LIBERALS DEFAULT 22 SEATS WHITNEY HAS CLEAR LEAD OF 17

Nominations Yesterday Indicated That Opposition to Government is Still Badly Demoralized—Four Cabinet Ministers Are Returned Without a Contest—Three Liberals Only in Field in Toronto.

Seventeen Conservatives elected by acclamation and no Liberals appearing for five of the Toronto seats and Dufferin. The net result of the nominations for the legislature which meet here tomorrow on Monday. There are 16 seats in the legislature. Of the eight seats in Toronto, labor candidates are contesting seven and only three Liberals are making the run. The Liberals are Joseph Oliver in North Toronto B., Dr. John Hunter in West Toronto A., and E. Fielding in South Toronto B.

Four cabinet ministers are re-elected without a contest, namely: Hon. Adam Beck, London; Hon. A. J. Matheson, S. Lanark; Hon. W. H. Hearst, Sault Ste. Marie; and Hon. Jas. Duff, W. Simcoe.

Premier Has Opponent.
Sir James Whitney, the prime minister, does not win his seat without a fight. At the last minute, R. S. Muir, a Toronto lawyer, bobbed up at Winchester Springs, and entered the contest. This stunt was probably engineered by the Liberal headquarters here for the "moral effect" it might have.

The opposition leader, N. W. Rowell, K.C., who is running in North Oxford, is opposed by Robert Lockhart. In West Kent Geo. Sulman is opposed by E. Hea, who is called an Independent Liberal.

Eleventh Hour Candidates.
In a large number of ridings the opposition to government candidates was sprung at the last moment. Last Saturday there were about 20 seats where Liberals were a-begging for candidates, but the word went forth to find stop gaps and this was done in several constituencies before the hour of nominations arrived.

One of the seats which returned a Conservative by acclamation was North Renfrew, which was held by a Liberal in the last house. This probably means that the Hon. G. P. Graham will find the sledding easy when he attempts to rain a seat in the federal parliament for the riding of South Renfrew.

Some Local Splice.
In Toronto zest was added to the proceedings by the appearance of several laborites, and some of the nomination meetings were livelier than expected. The electors thronged the nomination halls in goodly numbers, making every meeting demonstrative and enthusiastic. Political workers who for the past week have been predicting a quiet election this year were surprised at the good attendance at the nominations and now say that things are warming up in a way that betokens a spirited and interesting campaign. "Interest in the contests from now on will be as keen as a razor," said one organizer as he reviewed the situation at the close of all the nominations.

Peeling rose to a high pitch at the West Toronto nominations in Odd-fellows hall, Northcote-avenue, when Dr. John Hunter, the Liberal nominee, declared he would, if elected, use all his influence against bilingual schools.

"Is that Leader Rowell's stand on the question?" demanded a voice.
"No, no, no," came the chorus from all over the hall, "I defy the Conservative nominee to speak out as plainly as I do," said Dr. Hunter warmly.

"They have done so," chimed back the chorus.
At the North Toronto nominations, Hon. J. J. Foy was greeted with a burst of cheers when he was called on to speak, his reception outclassing that accorded any of the other candidates.

The reception of Dr. Pyne in East Toronto was equally enthusiastic.
At nearly every meeting the Independent Labor party was strongly in evidence.

Quiet in N. Waterloo.
BERLIN, Dec. 4.—(Special.)—Nominations for North Waterloo in the Ontario Legislature was held here this today from 12 to 2 p.m. There was practically no enthusiasm, only thirty electors being present.

QUIZZED ROGERS ON MANITOBA BOUNDARY

Opposition Betrayed Exceeding Curiosity as to What Settlement Really Meant—Government Also Accused of Holding up the Hudson Bay Railway.

OTTAWA, Dec. 4.—(Special.)—Hon. R. L. Borden and several members of his cabinet very skillfully skated round the thin ice of the Manitoba boundary question on which they were urged to desert themselves by the request of E. M. MacDonald (Picton).

Mr. MacDonald wanted to know what about the financial settlement, what about the control of the newly-annexed lands, what about the Manitoba school question as regarded the new territory?

The premier declared that Mr. MacDonald would find out when the government brought down its measures. He did not intend to discuss the question till then.

Hon. Robert Rogers said that Mr. Borden would give Manitoba the justice for which she had vainly sought the Laurier government for seven long years. They only wanted fair play. The settlement arrived at would satisfy everybody.

The afternoon session was almost entirely devoted to a discussion of the Hudson Bay Railway.

Says Borden Broke Pledge.
D. E. Neely (Humboldt) in connection with a motion for all papers, etc., in the case made a vigorous attack on Hon. Frank Cochrane for the suspension of work on the contracts awarded by the late government for the construction of the Hudson Bay Railway. He claimed that it was a violation of the pledge given by Mr. Borden during his western tour to speedily complete the railway. This would be delayed a year by the minister's action. The first official act of the new minister was to stop a new outlet for the shipment of western grain.

James MacKay (Prince Albert) recalled that Laurier in 1908 promised to have trains running to Hudson Bay in four or five years, yet the first contractor only arrived on the ground two weeks before polling day in 1911. There would be practically no delay under the present administration.

J. G. Turfiff (Assiniboia) declared it was absolutely necessary to get supplies in as soon as possible if the right way was to be cut out this winter.

TRAVELER MACLEAN: You've simply got to have these goods, Mr. Borden. Refusal to keep 'em in stock helped to put your predecessor out of business.

ASK PEOPLE IF THEY WANT ST. BY.

City Council Last Night Talked of Submitting Expropriation Question to People.—Matter Will Come Up at Special Meeting—Long and Busy Session.

Steps were taken at the meeting of the city council yesterday to send a by-law to the people calling for the expropriation of the Toronto Railway Company by arbitration. The motion was carried and the first and second readings of the by-law also passed, but lack of a two-thirds majority prevented the third reading of the bill. That will probably come up at a special meeting which may be held on Wednesday.

Continued on Page 10, Column 1.

What the City Council Did.

Passed first and second readings of a bill which has as its object expropriation of Toronto Railway Co.
Sent the tubes, the excess lighting of streets, on local improvement plan, floor street viaduct, hydro-electric improvement, and the Danforth car lines, to the polls to be voted on Jan. 1.

G.T.R. MAN BADLY HURT

Was Engaged With Wrecking Crew Near Barrie, When Injured.
BARRIE, Dec. 4.—(Special.)—Sixteen freight cars of the northern division of the Grand Trunk Railway are to-day piled up in the ditch about one mile south of Brentwood, on the Cottingham and Meaford branch, as a result of a wreck which took place early Sunday morning. Twisted iron splintered lumber, corn, peas and other rough freight lies scattered all about the track. The freight train was a double-header, and was in charge of Conductor McNeil and Engineers Edwards and Ambach.

James Armstrong, a married man residing in Allandale and employed on the G. T. R., received serious internal injuries while engaged with the wrecking crew.

Armstrong was struck in the back with a pair of trucks being lifted by a steam derrick, and knocked against a wire fence. He sustained injuries to the chest and back, and may die.

LIGHT TO-DAY ON CONSPIRACY OF LABOR

McNamara Brothers, After Sentence is Pronounced, Will Appear Before Federal Inquisition—Truth Will Be Wrung Out, and Leaders in Outrages Will Appear.

LOS ANGELES, Cal., Dec. 4.—(Can. Press.)—James B. and John J. McNamara will appear before the federal grand jury here to-morrow morning and tell their stories. They will go before that body immediately after having been sentenced by Judge Walter Lordwell. This declaration was made late to-night on unimpeachable authority.

The announcement afforded an explanation of the meagre confession written late to-day by James B. McNamara.

A MAN FOR ANARCHISTS TO FEAR

Of Los Angeles, prosecutor of the McNamara brothers, who recently pleaded guilty—J. B. McNamara to the blowing up of the Los Angeles Times Building, and J. J. McNamara to the dynamiting of the Llewellyn Iron Works, Los Angeles. When the trial ended Captain Fredericks was congratulated on all sides on the able manner in which he conducted the prosecution for the state.

DUNDAS WARMLY RALLIES TO WHITNEY

R. S. Muir of Toronto Loomed Up Suddenly as Opponent, But Premier's Triumphant Return is Easily Assured—Liberal Candidate Made Tactical Error.

WINCHESTER SPRINGS, Ont., Dec. 4.—(Can. Press.)—Electors of Dundas County were given an unexpected treat this afternoon when they heard a debate in which Sir James Whitney met his opponent, R. S. Muir, the Toronto commercial traveler who so suddenly came into the field against the premier. To judge by the temper of the meeting, there is almost unanimity of opinion in favor of Sir James. The Orange Hall was crowded to the point of discomfort with men who had braved the zero weather and who were wrapped up in great fur coats and had driven many miles to attend the meeting.

Mr. Muir received a fair hearing, although at times he was forced to stop owing to roars of disapprobation. One of these times was when Sir James was referred to as the "most reactionary public man in Ontario during the last fifty years." The biggest disturbance, however, was when the Liberal candidate, in reference to Dominion politics, said that Messrs. Monk and Bourassa were in control of the federal government. It was fully five minutes before the cries of "Take it back, take it back!" began to subside enough to allow him to continue.

In reply to a statement the premier declared emphatically that there was no break in the cabinet on the bilingual issue.

No Frills There.
In Dundas County Sir James Whitney is no longer a Sir to his friends. They rushed up and shook him by the hand, saying "Hello, Jim," and "How are you, Whitney?"

Sir James knew every man by his name. Enthusiasm at the meeting was at boiling point all thru the premier's speech.

The debate was so arranged that Sir James would have forty-five minutes to begin with. Mr. Muir then having one hour, and then an indefinite length was given the premier for his reply.

In his first speech, Sir James confined himself to a review of his government's record. He claimed special credit for imposing taxation on the railroads, "a suggestion never before made by anyone." He also thought that the old bugaboo of the three-fifths clause was one of the acts of which he should be particularly proud. "It has settled the public mind," he said. His reference to the coming extension of the hydro-electric to Eastern Ontario was particularly popular with his audience.

Cabinet at Odds?
Mr. Muir said he had been willing to step into the breach since no local candidate was forthcoming. He felt that Liberals should have a chance of expressing their views.

"There are some principles," he said, "which Sir James has grievously violated. For example, he has violated the solidarity of the cabinet on the bilingual school question. Hon. Mr. Foy wants French abolished; Hon. Dr. Reaume says that Mr. Foy was speaking only on his own hook. Every Conservative candidate in Ontario has been forced to give a pledge of the constituency to abolish bilingual schools. The question then is: 'Will they be able to do it? If they are not, it won't be the first time that the forceful premier has compelled his followers to change their views. Either he should demand that the members of his cabinet who cannot agree should resign or he should dismiss them.'"

Mr. Muir made a plea for the supremacy of English in the schools. "It is a question," he said, "which must be settled now."

Government a Unit.
In replying Sir James Whitney said: "He says the government is not a unit on bilingual schools. I tell him he does not know what he is talking about. The government is and always was a unit in every question it takes part in."

In conclusion Sir James struck the personal note and told how much in all the 21 years he had represented them he had appreciated the respect and confidence of his friends in Dundas County.

WEATHER PROBS.
The probabilities for some time to come are that the cold snap will continue. Sleighing is splendid in the country. The Repository, Simcoe-st., has the best and most reasonably priced stocks of sleighs in Canada.

HAMILTON HAPPENINGS

COL. HENDRIE REPLIES TO ATTACK BY HICKS

Allan Studholme and His Opponent Cooper Show Good Feeling; Tho Supporters Were Warm.

HAMILTON, Dec. 4.—(Special.)—Hon. John S. Hendrie, Conservative, and Dr. James Russell, Liberal, in the west; Allan Studholme, Labor, and Wm. F. Cooper, Conservative, in the east, were officially nominated to-day to contest the two Hamilton seats in the provincial legislature. The nominators and seconders of the respective candidates were Col. Hendrie, J. W. Lamoreaux and Henry Marsh; Dr. Russell, Geo. Frid and Samuel Brown; Mr. Studholme, Walter Rollo and Phil O'Brien; Mr. Cooper, Geo. C. Hodgen and Caspar Oiler. Association Hall for the west and the court house for the east were the nominating places.

The proceedings at Association Hall were chiefly interesting on account of Col. Hendrie's reply to the attack made upon him Saturday night by W. Madison Hicks of Bradford. Col. Hendrie referred to the remarks in public life here and said that not one of his fellow-citizens would make such remarks about him as had been made by Hicks. "I have thousands of public friends here who will be as much ashamed as my own supporters of such an attack," was the opinion expressed by the Colonel in regard to the matter.

Dr. Russell disclaimed all responsibility for Hicks' attack. The speeches of the candidate covered no new ground. Dr. Russell uttered a sweeping criticism of the Whitney government, and Col. Hendrie entering a sweeping defence of the government's action.

At the court house both Mr. Studholme and Mr. Cooper succeeded in arousing considerable enthusiasm among their supporters, and for several minutes the remarks flung back and forth between the two sides were more vigorous than those used by the candidates.

Mr. Studholme declared that the premier had no better friend in the house than "the old man when the premier was right and no worse enemy when he was wrong." He was becoming bluster on any good bill in that house that the old man had not stood up and fought for, morning, noon and night," declared the speaker.

Mr. Cooper took exception to a remark made by Mr. Studholme, which the former considered an accusation of dishonesty against himself. The labor man denied intending any such meaning, however, and after the meeting, the two men shook hands and agreed to be friends. Mr. Cooper delivered his address from manuscript and defended and eulogized the Whitney government in the customary Conservative manner.

Mr. Studholme in the course of his speech this morning announced that Lee & O'Donoghue of Toronto had formally demanded an apology from The Spectator for alleged libellous statements concerning the labor candidate and read a copy of the letter to the audience. The Spectator is given until Wednesday to retract and apologize for its statements. Mr. Studholme stated that he did not want a cent from the paper for damages, but in justice to himself and his family he had to protect his good name.

Moore of Oak Lawn, Sherburne, gave a delightful at home yesterday afternoon in honor of the bride, Mrs. Fobson (Miss Williams of Oshawa), and also for Mrs. Williams and Mr. Allen. The rooms were lovely with white and pink carnations and the tea table was centred with Killiney roses in a basket surrounded by small vases of the same. Mrs. R. S. Williams, Jr., and Mrs. Moore presiding, followed by a bevy of young girls. Mrs. Williams was a picture in black satin, silver embroidery and diamonds, in a delightful contrast to her snowy hair, and Mrs. Moore wore black pointed white satin. The bride was in a beautiful wedding dress of white brocade and Limerick lace and Mrs. Williams in black and white and her ornaments were diamonds and pearls.

At the Grand.

Mr. Shea in "A Man and His Wife" "A Man and His Wife" dramatized from Samuel Shipman's novel, "The Spell," furnished Thomas E. Shea with a strong, vigorous and significant character which is by no means rare. Maggie Cottrell is the tomboy Worthington (Mr. Drew) thinks he wants to marry. His sister is the wife of a doctor. The story is how a literary man of middle age falls in love with domesticity, his brother, sister-in-law and baby having a valiant struggle to prevent the doctor from selecting too young a bride, and repeats not too late.

Isabella, the very precise young wife, was capitally done by Louise Drew. "It's not very careful he'll break one of his ligaments," was one of her good speeches. "Poor Louise" is only one of her school set who had not been able to get a husband, and Thais Lawton gave a brilliantly clever sketch of a character which is by no means rare. Maggie Cottrell is the tomboy Worthington (Mr. Drew) thinks he wants to marry. His sister is the wife of a doctor. The story is how a literary man of middle age falls in love with domesticity, his brother, sister-in-law and baby having a valiant struggle to prevent the doctor from selecting too young a bride, and repeats not too late.

OUR KITCHEN MISSIONARIES ARE PROGRESSING

From all along the line, wherever we have sent an Electric Iron out to teach anti-drudgery, the most satisfactory reports are coming in. Many of them go out never to return. They make good our promises that they will make woman's work lighter by taking away all the drudgery of ironing day. That is why they seldom come back. The fee to keep an iron permanently is \$5.00, but there is not the slightest obligation attached to our thirty-day trial offer. Ask at the Comfort Number—NOW ADELAIDE 404.

You Pity the Outdoor Man In Cold, Stormy Weather

But It's the Indoor People who Fall Easy Prey to Colds, La Grippe and Consumption.

By breathing the pure, fresh air the blood is kept well oxygenized—it is rich and red—disease germs have no chance against it.

But people who spend their time in stuffy rooms and offices breathe the dry, vitiated air until the blood becomes thin and watery, the system gets run down, and the germs of colds, la grippe, pneumonia and consumption find easy prey.

In this condition you take cold easily, and fail to shake it off. One cold follows another, and you daily become weaker and weaker, and less able to fight off disease.

There is nothing like Dr. Chase's Syrup of Linseed and Turpentine to break up a cold which is working its way into the throat and lungs. It keeps the cough loose, aids expectoration, and prevents serious lung troubles.

But in this run-down condition you also need Dr. Chase's Nerve Food to make the blood rich and red, to put new vigor and vitality into the body, and to fortify you against disease. This combined treatment is an ideal cure for colds, la grippe, bronchitis and asthma, and as a means of preventing pneumonia and consumption.

Dr. Chase's Syrup of Linseed and Turpentine
25 cents a bottle, family size, three times as much, 60 cents, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Here is another fight story interesting to those who might desire to hear again of Young Vichie, who is sometimes actually an underdog. The schedule about between Young Otto and Billy Sherman which was to have taken place at the Saturday night show of the Olympic A.C. New York, did not materialize, but in the stead Young Vichie of Philadelphia and Billy Galy of Australia were substituted. The Quaker is a husky welterweight, while his opponent is barely a lightweight, and the bout was stopped in the sixth round by Referee Dan Toms in order to save Vichie from further punishment. Gally, also outwrestled, put up a good exhibition and made a creditable showing until the bout was stopped.

Will Not Play for Toronto Team This Winter.

OTTAWA, Dec. 4.—Bruce Stuart denies that he has any intention of going to Toronto to either play with or manage a Toronto team. "They haven't approached me yet," said the Ottawa star, "but I wouldn't go if they did make me an offer. Bruce has no intention of leaving and would not leave it to play hockey. Mr. A. N. Sparks, secretary of the Ottawa Hockey Club, is a rumor that the Stanley Cup would be dropped, now that the O'Brien Cup was the trophy of the league, denied that the Stanley Cup would be done. The Stanley Cup is in the same position as any of the other trophies he stated, "While the league in which the holders of the cup, they may have another trophy that does not affect the cup, except that by the rules of the cup trustees, if the holders lose the championship of the league in which they play, they may also lose the cup. The Stanley Cup will continue to occupy the same position as before."

There is at least one man in New York who is satisfied with the manner in which the law relating to boxing in that state, is operating. He is Senator Frawley, father of the law who is de-claring recently that if the boxing game is in the same condition as the legisla-ture reconvenes in January as it is now he will not attempt its repeal. He has reiterated on numerous occasions his intention to lead such a movement should the law prove a failure in any way.

"For a long time after the law went into effect," said Senator Frawley, "it didn't have a fair chance to prove its merits. At the outset there were cre-ated in certain quarters conditions in-tended to make the law appear defec-tive. This handicap, I believe, has at last been overcome, and it has been demonstrated that the people of New York want boxing, want it clean, and that most people think the sport is not criminal when there is no hypocrisy. I think the reason it appears that boxing shows have not been largely patronized of late is due alone to the fact that so many clubs have been granted licenses. I can hardly say that I believe in a large number of small clubs, but I believe that the presence of natural elimination the number would gradually decrease. I believe an ideal condition would be four or five big clubs. The only thing that would be that a lot of people would start the cry that Farnham owned them all. I know of no real movement to re-peal the law, and I don't think that changes in the political complexion of the legislature will have any bearing on its fate. If it continues to work out as well as at present I will not inter-fered. If, however, some of the pro-moters think they could make more money under the old hypocritical club membership system and would like to pull off a trick like that will make the same so tight that there won't be left any subterfuge, and the sport will be done in good, as far as New York is concerned."

Officials of the Cincinnati club have given out the following relative to the selection of a successor to Clark Griffith, who resigned to assume the management of the Washington American League Club:

THE O'BRIEN CUP IS FOR COMPETITION IN N.H.A. ONLY

OTTAWA, Dec. 4.—"Making the O'Brien Cup the official trophy of the National Hockey Association," says Senator Frawley, father of the law who is de-claring recently that if the boxing game is in the same condition as the legisla-ture reconvenes in January as it is now he will not attempt its repeal.

"I usually make it a practice to pay attention to baseball sayings in print," says Connie Mack, "but there's just one comment that has so far gone uncontradicted, and I want to drive a spike into it. It is that we are in the habit of stealing the signs used by rival teams. Persons who know base-ball as it really is do not take stock in such yarns, but others naturally be-lieve them, and those are the fellows I want to reach."

Red Ross won the odd game from the Trots in the Payne League last night. The scores:

Red Ross Team. W. Williams 150 146 132 144. Ford 147 145 158 150. Stone 145 147 154 154. Barlow 138 138 151 151. Boyd 138 138 151 151. A. Elliott 138 138 151 151.

It is absolutely impossible for a man on the coaching line to detect the sign for a certain kind of play given by the pitcher or catcher, and at the same instant get word to the batsman in time to time to him up. I know that the only way to do this is to have a lightning trick, but we are not entitled to it, for we know it can't be done. If we attempted any such scheme, the chances are we would confuse our batsmen so that they couldn't hit at all. Sporting Editor World: Seeing the stand you are taking on the best game in this city, I send you a clipping showing the ability of one of the contestants that I believe will be a world's champion in Willie Lewis.

One Who is Disgusted With the Lemon-Pickers. The clipping referred to is as follows: "The picture of the best of five boxing championship crown to Mike Gibbons of St. Paul last night at the Fairmont Ath-letic Club, which didn't want to do it. In fact, he did the best—and his best was very poor—to keep the honor for himself. But Mike Gibbons took it with so much as saying 'If you please, I am the easiest thing that the St. Paul boy has ever done in his ring career—easier than taking pennies from an infant in arms. He made Willie look like a novice long before the going was at the end of the tenth round—just fooled with and laugh-ted at the New York champion."

STREET RAILWAY EXPROPRIATION AND THE TUBE.

In the policy of obstruction to necessary progress in the city council, there are no natural adepts. No one has been more anxious to bring the street railway under the direct control of the city than The World, but the auspicious conditions under which it is proposed to refer the expropriation of the system on terms to be arbitrated do not invite confidence. All, Phelan's extreme willingness to refer the annexation of North Toronto to the people leads one to look with suspicion on the present plan, and anything of this nature emanating from him just now will be similarly regarded. A straight business offer from authentic sources to sell the street railway system to the city would receive prompt and earnest attention, but the citizens are in no mood to consider various schemes, that do not involve anything definite, that have no apparent solid basis, and which look as much like fishing expeditions as anything else.

When so many important matters are before the citizens, a new project like Ald. Phelan's must be regarded as an auxiliary or an obstruction to those already under weigh. The tube scheme, which is to be referred to the people on Jan. 1, is the largest under consideration. Negotiations about the street railway without definite basis can only be regarded as intended to retard the progress of the tube idea. The tubes will do more for the purchase of the street railway at a reasonable price than anything else that can be thought of. Some people may argue that the mere contemplation of the tubes has called out the suggestion for expropriation. If it be so, we do not think it is for any reason that would benefit the citizens.

When the tubes are built, they will carry large traffic from the civic lines built in the more recently annexed territory north and east and west. The tubes will cost the citizens nothing, for they will pay from the start, for they will be honestly built and skillfully provided for. The hydro-electric commission has shown what Canadians can do in this respect. The Globe and some other papers, pessimistic under some of their political intimacies, do not think Toronto can make tubes pay. And The Globe is reluctant also to abandon the means through which their pessimism was acquired, and to adopt the method by which efficiency can be secured. But we trust this mood will pass away. At present, however, The Globe is in favor of a prolonged lawsuit with the Street Railway Company to determine whether the city and the company shall exchange traffic. This may take some years. The tubes, if started now, will take five years to build. The Globe says it is time to start five years hence—ten years off for the tubes. A lot of people will be dead by that time. The only way to bring the railway company to business with the city is to go ahead with the tubes. The Globe says the logic of the situation is against this. The people do not want The Globe's logic. They want common sense.

AN INDEPENDENT VOTE.

Party newspapers are invoking the young men of Ontario to come in with them, to join the old guards, to line up on the old issues, to wear the old tattered uniforms, and to wave the old faded flags.

The Toronto Star urges them to "be in with the rising party."

"The Conservative party has now reached the height of its power, and must inevitably decline," it affirms. "It is better to be with a party that is going up than with one that is on the down grade." Conservatives are also appealing to the young men on similar grounds. To the party in power, the Liberals are discredited, unprogressive and lacking in enterprise.

We believe that young men will do most for their country by refusing to identify themselves with either party, by studying the public questions of the day, and especially those which form issues in the election, being careful to see both sides of the case, and not considering the reading of one side sufficient to afford grounds for a decision; by making themselves acquainted with the candidates for whom they purpose voting,

and by refusing to vote for any candidate about whose principles and qualifications they are uninformed.

We do not ask young men to take one side or another. We simply ask them to use their intelligence, and "be not like dumb driven cattle." They may support one party or the other, or they may support neither. But the parties will yield more to an independent vote, and will more readily consider the public interest with an independent vote to have regard for, than without it. The party elected by such a vote will do something to advance the people's interests.

NEW POLITICS VERSUS OLD POLITICS.

There is a change in the newspaper press in regard to the member for South York and his advocacy of public rights. The bulk of them actually gave fair reports and some of them commendatory reports on the debate he brought on in the house on Friday last. The Montreal Star says it was the most fruitful discussion of the session to date. The Ottawa Citizen gives a complimentary sketch of nearly a column devoted to Mr. Maclean and the way he presented his case in the house. The Toronto Telegram and The Toronto News give good reports. The News said the speech dealt with new politics, not with old politics. Perhaps there is a change coming in our distinguished brethren. Even the attitude of the leaders of the house has improved and this may be followed by the rank and file daring to speak out their minds on these questions. But a great big change is coming. That a parcel post system will be inaugurated within the next three or four weeks is the prediction. The World ventures to make at this date.

U. S. CONSTITUTION AND REFORM.

For some time The World has been directing attention to the menace to the social order arising from present day conditions in the United States. The crimes acknowledged by the two McNamara's are not isolated incidents. They were committed in the course of the bitter struggle between organized capital and organized labor that has been long in progress. In this connection it is not necessary to assume, nor need it be suggested, that these and other dynamic explosions involving destruction of property and loss of life should be laid to the charge of responsible labor officials. They know too well that such offences are not only futile, but certain to injure the cause they were intended to support and to antagonize general public sentiment. It is impossible, however, not to recognize that the long series of dynamic outrages are symptoms and very grave symptoms of something seriously wrong in the body politic of the United States. Men who have convinced themselves that they are the victims of injustice and that the courts do not hold the balance fairly between the capitalist and the worker are certain to have among them those who will attempt to compel a remedy at any cost.

Rightly or wrongly workmen in the United States hold the opinion clearly and strongly that both the laws and the courts of the republic are against them.

This is plainly stated by the Rev. Percy Sikesney Grant, in a contribution to The North American Review. He states that workmen are astonishingly well informed on this point, and their complaints are clear and specific. Not only are laws designed for their protection, fought by wealth, but when passed they are interpreted by the courts in a fashion hostile to labor. Among the examples he cites from judicial decisions are these: An effort to unionize a shop is unlawful, so is to threaten a strike and to ask reasons for discharge. It has been held legal to jail a man for a month without trial; that it is constitutional to discharge a man for belonging to a union, and that there is no remedy for labor except personal suit. Dr. Grant lays stress also on the effect produced on the minds of working men caused by dissenting opinions, conflicts between courts and the immunity from punishment of wealthy criminals.

Nothing has conduced more to this prevalent conviction among the labor classes than the interpretation placed on that part of the fifth amendment to the constitution providing that no person shall be deprived of life, liberty or property without due process of law. This has been extended to cover companies of all kinds, no matter what abuses have attended their formation and management, and many remedial measures such as those requiring compensation for all injuries have been declared unconstitutional because they imposed a money burden on the capitalist. Resentment at this constant limitation of the legislative power has led directly to the agitation for the recall of the judiciary and for the limitation of the right of review of the supreme courts. In a recent volume on "Social Reform and the Constitution," Professor Frank J. Goodnow of Columbia University, examines the extent to which the federal constitution is a bar to reform legislation, and

Master's Chambers.

Before Cartwright, K.C., Master.
 Clarke v. Bartram—F. E. Hodgins, K.C., for defendant. J. Shilton for plaintiff. Appeal by defendant against the ruling of an examining judge that certain questions on an examination were proper and should be answered. It is not clear to my mind why this examination was necessary or useful. At this time it does not seem to be any object to be gained by any further examination on the line. Plaintiff wished to pursue. The order by defendant will therefore be that the questions objected to should not be answered. Costs of application will be in the cause as the whole proceeding is of an unusual character.

DEMANDS PROBE INTO ANTI-TRUST LEAGUE

Stormy Scene in Congress as Aftermath of Investigation Into U. S. Steel.

WASHINGTON, Dec. 4.—(Can. Press).—An investigation of the operations of the so-called American anti-trust league was demanded by Republican leader Mann in the house of representatives after a remarkable speech by representative Martin W. Littleton of New York, who charged Henry B. Martin, secretary of the league, with attempting to defame him. It was the climax of the dispute between Mr. Littleton and Chairman Stanley, of the House Steel Corporation Investigating Committee, over methods of procedure, since the filing of the government's suit against the U. S. Steel Corporation.

Round after round of applause punctuated Mr. Littleton's seventy-minute defense of his integrity and Democrats and Republicans assured him of their confidence in him. Meantime Mr. Martin has handed Speaker Clark a memorial and petition asking that Dr. Littleton be impeached, on the ground that he had "cooperated and conspired with heads of the trust" to prevent a continuance of the Steel inquiry. This memorial, however, was not presented to the house.

Mr. Littleton assailed Martin and his associates for their protection, fought by wealth, but when passed they are interpreted by the courts in a fashion hostile to labor. Among the examples he cites from judicial decisions are these: An effort to unionize a shop is unlawful, so is to threaten a strike and to ask reasons for discharge. It has been held legal to jail a man for a month without trial; that it is constitutional to discharge a man for belonging to a union, and that there is no remedy for labor except personal suit. Dr. Grant lays stress also on the effect produced on the minds of working men caused by dissenting opinions, conflicts between courts and the immunity from punishment of wealthy criminals.

Nothing has conduced more to this prevalent conviction among the labor classes than the interpretation placed on that part of the fifth amendment to the constitution providing that no person shall be deprived of life, liberty or property without due process of law. This has been extended to cover companies of all kinds, no matter what abuses have attended their formation and management, and many remedial measures such as those requiring compensation for all injuries have been declared unconstitutional because they imposed a money burden on the capitalist. Resentment at this constant limitation of the legislative power has led directly to the agitation for the recall of the judiciary and for the limitation of the right of review of the supreme courts. In a recent volume on "Social Reform and the Constitution," Professor Frank J. Goodnow of Columbia University, examines the extent to which the federal constitution is a bar to reform legislation, and

EXPERT TYPIC DECLARES CEMENT WORK GOOD

Engineer Reports on Filtration Plant—Finds No Fault—Inquiry Ends.

"I have viewed the plant," declared W. F. Tye, the engineer who was appointed by Judge Winchester yesterday morning to give an expert report on the concrete work when the enquiry was resumed at 5 o'clock yesterday afternoon, "and I find that the concrete work is well done. The concrete used is all good concrete. While I have seen many better jobs, I have also seen many worse. The general work on the plant was well done, and I cannot see where fault could be found with it."

C. H. Rust, city engineer, was on the stand in the morning. He declared that Allen Hazen was the best expert on filtration work that could be secured in America.

Asked about the statement of Mr. Hazen that there was a system of making the plant water tight at some extra expense, he declared that the alternative was not submitted to the city council. They were not given the opportunity to decide whether they would pay the extra cost and have a water tight plant, or pay interest on the added cost of waterproofing. He had not heard Mr. Fellows' statement that assuming Mr. Hazen's estimate of leakage of 100,000 gallons a day the cost of pumping the extra water would be about \$2.50 a day.

He declared that the contractors had complained to him that they were not paid for the extra work, but they made no complaints about the inspectors. He reported the complaints to Mr. Langley and Mr. Storrie and endorsed their actions.

IN THE FIELD. HON. MR. BECK AT BERLIN. Minister of Power Given Heartly Greetings at Lackner Meeting.

BERLIN, Dec. 4. (Special.)—The Conservatives of North Waterloo held an enthusiastic rally here to-night in St. Mary's Hall in the interests of Dr. H. G. Lackner, Richard Reid, president of the North Waterloo Conservative Association, occupied the chair.

After the candidate had spoken, Hon. Adam Beck followed and received an ovation. He referred to the money surplus of the Whitney Government and asked if they did not have the right to spend the money as they saw fit when it was for charity and education.

He then took up the power question and told of the success attained. But while they had received support from the Liberals and Conservatives, yet the Liberal leaders were opposed, and the late Ross Government did nothing, although petitioned and deputized on different occasions.

The users of power at Berlin were getting power at \$5 per horsepower, or one half what it would cost under private control.

MEN WHO DON'T EXERCISE Suffer From Indigestion, Headaches, Poor Appetite, Sleeplessness.

Nothing So Sure to "Set Up" a Man, Make Him Feel Brisk and Vigorous as Dr. Hamilton's Pills.

Lack of exercise and overwork were the causes that combined to almost kill Samuel S. Stephens, Jr., one of the best known citizens in Woodstock.

In his concurring letter Dr. Stephens says: "A year ago I returned home after a long trip, completely worn out. I was so badly affected by chronic biliousness, so much overcome by constant headaches, that I could not sleep for more than two hours. My appetite was so feeble that I ate next to nothing, and in consequence lost weight and strength. I was pale and had dark rings under my eyes that made me look like a shadow."

"It was a blessing that I used Dr. Hamilton's Pills. In one week I felt like a new man. The feeling of weight and nausea in my stomach disappeared. My eyes looked brighter, color grew better, and, best of all, I began to enjoy my meals. The dizziness, languor and feeling of depression passed away, and I lost regained my old-time vigor and spirits. To-day I am well thanks to Dr. Hamilton's Pills."

For health, strength, comfort and good spirits there is no medicine like Dr. Hamilton's Pills. Beware of cheap substitutes, and don't let any dealer palm off on you other pills which will be sure to make more money. 25c per box, or five boxes for \$1.00, by mail from The Chattanooga Company, Kingston, Ont.

Wheat Market on Down Grade Big Budget of Bearish News

Week-end Developments in World Situation Not Favorable to Holders—Heavy Increase in Visible Supply.

CHICAGO, Dec. 4.—With the United States visible supply increased more than a million bushels for the week and with Northwest receipts very heavy, wheat owners to-day became discouraged. Closing figures showed a decline of 1-4 to 1-2c net. Corn finished 1-2c, to 7-8c, down, oats off 1-8 to 1-4c, and provisions at a decline of 12 1/2 to 20c.

Holdings of wheat found themselves confronted with the unwelcome announcement that the amount of the cereal in store in this country had reached a point where the total exceeded that of last year by 42,248,000 bushels. What made the situation in this respect appear the more serious was the fact that arrivals at Northwest markets gave no signs of stoppage in the further piling up of stocks. Besides there was favoring weather in the Argentine and that country was credited with making more liberal offerings to Europe.

World Shipments Larger.
World shipments, too, were above weekly requirements. Clearances from this side the heavy seemed to be all Canadian. Taken as a whole developments at no time afforded any degree of comfort to dealers on the bull side. Between the opening and the close may range from 15 1/2 to 100 1/2c, closing steady, but 1-2c down at 1-4c.

In the corn crowd, larger speculators who had previously been inclined to stand for December delivery of the grain were selling out to-day. The movement of the crop was free, despite many complaints of lack of cars and locomotives. The weather map showed conditions decidedly favorable. May fluctuated from 63 1/2 to 64 1/4c, closing steady at 63 1/2 to 7-8c, loss of 1-2 to 1-3c. Cash grades were slow.

Oats Also Weak.
Oats traded as of meagre sort. Values reflected the weakness of corn and wheat. Top and bottom figures touched for the May option proved to be 3-4c to 7-8c and 49 1/2 to, with 1-4c to 1-2c loss.

Hay products suffered a rather sharp break. One of the reasons was that exports for the week were not nearly so large as heretofore. Moreover there was selling pressure of a kind which seemed to indicate packers were hedging output. At the end of the week prices had fallen 25c to 1-2c to 1-2c to 3c and other products 1-2 to 1 1/2c.

Northwest Receipts.
Receipts of wheat in cars at primary centres were as follows: Week Year to date. To-day, Week Ago. Chicago 1,150,000 1,150,000 1,150,000 Duluth 1,150,000 1,150,000 1,150,000 Minneapolis 1,150,000 1,150,000 1,150,000 Winnipeg 1,150,000 1,150,000 1,150,000

European Markets.
The Liverpool market closed 1/2c up 5/8 to 1/2 higher than Saturday on wheat and 1/2c lower on corn. The Argentine was higher on wheat. Prices unchanged to 1/2c lower.

Winnipeg Inspection.
Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 23,000; No. 2 northern, 15,000; No. 3 northern, 15,000; No. 4 northern, 24,000; No. 5 northern, 15,000; No. 6 northern, 15,000; No. 7 northern, 15,000; No. 8 northern, 15,000; No. 9 northern, 15,000; No. 10 northern, 15,000; No. 11 northern, 15,000; No. 12 northern, 15,000; No. 13 northern, 15,000; No. 14 northern, 15,000; No. 15 northern, 15,000; No. 16 northern, 15,000; No. 17 northern, 15,000; No. 18 northern, 15,000; No. 19 northern, 15,000; No. 20 northern, 15,000; No. 21 northern, 15,000; No. 22 northern, 15,000; No. 23 northern, 15,000; No. 24 northern, 15,000; Porcupines Inclined to Sag--Fell Down to New Low Level

Porcupine Stocks Start out Well But Fail to Hold Their Own

Mining Market Runs Into Liquidation on Again and Values Prove Vulnerable--Timak. m. g. Still Going Down.

World Office.
Monday, Dec. 4.
Porcupine stocks made little or no progress to-day at the opening session of the new week, such tendency to improve as was in evidence in the early dealings being entirely wiped out under the liquidating movement which followed.

In some of the usually prominent leaders a decided weakness was in evidence, but this was not general throughout the list, which in the main held its own in fairly good shape.

The feature of the day was another slump in the Cobalt and Timak, which was under renewed pressure from apprehensive shareholders and which dropped 18 points to 43 before the selling was taken care of. This price represented a new level for the stock, the lowest figure at which shares ever sold previously being 12 points higher than to-day's bottom record.

In the big issues prices were more inclined to go lower than during the closing session of last week. Hollinger dropped 10 points at 11:30 and closed bid there. Res was off 12 points at 3:30 at one period, but closed on a small rally, in which about half the loss shown at the three-dollar mark was made up.

Moderate Firmness Shown.

There was no such pronounced tendency to depression as in the case of the other issues, and it was noteworthy that in most instances a fairly substantial undertone was displayed in this section of the list.

Dome Extension in the early dealings sold up a fraction to 1-1/2, but lost more than it had gained during the afternoon when the price sagged off again to 88. Vipond was up to 59 3/4, but closed lower, with 38 the best bid. Crown Chartered held comparatively firm between 54 and 54 1/2 and was one of the bright spots in the list. Preston sold off to 1-1/2, the lowest figure ever reached by the stock, and closed bid there.

Timskaming was the only weak spot in the Cobalt and Timak, but rather clouded outlook concerning the coming annual meeting of the shareholders a renewal of last week's liquidation, did not count as a very great gain. The shares dropped 4 points to 27 to-day and closed bid there.

The market on the whole did not do very well, but it was significant that the general swing was fairly up and in view of the excellent buying in evidence on all declines, it was felt that a recovery was not far distant.

Answers to Correspondents.

Shareholder--We expect to be in receipt of some special information in regard to the Timak, Cobalt, within the next few days, and will publish same as soon as possible.

POLITICS AND PORCUPINE

Politicians by the Car Load Invade Mining Camp.

PORCUPINE, Dec. 1.--(From Our Man Up North.)--A special car, this time occupied by politicians and not men of the mines or business, was sent to the South Porcupine, riding to-day. Hon. W. H. Hearst, R. T. Shillington, M. L. A., for the Timskaming district, Reave G. Deane, for the Timskaming Township; S. Alfred Jones, K.C., and others were in the party. A Conservative meeting was held in South Porcupine Friday evening. Other meetings will also be held through the mining district.

Frank L. Sangster is the Liberal-Labor candidate for this district, Sudbury. Both candidates have been asked to subscribe to a policy of progress for the north. Chas. Fox.

CUTTING NEW ROADS

Time Saved is Money Made in Porcupine Camp.

PORCUPINE, Dec. 1.--(From Our Man Up North.)--The Porcupine Central townsite management, in cutting the road from the south line of the company's holdings to the Dome Extension and Dome Mines this week, completed the link in the Wawaiton Falls sleigh road, and now traffic passes into that section over the new line. The new route, in going to the Dome Mines alone, cuts off nearly a half of travel.

In connection with the cutting of this line, the Pottsville residents and stage drivers have opened the old Pottsville to-day road to South Porcupine, and now the drive from Pottsville to South Porcupine and the Dome section is shortened more than a mile and a half.

Gradually as business demands it, better and shorter routes are being connected up, so that soon there will be no spot in the district that cannot be reached handily from any one of the three towns. Chas. Fox.

MAY BUY ROCHE LOTS.

PORCUPINE, Dec. 1.--(From Our Man Up North.)--The party of engineers representing capitalists, went over the Roche lots that lie to the east of Three Nations Lake to-day. Leads with free gold were located before the snow fell. A large sum is being asked for the property. Chas. Fox.

PELLATT ACQUIRES PROPERTY.

CORAL, Dec. 4.--Sir Henry Pellatt of Toronto has secured a three months' working option on the silver claim of the Dominion Silver Mines, Limited, situated at North Cobalt. The claim has so far been unworked, with the exception of a little surface work. It is stated that when work underground begins from the shaft that is already down 20 feet, three and possibly four drills will be started. It is the intention of the company to drive in three directions as well as to continue sinking.

A PROPER MINE IS THE DOME EXTENSION PROFIT BY BREAK

Interesting Notes on Spectacular Showings at the Property--Broker Discusses Prospects.

A special circular on Dome Extension, which is being sent out by "Playfair, Martens & Co., contains some interesting notes made by Mr. A. C. Turner, who was recently in the Porcupine camp on inspection, and who paid special attention to the Dome Extension property.

After seeing the Dome and some of its remarkable showings of ore, I went over to the Dome Extension and met Capt. Anchor, the engineer in charge, who gave me an opportunity to see his camp and the operations that are being carried on.

The buildings are of the same plan as those of the Dome, being constructed of brick and cement; they are lighted by electricity and steam-heated. The plant is planned and suited for the full development of the property. Existing machinery can drive the various shafts down 600 feet, and with a trifling expense in making a change in the hoisting machinery, existing machinery will be able to drive the various shafts down one thousand feet.

Prospecting done last spring and previously uncovered several important veins and the fire having burnt off the thick bush, several more were disclosed, until now there are twelve different veins exposed in different sections of the property. Rich ore is in evidence in various places, as one can readily see. The writer was at the place in the vein where considerable rock was blown out the previous week, and brought down several chunks of ore which were literally speckled with native gold.

In what is known as the Goddess shaft on the claim, rich ore can also be seen. Here a shaft is down about 20 feet and across a 3-foot vein samplings show the richest ore. There is also a 16-inch vein on the south-east claim which has sampled 358 to the ton.

On the Little Dome, there are many places where rich ore can be seen on the surface. These showings, however, taken by the management to be just what they are worth, they show that these values exist at these particular places on the property.

What Capt. Anchor is aiming for is the opening up of large quantities of payable milling ore. At the end in view he is sinking a shaft some 40 feet south of the main vein, which runs east and west. This shaft was driven 150 1/2 feet when I left the camp on Nov. 13, and is being steadily driven down to the 200-foot level with day and night shifts. After that depth is reached the shaft will be cut out to the crosscut, which is north to cut the main vein, which is about 32 feet wide.

On the surface 15 feet of this vein has been sampled several times and has shown values running from \$20 to \$25 to the ton. The remaining 17 feet of ore composed of a mixture of millable quartz on the surface, but even including all the schist, it is payable milling ore.

After cutting the main vein it is the intention of the management to drive the crosscut further to the north to intersect two other veins which pan gold freely on the surface. A drift will be run on the top of the vein, the Little Dome and westward toward the Big Dome.

Another shaft is being sunk on the north-east corner of a triangle, bounded by this shaft, the main shaft and the Little Dome. This comprises a heavily mineralized zone, and it is expected that a large quantity of millable ore will be in the near future. The second shaft referred to is now down about 50 feet.

At the time of the fire a shaft was being sunk on the big sulphide vein, and was down 50 feet when the concentration stopped the work. Capt. Anchor considers this vein of much importance and intends to open it up at the earliest opportunity.

Another important vein is known as the "Schist." It is eight feet wide and pans gold across its entire width. It is considered very important, and no doubt as soon as possible operations will be undertaken to open it up.

One Dome Extension property is composed of five of the richest veins of what is known as the Big Dome staking. The other six claims compose the property of the Dome Mines Company. The two properties lie side by side.

DOBIE PLANT IN ORDER

And Development Work is Again Aggressively Under Way.

PORCUPINE, Dec. 1.--(From Our Man Up North.)--Steam is turned on at the mill with the installing of the nine ton boiler and work has been resumed in the No. 2 shaft, which is being driven below the 75-foot depth.

In summing up the deep shafts, omission was made of the 100-foot shaft at the Dobie. This was put down last summer, and owing to the frequency with which water came in during the rainy season, the shaft was left freezing time.

Underground work with double force has now started. Chas. Fox.

Copper Co. Cuts Dividend.

NEW YORK, Dec. 4.--Copper Range declared a quarterly dividend of 30 cents per share. Three months ago the dividend was 75 cents, and a year ago \$1.

Ben Parson, chief editor of the "Playfair," exclaimed the other day to the man who mismanages the newspapers, "This is a poor story you've passed me."

"I'd just said the chief editor," "Well, listen to this as an example of the writer's error," he says, "I was 'puzzled to death' 'Now, I ask you, how could a man be puzzled to death?'"
