COLLINS MEETING IN MAYO BROKEN UP

Stopped by Members of Irish Republican Army.

Telegraph Wires Cut at Castlebar and Correspondents Taken to Barracks — One Shot Fired and Woman is Wounded.

(Canadian Press Cable)

Dublin, April 3.—A meeting addressed by Michael Collins, at Castlebar, County Mayo, last night was broken up by members of the fourth western division of the Irish Republican Army.

The chief of the provisional government and his party returned to their hotel, and the officer who had proclaimed the meeting at an end followed, declaring that none would be allowed to leave until Mr. Collins and his friends had surrendered their arms.

The accounts received here do not state whether the Collins party was dispersed, merely saying that "some people were left the hotel were searched."

The telegraph wires around Castlebar were cut, and when the newspaper correspondent there boarded a train for Athlone they were ordered by two officers to go to the barracks.

The newspapermen were conveyed to the barracks in automobiles, where they found A. McCabe, a member of the Daily, with Commandant Kilroy and his staff. The commandant said that Mr. McCabe had admitted he was the first to draw a revolver at the meeting. The despatches say that Mr. McCabe then, in the presence of the correspondents, said, he believed he was the first to draw.

A Dublin man, said to be Charles Byrne, a member of the Collins party, was arrested and accused of the shooting. Mr. Collins subsequently told the representative of the Irish Independent, a Dublin newspaper, that he had visited Mr. Byrne, in the barracks, and found him in a cell with only a plank for a bed, and no bedding. He said he had asked Commandant Kilroy to parole Byrne, Mr. Collins to be responsible for him, but that the request was refused.

Mrs. Fogarty, owner of the Commercial Hotel, Castlebar, was arrested by the police, and taken to the barracks. She is believed to be the woman who was shot.

The correspondent here of the London Evening News telegraphed his newspaper a description of the Castlebar meeting, say all the roads to Castlebar were blocked by trees and that auto moving towards the town were stopped by armed men who even ripped up the railway tracks to prevent the arrival of the special trains from the surrounding towns. The meeting was consequently delayed until 7 p. m.

The crowd numbered 2,000, among whom were many hostile to Collins, who spoke from a raised platform. His speech was frequently interrupted and then an attempt was made to rush the speaker, but he was protected by supporters of Collins who drew revolvers. Other revolvers were also upon which the crowd was stampeded, women fainted and several persons were trampled upon. A young man was pushed into a side street and several shots were fired.

At this point, added the correspondent, an officer jumped upon the speaker, which made up the platform and declared the meeting adjourned in the interest of peace.

HOLD UP TRAIN IN OLD STYLE OF JESSE JAMES

Bandits Stop Freight in a Lonely Place in New York State.

Poughkeepsie, N. Y., April 3.—A band of ten train robbers held up a New York Central railroad freight train on a lonely stretch of road between Beacon and Poughkeepsie early yesterday, pointed up the train crew at the points of pistols, forced the engineer to uncouple his big engine from the train and drove broke into seven freight cars loaded with merchandise in shipment from New York to Chicago.

This is believed to be the first time that a real western train robbery has been attempted so close to New York city, in recent years at least.

It is not known whether the train robbers stole any goods from the cars they broke into.

U. S. TRADE WITH CANADA FALLING

Washington, April 3.—There was a decided falling off in the value of both the export and import trade with Canada during February as compared with February a year ago.

Trade figures for February issued today by the United States Department of Commerce give the following values for exports and imports to and from the Dominion during February: Exports, \$25,922,929, against \$45,178,874 for February, 1921; and imports, \$20,137,353 against \$22,874,801.

CITY MOURNS AS SIR JOHN IS BURIED

Toronto's Tribute to Memory of Merchant Prince.

Tens of Thousands Line the Streets, Business Almost Suspended and Legislature and City Council Adjourn.

(Canadian Press)

Toronto, April 3.—Business was almost entirely suspended throughout the city, factories were shut down and the Ontario legislature and Toronto city council adjourned, during the burial of Sir John Eaton here this afternoon.

The short route from the Eaton Memorial Church to Mount Pleasant cemetery was lined with tens of thousands of men, women and children, as the impressive cortege passed. In the procession were many returned soldiers in uniform and the most prominent men in the business, religious and public life of the community.

All this morning the newly installed carillon of chimes on the Metropolitan Church played "Abide With Me," one of the favorite hymns of the dead merchant and philanthropist. Bells in the towers of churches of all denominations tolled the minutes during service at the graveside.

All this morning the body of Sir John was reverently viewed in the Eaton Memorial Church, which was erected by the Eaton family, headed by Sir John, as a tribute to Timothy Eaton, the founder of the huge interests of that name. At half past two, long before all who desired to pay their respects could do so, the church was closed for the service. Owing to the great crush admission to this was by ticket only and was so arranged that the gathering was as representative as possible of the diversified business and philanthropies in and out of Toronto, in which Sir John had a part.

Prominent clergymen of four denominations assisted in the service. Rev. C. A. Williams, the pastor, was in charge. Addresses were delivered by Rev. Dr. S. D. Chown, superintendent of the Methodist church of Canada; Rev. H. J. Cody, of St. Paul's Anglican; Rev. Dr. Bruce MacDonald of St. Andrew's, (Presbyterian) college; Rev. W. A. Cameron, of Bloor street Baptist and Rev. Hugh Michael of Victoria College, (Methodist).

The musical features of the service were very impressive.

EDSEL FORD HAS ALL THE SHARES BUT THREE

Lincoln-Ford Motor Car Co. Incorporated, with \$15,250,000 Capital.

Lansing, Mich., April 3.—The Lincoln-Ford Motor Car Co., was incorporated on Saturday with a capitalization of \$15,250,000. There are 2,600 shares of common stock of which Edsel Ford, president of the Ford Motor Co., holds 2,487.

Henry Ford, Henry M. Leland and W. C. Leland hold one share each.

Visiting Horseman. Fredericton, N. B., April 3.—W. H. Goehner of Hartford, Conn., secretary of the National Trotting Association, arrived here today and will leave here tonight for Charlottetown to attend a horsemen's meeting, and will then return to Presque Isle, Maine, for a meeting of the representatives of fairs of Aroostook county and New Brunswick.

Forty Hours Closed. The forty hours devotion was brought to a close in St. John the Baptist church last evening. Rev. C. P. Carleton officiated and was assisted by Rev. A. P. Allan and Rev. Simon Orm. Father Orm delivered an eloquent sermon on the Blessed Sacrament. During the service a procession of the Blessed Sacrament took place.

LYDD GEORGE SAYS HIS SON "SICK OF OFFICE"

Makes Speech and Asks Confidence of House of Commons Today. IS LIKELY TO WIN.

Substantial Majority for Resolution on the Genoa Programme — Seven Amendments to be Offered — Asquith Ill and Out of the Debate.

(Canadian Press Cable)

London, April 3.—Premier Lloyd George was to appear before the House of Commons today and ask for an expression of confidence in the government's policy toward the international economic conference at Genoa, of which he is one of the sponsors. He is expected to receive a substantial majority.

Lloyd George returned last night from Chequers Court. He is "sick of office," according to an assertion by his son, Major Lloyd George, in a public speech on Saturday, but greatly improved in health after his three weeks of rest.

The premier spent the morning in receiving cabinet ministers and giving the finishing touches to the speech he will deliver in the commons this afternoon.

The first part of his address is expected to be devoted to a review of the situation in Europe and trade conditions throughout the world. He will then deal with the economic restoration of Russia, outlining the government plans and the attitude of the cabinet in this respect.

The premier will probably take the occasion to reply to recent adverse criticisms of the government and himself by the press and by the public speakers, as well as survey the whole domestic and political situation.

If the economic demands, Lloyd George will speak again after the introduction of the Genoa amendments to his resolution. The resolution is not expected to be adopted.

The premier's resolution follows: "Resolved, that this House approve the resolutions passed by the supreme council at Cannes, as a basis of the Genoa conference and that it will support His Majesty's government in endeavoring to give effect to them."

Notice of seven amendments to the government's motion, has been given, but that proposed by the labor party is given priority. The labor amendment reads as follows:

"While approving of an international economic and financial conference, this House regrets that the scope of the discussion at Genoa has been so circumscribed that the conference must fall short of a settlement of the political and economic evils which affect Europe, and it is of opinion that the government which clearly has not the confidence of the country and which is responsible for a policy whose unfortunate effects are to be considered as not competent to represent this country."

These amendments are not likely to be adopted. At noon it was learned that former Premier Asquith was confined to his home with a cold and would not be able to participate in the debate tonight in the House of Commons.

Whips are Active. The government whips have issued an urgent call for the supporters of the motion to attend, and a full house is certain. It is not expected that the vote on the premier's resolution will be taken earlier than 11 o'clock in the evening.

The general belief that the government will receive a substantial majority is based on the fact that the main motion has been narrowed from its original scope to a mere support of the Cannes resolution.

This has taken the heat out of the question which lately stirred the political world following Lloyd George's threat of resignation.

London, April 3.—Lloyd George said his resolution gave the house an opportunity of approving or disapproving the objects of the Genoa conference and the make up of the Genoa delegation, and that if the resolution was defeated it would be equivalent to a vote of no confidence in the government. He said the official opposition amendment challenged, not the object, but the scope of the conference. He did not believe such a body as the Genoa conference could properly consider the revision of existing treaties, even in the event that this was desirable.

OPERATION WOULD HAVE KILLED THE "SIAMESE TWINS"

Chicago, April 3.—The "Siamese Twins," Josefa and Rosa Black, who died last week, were joined at the spine and severing them would have been fatal, so X-ray photographs taken after their death are said to have shown. The pictures, it was declared, showed a continuous U shaped spine and also many vital organs in common. The deaths were due to intestinal obstruction, according to Geo. W. Brady, radiographer, who made the pictures.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "them fellers over in Ireland minds me of Joe Perkins's boy. He was the cur'stetter critter I ever seen. Every time he got a noo to he list not down an' broke it to pieces an' then hollered 'But think of the sport he had,' said the reporter. 'He seemed to like it, all right,' said Hiram—'even when he was hollerin'. But he got over it after a while. Then he took it into his head to try an' make something—an' d'you know he got so he could make most anything. They fellers over in Ireland after a spell. They'll get tired o' breakin' an' smashin', an' start in to make a country we'll all be proud of. They'll start to work an' I'll be glad to see it. If they'd start exchangin' pulpits for a month or two it 'ud do a lot o' good—yes, sir.'"

Indianapolis, April 3.—The first test of the strength of the nationalistic suspension of work by union coal miners came today, the beginning of the suspension on Saturday, an annual holiday among miners, having failed to determine the exact effectiveness of the walkout.

At the headquarters of the U. M. W. of America confidence was expressed that the day's developments would confirm the union estimate of 600,000 men, among them 100,000 non-union workers, had laid down their tools for an indefinite period of idleness.

A tacit truce between miners and operators was counted on apparently to make the union estimate of idle men certain. Few, if any, operators in the big coal-producing centres that are strongly unionized were expected to attempt an early resumption of operations. The situation, however, was in doubt in the non-union and open shop districts.

Operators of the Pennsylvania anthracite mines were not planning an immediate resumption of work, and reports sent here indicated a similar attitude on the part of the mine owners in the central competitive fields and the southwest interstate district. These three districts have more than 400,000 employees, all union men excepting about half of the 166,000 anthracite workers. States included in this stronghold of the suspension were Pennsylvania, Ohio, Indiana, Illinois, Missouri, Iowa, Kansas, Arkansas and Oklahoma.

In addition, central Pennsylvania and west Virginia, along with the smaller coal fields, were counted on to swell the ranks of the idle men.

Washington, April 3.—Armed with all the arguments and statistics that have been assembled by the U. M. W. of America, to support the action of the union in suspending work in the nation's coal mines, John L. Lewis, international president of the mine workers, was in Washington today to appear before the house labor committee and to confer with government officials.

Before the house committee, he will address his remarks directly to the subcommittee on coal, headed by Senator Brand, resolution to direct presidential appointment of a commission to study the coal industry, but questions planned the question of a Free State and a republic, but between military dictatorship on the one hand and an Irish army functioning with moral authority and the Irish people on the other.

Dublin, April 3.—The real issue in the Irish Republican Army controversy, says a statement issued from headquarters in Beggar's Bush barracks, is not between the question of a Free State and a republic, but between military dictatorship on the one hand and an Irish army functioning with moral authority and the Irish people on the other.

Dublin, April 3.—Official figures given today show that 3,220 men left the five Dublin battalions of the Irish Republican army yesterday, marching to Smithfield, where they took an oath of allegiance to the Republic, freeing themselves from any further responsibility to the Daill Eireann.

Few Resolutions. Dublin, April 3.—The standing committee of the Sinn Fein, composed of both Republicans and Free Staters, passed resolutions on Saturday expressing the earnest hope that the right of free state supporters and public assemblies would not be interfered with by either side, in the election campaign.

Samon De Valera, Cathal Brugha and the Irish Republican Army were among the signers of the resolution.

Notices appeared in the newspapers ordering, as a result of the action taken at last Sunday's Irish Republican Army convention, a rigid boycott of Belfast, Lisburn, Banbridge and Dromore. A whimsical touch was imparted to the announcement by the statement that permits for the sale of goods in stock might be obtained on application at the grand Orange hall, which was seized on March 25.

London, April 3.—(Canadian Press)—The Morning Post learns that Republican on Saturday forcibly occupied the Kildare street club, Dublin, which is the principal rendezvous of the land owning class in Ireland.

Belfast, April 3.—A bomb thrown into a house here last night exploded and wounded two children. During the night a man named Alton was shot dead.

Belfast, April 3.—John Mallon, answering a knock at the door of his home in Sligoan avenue, last night, was confronted by a gang of men who asked if his son was in the house. Upon replying in the negative, Mallon was shot dead.

A bomb thrown into a bedroom in the house of John Simpson in Arlington street, wounded two children, aged 3 and 6.

STEAL TRUNK AND SAVINGS ON THE EVE OF SAILING

Montreal, April 3.—While he was away saying good bye to some friends on the eve of his departure for Russia, burglars entered the room of Alfred Raulanranta, 679 Frontenac street, and carried away his packed trunk containing all his money, \$12,000, together with his ticket to his native country. The money represented the savings of ten years of toil in Canada.

The robbers entered and left the room by the window.

Mullingar Incident may Have Sensational Outcome.

(Canadian Press Cable)

Mullingar, Ireland, April 3.—An incident from which sensational developments are anticipated here occurred this morning when 100 Free State troops marched to the gates of the barracks occupied by Irish Republican army under the command of Eamonn De Valera, and were refused admission.

BREEZE SAVED CITY OF NASSAU

Hotel and 18 Other Buildings Burned — Thieves Steal Liquor.

Miami, Fla., April 3.—A southeast breeze saved the city of Nassau, in the Bahamas, from destruction by the fire which destroyed the Colonial Hotel and thirteen nearby buildings on Friday, so passengers who arrived from Nassau on the steamer Miami said on Saturday night.

Activities of looters while the fire was at its height resulted in Provost Marshal Wheelbell declaring martial law and serving notice that looting would be shot on sight, but before guards could be thrown around the buildings, considerable liquor from the hotel saloon was carted away by the thieves.

Narrow escapes and spectacular rescues of patrons and employees of the hotel were reported, some not being rescued until just before the walls collapsed. The loss was estimated at \$3,000,000.

DECLARES SON OF CHARLES IS KING

Former Foreign Minister Speaks for Legitimists.

(Canadian Press Cable)

Budapest, April 3.—"With the death of former King Charles, his son Francis Joseph Otto, under the constitution automatically is King of Hungary," said Gustave Gratz, former minister of foreign affairs today in the name of the Legitimists.

The pragmatic sanction is only partially invoked so far as concerns the unity of Austria and Hungary. Unless the will of Charles contains other provisions, Zita becomes the guardian of Francis Joseph Otto, under the Hungarian constitution and parliament must elect a governor while the king is a minor.

The pragmatic sanction or imperial decree, defines the will of a sovereign in limiting his own power or in regulating succession to the throne.

The News in Vienna.

Vienna, April 2.—The news of the death of former Emperor Charles became known at dusk on a rainy Saturday half-day through hurriedly printed handbills which were scattered throughout the city. There was an unexpected display of emotion by the people of Vienna.

It is difficult to analyze the political effect of the death of Charles on the complicated situation in Austria-Hungary. The general belief prevails in Monarchical circles tonight, however, that the passing of the former ruler will result in a move to consolidate the various factions, throwing together the outright Carolists and Legitimists in support of Francis Joseph Otto.

Sentimental sympathy prevails for former Empress Zita because of her approaching accession. She is not, however, regarded as a political factor, inasmuch as the law of the House of Hapsburg gives her no legal rights, while the fact that she is of alien blood places her below the youngest prince of the blood.

There is already much speculation preceding the efforts that are expected to be made to bury the body of Charles in the church of the Capuchins here.

The belief is held here that the Radical Socialists would regard the burial of Charles in Vienna as a disturbing incident which would be likely to rally the monarchists of Austria-Hungary and Bavaria, and possibly of Prussia, to a great ceremonial display.

REPEAL OR CHANGE BANKRUPTCY ACT

Demand in Notice of Resolution in Commons by P. F. Casgrain.

Ottawa, April 3.—(Canadian Press)—A demand for repeal on amendment of the Canadian bankruptcy act is contained in a resolution, of which notice has been given in the house by P. F. Casgrain, Liberal member for Carleton-Montserrat.

His resolution declares that "in view of the fact that the bankruptcy act does not obtain the results expected, and is the source of complaints from various industries and that it is in the interest of the said law should be amended or abrogated."

NEGRO HEALTH WEEK IN UNITED STATES

The key note of National Negro Health Week, April 2 to 8, in the United States will this year be that the negro death rate, as shown by the census returns, is not only not increasing but is steadily decreasing, and, moreover, is no higher today than that of New York and Boston was forty years ago and is only about two-thirds as high as that of Trieste, Petrograd, Montreal, Venice, and other cities at that time.

From this it will be argued that American negroes are not necessarily short-lived or especially liable to disease and that their death rate is high because of their comparative poverty. Everywhere the colored people will be told to look after their health, that they are not doomed by nature to early grave, and that by care they can avoid many of the ills that lie in wait for them, and prolong life for many years. In the last eight years the death rate of the negro has fallen from 100 to 75 per cent.

Incidentally the employer's attention will be directed to the fact that it is estimated that in the states that have a large negro population 450,000 of them are sick all the time and that 225,000 die annually; that about half these deaths would be prevented by better hygienic conditions; and that such a saving would do away with much of the annoyance and industrial loss that now results from absenteeism due to ill health.

This year's health week, the eighth to be held, will be conducted by Dr. R. R. Moten, principal of Tuskegee Institute, under the auspices of the Annual Tuskegee Negro Conference and the National Negro Business League in cooperation with the U. S. Public Health Service and many other associations.

The week begins on Sunday, April 2, with health sermons and lectures by qualified persons, who will explain what Health Week is and will urge co-operation with organized associations and will especially emphasize mother and infant welfare work to reduce the high infant mortality, which is about double that of the whites.

Monday is hygiene day, when personal and community hygiene will be discussed and social hygiene education and general disease control measures considered. Tuesday is "sweet the fly" (and incidentally the mosquito) day; the spread of disease by insects and the need of screening will be emphasized. Wednesday is children's day and will be devoted to stories of health crusades, cleaning up school buildings, and com-

WINNIPEG'S FIGHT BRINGS RESULTS

Public Utilities Commission Down and Out—Watered Stock an Issue.

Winnipeg, April 3.—The Public Utilities Commission will cease to exist on May 31. Although the commission will not function after that date, the act creating it will remain on the statute books of the province, as it is not the intention of the present government to introduce a measure to repeal it. This means that another government assuming office will have the machinery ready at hand if it desires the commission to be reorganized.

The reason for the sudden demise of the commission is attributable to the determined attitude of the opposition members who refused to sanction estimates for the nine months' period and instead approved of sufficient money to cover the expenses from the end of November, 1921, until it can be wound up.

This is Manitoba's answer to the commission's decision that the Winnipeg Street Railway consolidated interests were entitled to make such charges as would give eight per cent. interest on a \$24,000,000 investment. This is the amount the commission decided the holdings of the company represented, though the city's petition asserted that several million of this amount claimed by the company represented nothing more valuable than watered stock.

Public Sentiment Struck.
This was denied. Anyway the decision of the commission was a big victory for the big monopoly and so infuriated the public by its unfairness to the interests of the city that the abolition of the commission followed. This incident had in a large way much to do with the destruction of the Norris government since the government failed to act at the last session on a resolution adopted calling for the abolition of the commission, and Norris alienated some followers.

This is the end of a commission which at its inception ten years ago was introduced with applause as "the poor man's court" before which any individual feeling aggrieved against public or semi-public utility bodies could appear without cost and without the necessity of employing legal counsel.

Creation of Monopoly.
When the brass band ceased to play it was discovered to have been largely the creation of the MacKenzie-Mann street railway organization and every decision it recorded has been to weld more firmly and preserve monopoly and strange public ownership interests. It was employed first just as the city was getting its hydro under way to compete with the MacKenzie-Mann monopoly, and has crippled at every move the efforts of the province to promote public ownership enterprises.

Under the decision of the Public Utility Commissioner, which proved his destruction, the street railway company's electric light and power plant was cut under the city's prices and make up in increased railway fares and other charges of its other activities what it loses in that direction.

DEATH LIST MAY BE FIVE IN B. C. FIRE

Hazelton, B. C., April 3.—Frank Walsh of Vancouver was burned to death and four structures in the business quarter of Hazelton were destroyed by fire, which originated early yesterday morning in the Hazelton Hotel. The property damage will be about \$15,000. Four Indians from Babine Lake were supposed to be in the hotel last night. They have not been found, and may have fallen victims to the fire.

The charred body of Mr. Walsh, who was a well known traveler of Vancouver, has been recovered.

High Vitamine Ice Cream

WHY PURITY HEATHIZED ICE CREAM IS RICHEST IN VITAMINES!

What are vitamins? This is a question science has been asking ever since the discovery of the existence of these indispensable elements of food.

But if science does not know just what vitamins are, it knows a great deal about what they do for the human body. They are the elements of health and growth and they are found in the highest growth promoting combination in dairy products.

AIR REDUCES VITAMINES

Science has also found that vitamins are destroyed by agitation in air, especially in this true of dairy products. Heathization of ice cream preserves the vitamins, a fact proved by world renowned scientists. Heathized ice cream is made by driving the air out of the freezer and replacing it with a pure, clean, germless atmosphere a hundred times purer than air.

GIVE THE CHILDREN ICE CREAM

Ice Cream is a wonderful food, especially for children. But when you are giving your kiddies ice cream be sure that it is Purity Heathized Ice Cream. If it isn't Purity it isn't Heathized.

Ready Money!

An attractive feature of Imperial Life policies is the fact that the money so provided is paid in cash to one's heirs or executors at a time when the need of ready money is most imperative.

For it frequently happens that men's finances at death are entirely tied up in business enterprises or investments which cannot be at once turned into cash, except at considerable sacrifice.

But claims under Imperial Policies are payable immediately completed proofs of death and title are furnished to the Company. And no legal fees have to be paid, nor lawyers engaged to collect the money.

Wouldn't you like to leave your family some ready cash to pay current expenses while your estate is being settled up? Then ask for free information and premium rates to-day.

Life insurance can only be secured while you are in good health.

simple terms with the chief sources from which rheumatic infection is likely to spring. Amongst the most widespread of these were oxygen-starvation caused by unscientific breathing, improper dieting, and wrong combinations of food, which caused fermentation in the stomach, lack of regular bathing, and insufficient physical exercise whilst many constitutional diseases such as diabetes, indigestion, and appendicitis laid the foundation of rheumatic trouble.

Dr. Elliott exploded the popular fallacy that rheumatism is a climatic disease, and stated that it may be contracted as easily in Montreal as in Los Angeles. He disapproved of the common practice of going to some expensive mineral springs and paying as much as \$100 a week for the same treatment as one could take at home. "The two greatest enemies of rheumatism are heat and starvation. Increase the heat of the body by physical exercise, lay off meats, cleanse the pores by sweat baths and increase the circulation by cold baths, and your rheumatism will soon disappear," said the lecturer.

THE CATHEDRAL MISSION CLOSED

The four weeks mission, which has been given in the Cathedral of the Immaculate Conception by the Pastoral Fathers, was brought to a close last evening with the final devotions of the mission for the unmarried men. During his services, His Lordship Bishop LeLievre spoke a few words of encouragement to the men, making a strong plea for their conversion. During the course of the mission the visiting priests, Rev. Fr. Bede, C. P.; Rev. Father Mark, and Rev. Father Joachim, C. P., made a host of friends among the men of the congregation and will be sadly remembered by all. The services last night consisted of a ritual of the rosary and short instruction by Rev. Father Bede, followed by a closing sermon by Rev. Father Joachim, who also imparted the papal benediction. His Lordship Bishop LeLievre officiated at solemn benediction, assisted by local priests. A similar service to mark the closing of the children's mission was held in the afternoon, commencing at 8:30 o'clock.

Rev. Father Bede will leave this evening for Baltimore, and Rev. Father Mark will remain in the city for a few days and will then go to Halifax to preach the Holy Week services in St. Mary's Cathedral in Halifax.

The accident happened at about half past two o'clock on Saturday afternoon at the power house of the N. B. Power Co., Ltd., where Winchester was employed. His foot became jammed in the whirling machinery and before he could get clear the leg had been broken twice. The injured leg has been placed in splints and it is not known yet whether or not it will have to be amputated.

TEA SHORTAGE MEANS HIGHER PRICES

During the war tea reached a very high level of cost largely owing to shortage of shipping. In 1919 and 1920 greatly increased production and unlimited shipping resulted in enormous quantities of tea reaching every market in the world, and a consequent fall in cost ensued. So serious did the situation become in India, Ceylon and Java that the various growers agreed to decrease their output during 1921 by 20 per cent. This agreement was kept and the world is now faced by a shortage of tea, which has resulted in the market climbing week by week for the last eighteen months until it has now reached a level fully 15 cents a pound over that of October, 1920.

RATS AND JAUNDICE

State Health Officials Warning Against Pests Because of Malady.

When health officials are called upon to announce the epidemic prevalence of a new or unusual disease they are not always able to assure the public that the malady is rarely fatal. This is happily the case, however, in regard to the present and recent outbreaks of acute infectious jaundice in several counties of New York State. Thus far no fatal result has been reported among the several hundred cases known to the State Department of Health. In an account of eighteen outbreaks recorded in the United States since 1880 only five deaths actually were counted and only few more indicated among about three thousand cases of the disease.

The mild character of the malady will not, however, limit the endeavor to study and control it, the department says in its monthly bulletin. "We know that infectious jaundice in Japan is a serious matter, from 80 to 90 per cent. of the cases terminating fatally. It is well understood that certain diseases seem to become modified in the United States and to prevail for the most part in a characteristically mild form," the bulletin says. "This is true, for instance, of typhus fever and smallpox, and is apparently the case with this rare infectious type of jaundice. What gives concern is that we never know when and where these maladies may suddenly revert to original and severe types. "During the recent war epidemic jaundice was observed among French, British, Italian, German and Russian troops from Belgium to Gallipoli. An outbreak was recorded in our own war of 1918, and the disease was quite well known during the Civil War. In civil life in Japan it occurs frequently among mine workers, especially in the moist rather than the dry mine shafts. With the adoption of trench warfare in Europe, where similar damp soil conditions were the soldier's daily lot, the disease soon appeared, and investigators identified in trench rats the same causative organisms that had been discovered in Japan. Our own State laboratory workers are now making noteworthy progress in their attempt to identify it in rats recently captured up State. In no American outbreak has the organism been found in a human being, but it is a striking fact that an unusual prevalence of rats is frequently reported in connection with cases now being studied in many New York communities.

"So the Department is again urging a remorseless war on rats and mice, science is merciless when it conducts its warfare with poetry. Robert Burns' field mouse would have had good reason to 'cower' before a laboratory worker hunting for the Leptospira, tetraeromorphing, and would wholly deserve its capital punishment. The practical lesson of the present epidemic is 'on with the fight against rodents and in the meantime protect your food from rat contamination.' As an up-State editor pithily writes, 'a few barn oats of the savage variety will earn their board on any farm,' while, if there are no Pied

Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation. Physicians all over the country are recommending Fleischmann's fresh yeast, because it is a fresh food rich in those elements which keep the intestines healthy. In one series of tested cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

FRIENDS HONOR WELSFORD MAN

Welsford, N. B., April 1—Friday, March 31, proved a memorable day in the home of Arthur H. Jones, C. P. R. foreman. After thirty-six years' service and with a record that could not be excelled, Mr. Jones is retired on a pension and takes a well-earned rest. This date also marked the forty-first wedding anniversary of Mr. and Mrs. Jones, and their many friends in Welsford and from other places gathered at their home to do them honor. Although planned as a surprise, the guests were cordially received by Mr. and Mrs. Jones, who were ably assisted by their daughter and her husband, H. W. Abbott. A pleasant evening was spent with music and singing and the serving of refreshments. Many pretty and useful gifts were presented to the bride and groom of forty-one years and the hope expressed that they might be spared to celebrate their golden jubilee.

STOPS 50 YEARS' DYSPEPSIA Mr. James amazed at quick results with Dr. Caldwell's Laxative Syrup Pepsin. Sufferers from dyspepsia and indigestion often think they can get permanent relief by chewing charcoal tablets, mint lozenges and such things. But constipation usually accompanies dyspepsia and a medicine is required that contains ingredients for both conditions. Mr. G. James of 5 Norfolk Ave., Galt, Ont., found such a fortunate combination in Dr. Caldwell's Laxative Syrup Pepsin, which gave him relief from 50 years of dyspepsia. With the same remedy Mrs. Ellen James of Fleeton, N. S., now in her 87th year, freed herself from a lifetime of chronic constipation. This remarkable medicine is a vegetable compound of Egyptian Senna and other simple laxative herbs with pepsin, the greatest of all the digestants. It acts mildly and gently and does not gripe, and hence it is ideal for old people. It is so safe, however, that thousands of mothers give

THE ISSUE IS CLEAR

It should be made clear, in discussing the hydro question in St. John, that the provincial government and its hydro-electric policy are not on trial, and that any time spent in talking about the Musquash development could only be so spent with a view to confusing the issue.

The one fact to be kept clearly in mind is that the hydro-electric commission, backed by the government and the province, offers the city the hydro electric current at a low rate at a sub-station in Fairville; and the city council must decide whether it will give the citizens the full benefit of the expenditure of public money to provide cheap light and power, or whether it will give that benefit to the New Brunswick Power Company and fasten upon consumers for years to come rates as high as nearly as high as they are paying now.

This paper has said, and would again emphasize the remark, that it will make very little difference, so far as the growth of St. John is concerned, who sits in City Hall if we cannot get the full benefit of the Musquash development. There is another consideration. It would be easier to recall an unincorporated factory city council than it would to get any concessions from a corporation legally empowered to levy a heavy toll upon the city for years to come.

The citizens have now an opportunity to get relief from an intolerable burden. If they permit themselves to be swayed by a campaign carried on in the interests of the New Brunswick Power Company they will simply bow their necks again to the yoke. Whoever advocates a deal with the New Brunswick Power Company that would not ensure a four cent rate for light and power within a comparatively short period is pleading for the people and not for the welfare of the city.

There are no insuperable obstacles in the way of civic distribution, and to load the hydro-electric current with charges to meet deficits on street railway and gas plant and pay dividends on an over-capitalization would make the Musquash development a waste of public money; for it was carried out to benefit the people, and not a private corporation. It is most unfortunate that the city council did not last year learn beyond the shadow of doubt what a civic distribution would cost. That was the one thing which needed to be done as soon as a cheap hydro-electric current at the sub-station was offered. Then the city would have been in a position to say whether it wanted the current or not. It is of no advantage whatever to the city if the New Brunswick Power Company is to get the current and go on charging high rates. However, a committee, some of whose members cannot be charged with a passion for municipal ownership, has agreed that with a civic distribution system the city can distribute light and power much cheaper than the power company can afford to do it, and has shown that as the market expands the rate can be reduced. It is a safe estimate that with a civic sale of 8,000,000 kilowatt hours, and nobody doubts that Musquash can supply that amount, a four cent rate can be made; while the power company, to meet all its obligations, would need 10.17 cents.

It is easy to assert that enemies of the power company are seeking to do it injury. That is the kind of argument one would expect to hear, and there would be no doubt at all to its source; but the Kirby-Phillips report cannot be explained away on that ground, nor the fact that cheap electric current is offered at the sub-station. One hears also a suggestion from some quarters that the hydro-electric commission is driving a hard bargain with the city. The answer to that is that the commission is merely seeking to meet in a legitimate way the cost of the Musquash development, and arrive in due time at a stage where the only charge will be the upkeep of the plant. To add the city at the outset, while it is developing the market for light and power, the commission stands ready to defer for a period the payment of certain charges. The duty of the city council is clear. It should without further delay contract for the current it requires, and adopt such a course in regard to distribution as will give the citizens the full benefit. The future of St. John as an industrial centre depends upon cheap power. It is now within reach.

The standard says that the New Brunswick Power Company could not carry on its street railway and gas plants if the city distributed the Musquash current. In other words it would have consumers of light and gas pay the deficit on street railway and gas plant and the dividends on an over capitalization. The city is under no such obligation. It eventually it agreed to take over all the company's property it would not be at an excessive capitalization, with \$2,000,000 more tacked on as common stock.

NOVA SCOTIA COAL TROUBLE

The refusal of Hon. Mr. Macdougall, minister of labor, to appoint a Royal Commission to investigate the trouble in the Nova Scotia coal regions is strongly approved by the Conservative Montreal Gazette. That journal vigorously denounces the McLachlan policy of loafing on the job, and points out that it is condemned by Mr. John L. Lewis, international president of the United Mine Workers of America. The Gazette charges that Red propaganda is responsible for the McLachlan policy, and adds:—

"Criticism of the minister of labor, which was the keynote of Wednesday's discussion in the Senate, does not afford a solution of this difficulty. That Mr. Macdougall might have gone further than he has gone, is possible, but he is at least entitled to credit for what he has done. He has condemned in the most unequivocal terms the methods advocated by McLachlan and has left no room for doubt as to where he stands in regard to the employment of those methods. His latest action is consistent with the attitude expressed in the forceful message sent by him to McLachlan when the latter's policy of sabotage was first made public."

But the Gazette goes further and pays its respects to the gentleman who was minister of labor in the Meighen administration. We quote again:— "If there is one individual less qualified than another to sit in judgment upon the minister in connection with the position thus taken, that individual is the former minister of labor. Yet Senator Robertson has the surprising hardihood to rise in defence of the McLachlan element, and to say that the message sent to their representatives would be sent to these men 'who wouldn't stand such a reflection even from a minister of the crown.' Such utterances as these go far in explanation of the failure of Senator Robertson's administration as head of the department of labor. He is entitled to take to himself the dubious credit of having never, as minister, given expression to views which could be construed as a reflection upon the most extravagant claims or the most extreme methods of organized labor."

With regard to the Nova Scotia dispute it is gratifying to note that McLachlan on Friday last approved of the re-constitution of a conciliation board, and it may be that he will abandon the false policy of loafing on the job. The ugly feature of the case is that a majority of the miners appear to have been favorable to that policy, which persisted in would lead to the destruction of the industry from which they gain their livelihood. It is not by sabotage they can hope to improve their condition. At the present time American coal competes in St. John with coal from Cape Breton. This is due to the high cost of the latter. Whether the miner gets a fair proportion of that high cost ought to be capable of demonstration. Vice-President McDougall of the British Empire Steel Corporation says that "the rates of wages being paid under the Gillen conciliation board award represent a necessary adjustment to economic conditions, and are thirty-five per cent. above the rates of 1916 when the value of the dollar is taken into account." This also ought to be capable of demonstration or of being disproved. This time the proposed conciliation board may be able to bring about an agreement.

The Standard repeats the falsehood that the Kirby-Phillips report shows that the New Brunswick Power Company can distribute the Musquash current cheaper than the city can do it. The Kirby-Phillips report says that the power company could distribute 4,900,000 kilowatt hours at 6.22, but that it would cost the city 6.83, but the city would have an additional 8,000,000 kilowatt hours to give away or use as was deemed best to develop industries; while the power company, in order to meet the deficit on its other operations would have to charge 10.17 for the Musquash current. Moreover, if the city could develop a market for 8,000,000 kilowatt hours, which it would do in a comparatively short time, it could make a 4 cent rate. By gross misrepresentation the Standard seeks to mislead the public and save the day for the power company.

If the New Brunswick Power Company took over the distribution of light and power on the terms indicated by the Standard the public money spent at Musquash would not benefit this city to the extent of a single dollar. It would, on the other hand, put money into the coffers of the power company and fasten excessive rates for light and power upon the citizens, preventing the expansion of industries and the growth of the city.

GOLDEN CHAINS

(Rev. George Scott) One sang in reverent words and met, In noble and exalted strains, That this whole world about the feet Of God is bound by Golden chains.

An endless rosary, whose beads Are attributes of God's pure mind, All patiently low, all gracious deeds Of heaven pity thrice refined.

And all the clasps are rounded years, Engraven with their joy and pain, The precious ministry of tears, The blessed rainbow in the rain.

And every link a mortal day, Enamelled by the shining hours, The glory of the sunset way, The fragrance of the moonlight bowers.

All exquisite and lovely things, All that we know or dream of good, All tender melody that brings Contentment to our nobler mood:

Are jewels on the golden links, Gleaming with undiminished fire, And courage for the soul that drinks The holiness of long desire.

An endless chain whose mighty sweep Circles the lesser heights we've gained, Whose fadless lights in glory sweep The mountains of the unattained.

LIGHTER VEIN

Just the Reverse. "Are you in pain, my little man?" asked the old gentleman.

"No," answered the boy. "The pain's in me."

Too Fussy. "Dear, can you remember to bring some rat biscuits home this evening?" "Rat biscuits? That's the limit! No! If the rats can't eat what we have in the house, let them leave!"

An Anxious Moment. "I simply cannot stand the sound of a motor-car horn," said Thompkins. "Why not?" asked an acquaintance. "Some time ago my chauffeur stole my car and eloped with my wife, and every time I hear a horn I think he is bringing her back."

DIETARDS IN IRELAND.

(Montreal Gazette.) Resourceful as Messrs. Griffith and Collins have shown themselves to be, it would seem that they are rapidly reaching an end of their resources. Barracks and strategic centres are being occupied by rival Republicans and Free State forces, and although officers of the two sides fraternize on occasion, each side is giving demonstrations of its armed strength. In fact, in Ireland matters are rapidly being precipitated towards civil war. The verdict of a general election in Southern Ireland is eagerly awaited, despite the fact that Cathal Brugha and Mr. De Valera say they cannot agree to accept such a verdict. But this is no excuse for the brutal excesses that are taking place in Northern Ireland, more particularly in Belfast. The Ulster government is deserving of severe censure for not taking stronger measures to restore order, difficult though the task undoubtedly is.

Orange feeling has been aroused to fever heat, and the wild fighting men of the insubordinate republican army have also gone to the limit. Both sides are keeping pace with education and development of thought in India. This despite the fact that there were only 1,200 Mark Twain, has left pupils behind him, among them the senator at Washington who says that there is no reason why France should not be called upon to pay her debts at once, because she is extraordinarily rich. I was not present at the session where this senator spoke, but his remarks might be reconstructed somewhat as follows: "I shall show you, gentlemen, that France is rich. In the first place, there has been no war—that's just a fairy tale, and I pity the fools who helped to spread the rumor, which cannot be controlled. Why, that was just hard luck. "So France is rich, and in times of crisis rich people ought to set an example. That is why France must pay what she owes and renounce the money due her from Germany and Russia." "Such was the senator's discourse, and we have just heard that Mark

PALESTINE

(Montreal Gazette.) The plans for the future government of Palestine under the British mandate make provision for the appointment of a high commissioner, to be known also as commander-in-chief. He has the power to appoint an executive council, to be "constituted in such a manner as may be directed by the British government."

Sir Herbert Samuel has established a record for fair-play and straightforward dealings, although many people were averse to the regime of a Jewish high commissioner, looking upon it as an interference with the rights of the Palestinian British people. A national home has been provided in the Promised Land for all those Hebrews who care to avail themselves of it, although such a procedure is not to be taken in any way as an interference with the rights of the country. Nothing must be allowed to prejudice the civil and religious rights of non-Jewish communities in Palestine, in the same degree as nothing is allowed to interfere with the rights of the political status of Jews in any other country. The aims and purposes of Zionism call for such an expression of opinion. Sir Herbert Samuel himself said that a complete Jewish state in Palestine would be a mistake, although most Jews have a hope that constant migration of Hebrews from all over the world to Palestine will end in such a consummation.

The Arabs in Palestine form a very important part of the community. There are vast tracts of land in that country which, it is supposed, can support another six or seven million people. Jews are expert traders and city merchants, but they are also equally good agriculturalists. There are now seventy-two Jewish colonies in Palestine, covering 180,000,000 acres of land. Some of them go back a long time to their foundation, but the majority have been established quite recently. The Jews with up-to-date machinery, are performing miracles in the Promised Land, and certainly eclipse the Arabs by their more advanced methods. Jewish vine planters produce three to four times more wine from the same material as the Arab cultivators. In the Bible they are referred to as a pastoral people, and as shepherds and holding other kindred occupations. In future all three languages, Arabic, Hebrew and English, are to be permitted in the debates of the Palestine Council and in the government offices and law courts. The Palestine situation bristles with many difficulties and perhaps misunderstandings, although these are rapidly disappearing under that stabilizing British influence, which urges co-operation and universal amicable relationship between all branches of the community. The situation of "Shalom" or peace, which country," he wrote the following sarcastic comment, which appeared in a

is active in the Holy Land, as elsewhere. The Zionist extremists are also troublesome at times, although there are some who whom the latter make no appeal. But fanatical elements anywhere are hard to satisfy. If the terms of the present mandate are not duly fulfilled in the opinion of any of the religious communities in Palestine, they will be entitled to forward their alleged grievances to the Secretary of State for submission to the League of Nations, unless the high commissioner gives a sufficient reason for its not being forwarded. Great Britain looks with hope to an era of peace, happiness and general prosperity being established in Palestine that will be universal between all the peoples of the Holy Land and from which will ensue a regime of good government, coupled with absolute justice and fair play for all the varying sections of all the peoples of that old and historical country.

INDIAN CONTROL FOR THE INDIANS

Great Interrogation Mark of Empire, S. K. Ratcliffe told Canadian Club—Pessimistic for the Future.

"Our race has made the finest contribution to the national problems of life as worked out among the free peoples of the British community. We have to crown this work by carrying forward over those areas occupied by peoples without our traditions or talent for self-government the same work. The great interrogation mark over the British Empire is whether our splendid achievements in bringing self-government among our own races can be applied to people who do not belong to our own modern world, but have to be gradually led forward toward the ideas of responsibility and freedom."

This was the opinion expressed on Monday before the Montreal Canadian Club by S. K. Ratcliffe, of the Manchester Guardian, in the course of an address on "England and India." Mr. Ratcliffe, at length with the Gandhi movement, and was inclined to be pessimistic as to the immediate future of India, believing that a policy of repression would have to be enforced, and that there would be unrest and trouble in the great peninsula for years to come. In opening, Mr. Ratcliffe traced the history of India from the old Indian Company days to the great mutiny of 1857, and the subsequent elimination of the company, and reorganization of the Indian government, and the proclamation issued by Queen Victoria, with the principle that there should be no distinction for either color, race or creed, and that positions of responsibility would be given to Indians who were qualified for them. He said, started the great educational and political movement in India, the political agitation gradually increasing, not at first with an end of British rule, but with a demand for more control within the British government, whose control was looked upon as provisional, but with growing complaints that the promise of a British constitution did not keep pace with education and development of thought in India. This despite the fact that there were only 1,200 Mark Twain, has left pupils behind him, among them the senator at Washington who says that there is no reason why France should not be called upon to pay her debts at once, because she is extraordinarily rich. I was not present at the session where this senator spoke, but his remarks might be reconstructed somewhat as follows: "I shall show you, gentlemen, that France is rich. RECENT DEATHS

Mrs. Margaret Keleher. The death of Mrs. Margaret Keleher, widow of Timothy Keleher, occurred at her residence, 119 Market place, west end, on Saturday, in the eighty-eighth year of her age, and will be heard of with deep regret.

Mrs. Sophia A. Belyea. Many friends throughout the city and province will hear with regret of the death of Mrs. Sophia A. Belyea which occurred at her home, 64 Pitt street, on Saturday evening after a lingering illness.

Howard MacFarlane. Howard MacFarlane, aged thirty-five, died on Saturday night at his home in Moncton. He leaves his wife, two small children, his mother, one brother and one sister.

Silas C. Hayward. Silas C. Hayward, aged sixty-five, died at his home in Port Elgin, Saturday. He was a well known lumber merchant. He leaves his wife, eight sons and two daughters.

FUNERALS. The funeral of William H. Logan took place yesterday afternoon from his late residence, 171 Bridge street, to Fernhill cemetery. Services were conducted by Rev. G. D. Hudson. The funeral was largely attended by relatives and friends of the late Mr. Logan.

AN ADDITIONAL SPECIALIST. Owing to greatly increasing interest being taken in the case-finding campaign next week the committee in charge has announced that an extra specialist has been requested to assist in the work. He is Dr. William Garrison, of Charlottetown, and he has accepted the request. He has been connected with several well-known sanitariums, notably Dalton Sanitarium, and comes here with an enviable record. It was also said last evening that it may become necessary to engage several more doctors for the campaign on account of public interest being so keenly aroused in the fight against this dread disease.

SPRING EXPOSITION

Tuesday and Wednesday, April Fourth and Fifth

The very spirit of spring seems to be reflected in these youthfully lovely models assembled for the Fashion Exposition. There is spring in the lavish use of soft toned, wild flower colorings; in the grace of flowing lines; in sport togethery that speaks of life in the open; in the atmosphere of blossoms that pervades the fashion salons.

Both domestic and imported models are generously represented by creations expressing the most finished art.

Coats and Wraps in Many Modes Give Protection and Add Beauty

No matter how beguiling the new frock may be, there will be times aplenty when it must be covered by a coat or wrap. Here you will find dashing models to top the costume with the wanted grace.

Loose Coats of soft, pliable wools; everyday coats of good looking tweeds; wrappy capes, plain or fancy; "Burberry" for sport or all around wear. All these and many more await your approval.

Street and Sport Suits in Plain or Dashing Styles

The height of costume charms reveals itself in suit after suit in our spring stocks. You will see the two or three piece tweed suit everywhere that smart women gather; at the country club, summer resort, or for traveling. Plain colored suits of fine serge, tricootines and poiret twills are fashioned with jaunty box coats, braided or embroidered; or in the more conservative styles suited best to more matronly figures.

Spring Glorifies Frocks of All Kinds

The new frock may be of taffeta, soft crepe material of some sort, eponge, or a delightful combination of two or more of these fashionable fabrics. Some are straight from neck to hem—just loosely belted; others are in long waisted effects so becoming to many figures.

Smart shoulder capes, elaborate sleeves and girdles, touches of bright color, and beautiful embroideries—all these invite your attention. You may choose your frock from a host of very gay colors or from a variety as modest as you wish.

You Are invited to View These New Modes on Tuesday and Wednesday

A high class Musical Program is arranged for Tuesday, 10 to 12 a.m.; 3 to 5 p.m.

Lovely Things for Little Girls to Wear

Snipped from the very latest books of little girl fashions you'll say of the many smart garments showing for spring in our children's shop.

Delightful effects are achieved with combinations of materials and colors. Styles are as smart and as cleverly fashioned as those for older girls.

Frocks, Coats Undergarments, Hats, Sweaters

In fact, about everything needed to complete a girl's spring wardrobe will be found in well chosen varieties here.

Interest Centres Upon the Spring Hats

The new Easter hat is a tradition not to be ignored. But, whatever one's personal need on that subject, the new "Easter Bonnets" shown in our millinery salon will make havoc with the best laid plans.

There are jaunty little shapes all covered with embroidery; smart, trim off the face shapes with a dashing air; broad brimmed, gracious picture models; feather and flower trimmed afternoon hats; and audacious little sport affairs that bespeak countless good times.

MILBURN'S LAXA-LIVER PILLS quickly remove the secretions, clear away the effete and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

WHY TOYS MATTER. Small Children Are Greatly Influenced By Playthings.

Be very careful when you are buying toys for children. At different ages children want different toys, and if their playthings are too simple or too complicated for them, they will waste half the day at their mother's apron strings, wailing dolefully, "What can I do?"

A RICH FARMING COUNTY. Fresno Ranks as One of the Nation's Garden Spots.

One of the richest agricultural localities in the United States is Fresno County, Cal. In 1919, according to the Census figures, its agricultural products were second in value in the Union to Los Angeles County, aggregating \$51,861,252. This was all the more noteworthy in view of the fact that the population then was only 128,779, and the number of individual farms was 100,000.

"The average farmer in the San Joaquin Valley," said one of the leading California bankers recently, "is in good financial condition and well equipped to meet conditions this year, and, if the producer is in good shape, this must reflect favorably on the merchant and business men in the cities and towns, as without prosperity on the farms, we cannot look for good times in the cities."

BIG CONTRAST IN MOTOR CARS

Ancient "Horseless Carriage" Has Prominent Place Among Finest Examples of This Year's Product at the Motor Show.

Engaging samples of the automobile maker's art in wide variety have been assembled for the motor show which the Honourable Lieutenant-Governor William Massey will formally open in the great Army building this evening. Scions and coaches, runabouts, touring cars and trucks, brand new from the distributors' display rooms and resplendent in their newness, constitute an exhibition that is a delight to the eye. With sixty cars or more in the ensemble, besides several exhibits of automobile accessories, the show is the biggest ever held in the maritime provinces. It has been arranged by the St. John Automobile Association, Ltd., and is being managed by the Commercial Club.

The spacious armory floor has been divided into many sections, in each of which automobiles or accessories of one kind or another are displayed. In the automobile sections, twelve distributing agencies are represented and the number of cars in the automobile booths from one up to eight or nine.

A realization of the tremendous strides made in automobile construction in a few short years is brought forcibly home to the observer at the motor show by a comparison between one of the present day generation of luxuriously appointed enclosed cars and an ancestral vehicle that, presumably out of respect to its great age, has been honored with a place on a platform above the heads of the youngsters of 1922.

This motor car, which has been singled out for a place of preference, is a single seated Rambler, evidently of great age, as the age of automobiles is reckoned.

SHERIFF BLISS OF SUNBURY IS DEAD

Oromocto, April 2—A highly respected resident passed to rest this afternoon in the person of James Peters Bliss, high sheriff of Sunbury county, in his 67th year. His death was not entirely unexpected as he had been in failing health for the last two years. Death was due to heart trouble. The late Sheriff Bliss is survived by his wife, one son, Charles G. Bliss, of Oromocto, and two daughters, Miss Mary, at Boston, and Mrs. W. B. Cartmel, of Montreal. He was born in Fredericton. The funeral will take place on Tuesday afternoon at St. John's Anglican church where service will be conducted by Rev. S. C. Grey.

Cover up those bare unsightly beams

Make your garage a place you can be proud of—transform your attic into a couple of inviting, comfortable rooms—make over that half-finished shed into a place you can really use.

Cover the joists and beams with Beaver Board. You'll be surprised to know how inexpensively it can be done. Yet, walls and ceilings of this knotless, flawless manufactured lumber can't crack, chip or fall.

Genuine Beaver Board is built-up of the toughest, longest fibres of northern spruce. Each panel is sized by the patented Sealrite process which

provides a perfect surface for painting and decoration.

Nail up the big panels, paint them if you care to, then apply the wooden strips and the job's complete. Little sawing, practically no waste and no muss or litter about the house.

You can nail Beaver Board directly over old, cracked plaster and rest assured that the result will be eminently satisfactory.

Think over the improvements you ought to make—the repairing you should do immediately—then phone your carpenter or lumber dealer and ask for a Beaver Boarding estimate.

Insist upon getting genuine Beaver Board. You can't expect Beaver Board results unless the Beaver Quality trade-mark is on the back of the board you buy.

DEVisING PLAN TO LOWER FREIGHT RATES IN CANADA

Ottawa, April 2—A closed meeting of the big railway executives, with the minister of railways, Hon. W. C. Kennedy, took place in Ottawa over the week-end on the question of freight rates. It was announced afterwards that only the broad outlines of the problem had been dealt with and no decisions reached regarding individual cases. Another meeting is to be held within the next few days.

SEIZE SPIRITS ON THE PRO PATRIA

(Canadian Press Despatch)
Halifax, April 2—A considerable quantity for forty per cent overproof rum was seized by Temperance Act Inspector E. S. Tracey and local customs officers Saturday on board the French steamer Pro Patria, plying between this port and St. Pierre, Miquelon. The prohibited spirits were located in five gallon jugs carefully stowed away in the chain locker, bunks and ash cans, but the spirit hunters were unable to solve the mystery of how they got there. Meantime the owner of the ship will have to furnish bonds for a considerable sum.

Question of Wooden Building in Charlotte Street for Dufferin Sample Rooms.

An objection to the erection of a frame building by the Dufferin Hotel for use as sample rooms, and a request that the city extend No. 1 fire district to take in two city blocks bounded by King Square, Charlotte, Duke and Sydney streets, was made to the common council in committee this morning by Hugh H. McLellan, fire marshal for New Brunswick.

The matter was referred to Commissioner Thornton, the building inspector and the city solicitor for a report at tomorrow's meeting. After Mr. McLellan had withdrawn, B. L. Gerow appeared on behalf of the hotel owners and L. Hood & Co., contractors, protesting against the suspension of the building permit, ordered today by the building inspector.

Mr. Gerow, on behalf of Porter & Co., and L. Hood & Co., business and contractors had spent about \$1,000 to date, and asked that the objection to proceeding be removed. He agreed to present his case in writing and to appear at tomorrow's meeting if necessary.

A letter was read from W. E. Golding advising the council that if permission was granted D. J. Purdy to extend his wharf at Indian town, he would claim the same right. No action was taken.

On motion it was decided to sell four lots in Lancaster to L. W. Simms for \$1,400. Mr. Simms said that he was not interested in a joint conference with the mayor and S. C. Tippett, regarding the purchase of one of these lots to which Mr. Tippett claimed a prior right of purchase. He said he required four and three would not be of use without the one over which a controversy had arisen.

After the motion was carried Mr. Thornton expressed the opinion that the price received should govern the future price of lots in that area.

On recommendation of Commissioner Frink it was decided to reimburse Mrs. Mary A. Kelly to the amount of \$53.25, being half the cost of a retaining wall placed by her under her house at 100 Wright street.

Reporting on letters received from George Carvill regarding the condition of Waterloo street, Commissioner Frink said that the surface of this street compared favorably with any macadam surface in the city. He thought that an appropriation might be made, however, to pave a portion of the section between Union and Golding streets each year.

This would require the installing of curbstones on that section, so he had asked the road engineer to prepare plans for it.

Commissioner Thornton was of the opinion that at the bulk of travel would now go by Prince Edward street, Waterloo street might be repaired sufficiently well to last for a good many years.

Commissioner Frink, on three quarters of the city had been wiped out in 1877 and had been struggling since to regain its feet. He said all steps should be taken by the city to prevent a recurrence of such a conflagration.

Commissioner Thornton said the raising of the fire district was a step in the proper direction.

Commissioner Bullock thought as the business section of the city expanded the city should take steps to extend the fire district. He thought, however, that the arrangement should have been made before the plans were made for the building.

Commissioner Thornton said his illness and that of the building inspector had caused the matter to be laid aside.

The matter was referred to Commissioner Thornton, the building inspector and the city solicitor for report at tomorrow's meeting.

The Times has received a copy of the Central Manufacturing District Magazine of Chicago, containing a signed article by Congressman Elliott W. Sproul on "What's Been Done in Washington."

There is also a full-page portrait of Mr. Sproul, who lives in Chicago and represents the 2nd Congressional District of Illinois. His article reviews the legislation adopted by the congressional session from April 11, 1921, to November of the same year, and he expresses the belief that it set a record which will grow brighter as the years pass.

MRS. SUNDER TELLS OF HOME LIFE IN THE EAST INDIES

Mrs. C. I. Sunder of Woodstock addressed the Canadian Club on India at the Natural History rooms on Saturday night. She spoke from an intimate knowledge of the country extending over about thirty years, nine of which were spent as a missionary, the remainder as the wife of the civil surgeon of the native servants, of whom many are required—from twenty to thirty. They are paid from \$8 to \$10 a month, and board themselves.

The description of the cook-house or kitchen, the efforts to keep clean the food and cup towels were very amusingly dwelt upon.

In describing the Indian ladies who went to see her in her walled in garden, Mrs. Sunder described the costumes worn by Hindu, Mohammedan, Brahmin and Christian ladies worn by her daughters, Mrs. Deardon and Mrs. McDonald.

These garments in silk heavily embroidered in gold and of most wonderful colors and some rare old jewelry were much admired.

Mrs. Sunder then spoke of the poor, and the many castes and religions of the country. English was the only language which could be used by the educated Indians when they met at their great gatherings.

England had given India a good government, education, sanitation, canals and railways that almost made the terrible famines of the past impossible. She had also taught them the idea of liberty.

The wide difference between Indian and Englishman in language, customs and religion made a sympathetic understanding difficult, but not impossible.

Mrs. Sunder spoke as one who loved India and her people. She feels that in spite of the present serious situation better counsels will prevail. She believes that it is unshakable that British rule should cease in India.

A hearty vote of thanks was extended to Mrs. Sunder, on the motion of Mrs. W. E. Raymond presided.

In a short business session it was announced that Mrs. Raymond had been appointed the official observer for the Associated Canadian Clubs at the Pan-American convention of women voters in Baltimore this month.

Arrangements were completed for a luncheon at which Miss Helen Mowatt of St. Andrews will be the guest of honor.

THREE FOR MAYOR AND FIVE FOR THE OTHER POSTS

Nominations at City Hall Today—First Balloting on Next Monday.

Three candidates for mayor and five for commissioners—just enough to make a double election necessary—were nominated for civic honors in the coming elections. The preliminary balloting will take place on next Monday and the final two weeks later. One candidate for each office will be eliminated at the first ballot.

Nominations closed at noon and brought no "dark horses" into the contest. All these names were in the hands of H. E. Wardroper common clerk, at that time, had already signified their intention of standing. They were—for mayor—E. Allan Schofield, the present mayor; Edward Sears, formerly postmaster, and H. R. McLellan, late secretary of the Commercial Club; for commissioners—Thomas H. Bullock and John B. Jones, at present commissioners; R. W. Wigmore, minister of customs and excise in the Meigen government; E. J. Hilyard, a former commissioner, and Alexander Corbet, merchant.

Papers were taken out on Saturday for Kenneth D. Spear, of the Spear Millinery Co., and had been signed by some electors, but they were not filed before the time had expired. TRAFFIC CASES. Henry R. Dunlop did not appear in court today to answer a charge of allowing his car to stand in Union street, in front of the Opera House, for a longer time than allowed by law.

A case against Louis Hayes, charged with driving his horse and carriage on the wrong side of Union street, was resumed with the evidence of Policeman Hughes and then postponed until Wednesday, at 10 o'clock.

MEETING PREPARATORY TO GENOA CONFERENCE. Berne, April 3.—Economic experts of Switzerland, Norway, Sweden, Denmark, Spain and other neutral powers who purpose to attend the Genoa conference will hold a three-day conference here, beginning on Wednesday.

OUR MARCH WEATHER. Ottawa, April 3.—Although there were more hours of sunshine last month than in March, 1931, it was colder, having a temperature of 37.82 degrees compared with 32.99 degrees last year, according to a table compiled by Wm. I. Ellis, division observer.

A six-months-old child at Atlantic City, sleeping in its carriage on the veranda, was found smothered to death by the pillows.

BELIEVE ALL HAVE OBEYED ORDER

(Continued from page 1) reconstituted as yet, and would not be unless the miners abandoned the strike on the job policy. Twenty-five contract miners were dismissed at New Brunswick on Saturday for alleged loafing on the job.

Statement by Lewis. Washington, April 3.—Union coal miners who suspended work Saturday in the bituminous and anthracite fields were declared today by John L. Lewis, president of the U. M. W. of America, to be desirous of ending the suspension of mining operations at the earliest possible date, "but the resumption of coal production entirely depends upon the future attitude of the coal operators."

Mr. Lewis made this declaration before the house labor committee. He asserted that his organization would welcome "any impartial and judicial investigation of the general conditions in the bituminous and anthracite coal industries, especially the facts relating to investments and profits, operating practices, conservation of fuel resources, application of uniform methods of safeguarding the life and limb of the workers and industrial relations and conditions. He said the testimony should be under oath.

"As to the adjustment of controversies between operators and mine workers," he said, "we have been traditionally opposed to governmental intervention." He said such adjustments may be more effectively and equitably worked out both in the interest of the public and of those engaged in the industry by conference and agreement between representatives of the operators and the mine workers.

FIRE THIS MORNING. Fire this morning destroyed a two-story wooden dwelling house in Chesley street, owned by the provincial government and occupied by John Green and William Matr. The fire was first noticed on the roof and an alarm was rung in from box 136, but the flames, fanned by a strong wind, made considerable headway. The house was taken over by the government at the time of the erection of the new highway bridge over the reversing falls.

Scully, representatives of St. John city and county in the local legislature, were in consultation with the members of the city council today at noon in connection with proposed legislation which will come before the legislative committee on Wednesday. This includes the proposed bill regarding the New Brunswick Power Co.

DIED IN MONTREAL. Mrs. Susie Case, widow of George E. Case, died in Montreal yesterday after a brief illness of pneumonia. She was a native of St. John, but left here two years ago to take up her residence with her son in Montreal. She is survived by one son, St. Clair, with whom she resides, two daughters, Mrs. W. J. Kerr of Montreal and Mrs. J. A. Johnston of this city; also four grandchildren and one brother, R. Gregg of Mountain Dale, Kings county. Her body will be brought here for burial.

COUNTY COURT. In the county court chambers this morning before Hon. J. R. Armstrong, the case of Haley Bros. vs. Chittick was continued. This is a claim under a mechanic's lien for some \$1,245. The defendant claims payment already made to a carpenter, Dibble, in the case before noted. The case will be argued by H. W. Long, for the plaintiff, and J. DeWolfe, for the defendant. The plaintiff is now also claiming payment for extras, and adjournment was made for valuation of the extras. Mr. DeWolfe appeared for the defendant and E. C. Weyman for the plaintiff.

DEATH OF A. I. MEGARITY. The death of Andrew Irvine Megarity occurred suddenly at the home of his sister, Mrs. A. Phillips, Cole's Island, N. B., on March 28. He was fifty-eight years old and had been employed for several years with the S. H. White Co. He leaves to mourn one daughter, Florence Gertrude, and four sisters, Mrs. Hanford McKnight, Mrs. Beckwith McKnight of Apohaqui, N. B.; Mrs. J. S. McKeid, of Lawrence, Mass., and Mrs. R. A. Phillips. The late William M. Megarity of this city was a brother. Interment took place in the Methodist burial grounds, Cole's Island. Rev. S. Crisp, Methodist, and Rev. S. W. Warnford, Anglican, conducted service.

BURIED TODAY. The funeral of Mrs. Sophia A. Belyea was held this afternoon from her late residence, 541 Pitt street, at 2 o'clock. Rev. Dr. D. Hutchinson conducted service.

TWO DEPUTIES IN DEFENCE BILL

One for Militia and Mounted Police, One Responsible in Naval Affairs.

Ottawa, April 3.—(Canadian Press).—In a resolution introduced to replace the bill to create a department of national defence, provision is made for the appointment of two deputy ministers and a comptroller, the latter to be charged with responsibility for financial matters of the department.

One deputy minister will have charge of militia and mounted police services, and the others will be responsible for naval affairs. The resolution also provides for the appointment of a defence council to advise the minister on all matters connected with the department. On this council, it is expected, the militia, naval, police and air forces will all be represented.

ARREST REPORTED IN VICTORIA STREET CASE

Harry Bailey, or Harry Broad, is reported arrested and held in Fredericton on a warrant charging him with theft in connection with a daylight robbery committed early in March in a house in Victoria street, this city. He will be brought to the city in the near future. It is alleged that some of the stolen goods, which included a gold watch, a fountain pen, a match box and a sum of money, were found.

John Davis, charged with threatening to kill his wife, said he couldn't remember anything about it. Mrs. Davis testified that he had been drinking and threatened to kill her and her daughter and that he made a rush at the daughter, who managed to get out of the way. He was remanded to jail.

James Frost pleaded not guilty to a charge of not supporting his wife. The matter was set aside for possible adjournment. E. J. Hennebery appeared for the husband.

WORST AID TO THE INJURED
What Not to Do—Public are Woefully Ignorant as to Procedure in Cases of Accident.

Everyone competent to judge is agreed that the work of our ambulance brigades, trained under the auspices of the St. John's Ambulance Association, is of great utility in the cause of suffering humanity, says **THE BITS**.

Outside the circle of the St. John's students and workers, the public are woefully ignorant as to what they should do in cases of accident or sudden illness. Most of the general ideas on the subject are totally wrong, and lead to much more harm than good.

The greatest enemy to injured humanity is brandy—of this there can be no question; yet belief in it is probably one of our deepest-rooted fallacies.

Almost every novelist who describes a character in a dead faint tells how brandy was forced between the insensible person's lips. Yet a person so mistreated would run risk of death from choking or suffocation.

Give no fluids—no matter whether they be stimulants, medicines, tea, or water—by the mouth while the patient is insensible.

And it must be borne in mind that in spite of the many thousands who have gained "First Aid" certificates, it is, in almost every case, far easier to find a "First Aider." You know where to search for one, but not for the other.

As a matter of fact, the only way you can assist an insensible person is to loosen any tight clothing, particularly round the neck, and give all the fresh air possible.

In the case of poisoning, by accident or design, the general idea is that you should give something to make the patient sick. Here a little knowledge is extremely dangerous, and in many cases, where the organs are burned by acids, such a course must prove fatal. The only things which are safe for an unskilled person to give before the doctor arrives are milk, raw eggs and very strong tea.

For Broken Bones.

For broken bones the method usually resorted to is carrying the sufferer into a cab and getting him to the hospital as quickly as possible.

This is totally wrong, as moving a person with a broken bone is a dangerous operation, and in many cases causes the jagged ends of the bone to tear muscles and blood-vessels, doing much harm, and possibly resulting in loss of the injured limb.

You should keep the patient quiet on the spot where the accident happened until skilled aid arrives. There is much to do before it is safe to remove him at all, but it can be done only by a qualified person, and any other interference is sure to prove injurious.

Good!—Always

It's the ingredients you cannot see—the patient care in making that are the secrets of Moir's goodness. Nothing is left to chance, all the materials used are either made in our own plant or imported direct.

Cocoa beans selected, graded, blended, roasted and ground with infinite care in our own factory.

Pineapples, apricots, raspberries, strawberries and other fruits for Moir's centres—always the finest obtainable.

Brazil Nuts, Almonds, Walnuts, imported direct; Peanuts, the small delicately flavored kind; Cocoanuts shredded fresh for each day's needs.

Every operation superintended, every chocolate examined by a keen-eyed overseer.

All this care to assure you of the same high quality you have always found so delightful in Moir's Chocolates.

Take home a box to-day

The wrong temperature will ruin candy. In the Moir factory expensive machinery keeps the air cool and dry every day in the year, no matter what it is like outside.

DECLINES TO WED MINISTER, GIRL TAKES POISON

Bear River Young Woman Who Feared She Would Have Tuberculosis Decides to End Life, But Will Recover.

Boston, April 2—Rhoda Jack, a 28-year-old stenographer, attempted to end her own life by taking poison because, according to relatives, she felt that she must refuse to marry Rev. George Neelans, of Indiana (Pa.), because she believed that she was a victim of tuberculosis.

The girl, a native of Bear River (N. S.), was brought to Boston by a relative, Mrs. Jennie Parker, of the Dorchester district. Mrs. Parker said that Mr. Neelans, a minister of the Christian Advent church, who formerly had a church in Greater Boston, wished to marry Miss Jack, but that she refused because she believed she had inherited consumption from her parents and must give it to her children.

Miss Jack went to the roof of the Franklin Square House, where she lived, and drank a vial of poison. She then entered the infirmary and told the nurses what she had done. She was taken to a hospital where it was said that she would probably recover.

HON. R. B. BENNETT WITHOUT A SEAT

(Canadian Press Despatch.)
Calgary, Alta., April 2—J. T. Shaw, elected to parliament as an independent candidate in West Calgary, holds his seat, the appeal of Hon. R. B. Bennett, Conservative candidate, against his election having been dismissed. Mr. Shaw was declared elected in a recount by a majority of sixteen.

Mr. Bennett appealed on the ground that ballots which were marked in ink should be counted, but the ruling of the special court is that Mr. Shaw is properly elected and the disputed ballots are not to be counted.

BOY FALLING FROM CLIFF IS DROWNED

Tangier, N. S., April 2—Malcolm Abriel, six-year-old son of James Abriel, lighthouse keeper at Harbor Island, fell over a cliff a short distance from his home Saturday night and was drowned.

CROWNED WITH STEEL

Crown Was Made for King Charles of Rumania.

A royal crown is associated in the popular mind with gold and jewels. There is one crown, at least, which is of plain steel, the symbol of an indomitable people who have just regained their freedom after it had been apparently quenched by the Hun. On state occasions it is assumed by King Ferdinand of Rumania, says **ANSWERS**.

It was made by command of the late King Charles, from the steel of a Turkish gun captured at Plevna, the siege which won Rumanian independence in the Russo-Turkish war. On May 10, 1881, after this steel crown had been consecrated by the metropolitan, King Charles took it in his hands with the words:

"I assume with pride this crown, wrought from a cannon sprinkled with the blood of our heroes, and consecrated by the church. I accept it as a symbol of the independence and power of Rumania."

Today this crown remains as a fitting symbol of a brave people and a brave king.

HAS CREEPING PARALYSIS?

Lenine Reported to Be in Precarious Condition.

Helsingfors, April 3—Telegrams from Moscow report that Lenine now lies in a very precarious condition. The malady from which he is suffering is said to be creeping paralysis, and doctors attending the patient say that there is little likelihood, even if he recovers, of his taking his old place in the Soviet government.

Other reports confirm previous statements that in any event Lenine will soon resign from the government not only on account of bad health, but because he does not approve the policy favored by the majority of his colleagues. It is believed that Lenine has entirely abandoned his intention to go to Genoa.

'PRENTICE BOYS' FAIR

The 'Prentice boys' opened their fair in their hall in Guilford street on Saturday night and attracted a big crowd. The fair is being held all this week and the proceeds are to go towards improvements and repairs to the hall. The fair has had a grand send-off and is already assured of success. The trustees of the hall form the committee for the fair and are as follows: Clifford Price, chairman, J. W. Fillmore, Edmund Rolston, W. W. Donohue and Percy Nichols. The prize winners were as follows: Air gun, A. McLeod; ring toss, Harry Ferguson; ten pins, Willard Fillmore; men's bean toss, Harry Ferguson; bagatelle, Fred Wilson, and flood gates, Albert McNatt.

MANY RETIRE FROM OFFICIAL SERVICE

(Canadian Press Despatch.)
Ottawa, April 1—With the ending of the fiscal year at midnight, several changes and retirements in the government service became effective, particularly in the department of militia and defence, air board and mounted police.

Col. A. B. Perry, who had been commissioner of the latter force, severed his connection with it voluntarily.

During the coming year the duties of commissioner of the R. C. M. P. will be carried on by Col. Courtland Starnes.

No immediate steps toward the appointment of a successor to Col. Perry will be taken.

In the department of militia, the retirement became effective at midnight of Brig.-General Sir Henry Burdall and also of General Sir Willoughby Gwatkin.

In the militia department 400 employees were discharged at the end of the fiscal year. Employees in some of the other departments such as pensions board and D. S. C. R. were also discharged.

ERNEST MCKAY RESIGNS.

North Sydney, N. S., April 2—Ernest McKay, works superintendent of the Nova Scotia Steel & Coal Company, has resigned, and will take a position with a big steel company in Pittsburg (Pa.).

EARTH JELLY INSIDE, BELIEF OF THIS SCIENTIST

London, April 3.—Proof that the so-called solid earth is really a stiff jelly, is believed to be provided in the discovery that waves beating on the shore cause the earth to tremble.

Professor J. W. Evans, eminent geologist, reported to the Royal Institution in the English midlands, seismometer records of wave quakes produced by Atlantic rollers dashing against the shores of Western Ireland, 300 miles away.

His co-ordinated recording instruments showed that the tremors travel through the rocky strata of the earth's crust at the rate of 180 miles a minute.

These waves follow one another in endless procession, each tremor being separated from the next by from five to eight seconds.

WEALTH FOR THE VALLEY

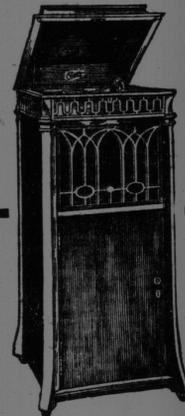

Halifax Echo: The last shipment of any extent of apples from the Annapolis Valley for England is expected to be that of about 6,000 barrels, which is to be laden this week on the Furness liner Comino now in port for London. It is estimated this year's fruit shipments from the Valley aggregated about 1,750,000 barrels, and that with good prices prevailing in the English market this will mean a total return to the Valley of about \$6,000,000 in money coming from outside the Dominion of Canada. People familiar with the fruit trade say the apple shipping season now closing was the most profitable in the history of the Valley.

C.C.M. Bicycle Prices Reduced

"HURRAH, fellows: You don't need to hold off buying your new bicycle another day.

"C.C.M. Bicycle prices have been fixed for this season and they are right down to bed rock.

The 1922 C.C.M. Standard Adult Models are: **\$15 Below "Peak" Prices \$10 Less than Last Summer**

"This certainly gives us Canadian riders a generous reduction and a square deal. I'm told that bicycles of equal quality cost more in the United States than C.C.M. Bicycles do in Canada.

"Remember, C.C.M. prices didn't advance anywhere nearly so much as most products, so they hadn't as far to come down.

"And C.C.M. Bicycles are even better now than before the war.

"You know, the best steels and materials were reserved for war purposes, and the best mechanics put on war orders. Now, the best steels and materials are again obtainable, including English Seamless Tubing for C.C.M. Frames. The best mechanics are on the job again with their skill improved as a result of the accuracy demanded in their delicate time fuse work.

A Nifty New Pedal

"And, say fellows, they've put a new pedal—called the Gibson Pedal—on the 1922 Men's Models, and it's a bird!

Special Features (continued)

"The Gibson pedal has an Aluminum frame that looks like silver and won't rust. Wonderfully light, yet very strong. Some class to it!

"The easy-running Triplex Hanger and the super-acting New Hercules Brake are on the new models, too. No extra charge, either.

"But I almost forgot to tell you the new low prices this year. They are only:

\$50 and \$60

For Standard Adult Models According to Equipment

"This means that a C.C.M. costs only about \$5 or \$6 a year, as a C.C.M. Bicycle easily gives 10 years of service. Many have given 15 years and longer."

YESTERDAY IN CITY CHURCHES

The importance of religious education was stressed by special preachers in several of the city churches yesterday and in most of the churches announcements were made of the coming case-finding campaign of the society for the prevention of tuberculosis and special collections were taken for the Russian famine fund.

Rev. W. C. Machum, Baptist field secretary for the maritime provinces for the Religious Education Council was the preacher at the morning service in the Germain street church and at the evening service in Edith Avenue mission in East St. John. Mr. Machum spoke on various aspects of religious education and the development of the Sunday school. Rev. Frank M. Milligan, Presbyterian field secretary for the Maritime Religious Education Council, spoke in the First Presbyterian church in the morning and pointed out how small an amount of time was devoted to instructing the young on religious matters. He related that some years ago in New York a survey had been taken in the interests of the religious education of the young and it had been found that the Hebrews gave their children 885 hours of religious teaching each year and the Catholics gave their children about 200 hours, while Protestants only devoted twenty-five hours yearly to their children's religious instruction. Dividing the periods of religious experience, Mr. Milligan said that the age prior to fifteen was the teaching period; then came the period of spiritual feeling and that was translated into the religious conduct of the formed character. He also spoke of the work of the maritime synod in regard to religious education.

Rev. A. S. Bishop, of Hillsboro, formerly of Fairville, took the place of Rev. F. H. Bone in conducting the services in the Central Baptist church yesterday. Mr. Bone has been conducting special services for Mr. Bishop's congregation since last Wednesday night. The visiting clergyman informed the Central congregation yesterday that already eight people in Hillsboro had made the decision for Christ as the result of the special services conducted by their pastor.

Rev. Neil MacLaughlan, of the Queen Square Methodist church, and Rev. J. Rice, of the Fairville church, made an interchange of pulpits yesterday morning. Rev. Rural Dean Sampson, of St. George's church, and Rev. W. P. Dunham, of the Church of the Good Shepherd, Fairville, exchanged pulpits yesterday.

The sermon last evening in St. Mary's church was preached by Rev. C. W. Nichols, of Westfield, who took as his subject, "The five-fold blessing."

In the Carleton Methodist church last evening Rev. G. W. Mingle of Montreal preached the sermon and Rev. J. Heaney, pastor of the church, conducted the rest of the service and, at the close, the sacrament of the Lord's supper was observed.

At the close of the regular service in the Fairville Baptist church last evening Rev. C. T. Clark, pastor of the church, baptized seven young men. Following the baptisms the communion service was observed and one of the largest crowds in the history of the church attended it. Twenty-four new members were received into the church at this service.

Sixteen persons were baptized in the Victoria street Baptist church yesterday morning and at the evening service fifty-eight new members were received into the church, including those baptized at the morning service and on previous occasions. Both services were conducted by the pastor, Rev. G. D. Hudson, and large congregations were present.

The pulpit of the Ludlow street Baptist church was filled yesterday by Rev. F. S. Porter. In the morning he spoke on the Bible, and in the afternoon in the Sunday school he gave a review of the work of the British and Foreign Bible Society, of which he is the representative for the maritime provinces and Newfoundland. At the evening service before a large congregation he gave an excellent sermon, taking as his text, "A new commandment I give unto you that ye love one another."

Large crowds attended the Tabernacle Baptist church yesterday, especially in the evening, when the church was filled to its capacity. Evangelist H. R. Bell delivered three notable sermons, one in the morning, one in the afternoon and the third in the evening. The song service in the afternoon and evening was led by George E. Knight, who also sang in a male trio in the afternoon and sang a special solo in the evening, last night at the close of the regular service, one of the largest congregations ever seen at a communion service in the Tabernacle church was present.

The services in the Waterloo street Baptist church yesterday were of special interest. In the morning Rev. Charles Pineo, newly appointed pastor of the Dundas church (P. E. I.), assisted the pastor, Rev. J. A. Swetnam, and delivered a forceful address on the spiritual life. A special feature of the Sunday school was the launching out on a trip to Palestine on a "win-one" campaign. Great enthusiasm prevailed in the Sunday school. At the Bible class, Walter Brindle, of the Seamen's Institute, gave an interesting and instructive address. A song service, conducted by Larry Morley, was enjoyed by the large congregation at the evening service and, afterwards, the pastor delivered a forceful evangelistic address on the life of the prodigal son, and gave a vivid picture of the Bible narrative. The after-meeting was interesting and many took part.

An Inspiring Recital. Following the evening service in St. David's church last evening the large congregation was treated to some inspiring music by Bayard Currie at the organ and Mrs. Gunn on the violin. The first number was by Mr. Currie, on the organ, and was the first movement from the symphony Gothique (moderato), by Widor. This was followed by "Sous-venir," by Drida, by Mrs. Gunn on the violin. The third number was "The Answer," by Wolstenholme, played by Mr. Currie. Mrs. Gunn again was heard playing the "Adagio," by Franz Ries, and the concluding number was the first movement from the "Fantasia" Sonata, by Rheinberger, on the organ by Mr. Currie.

The Lenten mission services conducted last week in St. John's (Stone) church by Rev. Prof. H. W. Mowll were brought to a close yesterday when Prof. Mowll preached at both services. The morning sermon was based on the classification of all people into three groups, natural man, babes in Christ and spiritual Christians. In the evening Prof. Mowll gave a very striking sermon on the text "The peace of God which passeth all understanding shall keep your hearts and minds through Christ Jesus." Prof. Mowll will leave for Toronto tonight and will sail in June for England to be consecrated bishop.

WEAR SKIRTS OR STAY HOME, SAYS PRINCIPAL

Knickerbockers Forbidden for Classroom Costume in Brooklyn High School.

Knickerbockers have been forbidden in the classrooms of the Girls' High School in Brooklyn. Dr. William L. Felter,

principal of the school, in the last few days has sent home three girls who appeared in the costume usually used by them on the golf links. Also he has posted a general order that girls who come to the school in knickerbockers must have a personal interview with him. One of the girls sent home for appearing in knickerbockers wore a Shifter

badge in her hat when she went to Dr. Felter's office, and he spoke to her on Shifters as well as knickerbockers. On Tuesday another girl appeared in short trousers and she also went home. Girls must wear skirts or stay away from school, he said, and the knickerbocker fad is waning fast. Dr. Felter also called the girls before

him on Monday and talked to them about the Shifters. He told them that any girl who became a Shifter was getting money under false pretences. He took the Shifter slogan, "Getting something for nothing," as the theme of his remarks, and said that any girl who cheated by permitting her work, either in an examination or at home, to be cop-

ied, was as guilty as the one who did the copying. Dr. S. Margisha, secretary of the federal organization of Zionists in Canada, gave an interesting address on the features of the Zionist movement to Palestine last evening in the Carleton street synagogue.

FREDERICTON PERSONALS.

(Gleaner, Saturday.) Miss Amy Keth, daughter of Mrs. A. M. Keth, left last evening for Wareley, Mass., where she will attend McLean Hospital to train as a nurse. Miss Maude McKee, who underwent a serious operation a few weeks ago at Victoria Hospital, was this morning removed to the home of her sister, Mrs. J. E. Crocker.

About sixty friends gathered at the home of Mr. and Mrs. William Powers, Mungretville, on Thursday evening and helped them celebrate the twenty-fifth anniversary of their marriage. Several beautiful pieces of silver were received. Rev. R. H. A. Britton is ill with pneumonia at his home in DeLoraine. His wife was formerly Miss Clements, of Nashwaakia.

Atwood M. Fisher, a former Fredericton boy, has been recently appointed a director of the District National Bank, one of the leading banks of Washington, D. C. Mr. Fisher was born in Fredericton, a son of Mr. and Mrs. C. H. B. Fisher. He was formerly located at Schenectady, N. Y., before going to Washington, where he became treasurer

SOVIET DEMANDS AT THE GENOA CONFERENCE

London, April 3.—According to a despatch to the London Times from Riggs, dated Saturday, messages have been received to the effect that the Moscow Soviet will make the following demands at the Genoa conference:

Recognition of the Soviet merchant flag, unrestricted use of foreign ports, and the handing over of all Russian ships. It will be contended that sixty per cent of Russia's pre-war shipping was in foreign ports and if any of it has been lost it shall be replaced. In the event of the Dardanelles becoming neutral, the Soviet Government will seek participation in the international control of the waterway.

ACCUMULATIVE BONDS

are a medium of investment especially attractive to those having a sum of money on which they are prepared to allow the interest to accumulate. We issue these Bonds for \$100, or any multiple thereof. They bear interest at 5 1/2 per cent per annum, COMPOUNDED HALF-YEARLY, and the following table shows the amounts required to purchase Bonds for specified sums payable at the end of five years:

\$ 76.24 will purchase a Bond for \$100
\$152.48 will purchase a Bond for \$200
\$381.20 will purchase a Bond for \$500
\$762.40 will purchase a Bond for \$1000

Money invested to return simple interest at 5 1/2 per cent per annum, payable half yearly, will double itself in a little over 18 years, whereas if invested to return the same rate compounded half yearly it will double itself in less than 13 years.

We particularly recommend these Bonds to those not in need of an immediate return on their investment or to anyone wishing to provide an amount for a specific purpose at some future date. Any further information desired will be gladly furnished on request.

Not only is the Houghton & Dutton Company of Boston, Mass., department store prepared to furnish the prospective bride with her trousseau, but even the wedding cake, made specially to order, can be obtained at the big store, too. That Houghton & Dutton bakery department for the last two years has been doing business in wedding cakes, birthday cakes and fancy baked goods for church parties, clubs, etc. Recently, for instance, it furnished all the cakes for a large Scotch wedding at which two hundred and fifty guests were present, some of them having come directly from Scotland for the occasion, and the other day it made to order a twenty-five pound birthday cake for one of Boston's "best families."

TERMS OF IRISH AGREEMENT

Which Marks a New Forward Step Toward Peace and Unity.

The terms of the Irish agreement as announced in the House of Commons Thursday night by Rt. Hon. Winston Churchill, Secretary of State for the Colonies, are as follows:

- First—Peace is today declared.
- Second—From today the two governments undertake to co-operate in every way in their power with a view to the restoration of peaceful conditions in the unsettled areas.
- Third—The police in Belfast are to be organized in general in accordance with the following conditions:
 - 1—Special police in mixed districts to be composed half of Catholics and half of Protestants; all specials not required for these forces to be withdrawn to their homes and surrender their arms.
 - 2—An advisers' committee composed of Catholics will assist in the selection of Catholic recruits for the special police.
 - 3—All police on duty, except the usual section service men to be uniformed and officially numbered.
 - 4—All arms and ammunition issued to the police to be deposited in a barracks in charge of a military or other competent officer when policemen are not on duty, and an official record must be kept of all arms issued and ammuni-

5—Any search for arms is to be carried out by a police force composed half of Catholics and half of Protestants, the military rendering any necessary assistance.

Fourth—A court is to be constituted for the trial, without jury, of persons charged with serious crimes, the court to consist of the lord chief justice and one of the lords justices of appeal in Northern Ireland.

Any person committed for trial for a serious crime is to be tried by that court (a) if he so requests, or (b) if the attorney-general for northern Ireland so directs. Serious crimes are those punishable by death, penal servitude or imprisonment exceeding six months. The government of northern Ireland will take steps to pass necessary legislation to give effect to this article.

Fifth—A committee is to be established in Belfast, with equal numbers of Catholics and Protestants, and with an independent chairman, preferably a Catholic or Protestant alternately in successive weeks, to hear and investigate complaints of intimidation, outrages, etc., such committee having direct access to the heads of the government.

The local press is to be approached with a view of inserting only such reports of disturbances, etc., as shall have been considered and communicated by this committee.

Sixth—Irish Republic Army activities are to cease in the six counties, and

thereupon a method of organizing special police in the six counties outside of Belfast shall proceed as speedily as possible on lines similar to those agreed to in Belfast.

Seventh—During the month immediately following the passing into law of the Free State, being the month within which the northern parliament is to exercise its option, and before any address, in accordance with Article XII of the treaty, is presented, there shall be a further meeting between the signatories of the agreement with a view of ascertaining (a) whether means can be devised to secure unity in Ireland, or (b) failing this, whether an agreement can be devised at on the boundary question otherwise than by recourse to the boundary commission under the treaty.

Eighth—The return to their homes of persons expelled is to be secured by the respective governments and the advice of the committee mentioned in article five is to be sought in cases of difficulty.

Ninth—In view of the special conditions consequent on the political situation in Belfast and neighborhood, the British Government will submit to Parliament a vote, not exceeding £500,000, for the ministry of labor in northern Ireland to be expended exclusively in relief work, one-third for the benefit of Catholics and two-thirds for Protestants. The northern signatories agree to use every effort to secure the restoration

of the expelled workmen, and wherever this proves impracticable owing to trade depression they will be afforded employment on relief work.

Tenth—The two governments can in cases agreed upon between the signatories, arrange for the release of political prisoners in prison for offences committed before the date hereof. No offences committed after March 31 shall be open to consideration.

Eleventh—The two governments unite in appealing to all concerned to refrain from inflammatory speeches and to exercise restraint in the interests of peace.

The agreement was signed on behalf of the Provisional Government by Michael Collins, Eamonn J. Duggan and Arthur Griffith; for the northern Government, by Sir James Craig, the Marquis of Londonderry and E. A. Archdale, and for the Imperial Government by Winston Spencer Churchill, Sir Lawrence Worthington-Evans and Sir Hamar Greenwood.

H&D SHOCK ABSORBERS

Pave Every Mile for Fords

With H & D Cantilever Shock Absorbers the body of your Ford is still while the wheels and axles follow the contour of the road.

Sudden jars are turned into undulations. Racking body blows are absorbed—not passed to the chassis.

The fabric of the tires is not bruised—30% saving in tires.

Sideways, rebound and hammering are absent. H & D's make the car ride so remarkably easy that after you have used them a week you would not ride without them at ten times their cost.

A Word to Truck Owners

Vibration on rough roads causes damage to goods. The Ford Truck or Speed Wagon equipped with H & D's gets over the ground smoothly and quickly. The cost of H & D's is more than offset by the saving in tires and upkeep.

Perfection At Last
The Range You've Longed For

WHEN Westinghouse engineers designed this range they thought of every cooking convenience a woman could wish for—and the result was the perfect range, the range so simple even a child can operate.

Mechanically this range is superior to any other. The oven lining is porcelain enamel; every single part is removable, which means it can be kept permanently sweet, spotless and rustless. The fuses are mounted on the front of the range and can easily be changed. Every heating unit plugs in and can be detached by hand.

The WESTINGHOUSE RANGE has so many exclusive features, you'll want to see it demonstrated before you buy. Ask the dealer to tell you about it or write us for booklet.

"THE OLD OAKEN BUCKET"

Joe Page's League.

Montreal, April 3—A schedule of the Eastern Canada baseball league to comprise four clubs, Ottawa, Montreal, Three Rivers, and Valleyfield, was assured at a meeting of representatives held at the Windsor Hotel here yesterday. Quebec city was not represented, it being taken for granted that the ancient capital would not hold a franchise this summer. The season will open about May 10 and close September 10, and a schedule of 120 or 126 games will be considered. The league has applied for affiliation with the National Association of Baseball.

New World Records.

Los Angeles, April 3—Tommy Milton won the championship spring automobile race at the speedway yesterday, taking the second preliminary twenty-five mile sprint in 13 minutes 1.45 seconds, an average speed of 115.02 miles an hour and the final fifty mile event in 26.1.29 seconds, an average speed of 115.2 miles an hour. Milton was said by A. A. A. officials to have established new world's records in both events.

Will Play in Moncton.

A girls' basketball team from the local Y. M. C. A. will go to Moncton Wednesday to play a Y. M. C. A. girls' team there. The Moncton Y. M. C. A. girls have won the championship for two years.

FOR BASKETBALL CHAMPIONSHIP

The Maritime Y. M. C. A. basketball championship games have been scheduled and will be played in the places and on the dates as follows—

Charlottetown will play Moncton at Moncton on Friday, April 7. Fredericton will play St. John at St. John on Friday, April 7. The winners of these games will play at St. John on April 8 or 10. Sydney will play St. George's at Halifax on Friday, April 7. "Y" will play Halifax "Y" at Halifax on Friday, April 7, making a double header in the Halifax gymnasium on that date.

The winner of the Truro-Halifax game will play Sydney in Halifax on Saturday, April 8.

The finals will be played in Halifax on April 14 and 15, between the winners of the Nova Scotia and New Brunswick championships.

The schedule has been arranged by A. B. Dawson, physical director of the Halifax "Y", president of the maritime physical directors, and who has arranged the schedule at their request. The games will be "sudden death" affairs, and if the teams cannot play they must lose by default.

McTIGUE TO BOX O'DOWD APRIL 12

Montreal, April 2—The match between Mike McTigue, claimant of the dominion middleweight title, and Mike O'Dowd, former world's champion, will be fought at the Mount Royal arena on April 12, so Tom Dugan definitely announced. The fighters did not definitely sign until yesterday.

This will be the first appearance of O'Dowd in Montreal. McTigue will probably do his training here for the bout.

HOPPE QUILTS

St. Louis, Mo., April 2—Willie Hoppe, for many years 182 ballline champion of the world, has retired from the billiard game. It was announced here last night by his manager upon their return from Chicago, where Hoppe failed to regain his title from Jake Schaefer.

To Play in Moncton.
A basketball team from the St. John Y. M. C. A. Young Ladies' League has consented to play the ladies' team of the Y. M. C. A. here on Wednesday, April 5, on the local Y gymnasium. This St. John team is reckoned to be the best in St. John and no doubt can give a good exhibition of basketball. Moncton ladies for the last two years have been champions over the St. John ladies and are out to repeat the feat. They have been practicing hard and have a good working team. The ladies that will represent Moncton will be Misses Jenny Grant, Lucy Dobson, Ethel Frites, Annie Gibson, Marlon White, Mary Steeves and Mrs. Olds—Moncton Times.
