### AMERICAN SCHOONERS.

Getting a Lot of Trade in Nova Scotia  
Lumber.

(Portland Press.)  
The schooner Benjamin C. Cromwell  
cleared in ballast for Bridgewater, N. S.  
She will load there with lumber for the  
South American ports. After de-  
livering this, she will return to this  
port.

The Cromwell makes the sixth boat  
that has gone to Nova Scotia to carry  
lumber this season. This is a new de-  
parture in American commerce. Hith-  
erto the Nova Scotians have furnished  
their own boats to carry lumber in, but  
for some reason not known at the  
present time, the Maine vessels have  
been engaged to furnish the lumber.  
As a result, the Canadians are feeling  
somewhat sore over the usurpation of  
their rights and are loud in their de-  
nunciation of the Yankees, but while  
they cry, the lumber is going and Uncle  
Sam smiles at this new feature of Amer-  
ican trade.

### BETTER THAN NONE.

"Well, that's the best I can do for  
you," said the theatrical manager.  
"You've been idle so far this season;  
now will you remain idle all the rest  
of the season or take this small part?"  
"I'll take it," said Lowe Comedy. "In  
this case a small role is better than a  
whole loss."—Philadelphia Press.

### A FORMER FREDERICTON LADY.

Mrs. Samwell, wife of the Rev. R.  
W. Samwell, rector of St. Matthew's,  
Ottawa, has been presented with a life  
membership in the Women's Auxiliary  
of the Women of St. David's church,  
Wales, Ontario. Mrs. Samwell, it will  
be remembered, was Miss Janie Bliss  
of Fredericton, and has many friends  
in St. John.

### GOBLING SUES WORM.

(Cincinnati Commercial Gazette.)  
The sudden termination of the con-  
certs of a female orchestra at the  
Palma, a vice street concert hall, re-  
sulted in the filing of a damage suit  
in the superior court yesterday, in  
which Tony Gobling, formerly treas-  
urer of the Walnut Street Theatre,  
sought to recover \$1,200 from August  
Worm.

### THE RIVER.

Heavy Rains Have Caused a Rise in  
the River, Giving Lumbermen  
Hope.

(Fredericton Gleaner.)  
Though the heavy rain of yesterday  
continued all through the night it has  
had scarcely a perceptible effect upon  
the river here. The ground was so  
thoroughly dry that it has absorbed  
the rain which fell, and very little ran  
off into the river. Reports from up-  
river would indicate that a slight rise  
of water may be expected. The lum-  
bermen and the contractors for the  
corporation driving were anticipating  
a sufficient rise of water to bring out  
at least a portion of the large quantity  
of lumber stranded between Grand  
Falls and the beams. Upriver reports  
today are:

Woodstock—It rained here all day  
yesterday and last night. Today is  
cloudy and cool. River has risen about  
four inches.

Grand Falls—Rained steadily all  
yesterday and last night. The water  
in the river is rising.

St. Leonard's—It rained hard all  
night and is still raining. Water in  
river is coming up some today.

Edmundston—It rained steadily all  
last night and it is raining hard  
today. The river is rising fast.

### WHEAT PORTLAND, ME., EXPRESS SAYS.

The Faddists of whom so much had  
been promised, more than came up to  
the public's expectation. The impres-  
sion which they give as one observes  
them at their work is most pleasing  
and more than surmounts any orchestra  
of like size. Earnest of purpose, jeal-  
ous of their reputation and bound to  
keep it up to its present high stand-  
ard, the ladies work together most ad-  
mirably, and under such talented and  
magnetic leadership cannot fail to be  
very popular among us.

This renowned orchestra will be at  
York Theatre for one night only, Oct.  
23rd.

### PRINCIPAL GRANT HONORED.

During the Duke and Duchess of  
York's visit in Kingston yesterday,  
they called on Principal Grant at the  
hospital and invested him with the C.  
M. G. decoration.

## TORONTO.

Duke and Duchess Received Five  
American Officers at Niagara-on-the-Lake.

TORONTO, Oct. 15.—Mrs. Rose Com-  
pton, Toronto's oldest inhabitant, died  
yesterday, aged 101. She was the wife  
of the city council over forty years  
ago, and a native of County Down,  
Ireland. She had resided here 75  
years.

A rather notable incident of the  
royal visit to Niagara-on-the-Lake,  
hitherto unreported, was the visit of  
five officers of the 14th United States  
Infantry to their royal highnesses. The  
officers are just home from the Philip-  
pines and are stationed at Fort Ni-  
agara, just across the river from  
Queens Royal. They were received  
very courteously by the duke and  
duchess and remained for some min-  
utes talking about affairs in the Philip-  
pines and similar matters.

## CANADIAN BRIEFS.

Ganong Bros. May Establish Factory  
in Toronto—Want Bounty  
on Arsenic.

WINNIPEG, Oct. 15.—Premier Rob-  
lin declares there is no foundation for  
the stories of a concerted and compre-  
hensive scheme of action between the  
Canadian Northern and J. J. Hill.

NIAGARA FALLS, Ont., Oct. 15.—  
Mrs. Taylor of Auburn, N. Y., has ar-  
rived here and purposes to float over  
Niagara Falls in a barrel. Her man-  
ager has been notified he will be held  
responsible if the woman's venture  
proves fatal.

NEWBUNTING, Ont., Oct. 15.—W. J.  
McCart of Avonmore has been nomi-  
nated for the legislature by the liberals  
of Stormont.

VICTORIA, B. C., Oct. 15.—Coron-  
er's jury, brought in a verdict of wilful  
murder in the case of Sergeant Giff  
of the Royal Engineers, who shot and in-  
stantly killed Gunner Clinch of the  
Royal Garrison artillery.

TORONTO, Oct. 15.—Ganong Bros.,  
limited, of St. Stephen, manufacturers  
of chocolates, are said to purpose est-  
ablishing a factory in this city to  
supply the increasing demand for their  
goods in this province and west.

MADOC, Ont., Oct. 15.—At a meet-  
ing of representatives of the mining  
industry of North Hastings held here  
it was decided to bring before the Ont-  
ario and dominion governments the  
necessity for imposing a bounty on re-  
fined arsenic. About one-sixth of the  
refined arsenic used on this continent is  
now refined in this country.

## THAT BALLOON EXPERIMENT.

PARIS, Oct. 15.—Comte De Laval,  
in an interview published today, says  
that while he failed to cross the Medi-  
terranean, he succeeded in breaking all  
ballooning records, as he remained in  
the air more than 41 hours, during  
which time he succeeded in keeping the  
balloon from two to four metres above  
the sea level, thus solving the prob-  
lem of maintaining stability. He says  
he could have remained up for forty-  
eight hours, but would have been driv-  
en ashore. He threw out ballast only  
once a day, and the balloon was at sunset  
compensated for the loss of gas by the  
weight of the ballast. He says the de-  
viator he was able to deviate 30  
degrees from the course of the wind,  
and occasionally the deviation was as  
much as 45 degrees. He attributes his  
failure to the weather, the violence of  
the wind and the bad quality of the  
gas he used.

No striking incident seems to have  
taken place during the trip, which was  
in fact uneventful. The committee  
succeeded in getting his balloon on  
board the Du Chayla without accident.

## CHARGED WITH 14 MURDERS.

DAYTON, Ohio, Oct. 15.—Coroner  
Hatcher has been informed of the ex-  
amination made by Prof. Curtis C.  
Howard of Columbus of the remains  
of Anna C. Pugh, sister and one of  
the alleged victims of Mrs. Mary Belle  
Witmer, but has decided not to pub-  
licly the result of the examination  
until it is produced at Mrs. Witmer's  
hearing on Friday. Prof. Howard said  
he found the arsenic in Mrs. Pugh's  
stomach, the confirming the report of  
Dr. C. H. Breidenbach, who made an  
examination of the stomach soon after  
death. Dr. Dredendbach reported the  
presence of copperas, but Professor  
Howard did not substantiate this fea-  
ture.

## SOLDIERS' RIOT AT ALDERSHOT.

LONDON, Oct. 15.—The long stand-  
ing feud between the Durham and  
Worcester regiments of infantry culmi-  
nated last night in a serious affray  
at Aldershot, when the Worcesters,  
with fixed bayonets and ball cartridges,  
attacked the quarters of the Durhams.  
Severe fighting followed, during which  
many of the men were injured. A  
number of the Durhams are suffering  
from dangerous bayonet wounds.

## COLLISION AT SEA.

SEATTLE, Wash., Oct. 15.—The Ori-  
ental liner Kaga Maru and the German  
steamship Elba collided off Five Mile  
Point yesterday in a dense fog. The  
Elba tore a hole in the Kaga Maru's  
hull seven feet in width but above the  
water line. The injured vessel suc-  
ceeded in reaching port in safety, but  
narrowly escaped being sent to the  
bottom with her passengers and cargo.

## NO INTENTIONS.

posed. I knew he would." Ethel-  
"Why, you said you thought he had  
no intention of proposing."  
Agnes—"Well, he didn't have."—Tit-  
Bits.

raising a disturbance there and who  
refused to leave.

Co., are in the city and have secured

They expect to give a much better ser-  
vice on the Woodstock route than has  
heretofore been given.

The funeral of the late Capt. Robert  
J. Leonard took place this afternoon  
from his late residence Pagan Place.  
At half past two o'clock the body was  
taken to Trinity church, where the  
funeral service was conducted by the  
Rev. J. A. Richardson. Interment was  
made in Fernhill cemetery. There were  
no pall bearers.

## TO PRACTICE IN THE SOUTH.

(Fredericton Herald.)  
Dr. H. T. Sterling, who graduated  
from Philadelphia Dental college in  
May last, left this afternoon for Green-  
ville, South Carolina, where he intends  
pursuing his profession. Dr. Sterling  
passed a most creditable examination.  
His mother, Mrs. T. McCarthy, now in  
Boston, will join him there and ac-  
company him to his new home.

## HAIRD ON FREDERICTON.

(Fredericton Herald.)  
Rev. J. M. Maclean, in addressing  
the Teachers' Institute at Chatham,  
said he felt embarrassed even when  
speaking to common people, and how  
much more so when addressing an as-  
sembly like this! A Montreal man had  
told him he liked a New Brunswick  
minister very much who had gone  
there to preach, except that his words  
were very common, and not at all  
flowery or high sounding, but added  
that he "supposed the minister had got  
into the habit of using common words  
when preaching to ignorant fishermen  
in Fredericton."

## A MOCADAM WEDDING.

The house of Mr. and Mrs. James  
Green at Mocadam Junction was the  
scene of a very pretty wedding on the  
afternoon of Oct. 15th, when their eld-  
est daughter, Estelle Mable, was un-  
der the marriage to George W. Roth-  
well, secretary in the master mechan-  
ics' office.

The bride and groom left by the Mon-  
triel train to visit Montreal, Ottawa,  
Hamilton, Toronto and other western  
cities.

## PRESBYTERIAN MISSIONS.

TORONTO, Oct. 15.—The board of  
foreign missions of the Presbyterian  
church in session here decided not to  
send Rev. Jonathan Goforth back to  
China this autumn. A letter received  
from Rev. W. McClure, who is now in  
the province of Honan, states the coun-  
try is by no means settled down to its  
normal condition, and trouble may  
come again ere long.

## SHORT APPLE CROP.

NEW YORK, Oct. 15.—The commer-  
cial apple crop of 1901—according to the  
final report of the American Agricul-  
tural, is placed at 22,000,000 barrels,  
against 48,000,000 barrels one year ago  
and nearly 70,000,000 barrels in the  
bumper crop year of 1896.

## THE WEATHER.

WASHINGTON, Oct. 15.—Fore-cast:

northern portion tonight; Thursday,  
fair; fresh southwest winds.

## CORNERSTONE OF A CHURCH LAID BY MASONIC ORDER.

(Memphis Commercial Appeal.)  
The cornerstone of the new Seventh  
Baptist church was laid yesterday af-  
ternoon with impressive ceremonies by  
the masons of Memphis.

After a song by the choir the Masons  
proceeded with their ritual. Having  
received the cap stone, the work of  
the craftsmen was tried with square  
and plumb and it was found that  
the craftsmen had done their duty  
and the stone was true. The Masons  
then gave the grand honours and, ac-  
companying a song by the choir, Dr. McConnell,  
of Atlanta, alluded to the laying of the  
cornerstone by the Masons, and said  
that it was highly appropriate that  
such should have been the case. Re-  
viewing the history of the Masonic  
order, he told of the building of the  
temple at Jerusalem, of the perfect  
manner in which the work was done,  
and of the symbolic significance of the  
ritual. He said that the square, the  
level and the plumb represented the  
moral principles of the Masonic frater-  
nity. A Mason would meet you on the  
square and part with you on the level.

## OVER 900 LEPERS.

The Present State of Affairs at Mol-  
okai, Hawaii.

WASHINGTON, Oct. 15.—There are  
now 900 lepers and 100 clean persons  
at the Molokai leper settlement in Ha-  
waii, according to a report just re-  
ceived from chief quarantine officer,  
Coffey, in charge of the marine hospital  
service in Hawaii. All these are housed,  
fed, clothed and governed for \$50,000  
a year. The report praises the hospi-  
tal and cheerful way in which these  
poor people resign themselves to their  
fate and points out that such content-  
ment can thrive only on a comfortable  
mode of life and good treatment. Sur-  
geon Coffey reports he made careful  
inquiries as to the chances of the in-  
fection of the clean people, working  
among the lepers and that the general  
opinion was that in time they would  
become lepers. In the last ten years,  
however, only ten clean residents have  
become lepers.

The results of known exposure to  
leprosy says the report, show an un-  
derstanding as to the chances of individ-  
ual disease one of the most difficult to  
operate against.

Women are said to be less liable to  
it than men. The number of com-  
mitments to the settlements each year  
during the last decade show a gradual  
decrease.

## KILLED BY GAS.

Sad Fate of a Young Couple in  
Brooklyn.

NEW YORK, Oct. 15.—William Joyce  
and his wife, who have been married  
several months, were asphyxiated to  
death during the night at the home of  
Mrs. Joyce's parents in Brooklyn.  
Joseph Duff, 19 years old, brother of  
Mrs. Joyce, believes he was the un-  
intentional cause of the tragedy. Mr.  
and Mrs. Joyce, who lived in Manhat-  
tan, had spent the evening at the  
home of the Duffs, and were asked to  
remain over night. They were given  
a sleeping room usually occupied by  
Joseph Duff, who was away from home  
during the evening. When the young  
man went to his room and lit the gas  
Joyce spoke to him and explained the  
situation, whereupon Joseph turned  
out the gas and went to another apart-  
ment to sleep. He thinks that in his  
confusion at finding his room occupied  
he may have turned on the gas after  
the light had been extinguished. There  
is absolutely no ground for suspicion  
of suicide. The grief of young Duff is  
overwhelming.

Miss Ellen M. Stone's companion, Ma-  
dame Talika, was posted on her par-  
ents' door, in Sofia, Bulgaria, announc-  
ing that Madame Talika had given  
birth to a child and that both the in-  
fant and the mother were doing well.

Dr. P. Holman, inventor of the Hol-  
man railway track layer, an appliance  
in use on many railroads where con-  
struction work is being done, was

Oak Park, Chicago, last night. Mr.  
Holman was 70 years old and well  
known in railway circles.

ernment of Queen Wilhelmina of Hol-  
land are investigating the workings of  
the Holland submarine torpedo boat at

making a report to the Holland gov-  
ernment as to the advisability of add-  
ing one or more to the navy of Hol-  
land.

of the stock yards at East Buffalo, and  
interested in many large enterprises,

## FAITH CURISTS INDICTED.

HAMILTON, Ohio, Oct. 15.—The  
Butler county grand jury reported in-  
dictments for manslaughter against  
Sybil Bishop and his wife Leola, faith  
curists. Last July their eight-year-old  
child was burned by a gasoline explo-  
sion, and the Bishops refused to call  
a doctor. They surrounded the child's  
bedside offering prayers for recovery.  
Coroner Sharkey in his verdict said  
that medical attention would have  
saved the girl's life.

A second indictment for criminal ne-  
glect was returned against the father.

"Does your wife open letters that are addressed to you?" casually inquired the friend.  
Now, no man likes to admit that his mail is opened by another, and yet Higgins wished to be truthful.  
"Not when they are delivered at my office," he replied.

## ROYAL VISIT.

Troops Arrive and Everything Will be in Readiness.

Outline of Tomorrow's Programme

The Royal Residences—

General Notes.

When work ceases tonight the city decorations will be practically finished. That is the statement of those in charge. There is, however, an immense amount to be done, but it is mainly in putting the finishing touches on. The heavy work has been completed. Today was one of hustle and bustle from Indian town to the exhibition buildings, and if the weather continues favorable, St. John will tomorrow present the gayest appearance in her history. From private houses and public buildings flags and bunting are streaming out in welcome, and the city is a great mass of moving color, as the wind tosses the streamers into the air. Especially along the line of march is this true. Nearly every household has taken the opportunity of decorating in honor of their royal highnesses and they will pass under veritable arches of flags and banners.

At the exhibition grounds the men are working hard to have everything ready in time. Within the buildings preparations are about completed. Outside the men are employed in constructing a grand stand on the top and front of the drill hall, one of the best positions on the grounds. The pavilion for the royal party is receiving its last touches of paint, and the big grand stand is being put in order. The ground on which the review will be held has been roped off. This takes up the main space on the grounds. This evening the massed bands of the city will practice at the exhibition buildings under Bandmaster Jones.

A large number of addresses will be presented to the duke tomorrow afternoon, but it is believed that only two, that of the city of St. John and of Fredericton will be read.

A reporter of the Sun had a long talk last night with George Robertson, M. P. P., who stated that the distribution of tickets for the various functions in connection with the royal visit was practically over. He knew many of the tickets issued was as follows:

For afternoon function at the exhibition building, 3,000, including 1,000 school children.

For Barrack square in the afternoon, 7,000.

For evening reception, 3,000.

Mr. Robertson said 40,000 applications had been received, and the committee did the best they could under the circumstances. These figures would give the public an idea of the difficulties with which the committee had to contend.

People intending to take in the presentation of addresses at the exhibition building in the afternoon will pass through the turnstiles and will be closed half an hour before the royal party reach the building. After the time mentioned no one will be admitted. Those going to the presentation of medals, etc., on the Barrack square will pass in through the gates.

Mr. Robertson said those who went to the exhibition building would have a very poor chance of taking in the affair on the barracks. People should therefore elect which of the two they preferred.

The official space in the exhibition building will be occupied by members of the dominion government, senators and members of parliament from New Brunswick, members of the local government and house, mayors of provincial towns and wardens of municipalities, representatives from the N. B. bench, provincial and city government officials, alderman and civic officials, and representatives from the military, clergy of all denominations and local societies.

The seven hundred seats in the grand stand for the military display will be occupied by these officials to the number of 360, by the British Veterans from Boston and by friends of the military taking part.

The I. C. R. are making elaborate preparations for the carrying and accommodation of the royal party. At 8.30 tonight the royal train leaves Chaudiere Junction, Quebec, arriving in St. John promptly at 2 p. m. standard time. One half hour ahead of it all through will run the viceregal train of eleven cars conveying their excellencies the Governor General and Lady Minto, members of the dominion government, and members of the royal suite, sixteen servants, twenty members of the press and others.

Ahead of the viceregal train will run a pilot engine to ensure the safety of the line, and following the royal cars will come the auxiliary train with the equipment of the party. On the trip down both trains will stop one hour near Newcastle station for dressing, and on the trip from St. John to Halifax both trains will probably remain on a siding near Windsor Junction over night. The time of departure for Halifax on Friday has been slightly changed. The viceregal train, according to the adopted schedule, will leave at eleven o'clock standard and the royal train half an hour later. Both these trains have the right of way over all others, which must keep thirty minutes clear of them except under special orders to the contrary.

POLICE ORDERS BY CHIEF CLARK  
Thursday evening, between the hours of 8 and 12 o'clock, when the illuminations are in progress, all vehicles must conform to police regulations. THE DEATH ROLL.  
The death occurred at Gibson Monday of Thomas D., the five months' old child of Dimity Graham at that place. Thomas H. Brewer, a well known resident of Nashwaakias, died at that place Monday night after a three months' illness from cancer. A widow and family of seven sons survive him.

A SOLDIER LOCKED UP.

This morning a young fellow wearing the uniform of a sergeant of the R. C. I. went into the Boston second-hand store on Dock street and demanded to be shown the books in order that he might see how the business was conducted. His actions alarmed the proprietor who went to look for an officer. In the meantime the soldier picked up a chisel, which was lying on the counter, and hurried it at another attendant in the store. It luckily missed him and went through a box near by. The sergeant then grabbed a fur collar and ran. On King street he was captured by Officer Sullivan who, upon the prisoner's entreaty, escorted him along the quieter streets to the central trusting the man to go peaceably, but still keeping close to him. When near the station the soldier made a frantic break for liberty, but the officer happened to be there and lodged him safely in No. 8.

POLICE COURT.  
Charles Chapel was arrested by Officer Sullivan last evening on suspicion of stealing a quantity of clothing from a fellow-sailor on the schooner Sand-either, now lying on Ellzyard's blocks. This morning he pleaded guilty to the charge and was remanded until Saturday. The clothes were recovered and returned to the owner, Alfred Anderson. The latter claimed the boots Chapel was wearing and had them removed in the court room. He also stated that all his discharge papers were in a pocket in one of the coats and that they had been destroyed by the prisoner.

The case against Charles Ward of the "One Mile House" for selling liquor after hours came up this forenoon but was not finished.

WHO OWNS THEM?  
A pair of suspenders and some slippers, supposed to be a reception gown, were picked up by the police last evening on Britain street and now await an owner at the central station.

THE DEATH ROLL.  
The death occurred at Gibson Monday of Thomas D., the five months' old child of Dimity Graham at that place. Thomas H. Brewer, a well known resident of Nashwaakias, died at that place Monday night after a three months' illness from cancer. A widow and family of seven sons survive him.
