THE FIRST DIVISION.

Government Majority Thirty-Four on Mr. Foster's Motion of Non-Confidence.

The Interior Portfolio—Commissions Cancelled—Revision of Sealing Regulations Objected To.

(From Our Own Correspondent.) OTTAWA, Sept. 7.—Labor Day, which owes its permanency to an act passed during the Conservative regime...

Joseph Baribeau, who had contracted for some public works under the North-west Territorial government last year, was arrested at the St. Genevieve, Champlain county, to-day, and will be taken to Regina in charge of the officers.

President Fitzgerald, of the Imperial Oil Co., was here to-day in conference with the provincial managers from the East. To-night they all left for Toronto.

Hon. Col. Baker, minister of mines and agriculture for British Columbia, and several members of parliament will have an interview with the Premier and his colleagues to-morrow to urge the establishment of a Dominion mining bureau.

OTTAWA, Sept. 8.—The first division of the session took place at 11 o'clock to-night on Hon. Mr. Foster's motion censuring the government for its abuse of the power to issue governor general's warrants.

An order in council has been passed cancelling the commissions issued by the outgoing government months since for the revision and consolidation of the Dominion statutes.

On Sir Oliver Mowat's recommendation an order-in-council has been passed rescinding the creation of 173 Queen's Counsel by the Tupper ministry.

The only important statement made by Mr. Laurier to-day was in reply to a question of Sir Charles Tupper. The Opposition leader asked when an announcement would be made respecting the filling of the portfolio of the Interior department.

Sir Henri Joly returned from North Bay to-night after bidding Li Hung Chang good-bye. In the course of conversation the viceroi incidentally brought up the question of the per capita tax on the Chinese.

OTTAWA, Sept. 9.—The Minister of Marine and Fisheries does not see sufficiently cogent grounds for granting the request of certain canners that the close season for salmon should be shortened by ten days in order to enable cohorts to be taken.

WORKERS IN CONGRESS

Exclude Reporters of Non-Union Papers—The Release of Irish Dynamiters.

Unlimited Loan to Put Down Cuban Insurrection—The Philippine Islands Trouble.

LONDON, Sept. 8.—After discussing the motion of the paper mill workers that no representatives of the press be allowed to report the proceedings of the Congress of British Trades Unions...

The Miners' Federation of Great Britain then moved: "That this congress is of the opinion that the coal mines regulation bill, drafted by the Miners' Federation of Great Britain, and introduced into the House of Commons this year by Sir Charles Dilke, if passed into law, would make the mines safe to work in and would lessen the number of accidents, whereby more than 10,000 workmen are injured every year, and that the parliamentary committee assist the miners in preparing the government to find time for the discussion of this bill, early at the next session of parliament."

DETROIT, Sept. 8.—A special to the Free Press from Benton Harbor, Mich., says: The most horrible holocaust with the greatest loss of life that has ever occurred in this part of the state occurred at midnight when Yore's opera house took fire, and in the fight to save the buildings and other blocks adjoining eleven firemen, one volunteer, met their fate at one time, death being instantaneous with five of them.

Official advice from Manila says that the rebellion in the Philippine Islands is confined to the provinces of Cavite, the rebels have barricaded themselves in a church at Cavite, which is so far from the shore that the Spanish gunboats are unable to reach it.

ANNOUNCING, Sept. 8.—(Special)—At the general synod session to-day, Rural Dean Burman presented the report of the missionary committee as one of the most important reports of the whole synod. The scheme for the proposed consolidation is almost practically the same as that suggested by the provincial synod of Rupert's Land.

EDINBURGH, Sept. 9.—The British Trades Union Congress resumed its session this morning and adopted resolutions favoring the payment of members of parliament, co-operation and trades unionism, and amendments to the truck act.

Messrs. Sullivan and Strasser, delegates of the American Federation of Labor, were present to-day and met with a cordial reception.

Mr. Sullivan made a speech, during which he said he had brought to the British delegates greetings from the workers of the United States, adding that the latter regarded British trades unionism in America as a labor movement. They cordially invited him to send delegates to the coming American Trades Union Congress.

It was moved to rescind the resolution of the Norwich union congress, passed Sept. 6, 1894, on motion of Kier Hardie reading: "That in the opinion of this congress it is essential to the maintenance of British industries to nationalize the land, mines, minerals, royalty, rents and railways, to municipalize all water, artificial light and tramway undertakings within the several authorities, and that the parliamentary committee be instructed to promote and support legislation with the above object."

After adopting several minor resolutions, the Amalgamated Stevedores' Laborers' League proposed the following resolution: "That this congress regrets that the president of the board of trade, while admitting that British workmen have a serious grievance in not being able to recover compensation from foreign ship-owners for injuries received through such shipowners' or their servants' negligence, has been unable to introduce legislation to remedy the same and as a bill to amend the law on the subject is now in charge of the reassembly next session by Mr. H. J. Reckett, Mr. P. for Brigg, this congress instructs the parliamentary committee to assist the passage of the bill as far as possible and to issue to the trade secretary a request to repeat the resolution in favor of the bill and forward the same to the M.P. in their constituency, and to the president of the board of trade."
