Forty-two Passengers on Fort
Wayne Interurban Line Met
Death as Crowded Cars
Crash Together in Head-On
Collision — Were Going at
High Speed.

PORT WAYNE, Ind., Sept. 21.—
Forty-two passengers were killed and
seven were seriously injured in a
head-on collision between two inter-
urban cars on the Fort Wayne and
Bluffton division of the Fort Wayne
and Wabash Valley Line to-day.

The cars in collision were a north-
bound local car, crowded to the steps,
and a southbound extra car from Port
Wayne. They met while both were
running at high speed.

The dead: W. E. Bowman, Bluffton;
A. E. Hyde, Pennville; E. E. Stuckey;
Vera Cruz, Wm. S. Beers, Bluffton;
Lloyd Brown, Bluffton; L. C. Justus,
Bluffton, general manager Bluffton;

Fifth Artillery, New York; two girls,
unidentified men, unidentified woman.

Misunderstood Orders.
The collision is said to have been
caused by a misunderstanding of orders
for the southbound extra to take a
switch near Kingsland. The motorcab
of the two cars did not have time to
stop before they sighted each other.

The heavily loaded northbound car
was crushed and the bodies of the
dead and injured were strewn on
either side of the track amid the
wreckage. The screams of the injured
men and women, following the crash
of the cars, brought the neighboring
farmers to the scene.

Conductor Spiller of the southbound
car was unhurt, and ran back toward
Newland and flagged a car which was
approaching the wreck at full speed,
and would have plunged into it.

Wrecking cars and physicians were
rushed from Fort Wayne and Bluffton
and the bodies of the dead and in-
jured were conveyed to hospitals in the
two cities.

OBJECT TO BEING A CATSPAW

Saskatoon Board of Trade Turn Down
Land Company With Misleading Ad.

SASKATOON, Sept. 21.—(Special.)—
The board of trade meeting this af-
ternoon discussed an advertisement
of the Saskatoon, Sask. Land Corpora-
tion, Ltd., of Toronto, which embod-
ied most misleading statements of
Saskatoon conditions and offered to
supply an illustrated book issued by
the Saskatoon Board of Trade. The
advertisement deals with lots in a
subdivision about three miles from
the city, which is stated as of easy access
to the centre of the city.

The board objected to being made a
catpaw. An order for another set of
sand books, received from the corpora-
tion, was declined, and the board re-
fused a further supply.

CIVIC ELECTION CAMPAIGN

Central Conservative Association's
Renowned Activities Are Denied.

Thomas Hook, president of the Third
Ward Conservative Association, said
last night that there wasn't a word
of truth in the report that the Central
Conservative Association had arranged
for a Massey Hall meeting in October
to open up a municipal campaign. It
had also been reported that a "slate"
for the board of control had been se-
lected, to consist of E. W. J. Owens,
John Laxton, H. C. Hooke and Em-
erson Coatsworth, with an endorsement
of Mayor Geary for a second term.

Mr. Coatsworth laughed when asked
about it and said he had heard nothing
of the program.

TO SPEND \$150,000,000

Extensive Improvements to N. Y. C.
Include Six Tracks for Main Line.

ALBANY, N.Y., Sept. 21.—Detailed
plans of proposed improvements by the
New York Central Railroad, including
ultimately a six track road on its main
line across the state, were explained
to the public service commission to-
day by George W. Kittredge, chief
engineer for the company at the open-
ing of the opposition to the construc-
tion of the proposed Buffalo, Rochester
and Eastern from Buffalo to Troy. Mr.
Kittredge testified regarding improve-
ments made by the Central since 1907,
or under way, or contemplated, in-
volving an estimated expenditure of
\$150,000,000.

SYNDICATE STILL
READY TO TALK
NEW LINES

City's Failure to Bring a Per-
missive Clause Before Leg-
islature Was First Rebuff
That Capitalists Willing to
Build Competing Car Lines
Encountered.

"The question that is still to be
solved is: How are the people go-
ing to get relief? I do not know
whether the Toronto Railway was ad-
vised as to our plans or not. Any-
way, that is not material. The
point is that the public hasn't got
the services."

The foregoing statement was made
yesterday by the engineer representing
the syndicate whose offer to build an
independent street railway system did
not obtain from Mayor Geary the con-
sideration which, in the opinion of the
capitalists willing to back the \$3,000,000
venture, it was entitled to get.

The financiers, altho disappointed
with the turn of events thus far, have
not abandoned their project. To The
World last night, W. C. Chisholm, their
solicitor, said the undertaking was not
killed by any means, adding that he
had been in touch with the syndicate
since his letter was discussed by the
board of control last week, and that
their attitude was certainly not that
of withdrawing altogether.

Proposal Was Clear Cut.
Mayor Geary's statement is that no
definite proposition was ever made un-
til last week. To this the reply of the
engineer representing the syndicate is
that a straight, clean-cut proposal was
laid before his worship, not, it is true,
in writing, but as clearly as it could be
verbally and that, not once, but several
times. Early in the year, he was told
clearly and positively what the syn-
dicate was prepared to do, if it got any
encouragement.

"I don't like to contradict his wor-
ship, but facts are facts. He was as-
sured to bring up the matter of putting a
clause in the city's bill that would en-
able the city to allow an independent
company to build in the new district
if the city did not decide to do so. The
city was not asked to commit itself in
clause inserted in the new district
ready to make its offer. There was no
secrecy between us and the mayor as
to who the capitalists were. The city,
however, shut down on it. Owing
to no legislation having been intro-
duced, we decided to do nothing until
two or three weeks ago, when we were
urged to go ahead. The point is not
whether somebody broke faith, and
gave the plan away, but how the peo-
ple are to get a service."

The engineer's statement that the
project was brought before the city
early in the year, is supported by Mr.
Chisholm, who says he understood that
some of the parties concerned did so
when the legislature was in session.

Mr. Chisholm, who also acted for the
syndicate which about a year ago
made a proposal to finance a tube sys-
tem in Toronto, said that there was no
connection whatever between the two,
they being distinct groups of capital-
ists.

The mayor said yesterday that altho
the syndicate had not arrived last Tues-
day, he did not see it until Wednesday
morning, after the street railway's ac-
ceptance of the Ontario Railway
Board's order had been announced in
the papers.

ARREST WAS ILLEGAL

Instructions Were Wired by Private
Detective Agency.

VANCOUVER, Sept. 21.—(Special.)—
Morris Shyffer, arrested in this city
last Saturday night on instructions
by wire from Montreal, that he was
wanted there for the alleged theft of
two diamond rings from Amy Simons,
to whom he had been engaged, was re-
leased in tonight. The contention of
Shyffer's lawyer that the arrest
could have been made legally only
on direct instructions from police
headquarters at Montreal, and not
through the Montreal detective agency,
whose instance the local police effect-
ed the arrest.

Counsel for Shyffer further contend-
ed that in this particular case the
criminal law was being used for ul-
terior motives, as the wire from the
east had read: "Have Shyffer return
the rings and marry the girl, or arrest
him."

NO DECISION YET

As to the Power Line Route Along
Waterfront.

No decision was reached by the repre-
sentatives of the city, the Exhibition As-
sociation and the Hydro-Electric Power
Company yesterday over the transmis-
sion line right-of-way thru the Exhibition
Grounds.

A survey will be made of the route
along the lake shore, and the alternate
route to the north, along the railway
tracks, so that the close of the week
necessary will be known before any esti-
mate is given as to the time required to
complete the transmission line to the
transformer station.

IN THE POLITICAL BURDOCKS

TEDDY: "Back up!"

FRENCH PRESS SORE
ON BISHOP FALLON

Call Him the Natural Enemy of
Their Tongue in the Province
of Ontario.

MONTREAL, Sept. 21.—(Special.)—
The ears of His Lordship of London
must be burning these days, for the
French press of all political colors are
in hot pursuit of Mgr. Fallon for hav-
ing forbidden the use of the French
language in his diocese. The anger of
the French-Canadians is all the more
intense because of their seeing in the
person of Bishop Fallon their old en-
emy of Ottawa, who kicked up such a
storm around the University of Otta-
wa on the language question, and who
was quietly removed by his bishop at
the time. It is said, however, that
Mgr. Fallon has kept the complete
confidence of Rome, and reports go to
show that Cardinal Vannutelli him-
self recently spoke in the very highest
terms of him.

Mr. Bourassa's paper is particularly
severe on the London prelate. His
lordship is designated as the providen-
tial men of the Orange Order, the na-
tural enemy of the French tongue in
the Province of Ontario. His lordship,
says Mr. Bourassa, realizes the wish
of the Orange Sentinel and has en-
deavored by which the French tongue
and bilingual teaching the
sister Province of Ontario. Le Devoir
says that the people must keep cool,
and if Bishop Fallon will not listen to
the supplications of the French-Can-
adians, then they must carry their case
to the foot of the pontifical throne.

The nationalist leader is, however,
not sure of the ground at the Vatican,
for Bourassa warns his readers that
even the Pope may make a mistake,
as his holiness is only infallible in
matters of faith and morals. The
tongue of the Pope, he explains, are
ill-informed at times, like the others,
and of course they must first give at-
tention to their bishops. The French-
Canadians of Essex are, however, im-
plored to persevere in their efforts, and
assured that victory will finally be
theirs.

L'Evenement, the Quebec Conserva-
tive organ, is also taking a hand in
the fight, and says that all this comes
from too many concessions having al-
ready been granted. L'Evenement
says, however, that when the Irish
bishops could not succeed in their ef-
forts against the French-Canadians of
the New England States, Bishop Fal-
lon will not be able to do so in the
Diocese of London. Instead of finding
a friend in the person of their chief
pastor, the French-Canadians of the
Diocese of London have found an en-
emy, but they will defend their posi-
tion with vigor, and they will triumph
in the end.

"Shake off our indifference," says
L'Evenement, "and let us face the en-
emy, irrespective of the camp out of
which he shows his head."

SEPTEMBER STRAWBERRIES.

Something phenomenal in the activ-
ity of the local fruit market happened
yesterday afternoon when two "sis-
tens" of strawberries reached the
commission stand of White & Co.,
from Godwin Brothers of Aldershot,
near Hamilton.

IT HAS BEAUTIFUL LAMPS.

Editor World: The beautiful branch

THE NATIONAL PARTY MUST COME.

We are making political history fast in this country. Much has
happened within the past month.

The two old parties are dying here, and in the States. To save them-
selves the Republican party in the States (Taft) and the Liberal
party in Canada (Laurier) are grasping at reciprocity.

Reciprocity may or may not save the Republicans, but it will cer-
tainly benefit the United States. Reciprocity may or may not save the
Liberals, but it will certainly kill Canada and Canadian nationality.
It may save the United States at the expense of Canada.

This move for reciprocity with the United States is, on this side of
the line, the old Commercial Union crowd under a new name—bent
on destroying Canadian nationality, merging it into the United States.

Robert Jaffray and The Globe were Commercial Unionists in the
early nineties, and they are on the same lay to-day. Rev. J. A. Mac-
donald as an apostle of peace is a reciprocity propagandist more than
anything else. The Globe has another commissioner off to the United
States to manufacture, if he cannot gather, opinion favorable to reci-
procity or its other name, commercial union. Taft and Roosevelt are
in touch with The Globe office!

Of all the dangerous suggestions this one of opening our markets
to the States is the most likely to destroy our nationality. It is time
that we had a Canadian national party that believed in Canada's na-
tional integrity, in national unity, and an imperial touch with the rest
of the empire.

What Canada has is worth keeping. Our system of government is
better than the American; our connection with the empire is our great-
est asset, and it will grow greater if we do not let the soreheads kill it.
Have reciprocity with the States and our nation is destroyed. Our
western railways will make for Chicago and St. Paul and for Seattle
instead of for Winnipeg, Toronto, Montreal, Halifax. Our control of
western trade will disappear, and our factories in the east will have
their places taken by towns in the Eastern States.

To-day is the day to say you are a Canadian nationalist, not a con-
tinental unionist.

And keep your eye open for the apostles of brotherhood and of reci-
procity who are paid evangelists of a United States gospel to-day as
they were eighteen years ago.

W. H. ROWLEY,
President of the great E. B. Eddy Co., Hull, Que., and the coming year's
President of the Canadian Manufacturers' Association.

C. M. A. ADOPTS
A POLICY OF
SILENCE

For the Present, Manufactur-
ers Will Not Go Ahead With
Campaign Along Protection-
ist Lines — Will Wait Till
Parliament Meets—Execu-
tive Nominations.

VANCOUVER, Sept. 21.—(Special.)—
Practically rejecting a resolution to
conduct a campaign of education along
tariff policy lines, but at the same
time expressing the hope that the Do-
minion Government would not over-
throw the present fiscal arrangements
in favor of those more radically mak-
ing for free trade, the Canadian Man-
ufacturers' Association to-day debated
the most important features of the pre-
sent situation with respect to free
trade and protection.

"Let us not listen to a sectional, pa-
rochial, little meeting of grain growers,"
said C. S. J. Phillips of Montreal, in
urging that no discussion of the issue
be undertaken at the present time.

Less Said Now the Better.
"The less said now, the better," re-
marked A. Saunders of Goderich.

It was in adopting this idea of sil-
ence for the immediate present that
the convention decided not to make
any move towards instructing its traf-
fic committee to go ahead with a
campaign along protection lines.

The debate came at the close of the
reception of the tariff committee's re-
port. It was to the effect that the
committee mentioned undertakes the
duty of issuing pamphlets, laying the
tariff situation before the citizens of
Canada, especially those in the agri-
cultural districts, and that a select
committee meet their representative
body for the purpose of taking up the
whole issue.

Protection Not Material.
H. J. Waddell of Hamilton proposed
the resolution, and R. A. Robertson
seconded. While nothing in it speci-
fically stated that protection was to be
aid before the people as a desirable
policy, yet that was the understand-
ing, and the entire debate was not
centered on whether protection was
needed or not, but rather on whether
the association should advance pro-
tection arguments now, or wait until
the opening of parliament before at-
tempting to meet the memorials re-
cently laid before Premier Laurier by
the farmers of the middle west.

The supporters of the "wait" idea
won, and an amendment to leave the
whole question in the hands of the
committee to do as was thought best,
took the place of the resolution which
was withdrawn.

Only one business session was held
to-day. Three will be held to-morrow,
the closing day of the convention, with
a banquet in the evening, following
the election of officers and members of
the executive council. Ballots have

POTATOES WORTH WHILE

Weigh Nearly Pound Each—Grown at
New Liskeard.

Nothing can beat Northern Ontario
in raising potatoes. J. Duncan, 177
East King-st., brought some samples
into The World office yesterday, which
are nearly a record.

They are from the farm of Henry
Long of New Liskeard, New Ontario,
and are out of a two-acre patch plant-
ed in the second week of June, and, of
course, without irrigation. Another
sample from another grower, Mr.
Duncan dug a hill himself, just
to assure himself of the bona fides of
the tubers, and he got twelve potatoes
in the hill, weighing in all 19 1/2 pounds.

Another potato from another hill he
added as an illustration of what is
possible, and, he says, is frequent. It
weighed two pounds. The first frost
was on Sunday last, and the first
tops ready for digging.

Potatoes are a dollar a bushel. Hay
is \$20 a ton, and one farmer has 50
tons. Northern Ontario says Mr.
Duncan, is to be preferred to the west
for settlement.

The potatoes are to be seen in Albert
Williams' window, 178 Yonge-st.

TYPHOID AND VACCINATION.

New York Tribune: The month of
September is the worst in the year for
typhoid. Just now there are twice as
many cases of it in all the cities as at
any other season. This is because the
summer "vacationists" have returned
from the country, have brought the
rural disease with them, and have
spread it to others. It is ever so in
the fall, and every health department
knows whence the disease comes.

In the last eighteen months twelve
thousand men of Uncle Sam's army
have been vaccinated for typhoid fever.
Of these twelve thousand only three
men have since been attacked by the
dreaded scourge, and these slightly.

There has not been a death from typhoid
disease in the whole number. In every
other block of the army containing
twenty thousand men, there have been
seventy-two cases of typhoid in the
same time, and seven deaths. In the
city of thousands of unvaccinated men
have been three hundred cases and thirty
deaths.

FALL IS HERE.

HAMILTON HAPPENINGS

HAMILTON ENTERTAINS TORONTO CITY COUNCIL

Crown Unwilling to Pay for Analysis of Blood Stains on Finton's Overalls.

HAMILTON, Sept. 21.—(Special.)—The Hamilton newspapermen entertained representatives from the Toronto newspaper, board of control and city council here to-day. The Toronto party were met at the station on their arrival and first of all taken for a trip around the city in automobiles. After this a baseball game was played at Britannia Park...

Henry Harrison was arrested this afternoon on advice from Toronto, where it was found that he had stolen a watch. He was charged with the theft of a watch valued at \$100.00...

Dr. Helen MacMerch in a brief address on "Housing and Social Conditions" stated that she believed there were five slides from which man who should be looked at: the population, the immense growth of tenement houses and apartment houses of late years, the social evil, and the sanitary surroundings of these places...

To the Spectator Mr. McArthur said that he applied for the position some time ago. At a later date, however, he wrote to the Hamilton commissioners withdrawing his application. He received no reply but that he was the commissioners' choice for the deputy chiefship. He would not state positively whether he would or would not accept the position.

WILL BUILD NURSES' HOME. NIAGARA FALLS, Ont., Sept. 21.—(Special.)—The General Hospital Board will canvass the city during the week beginning Oct. 1, to raise \$10,000 for the erection of a nurses' home. Tenders will be called for the erection of a new brick fire hall at the south end.

WINNIPEG Pioneer Dead. WINNIPEG, Sept. 21.—(Special.)—The death of Edward M. Hing, a well-known Winnipeg merchant, after an illness of about four months with Bright's disease. He was born in Ontario, Canada, and had been in Winnipeg for many years.

Quarantine Infants Paralyzed. WASHINGTON, Sept. 21.—A public school quarantine was established to-day against children of families in which there are cases of infantile paralysis. The city health officers refused to accept the theory of eminent physicians that the malady is not contagious.

Arrested in Calgary. CALGARY, Sept. 21.—A young man and young woman, giving their names as Roy and Margaret Marshall, and claiming to be brother and sister, were arrested here for theft. P. C. Wade, formerly of Toronto, identified the man as Roy Ostrum, who had been convicted of theft in Toronto. The girl is supposed to be Lily McNulty of Kincaid, Ont.

FAULTS IN GOVERNMENT DUE TO BETTER CLASSES

Because They Do Not Take a Proper Interest in Public Affairs—The Balance of Power.

"If human government is ordained of God, I would like to know why so many men of government are indifferent to God?" was one of the striking statements by the Rev. J. W. Akens, field secretary of the Temperance and Moral Reform Association of the Methodist Church, at yesterday afternoon's session of the conference. He spoke on the subject, "Jesus Christ and His Relation to the State."

Henry Harrison was arrested this afternoon on advice from Toronto, where it was found that he had stolen a watch. He was charged with the theft of a watch valued at \$100.00. He was taken to the police station and will appear in court tomorrow.

Dr. Helen MacMerch in a brief address on "Housing and Social Conditions" stated that she believed there were five slides from which man who should be looked at: the population, the immense growth of tenement houses and apartment houses of late years, the social evil, and the sanitary surroundings of these places. At present, the foreign population of the city is about 40,000, and of these about 22,000 were Jews. The foreign population to be overcrowded, and we are not looking after them. What we want is a city of homes. We need a change in the common description of the new Jerusalem. It is said that children play in the streets. I am very sorry to see Toronto increasing so rapidly in respect of apartment houses, she said.

Atlantic City, Sept. 21.—Eighteen thousand grizzled veterans of the civil war, with cadence that showed the march of the past, marched to-day thru flag-bedecked avenues. Along the line of march arose the cheers and applause of the greatest crowd that ever gathered in Atlantic City. Never before had the thinning of the ranks been so noticeable. The grizzled veterans in line, just one old man as much as the next, were as much as the big army of Pennsylvania, which had the largest number of men in the parade.

JACKSON CAUGHT IN TOLEDO Alleged Murderer of Jacob Enos at Chatham in the Toils. Word was received by Superintendent of Provincial Police, Regina, yesterday that Frank Jackson, colored, had been arrested in Toledo, in connection with the murder of Jacob Enos at Chatham on July 17. Jackson was carrying on his person a number of the necessary papers, to apply for extradition.

AVIATOR FRACTURED SKULL. FOLKSTONE, Eng., Sept. 21.—Aviator Burnes, an Englishman, fell from a biplane yesterday. He was flying over the sea and was seen to be in trouble. He was rescued by a fishing boat and taken to the shore. He has a fractured skull and is in a serious condition.

Pittsburgers Excursion to Toronto. Pittsburgers are very fond of Toronto. On Tuesday another party arrived and visited the city hall and tower, as well as other points of interest. After luncheon at Williams' Cafe, they visited the departmental stores, which they admired very highly. In the evening they departed for home, delighted with Toronto.

The Coming of Autumn. To-morrow the sun crosses the equator, and autumn will be here. There will be no equinoctial gales, as the weather is in line with the season.

CRIPPEN AND LENEVE COMMITTED FOR TRIAL

The Girl Followed to Court by a Crowd of Hooting Women.

LONDON, Sept. 21.—Dr. Hawley H. Crippen and his typist, Ethel Clara Leneve, were formally committed to-day for trial for the murder of the former's wife, Cora Belle Crippen, the actress who was known on the stage as Belle Elmore. The doctor is charged as the principal and his companion as an accessory after the fact.

There was nothing especially new in today's testimony. Inspector Dew identified the suit and boys' clothing, which William Long swore he had purchased at Crippen's request, as the suit worn by the doctor on the night of her arrest. Mrs. Leneve at the time of her arrest was wearing a dress, the evidence which she had given before the coroner's jury. Miss Merion Currow, who formerly was employed as an office manager by Crippen, told of cashing cheques for the doctor before he fled for Canada. She said Crippen told her to say nothing about him to the police.

GOULD STOLE GOLD. Employe of Eaton Company Charged With Pilfering. John B. Gould, 27 years old, of 47 Emerson-avenue, employed in the mechanical branch of the jewelry department by Eaton Co., was arrested yesterday by Detective Armstrong charged with the theft of a quantity of gold from the company. Gould has been in the company for some time, and yesterday an assayer reported that a man had come to him with a bar of metal. This was found to have been the messenger of Gould. Detectives Archibald and Wilson searched other bars and a number of small articles of jewelry at his house. He had wrapped up the gold and given it to the messenger, who did not know what the parcel contained.

EIGHTEEN THOUSAND MARCHED An Immense Crowd Saw the G.A.R. Parade at Atlantic City. ATLANTIC CITY, Sept. 21.—Eighteen thousand grizzled veterans of the civil war, with cadence that showed the march of the past, marched to-day thru flag-bedecked avenues. WOULD MAKE A DEAL FOR DOUBLE TRACKING

Councillor Lawrence Thinks Radial Should Get Franchise—S. J. Douglas Says, "Go Slowly."

NORTH TORONTO, Sept. 21.—(Special.)—The outstanding feature of last night's meeting of the town council was the notice of motion introduced by Councillor Lawrence, chairman of the finance committee, at a late hour, looking to the reopening of negotiations between the town and the Metropolitan Railway re the double tracking of Yonge-street, the question of fares, and the matter of a franchise for a less vital concern to the citizens of this town.

The notice of motion in itself is a very comprehensive document, and it is said to have found favor with two or three of the council who affect to see in it, if accepted by the company, a return to the present conditions. Around the matter, however, the feeling is said to be strongly in favor of sidetracking the whole matter until the company is ready to make a definite offer. The notice of motion is said to be a very important one, and it is expected that it will be discussed at length at the next meeting of the council.

NEW TORONTO. NEW TORONTO, Sept. 21.—(Special.)—County Constables Stewart and Simpson arrested Robert Thompson of Mimico here this afternoon on the charge of indecent assault. Thompson, who is a negro, will be brought before Magistrate Ramsden.

NEW MARKET. Big Opening Day Promises Record Crowd for Thursday's Fair. NEW MARKET, Sept. 21.—(Special.)—Newmarket Fair opened to-day, with a record crowd of people. The fair is expected to be a very successful one, and it is expected that it will be one of the best of the season.

CRITICISM CAME LATE Mr. Rogers Had Previously "Squared" His Laundry Bill. Particulars of the Orilla Asylum laundry "scandal" were forthcoming at the parliamentary buildings yesterday. Hon. W. J. Hanna, provincial secretary, said that he had been informed by Mr. Rogers that he had been "squared" by the laundry. He said that he had been informed that the laundry had been "squared" by Mr. Rogers, and that he had been "squared" by Mr. Rogers.

GALT "REPORTER" DEAD Sent to an Untimely Grave, the Editor Explains. The Galt Reporter (daily, established in 1886, and weekly, established 1846), has ceased publication. In an address to his readers, published on Monday, J. Galt, editor, said that he had been informed by Mr. Rogers that he had been "squared" by the laundry. He said that he had been informed that the laundry had been "squared" by Mr. Rogers, and that he had been "squared" by Mr. Rogers.

SUES TO ANNUL AGREEMENT. NEW YORK, Sept. 21.—A civil suit to set aside the ante-nuptial agreement of Madame Lina Cavalleri, the opera singer, and her husband, Robert Winthrop Chanler, was instituted to-day by Mrs. Julia C. Chanler, his former wife. The papers alleged that the ante-nuptial agreement was obtained by Mrs. Cavalleri by fraud and undue influence.

Use TIZ—Smaller Feet. Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well. No Matter What Ails Them.

Winnipeg Free Press: Two incidents in Inspector Robertson's career stand out with especial prominence. One is the occasion on which he arrested, single-handed, a crazed German, who, armed with a revolver and a last gasp, put up a tremendous fight. He tackled the man in a dark room, closing with him before the German had time to fire. The missing hand-to-hand fight, the inspector did for his own weapon, except to finally grapple him under arrest. The German drew a term of ten years' imprisonment.

Everyone who is troubled with sore, swollen, or tender feet, corns, or bunions can quickly and easily get relief. Here is instant relief and a permanent remedy—TIZ. It's called TIZ because it's so small, and it's so quick. It's called TIZ because it's so small, and it's so quick. It's called TIZ because it's so small, and it's so quick.

Note and Comment
Newark can lay no charge against Toronto of helping Rochester to win the championship.

The John Ganzel lost the double-header of his pair to Providence, thus ending the suspense as far as the pennant is concerned. It is impossible now for Newark to beat out Rochester, and the Huskies are champions again.

Close followers of the repeat champions can see nothing brilliant in their batting or fielding. They are probably better than ordinary base-runners. Their pitching department is splendid, but it is behind the bat where the Huskies won their second pennant, coupled with their wonderful ability at sacrifice hitting.

The final series of the season of 1910 will commence to-day at the island with a double-header between Toronto and Buffalo.

TWO GREAT BATTLES WON BY THE LEAFS

Newark Loses One and Rochester Can't Be Beat for Pennant—Buffalo Here To-day.

That Toronto has the Indian sign on Rochester was demonstrated yesterday when the Leafs overcame the double-header in two of the hardest fought games here this season.

Newark broke even with Providence, winning the first and losing the second, the result of the latter game putting them down and out for the championship, and Rochester cannot be beaten now, even if they lose all the games at Montreal.

Killian Breaks His Hoodoo.
When Ed Killian essayed to do the heavy lifting in the first game against Rochester, he added nothing whatever to the sum of human knowledge, altho he did recall the long-admitted fact that there is an infalling supply of men in the league ready to undertake any feat of daredevilry, no matter how needless that feat may be.

THURSDAY MORNING, SEPT. 22, 1910

HOW WAS IT WORKED?

It was with remarkable promptitude that The Evening Star jumped to the defence of Mayor Geary in connection with the charge that the proposals of a syndicate to build sixty miles of street car lines for the city were suppressed until the Street Railway Company had time to decide to go ahead with the lines which they had declined for four months to build.

Mayor Geary, according to The Star, admits that what he calls a vague proposition was submitted "in the winter." Then he goes on: "The only plans submitted were in the form of a map of Toronto with certain streets marked." This was described by the engineer of the syndicate as "a plan showing the streets on which the syndicate was ready to lay down the lines."

The plans, whether satisfactory to the mayor or not, were discussed by him with the city engineer, and kept, and it was not until after two weeks' silence by the city authorities that the syndicate's engineer sent for the plans and got them back.

Sir James Whitney is reported to have declared that he is against public ownership. Mayor Geary has certainly not been friendly to the principle when he kept secret the proposals of a responsible syndicate to build sixty miles of street car lines under conditions favorable to the city.

But Mayor Geary declares it is absurd to suppose that any "tip" could have proceeded from the city hall to the Street Railway Company, also the same day, Tuesday, 13th inst., that the syndicate's letter arrived, renewing the offer to build the street cars. Manager Fleming broke all precedents by issuing a statement to the morning press that the Street Railway Company had determined to yield to the stress of circumstances, and while rejecting the injustice of the Ontario Railway Board's order, to obey its demands.

Did the railway company yield to the railway board which had flouted for four months, or did it hurry up to forestall any possible bargain with a syndicate which the disgruntled citizens would have been glad to consider? Mayor Geary says the latter supposition is ridiculous, and, according to The Star, he was mildly amused when he read the story. The Star ought to know. The Star is the street railway organ. The Star was Mayor Geary's chief campaign supporter. They have had a good deal more mild amusement among them than the citizens have had.

The World believes that the true nature of these schemes will come to light if the men elected by the citizens will do their duty. It is all very well to talk about "amusing stories," but the people cannot derive any amusement from seeing their franchises, their rights and privileges, their inheritance in the city, trifled with by "mildly amused" young men, or handed over to the corporation interests which have already almost obtained a strangle-hold on the city's traffic.

The citizens have not had a fair deal in this matter, just as they have not had a fair deal in the matter of the tube system, nor in a number of other matters where a whole-souled devotion to public interests would have thought more of the people than of personal or factious advantage. In the face of the firm determination of the Street Railway Company to retain its grip on the franchise, whether it expires by agreement or not, the controllers and aldermen who have the people's interests at heart cannot afford to sit idly by, mere spectators for the mild amusement of their opponents, while important city business is pigeon-holed or shuffled under the table.

It was pointed out to the witnesses that in 1891 the capital stock of his road was \$40,000,000 on 275 miles of track, and in 1910, on only about 1700 miles more it was \$109,000,000, also that in 1891 the bonded indebtedness was only \$62,000,000, while in 1910 it had reached \$175,000,000, and he was asked why this was so. The controller answered that what would appear to be the excess went to improve the roadway and for the equipment and purchase of other roads.

In reply to further questions Controller Blauvelt admitted that part of the stock issued for these purposes was sold on the open market, but that most of it was sold to the stockholders at par. He denied that there had been any stock dividend, and was then asked to distinguish between giving stockholders a stock dividend and giving them stock worth more than par value. Mr. Blauvelt insisted that there was a vast difference, while admitting that the result was the same in cash to the shareholders. He was then asked: "If your stock sold at 150 in open market and you gave it to your stockholders at 100, what became of the extra 50 per cent. of its value?"

"Why," replied the controller, "it went to stockholders." This, it will be observed, is an exactly similar case to that of the Canadian Pacific Railway in connection with its latest stock addition. To the issue of that stock at less than its market value Mr. W. F. Maclean and The Toronto World strongly objected, and it is satisfactory to have the view then taken supported by the controller of the Illinois Central.

PURE WATER. The Evening Telegram, which is frequently to be commended for its lucid diagrams, has printed one showing the flow of sewage towards the intake of the Toronto waterworks system. Over thirty million gallons of sewage are floated into the lake every day at points where the currents carry this contamination into the neighborhood of the intake.

Perhaps The Telegram will now see the advantage of locating the intake of Mimico Point, which experts declare is the spot to get the purest water in Lake Ontario. Nobody has any fiery faith in the new filtration plant. It will undoubtedly help, so will the trunk sewer. But if pure water can be obtained, as it must eventually be obtained, by changing the location of the intake, is it not about time in this slowly-moving municipality to start the drift?

The Telegram has made the water system its own subject, and it is with deep humility one offers any suggestion when The Telegram has the floor. But the good of the city, the health of the inhabitants, the confidence of visitors, and the growth of the municipality are all at stake. All these schemes for purifying dirty water seem purile if it be a fact, as authorities declare, that pure water is available at the expenditure of a little money for pipes.

It was good business for the city council to order the concreting of the remaining portion of the reservoir. There is no time of the year when the work can be undertaken with less risk, and the need is undoubted.

AN APPRECIATION.

Editor World: Have read with great pleasure in to-day's issue of The World the article, "Let Canada Stand Clear." Your arguments are clear and forcible, and you deserve the thanks of every patriotic citizen for your fearless and outspoken words. Canadian. September 21.

THE MAIL KNOWS ALL ABOUT IT.

The Mail: On both sides of the line the reciprocity idea is being scientifically worked. The outlook is, as a consequence, rather favorable to a bargain. It is not probable that we shall awaken some morning to discover that the commercial unionists, after defeated when fighting in the open, have scored a victory at last and that a good slice of Canadian business has been handed over to our neighbors. But did we not elect these men to office, and with a full knowledge of the goal at which they aim?

A QUADRUPLE MURDER

Woman, Her Two Small Daughters and Young Son Slain With Ax.

WESTCHESTER, Pa., Sept. 21.—Search is being made to-day by the police of all towns in this vicinity for a man who is suspected of murdering Mrs. John Saus, her two small daughters, and a young son, at their home at Byers, Pa., 12 miles from here. The suspect formerly boarded at the Saus home, and it is believed robbery was the motive for the terrible deed, and that the four victims were killed in order to prevent an identification. The skulls of the woman and her children had been crushed in as they by an ax or heavy club. The bodies were discovered by the husband and father upon his return from work last night.

THE U. S. ELECTIONS

The present Congressional elections in the United States are of absorbing interest to Canadians. The principal issues are the tariff and boss rule. The approaching reciprocity negotiations with Canada are inseparably linked with the question of tariff revision.

The fight between the party machine and the progressive element, led by ex-President Roosevelt, will make one of the most spectacular contests in the history of responsible government.

BRITAIN AND PREFERENCE

Sir Geo. Doughty Promises Ultimate Rewards for Canada.

"A peep into the future" was what Chairman McKay promised the Canadian Club yesterday in introducing Sir George Doughty. Sir George is grateful for the opportunity of addressing the assembly of British Democrats, his oratory is rollicking and sonorous, and he is a chary man when it comes to a dry-as-bone.

The great dominions scattered about the earth, which had been called colonies, but which he preferred to call sister British nations, had gained their footing by devotion to British ideals. Did they propose to throw off their allegiance to the British Empire, he proceeded to address a sympathetic audience on the necessity of the imperial components drawing closer together.

He had been all along the Pacific coast and seen some of the most beautiful scenery in the world, but if they had no strong arm behind them, and the Japanese landed an army on the islands, he would not be surprised if they were removed again.

"It is time you were doing a little bit for yourselves," was a highly applauded sentiment. "This is not the day of nations. Today we are speaking not of nations, but of empires. It was Bismarck who introduced the word 'empire' and laid the foundation of the German empire. And it was then that his marvelous statesmanship and his adoption of the principle of 'protection' preserved the homelands for the home workers."

"I hear a great deal now-a-days about reciprocity," and he pronounced the word over and over with a hiss in the first syllable. Let the United States lower their tariff wall, he submitted and attained the climax of his speech and the responsive applause with a recommendation: "Do not lower yours."

Britain had a preference from Canada, he resumed, and he deplored the fact that Britain had done nothing to meet the situation. "I ask you not to believe the fairy tale told every now and again of a cabale against our great leader, Mr. Balfour. We will carry forward our great scheme and in the near future, we will be able to offer you a British preference for your articles over the articles produced in any other part of the world." (Applause.)

President McKay reminded the club that their platform admitted all sides of opinion, and next week those who had been unable to applaud Sir George, might find more satisfaction with the platform of the secretary of the English Free Trade League.

NEW PRESIDENT OF C.M.A. HIS SUCCESSFUL CAREER

How W. H. Rowley Became Identified With the E. B. Eddy Co. and What He Has Accomplished.

VANCOUVER, Sept. 21.—W. H. Rowley of the E. B. Eddy Co., at Ottawa and Hull, is the president-elect of the C.M.A., now in convention here. Born in Nova Scotia, the son of an Anglican clergyman, Mr. Rowley got the benefit of perfect home training, in a highly intellectual Canadian environment, with the best private and public schooling, developing in him a determination and positiveness of character that has carried him to a high point of success. His lofty sense of business honor, his sturdy loyalty to British traditions, his exuberant love of country, his buoyant joy in outdoor recreations, his princely hospitality, may all be traced to the lessons learnt in the house of his father and the example set by that sterling Christian gentleman.

Mr. Rowley has been prominent in the large industrial life of Canada for a generation, yet is still in his prime. His career began in a bank. He was manager of the Ottawa branch of the Bank of Montreal for years. In this capacity he came in touch with E. B. Eddy, of the E. B. Eddy Paper Co., of Quebec. Mr. Eddy, a keen, shrewd, down-to-earth Yankee, knew a good man when he saw him. He buckled Mr. Rowley to him and to his big business. From that time till Mr. Eddy's death, Mr. Rowley was his right hand man, working with him shoulder to shoulder in laying the foundations of what is to-day the largest industry of its kind in the British Empire.

A Worker for Twenty Years. When the fire took place ten years ago, wiping out the E. B. Eddy plant at Hull, Mr. Eddy found in Mr. Rowley a man of boundless optimism and superlative capacity for reconstruction. Out of the ashes arose a magnificent plant that is a monument to the genius of E. B. Eddy and the proven business acumen of W. H. Rowley and his persevering associates.

Mr. Rowley, since Mr. Eddy's death, has been president of the E. B. Eddy Company. For twenty years, like a full-powered dynamo he has worked for the success of that company. He has seen it grow to five times its former size. Now it has eighteen branches in Canada, and stretches from the Atlantic to the Pacific, with its business affiliations twenty different Canadian cities, and entering to the needs of the whole nation.

He is a man of large affairs. He has vision and vigor. He has all his life been in the habit of dealing with matters of great importance in the business world; he knows big things and handles them in a big way. Knows His Business. His knowledge of business conditions in the country, the man who has spent his years in the heart of Montreal put him in touch with the fundamentals of industry. His close association with E. B. Eddy and his large undertakings schooled him to a large understanding of industrial problems, no matter how great. Hence in his career he has been brought into personal intimacy with the master minds of finance and industry of Canada, and he is of their kin. Perhaps no national industry is more widely and better known than his. The Eddy happy human faculty of keeping his friendships green.

Mr. Rowley is an ardent club man, a keen sportsman, a keen horseman. In religion he is a keen adherent of the Anglican Church, occupying no mean position among laymen in the Diocese of Ottawa. His Ideas on Protection. Mr. Rowley is a firm believer in a national policy of protection in its broadest sense. In discussing the question of tariff revision he said: "Be exact in your terms. Is not the term 'National policy' too vague and uncertain in its meaning? Does it mean 'protection' or 'protection' to the average man? Can not be construed into numerous and shifting avenues of thought, and is it not so construed by the master minds of the country? Let the term 'protection' be properly understood.

"Protect the farmer, the backbone of the country, the man who by the sweat of his brow compels nature to yield her rich stores—he is the really vital part of the nation. He has made so that it considers him as the central and most important figure in the life of the country. Any national policy that does not conserve and secure his interests is not a national policy. If you start your tariff with protection for the farmer, you will build up a national protective policy.

"Personally, I am strongly in favor of protection properly understood, and by that term I mean protection of our natural resources, our lands, both public and private, our forests, our waterways, our fisheries, our mines and minerals, and our agricultural and farm products, our raw materials and the manufactured product thereof. To build properly for protection we must start right and on a solid, broad, firm and well understood basis."

WIFE MURDERER A SUICIDE

Former Midland Man Cut Own Throat After Slaying Woman.

VANCOUVER, Sept. 21.—Geo. Reid, who was shot in the head by his wife two weeks ago in a fit of jealousy, committed suicide, for his body was found to-day floating in the Fraser River. The man was shot from ear to ear, apparently with the same razor that was used by Reid in killing his young wife. The young couple were from Midland, Ont.

No Frivolity for West Durham. BOWMANVILLE, Sept. 21.—West Durham fell fair yesterday and to-day was another record breaker, for there were larger crowds than have ever been there for years and continues to be a purely agricultural exhibition. No horse racing, midways or fake attractions. It is emphatically a stock show, with horses far in the ascendency.

Master's Chambers. Before Cartwright, K. C. Master. Dancy v. Wightson, J. MacGregor, for defendant. Dymond, M. Grant, for plaintiff. Motion by defendant to set aside a default judgment signed in June, 1908.

Judgment: Defendant alleges that he was never served with the writ, but in view of the affidavits it is difficult to believe that the defendant is in the right in his contention. In view of the conflicting affidavits, it appears the better course to direct an issue as was done in George v. Green, 190 L.R. 138. The defendant should give security for costs if he really contests the regularity of the writ. If he does not, an order will be made in two weeks, an order will be made in which the defendant Dymond will be plaintiff, and Dancy defendant. By arrangement between counsel whether Dymond was served with the writ in question or not. In default of such security, motion dismissed with costs.

Clarke v. Rowell—S. H. Bradford, K. C. for defendant. W. A. Skeens, K. C. for plaintiff. Motion by defendant for an order for the examination of a defendant de bene esse. Order made in terms agreed on by parties. Critical Manufacturing Co. v. Expanded Metal Co.—G. Osler, for plaintiff. H. B. Underhill, K. C. for defendant. Motion by plaintiff for judgment under C. R. 602. Motion dismissed. Costs in the cause.

Beckwith v. Lang—A. J. Thomson, for plaintiff. W. J. Clark, for defendant. Motion by plaintiff for judgment under C. R. 602. Enlarged until 24th inst. pending. Berry v. Love—W. J. Clark, for defendant. Motion by defendant for consent for an order dismissing action for breach of contract and vacating certificates of lien and its pendens. Order made.

Judge's Chambers. Before Middleton, J. Jackson v. Hughes—J. T. White, for defendant. Hughes, J. Arnold, K. C. for plaintiff. An appeal by defendant. Hughes from the taxation of the sentence for failing to appear at trial.

Judgment: The judgment of the plaintiff "receivers" against defendant Hughes \$188.15, and the costs thereof, as increased by the issue between plaintiff and defendant, as to this issue no costs are given. Plaintiff also recovers \$440.67 against defendant without costs. The cause of action with respect to which these two judgments are recovered, are quite distinct. On the taxation, plaintiff claims, and defendant denies, that they are only entitled to C. C. costs. The defendant claims that the action is in the nature of a debt, and that the judgment of the C. C. is to the contrary. Duxbury v. Barlow determines that in the absence of an order to the contrary, the rights and liabilities of each defendant depend upon the amount of plaintiff's recovery against him, and are decisive in defendant's favor. The trial judge did not intend to give any direction which would prevent C. R. 1132 applying, and had an application been made to him to do so it would have been refused. Appeal allowed and bill referred back to be taxed under C. R. 1132. Costs of appeal and former taxation to appellant.

Orr v. Patterson—E. C. Cattnach, for plaintiff. J. M. Ferguson, for defendant. Motion by plaintiff to vary the order of the master in chambers of 20th August, 1910. Order made varying the order by the master. Plaintiff pay into court within a week \$1500, as a term of being allowed to defend, that the trial be expedited, the defendant to deliver his defence within four days and accept short notice of trial, and that upon payment of \$1500 as aforesaid, the judgment entered be set aside. Costs not disposed of by the master, including costs of this motion to plaintiff in any event.

Re Bennett—McG. Young, K.C. for husband. Motion by husband for leave to sell and free from order. Order made. Loving v. C. P. Ry. Co.—A. D. Armour, for defendant. A. E. H. Creswick, K.C. for plaintiff. An appeal by defendant from taxation. An appeal allowed and bill referred back to be taxed under C. R. 1132. Costs of appeal and former taxation to appellant.

Critical Manufacturing Co. v. Expanded Metal Co.—H. E. Rose, K.C. for defendant. G. Osler, for plaintiff, contending that the defendant is to stay proceedings pending arbitration. Motion dismissed. Single Court. Before Sutherland, J. Daniel v. London and Western Trust Co.—An application by Anna K. Daniel for judgment in person, for a mandamus to compel the C. C. judge for Middlesex to complete and define his decision. Judgment: I cannot see that this is a case in which a mandamus should be granted; nor can I see any other relief to which the applicant, upon the material facts, is entitled. The application will be dismissed without costs, and without prejudice to the applicant to make any further motion she may be advised.

Before Middleton, J. Allen v. Murphy—H. M. Mowat, K.C. for plaintiff. Motion by plaintiff for an injunction. Motion refused on a week at request of defendant's counsel, plaintiff's counsel not objecting. Logan v. S. S. No. 2. Grantam—A. Kingstone (St. Catharines), for plaintiff. M. Brennan (St. Catharines), for defendant. Motion by plaintiff for an injunction to restrain defendant from proceeding to erect a new school-

The large number of mail orders that are being constantly received at the Royal Alexandra for the engagement of Forbes-Robertson next week indicates that his forthcoming visit to Toronto will be every bit as successful as was his last.

Miss Thelma Faire, who plays the title role in "The Girl from Rector's," which will be seen at the Princess Theatre for three nights, beginning Monday, Sept. 26, with a matinee on Wednesday, enjoys the reputation in New York of being one of the best dressed women either on or off the stage.

THELMA FAIRE, as Louie Scelaine, in "The Girl from Rector's," Princess Theatre, Sept. 26, 27, 28.

As well as taste, in the selection of their clothes, I had spent veritable fortunes abroad, and since I have been making my purchases here, I have not only saved money but I believe I have received far greater values. An ordinary working girl in the United States dresses with more real taste than many of the best people in England or France.

Mrs. Fiske's artistry, as displayed in "Becky Sharp," seems to possess a greater fascination than ever, and it is just cause for congratulation that Langdon Mitchell's classic adaptation of Thackeray's immortal story is to be presented at the Princess the latter half of next week.

A new prima donna, in the person of Miss Maurice Woods, is to be heard at the Gayety Theatre next week, when the "Golden Crook Extravaganza Company" open their regular engagement.

Since the announcement has been made of the appearance in Toronto of the Welsh Mountain Ash Male Choir, great interest has been aroused.

At the Princess Theatre, starting Monday evening, for three nights' engagement and a Wednesday matinee, will be "The Girl from Rector's," a comedy by Paul Potter, who gave the stage "Tribby," its New York production was originally made at Weber's Theatre, where it ran for over three hundred nights.

Manager Shea's show at Shea's Theatre next week is a bill of nine star acts, headed by the latest success, Joseph Hart's "Little Stranger," a story of the racetrack from the pen of Frank Craven and George V. Hobart.

Fiske O'Hara in the romantic Irish comedy, "The Wearing of the Green," comes to the Grand next week. It is the work of Theodore Burt Sayre, who says: "I took my characters from actual life as found in Dublin a hundred years ago."

"Menetekel," the mystery of Babylon, an illusion which is a striking puzzle, and which is introduced by William Berol, will be the stellar attraction next week at the Majestic Theatre.

WILL NOT SUSPEND RUST BOARD ISN'T SHOCKED

However, the Entire Reservoir is to Be Concreted—Good Roads Bylaw For \$100,000.

The whole of the reservoir will be concreted. There will be no investigation of its condition other than any action Judge Winchester may take in carrying out the investigation into the works department recently ordered, and City Engineer Rust will not be suspended.

These were the net results of the visit yesterday by the mayor and Controller Foster and Spence to the Rosehill reservoir. Controller Foster clung tenaciously to the view that conditions were disastrous, but the others decided that they were agreeably surprised.

The mayor admitted that the black muck which workmen were sweeping toward the centre of the basin didn't look attractive, but it didn't strike him as having an offensive smell, and he remarked that the controller had "struck a bossing note."

When the board met later in the city hall, Controller Foster voted alone for his strong resolution, altho Controller Church said the reservoir had been mismanaged and Judge Winchester should investigate.

Controller Spence declared that the reservoir was no worse than was to be expected, adding that Mr. Rust wanted it cleaned out years ago, but was afraid to empty it because of lack of reserve, and that the city had supported his attitude.

The mayor's motion that the portion not concreted, about one-third of the whole, be so treated, by day labor, was unanimously approved.

Ald. McCausland favors the construction of a concrete wall across the reservoir, dividing it into two sections. Movement was also under way among some of the aldermen to have a high fence placed around the basin to prevent foreign matters being thrown in.

Action Against Radial. On the suggestion of the mayor, Corporation Counsel Drayton was asked to take action against the Metropolitan Railway for the Toronto and York Radial system owned by the Toronto Railway for responsibility for the "terrible condition of that part of Yonge street occupied by their tracks."

The ratepayers will be given a chance next January to vote on a by-law to provide \$100,000 for the improvement of main roads leading to the city, the Ontario Government and York County Council each to give a like amount.

Controller Spence wanted to have a resolution passed thanking the police commissioners for granting the men on the force a day off each week, but the mayor didn't wish to reopen a subject which caused so much wrangling earlier in the year.

In declining to permit a railway siding to the premises of the Diamond Coal Company, Jarvis street, the board adopted the policy of granting no sidings on the Esplanade until the viaduct plans are settled for fear of possible interference.

Civic Reception for Q.O.R. It was decided that the Q.O.R. should be given a civic reception on their return from England. Its nature will be determined at a conference between the city and prominent military men. The mayor's idea is to have the other regiments turn out and escort the Q.O.R. in a parade through town streets, after which an address of welcome would be presented in Queen's Park.

The mayor is writing the marine department of the Dominion Government to ascertain if there will be objection to the construction by the city of a pier and dam across the western channel to prevent the escape of sewage into the lake and spread of typhoid during the winter.

Mayor Geary and Controller Spence go to London to-day to attend the meeting of the Municipal Power Union, at which the export of power to Detroit by the hydro-electric commission will be discussed. The controller's view is that the export of power should be allowed if there is a provision that the commission can revoke the privilege whenever the power is needed in Ontario.

Medical Health Officer Sheard emphasizes the danger that reports as to the condition of city water given out by his department have given a rosier tinge than facts warranted so as to allay fears of visitors. He says daily analyses have been made and furnished to the board of control without modification.

Children of Strikers Won't Attend School With Non-Unionist Children.

HALIFAX, Sept. 21.—A new phase of the strike in the Cumberland Railway and Coal Company's mines in Springhill is being experienced. The men have been out for fourteen months. When the school reopened in a body, refusing to sit beside the children of the strike-breakers or men at work in the mines. The former were in the majority, and they not only went out, but stayed out.

The school authorities, to tide over the trouble in the meantime, have asked the non-union youngsters to stay away from school.

CONVICTED OF RECEIVING

Two Restaurant Keepers Who Bought Stolen Provisions.

Restaurant-keepers Chas. Lewis and Andrew Tuttle, both of Queen-street, were found guilty in yesterday's sessions of receiving goods stolen from the latter of the steamer Toronto of the R. & O. Line. They were arraigned on separate charges, but both purchased the goods from men who were employed in connection with the steamer's cuisine department, and who are now serving time on theft charges.

Lewis was accused of buying some bacon and ham from Dennis Hollows, who was butcher on the boat, and who told of accepting \$6 and \$5 for two lots of goods. He didn't know how they had been delivered, as the matter had been arranged by Fred Fenn, third cook on the boat, who had previously worked for Lewis.

Fritz Hees, baker on the boat, had sent up a sack of flour to Lewis. "I knew Hollows was making some money, and I thought I would make some, too," he explained.

Tuttle was accused of purchasing some stolen hams and bacon and some canned goods. Hollows declared Fenn had brought Tuttle in to see him and the latter had paid him \$1 for some cured meat and dripping. Fenn admitted making all the arrangements of sale, but would not say that Tuttle knew that he was buying stolen goods. He had simply asked him if he would like to buy some damaged goods cheap.

T. C. Robinette, K.C., held that the defendants were under no impression that they were buying only damaged goods and that, such being the case, they had been charged with the crime of receiving.

The evidence of local Detective Miller, who arrested Tuttle, was refused by Judge Denton because he had, after sentencing the prisoner to jail, offered him might say could be used as evidence against him, spoiled his caution by advising him to tell the truth. Bail of \$500 was accepted in each case on the bond of Edward Hincks until the end of the sessions.

PLOT TO KILL MIKADO

A Number of Persons Active in Allied Socialist Movement Jailed.

TOKIO, Sept. 21.—A sensation was created by the publication this afternoon of the alleged details of a plot among his own subjects to assassinate Emperor Mutsuhito.

The startling story appeared in The Hochi Shun, which states that the plotters, who are now under arrest, certainly will be sentenced to death, after trials before a special secret court.

This is the first time in the history of the country that the life of the sovereign has been plotted against by his own people, and the fact known. There are now in jail in this city a number of persons who are alleged to be active in the Allied Socialist movement.

Dropsy— Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

## MAKE WIFE DESERTION CRIME UNDER THE CODE

Deputation Waits on Attorney-General Foy With Request For Sterner Punishment.

Woe betide the wife deserter if the wishes of a deputation representing the Associated Charities, which appeared before Attorney-General Foy yesterday, are carried into effect. They sought an amendment to the act that would make wife desertion an offence under the criminal code.

Rev. J. A. Turnbull headed the deputation, which consisted of Rev. Father Minehan, Rev. A. B. Chambers, governor of the jail; Mrs. R. L. Brewster, S. Arnold, Mrs. J. Forsyth Grant, of the Toronto Relief Society, Miss Barnum of the Creche, Miss Charity Cook of the Toronto Mission Union, W. Duncan of the Children's Aid Society, P. Hynes of the St. Vincent de Paul Children's Aid Society and Rabbi Jacobs.

Father Minehan, in supporting the resolutions, pointed out that one difficulty in the way of prosecuting a wife deserter was the lack of provision for funds to bring him back to the place where his alleged offence was committed. It had been suggested that "culpable failure on the part of a husband to maintain his wife and family, whether they suffer or not, should be a punishable offence, and that the wife should not be the one to prosecute."

Mrs. Forsyth Grant remarked that desertions were frequent among many newcomers into the country. "Of course, as you say, these men are rather hard subjects," observed the attorney-general, "but I would be Father Minehan: 'Fine subjects to put building roads in northern Ontario.'"

Miss Cook and Dr. Chambers emphasized the necessity for legislation empowering the government to follow wife deserters, and Dr. Chambers added: "I am glad to stand beside Father Minehan, the representative of a great Christian church and before you, sir, a member of that great church, and say that that is a great view on the keeping of marriage vows as either of you have, but I cannot refrain from pointing out that it would be well for some wives to be delivered of their husbands as it would be well for some husbands to be delivered of their wives. But all this only increases the difficulties with which we are confronted, and I would urge that some provision be made by which the wife deserter could be reached and brought back."

"If the criminal code could be amended to make wife desertion in itself a crime, without proving that the wife has actually suffered in health, it would be going a long way toward what you want," said Mr. Foy, as he advised the deputation to draft amendments, which he will submit to the Ottawa authorities.

## A Pageful of Gainful Transactions for You

Webster's dictionary says that the word "bargain" means specifically, a gainful transaction. It is in this specific sense of the word that we call every item on this page **A BARGAIN**. Beginning at the upper left hand corner, put it to yourself fairly with regard to every item—"does this represent a gainful transaction for me?" The result will be an early visit to this store to-morrow, and a most profitable morning's shopping. **JUST ONE HUNDRED WEBSTER'S DICTIONARY.**

The New Census Edition.
