The court dismissed the appeal. Mr. Waldron may again apply on new material obtained to a single court judge. If this was done and an appeal taken the court would give a prompt hearing.

Davis v. Moss, Mr. Justice Latchford. Judgment as to the land and premises known as 3 Colina avenue and 80 Eastern avenue. Application under the Vendors and Purchasers Act for an order determining the validity of the objections to title made on behalf of the respondent purchaser, and declaring what further evidence if any as to title the vendor is required to produce. The buildings on one of the parcels agreed to be conveyed by Mrs. Davis to be conveyed by the north cove of the cottage on the lands, and not the stable on the front of the property.

encroaches on Eastern avenue, a public highway. "I" is contended on behalf of Mrs. Davis that it is the land itself, and not the buildings which constitutes the chief element of value, and that the stable can be moved as a small cove, about \$40. It is entirely clear that the applicant failed to make a good title to the lands within the time limited in the agreement between the parties even as extended by the solicitor for the respondent. I am quite unable to find that the land itself is the main factor of value, and that the respondent is bound to accept the property subject to such abatement as I deem proper. It is unnecessary to cite cases.

The application is dismissed with costs. Superior Copper Co. v. Perry & Sutton, Mr. Justice Rose. An appeal by Defendant Sutton from an order of the master in chambers dismissing a motion to set aside the service of notice of the writ of summons on him out of Ontario. Judgment: I think the leave ought to be given in this particular case. The costs will be costs to the plaintiffs in the cause, unless the trial judge otherwise orders.

A lower death rate at the military base hospital than any other hospital on the continent was the claim made yesterday by Lieut.-Col. Carter, medical services department, Toronto military headquarters, yesterday. "It is a very decent hospital," he said, "if the newspapers would only mind their own business." He claimed it was a palace compared to the Moscop Hotel, which Toronto had intended but did not use as a civilian hospital. For the week ending Oct. 25, the medical services department states, there was in the Toronto district military hospitals an equipment of 4251 beds, 2694 with patients and 1557 empty beds. Col. Carter said the base hospital was only overtaxed with patients from Oct. 3 to Oct. 8.

AN ARMY WORKING UNDERGROUND.

The construction of Mount Royal tunnel at Montreal required the services of an army underground for many months. The work has been completed and the tunnel was placed in operation on Oct. 21, on which date the Canadian Northern Railway established through train service between Toronto Union Station, Ottawa Central Station and Montreal Tunnel Terminal, 415 LaSalle street west, two blocks from the Windsor Hotel, Windsor and Bonaventure Stations. Toronto Men Among Those Mentioned in the Casualty List.

Flight Lieut. A. R. McCallum, who trained in Toronto with the 85th Squadron, R.A.F., is reported killed in an airplane accident in England. His burial took place at Andover, Hampshire, with full military honors. He leaves a widow and two small sons, residing in Vancouver. Capt. Anthony Randie, Royal Naval Reserve, died at the military base hospital from influenza. He was to have taken over command of the Asp, a boat built by the Polson Company, and which is to be used in the government service. The body is being shipped today to England for burial. Company Sergt.-Major Wm. Groves is reported missing since Oct. 14, according to a message just received by his wife, who resides at 45 Cummings street. He went overseas three years ago with the 55th Battalion, and has been nearly three years at the front. Gunner Chas. W. D. Mooney, re-

ported to have died of wounds, went overseas in 1917 with the 67th University Battery. Prior to enlistment he attended Victoria College. His mother, Mrs. S. W. Mooney, resides at 16 Biggar avenue. Sergt. Peter Clarke, 881 East Queen street, twice reported wounded, is now reported as killed in action. He went overseas in 1915 with the 55th Battalion. His wife and child survive. The parents of Pte. Oswald Darling, 385 Palmerston boulevard, have received word that their son, previously reported missing, was killed in action. Pte. Darling was a graduate of Port Hope School, and had attended the School of Practical Science. His father, rector of the Church of St. Mary Magdalene, has another son, Pte. A statement issued yesterday afternoon by Col. L. E. W. Irving, D.S.O., A.D.M.S., Toronto, shows that between Sept. 23 and Oct. 25 there was a general death rate from influenza and pneumonia of 3.9 at the Base (Military) Hospital, as compared with a death rate of 4.4 in the other hospitals. The pneumonia rate at the base was higher, however, 32.4, as compared with 27.8 in other hospitals. The figures for the period mentioned were as follows:

INFLUENZA HAMPERS WORK ON THE FARMS

Reports to Department of Agriculture Says Sales Poorly Attended.

The following is a summary of reports made by agricultural representatives to the Ontario Department of Agriculture:

The prevalence of influenza has somewhat hampered farm operations, despite the remarkably open weather of the last couple of weeks.

Cattle have continued to improve on the unusually good October pasture. Beef animals have been going off rather slowly, but dairy cows are in good demand at from \$100 to \$200.

The marketing of hogs has been about normal, prices ranging at from \$17.25 to \$18 a cwt. Young pigs are selling at from \$6.50 to \$8 according to size.

At a sale of pure-bred Shropshire in Victoria County last week twelve two-year ewes averaged \$37.

Reports concerning the young fall wheat are on the whole encouraging, more especially in the case of that planted early.

Potatoes vary in price from \$1.50 to \$2.25 a bag. The Port Arthur representative states that seed potatoes raised in that district are finding a good market in the east at prices which are satisfactory to the producer.

Roots are being taken up under most favorable weather conditions. Sugar beets on the whole have given much satisfaction to growers.

Considerable oats are being marketed at from 75c to 75c per bushel. Hay is selling at \$18 to \$20 a ton, and is now being carefully husbanded.

Norfolk reports another car of flax loading for shipment to Ireland. Most of the silos are well filled, with a little extra corn for cutting on hand.

Some farmers are using tractor power to assist in this work.

Prof. Mulveney Answers 'Phone

"Hello, is Prof. Mulveney there?" "Yes, speaking." "I just wanted to know if your remedy called B'Well was good for a bad cold?" "Yes, it is excellent, also a splendid preventative. B'Well has restored people to health that were being treated for consumption—people who were coughing their lives away. It has cured people who spent hundreds of dollars doctoring for Bad Coughs. Remember, I do not advertise it as a consumption cure, but it's worth trying. It has done wonders, and we can only expect it to do good for others. B'Well is excellent for Rheumatism. B'Well is a wonderful Blood Purifier, Stomach, Liver and Kidney Medicine, a wonderful Nerve Tonic, a great rejuvenator. It revives the faint, the weak makes strong, and the old feel young again. Yes, B'Well is the medicine you need. Sold only at 211 Ossington avenue, Toronto, Ont. Do not delay. Come. Delays are dangerous.

B'Well and Rheumatoid Surely Saved My Life

October 10th, 1918. I received a telephone call from Mr. Borrowman on October 10th. He had just read by advertisement in The Evening Telegram, and he wanted to know if I was open. It was 10 p.m. I told him I would be open for about half an hour yet. He arrived in about fifteen minutes, and this is the conversation that took place. He said: "Well, I was reading your ad. in The Telegram tonight, and I thought, well, lots of people will doubt the truth of it. I can say it's surely all true, your B'Well and Rheumatoid will stop a cough, and I thought as I read your ad, well, I am one of the people who were coughing themselves to death you mentioned, and I am sure your medicines saved my life. I had a very bad cold for some weeks. It settled on my bronchial tubes and was much like asthma. I lost my voice and was coughing and wheezing and nearly dead when I called on you and got your B'Well and Rheumatoid. It surely saved my life. I was in awful misery. I could hardly breathe, my breath was so short I could hardly walk. I have come here tonight for another bottle of B'Well, \$1.25, Rheumatoid, 25c.

"B'Well and Rheumatoid are all right. You can use my name if you like. I am only too glad to recommend medicines that save life." Mr. B. Borrowman lives at 22 Argyle street, Toronto, Ont.

CHARLES M. OSBORNE DIES OF INFLUENZA

Charles M. Osborne, a well-known citizen of Newmarket, 32 years of age, died yesterday from Spanish influenza followed by pleuro-pneumonia. Just one week ago yesterday Mrs. Osborne died from the same disease, leaving an infant child two weeks old. Mr. Osborne was a member of the firm of R. Osborne & Sons, plumbers, and lived in Newmarket for a long time.

Owing to the stringent measures adopted by the M.H.O., the disease is gradually dying out, and it is believed that another week will see the town clear of the epidemic.

Steady improvement in the influenza situation in the Toronto military district is reported for the last two days by Col. L. E. W. Irving, D.S.O., chief military medical officer. Four deaths occurred among the soldiers during the past 24 hours. Two of them occurred at the Military Base Hospital.

Nurse Breaks Down. Mrs. E. Roworth, Shudell avenue, who has been working continuously for some time in supplying necessities and nursing influenza cases, has sustained a nervous breakdown and has been compelled to give up active work.

YORK SCHOOLS OPEN. Unless notice is issued to the contrary by the M.O.H., Torrens avenue and Don Mills road schools, in York Township, will reopen on Tuesday next, Nov. 5.

Slight Improvement in St. Thomas "Flu". St. Thomas, Oct. 29.—At a special meeting of the St. Thomas board of health this morning, it was reported there was a slight improvement in the situation as regards the influenza epidemic. As there are still many cases of the disease, it was decided to accept the offer of the Y.M.C.A. of their gymnasium, which will be taken over and equipped temporarily for "flu" patients.

Guelph Doctors Think That Peak is Passed. Guelph, Oct. 29.—It is the opinion of the doctors of Guelph that the influenza epidemic has passed the peak. During the last 24 hours several more deaths were reported in the city, two of whom were Italians.

The death occurred at the General Hospital shortly before one o'clock. During the last 24 hours several more deaths were reported in the city, two of whom were Italians.

Woodstock Outlook Brighter. Woodstock, Oct. 29.—Only a few new cases of influenza were reported today. The situation is so bright here that it is altogether likely that the board of health, when they meet on Thursday, will lift the ban, and that the schools, theatres and other places will reopen not later than next Monday.

Little Change at Brantford. Brantford, Oct. 29.—There was little change in the Spanish influenza situation in the city today. There were eight deaths reported over night, and about the same number of new cases were reported today. A J. Robertson, a well known fraternal society man died at one o'clock today from pneumonia.

Seven Deaths at Edmonton. Edmonton, Alta., Oct. 29.—There is no abatement in the influenza epidemic here. Seven more deaths are reported tonight, making a total of 42.

Decreasing in Vancouver. Vancouver, B.C., Oct. 29.—Decrease in influenza cases and decreases in mortality was reported here by medical health officers today. The situation is still regarded as serious, but it is expected to lessen from day to day.

DEATH RATE DROPS, "FLU" ON DECLINE

Health Authorities Report the Epidemic Has Now Been Checked.

The local medical health department continues to report steady improvement in the "flu" outbreak. The peak of the epidemic has been reached and passed, and each day's returns show a marked falling off in the number of cases in hospitals and private homes.

Yesterday at the city clerk's office 45 deaths from "flu" were reported, and 18 from pneumonia, a total of 63, which shows a considerable falling off.

The following shows the death record from October 1st to date: Deaths reported in city yesterday: From Spanish influenza 18 From pneumonia 45 Total deaths so far this month in the city 1274

Help Still Needed. Bed screens, bed linen and volunteer nurses are urgently called for by the Women's Patriotic League for those still afflicted with the "flu". The sum of \$200 is required by the Neighborhood Workers' Association to meet the needs of influenza homes. Warm clothing for homes in which there is little or no fuel will be wanted for some time.

THOUSAND CITIZENS GREET VETERANS

Returned Soldiers Arrived at North Toronto Station Last Night.

One hundred and fifty-seven returned invalided soldiers arrived home from overseas service last night. About a thousand citizens were at North Toronto station to meet the contingent of war veterans. The soldiers' train arrived exactly at 11 o'clock, the announced hour.

The returned men said their journey back to Canada had been an uneventful, but satisfactory one. They made fairly good time, crossing the Atlantic in 10 days. There was no delay at the North Toronto station. Practically all the Toronto city men were homeward bound in motor cars provided by the Citizens' Voluntary Aid Association within 15 minutes of the train's arrival.

Prior to reaching Toronto 187 soldiers were in the contingent, but 30 men for western points were detained at the Whitty Military Hospital. Of the 157 reaching Toronto, 13 were amputation cases and 12 others "cot" cases.

Twenty of the returned men were for points just west of Toronto, including 14 for Hamilton. These left for their home towns at 11.45 p.m. from the Union Station.

Those at North Toronto to greet the war veterans included Major-General Logie, Capt. Mills, aide; Major-Canon H. C. Dixon, Major N. P. Kelley, Col. G. A. Dodge, Lieut. "Bob" Dibble, Lt.

Since He Commenced to Take "Fruit-a-lives."

Three years ago, I began to feel run-down and tired, and suffered very much from liver and kidney trouble. Having read of "Fruit-a-lives," I thought I would try them. The result was surprising.

I have not had an hour's sickness since I commenced using "Fruit-a-lives," and I know now what I have not known for a good many years—that is the blessing of a healthy body and clear thinking brain."

London Situation Improved. London, Ont., Oct. 29.—Fewer cases of influenza are reported here today, and less difficulty is being experienced in getting nurses. At Victoria Hospital there were seven new patients admitted and two deaths, and at St. Joseph's Hospital four patients were admitted, while no deaths occurred. The situation appears better.

Fell From Wagon. When he fell from the wagon he was driving on West Dundas street yesterday afternoon, William Clarke (59), 121 John street, was severely injured about the back. He was removed in the police ambulance to St. Michael's Hospital.

HAMILTON CONTINUES BAN ON GATHERINGS

Will Be Maintained Until the Epidemic Shows Signs of Abatement, Says M.O.H.

Hamilton, Oct. 29.—Until the situation in regard to the "flu" shows improvement, the ban on theatres, schools, churches and all meetings, both indoors and open, will not be lifted, Dr. James Roberts, medical health officer, informed The World tonight. The epidemic had not commenced to decrease, and the ban would continue in force until the peak had been safely passed, he declared.

Dr. Roberts stated that since the epidemic broke out the deaths had numbered about 125, but that a great many deaths attributed to the "flu" were due to other causes. Pneumonia had caused 29 deaths since the first case of "flu" was reported.

The chief difficulty that the health department now has to contend with is the number of applications for admission to the various hospitals, but owing to the present overcrowding and the shortage of nurses, a great many of these cases have been refused admission for the present. This situation is one that only time will alleviate, and, in the meantime, the health authorities are working strenuously to better the conditions.

That the city and radial lines are being hard hit as a result of the ban is evident from the announcement today of E. P. Coleman, general manager of the D. P. & T., that during the past month car earnings had dropped 42-50 per cent.

The Toronto World

FOUNDED 1890. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

About the Hospitals.

It ought to be recognized that the unseemly squabbling about the military hospitals is confined to certain limits. Only one man forgot himself so far as to speak of the conduct of the newspapers as "dirty, stinking, infamous, putrid."

A great deal more can sometimes be done than by raging in the newspapers, but we are ready to grant that the military hospital accommodation in Toronto is such as to goad uncontrolled natures to rage.

As far as The World can discover, the chief blame lies with the higher-ups. Just at what altitude the blame should be most heavily imposed we cannot undertake to say, but there is a very wide-spread sense of deficiency among the juniors in charge of hospital work in the city.

We believe one of the difficulties arises out of a weakness of human nature which besets certain individuals when they get into uniform. They seem to think that all things must suffer a sea-change when they put off civies. It is barely possible that such individuals are as offensive, as tactless, as underhanded in civies as in uniform.

The real difficulty arises from the fact that men afflicted in this way are found to be the practical arbiters of such situations as the hospital mess in Toronto. Recommendations may be made, proposals sent forward, plans formulated, and submitted for approval, but these "little brief authorities" cannot be persuaded to accept them, nor to devise plans of their own.

The newspaper world may be dirty, stinking, infamous and putrid, but it usually endeavors to get at the facts, and to act upon them. This is a faculty for which the higher-ups are not distinguished.

Why this is so is explained by some as due to the way in which higher-up appointments are made. There is undoubtedly an element of influence or "pull" about them. They are not chosen for efficiency and merit alone. They are not men who know their work, and insist on having those things done which are necessary. They think more of making it easier for their superiors than for the patients who come under their system for treatment.

The hospital business is, and has been from the start a disgrace to the Dominion. It has been conducted without vision, originality, public spirit, or humane purpose. It has resulted in the disorganization to a large extent of the Toronto school system in a wretched makeshift attempt to escape responsibility.

An Early Surrender.

In her efforts to make peace Germany is now reaping the harvest of the crop she has sown for fifty years past, and developed by intensive cultivation in the last four or five years. She has sown the wind of lies, and is reaping the whirlwind of defeat.

The acceptance of the allied terms will settle at once whether the government of Germany is independent of the militarist party and the Kaiser. The refusal of the terms will be the signal for revolution: The German people and leading German statesmen know that Germany is beaten. A beaten foe according to German codes, has no option but absolute surrender. Germany cannot expect any other

terms. Any delay in accepting Marshal Foch's terms could only result from the inertia of the Kaiser and his party. Such delay would not be in the interest, nor according to the will of a defeated, suffering and starving people. We know that Germany realizes her own defeat, because out of that in the first place came her determination to negotiate with President Wilson. Of course, this was meant to create division between the entente alliance and the United States. But President Wilson has been loyal to the common cause, and the only effect of the stratagem, if such it was, has been to prove to the German people the shiftiness of their leaders. The German people now know that if they want peace they must make it.

This is a great stride to have made since last April. Germany not only knows but acknowledges her defeat. She knows she must pay the price, but fears it may be extortionate. Justice is never extortionate, and Germany will have cold justice. A deputation from Germany has gone to the Vatican to seek the influence wielded there to be used to prevent Germany from being destroyed. The real Germany has been destroyed for generations by the German army and navy. Germany will be healthier, saner, stronger and richer without her army and navy than with it. The entente alliance has no intention of destroying Germany, but will insist on the eradication of Prussian militarism and Prussian autocracy. The people of Germany outside Prussia and many inside Prussia have no objection to this.

Austria and Turkey are practically out of the war. A bold front is being made with the object of getting better terms, but the people care nothing for terms. They want peace. If the military authorities insist on carrying on the war it will be in the midst of domestic revolution. We look for an early surrender on whatever conditions Marshal Foch stipulates.

An Astronomer of Note.

Mr. Andrew Elvins, who has just died in his 96th year, although little known in Toronto, was an international figure, and highly regarded in the astronomical circles which he frequented locally. His long age was devoted to scientific attainment, and the a layman, much occupied in his ordinary business, thru his avocation he became known on both sides of the Atlantic. From the age of 14 he was devoted to astronomical and geological studies.

It was in 1890 that Mr. Elvins in correspondence with George E. Hale of Chicago University, Edward S. Holden, LL.D., director of the Lick telescope, and Prof. E. E. Barnard, also of the Lick Observatory, typified the discovery of the fifth satellite of Jupiter, indicating the point at which it might be located with a more powerful instrument than he had at his disposal. Accordingly when the Lick telescope was brought to bear on the spot the fifth satellite was found. Mr. Elvins also predicted the discovery of several other satellites of the giant planet. Mrs. Anna Bonus Kingsford, author of "Clothed With the Sun," had stated in 1881 that there were nine satellites altogether, and this has since been shown to be correct, but Mr. Elvins was unaware of this statement in 1890.

AIM TO EXTEND EXPORT TRADE

Manufacturers, Reconstruction Association and Labor Confer With Government.

Ottawa, Oct. 29.—Measures to meet after-the-war conditions were urged on the government today by a delegation representing the Canadian Manufacturers' Association, the Canadian Industrial Reconstruction Association and the Toronto Trades and Labor Council. The particular point under discussion was the creation of an export committee to co-operate with the government on measures for the extension of Canadian export trade when peace is concluded. With the cessation of munition work it was pointed out, new fields of industry must be opened up to take its place. The outcome of the conference was a decision to have the whole problem taken by a committee representing the manufacturers, agriculturists and organized labor, together with the government. It is intended that arrangements will be made at an early date for the getting-together of these several interests and the formation of an organization qualified to enter into the matter on an efficient basis. In the carrying out of this scheme there will be co-operation with the reconstruction committee of the cabinet.

An Early Surrender.

In her efforts to make peace Germany is now reaping the harvest of the crop she has sown for fifty years past, and developed by intensive cultivation in the last four or five years. She has sown the wind of lies, and is reaping the whirlwind of defeat.

The acceptance of the allied terms will settle at once whether the government of Germany is independent of the militarist party and the Kaiser. The refusal of the terms will be the signal for revolution: The German people and leading German statesmen know that Germany is beaten. A beaten foe according to German codes, has no option but absolute surrender. Germany cannot expect any other

Brian Tells Ruth He is Going to Learn Typewriting.

CHAPTER LXXXV. When Ruth was busy with her interesting, well-paid work, who was happily forgetful of many things that, when she was idle, came home to her with a rush.

"I should think they might let you take it easy for a while, and then he had said when she leaned back in the taxi with a sigh of content, at being with him.

"Oh, I'm not so tired! That was a happy sigh," she smiled lovingly at him. "I have a surprise for you."

"What is it?" She was all interest at once. "Your lazy husband is learning typing. I am going to type my own letters after this."

"Oh, Brian! how nice," then quickly she added: "Not because of what you will save alone, but because you will save so much more independent."

"Yes, that's why I am learning. Of course, I shall have to leave you alone; but I shall only be gone a week. I have to go evenings, of course."

"For a moment Ruth's heart sank. Then she smiled. "Here I have been urging him to go to more, and the first thing he proposes I want to object, so she smiled and said: 'I shall miss you awfully, but of course I know you can't learn sitting home with me. You won't be very late at the school, will you?'"

"Not very! Probably ten or half past six. She had mentioned the 'school' not he, but he took no pains to set her right. "I'll try to be contented."

"You should be! Here you have been gone over a week, and I have not kicked!" Then he wished he hadn't spoken. "What if she asked if he had been alone all the evenings she had been away? 'I hope Rachel will have something good! I expect you are fed up on hotel grub. They were on danger on ground, so he changed the subject.

"Indeed I am! One of Rachel's dinners will taste awfully good. I hope she gave you nice things while I was away."

Brian was saved the necessity of replying by the last stopping at the door. He must tell Ruth he had not been home, before she had time to question Rachel. But first he must say to the man and take her bags in for her.

After Rachel had been hugged and kissed and told gleefully: "You just wait, my money Rachel, until you see what I have brought you!" Brian followed her into the bedroom, where she laid off her things, and said quickly: "I shall enjoy one of Rachel's dinners too. Because of the typewriting lessons, I haven't been home to dinner except the first night. I should like to get along as far as I could while you were away."

"That was right; you weren't lonely then. No wonder you said you almost forgot me, if you didn't come home at all." As she replied, Ruth wondered where he DID dine, and a picture of Mollie King flashed across her mind. But she would ask no questions, say nothing to spoil their evening together.

"The got hot-chen mar-land, honey," Rachel announced, when she called them to come to dinner, "an' co'n fritters, an'—"

"Don't tell me any more, Rachel," Ruth said. "Keep the rest for a surprise." Then in an aside to Brian: "I expect she has tired herself out getting a big dinner for us."

"Deed I ain't tired, Missy Ruth! I ain't had nothing to do since you been gone. I ain't no dinner to cook, an' it has been terrible lonesome for ole Rachel."

"Thank goodness I told her I had been out," Brian thought as he saw Rachel disappear into the kitchen. "I knew she'd tell."

"Poor Rachel," Ruth laughed. "I expect she thinks you should have stayed at home and entertained her instead of learning to typewrite. I imagine it WAS lonely for her."

"I told you she would be out of place in a New York flat," Brian replied, rather glad to have what he had told Ruth confirmed, "she'll be leaving you, then you will have a

IDA AND THE BASE Hospital Charges

BY IDA L. WEBSTER.

Finally it has been proven beyond all shadow of a doubt that the ordinary civilian is not the right person to make a high official in the army.

The ordinary person flapping into such a job, either thru ability or pull, affects so much of the unnecessary swank which the uniform seems to infer some mortals with that he is almost unbearable among real honest-to-goodness folks. In the first place some of them get the idea that they are being muzzled, no matter how very much they may upset Major-General Fotheringham and his colleagues.

And, after all is said and done, just who is this major-general who has come into this community with the firm idea, or perhaps intention, of turning the whole place into a school of which he will be the only teacher? Can it be possible that there are still men in the world who have such antiquated notions that they believe that they can keep the free citizen from voicing his views? Just because we are in the throes of a world war and officers have had to be made out of night is not just cause or reason for these same officials believing that they are almighty.

When there is smoke there must be some fire. There is, therefore, cause for the charges which have been laid against the Base Hospital, and why is it necessary for all the gold-banded officers in Ottawa to clamor up here with a lot of unfounded and insulting remarks, directed not only against the press but the soldiers who are unfortunate enough to come under their jurisdiction? If Major-General Fotheringham and the other half-dozen dukes or kings whom he has along with him know anything at all about medicine, or for that matter, if they know the faintest thing about running an army, they must admit that the old General Hospital is not the proper place for men who are suffering with Spanish influenza—or hay fever, either.

It's only a bit of the blarney. From me native land. Oh dear.

To the Greeks of Toronto

The Greek Committee of the Victory Loan expects the Greeks of Toronto to do their duty and buy as many Victory Bonds as possible.

From the patriotic point of view we expect every Greek to help the Country in which we make our living. Helping Canada you help our own native Country. Lending money to Canada is just the same as if you buy the wheat and munition supplies for Greece.

From a business point of view there is no better way to invest your money. Let the Canadian Government look after your savings.

We will shortly visit you.

In due time he dies, and you ask to have an investigation. The city starts one in all faith, and right there the military authorities step in and almost demand that you mind your own respective businesses!

If you refuse to be silenced, then you are accused of spreading a lot of lies, and the boys who write their experiences of the same place, thus carrying out your accusation, are called liars of the worst type. As for the press, it is threatened with being "shut up."

All this because two or three, or probably more, officers in the employ of His Majesty the King are not equal to holding their positions.

Major-General Fotheringham did his best to impress the gathering at the morgue the other night with the fact that he was their superior in every way. He almost burst a blood vessel when he was told that the Base Hospital was a menace to the health of the army, or that part of it which is in Toronto. He pleaded with all the stage gestures of a Henry Irving for the press to stop breaking the faith which the public had in him and his staff. Incidentally, we might say that there were numbers of folks present who were quite unaware that the public had any faith in his medical ability, in fact, he is what is commonly called an unknown quantity.

And after all it all simmers down to just this: "New blood is needed in the Canadian branch of the army of the allies, and the sooner that this most mysterious

CAN SEIZE HARD COAL

IN PUBLIC BUILDINGS

In a statement issued by the provincial fuel controller yesterday, it is not Toronto, but the outside places which are confronted with an emergency this winter; that is, despite the fact that 12,000 are reported being without coal.

To cope with the situation, orders-in-council have been secured, putting anthracite in public buildings at the disposal of local fuel controllers and thus made available for domestic use.

Efforts are also being made to secure a large quantity of coal for emergency purposes to be distributed through the province where it can be quickly drawn upon.

The churches have been asked to take the leadership in fuel conservation and are working out plans to this end, while a survey of theatres and moving picture houses is being made to ascertain what saving can be effected there.

The controller further announced that if directions which they will shortly issue are followed out by domestic users of coal, there will be sufficient to last the winter out.

MISS CLARA CAMPBELL

DIES QUITE SUDDENLY

The death on Monday at Lyndhurst Hospital of Miss Clara Campbell, assistant superintendent of that institution, came as a great shock to the members of the profession and scores of warm personal friends throughout the city and country.

A few days ago Miss Campbell was stricken with pneumonia, and although everything possible was done all efforts were unavailing. She was a daughter of Mr. and Mrs. George Campbell of Guelph. The remains were taken to Guelph, and interment will take place there today at the home of her parents.

Late W. McD. McWilliams

Was Buried Yesterday

The funeral took place yesterday afternoon from the residence of Hon. A. Claude Macdonell of William McWilliams, youngest son of the late W. G. McWilliams, for many years solicitor for the City of Toronto.

Rev. Canon Plummer took the service at the house and also at St. James' Cemetery, where the family burying ground is situated. The flowers from relations and friends were beautiful. The pallbearers were James G. Macdonell, J. B. Clarke, K.C., James E. Robertson and Samuel Marks. Lieut. James D. McWilliams and Miss Isabel McWilliams are also overseas service, and were unable to be present at their brother's funeral.

REQUIRED TO WAIT FOR THEIR MONEY

Labor Representatives on Royal Commission Are Not Paid Yet.

JUVENILE COURT AGAIN

Ald. Nesbitt Declares It Should Be Closed Up.

The two labor representatives on the royal commission which heard the recent grievances of the civic employees will have to further wait for the \$210 for their services in connection with the proceedings.

The chief of the fire brigade was instructed to submit a list of officers of the department, in order of seniority of service, showing name and date of appointment date of promotion, position held by appointment one year prior to and at present.

The city solicitor advised the board against joining other municipalities in fighting the proposed increase in telephone rates and his advice was acted upon.

A former employe of the waterworks department, Fred Elliot, 46 McGehe street, complained to the board that men had been employed in the department who had uttered disloyal remarks and refused to contribute to patriotic funds.

Commissioner Harris said he had heard nothing about it but will investigate it. He said he would not work with such men.

Leased Swimming Baths.

The parks and exhibition committee yesterday afternoon recommended to lease the swimming bath privileges at Ward's Island and Hanlan's Point for two years at \$500 a year to J. J. B. Atkinson. He has undertaken to spend \$2400 in improvements.

Authority was granted to the head of the department to transplant evergreen trees on private property to the boulevards or other designated places.

The recommendation to purchase the property at the east end of Geneva avenue, at \$50, and add it to Riverdale Park, was left over to find the committee time to make an inspection.

Children's Court Again.

Ald. Russell paid his respects to the juvenile court yesterday as a result of what occurred there when a woman fainted. It will probably again be brought in the limelight.

"It should be shut up," he said. "It is a disgrace and an outrage to the City of Toronto, and I am going to take the matter up. There were about 25 women in there this morning, nearly all of whom had children in their arms. It is absolutely intolerable that such things can be allowed to exist."

THURSDAY SET ASIDE FOR FISH FESTIVAL

Government Invites Public to Special Diet, and Good Supply is Arranged for.

Thursday is to be celebrated through the Dominion in a novel and patriotic way; it is to be a fish festival, every-where invited by the government to eat fish on that day.

In preparation for this great call which is sure to be sent out to the stores and to the market for the products of the fishy deep, there are now 500,000 pounds of fish in Toronto to satisfy the national appetite.

This is a returned soldier, he is appointed to take cadet instruction in schools in which there is no suitable man on the staff to take this work.

Among such schools are Huron Street, Gramercy, Givens Street, Frankland, Park, McCaul, Wellesley and Church Street.

The annual grant paid by the militia department on this account is \$50.00 per cadet corps.

In order that the inspectors may render more efficient services to the schools, they respectfully request the management committee to furnish them with secretarial assistance.

In the case of county inspectors, secretarial assistance is provided by statute.

NO SENIOR RUGBY ON DAY BAN IS LIFTED

Senior O.R.F.U. Series Resumes Week Later — Split the Junior Schedule.

The senior O.R.F.U. series will be unable to take advantage of the lifting of the M.O.H.'s ban on sport on Saturday. Secretary Hewitson was in hopes of getting under way and making up for lost time, but found it impossible. Beaches were the only team ready to go ahead. The Machine Gun Co. team, under the leadership of Lieut. Harry Fleming, are still confined to barracks owing to the epidemic and have been unable to practice. The ban at the camp still holds good and there is no sign of it being lifted.

The Dental College does not open until Tuesday, and nearly all the Dental players are still out of town. This means that a start will not be made until a week from Saturday. Nobody Exhibiting camp, and if it is not soon Exhibiting camp, and if it is not soon taken of the Machine Gun Corps will have to be counted out.

At the present time the program is to start again a week from Saturday with Dents playing Beaches. Three games were scheduled, but they are all at Scarborough Beach and split the gates. The second club and University Dents and Machine Gun Company on Nov. 16, and the wind-up on Nov. 23 with Beaches and Machine Gun Company meeting.

The local junior series is also given a shake-up. It was found necessary to split the schedule to get thru in time for the junior series. Three games have been arranged, and University Schools and St. Michaels College agreed to play a sudden death game at Tuesday. Varsity Stadium will likely be the scene of the battle. The winner of this game will then meet Hamilton College in home and home games for the group title, on Nov. 7 and 15.

Officers' Training Corps and Geo. Goulding's senior city team staged an exhibition game at Victoria College grounds last evening. It was late when the teams got under way, and darkness stepped in when the score was a tie, five points each.

Central Y. put up a great argument against the good Muloock Cup team, and O.P.C. got their five points when they grabbed a loose ball and ambled over with a try. Central's five came from bucking over with good effect. The winner of Brown did some great kicking for the soldiers, while Sullivan and Young looked after the booting for Central. Both half lines pulled off some great runs.

Central used the following men: Flying wing, Schatz; halves, Young, Sullivan, Britnell and Snyder; quarter, Hyland; scrummers, Green, Burt, Everest; inside, Canniff; full, middle, Armstrong, Graham; outside, Armstrong, Pelletier.

Central Y. practice this afternoon at Victoria College grounds. The players are asked to turn out in uniform.

The Beaches O.R.F.U. seniors had C. O.P.C. play an exhibition game Saturday at Scarborough. The game was played at 2:45 between Beaches and C.O.P.C. The Beaches practice every evening at 7, and request all players to turn out.

A rearrangement in the officials appointed for Saturday's City League games is necessary, due to the absence of J. J. Tich. Gene Dopp will referee the 12:15 game at Victoria College and half under inter-collegiate and half under inter-university. The referee for the 2:45 game will be J. J. Tich, and will referee the 12:15 game at Victoria College and half under inter-collegiate and half under inter-university.

Jack Lonsberg, who played for Caps on the back division for several seasons, will lift the Beaches-Y.M.C.A. game, while Len Smith will likely act as referee.

The other two games will not require any change in officials.

Geo. Goulding has sent a country-wide clarion call after his mole skin artist, shortly after the ban was placed on Rugby several of his players liked to play, where they had been engaged during the summer. The winner of the Bill Hurch was one of the farmers, and Goulding is anxious for his return.

They will need the strongest squad on as the east enders have been practicing three nights a week throughout a let up on Saturday if they intend to down Beaches. A double-header, C. Club have arranged Saturday. The first game to start at 1:45 between Beaches and C.O.P.C., and the second between Beaches and C.O.P.C. The soldiers have a tidy outfit and had no trouble in their first fast St. Mike fourteen a couple of weeks ago.

BUYS BONDS RUGBY IN LONDON. London, Oct. 29.—In response to a telegram from Secretary Hewitson of the O.R.F.U. urging that a game be played in the junior series at Sarnia, in Saturday. Coach J. J. Syme of the London Collegiate team informed that a head-quarters that it would be impossible to lift. The epidemic has not been played on Saturday, Nov. 3, in Sarnia. Rugby practice disclosed a complete organization. The first game will be played on Saturday, Nov. 3, in Sarnia. LET NO MAN get the idea that the Victory Loan Campaign will be a mere formality.

It's the most deadly-earnest thing in Canada's history.

Those millions of dollars must be raised! **MUST** be!

Men are dying over there! Men are writhing! Men are being blinded, and maimed, and horribly disfigured for life.

They are **OUR** men—they went for us—they came from our province!

We can't fail them now! We can't let them feel our support weakening! We can't desert them for the sake of dollars!

We **MUST** back them. We **MUST** send whatever they need. We **MUST!** We **MUST!**

What difference does it make now how we **LOOK?** Who cares how we live? Until Victory, **NOTHING** matters! **NOTHING!**

Our whole thought, our whole effort, the whole of our resources. All must be concentrated on winning this war. **ALL! ALL!**

U. S. Steel Registers Dividend
Uncertainty—Big Break in
Mexican Petroleum.

New York, Oct. 29.—The trend of today's stock market was downward in the main on a pronounced contraction of dealings, both as to volume of trading and number of issues traded in.

Various reasons were assigned for the change from the activity of the previous session, chief of which were the further calling of bank loans and uncertainty regarding the dividend on U.S. Steel, which proved well founded.

Steel was under the closest scrutiny of some of the action of the directors, its early heaviness contributing largely to the backwardness of the general list.

Announcement of the cut in the steel "extra" dividend from 2 to 2 per cent was not made known until after the close of the market, when the quarterly report, showing earnings of some eight millions under the previous quarter, was also issued.

Mexican Petrol Slumps.
Forecast among the heavy stocks was Mexican Petroleum, which justified its reputation as the most volatile of issues by another break of 18 points, none of which was recovered.

Other oils, tobaccos, equipments and specialties were included among the reactionary issues at declines of two to seven points, but rails, while irregular, developed no heaviness, being sustained by further accumulation of Southern Pacific and coals.

Shipments and metals were relatively firm, with moderate reactions at the end. Sales amounted to 550,000 shares. Bonds were irregular, Liberty issues showing general firmness on increased activity.

DOMESTIC STOCKS
DOME EXTENSION REPEATS
HIGH PRICE OF YEAR—MARKET IS LESS ACTIVE.

Members of the Standard Exchange are playing their part in the Victory Loan drive, and with a number of brokers absent from the floor yesterday, there was a natural tendency toward a lessening of activity.

The rather sharp decline in total transactions which yesterday ran to only 47,567 shares, was, however, a part attributable to the termination of the Burries in Apex and a few other of the lower-priced issues which are enjoying a rest after their unwonted exertions.

Dome disappointed those traders who were looking for a spectacular movement either up or down, as a sequel to the climber's feats of Monday. At no stage yesterday did Dome threaten to surpass the high record of the previous day, 14.37 1/2, reached in New York.

The best price this year yesterday was 14.12 1/2, and closing at 13.92 1/2 compared with 13.82 1/2 on Monday. The turnover, 3200 shares, was less than one-fourth that of the day before. Locally, Dome opened at 14.00, equal to the closing price of Monday, and sold off to 13.50, finishing at the low.

On the whole, the market was given a satisfactory exhibition of stability after its abrupt rise. Dome's support continued to receive strong backing, and closed at equal to the previous high for the year, with 25 bid and 25 1/2 asked. Other firm stocks, tobacco, equipments and specialties were included among the reactionary issues at declines of two to seven points, but rails, while irregular, developed no heaviness, being sustained by further accumulation of Southern Pacific and coals.

Shipments and metals were relatively firm, with moderate reactions at the end. Sales amounted to 550,000 shares. Bonds were irregular, Liberty issues showing general firmness on increased activity.

TREND IS LOWER
IN STEEL STOCKS

Trading Light on Toronto
Exchange, With Price Re-
cessions Fairly General.

With the Victory Loan exerting a strong claim upon funds available for investment, the Toronto market is temporarily almost divested of buying power, and the result is that when stocks are pressed for sale, sellers are, in many instances, compelled to make price concessions. Losses extending from small fractions to three points were fairly general yesterday, but there were one or two firm spots, notably Canada Permanent, which, at 16 1/2, was a point above the previous high for the year.

PEAS FOR PEACE
SEND CORN DOWN

Better Weather and Increasing
New Crop Movement
Other Influences.

Chicago, Oct. 29.—Turkish and Austrian proposals to the entente powers gave noticeable advantage today to bears in the corn market. Largely as a result, closing prices, although unsettled, were one to four and a quarter net lower, with Nov. 2 1/4 and Dec. 1 1/8 1/2 to 1 3/4.

The outcome in provisions ranged from 2 1/2 decline to 50 cent advance. Corn started downward as soon as the market opened. Initial weakness was due mainly to confirmation of the unreserved character of Britain's plea, the full text of which was not available during the previous day's session. After a moderate break in values, however, commission buying became of sufficient extent to cause a fair rally, but support dwindled again when word was passed that independent negotiations with Turkey promised to end soon. Throughout the day better weather and increasing movement of the new crop tended further to handicap the bulls.

Besides, Chicago prices were said to be above a parity with certain other important shipping centers. Oats were weak with corn, although declines were checked somewhat by unfavorable crop reports from Canada. Domestic and seaboard demand was slow.

Provisions were neglected and for the most part lower. Scattered selling of January deliveries was ascribed to packers.

BUY BONDS. MONTREAL PRODUCE MARKET. Montreal, Oct. 29.—There was practically no change in the conditions of the market for cash grain, prices being steady, with only a small volume of business passing.

BUY BONDS. WHOLESALE FRUITS AND VEGETABLES. The first Florida oranges for this season arrived on the market yesterday, H. J. Ash having a car, which are not yet in full color, but are of good quality at \$5.50 to \$6 per bushel. This is just one week earlier than the first car of last season, and about five dollars per car dearer. Chestnuts are quite scarce with only a few small lots at \$2 per six-quart basket.

Net Income and Surplus for
Quarter Show a Marked
Decrease.

New York, Oct. 29.—The United States Steel Corporation today declared an extra dividend of 1 1/2 per cent on the common stock, together with the regular dividends of 1 1/2 per cent on the common and 1 1/2 per cent on the preferred stocks. This extra dividend of 1 1/2 per cent compares with previous quarterly dividends of 1 1/2 per cent.

The net income and surplus figures at the close of the previous quarter were, respectively, \$22,039,482 and \$19,017,275. Since June 29, 1917, the corporation had been paying extra common dividends of three per cent.

Porto Rico Earnings Larger in September. Gross earnings of the Porto Rico Railway Company for September were \$22,316, an increase of \$18,296 or 24 1/2 per cent, and net earnings were \$22,272, an increase of \$1343 or 4.20 per cent.

Turnover is Small, Victory Loan
Absorbing Attention of
Brokers.

Montreal, Oct. 29.—A weaker tone in the steel stocks, largely in sympathy with the Toronto market, was the only feature of the Montreal stock market today. The real stock exchange today, in the opinion of members, was small, the majority being active in the Victory Loan canvass, and around brokerage offices the loan occupied the attention of clerks and office staffs to the virtual neglect of the stock market.

Steel of Canada, on the nominal turnover of 100 shares, declined to 65 1/2, a net loss of 3, but was slightly firmed at 65 1/2 bid at the close.

Brazilian Steamships preferred and Consolidated, showing the only other stocks in the list to attain three figure totals. Brazilian was easier at 45 1/2, in the final sale, net loss of 1 1/2.

SCOTTISH-ONTARIO DEAL?
According to reports current in Cobalt, the Scottish-Ontario property in Whitney Township, Porcupine district, under option to Montreal and New York interests, has been located.

The deal is understood to be under way for the financing of the development of the property when conditions become more favorable for gold properties.
