

A Panic Day in the Chicago "Wheat Pit"

THIS REMARKABLE PHOTOGRAPH SHOWS THE FRANTIC CROWD ON THE CHICAGO BOARD OF TRADE AFTER A WILD DAY WHEN WHEAT WAS FALLING STEADILY BY POINT.

PITIFUL SCENES ENACTED YESTERDAY IN CLOSING HOURS OF WHEAT PIT

Frantic Efforts Made by the Losers to Extricate Themselves As Wheat Soars.

Cleanest Cut of Any Corner in Years Developed at Chicago—Market in Flutter.

Chicago, Ill., Sept. 30.—The wheat "squeeze" which disturbed the cent advance in the September option on the Board of Trade here today, lacked none of the features of the former years when Old Futaba, Parrisage and others went to explode bombshells in the trade.

It was the cleanest cut of any corner in many years. The so-called "Pat" deal of last spring was an open secret long before final delivery day, but what happened today came as an utter surprise.

The trader or traders in control are said to have held about 1,000,000 bushels while the scattered short interest ran between five and ten millions, according to the average expert guess on the subject in the absence of actual figures. In volume this does not begin to compare with some deals which the Board of Trade history reveals, but in compact efficiency, it is said to be the peer of any.

No colossal winnings or losses are involved, although some of the weaker shorts were hard hit when "shoe-string resources" are considered. The efforts of some of these to extricate themselves during the hot frenzied half-hour were described by a spectator as pitiful. A small sum multiplied into comparatively heavy losses with distressing rapidity.

At 1:07 when the MCK's began. Conditions were such that Dr. McKay was and although supported by appendicitis, the man would for a moment be unable to stand. The operation was successful, and Europe seemed to have hoped for a few minutes of ever, other symptoms drew near and it was found that the new became apparent.

Two special firms are reported to one from Mont. The deal, common media by the control of September to driving during the oats pit monopolized found that the forenoon session The end came as dimmed later by ing.

A sad fallow bushels of September only sold the price up to 50 cents, in the half cents higher than the home for the. At the top price elevation of 10 sold heavily and the market province. It to 48 cents where it closed all loss a friend and

A CONFESSOR WITH WHITNEY. Mr. Rho, N. Y., Sept. 30.—Dr. identified this afternoon: "I had for the bet to Etah in the spring to in which two Eskimos to America a government of that Mr. Whitney had Acacia Uni. As soon as Mr. Whitney executive all confer with him and identified in the ship shall start"

POLLI ON TRIAL FOR HIS LIFE AT ANDOVER

Italian Accused Of Shooting The Englishman, Gorman, Arraigned Before Justice McLeod Yesterday.

Special to The Standard. Andover, N. B., Sept. 30.—The Gorman-Polli trial commenced here this morning before Judge McLeod. Solicitor General McLeod appeared, for the Crown and F. B. Carvell, K. C., with W. P. Jones, for the prisoner. The prisoner is a typical Italian, of gentlemanly and refined appearance. He has two relatives in court who are backing him in his trial.

The jurymen who will try the case are, Frank Miller, Ernest Miller, G. Watt Lawson, Frank Howard, B. K. Beveridge, Bruce Ritchie, J. Lugh White, James Brebner, Aaron Stinson, W. W. Larlee, Isaac Sullivan and J. Warnock.

Prisoner Arraigned. Before the court coming to order the solicitor moved for trial. The prisoner was arraigned and pleaded not guilty. Carey Evans, the first witness called, is the bookkeeper at Farlinger and McDonald's camp. On the day of the shooting he was coming from his dinner and when passing noticed several men trying to hold Polli, who was cursing and fighting to get up. He continued on toward the office and as he reached the door he saw Polli coming up the track. He called to him to stay where he was and keep out of trouble.

Polli brushed him aside and on meeting George Jewett did likewise with him. Hugh McDonald then met him and having his hand on his shoulder turned him in the direction of the Italian camp and persuaded him to go, which Polli started to do.

At this instant Gorman dashed down the hill swinging his arms and said, "I'm the chap to drive him away." Gorman reached out at Polli and at that moment he heard a shot fired. The shot clinked. After the shot was fired he helped Gorman to the camp. He believed that Gorman, McKinnon and Polli were all drinking that day. James Whitney Called.

James Whitney, roddan on the Transcontinental was the next witness. He gave much the same evidence as James Evans. He added that the prisoner was a quiet and inoffensive chap and was not in the habit of quarrelling.

Polli was foreman of the Italian gang. He saw Gorman strike Polli during the affray. Burnley Robertson stated in his evidence that early in the day he heard McKinnon bantering with Wilson for a fight. After dinner he heard of the fight and walking down the hill met Polli coming up. He advised him to keep away but Polli stopped aside and continued on a sharp run. Mr. McDonald also tried to persuade

FRESHET PLAYS HIGH CARNIVAL WITH THIS BOOM

600,000 Feet Of Logs Set Adrift By Swollen Waters Of Miramichi—Ferry Boat Up For Repairs.

Chatham, N. B., Sept. 30.—Rain has been falling heavily here for several days past, and as a result the river is high and the current very strong. Last night a large quantity of logs in the southwest Miramichi boom were forced under the barrier and being swept down the river. At day-break the river opposite Chatham was thickly dotted with logs.

Lumbermen estimate the number of logs set adrift at 600,000 feet. They belonged to Snowball, Walsh and Nordin.

Today tugs, motor boats and other crafts were sent after the logs, some of which had drifted well towards the mouth of the river. It is hoped that the larger portion will be recovered.

On the Northwest branch logs owned by Daniel Sullivan were set adrift through the breaking of the boom there. The rainstorm is apparently over, although the atmosphere is still cloudy.

The drifting logs injured the ferry boat Sybilah so badly today that she has had to lay up for repairs. him to go back and he seemed to do so as Polli went a short distance to his own camp. At this juncture Gorman rushed in and struck Polli. Polli hesitated a moment and then fired. They seemed to grapple then and Gorman fell.

Wm. McKinnon, apparently the cause of the trouble, when called said he could recollect nothing of what had happened. He swears that a few days before this Polli tried to beat him with a monkey wrench.

J. H. McDonald Sworn. J. H. McDonald, boss of the camp gave evidence of going to Polli as he was coming up the hill. He laid his hand on his shoulder, and said "go back to your camp". Polli agreed and moved off a few steps. At this juncture Gorman in passing bumped against him and struck at Polli. Polli shouted "keep back" and was pushed back some distance by Gorman. Polli then turned and fired. Dr. Paddington of Grand Falls gave testimony to having in conjunction with Drs. Taylor and Coffin performed the operation on Gorman. They found three perforations in the small bowel and treated all three. After using all precautions known to the medical world the incision was closed.

CRAWFORD LOST ON BOTH COUNTS BEFORE JURY

Campbellton Chief Of Police Ordered To Pay Sums Of \$350 And \$250 As Damages For False Arrest.

Special to The Standard. Dalhousie, Sept. 30.—The cases before the circuit court here, McRae vs. Crawford, and Poirier vs. Crawford were concluded today. The jury brought in a verdict of \$350 as damages against Crawford in the former and \$250 in the latter. Both cases have aroused considerable interest.

During the last local election while a meeting was in progress in the Opera House, Stanley Poirier was arrested by Chief Crawford and charged with creating a disturbance. After Poirier had been placed in the jail, James McRae was arrested by Crawford charged with interfering with the police in the arrest of Poirier. The magistrate dismissed the case against Poirier and fined McRae \$5 and costs. Action was afterwards entered in the supreme court against Crawford for damages for wrongful arrest with the result as above stated.

It is said the evidence in both cases was very conflicting and contradictory. Both cases will likely be appealed to the full bench. J. B. Baxter of St. John conducted the case for Crawford and W. A. Mott for McRae and Poirier. There is another case still pending against Crawford of a similar nature.

HOPE NOW FOR RECOVERY OF HON. J. P. BURCHILL

Special to The Standard. Chatham, N. B., Sept. 30.—Mr. Burchill's condition tonight is somewhat better and hope is expressed that he may now pull through his severe illness. He is very weak but has passed a good night and day and Dr. Hayes is a little more hopeful of the outcome.

The patient has to be kept in absolute quiet and can only take liquid nourishment only, but it is left that if complications do not set in he may slowly recover. At least the prospect of a recovery is not as hopeless as was at first entertained.

HORRIBLE SUICIDE OF YOUNG WOMAN. Paris, Sept. 30.—A young woman named suicide in a frightful manner here tonight. Having had a quarrel with her lover, who is a lion tamer in a theatre in which three animals are introduced during the course

GREAT MILITARY PARADE CLIMAX OF CELEBRATION

25,000 Men of Arms March Past the Massed Representatives of 37 Nations in Culminating Event of Hudson-Fulton Celebration—Representatives of 37 Nations in Culminating Event of Hudson-Fulton Celebration—Representatives of 37 Nations in Culminating Event of Hudson-Fulton Celebration—

THE ARCTIC IS REPORTED OFF POINT AMOUR

Captain Bernier Returning After Two Long Years Spent in Arctic Exploration—May Add Something.

NOTHING KNOWN OF SHIP'S MOVEMENTS.

Point Amour, Labrador, by Marconi Wireless Telegraph, via Cape Ray, N. F., Sept. 30.—The Canadian government steamer Arctic, Captain Bernier in command arrived here this afternoon after a fourteen months' cruise in the Arctic region. The crew of 43 men are all in good health and there was no sickness during the trip. The Arctic left here at 7 o'clock this evening for Quebec.

The Arctic, Captain Bernier, went north three times. The first trip was the subject of most interesting discussion but accomplished nothing. Her second trip explored the waters directly north of Hudson Bay. She went on her present cruise with instructions to sail to Greenland to follow the shore for some distance, crossing to Lancaster Sound, and making exploration of these far northern waters of Canada, collecting customs dues or license money from whale fishermen and proclaiming Canadian jurisdiction by notifying vessels, erecting cairns or making other visible signs. One subsequent return from Captain Bernier after two years' operations showed that he had collected \$500.

It is not known exactly where the last two years have been spent, except that Captain Bernier took supplies to Etah in Greenland for Captain Cook and who there tried in vain to get some Eskimo dogs for Commander Peary. That would be last year. Captain Bernier then intended making exploration along the coast of some of the straits.

By the Auditor General's report for 1908 the crew of the Arctic included Captain Bernier, a chief engineer, second engineer, first, second and third mates, chief cook and assistant cook, chief steward and assistant steward, purser and assistant purser, electrician, carpenter, two boatswains, four waiters, two others, three firemen, nine seamen, an interpreter, a physician and a historian.

HON. GEORGE H. GORDON SEES FREDERICTON

Son Of Former Governor Of Province Is Driven About Capital City—Delighted With River.

FREDERICTON IN LINE TO FIGHT WHITE PLAGUE

Special to The Standard. Fredericton, N. B., Sept. 30.—A Fredericton branch of the Canadian Association for the Prevention of Tuberculosis, was formed at a large and enthusiastic public meeting held at the opera house this evening. Mayor Chestnut presided and the local clergy, men and physicians and others occupied seats on the platform.

Dr. G. D. Porter. The principal speaker was Dr. Geo. D. Porter, of Toronto, who is touring Canada in the interests of the Canadian Association. He delivered a very able and instructive address being followed with the greatest interest.

Dr. Porter was born in the West Indies, of Nova Scotia parentage and is a brother-in-law of Lloyd Harris, M. P. for Brantford. He is singularly well informed and is most enthusiastic with regard to his subject.

At the conclusion of his address it was resolved on motion of Dr. Dr. Smith, seconded by Chancellor Jones, that the meeting proceed to organize a branch of the Canadian Association for the Prevention of Tuberculosis.

Speakers were delivered by the mover and seconder and by Dr. Murray, president of the New Brunswick Medical Society, Dr. Fished, secretary of the Provincial Board of Health, Dr. Irvine and Rev. Father Carney. The resolution was carried unanimously.

A hearty vote of thanks to Dr. Porter was moved by Chief Supt. Carter and seconded by Dr. McGrath.

PLATOON RELIEFS, THE REGULAR AND SERVE FORCE OF EVERY PRECINCT IN THE CITY WAS MAINTAINED AT ITS FULL WORKING FORCE.

BRITISH TARS FIRST

The parade followed strictly the order of official precedence. First came Admiral Sir Edward Seymour's men, the bluejackets and marines of the British fleet; then the Germans and after them the Dutchmen and the Italian seamen in company front with their sailors bringing up the rear. Then came the representatives of the United States, the gray-coated faultless West Point cadets, the coast artillery carrying the new service rifles, the regulars of the United States Marine band of the Atlantic fleet in scarlet and gold with a sprinkling of Filipino musicians blowing bravely, the marine corps, the sailors of the various ships of the fleet in division front, the naval militia, the national guard and lastly the drab-clothed regulars. The cadets of the Argentine training ship, trim and youthful, found a place between the American sailors and the naval militia.

Business Suspended. For the first time during the Hudson-Fulton celebration, all the small towns within striking distance of New York suspended business today to watch the parade past the court of honor and the official reviewing stand of the sailors and marines of seven visiting nations, the regular soldiers, the bluejackets, the national guard and the naval militia of the United States and the police of New York city.

So many men representing so many branches of the war departments of the world have not been seen in American streets before; so many wearing American colors have not been seen since the days of the civil war. The total number of those in line today outnumbered the American regular army before his return from public function since his return from American war. Forty-four hundred police kept the crowd in line and at the same time, by a special system of

Tonight marks the climax as far as spectators go, of the celebration in Greater New York. There remains the carnival parade, but, though different in appearance, it does not vary in essence from the historical pageant of last Tuesday. The alship and aeroplane flights continue, but the public has already had its taste of them, and tomorrow morning sees the departure up the river of a part, at least, of the naval contingent, which more than any other thing has drawn the crowd and given the celebration international dignity.

There were aquatic sports this afternoon in the Hudson of Riverside Drive and tonight there were the excesses and a Staten Island banquet, at which Glenn H. Curtiss, the aviator, made his first appearance at a formal public function since his return from European triumphs. Sharing the honors with him were Governor Hughes and Dr. Cook, of Polar fame.

FURTHER DETAILS IN CAMPBELLTON ROBBERY

I. C. R. Detective Noble's Clever Work Results In The Full Confession Of Goupil, a Suspect In The Recent Robbery.

Special to The Standard. Campbellton, N. B., Sept. 30.—I. C. R. Detective Noble has added another clever bit of work to his credit.

A few days ago he interviewed Moores in connection with the robbery affair. Among other things learned from Moores that Letourneau, Carlin and a man named Goupil had been together and that he had overheard Letourneau ask them to go with him to the place where he was employed. They consented to do.

Traced to Quebec. With this as a clue Noble traced Goupil to Quebec and placing him under arrest brought him to Campbellton. From Goupil he learned the following story:

The three men, Letourneau, Carlin and Goupil had been drinking and during the evening went to the place as stated by Moores. After some time Carlin suggested that they spend the night there which was agreed to. Letourneau led Carlin to a back part of the premises and arranged a temporary bed for him. He then asked Goupil to sleep in the front part of the shop and he himself went back to where Carlin was. Goupil's suspicions were aroused he very shortly went out to where the other men were, when he was approached by Letourneau and offered \$22 asking him not to say anything about the matter. Goupil accepted the money and the next day took the train for Quebec.

Still Another Man. Detective Noble is of the opinion that there is still another man in the case, who relieved Carlin of the greater part of his ward before he was touched by Letourneau.

HALIFAX STILL HOPES TO COME OUT EVEN

Special to The Standard. Halifax, N. S., Sept. 30.—London sky and drizzling rain greeted the visitors on the fifth day of the exhibition and people are beginning to think that there is a Jonah in connection with the fair. Despite the inclemency of the weather, there was a good attendance and with the prospective of fine weather tomorrow the commission look for a large crowd. It was decided today to continue the exhibition two days next week, so the deficit may not be so large after all.

MARITIME RACING CIRCUIT FOR NEXT YEAR

Track Managers Meet At Halifax And Decide To Prohibit The Clashing Of Dates In Future.

Special to The Standard. Halifax, N. S., Sept. 30.—Race track managers of the Maritime Provinces met at the Halifax Hotel tonight and passed a resolution prohibiting the clashing of dates in future.

A maritime circuit will be formed for 1910 and J. D. Black of Fredericton was authorized to call a meeting of the track managers at some central point during the month of January for that purpose.

PETITION TO REJECT BUDGET.

London, Sept. 30.—London bankers, including a majority of the large firms have petitioned the House of Lords to reject the budget on the ground that the principles of taxation contained therein are revolutionary and destructive and would not only destroy confidence and credit, but hamper commerce and industry and diminish employment.

RECT LINE REQUIRED TO WEST INDIES

St. John Merchants at Resumed Hearing Yesterday Before Royal Commission Urged Need of Better Service.

DELAYS AT HALIFAX INTERFERE WITH TRADE

Royal Commission Investigating Conditions Between Canada and West Indies held a concluding session yesterday at Trade rooms...

Mr. S. A. Jones, of Jones & Schofield, was then heard. He said that his firm imported molasses and sugar for the grocery trade from the West Indies...

Mr. Andrew Malcolm, who then heard, said his firm imported molasses and sugar for the grocery trade from the West Indies...

Mr. Malcolm said he believed a weekly service from St. John would be satisfactory but could scarcely tell the number of boats he would like to see...

Mr. Malcolm asked what amount of business there was. He believed that the business was not so good as it used to be...

Mr. Malcolm would not say how much business there was. He believed that the business was not so good as it used to be...

Mr. Malcolm would not say how much business there was. He believed that the business was not so good as it used to be...

Mr. Malcolm would not say how much business there was. He believed that the business was not so good as it used to be...

Mr. Malcolm would not say how much business there was. He believed that the business was not so good as it used to be...

competing with New York, so far as prices were concerned. Details of the delay at Halifax he had no complaints to make in regard to the transportation facilities. The rates were reasonable.

Mr. J. S. Armstrong, C. E., spoke in regard to the possibility of developing the harbor for the West India trade, and in regard to a customs-free port at St. John and in the West Indies.

Mr. G. Ernest Barbour, of the G. E. Barbour Company, was then heard. He said that his firm imported molasses from the West Indies. They had been importing for ten years. Up to five years ago they imported from Porto Rico. Since that time they had brought it all from Barbados. He did not believe that the granting by Canada of a preference for unrefined sugar had anything to do with the increase in their business. Their shipments of molasses came nearly all by sailing ships. The molasses arrived in better condition on board the sailers. Speed was no object to them.

To Hon. Wm. Paterson, Mr. Barbour said that he did not believe the preference had anything to do with the change from Porto Rico to Barbados. He did not believe the duty was heavy enough.

To Sir Donald Morris, Mr. Barbour said he believed the trade in molasses would decrease as sugar became cheaper.

Mr. L. G. Crosby said he wished to produce figures to show that the trade had nearly all the molasses Barbour had produced for the past two years, to support a statement he had made to that effect on the previous day.

Lord Balfour was not in favor of using any figures except official ones. Lord Balfour then asked if there were any others who desired to be heard, and none offering, he said that the commission would adjourn. He heartily thanked the Board of Trade for the use of their rooms, and also the gentlemen who had testified.

WEDDINGS

Betterton-Markham. In St. Paul's church on Saturday morning, Sept. 18 the marriage of Mr. Philip Betterton of Birmingham, England, and Miss Emily Frances Markham, youngest daughter of Lieut. Colonel Markham of Vancouver, formerly of this city, was celebrated by Rev. A. T. Penner, Mr. and Mrs. Betterton left on a honeymoon trip, and on their return will reside in Kilsano.

Ramsay-Hales. Rev. L. B. McKel of the Church of the Good Shepherd, officiated on Wednesday at the marriage of Mr. Fred Ramsay and Miss Eva Hales. Both belong in England and are employed in the Provincial Hospital. The ceremony was performed at Mr. Cole's residence on Harding street.

TREASURY BOARD DISCUSSES CHANGES IN RISING LOW CROPS MAKE

FILE SHOWING EXCELLENT WEATHER PREVAILED FOR THE ST. JOHN COUNTY AGRICULTURAL SOCIETY HOLD SUCCESSFUL FAIR AT MOOSEPATH—ALL CLASSES WELL REPRESENTED.

No Money For Sewerage Maintenance—Construction Of Catch Basins Is Made Capital Expenditure—Tailoring Of Police Coats Cannot Be Paid For—Bill Must Wait Till Next Year—Free Kindergartens To Get \$500 In 1910.

At the monthly meeting of the Treasury Board last evening it was reported that the appropriation for sewerage maintenance was almost exhausted with three months of the year still to run. It was decided to provide funds by making the construction of catch basins a capital expenditure, and issue debentures for \$2000.

On motion of Ald. McGoldrick, the board recommended that the widow of Mr. Hurd Peters should be given a grant equivalent to the monthly salary of a late consulting engineer.

A communication from Mr. William Murdoch, director of the Water and Sewerage Department, informed the board that \$12,000 voted for sewerage maintenance was nearly exhausted with three months of the year yet to run. It was recommended that the work had been stopped. He recommended that debentures for \$2000 should be issued to cover the cost of the work.

Ald. Frink, as chairman of the board, explained that the amount originally placed in the estimates for sewerage maintenance had been cut down to \$12,000 and that the present situation had arisen on that account. The men, he said, had to be paid, and if old sewers collapsed, as they were constantly doing, something would have to be done or there would be trouble. He agreed with the suggestion that catch basins were permanent work and could be charged to the city's ordinary revenue. They were now built entirely of brick and cement and were as permanent as a main sewer. Four more payrolls had still to be provided for and would absorb \$1500.

Ald. McGoldrick said the board might not be aware of the fact that there were 1500 houses in the city without modern sanitary conveniences. He did not wonder at the amount of typhoid fever about. The comptroller said he realized that new sewers would be capital expenditure. He did not see why they should not be bonded. On motion of Ald. Frink it was recommended that the Canadian National Exhibition at Toronto last week.

The exhibits of produce, fruit and dairies are also deserving of mention. The poultry exhibit was fair but showed weakness in utility breeds. It is thought that this class of poultry needs a greater amount of encouragement and that this might possibly be obtained if larger prizes were offered. The officials of the exhibition were Mr. Frank V. Hamm, president, Mr. R. R. Patchell, secretary, Judges of horses, Dr. Fred Johnston, Mr. G. H. Barnes, Capt. Wm. F. McLean, Mr. B. V. Millidge, Mr. C. C. McIntyre, Poultry, Mr. W. Allen Jack, Domestic Science Department, Mrs. A. Stacey, Miss Patton, Sheep, Mr. Thomas Dean, Mr. John Rose, Swine, Mr. Thomas Dean.

The prizes were awarded as follows: Stallion, 4 years and up—1st, W. H. Fowler, \$3; 2nd, J. F. Stephenson, \$2. Mare, 2 years and up—1st, R. D. McLean, \$2; 2nd, Wm. Mullins, \$2. Mare, 3 years and up—1st, Wm. Donovan, \$2.

Mare, 2 years and up—1st, Wm. Donovan, \$2; 2nd, H. M. Etter, \$1. Brood mare and foal—1st, J. M. Donovan, \$3; 2nd, Jas. Wilkes, \$2. Stallion or mare, 1 year—1st, Wm. Donovan, \$2; 2nd, Wm. Mullins, \$2. Matched pair, farm horses—1st, Jas. Barrett, \$4; 2nd, Albert Stevens, \$3.

Stallions, 4 years and up—1st, Thos. Hayes, \$3; 2nd, Thos. Hayes, \$2. Horses, 2 years and up—1st, H. M. Etter, \$2. Stallion or mare, 2 years—1st, J. M. Donovan, \$1. Brood mare and foal—1st, H. J. McGowan, \$3. Matched pair—1st, David Watson, \$3; 2nd, Harry Short, \$2.

Class 4. Stallions, 4 years and up—1st, Thos. Hayes, \$3; 2nd, Thos. Hayes, \$2. Horses, 2 years and up—1st, H. M. Etter, \$2. Stallion or mare, 2 years—1st, J. M. Donovan, \$1. Brood mare and foal—1st, H. J. McGowan, \$3. Matched pair—1st, David Watson, \$3; 2nd, Harry Short, \$2.

Class 5. Stallions, 4 years and up—1st, Wm. Donovan, \$5; 2nd, Jas. Barrett, \$3. Bull, 2 years and up—1st, J. M. Donovan, \$3. Bull, 1 year—1st, Jas. Barrett, \$3; 2nd, Wm. Donovan, \$2. Cow, 4 years and up—1st, J. M. Donovan, \$2; 2nd, J. M. Donovan, \$2. Heifer or cow, 2 years—1st, Jas. Barrett, \$2.50; 2nd, J. M. Donovan, \$1.50. Heifer or cow, 1 year—1st, Jas. Barrett, \$2.50; 2nd, J. M. Donovan, \$1.50. Heifer calf—1st, Jas. Barrett, \$1; 2nd, Wm. Donovan, 50 cents.

Class 6. Judges—G. F. McIntyre, J. F. Rose, B. V. Millidge. Heifer, 1 year—1st, Josselyn & Young, \$1.50. Cow, 4 years and up—1st, Josselyn & Young, \$2; 2nd, Josselyn & Young, \$2. Cow, 3 years and up—1st, Josselyn & Young, \$2; 2nd, Josselyn & Young, \$2. Heifer or cow, 2 years—1st, Josselyn & Young, \$2.50; 2nd, J. M. Donovan, \$1.50. Heifer, 1 year—1st, Josselyn & Young, \$1.50. Head, 1 bull and 4 females, 3 to be in milk—1st, Josselyn & Young, \$3. Heifer calf—1st, A. Stevenson, \$1; 2nd, Josselyn & Young, 50c.

Class 7. Judge, Thomas Dean. Prizes: 1st, \$100; 2nd, \$50. Shropshire Down ewe—1st, W. R. McFate. Pair spring lambs (S.D.)—1st, W. R. McFate. Leicester ram—1st, W. R. McFate. Leicester ewe—1st and 2nd, W. R. McFate. Pair spring lambs (Leicester)—1st, W. R. McFate.

Class 8. Judges, Thos. Dean. White Chester boar—1st, J. M. Donovan, \$3. White Chester sow—1st, J. M. Donovan, \$2.50; 2nd, J. M. Donovan, \$1.50. White Chester spring pig boar—1st, J. M. Donovan, \$1.50. White Chester spring sow—1st, J. M. Donovan, \$1.50; 2nd, J. M. Donovan, \$1. Berkshire boar—1st, Frank Smith, \$3. Berkshire sow—1st, J. M. Donovan, \$2.50; 2nd, Wm. Mullins, \$1.50. Yorkshire pig sow—1st, J. M. Donovan, \$1.50; 2nd, J. M. Donovan, \$1.

Class 9. Judges, Thos. Dean. White Chester boar—1st, J. M. Donovan, \$3. White Chester sow—1st, J. M. Donovan, \$2.50; 2nd, J. M. Donovan, \$1.50. White Chester spring pig boar—1st, J. M. Donovan, \$1.50. White Chester spring sow—1st, J. M. Donovan, \$1.50; 2nd, J. M. Donovan, \$1. Berkshire boar—1st, Frank Smith, \$3. Berkshire sow—1st, J. M. Donovan, \$2.50; 2nd, Wm. Mullins, \$1.50. Yorkshire pig sow—1st, J. M. Donovan, \$1.50; 2nd, J. M. Donovan, \$1.

EXHIBITION AT ST. STEPHEN IS IN FULL SWING

Opening of Fair Held Yesterday under beautiful weather conditions—Many Fine Exhibits Shown.

Special to The Standard. St. Stephen, N. B., Sept. 30—Beautiful weather has prevailed on the opening day of the Agricultural Exhibition and the attendance has been large. For Friday and Saturday immense crowds are expected.

The directors and the public are well pleased with the number and variety of the exhibits. In vegetable and fruit produce nothing finer has been anywhere according to the testimony of those who attended other fairs. The exhibit of fruits arouses universal admiration and general surprise abounds that such excellent specimens can be gathered from our own farms. The display of fancy work is beyond all expectation and is not surpassed anywhere.

The directors and the public are well pleased with the number and variety of the exhibits. In vegetable and fruit produce nothing finer has been anywhere according to the testimony of those who attended other fairs. The exhibit of fruits arouses universal admiration and general surprise abounds that such excellent specimens can be gathered from our own farms. The display of fancy work is beyond all expectation and is not surpassed anywhere.

Special to The Standard. St. Stephen, N. B., Sept. 30—Beautiful weather has prevailed on the opening day of the Agricultural Exhibition and the attendance has been large. For Friday and Saturday immense crowds are expected.

MUCH BUSINESS BY SYNOD COMMITTEES DONE YESTERDAY

The Executive Committee of the Church of England Synod transacted some important business yesterday. The report of the Board of Missions showed that during the summer months 16 student missionaries were at work in various parts of the Province. During the past two months seven vacant parishes have been supplied with clergymen. Nine parishes are yet vacant, several of which will be filled shortly.

A grant of \$150 from the Widows and Orphan's Fund was made to the widow of the late Rev. Dr. Hunter of Grand Manan. Outfit loans were made to the Revs. S. McComb, P. J. S. Francis, H. T. Buckland and F. Smith who are just beginning their work in the Province. A grant of \$200 was made to the Rev. A. H. P. Watkins to enable him to build a temporary place of accommodation of the "Coharie" variety, there being as yet no parsonage in his mission. Steps are now being taken to establish an augmentation fund so as to afford all the clergy in the rural parishes a living salary, graded according to length of service in the ministry.

HOTEL ARRIVALS

Victoria Hotel. E. J. Anderson, Truro, N. S.; E. W. Seely, Moncton; A. P. H. Brown and wife, Cebouner; A. M. Dunn, Hampton; E. Albert Reilly, Moncton; F. W. Lister, J. McAdams; J. P. EXHIBITION AT ST. STEPHEN IS IN FULL SWING

Opening of Fair Held Yesterday under beautiful weather conditions--Many Fine Exhibits Shown.

COURSE RACING FOR FRIDAY

Special to The Standard.

St. Stephen, N. B., Sept. 30.—Beautiful weather prevailed on the opening day of the Agricultural Exhibition and the attendance has been large. For Friday and Saturday immense crowds are expected.

The directors and the public are all pleased with the number and variety of the exhibits. In vegetables and produce nothing finer has been anywhere according to the testimony of those who attended other years. The exhibit of fruits arouses universal admiration and general surprise.

At 10 o'clock the horse racing will be in full swing. The three minute trotting class and the 2 1/2 class. Saturday afternoon the events will include the three minute trotting class and the 2 1/2 class.

While these are in progress the ladies of Eastport and Stars of St. John, old and closely matched rivals, will be played on the diamond in the afternoon.

ROYAL WELCOME FOR NEW ZEALAND'S PREMIER

Special to The Standard.

Wellington, New Zealand, Sept. 30.—Joseph Ward, the premier, arrived in St. John today, and received an enthusiastic welcome. An address was presented to him eulogizing his work in the cause of naval defence, with special reference to the appreciation shown by the British House of Commons of New Zealand's offer of a donation.

HAS EXPLORER CHARCOT REACHED THE SOUTH POLE

Rich Scientist Fully Equipped Has been in Antarctic a Year--Word Expected Soon.

DR. JEAN B. CHARCOT.

Dr. Charcot testing his motorized in Swiss Mountains before his departure south. At top, picture of Lieut. Shackleton, who reached a point within 95 miles of the south pole.

and rediscovery of the north pole by Cook and Peary all have drawn public interest to the antarctic. Is the south polar region like the north pole? What will science find there? Dr. Charcot, no matter how well he may be equipped, will find that the south pole will test the mettle of the best man.

There are no intelligent Eskimos in the antarctic, no hardy dogs like the Eskimos have. There is little land that is not bleak and desolate. Walrus, narwhal, polar bear, and smaller game like elder duck, ptarmigan and hare are scarce at the north pole.

In fact, Dr. Charcot or any other explorer will find that Cook's and Peary's work in the north was like child's play beside some of the difficulties of farthest south.

As opposed to the leads of water, which baffle north polar travelers, there is the huge, majestic ice barrier of the southernmost ocean. There is nothing like this ice wall in all the world. It rises out of the ocean 300 feet high, its walls as smooth and as level as glass.

The land in the far north is not without signs of vegetable life near the pole, while in the south there is no life—nothing but the craters of volcanoes, some extinct, some active. The weather is not so cold at the north pole, about 20 to 50 degrees below zero Fahrenheit, Peary and Cook say. At the south pole, however, Shackleton tells not only of extreme cold, but of blizzards which made progress almost impossible.

So, if the wires file the news that Dr. Jean B. Charcot has found the pole, we may know he has accomplished a feat that adds as much to the world as have the deeds of Dr. Cook and Commander Peary.

There were big mountains, gnawed by the betterment of man. He is survived by his wife and one son, Edgar N. P. for Cumberland, N. C., president of the Rhodes, Curry Company, is a brother-in-law, and for some thirty years has been identified with him in business. The funeral will take place on Saturday afternoon.

Born in Amherst. Mr. Rhodes was born in Amherst sixty-four years ago, and, with the exception of a few years spent in the United States, lived his entire life in his home town. Returning from the United States in 1877, he started, in conjunction with N. Curry, a small wood-working factory. This was burnt out two years later, and, as there was no insurance, he concerned lost all their available capital.

Financial backing from local men was secured, and the machinery again started, which has developed into one of the largest manufacturing concerns in Canada, having an output last year of four million dollars. Mr. Rhodes until the time of his death was vice-president of the concern. He was elected mayor of Amherst in 1904, and has been actively associated with all the business enterprises of the town.

Francis Rankin Dead. Woodstock, N. B., Sept. 30.—The death of Mr. Francis Rankin, which occurred at 7 o'clock this morning, was a surprise to the community and a shock to the members of his family, who were not prepared for the change. The deceased had been about town until about ten days ago, when he appeared to be in his usual health. He was in his 65th year and was a prosperous farmer in Grafton.

About two years ago his residence was destroyed by fire and since then he has lived in town with his niece, Mrs. Rankin McLardy. His wife, who died a few years ago, was a daughter of the late Rev. Dr. Wm. Donald and a sister of Mrs. Robert Thomson of St. John. He is survived by one son, Dr. Wm. D. Rankin, and two daughters, Misses Marion A. and Katherine Muriel. The funeral will take place on Saturday afternoon. The interment will be made in the family lot in Northampton. The Rev. George D. Ireland, of St. Paul's Presbyterian church, of which the deceased was a member, will officiate.

Supreme Court Chambers. Before His Honor Mr. Justice White in Supreme Court Chambers yesterday morning Mr. W. W. Allen and Mr. E. T. C. Knowles, acting for the plaintiff in the case of the Allis Chalmers Co., Ltd., vs. Hutchinson, applied to have the defendant's replications set aside on the ground that the defendant has replied after the time. Mr. W. B. Wallace, K. C., and Mr. J. King Kelley appeared for the defendant to oppose the application. After hearing argument of counsel His Honor dismissed the application.

ILLINOIS TO HAVE FINGER IN HARRIMAN PIE

Enforcement of New Inheritance Tax May Bring to State Treasury Large Share of Financier's Estate.

Chicago, Sept. 30.—Enforcement of the new inheritance tax law which took effect July 7, 1909, may bring into the treasury of Illinois a large sum from the estate of Edward H. Harriman.

Attorney-General William H. Stead has already taken steps to collect on that part of the estate that is due the State of Illinois. Valer K. Lincoln, inheritance tax attorney, acting for the Attorney-General, today filed a petition before County Judge Rinker to have J. Scott Matthews appointed inheritance tax appraiser to appraise the estate of Mr. Harriman with a view of levying a tax under the new law. The petition was granted and Mr. Matthews will begin his work at once.

A Non-Resident. Although Mr. Harriman died a non-resident of Illinois, this fact, it is contended, will not prevent the taxation of a large part of his estate. In determining what is taxable, however, the appraiser will necessarily require that a list of the entire estate be submitted to him, from which he will select what is taxable in Illinois.

As no appraiser has been appointed in New York State this may mean that the first official valuation placed on the Harriman estate will be had when the Illinois officials publish their investigation.

In his petition to the county Judge the inheritance tax attorney specifically avers that the holdings of the Harriman estate in the Illinois Central Railroad Company, Chicago and Alton Railroad, Illinois Tunnel Company and a long list of smaller railroad and industrial properties with lines and plants in Illinois are all subject to taxation under the new law.

Judge Rinker's order to the appraiser provides for ten days written notice to the widow, Mary Averell Harriman, and to all the other Harriman heirs at law. No date has been set for the first hearing, but it is expected Mr. Matthews will set a date early in October.

ON WITH THE PLAY. Mrs. Carter. Who but she has that profile, with its pleading attitude? In "Adrea" and "Dubarry" she used with telling effect. Now she's her own manager and is producing her first play of modern life this season. "Vasta Herne" it's to be called.

HOLDSWORTH-MOTT WEDDINGS CELEBRATED. Marriage of Medley Holdsworth of Lynn, Mass., to Margaret Hodgson Mott of Rusiagnish Station.

The home of Mr. and Mrs. Alexander Mott, Rusiagnish Station, Sunday night, was the scene of a very pretty wedding Wednesday afternoon at 4:30 o'clock when their eldest daughter Margaret Hodgson, was united in marriage to Medley Traynor Holdsworth, a well known young business man of Lynn, Mass.

The ceremony was performed by Rev. Joseph McLeod, of Fredericton, an interesting feature being that he has interested in marriage the parents of both the bride and groom.

The bride party stood beneath an arch of maple leaves and autumn flowers, in the centre of which was entwined the Union Jack and the stars and stripes, the national colors of the engaging couple.

The bride, who is one of the country's most popular and charming young ladies, was attired in a robe of white lace over white silk, with the conventional bridal veil and orange blossoms, and carried a shower bouquet of white roses and maiden hair fern, and was attended by her sister, Miss Mable Mott, who was charmingly dressed in a princess gown of pink satin cloth with trimmings of pink satin and cream embroidery.

The bridegroom was given in marriage by her father, and the ceremony was performed in the presence of upwards of 200 invited guests.

Miss Bertha Smith, of Lincoln, rendered the wedding march from Lohengrin. The bride and groom were the recipients of many beautiful gifts of cut glass and silver, among them being a cream set of cut glass from the Sundry School of which the bride has been organist.

The groom's gift to his bride is a handsome upright piano, to the bride a gold bracelet and to the groomsmen a gold stick pin. A sumptuous wedding luncheon was served in the spacious dining room

Did Woman, Held as Slayer Run Wholesale "Baby Farm"?

Enforcement of New Inheritance Tax May Bring to State Treasury Large Share of Financier's Estate.

Toronto, Ont., Sept. 30.—What became of four babies Mrs. Maud Turner had in her home? While the police of Toronto and Niagara Falls, N. Y., are trying to solve this mystery, the woman herself sits unmoved in her cell, where she is charged with murdering a child by throwing it from a train.

Belief in the existence of an underground railroad by which babies have been disposed of has been strengthened in the eyes of the police by the arrest of Mrs. Turner.

The case of the woman has attracted widespread attention and the Toronto News in publishing details held to be fabulous has brought about an application for the commitment to jail of the Managing Editor, Mr. J. S. Willison. The case is to be heard within the week.

TO STOP USE OF ALCOHOL IN MEDICINE. W. C. T. U. Adds New Department to Work in Closing Session at Sackville--Mrs. Gray Heads Society.

Special to The Standard. Sackville, N. B., Sept. 30.—At the afternoon session of the W. C. T. U. members use their best efforts in preventing the use of alcohol and other harmful drugs as medicine.

The committee on plans of work submitted its report which was that the plan of work which had been in operation last year be retained and that the following be added:

A new department, that of medical science, be adopted or worked out in conjunction with the health and heredity department and that members use their best efforts in preventing the use of alcohol and other harmful drugs as medicine.

The morning's proceedings were conducted for the evening year. President—Mrs. Nellie M. Gray, Fairville, N. B., re-elected.

Vice-President—Mrs. Howard Sprague, Sackville, N. B. Corresponding Secretary—Miss Askett, Campbellton.

Recording Secretary—Mrs. R. U. Campbell, P. E. I. Treasurer—Mrs. McWha, St. Stephen. Y. Secretary—Mrs. Fraser, St. Stephen. Auditor—Mrs. Ross, St. Stephen.

The following were the officers, all with a devotional service led by Mrs. Gray.

Mrs. Holman resigned as superintendent of peace and arbitration. Mrs. Stevenson reported a distinct advance for juvenile work there was much animated discussion over this department.

Mrs. Myles reported for the "Y" work. The membership was 119 from six "Y" branches.

Mrs. Eagles for the flower, fruit, and delicacy work reported that very many reasonable gifts had been given to the sick and poor.

Belief in the existence of an underground railroad by which babies have been disposed of has been strengthened in the eyes of the police by the arrest of Mrs. Turner.

Marine Notes.
Briat, Marconi, Capt. McLeod, from
San Domingo, arrived at Port Eds
on Tuesday in distress.
The Furness Liner S. S. Shenan-
doah sailed from Halifax Wednesday
for London. She had 19,000 barrels
of apples for that port.
Schooner Ruth Robinson, Captain
Olsen, is in the lower harbor, at Port-
land, Me., one of the fleet of storm-
bound coasters anchored there. The
master reports nasty weather on the
way up and had his windlass broken.
Repairs will be made as quickly as
possible and it is not thought she will
be delayed more than two or three
days. The schooner is bound from
St. George, N. B., for Norwalk, Ct.,
laden with pulpwood.
A tariff war is predicted. Cana-
dians are not averse to this, but if
it comes they will not shirk from
doing their duty by their country and
adopting a policy looking toward a
conservation of their own natural re-
sources and building up their own in-
dustries. Nothing will develop the
manhood of the people of Canada and
fill them with self reliance so rapidly
as just the kind of competition that
has been adopted by the United States.
The Payne Tariff Bill.
One phase of the Payne tariff bill
in particular interests the people of
New Brunswick, and that is con-
nection with the pulp and paper in-
dustry. This provides for the free ad-
mission of pulp wood but imposes a
duty of 1/2 of a cent per pound on me-
chanical pulp and an increased rate
of duty with each successive step in
the process of manufacture.
A business man's interpretation of
the clauses relating to this subject
would lead to the conclusion that the
framers of this bill consider the ques-
tion along the following line: The
pulp and paper industries of the Uni-
ted States are of vast economical im-
portance to the entire community. In
order that they may be perpetuated it
is necessary that they should be able
to procure a sufficient supply of pulp-
wood. The supply of pulpwood in the
United States is wholly inadequate to
meet the demands and it is highly
necessary to conserve what remains.
Canada has a vast supply of pulp-
wood. Therefore by the first and last
doctrine of our great belief, "The
World for the Americans" Canada
must not manufacture her own wood
into paper, but must cut down her
trees and supply the wood to Ameri-
can mills. If you should manufacture
your wood into paper you will cut
off annually from our national payroll
about twenty-five million dollars and
the same will be transformed into the
pockets of Canadian workmen, and as
a result we will "bite off our nose to
spite our face" if it about amounts to
Canadians are waking up to the fact
that they buy annually from the Uni-
ted States about one hundred and eighty
million dollars worth of goods, and
whereas they buy from us about one-
half of that amount. It is highly in
the interests of both countries to do
business one with the other, but in a
tariff war the United States has all
to lose.
Conserving at Canada's Expense.
According to statistics the consump-
tion of pulp wood in the United States
since 1885 has increased by about
250 per cent. During those years the
cut of pulp wood in the United States
has practically stood still. As Canada
furnishes seven-tenths of all the pulp
wood imported into the United States
it can really be seen that the forest
resources of the United States are
being conserved at our expense.

PHONOGRAPHS BANNED
FROM ST. PETERSBURG
Prefect of Russian Capital Ex-
tends "Extraordinary Pro-
tection" to Sufferers of
Squeak Boxes.
St. Petersburg, Sept. 30.—Business
men, writers and students have long
been groaning under the tyranny of
phonographs, which seem to have a
remarkable attraction for the average
citizen. The Prefect of Police, who
was deluged with appeals to suppress
the torture, ultimately decided to help
the sufferers.
"Taking advantage of that form of
marital law known as "extraordinary
protection," the prefect issued an or-
der forbidding that the machines be
used except with doors and windows
closed. This, however, seems to have
stimulated the energy of the possessors
of the machines, and the metal
voices became busier than ever,
grinding night and day.
The victims have now made another
appeal, declaring that nothing short
of forcible suppression will be effec-
tive. The prefect has accordingly for-
bidden the use of phonographs in the
entire central district and other parts
of the city frequented by business
men. The relieved appellants now
declare that martial law has its ad-
vantages after all.
Funeral of Father Wood.
Montreal, Sept. 30.—The funeral of
the late Rev. Edm. J. Wood, better
known among the poor as Father
Wood, for many years rector of the
church of St. John the Evangelist,
took place yesterday and was partici-
pated in by a large number of the
Church of England clergy and laymen.
The service at the church was con-
ducted by the lord bishop of Montreal
assisted by the Rev. Canon Kittson.

THE PROVINCE
AND THE NEW
PAYNE TARIFF
Manning W. Doherty of Sussex
Discusses the Pulp Wood
Question and Its Bearing
Upon Local Trade.
WHAT THE NEW ACT
MEANS TO CANADA.
(By Manning W. Doherty.)
The people of Canada are eagerly
watching the signs which may be
taken as an indication of the probable
attitude which will be assumed by
the Canadian Federal Government to-
ward the United States in the matter
of trade regulations. The latter by
its recent tariff bill has plainly said
to the people of Canada, "you must
not show any trade favors to mem-
bers of your own family, and further
you must not attempt to build up in-
dustries calculated to manufacture your
own raw material because this would
seriously injure our already estab-
lished industries which are becoming
more and more dependent upon this
source of supply. If you dare to do
otherwise we shall strangle the in-
dustrial life of you." Will Canada
call this bluff, or shall Canadians re-
main "Hevvers of woods and drawers
of water?"
This is the great question which
is agitating the public mind and most
strategically be answered. The
answer will be given, and unless we
are very much mistaken our friends
across the border will not have to
rejoice in the lines of our answer
to grasp the significance. Self pres-
ervation is an instinct of the human
race and the sense of consequences
is usually fairly well developed in the
Anglo-Saxon. "Cold feet" is an acquir-
ed character and disappears with a
little fire.

Maritime Provinces export annually
about one million cords of wood for
which they receive in all not more
than seven dollars per cord. This wood
per cord, if manufactured into pulp
would be worth about twenty dollars,
into fibre, thirty dollars, into paper,
from forty to forty-five dollars. The
difference between seven dollars and
forty dollars represents the labor put
on each cord of our wood after it
leaves our borders, and the profit
made by manufacturing it into its
finished state.
In the year 1907, the Pulp and
Paper Mills of the State of Maine,
Massachusetts, New Hampshire, Ver-
mont and New York consumed two
million, four hundred and ninety nine
thousand, one hundred and twenty
six cords of woods, of which over
forty per cent came from Quebec and
the Maritime Provinces. Some of the
largest and most prosperous paper
mills are to be found in these states.
Vast cities and numerous towns have
sprung up around these industries.
The pay rolls are enormous.
Should Prohibit Export.
The duty of our Government is
plain. The exportation of pulp wood
from Canada should be prohibited.
In the absence of such Federal Legis-
lation the Provincial Government of
New Brunswick should so far as
possible prohibit the exportation of
pulp wood from Crown lands. Quebec
has declared in favor
of such prohibition. Ontario and New-
foundland long ago saw the wisdom
of such a policy and are now enjoy-
ing the results. Newfoundland has
one of the largest pulp and paper
works in the world and a second is
under construction. Ontario has sev-
eral large and prosperous mills.
To no Province in the Dominion is
this question of more consequence
than New Brunswick, and yet of the
last to act.

There are those in our midst who
argue that if we prohibit the exportation
of pulp wood, our wood will be
of no value and will be left to rot
where it now stands. This argument
is totally without reason and is re-
futed by experience.
A Lumbermen's Deputation.
We remember when a deputa-
tion of lumbermen from Tonawanda
and Buffalo to visit the late
President McKinley at his home in
Canton, Ohio, asking that a duty be
placed on manufactured lumber com-
ing into the country. President Mc-
Kinley, awake to the interests of his
own people, replied that he was in
favor of such a policy as would
bring up the interests of Buffalo and
Tonawanda in preference to those of
Toronto and Montreal.

At the next session of Congress a
bill was brought down placing a duty
of \$2 per thousand on lumber. It
is further provided that if Canada im-
posed an export duty the same was
to be added to the import duty. At
that time the Pine forests of Michi-
gan and Wisconsin, and the num-
erous mills along the Michigan shores
of Lake Huron were raving their
losses across from Canadian timber
limits. The American shere was dot-
ted with small villages, busy
hives of industry, and the Canadian
shore along the Georgian Bay was
one blank and wilderness.

The Hon. A. S. Hardy was then
Present of Ontario with three
crosses of Irish blood in his veins
was not the man to sit still and al-
low his Province to be dominated
in this fashion. He brought into force
a bill prohibiting the exportation of
saw logs out of Crown lands. If the
argument as stated above is sound
economics the Ontario forests would
have been left to slow decay. This
is farthest from the truth. Inside of
two years the mills and busy hives
of industry were on the Canadian
side and are there to this day.
New Brunswick's Destiny.
The experience would be repeated
if we would prohibit the exportation
of pulp wood. The ultimate destiny
of New Brunswick lies along indus-
trial lines. To raise this is to
show a lack of appreciation of our
geographical position, of our num-
erous rivers and of the fact that a con-
siderable portion of our Province is
suited only to growing timber. The
establishment of pulp and paper mills
would be a long stride forward.
Another argument which has been
given credence, but which is without
foundation in fact, is that if we pro-
hibit the exportation of pulp wood,
the Americans will not buy our pulp
and paper. As a matter of fact they
will buy our manufactured product
or do without it altogether. Nor-
way's supply of pulp wood is rapidly
decreasing.

The United States today, even with
the Canadian pulp wood which she
has been using with such a lavish
hand, cannot manufacture enough
pulp for her own consumption. In
1907 she imported 29,570 tons of
pulp. What would happen if Canada
stopped off about 25 per cent of the
total supply of raw material used by
American mills. The production of
pulp and paper in the United States
would decrease and the imports of
these would increase.
The passing of an act prohibiting
the exportation of pulp wood would
build up the pulp and paper indus-
tries of Canada and in a few years
the United States would be our best
customer.
It is to be hoped that those in au-
thority in our Federal and Local
Governments will act promptly and

SPAIN HAPPY OVER VICTORY IN MOROCCO

Rejoicing General Throughout
Kingdom at Defeat of Moors
--Energetic Diplomatic Ac-
tion Now Needed.

ALFONSO CONGRATULATES GENERAL MARINA

Madrid, Sept. 30.—The popular re-
joicing which began in the capital
last night over the victory of the
Spanish forces in Morocco, culminated
at midnight when immense crowds as-
sembled before the royal palace shout-
ing "Long live the king." Appearing
upon the balcony King Alfonso was
wildly cheered.
The Herald this morning insists
that Spain must obtain a reward for
her military sacrifices by energetic
diplomatic action. The opposition
press insinuates that the victory is
premature as the Beni-Buifur, Beni-
Said and Beni-Gaff, the fiercest moun-
tain tribes, have not yet been whip-
ped.

King Alfonso has sent a hearty mes-
sage of congratulations to Gen. Mari-
na, at the end of which he said:
"Spain is proud of having such an
army, and I, as the first Spaniard and
the first soldier in the army, share
in the general rejoicings."
Morocco, Sept. 30.—While the
population of the Mollila garrison
was still rejoicing today over the
capture of Mount Guragua, the Moor-
ish stronghold, fighting was recom-
menced on the summit of the moun-
tain. The Spanish post there was at-
tacked by the Moors, but the tribes-
men were easily repulsed. The Span-
ish loss was two wounded. Two Moors
were made prisoners. Simultaneously
Beni-Buifur tribesmen appeared in
large numbers on the neighboring
heights but disappeared again under
the rain of shells and machine gun
fire.

OUTLOOK IS DARK FOR UNEMPLOYED IN LONDON

England's Plague of Idleness
is Acute--42 Per Cent. More
Unemployed This Year Than
Last.
London, Sept. 30.—One of the most
active workers for the unemployed
at the present moment is
L. Edith How, who is organizing a
congress of unemployed to be held in
Chicago next year.
The outlook for the workless in
London during the approaching win-
ter is dark. The number of unem-
ployed registered last winter was small-
er by 42 per cent than that regis-
tered in the present week.
Every district committee is ready
with applications for work daily, with
a thousand more already on each reg-
ister than can possibly be provided
with employment.

ADDITIONAL ARRESTS TO FOLLOW IN LIBEL CASE

Dominion Coal Company Push-
ing Vigorously Prosecution
of Case--Warrants Out for
Bonneseid and Patterson.
Montreal, Sept. 30.—The Dominion
Coal Co. is pushing vigorously the
prosecution of the case of the alleged
criminal libel contained in an adver-
tisement printed in the French press
here some time ago warning workmen
to stay away from Glace Bay and
describing the conditions of work-
men there as living in "miserable fil-
thy hovels."
In addition to Dan McDougall and
Lesage, now under arrest here, war-
rants have been sworn out against
two international U. M. A. officials,
Harry Bonneseid and Peter Pat-
erson, now at the Indiana headquarters,
if they come to Canada they
will be arrested. They are charged
with having participated in sending
out objectionable advertisements.

GREAT BRITAIN HELPS THE UNITED STATES

It has been learned
that an understanding exists
between Great Britain and the Uni-
ted States regarding the outcome of
the Hankow-Szechuen loan contro-
versy, and that Great Britain's action
in preventing British banking inter-
ests from signing the agreement was
taken in the interests of American
capital. The recent American propo-
sals have not changed the position of
Great Britain, Willard Straight, the
representative here of the American
group of bankers has gone to Manchu-
ria.
not allow the Canadian people to be
further robbed of the wealth which
Divine Providence placed in their
hands.
Died of Injuries.
Woodstock, Ont., Sept. 30.—Erwell
McNeil, a young Trades Bank clerk
at Embro, who was accidentally shot
last Thursday while examining a re-
volver in his room over the bank, died
of his injuries in the hospital here
yesterday. The doctors could not lo-
cate the bullet.

THE WEATHER.

Maritime—Fresh, south westerly and westerly unsettled with occasional showers.

Toronto, Ont., Sept. 30.—Showers have occurred today from the Great Lakes to the Maritime Provinces and also very locally in Saskatchewan.

New England Forecast. Washington, D. C., Sept. 30.—Fair and cooler in south; showers in north portion Friday; Saturday, fair, moderate west winds.

Borden Club Meeting. The annual meeting of the R. L. Borden Club will be held tonight at 8 o'clock in the office of Mr. J. S. Tait, Canadian Life Building, Prince Wm. street.

Used Insulting Language. A sailor was arrested in Water street yesterday afternoon by Police-man Merrick on the charge of drunkenness and also using abusive and insulting language to Capt. Geo. Gillespie.

Dr. Murray MacLaren Home. Dr. and Mrs. Murray MacLaren returned home yesterday from Wiandipog, where Dr. MacLaren had been attending the convention of the Canadian Medical Association.

900 First Grade Scholars. The time for issuing school entrance certificates for the first grade expired yesterday and no more will be issued until next year.

Two Arrests. James Quinlan, of the West Side, was arrested on the charge of theft last night by Police-men Hughes and Lee.

For Riverview Park. Some additional expense has been incurred by the committee in charge of Riverview Park in leasing more land which would add to the attractiveness of Douglas Avenue.

Chamberlain Received \$110,000 Yesterday. Yesterday was the last day but one on which the five per cent. discount is allowed of city taxes and the chamberlain reports that \$110,000 was paid in mostly by 3 o'clock.

To Receive Biblical Instruction. Representatives from all the Protestant Churches in the city will meet this morning in the Church of England Institute Rooms, German street, at 10 o'clock for the purpose of conferring on some action whereby Biblical instruction may be added to the trainings of the public schools.

Schools Over-Crowded. Owing to the large number of pupils attending the city schools considerable changing about has been necessary in order to accommodate them.

Successful Carleton Concert. A most successful concert was given by the Carleton Male Quartette at the City Hall, Wednesday evening.

Entertained at Bridge. Mrs. Stratton and Miss Phyllis Stratton entertained at bridge last evening. Prizes were won by Mrs. H. C. Schofield, Miss Barnaby, Mr. Walter Emerson and Mr. Alex. Fowler.

PERSONAL. Mr. Medley T. Holdsworth, an aide, who was married at Russell station, on Tuesday, arrived in the city yesterday en route to Lynn, Mass.

W. J. Wilson, of the geological survey, who has been spending some time in the vicinity of Chipman, arrived in the city last evening.

Mr. Dillon Wallace, he noted author and explorer, passed through the city yesterday on his way to meet Mr. Mahoney and Mr. C. McCormick at Sydney, Mr. Wallace represents a number of New York newspapers.

ENVELOPE HELD BROWN PAPER, MAN AND MONEY MISSING

John McClafferty, Employed With F. E. Williams, Departed For Boston With \$75—Clever Trick Secured It.

When the cash envelope presented by John McClafferty, an employe of F. E. Williams Co., Ltd., was opened by the cashier last Monday morning, she was much surprised to find only brown paper instead of the proceeds of the sales made by McClafferty on the previous Saturday.

The wagon was well stocked on Saturday morning and at 6 o'clock in the evening McClafferty turned in an envelope as usual and it was supposed the proceeds from the day's sales were enclosed. He received his pay and has not been seen at the office since.

Aboard the Boston Boat. The matter was at once reported to Mr. Williams and after making some inquiries he learned that McClafferty was on board the Boston boat before it started and it is supposed he had made his way to the land of the free.

McClafferty is about 25 years of age and unmarried. He made his home in St. John at the Touraine House, King street.

VISITING CANADA TO FIND OPENINGS FOR BRITISH CAPITAL

C. Keith Morris Here After Trip Through West—Will Confer With Premier Hazen Today.

Engaged in the important work of investigating openings for British capital in Canada, Mr. C. Keith Morris, of London, England, arrived in the city last evening and is registered at the Royal. Mr. Morris has been sent to Canada by the Canadian Gazette, and on his return will write a series of articles for the guidance of English capitalists who desire to invest their money in Canadian ventures.

Asked if there was any part of Canada which appealed to him particularly, Mr. Morris said that the East and West both had good points. He would recommend the East for manufacturing, on account of the plentiful supply of water power and the absence of the labor friction there was in the West.

MARATHONS GAVE WORCESTER TEAM DINNER AT WHITE'S

Enjoyable Time Spent By Rivals Last Evening—Speeches By Prominent Citizens—The Championship Trophy.

The banquet tendered by the Marathons to the Worcester Club team which was held in White's restaurant last evening, was a very enjoyable affair. A start was made at 8 o'clock and after the tempting repast had been disposed of the party enjoyed themselves for the rest of the evening with songs and speeches.

All the members of the Marathons team were present together with the Worcester Club, and a number of invited guests. Among the latter were His Honor Judge Ritchie, Mr. E. Mahoney and Mr. C. McCormick of St. Peter's, and Alderman McGoldrick, who represented the city council.

COMMISSIONERS SEE SHINGLES MADE AND UNDERSTAND NOW

Enjoyed Trip Round Harbor Yesterday And Inspected Mills—Much Pleased With Results Of Visit.

At the meeting of the West India Commission Wednesday afternoon it happened that shingles were mentioned by one of the gentlemen giving evidence.

Lord Balfour, of Bureleigh, stared blankly at the speaker for a moment then ejaculated: "Eh! what's that, please?" The nature of shingles was explained to the English members of the commission, and Sir John Dickson Poynder understood well enough to define shingles as "wooden tiles."

On their return, the visitors took dinner at the Union Club, and later left on the late train for Halifax. Before leaving Lord Balfour expressed himself as much pleased with the result of the visit of the commission to St. John, and much impressed with the possibilities of the harbor, as he viewed them from the deck of Mr. Thorne's yacht.

SUCCESSFUL DOG SHOW BROUGHT TO CLOSE LAST NIGHT

Parade Of Prize Dogs Attracted Much Attention—Special Prizes Awarded—Several Winners Changed Hands.

Last evening saw the close of the successful bench show conducted in Queen's park by the N. B. Kennel Club. The attendance was professional men like. But, it is only one of some 15 different shapes.

The special prizes for the best decorated stall, a set of brass candlesticks, donated by Mr. J. V. McLellan, was won by Mr. James McGouey. The decorations of this stall were arranged in excellent taste by Mrs. W. H. Cornall.

Best novice dog—H. J. Sheehan, 1st (Collie); J. K. McDonald, 2nd (English Setter). Prize, silver cup, donated by the president LeB. Wilson.

Mr. A. O. Skinner, read a letter from Mr. R. D. Isaacs, who donated the cup for the City Championship, in which he stated that he regretted being unable to be present at the banquet, but wished to congratulate the Marathons on the splendid work they had done, and wished them the best of luck.

St. John Business College. The evening class, beginning this evening, affords just the opportunity needed by those engaged during the daytime for qualifying themselves for promotion or change of employment.

Many women refrain from free participation in outdoor enjoyment because of threatened injury to the sensitive complexions; but by applying CUT-LAVE before exposure, and a thorough cleansing, with a second application on returning indoors, the most delicate skin will be kept free from soreness and in excellent condition.
