AUSTRIA WANTS CESSATION OF HOSTILITIES

Viennese Government Warns
Servia and Greece That It
Will Not Permit Bulgaria to
Be Over-Humiliated—Roumanian Army May Prevent
Any Attack on Sofia.

LONDON, July 25.—(Can. Press)—The important developments today in the Balkan situation was a demand presented by the Austrian representatives at Athens and Belgrade for an immediate cessation of hostilities, together with a warning that Austria will not allow Bulgaria to be too greatly humiliated. It was declared in Vienna tonight that should Greece and Servia still oppose an armistice, a Roumanian army, acting as a mandatory of Austria and Russia, will prevent any attack on Sofia, and that Austria will take even more energetic steps, if necessary, to stop the war. Should it be true that Austria and Russia thus have agreed to co-operate, the pressure exercised doubtless will be effective.

BULGARIAN MOTHERS APPEAL TO POINCARÉ

Ask French President and His
Wife to Stop Turkish Mas-
sacres.

SOFIA, July 25.—(Can. Press)—The French minister here was requested today by the Bulgarian women in Philippopolis, Eastern Roumania, to send the following telegram to President and Mme. Poincaré: "Bulgarian mothers, whose sons are on the battle field, implore Madame and Monsieur Poincaré, with tears in their eyes, to save us from the Turkish massacres which threaten Philippopolis. Your intervention is our last hope. Accept our sincere thanks and eternal gratitude."

BULGAR ATROCITIES RELATED IN LETTERS

Thirty Thousand Non-Combatants
Slaughtered in One
Town.

GAIPE, July 25.—(Special.)—Private letters received by James Athas, a local Greek merchant, from two of his nephews, who were formerly employed by him but left to join the Greek army at the commencement of the Balkan war, provide corroboration of atrocities committed by Bulgarians. A letter states that in one town 30,000 non-combatants were slaughtered. In order to secure the jewelry they wore ears and fingers were cut off and defenceless women and children were killed.

WANTS CANADIAN MILITIAMEN AT PERRY VICTORY CELEBRATION

Col. H. Cutler of Rhode Island
Light Infantry Is in Toronto
to Secure Attendance of
Detachment of Local Gar-
rison at Put-In-Bay Centennial
in September.

Colonel Harry Cutler of Providence, R. I., who registered at the King Edward yesterday afternoon, can fairly claim to be a peace ambassador. He comes to Toronto to secure a detachment of Canadian soldiers to attend the Perry Victory Centennial celebration at Put-In-Bay, Sept. 10 and 11. While the date commemorates an American victory at the battle of Lake Erie about a century ago, the celebration is to be first and foremost a peace celebration. A general rejoicing in fact that since the Treaty of Ghent was signed the English-speaking people of the American continent have kept the faith and lived as brothers.

Colonel Cutler has complete charge of the military arrangements for the celebration, having received leave of absence from his regiment, the Rhode Island First Light Infantry, for that purpose. He is also auditor-in-general of the interstate board of the Perry Centennial celebration.

Protest.

BRUSSELS, Belgium, July 25.—(Can. Press.)—A storm of protest has been raised in the artistic world by a pastoral letter signed by Cardinal François Joseph Merlier, primate of Belgium, and all the Belgian bishops, in which the priests, the principals of schools and parents are forbidden to visit a number of sections at the Ghent exposition, including those devoted to the fine arts, the library of engravings and dressmaking.

MACKENZIE AND MANN MERGER TO RESULT IN TROLLEY SERVICE FROM ROCHESTER TO TORONTO

Three Lines on American Side
Will Be Connected With
Mackenzie-Mann Radial at
Falls by Means of New
Bridge Over Niagara—Ap-
plication to Be Heard at
Buffalo.

NIAGARA FALLS, Ont., July 25.—(Special.)—A thru trolley service between Rochester and Toronto is planned by the Mackenzie-Mann syndicate, which controls the Canadian Northern Railroad, the Electrical Development Company, Niagara Falls Transmission Company and many other public service corporations. It was learned today.

When the bondholders of Buffalo, Lockport, Rochester Railway Company applied to the public service commission yesterday, for permission to re-organize the company, and form a merger with other lines and transmission companies, for a thru service between Rochester and Toronto, plans of a big Canadian syndicate were hinted at, but did not become known until today. The hearing on the application will be held in Buffalo next Thursday.

The plan is to use the line of the Buffalo, Lockport, Rochester Railway Company between Rochester and Lockport, and lease the International Line between Lockport and North Tonawanda, and run over the International proposed frontier line to the Falls. The new line would cross the Niagara River on the proposed trans-Niagara bridge, just north of the present upper steel arch bridge, and proceed to Toronto over the right-of-way of the Electrical Development Company. It is also planned to establish a thru service between Niagara Falls and Erie, Pa.

Plenty of Power.
The Niagara Falls Transmission Company has a franchise to import 62,500 electrical horsepower into the United States from Canada and has a contract with the Electrical Development Company for this amount of power. Besides being sufficient for operation of the proposed new system, there would be plenty of power for distributions for commercial purposes along the line.

The Trans-Niagara Bridge Company several years ago obtained options on land on the Canadian side for Canadian approach. The approach on the American side would be on the property of the Niagara Falls Gas-Electric Light Company, which the Mackenzie-Mann interests control.

BOY MET DEATH ON HYDRO POLE

James Leadbetter Was In-
stantly Electrocuted While
Trying to Disentangle
Kite From Wires.

Climbing a hydro-electric pole at the corner of Withrow and Carlaw avenues, to rescue his toy kite which had become entangled in the wires, James Leadbetter, 11 years of age, was instantly electrocuted shortly after 2 o'clock yesterday afternoon.

The lad, who lived at 4 Englewood avenue, was playing with some other boys of his own age near the north-east corner when the kite which they were flying got stuck in the wires. Leadbetter volunteered to climb up after it, and as the kite was some distance out from the pole, he started to climb along the wires. As soon as he laid his hand on the wire he was thrown to the ground dead.

EXPLORING PARTY WILL BE AWAY TWO YEARS

J. H. Flaherty Has Left For
St. John's, Nfld., to Con-
duct Expedition Which Will
Explore Lands North of
Hudson's Bay—Will Carry
Moving Picture Outfit.

J. H. Flaherty, a representative of the Mackenzie interests, left Toronto last night at 10.45 for St. John's, Newfoundland, where he will take charge of an exploring party to the northland for the purpose of exploring the lands north of Hudson's Bay and in the temperate zone, to find out the mineral and commercial possibilities of those regions.

Mr. Flaherty has been resident at the Queen's Hotel since Christmas last, when he returned from a nineteen months' cruise in the north. His party will sail in the schooner "Laddie," top-sail-rigged, with an auxiliary engine, which will be under the command of Capt. H. Bartlett, an old-timer at work in the regions of ice.

Describe Heat as
Intense.

Special Cable to The World, Copyrighted
by The Toronto World and N. Y. World.
PLYMOUTH, July 25.—The Imperator arrived here today, having made an average speed of 22.5 knots and a best day's run of 540 miles. Commodore Ruser said the feature of the voyage was the awful heat, which prevented the firemen from working at full pressure. The sea temperature in the Gulf Stream for two days, he said, was 80 degrees, and then 74. The temperature in the shade of the deck was 77 degrees. Passengers on the Oceanic and the New York exchanging wireless greetings with the Imperator. All complained of the intense heat.

WINDOWS BROKEN AND CROFS LEVELED

Disastrous Hail Storm Swept the
Northern Section of King's
County.

ST. JOHN, N. B., July 25.—(Can. Press.)—A disastrous hailstorm swept over the northern section of King's County this afternoon, leveling crops, breaking windows and causing great loss to farmers. The husk wheat crop in its path is ruined and potatoes and corn suffered severely. The windows of two churches in Penobscot were smashed as well as those in houses with a northern exposure. The hailstones were in size from a hazel nut to a walnut.

NEW YORK, July 25.—Ambassador Henry Lane Wilson arrived on the Ward liner Mexico, and left New York at midnight to report to President Wilson his version of events in Mexico. The ambassador said emphatically that after his conference with the president and Secretary Bryan he expects to return to his post.

ENGLAND WINS NATIONAL TROPHY

Mother Country Was First in
Team Match, and Ireland
Second—Crowe Un-
lucky in Shoot-Off.

BISLEY CAMP, July 25.—In the national challenge trophy, open to teams of twenty from England, Scotland, Ireland and Wales, England was first with a score of 1906; Ireland second, 1887; Scotland third, with 1882, and Wales fourth with 1867. Canadians who were with the Irishmen for once scored highest in the team.

Staff-Sergt. Freeborn, 13th Royal Regiment, Hamilton, 100; Sergt. Steele, C.A.S.C., Guelph, 100; Pte. W. Hawkins, 48th Highlanders, Toronto, 26, and Sergt. Carr, 5th C.A., Victoria, 95, shot off tonight among twenty-three competitors for four places in the final 100 for the King's prize.

The shoot-off was unfortunate for Crowe, who scored 30. Corp. Simkins, Nottingham, made 28; Sergt. Elles, Dorset, and Pte. Skilton, London Rifles, 30.

BIG INCREASE IN THIS YEAR'S SALES

President of Eddy Company Takes Cheerful View of Business Situation.

AN UNUSUAL ACTIVITY

Orders From All Over Canada Call For Quick Delivery—Prices Are Firmer.

Mr. W. H. Rowley, president of the E. B. Eddy Company, with twenty-five or more branches in Canada, with resident agents in every large city from Halifax to Victoria, and with sixteen or eighteen thousand customers and correspondents in this country, takes a very cheerful view of the business situation.

Mr. Rowley told The World yesterday that their business throughout Canada was better during the first half of 1913 than for the same period of 1912; that is, sales were greater, although profits are less. Larger sales show increased consumption; smaller profits indicate greater cost of material, higher wages and out prices by senseless rivalry.

The chief channel of the distribution of Eddy's wares is thru the wholesale grocery and jobbing trades. Until a few weeks ago, buying was done with great caution and only for immediate needs; now, however, there is less feeling of anxiety than earlier in the year and since the middle of June business is flowing more freely and goods are more in demand.

Business is healthier. Correspondence from every city in Canada shows that business in all lines is becoming stronger and healthier. The "hand to mouth" buying of a few weeks ago is succeeded by an unusual midsummer activity because the wholesaler's stocks got low, the retailer's shelves were bare, but now there is a better, surer and more easy feeling among buyers; and the necessities of life, such as matches, buckets, tubs, paper bags and paper of all kinds are in good demand for daily use.

Mr. Rowley said: "The majority of the orders received at the works at Hill for a month past are marked 'rush,' 'hurry,' 'a. a. s.,' while nearly every order calls for quick delivery, and that while the demand for goods, the lack of supplies and material, high wages and cost of making will keep the prices firmer, I expect to see higher lists on many lines and an end put to cut prices, although our lists do not vary very much, taking one year with another."

EXCURSION DAY AT UNION STATION

Railroads Will Have Busy Time Handling Six Big Picnics.

Six big excursions will help to swell today's business at the Union Station. In addition to the regular week-end crowds, it is estimated that over 5000 picnickers, race fans, and prodigal sons returning to their home town, will leave by special train during the day. The six excursions will require eight trains and 72 coaches, or more. They are as follows: Steamfitters and plumbers, leaving at 8.00 a.m., for Peterboro by C.P.R. special, 8 coaches. C.P.R. employes' excursion, leaving at 8.10 for Onondy by C.P.R. special, 8 coaches. Theaters' picnic, leaving at 9.00 for Eldorado Park, Churchville, by C.P.R. special, 3 coaches. Bricklayers' Union, leaving at 8.15 for St. Catharines by G.T.R. special, 8 coaches. Two race trains for Hamilton, leaving over the Grand Trunk at 1.05 and 1.30 p.m., 10 coaches apiece. Two Grand Trunk specials to Kingston Old Boys' reunion, leaving at 3.00 and 3.15 p.m., 10 coaches apiece.

EXHIBITION GROUNDS HUM WITH ACTIVITY

Fifteen Hundred Workmen Are Engaged in the "Getting Ready" Process.

The exhibition grounds are a scene of activity just now that speaks the near approach of the fair. In all about 1500 men are engaged in the "get ready" process. Of these 800 are working on the new roads and pavements, while the remainder are putting the finishing touches to the new live stock department and making improvements in the buildings. The stables, has been placed on the ground and the new midway. All the work is well advanced and everything will be complete for the opening of the exhibition. The roof is being put on the covered arcade thru the horse stable and the last coat of paint is being given to the stables themselves. The lighting in front of the grand stand has been improved 100 per cent. by a new system of lighting. The new midway has been paved, all the wires have been placed underground, and ornamental steel poles have taken the place of the old fixtures. The new plaza provided by the removal of the stables has been cleared and leveled, and as the new brick front of the fire stick department looms up as its eastern boundary, a new beauty spot has taken the place of what was always an eyesore on the grounds.

BIG LAND DEAL ON KINGSTON ROAD

English Company Purchases One Hundred Acres From White and Company.

One hundred acres of land, fronting on the Kingston road, between stops 23 and 25, has been bought from White and Co. by the Toronto and Canadian Land Co., of London, England. The reported price of the land is \$150,000, which works out at between \$13 and \$14 per acre. The company will erect twenty-five houses on the land, at an average cost of \$3750 and hope to have a completed by fall. They will be sold to workmen. Building has started already. The Homes Investment Co., and White and Co. have recently acquired parcels of land in the district, for the purpose of subdividing and building.

TORONTO HARBOR TENDERS

OTTAWA, July 25.—A number of big contracting firms are preparing to submit proposals for the Toronto harbor works, tenders for which were called some days ago and were received up to the 23rd inst. As it presents no engineering difficulties and is in every respect a desirable job from a contractor's viewpoint, it is expected that many bids will be put in. The whole job is to be done in one contract and the estimate is six million.

ERIN OLD BOYS

The second annual reunion of the Erin Old Boys' Association will be held in the old home town on Civic Holiday, Monday, August 4. A special C. P. R. train will leave the Union Station at 7.20 a.m. Earl A. Smith of 349 Pacific avenue, West Toronto, is the secretary of the association.

HIGH PRICES FOR ONTARIO HONEY

Berry Shortage and Apple Failure Are Said to Be the Cause. High prices for Ontario honey is the forecast sent out by the Ontario Beekeepers' Association in a bulletin to the trade. The average yield of honey this year is 63 pounds per colony, the largest crop being from the southeastern counties. The bulletin states that the failure of honey this year in the eastern part of the province and in Quebec will be responsible for big prices. The berry shortage and the apple failure are also cited as contributing causes. Where there is a crop, however, the quality is reported to be extra good.

HAVE YOU A WEAK STOMACH?

If so, you find life nothing but misery. Tortured after your meals by pain or an uneasy sensation in the stomach, with gas and belching, with Constipation and a half-dead feeling, you can get no enjoy. out of business or pleasure. You need not suffer this way. My Electric Belt will cure you. As soon as you put it on you will find relief and by using it regularly for some time you will be entirely cured. Life will again become a pleasure instead of a burden. I have any number of genuine testimonials from those who have been cured of this distressing malady. Read the following letter and you will then have no reason to doubt that Electricity, properly applied, can also cure you.

Dr. McLaughlin's Electric Belt

will cure all these weaknesses of men. It will make the nerves strong, the eyes bright, and will fill all the body with that fire, that vim, that snap which denotes perfect youthful manhood. No pain or debility can exist where the body is full of electricity, for this is the source of vitality of manhood and womanhood. Twenty-six years I have spent in developing the best means of curing these weaknesses. I know every pain and weakness that man is subject to, and have succeeded in my remedy as to bring perfect health and strength to all those using my marvelous treatment. Men exposed to rough weather, hard work, mentally and physically or overtaxing vital forces, are quickly and lastingly cured by my method. Many suffer from a breaking down of vitality, which never yields to medicines. My Belt restores this energy. Every man would like to be happy and make others happy. There's a lot of the "Good Samaritan" about every man, but he can't radiate much happiness and sunshine if he suffers from pain or weakness. If your Blood Circulation is bad, if you are suffering from Dyspepsia, Rheumatism, Lame Back, Insomnia (Sleeplessness); if your Blood Circulation is bad, if you lack NERVE DEBILITY, and of those manifold evils that result from disordered circulation—overwork and worry, then lack NERVE POWER—ELECTRICITY. That is my doctrine, and it's so, for it's founded upon Scientific Facts. It's as good for women as for men. Women who can't sleep, it causes no trouble. You feel the gentle heat from it constantly, but no stinging, no burning, as in old-style belts.

"Better Than a Letter"

The Art Section of The Sunday World is rightly termed the Souvenir Section, as it is purchased by all and sundry and sent abroad and to friends all over Canada. The Art Section of The Sunday World is better than a letter in conveying to distant friends the happenings and news of current events, as it pictures them in half-tone views. This week's issue contains, among a host of others, a fine group view of the crowd watching the polo match between Toronto and Buffalo on Saturday last. There is a portrait of Mrs. Bickford in the act of presenting the cup to the winners. There are numerous other views of this interesting match in action.

CLEARANCE SALE OF PANAMAS

Today the well-known firm of J. Applegraph & Son will continue its final clearance sale of every straw and Panama hat in its two Toronto stores, Yonge and Richmond streets and Yonge and Queen streets. Needless to say, with a firm of its standing there is no "beating about the bush." It is out to obtain a quick clearance and for that purpose all men's Panamas have been grouped in two lots, priced respectively at \$3.50 and \$5, regular values running up to \$12. Ladies' Panamas at the one price of \$4.50 will also be offered. This

CITY TAXES ARE COMING IN WELL

Over Fifty Per Cent. Has Already Been Received. Joseph Harton was quite happy over the way the taxes came in yesterday. It was the last regular date for tax payments. Seven lines of people kept that number of wicket clerks busy. Joseph Harton of the collection department said the indications were that the payments would be well up to last year's proportion of the payments made. The aggregate received at the city hall and the banks were approximately 55 per cent of the total. The total general and school taxes amount to \$8,442,953 and the local improvements about \$1,100,000.

MODEL OFFICES FOR TELEGRAPHERS

C. P. R. Service Will Be Transferred to Yonge Street Skyscraper Tonight.

FINEST ON CONTINENT

One Hundred Operators Will Carry Out Work on Fourteenth Floor.

The last stage has now been reached in the completion of the C. P. R.'s magnificent skyscraper at the corner of King and Yonge streets, when the transfer of the telegraph department on the 7th floor of the Board of Trade Building, will be made to the new office on top floor of the great structure at 7.30 this evening.

A tour of inspection thru the main telegraph office, which is located on the 14th floor, was made by Superintendent W. Marshall, Local Manager H. A. Shamrock, and Inspector of Telegraphs P. C. Robertson, along with a representative from each newspaper yesterday afternoon, and after examining the immense operating room with its many conveniences for the comfort of the staff, The World was informed by Mr. Robertson that everything is now ready, whereby the transfer of the two big offices can be made in a very few minutes.

Compared with the old office which the company have occupied for 22 years and which has seen many evolutions in the telegraph business, the new office is a beauty in every way. Extending 76 feet on King street and 100 feet on Yonge, with a floor space of 4600 square feet, with a high ceiling and the best lighting, heating and ventilating system it is possible to get, the C. P. R. can pride themselves on having the finest telegraph office on the continent.

After Five Months. It has taken about five months for Inspector Robertson and his electricians to wire the many tables where a staff of about 100 operators will work at the telegraph instruments, and after applying improvements that the Postal and the Western Union Company have made along with original ideas, the company will greatly increase the speed in the delivery of messages with their approved, modern lines.

The east end of the room is given up to the electrical part of the service. The dynamo is placed on a stand near the eastern wall, of which there are nine in number. These motor-generators supply current at

FOUR UPSET IN PUSLINCH LAKE

Three Girls and Their Escort Rescued From Perilous Position.

GUELPH, July 25.—(Special).— Eunice Heather, Lois Heather, Ruth Hipwall and their escort, Mr. Noble, had a narrow escape from death in Puslinch Lake and had it not been for the presence of mind and bravery of Mr. Noble and two cousins of the Misses Heather the girls would have lost their lives.

In crossing to an island they sat upon the edge of the canoe instead of in the bottom and when within about fifty yards of shore the canoe upset, all occupants going into the water. Miss Ada Heather and her sister got to a boat as quickly as possible and rowed out to them. Mr. Noble succeeded in getting Miss Lois Heather and Miss Eunice Heather hung on to the overturned canoe and was almost exhausted when the boat finally reached her and she was saved.

FIRST WHEAT IN WATERLOO.

BERLIN, Ont., July 25.—(Special).— The first wheat of the season was brought to the Master flour mills this morning by David Shoemaker of Waterloo Township. The wheat was large and well matured and above the average and a little earlier in ripening than in former years. It weighed 61 pounds to the bushel.

FIVE HUNDRED WIRES.

In the southeast corner is the switchboard with a capacity of holding about 600 wires, which occupies a space 20 by 15 feet. This leads the wires from the outside cables to the tables and at which the wire chiefs will stand to switch the wires when required and also to trace trouble with the circuits. In the space behind this switchboard the terminal frames are placed. All the wires from the cables which come from the street thru the elevator shaft invert to these racks and it is here that the connections between the various terminals are made. It is similar to those seen in a large telephone exchange.

FERRY CAPTAIN MAY BE FINED BIG SUM

Captain Egbert Accused of Taking Italians Into States Illegally.

SARNIA, July 25.—(Special).— The two small ferries owned by Captain Egbert, and operated between Point Edward and Fort Gratiot, were ordered tied up yesterday, by the officers of the American Government. The captain is charged with taking Italians into the States after being warned twice before by the immigration department. It is stated that under the law, he is liable to a fine of ten thousand dollars.

The two boats were lying at the dock last night, when a steamer of the Mutual line ran into them and damaged them. Besides having warnings from the American officers, he had been warned by Inspector Reynolds of the Canadian immigration service. The inspector is here at present.

BERLIN CHILD MISSING.

BERLIN, Ont., July 25.—(Special).— Mary Schleiter, aged nine, an inmate of the Berlin Orphanage, disappeared on Thursday and has not yet been found. She is a small child for her age and of fair complexion. She was dressed in white when she left the home.

FORMER GUELPH MAN KILLED.

GUELPH, July 25.—(Special).— News was received in the city today that Patrick Duffy, a former Guelph man, had been killed on his cattle ranch at Garnett, Montana. Deceased was a son of the late Patrick Duffy of Eramosa Township. He went to Montana 26 years ago.

MOTHER SLEW DAUGHTER.

BUFFALO, July 25.—Coroner Jacob G. Helwig completed tonight the enquiry in the death of Mrs. Sarah Willcock and Evelyn Willcock, former Torontonians, at the home of Dr. A. T. Leonard in North Tonawanda. He found that the mother had murdered Evelyn and killed herself, as evidence supporting that theory was the finding of clothes saturated with chloroform over the mouths of the women and the note written by Mrs. Willcock declaring that her daughter was dead.

GLIMPSES OF GIDEONS

Continued From Page 1.

and well-dressed traveler, as is met daily, calling on the big houses of a city, raised a distinctly new voice. He confessed to a life-story, which no one would imagine ever to be his. As we recovered from the surprises, the thought was fixed, surely the Devil never had a more dandy sinner. But the point is, his life has been changed. So his fortune. And he is a powerful Gideon to rescue others. A still louder voice stirred the hall. John W. Galley, an insurance man of Bedford, Pa., went on his way like a cyclone. When he goes back over the Lehigh Railway, we shall almost hear him preaching the gospel to the travelers of his state. Allison who came thru the Dayton flood, is a wholesome fel- low, and a great Gideon. Let their names be noted for future reference.

It was a great holiday at the Exhibition Grounds. There were more praises given to the city fathers, and the street railway. They will never lack a confessor to shrive their souls, as long as a Gideon lives. But the first incident was musical. The 48th Highlanders Band had favored them with some Scotch airs. Then the men of Georgia and Kentucky called for "Dixie Land." But the dour colonel of the musicians only glowered at their earnest requests. We thought that it was the wrong bunch, for once who had met together. But lo! the baton is raised, and the music went off on the tilt, amid cheers and salutes. It was the old southern air. And excellently rendered.

Those men and women of Confederate blood express their patriotism and religion boldly. Men threw up their hats and others joined hands. But an old Gideon, Wm. H. H. Phelps, Atlanta, Ga., 75 years of age, took a special march to the memorable music. And rightly so, because he has a special glory. On the evening of April 15, 1865, as captain of the 3rd Regiment of Infantry, he was the last to surrender and sheathe his sword. The old man with flowing gray hair got a great cheer. He can still work a full day's portion, being a broker in Atlanta.

Ex-Mayor Geary gave a happy address, which his good voice easily carried in the large building. But it was John McNeill who surpassed all reputations. His address was purely im-

pared the two trades, preaching and drumming, and showed how they resembled each other. One of his witty asides was to tell the men if they had failed to make good, not to cast in their lot with his business. He touched upon their mission of scattering Bibles by relating an incident in London, Eng. The socialists boasted of their organ as The Clarion. "Men," he said, "it's only a tin whistle. The Word of God is the clarion."

There was a practical demonstration of Gideon service at the evening meeting. The "boys" had found two men on the street who knew not the peace of God. They brought them in. Big, kindly-faced Williams of Minneapolis rose and informed the chair that the most important thing at the moment was to lead them to Christ. The chair- man said: "Go ahead, pray for them." Read therefore, his petition, and let every man say whether a Gideon's prayer is worth anything or no.

"Oh God, our Father, Thou knowest all our hearts. We bless Thee for the love that saves souls. Dear Lord, Thou hast brought two lost men among us, who want light. Thou knowest their sins. Will Thou receive them just as they are? As they cry out in pain of soul, wilt Thou forgive their transgressions? Place their feet upon the Rock, which is Jesus Christ. They are some mother's boys, too. Hear her prayers. In the name of the Father, Son and Holy Ghost we ask it. Amen."

MAN IS ACCUSED OF FIRING BARN

Alex. Gray, Jr., Held at Niagara Falls on Serious Charge.

NIAGARA FALLS, N.Y., July 25.— (Special).—Alex. Gray, Jr., is detained at police headquarters, pending an investigation into the circumstances surrounding a fire that, early this morning, destroyed Harvey Wilcox's barn, 209 Bridge street. Gray was taken in charge in an hotel across the river, on a warrant charging him with intoxication.

Fire was discovered about 4.30 a.m. Soon after Gray was discovered in the neighborhood of the blazing barn. The owner of the barn, it is said, gave

Gray a beating, and then reported the matter to the police. The building was completely destroyed, but firemen succeeded in saving a horse and cow stabled in the barn, and a quantity of hay.

Gray who is on the "Indian list," has been drinking heavily for the past few weeks. He will be arraigned before Magistrate Fraser tomorrow morning.

Out in Taney County, Mo., there are three women who are expert railroad tie hewers. The women are Mrs. W. A. Kelsey and the two Kelsey girls, sisters of Mrs. Kelsey's husband. They are all professional tie-makers and come from a family of tie hewers, and it was from them that they learned the art of the roadax and became proficient in their work. Mrs. Kelsey is a woman between 35 and 40 years of age and turns out from ten to twelve ties a day, for which she gets 14 cents each. She averages well around \$1.75 a day and has never yet complained of the low wages of women.

Women can do most anything in England except practice law. Over 30,000 women are employed in the British postal service.

LOCK AND KEY

Moreover, a child, as he emerges from babyhood, must have increasing instruction in property rights. There are certain things that are his, his to play with, his to use, there are other things that do not belong to him and which he must not touch, certainly not without permission.

Common sense, of course, enters in to the matter. The child is put in a child's way there should be no surprise at unfortunate results. In all probability a crash will follow when a child is left alone in a room with a bit of bric-a-brac within easy reach unless he has been thoroughly trained to touch things that do not belong to him.

The mother who "feels" safe about her children is the mother who takes time and pains to explain to the child why things that do not belong to him are not to be touched. She does not expect the impossible of them. Perhaps some trouble into which a child gets is more his fault than hers, at any rate, she is careful not to blame the child. There must be reprimand or fitting punishment, on occasion, it is true. But it is to be questioned whether a more good is done if the mother tells the child she is disappointed in him, when he has failed in some way. With this explanation of disappointment, the child will be more likely to give a chance to make amends, to show that he can be trusted in the future. Children are sensitive and they are responsive. As they grow older, they appreciate trust. They are proud to have it reposed in them. A child who knows that he is not trusted, who feels he is under the weight of suspicion, becomes suspicious in turn, sometimes unjustly. He sets his wits to match those of his elders.

When a child knows that a mother is keeping things from him by lock and key, he chances are that he will hunt for the key. There are certain positions of a lock which, if a child can get into them, he will find. It is not well, for example, to have matches within reach. But the policy of locking things up, and speaking, is not wise. It makes endless trouble for the mother and puts stumbling blocks in the way of the child's development.

Queen and New Dances

Queen Mary does not intend that there shall be any doubt as to her attitude towards the new dances. She has issued a notice to be understood by London and elsewhere, that the Royal Family will attend any ball where these dances are permitted and that the names of those who do allow them will be removed from the court list. Queen Mary's reign has been widely followed by the real leaders of society, many ladies of the highest distinction, including the Duchess of Devonshire, have taken part in the orders against these dances. It may be said, indeed, that no lady who values her position in society will permit them, as a violation of the Queen's attitude might lead to her removal from the list of those privileged to attend court functions.

Sailor Princess

The Princess of Pleiss, yachtwoman, is called the "Sailor Princess of England." Since she was a little child she has had a fondness for the sea. She has travelled along the coast of Europe and thru the Suez canal. She can handle the boat with as much familiarity with the ropes as the wind, tides and ocean currents. In her travels she has picked up a fund of sea lore, and by her study of the stars and navigation has won a pilot's license. Her fondness for the sea has caused her to gather a library of books dealing with the sea, and she has a collection of poetry telling of the deeds of sailors.

RABIES INCREASING IN UNITED STATES

Boards of Health Trying to Educate Public Regarding Danger.

"DOG DAYS" A FALLACY

Dr. Walter Peet Says There's No Such Thing as Spontaneous Rabies.

By Walter Peet, M.D.

These are the so-called "dog days." There is a popular belief that more rabies is made in summer than at any other season. The great Pasteur's answer to this was, "Bah!"

There is no such thing as "spontaneous" or "idiopathic" rabies. A dog goes mad only if it has been inoculated by the bite of another animal which is rabid. This may happen at any time of the year; season has no bearing whatever on the development of the disease. The occurrence of convulsions (not rabies) due to the heat of the summer months is one reason for the misapprehension.

Rabies is increasing in the United States at an alarming pace. Dr. John R. Monier, chief of the pathological division of the United States Bureau of Animal Industry, reported that in 1907 the disease was reported in four states; in 1908 in five states, and in 1909 the disease had not extended west of the Rockies. Rabies was rare at that time in the United States, except in Pennsylvania and Massachusetts. Now, he says, the disease occurs in practically every state, and city—have issued statistics showing that the disease is on the increase, and they are doing their best to educate the public up to the danger. But the warning is not sufficiently heeded. Some people doubt even the existence of rabies, although its existence is absolutely demonstrated.

Imagination at Work.

A nervous person who has been bitten by a dog that is perfectly healthy and broods over it may develop a hysterical state called "lymphophobia," the symptoms of which simulate those of true rabies so closely that it is sometimes impossible to differentiate them. A case is on record of a man who went to the hygienic laboratory in Washington a few days after having been bitten by a dog, and who had a constriction in the throat and pains in the head. He was visibly nervous and exhibited several of the signs of rabies. He was treated with sedatives, but he thought he was in the grip of the terrible malady. His imagined symptoms subsided promptly on being emphatically assured that he was not suffering from rabies.

During a period of eight months 2467 persons were reported to the New York City Department of Health as having been bitten by dogs. This is far below the actual number, as the names of many who were bitten were not sent in. Of those reported 1168 were on Manhattan Island, New York leads the country in this record. Never in the history of the city have there been so many dogs on the streets, and the number is constantly increasing.

The animals are allowed to run at large, muzzles indiscriminately, most of them without muzzles or leashes. Furthermore, the licensing of dogs is not a duty of the local government, as it is in nearly every other municipality.

Many of the great number of dogs in New York are quarantined and never getting into fights with one another. Herein lies the great danger, experiments that have been conducted by the health department have shown that the virus for rabies in his system contains the slightest trace of the disease, sufficient for inoculation. Obviously, one such quarantined dog with an advanced, unsuspected, but sufficiently contagious virus, could spread the epidemic. Children having pet dogs in their homes are particularly liable to be infected in this way.

Safeguards Demanded.

The New York City Department of Health has made an appeal to the public and to the lawmakers. It wants an ordinance, strictly enforced, requiring that dogs at large be permanently muzzled or leashed. It also wants a licensing system, which would describe the kind of muzzle to be used. Many of the muzzles are inadequate, consisting simply of a circular strip of canvas applied in front of the eyes, which does not inhibit effects whatever. And leashing alone is insufficient, as we daily see dogs on leads snapping at one another as they pass. The proposed ordinance, good as it is—and far better than the complete laxity which now exists—would not be enough.

English System Best.

We should have a strict federal quarantine of at least a quarter of a year against all outside posted dogs. We should have a licensing system, with a fee high enough, especially in the cities, to limit the number of dogs.

The people of England, than whom there are not greater lovers, breeders or judges of dogs, lead the world in the matter of controlling rabies. The who has been exterminated in England years ago, and it has been kept out absolutely ever since by a strict quarantine of six months on all incoming dogs. During that time Canada rescues any dog that is brought in, and if it is found to be unimmunized dog at large, and the muzzles in use were public property, the dogs posted and concerning the government control of dogs. The laws are strictly enforced.

The servant girl problem in San Diego, Cal., has been solved by having a guard house built in the city, where the first school of the Colon River Agency training school. All the girls have a thorough knowledge of domestic science and nursing. Miss Hallie B. Barrett has been appointed forest guard in the Slavkov Reserve, near Sacramento, Cal., and she is the first woman to be named for the position. It will be her duty to watch for fires along the reservation, a view of which is commended from her station.

7900 Two-Piece Draped Skirt for Misses and Small Women, 14, 16 and 18 years.

WITH HIGH OR NATURAL WAIST LINE.

Drapery is exceedingly smart and just the little bit shown in this skirt is so girlish in effect that it is especially adapted to the younger contingent. The shaped overlapping edges are pretty and unusual too. Altogether the skirt is a most attractive one, available for the coat suit, for the entire dress and for wear with the separate waist. It consists of only two pieces, the back being fitted by tuck darts. The making is exceedingly easy and the result most satisfactory. It can be finished at either the high or the natural waist line, which is better depending entirely upon the special figure and the special use. The model is a good one for all the materials that can be made in simple style, and the list includes voile and silk as well as the lighter substances.

For the 16 year size, the skirt will require 3 yards of material, 2 1/4 yards 36 or 44 inches wide. The width at the lower edge is 1 1/4 yards.

The pattern of the skirt 7900 is cut in sizes for girls of 14, 16 and 18 years. It will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents.

POET LAUREATE'S SHORTER POEMS

The following poems are from a collection of the shorter poems of Dr. Robert Bridges, the newly appointed poet-laureate of England:

My eyes for beauty pine,
My soul for Goddes grace,
No other cure nor hope is mine,
To heaven I turn my face.

One splendor thence is shed
From all the stars above,
I taste His praise in my heart,
'Tis loved, 'tis heavenly Love.

And every gentle heart
Starts though gentle fire,
Is lit from eyes that mirror part
Of that celestial fire.

Love on my dew from heaven fell,
Soft as the dew on flowers of spring,
Sweet as the hidden drops that swell
Their honey-throated chalice.

Now never from him do I part,
Hosanna evermore I cry,
I taste His praise in my heart,
And bid all praise Him as do I.

Without Him noughtsoever is,
Nor was, afore, nor e'er shall be;
Nor any other joy than His,
Wish I for mine to comfort me.

Laus Deo.

Let praise, devote thy work and skill
Empire, thought, and every part,
Thy whole mind, and thy heart be lost
In joy.

Wrinkleless Skin Now Easy to Have

(From Family Physician.)

There's no excuse for any woman having wrinkles. It has been found that a simple mixture of salicylic acid and witch hazel has a remarkable action upon the deepest wrinkles, caused by wear, their nature, whether a debilitated condition or the ravages of Father Time. This harmless remedy, which anyone can easily make at home, acts both as a restorative and a tonic. The combined effect of lightening the skin and brightening its vitality is to immediately affect every line and wrinkle, keeping the cuticle smooth and firm as youth.

The proportions are one ounce salicylic (powdered) is one-half pint witch hazel. The solution should be used as a wash lotion. It is equally effective in disposing of blemishes of cheek and neck, as well as sagging below the eyes.

SATURDAY MORNING, JULY 26

NORTH TORONTO AND A.L.D. MCBRIDE.

Ald. Sam McBride should continue to lead in doing something for North Toronto. This newest and best annex Toronto has, is suffering from the misrepresentation of The Telegram of eight months ago...

Let Ald. McBride have the roadbed on Yonge street immediately repaired, so as to make it passable. If the citizens decide to buy the street railway then a double track can be put down immediately after...

The board of control should immediately squelch Commissioner Harris' proposal to saddle the people of North Toronto with a three years macadamized road on Yonge street, to be destroyed next year by the double tracking...

Ald. McBride should also take steps to have the single fare service on the Metropolitan cars extended to the top of the town, instead of to Glen Grove; also take up the right of North Toronto to have telephone tolls; also he could help to force the Bural Trust to allow a direct parallel road thru Mount Pleasant Cemetery...

Meantime The Telegram might apologize to the people of North Toronto for branding them less than a year ago as a kind of municipal dead-beats.

It will not be long before North Toronto will feel the good effects of union: A single car fare, double tracks, permanent pavements, sewers, etc. What Deer Park got, North Toronto will get—and get soon.

WHY NOT REPEAT THE EXPERIMENT?

The World does not quite say that Mr. Gooderham and the other trustees of Upper Canada College lack foresight in selling out and moving that institution; they are to get a million dollars for their property, and they can do a lot with that.

Upper Canada College is only one of several corporations that have become rich thru the increase in value of land about Toronto; the Toronto Hunt Club, the Ontario Jockey Club, the Toronto Golf Club are three cases in point. The government of Ontario either on its own account, or on account of the University of Toronto has also had numerous windfalls of similar character...

When the New Haven started to buy up trolley roads in Connecticut—the monopoly policy that finally brought President Mellen to grief—it committed a crime. But an obliging state legislature, under the persuasive powers of \$100,000, passed an act validating the purchase.

When the New Haven extended its monopoly purchases to Massachusetts it committed another crime. But another state legislature, thick-skinned enough to ignore public execration, validated that, too.

Something like this may make the people dissatisfied, but such dissatisfaction is the parent of reform. Curiously enough The Sun's editorial seems to synchronize with the activity of Rosalind Guggenheim, who recently married Horatio G. Winslow, editor of The Masses, one of the most prominent socialist newspapers on the continent.

O'Keefe's SPECIAL EXTRA MILD ALE

The Beer That Is Always O.K.

Is the ideal home ale. Pure, healthful and invigorating. A tonic and mild stimulant. Good for the hard worked business man and for the woman with household cares.

Brewed only from pure barley malt, choicest hops and filtered water, it contains: nothing but wholesome nourishment, rich in food properties, readily assimilated.

Bright, sparkling and delicious, O'Keefe's Special Extra Mild Ale will never make you bilious. Full Bodied, Properly Aged, Rich and Creamy and yet mild in stimulating properties and a little better than any other brand.

In ordering from your dealer, do not say simply Extra Mild Ale but O'Keefe's Special Extra Mild and insist that nothing else is "just as good".

THE VOLCANO NOT EXTINGUISHED.

Superficial indeed must be that observer who imagines that the spirit of revolution and unrest so evident in the United States a year or two ago has burned itself out. It was partially smothered by the tremendous crops of 1912. It has found vent here and there thru some progressive action by the legislature, the railway commission or the court; it is far from extinguished.

The vote for president a year ago is significant. With an overwhelming majority in the electoral college Mr. Wilson, as the Democratic nominee, polled a smaller popular vote than did Mr. Bryan in 1896. In 1912 there must have been eight million more voters than in 1896. The tremendous popular vote given to Theodore Roosevelt by no means included all the people thoroughly dissatisfied with existing political institutions. Even the vote for Debs did not represent anything like the strength of out and out socialism.

The New York Sun is a conservative paper not inclined to take any popular movement seriously. Had it been published in France at the time of the revolution it would have regarded Mirabeau as a "spellbinder" and Robespierre as a harmless crank until the guillotine began to work. But now even The Sun is becoming uneasy and we read:

Even the most dull and unsympathetic citizen in the United States has long been aware that there is a certain ugly spirit abroad in the land. Sometimes it is called "class hatred," more often it goes under the smug name of "social unrest." It is a form of discontent that Archbishop O'Connell once called the "tumult of the envious."

The Sun evidently seeks to lay the blame for the unrest in New York upon the articles in The New York American of Brisbane, who has a remarkable facility for writing editorials which are read by all classes in the community. The Sun goes so far as to say that the cause of this "ugly, envious spirit that is undermining the safe common-sense of our people" is daily journalism of a new and abhorrent kind.

We incline to the belief that The New York American is no more responsible for the general discontent than is a mirror responsible for the image it presents. For example, under the caption, "Power and Menace of a Great Corporation" The New York American says:

When the New Haven started to buy up trolley roads in Connecticut—the monopoly policy that finally brought President Mellen to grief—it committed a crime. But an obliging state legislature, under the persuasive powers of \$100,000, passed an act validating the purchase.

When the New Haven extended its monopoly purchases to Massachusetts it committed another crime. But another state legislature, thick-skinned enough to ignore public execration, validated that, too.

Something like this may make the people dissatisfied, but such dissatisfaction is the parent of reform. Curiously enough The Sun's editorial seems to synchronize with the activity of Rosalind Guggenheim, who recently married Horatio G. Winslow, editor of The Masses, one of the most prominent socialist newspapers on the continent.

touch the allowance of \$5000 per month which her father makes her. This socialist peddles tracts part of the time, but makes her living writing verses. She has a down-town office in a trust building, where she works every day, and her literary output finds a ready market. In a clever satirical poem, recently published, she represents the up-to-date rouge as saying:

"If the law could only reach me it would grab me and impeach me. 'But it can't, for I'm a licensed charlatan.'"

The Guggenheim millions might well furnish a text for the socialist. They have been used for almost everything, including the purchase of a senatorship, yet the family's rise to opulence was rapid. Interviewed by a reporter as to her inspiration for her work, the poetess is reported as saying:

"Do you see that big worn-out table knife? My mother started housekeeping with that implement thirty-six years ago at Cleburne, Tex., thirty-five miles from a railroad, when the family got its start in the cattle business. I sharpen my pencils with that knife. One look at it is all the inspiration I want for my work."

It would require a wise man to say what will happen in the next few years in the United States. Far-sighted men, like President Wilson, want no foreign wars or colonial complications. They would rather take in salt, disinfect the ship and better conditions among the crew.

THE BRITISH INSURANCE ACT.

While in England the operation of the National Insurance Act has been accompanied by considerable opposition, largely for political reasons, and by numerous cases of malingering, attributable in part to lax issue of certificates by public doctors disgruntled at the result of their conflict with the government, different conditions have prevailed in Scotland. There the act was welcomed by both employers and employed and a general disposition was shown to give it a fair trial. From Unionist newspapers, such as The Glasgow Herald, one of the most important in Scotland, and The Glasgow News, has come in August, a bulletin announcing warm commendation of the first report of the Scottish Insurance Commission, recently issued and obviously an equally sympathetic reception in England would have prevented much of the friction that has arisen.

The Herald remarks that "the act has worked smoothly, thanks to the co-operation of employers with the commission, and the readiness of the great bulk of the employees concerned to make the best of compulsory insurance. There has been little resistance in Scotland, individual or organized, and what little there may have been is now at an end." It also testifies that "experience has in the main justified the actuarial estimates and in cases where there is a conspicuous discrepancy between estimate and fact, a more or less convincing explanation is offered." Both The Herald and The News agree that the report indicates a satisfactory beginning. The number of insured persons in Scotland is 1,454,966, slightly less than the estimate.

The Philosopher of Folly

Oh, some may raise poetic lays and sing of beautiful eyes—in verses choice let others voice the charms that in them lies; and some, affie, mouth or nose, or fall beneath the spell of teeth or cheeks which mock the rose; but I will tune my poor harp, soon and sing to all the spheres, these are fair, they can't compare to kindly human ears. The ears follow from one's head project a half a mile, or oddly shaped or strangely draped his tale, tho' it is fraught with ill, if they can cause our greedy paw to pry him loose a bill, if they can make us gladly stake this luckless one a space, they have no peers, such kindly ears, in beauty's loveliest kind.

LESS TRAJECTORY WITH NEW BULLET

So Higher Elevation is Required in Using Mark Seven Ammunition.

An official announcement has been made by Capt. A. A. Miller, secretary of the Ontario Rifle Association, regarding the ammunition to be used at the O. R. A. matches at Long Branch in August. The issue furnished by the department of militia, and defence, will be mark VII. pointed bullet, and this will be used for the first time in Ontario. As the trajectory of this ammunition is very much less than mark VI, the former ammunition issued by the government, the difference in elevation required for this ammunition is given.

At 300 yards, 2 degrees higher elevation is required and the rise in elevation to 1000 yards are approximately as follows:

Table with columns: Yards, Mark VII Degrees, Mark VII Degrees

The issue of mark VII ammunition is manufactured by the government arsenal solely for use in the Dominion of Canada and Province of Ontario. Association matches of 1913 and it is not possible to obtain any of the ammunition for practice use, the commencement of the provincial matches.

Hugh Guthrie, M.P., it is stated, has strongly advised against a contest in Middlesex, on the ground that a defeat for the Liberal candidate would be a loss for the fortunes of the party next session, and that it would be better to let the seat go by default.

WILSON MUST EXPLAIN STAND

Conference With Bryan Today Will Be Important in Deciding Policy in Mexico.

Special to The Toronto World. WASHINGTON, July 25.—Henry Lane Wilson, ambassador to Mexico, will meet the secretary of state tomorrow for the first time since Mr. Bryan entered the cabinet.

Secretary Bryan will be present from conferring with Ambassador Wilson tomorrow morning, because of an engagement he has to discuss with the senate committee on foreign relations, the new Nicaraguan treaty.

The proposition for the United States to offer mediation to the heads of the warring factions in Mexico, has not met with favor on the part of the republican members of the foreign relations committee.

Strongly Advocate Mediation. The president and secretary strongly advocate mediation. Both favor sending a commission consisting of representatives of the United States, Brazil, Argentine and Chile into Mexico for the purpose of making overtures to President Huerta and Gen. Carranza for the restoration of peace.

Americans Not Impaired. Ambassador Wilson will be asked to clear up much of the doubt regarding the Huerta regime. It is known that the American ambassador favors the recognition of Huerta.

There is little apprehension for Americans being held by the administration. Recent reports to the state department show that the reports concerning the danger to Americans have been manufactured, and that the only danger they are in is of being robbed.

DON'TS FOR THE PERFECT WIFE DECLARED BY A NEWARK PASTOR

The Rev. Dr. King Supplements Sermons to Husbands by Giving Rules for Her Guidance.

Pastor's Rules for A "Perfect Wife"

Do not run your husband into debt. Do not nag. Use your tongue wisely. Do not neglect your husband and children to learn "scientific whist" or to make social calls.

Having preached two weeks ago on the theme "A Perfect Husband," the Rev. Dr. Geo. Walton King, pastor of Central Presbyterian Church, Newark, reached the sequel on the subject "A

"Perfect Wife." Dr. King said in part: "However a woman cares for a man in his day and age, she is not willing to sacrifice as the Hebrews who has in order that she may become his slave. One might preach that until he was black in the face and it would have little effect. Be absolutely faithful to your marriage vows at all times and in all circumstances and you will have attained unto the greatest perfection as a wife of which any woman is capable.

CHINESE REVOLT HELD IN CHECK

Government Satisfied With Situation as Reported at Shanghai, The Fighting is Brisk.

PEKIN, China, July 25.—(Can. Press.)—The news received here from Shanghai in regard to the revolt is considered satisfactory in government circles.

The government is sending one brigade of the president's bodyguard to the scene of hostilities, leaving only one brigade in Pekin. This movement has been made, it is said, owing to the fact that the northern general, Chang Hsun Wo, who reported that he had gained a victory, entered Su-chowfu without fighting, the rebels having evaded him.

The bodyguard of the provisional president is regarded as trustworthy, while Chang Hsun Wo is said to have a mercenary reputation of which the government in Pekin fears the southerners may take advantage. Other troops are also proceeding to the south on the Tientsin-Pukow railway in order to offset the danger of Chang Hsun transferring his allegiance to the southerners.

Asbestos Production

If the United States cannot boast of pre-eminence in asbestos production, as it can for many other minerals, it is at least a matter of some gratification to know that the bulk of the world's production comes from America, and that the Canadian deposits yield by far the larger part of the total.

REVOLUTION IS WANING

SHANGHAI, July 25.—(Can. Press.)—The revolutionary cause here appears to be waning. Despite the large number of rebel reinforcements, the attacks on the arsenal by the southerners last night and today, failed completely, and Dr. Wu Ting-fang, former Chinese minister to the U. S., Gen. Wen-Chang Yao and other prominent rebels, after a conference today, telegraphed President Yuan Shi Kai, proposing a basis for peace negotiations.

Drink and Be Refreshed

There's nothing that will invigorate and revitalize you so well as a bottle of the famous Kuntz's Old German Lager.

Kuntz's Old German Lager is a bracing brew. It contains a greater percentage of Canadian barley and of Bohemian hops than ordinary lagers.

Furthermore, it is brewed by the costly "Old German" process, instead of the ordinary way. But the difference in flavor is worth the extra cost.

Drink a bottle of Kuntz's Old German Lager before luncheon or dinner today, or have a case sent home so the folks can enjoy it with you.

Sold by the leading hotels, cafes and liquor stores almost everywhere in Canada. And put up in bottles of Peacock Green so it cannot be injured if exposed to bright light.

Freemasonry and Tolerance

Describing Freemasonry as a teacher of tolerance, the Rev. George Van de Water, writing in The Churchman, finds that the astonishing sense of tolerance which prevailed during the formation of the American constitution, as well as in the drafting of the declaration of independence, are explained in the fact that a large majority of the men concerned were Freemasons.

Asbestos Production

The domestic production in 1912, according to Mr. Diller, was 4403 short tons, valued at \$87,829, and although this was a decline of 42 per cent in tonnage compared with the output for 1911, it was only 27 per cent less in value, owing to the larger quantity of higher grade asbestos in 1912.

Asbestos Production

The Canadian exports of asbestos in 1912 amounted to 88,098 tons, of which 71,426 tons, or more than 81 per cent, was imported into the United States. This quantity was 67 per cent of the entire Canadian production.

JORDAN BREAKS IN WITH THREE SINGLES

Tim Connects Well in First Day's Work For Buffalo. Grays Won in Ninth.

BUFFALO, July 25.—A home run to the centerfield fence by Platte with two out and two men on bases in the first half of the ninth inning today, broke up a pitchers' duel between Frill and Mitchell, and gave the Grays a victory over the Blons in the first game of the series, by the score of 7 to 4. Tim Jordan and Cy Seymour played their first game for Buffalo, the former getting three hits and Seymour driving in the winning run in the seventh score.

LEAGUE LEADERS TAKE FIRST DOUBLE PLAY STOPPED LEAFS

Our Old Friend, Wyatt Lee, Was Very Much on the Job Again—Tooley Robbed H. Bradley of a Double and Saved the Game For Newark.

Mention Wyatt Lee, and weep. He is the black sheep in the fold. He is the rain on picnic day. He is the fly in the Mecca ointment, which Hugh Bradley is using this morning to heal the pain which emanates from his sprained reputation. Wyatt Lee was very much on the job again today when he saved the game for Newark by a double play which stopped the Leafs.

BRANTFORD, July 25.—Guelph's game today with the Red Sox was another York victory, 10 to 1. The Leafs were affected today when Brantford and Kinsell, outfielders, Shortstop Leach and Pitcher Wynn were let go. A reconstruction of the Brantford team for 1914 is now being planned. Score: Guelph, 10; Newark, 1.

GUELPH LEAFS HAVE ANOTHER WORKOUT

BRANTFORD, July 25.—The Leafs were away off color in fielding in the fourth today, when Berlin scored a lead of seven runs, and finished ahead by 9 to 7. With two out and none out in the sixth, Auld replaced Bradshaw, and all the Leafs got three runs on as many hits off Auld and two errors, they failed to do anything in the next three innings. Score: Guelph, 9; Brantford, 7.

CARRIGAN'S RED SOX DROVE CICOTTE OUT

BOSTON, July 25.—A victory for Boston over Chicago, 7 to 5, signalled the first appearance of Manager Carrigan here as the leader of the world's champions. The game was a slugfest, each team having to resort to relief pitchers and pinch hitters. Boston drove Cicotte from the box in the fifth inning, when a volley of singles was made, and Russell, the Chicago pitcher, made a wild pitch in this same inning, giving the locals a lead which the visitors could not overcome. Score: Boston, 7; Chicago, 5.

NAPS IN THIRTEEN BEAT HIGHLANDERS

NEW YORK, July 25.—Cleveland defeated New York, 3 to 2, today in the first game of the series, a thirteen-inning struggle. The game was a hard fought pitchers' battle between Mitchell of Cleveland and Fisher and McCormick of New York. Mitchell struck out twenty men, but was frequently wild, issuing eight passes. Cleveland won in the eighth, when Chapman walked, took a throw by Johnston, sacrificed, third base was reached, and Mitchell pitched to Knight's bad throw, and scored on Johnston's double. The fielding of Peckinpaugh and Volter featured. Score: Cleveland, 3; New York, 2.

DANFORTH WINS FROM MONTREAL

Baltimore Southpaw Does the Come-Back—Errors Scored Two For Royals.

MONTREAL, July 25.—Baltimore noosed out Montreal, winning three to two today. Danforth was in form and was entitled to a shutout on his work. Errors by Matisel and Derrick gave Montreal their score. Matisel's own error gave the Orioles their first count, but clean hitting put across the others. Singles by Ball and House scored the winning run in the fifth. President Barrow was a spectator. Score: Baltimore, 3; Montreal, 2.

SEVEN ERRORS MADE YET HUSTLERS WON

ROCHESTER, N.Y., July 25.—In the weirdest exhibition seen here this season, in which thirteen errors figured, the Hustlers dethroned Jersey City, 14 to 6. Davis was yanked out in the second to make room for Doc Manser, who was no improvement in the pitching line. Wilhelm hurled good ball until the locals got a seven-run lead, when he ceased up. Score: Rochester, 14; Jersey City, 6.

PIRATES WALLOPED PHILLIES EASILY

PITTSBURGH, July 25.—Nine bases on balls, two hit batsmen, two wild pitches and eight hits off Philadelphia pitchers enabled Pittsburgh to walk away with today's game by the score of 13 to 2. Carey made what is believed to be a record by scoring five runs, though he did not get a hit in the entire game. Hendrix pitched good ball after the first inning, but Beckler, who pitched only six hits and struck out nine men, besides he hit a home run in the second inning with no one on base. Score: Pittsburgh, 13; Philadelphia, 2.

DUTCHMEN SCORED ON PETE'S ERRORS

PETERBORO, July 25.—The Pecos were away off color in fielding in the fourth today, when Berlin scored a lead of seven runs, and finished ahead by 9 to 7. With two out and none out in the sixth, Auld replaced Bradshaw, and all the Leafs got three runs on as many hits off Auld and two errors, they failed to do anything in the next three innings. Score: Guelph, 9; Brantford, 7.

PHILADELPHIA'S PITCHERS VERY ERRATIC AND FORCED RUNS—CAREY MAKES A RECORD.

PITTSBURGH, July 25.—Nine bases on balls, two hit batsmen, two wild pitches and eight hits off Philadelphia pitchers enabled Pittsburgh to walk away with today's game by the score of 13 to 2. Carey made what is believed to be a record by scoring five runs, though he did not get a hit in the entire game. Hendrix pitched good ball after the first inning, but Beckler, who pitched only six hits and struck out nine men, besides he hit a home run in the second inning with no one on base. Score: Pittsburgh, 13; Philadelphia, 2.

DUBUC FAILED WHEN HITS MEANT RUNS

PHILADELPHIA, July 25.—Two hard hit grounders which bounded off Dubuc's glove in the seventh inning prevented him from getting a no-hit game here this afternoon and paved the way for a victory by Philadelphia over Detroit, 4 to 0. The break in the pitching duel between Dubuc and Shawkey, the former Baltimore twirler, who made his debut here, came in the seventh. Shawkey was in trouble in three innings. In the first he threw out Gainer with the bases filled, retiring the side; in the ninth he fanned Gainer with two on bases, and in the fifth he struck out Dubuc and Bush with Stange on third base. Score: Philadelphia, 4; Detroit, 0.

BROWNS PLAY A TIE FIFTEEN INNINGS

WASHINGTON, July 25.—In the latest American League game on the local grounds today, Washington and St. Louis battled to an account of a tie in the fifteenth inning. The score was one and one. The game was a pitchers' battle between Johnson and Engle. Johnson pitched well, but was hit by Engle in the eighth. Johnson pitched well, but was hit by Engle in the eighth. Johnson pitched well, but was hit by Engle in the eighth.

BALTIMORE SOUTHPAW DOES THE COME-BACK—ERRORS SCORED TWO FOR ROYALS.

MONTREAL, July 25.—Baltimore noosed out Montreal, winning three to two today. Danforth was in form and was entitled to a shutout on his work. Errors by Matisel and Derrick gave Montreal their score. Matisel's own error gave the Orioles their first count, but clean hitting put across the others. Singles by Ball and House scored the winning run in the fifth. President Barrow was a spectator. Score: Baltimore, 3; Montreal, 2.

SKETERS HAD SIX, BUT THEIR PITCHERS WERE OFF COLOR—A JOKE CONTEST.

ROCHESTER, N.Y., July 25.—In the weirdest exhibition seen here this season, in which thirteen errors figured, the Hustlers dethroned Jersey City, 14 to 6. Davis was yanked out in the second to make room for Doc Manser, who was no improvement in the pitching line. Wilhelm hurled good ball until the locals got a seven-run lead, when he ceased up. Score: Rochester, 14; Jersey City, 6.

THE ARMY BILL IS UNPOPULAR German People Showing Dissatisfaction and Disgust for Its Representatives.

BERLIN, July 26.—Three weeks have now passed since the reichstag, with a suddenness that surprised all Europe, passed the army bill and gave into the government on all points and during the time that has passed it has been possible to form an idea of the feelings of the government as well as of the people towards the new conditions.

AEROPLANES ARE STILL VERY FAR FROM PERFECT

Brindejonc des Moulinais, Who Flew Across Europe, Gives Impressions of His Tour A NERVOUS STRAIN There is Still Much to Be Done Before This Mode of Traveling Becomes Comfortable

(By Brindejonc des Moulinais.) PARIS, July 26.—The journey which I have just made may be regarded from several points of view which are of interest. It may be considered as an experiment on a large scale, which has tested the aeroplane in all sorts of country. It has thus brought out the advantages and the drawbacks of this method of travel which are also thrown into relief improvements which are still lacking in the machine.

Nervous Strain. As for stability in wind, it has now been attained beyond discussion, and to such a degree that the difficult labor entailed on the pilot is almost nil. It is only the nervous strain resulting from too great a concentration of tension that causes fatigue and induces a curious sleepiness as soon as a period of rest is reached.

Strength of the Same. But, in spite of all this Germany's military strength, when compared with that of other powers, remains the same as before. The new army bill, which has increased the number of officers of all grades and created several high military offices and a standing army in time of peace of 820,000 troops.

Indignant at Taxes. Among the masses of the people there is a feeling of indignation at the new burdens of taxation which are just as real as their effects in safeguarding the empire are negative, a contempt of the government which overestimated the resources of Russia and France, and an even greater contempt of the reichstag that betrayed the people and suddenly ignored the estimates of the resources of Russia and France, and an even greater contempt of the reichstag that betrayed the people and suddenly ignored the estimates of the resources of Russia and France.

AMERICAN WON KAISER'S PLATE Abdell Toddington, Bred by John H. Shults, New York, First in German Trotting Derby. John H. Shults, of Port Chester and New York, is expecting soon to receive from the German Emperor a piece of plate commemorating the victory of Abdell Toddington in the German Trotting Derby at Berlin, on June 23. The Kaiser encourages the American sport of trotting by giving each year a silver trophy to the breeder of the Derby winner, and this year a colt bred by Mr. Shults in Westchester county has beaten all previous records in winning the great race for three-year-olds. Abdell Toddington trotted 2,900 metres, or almost two miles, at the rate of 2,254 to the mile, winning \$8,000. Mr. Shults sold the winner in the fall of the year he was foaled (1910) for \$200 at auction in Madison Square Garden. The late Emil Jacobson exported him. Toddington, 2,28, his sire, was a son of Moko and Fanchie, 2:15 (dam of Todd, 2:14, and Saddle Mac, 2:24), by Arion, 2:07. Della Bell, 2:27, the dam of the Derby winner, was by Abdell 2:28, out of Del Wright, by Arworthy, 1:54 1/2 granddam—Cordell, a thoroughbred by Planet. Mr. Shults is a native of Germany and has done more than almost any other man now living to encourage the breeding of trotting horses in America. On the same day that Abdell Toddington won the German Derby at Berlin, Vera Violeta, a five-year-old filly, bred by Mr. Shults' old friend and neighbor in Westchester county, James Butler, finished first for the Austrian prize in a race worth \$8,000 at Vienna, trotting 2,800 metres—about a mile and three-quarters—at the rate of 2:31 to the mile. Vera Violeta, a five-year-old filly, bred by Mr. Butler in Westchester county, is a daughter of Directum Kelly, 2:25 1/2, the horse that won the \$50,000 Merchants and Manufacturers' Stake for Mr. Butler in 1908. Her dam was Edna Simmons, 2:24 1/2, by Simmons, 2:28.

KRUPP COMPANY BRIBED OFFICERS Tageblatt Publishes Sensational Story Giving Inside History of Arrests. BERLIN, July 25.—(Can. Press)—The Tageblatt today publishes further details relating to the arrest of officers of the Prussian war office on a charge of accepting bribes from the Krupp Company for an insight into official documents. It says that seven officers whose arrest was reported July 16 actually were arrested Feb. 7, after an investigation which was begun Oct. 17, 1912, following information submitted to the war department by Herr Liebknecht, a Socialist member of the Reichstag. The paper says the chief of Krupp's Berlin bureau was arrested simultaneously, and that nearly 1,000 typewritten reports, alleged to have been sent by the accused to the Krupp Company, were seized. Herr Liebknecht, according to the Tageblatt, will be put on the witness stand when the trial begins, in an effort to learn where he obtained the material for the charges he submitted to the war department. A great number of other witnesses will be summoned to testify, including directors of the Krupp Company.

BIBLE STUDENTS GREET GIDEONS

Send Cordial Resolution to Christian Travelers' Association.

THE BIBLE HARVEST

Interesting Addresses Mark Sixth Day of Russellites' Convention.

The Bible Students opened the sixth day of their convention with a larger number of delegates in attendance. It being "Harvesting Day" the usual praise service was shorter than usual, the association's colporteurs spending the remainder of the time allotted for the praise service in conveying of their experiences in interesting people in the study of the Bible. Following this, Editor Hirsch addressed the colporteurs on the privileges of the harvest.

Following the usual praise service at 2 o'clock, Mr. A. I. Ritchie of New York City, addressed the conference on the "Bible Harvest." He endeavored to point out that the Jewish dispensation closed with a harvest, during which those Jews who accepted of Christ were gathered into the Gospel garner. Referring to this Gospel age, he pointed out clearly that it would likewise close with a harvest period. Claiming this harvest time now here, he urged the delegates to increased activity in the Master's vineyard.

The delegates also passed the following resolution, which was sent to the Gideons, who are in convention in the adjoining auditorium:

"To our dear Christian friends who are together with us meeting at the National Exhibition Grounds we desire to express Christian greetings in the name and merit of our Lord Jesus Christ and His ransom sacrifice for the sins of the whole world.

"We wish the richness of the Lord's blessing upon your assembly here and trust that the sweetness of the fellowship which comes from above may be as much felt and appreciated through your assembly as we have been enjoying in the adjoining building here during the past week. We expect to continue in session until Sunday afternoon. (Signed), International Bible Students' Association."

Afternoon Session.

Mr. J. E. Cole closed the afternoon session with a discourse to the assembled delegates, taking for his text the apostle's words, "Continue thou in the things that thou hast learned, and hast been assured of, knowing of whom thou hast learned them."

"Tomorrow is "Spirit-Begetting Day" and the principal speaker of the day is Pastor J. E. Cole, of St. Louis, Mo., who will deliver a discourse on "Baptism, Its Import and Symbol," which will be followed by water immersion. Above 125 candidates have signified their intention of symbolizing their consecration by water immersion.

U. S. TARIFF IS ON HIGH STILTS

Hence Democrats Have Great Trouble in Revising It, They Complain.

WASHINGTON, July 25. — (Can. Press.)—Senator Williams of Mississippi, in the tariff debate today, said the Democrats had found it difficult to deal logically and honestly with the industrial conditions that had been placed on high stilts by years of Republican protection. This prompted Senator Cummings to ask why the Democrats had not cut off a little of both stilted legs, instead of leaving the industrial body crimped with the manufacturing leg. Senator Williams replied that they were "afraid it would kill the poor thing" to walk straight all at once.

Senator Bristow, discussing an alleged discrepancy in a duty on potatoes, stated with some indignation that the Democrats put a duty on rice and not on potatoes. Senator Williams declared that one reason was that the Republicans had begun to hothouse rice and the Democrats could not take all the duty off at once, and further, that rice was not such an "every-day food as potatoes."

Bananas a Luxury.

"Why do you put a duty on bananas?" Senator Bristow asked.

"First," said Senator Williams, "because it is not a basic article of food, and second, because the banana trade of this country is absolutely controlled by the United Fruit Co. which also is buying up the banana lands abroad."

Senator Bristow finally declared that in the pending bill the Democrats had deliberately and outrageously discriminated against the farmer in favor of the manufacturer.

"Does the senator mean to say," asked Senator Williams, "that the Democrats of the house and senate deliberately got up a scheme to injure the American farmer?"

"I would not want to attribute to the senator from Mississippi and his colleagues such an unworthy purpose," replied Senator Bristow, "but I say they have framed a bill which does."

An amendment by Senator Bristow to reduce the proposed duty on dextrine made from potato starch from 1-2 cents per lb. to 1 cent was rejected by a vote of 29 to 46.

"BORAX" SMITH HAS LOST HIS FORTUNE

Picturesque Multi-Millionaire Crasped at Shadow, Lost the Substance.

Not content with a good-sized fortune, which he had accumulated as the result of a lucky find of a rich borax field, F. M. (Borax) Smith became over-ambitious. Heedless of the fact that no man can carry too many buckets on his shoulders without inviting danger of spilling them all, he became over-extended.

Instead of a rich man, whose total wealth was estimated as high as \$20,000,000 to \$40,000,000, Borax Smith finds himself today so entangled that it became necessary for his principal creditors to organize a committee to protect his property and interest. In order to prevent considerable expense which would have resulted had he been forced to a sale in the present state of the market.

Smith's activities had varied range. His liabilities were estimated at \$20,000,000. He was interested in the Pacific Coast, the New York and York bond corporation, a real estate development company in Oakland, Cal.

His liabilities are placed around \$20,000,000, and his assets at a not much greater figure, so that when they are liquidated at satisfactory prices, there will scarcely be left very much of his once large fortune.—Financial World.

Idle Rich Are Religion's Foes

Texas Minister Delivers Stirring Address to Gideon Delegates.

Christian Travelers' Association Are Conducting Business-Like Convention.

Praise and prayer began at the Gideons' convention at the Metropolitan Church yesterday at 8:30 a.m., and the delegates were kept busy until ten at night keeping pace with the program schedule. The praise service was led by A. F. Hines, Toronto.

Rev. Geo. W. Treacy, D.D., Texas, aroused enthusiasm by his appeal to the delegates to make religion real for their lives. To do so a Christian must get busy. The supreme foe to religion was the idle rich, for an idle brain was the devil's workshop.

Addresses on how the Gideons could do most effectively work on the firing line of their business routes were given by Jerry M. Porter of Kentucky, United States Field Secretary Lee Wilson and L. H. Moore, Arkansas.

During the luncheon an international auxiliary meeting for the lady delegates was held, Mrs. A. B. T. Moore presiding.

Park Commissioner Chambers and the exhibition authorities made an unconditional surrender to the army of Gideon yesterday. At 1 o'clock the Commercial Travelers' Association were entertained at lunch there by the delegates to the Gideons.

President S. R. Sterling of the Commercial Travelers' Association of Canada, extended hearty greetings to the delegates to the Gideons.

President A. B. T. Moore of the United States Gideons, in response declared the courtesies extended by the city council of Toronto and the T. S. R. had almost overwhelmed the visiting delegates. The band of the 48th Highlanders was in attendance.

After the luncheon, a quiet hour service was conducted by W. W. Sneath, Canadian vice-president. This was followed by inspiring descriptions of the work of the association. The speakers were: W. S. Cole, general secretary, Canada; V. E. Henderson, Illinois, and T. P. Earland, Texas.

Ladies' College

Stands for Efficient and Cultured Young Womanhood.

The new \$25,000 Gymnasium, with swimming pool, etc., together with a large and attractive campus, affords facilities for Scientific Physical Education unequalled by any Ladies' School in this country. The strength of the staff may be judged from the fact that Seven University Graduates, all Specialists in their subjects, give instruction in the Literary Department. All the other departments are equally well provided for. Send for new Illustrated Calendar to

PUBLIC OWNERSHIP FLOURISHES IN WEST

Controller Church Returns From Convention of Canadian Municipalities.

Controller T. L. Church, who returned yesterday from the west, where he was attending the Union of Canadian Municipalities, says it was the largest and most successful convention of its kind ever held.

Public ownership, said the controller, is flourishing in the west in civic matters, and there is no reason why it should not flourish equally well in Dominion and provincial affairs.

The controller will present his report to the board of control next week. The papers read showed the union to be doing great work, both in federal and provincial matters, for the municipalities.

COUPLE EVADED NEW MARRIAGE LAW

Were Elderly, Too, and Should Have Known Better.

KINGSTON, July 25.—(Special).—The new marriage law for border cities and towns was given a black eye by a couple at Gananoque. A report from there states that an elderly couple, who registered as H. W. Edgar and Mrs. Roye Spratt, Sandy Creek, N.Y., were refused a marriage license on account of being non-residents by one issuer, but another took their story that they were residents and gave them a license.

Have You a Good Waiting List?

A MAN caught in a tight place is likely to get squeezed. If one of your responsible employees were to leave suddenly, how would you fill his place? Would you have to take the first man you could get and trust to luck that he would be the right one? Or can you put your hands on the right man now? Every business should have a waiting list of employes. Every employer ought to be able to turn to a card index and pick out a man qualified to fill a vacancy when a vacancy occurs. Your organization may be filled now and running smoothly, but you never can tell when someone will drop out. And then it will be well for you to have someone you can put in his place. The good engineer not only keeps his engine running properly, but he is always ready to make repairs. The same is true of the business engineer. It's a simple matter to get a list of reliable people. Just insert a Want Ad in the Help Wanted columns of this paper. This will bring you many replies. You can look these people up, find out if they are qualified, and then when a vacancy occurs, it will find you fully prepared. The only way to meet emergencies is to be prepared for emergencies.

BRAZILIAN AND SPANISH RIV. LOWER

Continued Weakness in These Two Occasions Some Apprehension.

DUE TO FORCED SELLING

Several New Low Records Made—Speculation at a Low Ebb.

Further weakness in Brazilian which continued its downward slide to a new low record for the week, and Spanish River securities completely overshadowed all other incidents in the Toronto stock exchange yesterday. Sentiment was plainly less favorable to the market than it had been, the speculative coterie viewing the latest developments with a degree of apprehension. However, the general list held up remarkably well, a fact due more to the restrictive nature of business than to any real demand.

Brazilian was quoted lower in London, despite the advance which the shares had made in the late trading here on Thursday. This was taken to mean that liquidation was under way in the old country market, and that there was no support. The opening quotation here was at a fractional loss overnight, and the price worked gradually lower all day, with the low figure, 83 1/2-3/4, reached just before the close. At that time the stock was within a shade over a point of its low record, established about two weeks ago.

A Few Firm Spots While a few of the industrials showed a measure of weakness, the incident did not attract much attention, in view of general market conditions. Dribbling sales of Spanish River and Macdonald could have had only one effect, and when both these made new low records in their history, no one was surprised. Spanish River broke over a point to 83 1/4, which compared with 83 1/2 at the first of the month, and Macdonald lost a like amount at 38, and closed on offer there with no bids in evidence. These securities have been liquidated steadily of late, and not meeting with any support, have sagged of their weight. The exigencies of the money situation have been responsible for the selling. Spanish River preferred was offered down 1/4 point to 78, without a bid, and went bogging there, at the close. The six per cent bonds were offered at 84, which was 12 points below the last sale, a couple of months ago. At that figure, the return over seven per cent. The weakness is said to be due to forced selling by big holders in need of funds.

LABOR TROUBLES FEARED BY MARKET

Erickson Perkins & Co. had the following: Stocks were at highest prices of the day when a reported interview with one of the mediation commissioners in the eastern wage case, assumed the situation, have since caused an abrupt change. Prices reacted and the market hesitated for the remainder of the session, although very little stock changed hands. We do not believe there will be a strike.

BONDS ARE LOWER ON BOSTON MARKET

New England Investors Have Lost Heavily Thru Decline in Good Securities.

OUTLOOK IS CLEARING

Monetary Situation Is Better and Trade Is Also Improving.

BOSTON, July 25.—Times have so changed in the bond market that Massachusetts cities of highest credit, which for many years have borrowed with 2 1/2 per cent or 4 per cent securities at par. This means they cannot sell 4 per cent bonds at all, except as part of a package containing also bonds bearing higher rates. A market for tax-exempt municipal bonds averaging about 4.15 per cent has permitted the statement that not for many years have permanent funds cost local municipalities so heavily, which, of course, is to the consequent advantage of investors.

Within the 14 months from May, 1912, to date, tax-exempt municipals, considered to be the cream of local investments and held in enormous amounts by individuals and institutions alike, have suffered a market loss which can fairly be put at from 6 to 8 points. Not even the State of Massachusetts has escaped. Using as a basis a hypothetical 20-year 4 per cent bond, the credit of the state has suffered to the extent of 6 points. The table following showing the basis at which tax-exempt municipals are currently held, tells a story of market depression which is astonishing in view of the high character of this class of investments. The price comparison is made in each case on the basis of a 20-year 4 per cent bond.

LONDON MARKET IS UNEASY AGAIN

Balkan Troubles Still Causing Alarm—C. P. R. on Down Grade.

LONDON, July 25.—Money was in higher demand, and discount rates were maintained today. A somewhat uneasy feeling prevailed on the stock exchange during the early session owing to Turkey's repudiation of Bulgarian territory. However, the announcement of better dividends caused cheerfulness in home markets, and the recent declines in Consols were weakened by new issues and Kafirs were idle, but copper stocks closed firm.

NEW CANADIAN ISSUES IN LONDON

Vancouver Is Prompt With New Loan—C. N. R. Has Stock to Sell.

LONDON, July 25.—The City of Vancouver, probably encouraged by the readiness with which the Winnipeg loan was taken up this week, today invites application for \$2,500,000, 4 1/2 per cent, consolidated stock at 95. The municipality has five loans now outstanding, all carrying four per cent.

NO DANGER OF ANY BUSINESS DISASTER

LONDON, July 24.—Before selling for New York, Henry Seligman, who has been on a 12-months' tour of England and the continent, said: "I don't think there is any danger of business disaster in the United States, for everything is too fundamentally strong. The tariff and the currency bills will both pass, and I shall be glad to see their success." To the question whether he thought the United States would intervene in Mexico, he replied in the negative, stating that the only real trouble there was being caused by the American owners of large properties.

COTTON EXCHANGE SEATS ARE LOWER

NEW YORK, July 25.—A seat on the cotton exchange has been sold for \$12,000, which compares with \$14,500 paid for a seat in December, 1912. The exchange has a membership of 450, and \$23,500, the record price, was paid for a seat in December, 1905.

PASSED THE DIVIDEND.

NEW YORK, July 24.—The directors of the United Heat and Light Co. decided today to pass the dividend on the preferred stock issue.

TORONTO MARKET CLOSED TODAY.

The Toronto Stock Exchange and the local mining market will be closed all day today over the usual midsummer week-end holiday.

OUR RAILWAYS TO SPEND BIG AMOUNT

Extension Program of Three Roads Calls For Hundred and Thirty Millions.

NEW YORK, July 25.—The Wall Street Journal says: With the recent announcement of Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, that his road would go ahead immediately with a development and extension program, involving the expenditure of \$100,000,000; the success of the Canadian Northern and the Grand Trunk in securing a government loan; and the fact that the Government is spending \$30,000,000 for both roads, the assurance that these two lines will be in operation soon, the outlook for the Canadian continental Railway of Canada, which is being constructed by the government, and the acquisition of equipment for the greater care of the constantly increasing traffic.

SUDDEN DROP IN SPANISH RIVER

Slumped More Than Three Points on Trading at Montreal.

MONTREAL, July 25.—With pronounced weakness in Spanish River and C. P. R. to 217 in the afternoon, the local market lost considerable ground, the greater part of the decline being due to the fact that the market, 450 shares having sold up to the noon hour at 278 and 27%. In the afternoon the market changed hands at the latter figure.

DULUTH-SUPERIOR EARNINGS

Earnings of the Duluth-Superior Traction Company, for the third quarter of July, were \$26,483.30, an increase of \$182.35.

FAILURE RECORD SHOWS UP FAVORABLY

The Canadian failure record for the week made a better showing than it had for some time, the commercial mortality being actually less than last year. The number of failures was 19, with assets of \$3,450,000 and liabilities of \$3,000,000.

WANT C.P.R. TO EXTEND LINE.

KINGSTON, July 25.—(Special.)—The board of trade will bring pressure to bear to have the C.P.R. extend its line eastward from Belleville to Kingston. A deputaion from the board of trade and the city council will on Wednesday, at 10 o'clock, call on Mr. McNeill, second vice-president, in regard to the matter.

SOME WEAKNESS SHOWN

Dome Lake Dips to New Low Record—Market Is Irregular.

Bullish and bearish factors influencing the market at present have been summarized by Erickson Perkins & Co. as follows: After the half-yearly settlements were completed, credits were released, which became the basis for the present upturn in the market. This, with the growing recognition of the favorable crop outlook, produced a more optimistic sentiment. Provided the amount of credit available to move the crops and finance stocks, if there is a shortage of credit to move the crops, the market is said to secure the requisite funds.

STATE COMMISSION AND RAILWAY CLASH

NEW YORK, July 25.—The Southern Pacific Railway has filed suit in U. S. district court in San Francisco, Cal., to restrain the Ontario, Quebec and Northern Railway Commission from asserting jurisdiction over contemplated issue of \$6,000,000 equipment trust certificates. Company contends concerning of such jurisdiction to commission of all states would set up conflict of authority which would make it impossible to devise financing satisfactory to all commissions.

STATE TO CONTROL LONG SAULT POWER

Conservation Commission Will Report Against Private Ownership Proposals.

OTTAWA, July 25.—Hon. Clifford Sifton, chairman of the conservation commission, is revising the report of the commission's engineers on the Long Sault dam project. The report will be issued shortly. From an engineering standpoint it will be declared that the dam project is feasible, the attended by elements of risk as regards flooding. The proposed, however, of allowing the development of such a vast quantity of Canadian water power, and permitting its export to the United States is a condemnation of the power as a national resource of the country. If it is decided to harness it, the commission will suggest that it be done as a state-owned undertaking rather than by a private corporation. At the same time the view will be expressed that the proposed project may very well be proceeded with before the Long Sault is touched. Interference of a serious character with navigation on the St. Lawrence is foreseen as an inevitable result of carrying out the project.

BIG COBOLTS ARE IN GOOD DEMAND

Investors Seem to Be Buying High-Grade Mining Securities.

SOME WEAKNESS SHOWN

Dome Lake Dips to New Low Record—Market Is Irregular.

The revived buying demand for the mining stocks which are generally classed as investments has been reflected in the market during the last few days by rising values. Truth to tell, the floating supply of such securities has been so small that no other result could follow the incoming of purchasing orders of any size. Meanwhile the decline which recently occurred as an outcome of the money stringency had carried quotations down to a level where the dividend yields were higher than the customary basis, and those who took advantage of the opportunity provided for both a handsome investment and an almost certain appreciation in prices later on.
