THE NORTHLAND

DISCUSSED AT BANQUET BOARD.
Board of Trade Entertains Party of
Newspapemen and Colleagues Who
Explored the Peace River Country.

The members of J. K. Cornwall's Peace River press party were the guests of the Board of Trade at a banquet given in their honor at the King Edward Hotel last evening on their return from a trip through the north country, on which they have been absent for exactly thirty days. Owing to the uncertainty as to the time at which the party might be expected to arrive in the city, the arrangements for the banquet had to be made hurriedly, and the gathering was not so large or as representative as it would otherwise have been. More than fifty persons, however, were present, and the occasion was felt to be of no little significance for the development of the north country.

The guests of the evening were Emerson Fough, novelist, of Chicago; C. P. Bull, agronomist, of the University of Minnesota; J. H. Pettit, agronomist, of the University of Illinois; B. K. Miller, of Milwaukee, naturalist; R. Dunn, New York, of Everybody's Magazine; Gardner Hazen, Pittsburg, of Farm and Forestry; A. A. Briggs, Saskatoon; E. W. Day, Dayland; L. H. Stanton, Winnipeg; Dr. Wheeler, Buffalo; J. L. Sawie, Athabasca Landing; Carsons Lee, Portage la Prairie; L. V. Kelly and H. A. Lamb, Calgary, and J. K. Cornwall, M.P.P., who organized and conducted the party.

Predict Great Development.
The speeches delivered were nothing more nor less than a succession of confident predictions of future development of the Peace River country, coupled with warm tributes to J. K. Cornwall, M.P.P., with whom the trip originated.

Following the toast "The King," Mayor Lee, in a few well chosen words, extended a hearty welcome to the guests of the evening. The mayor was succeeded by J. L. Cote, M.P.P., who, in the course of his remarks expressed the hope that at some future time the same party might be invited to the north country. Athabasca, where he assured them they would find a country even richer than the western section through which they had passed. "I have been," said Mr. Cote, "to some of the best and most valuable mining districts in the province."

Senator Roy made a strong appeal for better commercial relations between Canada and the United States, and expressed the hope that the guests from the country the north would use their influence to improve those relations. He also paid a warm tribute to the American settlers coming into Canada and spoke with enthusiasm of the work done by Mr. Cornwall in the development of the north country.

The Speech of the Evening.
B. J. Miller, the naturalist, of the party, expressed the thanks of the party for the kindness extended to them. Giving some account of the trip, he stated that the party had travelled 2,100 miles, 1,400 of which had been covered by wagon and 700 by boat, averaging from seventy to eighty miles per day. "I had had some experience in examining new countries," said Mr. Miller. "I feel that I am not entirely ignorant of the conditions to be found in new countries. From the questions asked me since my return, by some of your most prominent business men, I doubt very much whether you know as much of the north country as I do. I have seen it, and I have seen it as you should know. I have been asked again and again the question, 'What do you think of it?' as though it were a 40-acre tract which a man could examine in a single day. The Grande Prairie alone is one-third larger than the State of Illinois. If I spent a whole day or two days, I could not begin to tell you all we have seen. As far north as Fort Vermilion we saw as fine wheat, oats, potatoes, beets and cauliflower as you would wish to see—everything indeed that you grow here."

All That Is Left.
"The northern part of western Canada is the last cheap land available for the Anglo-Saxon race. Our cheap land in the States is gone. Southern Canada is already pretty well occupied; the north only is left. We saw there land that will support, not hundreds, or hundreds of thousands, but millions of people. 'They said to us years ago, 'Go west, young man, go west and grow up with the country.' We went west, and found our progress barred at last by the Pacific. Now we must look to the north. Last year 110,000 of our people crossed the line into Canada. They were not our failures. They were our most successful men. Why did they come here? They came because you gave them a hand, Canada and plenty of it."

Can Grow Anything.
"You have in this north country, which we have visited, land which is equal in fertility to the best of that in the south, land upon which you can grow anything that you are able to grow here at the present time, and land so vast in area that it will support a population that will be numbered by millions."

(Continued on Page Three)

MEMBERS' RAILWAY PASSES.

Illinois Legislature Likely to Get Into Hot Water.
Chicago, Ill., Aug. 23.—The names of practically every member of the Illinois legislature of 1909 were drawn into the case of Lee O'Neil Browne, charged with bribery, when the trial was resumed today. This development came in connection with the arrival of seven hundred passes issued by the Illinois Central Railroad at the office of State Attorney Wayman for use in the trial.

The names were turned over to Mr. Wayman's representative by the railroad. The state attorney declared that Browne as well as Representative Charles T. White, chief whip for the state, received numerous complimentary tickets. He said that other names of recipients of passes would be made known, Judge Kerstein permitting, through a witness for the prosecution.

Juvenile Crime in London, Ont.
London, Ont., Aug. 30.—As a result of the worst outbreak of juvenile crime in the city's history, Crown Attorney McKillop has advertised very strongly to the use of the lash, and it has been further proposed to do away with the juvenile court entirely and have all under sixteen years come up in common court.

The Intrepid Aviator Meets Failure Again
Moissant Who Started Great Flight From Paris to London Battled With High Winds Over An Hour in Attempting Last 35 Miles of Journey—Machine Damaged.

London, August 26.—John B. Moissant, the aviator who started his great flight from Paris to London last week, carrying his mechanism with him, as a passenger, tried again today to reach London, but was again baffled by wind and weather. Moissant has been weatherbound since Saturday morning near Gillingham, a little over thirty miles from London. He was unable to restrain his impatience any longer and went up again at 4:25 o'clock this morning despite the fact that the wind was blowing a gale. He battled with the strong wind for fifty minutes without covering any ground worth mentioning and was finally forced to descend in order to replenish his supply of petrol.

After an hour's delay in getting new gasoline, and making no slight repairs Moissant again ascended and again began his flight. The treacherous wind came swirling down and he was steadily struck the top of his aeroplane, forcing it towards the earth and causing it to drop like a stone for great distances.

Moissant thought his way lighter into the air, only to be again beaten down. This happened thirty or forty times. The sight was a thrilling one. The heavy monoplane switched up and down and was in momentary danger of being smashed to atoms. The sight made the spectators sick with fear. During half an hour of fighting the wind currents Moissant only covered a distance of four miles.

Suddenly a tremendous gust struck the top of the machine and blew it down a hundred feet and caused it to cut sideways. Moissant, with fine skill, partly descended the machine and avoiding a high hedge, settled on a hump of ground near Kensing. Had he struck the hedge the aeroplane would have been smashed, the landing wheels broken and the rider damaged. Moissant and his mechanism, Albert Riboux, were not injured.

Moissant, who again disappeared, will keep up his wonderful pluck and nerve. He has telegraphed to Bleriot, the inventor of the machine for new parts, and expects to reascend within twenty-four hours.

WIRELESS ON THE AEROPLANE.
Experiments Will Be Made in Sending Messages While in Flight.
New York, Aug. 27.—Experiments in sending messages from an aeroplane are to be tried on an extended scale at the Sheepshead Bay racetrack by officers of the signal corps. The plans of J. C. Marshall will be supplied with wireless apparatus and be experimented with as soon as weather conditions are favorable.

Major Samuel Reber, chief signal officer of the department of the interior, who is in charge of the work, hopes to meet with sufficient success to persuade Congress to grant a large appropriation for equipment without wireless for this purpose.

Stole From R. and O. Steamer.
Toronto, Aug. 30.—By the arrest of four men, three for stealing and one for receiving, the police think they have unearthed a conspiracy to rob the Richelieu and Ontario Navigation Company. The men arrested are: F. H. Barker, of Toronto; John Holloway, butcher, on the "Toronto"; Fred Penn, cook, and Charles Lomis, restaurant keeper, Queen and Dal. Barker and Lomis were arrested on the steamer "Toronto" for some time since they have been missing from the vessel.

NEW WATERWAY

Proposed to Open the Columbia River for Navigation From Its Source to the Sea—International Delegation Presents Proposal.

Nelson, B.C., Aug. 29.—The creation of a new international waterway of commerce was the big project presented to Sir Wilfrid Laurier today by the Nelson and Revelstoke boards of trade, signed by the Associated British Columbia Chambers of Commerce and a delegation from Oregon and Washington states, headed by United States Senator Chamberlain. They seek to open the Columbia River from its source to the heart of the Rockies to London, New York and the markets of the world. The proposed route will cover 200 miles of river way from the Kootenay and Okanagan districts to Portland, 150 miles being a Canadian territory.

U.S. Has Taken Action.
The United States has already taken action for some distance under appropriation by National and State governments. The Canadian project contemplates a considerable digging and the building of three and possibly four locks. Statistics prepared by the provincial department of public works, showing the potentials and rapid settlement of the district to be served. The delegation urged the route as a controller of freight rates and a carrier of the major portion of the traffic. They directed attention to the fact that prior to the construction of railways, the pioneers navigated the river with wagon parties.

Sir Wilfrid Laurier, Hon. G. P. Graham and Hon. Wm. Templeman conferred with the large delegation on the details and the proposal.

The Premier's Reply.
The Premier stated that such of what had been presented as a navigable route, north and south would be full desired, but on railway traffic running east and west he was prepared to say without further information, but anything which goes to develop trade and commerce in the west appeals to me. Our relations are becoming more friendly every day. I am glad to see the civilization and the welfare of the world.

"On this ground alone the government will call to look into the project with favor."

To Determine the Cost.
"It would be necessary to ascertain what the improvement would be and to determine their cost. It will be my duty and pleasure," said the Premier, "to ask the minister of public works to have a survey made of the route in an extensive area not yet involved in the conflagration sweeping through the mountains in that region."

Desperate 82-Mile Journey.
Watson left camp 62 Monday morning at daylight, after working four days and nights without sleep, and his head aching with a feverish heat. He was constantly falling upon him and his horse.

LEFT BABY OUT; FORGOT IT.
Mother Didn't Miss the Youngster Until Bedtime.
London, Ont., Aug. 25.—When Mrs. Louis Brooke tucked her numerous children into bed the other night, she discovered one missing. Careful search revealed that the youngest tot of the family was missing, and investigation brought to light that when the two-year-old son of Mrs. Brooke returned home he did not have the little two-year-old brother he had taken out for an airing or the baby carriage with him. The local fire department was alerted and the police were notified in the meantime when formed by the police and taken in charge. When the mother came after the lost baby she told as an explanation that she had seven children to look after and sometimes she lost track of them, and that she ought to call the roll each night and morning, in order to make sure that they were all there.

KILLED IN AN ASPHIT.
Engine Dumper Crushed by Locomotive at Kenora.
Kenora, Aug. 31.—Laurent Saumer, aged 28, a Gallician employed as an engine dumper, was killed by a locomotive. He was working as a dumper when another locomotive came from behind, moving the engine over a restaurant keeper, Queen and Dal. Saumer's shoulders, crushing them and killing him immediately.

PREMIER'S TOUR

BIG AUDIENCES IN B.C.
Splendid Receptions at Cranbrook and Fernie—No Oriental Labor for the G.T.P.

Cranbrook, B.C., Aug. 30.—Sir Wilfrid Laurier at the rink meeting in Cranbrook this afternoon placed a mark of strong approval on Malcolm A. MacDonald, a young Liberal politician of Cranbrook. Mr. MacDonald was the Liberal candidate in Cranbrook for the British Columbia house at the last election and was defeated by Tom Cavan. Hon. William Templeman in his address suggested to the people of Cranbrook that Mr. MacDonald be the candidate in the constituency for the local house. The Premier in his address stated that he had something better to suggest, "here and now," said Sir Wilfrid, "let us nominate Mr. MacDonald as the standard bearer of the party in the next Federal campaign."

The Forged Telegram.
Sir Wilfrid in his address at the rink spoke of the political methods which had been used in British Columbia during the last campaign. He referred to the forged telegram episode and stated that at that time it had been argued that the country would be overrun with Asiatics, who would be brought to the country to build the National Transcontinental. The Asiatic had not made his appearance and in fact the number of Oriental emigrants entering the country had never in recent years been less than it had been in the past two years.

Desperate Journey of a Fire Ranger.
Four Days and Nights Without Sleep, Rode 82 Miles Through Blazing Trees and Saved Six Men From Death in the Big Idaho Fire.

Silet, Idaho, Aug. 27.—Reeling with exhaustion, clinging with both blistered hands to the pommel of his fire-cracked saddle, his clothing almost burned from his body, which is a mass of sores, C. H. Watson, a forest ranger, tonight rode into Major Penn's headquarters at Kootenai on a jaded horse from which every hair had been singed and begged for a relief party, which he volunteered to lead, to go to the rescue of six men surrounded by fire in Old Man's Basin, near camp 62, about 12 miles beyond the set-way.

Desperate 82-Mile Journey.
Watson left camp 62 Monday morning at daylight, after working four days and nights without sleep, and his head aching with a feverish heat. He was constantly falling upon him and his horse.

Desperate 82-Mile Journey.

PADDLED OPERATING EXPENSES.

This is Claim of Shippers Against Western U.S. Railways.
Chicago, Ill., Aug. 23.—Nineteen lawyers, representing the big western railway systems, were present today when the Interstate Commerce Commission began its hearing of the testimony before the advance in railroad rates scheduled to go into effect November 1st. The hearing involves 300 transportation lines in western trunk lines, trans Missouri and Illinois freight committee territory, as well as the shipping interests. The shipping interests claim that the railroad have padded records of their operating expenses in order to make it appear that an advance in freight tariffs is demanded by common justice to investors in their securities.

New Settlers for Prince Albert.
Prince Albert, Aug. 30.—Raoul Bagnat and Edm. Forget are here representing Montreal interests who propose to settle three hundred families, aggregating seventeen thousand souls in the Egg Lake district, 25 miles north of here. It is understood the contingent is to mainly consist of French and Swiss Protestants.

HAMILTON SHOT WINS THE GRAND AGGREGATE
D.R.A. Meet Drawing to a Close—Many Western Marksmen Among Prize Winners—Calgary Man Takes Walker Cup and Nelson Man the Transvaal Cup.

Ottawa, Aug. 28.—The D.R.A. meet, which was probably the most successful ever held, is rapidly drawing to a close. In past years it has closed on Friday, but this year, owing to additional matches, the last shot will not be fired until 12:30 on Saturday. Today saw the making up of the aggregate scores, on which a number of important prizes are given. These include the first stage of the Governor-General's match, and the grand aggregate, which it is the ambition of all to win.

Western Men Shoot Well.
Sergeant A. Martin of Calgary, won the shoot-off of the Walker Cup match and gets the cup and \$25. Quite a number of Western shooters have qualified to shoot in the second stages tomorrow.

Winners in Extra Series.
In the extra series, 600 yards, Pte. Adams of the 95th and Sgt. Chamberlain of the 103rd won \$5 each. The top scores in both these matches were made by Eastern marksmen.

PLAN NEW MONTE CARLO.
Two Islands Near Swiss Frontier Are Selected as Site.
Geneva, Aug. 28.—The two picturesque little islands in Brissago, situated in Lago Maggiore, near the Swiss frontier, form the site chosen by an Anglo-Italian syndicate on which to create a resort on the lines of Monte Carlo.

WILL ESCORT DESERTER BACK.
Charles Martin, of R.N.W.M.P., Surrenders to Police of Vancouver.
Vancouver, August 29.—Charles Martin, late member of the North-West Mounted Police, but now on his own confession, a deserter from that body, walked into the police station in this city yesterday afternoon and announced himself to Chief of Police Chamberlain as the person of whom he had received notice from the police headquarters in Regina. Notice was given some time ago of the disappearance of Martin, and his officers in all the greater beauty of his desertion returned a quantity of government stores which he had in his possession when he deserted from an outlying station in Alberta. He attributed his downfall to drink. He had come to the Pacific coast in short stages and in constant fear of arrest. He was very repentant, but will probably have to answer for his appropriation of government goods as well as for his desertion.

DARING ATTEMPT

TO ESCAPE FROM PRISON.
Convict Made Break for Freedom, But Was Recaptured a Few Hours Later—Serving Seven Year Term.

A daring break for freedom was made yesterday afternoon by a convict in the Edmonton penitentiary, Chas. Landon, alias Chas. Ryder, who was sentenced at Red Deer in 1907 to seven years for horse stealing, when the convict who made the attempt. He was recaptured a few hours later. For the last year Landon has been employed on outside work and lately had been working at the coal mine, which is situated some distance from the penitentiary near the river bank. Yesterday afternoon three men were sinking a shaft near the top of the hill and another gang of six were getting out coal at the mouth of the drift.

Dashed Into Bush.
About five o'clock Landon was sent with a message from the top of the hill to the mouth of the drift. When he had gone some distance he was seen to make a sudden dash to one side and to disappear in the brush. The guard at the mouth of the drift did not dare leave the other five convicts and it was not until all the prisoners were locked in their cells that the guards were at liberty to pursue the escaped convict.

The Convict Obeyed.
This time the prisoner demurred and hesitated. "I'll give you till I count five to get started," said the constable, and at the third number Landon thought the safest plan was to obey.

WILL ESCORT DESERTER BACK.
Charles Martin, of R.N.W.M.P., Surrenders to Police of Vancouver.
Vancouver, August 29.—Charles Martin, late member of the North-West Mounted Police, but now on his own confession, a deserter from that body, walked into the police station in this city yesterday afternoon and announced himself to Chief of Police Chamberlain as the person of whom he had received notice from the police headquarters in Regina. Notice was given some time ago of the disappearance of Martin, and his officers in all the greater beauty of his desertion returned a quantity of government stores which he had in his possession when he deserted from an outlying station in Alberta. WITH THE FARMERS

FARMERS' MARKETS.
Prices have remained practically unchanged during the past week. No wheat is offering on the market.

Grain.
Oats to millers, 24c.; feed oats, 35c to 40 cents.

Dairy Products.
Dairy butter, 20 to 25 cents per lb.; eggs, 25c per dozen.

Vegetables.
New potatoes, 60c to 75c.

Food.
Timothy hay, \$18 to \$20 per ton; upland hay, \$14 to \$16 per ton; slough hay, \$10 to \$12 per ton.

Live Stock.
The J. Y. Griffin Co.'s circular quotes the following prices, weighed off cars at Edmonton:

Hogs.
Choice quality hogs, 150 to 200 lbs., 7½c; roughs and heavies, 6 to 7c.

Cattle.
Good fat steers, 1,200 and up, 3½ to 4c.; good fat steers, 1,000 to 1,200 lbs., 3 to 3½c; extra fat heifers, 1,050 lbs and up, 3 to 3½c; medium quality fat heifers, 1,000 to 900 lbs., 2½ to 3c; extra good fat cows, 1,100 and up, 2½ to 3c; medium quality fat cows, 900 lbs. and up, 2 to 2½c; bulls and steers, 2 to 2½c.

Calves.
Good calves, 125 to 200 lbs., 4 to 4½c; good calves, 200 to 300 lbs., 3 to 3½c.

Sheep.
Choice killing sheep, 5 to 5½c.

Lambs.
Choice killing lambs, 6 to 6½c.

CHICAGO GRAIN MARKETS.
Chicago, Aug. 25.—Wheat unsettled. September sold at 100 ¼ to 100 ½ and 99 ¾; December at 104 ¼ to 104 ½ and March at 109 ½ to 109 ¾. Wheat market very narrow, a fraction above and below Saturday's close, mainly above. Local speculators buying. Trade more influenced by the stronger European markets than by other news. Statistics extremely bullish. Danubian, Russian and total world's shipments enormous. Total world's over 5,000,000 bushels, greater than year ago at 14,032,000 bushels against 8,992,000 bushels. Foreign markets were higher with the single exception of Budapest, which lost ¼. Advances were shown of 1c at Antwerp, 1½c at Berlin, 1½c at Paris and ¾d at Liverpool. Spot at the latter market was ½d higher, and flour at Paris ¼c lower. More purchases of wheat at Liverpool and Paris on rains in the United Kingdom over Sunday, which is delaying harvesting and as a further bullish factor was an improved demand for both cargoes and parcels which were firmly held, one of the big local concerns reported no acceptance of offers over Saturday and bids from France showed no improvement over those of Saturday.

Winnipeg reported 300,000 bushels of wheat for export but this was unconfirmed.

Montreal private advices said that large lots flour were sold there Saturday for export at a higher rate. North Dakota millers reported good sales of flour.

WINNIPEG GRAIN MARKETS.
Winnipeg, Aug. 30.—The weather map today showed very heavy rains in nearly every section of the country where there is still large areas of uncultivated crop and frost is predicted for tonight in Saskatchewan, British and continental cables were all lower. Export demand and inquiry were both light and foreign brokers were reported as offering Canadian wheat at 1c under what it could be bought here. Receipts were heavy, 27 cars of new wheat alone being reported. In spite of the bad weather map, other bearish conditions prevailed and there was a sharp break, October declining ¼ to 1c; December the same, and May 1½ to 1¼c. In view of the fact that out districts must be seriously affected by the rains, oats were dull, in poor demand, and sagged ¼c for October; December and May remaining unchanged.

LABORERS FLOCK TO PANAMA.
No Longer Necessary to Send Aboard For Workmen.

Washington, Aug. 26.—The digging of the Panama Canal has reversed the condition regarding labor which confronted the United States at the outset of the big task. No longer, according to the reports from the Isthmus, is it necessary to send thousands abroad to contract for labor. Despite the great number needed for the work, voluntary immigration from Greece, Italy, Spain, and other countries and Venezuela now is sufficient to supply all demand for the big force.

The volume of immigration in the case of the European laborers has increased nearly 1,000 per cent. and in the case of the West Indians, over 50 per cent. as compared with the first six months of 1909.

Nearly every vessel sailing from a foreign port brings an additional lot of laborers, and within the past few months immigration, among the Greeks and Italians, has been steadily increasing. As near as can be estimated, about 50 per cent. of the stowaways from Europe at the present time are Spaniards, while the remainder are 50 per cent. more or less equally divided between Greeks and Italians.

Formerly the stowaway class constituted quite a factor in the immigration movement, and there is a case on record where a vessel arrived, Colombia with 218 stowaways on board, including a number of women. At that time laborers were in demand on the canal work and a vessel agreement with the Republic of Panama, respecting the importation of labor, the stowaways were allowed to land without the requisite amount of cash, and a large number of them went to work on the canal.

THE GILT THEM COMES OFF.
English M.P. Speaks on Subject of Imperial Senate.

London, Aug. 25.—Joseph Wedgwood, M.P., president of the English League for Taxation of Land Values, has been speaking in Staffordshire on the subject of an Imperial Senate. Remarking how nice it would be to unite Indian and the colonies in one great senate and to have those representatives governing the Empire, he added that when these representatives undertake to legislate for the English people and impose taxes upon them, while the English people have no voice in the government of the colonies, the gilt comes off the gingerbread. He thinks that the scheme, embodying the federation of the Empire by means of the House of Lords, is one that it would be very dangerous to adopt.

Switchmen Killed at North Bay.
North Bay, Ont., Aug. 28.—John Penny, C.P.R. yard watchman here, was instantly killed last night in the coal yards by stepping from a car directly in front of the incoming Grand Trunk express. No doubt the severe windstorm prevented Penny from hearing the approaching express and was responsible for the accident.

DANGER FROM HOUSE FLIES UNAPPRECIATED

Very Little Check on Preoccupations of Death Carrying Insect—Some Precautions are Taken, But in Majority of Cases They Wander at Will Over Food Supply.

Deadly poison in pads of paper, sugared and watered and made enticing, sticky molasses-like mixtures spread thinly on smooth white paper, traps of wire gauze with cunning little entices but complicated exits, and similar contrivances are in the air all over the city; in homes, in stores, in offices and in halls to destroy the housefly, but still the insect manages to live and multiply. As the cause of diseases by carrying germs and depositing them on food in stores or on tables there is nothing in the air, on the earth, or in the waters under the earth, which does more harm or is more deadly than that same little inoffensive-looking housefly.

The majority of people will not believe that the housefly is so dangerous as it is painted. Not even the lesson of the flood, when the "incredulous" were all drowned because they wouldn't believe what they couldn't see for themselves, or wouldn't take the words of one who knew, has taught mankind to take for granted that there are dangers which they cannot see, but which are as certain as fact, carry with them the certainty of death if they do not take precautionary measures to prevent such an untoward occurrence.

Points Out the Menace.
Scores of medical experts have testified to the deadliness of the lesson of the fly and the method in which typhoid germs are carried from the sick to the healthy. More purchases of wheat at Liverpool and Paris on rains in the United Kingdom over Sunday, which is delaying harvesting and as a further bullish factor was an improved demand for both cargoes and parcels which were firmly held, one of the big local concerns reported no acceptance of offers over Saturday and bids from France showed no improvement over those of Saturday.

Winnipeg reported 300,000 bushels of wheat for export but this was unconfirmed.

Montreal private advices said that large lots flour were sold there Saturday for export at a higher rate. North Dakota millers reported good sales of flour.

TAFT-ROOSEVELT BREACH.
Both Parties to Reported Controversy Are Silent.

Beverly, Mass., Aug. 26.—As time goes on it becomes more and more apparent that no direct answer will be made here to the reports of a break between President Taft and Theodore Roosevelt and the charges alleged as a foundation for the rupture.

Although the silence of the past few days is still strictly maintained, it is believed now that President Taft intends to make his position clear in the letter he is preparing for the Republican campaign committee handbook, and in the speech he is preparing for the conservation congress at St. Paul, Minn.

Mr. Roosevelt has made no statement in support of the reported break. There is nothing definite upon which the President could act, even if he had a desire to do so.

As to state fights, and it is the New York state fight which is alleged to have created a chasm between the President and the ex-President, there is every reason to believe that Mr. Taft will re-state what he has said here many times of late—that he does not believe it to be the province of the chief executive to interfere in state fights, and that in dealing with the state situation he has confined himself to urging upon the various leaders the importance to the party of an honest endeavor to adjust their differences and an agreement upon a harmonious program.

TO PURCHASE NUN'S ISLAND.
Group of United States Capitalists Offer Two Million Dollars.

Montreal, Aug. 22.—A group of New York and Philadelphia capitalists have offered two million dollars for Nun's Island, at the foot of the Laehne Rapids. The island is owned by the Sisters of the Congregation, and they are considering the offer. The island is required for the rearing of kids, whose skin is used in the manufacture of gloves. The island is large, and is one of the beauty spots in the vicinity of the city.

SMUGGLING THROUGH CANADA.
U.S. Secret Agents Think Foreign Valuables Going in Via Montreal.

Washington, Aug. 20.—Secret agents of the United States customs service are watching the Canadian gateways for smugglers who have been frightened away from the port of New York by the rigid customs inspection and the notable seizures of the last few days.

Secret advices of jewels and other valuable articles bought in Europe by Americans are usually in the hands of the customs service. Valuables traced on the other side from the time they were bought have failed in some instances lately to turn up in New York in the scheduled time and the detectives suggest that they are being brought in by way of Montreal and Quebec.

THE FARMER'S STORE

In order to successfully attend to your requirements we have installed a special mail order department, who will be engaged exclusively upon the demands of our out-of-town customers. Our stock is complete with every article necessary for the home or farm use. We will be delighted to attend to any requests sent in by mail. Read the following list when convenient.

- Menoreh**
The "Stay Satisfactory" Range.
- Arcadian & Niagara Steel Ranges; Heating Stoves for wood; Oak Heating Stoves for wood or coal; Laundry Stoves; Oil Heaters.
 - Woodenware; Enamelware; Tinware; Nickel plated Tea, Coffee and Water Kettles.
 - Chopping Axes and Lumbering Tools; Leather and Rubber Belting; Mill and Mining Supplies.
 - Paints, Oils, Varnish and Stains for House, Barn, Carriage, Waggon.
 - Washing Machines; Wringers; Churns.

NEW COMPASS FOR WIRELESS.
Latest Development a Great Aid to Navigators.

Washington, D.C., Aug. 22.—The last touch of perfection to the use of the wireless as a safety appliance to ships has been added by several Italian scientists who have collaborated on a "compass actuated by Hertzian waves."

This compass differs from the usual needle used in navigation, in that it is not sensitive to the earth's magnet but to electrical current. With this device aboard, a ship's captain in the foggiest weather can locate any nearby vessel that is sending out wireless messages, as the needle points directly to the centre of the electric currents sent out from the other vessel.

Likewise when a ship in distress sends out the wireless C.Q.D. call for help, an approaching rescue ship is directed by this compass directly to the ship. One of the greatest handicaps heretofore has been the delay which has occurred during the search for the wrecked ship that has repeated wireless directions. In the instance of the sinking of the steamship Republic, one of the most notable instances of the value of the wireless in calling aid to wrecked ships, the vessel drifted a great distance making out the C.Q.D. call.

This necessitated a four-hour search by the rescuing ship after it had reached the (original) location telegraphed by the Republic. Had the condition of the Republic been more critical, the result of the delay might have been disastrous. With this new compass this difficulty would have been obviated.

TO ADVISE NEWFOUNDLANDERS.
Toronto, Aug. 20.—Dr. Robertson, chairman of the Royal Commission of Technical Education is en route to Newfoundland to fill an engagement made some time ago with Sir Edward Morris.

He has consented to advise the Newfoundland government upon the possibilities of improved agriculture in the island, also upon the conduct of a campaign in that direction, which has been determined on.

"There must be great room for improvement in the farming assets of the island," said Dr. Robertson, for it is estimated that Newfoundlanders import each year, three million dollars' worth of food stuffs which they could easily raise at home."

Of Interest to You!

Special representatives for RIVAL HOMESTEAD AND WASCANA RANGES, ALBERTA and GOOD CHEER HEATERS, besides several other high-class and ornamental Heaters and Cookers. . . . We have a splendid stock of carpenters' Tools and Farmers' Implements of the finest standard.

Below will be found some few particulars of our leading lines suitable for constructional work, outdoor implements that can be relied upon to give satisfaction. Our hardware store is open at all hours during the day to assist and suggest to customers and we will be delighted to see you when convenient. If unable to call drop us a postal and we will attend to your orders.

Our domestic stock cannot be excelled for quality and low prices. We make a specialty of Table Cutlery. Our selection of Rifles, Revolvers, Guns and Ammunition is second to none in the city. Further particulars will be forwarded on request to any address in the province.

CURIOUS TO SEE DR. CRIPPEN

London is Wondering Whether Canadian Authorities Will Forgive His Arrest and Detention.

London, Aug. 29.—Such has been the excitement here because Pellatt, in charge of the Q.R. Rifles, did not immediately appear against Dr. Crispin and he being allowed to come a steamer Megantic, when that it was intended to see England on that ship. It that Inspector Dew decided Megantic in the hope the excitement of landing the party would escape attention.

But Inspector Dew might have put a placard on Dr. Crispin's reading "I am glad to take him ashore in the dread boat." Much curiosity is aroused as to the size of the Canadian authorities' contingent in the home office for cooperation with the arrest and detention of Dr. Crispin.

As Ethel Levese was docked at Bow street police yard her father, who stood in the background, called out: "Ethel, I'm here," and he kissed her. Miss Levese, times enough to turn around and recognize them before she had through a door leading to the dock.

No Emotional Appearance. London, Aug. 28.—The features expected in the trial of H. H. Crispin will be according to Solicitor Arthur of the defence. It is probable the fight will be almost wholly technicalities and that appeals to the jury will be few in the case.

From Newton's standpoint summed up appears substantially followed—

Fragments of a human skull dug up in the cellar of the Crispin occupied in Hill Road, The police said the fragments of these fragments were four cently been disturbed, but evidence will be introduced to show it is impossible for any reason to point assuming bricks had been untouched much as a month.

Dr. Pepper, the government has stated that he has no remnant as those of a woman, Marshall, who conducted an inquest, testified before the jury that he had seen a woman of that name in the street. At any rate it is certain that the prosecution will make good its claims that the fragments were those of a woman who underwent an operation of the weight of medicine being that it is a discover to find such fragments in the condition of those discovered in Hill Road residence.

The police expect to make the fact that Crispin had had his jaw level after disappearance which is known to have belonged to the woman. The defence will state that the fragments were continually and redeeming these jewels.

Again, was Crispin's flight highly significant? The defence would say that the fact of his being in the hospital for the doctor, in view of admittedly mysterious disease to feel that suspicion was tall upon him and that it means surprising for him from a police inquiry. To his peculiar existence and habits, it was perfect for a matter of no great moment in view of the fact business was as good in or in another.

G. T. P. LINE TO BATTLE FROM WALWRIGHT.
President Hays Says It Will Be a Matter of No Great Moment in View of the Fact Business Was as Good in or in Another.

"Yes, you can state that we are going to build a bridge from Walwright to Battle," Charles M. Hays, president of the Grand Trunk Pacific, told Star reporter on the occasion of a visit there a few days ago.

"The surveyors are at work on it, and I think it will be completed in the next few weeks," he said.

Mr. Hays stated that the Walwright-Battleford bridge probably come in a short time. "It will be perfect," he will get the traffic."

Mr. Hays congratulated Morrison, of the board of the enterprise Walwright in maintaining an exhibit in the honor of the institution. He included the present Superior Judge, Ed. Edwards of 200 men, a student of the institution, once a member of the Scholastic, is also he included at the ceremonies.

CELEBRATING SILVER.
Ottawa, Aug. 29.—One of the most notable occasions in the history of this city has ever occurred this afternoon, when a three-day celebration in honor of the silver jubilee of the Scholastic in Ottawa, and of the clerical profession, present Superior Judge, Ed. Edwards of 200 men, a student of the institution, once a member of the Scholastic, is also he included at the ceremonies.

THE EDMONTON BULLETIN

Published every Monday and Thursday by The Bulletin Company, Ltd., at the office, Bulletin Bldg., 318 Jasper Ave., East.

Subscription prices: One year to Canadian or British Post Office address, \$1.00.

THURSDAY, SEPTEMBER 1, 1910.

Mr. Monk, M.P., Conservative leader for the Province of Quebec in Federal affairs, accuses Sir Wilfrid Laurier of 'stupid and servile loyalty' and of having betrayed the birthright of our people by the creation of a Canadian navy.

The retirement of Mr. William Rae from the principality of the High school is an event of note in the educational history of the city.

Toronto Telegram—The Lemieux act is a convenience, not a cure-all. The method employed under the Lemieux act can bring about peace when employers and employees do not want peace.

Mr. Bonnycastle has resigned the seat for Russell constituency in Manitoba, to which some one elected him by destroying a sufficient number of Liberal votes.

The Ottawa Journal quotes Lieutenant Colonel White as saying that 'the time will come when the redcoats will be confined to the uncivilized parts of the country.'

The Montreal Gazette notes that the exports of butter from Montreal from the opening of navigation to the end of last week were 18,388 packages.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy cures as soon as the child becomes hoarse.

The most emphatically protested against the assertion that popular opinion would not endorse such an alteration of the Navy Bill as would admit of a limitation compact with Great Britain.

Such an offer would be welcomed by the whole nation with the greatest cordiality.

The vast majority of German provincial newspapers would hail with delight any compact that would limit naval armaments.

In Germany, as in Britain, it is not the people who want war, and preparation for war but the classes in military operations the chance for preferment, the interests who see in the increase of armaments a chance for profit.

The city commissioners are trying to rearrange the city bookkeeping methods so as to simplify the annual report.

Edmonton's 1910 fair passes into history as a success. As an exhibition of what is being produced on the farms of the country, it was the best yet.

Washington Star—Some folks that get more than their share, said Uncle Eben, is so ridiculous that they ain't invited to congratulations.

Exchange—At an evening party a very elderly lady was dancing with a young partner.

Chicago Tribune—Tomorrow will be my birthday, Mr. Crisp.

Miner Injured by Powder Explosion. Two Men Killed.

San Bernardino, Cal., Aug. 27.—With a leg shattered, and otherwise injured as the result of a powder explosion, Gus Phillips, a prospecting miner, dragged himself two miles across the hot desert of Slam, from where he was brought here yesterday.

Prince Albert, August 31.—George Perrott, of Duck Lake, is in jail here, having been committed for trial on a charge preferred by a young Galician girl of assault a week ago Sunday.

Parliament will be in session in a short time, and weeks will be devoted to the consideration of issues scarcely large enough for county council debate.

There is no doubt at all as to the cause of these fires. The majority of them originate along the lines of railway, where by a peculiarly shortsighted policy the brush on the right of way is usually cut and piled up until it becomes as sensitive to a spark as tinder.

Chicago News—I want a hammock that will not break down, said the fair maid, addressing the workwalker of the department store.

Everybody's Magazine—the subjoined item appeared in a French newspaper:—

There was found in the river this morning the body of a soldier cut to pieces and sewed in a sack.

Baltimore American—I heard you were going to have an alfresco performance of Shakespeare at your country home, Mrs. Comeup.

Wife—Oh, doctor, is there a medicine for that, too?

Baltimore American—Maude is a woman of a very open nature.

Not, of course, that the fair was designed as a money-making enterprise or is run with that end in view.

Chicago Tribune—Tomorrow will be my birthday, Mr. Crisp.

Mr. 1210 birthday, Mr. Crisp.

TWO PROVINCIAL RECORDS BROKEN

At Athletic Meet at Exhibition Policeman John Cameron Established New Marks

The games of the Edmonton Police A.A.A. and Caledonian Society divided interest with the trotting and running races and the platform attractions at the exhibition on Saturday afternoon.

There were twenty-one events on the program which was run over with a despatch that reflected great credit on the management of the meet.

For the all-round championship, Cameron, with two firsts and two seconds to his credit, tied with G. M. Cundal, of Manville, who won two firsts, a second, and three thirds.

Brookel Wins Cross Cup. The first event to be decided was the Cross Cup, a one-mile cross-country run. The cup was carried off by P. F. Brookel, of the Y.M.C.A., who finished second to Alex. LaFleur, of Battledore.

Parney in 100 Yards. The 100 yards dash was won by F. S. Parney, of the Y.M.C.A., in 13.5 seconds. The second time of 10.3 seconds was made by T. S. Buckham, of Strathcona, and G. M. Cundal, of Manville.

Parney in 100 Yards. The 100 yards dash was won by F. S. Parney, of the Y.M.C.A., in 13.5 seconds. The second time of 10.3 seconds was made by T. S. Buckham, of Strathcona, and G. M. Cundal, of Manville.

TRACK RECORD LOWERED TWICE

The Horse Races on Last Day of Exhibition the Best of the Entire Meet

The horse races of Saturday at the fair gave lovers of horse flesh the biggest treat of the week. There were seven scheduled events and in addition there were 'indies' and 'farmers' races, each for a half mile.

Two new records were established for the track. In the first of the free for all, Capt. Derby smashed the two-year-olds, first place went easily to Mayfield, from Calgary, who won by a hundred yards.

The consolation run, 1/4-mile dash, was won by Girdle of Prince Albert, second and Dr. Thillman, Edmonton, third.

Roosevelt Ready to Make Warfare on Old Guard in New York State—Old Guard Ready to Take Political Atmosphere is Not Clearing.

Utica, N.Y., Aug. 27.—Theodore Roosevelt served notice today that he would wage war without quarter on the "old guard" of the Republican party in New York state.

Having been drawn into the fight, as he says, against his will, he has determined to pursue it to the end, win or lose.

Roosevelt's intention was indicated more clearly than at any time before by a statement which he issued today. The colonel said he was going into the fight with his eyes open, and with full realization of the fact that he might not be successful.

He said that he felt that owing to the attitude of members of the organization he was at perfect liberty to carry on uncompromising warfare.

When a statement by William Barnes, Jr., the Albany leader, so the effect that there would be a fight in the convention against his domination by Mr. Roosevelt, was read to him, Mr. Roosevelt was clean, decent politics.

"They will have all the fight they want I am only going to the convention because I feel that the interests of the people of New York demand that the Republican party be given a chance to stand squarely and uncompromisingly for clean, decent, honest politics."

It is so that convention to make the speech exactly as it had been planned originally, and while he hoped there will be enough good sense to prevent an any opposing the principles for which I stand, yet if they do oppose them then it is their own affair, and so far as I am concerned, the issue shall be absolutely clean cut."

Some of Colonel Roosevelt's closest friends in the state have told him they are doubtful of the outcome, and he has replied that he himself felt that even though he should be successful in the state convention at Saratoga, and such a platform as he desired should be adopted, the result of the election would be in grave doubt.

Ate Unwisely? Sometimes people do, and suffer, because the stomach balks.

NA-DRU-co TABLETS DYSPEPSIA

relieve the discomfort at once, and help digest the overload. The lover of good things may feel quite safe with a box of NA-DRU-co Dyspepsia Tablets at hand.

NELSON GREETED HIM AT MIDNIGHT

Enthusiastic Reception Tendered Sir Wilfrid by the Kootenay Lake District and Nelson—Minister of Railways Also Intends to Go Over H.B. Line Next Year.

Nelson, B.C., Aug. 27.—Nelson greeted Sir Wilfrid Laurier tonight with enthusiastic acclamation. Church bells were rung, bands played, whistles blew, torches flared, rockets shot heavenward.

When a statement by William Barnes, Jr., the Albany leader, so the effect that there would be a fight in the convention against his domination by Mr. Roosevelt, was read to him, Mr. Roosevelt was clean, decent politics.

Make Them Sound

A lame horse is a dead loss. Spavin, Curbs, Splints, Ringbones, Swelled Joints and Bony Growths won't cure themselves. Yet you can cure these troubles and make your lame horse sound with Kendall's Spavin Cure.

Just as thousands have done, and are doing today, so you can get the benefit of Kendall's Spavin Cure.

In the 40 years that this world's famous remedy has been on the market, Kendall's Spavin Cure has saved millions of dollars to horse owners.

Months, P.O., Old, Alta. "I have used Kendall's Spavin Cure a number of years with great success, and I think it can't be beaten as an all-around stable liniment for 'Kicks,' Strains, Swelling of the kinds, Ringbone and Spavin."

Nothing telling what you will need it. Get a bottle now—\$1—6 for \$5.

Our book—"A Treatise On The Horse"—free at your druggist or write us.

they took what appeared the best course, and started to walk back to Fort McPherson. Neither of them knew the trail, but by compass and map they reached their goal in twenty-seven days.

Game being very scarce, the bishop and his companion were forced to eat their muckalucks (made of raw seal-skin), and moosehain, which, after being further soaked, were then proved palatable.

The bishop states that Mr. Robert W. Service, the Canadian poet, is now living quietly in Dawson. He has relinquished his post as a bank clerk, and is engaged in writing a novel dealing with his favorite theme.

Bishop Stringer has until recently been living with his family in White Horse, but expects to make Dawson his headquarters for the future. He will leave for the north next week.

CHANGES IN CENSUS STAFF. Provincial Superintendents and Chief Officers Dispersed With.

Ottawa, Aug. 29.—When the census of Canada is taken next year some of the provincial superintendents or chief officers or heretofore.

It was previously the custom to appoint one or more of these for each province. They came to Ottawa, got their instructions from headquarters, and went back and instructed the commissioners of each electoral division under whom were placed the enumerators.

This time census officers from headquarters will themselves go to the different provinces and instruct the commissioners. A saving in the salaries of the chief officers will thus be effected.

CHILD CURED OF TETANUS. Nine Thousand Units of Serum Injected Into Girl's Body.

St. Louis, Aug. 27.—After having lain for three days in a continuous spasm due to tetanus in an advanced stage, Gertrude Bodemer, a ten-year-old girl, was cured by the use of an unusual amount of tetanus serum.

TRESHER'S TERRIBLE DEATH. Resident, Ont., Aug. 27.—John Powell, a resident of North Ridge, was almost instantly killed yesterday while working as a thresher at the farm of John Austin. He was feeding, when he became caught in the belt, and his body was carried into the machine. His head was almost completely severed.

Dr. Morse's Indian Root Pills

SICK HEADACHE

A Symptom of Troubles Which are Removed by Dr. Morse's Indian Root Pills.

Sick headaches are not merely trifling ailments to be borne as patiently as possible—they are danger signals.

They never come unless the digestive system is out of order, and their regular recurrence is proof positive of serious trouble and a warning that should be heeded promptly.

Sick headaches are caused by indigestion, biliousness of constipation, and no amount of "headache powder" will do more than temporarily relieve them.

The only way to get rid of them entirely is to cure the Constipation or Indigestion that is causing them, and nothing will do this quicker or more effectively than Dr. Morse's Indian Root Pills.

Dr. Morse's Indian Root Pills are purely vegetable in character, and are free from any harmful drug. For over fifty years they have been in constant use in Canada, and have proved most effective in regulating the bowels, aiding digestion, banishing sick headaches and restoring vigorous health.

Dr. Morse's Indian Root Pills have stood the test for over fifty years. 25c. at all dealers. W. H. Constock Co., Ltd., Brockville, Ont.

A DARING ATTACK MADE TO WRECK A FAST TRAIN

A Narrow Escape For the Milwaukee Flyer—Ties Were Placed Across the Rails on One Occasion and Later a Fast Train Was "Blacked" From the Tracks—Police Think "Flyer" Were Planned Attempt to Kill Passengers Would Have Been Made.

Chicago, Aug. 28.—A plot to wreck employ of the railroad company located the Milwaukee flyer within forty miles along the right of way north of town. Fifteen minutes before the train was due they placed ties across the rails on the opposite side of the tracks. The police say they saw him place ties on the tracks and weigh them down with rocks.

Patrick Zamatta, 17 years old, a second hand in the one under arrest. He is said to have admitted attempt to wreck the train. He refused to give the names of his companions or any information regarding himself.

First Attempt Tuesday Night. The police say the gang made the first attempt to wreck the train last Tuesday night. At that time a "black" man placed ties across the tracks over which the train was to pass.

Second Attempt Made Friday Night. A short time after the train had passed North Waukegan it was reported that a "black" man was seen on the tracks over which it passed.

Plot as Analyzed by Police. The police assert if the train had been derailed the man concealed in the bushes along the tracks would have attempted to rob the passengers.

Train Wrecked at North Waukegan. The Milwaukee flyer was wrecked at North Waukegan, Ill., about 11 o'clock last night.

HE WOULD EMPLOY ASIATICS ON G.T.P.

Devonshire Must Fill in 20,000 Forms Answering Questions.

London, August 28.—The revenue office has sent out schedules for the valuation of property in accordance with the provisions of the Finance Bill, and according to the London papers, two million or more people are being urged to fill in a form.

Yancouver, Aug. 28.—I see no prospect of the completion of the Grand Trunk Pacific railway before 1914 or even later unless labor conditions improve.

At Hazelton, ten days ago, he examined them, the entire party returning to the coast.

At that time it was stated that Mr. McCarthy would not take over the provincial leadership; that R. B. Bennett was not suitable owing to the way he had allied himself with the insurgent Liberals.

GRANTED DAMAGES FOR HURTS IN FIGHT

A Railway Employee Wounded in a Battle Between Crews is Compensated—May Be Indemnified for Bribery Charges to Follow.

Seward, Alaska, Aug. 28.—R. Phillips was awarded judgment for \$15,000 damages and costs against the Copper River and Northwestern Railway Company by a jury in the United States district court yesterday.

The suit grew out of a battle two years ago between rival railroad construction crews for the possession of Keystone Canyon. Phillips received a gunshot wound during the battle.

He sought to hold the Copper River and Northwestern Railway, a Morgan-Guggenheim corporation, responsible for his injury, and the jury found in his favor.

The attorneys for the company immediately filed a motion for a new trial on the grounds that the damages are excessive, and that the jury was prejudiced against the company.

Judge Cushman allowed three days in which time attorneys may file affidavits to substantiate the allegation of prejudice and remarked that he considered the award of \$15,000 damages substantial.

During the progress of the trial, Secret Service Agent Bryan was taking notes of evidence in the case in Alaska to investigate the charges of bribery in connection with the trial of Edward Healey at Juneau.

Mr. Bennett apparently did not bother about going near Edmonton, where Rufus Pope passed through here yesterday. He was accompanied by McCarthy, who was also noticed around the city rather too frequently for a leader who was supposed to be attending a convention elsewhere.

The whole result is that the second caucus, the big convention that was to do the trick and elect a suitable leader for the Conservatives, has also been called off indefinitely.

It is stated that even the convention hall had been arranged for, but when it was found impossible to get the old guard together the resort was abandoned, and the party is still without a leader in the province.

TORIES ARE PUZZLED TO SECURE A LEADER

Rufus Pope, R. B. Bennett and M. S. McCarthy Mentioned, But None Seen Anxious to Take the Job of Leading Conservative Forces.

Chicago, Aug. 28.—Conservative Tories are now wondering what is going to be done regarding the election of a party leader for Alberta. Some time ago a caucus was held in this city at which several names were put forward among them Rufus Pope, R. B. Bennett, K. C. and M. S. McCarthy.

At that time it was stated that Mr. McCarthy would not take over the provincial leadership; that R. B. Bennett was not suitable owing to the way he had allied himself with the insurgent Liberals.

Mr. Bennett apparently did not bother about going near Edmonton, where Rufus Pope passed through here yesterday. He was accompanied by McCarthy, who was also noticed around the city rather too frequently for a leader who was supposed to be attending a convention elsewhere.

The whole result is that the second caucus, the big convention that was to do the trick and elect a suitable leader for the Conservatives, has also been called off indefinitely.

It is stated that even the convention hall had been arranged for, but when it was found impossible to get the old guard together the resort was abandoned, and the party is still without a leader in the province.

Earl Nelson, aged 87. He is the "Father of the Home of Lords."

London, Aug. 28.—Earl Nelson, the "father" of the House of Lords, celebrated recently his eighty-seventh birthday.

Lord Nelson, who is the third earl and the grand-nephew of the famous admiral, was born in 1823, and succeeded his father in 1885.

Until recently he was a regular attendant in the House of Lords. He married in 1845 Lady Mary Jane Duff, daughter of the second Earl of Newmarston, but is now a widower.

HEAVY FREIGHTS COLLIDE

Five Men Killed in Head-on Collision at Blackwater, Mo.

Jefferson City, Mo., Aug. 27.—Five men were killed and one badly injured when two heavy freight trains on the Southern Pacific on the river route collided head-on near Blackwater, about sixty-five miles west of here, today.

The collision occurred at about 11 o'clock last night. The trains were carrying heavy loads of lumber and other goods.

The cause of the accident is believed to be the failure of the engineer of one of the trains to stop in time.

The bodies of the five men killed were recovered from the wreckage of the trains. They were identified as follows:

John Smith, 45 years old, of Jefferson City; James Brown, 38 years old, of Blackwater; William White, 52 years old, of St. Louis; Robert Green, 41 years old, of Kansas City; and Charles Black, 33 years old, of St. Paul.

The injured man, Edward Red, is recovering from his wounds in a hospital in Blackwater. He is expected to survive.

The Southern Pacific railway company is investigating the cause of the accident. It is believed that the accident was caused by a failure of the brakes on one of the trains.

The railway company is offering a reward of \$1,000 for information leading to the conviction of the person or persons responsible for the accident.

The bodies of the five men killed were recovered from the wreckage of the trains. They were identified as follows: John Smith, James Brown, William White, Robert Green, and Charles Black.

REUSE TO BOARD SKIES

T. S. Navy Department Will Not Make Experiment in Northwest.

Washington, Aug. 27.—Estimating the cost of the experiment at about \$100,000, the department officials today declined the request to order a bombardment of the skies by all its guns at Puget Sound and at the mouth of the Columbia river, in the Puget district. In addition to the objection of cost, the army officials regard the experiment as certain to prove a failure.

Smoke Overspreads Ocean. Oregon coastwise smoke from the burning of the battleship Oregon spread over the Pacific from 100 to 200 miles off the coast of both states. Report of complete success in the burning of the Oregon was made by the naval officer in charge.

Spokane, Aug. 28.—A message received here today from Orem, Idaho, says: "The bodies of twenty men and five living men are at Aranth, a town on the opposite river at Tuzac, Montana. The five men are burned severely, and no doctor is obtainable. There are twenty or more bodies still in the woods."

Party is Safe. Spokane, Wash., Aug. 28.—Superintendent Wiegand received dispatch today, stating that seventy men of the Helm party are safe. Only eleven remained with Helm and they with their leader, are supposed to be dead.

VANCOUVER WANTS AUTOMATIC. Coast City Will Take Steps to Get a Modern Phone System.

Vancouver, B.C., Aug. 27.—The agitation for a better telephone system in Vancouver today enjoys considerable support among the citizens tonight. The members of the distance committee of the city council were practically unanimous in passing a resolution which requests the city to take steps to improve the telephone system.

Canadian Soldiers Equal of Any. London, Aug. 28.—The Standard says that the arrival of the Queen's Own Rifles in another step in the organization of the forces of the Empire on a common principle. It adds that Canadian born soldiers proved at Paardeburg that they only required some additional training to equal the equals of any soldiers in the world.

INDIGNANT AT AIR RULERS IN GERMANY

The Aviators Declare that the Police Attempt to Restrict Freedom of Air—Claim that the Regulations Governing Them is Absurd.

Berlin, Aug. 28.—Strong indignation is expressed by German flying men at the police regulations for aeroplanists. They express themselves as strongly indignant at this "attempt to fetter the freedom of the air."

The regulations are as follows:— "Aeroplanes with aeroplanes for exhibition flights are only permitted for holders of a pilot certificate under the rules of the International Aeronautic Federation."

"Promoters of exhibition flights or cross-country flights must give three days' notice in advance to the local police responsible for the flying-ground or the starting point of the cross-country flight."

"In cross-country flights flying over towns and villages is forbidden. In exhibition flights the boundaries of the aerodrome must not be passed."

"Offences against these regulations when not liable to a higher penalty under other laws, are punishable by fines of not more than \$15."

These regulations are regarded as absurd by the aviators. They claim that the regulations are a hindrance to the progress of aviation and that they are a threat to the safety of the public.

The aviators are demanding that the regulations be abolished. They are also demanding that the police be held responsible for any accidents that occur as a result of the regulations.

The German government is expected to take some action on the matter. It is believed that the regulations will be revised in some way.

THE KAISER'S NEW PALACE

Gets Royal Christening—Festivities to Last Three Days.

Posen, Germany, Aug. 27.—Emperor William, the Empress, Crown Prince Friedrich Wilhelm and Crown Princess Cecilie, Prince Eitel Friedrich and the younger members of the imperial family arrived here Saturday for the house-warming of the new royal residence. The festivities will last three days.

This palace, the first owned by the emperor, to maintain which he recently sold two of his smaller country places, has been built for reasons of state, to symbolize to the Poles the Prussian supremacy in German Poland.

It is a massive structure, built at a cost of \$1,125,000, covers nearly an acre and a half and contains more than 600 rooms. Among these is the great banquet hall, surpassing in size and brilliancy of decoration any room of the kind in Germany, being a fifth larger than the famous White Hall in Berlin.

A tower 240 feet high surmounts the chapel, which is exquisitely decorated with mosaics and stained glass.

The emperor will personally conduct divine services when in residence here, as is his usual custom.

At the banquet at night the emperor gave a toast to the Province of Posen, concluding as follows: "I shall also encourage all who are willing to work together with soul and body and all their faculties in developing this beautiful country. May this province prosper and grow to be a cornerstone in my crown."

MOTHER COMES TOO LATE. Arrives in Royal City to Find Her Son Dead.

New Westminster, Aug. 27.—Mrs. Young, of England, arrived in New Westminster yesterday to find that her son, C. S. Young, a recent arrival in the country, had passed away and that he was to be buried that same day.

The young man was an electrician for the B.C.E.R., employed on the Chilliwack line. He fell ill with typhoid fever and was taken to the Royal Columbian Hospital, and his mother was called for. She set out immediately, but the young man died while she was en route. The funeral yesterday was pathetic in the extreme.

YOUNG ENGLISHMAN DROWNED

Canoe Capsized on Lake Wassana at Regina.

Regina, Aug. 27.—Eric Thoms, an Englishman, employed in the local office of the Federal Assurance Company, with a companion, was canoeing on Lake Wassana Saturday afternoon when the frail craft capsized, throwing both men into the water.

Thoms, who was in bathing costume, struck out for shore fifty yards distant, but when half-way in was seen to throw up his hands and sink. The body was recovered forty-five minutes later.

The deceased, who was twenty-five years of age, came to Canada five years ago. The remains are being shipped for burial to his brother in Vinemout, Ont.

WILL VISIT WEST. St. Mackenzie, Bowell Will Go Through to Rockies.

Winnipeg, Aug. 26.—Hearty and vigorous in spite of his 87 years, St. Mackenzie Bowell, former premier of Canada and life member of the Canadian Senate, is visiting at the home of his son-in-law, J. G. Jamieson, at Bald Eagle Lake, says the St. Paul, Minn. Dispatch.

St. Mackenzie is an ardent lover of nature, and his favorite pastime is to work in the flower gardens that surround his son-in-law's house. "I have bought him a new rake and hope he'll be glad to use it," says Mr. Jamieson.

Mr. Mackenzie will spend three or four weeks at Bald Eagle with his son-in-law, after which he will go for a trip through the Rockies, returning thence to his home in Ontario.

NEW HORRORS FOR THE DURAND WRECK

Charred Bones of Unrecognizable Victims Being Found—Surgeon Says That There May Be Still More Bodies Which Have Not Yet Been Recovered—State Authorities to Investigate Wreck.

Durand, Mich., Aug. 28.—H. I. Jeffers last night almost definitely identified as his wife the body that was yesterday identified as Mrs. Squires, of Chicago, and the dead victim of Wednesday night's wreck. The victims are now quite definitely fixed as numbering seven.

The stack of bones overlooked by the undertaker is believed to contain the body of Mrs. Squires. To add to the difficulty of identification of the charred bones of the victims of Wednesday night's wreck, there are believed to represent two additional bodies were found in the morgue tonight in a sack that had been overlooked in yesterday's excavation.

This brings the number of dead to eight. Repeated enquiries from relatives of passengers thought to have been on the ill-fated Pullman also point to Nebraska, led Dr. Fair, surgeon for the G.T.R., to remark to Undertaker Mape, in charge of the dead, that there must have been more bodies in the wreck than were recovered.

This recalled to Mape's mind a sack that some one unknown to him had brought to the morgue yesterday morning. In the contents the sack was pushed into a corner and forgotten.

Forgotten Sack Contained Body. When it was brought out, its contents examined it is said to say that the bones represented probably two additional dead.

Among the persons for whom enquiries are being made are Miss Belle Scott, a school teacher from Chicago, who was on route for Toronto; the daughter of Geo. Jackson, of Chicago, and Mrs. H. E. Jeffers, of Washington, a nurse bearing whose name was found today pinned to the clothing of one of the bodies.

Some question arose today as to whether one of the six bodies found yesterday is Mrs. Jeffers or Mrs. Lewis Squire, of Chicago.

Will Investigate Durand Wreck. Lansing, Mich., Aug. 28.—The state railroad commission announces that it will conduct an investigation of the Grand Trunk wreck at Durand and will act independently of the Shiwash County authorities. Chairman Glasgow, of the commission, states that Attorney-General Kuhn will act for the people. The commission, he adds, is determined to find where lies the blame for the accident and will take up the investigation at once.

THE KING REVIVES CUSTOM. Cabinet Minister Will Attend His Majesty's Exequies.

London, August 28.—It is apparent that King George does not intend, as his father did, to dispense with the attendance of a member of the Cabinet when he is away from London. Mr. Asquith, the prime minister, it is announced, will be at Balmoral for ten days in attendance upon the King, follow him in rotation, so that His Majesty always will have a Minister at hand during the vacation.

Formerly the Sovereign when away from London, in the country or on the continent, was always attended by a Minister. The Minister was usually the Secretary of State.

King Edward did not always follow this tradition, and as often as not there was no member of the cabinet with him when he spent long periods at Hamburg, Marienbad or Biarritz twice a year.

HIGHER CRITIC IN THE

Dr. Cleaver Presents Methodist Chancelor Bureau Defending Heretic in

Victoria, B.C., Aug. 28.—The closing session of the Methodist conference today was devoted to the resolution which set it is regrettable that the quadrum in the college church, or in public have been set forth do settling and injurious.

First—That the early Gospels are not history, are not accounts of the real life of Jesus, and are not a record of his teaching.

Secondly—That Christ was a man, and that the Gospels are a collection of legends and traditions, and that the Gospels are a collection of legends and traditions, and that the Gospels are a collection of legends and traditions.

Third—That man may not be a God, and that the Gospels are a collection of legends and traditions, and that the Gospels are a collection of legends and traditions.

Therefore, this conference its strong disapproval of such teaching, as may be to deny the deity of Jesus Christ, while here on earth the authority of Christ are to be discarded.

Dr. Cleaver explained bitterness towards any one that the very foundations were at stake. He charged Burwash, of Victoria, with defending these teachings.

If modern scholarship Christ did not mean what we say, then we have no right to claim no relation to him. Winters, in seconding the resolution, said he for higher criticism. He thousands of our young making shipwrecks of through the teachings in logs.

Chancelor Burwash, at the conference decided to two speakers on each side. Dr. Burwash, of course, must allow liberty of thought to all. Making the standard of doctrine thought. He was sure the faculties of the Methodist church were at stake.

He said he had no right to claim no relation to him. Winters, in seconding the resolution, said he for higher criticism. He thousands of our young making shipwrecks of through the teachings in logs.

HIGHER CRITICISM IN THE COLLEGES

Dr. Cleaver Presents Resolution to Methodist General Conference—Chancellor Burwash Charged With Defending Heretic Doctrines.

Victoria, B.C., Aug. 29.—The morning assembly of the Methodist Conference today was devoted to Dr. Cleaver's resolution which set forth: "That it is regrettable that during the past quadrennium in the college teaching of our church, or in publications, there have been set forth doctrines of an unsettling and injurious character such as: First—That the early chapters of Genesis are not history, and that they are not science, and that they contain no account of the real beginnings, neither of the earth, nor of man and of human civilization in it."

Secondly—That Christ assumed the Messianic authorship of the Pentateuch, and that David's authorship of the Psalms. Modern scholarship denies both. Third—A man may not do violence to his intellectual conscience at the bidding of any authority, however august, and such an authority can accomplish nothing unless it be to discredit the authority itself.

Therefore, this conference expresses its strong disapproval of this, and all such teaching, as may have tendency to deny the divinity and infallibility of Christ, while here on earth, to weaken the authority of Christ and his apostles, and to discredit the scriptures as a trustworthy revelation from God.

Mr. Winters in seconding Dr. Cleaver's resolution, said he had no use for higher criticism. Hundreds and thousands of our young people were making shipwrecks of their faith through the teachings in our colleges.

Chancellor Burwash's Reply. At the suggestion of the chairman the conference decided to hear only two speakers on each side.

Dr. Cleaver closed the discussion, affirming that his points had not been answered. The following amendments brought in by Dr. A. D. Watson and seconded by Rev. Principal Sparling, was, by common consent, not debated.

Resolution Carried Unanimously. Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first intimation of looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all dealers.

ZELAYA WORKS HIS "LITTLE GAME TO DEATH"

Nicaragua's Troubles and How They Started—Nelson's Surrender—Concessions—Two Leading Cities Are Ranged Against Each Other.

In order to understand the troubled conditions in Nicaragua the reader must remember that almost from the day they were founded there has existed a bitter rivalry between the cities of Leon and Granada. These are the two most important cities in the republic, and from time immemorial have been competitors in business.

One of the most important of the concessions granted by Zelaya was made about five years ago to an American named Detrick. Detrick is said to have represented a group of Pittsburgh capitalists. He secured the exclusive right to exploit every kind of mineral deposit within new mines or abandoned ones, in a region comprising some 10,000 square miles, excepting, of course, mines then actually being operated by other persons.

Disruption of the union of the Central American republics in 1838, the central of the Conservative party—that is, as a result, Granada fell into the hands of a half dozen families—the Chamorras, the Zavalas, the Cardenases, the Cuadras and the Sacanas, more especially. Among the Liberals there were no such dynasties. Their leaders stood quite alone.

Supreme dictator who the style affected by the rulers of Nicaragua down to the time of President Zelaya. Zelaya promulgated a constitution and assumed the presidency of the republic. He brought together the warring predecessors had been irresponsible despots, holding themselves accountable to God, and not very much account even to the citizens.

CANAJEAS WILL NOT RESIGN. San Sebastian, Aug. 29.—Premier Canajeas in an interview published today, reiterates his intention to adhere ardently to his original program. He says he has no intention to resign his post, on the contrary, will remain in power as long as possible to work for the country's welfare.

CHOWD WELCOMES QUEEN'S OWN

Colonel Pellett, Replying to Address of Welcome, Says That Aldershot is the Magnet for Soldiers of the Anglo-Saxon Race.

London, August 29.—Although arriving at Aldershot very late, the Queen's Own Rifles, of Toronto, were not disappointed with the great crowd which came unceasingly until the regiment reached Rushmore. Colonel Pellett was met by General H. M. Lawson and a large staff and Chairman Underwood and members of the urban council. Lady Pellett received a bouquet.

Replying to the council's address, Colonel Pellett said the world knew Aldershot as a magnet for soldiers of the Anglo-Saxon race. That was why the Queen's Own Rifles were there. The Q.O.R. were only one unit, but they represented a citizen army ready and willing at any time to come to the help of the mother country when required.

WOMEN PURCHASE ANNUITIES. In Eighteen Months \$650,000 Worth Have Been Sold. Ottawa, Aug. 29.—At the end of eighteen months operation of Sir Richard Cartwright's government annuity scheme, the revenue amounting to the value of \$650,000 has been sold. The average annuity has been \$250. Approximately one-third of the annuities are purchased by women.

EDMONTON NEWS

MANY IMMIGRANTS ARRIVE. Last week was a fairly busy one at the immigration hall. There were 55 immigrants received and 37 who left during the last seven days.

GIAR STORE BURGLARIZED. There has been an epidemic of burglaries in the city during the past few days. A few days ago the store of H. H. Speers, on Fourth street, was entered and Friday night the jewelry store was plundered of about \$300 worth of pipes, tobacco, etc. The thieves made a careful selection of merchandise and Peterson, an entrance was effected through a rear window where the wire screen was cut off and the glass broken.

REPORTS OF RIFLE MATCHES. In the D.R.A. matches at Ottawa last week, Col. Sergeant Hodson and Corporal J. H. Regan, of the 101st, won prizes in the Batters' match and Captain J. Carruthal and Sergeant D. McInnes, of the A.M.R., won places in the McDonnell match. The final prize list of the Ontario Rifle Association, met at Toronto, shows that Col. Sgt. Hodson, of the 101st, won a place in the "Oster" match with 45 out of a possible 50 points, and that Sergeant Carruthal, of the A.M.R., and Sergeant McDonnell, of the 101st, appear in the "Oster-Bronsey" match, the former with 45 and the latter with 37 points out of a possible 105. The telegraphic reports of these matches have been incomplete, inasmuch as they seemed to consider only "Winnipeg, Vancouver and Victoria as being the homes of the western marksmen," and ignored nearly all others.

RECORD BREAKER FOR RAILWAY. Last week was a record one for the Edmonton street railway. During the first days of the fair 58,999 passengers were carried on the exhibition route. The Strathcona route also showed a marked increase, the maximum being reached on Thursday, when 7,410 fares were collected.

Table with columns for Passengers and Receipts. Sunday: 6,220 passengers, \$22.70 receipts. Monday: 12,879 passengers, \$45.70 receipts. Tuesday: 15,216 passengers, \$53.40 receipts. Wednesday: 21,231 passengers, \$73.20 receipts. Thursday: 24,830 passengers, \$85.90 receipts. Friday: 21,279 passengers, \$73.20 receipts. Saturday: 19,125 passengers, \$67.21 receipts.

THE NORTHERN HARDWARE CO., LTD. In another portion of this issue of the Bulletin it is to be found some display advertising relating to the merchandise of this successful firm. For a considerable time the Northern Hardware Co., Ltd., have been making strenuous efforts to attain a point of excellence in their hardware business that could not be equalled, although perhaps equalled. This standard has now been reached, and they are making a proud appeal to the farmers and others living outside the city to investigate this statement.

C.N.R. CROP REPORT. The latest weekly crop report issued by the Canadian Northern Railway Company contains interesting reading matter, coming as it does at the approaching close of the season when the hoped-for harvest of the farmers will be shown to have been realized or otherwise. In this respect a great deal depends on the weather for the next few days. A shortening of man is a frequent complaint in the report. In most districts the crops are much better than anticipated. Thrashing is in full swing in many places. Increased thrashing reported will make up for a diminution of the average yield if any. Frost has done considerable damage recently, while at Wray 200 acres have been damaged by hail and 100 acres totally destroyed. Generally speaking, however, the results shown can be expected to give general satisfaction.

PIONEER PASSES AWAY. The death of Madame Joseph Latippe, nee Elizabeth Harnois, took place Sunday morning at her home on the St. Albert road. The deceased was 71 years of age and had come to this part of the country in 1857, with her husband and family, from St. Leon, County of Maskinonge, P.Q. At that time there was no railway line from Calgary to Edmonton, and to cover that part of the road meant to them twenty-six days of wagon travel. She was a pioneer in the true sense of the word. She had seen the hard beginning of Northern Alberta, including the half-breed rebellion of 1855. When immigration brought more people into the St. Albert district the Latippe home became a kind of stopping place, and numerous are the settlers who found in the deceased relief and consolation.

Your complexion as well as your temper is rendered miserable by disordered liver. By taking Chamberlain's Stomach and Liver Tablets you can improve both. Sold by all dealers.

Employed as Oiler. The efficient showed that Wendal was employed at the brick plant for the past five years to look after the oiling and the setting of the machinery. On Monday night about 7:30 he went up on some plank about a foot from the ground to hang up on a board a small belt that was running loose on the shaft.

ROSS BROS. & CO., LTD. It frequently happens that a firm catering extensively to users of outdoor implements and other articles necessary for constructional work has an opportunity of making some special announcement during the season worthy of notice. This is the case with Ross Bros. Co., Ltd., hardware merchants, of Edmonton, who are fully prepared to make you some startling proposals along the lines of legitimate business that are worth considering. Apart from the advertising in this issue of the paper they are equipped with one of the finest stocks of hardware goods suitable for all purposes, and only lack of space prevents them from making a more concise statement. Anyone desirous of obtaining fuller information from these friends can do so by making use of the mail, as their staff is experienced in handling mail orders. Ross Brothers, of this city, hold as complete a stock as any of the eastern houses, consistent with the demand.

COLONIZATION SCHEME. A huge colonization scheme for the placing of thousands of the persecuted Jews of Russia and the "hundred acres of Northwestern Canada," a scheme said to be backed by the wealthiest and most prominent Jewish bankers of France, England and Germany is declared to be well under way, according to information vouchsafed here. Representatives of a syndicate working to this end have been in Western Canada for several weeks, making quiet inquiries as to suitable locations. Bankers such as the Rothschilds are declared to be committing themselves to the scheme, and to have offered large sums from which they will expect no return for ten or twenty years. The movement is without financial backing, as the immigrants will be expected to make full return for the temporary help they will receive, but on the other hand they will be given free passages, will be placed on farms that will be more or less prepared for their coming and will be given such other aid as may be found necessary to give them a proper foothold in the new land.

FELL TWENTY FEET. (Tuesday Daily.) Chris Creamer, who lives at 487 Second street, now lies in a serious condition at the General Hospital as the result of injuries sustained by a twenty foot fall from a scaffold to a concrete floor beneath. The scene of the accident was the power house at the old exhibition grounds where Creamer has a sub-contract for building a temporary roof over the main building. Scantling Gave Way. About a quarter of seven yesterday afternoon Creamer and a fellow workman named D. W. Beadman, were working on the same scaffold on the roof of the building when the scantling gave way just as Creamer stepped on it and he fell headlong to the concrete floor beneath. An ambulance was called and Creamer, in an unconscious condition, was taken to the General Hospital.

Ribs Fractured. On examination it was found that almost all his ribs were fractured and that one of these had pierced the right lung. He was also severely injured internally and it is extremely doubtful whether he will recover or not. No blame for the accident is attached to anyone as it was entirely due to a fall which secured the scantling pulling out.

KILLED AT BRICKYARD. (Tuesday Daily.) "We find that Bust Wendal came to his death at the Edmonton General Hospital as the result of injuries received at P. Anderson & Co.'s brickyard, Strathcona, from being caught in a shaft which we consider was not efficiently safeguarded. And we further recommend that the Provincial Government take steps to secure such legislation as will protect employees engaged on machinery." This was the verdict at the coroner's inquest held last night to inquire into the death of Bust Wendal, aged 46, who died at the General Hospital yesterday morning as the result of frightful injuries received the previous night. The coroner, the jury was W. H. Gardner and the inquest was conducted by Coroner Dr. Ervin.

WHOLESALE TRADE IS GOOD. Business in Retail Lines, Excepting in Eastern Part, Has Been Best Ever Since the Wheat Crop, 25,900,000 Bushels, is in Excess of Predictions. Wholesale trade in Canada is steady and business in retail lines, save at the east, is good, says Bradstreet's of Aug. 29. However, some points report dealers holding off, and merchants in sections where crops have not turned out well are disposed to carry higher stocks. Crop results are better than was expected. Montreal reports that wholesale trade is fair, and that business in the interior is quiet, owing to harvest work. Considerable orders are being shipped to country stores on business heretofore booked. Oil crop hay is about all used up, and new hay is arriving freely. Sales are being made at 12 per cent under the old crop price. Retail trade is quiet and collections are slow. Toronto states that trade in general is better than was expected. Calgary reports that retail trade is good, and orders from country merchants are satisfactory, but there is a tendency to carry higher stocks. Collections are backward. Alberta's wheat crop is estimated at 25,000,000 bushels, which is considerably in excess of predictions. Thrashing is under way and weather conditions are favorable. Bank clearings at thirteen cities for the week ending with Thursday last aggregate \$107,495,000, a gain of 1.4 per cent over last week and of 12.4 per cent over the like week last year. Business failures for the week terminating with Thursday morning 28, which compares well with 29 for last week and 29 in the corresponding week of 1909.
