HON. G. A. MURCHIE BEATEN FOR CONGRESS

Calais Man Beaten by Hon. Frank A. Guernsey for Republican Nomination in Fourth Maine District.

Bangor, Me., Aug. 6.—Hon. Frank A. Guernsey, of Dover, was the nominee for representative to Congress of the Republicans of the fourth Maine district in a special convention held here today, made necessary by the withdrawal of the regular nominee, Hon. Llewellyn Powers, since deceased. The feature of the convention was the presentation of five candidates, Hon. George A. Murchie, of Calais, from Washington county; Hon. Frank A. Guernsey, of Bangor, from Penobscot county; Dr. D. A. Robinson and Col. I. K. Stetson, of Bangor and Col. Stanley Plummer, of Dexter, from Penobscot county.

Col. J. B. Peake, of Dover, presided and all of the 322 delegates entitled to seats in the convention were present. On the first ballot, Mr. Murchie was well in the lead with 182 votes, representing a solid district from his own county and a portion of Aroostook, which had no candidate. Mr. Guernsey had 62, Col. Stetson 56, Dr. Robinson 51, Col. Plummer 24 and five were cast for Hon. F. Marion Simpson, of Bangor, who was not placed in nomination. On the second ballot, Murchie made a slight gain to 185, portion of the Penobscot delegates went to Mr. Guernsey, giving him 102, Stetson 60, Robinson 50 and Plummer 11 each. The third and fourth ballots showed steady gains for Guernsey, and Murchie more than held his own, gaining ten from the first ballot.

On the fourth ballot Mr. Guernsey showed in the lead with 172 to 173 for Mr. Murchie and 30 scattering.

The second ballot was the fifth ballot when the Penobscot candidates withdrew from the field, throwing their support largely to Mr. Guernsey, who had the choice of the fifth and final ballot which stood: Guernsey, 190; Murchie, 184.

GREAT POSSIBILITIES FOR BUSINESS IN CUBA

J. D. O'Connell of Sussex Talks of Opportunities in the "Pearl of the Antilles."

J. D. O'Connell, now of Cananagua, Cuba, formerly of Sussex, was at the Pacific yesterday and left for Sussex on the 6 o'clock train last night. He says that business is generally good in Cuba, although there is an unusual feeling in the island. This arises from doubts as to what the United States really means to do for the Cubans. The great population, which includes one-third of the whole, would, he thinks, welcome a return of Spanish rule, although the other two-thirds recognize the fact that the United States has in the maintenance of American sway. The feeling on the part of the negro classes from the treatment which the colored race receives in the southern States.

Mr. O'Connell was asked about the new St. John-Boston-Havana steamship service. In reply he said that he had heard but little about it. There was no question, however, of the great possibilities of trade between the Maritime provinces and Cuba. In produce, prices were excessively high in Cuba. Potatoes retailed for \$4 to \$5 a barrel, while for eggs one is asked to pay as high as 40 cents a dozen. The rate of exchange was paid at the rate of seventy cents a pound. Pork was sold at a price as high as \$1.50 a bushel, and from fifteen to twenty cents a pound by the carcase. The native peons of the island, he said, do not eat much meat, but with the reason is its price. They would eat a great deal more if it was within the reach of their means. Beef was cheaper now in Cuba than it was formerly and soon it would be within the reach of the peon.

Mr. O'Connell said that he did not eat wheat bread. Instead of that they bought biscuits at from ten to fifteen cents a pound. The staple of their living was rice, plantains, a kind of banana. This is larger and coarser than the banana known to commerce and has to be cooked. Mr. O'Connell says that when tried in land it readily commends itself to the palate of Europeans and Americans.

There are many Maritime provinces people in Cuba. In the city where Mr. O'Connell lives, there lives Fred Dever, formerly of Fredericton, now manager of the Royal Bank of Canada, and Fritz Schaeffer, formerly of this city, in connection with the same bank.

"BOBS" GOES TO QUEBEC

Distinguished General Left for Ottawa Last Night—Will Sail for England Today.

Ottawa, Aug. 6.—Lord Roberts left Ottawa tonight en-route to Quebec, from which part he sails tomorrow by the Empress of Britain. He was given a right royal send-off and thousands of people turned out to cheer him. Though he has been four days in the city, there was no public function and thought for the first time the general public had an opportunity to see the distinguished soldier. From government house his motor car came up Sussex street and took a circuitous route by way of Rideau, Wellington, Bank and Sparks streets, to the Central Depot.

Along the way people lined the streets and cheered themselves hoarse. There was no military display or ceremonial, but the guards band played at the station. Sir Wilfrid Laurier, Sir John Hanbury-Williams and Mayor Scott were at the Depot to see him off, and Lord Roberts was kept busy doffing his hat and bowing his acknowledgments. He left at 7.30 traveling by a Canadian Pacific special, in D. McNeil's car, the Metaphis. He shows no signs of physical indisposition.

Col. Sir John Hanbury-Williams tonight received the following message from Rimouski: Canadian Olympic team returning home, sends greetings. All well and glad to see our native land. (Signed) B. H. Crocker.

REV. F. S. HARTLEY FIGURES IN RESCUE

Clergyman Formerly Stationed in New Brunswick Saves Man From Drowning at Old Orchard.

Old Orchard, Me., Aug. 6.—Rev. Herbert A. Barker, pastor of the Boylston Congregational church, of Jamaica Plain, figured here today in the rescue from drowning of Professor Hugh R. Hatch, of Colby College. Professor Hatch was bathing in the surf at Ocean Park, when he was seized with cramps. Scores of other bathers and hundreds of people on the beach heard his shouts for help, but Rev. F. S. Hartley, of South Portland, who is superintendent of the Free Baptist camp ground at Ocean Park, was the first to go to the stricken man's assistance.

Professor Hatch was well out beyond the line of breakers, and as the surf was running very high, the task of reaching him was no easy one. When the clergyman reached Mr. Hatch, he was himself nearly exhausted and he found it impossible to return to the shore. He stood pluckily by Mr. Hatch, however, and signalled to the shore for assistance.

Rev. Mr. Barker was not bathing at the time, but he threw off his coat and waded and plunged in. Mr. Barker is a strong swimmer and after forcing his way through the breakers, he was soon able to assist his brother clergyman in bringing the professor ashore. The latter was unconscious and it required an hour's vigorous work to resuscitate him. Tonight he was reported as resting comfortably, though both he and Rev. Mr. Barker were still very weak from their struggles.

Rev. F. S. Hartley referred to above, is a son of late Rev. Dr. Hartley, so many years pastor of the Free Baptist church, Calcutta, and for a long time well-known clergyman in New Brunswick.

THE INGLENOOK PHILOSOPHER OF KENNEBACACIS BAY

"I console myself with believing," said George William Curtis, "that a man need not be a vagabond to enjoy the sweetest charms of travel." He need not open the door of his cabin in the wilderness to entertain a throng of friends, to listen to the most entrancing music or the wittiest speeches that ever fell upon his ears, and without the expenditure of a dollar he can hang upon his smoky and mouldy walls the most exquisite pictures that it has ever been his good fortune to look upon. I am apt to indulge in an inward smile when one says in my hearing that he "forgets," "One does not forget, except for convenience's sake, anything that has come under his observation in which he was really interested. Men who travel through life with their eyes and ears closed—such as the servant—know little of their surroundings, and so they cannot be said to forget what they have seen and heard while in their company. The author of the "Polar Papers" tells how once as he was rambling on the shores of Staten Island in a dense mist that rendered all objects aloft and ashore quite indistinct, he saw a picture in the distance of ancient Egyptian architecture, approaching the land. Suddenly he says, "I glimpse like the fall of the summer splendor gubbed over me; the odor of flowers and of eastern gums filled all the atmosphere." I breathed the Orient and lay drunk with balm, while that strange ship, a golden galleon, now with glittering draperies festooned with pearls, paced by the measured beat of oars along the calm, and Cleopatra smiled alluringly from the great pagoda's heart.

When the mist lifted, it was discovered that all that had been seen was the skeleton of a coasting schooner falling into pieces on the beach. Mr. Curtis is a man who need not be a vagabond to enjoy the sweetest charms of travel. He can circumnavigate the world without leaving his easy chair, and at what a saving of discomfort and expense! Under one's own vine and fig tree one can talk with the old tentmaker of Nainshapur, wander through Ancient Rome and Athens or modern London and Paris. He will sit under the apple trees at twilight little Fred comes and seats herself beside me, invisible to others, and tells me of her dreams. Little Ellen comes, too, and though they say it is near fifty years, they were last seen each other's heads full of sunshine and her voice as sweet, as they were in the old days. The absent and the dead never grow old. There is the youth that never fades—it is immortal, we fancy, though time shows us continually and sets marks on our feet wherever we go. When little Ellen comes to me in my musings there come with her the odor of orange groves and all the fruits and flowers of the tropics, the cool breezes from the Pacific and the mountains whose summits are always covered with snow. I sometimes return little Ellen's visits, but I am no vagabond. I am never missed, and no one ever sees me in her far-off home. Dreams, dreams.

APPOINTMENTS TO MT. ALLISON STAFF

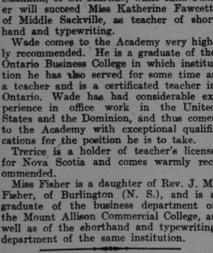

Sackville, N. B., Aug. 6.—Vacancies on the staff of the Mount Allison Academy and Commercial College have been filled by the appointments of H. L. C. Wade, of Brighton (Ont.); H. B. Terrier, of Leicester (N. S.); and Miss Agnes L. Fisher, of Burlington (N. S.), respectively. Wade will take the place of F. H. M. Holmes as head of the commercial department. Terrier will succeed W. R. Shanklin, of St. Martin, while Miss Fisher will succeed Miss Katherine Fawcett, of Middle Sackville, as teacher of shorthand and typewriting.

Wade comes to the Academy very highly recommended. He is a graduate of the Ontario Business College in which institution he has also served for some time as a teacher and is a certificated teacher in Ontario. Wade has had considerable experience in office work in the United States and the Dominion, and thus comes to the Academy with exceptional qualifications for the position he is to take.

Terrier is a holder of teacher's license for Nova Scotia and comes warmly recommended. Miss Fisher is a daughter of Rev. J. M. Fisher, of Burlington (N. S.), and is a graduate of the business department of the Mount Allison Commercial College, as well as of the shorthand and typewriting department of the same institution.

PESTILENCE NOW THREATENED IN CRANBROOK AND FERNIE, B. C.

Entire Lack of Sufficient Sanitation in Both Places and Close Herding of Refugees Will, It is Feared, Breed Disease—Smallpox in Fernie.

Fernie, B. C., Aug. 6.—Asked for a statement of fire losses, President Lindsay of the Crow's Nest Pass Coal Company gave out the following statement today:—

"The fire Area—Valley of Elk River coal mining district in Kootenay, B. C., is approximately thirty miles long and two to ten miles broad.

"In this area are situated the city of Fernie and towns of Homer and Michel, all mining camps. There is a large mining plant at Coal Creek, near Fernie, whence comes the largest output of coal. Although the fire has been within two miles of Coal Creek, the town may be said to be safe, and although the fire is all around Michel, there is no grave apprehension as to it.

"Homer has escaped with little loss on its mining side, but Fernie has been completely obliterated, only twenty-three houses and three business houses being left. On both banks of the Elk River are a large number of saw mills, all of which, with one exception, have been swept out of existence and probably a large number of them have been left in the woods. The bodies recovered so far number sixteen, and there will be more, but in the woods only.

"The loss to the city of Fernie, including the loss of the Crow's Nest Pass Company, owning mines at Coal Creek, Fernie and Michel, will be \$200,000; the C. P. R. will lose \$200,000; Great Northern Railway will lose about \$200,000, and the lumber companies not less than \$400,000. The loss of timber to the Crow's Nest Pass Coal Company will be not less than \$1,000,000.

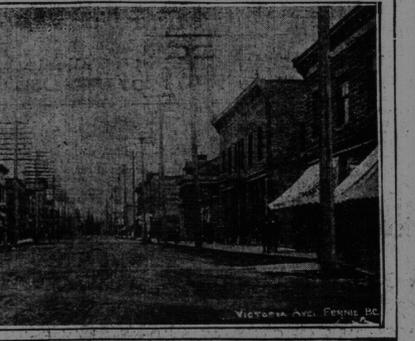

"The loss to the city of Fernie will be not less than \$2,000,000. There is no rain in sight, and the fire continues slowly up the mountainside, but nothing but a very high wind would do much damage, as the valley along its lower portions is swept clean of everything combustible. Relief in the form of money, supplies, and bedding has come in with great freedom, and everyone is now under canvas at Fernie.

"There are about 3,000 women and children at Cranbrook to the west of Fernie and about 1,800 at Leitchbridge, to the east, but they are being slowly brought back to Fernie, where tent accommodations can be provided for them."

NEW PROFESSOR FOR ACADIA UNIVERSITY

Professor Wilbur A. Coit, of Burlington (Vt.), has been appointed professor of mathematics at Acadia University, Wolfville, and will begin work at the opening of that institution on September 30. Professor Coit is the son of the head professor of mathematics in Boston University. He graduated from that institution with high honors in mathematics, and afterwards took his M. A. degree at Harvard, specializing in the same subject at Fernie.

For seven years he has been assistant professor of mathematics in the University of Vermont, Burlington, making an excellent record as a successful instructor. He comes to his new work highly recommended not only as a teacher but as a very high type of Christian gentleman. He succeeds Professor R. C. Archibald, Ph.D., who has accepted a position in Brown University.

G. T. P. STRIKERS DEMAND RELEASE OF THEIR FRIENDS

Moncton, N. B., Aug. 6.—This evening, just after the night police had been sent out on the beats, fifty foreigners, recently employed on the Grand Trunk Pacific, marched to the police station in a body and demanded the release of three prisoners, Walsh, Lawlett and Carich, who are to be transferred to Dorchester to await trial at the session of the supreme court in September. Officer Boudreau was in charge of the police station and naturally declined to release the prisoners and succeeded in having the foreigners take their departure.

Frank Williams, the alleged fire bug, was this morning brought before Magistrate Kay and after several witnesses were examined, was sent up for trial.

HANLEY CONVICTED IN SCOTT ACT CASE

Sussex Justice Fines St. John Man \$50 or Two Months Jail.

Sussex, N. B., Aug. 6.—Quite a number visited the police court this afternoon to hear argument re Scott Act cases. There were three cases before the court which took up all the afternoon. Only one case was disposed of; that of James Hanley, who was convicted and fined \$50 and costs or two months in jail. As he did not have the cash he was taken to Hampton jail. It is said that he will have the money in a few days and will pay the fine.

Harry McKinnon was put on his defence and asked for time to prepare his case. He was remanded to Hampton jail until Tuesday next at 10 o'clock, when his case will be heard.

The case of Mr. Doherty, which has been before the court several times, was reserved until Tuesday next for judgment. This case is somewhat complicated and the judge wants a little time for consideration. J. M. McIntyre appeared for the defence and F. A. McCully, of Moncton, for the Scott Act people.

Word was received here this evening that George Heustis, daughter of Mr. and Mrs. Murray Heustis, who are now at their summer cottage at the Washed-moak Lake, fell and broke her right arm. The break is reported to be a very bad one.

"If one feels dull and spiritless, in the spring or early summer, they call it 'Spring Fever.' But there is no fever usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that 'tired spot.' Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spongy than any other known nerve or constitutional tonic. It sharpens a falling appetite, aids digestion, frees sluggish livers and kidneys, brings new life, strength and animation. Test it a few days and be convinced. Sold by All Druggists."

The West India steamship Dahome, sailed from Bermuda last Wednesday direct for this port and is due here Saturday.

The steamer Govovale, Captain Hood, was to sail from Hopewell Cape yesterday for Broad Head, for orders, dead laden.

SUPREME LODGE FINISHES ITS BUSINESS

Henry P. Brown of Texas Chosen Supreme Chancellor of the Knights of Pythias Without a Contest.

Boston, Mass., Aug. 6.—With the election of their officers today, the supreme lodge of the Knights of Pythias closes the most important business session of their 25th convention, which opened in this city Monday. The Pythian Sisters also elected officers and exemplified the secret work of the order. The uniform rank devoted each of the days as was free from rain to competitive drills on Franklin Field, for the \$10,000 cash prizes offered.

Henry P. Brown, of Cleburne, Texas, was elected supreme chancellor, without contest, he having served as vice-chancellor for the past year. There was a spirited contest for vice-chancellor, however, in which two men from the east and two from the west, contested. After five ballots George W. Hanson, of Calais, Maine, was elected.

There was but one other important contest which was for the members of the board of insurance control. The fight was between a faction standing for strict retrenchment and those satisfied with the present conditions. The retrenchment faction won out after four ballots and elected their two candidates. The result of the elections, in addition to the officers named, was as follows:—

Supreme Prelate, Rev. Dewitt C. Cobb, Salem, N. J.; Supreme Keeper of Records and Seal, R. L. C. White, Nashville, Tenn. (re-elected); Supreme Master of Exchequer, Thomas D. Meares, Wilmington, N. C. (re-elected); Supreme Master at Arms, Samuel H. Davis, Davis, Okla.; Supreme Inner Guard, E. Allison Power, Quebec, Que.; Supreme Outer Guard, William D. Cameron, Meridian, Miss.; Board of Insurance Control (for 5 years), U. S. G. Cherry, Sioux Falls, S. D., and S. Davis, Denver, Col.

The uniform rank assembly, consisting of twenty-six brigadier generals, formally appointed Major General Arthur B. Stroobart, of St. Paul, Minn., to succeed himself in command of the uniform rank. The appointment will come up before the supreme lodge tomorrow for ratification. Tomorrow there will be further competitive drill work, the exemplification of secret degree work and the consideration of further business by the supreme lodge.

FILLING PLACES OF STRIKERS ON C. P. R.

One Thousand Men Applied for Jobs at the Angus Shops Yesterday and 250 Were Hired.

Montreal, Aug. 6.—The feature of the C. P. R. strike today is that at the Angus shops there were at least 1,000 men applying for jobs, and of this number the C. P. R. had engaged about 250 by noon.

The car shop at the Angus shops was working full strength with about 150 men. There has been no disturbance. There are pickets at every gate trying to persuade men from working, but they do nothing more. There are ninety-one special constables around the works.

Two of the strikers made startling statements today. One was a machinist and the other a blacksmith. They say that while there were sixty locomotives in the shops ready for the western grain, the essential parts of them had been "made" and when the company comes to move them they will find that they are unfit for service.

W. L. Macenzie King, deputy minister of labor, has offered his services to both parties in the interests of peace. The telegraphers are holding a secret session and may join in the strike.

From Winnipeg comes the report that the company claims to have 800 able-bodied men out of sympathy with the strike because the men failed to accept the arbitration award.

Yancouver, B. C., Aug. 6.—(Special)—Wm. Whyte, second vice-president of the C.P.R., discussed the strike question today. He said it is not our place to talk or act in the matter. When the arbitration committee made its ruling I telegraphed Ottawa from Vancouver and told them the findings were not, from our point of view, a satisfactory settlement of the company's claims, but in order to carry out the spirit of the arbitration act we would agree to them. We did not precipitate the present situation and we are saying nothing about it.

ROMANTIC CULMINATION IN A WEDDING HERE

A romance which began two years ago in Palestine, had its culmination in St. John yesterday, when Miss Almeda Burchill, of Hibernia, Queens county, wedded Dr. Norman K. Janal, of New York, a native of the Holy Land.

Two years ago Miss Burchill was one of the delegates to the Sunday school conference which included a visit to Palestine. While in Jerusalem she met Dr. Janal, who had adopted the Christian faith, and the acquaintance thus formed ended in the marriage which took place yesterday at the residence of Mrs. Mary Mowry, 217 Newman street, who is an aunt of the bride.

Dr. and Mrs. Janal is a doctor of medicine, and has recently been residing in New York. He has leaving Palestine he brought with him a letter of introduction from Bishop Blyth, of Jerusalem, which speaks of him in the highest terms.

Dr. and Mrs. Janal will leave this morning for Hartwick, near Chatham, where they will spend a few days, and will then visit Hibernia, Queens county, the bride's home. Their future plans are not yet decided.

The street car on the Blue Rock line, Carleton, was put out of commission in Winslow street yesterday afternoon by the breaking of the trolley pole. The car was towed to the shed for repairs.

The City Cornet Band postponed until Saturday afternoon the concert to open the band stand in King square.

Heart Strength

Heart Strength or Heart Weakness means Nerve Strength or Nerve Weakness—nothing more. For all ailments of the heart, the most powerful medicine is Dr. Shoop's Restorative—this restores the heart to its normal condition, and gives it the strength and power to resist all diseases. It is a powerful tonic, and gives the heart the strength and power to resist all diseases. It is a powerful tonic, and gives the heart the strength and power to resist all diseases.

LABOR TROUBLES. Now that labor troubles are exciting considerable interest the following review by the Scottish American of the latest New Zealand experiment in labor legislation will be found instructive.

In New Zealand, as elsewhere, workmen are discontented and grumbling at wages not keeping pace with the increased cost of necessities and the higher taxation. For some years there has been a scheme of industrial arbitration in force there to regulate the wages question, but it is now said that that scheme is a downright failure, and that because of its ineffectiveness more and more reluctant to invest money in industrial enterprises.

THE EASTERN QUESTION. The influence of representative government in Turkey upon European politics in general is a question that is arousing universal interest. Obviously there must be some change in international relations as a result of the termination of the autocracy of the sultan.

WHITE'S COVE NOTES. White's Cove, Queens Co., Aug. 6.—Dr. F. D. White and wife, of Milford, Mass., are visiting the doctor's parents, Mr. and Mrs. C. W. White. G. Wetmore Gunter, who has been ill for some time, was operated on yesterday for appendicitis by Dr. Casswell, of Gagetown, assisted by Dr. F. D. White.

Asiatic army on the Middle Tigris required seven months to reach the theatre of war. Obviously, the most effective way to strengthen Turkey against external attack lay in bringing the Turkish population of Asia within easy reach of Constantinople by means of strategic railways.

"Naturally, the surrender of the sultan to the demand of constitutional reform has nowhere excited so much attention as in Germany, because there the belief has been most tenaciously held that the sultan's absolutism as a ruler was as little likely to be impaired as his sacrosanct position of head of the Mohammedan world. Germany is, moreover, very heavily interested in Turkish finances, and the influence of the Kaiser at Constantinople has been regarded as a powerful counterpoise to the combinations formed with a view to placing a check on German ambitions. It was in November, 1898, on his return to Jerusalem, that the Kaiser made the following memorable declaration at Damascus: "May the sultan and may the 200,000,000 Mohammedans in all parts of the world who venerate the sultan as their Khalif feel assured that the German Emperor will be their friend for all time."

Each council of conciliation will consist of a magistrate and assessors—from the industry involved. If a council fails to effect a settlement of a dispute it may be referred to the court of arbitration, which is also to comprise assessors from the industry involved, but who shall not be interested in the dispute. This court is to be vested with extraordinary powers. For instance, it may fix arbitrarily a rate of "needs" wages, which means such as workmen of average skill and energy could earn, and also an "arbitrary wage" for work done above the average standard. For industrial disturbances severe penalties are prescribed. For a strike of a day \$50 will be imposed on the strikers, with \$200 for each week of its continuance. Special and heavier fines are prescribed for strikes in bakeries, slaughter houses, coal-yards, railroads, and in other industries directly affecting the health or welfare of the public. In the case of workmen the fines may be collected from the wages then due, or the fine that may be earned.

Socially, Boston appears to have welcomed the Knights of Pythias. Officially, it handed them over to the pickpockets. This will not add to the glory of Boston as a convention city. The Journal illustrates the situation by a series of cartoons showing the experience of a western knight. In the first he is seen receiving the hand of welcome. In the last he appears in his underclothing, having been relieved of everything else.

The statement that many mechanics are ready to take the place of strikers on the C. P. R. system is an illustration of the dull times still prevailing on this continent. It is even worse in the United States than in Canada. The rain of the last twenty-four hours must have extinguished most if not all of the brush fires in the southern and central portions of the province. WHITE'S COVE NOTES. White's Cove, Queens Co., Aug. 6.—Dr. F. D. White and wife, of Milford, Mass., are visiting the doctor's parents, Mr. and Mrs. C. W. White. G. Wetmore Gunter, who has been ill for some time, was operated on yesterday for appendicitis by Dr. Casswell, of Gagetown, assisted by Dr. F. D. White. Dr. Hugh A. Farris is suffering from a severe cold and is confined to his room. Mrs. H. A. Cropley, of Fredericton, is visiting her sister, Miss H. E. White. Several parties from this section expect to leave on Monday on the harvest excursion. The crops in this place are not up to the average, owing to the continued dry weather. Miss Annie Gunter is suffering from a cold, but is improving slightly. S. B. Orchard, who spent a few days in St. John, came home yesterday by steamer "May Queen." W. B. Farris was also a passenger on the "May Queen" on Wednesday. Having been absent over on the Highlands and the crop was better than last year. Since its establishment the department of agriculture has sent the United States more than \$21,000,000. It has given employment at different times to 38,000 experts and professors issued 17,815 certificates.

RAINBOW GOLD. The pot of gold at the rainbow's foot was a legend of childhood days. A fairy story we took for truth. And we followed, with wistful gaze, The glittering arch to the purple hills. Where it faded, to our childish eyes, Was fadeless, and pure and bright. But that shining goal we could never reach. 'Twas always so far away, And the rainbow faded to the distant hills. But the rainbow faded to the distant hills. But we never despaired, and we never could doubt, And our hope of wealth ran high. For that pot of gold we could always see When the rainbow spanned the sky. The fancies of childhood have long since passed. And gone are the dreams of old, But still at the rainbow's foot there lies The faded pot of gold. 'Twas that goal we strive for but may not win. As history we confess, The aim of ambitious high desires, And a measure of success. But perhaps, when storms of life are done, At the foot of some rainbow's foot is waiting the treasure we sought in vain. Far better than aught we had dreamed of. In the crown of life and the end of strife. All that the heart holds best. What Mrs. Crossley of St. John, is July 1908.

IN LIGHTER VEIN DOING HER BEST. "My wife has that awful disease, kleptomania." "What are you trying to cure it?" "Well, she is taking something all the while."

KNEW WHAT HE WANTED. Boy (to chemist)—"Sixpenn'orth of cod liver oil, please, sir. An' I say, don't give me too much, cos it's me what's got to drink it."

NO CAUSE FOR WORRY. Invald—"Ah, doctor, I shall never get relief till I'm in my grave." Doctor (cheerfully)—"All right, don't worry. I am doing what I can for you."

VERY BAD NEIGHBORS. Mrs. Borrow—"Our neighbors are very shiftless people." Mr. Borrow—"How do you know?" Mrs. B.—"When I go over to borrow anything they never leave it."

AS HE REGARDED IT. Doctor—"I think I shall have to call in some other physician for consultation." Patient—"That's right, go ahead. Get as many accomplices as you can."

OBJECTED. A gentleman who was staying at a seaside hotel during the summer expressed dissatisfaction to the landlady at the heavy charges he had to pay. "Why, you see," she said, "our season is so very short that we are obliged to make hay while the sun is shining. As that may be all very true, my good woman, replied the visitor, "but though I am a stranger, I am not a fool."

WHAT TEXT? The Rev. Dr. Carmichael, Bishop of Montreal, an Irishman, told a story about a clergyman who was examining a Sunday school class, and who happened to ask one of his small pupils what was the text in the Bible. The child replied that it was cruel because of the text in the Bible. "What text, my dear," asked the puzzled clergyman. The child replied—"What God has joined together let no man put asunder."

THE DOCTOR WATCHED HIM. One night, as a Canadian doctor who lives in Eastern Ontario, was driving in his car, he saw a chap, a little the worse for liquor, amusing a crowd of spectators with the antics of a talk dog. The doctor watched him a while and said: "Sandy, how do you manage to train your dog? I can't teach mine to do any thing." Sandy, with that simple look in his eyes, said—"Well, your see, Doc, you have to know more'n the dog or you can't learn him nothing."

TOO SMART. A draper's assistant was showing a lady some parasols. He had a good command of language, and knew how to expatiate on the good qualities and show the best points of the goods. He picked up a parasol from the lot on the counter, and opened it, he struck an attitude of admiration, and holding it up to the best light that could be had, said: "Now, there, isn't it lovely? Look at that! Particularly observe the quality, the finish, the general effect. Feel it. Pass your hand over it. No nonsense about that parasol, it's a beauty. It's as handy as that, it's as light as a feather, it's over the lady. 'Isn't it a beauty?' said the lady; 'that's my old one. I just had it down there.'"

LABOR MAN HERE. W. R. Trotter Appeals for Formation of a Trades and Labor Council. W. R. Trotter, of Winnipeg, general organizer of the Trades and Labor Congress of Canada, addressed a meeting of the laboring men of St. John last night in the rooms of the Longshoremen's Association, Water street. Edward J. New, president of the St. John Trades and Labor Council, presided. The speaker paid considerable attention to the Canadian Manufacturers' Association, which, he said, was opposed to all organized labor. The National Trades and Labor Congress of Canada, which was a rival organization to his own, he said, the tool of the Manufacturers' Association. The Trades and Labor Congress of Canada should be an object of interest to all Canadian laboring men. It was 24 years old, and started in a small way, but now embraced a membership of 100,000; \$2,000 paid a direct tax. He explained that the statement that Canadian organized labor sent money to the United States was untrue. A tax on every Canadian citizen was forwarded from the international head office at Indianapolis to the Canadian head office, Ottawa. The congress embraced every labor council from Vancouver to Sydney. Conventions were held at which the delegates themselves decided the policy of the organizations. The congress demanded compulsory education, the abolition of child labor by children under 14 years of age and female labor in all industrial pursuits. He said that since coming to New Brunswick he had become aware that many children were working in factories, and if the factory inspector were doing his duty many of these would be taken out of the mills. His organization also desired the eight hour day and abolition of property qualification for legislative representatives and the abolition of competition with prison labor.

DETAILED STOCK GOSSIP.

We have repeatedly referred to par as the Smelting objective and would not expect profits on further bulging in that stock, which has steadily advanced since the report of removal of offerings around 20. Atchison is reported on the verge of an upward rally against the shorts with bond issue rumors. The trend of So. Pac. and Un. Pac. continues upward with resumption. St. Paul is expected by some important houses to advance sharply any time now. Information is built up on Reading with the small production of the recent past being referred to as responsible for the reaction. Turna could have been secured by following the suggestion to buy on the reaction yesterday morning. Fuel is tipped for an advance. The Hill stocks are expected to advance further and as they take the offerings shown at the closing level, higher prices are likely. We refer to Nor. Pac. and Gt. Nor. Penna. is tipped for a rise, also R. I. S. Steel. Amal and Lead are still bullish.

N. Y. FINANCIAL BUREAU.

Bullish operations are likely again in the stock market to-day. We repeat our suggestion not to climb for stocks, as believing the best results will be secured by purchases on the moderate necessities. Those who followed on these lines yesterday have no cause for regret. Support continues to be met on the decline with realising on the bulges. Reasonable prices should not be neglected by daily operators. We expect a volume day or two before the danger of a general and material setback presents itself. In the meantime, the protection of the stop order is not to be abandoned. A set-back may be sudden. At the same time, the general trend of the market, technically speaking, is still upward with scale up distribution. Attention is being directed to the fact that the government crop report to be issued at the end of the week will not reflect the exact condition, in that the damage of the past few days will not be covered, so that alternatives may be made for the same in computing the outlook. The good rains of the last day or two, however, will improve corn crop conditions. Considerable attention is attracted by the Hartman rail order announced just before the close of the market yesterday. It is accepted by steel authorities as encouraging. Money rates continue to be low and the bank statement tomorrow may again be a favorable document. This money condition is the backbone of the stock market. Market literature is very cautious in advice at present, suggesting specialties for firms rather than general market purchases except on reactions. The amount of bull talk is becoming a little too prevalent to be healthy in the judgment of conservative investors.

HIGHER PRICES WERE GENERAL

Has the August Advance in the Stock Market Begun Earlier Than Usual?

(N.Y. Journal of Commerce, Wednesday.) Stocks closed higher than they have been at any time since the violent collapse of October last. The movement is plainly under the control of financial interests of the first magnitude. How thorough is this control was demonstrated yesterday when, despite a variety of depressing reports in the morning and a lower range in London, the whole list, after initial unstaidness, was marked up with confidence. The public are not yet affording support by investment purchases, but on the other hand those who have secured the advance have not been induced to realize in this advance. Fresh stimulus is now derived from pools that have been formed in different specialties, mostly in industrial and the bear party is without leadership. It will thus be seen that no bullish manipulation. The exaggerated rumors of damage to crops, while sufficient to carry grain prices much higher on Monday, could not break down the speculative boom in stocks, and yesterday the latter movement was facilitated by the fact that the futures exchange following less alarming news from the grain-growing States. The truth would appear to be that there has been a profitable lack of faith in certain areas (as brought out by the government's weekly report), that some damage has been done through excessive heat and that rust is making inroads here and there. Generally speaking, however, what is beyond the critical stage, and iron crops are still satisfactory. The government's monthly report, due on Friday, is awaited with interest.

SOUPS OF THE SEASON.

In the making of soups for the hot weather it is usually the aim to eliminate the meats. There is nothing more appetizing than the vegetable soups which may be prepared from the remains of yesterday's dinner. Take one pint each of fresh vegetables, boiling water and hot milk, one tablespoonful of flour, one of butter, a scant teaspoonful of salt and a little pepper. Chop the vegetables and cook 20 minutes. While cooking make the milk, flour and butter into a white sauce. Melt the butter, rub in the flour, add the hot milk, and salt, stir and cook until smooth. Then press the vegetables and water through a wire sieve, stir into the sauce and strain the whole.

THE WORCESTER GOLF CLUB.

The Worcester Telegram says:—One thousand admirers of the Board of Trade Golf Club pronounced the first concert of the season a success—that the club was carefully trained was amply demonstrated by the singing of the well-balanced quartet; that the club was a success was amply demonstrated by the singing of the well-balanced quartet; that the club was a success was amply demonstrated by the singing of the well-balanced quartet.

SHAD FISHING IS DECLINING NOW

Fishermen Explain the Reason to the Dominion Government Commissioners at Scott's Bay and Canning.

Halifax, N. S., Aug. 6.—Prof. Prince and S. F. Morrison, commissioners appointed to investigate the shad, salmon and gasperaux fisheries in the Bay of Fundy, held sittings at Scott's Bay and Canning on Monday and Tuesday. J. Rogers told the commissioners that there had been fluctuations in the supply of fish such as shad, salmon, etc., during the sixty years of experience as a fisherman. In 1842 big catches of 50,000 shad in a seine in one night had been taken and even larger catches in 1844; but the shad failed in 1883 or 1884. Since 1885 the fishery had greatly declined owing to the destruction of shad in the rivers where they spawn in spring. In 1897 there was a spurt and forty of fifty thousand were taken in the Bay of Fundy on a tide. No shad had ever been taken in Scott's Bay. Not one in a thousand. They come over from the Bay of Fundy after spawning elsewhere and a few may be taken as late as September 10th. William Steel said that in his sixty years' experience shad had varied in quantity long ago. As long as the shad was as good as 400 or 500 on a tide had been taken. The shad was costly and was worth many hundred dollars. Storms injured and destroyed the nets with the drift or gill nets. There were rarely any shad after August 20th, owing to rough weather, was shad and red tide water. David Jess, of sixty years' experience, declared that shad had decreased. The killing of spawning shad was the cause. Few small shad, one-third or half-grown, were ever taken from Scott's Bay. Salmon had greatly improved of late, owing to hatcheries, and he advocated hatcheries. He said that shad had decreased. The killing of spawning shad was the cause. Few small shad, one-third or half-grown, were ever taken from Scott's Bay. Salmon had greatly improved of late, owing to hatcheries, and he advocated hatcheries.

POLICE COURT.

A MISTAKEN IDEA OF HOCKEY GAMES

Tournament to be Played in London, in October Will Not be an Olympic Championship Event.

(Montreal Herald.) There appears to be a great deal of misapprehension in Eastern Canada, and especially in the Montreal press, with regard to the ice-hockey tournament which is to take place in the Prince's Club, London, next October.

It is being spoken of here and there as an Olympic championship. It is not an Olympic championship. The Herald had the privilege of being the first newspaper in Canada to publish details of the tournament and later published a letter from the secretary of the International Skating Union of Europe in which the latter tried to dispel any impression that the competition was an Olympic championship in any sense.

The latter is as a matter of fact, an international ice hockey championship and is being conducted by the International Skating Union of Europe. The hockey will not be played in style played in Canada, although there is no reason why Canadian players should not become masters of the game with a little practice on the artificial ice of the rink.

To begin with, the game is played by six players a side, instead of the usual three forwards and two backs and three forwards. The goals, puck and sticks are the same as in Canadian ice hockey, but the great difficulty is that one that will both the Canadian players and the most-versed of the outside rule.

The outside rule is virtually the same as that of Association football or field hockey. By it, forward passing is allowed. The puck is to be passed to the forwards and not back to the forwards as often done here. The puck may simply pass the puck up to the forward and the latter may play it provided that when the puck was last played the forward was on the opposite side between him and his opponent's goal.

The existence of such a rule necessarily changes the play considerably and it is quite likely that the members of Mr. Forman's lacrosse team who play hockey will have to give up the rule and its possible developments some close study before they go on to the ice.

WINS THE HEAVYWEIGHT CHAMPIONSHIP OF NAVY

Hard Gye Contest on U.S.S. Ship Maryland Last Night.

Vallejo, Cal., Aug. 7.—Batting Robinson, of the cruiser California, last night won the heavyweight championship of the United States navy by knocking out Arthur Holmes, of the cruiser Maryland, in the fifth round. Both men were severely punished. Robinson put Holmes out with a right swing to the jaw. Robinson was favored in the betting at odds of 20 to 15. The fight was witnessed by 2,500 men and officers on board the Maryland, but there were no civilians present.

FOLEY AND LITTLEJOHN WILL MEET HERE AUG. 25

Announcement is made of the match here on the 25th of Tom Foley of Halifax and Dan Littlejohn and that the bout is under the management of John R. Power, who will referee. As a Mike Sullivan and Littlejohn were matched for a "go" here on the 25th it would now appear that the latter affair is off.

ST. JOHN PLAYERS LOSE

Montreal, Aug. 6 (Special).—In the tournament today, Inches, of St. John, and Ross, of Ottawa, beat Craig and Stewart of Montreal, in the doubles, 6-2, 6-2. Chipman and Grier, Montreal, beat Stewart and McAvity, St. John, 4-6, 7-5, 6-4.

EXHIBITION JUDGES

Judges in the various departments of the exhibition will be the very best obtainable. Acting Live Stock Commissioner Spencer has advised Manager Arnold that he will send first-class men. G. H. Vroom, of Middleton, N. S., who is the fruit inspector for the Dominion, will judge the fruit. A. C. Smith, of the Grove Hill Poultry Yards at Waltham, Mass., will judge the different classes in poultry.

WILL MEET TO-NIGHT

A meeting of the Newman Brook Quoit Club is called for this evening. A full attendance is requested as business of importance is to come up. The match which was to have been played last evening between the Algerians and Newmans was postponed on account of the weather.

The meetings of the Agricultural Commission, adjourned during the haying season, will be resumed about Aug. 25. His grace will be first visited then Gloucester and parts of Northumberland county. The commission has so far had meetings in Miramichi, Victoria, Carleton, York and Charlotte counties and much of value has been learned.

WHAT HAPPENED TO THE CANADIANS IN THE GREAT MARATHON CONTEST

Toronto Star Tells the Best Story of the Race—Its Correspondent Says the Canadians Were Beaten by an Inexplicable Something That Could Not be Overcome.

The best and clearest story of the recent Marathon race and the entire collapse of the Canadian runners who started in it, is told by the correspondent of the Toronto Star. Here is the story:

Because I could find no reasonable explanation for the defeat of the Canadian team in the Marathon in the wretched time of 2:55.18, I delayed writing the story of the race until this morning, and even now I have to confess I am beaten for an explanation.

I went to Billy Sherring, the coach, but even he in his road-racing wisdom could not tell me more than the runners, who said: "We simply could not run."

FIGURING IT OUT

Now, let us look the situation over. Here is a race won by Dorando—the Italian, who was disqualified afterwards—in 2:55. He beat Fred Simpson, our Mississauga Indian, who a week before ran twenty miles in 1:48, a slip which would have brought him the full Marathon distance in 2:33, and yet the best Simpson could do was 3:04.24. Close behind were two and a half—Lawson, who did twenty-five miles in the Canadian trial day, and ran Harry Lawson, who did twenty miles in two hours and twenty minutes in the Canadian trial day, and during that time Jack, Duncan and Lord collapsed.

Then take Tom Longboat—the redoubtable Redoubt, whose name was on every lip. Longboat, who could clip off those twenty-six miles in 2:30 if he were in his prime, went to the mark apparently in the pink of condition, yet he blew up and fell unconscious on the road, while apparently running well within himself, though at that he had battled his way into second place.

And so on down the line. Jack Caffery, the veteran, who saved himself and did not let any early foreshadowing run away with his pace judgment, Eddie Cotter, and in fact all the runners who were beaten by Dorando—something strange and inexplicable. Canada's great team of long-distance runners fell a victim to something—they know not what—and the only satisfaction they can draw is that they beat England's best on their own soils. They had to give place to Yankee runners, whom they had beaten time and again on their own continent.

The thing is utterly beyond my comprehension. The more I revolve it over the more puzzled I become.

ATMOSPHERIC CONDITIONS

The weather was not oppressively warm—at least we had none of the fierce July heat we have in Canada; the roads were smooth and hard, no loose stones to dodge, no dust or ruts to gallop over. No leaping of ditches from road to sidewalk and back to ditches, such as we get at home, nothing to do but run over these beautiful roads winding through quaint little villages and cool leafy lanes, yet the boys could not run with anything like their usual speed and courage. But to get back to the story of the race.

TWENTY-SEVEN FINISHED

Fifty-five men started and only twenty-seven finished. When the pistol was fired Art Burns, How about Bert Goldboro, Harry

Lawson and Fred Simpson, who laid back in the second brigade, and refused to be dragged out at a hot clip? They far out no better. Before fifteen miles had been covered they were stopping to walk. Even Simpson, cared for by so good a man as Billy Sherring, couldn't make a show. He had no speed or ginger at all. Good old Harry Lawson clung on gamely, but he, too, weakened and back behind them Jack Caffery, Eddie Cotter, George Lister, and the rest of them who were depending on stamina alone to give them a place, and were on running nine miles an hour, weakened just the same.

W. W. Wood, of Brantford, who got fifth place, was the only chap who could run at all, and it was sheer grit that pulled him through. He took it easy at first, batted off the attack of weakness without stopping to walk, and in the last ten miles started to come, but just when all the men in front were weak and he wanted to come on and win his legs cramped, and he could not do more than a dog trot. This Woods is a game lad. He didn't even stop to have his legs rubbed.

BIG INTEREST IN TOMORROW'S GAME

Gilmour Will Pitch for the Marathons in Game With St. Peter's Tomorrow—Good Sport Expected.

Tomorrow's big game on the Shamrock grounds is about all that the fans are talking of. The Marathons feel confident that they can defeat the North Enders on their own grounds and attribute their loss of last week to nothing but unqualified luck on the part of St. Peter's.

Both teams will present about the same line-up, with the exception that the Marathons will have Gilmour in the pitching box. Another change in the infield may be later announced.

Every effort is being made to handle the large crowd and everything for their comfort will be done.

Mr. Haney will have enough cotton put up to shut off the view of those who persist in seeing the games from the outside. The grounds are also to be well rolled.

Eastern League. At Providence—Providence, 8; Buffalo, 1. At Jersey City—Toronto-Jersey City team game forfeited to Jersey City by score of 6 to 0 on account of non-appearance of Toronto club. Second game: St. Paul, 4; Baltimore, 4.

At Baltimore—Baltimore, 6; Rochester, 4. At St. Paul—St. Paul, 4; Baltimore, 4.

BROCK & PATERSON WON. The Brock & Paterson Association defeated M. R. A.'s team in a "Pitched" battle Wednesday evening on the Every Day Club grounds by the score of 16-9. This makes four straight wins for the B & P team out of four games played.

AND SHE, TOO. Two men had side by side in the street car for a mile or more without speaking, when one suddenly turned to the other and remarked: "It's funny, isn't it?" "Yes, very funny," replied the other, though he didn't know whether it was or not.

There was an interval of five minutes, and then the first one continued: "I wouldn't have believed it." "Nor I either," was the reply, though he didn't know what he wouldn't have believed.

"I am referring to the panic, you know?" "Yes." "When the panic came I had fifty thousand dollars' stock in a Texas oil well. Might have been an oil well or a dry hole in the ground. Anyway, I had the stock. In 20 days it wasn't worth a cent."

"I see." "I knew a widow worth fifty thousand pounds. She proposed to marry me. I said I would marry her, but I recoup my loss, wasn't it?" "Eminently proper, sir."

"I consented. I proposed. We got married. I suggested that she turn over her wealth to me, and she—"

"No, sir. She turned it over. It was fifty thousand dollars' worth of stock in another Texas oil well! See? Funny, isn't it?" JOE KERR.

THE WAY OF THE DAY. "Sir, when you make such a statement as that you know that you are speaking falsely." "I know nothing of the kind, and I warn you not to call me a liar."

"And you can't see through a barrel with both heads out." "Humph! yourself!" "Get out!"

And all because, though they are neighbors of 10 years' standing and belong to the same church, one is going to vote for Taft and the other for Bryan. JOE KERR.

MOUNT ALLISON TO HAVE A FINE TRACK

New Running Track is Nearing Completion—Improvements to Football Field.

(Sackville Tribune.) A comparatively short time hence will see the completion of the running track now being constructed about the Mount Allison University football field. Already the big circle has been cut out, drains put in and over a great part of several layers of cinders have been put so that the heavier part of the work has been completed. Of course, the fine cinders which will make the final layer have yet to be put on, and these will have to be thoroughly rolled and other pieces of finishing work done before the track is ready for use, but, as stated, the heavy part of the work is done. The track will be a quarter of a mile in length. It will also be thirteen feet wide on the hundred yard stretch, where the width will be twenty feet.

In addition to building the track the men employed are leveling parts of the football field which had become uneven and they will also place a number of drains under the field before they start their work. The track with the improvements to the football field will give Mount Allison one of the finest athletic fields in the Dominion. Clifford Powell is in charge of the work.

PLANS FOR REPLACING THE STEAMER ABERDEEN

Dr. J. E. Hetherington, of Cady's, is at the Royal, speaking Thursday of the affairs of the Washinook Steamship Company he said to a Telegraph reporter that he is at the present time engaged in negotiating for a steamer to replace the Aberdeen. He added that he is almost daily in receipt of letters from people living along the route asking when he will be able to procure a boat.

The doctor said that yesterday he wired to the owners of a steamer who are willing to sell them what date would be convenient for him to inspect it. It is doubtful now if the company will build a boat as there is a belief that they can buy one. It is possible a steamer to replace the burned Aberdeen will be on the route this fall.

JAMAICANS WIN IN INSURANCE CLAIMS. Kingston, Jamaica, Aug. 6.—There is rejoicing here at the news that the Privy Council has dismissed the appeal of the insurance companies against the verdict of a Jamaica jury in favor of the policy holders.

A speedy settlement of the latter's claims is expected, which will assist trade, now at a low ebb.

After the disastrous earthquake and fire of January, 1907, the insurance companies declined to pay the claims of policy holders on property in the stricken city on the ground that the destruction was caused by the earthquake, as the fire was a consequence thereof. The policy holders took action in the Jamaica courts, which gave judgment in their favor. The total amount of this claim was about \$4,000,000.

Meanwhile business in the island of Jamaica was at a standstill, as the commercial element lacked capital for the reconstruction of their buildings and manufacturing plants.

THE CANADIAN DENTAL ASSOCIATION OFFICERS

Ottawa, Aug. 6.—(Special.)—The Canadian Dental Association today elected officers as follows: President, Dr. A. E. Kestler, Toronto; vice-president, Dr. W. D. Cowan, Regina; secretary, Treasurer, Dr. J. G. A. Gendreau, of Montreal; Executive committee—Dr. Geo. K. Thompson, Halifax; G. A. Murray, Moncton; J. S. Bagnall, Charlotte-town, P.E.I.; G. F. Bush, Winnipeg; P. McGuire, British Columbia; O. F. Strong, Edmonton, Alta.

H. J. Watkins, general manager of the B. F. Keith nickel theatre interests, passed through St. John last night on his way from Bangor to Halifax. He will be in St. John on Saturday. Mr. Watkins, speaking of the extent of the moving picture business, said that many of the Keith vaudeville houses in the States were running pictures and large business is done. Recently the Boston theatre in Boston had been purchased by Mr. Keith and the moving pictures are running there to big business as well as in other Keith Boston amusement places.

P. S. Archibald and J. R. Stone, commissioners of the New Brunswick Coal & Railway Company, made an inspection trip over the road yesterday. Ballasting is going on to the extent of cars a day, and they report the condition of the road to be improving.

Miss Emma Felix, of Milwaukee, arrived in the city last night and is at Ten York Hall. Miss Felix will join the Nickel staff of singers on Monday and Miss Belle Foley, of Montreal, will join the Halifax Nickel, where DeWitt Cairns is also singing.

"I consented. I proposed. We got married. I suggested that she turn over her wealth to me, and she—"

"No, sir. She turned it over. It was fifty thousand dollars' worth of stock in another Texas oil well! See? Funny, isn't it?" JOE KERR.

THE WAY OF THE DAY. "Sir, when you make such a statement as that you know that you are speaking falsely." "I know nothing of the kind, and I warn you not to call me a liar."

"And you can't see through a barrel with both heads out." "Humph! yourself!" "Get out!"

And all because, though they are neighbors of 10 years' standing and belong to the same church, one is going to vote for Taft and the other for Bryan. JOE KERR.

A HEAVY LOAD. Walter—Haven't you forgotten something? Victim—I shouldn't be surprised. My wife told me to water the flowers, feed the bird, close the windows when it rains, keep the sun off the parlor carpet, put out the cat and a few other things.

A SELF-MADE MONKEY. The Short One—You can't make a monkey of me. Tall One—I can't without infringing on your copyright.

It's easy for a man to manage his wife. All he has to do is to follow her instructions.

Government steamer Restigouche left port yesterday afternoon for up the bay with Engineer Lezer on board to inspect the lighthouse.

The Prentice Boys' picnic scheduled to occur to-day at Westfield Beach was postponed owing to the unfavorable weather until to-morrow.

Steamer Governor Cobb, Captain Thompson, sailed this morning for Boston, and took away a large shipment of berries and fish.

Steamer Calvin Austin, Captain Pike, arrived this morning from Boston direct and landed 450 passengers. The steamer made a good passage.

West India steamer Dahome is due here tomorrow from Bermuda, Windward Islands and Demerara, with passenger and general cargo.

Schooner Jennie C., Captain Scott, cleared today with 127,805 feet planned hemlock board for Salem. The schooner was loaded at Fredon.

C. P. R. steamer Montezuma, Captain Porter, arrived at Moncton yesterday from Antwerp. She has on board some cargo for St. John.

The A. O. H. Cadets are requested to attend in uniform at a special meeting to be held this evening at St. Michael's hall, when business of importance is to be transacted.

The Sussex Record says:—Tourist travel to Sussex has not been so dull for years as it has been during the present summer. The number of visitors has been unusually small.

Euclid McGrath was convicted at Bathurst yesterday of stealing a mail bag on March 30th and sentenced to six years in the Dorchester penitentiary. Judge McLachly presided.

It is very probable that Policeman Semple will be selected for the position of janitor of city lock-up. He has had considerable experience in that line and should prove a competent man.

The hearing in the alien labor case preferred against Henry J. Hardy by John M. Thompson, was resumed in the police court this morning. Messrs. A. C. L. Tapley and John Russell, Jr., were examined.

Father Croken, of Freetown, P. E. Island, and Father Curran, also of the island, passed through the city at noon today en route to the Island Province. They have been spending some time in Rome.

Mr. and Mrs. Ralph Hunter and family desire to convey through the columns of this paper their sincere thanks to the many kind friends who so thoughtfully remembered them in their recent sad bereavement.

On Friday last the schooner Teresa Wolf, having discharged its cargo of coal, was towed down the river from Bridgetown to Granville Ferry. After partial repairs there, she will be taken to St. John and put on the docks to refit for future service.

The mill price of corn meal has been advanced by the Maritime Cornmeal Mills. The present quotations are \$1.80 bags and \$2.00 bbls, against \$1.75 and \$3.50 last week. The continued high price of course is the reason for the advance.

A North End man, who is a somnambulist, was seen late one night recently standing motionless on the edge of a roof of his residence attired in his night gown. It is miraculous how he escaped falling to the ground. The sudden fall of a window awoke him, and then he said he was dreaming of being on board his yacht.

A man was discovered by passers-by last night on Union street, near the corner of Carmarthen lying prostrate, in the road. He was under the influence of liquor but beyond having his clothes mired and a slight cut on his nose he was none the worse for his mis-placed nap. He was found asleep in a pool of muddy water having been in the position for half an hour.

A check for the sum of \$1348.29 has been handed to the president of the Seaman's Mission Society by Lady Tilley on behalf of the ladies committee who so successfully carried through the large bazaar held in March last. The above amount enters into the present construction of the new building and is devoted principally to the completion and finishing of the front portion. It is hoped by the committee of management that the work of finishing will be sufficiently advanced for the opening of the winter business this season.

EVERY DAY CLUB

The ladies and Every Day Club members meet in the hall this evening at 8 o'clock to perfect arrangements for the garden party of next Tuesday. All interested are invited to attend. The grounds committee will meet at the hall at 7:30 o'clock.

FUNERALS

The funeral of the late Lars Carligen took place at 2:30 p.m. today from his late residence, 16 St. Andrews street, to St. John the Baptist church, where burial service was read.

Interment took place in the new Catholic cemetery. There were no talk-bearers.

LUMBER BUSINESS IS VERY POOR NOW

British and American Markets are 'Very Dull--Local Mills Affected.

"Alarming" is used as expressing the lumber situation at the present time, and indications point to matters as likely to be worse before they improve. Large quantities of lumber are piled up on wharves in front of the local mills and not a stick is being shipped.

Stetson, Cutler & Co.'s mill is already closed, and more are reported to be considering a like move, if matters do not change very soon in the United States and British markets. The former is in the worst condition of the two.

Messrs. Stetson, Cutler & Co., Murray & Gregory and Howard Bros. are unanimous in the opinion that business is in a very bad condition here. Local trade was good with some, but they did not know how long this would last to enable them to continue running their mills. The iron and steel market was considered by lumbermen as a barometer of the times, as, if steel rises it indicates that railway construction is increasing and industries are building. This consequently affects the lumber business.

The change of the situation at Pittsburgh where thousands of unemployed have been given work, has been watched with interest by lumbermen as they believe this a sign of better times.

MR. TWEEDIE TO BE ASKED TO PAY UP

Government to Demand the Interest on Suspense Acct for Which it Has Been Shown He is Liable.

(Frederick Gleaser.) While the members of government refuse to make any statement on the subject, it is understood that at the meeting at St. John this week a decision was reached to call upon His Honor Lieut. Gov. Tweedie to pay the interest, amounting to upwards of \$8,000 on the Crown Land suspense accounts as shown in the revelations made by Auditor Miller to be due the province. It is also understood that His Honor Tweedie will be given a reasonable time in which to pay the amount and that in the event of his not doing so an action against him for the amount will be commenced.

WEDDINGS

Olive-Powell A very pretty wedding event took place in Moncton on Wednesday evening at eight o'clock, when at the residence of Mr. and Mrs. Wm. Powell, Bonaccord street, their daughter, Miss Elizabeth A. was married to Mr. David L. Olive, of Sackville, Alberta, son of the late Conductor A. E. Olive, of Moncton.

Fawcett-Snodgrass On Wednesday evening a quiet but very pretty wedding took place at the home of Mr. and Mrs. Abel Fawcett, of Spring street, Moncton, when their son, Mr. Joseph Fawcett, was united in marriage to Miss Ethel Snodgrass, of St. John, by Rev. F. H. Grass, in the presence of a few immediate friends of the contracting parties. The bride looked charming in a suit of blue with trimmings of white. After the ceremony light refreshments were served.
