GOVERNMENT
SOON IN GRAND
TRUNK CONTROL

Financial Aid and Extension
of Time Refused

More Than \$1,000,000 in Interest
on Bonds Due and Unpaid—Some Opinions
of Newspapers in England.

Montreal, April 5.—The Gazette's Ottawa correspondent says: "Unless the government by order-in-council extends the time for arbitration on the Grand Trunk, the arbitration proceedings will terminate on April 9, and will not be renewed without further authority from the government."

"What precipitated the crisis was the default of the Grand Trunk on the quarterly interest on \$119,839,012, four per cent, debenture stock, amounting to more than \$1,000,000. Coupled with a request for money for this and other purposes the railroad asked for more time to continue its case before the arbitration commission. The government wanted the road at once in order to co-ordinate the national system; the Grand Trunk disinterestedly want to keep it, or at least hold it for some months in the hope of making a better bargain. The government has refused both financial aid and an extension of time, and the Grand Trunk cannot pay its interest."

"If both parties maintain their present positions, then the road goes into liquidation, with great loss to the bond holders and shareholders and probably disruption of the system. But it is scarcely possible that this will be permitted. Negotiations are still in progress, and an amicable settlement is possible that will protect the bond holders and give to the government immediate and complete control."

In London.—The Canadian Associated Press.—The Grand Trunk Railway Company's office here issued a notice to the press last evening, stating that the company is not in a position to meet its obligations due on April 1, had not been received from the Canadian government. The Financial News has long argued on rumors that the Canadian government may abandon the project to take over the Grand Trunk. It says that actual failure to provide further interest payments would be a sheer repudiation of definite obligations, something of which no Canadian government has ever been guilty. For this reason the paper thinks that there is little probability of the government abandoning its scheme of acquisition.

The Manchester Guardian says it is a curious situation to find the Canadian government in arrears for interest on bonds which it guaranteed, but adds that it is impossible to believe that any ministerial significance can be attached to the reports of a possible abandonment of the agreement, although the market has been not at all disturbed by them.

Wants \$70,000,000.—Montreal, April 5.—According to statements published here, the Grand Trunk is asking the government for ninety million dollars to meet its requirements. It is said that the greater part of this was required to take care of temporary financing done by the company immediately before the strike, and that in no sense a loss arising from the company's operations.

AIRSHIP SWOOPS
DOWN ON GROUND;
EIGHT KILLED

Buenos Aires, April 5.—Eight persons were killed and injured in La Paz, Bolivia, on Sunday, when Lieut. Baudron, a French army aviator, lost control of his airplane during an exhibition flight and plunged into a crowd. Lieut. Baudron was among the killed.

IN WALL STREET

New York, April 5.—Dealings in the stock market today were again very irregular and confusing. On the constructive side, Studebaker was most prominent, rising a point in the first few transactions and soon extending its lead to 15-8. General Asphalt and Houston Oil also were strong, with American Woodmen, American International, St. Paul and Sears-Roebuck. Unsettled conditions in Holland probably accounted for a two point reaction in Royal Dutch. Pressed Steel Car, Kresy Wheel and Atlantic Gulf also were reactionary. Mexican Petroleum, yesterday's most erratic feature, yielded a large fraction at the outset but soon strengthened.

THOUSAND TONS OF COAL
A WEEK FOR C. N. R.

Inverness, N. S., April 5.—A telegram asking for resumption of the delivery of 1,000 tons of coal a week to the Canadian National Railway, received here late yesterday, means that the management of the Inverness Collieries will be enabled to re-open mine operations and carry on probably until navigation commences, when it is expected that trade conditions will improve.

WOULD BE A COMMONER

Canada's Governor General, the Duke of Devonshire, who told a Winnipeg audience that if in the near future legislative changes permitted, he would try to win a seat in the British House of Commons. His title bars him at present and he has to be content with a seat in the Lords.

CHILD WELFARE
Dr. Helen MacMurchy Says
One of Health Department's
Most Important Branches.

Ottawa, April 5.—Speaking on "Child Welfare" last night, Dr. Helen MacMurchy of the department of health, Ottawa, said that at Ottawa it was now regarded as one of the most important divisions under the supervision of the minister of public health. It was not possible for any department of health to do without a child welfare division and this was the first division in Canada created under the act.

In British Columbia in the Kaslo district, she said there had been no infant mortality in the last two years; and there was one place in France where not one baby died under the age of one in ten years.

In regard to maternity mortality she said that in Canada fifteen mothers were lost for every 1,000 births, which was, she said, tragical and unnecessary.

DAYLIGHT SAVING
FOR FREDERICTON

Fredericton, N. B., April 5.—Daylight saving time for Fredericton is decided by the council of the local board of trade yesterday. A committee reported that 51 per cent of replies to a questionnaire addressed to members of the board were in favor of a general turn-over tax and the committee was unanimous in favor of such a tax. It was unanimously approved by the council to petition the minister of finance along these lines.

FOR GENERAL
TURNOVER TAX

Montreal, April 5.—Approval of a general turn-over tax and disinclination to precipitate a war between grain carriers, were features noted at a meeting of the council of the local board of trade yesterday. A committee reported that 51 per cent of replies to a questionnaire addressed to members of the board were in favor of a general turn-over tax and the committee was unanimous in favor of such a tax. It was unanimously approved by the council to petition the minister of finance along these lines.

J. RHEAULT, M. P. P.,
DEAD IN D'ISRAELI

Sherbrooke, Que., April 5.—J. Rheault, M. P. P. for Wolfe County, died this morning at his home in d'Israeli, sixty-four years old. He had been ill for six months with cancer of the stomach. He was the first Quebec Central Railway agent appointed in d'Israeli and the first mayor there. He leaves his wife and twelve children.

UNEARTH TEMPLE OF
PRE-AUSTRIAN DAYS

Athens, April 5.—Greek archeologists have unearthed an imposing temple at Terras, Thessaly. It is in excellent preservation and is said to be as large as the temple of Jupiter at Olympia. Bronze inscriptions establish the date of 400 years B. C.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornbeam, "I heard a robin singing blithely this morning. In welcome to the spring. Though I walked a paved street, with brick walls on either hand, I seemed to see and smell the bursting buds, and hear the ripple of the rills, and the voices of the woodland calling me."

"That's lookin' ahead a little," said Hiram. "The snow-banks here and there 'it in sheltered places, an' ice along the side of the brooks in the woods—but spring's a-comin'—yes, sir, it's a-comin'."

"'Til bet the live stock around the farmyard 'et it comin', too," said the reporter. "They had a long period spent for the most part indoors. Can't you see change in them?"

"I kin," said Hiram. "Oh, they know it's comin' all right. You orto hear the roosters in the mornin'. Mister—'it's good to git up early an' git a sniff of the fresh air. The's some mud under-foot, but you don't mind that when you know what the sun's goin' to do in the full face of nature in the next few weeks. I'll be pluggin' afore you know it—to git in some early crop."

"And 't' said the reporter, "will be inlaidin' dust and snook, and calling it life."

"What some folks calls livin'," said Hiram, "is just a gittin'. There ain't nobble to it—no, no. Come on out an' help Old Mother Natur' raise a crop. Come out for a spell, anyway—I'll git you out of the rut an' clear your brain-yes, sir."

RICH NEW WORK
WOMAN MISSING

Depressed Since Death of Her
Husband—Eluded Her
Companion.

New York, April 5.—Mysterious disappearance of Mrs. Annette Rankine, who has not been seen at her home in the East Side, since she was last seen Tuesday, became known yesterday. Although her brother Benjamin Rankine, 45, commuted with the Gurney Trust Company, asked the police to search for her, he requested that no general alarm be spread.

Mrs. Rankine, who is prominent socially, was last seen on the East Side, where she alighted from her automobile and a few minutes later entered another machine of similar make, standing near her own. Whether she did so inadvertently or not, is not known. The car disappeared. She was wearing several costly pieces of jewelry.

Mrs. Rankine's widow, William B. Rankine, founder of the Niagara Falls Power Company. The marriage occurred in 1905 and Mrs. Rankine died about six months later. Since then Mrs. Rankine is said to have been depressed and to have led a retired life. Some time ago she suffered a breakdown and her family engaged an elderly woman as a companion. Mrs. Rankine succeeded in eluding her on the day of her disappearance.

Mrs. Rankine was Miss Annette K. Norton, daughter of Edward Kingsley Norton, of Buffalo.

The Mollie Gaskill Strikes,
Fills With Water and Rolls
Over.

(Special to The Times)
Bridgetown, N. S., April 5.—Two masted schooner Mollie Gaskill, commanded by Captain Boudreau and owned by Joseph Gaskill of Grandmanan, went ashore this morning on French Beach Point on the East Side of Petite Passage filled with water and rolled over. The Mollie Gaskill is loaded with lumber, which was carrying from the south side of St. Mary's Bay to Grandmanan.

Latest wireless reports from the stranded ship say that she struck the Blonde Rock ledge at 7.30 this morning that she is grinding heavily and that her position is serious. The Impoco, which was engaged in the oil company's maritime provinces coastal trade, has in her tanks bulk gasoline equivalent to 20,000 barrels.

Boston, Mass., April 5.—A radio message received says it was hoped to float the Impoco at high tide.

J. C. Chesley, agent of the local branch of the Marine and Fisheries department, received a radio this morning advising him that the Impoco had gone ashore and he sent out a call for the government tugboat Aberdeen. She was located at Cape Sable and was dispatched to the assistance of the liner. This afternoon Mr. Chesley received a radio from Captain Kenney of the Aberdeen saying that he was at Blonde Rock. He said that the captain of the Impoco was confident that the Aberdeen could haul his steamer off at high tide. Mr. Chesley wired instructions to stand by and render any assistance possible.

JOSEPH MERRITT
DIES SUDDENLY

Prominent Citizen Stricken on
His Way From Home This
Morning.

Joseph Merritt, King street east, died suddenly this morning stricken on the North side of King square, near the Edward Hotel and within one hundred feet of where Norval McLaughlin died suddenly last week. Mr. Merritt was in comparatively good health when he left his home this morning but while walking along the square took a water urn to the sidewalk. The ambulance was summoned and a doctor immediately called but he died before he reached the General Hospital.

Coroner H. Foster gave permission to move the body and it was taken to powers undertaking parlors and later to Mr. Merritt's home. The cause of the death was heart trouble.

Mr. Merritt was in the seventy-third year of his age and was born in Clifton, Kings county but had lived in St. John since 1871. He was a well known business man and was associated with the firm of Turnbull and Company, which was later known as Merritt, Bros. & Co., wholesale grocers and importers.

On retiring from the business he was engaged in ship-building at Moss Glen and had been instrumental in building many well known vessels that sailed to and from this port. During the war Mr. Merritt had the contract of getting the lumber out for two vessels, one of which was the Ada McIntyre, and which was launched about two years ago, and the Peter McIntyre, which was launched last fall and which is now being rigged and loaded with lumber at McAvity's wharf. He was also engaged in the lumbering business in Kings county and was well known and highly spoken of throughout the county as well as in the city and elsewhere.

The news of his sudden death will be received with regret by a large circle of friends and business associates.

Besides his wife, who was formerly Miss Oakes of Digby, he leaves two daughters, Mrs. Walter Ganong of this city and Miss Helen at home, and three brothers—W. Hawkesy Merritt of Vancouver, P. S., of Portland and G. Wetmore Merritt, manager of the Great West Life Insurance Company of this city.

ASHES THROWN OVER CLIFF

London, April 5.—After the remains of Mrs. Cartwright, forty-nine years of age, of Cottingham, had been cremated at Hull, the ashes were taken to Bempston and thrown over the cliff near Flamborough Head. When Mr. Cartwright died three years ago his remains were cremated and thrown over the cliff at the same spot.

MONTEAL STOCK MARKET

Montreal, April 5.—The local stock exchange was dull at its opening this morning and nothing interesting developed during the first half hour. Atlantic Sugar was weak, selling at 30 1/2 after closing at 31 3/4 last night. Laurier and Breweries were both unchanged at 87 7/8 and 88 1/4 respectively. Wayagamack was quiet but steady at 68.

OFF FOR PENITENTIARY.
Halifax Chronicle: Jailer Malcolm Mitchell and assistants left Saturday for Dorchester, N. B., having in custody seven prisoners who were sentenced to penitentiary by Mr. Justice Chisholm, presiding at the criminal trial sittings of the supreme court. Alex. Carvery, ten years; George Keeping, seven years; Law Boutlier, seven years; Chas. Jackson, two years; Borden Boutlier, two years; Wm. Lapierre, two years; Benj. Goodie, three years.

NEGOTIATING
FOR ENDING OF
COAL STRIKE

Informal and Private As Yet,
But Under Way

Labor Organ Says Soldiers
Being Called Home From
Ireland—Other Unions Discussing
Joining With the
Miners.

London, April 5.—Informal and private negotiations between the government and leaders of the miners' union relative to a settlement of the strike were begun last night, says a definite announcement by the Daily Sketch. The newspaper declared these conversations were carried on through an intermediary who was persona grata with both sides. The Daily Mail hints that Baron George Rankin Ashwin, who has appeared as arbitrator in many trade disputes, may be the intermediary.

There are indications today that an agreement may not be reached at tomorrow's joint meeting of the miners' union, the National Union of Railway Men, and the Transport Workers' Union which has immediate strike should be proposed. Certain sections of the transport workers, notably dock workers, will, it was understood today, press strongly for a reopening of negotiations. Benjamin Tallett, M. P., and leader of the dock workers, intimated yesterday that he would advise that course at a meeting of the Transport Workers' Union today.

In the house of commons today, Premier Lloyd George was prepared to make a statement on the coal crisis, and it was expected that debate would follow. The Daily Graphic declares this morning that it was probable that the government would effect a striking British union, and asserted that "faint hopes of peace" might be seen in this direction.

Troops Called Home?
The Daily Herald, organ of Labor, asserts that large numbers of troops are being brought back to England from Ireland, and a Malta despatch to Reuters' Limited states that an infantry battalion which has reached the island of Malta, has been ordered to England, presumably in connection with the crisis.

Desperate efforts continue to save more mines from being flooded. Students at Birmingham University have volunteered to run pumps in mines throughout that district, while Baron Bledlow and his son are operating pumps in their colliery at Lydney.

SHOOTING IN
A SUBURB
OF HALIFAX

Halifax, N. S., April 5.—James Paris of Africville is in the general hospital with a bullet wound in his head, as a result of a shooting in the colored settlement near here late last night. Three West Indians, who were taken into custody, when they reached the scene soon after the shooting, were this morning released. One of the trio was fined \$20 for carrying a revolver.

Paris was shot from behind, the bullet entering his head near the right ear and passing out through his cheek.

THE SILVER TREE
I wish I could see one night
That tree in Cairo, near the Nile
On which at dusk the egrets light
And sleep a while.

At earliest dawn they fly away
In the white radiance of bloom
And the great, dark-leaved tree all day
Stand blossom bare.

But when dusk folds the Citadel
Within Mokattam Hills it brings
To that expectant tree the thrill
Of homing wings.

Down the long reaches of the Nile
The silver birds come winging home
Past Boulaq and Gendeh's Isle,
Past mosque and dome.

And suddenly the tree is dressed
In a white radiance of bloom
As birds on bird droops tend to rest
With folded plume.

The lovely moon upon her way
Looks down, and watches with delight
The silver tree, so bare by day,
Blossom bright.

This Ten-Day test costs you nothing. Simply mail the coupon. Then watch the delightful effects.

Peppodent combats the film with every application. It keeps teeth highly polished, so film less easily adheres.

It also stimulates the salivary flow. That is Nature's great protecting agent. It multiplies starch digestant in the saliva, and digest-starch deposits which so often cling and form acid. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Thus every use brings five desired effects which old methods failed to bring.

The modern way
Peppodent is based on modern research. It does what authorities now regard as essential. Halt the world over it is displacing old methods, largely by dental advice.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Watch all the good effects. The book we send will tell the reason for them. Then decide if this method, in your family, should supersede the old. Cut out the coupon now.

**ARMENIAN GIRL
ON WAY TO MARRY
A BOSTON MAN**

Parents, Brothers and Sisters
Slain by Turks—She Was
Courtied By Mail.

(The Boston Globe.)
Somewhere on the Atlantic ocean,
aboard the steamer Britannia of the
Faber Line, is Miss Yeghert Assadoo-
rian, twenty-two years old, of Harpoot,
Armenia, hopefully looking forward to
the docking of the vessel at Providence
on April 7 and the meeting of her hus-
band-to-be, Hazon Shaghalian of 42
Hanson street, Boston, whom she has
never seen.

After years of persecution and untold
indignities at the hands of the Turks,
Miss Assadoorian will find rest and
peace in this country as the bride of Mr.
Shaghalian, who, as a member of a
group of young Armenian men in this
country who are selecting wives from
their own war-ridden land, won her
heart and hand by mail.

An American marriage will take place
in Providence as soon as the vessel
docks, and a few days later the Arme-
nian service will be performed at the
home of one of Mr. Shaghalian's rela-
tives in Newton.

The courtship of the young couple is
very interesting. Some months ago Mr.
Shaghalian, while attending a meeting
of the Armenian Relief Association, of
which he is a member, jokingly told a
friend that he would like to get mar-
ried. The friend suggested that Mr.
Shaghalian choose a girl from his own
country, as several other members of
the relief association had done.

But the friend did not stop with giv-
ing advice. He wrote to a relative in
Armenia, telling her of the circum-
stances and asking if she knew of any
young girl who would like to get mar-

ried and come to America. The relative
suggested, Miss Assadoorian, and the
Cupid-like friend passed the suggestion
on to Mr. Shaghalian. A correspond-
ence, including an exchange of photo-
graphs, was started between the young
man and woman, and about a month ago
she accepted his proposal of marriage.

With the bright prospects of a happy
home ahead of her, Miss Assadoorian
can now forget the horrors of the past
six years. She was born in Harpoot,
the daughter of a substantial business
man. Early in the war the Turks
swooped down upon her home and mur-
dered her father, mother, brothers and
sisters while she looked on.

For some unaccountable reason the
life of the half-crazed little girl was
spared, but she faced a future over
which death and torture hovered darkly.
For weeks she trudged the highways of
Armenia seeking shelter, sleeping in
haystacks and in the fields at night and
eating whenever and wherever she could.
Publicly persecuted, subjected to in-
dignities, and tormented by the mem-
ories of the fearful murder of her rela-
tives, the little refugee fled from city
to city and town to town until she met
Mrs. Nadie Kasparian, like herself a
refugee from Harpoot.

The older woman took charge of Miss
Assadoorian and together they worked
their way to Aleppo, Syria, where they
found safety and employment as nurses.
The two women have been together ever
since and are now coming to this coun-
try together.

Mr. Shaghalian was born in Armenia,
but has been in this country for eleven
years. He is in the tailoring business.

KETCHUM-MAXWELL

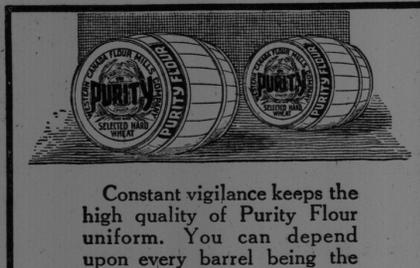

A very interesting wedding took
place in Vancouver recently when Mrs.
Una Maxwell of Pasadena, California,
became the bride of Carleton Ketchum,
of the Vancouver Daily Province. Mr.
Ketchum is a son of Mr. and Mrs. W.
Q. Ketchum of Ottawa, and a grandson
of the late Rev. Dr. Ketchum, of St.
Andrews, New Brunswick. He was
formerly a reporter on the Ottawa Cit-
izen and served in the Fourth Division
Artillery in France.

This Was Interesting News on 5th April, 1866.

TELEGRAPHIC.

New York, April 4.
 A number of Canadian residents held a meeting last night and appointed a committee to form a permanent society in this city to agitate for Canadian independence.
 About two-thirds of the ship carpenters employed in the various yards at Greenpoint are on a strike for the eight hour system, which is rejected by the bosses.
 A special despatch from Toronto, C. W., April 3rd, says: "The order disbanding volunteers has been rescinded and troops are still being sent to the frontier. There is a great deal of mystery in this matter. The Government professes to intend to muster men out, yet under cover of night they send new companies to the frontier. Last night four companies arrived at midnight in this city: this morning there were no signs of them, and the authorities refuse to tell where they went. Many believe that the Government is endeavoring to make Americans believe they are disbanding the troops while secretly calling out more."
 News from the city of Mexico to the 19th ult. says Gen. Organ has proclaimed himself President of the Mexican Republic in virtue of the constitution of 1857, at the town of Culiacan. The assassins pursued by the French police.

IMPERIAL KIDDIES
SCORED BIG HIT

'Beauty and the Beast' Delightful Fantasy — Picture Feature Also Scored.

The Imperial kept its word with the people yesterday and delivered a truly remarkable programme or it might be truly stated two programmes. The splendid Pathé feature picture, "Half a Chance," was in itself a potent attraction but when it was supplemented with Mrs. Jack Rossley's Imperial Miniatures in "Beauty and the Beast," a musical fairy fantasy, it looked like a whole dollar's worth and most people felt that way about it. To begin at the beginning the six-reel Pathé-play was certainly one unusual production. To be sure the story was as follows:—

Calvin Burke, an ex-prize fighter and jewel thief, escapes while being taken to prison for a murder of which he is innocent. He ships as a stoker and when the boat is wrecked, rescues Jocelyn Wray, the daughter of the judge who sentenced him. He drifts on to a lonely island and studies law from books found on a wreck. Ten years later, as John Steele, he is San Francisco's greatest criminal lawyer. He again meets Jocelyn Wray and falls in love with her. Her accepted fiancé, Jack Roundside, recognizes Steele and hires a detective to denounce him. With Jocelyn's aid, he escapes the detectives and, after a fierce fight, secures a confession from a witness to the murder, and discloses Roundside as a party to it. Of the kiddies in the fairy-tale play too much praise cannot be given. The fifty youngsters—all girls—disported themselves like professionals. Woven upon a slender thread of plot, that time-honored story from the fairy-tale book, "Beauty and the Beast," the story was peppered with songs, dances, witty sayings, bits of burlesque, ensembles and marches that drew forth rounds of applause after every number. The costumes were fresh, pretty and correct according to the gaily-colored picture books. In fact nothing the Imperial has attempted in the amateur line has made such a happy showing and what was primarily intended as a "kid" show made a big hit with the adults. The hectic run almost an hour and never flagged a moment. With special lighting effects and stage mechanics of different kinds the brilliant costumes and pretty

children were set off wonderfully. The same bill is on again today and the fairy fantasy continues all week at 8 and 8 o'clock. Tomorrow, however, the picture bill changes to the big feature, "Behold, My Wife," a companion picture to "Male and Female." "Don't Change Your Wife" and other Demille productions. In this picture the leading roles are assumed by Julianne Scott, Milton Sills, Elliott Dexter, Winter Hall, Helen Dunbar and other noted stars. This is a 98c attraction.

NEED NEW BRIDGE BEFORE CAR LINES ARE EXTENDED

A delegation of citizens of East St. John appeared at the regular monthly meeting of the board of the N. B. Power Company yesterday afternoon and asked whether it was the intention of the company to extend the street railway to Lee's backyard, near Little River. The board told the delegation that the company would consider the matter and let them have an answer in a week or ten days. Until a bridge over Little River satisfactory to the street railway engineers is provided by the provincial government it was explained, the company was under no obligation to extend the road. The residents of the district through their representatives in the provincial house will ask the government to provide this bridge. The delegation was composed of W. G. Watters, J. McN. Trueman, Dr. H. H. Harris, Richard Magee, Councillor Dalton and H. B. Harrington.

ARMY'S FOOTPRINTS 130 YEARS OLD

Hilo, Island of Hawaii, March 8.—(Correspondence of The Associated Press)—Footprints, 130 years old, of a Hawaiian army that fled from the wrath of Pele, goddess of the active volcano of Kilauea, near here, are believed to have been discovered in the Kau Desert, south of the great crater, by Professor T. A. Jagger, Jr., in charge of the volcano observatory. Dr. Jagger and his party were exploring a region far removed from any of the known modern trails when they came upon an area thickly covered with the imprint of naked feet, all pointing in one direction, all deep at the toes and light at the heels, indicating that the makers of the tracks had been running at top speed. The tracks had been made in volcanic ash, which is strongly impregnated with sulphuric acid and gypsum and which, when wet by rain, settles into a hard concrete. This explains the preservation of the imprints for a period believed to have stretched over more than a century and a quarter. Hawaiian legend and history provide the other side of the story, the connection between the Kau desert tracks and the flight of the army of Keoua, King of Kau, from Pele's wrath. Keoua led an army of three divisions against King Kamehameha, who later united all the Hawaiian Islands under his sway, in the year 1790. This year also recorded the last explosive eruption of Kilauea. Hawaiian legend records the fact that some of Keoua's warriors rolled stones into Kilauea crater to mark their disrespect for the goddess of the molten lake. Whatever the reason for the outbreak, Pele rose in her wrath and with a terrific explosive eruption, totally wiped out the second division of Keoua's army. The footprints found in the Kau desert are believed to be those of men of the first division, who, seeing the destruction of their comrades in the rear, fled from the locality. The third division, coming up, saw the bodies of the annihilated and halted. The area in which the footprints were discovered is part of the new Kilauea National Park, which will be dedicated this year and steps have already been taken to inclose the tracks and preserve them.

COL. E. T. STURDEE AGAIN PRESIDENT OF FERNHILL CO

The annual meeting of the lot-holders of the Fernhill Cemetery Company was held yesterday afternoon in the Board of Trade rooms with the president, Colonel E. T. Sturdee, in the chair. There was no new business brought up as satisfaction was expressed in regard to the present state and management of the cemetery grounds. The election of directors resulted as follows: Hon. J. G. Forbes, Peter Campbell, C. E. Scammell, R. H. Dockrill, F. E. Hanington, Colonel E. T. Sturdee, J. A. Likely, G. A. Kimball, F. A. Kinnear, H. C. Rankine, Thomas Bell and E. L. Rising. At a subsequent meeting of the directors, Colonel E. T. Sturdee was elected president and E. L. Rising, vice-president. J. P. Clayton was appointed superintendent and Miss M. O. Magee secretary-treasurer for the ensuing year. The perpetual care fund now amounts to \$131,213, an increase for the year of \$11,000, representing about 1,400 lots and 800 monuments. This money is invested in government and municipal debentures. The directors have engaged F. W. Holl, C.E., to make a survey of the cemetery and bring all plans up to date, so as to have a corrected record of every plot and lot. It was with much regret that the directors learned of the death last November of the late A. W. Adams, for the last few years a valued and interested member of the board. His place as a director has been filled by the election of Frank A. Kinnear. The superintendent, J. P. Clayton, has faithfully carried out his duties and is always ready to further aims and objects for Fernhill, while the difficult work and details of the office continue to be efficiently performed by Miss Magee, as secretary-treasurer.

Dorothy Dalton's Beauty Chat

Miss Dorothy Dalton, the actress famous the world over for her beautiful complexion, says: "Any girl or woman can have a beautiful, rosy-white complexion and smooth unwrinkled skin like mine if they will follow my advice and use Derwillo, a simple toilet preparation. I use it because it imparts instant beauty, is easy to apply, absolutely harmless and has a marvelous effect upon the skin. One application proves it." Be sure to read Miss Dalton's interesting story of how to quickly acquire a beautiful complexion, soon to appear in this paper. In the meantime get Derwillo at any toilet counter and try it today; you will be delightfully surprised.

LOCAL NEWS

The customs authorities seized two large casks of olive oil yesterday afternoon that they alleged was sold from a steamer, now in port, without being entered through the customs house properly. The seizure was made in the store of a merchant of this city, who says he bought the oil in good faith.

The regular monthly meeting of the governors of the Boys' Industrial Home was held yesterday afternoon in the office of Mayor Schofield. His worship was in the chair and others present were W. S. Fisher, H. H. Mott, James Myles and A. J. Parker. Only matters of a routine nature were discussed.

A very pleasant and successful meeting of men was held in Trinity church last evening. It was well attended and the gathering fully enjoyed the addresses and musical selections which were provided for their entertainment. Dr. L. A. Langstroth gave an interesting talk on the cottage of Canada. Thomas Guy and F. J. Punter gave several vocal solos, which were well received, and Steve Mathews was heard in several amusing character sketches. R. S. Coupe acted as accompanist. During the evening light refreshments were served by the Women's Guild.

RHEUMATIC PAIN
Rub Away The Soreness With
"ABSORBINE JR."
"ABSORBINE JR." penetrates
deeply into the affected parts—sets up
free circulation—relieves the pressure
on the nerves—and gives wonderful
relief in a short time.

"ABSORBINE JR." is so highly
concentrated that, just a few drops
rubbed in thoroughly, does more good
than a pint of the ordinary greasy, ill-
smelling washes.

If you suffer with Rheumatism,
Sciatica, Lumbago, Stiff or Swollen
Joints, Lameness, Sprains or Bruises,
rub with "ABSORBINE JR."—the
great family liniment and home

"I have actually gained twenty-five
pounds and I just think Tanlac is the
greatest medicine in the world," said
Mrs. Robert O. Reynolds, 127 North
Denver Street, Kansas City, Mo.

"For ten long years I suffered from
a very bad form of rheumatism, stom-
ach and nervous troubles. My appetite
was very poor. What little I did eat
soured on my stomach and I suffer-
ed the most severe pains in my back,
hips and shoulders. My rheumatism
was so bad that I could not raise my
hands to comb my hair and my arms
hurt me to my finger tips. I became so
weak and run down that I lost all my
energy and life had become almost a
burden. I tried many things but nothing
helped me.

"I had only taken my first bottle of
Tanlac when I noticed my appetite was
improving and I could sleep better at
night. I have taken three bottles and
the way it has helped me and built me
up is really astonishing. I can eat any-
thing and everything without the slightest
after-effects. I sleep just
fine at night and am in better health
than I have been for years. I am glad
to give this testimonial, hoping that any
one who is suffering as I did may ex-
perience the same wonderful results, which
I believe they will if they give Tanlac a
fair trial."

SAYS W. C. T. U. NOT OUT FOR A BLUE SUNDAY

Chicago, Ill., April 5.—Plans of the
W. C. T. U. for a membership drive
have caused erroneous reports that the
organization planned a big campaign in
support of "blue Sundays," according to
Mrs. Margaret Munns, national treas-
urer. She said the union is planning
nothing more than its usual work for
the observation of the Sabbath and is
not planning a special drive in support
of "blue laws."

BIG COAL ORDER MATTER OF PRICE

Sydney, N. S., April 5.—It is said that
a difference in price of approximately
seventy five cents a ton between what
the Canadian National Railway offers
and what the Dominion Coal Company
is willing to sell for, is the real diffi-
culty in the way of an immediate
conclusion of a contract with the railway
for 6,000 tons of Cape Breton coal. It is
said the railway is offering \$6 a ton.

TEETH GATEWAY OF HEALTH

London, April 5.—Dr. E. G. Bullth,
eminent dental authority, in a lecture
before the London College of Physiology,
said: "The preservation of healthy teeth
is the most important of all questions af-
fecting the physical well-being of hu-
manity, and the mental development is
also dependent on it. No race or family
can remain great or even perpetuate it
which neglects to care for its teeth."
The future of Great Britain and the
United States is gravely threatened by
the notably rapid degeneration of these
organs, for the mouth is the gateway of
health."

SCHOONER ABANDONED

Nantucket, Mass., April 5.—The Por-
tuguese schooner Erola, bound from
New Bedford for Cape Verde Islands,
was abandoned as a total loss last
yesterday by Captain Perry, who has stay-
ed by his ship after the crew was taken
off by the coast guard cutter Aqueduct.
The vessel lay on Long Island with her
hull under water. She struck there on
Sunday, was blown off that night and
stranded again yesterday.

JUNIOR RED CROSS

S. B. McCready, organizer of Junior
societies of the Canadian Red Cross
Society, spoke to the executive of the
Red Cross yesterday afternoon on the
matter of introducing junior organi-
zations into the schools. Mr. McCready
said that the Junior Red Cross holding
meetings in the schools on Friday after-
noon would make health teaching easier
and in this way relieve the teachers of
a portion of their burden. C. B. Allan
spoke of the Frederick Junior society
and Dr. Murray McLaren and Mr. Allan
said they would accompany Mr. Mc-
Cready to Fredericton and support him
there. On Mrs. Kuhring's motion it
was decided through Dr. Bridges to in-
vite the school teachers to attend a
mass meeting to be addressed by Mr.
McCready on Thursday. At the Rotary
Club luncheon Mr. McCready appealed
to Rotarians to give the Junior Red
Cross their support. E. Clinton Brown
was in the chair and a large group of
naval cadets were present at the guest-
book of President Terry. Dr. H. L. Spangler
told of his visit during which he in-
vited the music presented to the Rotary
Club of New York by this club.

E. Mc G. Quirk, federal labor department official investigating the steel situation in Cape Breton, says the cost of living in Sydney is higher than in any other city in Canada.

Boils So Bad HAD TO GIVE UP WORK

From the days of Job up to the
present time, boils have been one of the
afflictions of the human race.
All the publicizing and lauding you pay
will not prevent them from breaking
out again.

Boils are simply caused by the bad
blood bursting out, and the bad blood
must be made pure before the boils will
disappear.

Burdock Blood Bitters, which has been
on the market for over forty years, is
well known as the greatest blood medi-
cine procurable.

It purifies the blood by removing every
particle of foul matter from the system,
and when this is done the boils vanish,
and you should never be troubled again.

Mr. James Fahy, Newport Island,
Que., writes—"I was troubled with
several boils, and all without benefit
from my back and neck. I tried several
remedies, but got no relief. Finally,
I went to a doctor, and he treated me
several weeks, and all without benefit.
At last a friend told me of Burdock
Blood Bitters, so I decided to give it
a trial. I got three bottles, but before
I had taken two the boils were all gone.
It is eight months now, and I have had

A TWO THOUSAND BONUS IS URGED FOR VETERANS

Grand Army of United Veterans and Naval Veterans Association Make This and Other Recommendations to Parliament.

Ottawa, April 4.—(Canadian Press)—Re-affirmation of the principle of a \$2,000 bonus for Canadian veterans of the war is contained in the recommendations of the Grand Army of United Veterans and Naval Veterans Association to the parliamentary committee on soldiers' civil re-establishment.

The strongest endorsement a cigar could get is the repeat orders it receives.

The Pippin—the best 7c Cigar on the Continent—is strongly endorsed.

4 for a quarter Glenn, Brown & Richey St. John, N. B. Union Made. Every package bears the Union Label.

due on victory loan lines. War indemnities, it is said, should also be earmarked for this purpose.

Other recommendations made by the G. A. U. V. include free medical treatment for five years; government employment for disabled men; adequate compensation for deserted wives; compensation for parents who lost sons on service; re-establishment committee with power to grant loans in each military district.

An important resolution is one asking that unemployed veterans be placed on army pay and allowances until such time as offered positions commensurate with their physical conditions and business abilities.

Owing to the death of apprentices in the various trades the G. A. U. V. suggests that all minors, up to twenty-one years of age, be given an opportunity to become apprentices at prevailing wages the government to contribute to make this a living wage.

Suggestions on pension amendments, submitted by the G. A. U. V. are similar to those submitted by the G. W. V. A., with the exception that the G. A. U. V. is asking that pensions be paid to the next of kin one year after a pensioner's death and for two years in cases of dependent children. A further suggestion is that pensioners, called for medical re-examination, should be paid at the rate of \$5 a day.

Opposition Leader Favors Proportional Amendment—Committee On It Appointed

Ottawa, April 5.—(Canadian Press)—Yesterday, in the House of Commons, a bill to bring about representation on the Great Lakes under the authority of the railway commission, one to amend the immigration act, and one to amend the fertilizer act, 1910, were read for the first time.

Hon. R. Lenioux moved for copy of all correspondence between the governments of Canada and Serbia regarding the expulsion of Dr. F. W. E. Barnham and his hospital from Montenegro. This carried.

J. E. Sexsmith of Peterboro West moved for a special committee to inquire into proportional representation. Hon. J. A. Calder moved in amendment that the committee be empowered also to inquire into the single transferable vote with a view to recommending either plan for adoption. The amendment was carried, and a special committee was appointed.

The senate did not sit. During the debate on the Sexsmith motion and the Calder amendment, Hon. Mackenzie King said he was in sympathy with proportional representation, and congratulated the government on its stand. The amendment should receive the unanimous support of the house.

Mr. King referred to the fate of his motion for information on the railway situation and early by-elections, and said that proportional representation was a forward movement along the same lines.

BODY IN ICE

Quebec, April 5.—The body of an unidentified man has been found frozen in the ice at River Ouelle. He is thought to be Honorable Chamberlain, of St. Michael de Bellechasse, who was dragged away over a week ago by the ice, while in a small boat.

\$150,000 TO PUBLIC

Toronto, April 5.—(Canadian Press)—About \$150,000 is left for charitable, religious and educational purposes in Canada and the United States out of an estate of \$5,000,000, disposed of in the will of the late J. Harrington Walker, of Detroit, president of the Hiram Walker & Sons, distillers, of Walkerville, Ont.

THE LEGISLATURE

Fredericton, April 4.—The legislature was in committee this evening and reported on several private bills. Further progress was made in the consideration of the game act.

Hon. W. E. Foster concurred in the suggestion of the leader of the opposition that a law clerk was necessary in order to put bills in proper form before presentation to the committee. It is expected that the estimates will be considered tomorrow.

Mr. Boudage introduced a bill to authorize the municipality of Kent to make temporary loans.

The house then went into committee with Mr. Smith (Albert) in the chair, and agreed to pass to authorize the town of Bathurst to issue debentures for the extension of the water and sewerage systems, and to incorporate the St. John branch of Victorian Order of Nurses.

The house went into committee with Mr. Hayes in the chair and took up consideration of the Game Act 1921. The committee reported progress.

Mr. Fawcett moved for the suspension of rule seventy-eight, to permit the introduction of bills to authorize the municipality of Westmorland to effect temporary loans and also to authorize the same municipality to make a loan to the Municipal Home Commission of District No. 1, in the said county. Adjourned at 11:35 p.m.

THE "CHARM SCHOOL" FINE

Wallace Reid Scores Heavily in New Comedy.

"The Charm School," which scored heavily at the Unique Theatre last night, is a typical Wallace Reid jazz picture and is duplicating the success of "The Dancin' Fool." The picture is a genuine blues-chaser. Reid puts over a lot of good snappy action and he is well supported by Lila Lee and a capable cast. An added feature is the presence of a large number of young "charmers," all under twenty, who are the pupils of the boarding school which Reid, as Austin Bevan, inherits, and in which he makes himself principal.

It is easy to imagine the romantic complications which result when a handsome young man becomes principal of a girl's boarding school and supplants the old methods of academic instruction with lessons on how to be charming. The support is excellent.

COMMISSION GOVERNMENT

Debate on Question Before Members of Commercial Club—Resolution Defeated.

After a two-hour debate on the question of whether the commission form of government as applied to St. John had been a success the Commercial Club last night adjourned to consider the question at a later date after refusing to adopt a resolution presented by H. R. McLellan, secretary of the club, placing the club on record as favoring a return to a system of civic government based upon ward representation and placing the administration of departments in the hands of well-trained executive officials.

Numerous suggestions for changes in the present form of civic government were brought out at the meeting, which was held in the Park Hotel with H. D. Paterson in the chair. Several speakers advocated a greater public interest in civic government and maintained that the quality of civic government as a community received was in direct proportion to the amount of interest which the citizens took in that government.

All the speakers indicated that there was something to be desired that was not given under the present system. Some advocated modifications of the former aldermanic system and others, a different variety of the present system, but the sentiment of the meeting seemed to be that there had been too small an audience and too little discussion to warrant the approval of the resolution offered by Mr. McLellan.

A. M. Belding opened the discussion in favor of the commission form of government. He was followed by H. R. McLellan and George E. Day, who proposed it while Commissioner Bullock and S. K. Smith favored the present form of government. J. C. Chesley advocated putting the control into the hands of the deputy heads of departments. Commissioner Bullock moved that the meeting adjourn and Mr. McLellan moved the following resolution:

"That in the opinion of this meeting the commission form of government, as applied to St. John, has failed to realize the expectations of the promoters and the community.

"That this form of government was designed to remedy evils which did not exist in the administration of the municipal affairs of St. John.

"That the present system is not based upon democratic principles and does not afford that representation to the different classes of the people and territorial divisions of the city, which is essential to a sound administration.

"That this meeting approve of a return to the system of representation by wards, believing that a strong body of representative men carrying on the work of the city government through well-trained executive officials can produce better results than under the present system in which the election of the commissioner does not imply any special fitness for the executive work of a department.

After discussion of the resolution which was seconded by LeBaron Wilson and spoken against by A. M. Belding, W. A. Campbell and Harry Heans the vote was taken and the amendment lost. The meeting then adjourned.

Rotary Club Conduct Financial Campaign For Boy Scouts

The Rotary Club of St. John has undertaken a financial campaign for the Boy Scouts Association of New Brunswick. The amount to be secured being \$8,000; this amount is for the general administration of the movement in St. John and throughout the province.

A committee of Rotarians, of which Major E. H. Weyman is chairman, will make a canvass of the business section on Tuesday and Wednesday of this week and will give all who wish an opportunity to subscribe to the funds of an organization which has for its object character building, citizenship training and Canadianization of our boys.

During the past year approximately 1,500 boys have received Scout training in New Brunswick and at present St. John has a membership of 500 Boy Scouts and Wolf Cubs.

The movement which is non-military, non-sectarian and non-political, was launched by the Robert Baden-Powell in Great Britain in 1908, since that date it has spread over the entire civilized world.

According to a census taken last June there are 80,000 Boy Scouts in the Dominion of Canada and the movement is rapidly growing and is being taken up by religious, educational and philanthropic institutions everywhere.

The Boy Scouts Association is the only boys organization that has lived and continued to increase for more than seven years in the history of the British people. Scouting is therefore not an abstract theory but a method of training boys that works.

The great chief Baden-Powell when inventing the Scout programme demonstrated to the world his marvelous knowledge of the psychology of a boy. Every boy who is brought in contact with the game is drawn to it and Scouting "sells itself" to him because it exactly fits in with his idea of things.

Through Scouting the boy gets a chance to dress himself in a uniform and to become, in imagination at least, a great backwoodsman. He is taught to light his fire and cook his grub, build his shack, to signal, follow signs and to turn his hand to many things in pioneering and woodcraft. Through the encouragement and development of hobbies he is also given the opportunity of finding out for himself what vocation in life he is best suited for.

Sir Robert Baden-Powell says: "Scouting is a means through which the veriest hoodlum can be brought to higher thought and to elements of faith in God; and coupled with the Scout's obligation to his neighbor every day, it gives the base of duty to God and to neighbor on which the parent and pastor can build with greater ease the form of belief that is desired. That after all is the secret of things, the Spirit of Brotherhood."

The Dread Pyorrhea Begins With Bleeding Gums

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

LIQUOR FROM AN OFFICER OF VESSEL

Case Arose Out of Find of Suit Case With Twenty Bottles In It.

Ronchi Raguero, an officer of the S. S. Iris, appeared in the police court this morning charged with selling liquor contrary to law. This case arose out of an investigation made by the inspectors in consequence of information given by Charles John, who was arrested on Sunday night in West St. John carrying a suitcase containing twenty bottles of liquor. The accused, who is a Spaniard, at first denied the charge, but later said that he gave two bottles of liquor to John, who invited him to his residence to spend Monday evening. In his evidence John told of going to the S. S. Iris and meeting the first engineer. He said he asked the latter if he had any liquor to sell, but was told he had not. The accused was sent for, and the witness said he bought twenty bottles from him and paid \$48 for them.

The accused was represented by another officer of the steamer, who asked the witness if the accused did not make him a present of two bottles, and the witness answered, "Yes, he made me a present of several bottles at \$2 a bottle."

The accused was fined \$200. W. M. Ryan appeared for the prosecution.

A case against George McLeod, who was with John when he was arrested, was dismissed, and the case against John was set over for two weeks. G. Earle Logan represented McLeod.

A case against George H. Brooks and George W. Lord, charged with acting together, breaking and entering the warehouse of J. H. Poole & Son, Nelson street, and stealing a case of whiskey was resumed and the evidence of Fred Harvey was given. G. Earle Logan appeared for the defence. The case was postponed for a week.

Furniture Repairing and New Work—Committee of Citizens Will Have Supervision of Project.

The St. John memorial workshop for disabled soldiers, made possible through a fund created jointly by the Soldiers' Comforts' Association, the Red Cross and the Patriotic Fund of the Commercial Travellers' Association, will be opened this afternoon, so Mayor Schofield announced this morning. The Soldiers' Comforts Association have already handed over to the mayor in trust \$4,250 for this purpose, and the other two bodies have pledged assistance.

The project will be supervised by a committee of citizens composed of the following: Mayor Schofield, Geo. Waring and E. C. Weyman, on the financial end, and Dr. Peat and Harry Heans, who will allocate the men to be employed.

The idea is to afford an opportunity to disabled men to supplement their pensions. Furniture repairing will be taken up as well as the turning out of new work. A standard chest of drawers, made of pine and painted with white enamel, and plain kitchen tables, will be manufactured and it is the intention to standardize other articles as the means become available. It is also proposed to have men available to go outside on small repair jobs.

The first work to be undertaken outside the shop was offered this morning when the Animal Rescue League in Courtenay street asked for a man to erect a wire fence at the home in Courtenay street. At the men become proficient, it is expected that they may be placed in permanent positions outside.

The shop will be under the charge of Sergeant Lloyd Rees, carpenter and cabinet maker, who will supervise operations. The men will be paid so much an hour for the work they do and it is hoped to realize sufficient from sales and repairs to keep the scheme in operation.

PRESENTS MEDAL TO J. A. GREGORY

City's Recognition of Brave Act in Saving Life of Boy in Harbor.

In recognition of his bravery in saving from drowning Albert Niece in the St. John harbor last August, the first issue of a corporation silver medal was presented by the city council this afternoon to J. A. Gregory, well known contractor of the West Side. The presentation was made by the mayor at the regular weekly meeting of the common council.

The medal is from a design recently selected by Commissioner Bullock, of the harbor department, and will be used for occasions of this kind in the future. Mr. Gregory is being complimented by his friends for receiving the award.

The trophy is of sterling silver. On the face it bears a female figure holding aloft a laurel wreath and on it is engraved, "Presented to J. A. Gregory by the City of St. John." On the reverse, which is plain, is inscribed: "For rescuing from drowning at the Old Fort, Albert Niece, August 27, 1920."

A number of lads were swimming in the slip near the Old Fort in West St. John, which is just west of Navy wharf, when young Niece, getting beyond his depth became exhausted and was being carried into the harbor by the currents. Another young chap ran to Mr. Gregory's mill and gave the alarm. Mr. Gregory, arriving at the scene, waited only long enough to take off his coat and jump in. After some effort in a struggle against the currents, for the rescuer is fairly well along in years, he brought the lad to shore.

Mr. Gregory was a prominent athlete in his youth and his training proved beneficial when the test came. He is to be complimented on the brave act as well as the well deserved honor which has accrued to him on account of it.

THIS YEAR CLOSE SEASON FOR SHAD

(Special to The Times.)
Fredericton, N. B., April 5.—The hopes of St. John shad fishermen in both the harbor and the river that 1921 would be declared an open season have been dashed. The department of fisheries has declared that it will adhere to its original decision for a four-year closed season ending with 1922. This means that for at least one year more it will be illegal to set shad nets in the St. John River.

Sentence Tomorrow

Cases of Nearn and Drew in the Circuit Court.

In the circuit court before Mr. Justice Crockett this morning William Nearn pleaded guilty to the second count in the indictment against him, that of attempting to know carnally a girl under the age of fourteen years. He had already been found guilty of similar charge in which another child was named. The sentence allowed by the criminal code for such offence is two years with whipping.

Nearn will be sentenced tomorrow and George Drew will receive his sentence on charges of which he was found guilty, dealing also with little girls. Dr. W. B. Wallace, K.C., appeared for the crown, and S. E. Morrell for the prisoner. The court adjourned till tomorrow.

It is declared practically assured that the Dominion Coal Company will reopen its Black Diamond Line service to Montreal this week.

Just a Moment of Your Time Mr. Property Owner

With present day high cost of construction you cannot afford to allow that building of yours to deteriorate by neglecting to equip it with the necessary gutters and conductors to shield it from the spring rains. When the roof is not properly protected with FLASHING GRAVEL STRIP GUTTERS AND CONDUCTORS, the water is certain to work its way through into the interior between the joist and long before it may be seen on the inside of the building, it is rapidly decaying the most essential parts of the structure.

At no period in your time has the cost of such repairs been so low as they are today, when measured by present day replacement values, and the actual saving from further deterioration.

Immediately is the time to have this work looked after before the heavy spring rains set in, and before any further extensive damage has been done.

We manufacture all our own materials for this class of work and will be pleased to show you samples of same before it is made up. If you think your property requires such repairs, we will gladly submit estimates on cost of same. Phone us NOW—MAIN 1545—and we will go over the building with you.
