J. ROCKEFELLER DOOMS BRYAN

Says He'll Vote for Taft, and Tells Why, Just as Peerless One Enters on Ohio Campaign.

NEW YORK, Oct. 30.—A statement from John D. Rockefeller announcing that he intends to vote for William Taft for president next Tuesday...

"I feel the more impelled to answer this question because I am an American citizen whose candidate he will support by his vote for the presidency, he should be made to answer it just as directly as I therefore say that I expect to vote for William H. Taft."

"No Wonder," Says Bryan, Repeating His Tour of Ohio. NAPOLEON, Oct. 30.—William J. Bryan, who today began a tour of Ohio, the Standard Oil State, said he was not surprised to learn that Mr. Rockefeller and the Standard Oil Company and the Republican party have been so closely related that many of their interests are identical.

Bryan at Cleveland Assails Roosevelt, Rockefeller, Carnegie and Root. CLEVELAND, Ohio, Oct. 30.—Headling denunciations upon the heads of John D. Rockefeller, Andrew Carnegie, President Roosevelt, and Mr. Taft, because, as he charged, of their connection or sympathies with the Standard Oil Company.

THE LATE HON. THOMAS GREENWAY. Well Known Western Politician and Recently Appointed Member of Railway Commission Who Died Yesterday at Ottawa.

Call It a Bryan Koorbach.

WASHINGTON, Oct. 30.—The following official statement was issued from the White House to-night: "At the White House the announcement of Mr. Rockefeller thru the press agent of the Standard Oil Company was regarded with some amusement, in view of what the administration has done to the Standard Oil Company and of the bitter hatred borne by the Standard Oil Company to the administration."

OTTAWA, Oct. 30.—(Special.)—During the discussion on women's suffrage by the National Council of Women this afternoon, Dr. Margaret Gordon of Toronto and Miss Peters of St. John, both declared their willingness to go to jail if it would help the women of Canada to get the right to vote.

RESTORE 9 P.M. TRAIN COBALTERS DEMAND. The Present Illogical G.T.R. Service Prevents Making Boat Connections at Latchford.

Attention was concentrated by The World's article last Monday on the Cobalt train and mail service, and the comments of those inconvenienced and the recital of grievances not previously uncovered indicate that, as one prominent broker put it, "the service is as bad as it can be."

"I used to get up on Friday night and get the steamer on Saturday morning and get back on Monday," said a local broker. "Now if I go up on Friday night I am too late for the steamer on Saturday, there is none on Sunday, and I have to wait till Monday, when I should be back again. If I go on Sunday night I can get no steamer till Tuesday. The nine o'clock train will be on for the better accommodation of the traffic."

It is evidently up to the Grand Trunk to work an improvement.

GIRL'S PITIFUL DEATH. Aftaid of Being Sent Away, She Goes to the Fields to Die. BELLEVILLE, Oct. 30.—A girl named Edith Nichols, who had been brought to this country by a girl's home, has been living near Madoc with a farmer named Willard Rupert and his family. The family told the girl they were going to send her back to the home, and she became despondent. She left the house and was never seen again. A few days later, her dead body was found in one of the fields. The jury brought in a verdict of death from exposure. No blame was attached to anybody.

WOMEN EAGER TO HAVE VOICES

BUT NATIONAL COUNCIL ARE NOT PREPARED TO ENDORSE THE SUFFRAGETTE METHODS. The resolution on woman's suffrage was ruled out by the president, Lady Edgar, as unnecessary. She disposed of it on the ground that full arrangements had been made for discussion at the international conference to be held in Toronto next June.

Another animated discussion arose on the suffragette question when Dr. Stowe-Gullen presented a report on the citizenship of women. The report contained a paragraph approving the recent actions of the British suffragettes and intervening points on the subject of the prohibition in Canada. If the women had voted, she declared, we would have had a different result.

Mrs. P. Lamont was opposed to giving Canadian women the right to vote at the present time, while Mrs. J. H. Brown of Ottawa favored the retention of the act of 1892. Mrs. A. Horton of Ottawa said that while she was not an ardent suffragist, she would be willing to exercise her right to vote occasionally if her husband were willing to stay home and mind the baby.

Dr. Gordon and Miss Peters thought that if the clause commending the British suffragettes were struck out, something should be put in its stead, to show that the work being done by the women of the mother country is appreciated in Canada.

GETS OFF WITH FINE. E. L. Howell Mauled \$20 for Assaulting Colia Campbell. WINNIPEG, Oct. 30.—(Special.)—E. L. Howell, who assaulted Attorney-General Campbell of Manitoba on Sunday, was fined \$20 by Magistrate McKicken of Winnipeg.

\$50 FOR ILLEGAL NETS. Thomas McDonald, St. Anne, Bay of Quinte, who lost 400 yards of seine nets, illegally used in fishing, has been fined \$50 and costs. The nets were found in Eastern Ontario, secured the conviction.

REPORT OMTS MANY VALUES

CHICAGO, Oct. 30.—(Special.)—The story given out to-day regarding the findings of accountants concerning the Chicago and Milwaukee Railway Company is incorrect in some details, but substantially right in the main.

The report upon which the story was founded was that made by Warwick Mitchell & Co. of Glasgow, New York and Chicago. And it is very different from the report of the bondholders' committee, composed of John V. Clarke, C. B. Shedd, Chicago; W. H. Lash and George A. Somerville, Mills, Cassel & Co. of Toronto. These latter gentlemen in their report had this to say of the work of Warwick, Mitchell & Co.:

The receivers employed by Arthur Young & Co., public accountants, to examine the books and records of the company, and this firm's reports, now filed in court. The report of the committee is very voluminous and contains so much contentions matter that the committee believes it would be of little profit to the bondholders to submit the report to them. Should any bondholder wish a copy of the report, the committee can no doubt arrange to transmit the same at the cost of copying.

It appears that Arthur Young & Co., who employed the Glasgow firm, did not take into account the cost of the railway franchise to the railway company, the cost of entrance into Milwaukee, including viaduct and three and a half miles of railway, the interest on construction and the fact that the railway company got their material, such as stone and sand, from their own quarries and pits.

THE REMOVAL OF HON. THOMAS GREENWAY BY DEATH creates a vacancy on the board of railway commissioners. Mr. Greenway was appointed just before the dissolution of the present parliament. He was the sole representative of the west on the board and it is probable that in filling the position the claims of that section will be considered.

HON. THOS. GREENWAY PASSES AWAY AT OTTAWA

Railway Commissioner and Ex-Premier of Manitoba Succumbs to Asthma.

OTTAWA, Oct. 30.—(Special.)—Hon. Thomas Greenway, member of the railway commission, former premier of Manitoba, and M.P. for Lisgar in the last parliament, died rather unexpectedly at the Windsor Hotel at 7 o'clock this morning.

Mr. Greenway caught cold on his way to Ottawa to begin his duties as railway commissioner, and asthma developed, for several days his condition being considered serious. On Friday last he was pronounced out of danger, but yesterday morning serious symptoms again developed.

The charge against William Burgess, accused of a serious offense, was continued this afternoon before Judge Sander and was adjourned until next Tuesday in order to allow the defence to get the evidence of a Miss Sullivan, who is now in a Toronto reformatory.

George Barr, a former employe of the C.P.R., and later of the firm of Reid & Barr, died this evening at his residence, 70 North Catharine-street.

The sewers committee this evening decided to advertise for tenders for the construction of a sewer system on the mountain, to cost about \$22,000.

On Wednesday evening next the 15th Highlanders have this popular rink engaged for themselves and friends.

The police magistrate this morning sentenced Cameron to one week in jail for abusing his wife. The wife begged him to make the term longer.

On Friday evening a grand carnival will be held at the city mountain. The pipes will be laid in the same trenches as the water pipes. The whole cost will be borne by the residents of the district who will probably settle for a pipe down the mountain, the side connecting the mountain with the city system and which will cost about \$100,000.

Since opening, the Britannia Roller Rink has done an enormous business showing that this popular pastime is not on the decline.

are running, but it is not yet giving a word, but there is no doubt in the world it will build a fine road. B. Hanna, an experienced railway man, is very enthusiastic about the future of it.

"I was aware pretty much of how the road stood when I made my report to the shareholders. It does not alter a particle the chances shareholders may have with regard to realizing on their shares in the bank."

W. J. Boland of the legal firm of Macdonell & Boland, who has had to do with the bank, confirmed the view of Mr. Jarvis that those on the inside have known for some time as to how the road stood.

D. B. Hanna, the great railway contractor, will be in Toronto to-day after seeing the railway in working-shape from end to end. He may have a few words to say.

A NOTABLE PICTURE SALE. To-day and on Monday there will be on view in Chas. M. Henderson's art gallery, 87-89 East King-street, a very attractive collection of oil paintings, the work of Harry Britton, A.R.C.A. Mr. Britton is a young Toronto artist, whose work is not only of exceptional quality, but full of promise for the future of Canadian art.

Mr. Jarvis is not only a frequent contributor to local exhibitions, where his paintings attract marked attention, with the result that he has secured a number of public and private commissions, and in various private collections.

Mr. Jarvis is now Mr. Britton's desire to continue his studies in Europe, and to aid him to achieve this purpose a number of his canvases will be sold at public auction sale on Tuesday next at 2.30 p.m. in Mr. Henderson's art rooms.

The artist's work is characterized by poetic feeling, delicate and rich color and firm modeling. Another feature which warrants the belief that Mr. Britton has a career before him is his fine feeling for harmonies and gradations of tint. The selection now offered is especially interesting since many of the pictures are taken from the immediate vicinity of Toronto. In the Don Valley Mr. Britton has found much that appealed to his artistic sensibilities, and many a quick eye will also be attracted by the local color and no better opportunity could be afforded for acquiring examples of the work of an artist, who, humbly speaking, is certain to attain international reputation.

WHITMORE NOT GUILTY FREED BY AN ALIBI. JERSEY CITY, N.J., Oct. 30.—After being out two hours, the jury in the case of Theodore Whitmore, on trial for the murder of his wife, whose body was found on Dec. 26 of last year in a swamp near Harrison, N.J., returned a verdict of not guilty. Whitmore's defence was an alibi, which he was able to establish by the testimony of a number of witnesses who testified to having seen him in New York at the time of the commission of the crime.

Continued From Page 1. shareholders was encouraging. So that, according to this, the huge givers of construction capital does not mean that correspondingly heavy liability will be overcome rests on the bank thru its holdings in the road.

Mr. Jarvis said: "The items that figure in this report are very much involved, and when I read the report that the thing stood just as it is there. There are four corporations involved in it, the Chicago & Illinois, Illinois & Chicago, the Wisconsin Division and the Chicago & Milwaukee & St. Paul Railway Company. They may, in what you have here, be doubling them up. Anybody I never realized that over \$9,000,000 had disappeared as it says there, and I think it hardly correct.

There are no new developments in the report, it is only new put in form. It does not add anything to our knowledge, and the publication of the conditions as revealed, there does not take away anything from the future of the road as a going concern. The road is completed now, and trains

Curling Caledonians Are in Line Football Rugby and Association Bowling All the Scores

NOTE AND COMMENT

There was no doubt about the tenor of the meeting of the Caledonian curlers yesterday afternoon. Everyone wanted to stick, and the old Tankard skins will not be re-elected those who take their place may meet with better success.

Of the ninety-two clubs in the Ontario Curling Association, the Caledonians are No. 18 in seniority, being organized the same year as London, Fergus is the original curling club of Ontario, dating back beyond the allotted span—1837—followed by the Toronto Club in 1837; Galt, 1838; Scarborough, 1839; Guelph, 1840; Paris, 1843; Dundas, 1853; Keene, 1861; Port Hope, 1861; Chatham, 1862; Hamilton-Thistles, 1863; Cobourg, 1864; St. Mary's, 1865; Thamesville, 1866; Walkerton, 1870; Woodstock, 1880; Lucknow, 1870; London, 1872, and Toronto Caledonians, 1872.

The Caledonians' move to Swansea is in the right direction, and already in the old club is showing signs of increased activity. Many new members are about to join under the altered conditions, and it will be interesting to watch the progress of the Caledonians in Tankard and District and Royal Cup and the many other matches that will make up the new program.

Meanwhile the Granites are preparing for their elections to-night in real campaign style. A lively contest is on for the first vice-presidency.

Like King William III, their heroic prototype, the boys of the model school continued their rear guard action, arriving no later than yesterday at the River Boynce. The enemy counted the models soon the day by 14 to 5, the brunt of the battle being borne by some home by the generals, Young and Nevitt.

TIGERS PLAY ARGOS AT ROSEDALE TO-DAY

Parkdale and Jarvis Win the High School Games—Rugby Gossip. No team in the country arouses the popular interest that the Hamilton Tigers do wherever they appear, and so it will be to-day when they meet the Argonauts at Rosedale at 2.45.

The following are the teams: Hamilton—Back, Topp; halves, Moore, Burton, Simpson; quarter, Ballard; scrum, Burkhoffer, Craig; fullback, Marriott, Barron, Lyon, Grey, Ishler and Loftis.

RUGBY GAMES TO-DAY

Senior Interprovincial—Tigers at Argonauts, Ottawa at Montreal. Junior—P. C. C. at Aura Lee, I. A. A. at St. Michaels, Woodstock at Petrolia, Guelph at St. Jerome's.

Varsity will have a hard game at Ottawa to-day, while Queens will only have a walkover to win from McGill.

Another double-header will be played at Parkdale Canoe Club this afternoon at 2.30 o'clock when the unbeaten first team will clash with I. A. A.

At Kingston yesterday Queens III defeated B. M. C. by a score of 10 to 0 in the intercollegiate series, by 10 to 0.

At Rosedale yesterday the Argonauts defeated the Tigers by a score of 10 to 0 in the interprovincial series, by 10 to 0.

The Britannias will be picked from the following: Stokes, Scott, Allen, Snyder, Home, Boyd, Lloyd, Minnie, Croxley, Brown, Jackson, Woodward, Pickering, Miles, Testley and Brown.

The interprovincial game has been postponed, owing to the Brits not being able to secure their grounds on Brockwood.

Any new players wishing to register with the Brits are asked to communicate with T. Allen, 109 Strachan-avenue, at the factory at 1.45 sharp.

AND TAPIOGA ALSO RAN IN 1ST RACE AT LATONIA

Every One of the Favorites Beaten—Colloquy Beat Miss Sain.

CINCINNATI, Oct. 30.—It was another bad day for favorites at Latonia this afternoon, not a single choice winning. Favorite after favorite went down and the bookmakers made a clean sweep of the day. The meeting to date has produced but small percentage of winning choices. Colloquy, carrying 118 pounds, ran an excellent race in winning the sprint, fourth on the card. Four started in this race, Al Mueller, clear and the true fast. Summaries: FIRST RACE, 5 1/2 furlongs: 1 Zarape, 110 (Troxler), 5 to 1, 2 to 1, and even. 2 Mrs. Marion Moore, 106 (Pickens), 20 to 1, 10 to 1 and 5 to 1. 3 Kilvane, 110 (Butler), 5 to 2, even and 1 to 2. Time 1:08 1/5. Emily Almanac, Van-cena, Wheat Bread, Juliet M., Stier Phyllis, Denver Girl, Max Luis, Tar-antula, Malacott and Tapioga also ran.

SECOND RACE, 5 1/2 furlongs: 1 Alice, 106 (Burton), 2 to 1, 3 to 5 and 1 to 2. 2 Mabel Henry, 106 (E. Martin), 6 to 1, 3 to 5 and 4 to 5. 3 Alice George, 104 (McGee), 4 to 1, 7 to 5 and 7 to 10. Time 1:07 2/5. Miss Crittenden, Eth-elda, Elizabeth Harwood also ran. THIRD RACE, 6 furlongs: 1 Bossesart, 107 (Brannon), 10 to 1, 4 to 1 and 2 to 1. 2 Martins, 109 (Burton), 10 to 1, 4 to 1 and 2 to 1. 3 Vandari, 104 (Deverich), 6 to 1, 2 to 1 and even. Time 1:15 3/5. Canada, Earlscourt, Judge Green, King Foley, Frabnon, Stoner Hill, Annaplan, George Bailey, Yodine, Telegrapher and Potter also ran.

FOURTH RACE, 6 furlongs, handicap: 1 Colloquy, 118 (McGee), 8 to 5, 1 to 2 and out. 2 Miss Sain, 113 (Troxler), 6 to 1, 8 to 5 and out. 3 Al Mueller, 105 (Kennedy), 7 to 5, 1 to 3 and out. Time 1:12 3/5. Ethon also ran. FIFTH RACE, 1 1/4 miles: 1 Watercooler, 101 (E. Martin), 5 to 1, 2 to 1 and even. 2 Lady Ethel, 102 (McGee), 12 to 1, 5 to 1 and 2 to 1. 3 The Shaughran, 101 (Pickens), 10 to 1, 4 to 1 and 2 to 1. Time 1:55 1/5. Vansel, Washakie, Huertano, Mitlades, Brancas, Howard Shean and Granada also ran. SIXTH RACE, mile and 40 yards: 1 Financier, 103 (E. CALEDONIAN CURLERS ELECT THEIR OFFICERS

Will Have Home and Rink at Swansea—William Rennie Chosen President.

The annual meeting of the Caledonian Curling Club was held yesterday afternoon in the office of the William Rennie, secretary in the Ontario Curling Association, President Simpson Rennie in the chair. W. D. McIntosh, secretary-treasurer, read the report showing a cash balance on hand. The offer of Mr. William Rennie to have the club's home and rink at Swansea was unanimously accepted and there the old Caledonians will have their permanent home and curling quarters. Officers were elected as follows: President—William Rennie. First Vice-President—William Ross. Second Vice-President—David Pringle, Secretary—Treasurer—W. D. McIntosh. O.C.A. Representatives—Messrs. McIntosh and Ross. Committee—George Sauer, John Watson, W. T. Robson, L. Howard, J. Mulr and J. Bryson. The annual fee was fixed at \$1, with a rebate to certain resident members. Membership in the Ontario Curling Association will be continued. The tankard and district cup slips to be elected by the committee. Anyone desiring to join should address the secretary.

RECORD ON DUNLOP TIRES.

Unless some speedy bicycle rider sails out to lower the unpaired road record between Hamilton and Toronto before the snow comes the Dunlop trophy season may be considered as closed until the sunshine of next spring makes out-of-doors tolerable. The last Dunlop event was pulled off in Winnipeg last Saturday, when the Automobile Club conducted a series of races, the most important of which was the event for the Dunlop trophy. A 75 mile scurry around a mile track, open to any car which had been in Manitoba one month prior to Oct. 1 and driven by any person who had resided in the province for the same length of time. There were seven entries in this race, the winning car being E. Nicholson's Packard, with C. H. McLaughlin's McLaughlin 18 horse-power runabout second, and W. A. T. Sweetman's McLaughlin-Bulck car third. All the winning cars were equipped with Dunlop tires, altho this was not a condition of the race.

A feature of the Dunlop trophy automobile program in Winnipeg was the performance of a 40 horse-power McLaughlin car, driven by W. C. Power, which lowered the Canadian flying start mile track record to 1:08, making two seconds off the record made in Montreal this season. This car was fitted with Dunlop tires as were the winning cars in all the other events except one. The Dunlop trophy event in Winnipeg had been postponed, on account of bad weather, besides indifference being held under perfect conditions of weather, and a large crowd witnessed the events.

MONTREAL BASEBALL CLUB.

Secretary Cushing Says They Will Stick To the Meeting Thought Different. NEWARK, N.J., Oct. 29.—(Special.)—E. H. Cushing, secretary-treasurer of the Montreal Club of the Eastern League, says that the Canadian city will be very much in evidence another year. Nothing more than a discussion unofficially of the proposal to drop the Royal City was taken up at the recent meeting of the managers. It was generally intimated that the change would be made at the next meeting of the Eastern. The long jump is one of several objections raised to the Canadian berth, besides indifference support from the citizens. "We will surely be in the league next year," said Mr. Cushing yesterday. "Under the new management the club has greatly improved, and I have every assurance from President Powers that Montreal will not be neglected. Furthermore, we are going out for a pennant. Montreal has been unfortunate as a fall-order, but the town will support a strong club."

**THE STUDENTS AND THE POLICE.**  
It is unfortunate that a feud should exist between the students of Toronto and the police.

It is more unfortunate that the fame of that feud should be fanned by flaunting intimations of "What will happen if..."

It doesn't pacify the high-spirited student body, already smarting, to be told that if necessary the militia and the firemen will be called out to assist the police; neither does it compromise the ability of the police.

It doesn't mollify the authorities, either, to have the students impressed with the fact that they can be disorderly on university grounds quite safe from police molestation, even though the police do argue to the contrary.

In short, if there was less talk and less attempt to magnify the misconduct of the students—who weren't born thugs—and exaggerate the brutality of the police—who aren't the Cossacks—they've been likened to—all might tonight be peace on the streets and harmony under the windows of the ladies' colleges.

**THE KAISER'S LATEST.**

Kaiser William's endeavor to show that he has all along been friendly and helpful to British interests has met with a mixed but on the whole somewhat cool reception. For this there is reason, since it is not quite apparent why the interesting story revealed in an interview between the kaiser and an unknown diplomat should not have been made public at an earlier date when it might have proved more efficacious than it is likely to do now. And certain expressions and opinions evident or implied with regard to Germany's aims and objects are scarcely calculated to silence those who foresee trouble in the future. Rather will they give point to the demand that Britain's maritime supremacy be maintained at all costs and hazards.

Impulsive William the Second undoubtedly in, but there is a method in his impulses and still more in the occasions he takes to make known his doings and policies. More is coaxed than is revealed and this is probably the main cause of the suspicion which attaches to his international diplomacy. Britain and France came to a complete understanding mainly because both went into conference in a spirit of frankness and sincerely desirous to remove all occasion for misunderstanding. The same inclination has evidently prepared the way for better relations with Russia, and no doubt British statesmen would be just as ready to meet Germany were the latter power prepared to return confidence for confidence. Meantime the kaiser seems to have incurred general censure from his own public and the final result is not likely to favor international goodwill.

**FOREST FIRE PREVENTION.**

In its issue of Thursday morning The World published an appeal by Mr. A. T. Drummond for assistance in bringing before the country at large and our Dominion and provincial governments in particular the necessity of some immediate definite action being taken to lessen and if possible prevent the occurrence of forest fires. Aitho The World has frequently urged more efficient forest administration upon the responsible authorities, both federal and provincial, Mr. Drummond's request for support in this entirely laudable and patriotic movement affords another opportunity of bringing the matter of protection from fire before the public and the governments concerned. Fire, as Mr. Drummond says, is the chief enemy of the forests and its ravages still continue. It is quite possible to prevent fires, if not from occurring, at least from spreading, and devastating huge tracts in the way that has occurred within very recent memory. Apart altogether from the deplorable loss of life and private property, the cost to the Dominion and the forest provinces is very large. Mr. Drummond notes that a United States official estimates that the damage done this autumn in the Adirondack Mountains would total up to \$1,000,000 a day, whilst another Washington official considered that the whole United States may have been paid for out of the losses of the first few days of a recent forest fire in that country. This year the Canadian losses have been much greater than those sustained by the United States.

The forest service of the United States recently issued some figures on forest fires on the national reserves last year. Complete records of the fires occurring in private forests are not kept, but the government is careful to investigate and tabulate the damage done on the 165,000,000 acres under its own control. In 1907 there were 2555 fires discovered in the national forests, all of which were checked by the rangers before they had burned more than fourteen-hundredths of one per cent. of the reserves. Campers caused 346 of the fires, railroaders followed with 273, lightning accounted for 175, donkey engines used in lumbering operations were fourth with 65, careless brush burning resulted in 34,

and 20 were started by incendiaries or by herders and hunters. In more than 400 cases the cause could not be traced, a circumstance not surprising when it is remembered that a fire may smolder for days, if the air is too thick to permit of the smoke being seen at a distance before it is fanned by a wind so as to reveal its presence to the ranger or guard. That so little comparative damage was done testifies to the excellence of the United States service. The result, it is said, has been accomplished thru the increased efficiency of fire patrol and methods of fighting fire and thru the co-operation of settlers and users of forests who understand that these tracts are their property and that a loss from fire is a personal one. By posting fire notices and giving advice the government has secured co-operation from the outside, and this may possibly be as important an agency in reducing loss from fires as the perfection of the machinery for fighting them.

The strength of the summer force in the United States national forests whose main duty is fire patrol is 1351 men, and the average area each is required to protect is 121,506 acres. This is recognized to be too large and a larger force of men will be employed whenever funds are available. In order to provide rapid means of travel and to enable strong forces to be massed at the danger points, 160 miles of road and 3200 miles of trail were constructed during the last fiscal year. In several cases fire breaks from 16 to 100 feet in width were constructed from which all timber and inflammable material were removed. Telephone lines connect the ranger stations with headquarters, and during the year ending June 30 last, 3500 miles of line were constructed. Each forest is supplied with the necessary tools distributed among the cabins, and in boxes, while field glasses are also furnished. In his communication Mr. Drummond makes a number of valuable suggestions for the purpose of diminishing the risk of fires and preventing their extension, and he rightly insists that what is wanted is a prescribed course of action for the protection of our forests. There ought unquestionably to be a sufficient force of wardens and heavier penalties against the carelessness and negligence of campers, railroaders, lumbermen, settlers and other users of the forest areas. The experience of the United States shows that fire prevention and protection can be provided, and in the interests of the public domain it should be given.

**A PROTEST.**

Editor World: As the city council has under consideration the building of a power house on the fire hall site, corner Bay and Temperance-streets, I as a property-owner, wish to enter a protest against taking this valuable property with a frontage on Bay-street of 80 feet, and already assessed at \$50,000 for a power station, when property in the vicinity, which can be bought at one-quarter the price, will be much better adapted for the purpose. This property, if sold, would in the course of a few years give a return in taxes of \$4000 or more per annum, and, judging from the appearance of other buildings already erected for similar purposes, it will not improve this business section, which is rapidly becoming an office district, nor will it add anything to the approach to our city hall. The property in question is only 80x80 feet, and in the course of a few years the building would have to be extended, which could not be done except at a greatly increased price.

Why put up this unsightly building on such a business thoroughfare, when council denied us the privilege of having cars on Bay-street? It will be a great detriment to the surrounding property.

I think council would do well to reconsider this proposition, even from a financial point of view, before taking further action, as I believe, the property can be sold for sufficient to buy another lot and pay for the erection of the building on it.

**LIGHT NEEDED.**

Editor World: Complaint is made by evening students at the Technical High School that the lighting of the classrooms is worse than wretched. While the drawing course covers three years, the eyesight is likely to be acquired in one. A dozen or so electric lights in the centre of the room and none around the walls seem only to produce shadows. Bulbs are missing; other lamps are burned out. Delicate drawings has to be produced in deep shadows.

The World's Informants would like to ask if those responsible ever saw an up-to-date Lindsay light, and why money and eyes are not saved by plac-

ing one or two in each room, in place of present twinklers? Starlight is romantic; but for working purposes the sun is to be preferred.

An evening visit by the board of education is earnestly desired.

**CANADIAN ANTI-PATHY.**

Derby (Eng.) Express, Saturday, Oct. 17. Canada is loyal to the English connection. How comes it, then, that Canadians have such a dislike, not to say contempt, for Englishmen? Time after time one comes across people who have returned from Canada, who tell grim stories of how, when applying for work, being questioned as to their nationality, the door has been slammed in their faces when they have announced that they are Englishmen. The Canadian regards the tenderfoot Brit—thru much as our ancestors regarded the wise men of Gotham. One well-worn Canadian legend has it that an Englishman suffering from thirst, thup up to his knees in water, declined to drink till he was given a glass; another credits an English immigrant with having sown a bushel of bran, expecting to get a crop of harvest. A Toronto lady declares that last year she had been assisting some distressed immigrants with food and clothing and heard one say to another, "The colonial are pretty good to us." "Well," was the reply, "why shouldn't they be? We own them." That is his offence—the English is declared, puts on an insufferable air of superiority and is supercilious to a degree. He takes no part in local politics. He is always talking of the day when he has made his pile and will be able to return "home". In short, he does not mix with the Canadian people and becomes part of them, as he believes he ought to do. The King will have to go to Canada yet, if only to establish a new entente cordiale.

**FREDERICK NELSON.**

Torontonians have become acquainted with Frederick Nelson thru two of his books: "Nelson's Business Record" and "Calculating Pad," and a piece of fiction after the manner of Edward Bellamy, entitled, "Toronto in 1923."

Mr. Nelson is an experienced business man, noted for his insight into paying propositions and for his strict moral integrity. He is president of the Thornton-Spaulding Business Methods and Publishing Company, which is its general office in Pearson Chambers, East Adelaide-street.

The company has just issued a prospectus which contains a program that the president and directors believe will interest conservative investors.

The assets of the company include "The Canadian Bookseller and News Agent and Stationer's Journal," a publication with only one competitor in Canada. The company will publish works on business, and selected works by reputable authors. They intend also to enter the field of fiction and to publish a 16-cent magazine of the same character as the popular American magazines. Mr. Nelson and his conferees are pushing ahead, and several splendid offers for stock have already been received.

**COURAGE OF CONVICTION**

In the renewed prosperity of the country is being demonstrated in the large sums of money being expended on extensive interior decorations by the Thornton-Spaulding Company, at their store or office, and does credit to the skill and artistic ability of this firm as well as to the courage of the proprietors.

**TURNING FIRST SOD.**

Imposing Ceremony for Hydro Power Transmission Beginning.

An imposing ceremony may be made of the commencement of the construction of the government electric power transmission line.

The first sod, it is expected, will be turned somewhere in the northwest of the city, near the car line, and Sir James P. Whitney, who has stood with his back to the wall so long on this policy, will officiate. Hon. Adam Beck, Hon. J. S. Hendrie and W. K. McNaught, the three hydro-electric power commissioners, will, of course, be present, and probably the mayors of all the cities interested and representatives of the manufacturing interests involved, and the legislature, the house of commons and others concerned will make the occasion notable by their attendance.

**Juvenile Delinquents.**

OTTAWA, Oct. 30.—W. L. Scott of Ottawa this morning addressed the National Council of Women of Canada on "Juvenile Courts." He stated that there was now an excellent Federal Juvenile Delinquents Act on the statute books, but so far no provincial government had provided machinery necessary to give it effect. The council adopted a resolution urging all local councils of Canada to endeavor to have provincial governments make provisions for the application of the act.

**HOW MRS. CLARK FOUND RELIEF**

After Years of Suffering Dodd's Kidney Pills Cured Her.

Pleasant Point Matron Tells Her Suffering Sisters How to be Free From the Terrible Pains That Make Life a Burden.

PLEASANT POINT, Ont., Oct. 20.—(Special)—That misery of the kidneys that the suffering women of Canada have to bear are due to disordered kidneys, and that the natural cure for them is Dodd's Kidney Pills is once more shown in the case of Mrs. Merril C. Clarke, a well-known resident of this place and a prominent member of the Salvation Army. Mrs. Clarke is always ready to give her experience for the benefit of her suffering sisters.

"My sickness commenced 20 years ago with the change of life," says Mrs. Clarke. "My health was in a bad state. Water would run from my head, which would make me faint. When I came out of the fainting spells I took fits. I was bloated till I was clumsy. The pain I suffered was awful. It would go to my feet and then to my head. Many doctors attended me, and I tried many medicines, but nothing gave me relief till I used Dodd's Kidney Pills. The first box stopped the fits and seven boxes cured me completely."

Every suffering woman should use Dodd's Kidney Pills. They make strong, healthy kidneys, and the woman who has good kidneys is safeguarded against those terrible pains that make miserable the lives of so many women.

**MOB RAIDS COUNTY JAIL.**  
Prisoner Drew Razor, But Was Shot to Death.  
KINGSTON, Tenn., Oct. 23.—A mob of thirty men attacked the Route County Jail early to-day and killed George Cook, held on the charge of murdering John King, a ferry man at South West Point a few weeks ago. All but two of the mob were masked. It is presumed the men intended to hang Cook, as they had a rope. Cook offered resistance and drew a razor and cut one of the men in the mob. Four bullets then entered his body.

**Impressive Religious Service.**  
The people's Sunday service in the Grand Opera House to-morrow night will be specially interesting by having Wright Lorimer, one of the leading actors on the stage to-day, who plays the part of David in "The Shepherd King," give an address on "The Drama of the Bible." Following him, Rev. Canon Welch of St. James' chapel, of The Actors' Church Alliance, will give an address on "The Prodigal Son." Illustrated by the finest of hand-painted slides, Solo-boro and Mr. Will McBretney, of the Grand Opera House will not hold one-quarter of the people that will want to attend. As many of the patrons of this service come from a distance, some as far as Mimico and North Toronto, arrangements have been made by which seats may be secured up to 11 o'clock to-night.

**Wright's Motor Explodes.**  
LEMANS, France, Oct. 30.—While Wilbur Wright, the American aviator, was making a flight this morning, the motor of the machine exploded. Mr. Wright landed without injury, and the aeroplane was not otherwise damaged.

UNHEALTHY WOMEN

Lose Color, Constantly Weary, Look Wrinkled, Hollow.

They all get Health--Vitality--Vim--Strength from Ferrozone

Once you use the celebrated nerve vitalizer and tonic, Ferrozone—once you feel its magic power—then through your weakened system—then you'll know for sure that health at last awaits you.

So much quicker and surer is Ferrozone to rebuild and restore that thousands use no other medicine.

"Because I am now well," writes Miss I. P. Sinclair, from Sault, Ste. Marie, "I feel it my duty to tell every young woman what benefit I got from Ferrozone. I grew very thin, and at twenty-five years old my face was hollow and wrinkled ten years beyond my age."

It was astonished at the quick and thorough action of Ferrozone. It gave me permanent strength and vitality, nervous fears disappeared, indigestion and stomach weakness were cured. Sound sleep returned. I looked better and younger, had clear color. I gained in weight, felt happy, vigorous and strong. It is a year since I first took Ferrozone. It has restored me to health I never knew before and I will continue to recommend it as the grandest tonic and strengthener on earth."

Very few girls and women are so abundant in health as to not require medicine. Nothing excels Ferrozone in supplying strength, blood and nerve power. Not a stimulant, but a nourishing tonic re-energizes. 50c per box or six boxes for \$2.50, at all dealers. Try Ferrozone. Do it to-day.

DAUGHTER TO RUN. Two Men After Street Cars Wind Up in Hospital.

Toronto had a chapter of small accidents yesterday. William J. Hunt, 15 Glenholme-avenue, a painter, fell from a ladder at 715 West Queen-street. His back was injured, and he is in the Western Hospital.

R. J. Diamond, 53 McGill-street, fell at the corner of Queen and Victoria-streets while running to catch a car. He cut his head and was taken to St. Michael's Hospital.

James Moore, 165 Jarvis-street, fell in an hotel and cut his head against a radiator. He was taken to St. Michael's Hospital, where six stitches were put in.

William Humphrey, 185 Brunswick-avenue, fell while running for a car at Queen and Sherbourne-streets. He cut his nose and was taken home.

John Webber, 120 Collier-street, was struck by a bicyclist, opposite Yorkville-avenue on Yonge-street. His shoulder was hurt and he was taken home.

PURSE SNATCHER CAUGHT. Gait Gentlemen Gets Himself into Trouble.

Thomas Fisher, who gives his address as Galt, Ont., is in the toils. Yesterday afternoon Mrs. Reginald Clift, 28 Harbord-street, was wheeling her baby down Spadina-avenue. Fisher, who was passing her, snatched her purse, containing \$25. He fled, and running into a lane, climbed a fence in rear of 32 Russell-street. It so happened that Policeman Coster (164) was looking after the thief, caught up and explained. Fisher was then locked up.

A QUESTION OF LAW. Amendment to Information Wanted in Order to Convict.

Does the mere handing out of election cards mean "scattering?" "Can the crown amend an information under a municipal bylaw to cover an offence under a Dominion act?" Upon these questions rests the defence of Robert Stocks, junior, a glass finisher; Morris Haas, Meyer Grayfer and Sam Bridgen, who appeared in afternoon police court yesterday charged with distributing election handbills contrary to the city bylaw.

Eric Armour appeared for Stocks and raised the points in question. Arthur Webb, police court clerk, declared that information was often amended as proposed, to which Mr. Armour replied that error in that court was not uncommon.

The case was remanded a week by Alex. Patterson, J.P., when Chief Inspector Archibald told him what to do.

trusts, W. J. Bryan in this city tonight brought to a close another strenuous day of campaigning. The principal meeting was held in the big Central Armory, while a second audience was addressed at Gray's Armory. Later the candidate spoke to the street crowds from the balcony of the Hotel Linden Hotel, while a second audience was addressed at Gray's Armory.

Mr. Bryan discussed the Democratic platform, laying great stress on the plank relating to the guaranteeing of deposits, publicity of campaign contributions and the trusts. The latter topics furnished him the themes for his attacks on the financiers, the president and Mr. Taft. The Standard Oil Co. and the steel trusts, Messrs Rockefeller and Carnegie, were credited with furnishing the funds for the Republican campaign.

Not content with his strictures upon those named, Mr. Bryan had something to say about Secretary of State Root, who is credited with having stated that Mr. Bryan's election would be a menace to the country. "I see Mr. Root has made an argument against the election of senators by the people," he remarked. "No man in public life not surprised. No man in public life has more reason to fear an election at which the people vote."

"He also thinks my election would be a menace to the country. That is not surprising. He began his legal career with a defence of Boss Tweed and has been so intimately associated with the big money brokers ever since that he would naturally resent the Democratic idea of enforcing the law impartially against offenders."

Taft at Buffalo Says Government is Hot After Standard Oil. Sledgehammer blows at the Gompers-Bryan labor legislation program were dealt here to-night by William H. Taft, here to-night by William H. Taft, who gave the names of many labor leaders high in the counsel of the American Federation of Labor, who he said were leaving Mr. Gompers.

"Mr. Bryan is greatly troubled," said Mr. Taft, "about my attitude toward the trusts and even more so by the announcement that Mr. Rockefeller is for me. If the Standard Oil Co. were anxious to bring about my election I should take it that the last thing that would be done would be to advertise its support of it. Therefore, this publication which Mr. Taft is now making so much of, seems to me, has but little significance in attempting to show that the Standard Oil or any other trust, because it hopes for my election, is advertising its support of me. The only way things are done."

"I am in a position to state with great emphasis that neither the Standard Oil nor any one connected with its management has contributed a single cent to the Republican campaign fund."

In comparing the remedies for the evils in trusts proposed by the Democratic party with those of the Republican party, Judge Taft said: "The administration is prosecuting the Standard Oil Co. and it intends to continue that prosecution until that which may be evil is stamped out."

At Batavia this afternoon Judge Taft left the car to speak to hundreds of people who had come to that town from miles around.

GANTHONY AT MASSEY HALL. English Entertainer Provides Amusement With Varied Program.

While the audience at Massey Hall last night, on the occasion of the appearance of Richard Ganthony, the English entertainer, was not large, it appeared to enjoy the entertainment.

Since George Grossmith came to Toronto several years ago, Jerome K. Jerome, Leslie Harris and others of the guild have paid visits, but it takes time to develop a cult of admirers of this peculiarly British form of entertainment.

Mr. Ganthony, like his predecessors, is nothing if not versatile. He can sing in any key, impersonate various characters, sketch, and take a turn at the piano with equal facility, and last night he kept his hearers in a continual ripple of merriment. The strain of humor thrown was essentially the atmosphere of the tiny little isle, but is more redolent of Punch than of Ally Sloper. Miss Hazel Stannore is partly of the second part in several mild conceits, termed "sketches," which hardly give the opportunity of judging her ability. Rhymy Jameson, the well-known harpist, and Master Fred Blakey, soprano, are other artists.

AS GOOD AS CHAMPAGNE. Many hostesses, in entertaining, feel that they cannot afford champagne and it is to these that this advice is given gratuitously. Get some good Scotch or rye whisky, place some quart bottles of Radnor in the ice for several hours before uncorking, place rye and Scotch in different clear jugs, filling up with Radnor, and you are ready to entertain. The mixture served in thin hook or claret glasses will be just as much appreciated as champagne.

BAPTISTS REPORT GRAVELY ON UNREST IN INDIA

Improvement is Noted But Missionary Says he Still Fears an Uprising is Coming.

OTTAWA, Oct. 30.—(Special.)—The work of foreign missions was discussed at the convention of the Baptist Union this afternoon and evening. The foreign field of the church is in India and Bolivia. Last year the largest contingent of missionaries ever sent out by the Baptist Church went to India from Canada. The existing conditions there were described as the source of considerable anxiety to the British Government.

During the year there were widespread discontent in the country, murmurs against the government, serious riots, propagation of seditious writings and a general state of unrest. The discovery of a bomb factory in Calcutta led to confessions which revealed a deep laid plot to create an uprising against the British Government, but, owing to firm action and restraining influences, a better state of things already existed.

As to the causes of the unrest they were attributed to an industrial revolution now in progress in the country. New industrial conditions had pushed many castes to the wall and reduced many to a state of poverty. It was stated that missionary efforts were dissolving the caste system. Additions to the native Baptist churches by baptism during the year were 599, making combined membership at present 593.

Dr. J. S. Evans, Toronto, Dr. J. A. Gordon, Montreal and Wm. Craig, re-appointed members of the foreign mission board.

Rev. A. W. Woodburn, a medical missionary to India, in reviewing the situation there, said that he feared there would be an uprising of the natives in the near future. From a religious point of view, however, good might result, just as in the case of the Boxer uprising in China, where the work of the Christian missionaries had been rendered easier.

Rev. D. B. Harkness, Winnipeg, spoke of the work of the church in the North-west of Canada, tracing its history from pioneer days.

Rev. Dr. Thomas, Toronto; C. Cook, Bradford, without a vote, were elected to positions on the convention home mission board.

STOLEN GOODS QUANDARY.

Prisoner Claims Some and Other Parties the Rest.

There promises to be some trouble before the real owners of the musical instruments alleged to have been stolen by Theodore Winkiehofer from Whaley Royce Co., Limited, have been decided.

Winkiehofer, who was brought down to Judge Winchester's court room yesterday to meet the other claimants, Wood and Plowman, and the Whaley Royce Co.

The prisoner claimed all but a very few things, and Whaley Royce claimed all. Then Woods and Plowman said they had bought a couple of flutes from the prisoner, who said he had made them out of wood belonging to himself, but the Whaley Royce men claimed it was their wood. Finally Winkiehofer allowed Mr. Royce to claim a few things. The others Judge Winchester ordered to be bundled up and kept. As regards the two flutes, the ownership of those will be fought out in the division court. When Winkiehofer gets out of duress vile, he and the musical instrument people will fight it out in court to decide the ownership of the balance of the stuff. That promises to be a long fight, as Judge Winchester resolutely yesterday, the sessions jury, in convicting Winkiehofer, said that he stole only a part of the goods. The prisoner refused to put a value on the goods, so that it is not known in what court the case may come up.

The H. Corby Labels, —what they stand for

Every bottle of Corby's Canadian Whisky bears FOUR labels.

The government label guarantees the age. It reads "Certified manufactured in the year....." and bottled in bond under excise supervision" and is signed by the Deputy Minister of Inland Revenue.

The cork cannot be extracted from the bottle without destroying the government label.

Another label sets forth that the whisky is "Matured as whisky should be."

A third indicates the contents of the bottle to be "Special Selected."

The fourth label brings out the fact that

For over 49 years, the Corby Label has stood for good whisky.

In some parts of Canada, people have gotten into the habit of thinking that any whisky with a Scotch name must be good. Why! half the map of Scotland has been ransacked for fancy names, which in many cases are used to label the rawest of the new Scotch whiskies which are endeavoring to trade upon old Scotch reputations.

The H. Corby label is never found on a bottle of new whisky, and it is scarcely overstating the case to say that you have not tasted Canadian Rye Whisky at its best until you have tried Corby's "Special Selected."

'TIS NOT FOR MONTEITH.

Will Not Become Immigration Director in London.

"The government would have been glad to have his services, but I am sorry to say he is not the man," said Premier Wilton yesterday, speaking of the suggested appointment of Hon. Nelson Monteth to the new office of Chief Immigration Bureau and its work there. Mr. Monteth, it appears, prefers to devote his time to farming, and does not at present aspire to office.

The appointment, said Sir James, would have been made before had the proper man been found. It is possible an announcement will be made next week.

There are three immigration officers in England now who will continue the present methods of visiting the villages and rural districts. Most of the work will be done outside London, where only a small office will be maintained, with probably one clerk.

Mr. Monteth has turned in a full report of all that has been done in England under his term of office. He commends highly the plan of advertising the yeoman and tenant farmer class in England, Australia, Tasmania, New Zealand, and are making strong bids for settlers in possession of \$2500 and upwards, and have adopted many schemes with this object Ontario will not lack attention.

KAISER MAY COME TO CANADA.

LONDON, Oct. 30.—(C.A.P. Cable.)—The Railway Magazine states that when at Kiel in 1904 the kaiser told Archer Baker, M.P., he would visit Canada when steamers could do the trip in four days. Mr. Baker remarks that as these are now possible, we may yet see the emperor a passenger on the all-red route.

NOT DUE TO PROTECTION.

LONDON, Oct. 30.—(C.A.P.)—The Morning Post points out that the Modern Canadian artist in campaign literature would have little difficulty in basing upon discreetly worded evidence of the great Lord Durham charges of graft and boodle not less lurid than elections. This is in answer to the charge that protection has bred corruption in the Dominion.

MRS. ASTOR DEAD.

NEW YORK, Oct. 30.—Mrs. Wm. Astor, who for thirteen years has been regarded as the social leader of New York, died to-night of heart disease at her home in Fifth-avenue. For several weeks Mrs. Astor, who was 82 years old, had been in a critical condition.

# INTEREST TO WOMEN

### MARRIAGE RECEPTIONAL

All wife, all great, whose ancient plan  
Outlived the woman for the man.  
Look down, O Lord, on those who now  
Before Thy sacred altar bow.

Almighty Ruler, in whose hand  
The morrow and its issues stand,  
Whatever the lot Thy will assign,  
We can but kneel, our all in Thine.

Summer and winter, seed and grain,  
The joy unbroken that comes of pain,  
The unknown ill that good we call,  
Thou, O Thy balance meetest all.

Throughout their lifelong journey still  
Guided Thou these two in good and ill  
And, whosoever Thy way extend,  
Be with them, Father, to the end.  
—Austin Dobson.

### Fair of All Nations

The nurses of Toronto are preparing a capital entertainment for the fair in Massey Hall on Nov. 13 and 14. What is known as the Toronto Graduate Nurses' Club has the matter in hand. The title of "Fair of All Nations" has been adopted, and an especially appropriate program is to be carried out. A prominent feature will be the music—an orchestra having been engaged for the afternoon and for each evening a military band. Animated photography on a particularly attractive scale, the funny Marionettes by Prof. Bondo, the clown that has made millions laugh, are a few of the most prominent numbers. A "tag day" similar to that which was recently so successful in the City of Hamilton, and which has become a custom and popular incident in many cities, will be held in conjunction with the entertainment. Twenty-eight nations are to be represented: Ireland, China, Italy, England, Egypt, India, Japan, Germany, France, Turkey, will all have their specialties. Canada will be typified in many directions. Each afternoon and each evening there will be a grand parade of the nations, during which selected national airs will be played by the orchestra or band. The usual stunts will be presided over by fair ladies, including telegraph and telephone stations, a postoffice, Rebecca at the Well, oriental fortune tellers, the mysterious Mrs. Wiggs and so on. From 2 to 10 each day there will be one continued round of fun and enjoyment. The nurses from every hospital and private establishment are interested in the enterprise and anxious that citizens will have a splendid opportunity of becoming better acquainted with these angels of mercy.

### Hallowe'en Games.

A Hallowe'en celebration, at which the Prince of Darkness personally presides, can be made very effective. According to directions given by a writer in What to Eat, the invitations should be written in red on black paper, and the guests should be asked to wear masks.

The hostess should be dressed as a witch in black, with peaked hat and broom, and Satan wears red, with a red mask. There are also various subsidiary fiends (small brothers and sisters) dressed in black, with rope tails, painted cans and teasing forks at the ends of sticks.

A room can be arranged as Hades, or the basement can be used for the purpose, in which case the entrance door can be thrown open at intervals with great effect. A throne of boxes draped in black is erected in the centre of Hades, and on it Satan sits, with a book of record in his lap. A dictionary serves the purpose excellently.

At the appointed time the hostess swings open the gates of Hades or conducts the guests by a circuitous route to the basement. Two friends rush forward, seize a guest and begin to prod him with their forks. Chains clank, groans are heard and the victim is led to the foot of the throne.

Here is where most of the fun comes in, for Satan knows or has been primed with all the interesting facts in the history of each guest. In a hollow voice he reads a list of sins from the dictionary, and all the time the fiends are "torturing" the victim. As soon as one is sentenced to tooth-ache, malaria, unrequited love or headache, another victim is brought before the throne until all have been disposed of.

At supper all unmask. Satan sits at one end of the table and the witch at the other, and there is a gypsy's kettle in the centre, which later emits a ghostly light from burning alcohol sprinkled on salt.

### The Office and the Home.

Woman's World: The case of Mrs. Benedetto Allegretti, as cited in your publication of Oct. 22, is the writer's business, but it has a challenge as an example to the business girls of Toronto, as well as their employers. If the business man compares the neat appearance of his stenographer with that of his wife, or the detriments of the latter, then it is the fault of his wife—not his stenographer. There is no excuse for the woman in the home being slovenly in her appearance, even if she does her own work. What time or opportunity have business girls to think of how they appear to others? They dress in the morning for all day, and never have time to think of anything but their work until evening. It certainly speaks rather ill for the woman in the home if she cannot at least hold her own in her husband's esteem. Her husband is not always to blame, nor yet his stenographer, so let the wife examine herself carefully before she rolls the blame on those who do not deserve it. Let it be remembered, too, that business girls are very often poorly cared

### 12 Tumors Removed Without an Operation.

Silver Lake, Ont., Sept. 20, 1904. Dear Mrs. Curran—An enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and think Orange Lily is the greatest treatment for women the world knows. Its use in my case caused 12 tumors or growths of some sort to be expelled. Some were as large as hen's eggs, and others as small as the size of a walnut. You may see my case in your advertisement, for it is the solid truth, and pen cannot describe all the good it has done for me. Mrs. Louis E. Hildebrand, 1011 St. George St., Toronto. This letter gives an indication of the use of Orange Lily. It is an applied treatment and comes in direct contact with the suffering organs. It produced results from the start in all cases of women's disorders, including painful periods, falling of womb, leucorrhoea, etc. Any suffering woman who has not yet tried it, if she will send me her address, I will send a sample box containing 10 days' treatment, absolutely free, to address, with stamp. MRS. E. P. CURRAN, Windsor, Ont. Orange Lily is recommended and sold in Toronto by the T. Eaton Co., Ltd.

Back From Northern Wilds. WINNIPEG, Oct. 30.—Miss Agnes Deans Cameron, the well-known authoress, has returned from a six month trip through the basins of the Mackenzie and Peace Rivers, accompanied by her niece and secretary, Miss Jessie Cameron Brown. Miss Cameron speaks highly of the kindly relations of Protestant and Catholic missionaries in the northerly wilds.

### LOUD AND HIGH.

An indignant girl:  
With a hyper-magnificent hat,  
And I quite buried behind it,  
I have heard the voice of the fakir  
Faking with all his might,  
The vendor of cat-meat and match-wood  
When London began to grow light;  
I have stood at my window at midnight  
And shied a shoe at a cat,  
Whose pestiferous proclamation  
Was disturbing the neighboring flat.  
I have heard the cry of the oon,  
The call of the lonely loon,  
The snarl of the lusty brat  
Whose mother was drubbing his dusky hide  
Till he didn't know where he was at.  
A woman yelled so loud she broke  
A nickel-steel corset slit;  
An ass brayed out so wild he woke  
A corpse in a medical vat.  
I have listened much bored  
To the rasping word  
Of rangers lean and fat,  
Who could halt a host with their pow-  
erful breath  
Or blow a ball back to its bat.  
I have heard the gang,  
Clang, clatter and bang,  
The thunder and rat-a-tat-tat  
Of the beating drum,  
And the bursting bomb,  
The hullabaloo and the spat;  
The grunt, the guggle, the yelp, the squeak,  
The croak, the below, the blatt,  
The cataract's boom,  
The last crack of doom,  
I have them all perfectly pat;  
But nothing so loud  
Ever awakened a crowd  
As the sick-scraping, ten-storey hat,  
No dynamite smash,  
No thundering crash,  
No snore-see I ever was at,  
Could bust and bumble,  
Could thunder and rumble,  
Explode and resound just like that.  
—Wildbird.

### A Dainty Dressing SACQUE

NO. 5642.

No garment in the woman's wardrobe can approach the dressing sacque in convenience, utility and comfort. A broad collar extending out over the shoulder gives a distinctive air to this one. The back is gathered into the figure and the fulness in front may be confined by a belt or not, just as the wearer decides. Made of French flannel, outing, or, for warm weather, China silk, dimity or lawn, trimmed as illustrated, it would make a charming and comfortable addition to the wardrobe. The medium size will require 3 3/4 yards of 36-inch material.

Ladies' dressing sacque No. 5642: Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

The pattern here illustrated will be mailed to any address on receipt of ten cents in silver.

### In The Churches.

The board of Zion Congregational Church have voted \$1000 to improve the church's working organization under Rev. Dr. Eby, the new pastor. Rechab Tandy has been appointed preacher and soloist.

Revivals, Crossley and Hunter will begin a series of services at Simpson-avenue Methodist Church, Riverdale, commencing to-morrow at 11, 3:30 and 7. The program for the week best read Monday, 7:45 p.m. An Ideal Revival, Tuesday, 7:45 p.m. on Seven Crowns; Wednesday, Wrong Views of God; Thursday, The Way to Heaven in Song and Sermon; Friday, grand rally of young men and women, and all of youthful spirits.

Rev. Kenneth Beaton will preach in Elm-street Methodist Church to-morrow at 11 a.m. Subject, "A Roman's Faith and What Came of it," and Rev. T. E. Bartley at 7. Subject: "Peter's Sign." The sacrament of the Lord's Supper will be administered at the close of the evening service, and there will be a reception of new members on Tuesday evening the Ladies' Aid Society will hold a banquet, followed by a lecture by Rev. Dr. Hazlewood on "A Trip Thru Ireland on a Jaunting Car."

At the regular monthly meeting of the Toronto Rural Deanery, on Oct. 5, the first gathering of the chapter for the season, a resolution was unanimously adopted by the members expressing their sense of the great loss sustained by the church in the deaths of the late Rev. W. E. Cooper, E.D., rector of St. Martin's Church, and Canon Baldwin, rector of All Saints' Church in this city. Both men were widely known and highly esteemed. Canon Baldwin held the rectory of All Saints' for nearly forty years and has left behind him a splendid record of work and devotion to the spiritual interests of his parishioners. The Rev. Mr. Cooper was probably one of the best read men in the diocese. His ripe scholarship and genial manner made him a favorite among all classes.

The Bulgarians in Toronto have decided to erect a church, and a committee have been looking over several sites in the east end, near the corner of Eastern-avenue and Sackville-street. There are possibly 1000 of them in the city, mostly Presbyterians, and the new church will be called the Bulgarian Presbyterian Church of Toronto. Rev. George M. Atlas has received the call.

The Opening will be TO-MORROW—and in a price way it will be unique.

There are Shoes worth \$7 and \$8 in this store, and no shoes worth less than \$5 a pair.

Choose any pair you like for \$3.50.

You'll read of how we bought the Foot-rite Shoes for Men—the fine Napoleon Shoes—bought them at auction at two-thirds their wholesale cost.

And that's why.

This sale will do more to make this Shoe Store known than any kind of publicity we could think of.

We are in a state of unpreparedness at this new store, but we cannot resist the temptation of a busy Saturday.

So we open early and stay late—knowing that the price temptation will compel you to overlook an untidy store.

Right in the midst of the busy hum of preparation—with store fixtures going up and stock being arranged so that the clerks can help you get what you want in a hurry—we tell the plain story of a plain opening sale.

## AT THE THEATRES

The story of "The Chimes of Normandy" has life and action rarely found in comic operas, and which has been enhanced with the charming music of Planquette. Henri, Marquis of Cornville, who has been an exile since childhood, returns to his ancestral home on the occasion of a great annual fair which is being celebrated in the village that received the name from his chateau. The village gossips are assembled, discussing scandal and small talk. Serpolette, a cross between Fancho and Boulette, is the topic of conversation among the belles of Cornville. She appears in time to turn the tables on the others and soon changes their taunts into expressions of rage. Gaspard, an old miser, wishes to marry his niece Germaine to the principal magistrate of the district of Bailli. The arrangement does not suit Germaine nor a young fisherman named Jean Grenelheux, who pretends he saved her from drowning on a certain occasion. To escape from the power of old Gaspard, Germaine takes advantage of the privileges of the fair and becomes a servant of the Marquis. Her example is followed by the principal characters. At this period Henri determines to ascertain the real cause of the ghostly appearances which have long since been supposed to inhabit the Castle of Cornville. He discovers it is all the work of the old miser Gaspard, who has used the chateau to conceal his treasures. The discovery drives Gaspard mad, and he hangs himself for the first time since the flight of the old Marquis, who has been attainted for political reasons.

A grand fête is given in honor of the return of Henri to his ancestral home. Serpolette arrives as a marchioness, as some papers were found in the deserted chateau indicating she is a lost heiress. The miser recovers his reason and shows that Germaine is the rightful heiress. A love duet is formed between Henri and Germaine and a reconciliation takes place between all the parties. The Imperial cast will comprise Miss Carrie Reynolds in the role of Serpolette, Miss Louise LeBaron as Germaine, Mrs. Ruth Leslie as Jeanne, Miss Irene Caener as Manette, Miss Flora Chalko as Suzanne, Clarence Harvey as Notary, Harry Girard as Henri, Marquis of Cornville, George LeSoleil as Gaspard and W. H. Pringle as the Bailli.

The appearance of Miss Reynolds as Serpolette will be of special interest to her many friends in Toronto. Also of noteworthy mention is the appearance of Clarence Harvey, whose absence from the Imperial cast during the past week has been regretted by his many admirers. This production has been staged with special care by Frank Stammers, and promises to surpass his earlier efforts. Unusual credit has been accorded on the Imperial Opera Company by the marked excellence with which the home company presented "The Wedding Day" during the past week. Not satisfied with their triumph in the production of this classical comic opera, the management of the Imperial has selected "The Chimes of Normandy" as the vehicle for the tenth week of their season and will repeat the splendor of stagecraft viewed this past week at the Royal Alexandra.

Frank Daniels, whose very name brings to the face of every theatre-goer in Toronto a pleasant and good-humored smile, is appearing at the Royal Alexandra as a star under the management of Charles Frohman, and will be seen in the Princess on Monday next. With his discernment in such matters, Mr. Frohman has selected for the medium of Mr. Daniels' appearance under his direction, the musical play "Hook of Holland," last season's biggest success, and one of the most attractive musical pieces ever brought to this country by Mr. Frohman. "Hook of Holland" has been produced in its now known as "Hook of Holland," but the story and music remain unchanged. But Daniels is not content with his part as star and play, insuring a delightful entertainment of fun and music.

This musical play belongs in the same class as "The School Girl" and "The Three Little Maids," and other delightful musical pieces that have been popular with American theatre-goers in the past several years. The music and book have both been written by Paul A. Rubens, who gave the public "The Three Little Maids." In "Hook of Holland" he is said to have provided as charming and pleasant melodies as his other works are known to have possessed, and to have furnished a decidedly interesting, romantic story, the setting of which is more quaintly attractive than that of any of the other plays in the same category. "The Three Little Maids" had English environments, the present play has been located in Holland, its scene being laid in Amsterdam, and, therefore, the effects, dresses and stage pictures will be oddly beautiful and have that strange charm for the eye that all Dutch artistic creations possess.

Of the 20 odd songs, there are several that are positive musical gems and that have attained wide popularity, because of their real musical excellence, as well as the novelty of theme and treatment. Among the special favorites are "A Little Bit of Cheese," "Cream From the Skies," "Flying Dutchman," "Tra la la," and "I Want to be Your Wife." The big company contains an unusual number of important principals, among them being: Christie Macdonald, whose impersonation of "Sillie Hook" last season was so highly satisfactory, and who rejoices in the possession of one of the sweetest personalities of the American stage; Adele Rowland, Leslie Stiles, Glen White, Arthur Harwood, Will Eanforth, William Kent, Tom Collins, Edward Burch, Edith Burch, Edith Mar, Floeste Hope, Emily Lee and others.

At the Grand. Wright Lorimer and his production of "The Shepherd King" will be the offering at the Grand all next week, with matinees on Wednesday and Saturday. Of the play and player, Ben Webster, the eminent writer, said: "In Wright Lorimer, who takes the part of David, the spectacle is fortunate in having as its leader one whose personality fits him for so difficult a role. The part of innocent boyhood which turns to deep faith in God, is a part few men could handle with any degree of sureness, yet Mr. Lorimer does, and one can fairly see his face

light up with inspiration. Mr. Lorimer has gathered about him an exceedingly capable and highly trained company, and seeing the play gives rise to a thought: "Visual practicing is always the strongest kind, and dramatic productions instinctively appeal and make the deepest impression. Why not more of these Biblical plays, as splendidly staged and as capably acted as this one, so as to familiarize certain famous passages to all and lead perhaps to a deeper and wider interest in our greatest of all books?"

At the Majestic. The only stage production in the country where the central actors are dogs is in the new sensational melodrama entitled "Messenger Boy No. 42," which comes to the Majestic Theatre next week, opening with a matinee Monday. The play is written by the popular playwright Charles H. Fleming, with the main object of affording the troupe of nine Landseer dogs opportunities to display the remarkable things they can be trained to do. Although the dogs are the central feature in the play, the management has engaged an unusually strong company of players and a number of specialties that are in keeping with the surroundings and plot of the play. Extraordinary efforts have been used in the construction of the scenes and with the mechanical effects introduced. "Messenger Boy No. 42" will prove one of the most interesting plays that are to appear in this popular price theatre this season. During the engagement a matinee will be given every day.

At the Grand. "After twenty-two weeks of success in New York, 'Gris,' the latest comedy from the pen of Clyde Fitch, will be presented under the direction of Sam and Lee Shubert Inc. with the original company at the Princess for Thanksgiving week. 'Gris' tells the story of three young women who come from New York to save a living and with the avowed intention of having nothing to do with the opposite sex. The trio live in a little studio, over the threshold of which they have never permitted a man to set foot. For characters there are the three man-haters, only one of whom, however, is sincere in her intention. The girl succumbs at last to the man who sees good qualities in every male that appears on the scene; the drunken janitor, the bachelor law office clerk, and the other two girls, make up this most amusing of plays. The company that is to present 'Gris' is exactly the same one that appeared during the 22 performances in New York, and comprises Charles Cherry, Florence Reed, Amy Ricard, Ruth May, Harry Ann Brown, Margie Hill, and John Cumberland and others.

At Shea's. Another big bill of vaudeville is promised for Shea's Theatre next week, headed by Angela Delores, who is a newcomer at Shea's. She has a clever company and one of the best sketches of the season in "Cupid at Home." Miss Delores is also credited with being one of the most beautiful women of the vaudeville stage. The special extra attraction Manager Shea has booked for the week is Maggie Cline, the Irish Queen, an announcement that will be received with pleasure. Miss Cline has not been in Toronto in several seasons, but it is said she will sing "Throw Him Down, Me-Clusky." She will not be able to get off the stage without singing it for ever, and she will sing the song that the Irish Queen made famous. Selma Braatz, Europe's woman juggler, was seen in Toronto two seasons ago, and her sensational work is reported to have been repeated in New York. Selma Braatz has appeared in all the European capitals and her act is said to be even more finished and startling than heretofore.

The Elton City Four, one of vaudeville's best comedy singing acts, composed by Messrs. Mills, Girard, Hale and Roscoe, will be another enjoyable attraction. The three Lightions will come in for no small welcome in their One Night Stand in Minstrelsy. These men are being billed by Shea's and their dancing is a big feature on any bill. They have not been in Toronto in several seasons and much new material has been added to their offering. The Wood Brothers are a sensation on their double swinging rings. There is something new to offer this week on the cinematograph. Manager Shea has arranged to announce the presidential election returns from the stage on Tuesday night.

At the Star. Next week the management of the Star will reduce the prices, making the gallery 10c, the boxes 2c and 3c, and the lower floor 30c, 50c and 75c. The same show will be given, but the management is quick to recognize the fact that the working class are not as flush as in former years, yet they must be entertained. W. B. Watson's big show is underlined for the week commencing with a matinee Monday. On Tuesday there will be an extra midnight show given at 10:30 p. m. for the special benefit of those that would like to hear the returns of the United States election. A special wire has been installed and the returns will be read to the audience as fast as they can come over the wire.

Three other special nights are offered. Wednesday night will be no-nonsense night, in which the chorus will distribute tickets to those sitting in the front. Thursday night will be singing girls' night at which all members of the chorus are to compete in a singing contest at which the audience are to be the judges. On Friday night the merry amateurs are down for the weekly troupe.

The bargain matinees are continued with the gallery one while one may procure a good seat on the main floor for 25c.

Parlarian Widows. Beauty, song and fun will be master of the situation next week at the Gayety when the big burlesque revelation, Weber and Ruhl's Parlarian Widows, will appear, presenting a program full of redeeming features, opening with the breezy and timely satire, "The Boarding House," which serves to introduce the entire company in a rapid round of music and song, followed by a splendid olio of high-class vaudeville novelties, including the Auto Hop, Harry Ann Brown, Margie Hill, Edouard, Julia Sinclair, Catherine Howard, Harry Bentley and Burns and McCone. The closing number and particular feature will be the biggest thing ever attempted in burlesque and described as a crystal maze of scenic surprises and electrical effects and called "A Busy Day." In point of costumes, etc., it is equally elaborate, and to say the 24 singing beauties are a treat to the eye and ear is putting it mildly. The extra attraction will be Edward Mackey in impersonation of Pierre, Julia Sinclair, Catherine Howard, Harry Bentley and Burns and McCone. The closing number and particular feature will be the biggest thing ever attempted in burlesque and described as a crystal maze of scenic surprises and electrical effects and called "A Busy Day." In point of costumes, etc., it is equally elaborate, and to say the 24 singing beauties are a treat to the eye and ear is putting it mildly. The committee decided to advertise a narrow strip of property lately secured by purchasing a street in connection with the new Yorkville School site. Building restrictions will be dictated by the committee under terms of the sale. The resignation of Mrs. Alderice, caretaker of the Orphans' Home School, caused a general shift among five caretakers and a new appointment. E. J. L. Leach from Essex to Orphans' Home; J. L. Leach from Rosedale to Essex; A. Ford from Queen Victoria to Crawford; E. Stephens from McCaul to Crawford; Victoria, A. Moffatt from Crawford to McCaul, and E. B. Stewart will be appointed to Rosedale.

The committee accepted the university's offer of the use of the field west of the present technical school free, on the understanding that the sidewalk will be kept clear of snow and the fence repaired.

Hemmed in by the Flames. NEW YORK, Oct. 30.—Hemmed in by flames, and unable to escape from the basement of a business house in Duane street, Henry Jones and David Mahoney were burned to death last night, and William Setsgut will probably die. The men were at work when a barrel of celluloid caught fire. The poisonous fumes soon overcame Jones and Mahoney.

TWO YEARS FOR BLACKMAIL. WOODSTOCK, Oct. 30.—(Special.)—For obtaining \$500 from Charles Damm of Woodstock by threats, Robert C. Cullen, aged 40, was sentenced to two years' imprisonment. Cullen was arrested at Port Huron, Mich.

PREVENT TAKING COLD. When you come home shivering and cold; feet wet, a tickle in your throat—take a stiff dose of Nerville's hot water. Rub Nerville over your throat and chest as well. This prevents a chill and checks the cold instantly. Just as safe with Nerville as with the doctor, so keep it handy. For nearly fifty years Nerville has been universally sold in large lots for ladies.

### A CURE FOR RHEUMATISM

The Trouble Yields to the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Ask any doctor and he will tell you that rheumatism is rooted in the blood; that nothing can cure it that does not reach the blood. It is sheer waste of money and time to try to cure rheumatism with liniments and lotions that only go skin deep. You can speedily cure rheumatism with Dr. Williams' Pink Pills, which enrich the blood, drive out the poisonous acid and loosen the stiffened, aching joints. Hundreds of the thousands of rheumatic sufferers cured by Dr. Williams' Pink Pills is Mr. W. A. Taylor, Newcastle, N.B., who says: "For a number of years I was a great sufferer from rheumatism, which was seated in my shoulders and knee joints. I tried liniments and blistering, but with no effect. In fact the trouble was getting worse, and my knee joints grew so stiff that they would snap if I stooped, and I could scarcely straighten them. I gathered that as a terrible sufferer, and nothing I did or took gave me any relief until I began the use of Dr. Williams' Pink Pills. I took three bottles, and in a few months, and every vestige of the trouble disappeared. That was two years ago, and as I have had no return of the rheumatism, I feel safe in assuming that the cure is permanent."

Nine-tenths of the common ailments that afflict humanity are due to bad blood, and Dr. Williams' Pink Pills actually make new blood, that is the reason they cure so many different troubles, such as anemia, indigestion, rheumatism, neuralgia, St. Vitus' dance, paralysis and other ailments of girlhood and womanhood with all their distressing headaches, backaches and irregularities. Sold by all medicine dealers or by mail at 50c a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

CHEERFUL AND BRIGHT WITHIN HOSPITAL WALLS

Thirty-Fourth Annual Meeting of Hospital for Incurables.

The thirty-fourth annual meeting of the Hospital for Incurables, Dunn-avenue, Parkdale, proved a most interesting function yesterday afternoon.

Dr. B. R. O'Reilly, medical superintendent, reported that there are 141 inmates, the full complement.

Miss Forsyth, who became lady superintendent five months ago, spoke of the surprise visitors often express at finding the institution one of cheerfulness and comfort.

Among the number who passed away during the year was a patient who had been in the hospital for over twenty-seven years.

Of the 141 patients many are perfectly helpless. The patients are cared for by a staff of twenty pupil nurses and four orderlies.

Miss Groat, secretary-treasurer, presented the financial statement. The statement showed an expenditure of \$30,821.88, which leaves a credit of \$41,955.89.

Canon Cody said that no institution could call for more tact and patience than this. The institution is absolutely self-sufficient.

While we are all becoming more and more tinged with socialism, while we are all becoming more and more tinged with socialism, while we are all becoming more and more tinged with socialism.

When placed in the witness box yesterday Patrick Boylan, the foreman in question, swore that he saw Caffey using a hammer and chisel on the cat, which is against the rules for that class of work.

Recalled, Caffey swore he was not working at all where Boylan says he saw him.

BUSINESS MEN AT LAW.

Three Cities Interested—A Witness Who Won't Tell.

Yesterday afternoon Justice Britton sent the James Strong-E. Van Allan case, which had been started at the non-jury assize court, over to Osgoode Hall, where he will continue the hearing on Friday next.

The case arises out of a deal by which the Van Allan Whitewear Company of Hamilton became the property of a firm of which James Rogers of Montreal is the president.

Witnesses DON'T AGREE IN BIG DAMAGE SUIT. Patrick Caffey's fight with the Toronto Railway Company for \$10,000 damages for the loss of his right eye ended in the non-jury assize court yesterday, but Justice Britton, who has been hearing the case, reserved judgment.

When placed in the witness box yesterday Patrick Boylan, the foreman in question, swore that he saw Caffey using a hammer and chisel on the cat, which is against the rules for that class of work.

Recalled, Caffey swore he was not working at all where Boylan says he saw him.

The National Business Methods and Publishing Company

General Office--Pearson Chambers, Adelaide Street East TORONTO, CANADA

Lord Milner is reported to have said on the 21st instant that there is an increasing tendency for British capital to be invested in Canada, and that from his point of view it is desirable to direct British capital to parts of the Empire.

Representatives from some of the largest publishing and subscription firms in the world have visited Canada during this year. Included among the number are Mr. Arthur Berrill of Gordon & Gotch, Mr. Arthur Spurgeon of Cassell & Co., Ltd., Mr. E. Wrench of the Amalgamated Press, Ltd., and of course nearly everybody knows that Lord Northcliffe has just visited Canada.

THE NATIONAL BUSINESS METHODS & PUBLISHING COMPANY is a corporation organized and existing under the laws of the State of New Jersey. It has a capital stock of \$50,000, divided into 50,000 shares of a par value of one dollar each.

NELSON, Frederick, Publisher, 57 Carlton Street, Toronto, Canada 333. FURMINGER, Stephen E., Business Manager, St. Catharines, Canada 333. ARTHUR, Hugh, Gentleman, Jarvis Street, Toronto 334.

THE COMPANY'S BUSINESS. The Company has acquired from the National Business Methods Company (founded by Frederick Nelson in 1907) all the assets of the latter Company.

Form of Application. To the Directors of the NATIONAL BUSINESS METHODS & PUBLISHING COMPANY, Pearson Chambers, Adelaide Street East, Toronto, Canada: I, the undersigned, do hereby subscribe for and request you to allot me shares of one dollar each of the Capital Stock of the National Business Methods & Publishing Company upon the terms of the Company's prospectus, and I agree to accept the same.

The British are generally favorable to investing in Canada. Lord Northcliffe said to the Canadian Club on the 23rd instant: "Tread the British investor well. Remember that stock, unlike gardens, needs no watering, and the question of capital, generally the most burning in new communities, will not disturb you."

PROSPECTUS. Business Recorder and Calculating Pad. This Recorder has been generally canvassed only in and near Toronto, and several hundred copies at the retail price of \$2.50 have been sold.

Shares, Etc. The Company entered into a contract on the 28th July, 1908, with Frederick Nelson and Stephen E. Furminger, who formerly owned the National Business Methods Company, for the purchase of the assets of the said Company for the sum of five thousand dollars.

The Company has issued 9025 shares, 7000 of which represent property, goodwill and promotion and 2025 cash. On the latter, \$700 are owing to the Company, to be paid in November, 1908.

The Company has not yet appointed a Fiscal Agent for Canada. The Company requires capital to further extend its operations and maintain special travel agents and representatives to publish various works, trade journals and magazines.

To Investors. In offering this stock to the public, the Company believes it is giving an excellent opportunity to secure satisfactory dividends on a moderate investment with little risk.

Form of Application. To the Directors of the NATIONAL BUSINESS METHODS & PUBLISHING COMPANY, Pearson Chambers, Adelaide Street East, Toronto, Canada: I, the undersigned, do hereby subscribe for and request you to allot me shares of one dollar each of the Capital Stock of the National Business Methods & Publishing Company upon the terms of the Company's prospectus, and I agree to accept the same.

EXTEND TEMPERANCE ST. SAYS WORKS COMMITTEE

Hon. Rodolphe Lemieux Leaves on Important Mission. OTTAWA, Oct. 30.—Hon. Rodolphe Lemieux left this afternoon for England, with the object of negotiating for the penny-a-word cable rate between Canada and Great Britain.

Run Down

If your doctor says take Ayer's Sarsaparilla, then take it. If he says anything better, then take that. If you are all run down, easily tired, thin, pale, nervous, go to your doctor. Stop guessing, stop experimenting, go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alterative, an aid to digestion.

DO YOU WANT A HOME?

Pay for a good 160-acre farm from this Winter's clearing—\$1.00 per acre for the land (Crown Deed with mineral rights included when the Government settlers' conditions are complied with) and a cash market pledged for your entire timber cut. Follow other settlers who have accepted our offer.

THE COMPANY'S OFFER

Three Townships of finest clay land in Northern Ontario are offered for sale at \$1.00 per acre, on easy payments and performance of settlers' conditions. The Ontario Veteran Lands Company, Limited, are selling 160-acre farms in the Townships of Taylor, Carr and Beatty, in best section of New Ontario.

A GOOD CLAY COUNTRY

The soil throughout these three Townships is the finest clay land one can see anywhere in Canada. The land clears easily, as the roots are near the surface, while the drainage by the Black River and its branches is the best. Most of the timber is spruce, an ideal growth for pulpwood.

DO NOT DELAY

The Company's offer is open for those who apply right now. Call or write for fuller particulars at once, as the early choice of locations is the best. The offer affords an opportunity to acquire a splendid home and a life

TRANSPORTATION The Temiskaming and Northern Ontario Railway crosses this tract of land after passing through the Towns of Cobalt, Halleybury, New Liskeard and Matheson (formerly McDougall Chutes). The Black River, which flows through the centre of these three Townships, is navigable, and its banks are most fertile.

THE CLIMATE

The Winter months in these Townships are clear, cold and quiet, while Summer days are long and warm. There are practically three hours more of sun time or growing time in this latitude than there is in Old Ontario. The soil will grow anything that Manitoba can produce, being considerably south of the latitude of Winnipeg. The profits from the timber will furnish an income for the settler from the start.

Trading Most Erratic Prices Without a Trend

Wall Street Starts Out Active and Closes Dull - Strange Actions at Toronto Market.

World Office, Friday Evening, Oct. 30. Pools were not embarrassed by any offerings of moment today and this position left an opening to advance prices to the satisfaction of those attempting to distribute stock. The demand for securities listed at present in Toronto Stock Exchange is at present in fact of the brokers are not in actual touch with current quotations. The advances in Toronto Electric and Northern Railway were brought about on very minor offerings, but the bids for either these or several other stocks did not substantiate the transactions. The whole market is an anomaly to be explained by the almost absolute lack of interest by those who provide substance to the market. At the close prices were firm on paper rather than as actuality.

John D. Rockefeller comes out for Taft. President Roosevelt thinks Taft will be elected by a larger majority than he was in 1904. Estimated that railroads lost in last fiscal year \$30,000,000 in gross and \$20,000,000 in net. Increase in Steel orders during present week reported. Cast Iron Pipe is operating 75 per cent. of capacity. Money hardening temporarily in London on account of requirements for end of the month. President Finley of Southern Railway says conditions are better now than any time since business depression started.

Twenty-five roads for second week of October show average gross decrease of 3.2 per cent. Regular dividend in Norfolk & Western common. Regular one per cent. quarterly dividend on Con. Gas. Board talk of increase in dividend on Cotton Oil and tip on St. Paul. John R. Stanton says copper situation is strong, with prospects of still greater improvement before end of year. There is no evidence that large foreign buying is for speculative purposes. Home consumption is from 75 to 80 per cent. normal and production of five copper by Jan. 1 does not seem far fetched. Joseph says: The big capitalists continue moderately active on the long side of the market, and between this and the close on election eve they expect higher prices to be recorded for the standard issues, with Pacific and St. Paul the leaders. Do not be afraid of vital importance. These are going much higher. B. & O. is comparatively scarce. Buy Hill issues and Rock Island.

Continuance of bullish operations along the lines of those of yesterday reported to be the plan for to-day. Reasonable part profits should not be neglected on bidding above the highest made again on moderate recessions. Low priced stocks are reported near renewed activity. Political developments this morning do not appear to have influenced the betting in favor of Taft and Hughes shows a stronger drift of sentiment for the Republican candidates. Latest reports from Union Pacific, Atchison, Southern Pacific, Reading and Northern Pacific in particular. Amalgamated and Smelters are now reported as the best propositions among Industrials. Rock Island preferred may have a shake out before going much higher. Financial News.

All sorts of bullish reports are current in the street now the Union Pacific statement is out. This stock continued the leader towards noon time and easily rallied above the highest prices of the first hour. We believe Union Pacific will sell very much higher before it suffers an ymateral reaction. There is not such a floating bull interest in it at present, especially since the realizing earlier in the week to justify the insiders in allowing it to slump. Nor is there any particular reason to believe that the convertibility of the bonds at 175 will mean any strength to the advance at this figure. We think now that Union Pacific will go well on to 180 on this

THE DOMINION BANK PAYS SPECIAL ATTENTION TO SAVINGS ACCOUNTS

BUYERS DO NOT COME IN ON ADVANCES. World Office, Friday Evening, Oct. 30. It is characteristic of the Toronto exchange at present that some securities can be advanced on small purchases, but that at the advance there is no demand for the shares. The only explanation of this is that the buying power locally is either used up or that the speculative sentiment is too apathetic to take any interest in the general market. Several strange movements in the prices of stock occurred to-day, and such as do not accord with the general condition of the market. The whole market is thoroughly inactive, but inside interests are strong enough to hold prices under current realizing.

COBALT---Substantial Buying in Silver Queen and Amalgamated---COBALT

Cobalts Continue Strong At Prevailing Prices

Practically Every Stock is Booming, While Little Nipissing, Silver Queen and Temiskaming are Features.

World Office Friday Evening, Oct. 30. There was an exceptionally strong market in Cobalts to-day, but as this has been the case for some days past, a feature has indeed to be a feature in every sense of the word.

Practically every stock on the list is booming beyond expectation, and there is every indication of a general advance.

The morning session of the Standard was lengthened until 12:30 to-day, and the amount of business accomplished demanded the extra half hour.

Chambers-Ferland was strong at 1.04, and it is reported that two new veins, four and five inches wide, have been discovered on this property, though enough work has been done on either of the veins to determine their value.

In Montreal, Chambers-Ferland was strong, and Little Nipissing sold at its figure here--50.

Temiskaming held out very firm at 158 and 159 in the morning, but at the afternoon session advanced as high as 170, and several sales were made at this figure.

On the Toronto Exchange, Nipissing sold at 97.5, and five shares went at 10. Altogether 1255 shares were dealt in.

Silver Queen was bought by substantial interests in small amounts, and the scarcity of the stock was clearly evidenced by the further advance of three points.

Amalgamated was in good enquiry, and the confirmation of the rumored finds in this company's property brought about several substantial investment purchases, which were clearly evidenced by the further advance of three points.

The advances in Temiskaming and Crown Reserve were largely due to operations of the large holders, but the outside buying advanced as high as 6.25, regardless of anything except the situation of the stocks in the market. New York was a considerable buyer of shares to-day, and this demand is expected to be more heavily felt next week.

ORDERS AT THE MARKET.

The Only Method of Getting Rid of Present Congestion.

Congestion in the dealings in Cobalt stocks largely owing to set prices being made by the public, both in buying and selling orders. Brokers spend a large part of their time trying to fill orders for clients at stated prices, when, if the orders were made at the market, fractional changes might occur, but the orders could be executed without delay. As the brokers are only interested to the extent of commissions, they would take care to secure as good fillings of orders as possible in order to retain the confidence of their clients. At the close of the exchange it was estimated that not 40 per cent. of the business started in books of brokers had been filled during the day.

LA ROSE REPORT.

Showing of Company Must Prove Gratifying to the Shareholders.

Since Mr. R. B. Watson took the position of consulting engineer, June 1, 1908, the development of the LaRose property has been encouraging. Several new veins have been encountered on the LaRose, Princess and University properties, which promise to add materially to the ore reserves.

On the La Rose, Tunnel No. 10, is developing good results. The assays show a width and assay in the neighborhood of 4000 ounces. The showing at the University is gratifying. Here two strings have been encountered, two inches in width, an average sample of which showed 4054 ounces of silver per ton.

Prior to June 1, 1908, at which time the Consolidated Company acquired its interest and the properties started with a clean sheet, 2,675,161 ounces of silver had been produced mostly from development work, giving the owners net profits of \$1,204,882.

Since June 1, 1908, the net earnings have been most gratifying. For the months of June, July, August and September, approximately 1,034,742 ounces of silver were produced with an estimated net profit of \$415,630, or at the rate of more than \$100,000 per month. A quarterly dividend of 3 per cent. on the rate of 12 per cent. per year was paid on Oct. 21, 1908. A net earning of \$57,000 per month is required to maintain this dividend.

The present policy of the company is that during the winter months mining operations will be carried on with a view of maintaining net earnings which will be continued and the dividend rate to be systematically and thoroughly carried on development work, not only on the LaRose mine, but on the other holdings of the Consolidated.

Cobalt's First Transaction. The Temiskaming Herald says: Mr. Jack Wallace of Toronto, of the firm of Wallace and Eastwood, who are opening a special stock exchange in town, is well known in this country. He was in the timber business here before the Cobalt stock days commenced. It is rather curious to note that the Cobalt Exchange opened for the first time the first transaction was made by Mr. Weaver for Mr. Wallace.

Some Cobalt Figures. Cobalt is to-day the greatest silver camp in the world. The steady increase in the production is shown by the following: 1904, \$136,217; 1905, \$1,485,570; 1906, \$3,728,908; and 1907, \$6,476,555. It is

INTEREST IN DISTRICT OF MONTREAL RIVER. C. M. Clinton Says There is a Great Deal of Work Going on There Now. From Toronto Evening Star. Mr. Charles M. Clinton of New York was registered at the King Edward Hotel yesterday. Mr. Clinton and his associates of New York are interested in a Montreal River silver field, and have done a good deal of development work in the park in the last summer. He talked about the district to the Star representative last night. "There is much interest being taken in the Montreal River district," said Mr. Clinton, "and it is increasing as a result of the wonderful Otisse property. I was on the property last Friday with Mr. Robson of the Kerr Lake Mining Co. They are working the Otisse vein, which they have recently discovered. The Otisse vein is very rich, running probably 3000 ounces of silver to the ton. The rock between these two veins is shot through with silver, and every fracture or crevice is filled with either native silver or argentine, which is one of the richest forms of silver, running about eighty per cent. silver. Mr. Robson said it was one of the most remarkable showings he had ever seen in his life. They can easily take out the silver shot rock between the walls and ship it, and it will undoubtedly run high in value. One important point is, that the Otisse veins are in the gabbro formation, and they invariably run deep in that formation. You might say something about the condition of roads. Good roads are urgent necessities. The government is building a good one from Earleton, via Silver Lake, where the Otisse is located, clear thru to Gowganda. This will be of great assistance, but there are numerous places where good mining properties are being opened up where no roads are provided, and it is a hardship to the enterprising people who are opening up the country. "Elk Lake City is booming. Every lot in Smythe, which has become the centre of business, has been sold out. Prices are advancing every week. Smythe is the business centre, but the postoffice is still called 'Elk Lake.'" Mr. Clinton went north last night.

# COBALT---Temiskaming and Crown Reserve Make New High Record

## VISIT VICTORIA MINES.

Party of New Yorkers Inspect New Finds on This Property.

M. E. de Aguiro of New York and other owners of the Victoria Mine have just returned from Cobalt and are very enthusiastic over the new discoveries on this property. The party have visited Cobalt with a view to heavy investments.

The location of the Victoria, lying as it does adjacent to the O'Brien and King Edward Mines, was sufficient to warrant the heavy expenditures made by this company in developing the property.

This company offers the best example known in the camp of the wisdom of keeping to work. After months of heavy outlays of good solid cash the new veins have been located which have made a mine of the Victoria and the company is in position to get out the ore and make shipments.

Two parallel veins have been found that are only between three and four feet apart, and in addition a series of calcite veins lie close to the two veins.

These will all be worked from the No. 4 shaft, and each of the veins in this question carries native silver and high silver values. Assays show from 1000 to 2000 oz. of silver to the ton.

No. 4 shaft carries one of the veins on side of wall, and the other is in about the centre of the shaft. A good plant is in operation, consisting of two 50 horse-power boilers and a 6-drill compressor, and good buildings were put up last winter. Twenty-seven men are working double shifts, and Capt. John Harris has charge of the mine.

Frank Burr Mesure.

## INTRINSIC VALUE COUNTS.

Chambers-Ferland Advances on Actual Investment Demand.

Chambers-Ferland held exceptionally well in yesterday's market. There was some realizing of profits by speculators, but all the sales were absorbed without difficulty. This issue is not being bolstered up for market effect, and any increase in the price of the stock is entirely due to a recognition of the intrinsic value of the shares. Yesterday's purchasers were those who look at the value of the property rather than the immediate market value of the shares. Chambers-Ferland is regarded as the most conservative investment in the Cobalt market.

## WILL MONOPOLIZE ATTENTION

New York Experts. Cobalt Will Be Leader in Public Favor.

Chas. Nevins & Son of New York in their weekly letter says: Interest in the Cobalt shares has shown a remarkable increase, both in Canada and in this country, during the last two months. The opinion is growing in mining circles that another Cobalt boom will develop after election similar to that of 1906, but that this boom will rest on very much more solid foundations than that of two years ago, which was largely speculative. At that time the Cobalt Camp was practically in its infancy, and most of the properties were mere prospects, Nipissing being then the only public corporation that was paying dividends. Now there are thirteen dividend-payers in the camp and the list is constantly being added to. In that year the total output of the Canadian silver district was valued at \$3,900,000, this year the camp is expected to market about \$15,000,000 worth of the white metal. The present activity in the Cobalt shares is based largely upon the development work at depth, notably in the Kerr Lake District, where in the past few days the Cobalt Central Mines Company and the Temiskaming have opened up at considerable depth two of the largest and richest veins yet discovered in the district. The general belief among mining engineers is that the deeper the shafts are sunk, the richer and more permanent will be the ore bodies found. All recent development has confirmed this theory. The general feeling in Wall-street is that the mining shares will largely monopolize public attention this winter and that the Cobalt stocks will be the leaders in popular favor. There has already been an awakening of demand, both here and in Can-

## AMERICANS PREPARED.

New Yorkers Are Getting Interested in Montreal River.

John Campbell of Jersey City had some good things to say about Cobalt Camp, when he stopped off in Toronto yesterday on his way down from the mine.

## WILL RESUME OPERATIONS.

Cobalters Are Pleased With Resumption of Work on Amalgamated.

COBALT, Oct. 30.—(Special.)—The report that the Amalgamated Company will resume operations was received in Cobalt with satisfaction.

The location of this property, lying as it does near Coniagas, Trethewey and other good shippers, warranted the local investments made. Supt. Fowler was a first-class man and there is no reason why the Gamey and this district of Amalgamated's holdings should not make good.

The recent discovery on the other property was one of the best made in the camp during the summer, and the Nipissing is working it on their land. The ore is high-grade, and a rich shipment should be made by mid-winter.

## Interest is Widening.

R. R. Bongard, Canadian manager for the firm of Chas. Head & Co., has returned from a visit to New York and Boston. Mr. Bongard reports a widening interest in Cobalt securities on the American market.

Referring to Cobalt Mr. Campbell said that he did not care for the term "camp," and that he heartily agreed with the Toronto brokers who said

"Cobalt is a permanent residence for mines."

The recent visit to Cobalt is not the first one made by Mr. Campbell, and the progress being made along substantial lines did not actually surprise him—he expected it—but he was greatly pleased and in an unselfish sort of way referred to the fact that Canadians were just waking up to the possibilities of that northern district.

Mr. Campbell said that the New York market for Cobalts was in its infancy.

## TORONTO COBALT NEWS BUREAU

83 YONGE ST., TORONTO. SAVING MONEY.

Assuming that the Victoria and Alexandra Industrial schools have been directly responsible for the closing of the Penatung Industrial Refractory, President Beverley Jones of the Industrial School Board estimates that the City of Toronto has saved \$15,000 in five years, and the Province of Ontario \$20,000 a year, and the board decided yesterday to ask both the city council and the legislature for considerably increased grants.

The need of a new building for the Alexandra School was emphasized in the report of Miss Parrott, superintendent. There were eighty-nine girls in attendance, and the institution was very much crowded. The new building, which was designed to accommodate thirty girls, was at present housing forty-seven. Mrs. Robert Kilgour declared that under the present conditions there were several girls attending that should not be permitted to remain unless some facilities for isolating them from the younger girls could be provided.

J. J. Kelso had been informed of the conditions, and agreed that increased accommodation was imperative. Superintendent Perrier's report on Victoria School showed 223 boys in residence on Sept. 1. Eleven more have been committed since, and two who escaped early in the summer returned. Eighteen were paroled. Of those committed, three came from Toronto and one each from East Toronto, Peterboro, Brantford, Cobourg, Hastings County, Middlesex County and Simcoe.

Mr. Perrier recommended the expenditure of \$5000 towards furnishing the industrial departments, of which \$2000 goes to the printing office.

## What Science is Doing.

For the past ten years scientific men all over the world have been experimenting to find the relation of electricity to the human body, and they have unanimously declared that the vitality of the body—the force that keeps us alive and runs the varied organs, is electricity. The food is digested by the electric action of the stomach, the nerves kept alive and active by it, and the circulation and condition of the blood and health of the organs depend upon it. Then if you are weak in any organ, if you have pains and aches, rheumatism, nervousness, sleeplessness, dependence, drains or other vital weakness; if you feel tired and worn out and do not get the rest from your sleep that you should, the supply of vitality in your system is low, and can be restored by the proper application of electricity. Infuse this great power of Nature into your body and be strong and healthy. No matter what else has failed, it will give you the strength to supply any waste.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and you can

## PAY WHEN CURED.

The majority of people who are afflicted with any pain or weakness turn to drugs for relief, but drugs do not contain the power to give the weakened nerves and organs the strength they need. They can stimulate them, but the stimulation soon wears off, and the trouble returns. Electricity is not a stimulant, but a cure. It cures by giving new power to the nerves and organs, and when they possess sufficient energy there can be no trouble.

In my Belt you have the best means of applying electricity, and with it we have cured thousands of cases where all other help had failed. There is no inconvenience in its application, no stinging or burn, but it is given into the nerves in a gentle, soothing manner, and cures to stay cured.

### WHAT CATTLE TO PURCHASE.

The Breeder's Gazette of Chicago, a recognized authority on Shorthorns, recently advised young farmers to select breeding stock for the founding of a Shorthorn herd while prices are low.

The young man, after being impressed with the business and having decided to start a herd, has to face the question of how best to begin. Is it wise to purchase young stock or breeding stock? Should I begin with many or a few? Upon the careful answering of these questions depends future success. It is now recognized among business men that the best has often been made in the Shorthorn business slowly. Even with plenty of capital it will pay the beginner, to make his way carefully. He will learn by experience many things he already thinks he knows well.

But there are a multitude of young Canadian farmers whose capital is small and limited and yet who desire to get into the breeding business. To these we would say, buy a good breeding cow, rather than a calf or heifer as yet untried. In making your choice individual merit must come first and blood lines afterwards. To purchase females of breeding age with calves at foot or safely in calf to sire that are bred right to nick with them—to secure the best mating requires hard study and close observation and unless the beginner is willing to devote the closest study to the various problems confronting the breeder, he would do well to stay out of the business.

The purchase of an old cow at an auction sale has often been attended with success, but it would seem the better part of discretion to buy a young cow just in her prime for business. But shrewd buying is as necessary as shrewd selling and the novice can often guide himself by watching older buyers around the ring.

While now is evidently a good time for buying purebreds, it is just as necessary to make extra careful selections for the best goods will always sell. The small but choice herd is the one for the most money.

### CLYDESDALE ILLUSTRATION.

The illustration on this page is one of the products of that Clydesdale Station Two-in-One, owned by Graham Bros. The get of this horse turned out to be exceptionally fine animals. While this cut is of Mr. Reagin's first prize winner at Toronto last year, a half sister is owned by Mr. T. W. Osborne of Elmham, and is almost a reproduction of this photo. Mr. Osborne has a prize winner in this market and will no doubt yet be heard from.

**A FINE FARM.**

Attention is directed in this issue to the auction sale of the estate of the late W. J. Pickering, of Pickering. Besides household goods, horses, carriages, etc., Mr. George Jackson will put up to the highest bidder that magnificent farm situated about one and a half miles east of the Village of Pickering. The farm consists of 150 acres fronting on the Kingston road, and well supplied with water from wells and springs. The land is very productive and has produced some of the best crops of any farm in the neighborhood. A large field of permanent pasture constitutes the greater part of the land in the place. A brick house with a frame house for a man, bank-barns and driving sheds, and a small orchard, make this an ideal spot for a farm residence. A school is situated across the road. A fine row of old maples leads up to the brick house, and with a well equipped for repairs, this farm would be one of the finest in the township. The terms of sale will be made known at the sale, and it is quite certain that very favorable terms will be possible. Trains arrive from the west at 8:20 a. m., and from the east at 8:40 a. m., at Pickering station. Mr. Reagin's horse is always ready for passengers and is landed at the farm in time to make a survey before the time for the sale, which is in the afternoon. Next Tuesday is the day.

### DISNEY'S SALE.

Breeders and general farmers do not want to miss J. E. Disney's dispersion sale at Greenwood on Monday next. As Mr. Disney is moving away from the township and quitting farming, everything has to be sold.

His Shorthorns are such a choice lot that parties wanting a good breeding animal will find their satisfaction here. Every cow is a good breeder, and also a good milker.

In Imp. Lady there is a big strong young cow, that has no trouble at all to produce good calves yearly. A Duchess, safely with calf, and a party wanting a good breeding animal will find their satisfaction here. Every cow is a good breeder, and also a good milker.

Men who study closely the finance of the country believe that these comparisons clearly justify the conclusion that the credits and the business conditions of the country are fundamentally sound, and that there is no reason why general financial and commercial conditions should not go on steadily gaining.—Chicago Live Stock World.

## The Farmstead.

Remember Disney's sale. Plowing will be rushed now. Reagin's farm at Pickering will be sold by auction on Tuesday. It's a good one.

Plowing matches take place to-day in South Ontario, and at Malton.

Sell off all the old hens whose years are a hindrance to their usefulness. Long spurs do not make eggs.

The Women's Institute of Pickering met at the home of Mrs. Wright on Wednesday. The next meeting takes place to discuss end of the year problems.

Mr. Walter Day, a student of the O. C., last summer supervising the digging and laying of 21 miles of ditch on the Oster farm at Bronte. W. D. Brecken, the manager, will be glad to give any information concerning the work.

William Heap of Manchester, Eng., is to judge the grand and first-class classes and the championships at the International Exhibition of Butchers' Cattle at Chicago. He is a man of large practical experience in the meat trade, and is president of the National Federation of Meat Traders' Association.

The Hampton Women's Institute will meet on Thursday, Nov. 5, at the home of Mrs. Charles Stonehouse. The institutes are doing a good work with their funds and everyone should seek to make their share.

Peg, a \$500 white Orpington hen owned by Ernest Kellerstruss of Kansas City, Mo., is perhaps the finest specimen of fowl in the world, says an exchange. The hen is highly valued because she has won blue ribbons and first awards at poultry shows in London, New York, Hongkong, Honolulu, Chicago, and at the Jamestown Exposition. The hen scored 94 perfect before judges appointed by the American Poultry Association. The hen is given daily baths, her toes are kept pink and her legs and hock manured almost every day. She has every care and attention that an expert valet can give. Recently Mrs. Paderevski visited Mr. Kellerstruss and paid him \$7500 for five chickens. She offered \$5000 for Peg. Mr. Kellerstruss sells some eggs for \$150 a sitting. She lays 225 eggs per annum.

Husking reports of corn coming in from Illinois, Iowa and Missouri show very disappointing results, says the Live Stock World. In Iowa, the corn was said to be turning out 10 per cent less than expected, and the advices from Missouri and Illinois points were to the effect that yields were much less than expected. The question of an early movement of corn from these sections or not is mainly a weather proposition. With good weather the movement will undoubtedly be larger during November and December than has been the case heretofore. It is expected that the market for corn freely, but that farmers owning land will be slow to ship unless prices are satisfactory.

### ANNIVERSARY OF THE PANIC.

Independent of election theories or prospective business booms, the contrast of financial conditions now with those of a year ago, inspires increased faith in values of securities. A year ago this week the "bankers' panic" began. The upheaval started with the trouble of the National Bank of North America. It did not end until the bank in New York had closed their doors and practically every bank in the United States had suspended payments. Currency went to zero. Business was paralyzed for a few days. Every man in the country scrutinized credits closer than ever before, and practically refused to make any new extension of credit. About 300 millions of new currency in the form of imported gold, new national bank notes, government deposits and clearing house scrip was poured into circulation before the emergency was met and the crisis was passed. It was universally conceded that there had been a dangerous inflation of credits and an unknown amount of unsafe financial transactions. The anniversary of such a crisis naturally has caused some retrospection and some comparisons of conditions now with those of a year ago. It is found that of the 15 banks in New York that closed their doors a year ago, all except one have either resumed business or paid its depositors in full, and that one has paid 90 per cent, and probably will pay the balance. There was a similar experience in the country at large. The test of strength last year resulted in the closing of only 117 of over 6500 national banks, and most of these resumed operations. Moreover the afternoon of the panic was nothing like as serious as is now feared. At the present time the national banks of the country have 228 millions more individual deposits than they had just prior to the breaking out of last year's financial disturbance.

Men who study closely the finance of the country believe that these comparisons clearly justify the conclusion that the credits and the business conditions of the country are fundamentally sound, and that there is no reason why general financial and commercial conditions should not go on steadily gaining.—Chicago Live Stock World.

### MARK WILLIAMS GOES WEST.

Mr. M. D. Williams of Bowmanville, well-known all over Ontario as a cattle exporter, has accepted a managing position in the National Bank of Alberta, and leaves for there very shortly, to assume control. His beautiful residence and household goods are offered for sale on this page.

### WOODSTOCK MAY GO DRY.

WOODSTOCK, Oct. 30.—Petitions signed by 325 electors of Woodstock were this afternoon put into the hands of City Clerk Morrison, asking the city council to submit to the electors at the January municipal elections a bylaw for cutting off any hotel and shop licenses in the city. There are nine of the former and two of the latter.

### This Will 50 Years Old.

Letters of administration are asked in the surrogate court for the estate of Angus Bethune, who died in Toronto on Nov. 13, 1858, that is, 50 years ago, leaving an estate of \$23,838.14. In Mr. Bethune's will, which was probated at that time, he left James G. Chewitt, Lewis Moffatt and Peter Paterson, all of Toronto, executors. None of these gentlemen would act, so Dr. Norman Bethune became executor. After partially administering the estate Dr. Norman Bethune died on Oct. 12, 1902. Now the Rev. Malcolm Nicholson Bethune of Owen Sound, the grandson and only heir of Angus Bethune, has asked the Union Trust Co. to act as administrator, and the Union Trust Co. is applying.

### Noted Dentist Dies in Orient.

ST. LOUIS, Oct. 30.—A cable announces the death by hydrophobia in Shanghai, China, of Dr. J. Edward Hall, one of the best known dentists in the orient. Dr. Hall frequently was called into service by the Chinese mandarins, and also by the royal family of Siam.

### Decide to Dethrone Sultan.

PARIS, Oct. 30.—A despatch from Smyrna says that the young Turks, believing that the sultan has a secret agreement with Tewfik Pasha, the foreign minister, have decided to dethrone him, and replace him by his third son.

### STEEL MILL FOR COBOURG.

Erection of Buildings Will Begin Shortly—Ask Exemption.

COBOURG, Oct. 30.—There is every prospect of a steel rolling mill locating here at an early date. The company who are arranging location ask for exemption from taxes and a fixed assessment upon their plant for school tax purposes, erecting three buildings at once, and will be ready next week if their proposal is sanctioned by the town. The largest of these buildings to be 120 by 30 feet. They promise to employ thirty-five hands at first and more as they increase their plant. Petitions are being circulated for the signatures of property owners as the town engineers are offering the exemptions which the company ask. The company already have an option on a site.

## A WELL MANAGED FARM

### VAN HORNE'S PLACE

A Short Description of How the Affairs are Managed on This Big Shorthorn Estate.

Sir Wm. Van Horne's big farm at East Selkirk, Manitoba, is little known to Ontario readers. Perhaps more so is the genial manager, Mr. James Yule, who has figured in Shorthorn circles for some time. In writing about this farm, a western exchange says that it consists of 6000 acres of stone scrub land, lying 20 miles northeast of Winnipeg, and it is chiefly known as the home of the famous Shorthorn herd which has captured so many prizes at all the big shows from Toronto westward in the name of Sir Wm. Van Horne.

#### A Thoroughly Worked Farm.

When the writer and a friend recently climbed off a mixed train a few hundred yards from the farm buildings, being quite unannounced, we explored around the farm alone. It must be as one might expect, a well-managed and managed by Scotchmen, the work was proceeding quietly and steadily, and the characteristic of it was thoroughness and order. When the same ground was covered under the guidance of Mr. Yule it was quite a different thing to listen to his excuses for having finished his sheep-work. No explanations were required for everything was just as it should be. From the comfortable well-planned and commodious buildings down to the last furrow turned by the gang plow the keynote of all was thrift, neatness and thoroughness. Everything was done in a systematic and orderly way. The yards were remarkably tidy; buildings absolutely clean, strong and neat; all plowing exceptionally straight; four wheels (with one exception) noticeably absent; cultivation particularly thorough; the kinds of crops and thriving. Conditions within were equalled by those within doors where peace, plenty and Scotch hospitality reign under the sway of Mrs. Yule.

Threshing, sowing and plowing and the fall work in full swing. A few of the activities which were proceeding in the way in question may be of interest to those whose work lies in smaller farms.

About a mile away in one direction the outfit were gang-plowing stubble land on a furrow 1-2 miles long, three rounds for each plow constituted half a day's work. In another direction the outfit were disk and harrow and broke ground, and whether did seed bed in process of making. Elsewhere some stiff backsetting was being negotiated by a sulky plow outfit, the plow being too heavy for the gangs. Across the track the scrub-breaker plow was going—as it is proposed to annex 11½ ratapayers, a yoke of Dutch Belgians was drawn with a big team of horses on ahead. Nearby a number of Gallician women were completing the potato raising and further over a potato plow was turning under a turnip field, which had been plowed earlier in the season before the potatoes were raised in the ground. Elsewhere the turpins in the scrub were being cut, and a third party was being too heavy for the gangs. #### How Fertility is Maintained.

Each year an amount of stubble equal to the acreage broken up the previous summer is sowed down into timothy and clover and the next year the summer-fallow is done away with. This year from 300 to 400 tons of this hay was put up and a look at the stock is evidence enough of its value as feed. The first field seeded down under this arrangement is now being broken up and a magnificent crop of wheat should certainly result, the timothy greatly predominates in the stubble crop, this hay is used in the horse barn, while that which contains more clover is saved for the sheep. Seeding down is done with the aid of pounds of crop at the rate of seven pounds of timothy and five pounds of clover per acre.

The method of clearing and breaking the land is interesting. Trees and large brush are cut out one summer, small brush is mowed out the next year, and during the following year when all larger roots will be getting rotten the brush is broken. The outfit mentioned above—semi-bovine, semi-equine—does practically all this breaking and the work proceeds from east to west. These fragmentary notes would not be complete without a word concerning the stones which literally carpet the land for hundreds of acres in some places. All land at present cultivated has been laboriously cleaned and treated, nearly repays the expense of handling. This land is now so free of stones that it would be hard to believe that it ever bore any, had a recent broken, which are loaded with this nuisance that the gathering machine in piles nearby of the stones on two acres will form a good day's work for seven men and two teams.

#### BOY'S TERRIBLE INJURY.

BARRIE, Oct. 30.—Charles McTindless, aged 6, caught his leg in the wheel of a passing rig he was attempting to climb into, and the limb was cut off at the thigh almost as completely as by a knife.

#### Magistrate's Compulsions.

OTTAWA, Oct. 30.—When Thomas Fox, after a terrible struggle with D. J. Reardon on the edge of a cliff at the foot of the mountain, threw him over, he did not prove a hero. He was warmly commended by Magistrate O'Keefe this morning. Fox was walking with a sweetheart on a moonlight evening, when Reardon, who was a married man, insulted her. Fox was acquitted.

**WAITING FOR ASSESSMENT TO PROVE THE PETITION**  
Scrutiny of Danforth Annexation  
Petition is Delayed for a Few Days.

There was a lull yesterday in the proceedings in connection with the scrutiny of the petition of the ratepayers of the Danforth-avenue section for annexation to the city, delay having been caused by the failure of the opposing counsel to secure a copy of the assessment roll of the territory.

According to the information supplied by A. F. Lobb, counsel for the applicants, there are in the area which it is proposed to annex 11½ ratapayers, duly qualified to sign a petition for annexation. Of these 653 signed the petition. But Mr. Hodgins, counsel for parties opposed, has stated that the qualified ratepayers number only 1023, and the names entitled to be on the petition number only 522. This is pretty close to a bare majority, and the scrutiny ordered by the Ontario municipal board is being held for the purpose of proving the sufficiency of the petition. Assessor Downes of York Township is now busy with the preparation of a copy of the roll, but it will take three or four days to complete it.

It is pointed out that every name stricken from the list of ratepayers strengthens the proportion of qualified names on the petition. It is believed that in that section a large proportion of the residents are property owners. On Reid-avenue alone there are 201 owners, and only 30 tenants, and from 80 to 85 per cent. signed the petition for annexation. Many other favorable annexation could not be located, and many more names would be secured if the objections of the opponents of the scheme should not be permitted to stand in the way of the betterment of their condition.
