

CANADA FOR THE CANADIANS

MR. BORDEN ADDRESSES HIS OWN CONSTITUENCY

5,000 Persons Crowd Halifax Arena Last Evening.

U. S. Can Produce Food for Five Times Present Population -- Canada Cannot Even Supply Local Market -- Pact is Height of Absurdity.

Special to The Standard. Halifax, Sept. 12.—R. L. Borden reached Halifax this afternoon from Cape Breton and appeared on a platform tonight in this city, addressing a splendid audience at the Arena numbering about 5,000 persons.

Memorable Ovation. When they entered the hall the audience rose and gave them a memorable ovation, the cheering and applause continuing for several minutes.

Should Beware of Trusts. The height of absurdity was reached, he said, when we were told that this treaty would give to the farmer higher prices for his products while the consumer would be able to purchase them at lower figures than at present.

Insidious Conspiracy. There had been suddenly sprung up on this country a most insidious conspiracy.

No Reason for Hypocrisy. CHICAGO DEMOCRAT. "We see no reason for the hypocrisy and dissimulation which form the keynote of the expressed opinions of many of our newspapers on the Reciprocity issue.

UNDIGNIFIED OUTBURST OF SIR WILFRID

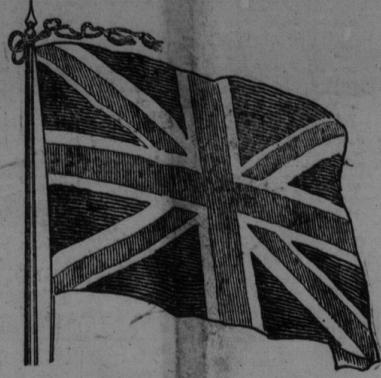

Becomes Somewhat Excited at Prospect of Defeat—Liberal Candidates Working Hard to Avoid Sure Fate.

Special to The Standard. Beauce Junction, Que., Sept. 12.—Sir Wilfrid Laurier reached here this afternoon in the course of his final tour of French Canada. The fierce manner in which the campaign is being carried on in this province may be judged from the undignified outburst to which the premier gave vent in the course of his speech.

Americans Feared Canada. Change had come since then, Sir Wilfrid challenged any Liberal to name one Liberal-Conservative who, since Imperial preference had been advocated, had expressed himself in favor of reciprocity.

Continued on page 2.

The Voice of the Empire

"From East to West the tested chain holds fast, The well-forged links ring true!"

In the midst of the Reciprocity campaign the people of Canada have almost forgotten the Imperial significance of the question and the influence the result of the election will have on the other Dominions of the Over Seas Empire of Great Britain.

The conflict that is now being waged in this country has a deeper significance to the self-governing colonies of the Empire than any question that has come up for consideration for many years.

Ever since Imperial Conferences have been held the main object has been to weld more firmly together the Colonies with the Mother Land and with each other. Free Trade within the Empire was the ultimate goal.

For Canada to adopt a policy of Reciprocal trade with the United States would be a serious blow to the hopes and aspirations of the other self-governing Colonies.

The following cablegrams from every section of the British Empire show that the keenest interest is being displayed all over Imperial Britain in the Canadian elections.

Everywhere the same opinion is expressed that should the people of Canada vote in favor of the present Reciprocity pact trust upon them by Sir Wilfrid Laurier, without their mandate and without their authority, a serious blow would be aimed at Imperial unity.

Read what these leading journals in every part of the Empire have to say on the question:

Montreal, September 12th, 1911.—The following cablegrams from the chief papers of the British Colonies were published in the Montreal Star tonight:

SOUTH AFRICA. Pretoria, Transvaal—Reciprocity between Canada and the United States means the disintegration of the British Empire, the Americanization of Canada and death to all hopes of a pan-British Zollverein.

INDIA. Calcutta, India—We trust that Canada will maintain her fiscal autonomy and strive for Imperial not American Reciprocity.

NEW ZEALAND. Auckland, New Zealand—This Dominion is watching with keen interest the fiscal struggle in Canada, the result of which will have far reaching effects.

AUSTRALIA. Hobart, Tasmania—We wish every success to those fighting in defence of Canada's fiscal autonomy.

Sydney, New South Wales—We sympathize with the principle of fiscal autonomy for the Dominions in so far as it is consistent with Imperial interests.

Brisbane, Queensland—Queensland cheers the patriots who are fighting to strengthen the bonds of Empire against the initiators of a policy of disintegration with whom the passing of Canada is a mere business proposition.

TORRENT OF LAVA POURING FROM ETNA

Special to The Standard. Catania, Sicily, Sept. 12.—The crest of Mount Etna now presents a terrifying spectacle. Heavy smoke lies over it with frequent brilliant flashes and the bombardment which is continuous along a line nearly two miles in extent, is like the firing of heavy artillery.

The Montreal Star well says that once Ontario comes to believe that Reciprocity jeopardizes British Connection it will be all off with Reciprocity.

ENTHUSIASTIC MEETING

Special to The Standard. St. Brail, Sept. 12.—A large and enthusiastic meeting of the Liberal-Conservatives of the Parish of St. Leonard was held Saturday evening.

SIR THOMAS SHAUGHNESSY

"Reciprocity? I don't like the idea of it well enough to talk of it at all. If I had anything to say about it, it would not be favorable."

CHEERING NEWS FROM CAMPBELLTON

Special to The Standard. Campbellton, N. B., Sept. 12.—A large and enthusiastic meeting was held here this evening in the interests of W. S. Montgomery.

WELL KNOWN FARMER DEAD

Special to The Standard. Moncton, Sept. 12.—Albert J. Stoeves a prosperous farmer living in Coverdale, Albert county, just across the river from Moncton, died suddenly about 2 o'clock this afternoon.

MR. PUGSLEY'S RECORD SEVERELY CRITICISED

MORE FLIGHTS OF PUGSLEY'S IMAGINATION

Glowing Scenes of Future Improvements Described at Fredericton—Rev. J. J. McCaskill did not Make a Hit.

Special to The Standard. Fredericton, Sept. 12.—Hon. William Pugsley was one of the speakers at a meeting at the opera house tonight held by the Liberals. Two bands escorted him to the opera house and along Queen street and a fair crowd gathered to hear the music, but not a single cheer was given for the minister of public works or the Liberal candidate, Dr. Atherton, who was with him in the barouche.

Mr. Pugsley's record, showing how he had exercised his abilities on behalf of the corporations and franchise grabbers, but had persistently refused to interest himself in the passage of legislation in the interests of the toiling masses.

Why Reciprocity? "Turning to the reciprocity question, he said it was well to consider who was demanding reciprocity, and the reasons they put forward for the proposed change of the present policy, which has worked so satisfactorily."

Will You Vote for Annexation?

CINCINNATI ENQUIRER. "The political campaign in Canada is at last in full action, and, as was evident from the first the principal argument against Reciprocity used by its opponents is that it is the first step towards the annexation of Canada by the United States.

His Lack of Interest in Working Classes Dealt With.

H. A. Powell, Dr. Daniel and Other Speakers Delivered Stirring Addresses, in King's Hall, Last Evening -- Friend of Franchise Grabbers Exposed.

Stirring addresses were delivered by Mr. Powell, Dr. Daniel, W. Frank Hatheway and L. P. D. Tilley at a meeting held in King's Hall, St. James street last evening.

Mr. Pugsley's record, showing how he had exercised his abilities on behalf of the corporations and franchise grabbers, but had persistently refused to interest himself in the passage of legislation in the interests of the toiling masses.

Why Reciprocity? "Turning to the reciprocity question, he said it was well to consider who was demanding reciprocity, and the reasons they put forward for the proposed change of the present policy, which has worked so satisfactorily."

Will You Vote for Annexation?

CINCINNATI ENQUIRER. "The political campaign in Canada is at last in full action, and, as was evident from the first the principal argument against Reciprocity used by its opponents is that it is the first step towards the annexation of Canada by the United States.

SAINT JOHN, WEDNESDAY MORNING, SEPT. 13, 1911.

THE PLIGHT OF THE LIBERALS.

The Liberals of St. John are whistling very loudly these days to keep their courage up. Mark this from the Times news columns last evening: "Bottom falling out of Tory campaign in City and County." That is the heading and this is what appears under it: "The Liberals are generally talked around town, and all indications support the view that the Conservative campaign in the City and County has worked itself out. The Liberals on the other hand are gaining ground rapidly, and every day from now till polling will add to the strength of the Liberal candidates and large additions to the number who will vote for Pugsley and Lowell and Reciprocity."

This statement is absolutely untrue. Instead of losing ground, the Conservatives are making converts daily from the Liberal camp. There is not a Liberal in the City and County of St. John who does not realize that the introduction of Reciprocity into the campaign in this constituency is a political blunder. They not only realize it, but they say so openly and with conviction. Reciprocity has made many former staunch Liberals indifferent as to the success of the candidates of that party in both constituencies. The policy has gained the Liberal party no friends, while scores have openly repudiated it and will vote the Conservative ticket on election day.

It was the hope of the Liberals that many Conservatives would turn from their party allegiance to support Mr. Pugsley. Reciprocity has prevented anything of this kind happening. It has consolidated the Conservative party as no other issue could have done. It has brought the free born citizens of St. John face to face with an issue from which they have no desire to turn. They love their country and are not to be led away from their loyalty to its institutions by the plausible talk of a man who was the author of a policy which Sir John A. Macdonald described in 1891 as "Vehement Treason." They realize that the Laurier of 1911 holds the same views that he did twenty years ago and is as determined today as he was then to bring about continental free trade which would destroy every industry in Canada. Sir Wilfrid Laurier can no more change his political views on this question than a leopard can change his spots. He has said so himself, and what better authority can there be than his own statement?

He has gone further, and has proved in a dozen different ways that he does not desire closer relations with Great Britain than at present exist. It was only when he realized that he must either send a battalion to South Africa, when the Motherland was engaged in a serious conflict with the Boers, or retire from the office he held at Ottawa, that the Canadian contingent was mobilized and sent across the seas. His naval policy of optional neutrality is a disgrace to Canada and his present effort to hand over the control of the trade of this country to Washington is only one more episode in a career which has always been unfavorable to Imperial unity.

When in opposition he traded on the prejudices of his compatriots in Quebec accepting as a bribe the dictatorship of Honor Mercier and benefited politically at the agitation of that dangerous freetrader. Laurier grows at Bourassa today because his former ally and friend has aroused an agitation against him in his native province. For fifteen years Laurier's political and only political stock in trade has been a solid Quebec. His great object has been to hold his support in that province and he has never been very particular as to the methods he employed to retain political control there. Bourassa's threatening Laurier's exarship in Quebec is his chief offence. The election of Sir John A. Macdonald distinctly opposed to the policy of Sir Wilfrid Laurier on Reciprocity. They know that it will injure them commercially and that it is but the entering wedge of a policy, the logical result of which is not only commercial, but political union. The present deal was not sought by Canada, but emanated from the United States. Sir Wilfrid Laurier and his government were entrapped into making the bargain by President Taft who, when he submitted the question to Congress, had the assurance that "Canada was at the parting of the ways," meaning thereby that Canada was tired of British Connection, and was looking towards Washington for the fulfilment of her destiny.

From the breaking out of the American Revolution in 1776, there has always been a strong party in the United States which has bent every effort to bring under the control of the Government at Washington the whole North American Continent. In their efforts to secure the fulfilment of their dream, Canada has been twice invaded by the armed forces of the United States. Louisiana was purchased from the French, Texas was forced into line by a superior power, California was taken from Mexico by force, Alaska was purchased from Russia, and an attempt was made to starve Canada into submission by an adverse tariff. The policy of the expansion party wrought about a treaty with the Hawaiian Islands, which were duly gobbled up after a few years.

Canada would be more respectfully treated than the Hawaiians were, but all the same a vigorous effort would be made to carry out the dream of an American Republic extending from the North Pole to the Gulf of Mexico.

There is no need of a Reciprocity Agreement between this country and the United States. All that our Yankee friends have to do is to lower their own tariff to secure all the advantages they claim would follow the present pact. Canadians want nothing to do with the making or unmaking of the tariffs of the United States and they are not disposed to permit the people of a foreign and unfriendly country to interfere with the making or unmaking of tariffs in this country. The Canadian people need no assistance in the management of their affairs, either from the United States or any other nation. This is the position that any free and intelligent people would take, and this is exactly what Sir Wilfrid Laurier would deny to them. There is no desire here for a closer alliance with the United States than now exists. This is the sentiment that will elect the Conservative candidates on September 21st.

The bottom is not falling out of the Conservative campaign in this or any other constituency in the

Province of New Brunswick. The party is more united and stronger than it was in 1891 when it carried thirteen out of the sixteen seats by which it was then represented in the House of Commons.

There never was a time in the history of this Province, when British prestige on this continent was threatened, that the loyal men of New Brunswick refused to defend their national honor either with their lives or their votes. The sons of the men of yesterday's conflicts hold the views of their fathers and will not permit any sacrifice of Canadian interests for the benefit of a foreign power. They will not sell their glorious heritage of British freedom for a mess of pottage. They will rally round the men who stand by the flag and relegate to oblivion forever those who would sell their country.

When Mr. Pugsley hoists the pennant of harbor improvements to cover his multitudinous sins of omission and commission, he should remember the fate that befell his party in 1890 when he failed to capture the constituency through the medium of the Leary improvements on the West Side. The people refused to accept his promises then and their faith in his promises today, backed by the unfulfilled promises of 1908, is no greater than it was in 1890. Mr. Pugsley has had his chance and has failed to make good.

SIR WILFRID'S AMERICAN ALLY.

The large attendance at the mass meeting held in Montreal on Saturday night to denounce Sir Wilfrid Laurier's American ally, William Randolph Hearst, the American "Yellow Journalist," who has injected himself into this campaign, was a unique spectacle in Canadian politics. Hearst is one of the men who hold to the view that the power of the press is unlimited. So it is when honestly administered, but in the hands of an unscrupulous demagogue, and degenerate, the power for evil alone remains. Such papers as Hearst publishes in the United States are a menace to everything that is decent and respectable in the country. They are the worst examples of "yellow journalism" in the world, and that is saying a good deal.

So long as Hearst kept his views and his newspapers on the other side of the line, Canadians had little fault to find with him, but when he crosses the border and circulates his objectionable views and newspapers free in this country, there is every reason that Canadian resentment should be aroused and that Hearst should be shown that the people of Canada want no foreign interference and will have none in their elections.

The impudence of the attempt of Mr. Hearst to help his friend Laurier by a free distribution of papers published in Boston and New York was resented at the Montreal meeting in a manner which will give Mr. Hearst and those who obey his commands a different idea from that which they hold of the electors of American cities.

Canadian people neither want Mr. Hearst, his newspapers, nor his political methods in this or any other purely Canadian contest, and the people of Montreal have not been particularly magnanimous towards Hearst in the manner in which they said "hands off" to him.

THE TIMES AND MR. FLEMING.

Mr. Fleming in his speech at the Queen's rink Monday night, handled the Times rather roughly. Last night the Times insinuated that Mr. Fleming "is likely soon to make his own last political appearance." Just what the Times means by this assertion is difficult to understand, but if it is intended to insinuate that Mr. Fleming is likely to be defeated when he next appears before the electorate, the Canterbury street hireling of the dredgers is not well posted on the sentiments of the people in this Province.

Mr. Fleming made one of the best speeches heard in St. John since the campaign opened and the attention which he received and the applause which followed his remarks, were quite as enthusiastic as when he pounded the political life out of Provincial Premier Robinson at the Opera House a few years ago, a performance which so delighted the Telegraph and Times that they editorially endorsed every utterance made by Mr. Fleming, and rated him as one of the ablest of New Brunswick's public men.

The men in editorial control of both papers are the same now as when Mr. Fleming so delighted them, but the Telegraph was not then in receipt of a weekly income from the dredgers. The men who write for the Telegraph and Times do so because they are paid for it. They are the mere hirelings of a desperate crew of public plunderers.

Sir Wilfrid Laurier is quoted by the Times: "If Ontario gives us no more seats than in 1908; 'If' Quebec gives us much. 'If' the Maritime Provinces do so, well, and the West, then within five weeks from September 21st Parliament will be called together and within three months Reciprocity will be in operation. This would be all right even from Sir Wilfrid's standpoint were it not for the 'ifs.' No one realizes more fully than Sir Wilfrid himself that the reign of Laurierism in Canada will end on election day. For a second time Sir Wilfrid has thrust his policy of Continental Free Trade upon the people of Canada—for Continental Free Trade is the true meaning of the Taft-Fleming compact. On the first occasion the people of Canada turned down the disloyal proposition of Sir Wilfrid Laurier. They will do so again.

In a campaign advertisement in the Times last night it is asserted that St. John is not the only city where prominent Conservatives are supporting Reciprocity. The "prominent Conservatives" are not named, and the public are naturally curious as to who these "prominent" ones are. Is our good-natured friend, Dr. Silas, referred to? Or is it Mr. Pugsley? Both of these gentlemen were vigorously opposed to the Unrestricted Reciprocity campaign of Sir Wilfrid Laurier in 1891. They are about the only "Conservatives" who have so far expressed opinions in favor of Reciprocity in St. John in 1911.

Sir William Van Horne, in his address on Monday night, asked the pertinent question: "Shall we play go along to the American fad?" This query on the part of Sir William has aroused the ire of some local politicians. In their negotiations with the American Commissioners, Messrs. Fielding and Paterson got very much the worst of it when framing the Reciprocity Pact which benefits the United States, and is disastrous to every Canadian interest. Sir William's query was well timed.

"Reciprocity means untaxed food," says the Times, and adds, "let the working men remember that untaxed food is always cheaper for them." It is only a few days ago that the Times was shouting "let the farmers and fishermen have their turn." If food is to be cheaper, how is the farmer to benefit by Reciprocity?

Current Comment

(London Free Press.)

To vote dead men is not a new practice in politics, but it has remained for the Toronto Star to give the names of men who are dead who will vote against their party at an election yet to be held.

(St. Thomas Times.)

This Reciprocity Agreement with its favored nations clause, would put Canada in the position of a man who discovers he has married all his wife's relations.

REMINISCENCES FROM THE TELEGRAPH AND HOW TRUE TODAY!

Concerning "Political Capital."

Daily Telegraph, Friday, January 3rd, 1908.—Of course attempts are now being made and will be repeated to make political capital out of the Dominion government's decision to recognize, in a measure at least, the national value of the port of St. John, and to begin to carry on here with public funds the work begun and maintained at great expense by the people of this city. Citizens are glad to learn that the government will complete the new wharf to the harbor line. The work is important and there is no desire here to minimize it. Yet it must not be regarded as a gift from a benevolent government, disposed to give St. John special treatment, nor should its importance be magnified for partisan purposes. The people of St. John have spent more than a million of their own money to give the country a winter port fitted to handle the traffic, and somewhat to the government takes a step which indicates a belated recognition of the national character of the enterprise.

St. John is not receiving special consideration in this matter. What the government now authorizes the department of public works to do here has already been done by that department in other places, and in none of these was the expenditure so clear as a national matter as it is here. The government will have to do much more than it has just promised to do on the West Side before we can receive justice at its hands, and it will do no more here in the constituency of the minister of public works than it will do in other constituencies whose claims to its consideration are sound. At the very beginning of the movement to have the government complete the work now under discussion, it was pointed out that it had built wharves in other places upon terms just as favorable as those which are now being agreed upon with respect to St. John.

It is somewhat foolish, considering all the circumstances, for government newspapers to strive to give the people the impression that the additional West End berths should make votes for the Laurier and the Robinson governments. St. John is a matter of fact, is bound to receive much more federal assistance than has yet been promised it. The expenditure is made in the recognized winter port of the country, and it is imperatively demanded by transportation necessities. A single step toward plain justice should constitute no particular partisan advantage. Nor will it.

The Central Railway. Daily Telegraph, Monday, January 6, 1908.—F. B. Carvell, who not long ago regarded himself as available cabinet timber, and who was amazed by the selection of Hon. Mr. Pugsley to succeed Mr. Emmerson, now appears to share Hon. Mr. Pugsley's announcement that the Central railway is to be sold in a few days on terms satisfactory to the province. No doubt he has Dr. Pugsley's speech in mind, in which he is similar to many Dr. Pugsley himself has made. The provincial legislature, however, must decide whether or not the price offered for the Central is satisfactory. If an actual offer is forthcoming, incidental to the selling for proper explanation of the financial history of the Central. There are circumstances in connection with that enterprise which not even a price should be permitted to bury unexplained.

Concerning Dredging. Daily Telegraph, January 7, 1908.—The government is now assisting in equipping the port for a traffic which is of Canadian rather than mere local importance. The decision is welcome. It is a step in the right direction, which has been rendered in other places. St. John is not first to receive recognition, federal or provincial, in this special consideration. The Minister of Public Works and the Journals supporting him pointed out some time ago that the government was building wharves elsewhere on the terms now accepted here. That, together with our position as the recognized winter port of the country, necessary to the success of national transportation, should dispose of the assertion that the government is giving us special consideration. Presently, no doubt, there will be inquiry in parliament as to the cost of dredging here as compared with that elsewhere. It may be necessary to compare the amount of actual work done here by the dredges with the amount of money spent in this branch of the work. The inquiry, if thorough, might develop much of interest to the whole country.

Concerning "Government Journals." Daily Telegraph, January 8th, 1908: It should not need the shadow of an objection, federal or provincial, to stimulate the government's interest in the winter port of the country after its citizens have spent more than a million of their own money in their city and harbor. This question should not be made one of partisan politics. The port, if it is to have its due, must be adequately prepared for the traffic of the future. If freight in great volume is to come past Quebec and is not to be carried to Halifax in defiance of the laws of transportation, the recommendations of the Transportation Commission must be carried out; and unless a beginning is made at once St. John will be unprepared for the business which the government assumes to wish to come there upon the completion of the new railways to the west. If, now, the government journals would consider the work done at public expense within the last few years, say at Fort William, they would not even profess the opinion that St. John is receiving special favor. Indeed, they do not know Dr. Pugsley if they believe he has unrolled the half of his program of promises. We look for a dazzling bill of fare as the elections approach, but it will scarcely close the eyes of the citizens to the long list of things left undone. The people will not be blinded by a sudden profession of benevolence.

RECIPROCITY IS THE NOOSE WITH WHICH UNCLE SAM PROPOSES TO STRANGLE CANADIANISM.

POTATO KING AN ENEMY OF THE FARMER

F. de F. Clements Poses as Their Best Friend But Has Private Motives to Keep Prices Low.

Frank de F. Clements, who has been given the somewhat exaggerated title of "the potato king of New Brunswick" by Liberal organs, was one of the speakers on Saturday evening at a meeting held in the Liberal interests at Stanley, and he did not meet with much success in his first attempt as a public speaker.

Mr. Clements is MASQUERADING AS THE FRIEND OF THE FARMER IN COMING OUT IN FAVOR OF RECIPROCITY, a measure which would kill the opportunities of the Canadian farmer more effectually than anything else ever proposed. But Mr. CLEMENTS' TRUE POSITION AND HIS TRUE AIM IS NOT TO BE THE FRIEND OF THE FARMER, but on the other hand his one ambition is and has been since he became a producer to keep down the prices of FARM PRODUCE AS LOW AS POSSIBLE, and when he goes before the farmers of this country through the policy of protection, Mr. Clements' proposition to the other buyers was that they should not pay more than a certain price, say \$1.25 per bushel for potatoes. That is, IF POTATOES WERE WORTH \$1.50 OR \$1.80 THE FARMERS WERE TO RECEIVE ONLY \$1.25 UNDER MR. CLEMENTS' PROPOSITION. So that he could partake of the profits he was arranging to secure for himself and his associates. THE RESULT WAS ENDEAVORING TO ACCOMPLISH WAS "THE FARMERS WILL INJURE THE RESULT IS TRUE, but then all trusts have had unpretentious beginnings.

Mr. Clements therefore is merely masquerading when he appears on the public platform and throughout the country as a friend of the farmer.

Hon. J. K. Fleming Denies Statements. But Mr. Clements not only placed himself in a false position, he also endeavored to stir up a party in a position. For instance, he is reported in the St. John Telegraph in a despatch today as follows:

Interview in the Victoria Hotel, St. John, Mr. Fleming had unhesitatingly stated that the measure would mean new life to the province, and that it would be suicide to oppose it.

Hon. J. K. Fleming in St. John has reported statements, and here is the absolute denial he promptly wired:

"NOT ONE WORD OF TRUTH IN CLEMENTS' STATEMENT AS REPORTED IN TELEGRAPH. I AM OPPOSED TO RECIPROCITY, AS I BELIEVE IT WILL INJURE THE FARMER AS WELL AS THE MANUFACTURING AND TRANSPORTATION INTERESTS OF OUR COUNTRY."

There was a small audience present at the meeting for a place like Stanley where political meetings which the people are in sympathy with are largely attended, and Mr. Clements' position was such an unwelcome one that he stammered and stuttered throughout his speech, and broke down completely, making a sorry exhibition.

Funerals. No More For Bryan. William Jennings Bryan who has twice been the Democratic candidate for president of the United States, said definitely and unequivocally yesterday morning that he would not again be a candidate.

Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of the hard wheat used, but also the superior milling facilities, that places "PURITY" flour so far above all others.

ST. STEPHEN DEFEATED BY SMALL MARGIN

Special to The Standard. St. Stephen, Sept. 12.—Rain was responsible for the postponement of the game of ball between the Lowell champions and Manager Cronin's fast St. Stephen nine, but the sun came out about four o'clock, hurried preparations were made for a five inning game and despite the lateness of the hour there was a good sized crowd on hand when the game started at five o'clock. The contest developed into the clearest game of baseball ever played on the local diamond and the spectators were immensely pleased.

Manager Gray sent Duffy, the star southpaw to the mound to twirl the champs to victory and he was touched up by the very first inning by Winchester, who doubled to right. McGovern sacrificed him to second and he scored on Levine's bad throw to Moulton.

Neither side scored until the third when Winchester singled to centre and gained second on an error. Hurley singled out, McGovern sacrificed Winchester to third and Callahan singled to left driving in the score. Callahan out stealing second retired the side. The champions score column was filled with another cipher in the fourth and St. Stephen tallied one more in their session of the fourth. Finamore singled to left, Dee sacrificed him to second, Farrell singled to centre scoring Finamore, while Farrell went out going to second. Weesenger singled to left and went out stealing second.

Until the fifth the champions didn't get a look in but their horse shoe came back and this is the way they won out in the eleventh hour. Fluharty doubled to right, Wright singled to left advancing Fluharty to third, Bonites grounded to Callahan who had a great chance for a double play but for some unaccountable reason he held the ball in hesitation and Fluharty scored. While second and first were filled Levine grounded out and Wright went to third, Boutles to second. Wolfong went to bat for Duffy but fanned, Moulton walked, filling the bases, Duggan doubled to deep right scoring Fluharty and Boutles, tying up the game. Moulton advanced to third, McGovern had a passed ball and Moulton pranced across the plate scoring the winning run. Conroy struck out retiring the side.

St. Stephen failed to tally in the last inning. The St. Stephen team played better ball but lost on errors. Cram who was on the mound for the locals had the champions all guessing and held them down to three hits, his team making given him superb support until the fifth. Some exceptionally pretty pick ups were made by Weesenger and Dee and Callahan and Spectacular fly catches by Winchester, Hurley, Farrell, Dee, Weesenger.

Table with columns AB R BH PO A E for Lowell and St. Stephen players.

SERIES WITH LOWELL TEAM STARTS TODAY

One of the greatest attractions in the baseball line seen here in years, will take place today at 3 p. m. and continue for the following three days. The Lowell team, champions of the New England league and one of the strongest baseball aggregations that has represented that league for some years will be the attraction against what is considered the fastest team that has represented St. John in years, the champion Marathons.

The Lowell team come here with practically their full lineup of players, the great majority of whom when they finish their present trip through New Brunswick, will report directly to the big league clubs as such as the St. Louis Browns, Chicago Americans, Boston and New York Giants. The players who join these teams are Magee, Moulton, Barrows, Bonites and others have been sold to these major league clubs at money running into the thousands of dollars.

Notwithstanding the fact that they come here with a reputation for excellence, there are many of the local followers of the game who are of the firm opinion that the Marathon club under the captaincy of George Winters, will more than be able to make them play to the utmost limit in order to break even.

There is no doubt that the public will have a baseball treat that will, before the series close be more than satisfying to the followers of the game in this city.

Jack Stafford, famous as an American League umpire, and who will officiate with Umpires Evans and Connelly. This in itself will insure fast and satisfactory ball, both to the teams participating and the public in general.

The games will be called sharp at 3 p. m. and the flag at Market Square will be flown each day if the weather is at all favorable. The local management have made every arrangement to handle the large crowds expected. Ladies in particular will be taken care of as special sections of stands will be allotted to both themselves and escort. Special police protection will be on hand to see that these conditions are fully carried out.

Following is the batting order of the Marathons for today's game, also the Lowell lineup:

Table comparing Lowell and Marathons lineups.

TAFT HAS SET A TRAP AND LAURIER WOULD ENTICE THE BEAVER INTO IT.

MANY ENTRIES COMING IN FOR THE DOG SHOW

During the past two or three days a large number of entries have been received for the coming dog show, and many inquiries are being received. Many, however, are holding off until the last minute. The show should bear in mind that as all entries must be in on or before the 10th instant, the time is growing short and delays are dangerous.

Should there be any who do not know the method of filling out an entry blank, they can obtain the information from the superintendent, F. McCullough, 82 Britain street, any evening, or through the day from the secretary, J. V. McEwan, at the Registry Office. No pedigrees are required, and no one is barred. Persons requiring entry blanks, etc., should apply for same at once.

ARE YOUR CHILDREN "CROUPLY" This trouble is deadly—must be stopped quickly, nothing is so sure as the Nerviline Treatment. Give it internally, rub it on the throat and chest, and then put on a Nerviline Porous Plaster. The marvelous power of Nerviline, both as a liniment and in Plaster form, will surprise you. For sore throat, croup, whooping and pleurisy alone, it is used by thousands every day. Invaluable in the home, especially for treating the minor ills that children are bound to catch. Large bottles 25 cts. each. Nerviline Plasters same price, at dealers, or N. C. Folsom and Co., Kingston, Ont.

How many times have you had the old, old tale told you in regard to investments, "Yes sir, you are bound to make money," or "These lots will rise rapidly in value," or again "It's absolutely impossible for you to lose."

Now you know very well that a good salesman can always sell even a poor proposition. He is usually a highly paid man, and a man who excels in his line; he has taking ways, great personal magnetism, is a fluent and convincing talker, and, though you may not know it, has answers prepared beforehand for every objection you may make, and consequently very often is able to sell to a person against their better judgment. He tells you all the things I have stated above but does he ever say to you—

OUR COMPANY WILL REFUND YOU YOUR MONEY ON DEMAND, PLUS 6 PER CENT. IF YOU ARE DISSATISFIED

In other words, does his Company ever give you an Agreement in black and white backing up his statements when he promises you that you will make money. Have you ever in all your experience known of a company who absolutely guaranteed you against any loss, who have offered when they were selling you property to give you an agreement to refund your money on demand plus 6 per cent. interest. The proposition I am now putting before the public is THE TALK OF THE TOWN.

In the first place I am offering the most stupendous bargain to the public that has been put on the market. It is something brand new in the shape of a proposition, not only brand new in this Province, but brand new in the history of real estate, and I do not intend to be backward in letting the public know about it through the medium of the press; because the terms on which I am selling these lots are the most remarkable, unheard-of, safest, fairest, best and most generous, that have ever been put before the investing public.

Situation of Richmond Park, Moose Jaw

Richmond Park, Moose Jaw, fronts on Main street, which is to Moose Jaw what Portage avenue is to Winnipeg, and lies in the direct line of growth; and property on this street will increase in value to the same extent in proportion as the property has that borders on Portage avenue. The property is 2 1/2 miles from the C. P. R. depot, 2 1/4 miles from the centre of the city, 2 miles from the site of the C. N. R. depot, and a mile and a half from the site of the G. T. P. depot. Every street is graded and sidewalks are to be laid down at once. Richmond Park is on a hill overlooking all the city and will be the finest residential district in Moose Jaw.

What is Happening in Moose Jaw

Six new railroads are coming into Moose Jaw, two of them will be in within the next thirty days. The population has been increasing at the rate of 42 per cent. per year; the census for 1906 showed a population of only 6,000. The estimated population for 1911 is over 20,000. The new Post Office being built by the Dominion government is the largest in the West outside of Winnipeg, costing \$300,000. The building permits for June were nearly \$700,000. Moose Jaw being sixth on the list in all Canada. Moose Jaw is the principal divisional point for the C. P. R. and is the only town west of Winnipeg having direct connections with Minneapolis and St. Paul.

Don't hesitate. The man who hesitates in these days is lost. The times are so progressive that you cannot afford to think too long about it. Guess I hear that dear, sweet, old cry of the very wise old owl saying, "What a lot of hot air." All right my bird of sombre plumage, take the trouble to examine the situation for yourself; make a comparison of prices, location, size of lots, terms and the protection my company gives, and if I cannot sink anything else that is offered, by a mile and then some, why, then, you are sure entitled to your reputation of being a very wise old bird, and you can say what you like about me. It is always a good thing to investigate all the good things that are being offered before buying, and I want to impress this on you, and get you to do so because you can't lose and it is a lead pipe cinch, and as sure as night follows day, that you will make enormous profits from these lots. BUY NOW. MAPS, PLANS AND LITERATURE SENT FREE ON REQUEST.

APPLICATION TO PURCHASE MOOSE JAW LOTS

ANSSELL'S AGENCIES, LIMITED, WINNIPEG, MAN. Sirs:—I hereby make application to purchase... lots in "Richmond Park," Moose Jaw. I enclose herewith, as first payment thereon, the sum of \$... OUR COMPANY WILL REFUND YOU YOUR MONEY ON DEMAND, PLUS 6 PER CENT. IF YOU ARE DISSATISFIED

In other words, does his Company ever give you an Agreement in black and white backing up his statements when he promises you that you will make money. Have you ever in all your experience known of a company who absolutely guaranteed you against any loss, who have offered when they were selling you property to give you an agreement to refund your money on demand plus 6 per cent. interest. The proposition I am now putting before the public is THE TALK OF THE TOWN.

In the first place I am offering the most stupendous bargain to the public that has been put on the market. It is something brand new in the shape of a proposition, not only brand new in this Province, but brand new in the history of real estate, and I do not intend to be backward in letting the public know about it through the medium of the press; because the terms on which I am selling these lots are the most remarkable, unheard-of, safest, fairest, best and most generous, that have ever been put before the investing public.

Situation of Richmond Park, Moose Jaw

Richmond Park, Moose Jaw, fronts on Main street, which is to Moose Jaw what Portage avenue is to Winnipeg, and lies in the direct line of growth; and property on this street will increase in value to the same extent in proportion as the property has that borders on Portage avenue. The property is 2 1/2 miles from the C. P. R. depot, 2 1/4 miles from the centre of the city, 2 miles from the site of the C. N. R. depot, and a mile and a half from the site of the G. T. P. depot. Every street is graded and sidewalks are to be laid down at once. Richmond Park is on a hill overlooking all the city and will be the finest residential district in Moose Jaw.

What is Happening in Moose Jaw

Six new railroads are coming into Moose Jaw, two of them will be in within the next thirty days. The population has been increasing at the rate of 42 per cent. per year; the census for 1906 showed a population of only 6,000. The estimated population for 1911 is over 20,000. The new Post Office being built by the Dominion government is the largest in the West outside of Winnipeg, costing \$300,000. The building permits for June were nearly \$700,000. Moose Jaw being sixth on the list in all Canada. Moose Jaw is the principal divisional point for the C. P. R. and is the only town west of Winnipeg having direct connections with Minneapolis and St. Paul.

Don't hesitate. The man who hesitates in these days is lost. The times are so progressive that you cannot afford to think too long about it. Guess I hear that dear, sweet, old cry of the very wise old owl saying, "What a lot of hot air." All right my bird of sombre plumage, take the trouble to examine the situation for yourself; make a comparison of prices, location, size of lots, terms and the protection my company gives, and if I cannot sink anything else that is offered, by a mile and then some, why, then, you are sure entitled to your reputation of being a very wise old bird, and you can say what you like about me. It is always a good thing to investigate all the good things that are being offered before buying, and I want to impress this on you, and get you to do so because you can't lose and it is a lead pipe cinch, and as sure as night follows day, that you will make enormous profits from these lots. BUY NOW. MAPS, PLANS AND LITERATURE SENT FREE ON REQUEST.

APPLICATION TO PURCHASE MOOSE JAW LOTS

ANSSELL'S AGENCIES, LIMITED, WINNIPEG, MAN. Sirs:—I hereby make application to purchase... lots in "Richmond Park," Moose Jaw. I enclose herewith, as first payment thereon, the sum of \$... POLITICAL PARSONS ARE CENSURED BY PRESBYTERY

Resolution Aimed at Rev. J. J. McCaskill Passed in Presbytery Today — Motion to Use Name of Individual Met With Disfavor.

A certain amount of curiosity is displayed on the part of Presbyterians generally throughout the city and a good deal of anxiety is felt by members of St. Matthew's Presbyterian Church as to the case of Rev. J. J. McCaskill. When the letter was sent to Mr. McCaskill ten days ago, asking him to resign the pastorate of the church, it was anticipated that his reply would be submitted to the meeting of the Presbytery which was held yesterday. In view of the fact that no official notice of the congregation's request and has not expressed to the Presbytery his intention, the matter cannot be officially considered.

New Waistings for Fall and Winter. Prettily Patterned Materials in All Popular Shades for Cold Weather Garments. WONDERFULLY pleasing is this great array of bright, new fabrics radiant with charming colorings and handsome designs; ideal for making of warm, comfortable garments for Fall and Winter wear.

Ladies' Fall Hats to Order. While our extensive exhibit of early Autumn Millinery in ready-to-wear models is varied enough to please all and represents remarkable values, yet many customers prefer to suggest ideas of their own for our designers to finish in our order department. Our milliners have visited the leading fashion centres and nothing "new" has escaped their notice.

AROUND THE CITY

Arrested for Assault. A man named Peck was arrested on the King Square last night and charged with drunkenness and assaulting Joseph Riley.

No Speeches. Thursday next will be nomination day. It has been arranged that there will be no speech making at the hustings in this city.

Condition Improved. Melvin T. Gibson, 173 St. James street, who was accidentally shot while taking his rifle apart in his barn last Friday, was reported last night to be somewhat better, although still in a critical condition.

Again Remanded. Mary Dagle, the woman who was arrested on the charge of drunkenness and hitting her eight-months' old child by throwing it on the floor of her home, Brussels street, was in the police court again yesterday afternoon. Policeman McCollom gave evidence of having made the arrest and the prisoner was again remanded to jail.

Steamer to Kings-Albert. For the convenience of those Kings county electors in Kingston and Greenwich who wish to attend Kings-Albert nomination day proceedings at Sussex on Thursday, Sept. 14th, the S.S. Premier will leave Reed's Point on the Kennebecasis at 10 a. m. on that morning and call at Clifton and Moss Glen en route to Rothesay, to meet the express train that leaves St. John at 11:20 a. m. Returning in the evening will leave Rothesay after the arrival of the ocean limited at 6:14 p. m.

Ward Rooms Popular. If anyone had fears as to the success of the Conservative candidate in St. John a visit to the ward rooms last evening would have dispelled all his doubts. The rooms were crowded and everyone spoke optimistically of the prospects for Sept. 21st. In Prince ward, Chairman Sproule said that things had never gone better before and in the other wards the reports were equally encouraging. In the North End the work is also progressing in great stride and a confident sentiment of an overwhelming majority on election day. Miles E. Agar addressed the workers in Dufferin ward last evening and was heartily greeted.

More Members Needed. At a meeting of the membership committee of the Y. M. C. A. last evening, it was decided to hold a twenty week contest for boosting the membership of the association. The contest will start on Sept. 25 and end on Oct. 6, and during that time it is hoped to raise the membership from the present 750 to 1000. Those engaged will be divided into two teams and C. A. Dempster, each team will have five sub-divisions consisting of a captain and five men, thus there will be 90 active members engaged. All those who are willing to take part in the contest are requested to hand in their names during the week. Individual and team prizes will be announced later.

PERSONAL. Mrs. Percy Rising, "nee Humphrey," will receive Thursday and Friday afternoons of this week at 54 St. James St. Arthur G. Brown is seriously ill with typhoid fever at his home on Adelaide St. George Peterson, of the Bank of New Brunswick staff left for Montreal last evening to take a position in the bank's new branch to be opened shortly in that city.

Dr. F. H. Neve, formerly of the General Public Hospital, of this city, has returned from New York and has taken up offices at the corner of Ludlow and Rodney Sts., West End. Be not deceived, Frank White's hard mixture is not sold at 90 King St., so-called "Whites." Be sure that you get Frank White's own make. Beware of imitations.

THE RESOLUTION

"That having in view the highest interests of its congregations, and the successful development and carrying on of its work, this Presbytery places on record its severest disapproval of an active partisan in party politics."

The above is a copy of the resolution adopted yesterday afternoon by the St. John Presbytery by a standing vote of 16 to 3. Although Rev. Mr. McCaskill's name does not occur in it, it was generally felt that it was aimed at him. During the discussion reference was made to the questionable advertisement in which the reverend politician was getting. A resolution introduced censuring Mr. McCaskill by name and calling for the appointment of a committee to confer with St. Matthew's church on the situation which had arisen was not even seconded, the members evidently preferring that the re-

WILL BE DISASTROUS TO THE FISHERMEN

Fish Dealer Writes to Friend in St. John that Pact will be Blow to Industry.

A prominent St. John business man who was interested to know the probable effect of reciprocity on the fishing industry, wrote a leading Lunenburg fish dealer for information on the subject, and received a reply yesterday. The merchant is of the opinion that the fishermen will be injured should the agreement go into effect, stating in support of his belief the fact that the Americans are seeking cheaper food, and fish supplied to them at prices they would be willing to pay would eliminate the profit. The market would not be a steady one, and would be of little use to our fishermen.

Loss in Labor. "At the present time our fish are brought home from the banks and landed here in Lunenburg and cured, and packed and shipped to the various markets; and if the fish are to be shipped green, consider the labor that will be lost. Just figure up the catch for the last year and you get an idea of the labor that will be lost to this county, which is very important. What will these men get in return? Take the catch of last year at 260,000 quintals and the fishmaking at 30c per gtl. and you have something like \$78,000. Then consider the men that saw the staves for the drums to pack the fish, and all the labor of packing and making the packages, and you will have a terrible amount of labor that will be lost.

"Consider this point of view, we cannot for the life of us see where we will benefit in this country by the Reciprocity Agreement. All we can see is utter ruin. We also have a number of farmers in this county, and from their view we think that they will vote against the Treaty."

"I might further state that our Canadian market is growing more and more every day, and we will soon be able to supply a larger and better market in the west. We had letters from Montreal this week asking for prices on fish of all kinds, and we have further queries for fish from the Gloucester markets, which goes every day.

OUTLOOK PROMISING EVERYWHERE

While the political outlook in this city is most promising for a signal victory for the Conservative party, reports from other points in the province are equally encouraging, and the prospect of a grand sweep of the whole province becomes more certain each day.

A resident of this city who has recently returned from the vicinity of the Washademoak brings the word that after hearing the views of a large number of the farmers of the district one cannot but realize that the attitude of the farmers is strongly against reciprocity. The farmers feel that the much talked of high prices are but political myths, and they are not to be deluded by the promises of the liberal campaigners who would try to convince the farmer that under reciprocity he will find better markets for his produce. The popularity of the gallant Colonel McLean is waning and a good majority for the Conservative candidate is an assured fact.

After an extended trip through Prince Edward Island, another St. John man who returned to the city yesterday says that he found a strong feeling against reciprocity. A wave of Conservatism is sweeping over the island, and it looks as if instead of but one Conservative seat conditions will be reversed next week. The strongest kind of a campaign is being carried on by the Conservatives while the lack of organization among the Liberals is a marked feature.

While Sir Wilfrid Laurier was greeted by a large meeting, the effect of his visit was not a lasting one, and there is evidenced in the Laurier ranks a lack of confidence in the party leaders. The party are making but feeble efforts to rally to the support of the leaders.

It is assuming much larger proportions than anyone would expect at this time of year in the report of the "great cash raising sale" now going on at F. W. Daniel & Company's, Cor. King street. People from far and near are having their dry goods wants supplied at great saving. Besides all sorts of ladies wearing apparel, dress materials and accessories, all the house furnishing goods such as tapestries, pretty chintzes, art denims, curtains, etc., are so cut in price as to make this sale period a very interesting time to thrifty housewives. Only four more sale days; don't miss coming today.

Be not deceived, Frank White's hard mixture is not sold at 90 King St., so-called "Whites." Be sure that you get Frank White's own make. Beware of imitations.

to show that they will have to have our fish at this price; and they would have been obliged to come for our products and give us their markets without our giving them ours in return.

"On the whole we say that this agreement does not show any advantage to the fishermen and it is our belief that they will turn it down when the same is explained to them fully, and that is what we are trying to do every day.

When Your Head Aches

There's a cause, and the chances are ninety-five out of a hundred that some defect in your eyes is that cause. Even if your sight is good that is not a reason that your eyes are not defective. If there were a defect so great as to make your vision poor, there would be no head-ache, for then your eyes would not be strained in trying to give you good vision.

Come in early any morning and let us tell you just what is wrong. You cannot buy glasses from us unless you need them.
