New York, May 12.—Fritz Augustus Heinze, Montana copper man and former banker, may know by tonight whether the government's long fight to convict him of crimes against the banking laws will make him share the fate of his former associate, Charles W. Morse.

Regular Habits

An Absolute Necessity For Good Health

You might as well expect to find a man or woman healthy with constipated bowels as to find a city healthy when its sewers are blocked with refuse.

Nature demands that the indigestible food and waste matter which collects in the lower bowels shall be got rid of at least once in twenty-four hours.

Naturally, this poison affects the work of every organ. The liver is deranged, digestion is upset, and dizziness, headache, lassitude and dizzy spells follow.

Literally millions of people suffer these results of constipation without realizing the cause, or doing anything to remove it.

Take, for example, the case of Mr. George Andrews, Halifax, N.S., who himself describes it:

"For many years I have been troubled with chronic constipation. This ailment never comes single handed, and I have been victim to many illnesses that constitute impediments to my train."

Dr. Morse's Indian Root Pills were first taken to cure constipation nearly a hundred years ago, and during the last half century they have been very extensively and very successfully used throughout the world.

They are entirely vegetable in composition and do not sicken, weaken or grip like mineral purgatives.

THIS YEAR'S ATHLETIC MAID

The smartness of a sweater depends entirely on its trim and tidy fit. The shrunken, heavy or starchy sweater of last season—no matter how expensive the garment was in the first place—should be discarded and one of the new models bought for this year's wear; the shapless last year's model being kept for use over the bathing suit.

These papers advocate: British Connection Honesty in Public Life Measures for the Material Progress and Moral Advancement of our Great Dominion.

No Grant No Deals "The Shamrock, Thistle, Rose entwine The Maple Leaf forever."

BRITISH CAPITAL The Times-Star stated yesterday the statement of Sir Edward Clouston to the effect that probably \$200,000,000 of new money would come to Canada this year for investment; and noted also the estimate of the Monetary Times that in five years Great Britain has loaned Canada \$605,433,832.

These are inspiring figures, since they tell the story of the remarkable development of the country, and also prove the growing confidence of British investors in Canada.

The Monetary Times well says that "the maintenance of Canada's excellent credit in London is one of the most vital factors in Canadian finance today."

Sir Edward conveyed the same idea when he said that only legitimate projects should be pressed upon the attention of British investors who come to Canada to look over the situation.

The Monetary Times gives the following table of British investments in Canada in the five years—1905 and 1909 inclusive:—

Table with 2 columns: Investment Type, Amount. Includes Canadian bank shares, Loans and mortgage investments, British Insurance Co. investments, etc.

It is noted that the increase in British investments in Canada has increased rapidly, and was enormously larger in 1909 and 1908 than in the three preceding years.

It is to be observed, however, that the Maritime provinces scarcely figure at all in the total, apart from an investment of \$1,200,000 in Dominion Iron & Steel Co. Province of New Brunswick bonds represent \$480,000 and St. John city \$215,000.

It is too true, as stated yesterday, that for the British investor the eastern boundary of Canada is Quebec or Montreal, and the maritime provinces are an unexplored territory.

There must come a change in this regard. The rich resources of these provinces must be brought to the attention of investors in a manner never yet attempted.

Shrewd United States investors have secured large areas of valuable timber property, but there is a wide field for industrial enterprises, and for safe investment in many directions.

British capital is looking to Canada as never before, and the development of the country will repay the careful investor. St. John, which is on the eve of great commercial and industrial expansion is especially interested in the facts brought out by the Monetary Times, in an article which is to be published in pamphlet form and given a wide distribution at home and abroad.

MR. MONK UNREPENTANT The ardent St. John Conservative who desires to know all about the movements of his political leaders was compelled to seek the Daily Telegraph this morning for the story of Mr. Monk's return to Montreal and a report of his speech at the Monument Nationale.

The Standard had other news from Montreal, but none about Mr. Monk. It had an editorial attack on Hon. Dr. Pugsley, but not a word about Mr. Monk.

Yet Mr. Monk is not one of the leaders of the party. He had been ill, like Mr. Foster, and had gone away in search of health. After quite a long absence he returned, and was given a hearty welcome by Montreal Conservatives and Mr. Henri Bourassa.

Many Conservative leaders in Montreal were present, and listened with apparent approval while he repeated his opposition to the government's naval policy, which he said would involve Canada in the naval and military affairs of the empire.

WHEN BABY IS ASLEEP

When a little child lies in your arms at night, What do you care for care? When her little lips tingle in the evening, And her little arms clasp you there; When the little child lies in your arms at rest, And the sun goes down in the purpling west, What do you care for the toil and the strain, When a little child lies in your arms to dream?

When a little child stands at the door and sings, What do you care for care? When you open your arms in the dusk she springs, And away to the rocking chair; When the little child tells of the day's events, Its laughter and lilt and its sacraments, What do you care, for the pain and ache, When a little child loves you for love's sweet sake?

When the little child slumbers in sleep's sweet fold, What do you care for care? Hugging her close to your arms' fond fold, And smothering her alkien hair; When a little child drifts 'neath the lullaby, What do you care for the struggle and strife, Will she sleep at the end of it sweeter than life? —Baltimore Sun

NEPTUNE PICKS UP THE LOST POWER BOAT

Large Ship's Boat Also Found Adrift in the Bay With Nothing to Explain its Presence There

The fine power boat, belonging to John Abbott and which has been adrift in the bay since Monday, was picked up about 6 o'clock last evening by Captain Harley of the tug Neptune. The tug went out in search of the boat about 2 o'clock yesterday afternoon and came across it twelve miles off Cape Spencer. The natty craft was in good condition, everything being intact.

The Neptune also picked up a large gully to the water. There was no name on it and nothing to explain the matter.

The Abbott boat was sighted by Captain Potter of the steamer "Armouth," both on the way over and return from Digby. She was removed from her moorings at the Ballast wharf on Monday and taken over to Carleton and set adrift. Mr. Abbott values the boat at \$800.

AWAIT OUTCOME OF INJURIES

Youths Remanded in Patrick Rogers Case—Police Court Notes

This morning, before Judge Ritchie in the police court, Louis Murphy pleaded not guilty to a charge of resistance, but guilty to drunkenness, and was fined \$4 on the latter count, and as policeman Sheehan said he had resisted when being arrested, to such an extent that he had to be handcuffed and carried to jail, he was fined \$10 or two months on the charge of resisting.

The face of Wm. Shelley, a strapping, big "heavyweight" is becoming familiar in police circles. Yesterday he was allowed to go on a charge of beating an Indian name Christmas, a fine of \$20 standing against him, because he took the judge's kindness, for no sooner was he out than he went to the Salvation Army shelter, and broke several electric light globes, an offense for which he was fined \$20, while he was also fined \$20 on the old assault charge. The option was four months in jail.

Walter Shumman and Michael Harley were remanded to jail on a charge of causing severe bodily injury to an aged man named Patrick Rogers, by dragging him under the wheels of a wagon. Evidence will be made at the hospital regarding the condition of Mr. Rogers, whose arms and shoulder are badly injured, and whose recovery, it is said, is doubtful.

Stanley Whipple and Isaac Callaghan, were fined \$4 each on a charge of drunkenness, while it was doubted in the case of Paul Holme, a letter who was found wandering about Smythe street, intoxicated, last night, and who told policeman Marshall it was "none of his business" when he asked where he lived.

Before Moving to Your Summer Home and Buying An Old Stove, Call and See What We Can Offer You in a New One.

When you move to the country for the summer you go for pleasure and recreation. In order to have that pleasure you must have a stove that will bake and not smoke, not one that a stove dealer has taken back when selling a new one, one that has been fitted up just to get clear of and will smoke or go to pieces before the time to return home has come or one that you will be always patching up. It will all lessen your comfort and take the pleasure off summering in the country, but if you take a new Range with you, not one of our most expensive ones, but a plain Range that has all the Glenwood attachments, you will have your meals cooked right, you will have a Range you will be proud of and it will make your stay in the country a happy one. Call and see our lines.

For Every Need of Every Man We've The Right CLOTHES at Less Than They'd Cost Anywhere Else

When you buy clothing here, you buy directly of the makers and you save the middleman's profit. This means that you pay us 1-4 to 1-3 less than you'd have to pay for the same grades at other stores. But the economy feature is only one reason for buying Oak Hall Clothes. There are other reasons why this store would still be the clothing headquarters for most Saint John Men, even if they had to pay as much here as elsewhere. No other store offers such a wide scope of choice to the careful dresser. No other store has better-made garments or smarter styles. We know that the work which is put into the garments is the kind that counts. We know the cloths will wear well and that they will last as long as the goods. We are so sure that every garment is what it should be that we guarantee it for satisfactory service and stand ready to make right any defect which comes to light. And when in addition to these advantages you get clothes for a fourth to a third less than you'd have to pay in other stores—all of which facts can be verified by making comparisons—in there any reason under the sun why you or any other man should actually throw away good money by buying clothing outside of Oak Hall?
