PITCHERS DO THE SHUT-OUT ACT

Position of Leaders in Major League Races.

Several Home Runs—Wilson and Downey Both Required Weight for Monday's Bout—Late Sport News.

New York, Sept. 3.—All four major league contenders are on a par in games won with a total of 76 each. The Pittsburgh Nationals have a half game advantage over New York as the Giants have lost one game more than the pirates while the Yankees possess a full game lead over the Cleveland champions, who have lost two games more than the New York team.

Good pitching was displayed yesterday. The Pittsburgh Nationals were shut out for the second successive time when Haines, of St. Louis let them down with six hits after relieving Doak, in the first inning with none out.

Alexander, of Chicago, shutout the Reds with five hits. Bagby of Cleveland did well in scattering Detroit's ten hits so that the Tigers sent only one run across the plate. Shocker of the St. Louis Americans blanked Chicago with four hits. Hoyt, of the Yankees yielded only two hits to Washington after the first inning.

Ruth, Peckinpaugh and Meusel, of the New York Yankees had their home run **The Batmen**

MAY BECOME A GENERAL STRIKE

Indication of the Growth of Trouble in Manufacturing Centre of France.

Lille, France, Sept. 3.—The textile strike which began in the middle of August in the triangle formed by the cities of Lille, Roubaix and Turocoing, the manufacturing centre of France, to which the transport and building trades unions have adhered, threatens to become a general strike. The affected districts last night to consider such a measure.

The strike was called as a protest against a reduction in wages, the workers declaring that official statistics tending to show a diminution in the cost of living were not justified by facts. The manufacturers desired to put into effect a cut in wages of forty centimes per hour.

LIBERAL LEADER'S MARITIME TOUR

Talk of December 15 as Election Date—Farmer-Labor Agreement in Toronto.

Ottawa, Sept. 3.—The Liberal leader, Hon. W. L. Mackenzie King, leader of the Liberals in the House of Commons, will spend the last week in September and the first week in October campaigning in the maritime provinces. His itinerary has been given as follows: On Sept. 26 he will speak in Sydney, N. S., and in New Glasgow on Sept. 27. On Sept. 28 he will appear in Windsor, Bridgewater, Oct. 1; Annapolis, Oct. 3, and Kentville Oct. 4. From Kentville Mr. King will go to Prince Edward Island. He will speak later in New Brunswick.

A rumor was current yesterday to the effect that Premier Meighen would be asked to run in South Winnipeg in which case he might be opposed by Hon. Robert Rogers. It was said that the length of the labor standard league in la Prairie was so great that Mr. Meighen would probably seek a seat which could be contested more easily.

While the date of the general election has not yet been decided, definitely, the general opinion in Ontario is that it will be about the middle of December, and Thursday, December 15, is mentioned.

Toronto, Sept. 3.—The adoption of a "gentleman's agreement" to operate between the farmers and the independent labor parties in the approaching federal campaign was announced last evening at the Labor Temple in a meeting of the executive of the I. L. P., according to Secretary Roland Palmer of the labor party. The understanding stipulates that labor men shall refrain from entering candidates in rural ridings but shall support, instead, the farmers' nominees. The farmers for their part will reciprocate by not contesting the urban constituencies, but shall throw any influence which they may be able to muster behind the labor candidates.

Toronto, Sept. 3.—J. H. Burnham, former member for Peterboro in the federal house, who resigned some months ago, as a protest against the Union government continuing in office, has sent the following telegram to the Canadian Press:

"I contradict reports, I wish to say that I will not support Meighen at the coming election. My resignation turned on the point of going to the country, which I have by-election, but for the tariff he has come out in a way that suits me. I will go to the government convention. Although I if I can stand as a supporter of Meighen."

Peterboro, Ont., Sept. 3.—It is less than six months since the West Peterboro board of directors was dissolved in getting ready for another trip to the polls. C. N. Gordon, M. P., will be a candidate in the Liberal interests, and J. B. Burns, M. P., will be a Conservative supporter who form another wing of the Conservative party, will meet in a couple of weeks and will probably be the candidates for the Meighen banner. Denne was the government candidate in the by-election and ran second place. Laborites and farmers are considering their action with regard to prospective candidates.

As Hiram Sees It

Mrs. Hiram Hornbeam was making a rag mat, braiding the strips of cloth of various colors and sewing the braids together in form of a circle.

"If I was you," said Hiram to the Times reporter, "I'd keep my valise locked. If you don't you'll find it likely as not see your neckties an' the rest of your clothes in that there mat. I was lookin' for an old pair of pants the other day, an' all I could find was one leg. If Hanner keeps an' I'll be gone around bimely in a boss-blanket—yes, sir."

"Mrs. Hornbeam," said the reporter, "has caught up with the renaissance. I am told that everywhere the ladies are braiding or hooking mats, and that the deposed adomment of our grandmothers' kitchens and sitting rooms goes with the most costly furnishings of the period. It cost me a suit of clothes and a pair of shoes when he tried to intercept the Murrells and John Williams as they were attempting to escape, following an attempted bank robbery."

London, Ont., Sept. 3.—Sidney and Charles Murrell, youthful bank robbers and bandits, who were to have been tried on September 19 here for the murder, at Melbourne, some months ago, of Russell Campbell, a returned soldier, saved the steel bars in their cell window last night, and made a clean getaway. The youths are eighteen and twenty years old.

Campbell was shot down in cold blood when he tried to intercept the Murrells and John Williams as they were attempting to escape, following an attempted bank robbery.

IMPROVEMENT OF IMPERIAL TRADE

Canadian Manufacturers' Association Discusses Subject at Montreal Luncheon.

Montreal, Sept. 3.—Improvement in imperial trade was the subject under discussion at the regular luncheon of the Canadian Manufacturers' Association when the gathering was addressed by B. H. Morgan, president, British Empire Producers' Association, who urged that every effort be made not only by special tariff arrangements but by individual efforts to increase trade between the dominions of the empire and by the dominions with the mother land.

In present circumstances, he said, with high duties against British empire goods in the United States and other countries, it was necessary that the empire should support its own industries as to make sure that in case of emergency it should be self supporting.

The main objects of his visit to Canada, said Mr. Morgan, were to arrange for direct marketing of Canadian goods to Great Britain to increase Canadian exports to Great Britain and to secure establishment of British factories in Canada.

PICKS HIM OUT IN CROWD IN FIFTH AVENUE

Detective Ends Chase of a Year and a Half After Man Wanted on Theft Charge.

New York, Sept. 3.—After a chase that led over the United States and Canada for more a year and a half, a detective arrested Francis M. Sheridan, who the police say, was under indictment for the theft of \$47,000 worth of negotiable bonds from the Guaranty Trust Company where he had been employed as transfer clerk.

The detective had missed his man several times in the long chase, but picked him out in a Fifth Avenue crowd last night as he rode by on a bus.

FORTUNE IS LEFT TO SEEKER OF OIL

Vancouver Man Called Back to Take Possession of \$80,000.

Vancouver, B. C., Sept. 3.—Peter Gagnor may or may not strike oil when he goes back to the Peace River district in a few weeks' time, but at least there will be no occasion for him to worry about the high cost of living for some time. Mr. Gagnor has just been summoned home from the Peace to attend to the legal formalities incidental to taking possession of an \$80,000 fortune willed him by E. M. Soper, an old-time friend and prospecting partner, of Los Angeles. Part of the \$80,000 estate is in cash and the rest in real estate, including several houses in the moving picture city of Hollywood.

Gagnor, who is a big bluff Irishman, and a typical prospector, plans to "stick about \$20,000 in the ground" in his resumed search for oil. He intends to put in a couple of drills between Hudson's Hope and Pouce Coupe, where oil indications are excellent. The balance of the \$80,000 estate, he says, will remain invested in Los Angeles and district.

Although Soper and Gagnor had been chummy for over fifteen years, and it was generally understood that the former had no known relatives, no provision for the disposal of his money and property had been made until after Gagnor had left for the north a few weeks ago. Only a few days after Soper had called on a lawyer to draft his will, he was suddenly stricken and died in a few hours.

Should Gagnor fail to locate oil, it is probable that he will go in for farming on a fairly large scale in the Peace River district, he having great faith in the agricultural possibilities of that region, where he has splendid grain and hay crops, and grows vegetables that are not to be excelled in any part of Canada.

RENT STRIKE MAY BE RESORTED TO

Stirring Time Over Order to Increase the Tax Rates in Poplar District of London.

London, Sept. 3.—Appeals are being issued by the Poplar Trades Council and similar bodies for subscriptions to maintain the wives and families of the members of the Poplar Borough Council while they are in prison in protest against the levying of certain taxes.

Several additional councillors were arrested yesterday for actions of the council in refusing to carry out the order of the London County Council to raise tax rates, bringing the number taken into custody to fourteen. The council consists of thirty members.

Those members of the council who have not been arrested attended a meeting held last night to consider the question of a rent strike. There were differences of opinion as to the advisability of such a course.

George Kinsbury, editor of the Daily Herald, national labor organ, who is a member of the Poplar Borough Council, received a great reception when he spoke. He said it had been determined to start a "tenants' defence league" to oppose any attempt by the authorities to collect rates which the council had refused to collect. A rent strike would be resorted to, however, he added, if it were found necessary.

SENSATIONAL BASEBALL GAME

Auburns Lose to South Boston in Thrilling Match—Credit for Treat for Saint John Fans.

One of the most sensational games of the season was played last evening on St. Peter's baseball park between the Auburns of Cambridge, Mass., and the All Stars of South Boston, which ended in a victory for the latter team by a score of 6 to 3.

In the first inning the All Stars scored two runs on three hits and an error, but were held helplessly by Tippetts until the sixth when they garnered three more runs by timely and hard hitting.

The Auburn boys failed to get a man across until the fourth when they scored one run; they secured two more in the fifth and went into the lead, but were headed by their opponents in the next inning and failed to tally again during the remaining four innings.

The game had a most sensational wind-up. Murphy, who was on the mound for the All Stars, lost control of the ball in the last half of the ninth and passed the first two batters, but then pitched a perfect game for the remainder of the inning.

It is worthy of note that a similar protest was filed with the board of arbitration of the major leagues some years ago and their decision was as follows: "If the ball is held momentarily before going over an embankment the batter is out even if the ball is later dropped as a result of a fall caused by ground conditions but if a fielder goes over an embankment out of sight of the umpires and catches a ball the batter is given the benefit of the doubt and is allowed to continue running the bases subject to ground rules."

To Credit of W. J. McMahon. That St. John fans were given an opportunity of witnessing such a thrilling exhibition by these crack Boston teams was largely due to the efforts of William J. McMahon, manager of St. Peter's baseball park, who conceived the idea that such a game would be a big attraction due to many opinions expressed as to which was the better team.

The manager of the Auburns has challenged the All Stars for another game next Tuesday and arrangements may be made to stage this contest.

The Light for the Bedroom

—is best secured by use of LACO NITRO Lamps—either in enclosed ceiling fixtures—or in shaded portable lamps.

Whether for purposes of illuminating the whole room, or for local light while dressing—you need an abundant light, for you can diffuse or adjust its brilliance by your fixtures or shades, but the lamp itself should not be dim. It should be full and clear, and of high intensity. Such a lamp is the LACO NITRO Lamp, which, by reason of its high-quality construction, produces a beautiful white light, efficient in power, yet low in current consumption.

The Laco Lamp is a good lamp, made under circumstances of highest efficiency. It is a quality lamp for quality homes, hence never found as a bargain counter attraction. Look over your house to-day—you'll find it true economy to replace all the poor, weak bulbs with LACO NITRO Lamps.

Laco Nitro Lamps are made in Canada. Factory and Head Office—Montreal. They are sold by best Electrical and Hardware Dealers throughout the Dominion.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, SEPTEMBER 3, 1921

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

A DANGEROUS COURSE

The Montreal Star, commenting upon Hon. Mr. Meighen's London speech Thursday evening, says that the Premier is quite right in putting protection into the forefront of the battle.

It is the intention of the Montreal Star to misrepresent the opponents of the present discredited administration and to drag in the old flag once more in the hope of beloducing the real issues of the campaign and thereby directing attention away from the government's head record.

It is significant indeed that of all the papers so far quoted by the Canadian Press, the Star is the only one which has begun to weave the old flag in an effort to confuse the issue and stir up ill-feeling among the parties over the question of loyalty and patriotism.

As the Times pointed out yesterday, there is no issue of protection versus free trade. The Hon. Mackenzie King and the leaders of the Farmers' party have made that clear again and again.

The closing exercises of the Carleton playgrounds were held yesterday. The boys, under the direction of their instructor, Mr. Crowley, assisted by Captain A. J. Mulcahy, held exhibition sports, and the girls took part in a very pretty fancy, "Mother Nature's Party."

PUBLIC HEALTH.

Harvard University, which now has one of the finest medical colleges in the world, is to have, in addition, the largest and best equipped public health school in the United States.

The movement to improve and safeguard the public health during the last few years has had far-reaching results, but there are many possibilities which remain untouched.

"I wish with all my heart that there will be less of armies and navies," said President Harding of the United States this week in a public address.

Now let's all resolve to make the Exhibition a marked success in point of attendance. Keep the turnstiles clicking.

Today's Programme At the Exhibition

AFTERNOON

3.00—Gates opened and tickets sold. 3.30—Inaugural address in front of the grandstand by His Excellency, Pugsley, Mayor E. A. Schofield, President E. J. Terry and others.

EVENING

7.20—Concert in Main Building by band of the 62nd Regiment. 8.30—High-class Keith vaudeville including The Galletti-Kockin Troupe, representing typical Italian street scenes, concluding with big surprise of hilarious character.

Also Aerial Ferris in his super-sensational lefty thrills and Prof. Bonnet's \$1,000 Challenge Slide for Life Hanging by His Teeth.

THE RONALD C. LONGMIRE AT HER HOME PORT Bridgetown, N. S., Sept. 2.—The tern schooner Ronald C. Longmire, Captain Trahan, arrived here yesterday with coal from New York for J. H. Longmire & Son.

NOVA SCOTIA FIRES. Serious forest fires are raging in various parts of Nova Scotia. A pall of smoke hangs over a good part of the railway line from Windsor to Digby, and trenches are being dug around the towns of Berwick and Waterville.

COUNTY FINANCES. At a meeting of the finance committee of the municipal council, yesterday afternoon, in the office of the county secretary, J. King Kelly, an obligation of \$4,012.18, due the provincial government as interest under the county housing scheme, was considered.

The closing exercises of the Carleton playgrounds were held yesterday. The boys, under the direction of their instructor, Mr. Crowley, assisted by Captain A. J. Mulcahy, held exhibition sports, and the girls took part in a very pretty fancy, "Mother Nature's Party."

LIGHTER VEIN.

She Thought So. Mr. "Office"—"This is my photograph, with my two French poodles. You recognize me?" "I think so. You are the one with the hat on, are you not?"

Joyously Modern. "Don't you wish you were a ooy again?" "And have no motion pictures or photographs? Not for worlds!"—Washington Star.

When Ignorance is Bliss. After much reflection, Marian had composed her telegram and handed it through the window to the clerk. She tripped out, and the transaction seemed completed, but in a moment she returned to the window.

The clerk handed out the message and Marian added, "I want to underline perfectly loving and knowledgeable the receipt of a present. Will it cost anything extra?"

"No, Miss," said the clerk, with a smile, as Marian drew two heavy lines beneath the words, she sighed with content. "Thanks so much for letting me do that; it will please Augustus so much!"

The New System. "My room is very bright." "How can you be positive of that?" "It couldn't possibly accommodate a second person!"—Judge.

The Safety Zone. He (full of news).—"There's something going around that will interest you." She—"Well, be careful; there are some pins in my waist!"—Cartoons Magazine.

ITALIAN KING ACTS AS A FIREMAN

Turin, Italy, Sept. 2.—King Victor Emmanuel and Prince Humbert, the heir-apparent to the throne, today acted as firemen in quenching flames that broke out in the royal summer palace near here.

Definite announcement as to curtailment of service will be made later. Eastern Standard Time is one hour slower than Atlantic Standard Time.

C. E. Ricker, formerly professor of psychology at Harvard University, who is at present engaged in studies for T. S. Simms & Co. Ltd., has undertaken charge of the mental hygiene booth in the child welfare section at the exhibition.

The King's Daughters met in the Guild, yesterday afternoon, with Mrs. C. A. Clark, the president, in the chair. Reports were submitted. The members of the order are to have charge of the house and anti-fly booth at the exhibition.

Meetings have been held to complete the organization of the Kings County Milk Producers' Association. One of the aims of the organization is to provide pure milk for the St. John dealers and to comply with the regulations of the St. John board of health.

At a meeting of the finance committee of the municipal council, yesterday afternoon, in the office of the county secretary, J. King Kelly, an obligation of \$4,012.18, due the provincial government as interest under the county housing scheme, was considered.

Madam, I am directed to inform you that, in accordance with the agreement with the French and Belgian governments to remove all scattered graves and small cemeteries containing less than forty graves, and certain other cemeteries which were situated in places unsuitable for permanent retention, it has been found necessary to exhumate the bodies buried in certain areas. GETTING WISE ABOUT FLOUR. There is nothing which we Canadians eat so much of as bread; just plain loaf bread. And this being so, why shouldn't we eat the best?

There is no reason except that frequently our housekeepers are not particular to buy the best quality of bread flour.

ENTERPRISE PIPELESS FURNACE. ONE TON IN THREE IS WHAT YOU CAN SAVE WITH A PIPELESS FURNACE—and it burns any old kind of fuel—hard or soft coal, wood or coke. With Pipeless Heating the entire system is in the cellar but all the heat is in the house. Not a degree is wasted or absorbed by cellar pipes, none is thrown off around the furnace, and your cellar is always cool—just right for storing fruits and vegetables. You can change to Pipeless Heating in a single day—there is nothing at all to the installation. If we start today, we'll be through tomorrow and your heating troubles will be ended. No matter what next winter has in store, you'll be warm and comfortable. We have not the space to say all we'd like to in this advertisement, but if you'll call in, we'll turn the furnace inside out for you.

CHILD WELFARE

The first public meeting of the New Brunswick Child Welfare Association was held last night in the Knights of Pythias Hall, and was attended by a greatly interested audience. Mrs. Gertrude Hasbrouck of New York gave the address, and the four public health nurses sent into the province by the association related some of their experiences. Hon. Dr. W. F. Hobbs and Dr. Doris Murray were also heard in addresses.

to the advance made in recent years in child welfare and public health efforts. Mrs. Hasbrouck said that it had been found among the school children that one in three was malnourished through various causes. She told how these children are treated in the United States. Speaking on the care of teeth, she said that the large consumption of sugar was the prime cause of bad teeth. For the Child Welfare Association she recommended the slogan "reciprocity, co-operation, the atom and mutuality." Dr. Roberts related some of the history of the association. Dr. Doris Murray spoke of prevention as the watchword of the medical profession and as applying particularly to the Child Welfare Association.

McClary's Sunshine Furnace

Selecting the Correct Type of Furnace. Upon nothing else so much as the heating plant does the comfort, health and happiness of the dwellers in a home depend.

A heating plant which is successful in one house may not function well in another of a different type.

Then a great deal depends upon the installation. A good plant may be poorly installed and fail to properly heat the home.

The correct distribution of heat requires a proper knowledge of the laws governing air circulation. This circulation naturally varies greatly according to the plans of the building, its structure and location.

So it is important that the installation of a heating plant should receive the earnest thought and serious attention of the home builder.

A prudent man will take no chances at guesswork in selecting and installing his heating plant. He will consult with experts and be guided by their knowledge and experience, supplemented by his own good judgment.

It is not enough that he order a furnace to be installed. He must be assured that the particular type of furnace to be installed will heat all the rooms in his home.

That it will be economical in its consumption of fuel by radiating the maximum amount of heat.

That the furnace will function at its best with the kind of fuel to be used. That the furnace is properly installed by a qualified furnace man.

McClary's Sunshine Pipe Furnace Showing Heat Distribution

Pipe or One-Register (Pipeless)

FOR every type of building—dwelling, business or meeting house,

For every kind of fuel—there are twenty distinct varieties between Newfoundland and Yukon,

For every kind of climate—the changeable from sunny clear to damp and raw in Eastern Canada; the clear, biting, bracing cold of the Prairies and the moist chill of the Pacific winters,

—For every demand of efficiency and economy,

There is a model of McClary's Sunshine Furnace built to meet the very condition for which you need a furnace.

Not only is there a Sunshine model for every type of home and kind of fuel, but McClary's see to it that the Sunshine Furnace is properly installed to heat every room in the house.

McClary's select a dealer in each town whom they know understands the problems of heating; upon whose judgment and ability they can depend.

Only dealers who can measure up to the McClary's standard of efficiency are selected to sell McClary's Sunshine Furnace.

If a McClary's dealer tells you he can install a One-Register (pipeless) Sunshine Furnace so that it will satisfactorily heat your home, you can depend upon it that it will do so when it is put in.

If he tells you that a One-Register (pipeless) furnace is not suitable for your home, you may be certain that, no matter what make it is, it will not suit your purpose.

Because McClary's not only design and build their Sunshine Furnaces well, but see that they are properly installed, is the reason why McClary's Sunshine Furnaces give satisfaction in over 50,000 Canadian homes from the Atlantic to the Pacific.

KIDNAP FARMERS AND TAKE WHISKEY

Two Bold Hold-ups Staged in Essex and One Man is Arrested.

Windsor, Ont., Sept. 3.—John Richardson, giving Detroit as his address, was arrested by Walkerville police as one of five armed bandits who staged two hold

ups in Maidstone Township, twenty miles from Windsor, early this morning and took 100 cases of whiskey. Four of the men escaped, but seventy cases of whiskey were recovered in a motor truck abandoned by the bandits.

The robbers had a passenger automobile as well as the motor truck. At about 5 a. m. they stopped at the farm of a man named Mullin, smashed through the front door, and ordered Mullin and his son into the yard, where they handcuffed them. They loaded Mullin's whiskey into the cars and drove off

with their two captives. Next they stopped at the farm of a neighbor named Pastillas. They handcuffed him and put him in their car with all his store of liquor. The three men were dropped some five miles from home after their handcuffs had been removed. Neighbors telephoned the Walkerville police, and Jerry Lefebvre, detective, and a constable were sent to the scene. The police met the motor truck on the road and after a short pursuit overtook it. The two men driving it ran off

through a cornfield, and one of them escaped. The other, who the police say was Richardson, was taken back to Walkerville. No trace has been found of the three men in the touring car. ENGAGEMENT. Mrs. A. E. Wheipley has announced the engagement of her youngest daughter, Florence M., to Aubrey Allison Short, the wedding to take place on Sept. 14.

 Boston, Sept. 3.—The Boston National will double last year's attendance at Braves Field by the end of a season. The total will exceed 360,000 persons, club officials estimated today on the basis of records to date. This was the instance in which the attendance is more than 30,000, but the figures on her games were high enough to make an average for each playing date better than 40,000 persons.

BELIEVE P. E. I. MYSTERY SOLVED

Fires, Milk Poisoning and Threatening Letters Laid to Farmer's Wife.
Charlottetown, P. E. I., Sept. 3.—Solution of a mystery attending peculiar occurrences at Clarence, Vernon River during the last year, has been accomplished, authorities here declare, by the alleged confession of a farmer's wife, who is said to have been caught red-handed in the act of trying to set fire to her home. The woman recently disappeared and was later found bound and gagged with her own hair. Burning of a barn with horses and cattle, firing of hay-stacks, putting of Paris green into milk and the writing of threatening anonymous letters are laid to her account. She has been adjudged insane.

TEN BUILDINGS IN GLACE BAY BURN

Two Hotels, Two Homes, a Warehouse, Five Barns.

Loss is Placed at About \$75,000. With Some Insurance—Roof of St. Paul's Church was Afire.

Glace Bay, N. S., Sept. 3.—One of the worst conflagrations in the history of this town destroyed two hotels, two dwelling houses, one warehouse and five barns here last night. Fanned by a high wind, the flames, originating in a barn behind the King George Hotel in Bruce street, leaped from building to building with appalling rapidity. The efforts of volunteer fire fighters hurriedly recruited to assist the local firemen, were finally successful in halting the fire threatened to leap into Senator's corner in the heart of the place, and a telephone call for help was sent to Sydney. Sparks set the roof of St. Paul's church alight, but firemen dealt with the outbreak successfully.

Those who chiefly suffer by the fire are: R. MacKay, owner of the King Hotel; Angus Macaskill, who owned the other hotel destroyed; Thomas Driscoll and Rod Macdonald, owners of the dwellings burned down and Alex Macdonald, storekeeper, whose warehouse fell a prey to the flames. The loss is partly covered by insurance.

Sudbury Fire.
Sudbury, Ont., Sept. 3.—Ten families were rendered homeless and lost their entire belongings in a fire yesterday afternoon which gutted the Jodoun business and apartment block, three residences and two stables in the business section. The loss will be upwards of \$50,000.

FIVE ATHLETIC MEETS MONDAY

Four in Maritime Provinces—More Than 60 Competitors So Far for Maritime Championships Here.

That sport is having a great season is here evidenced by the fact that on Labor Day, next Monday, there will be no fewer than four athletic meets in the maritime provinces, and one in Bangor, Me. In the maritime provinces field and track sports will be held in Moncton, Amherst, Truro and Charlottetown. St. John will probably be represented at the sports in Amherst and Moncton. The first invasion of United States territory by track and field athletes of this section of Canada for several years will begin this evening, when James L. McNulty will leave with a party to take part in the Labor Day celebrations at Bangor. In the sprinters are Ossie McDonald and Frank Garnett. Norman Turnbull of Springhill is entered in the ten-mile road race. Ted Coster intended to accompany the boys to Bangor, but was unable to get away.

More than sixty athletes up to yesterday afternoon had entered their names for the maritime field and track championships to be held on the East End grounds next Saturday. As the list of entries does not close until this evening, there is no doubt others will be received during the day. There will also be a number coming in later, which will have been mailed today, and these will also be accepted. The committee in charge of the sports held a meeting yesterday afternoon, at which the matter of officials for the coming event was arranged, and several other details were disposed of.

MORE BIG BALL GAMES HERE

Baseball fans are assured of some good games today and on Monday. This afternoon at 2:30 and this evening at 6:15 the Commercial and the Auburns will clash on the East End grounds and keenly contested matches are anticipated. Kirkpatrick is booked to pitch the afternoon game for the Commercial and Beattie the evening contest. The Auburn team are expected to use Ferguson this afternoon, but their choice for this evening's game has not as yet been decided.

On Monday there will be two big games. In the morning St. Peter's will line-up against the All-Stars of South Boston in the deciding game of a series of three. The great work of the South Boston boys last night should make them a banner attraction for the holiday. St. Peter's have been practising and should give a good account of themselves. The game will start at 10:30 o'clock sharp. In the afternoon the Commercial and South Boston will play and another good game is anticipated. Both games will be played on St. Peter's grounds.

Prince of Monaco Very Ill.
Paris, Sept. 3.—The Prince of Monaco is extremely ill at a hotel in the village of Font Romeu, in the eastern Pyrenees. He had been hunting chamois and caught a cold, which was attended by a high fever and caused a return of an old malady. Reports received here declare that the prince is very weak.
