Miss Phillips, the leading milliners, 33 King street west, have returned home from New York after a most successful inspection and purchase of the latest styles in this city.

As the result of blood poisoning Mrs. Mary Kellie, wife of John Kellie, passed away this morning at her home, 241 Catharine street north, in her 27th year.

Miss Mary Kellie, wife of John Kellie, passed away this morning at her home, 241 Catharine street north, in her 27th year.

A MUSICALE.

St. Giles' Ladies Aid Give Delightful Parlor Event. St. Giles' Church Ladies' Aid Society gave a musicale at the residence of Mrs. Peter Smith, 37 Grant avenue, last evening.

TO GET REDUCED RATES.

Samuel L. Robertson, manager of the Maple Leaf Amusement Company, is in Toronto to-day attending matters in connection with the Canadian Passenger Association with the intention of securing reduced rates from outside places to this city during the exposition.

ENTERTAINED THE CHOIR.

On Friday evening last the choir of St. Andrew's Presbyterian Church were entertained by the pastor and his wife at the manse, Smith avenue. A very pleasant evening was spent in games, songs and stories.

ATTEMPTED BURGLARY.

An attempt was made last night to burglarize the home of Miss Howell, who lives all alone on the Craighton road near Dundas. Miss Howell heard a noise during the night, as though some one was trying to force his way through one of the windows.

DEVELOPMENTS SOON IN THE CASE.

(Continued from Page 1.)

ely and is improving. She "pulled her self together," to use a medical expression, quite a bit yesterday. She still does not know by what means her daughter came to her death, believing that she met with an accident.

Dr. McNichol, Coroner, stated to-day that the inquest would go on to-morrow night. If medical certificates are produced to show that the necessary witnesses are not in a fit physical condition to attend an adjournment will be granted.

The witnesses will include all the members of the Kinrade family, the mother and father, Florence Kinrade, Earle Kinrade and Ernest Kinrade, the brothers, and Gertrude Kinrade, another sister; Mrs. F. J. Hickey, to whose place Florence ran to give the alarm; Luke Coppel, and D. M. Brown, who responded to the call for assistance; and Drs. Edgell and Balfe, who performed the post-mortem.

Establishes Their Theory. Interest in the case has not abated by any means, although nearly a week has

Remarkable Incident

While the detectives were examining Florence Kinrade yesterday morning at the house on Herkimer street, a rather surprising thing occurred. When the officers were questioning the girl about the man who did the shooting, she became quite hysterical.

A young man who was staying at the house came into the room, and tried to quiet her by placing his hand over her mouth. Detective Bleakley pulled his arm away. Miss Kinrade broke down shortly after, and the officers were obliged to leave.

The incident was very remarkable, and impressed the officers. Of course her exclamation had no reference whatever to the young man, who was then there, but seemed to be directed to some person she saw as in a vision.

pass. Letters pour in from all parts of the country offering theories and suggestions. "Some of them," said a detective, "are very foolish, and some of them are very good in their reasoning, but that they offer anything new, but they show good common sense. We have a great many who are asking us what we are doing to achieve something." "The story told by Florence Kinrade yesterday," they said, "establishes our theory that it was not a tramp who committed the crime."

WHAT AUTOPTOSY DISCLOSED. Gossip mongers are not at all particular in their silly stories about serious injuries to either the dead or living, as long as they have something sensational to talk about. Yesterday the story was going around that the report of the doctors who made the autopsy would prove no tell what the cause of death was until they got to the witness box, but it can be authoritatively stated that the organs of the deceased were found to be normal, and to disclose nothing unusual.

SUPPORTS BLEAKLEY'S THEORY. Although the detectives following up the story told by Florence Kinrade during her examination by the Provincial Officer in the morning, when she declared an attempt was also made to murder her, made a minute investigation of the Kinrade home and premises, they could find no shots embedded in the walls, ceiling or woodwork of the house, or in the fence outside. This is an entirely different version from any given by the girl yet, and in some quarters it is being taken as a hysterical story. There is one feature of the story she told yesterday, however, that supports the theory first advanced by Detective Bleakley. When he arrived there and made an examination he found the side window open and a woman's footprints in the snow outside. They faced with the toes pointing from the window, and one foot mark turned to the south. He was puzzled at the time because they could not be traced any further, indicating that if any one got out the window she must have returned the same way. Miss Florence was questioned on this point by the officer the day after the murder, but she explained that although she opened the window with the intention of escaping that way, she did not step out.

In her statements to the detectives yesterday the girl told the officers she got out this window, and returned, the same way. She thinks the murderer pulled her in again.

"That bears out your theory of the footprints outside the window," the detective was asked.

"Certainly," he replied. "It is impossible to get away from it, the footprints were there."

FLORENCE TALKS TO OFFICERS. Allowances are made by the officers for the girl's hysterical condition when they were questioning her. Miss Kinrade conversed pleasantly with the detectives until the question of the shooting was mentioned when she became very hysterical.

This is the story she told while the examination lasted.

Last Thursday between 3 and 4 o'clock a man came to the door and asked for something to eat. I attempted to close the vestibule door, but he would not let me, and, coming inside, said something about wanting all the money I had, or something like that. I went up stairs to get some, and called to Ethel, whose room is beside mine, to come to the front street, to lock herself in her room. I do not know if Ethel was in her room then or not. I did not tell her why, but after going in my room I raised my window opening on top of the front verandah.

I thought I would get out and give the alarm, but while I stood there I heard a number of explosions and was frightened. I got the money—\$10—and

DEATHS.

HANWELL—At her parents' residence, Lottridge and Princess streets, on Tuesday, March 2nd, 1909, Hazel Pages, eldest daughter of Mr. and Mrs. Henry Hanwell, aged 11 years and 3 months. Funeral on Thursday at 2 p. m. to Hamilton Cemetery. Kindly omit flowers. Western papers please copy.

BATEMAN—In this city, Sunday morning, February 28, 1909, E. W. Bateman, aged 81 years. Funeral on Wednesday, March 3rd, 2 o'clock, from his late residence, 67 Victoria avenue north, to Hamilton Cemetery. Friends and acquaintances will kindly accept this intimation.

BOYD—On Sunday, 28th February, 1909, at Inglewood Crescent, Dundas St. W., East daughter, of Mrs. W. G. Boyd, aged 8 months. Funeral on Thursday at 2 p. m. to Hamilton Cemetery. Kindly omit flowers. Western papers please copy.

Tender Shepherd, Thou hast still'd Now Thy little lamb's brief wailing. Oh, how peaceful, pale, and mild, In its narrow coffin lying. And no sigh of anguish sore Heaves that little bosom more.

In a world of pain and care, Loved, Thou wouldst no longer leave it: To Thy meadows bright and fair, Lovingly Thou dost receive it. Clothed in robes of spotless white, Now it dwells with Thee in light.

Now, Lord Jesus, grant that we There may live where it is living. And the blissful pasture see. That its heavenly food are giving: Let awhile our treasures love, Gained by thee, rest above.

McHENRY—On Monday, March 1st, 1909, at her late residence, 75 Jackson street west, Mary Ann, wife of the late Capt. P. S. McHenry, in her 81st year. Funeral private from above residence on Wednesday, March 3rd, at St. Mary's Cathedral, thence to Holy Sepulchre Cemetery.

LAMBER—At Bartonville on Monday, March 1st, at 10:30 p. m., Chas. Lamber, in his 74th year. Funeral on Thursday at 2 p. m. from his late residence, Service at Bartonville Methodist Church. Interment at Bartonville Cemetery.

MEMORIAL. CATTON—Walter J. Catton died March 2nd. While we are happy still we must weep. When for the last one who silently sleeps. O, dear father we miss you to-day.

Wife and Family. HACKBUSH—In loving remembrance of our daughter, Myrtle Rose Hackbush, who died in the Home of the Good Shepherd, on Monday, March 1st, 1909. She is now a shining star. Dwelling in the Holy City. With the golden gates ajar; Then beside the pure and spotless. She has joined the angel band. Wears a crown upon her forehead. Bears a harp within her hand. Father and Mother.

going downstairs met the man in the hallway and gave it to him. I was turning into the back parlor when he came to me and said: "Now, don't you cause an alarm."

I went into the dining room and didn't see him, so I tried to open up the back door, and as I was running I heard shots. I think he was trying to shoot me. I couldn't climb the fence, but returned to the house and found the man in the dining-room again. He tried to hit me with the revolver, but I warded it off with my arm, and as he was threatening me I got past him and ran out the front door as he was firing after me.

WAS NOT A TRAMP. After the officers left she became quite hysterical and her screams could be heard on the street. The story is being so confusing that ever, was Detective Miller's comment.

While at the house Miss Kinrade was shown the photographs of a number of suspects arrested since the shooting. She failed to identify any of them. When asked if the murderer was like any of them, she replied: "No, he was not a tramp. He was too well dressed."

"Would you know him again?" "Yes, if he had on the same hat," she said.

ONLY AN ORDINARY QUARREL. A point elaborated upon in a morning paper tells of a quarrel Florence had with her sister about a man in Virginia. Miss Florence could not remember this at first, but told the detectives before that there was a man in Virginia from whom she received letters two weeks before Christmas, when she returned home. Ethel did not approve of this man, according to the report. An officer who was present during the examination, it is quite clear, that this was nothing more than an ordinary disagreement between sisters over such matters. Florence denied ever having had a revolver or inspecting one closely.

WAS NOTIFIED AT ONCE. Another morning paper to-day makes it appear as though Coroner McNichol was doubtful if he was called to the house promptly, as was first stated, and that he was notified by a letter. "That he was called immediately after the shooting," "Supposedly yes," the Coroner assured the Times to-day that he said when asked if he had been called immediately was that he supposed he had, "I do not think there was any delay," he said this morning.

ARE PUZZLED OVER THIS. The authorities are somewhat puzzled over the fact that although there was no external bleeding from the wounds in the breast there was a pool of blood under the body. The four wounds in the head did not kill the girl, as first supposed, the post-mortem showing that there was no injury, but every one of the three shots through the breast would have been fatal, one piercing the heart.

When the body was found a 32 calibre bullet was discovered in a small pool of blood under the back. It was badly flattened and stained, showing that it must have gone through the girl's body. The three bullets in the breast were located, and this one must have been through her head. An effort will be made to ascertain how the girl was lying in a pool of blood which came from wounds in her head, while there was no blood under her head.

Four of the seven bullets are in the possession of the police, three having been taken from the breast. One of the bullets fired into the breast went through her body, but did not come out at the back, while the third struck the girl's eighth rib and took an upward course, lodging in her throat.

MURDERER MADE SURE. There seems no lack of evidence that whoever committed the murder made sure of killing the girl. It looks as if the first shot was fired while she stood on the second or third steps coming down the back stairs, striking her in the side of the face; that she reeled; the second bullet striking her lower down on the same side. Two other bullets struck her on the other side of the face, near the mouth and temple. One of the bullets was found in the hair at the back of the girl's head. The police believe the three bullets in the breast were

fired when the murderer stood over the prostrate body, and they think this which the bullets in the breast were found. It is thought that the fact that the clothing and flesh were burned proves conclusively that the murderer stooped over the body of the girl and pumped three bullets in rapid succession. Although the police were inclined for a time to doubt the theory that an automatic revolver was used, it looks very much as if that was the kind of a weapon with which the crime was committed.

BURCH DENIES FINDING SCARF. The police denied to-day that any blood-stained scarf had been found in the yard back of the Kinrade home. It is thought that the fact that the clothing and flesh were burned proves conclusively that the murderer stooped over the body of the girl and pumped three bullets in rapid succession. Although the police were inclined for a time to doubt the theory that an automatic revolver was used, it looks very much as if that was the kind of a weapon with which the crime was committed.

The Lodge of Strict Observance, No. 27, G. R. C. Will hold an emergency meeting Wednesday, 2nd inst. at 2:15 p. m. to attend the funeral of our late bro. E. W. Bateman. All members of the craft are invited to attend.
