GRAVEL BOARD
If you are building or going to build some substantial rooms, let us show you some colored samples illustrating the beautiful color effects obtained by using this material. It is suitable for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the relation in which they are received, and customers can always depend on our doing everything in our power to give prompt despatch.

WM. CURRIE, M. P. P. CHOSEN SPEAKER

Arthur T. LeBlanc, M. P. P. Makes Fine Impression in Address

Restigouche has been honored by the choice of Wm. Currie, M. P. P., as speaker of the local legislature, and also the fact that Mr. Arthur T. LeBlanc was chosen to second the adoption of the speech from the throne.

The following is a condensed report of the proceedings of the opening of the Legislature:

The first session of the seventh Legislature was opened Thursday afternoon.

Hon. Mr. Foster said that in pursuance of His Honor's wish the House would proceed to the appointment of the speaker. In choosing a gentleman for that position, it was necessary to find one with the necessary qualifications, such qualifications being not only a knowledge of the procedure and rules of the House, and also that of a spirit of fairness and impartiality. Such a gentleman, he believed, was to be found in the person of William Currie, one of the members for Restigouche, and he had much pleasure in moving that Mr. Currie take the chair as speaker. The motion was seconded by the Hon. Mr. Robinson and carried unanimously.

The speaker elect was then escorted to the throne by the mover and second, front place he thanked the House for the high honor conferred upon him. It was then announced to the House that the Lieut. Governor was without. The speaker having left the chair, His Honor, the Lieutenant-Governor, proceeded by his military staff entered the chamber.

The speaker elect reported that he had been selected as speaker claiming for the House all its ancient liberties and privileges. His Honor, through the Acting Clerk, signified his pleasure in concurring in the choice of the Legislature and expressed his full confidence in the speaker's ability to ably perform the duties of his office.

The Lieutenant-Governor then read the speech from the throne.

Mr. McCreas, M. P. P. for Sunbury moved the address in reply to the speech from the throne and Mr. A. T. LeBlanc, M. P. P. of Restigouche seconded this adoption in an eloquent speech which is briefly reported as follows:

Mr. LeBlanc said: "I rise to second the adoption of the address in reply to the speech from the throne. It is a splendid testimony to the Premier. Having taken the leadership of the party only a few weeks before he was able on account of his personal reputation and integrity, to achieve a splendid victory. I wish to congratulate him on keeping faith with the people of the province. Shortly before the electorate was called upon to choose provincial law-makers, Mr. Foster sent out a message to the people of New Brunswick that if they placed him in power he would surround himself with men of integrity and ability, and in the choice he has made of his cabinet it is quite plain that he has kept his pre-election word, and I am glad to be able to congratulate him upon the choice, which he has made of the cabinet members. I must say a word of sympathy in connection with the removal from among us of a man who occupied a high place in the council of the province and enjoyed the complete confidence of his people. I refer to the Hon. George J. Clark, late premier of this province, and I want to assure his relatives that, however much we may differ in political views, our heartfelt sympathy goes out to them in their sad bereavement and we shed a sincere tear of sympathy on the newly closed grave. In the choice of a new premier and government, it is quite apparent that the people of New Brunswick have made no mistake. In reading the speech from the throne, it is quite evident that the premier and his government have a full grasp of provincial affairs and have taken a firm grip. I was pleased to note that in the speech, a prominent place was given to a subject which is of world-wide importance. I mean the gigantic struggle now going on in Europe. Although this is quite beyond the power and jurisdiction of this government and legislature to raise men or build ships for the defence of our coast and our commerce, the Premier showed marked statesmanship in taking the step which he took to encourage production. When the great statesman, Mr. Asquith, unseathed his sword on Aug. 4th, 1914, he did so not only to avenge and restore down-trodden Belgium and to compel an unscrupulous ruler to respect a now famous scrap of paper. Altho. in those motives were quite laudable, the incomparable British statesman, I feel had in his mind the upholding of enduring and most sacred principles and traditions. That which the Al-

WERE IN FIGHT AT VIMY RIDGE

Campbellton boys Write of Experiences in Great Offensive

During the past week a large number of letters from boys at the front have been received here, and many speak of the capture of Vimy Ridge. One letter reads as follows:

France, April 23rd.

I am enjoying the comforts of a delightful spring day, just the reverse to what we went through such a short time ago. All the English and French papers are full with the wonderful achievements of the Canadian troops at Vimy Ridge. I am one of the six officers who are resting.

Received another box from home. Many thanks.

A feature of the fight which our battalion will ever boast of is as follows:

Half an hour before we moved off to do battle with the wily Hun two pipers from our pipe band paraded to the C. O. and asked permission to play over "the bag" (Parapet). He at first refused, but later we persuaded him to let them come along with us. Well, over they went with the battalion playing the "March of the Cameron Men." One was wounded away over, the other stayed right with us. This is the first time any Canadian battalion ever put over anything like this. Not long ago a piper in an imperial regiment was awarded the V. C. for doing this. We are pretty proud of them. I got very few souvenirs, but am thankful to come out with a whole skin.

Regards to all.

A letter from another Campbellton boy with the artillery said that while he and his groom were riding back to supply wagons a shell exploded overhead. His horse was felled to the ground badly wounded, but he escaped unharmed.

Two sons of Mr. T. G. Scott of Dalhousie in writing home give fine descriptions of the big fight. Both are in the artillery and one was 72 hours on duty with only six hours rest, while the other was four days without a wash. The field battery barrage was a fine sight, and the Hun prisoners came back by thousands, a sorry looking crowd, but glad to be out of the fight.

ANOTHER OF OUR BOYS PAYS PRICE

Signaller A. Tristram White Killed in Action, April 28th.

Again Campbellton is called upon to mourn the death of another of her brave boys, and another family is mourning a vacant chair at the fireside.

On Saturday Mr. John White received word from Ottawa that his son A. Tristram had been killed in action April 28th.

Tris as he was familiarly called went overseas with a heavy siege battery as signaller. He signed on while attending Mount Allison and below we publish a letter from Prof. Hunton of M. A. He was an enthusiastic Cadet and a few years ago at Sussex in competition with the other Cadet corps won the handsome Strathcona cup.

The following is from the Sackville Tribune:

"The flag at the college was half mast over the week end for another Mount Allison boy who has made the great sacrifice at the front. Almost a year to the day from the time when A. Tristram White of then Freshman Class at Mount Allison, signed on with a Heavy Siege Battery for overseas service, the news of his death in action reached his parents and friends at the college. No particulars are known but it is known that "Tris" was a signaller with the Battery and was probably out in the front at the time he met his death.

The following letter has been received by Mr. White:

Mount Allison University, Sackville, N. B.

Dear Mr. White:

Your message with its sad news came last night, and it has been in my thoughts ever since. How my heart bleeds for your sorrow. The more so as I think it might as well have been my boy as yours! I knew Tris so well as he was very friendly with both of my boys and often came to my house. Such a bright happy intelligent boy as he was! We have his picture, that he gave to Tom, on our mantle piece. I have three sons in the army now as Tom has just enlisted with a lot of his classmates just as the others did last spring. The students in the Residence are feeling very sad today as Tris was a great favorite with them. I wish I could say more. You and Mrs. White have my warmest sympathy in which Mrs. Hunton joins me. May God bless and comfort you in your sorrow.

Yours sincerely,
SYDNEY HUNTON.

P. S.—The flag at the Residence has been flying at half-mast all day. This is the seventh time since Easter Sunday.

SACRED CONCERT GREAT SUCCESS

Women's Institute Raise Funds For Red Cross Work—The Program

The ladies of the Women's Institute are to be congratulated upon the success of the Sacred Concert given in the Opera House Sunday evening after the regular church services. The large auditorium was crowded, every seat being occupied. His Honor Judge McLatchey acted as chairman and explained the object of the concert speaking feelingly of the care taken of our wounded boys at the front and asking a generous collection for Red Cross work.

The following programme was rendered:

PROGRAMME.

1. Remarks by the Chairman
2. Solo—By Miss Hazel Mowat
3. Violin Solo—By Mr. Jones
4. Reading "A Scot Indeed"—By Mrs. H. Miller
5. Solo—By Miss Ford
6. Offering—How Firm a Foundation
7. Duet—By Mrs. Sharpe and Mr. Jones
8. Reading "The Last Hymn"—Miss Hogan
9. Duet—By Miss Mowat and Miss Nelson

The collection was taken up at the close of the program and amounted to \$64.25.

The programme was splendid. Each member being thoroughly appreciated by all present. The Institute wishes to thank all persons who so kindly helped to make it such a success and Mr. Dimock for his kindness in giving the use of the Opera House.

DEATH OF ANOTHER CAMPBELLTON BOY

On May 1st Mrs. Alice Tope received the sad news that her son Pte. J.

PT. J. A. TOPE

A. Tope had died in the County War Hospital, Epsom England. Pte. Tope enlisted in the 132nd Battalion but on rescuing England was drafted into a Montreal battalion with which he went to France having been in the trenches for several months.

This is the second son of Mrs. Tope's to give his life for his King and country. Pte. Tope was in his 22nd year and leaves his mother and one sister to mourn his loss.

mightly has rewarded in the British nation, could not be acquired by any conqueror or given by any one sovereign. It is more than military glory, and it is in defence and in support of these principles of liberty so well understood in this country that our gallant Canadians are now dying by the scores in the muddy and water-flooded trenches of France and Flanders. Due reference has been made in the speech from the throne to the proposed legislature in connection with our crown lands and our highways. I hope and expect that the government will take those important matters out of politics.

PERMANENT ROADS POLICY.

It is a source of pleasure also to see that the government have not forgotten but kept in mind what they promised that province with regard to permanent roads in particular, and the highways in general.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

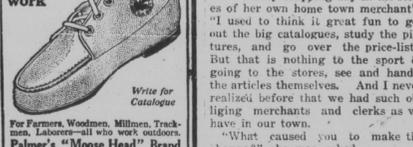

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCASLAND, 609 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.
Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. OSOON, 1 Hayes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman in strict confidence.

3. When was the service inaugurated, and how many trips were made?
4. What was the amount of subsidy, if any, paid per trip?
5. Will any service be given this year?
6. If so, by what boat, and what amount of subsidy, if any, will be paid?
Sir George Foster:

1. A regular semi-weekly service between Campbellton and Paspébiac, calling each way at Dalhousie and other ports, one trip each week from Paspébiac to be extended to Gaspé Basin, calling at other ports.
2. The steamer "Elaine," of 272 gross tons, 156 net tons. Owned by Henry M. Evans, of the city of Halifax.
3. The service was begun on the 5th August. They made 26 round trips.
4. \$312.50 per trip; a total of \$8,125.
5. On application from the contractor or a renewal contract similar in all respects to the contract of last year has been sent to the contractor for signature, but has not yet been returned.
6. The steamer "Elaine" is specified in the proposed contract, and the same subsidy, viz., \$15,000 per annum, will be paid or such amount as may be earned.

PASPEBIAC WHARF
Mr. Marcell:
1. Has any work been done by the Department of Public Works on the wharf at Paspébiac, Quebec, belonging to Robin Jones and Whitman?
2. If so, what was the nature of the work, and the cost of same?
Mr. Reid:
1. Yes.
2. (a) Repairs. (b) In 1914 planks were renewed at a cost of \$98.54, and \$15.75 was paid for the transportation of the material of a pile driver.

NEW RICHMOND WEST POST OFFICE

The Paint That Costs The Least

is the Paint that covers the greatest surface—that takes the shortest time to apply—that wears the longest. Martin-Senour "100% Pure" Paint does all three. Here's the proof. "100% Pure" Paint covers 900 square feet of surface per gallon.

Hand-mixed-lead-and-oil, and cheap prepared paints, cover only about 500 square feet.

The greatest cost of painting is for labor. It takes less time to apply Martin-Senour "100% Pure" Paint because its fine, even texture spreads much easier.

MARTIN-SENOUR "100% PURE" PAINT

(Made in Canada)

is guaranteed to be exactly as represented. The purity of the White Lead and Zinc Oxide—the high quality of the Linseed Oil—the minute fineness of the grinding by powerful machinery—insure a paint that gives years of protection and beauty to your home.

Why use cheap paint—that is expensive to put on—when Martin-Senour "100% Pure" Paint wears nearly twice as long?

If you are painting this year, you'll be interested in our books—"Learn and Conquer Home" and "Harmony in New-Tones." Call or write for copies—free.

SHOCKING DEATH OF CHATHAM MAN

A. H. Marquis Killed While Trying To Save Another's Life.

That all the heroes are not in the battle line was clearly demonstrated at Chatham at an early hour Thursday morning when Mr. A. H. Marquis a brother of Mr. Hugh Marquis of this town met instant death in endeavoring to rescue a Chatham fireman from a like fate.

During a wind and rain storm early Thursday morning Mr. Marquis' barn was discovered to be on fire. The firemen in fighting the blaze were seriously menaced by excessive electric shocks which came from a wire which ran from the house to the barn, and which had become heavily charged by the house supply coming into contact to the service wire carrying 2200 volts. The wire was pulled down and was on the ground when an employee of the electric light station stepped upon it and was immediately made unconscious. Mr. Marquis who was near ran to his aid and grasped the wire with both hands, receiving such a shock that he was instantly killed. The wire was then cut down from the house and the other man released. He will recover.

The late Mr. Marquis was one of Chatham's most prominent citizens, a former Alderman, a Mason and an Oddfellow. The funeral Sunday was very largely attended.

BIG OPERA CO.

The Boston English Opera Co., offering of Verdi's Masterpieces "Il Trovatore" with Jos. F. Sheehan and Mlle. Nilli Gardim, are contemplating touring Eastern Canada and have written manager Dimock to ascertain the possibilities to play Campbellton. If Mr. Dimock is successful in arranging this engagement it will be one of the biggest organizations to have ever appeared in "Campbellton." Anyone who is interested is asked to communicate with Mr. Dimock as soon as possible as to the number of tickets they would be willing to purchase. Monday, June 18th, is the date that this Big Opera Company will appear if satisfactory arrangements can be made.

DIED IN SUMMERSIDE

News was received here Tuesday morning of the death at Summerside, Monday evening of Mrs. Ronald Campbell. Two daughters, Mrs. James Alexander and Mrs. Chas. A. Alexander reside here. Fred Campbell at present in the firing line in France is a son. Messrs. James and Chas. Alexander left Tuesday to attend the funeral.

MEETING OF CEMETRY COMPANY

The regular annual meeting of the "Rural" Cemetery Company was held in Mr. Graham's office last Monday evening. Mr. MacKendrick who has been President for two terms, was in the chair. This meeting which is open to all lot-holders, and of which due notice was given was not largely attended. The Secy. Treasurer's report was received and was the most satisfactory since the organization of the company. Matters generally were discussed and the directors for ensuing year elected as follows, Alexander MacLennan, J. R. MacKenzie, A. D. MacKendrick, James Patterson, L. T. Josley, Thomas Wran, W. Appleton, John Barberie.

At the close of this meeting the directors met, when Mr. Wran was appointed President. Mr. Firth, Secy. Treasurer and Mr. Graham Supt. At this meeting it was decided to install a water supply, if permission was had from the Council. A committee was appointed to engage a contractor, if a suitable person was available.

TAROL
IS PREPARED
BY COMPETENT
CHEMISTS

TAROL is not a new remedy, for, years previous to 1885 date on which it was placed on the market, Dr. Ed. Morin prescribed it regularly to his patients. When he gave up his medical practice in order to establish the wholesale drug house which bears his name, **TAROL** was the first preparation he placed on the market. Today it is in the same laboratory that **TAROL** is manufactured, from the identical formula, by experienced chemists and always with the purest and best ingredients procurable. This is why **TAROL** cures today as it did thirty years ago.

Coughs, Colds, Bronchitis, Grippe
and even **TUBERCULOSIS** in early stages.

If you cough, if you have a cold which will not cure, if you are subject to Bronchitis, if your chest is weak, use "**TAROL**", it is the specific.

Pale and Weak women and young girls should use Dr. Ed. Morin's Cardinal Pills.

ASSOCIATION FOR THE PROTECTION OF FORESTS

An important Association has been formed in Quebec which object is to assure the protection of the forests against the disastrous fires which ruin, yearly, for many thousand dollars of lumber, pulp-wood etc., in that Province.

This Association which bears the name of The Southern St. Lawrence Forest Protective Association, was constituted at a general meeting of the Limit Holders who own timber land in the district lying between Dorchester Co., and Gaspe Peninsula. Its chief object is to protect the forestry wealth of this part of the Province, one of the most important natural resources, against its greatest enemy—the forest fire.

In European Countries, the different government authorities have been preoccupied for some years to reduce to their minimum, the devastations caused by forest fires, and up to the present, they have succeeded in organizing effective services composed of competent men, in obliging the settlers and railway companies to take all the necessary precautions to pre-

vent the forest fires; to propagate itself, in building in the interior of the forest, roads, trails, etc., which are used as "coupe-feu", fire preventors, and which can be also used as a fire occurring to transport rapidly provisions and men, and thus facilitate the extinction of fire. Such protective systems have been already tested in Western America and have given magnificent results. In the St. Maurice region, since 1913, under the able direction of Henry Sorgius, C. E., a similar organization as that of the Western America has made efficacious work, the value of which cannot be estimated. To give an idea of the system of this last organization, which is patrolling a total area of 7,892,776 acres or 12,332.46-square miles, only 449 1/4 acres of forest were destroyed by the forest fire in 1916.

The service of protection which this Association has recently established on the very system of the American and St. Maurice Associations, has to look after, not only the protection of the forests under license, but also those of the Private Owners and the Crown, as these form a whole block.

If on one hand, the costs of such an Organization are to be met by the lumber merchants, we understand, on the other hand, that for the success of their important work, they need the moral co-operation of all the settlers who will be, after all, the first to benefit of its good work.

We publish herewith the Circular Letter of Bishop A. A. Blais, which shows by itself, the great interest given to the conservation of our National Wealth.

Bishop's Residence,
Rimouski, March 26th, 1917.

My Dear Collaborers:

An association has been formed lately with the approval of both the Federal and Provincial Governments, for the protection of this portion of our province against Forest fires. Under the name of "St. Lawrence South Shore Forest Protective Association," it is divided into two Sections, one of which guards the Forests of Gaspe, Bonaventure, and Matane Counties—the other the Forests in Rimouski County and those of the other Counties of the South Shore as far as Dorchester. Each Section has its own President and Directors, having as manager a Forestry-Engineer, graduated from "The Quebec Forestry School."

The principal aim of this organization is to protect the Forests from fires which have so often devastated these territories, have been so detrimental to public interests, to the settler, to the lumber merchant; at the same time so destructive of the resources of the Province.

In principle, an organization of this kind is not only useful, but necessary; it has been a long-felt want. It is but one organ in a system of much wider scope, which extends throughout the country for the protection of one of the principal resources of our National wealth, and which in order to render it indefinitely productive demands on our part foresight, protective measures and the establishment of a more strictly economical system of operation.

These measures do not concern the settler only; they must reach more effectively the lumber operator. Thus this general organization of which Mgr. Leflamme was one of the first and most active promoters, solicits the co-operation of all interested citizens and of the Government whose duty it is to guard the general interest of the society, so as to obtain measures which secure scientific methods in the cutting of lumber, economical operations, efficacious protection of existing Forests; the reforestation of portions of the country where a want of foresight has done its evil work, and finally the planting of trees which are now disappearing. It is to the interest of all to favor this movement, the ultimate result of which would be beneficial to everyone.

The Forests constitute a National wealth; in the Lumber placed upon the market each year, as well for home use as for export trade, it is also an important economical factor in other resources of the country, and so far we have not given it deserving consideration.

Who does not know that the regularity in the flow of the streams depends upon the standing timber upon their banks and the banks of lakes discharging into these streams—and that the conservation of the immense reservoirs of hydraulic powers which is of such importance to our industries depends upon the preservation of the forests. The cutting of the forest is causing the rapid flow of the waters favors, by spring freshets, the inundations and ruin of the lowlands, and moreover contributes to fill in rivers and streams with the debris thus carried down.

Our people need complete education in this subject. The settler himself the son of a settler seems born as by hereditary instinct, to look upon the trees as an enemy which he must destroy. Besides, the Lumber operator has never had the idea that the Forest must be protected, because up to the present he had for many reasons thought that the Canadian Forest is inexhaustible, hence the squandering of timber increases yearly in an extraordinary proportion. It is time to forego, and I am happy to have had the occasion which presents itself to call your attention to this subject, and through you, enlighten our good people on this question of general in-

The Testing Time!

WHEN the test of the world-conflagration called for every ounce of strength in every available man to stem the tide of destruction, one of John Barleycorn's greatest friends, Russia, was the first to abolish the Traffic because it could not meet the test. In good time, when her hour of test arrived, New Brunswick banished the great Drink curse let us hope forever!

After the war, in his turn, John Barleycorn is going to put New Brunswick to the test. Prohibition may again be voted upon after the war.

Every bit of lax enforcement and indifference is just so much ammunition for him to use against us. How does Prohibition meet the test?

Russia—

Some idea of the enormous effect of Prohibition is afforded by the wonderful example of Russia. In spite of the fact that millions of producers are in the army the savings of the people enormously increased. In 1912 and 1913 they were saving, per year, about \$20,000,000. In the first five months under Prohibition they saved \$60,000,000. In 1915 the banks took in \$265,000,000. For the first half of 1916, the Russian people saved \$300,000,000!

The Dakotas—

Town and city population in South Dakota under License increased 168 per cent. in 20 years. In the Prohibition state of North Dakota it increased 494 per cent.!

In "dry" North Dakota, for the year 1909, 2,789 men produced \$19,137,000 worth of manufactured goods. In the "wet" Dakota it required no less than 3,602—**813 more men**—to produce only \$17,870,000 worth of manufactured goods, or \$1,267,000 less!

In 1890 commitments to Insane Asylums in "dry" North Dakota were 40 persons per 100,000 more than South Dakota. After twenty years of Prohibition they were **forty less!** And the Prohibition State began the period with only about half the population of its neighbor! South Dakota has since adopted Prohibition.

Help to Enforce Prohibition

Permanent Prohibition in New Brunswick demands strict enforcement between now and the day when Prohibition may again be voted upon after the war. The whole task of enforcement must not be left to the officers of the law alone. Everyone should help. Eternal vigilance is the watchword.

Weak, Anaemic, Nervous Run-down

WHEN your system is undermined by worry or overwork—when your vitality is lowered—when you feel "anyhow"—when your nerves are "on edge"—when the least exertion tires you—you are in a run-down condition.

Your system is like a plant that is drooping for the want of water. And just as water revives a drooping plant—so Wincarnis gives new life and new vitality to a "run-down" constitution. Because Wincarnis possesses a four-fold power. It is a tonic, a restorative, a blood-builder and a nerve food—all in one. Therefore Wincarnis promotes new strength, new blood, new nerve force and new vitality.

The benefit begins from the first small dose. You can feel it doing you good. You can feel your whole system being surcharged with new vitality and new life.

That is why over 10,000 doctors recommend Wincarnis. Wincarnis quickly brings back your old-time vigor—gives a sparkle to your eyes—and coaxes the roses back to your cheeks. You look well—feel well—eat well—sleep well—and can revel in the new health and new life Wincarnis creates. But, remember, that only Wincarnis can give you this new and vigorous health. Imitations only waste your money and disappoint you.

The Association which today asks our co-operation, has for its object, the preservation of the forest against one of the elements which contributes to its destruction in a most disastrous manner. The co-operation asked of us is a moral one; the officers of this Association are to go to every one of your parishes to organize their system of protection. You have only to approve their work and support all measures of security that they establish. This will be a help to the farmers of your district and contribute to the general welfare. Among these measures, doubtless some shall bind the lumbermen equally with the farmers. I am not at present concerned with the by-laws and regulations of this Association; in principle the movement is a good one, nay, necessary, and it is this principle that I recommend to you especially. As occasion offers itself, have your parishioners understand the reason why their loyal co-operation is required to assure the success. Similar organizations have been operating for a long time in European countries and are also working with the same success on this Continent. It is then possible for us to achieve as much.

With these dispositions that you will kindly communicate to your parishioners and explain according to circumstances, accept, my dear collaborators the assurance of my entire devotedness in Our Lord.

BLACK POINT
Congratulations are extended to Mr. and Mrs. Charles Dower on the arrival of a young son on April 30th.

Mr. and Mrs. Clarence Howe and son of Charlote are the guests of Mrs. Howe's parents Mr. and Mrs. P. Hamilton.

On account of the scarcity of water many of the young men have returned from the drives but expect to resume their duties at the brook driving later on.

Mr. Pat Meade was in Black Point on Tuesday last.

PORT DANIEL
Owing to the inclement weather and muddy state of the roads, the Port Daniel Red Cross Worker's have not been able to meet for three weeks.

They have, however, lately shipped to the Provincial Branch at Montreal, a box containing the following:— 3 pillows, 16 pillow cases, 6 towels, 6 pairs of socks.

A number of pairs of socks have also been sent to men who have enlisted from the vicinity.

JACQUET RIVER.

Another of our boys has done the khaki the last one being Andrew Elsiger son of Mr. and Mrs. Alfred Elsiger who has enlisted for Home Service at Halifax. Private Elsiger is the second of his family to enter the service, his elder brother Rexford being in the 132nd and was recently wounded.

Also on the Honor Roll of the Forestry Battalion we notice the name of Charles Labelle of McElvieve's Junction.

Private Fred J. Powers of the 236th Kiltie Battalion of Fredericton who has been confined to hospital for some time with appendicitis is around again and will go on recruiting tour before his Battalion sails.

The many friends of Lance Corporal Charles V. Callahan will be pleased to hear he is progressing very nicely. Corporal Callahan received a bullet wound completely through the palm of his left hand. He is at present in an hospital in England and will return to the front as soon as he can do so.

Also Private Willis Rosenfren is off the sick list, which news will be received with pleasure by his numerous friends.

Sergeant Harry Culligan of the Forestry Battalion spent a few days at his home here recently. Sergeant Culligan's many friends are pleased to see him in his new uniform as it is extremely becoming.

Mr. Williams of the firm of Lawry & Williams of Chatham spent a few days in town last week on business.

Master John Doyle oldest son of Mr. and Mrs. Harry Doyle of Campbellton is undergoing treatment at the Hotel Dieu Hospital there for appendicitis. Many Jacquet River friends wish the lad a speedy recovery.

Mr. John Kerr of Nash's Creek visited Sunnyside recently.

An event of interest took place recently at the home of the brides parents Mr. and Mrs. William Sturats of Grange Green, Scotland when their youngest daughter Jean Anne was united in the holy bonds of matrimony to Private R. Lee Splude, Regimental No. 297885 of Canadian Expeditionary Forces now stationed in Scotland. The ceremony was performed by Rev. J. J. Rose, in the presence of the immediate friends and relatives of the family. The bride was becomingly gowned in a blue tailored costume with picture hat to match and carried a shower bouquet of snow drops. The bride was attended by Miss M. McKenzie of Yores, Scotland and the groom was supported by Private J. Young also wearing the King's khaki. Private and Mrs. Splude have the best wishes of a large circle of friends here as Private Splude belonged to Sunnyside where he was held in high esteem.

DALBOUSIE

On the morning of Thursday, April 19th the residence of Mr. Thos. Blundell, situated opposite the Masonic Hall was totally destroyed by fire. The inmates, including two young lady visitors narrowly escaped with their lives. This was one of the oldest residences in Dalhousie and much sympathy is expressed by the citizens for Mr. Blundell and his family in their loss. The origin of the fire is unknown.

On Tuesday evening, April 24th the members of the Ladies' Aid Society of St. John's Presbyterian Church together with other friends assembled at the home of Mr. and Mrs. Clarence Little and showered them useful gifts. Mr. and Mrs. Little with a variety of beautiful and useful gifts. Mr. and Mrs. Little were much taken by surprise but welcomed the party most heartily and thanked all for their thoughtful kindness. A most pleasant and enjoyable evening was brought to a close by the singing of Auld Lang Syne.

Mr. Blundell and Mr. and Mrs. Little wish to thank the members of the Ladies' Aid Society and friends for their miscellaneous showers, also neighbors for kindness shown them at the time of the recent fire.

For the benefit of the eye sufferers of Dalhousie we have decided to reserve all next Monday morning May 21st starting at 8 o'clock for the residents of Dalhousie. This is a special reservation but as Mr. Mayor is staying with me until Thursday May 23rd he will test any others at any time by appointment.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called frezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of frezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

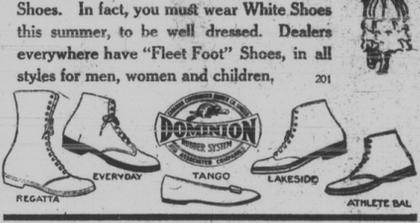

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

NEW PULP MILLS IN GASPE COUNTY

Great Eastern Pulp Company Will Erect and Operate Extensive Pulp Industry

A large and important industry is to be established in the Gaspé Peninsula and more than \$1,000,000 will be expended. The Great Eastern Pulp Company has just been organized for the purpose of erecting and operating extensive pulp and lumber mills at Madeline River, Gaspé County, Que. An inexhaustible timber supply, a splendid water power, a deep water port and connection with two short railway lines projected and to be built very soon to connect with the Canadian Government railway system induced the promoters to locate in the county.

Three hundred thousand acres of timberland have been transferred to the new corporation which will issue \$600,000 bonds and the same amount in stock, both already largely subscribed.

The majority of the directors are Canadians, although John Muller of Bangor, is president. Archibald Hay Cook, K. C., of Paspébiac, is vice-president, and Fergus Murphy, K. C., of Quebec, secretary. One of the directors is Garret Schneck of New York president of the Great Northern paper mills of Millinocket and Madison, Me. Hardie S. Ferguson of New York, will be in charge of the construction work, contracts for which have already been let.

The pulp mill will have a capacity of 300,000 tons of ground pulp wood annually and the annual output of the saw mill will be 10,000,000 feet of long lumber. The plant is expected to be ready for operation by November 1st. Hundreds of workmen will be employed.

Mr. Patenaude: 1 and 2. The mails for Carleton, Carleton Centre and Pointe Bourque are carried under one arrangement by Heliodore Landry at a cost of \$317.50 per annum, under a temporary agreement dating from the 12th May, 1914. The mails for Carleton West are carried by Edmond Allard at a cost of \$75. per annum under a contract dating from the 1st July, 1916.

Mr. Marcell: 3 and 4. Tenders were not invited as the offers received on the establishment of the service were considered reasonable.

Relaxing the Tension with a Good Gillette Shave

A day a-wing over enemy lines—scouting, observing, fighting, dodging shells and machine-gun bullets—is a nervous strain that has no precedent and probably no equal. When our airman alights at last, after flights an eagle might envy, they certainly do enjoy the refreshing relaxation of a cool, smooth Gillette shave.

Nor is this appreciation of the Gillette Safety Razor limited to our airman, or even to our own British armies. Every service has its own tense moments, hours or days, with its welcome intervals of relaxation when the Gillette is a friend indeed. Keen, compact, always ready for action, the Gillette Safety Razor is treasured in tens of thousands of kits on every fighting line on land and sea—and by no means least in the land of its birth, with the forces of our newest Ally.

Nor does its service end here, for "the man behind the gun", who in the factory, the office or on the land is bending every energy towards production—he too gets solid comfort and satisfaction out of the Gillette Safety Razor and its wonderful three minute shave.

Spend a five dollar bill to send a Gillette to one of your defenders—and get one for yourself to see how much he'll appreciate it!

ABSOLUTELY DRY AT CAMPBELLTON

Campbellton is dry. There is no doubt about that even those opposed to prohibition admit that.

Since May 1st there has been only one arrest for drunkenness and that was "left over" from April 30th. This is most unusual especially at this season when men are going to and returning from the drives.

Our illegal seller, who for some years has been illegally selling to both white people and Indians is now before the court for sentence. This party was observed hiding a quantity of liquor out of doors and the police came along and seized it.

Campbellton is surely dry. Let us hope it continues so.

THE DRIVES

The water in the small streams has been at good height and drives are all coming along. Some are in, and many new logs have reached the booms.

Some Facts Worth Knowing

Did any one ever see the name of any Upper Canadian firm on the subscription list that is being made up locally for the Y. M. C. A., the Patriotic Fund, the Canadian or British Red Cross Fund, for the soldier boys, etc., etc.

Again, scan the assessment list at the Town building and see if you can discover how much these out-of-town business houses are assessed, thereby finding out to what extent their money is being used to defray the costs of roads, building schools and public works of other kinds.

No matter how minute or how prolonged the scrutiny along the lines suggested, one must discover that not one cent of the money sent out of town, county and province returns to carry on the works as above referred to.

Were our town and county merchants not called upon to pay heavy taxes, and were they passed over by those seeking aid for the prosecution of patriotic and charitable work there is no doubt that they, being then to a certain extent on an equal footing with the outside dealer, would be in a position to offer a tempting bait which would be the means of securing more of your business.

But we must keep in mind that it is to those who are conducting our stores that we look for the greater amount of money for the town and county coffers and also we believe from them come the major portion of the amounts figuring as public voluntary lists.

A community without stores would be a pretty mean place in which to reside. Stores without business are impossible. Now what about those who are buying out-of-town articles which might be purchased in town. Are they not pulling in the direction of a storeless community and are they not whenever they sent a cent out-of-town that might have stayed in town, cutting down the town revenue as well as striking a blow at our voluntary contributions?

How is the money raised to buy fire apparatus, clean our streets and do the hundred and one other things that is done by the town? By taxation, everyone knows that. And what are the two broadest divisions in property? Why residential and business of course. And which is the more valuable? Business property, you will reply.

We are going along nicely now. But if the value of our business properties be reduced, the amount of taxes the town will be able to get from that source will be lessened. That is self-evident, isn't it? But the town clerk and the fire department and the policemen and all the rest of it have got to be paid. The money has got to be raised.

Therefore, if you lower the amount you can get from business property, you increase the taxes on residential property. There is nothing deep about that. Anyone can see it. But the question is, is it really true that a wink is as good as a nod to a blind horse?

The man or woman who does not spend money at home, but sends it away, builds up the value of business property in other cities, reduces the value of business property in his own town, and sooner or later is the cause of an increase in his taxes. It is one of those laws that we can't away from. Let's get in harmony with it and quit trying to beat the game. It can't be done. Buy at Home All The Time.

There are many excellent reasons why the people of this district should buy everything they want in some city, any place but their own town. Here are only a few of them:

- (1) You will then starve your own merchants, force them to reduce their stock, reduce their staff and force these merchants and their clerks to go away to some other community.
- (2) You will depress the value of all business property, which will force the assessors to raise the taxes more largely off your property.
- (3) You will stifle civic pride and drive your sons to other cities because their own town has become so slow and dead that there are no opportunities at home.
- (4) You will build up other towns, nurture them and develop them into big cities.
- (5) You will gradually make your town a sleepy, drift little hamlet in which you will yourself fall asleep and there will be no industries or life come to awaken you.

THIS is the "BUY-AT-HOME" movement. It has big possibilities. This Province is too big and fine to go to seed.

Are we willing to keep our money at home so that our Province may have the life blood that will make it strong and radiating with energy? **BUY AT HOME. BUY AT HOME ALL THE TIME.**

The Preference.**
