## OFFICIAL VISIT OF DISTRICT GOVERNOR MARKED SPECIAL OCCASION FOR ROTARIANS HERE

**Enthusiastic Gathering At Dinner In Chateau Restigouche On Monday Evening In Honor Of Governor's Visit—Well Known Rotarian Pleased With Local Club And Satisfied With Work Being Done In District No. 32—Gave Fine Address On Rotarian Activities.**

The Chateau Restigouche was the scene of a large gathering of local business and professional men on Monday evening when members of the Campbellton Rotary Club and their guests gathered there for a luncheon in honor of the visit of Mr. John Young of Sydney, N. S., Governor of Rotarian District No. 32.

Governor Young's interesting and instructive address was the feature of the evening and he won a good hearing and much hearty applause. Over thirty rotarians and guests were in attendance. An appetizing and well prepared dinner added to the enjoyment of the occasion and the singing of lively rotarian songs added much to the jovial spirit of the hour. Messrs. H. B. LeRoy and J. L. Belyea were each called upon for a solo and the selection of each singer was received with well-merited applause. Rotarian H. A. Carr presided as Chairman and introduced Mr. Young.

### The Chairman.

In presenting the guest of honor Mr. Carr pointed out that Governor Young was a man well up in Rotary and impressed upon the gathering the significance of the occasion of his visit here. The Chairman further pointed out that there must be a very real value in Rotary to justify Mr. Young in taking so much time off from his own business duties in order to visit all the Rotary Clubs in this district. He reflected upon this fact as an indication that there must be much in store for members of this newly formed club.

### Governor Young

In opening his address Governor Young stated that he had, at the time of the presentation of its Charter to the Club and since then, heard a great deal about the Rotarian organization here and declared that he had looked forward to meeting fellow rotarians in Campbellton.

In the early stages of his speech Mr. Young drew vivid word pictures of many of the outstanding men in Rotary International and briefly explained some of the advantages of belonging to this great world-wide organization.

### Responsibility of Officers

The speaker pointed out that the most important men in Rotary are the presidents and secretaries of the local clubs. Upon them largely it depends whether a club will be a successful one or not. Mr. Young also dealt with the matter of classification, pointing out that since various businesses and professions could be represented by only one member, it was important that each man recognize his responsibility to the club. "Each member has a definite responsibility," he declared, "for they, with the president and secretary much carry on the work of Rotary."

### Conventions

The speaker also emphasized the value of Rotarian conferences and conventions. He spoke in some detail of the great gathering at Cleveland, Ohio, where 10,200 delegates from Clubs all over the world had been in attendance. He further recalled the Governor's Convention in Chicago where out of the fifty-four Rotarian Governors, fifty-two had registered for the event.

### Rotarian History

Mr. Young then cited some interesting Rotarian history which showed the rapid growth of the rotary movement, its small beginning in the offices of a few business men in the States and the great proportions which the undertaking had finally achieved. In 1914 the first Rotary Club in Canada was formed at Winnipeg. Now there are 2095 clubs with a total membership well on to the 10,000 mark. Last year the revenue from Rotary totalled over \$800,000.

### District Conference

Governor Young also spoke of the coming District Conference to be held at the Admiral Beatty Hotel in St. John on April 22nd and 23rd, next. He pointed out that all meetings would be held in the hotel and urged local rotarians to bring their wives as arrangements had been especially made for their accommodation and amusement. The First Vice-President of Rotary International would be there and those attending would be privileged to meet and become acquainted with him.

## NEW VENDOR PAYS THREE FINES

**Andrew Savoie of Kedgwick Celebrates Appointment by Paying \$150 and Costs.**

The appointment of Andrew Savoie, of Kedgwick as a liquor vendor for that town was greeted in the Royal Gazette on Wednesday.

On Wednesday, Mr. Savoie appeared before Magistrate Matheson here, and was found guilty of three offences against the N. B. Liquor Law, and was fined \$150 and costs. H. A. Carr, Esq., the new prosecutor made his first appearance as such at this court.

quainted with many of the outstanding men in Rotary. Mr. Young further stated that a splendid program was being prepared which would ensure a memorably enjoyable time and expressed the hope that the Campbellton club would be well represented there on that occasion.

### Rotary Work

Again taking up the subject of Rotary Work, Mr. Young explained that at a recent convention it had been decided to put on a special programme. When formulated, this was submitted to the Governors for their approval. These officials had approved of it and in turn will introduce it to the various clubs. Continuing, the speaker pointed out four things which he asked that Rotarians here particularly emphasize during the coming year. These were Rotary Education, Boys Work, Business Methods and Classification.

In dealing with the subject of Rotary Education Mr. Young pointed out that the keener interest a member took in Rotary the more enjoyment he would derive from being a member. He expressed thankfulness over the fact that most men who enter Rotary realize there is much more to it than the weekly luncheon. He pointed out that this item in itself was important every member should be in attendance at these gatherings, the feeling of fraternity inspired by calling each other by his first name makes for an intimacy that develops better relations between men everywhere. "The value of the luncheon at any kind of a meeting cannot be denied," declared the speaker, "but it is in a faithful study of the high principals of Rotary from which the biggest return is derived."

### Boys' Work

"If we are going to make this country great," said the Governor, in opening his discussion on boys' work, "we will have to look after our boys—the citizens of tomorrow." The speaker endeavored to impress on his hearers the need of effective organization and persevering work in this connection. The Chairman of the Boys' Work Committee in Rotary had a very definite responsibility and also an opportunity for service which should not be overlooked," declared the Governor.

In speaking on Business Methods the speaker emphasized the value of fairness, honesty and a co-operative spirit in business life. He pointed out that all too often there is a lamentable selfishness existent and pleaded for more generosity and a broader minded attitude toward competitors in the business world.

The Governor also made a plea for unity and strength in Rotary work here. He noted with satisfaction that the club here had increased its membership and he expressed himself as well pleased with the work being done in Campbellton. He spoke of the likelihood of a club being formed in Bathurst and reflected on the progress being made in District No. 32. In closing he extended to fellow rotarians here his best wishes for the coming year's activities.

## CURLING CLUB ELECT OFFICER

**New Officers, Directors and Committees Chosen at Meeting Last Evening.**

At a meeting of the Campbellton Curling Club, held last evening the following officers, directors and committees were chosen:

President—Geo. G. McKenzie.  
Vice-Pres.—H. V. G. Bridges.  
Sec.-Treas.—D. C. Firth.

Directors  
N. C. McKay, Jas. E. Miller, Geo. F. Miles, Colin McKenzie.

Match Committee  
A. H. Russell, F. J. McRae, D. L. McLean, Colin McKenzie, Dr. McNichol.

Schedule Committee  
H. M. Armstrong, W. R. Millican, A. A. Andrew.

Ice Committee  
R. K. Shives, H. R. Barnes, A. H. Troy.

Games Committee  
Geo. S. Kerr, R. K. Shives, Jas. P. Jardine, J. T. Mowat.

Entertainment Committee  
H. R. Smith with power to add. The matter of sending delegates to the Caledonian meeting at Moncton on Dec. 10th was left with the Directors.

The selfish suffers more from his selfishness than he from whom his selfishness withholds some important benefit.—Emerson.

## SCOTSMEN TO DINE AT THE CHATEAU

**Caledonian Society of Restigouche To Hold Annual St. Andrew's Night Banquet There—New Officers Elected.**

At the annual meeting of the Caledonian Society of Restigouche, held in the Town Hall on Friday evening, the following officers were elected for the coming year:

President—W. F. Yorston.  
Vice-President—D. Murray, M. D.  
Sec.-Treas.—H. R. Smith.  
Piper—H. M. McLennan.  
Chaplain—Rev. E. B. Forbes.  
Marshalls—F. E. Shephard and Geo. G. McKenzie.

Executive—M. Mowat, John A. Bisset, J. S. Benson, Alex. McLennan and H. M. McLennan.

The above officers will be duly installed on Nov. 30th.

There was a large number of the members of the Society present, and it was unanimously decided to hold the annual banquet at the Chateau Restigouche on St. Andrew's night, Nov. 30th. For this purpose a strong committee was appointed to make all arrangements for the occasion.

## LOCAL RESIDENCE BURNED TUESDAY

**House Owned By Mrs. Thos. LeBlanc Badly Gutted By Fire.**

Fire which broke out about 8.30 o'clock on Tuesday evening badly gutted the residence of Mrs. Thos. LeBlanc on O'Leary Street and occasioned a heavy loss. The owner had \$1500 insurance on the building and \$400 on her furniture. This, it is thought, will be a fair covering of the loss.

Owing to the fact that the alarm was rung in somewhat late the brigade was unable to check the blaze. The fire, however, was confined to the interior of the building and no nearby dwellings were endangered.

The origin of the blaze is unknown as there was no one in the house at the time.

## DR. WIGLE HERE ON SUNDAY LAST

**Principal of Mount Allison University Preached At Wesley United Church And Gave Fine Lecture On Monday Night**

Rev. Hamilton Wigle D. D., Principal of Mount Allison University, College, preached in the Wesley United Church at the anniversary service on Sunday Nov. 15. Dr. Wigle is a preacher of exceptional ability and his sermons were well received and thoroughly enjoyed by the large congregation. The offering for the day amounted to \$528.

On Monday night in the auditorium of the church Dr. Wigle gave a lecture entitled "The Romance of the Will." The members of the St. Andrews Young Peoples Club were the guests of the Y. P. S. of the Wesley United at this lecture. At the close of the lecture the young people adjourned to the Church Hall where a short programme of music and reading was given. The programme was as follows:

Orchestra. Reading, Mrs. R. E. Matthews. Duet Rev. and Mrs. Godfrey. Reading Mr. J. R. Vallis. Orchestra. Reading Mrs. F. P. Wetmore. Male Quartette Messrs. Reid, LeRoy, Vallis and Godfrey. Orchestra.

The programme was arranged by H. C. Burley. Every number was well received especially the selections by the seven piece orchestra. Mr. F. J. Cuthbertson President of the Y. P. S. acted as chairman. Rev. Mr. McNair spoke briefly thanking the members of the Y. P. S. of the Wesley United for the pleasant evening. Mr. Cuthbertson made a fitting reply. Refreshments were then served after which the meeting dispersed.

## MASONIC BODY GETS WARRANT

**Members Of Trinity Preceptory And Visitors Dine At St. Louis Hotel**

Trinity, Preceptory, No. 67, recently organized here was presented with its Warrant in the Masonic Temple on Saturday night.

The presentation was made by H. A. Porter of St. John, Deputy Supreme Grand Master of Canada, whose brief address was most interesting. Chas. A. Alexander, Eminent Preceptor of Trinity Preceptory, who accepted the Warrant on behalf of the Lodge here, also made appropriate remarks. In addition to local members there was a large number present from outside points, Chatham, Newcastle and Moncton all being represented.

Dined At St. Louis

After the presentation ceremony the members and their friends adjourned to the St. Louis Hotel where a banquet was held to further celebrate the occasion. Being taken unaware while without his usual assistance in directing such affairs, Mr. Thompson was reluctant to undertake to cater at such a dinner, but the genial proprietor personally supervised every detail and the banquet was a huge success. Music and singing furnished by Miss A. MacPhail and Mrs. F. W. Campbell also contributed to the enjoyment of the evening and was a feature which evoked much applause.

The menu of the dinner follows:

Olives Cream of Chicken Turnips  
Roast Chicken  
Carrots Beets Celery  
Ice-Cream and Cake Milk  
Tea Coffee

## GUilty OF MURDER BUT DECLARED TO BE INSANE

Winchester, England, Nov. 18.—Thomas Towers, former first officer of the Canadian Pacific liner Melita, was adjudged guilty of murder but insane, and ordered to be detained "during the King's pleasure" at the conclusion of his trial for the murder of Captain A. H. Clews, of the Melita at Antwerp on October 21.

## VENDORS NAMED FOR RESTIGOUCHE

**The Political Axe Has Fallen And Many New Officials Are Named**

The Royal Gazette published Wednesday is of more than passing interest, and contains the names of a large number of officials who have been dismissed and names of new officers appointed.

This list in part is as follows:

Appointments Made  
H. Boulay of Kedgwick, in the Parish of Grimmer, to be a Justice of the Peace.

H. Boulay of Kedgwick in the Parish of Grimmer to be a Parish Court Commissioner for the Parish of Grimmer with civil jurisdiction in place of D. F. Peters, dismissed.

A. P. N. McLaughlin to be a Justice of the Peace.

It will be noticed that Mr. Boulay has received his reward "for services."

New Liquor Inspectors  
Messrs. Sanford Dickie and Seth Poley have been appointed inspectors for the town of Campbellton upon the recommendation of the local Alliance, and Mr. H. P. Doyle, Campbellton and Leon Pelletier, St. Quentin for Restigouche county.

## Liquor Vendors

The following have been appointed liquor vendors for Restigouche county:

Nancy Mercier, retail licensee, Dalhousie; William A. Gallop, plumber, Dalhousie; Auguste Belanger, merchant, Campbellton; Andrew Savoie, Kedgwick; Henry Cormier, Campbellton.

There is only one objection to the Campbellton list, and that no druggist has been appointed. There are many people who object to go to other than a druggist to have a prescription filled.

Dismissals  
The following dismissals have been gazetted:

D. F. Peters, of Grimmer, Restigouche County, as Parish Court Commissioner.

M. A. Kelly of Campbellton as clerk of the peace of Restigouche.

Besides these the former Liquor Inspectors have received notice of dismissal.

## CELEBRATES HIS 80TH BIRTHDAY

**Many Friends Of Andrew Landry Gather At His Home For The Occasion**

Charles, N. B. Nov. 14.—The home of Mr. Andrew Landry was the scene of a happy event on Tuesday evening when a number of friends were invited there to celebrate his eightieth birthday.

The evening was very pleasantly spent by the large number attending, cards, dancing and music being the chief amusements. Mr. Landry proved himself 80 years "young" by dancing a set of quadrille. He also sang a number of favorite songs and gave a short talk on present day conditions as compared to when he was a boy. He recalled having started to start the morning fires when he was but a few years old. He also mentioned the old modes of travel and how the necessities of life were conveyed from place to place before railroad facilities were available. In spite of his advancing years Mr. Landry is enjoying remarkably good health and has a wonderful memory.

The party broke up at about 1 a. m. All wishing Mr. Landry many more happy birthdays.

## GIRL HOCKEYISTS TO PLAY AGAIN

**"Red Wings" Plan To Take The Ice Again This Season**

It is understood that the "Red Wings", the Campbellton ladies hockey sextette, will be re-organized for the hockey season this year. Just what players will constitute the lineup this winter is not definitely known yet but it is not thought there will be any dearth of good material. Last year this sextette of vivacious young hockeyists gave abundant promise of good work with further training and ability predict some conquests for them this season. The necessary officials will be appointed and a tentative lineup decided on in the next few weeks.

## OUTLOOK PROMISES WELL FOR A RECORD-MAKING SEASON IN HOCKEY HERE THIS WINTER

**Organization Meeting Set For To-Morrow Night In Firemen's Rooms When Large Attendance Of Sport Devotees Is Hoped For—Strong Squad Likely This Year—Nearly A Dozen Fast Players To Choose From.**

## PRESBYTERIANS AT NEW CARLISLE

**Continuing Church Organized In All Its Different Phases—The Officers, Etc.**

New Carlisle, Nov. 16.—The Continuing Presbyterian Church which was organized here about October 15, has a membership of fifteen besides about sixty adherents. The Rev. T. Joplin has conducted the services for irgs which are being held in Orange ings which are being held in the Town Hall here are well attended. The congregation has appointed its various church officers these are as follows:

Church Session—Elders T. J. Caldwell and J. O. Sherar.  
Board of Managers—Messrs. Digby Smollett, George Caldwell, Harry Smollett, George Gilker and Norman Sherar.

A Women's Missionary Society has also been formed. There are fifteen members enrolled and it is expected this number will be increased in the near future. A Sunday School has also been organized with some twenty pupils attending. The officers and teachers are as follows:

J. O. Sherar, Supt., Mrs. Geo. Gilker and Miss Leora Smollett, teachers; Miss Frankie Cook, Secretary-Treasurer and Organist. Miss Rena Caldwell, the church organist, is at present training the children for a Christmas entertainment.

On Wednesday of last week the Woman's Missionary Society gave a Chicken Supper and the affair was most successful, the sum of \$73.50 being realized.

## HEAVY WIND

The wind gauge at Point Escuminac Monday night, registered a mileage of 45 per hour for Boreas on that occasion. The storm was general over the province and near Fredericton, two barns were blown to the ground.

## ANNUAL MEETING OF LOCAL LODGE

**Lady Carson Lodge Shows Splendid Financial Condition New Officers Elected.**

The annual meeting of Lady Carson Lodge, No. 317, L. O. B. A., was held in the Oddfellows' Hall, Tuesday evening, Nov. 17th. A pleasing feature of the meeting was the excellent address of the W. M. Sister Annie Ellsworth in which she emphasized the fact that Lady Carson Lodge, organized six years ago as the first Lodge of the Ladies Orange Benevolent Association in the town, had grown numerically and financially, till it was one of the most influential Ladies Lodges in British America. After reception of application and initiation of members, the Lodge settled down to election of Officers which resulted as follows:

Sister Annie Ellsworth—P. W. M.  
Sister Mary Mann—W. M.  
Sister Cassie Malcolm—D. M.  
Sister W. Duncan—Chap.  
Sister J. O. McLaughlin—R. Sec'y.  
Sister Evelyn Dobson—Fin. Sec'y.  
Sister Bertha V. Graham—Treas.  
Sister Sarah McCallum—D. of Ceremonies.

Sister Alma Duncan—1st Lecturer.  
Sister Lillian Duncan—2nd Lecturer.

Bro. Stewart McLaughlin—Guard.  
Bro. T. McLean—O. Guard.

Committee.—Sisters Dobson, Ellsworth, McCallum, McLaughlin and Duncan.

Sister McLaughlin and Bro. Graham—Auditors.  
Bro. Graham—Guardian.

Bros. McCallum, Graham, Sister Evelyn Dobson—Trustees.  
Refreshments were served and a social time spent.

## SEVERE EARTHQUAKE SHOCK IN AUSTRALIA

Centre of Disturbance Likely in Philippine Islands  
Sydney, N. S. W., Nov. 14.—The Riverview Observatory recorded a severe earthquake shock at 10.24 of historic Rossmore Guildhall, where the Emperors of mediaeval Germany were chosen by the electors. When the president appeared on a balcony thousands of voices broke into the National Anthem.

## Strong Line-Up

According to information given out by officials of the local club the line-up of Campbellton's senior team this season will be as strong, if not stronger, than other years. There will be at least ten or eleven players to pick a regular line-up from this season. LeBlanc, MacKenzie, McLean, Matthews, Wilkins, Howard, Lavolette and Ferguson are all here and Thomas and Sharpe are expected home before the hockey season opens. Miller will also be home for the Christmas holidays and will be able to play in the first five or six league games. In addition to this fine hockey material there are a number of younger players who are rounding out in promising form and anxious to graduate into faster hockey. In Campbellton, should this year, have a dependable "sub" reinforcement. With proper handling and support the Campbellton hockey team should make a new record this coming season.

## The Coach

As for the training and coaching of the team it is hoped that the Rev. W. S. Godfrey will again assume this responsibility this season. If he does again take charge as the head, it is almost certain to bring out their very best in closely organized play.

This matter of course, has not yet been decided. The coach, and all other club officials will be elected at Friday's meeting.

Considering the facts already set forth, the outlook for the coming season is exceptionally good. So far there is only one thing lacking and that is the absence of a fitting interest on the part of the general public. It is hoped that this attitude will be abruptly changed by a record attendance on Friday night when the work of organization will be undertaken.

## CANADIANS WILL VISIT SCOTLAND

**Canadian Curlers Will Leave Canada on New Year's Day—The Prince of Wales**

Montreal, Nov. 18.—The Canadian Branch of the Royal Canadian Curling Club received word here yesterday from Edinburgh, Scotland, that His Royal Highness the Prince of Wales, has consented to preside at the banquet to be tendered the visiting curlers early next January at Edinburgh.

The Canadian team which is composed of thirty-six curlers embracing clubs from the Atlantic to the Pacific will leave Canada on New Year's Day, embarking from St. John, N. B., on the S. S. Montrose. The team is expected to reach Glasgow on January 8.

The following curlers will represent New Brunswick Branch—Hon. Senator Clifford W. Robinson, K. C., Moncton Curling Association; Frederick C. Beatey, St. Andrew's Curling Club, St. John; Elbridge P. MacKay, Bathurst; Reginald K. Shives, Campbellton; John S. Malcolm, Thistle Curling Club, St. John.

Nova Scotia Branch—D. L. Fraser, Bridgewater; A. A. Gunn, Pictou.

## VON HINDENBURG IS VERY POPULAR

Frankfort-on-Main, Germany, Nov. 14.—The enthusiasm with which President von Hindenburg has been greeted throughout his visit to Southern Germany reached its highest when he reached here yesterday. Twenty thousand people took part in the meeting accorded him in front of historic Rossmore Guildhall, where the Emperors of mediaeval Germany were chosen by the electors. When the president appeared on a balcony thousands of voices broke into the National Anthem.

## DARE-DEVIL FEAT OF CANADIAN AIRMAN

IN 20,000 FT. JUMP

Flight Lieut. Carter, of the Forest  
Patrol Service, Miraculously  
Escapes Death in Leap From  
Clouds.

High River, Alta., Nov. 16.—While  
hundreds watched breathlessly from  
the streets of High River on Satur-  
day, Flight Lt. A. Carter made a  
parachute jump from a height of  
20,000 feet, off a forest patrol service  
plane and miraculously escaped death  
or serious injury when he landed  
within 100 feet of the ice covered Big  
Lake, 11 miles east of High River.

Pulling the release cord as soon as  
he was clear of the machine, Lt.  
Carter dropped from a point nearly  
four miles up from where the tower-  
ing Rockies looked like an Arctic ice  
field and was carried several miles  
east by the cliff breeze that was  
blowing to the edge of the lake, in  
17 minutes, where he made a normal  
landing, striking the earth gently  
with his feet. This dare-devil feat  
is exceeded only by the world record  
of Captain Arthur Stevens, of the  
United States Air Service, who jumped  
26,000 feet. It is believed to be  
the highest jump ever made outside of  
the United States.

In Tripolitania there is a tribe  
which is popularly referred to as the  
"mole men" from their habit of living  
underground. Their geographic name  
is Troglodytes and for centuries they  
have lived in burrows into the ground.  
The entrance alley comes out on to  
the surface at an angle and leads to  
an opening from 20 to 30 feet square  
and from 30 to 40 deep. From this  
there are many rooms which are oc-  
cupied by the different families. These  
rooms are all properly ventilated by  
a system of small passages.

## Every Requirement Here For Large And Successful Woodworking Industrial

**Lack Of Initiative The Only Apparent Reason  
Why Prosperous And Permanent Manufactories  
Of This Kind Are Not Established Here—  
Woodlands Of New England Made A Source Of  
Revenue In This Way—The Promotion Of Tree  
Growth.**

From the Crown Land Department  
at Fredericton comes an article which  
tells how many small, but permanent  
and prosperous, wood-working in-  
dustries have been established in the  
New England States and, getting  
their supply of raw material from  
local woodlots, are carrying on a  
large manufacturing business in boxes  
wooden pails, toys and various other  
wooden articles in every day use.

Because this could be of particular in-  
terest in this part of the country, we  
reproduce it below.

Reading the article will promptly  
raise the question: "Why couldn't  
similar wood-working industries be  
promoted here with equal success?"  
And it is a reasonable question. With  
a wealth of wood, both hard and  
soft, this district is most admirably  
suited to enterprises of this kind. Raw  
material of the kind that would be  
wanted for such factors, is practically  
unlimited and power and shipping  
facilities are at hand. This district  
is naturally equipped to lead in in-  
dustries of this kind and apparently  
it is only due to lack of initiative that  
Campbellton and this vicinity have  
no manufactories of this class.

The article, entitled "Farmers  
Woodlot: A Perpetual Source Of Re-  
venue" touches on the subject of re-  
forestation, follows:

In certain parts of New England an  
interesting situation has arisen which  
may be an indication of the coming  
relation between the wood using in-  
dustries and their raw material, trees.  
In that corner of the United States  
may be found many small industries,  
saw mills, box factories, ice cream  
pail manufactories, wood turning  
plants, all old established permanent  
businesses, manufacturing articles for  
daily use and drawing on the sur-  
rounding woodlands and farm wood-  
lots for their raw material. The own-  
ers of these industries are not worried  
about the predicted timber shortage.  
Established 25, 50, even 75 years in  
the same locality. For them no  
timber famine is visible. In some  
instances the third generation is mak-  
ing the same articles their grand-  
fathers had made. Improvements  
and changes? Yes. New Machinery,  
new methods, higher wages, better  
roads, auto trucks, railroads and  
steamships to transport their products  
instead of the old square riggers; but  
the same old raw material, wood,  
growing in the same place.

Such was the picture presented to  
the members of the New England  
Section of the Society of American  
Foresters at their summer meeting on  
the 3rd, 4th and 5th of August in  
York County, Maine. They saw a  
similar picture in the vicinity of  
Athol, Petersham, Gardner and  
Winchendon, Massachusetts in relation  
to the pine boxboard industry and  
grazing in localities in Massachusetts,  
Maine and New Hampshire where are  
wood turning industries producing  
from White Birch the many small  
wooden articles we use every day  
about the house without giving a  
thought to their origin, little knobs on  
the covers of pots and kettles, the  
wooden handles of kitchen utensils,  
wooden candlesticks, wooden toys.  
All of these industries are based on  
the aggregate millions of board feet and  
thousands of cords of wood annually  
and drawing on the surrounding  
woodlands for it just as they did in  
1900 and 1875.

This does not seem to agree with  
the stories of forest devastation and  
much of, abandoned mills and saw-  
mill towns, burned over forests.  
Neither does it describe the condition  
in our maritime provinces, where we  
see the wrecked woodlots where the  
portable sawmills and lath mills have  
taken their toll and passed on to the  
next uncut timber without giving  
thought to the future and the perpe-  
tuation of their own timber supply.

This summer meeting of the New  
England Foresters took place in one  
of the oldest settled parts of the  
State of Maine. Their excursions  
centered about the old shire town,  
Alfred, within an hour's ride of the  
well known summer resort. Old  
Orchard, and the prosperous indus-  
trial city and port of Portland. Near-  
by is a remnant of the once flourish-  
ing Shaker settlement established in  
1731. Not far away, near Salmon  
Falls on the Saco River is Quilley,  
the summer residence of Kate Douglas  
Wiggin. At Burton Lower Corner  
is the Tory Meeting House, the scene  
of the "Old Peabody Pew". Set back

from the elm-shaded trees of Alfred  
and the other villages are the large,  
white-painted houses extending back  
seemingly interminably through a  
series of sheds to the well-kept barns.  
There lived the men who made their  
mark in the building of the State of  
Maine.

Here, in the first half of the last  
century, flourished farming and the  
white pine logging industry which  
gave Maine the name of the "Pine  
Tree State". With the passing of  
the virgin pine, the large sawmill  
passed also, and with the opening of  
the west, many farms were abandoned  
by those filled with the pioneer spirit.  
Now may be seen the old cellars,  
stone piles, moss covered stone walls  
of the abandoned farms amongst  
stands of second growth white pine,  
the raw material of the wood using  
industries of that region today. A  
network of good roads connects the  
villages and the larger cities and se-  
ports. Along these roads rush the  
summer tourists past pine groves,  
prosperous farms, small sawmills,  
piles of boxboard lumber. They do  
not stop to note that in one locality  
the trees stand in straight rows, eight  
feet apart, showing the foresight of  
an old-time lumberman, now dead,  
who felt that a planted forest would  
perpetuate the value of his land.

The summer tourist passes what he thinks  
is a bit of pine woods like the rest. If  
he stopped to cut his lunch under the  
shade he might, if he were more ob-  
servant than the average, note here  
and there some stumps and clumps of  
white pine seedlings, without being  
aware of the restraint and foresight  
of a flannel shirted lumberman who  
"called" he would make a light cut  
and come back in a few years, after  
some young pines had got started,  
and cut the rest. The passer-by, on  
his two-weeks vacation from his desk  
in the city, is quite oblivious of the  
great economic change that is taking  
place in the lumbering industry and  
what it portends for eastern North  
America, especially for regions such  
as New Brunswick and Maine, where  
the greatest part of the wealth is in  
the forests and the dependent in-  
dustries.

Here the foresters saw how this  
had come about. A sawmill operator,  
took them through his timber lots  
where they saw white pine seedlings  
freed by "wedding," that is, by  
cutting out the overshadowing hardwood  
sprouts and brush; cuttings made in  
a seed year to secure reproduction,  
grazing in abandoned pastures, where  
the cattle had unwittingly aided in  
the establishment of a crop of white  
pine by eating the competing grass  
and hardwood leaves and twigs. An-  
other small operator demonstrated the  
bad effect of cutting a white pine  
stand clean and showed where he had  
left groups of seed trees. And the  
sawmill men discussed with the  
foresters the methods of cutting to be  
adopted. How should this lot be cut  
to get the best reproduction? Should  
that lot be thinned now or could it be  
left as it is a few years longer until  
prices had improved a bit? All of  
these are vital matters, where ordinary  
boxboard stumpage is worth \$10 and  
the best quality pine sometimes as  
much as \$20 per thousand board feet.

Over eight million feet of pine is  
cut each year in one small community  
and, by following out the present  
policy, this community is confident  
the mills will never have to close  
down. These timberland owners and  
farmers are turning to intensive  
forest production and are beginning  
to apply the principles of silviculture  
in managing their woodlands. They  
have realized the importance and  
value of the forest crop to the pros-  
perity in the County. It goes hand  
in hand with the agriculture in the  
community life. The period of  
"timber mining" and speculation has  
passed and York County has settled  
down to permanent and intensive  
forest production.

This is merely an indication of  
what must take place in all commu-  
nities where there is land suitable  
for raising trees. This is bound to  
happen in the old settled regions of  
eastern Canada. It must come in the  
maritime provinces as soon as econ-  
omic conditions warrant. And who can  
say that time is not already at hand  
and that it would not be sound busi-  
ness and common sense to manage  
our woodlands for the maximum pro-  
duction of timber and the perpetua-  
tion of our wood using industries.

## CANADA WOULD PAY DEARLY FOR LOAN

London Underwriters May Have  
to Take 90 p. c. of Gold  
Coast Issue.

London, November 16.—Sir John  
Aird's remark to the Canadian Bank-  
ers' Association that it might be fair-  
ly inferred from the removal of the  
British embargo on Dominion loans  
that the British money market would  
be open to finance legitimate Cana-  
dian enterprises has received consid-  
erable interest in London financial  
circles.

Indications are, however, that  
though with the dollar exchange al-  
most at par it would be quite feasible  
to raise Canadian loans here, it would  
be necessary to pay rather dearly for  
the accommodation.

Two colonial loans, one for west-  
ern Australia, and the other for the  
Tasmanian government are for in-  
stance, being offered here Monday at  
a price which gives a yield of over 5  
per cent.

The reason is that the recent Gold  
Coast loan which was offered at a  
somewhat lower return, was so un-  
sympathetically received, and the un-  
derwriters will probably have to make  
up more than 90 per cent of it.

was with full military honors and  
was held on Wednesday morning im-  
mediately after the memorial service  
in St. Andrew's churchyard. Ser-  
vices at St. Andrew's Church and at  
the grave were read by Rev. W. J.  
Bate. After the service at the church  
the funeral lined up in the following  
order:

Band, playing Dead March.  
Major Ritchie, O. C. 90th Battery,  
mounted.  
Firing squad, under command of  
Major A. L. Barry.  
Remains on gun carriage, draped  
with a Union Jack.  
Pallbearers, who were three vet-  
erans of the South African War, Os-  
borne Matherson, Freeman Matherson,  
Stafford Lindon, and three veterans  
of the World War, Robert J. Adair,  
Wm. Sheppard and J. P. Manderson.  
Mourners.  
Scouts and Cadets under Scout  
Master.

General Public.  
After the service at the grave, the  
salute was given and the Last Post  
sounded, ere the remains were laid  
to rest in the Miramichi cemetery.  
A number of beautiful floral tri-  
butes were received, including  
wreaths from the Family, G. W. V.  
Lion. Since armistice he has been A. C. Co., 132nd Battalion, 90th  
a member of the 90th Battery, C. F. Battery, Canadian Cressote Co., and  
employees of the Canadian Cressote

## PROSPECTS BEST IN PAST 2 YEARS

Outlook In Canada More Favor-  
able In Opinion of Sir  
John Aird

Toronto, Nov. 16.—The present  
prospects in Canada were much  
more favorable than at any previous  
time during the last two years, Sir  
John Aird, retiring president of the  
Canadian Bankers' Association, de-  
clared here at the annual meeting of  
the association in the course of a  
studied survey of the banking and  
financial outlook of the dominion.  
With a splendid crop, he asserted, in  
all parts of the country and with  
reasonably good prices there was a  
general improvement in business  
everywhere and it was a matter of  
gratification that western farmers  
were discharging old obligations from  
the proceeds of the crops and were  
improving their financial positions  
accordingly.

## MIRAMICHI SOLDIER IS BURIED WITH MILITARY HONORS

The death of Sergeant Major Wil-  
liam Kitchen occurred at the Mira-  
michi Hospital, Monday, November  
9th, at 11 a. m. after being a pa-  
tient there for six days.

Deceased had contracted a cold  
from which he partly recovered, but,  
returning to his work at the cre-  
cote plant, suffered a relapse, which  
resulted in pleurisy and inastoids.  
He was a son of late Mr. and Mrs.  
James Kitchen and was 45 years of  
age.

He is survived by his wife (nee  
Miss Georgina Chambers) and two  
daughters, (Beatrice) Mrs. Wilfred  
McCallum of Newcastle and Alma at  
home. Also surviving are two  
brothers Jack of Newcastle and Ho-  
ward in Tacoma, Wash.

Deceased was a veteran of the Boer  
War and also of the Great World  
War. He held the title of Sergeant-  
Major in the 132nd Battalion with  
which he enlisted, being transferred  
while overseas to the Forestry Bat-  
talion. Since armistice he has been A. C. Co., 132nd Battalion, 90th  
a member of the 90th Battery, C. F. Battery, Canadian Cressote Co., and  
employees of the Canadian Cressote

The funeral, which was very large, Co.

Measure out less than the usual  
quantity when you use Morse's Tea.

Unusual Strength!  Unusual Flavour!

## Just a Tip

TO MUSIC LOVERS AND RADIO FANS

Don't buy that Radio before hearing the  
atwater Kent. It will be on display at our  
store on Nov 1st.

CAMPBELLTON, N. B. NOV. 19, 1925

### MORE INTEREST NEEDED

Another hockey meeting has been called for Friday night at the Firemen's Rooms to organize for the coming season. A meeting was set for last Friday but so few attended that no business was transacted. It is to be hoped that such a demonstration of the lack of interest in sport will not be repeated. We must indeed be a decadent class of people if nine or ten persons fully represents the amount of sporting blood we have in Campbellton.

In another column of this issue will be found sufficient information concerning the present situation in hockey here to convey a good idea of the season's prospects. The outlook was never more promising for a record-making season. The only other requisite is the sympathetic interest and support of the general public. The team, no matter how well organized, cannot do its best if the players are led to feel that nobody "gives a hang". It is up to all lovers of clean, wholesome sport to make them feel different. And this can only be done by being on hand and ready to assist in the actual work as well as to cheer from the sidelines when a game is in progress. And that's that. Think it over.

### THE BOY PROBLEM

All who are interested in the problem of the boy offender will hear with satisfaction of the movement for co-operation between the three Maritime Provinces in providing the kind of home most likely to prove helpful in making a good and useful citizen out of the juvenile delinquent. One good institution, properly equipped and properly run, should be much more efficient than several provincial institutions all more or less wanting in efficiency. Co-operation of this kind is a practical step in the economic handling of those administrative problems which are a considerable part of the Maritime problem. Even if Maritime Union never comes, Maritime co-operation in the handling of such problems as that of the delinquent boy and girl is a practical expedient well worth attention and study because of the greater good that can be done in that way.

### THE LUMBER INDUSTRY

The President of the Canadian Lumbermen's Association, in a statement issued in Montreal, says that there will be a reduction of from twenty-five to thirty per cent. in the lumber cut this winter in the Maritime Provinces and in Quebec. He was correcting a previous report, apparently issued on the authority of the Federal Crown Land Department, that the cut would be up to or above normal.

President Champoux's statement confirms reports from various sections of the Maritimes. He says that, far from prospering, the lumbermen in Eastern Canada have encountered highly adverse conditions, and are now seeking a reduction in freight rates from Eastern Canada to New England points. They are making representations to the transportation companies suggesting that if freight rates were reduced by twenty-five per cent. the situation would be somewhat improved. One cause of the depression in Quebec and the Maritimes is competition from lumber shipped from British Columbia and the United States west coast, and reaching the eastern United States and Canada by way of the Panama Canal.

For a long time building has been normal throughout much of Eastern Canada, and this has added to the difficulties confronting the lumbermen.

In New Brunswick there is not only the high transportation costs to be considered. In addition to transportation and to the competition of western lumber, the New Brunswick industry suffers from higher stumpage charges than prevail in Quebec and Ontario. Lumbering is so important a factor in New Brunswick that reduced operations in that line tend strongly to delay the recovery of general business activity here. Indeed conditions in New Brunswick cannot be healthy until we begin to receive a fair return from our forest products, both through the marketing of lumber and from the increased production of paper, particularly the latter. —Telegraph.

THE TORONTO GLOBE SAYS:

Conservatives cannot be proud of some of the new members who have a past record that is not inspiring. To the election of DeWitt Foster in Hants-King's Nova Scotia; Garland in Carleton, Ont., and J. K. Fleming in Victoria-Carleton, New Brunswick, there is now added the case of R. B. Hanson, new member for York-Sunbury, who has been found guilty by the New Brunswick Bar Association of professional misconduct. Housecleaning by the party is in order.

### A CLEAN FIGHT

The election campaign just closed was remarkable in at least one respect—its freedom from charges of graft or crookedness. The government was attacked on its alleged failure to give the country the best government; there was practically no suggestion that it had been crooked in its dealings. The Progressives came under fire on the grounds that they had proved ineffective in Parliament. The Conservatives charged them with playing second fiddle to the government but there was no accusation that anything they had done was prompted by financial gain for themselves. The Conservatives were attacked on account of their policy. There was no charge that they sought to gain power by illegal or illegitimate means.

Slogans and epithets of old-time elections such as "Turn the Rascals Out," "Looters of the Treasury," "Dark Lantern Brigade," "Balloo-Box Stuffers," etc., etc., have not been heard during the campaign. The reason for this was that there was no basis for them. It is just possible that they had a basis in the so-called good old days of fierce party strife.

The whole trend, it would seem, is toward an era of cleaner politics in Canada. It is heartening sign. The electorate will be well advised to insist above all else on a decent standard of public life. This is of more importance than the winning of elections by any group of party.—Montreal Free Press.

THE "THANK YOU" HABIT

London Advertiser: The head of one of the largest retail stores on the continent offered \$5000 to anyone who would tell him how to improve his business methods. Students of economics came, investigated and retired to write reports; experts trooped in and returned with charts and diagrams. A young man saw about the contest, took a post card and wrote, "Tell your clerks to say 'Thank you.'" He romped off an easy winner with the \$5000.

On the strength of that there has been organized an "American Thank You League" to promote the idea of courtesy in business. The head of that such an organization should be necessary, because a man can learn in one short day in business the value of saying "Thank you" and of extending every other courtesy to those with whom he deals. One wonders how long the new-born league will last, but if it only survives long enough to put a little more kindness and a greater degree of the "Thank you" idea into life generally it will have done something.

The Porcupine Advance of Timmins in the following language deals with a local individual who never loses an opportunity of knocking his own town: "To the sneering gentleman, one word! If you know of a better town or a better people, why linger here? Why brand yourself as a silly soul by staying in a town from whence you say can come no good? Loyalty is the first law of good citizenship, and the man who is not loyal to his own town will have little spirit of loyalty for country, or for king. Every good town and every good country has been built upon the faith, the confidence, the loyalty of those who are ready to believe the best of their fellows."

It is gratifying to know that Canada's total wheat yield this year is 30,000,000 bushels greater than the preliminary estimate made by the Dominion Bureau of Statistics, the amount now being placed at 422,327,000 bushels. Of the thirty million excess difference, 27,306,000 bushels is for the single province of Saskatchewan, where threshing results have exceeded expectations.—Ex.

The tourist industry now ranks in third place among all Canadian industries, according to John R. Bone, managing editor of the Toronto Star, who has contributed a special article on the subject to the Boston Transcript. Mr. Bone bases his assertion on the estimates of Canadian Government officials and points out that in all probability \$150,000,000 will this year be derived from United States tourists alone. Last year the sum from this source of revenue was \$143,000,000 an amount which approached half the value of the wheat

crop and approximated, the whole mining output of Ontario, Quebec and British Columbia combined.—Ex.

### WHERE MILK AND HONEY FLOW

When Moses promised to lead the children of Israel out of Egypt into the land of Canaan, he described their future home as "a land flowing with milk and honey." His words were well chosen in describing a country that offered comfort and prosperity to its inhabitants. Bees thrive where there are rich pastures and meadows, abounding in nectar-yielding flowers. To this day Palestine is noted for its wild bees, particularly in the forests of Judaea. The Jewish and Arab peoples that live in that region make a good part of their living from the sale of honey found in crevices of rocks, in hollow trees and other places where the wild bees make their home. In other parts of Palestine, notably in Galilee and at Bethlehem, bee-keeping has for centuries been a domestic art. The hives are cylinders of mud, about four feet long and eight inches in diameter, dried hard in the sun. These curious hives are laid in long rows or piled in pyramids, and are protected from the sun's heat by heaps of branches plastered with mud. When the honey is to be harvested the ends of the mud hives are cut off with an iron hook.

Today, under the British mandate from the League of Nations, Palestine is making rapid progress in modernizing her industry and her agriculture. The mud hives are picturesque but the consumers of honey and doubtless the bees themselves will be glad to see the introduction of the sanitary and conveniently handled frame hives, and Palestine will still "flow with milk and honey." That descriptive phrase might be applied with even more truth to this Dominion. Milk and its by-products and honey are produced in vast quantities in Canada, and in competition with other parts of the Empire at the London Dairy Show our exhibits in these classes have won first place year after year. To have changed Canada in two generations from a wilderness of forest and prairie into a land literally "flowing with milk and honey" is an achievement to look back upon with pride. The idea that granulated honey is inferior to liquid honey is quite unfounded. The best Canadian honeys will granulate a few weeks after extraction. Granulated honey may be liquefied by warming it in water not much hotter than the hand will bear. Boiling will injure the appearance and the delicate flavor of honey.

### YOUR HEALTH

I can think of no practice so silly, and possibly harmful, as the medication habit. Some folks never go to bed till they have gargled the throat, put oil up the nose, swabbed out the ears with an antiseptic, squirted drops into the eyes, taken a cathartic, grazed the face and brushed the teeth.

The wonder to me is that they are not deaf, blind and otherwise diseased not from natural causes, but from the liberties they have taken with their precious bodies. When people live right all these foolish practices are unnecessary. More than this, no matter how they live, most of these habits are damaging. Don't go away now and say I am opposed to brushing the teeth. That would not be the truth. Nobody should go to bed until the teeth have been thoroughly cleansed. The eating habits of civilization cannot be changed in a generation. Until they do become more simple—perhaps I should say more primitive—it will be necessary to use the tooth brush and dental floss.

The lower animals eat rough, fibrous food. The very chewing of it cleans and polishes the teeth. But the civilized and refined foods of the modern table give the teeth little exercise and, in consequence, particular care must be used to keep them in condition. The nose, throat and ears were not made for medication. They will take care of themselves if given half a chance. If they do become diseased the family doctor may advise local treatment, but without his advice, you are perpetrating upon these organs self-inflicted malpractice if you apply any sort of medicine.

The eyes are too precious to be trifled with by unskilled hands. Nature has provided special glands—the lachrymal glands—and a remarkable drainage system, to irrigate and cleanse the delicate eye tissues of all dust and other foreign materials. You don't need to interfere with what is Nature's business and not yours. The cathartic habit and the headache pill habit and the digestive tablet habit are bad habits. What right have you to hurry the intestinal action, the heart's beatings, the stomach performance? Who taught you the nature of powerful drugs and their action upon the human system? Would you go into a high-powered electric light station and make playthings of the switches and brushes and intricate wiring of the place? Of course you wouldn't. At once you would say, "I have too much sense for that!"

But have you sense enough to keep from trifling and playing with the delicate and easily damaged machinery of the body?

I beg of you to stop the medication habit. Leave that to the doctor. You will live longer and be more efficient while you are alive.

## Billie Burke Dresses

We have now on Sale and on order a large range of Billie Burke Dresses.

The Billie Burke Dresses are noted all over the continent for their smartness; beauty and excellence of workmanship.

Advantages in Buying a Billie Burke Dress.

### EVEN WILD ANIMALS

WORKING FOR C. N. R.

Elk and Deer Crop Goals on Golf Course. White Beavers Build Water Hazard

Montreal, Nov. 17.—The human is not the only animal attracted by golf courses. Stanley Thompson, architect of the Jasper Park Lodge golf course in Jasper National Park, Alberta, has notified the Canadian National Railways that there are

more wild animals in the vicinity of the Jasper Park course than ever before.

At the present time very large numbers of elk and deer are grazing daily on the course, and bears are numerous in the vicinity. The company has issued instructions that the elk and deer are not to be molested or driven from the course, as their presence there is valuable in several ways, one of which is that they keep the course trimmed. It is estimated that the deer seen in and

about the course during the last few days number more than 200. Beavers are also increasing in Lac Beauport, and one colony has established a house close to one of the greens beside the water.

It is not always wise to tell all one knows, but it is well to know all one tells.

Sometimes people don't mind their own business because they haven't any—mind.

### SAYS POTATOES WILL BE

TEN DOLLARS NEXT SPRING. Saint John, N. B. Nov. 17.—A prediction made here last night Guy G. Porter, of Perth, one of leading shippers of the province, declared that the American was not enough for the demand. If the recent figures in the crop reports were not reduced and he believed they would be when the report came out on December 1.

### A SHOVELLING RECORD

All known records for moving material with a power shovel were recently broken when an electric in a southern mine loaded 3,750 yards of rock on to cars in one hour shift. To accomplish this task the 80 steel boom with its eight-cubic capacity had to reach down, fill itself, swing around and empty into a at the rate of once every minute a half throughout the period. rock moved by this single electric shovel would make a six-inch wide road on a 16-foot road a quarter a mile long, and to load the amount of rock by hand in hours would require an army of shovelmen. The electric shovel was operated by two men.

### HOW THE RED SEA OPENED

"THE TEN COMMANDMENTS"

The opening of the Red Sea is the biggest scene in "The Ten Commandments." The Paramount Picture is showing at the Opera House Monday and Tuesday, Wednesday, Nov. 18 and 19. Anyone who thinks the day of miracles are has only to see this modern miracle performed on the screen. When it was first shown theories were advanced as to how it was done. But most of them were wrong. Mr. DeMille has so guarded his secret that few people even today know how the technical effects were achieved. Roy Fox Cecil B. DeMille's technical director is naturally inclined to preserve secret of how he planned and achieved the effects of this thrilling scene.

## CHILDREN PLACED IN RESTIGOUCHE

Five Boys Placed Here On Armistice Day—Others to Come.

Miss Morrison, the special representative of the New Brunswick Protestant Orphanage, St. John informed the Graphic that her appeals for homes for children have met with a ready response here and that on Armistice Day there were delivered to homes in Restigouche county five strong sturdy boys, four being under three years of age. Each one of these went into good homes.

These children were brought up from St. John by Mrs. Sargeant, and at Dalhousie Junction were handed over their foster mothers, all of whom were delighted with their boys. The work of placing these children was done under the superintendence of Miss Morrison of St. John, assisted by members of Jeanie Gordon Lodge, L. O. B. A.

Miss Morrison states that eight children have been placed in homes in this vicinity and their prospects for a number of others.

**NO GREATER SERMON WAS EVER PREACHED FROM THE SCREEN**

Clergymen of all denominations are urging their congregations to see "The Ten Commandments." The Reverend Dr. Chester C. Marshall wrote of it in "The Educational Screen" as follows:

"When it was reported many months ago that a commercial company was filming 'The Ten Commandments' many of us felt that this was apt to be something of a travesty on one of the sublimest and most epochal events of history."

"When the picture was first produced in a New York theatre at top-notch prices, I attended with a group of clergymen as guests of the management, expecting to see a great spectacle, and also prepared to see violence done to the real spirit of the Decalogue and of the method by which the law was given to man."

Frankly, I may say, we were a critical group. "Two hours and a half later we emerged from the theatre onto the Great White Way, to be suddenly jared back into the world of reality. The evening rush hour was on, the floods of humanity were surging by in two mighty currents, and there at the entrance stood a woman selling copies of 'The Athiest'."

"No, let us rather say we came from the world of realities as spread before us on the screen, out into a world of unrealities. God has rarely been more real to us than he was for the space of one afternoon."

"If one message above another is needed by our pleasure loving, law breaking age, this picture brings just that message. 'Thanks to a motion picture company, a director, a scenario writer, actors and all others who are bringing this message to millions of people. Every American owes it to himself to see the world's greatest and best motion picture.'

"There is one question we can not avoid asking. Why, when such sublime and holy things can be presented in such an entertaining and fascinating manner, must we have such filth, slush, trash and stupidity unfolded before our eyes as we have in the average film?"

This great production Cecil B. De Mille's "The Ten Commandments" is coming to the Opera House for three days, Nov. 30, Dec. 1 and 2.

## COMMUNISTS ARE AFTER LADIES UNION

Seek to Gain Control of Garment Workers of the U. S. and Canada

Toronto, Nov. 17.—What may prove to be the most important convention in its history will be held by the international ladies garment workers' union in Philadelphia, commencing on Nov. 30th. The issue, members of the local unions state, will be created by Communists, who have marshalled their forces in the local organizations in many cities of the country and will seek to secure control of the organization, with its thousands of members engaged in the manufacture of ladies' cloaks and garments in the United States and Canada.

**KING TUT'S MUMMY DISCLOSED, SHOWS HE WAS BOY OF FIFTEEN**

Cairo, Nov. 14.—The mummy of Tutankamen with hands clasped on the breast and a tall golden crown on the head has been disclosed at last, said a message from Luxor yesterday. The experts examination established that the Pharaoh was only fifteen years old when he died. On the breast were two large gold scarabs and strapped to the side two gold hilted swords and two gold handled knives.

**WISHES TO DIE TO EDUCATE CHILDREN**

Constantinople, Nov. 16.—The Stamboul newspaper to-day prints an advertisement of a man who desires to enter into a contract with a newspaper picture concern in Turkey or the United States, under which he may be put to death by being buried alive or hanging or commit suicide through taking poison.

The advertisement stipulates that twenty percent of the money received from the proceeds of the film shall be used for the education of his six children.

"I say, dad, what is a veteran?" Dad: "Oh, a veteran is an old soldier!" Johnny: "I see. Then I suppose a veterinary surgeon only cures old."

**The Graphic \$2.00 year.**

**LOST**—On Thursday last a hand bag containing \$20.00 a few stamps and some small change, somewhere between Mr. J. Carey's store and Ramsay St. Finder will be rewarded by having an overcoat made free of charge. As the owner is in hard circumstances will kindly leave at Graphic Office or at MRS. CHAS. STEVENS, Ramsay St. —Nov. 12—1pd.

**IN THE ESTATE OF J. R. MacKENZIE, CAMPBELLTON, N. B. NOTICE TO CREDITORS**

Notice is hereby given that J. R. MacKenzie of the Town of Campbellton, N. B., did on the 11th day of November, 1925, A. D., make an authorized Assignment of all property for the benefit of the Creditors and that the Official Receiver has appointed The Canadian Credit Men's Trust Association Limited, custodian of the Debtor until the Creditors at their first meeting shall elect a Trustee to administer the estate of the Debtor.

Notice is further given that the first meeting of Creditors in the above Estate will be held at the office of the Official Receiver, which for this purpose will be at the office of H. A. Carr, Barrister, of the Town of Campbellton, on the 1st day of December, 1925, at the hour of 4 o'clock in the afternoon.

To entitle you to vote thereof proof of your Claim must be lodged with us before the meeting is held.

Proxies to be used at the meeting must be lodged with us prior thereto. And further take notice that if you have any Claim against the Debtor for which you are entitled to rank, proof of such claim must be filed with us within thirty days from the expiration of this notice. For from and after the expiration of the time fixed by Section 37, Sub-section 8 of the said Act, the Trustee shall distribute the proceeds of the Debtors' Estate among the parties entitled thereto, having regard only to the Claims of which he has then notice.

Dated this 17th day of November, 1925, A. D. at Saint John, N. B. THE CANADIAN CREDIT MEN'S TRUST ASSOCIATION LIMITED, CUSTODIAN.

Claims to be filed with our Office 147 Prince William Street, Saint John, N. B.

A man was looking for work, and inquired of the captain of a ship if there was any possibility of obtaining a job.

The captain picked up a piece of rope, and, handing it to him, said, "If you can find three ends to that rope, I'll give you a job."

The man held up one end of the rope before the captain, and said: "That's one end, sir." Then he took up the other end and said: "And that's

two ends, sir." Then he picked up the rope and threw it overboard, saying: "And that's another end to the rope, sir!"

"For men must work and women must weep." What is the meaning of that line, Tommy?"

Tommy: "It means that men have to work to get money, and then the women have to cry before the men will divide it with them."

The first \$1.00 bottle relieves you or your weary back. Try D. D. D. today, too.

THOMAS WRAN  
A. Mc G. McDONALD

Sport conditions are very good in New Brunswick this year. Harold Chadwick operating hunting camps in the province reports that at the end of September catches of speckled trout weighing 18½ lbs. were taken one day while a hunter took out a big game licence September 23rd and three days later he'd his deer and bear.

The world's most northerly police post, also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies will be cached within easy freighting distance of the point where men will be detailed for patrol duty on the lonely shores of Polar straits.

Appointments recently made through the office of the Comptroller Canadian Pacific Railway headquarters are W. J. Cherry who becomes Freight Claims Auditor in place of J. R. Steele retired under pension rules, and W. L. Moran appointed Assistant Freight Claims Auditor. Both these gentlemen have been connected with the Freight Claims department for many years past.

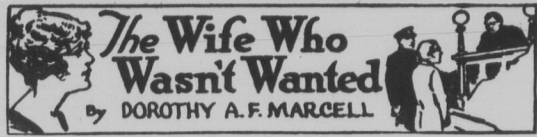

Because the prospects for hunting and fishing in northern regions of Quebec are more attractive this autumn than they have been for several seasons, the number of residents of the United States applying to the Quebec association for the protection of fish and game for guides and licences is much greater than it has been for some time, according to the secretary of the association.

A very pleasing incident occurred during the visit to Montreal of Madame Maria Jerzka, world-famous operatic star. Col. George H. Ham, "Grand Young Man" of the Canadian Pacific Railway who had met the singer before, sent his felicitations in the form of a bouquet, and Madame Jerzka replied with a bouquet of roses made of sugar with the hope that his days also would be sugar-coated. She gave a one-night recital in Montreal, leaving for Toronto the following day.

Isaac Gouverneur Opden, vice-president in charge of finance, Canadian Pacific Railway, attained his 81st birthday October 10. Mr. Opden is as active as ever although he has spent 54 years in railway work. He joined the C.P.R. as auditor of the western division headquarters at Winnipeg in 1881 and has been vice-president of the system since 1901. Mr. Opden was the recipient of flowers and congratulations from his colleagues on the occasion of his birthday.

Carelessness and lack of forethought on the part of some unknown motorist at Belleville might have led to serious accidents if it had not been soon discovered that the wig-wag signal protecting the C.P.R. level crossing on the Kingston Road was out of order. Investigation showed that an automobile had driven out of its course and broken the relay case thereby cutting the electrical contact. A watchman was immediately placed at the signal until necessary repairs had been made.

The Montreal Windsor street station police team are the champions of the Quebec district in the First Aid contests held at the Place Viger hotel in that city under the auspices of the Canadian Pacific Railway. They won the contest against teams from Ottawa and Quebec and are now holders of the Gutelius Challenge Cup, emblematic of the C.P.R. First Aid championship of the province. The championship of the New Brunswick district was won by the McAdam team who competed against Saint John and Woodstock.

"THE WIFE WHO WASN'T WANTED" with Irene Rich in a picture-  
tion of this novel

#### SYNOPSIS

It is Bob Mannering's twenty-first birthday and a dance has been given for him at the Country Club. The hour is late and the party is breaking up. Diane Bledsoe is urging Bob to join a small company which is going to Calkin's Inn. Marjorie Patterson, who is in love with Bob, hears Diane's pleadings and is fearful lest Bob will yield to the temptress. She declines the invitation of another boy who offers to escort her home, saying she can accompany Mrs. Mannering, Bob's mother.

#### CHAPTER IV—Continued

"Don't argue, Billy. You know I wouldn't if I could." And Marjorie calmly walked away from the discomfited youth to pause in the doorway as Diane grew more persistent.

"Come on, Bob. Be a good sport. I'll show you the time of your life at Calkin's Inn."

Marjorie's eyes rounded. It was as if she could not believe her ears.

"Oh, Bob!" she cried.

The group on the porch turned. Gazing straight at Marjorie, Diane seemed to read a challenge. Suddenly she shrugged her shoulders and

"You must tell me, dear," persisted Eileen.

gave a derisive laugh.

"So that's why you can't go, Bob! I didn't know that I was trespassing. Don't let me interfere."

A loyal henchman, Theo lifted his heavy lids and grinned.

"If she has strings on you, don't let us lead you into mischief, old fellow."

Bob flushed and his temper flared as he stared back at Marjorie. But if that day he entered manhood's estate, youth has its pride.

"Nobody has any strings on me," he declared hotly.

Diane giggled. It was an aggravating titter.

"Well, then?" she inquired of the universe.

"Ignoring Diane and the rest, Marjorie moved towards them.

"Bob," she said with an air of proprietorship, "you can't go."

Again Diane's giggle was a bel-lows to Bob's temper. What right had Marjorie to dictate to him? Determination seized him.

"I will go!"

"You can't go, Bob," insisted Marjorie, careless of the amusement of the group about them.

The commanding tone in her voice seemed to exasperate him. Whether he was headed to Calkin's Inn or Hong Kong he would teach Marjorie that she could not boss him.

"Well, then?" she inquired of the universe.

"I'm going to do exactly what I please." And as the group moved towards Theo's car he calmly passed Marjorie by.

For an instant it seemed as if she would follow him, but with an effort she restrained herself.

Bob, having had his own way, took little comfort in it. Even at the edge of the porch, he hesitated, half minded to turn. However that imp of mischief, Diane was not slow in sensing what was taking place.

"Come on, Bob, if you are going," she urged reaching forth from the car to tug at his sleeve.

Still he hesitated. Then, his jaw set, climbing beside Diane, they sped away amidst a chorus of merriment for which he had little heart.

And sadly hurt, Marjorie gazed after the departing car. Suddenly, her lips trembled and a sob caused the pretty little party dress, which she had donned with such joyous anticipation, to quiver as the leaves of an aspen before a storm. But Marjorie would not surrender. Sub-bornly, she fought back the tears which brimmed her lids.

In this, she was so successful that Eileen, seated in the car, saw nothing of her little neighbor from the door, she hurriedly joined her. Beautifully endowed and fairly radiant even the outcome of Bob's party was Eileen, tonight.

"Where's Bob?" she inquired promptly. "I've looked for him everywhere. I was certain I would find him with you. John can't get away to call for us, so Bob will have to take us home."

Her unhappiness hidden by the shadows of the porch, Marjorie did not trust herself to speak.

"Everybody enjoyed themselves, didn't they dear?" continued Eileen enthusiastically.

"Especially during that last dance. And the dinner! Demonet fairly outdid himself. Did you ever taste anything more delicious than that ice?"

Still Marjorie was silent.

"And those French pastries, did you try them?"

Marjorie had, but now sorrow had embittered their memory.

"The punch, you liked that too, didn't you?"

Engrossed as she was in the evening's delights, so one sided was the conversation that even Eileen marked it. Casting a sharp glance at Marjorie, she suddenly seized her by the shoulders and twisted her towards the lights.

"Marjorie, you are crying! What is the matter, dear?"

Stifling a tell-tale sob Marjorie shook her head.

"Tell me, is it about Bob? What has he done?"

Still Marjorie shook her head. She was no tattler tale.

"You must tell me, dear," persisted Eileen. "I'm his mother, I have a right to know. You both mean so much to me—maybe I can help—"

"Bob's gone," sobbed Marjorie suddenly.

"Gone—gone where?"

"To Calkin's Inn—alone!"

"To Calkin's Inn—alone?"

"No, not alone. They took a crowd and went to dance."

"No matter," said Eileen with decision. "I don't approve of dances at this time in the morning. I don't approve of—well—hurry and get your wraps. I'll send for my car. We'll stop and get Bob on our way home."

A few minutes later and they were off on the trail of Theo Bledsoe's car. It was plain that the more Eileen thought of Bob's trip to Calkin's Inn the less she liked it. And could she have glimpsed Theo's car at that moment she would have found warrant for even greater anxiety.

Half asleep, Theo was in no condition to drive. Under his drowsy guidance the car swerved so badly that even Diane was moved to objection.

"You drive, Bob," she urged. "Theo is flushed and his temper flared as he stared back at Marjorie. But if that day he entered manhood's estate, youth has its pride."

"Nobody has any strings on me," he declared hotly.

Diane giggled. It was an aggravating titter.

"Well, then?" she inquired of the universe.

"Ignoring Diane and the rest, Marjorie moved towards them.

Still he hesitated. Then, his jaw set, climbing beside Diane, they sped away amidst a chorus of merriment for which he had little heart.

## TRY TO UPLIFT NATIONAL LIFE

Only Ten Per Cent of the Population of Little State Can Read and Write

Baku, Nov. 15.—Azerbaijan, heretofore one of the most backward states in Europe, has embarked upon extensive irrigation, railroad, engineering and agricultural enterprises which are eventually expected to rank it with the more advanced sister state of Georgia.

One of the government's greatest problems is to reduce the illiteracy of the people. Only ten per cent of the population is able to read and write. Centuries the country has lagged behind all its neighbors in intellectual progress. In an effort to simplify education of illiterate classes, the complicated Arabic alphabet has been substituted for the more simple Roman characters. Education of all classes is now compulsory.

Development of Azerbaijan is enhanced by the fact that the state has no political problems, the currency has been stabilized and all minorities have been given equality of position and opportunity in the promotion of national life.

The principal industries are agriculture and fishing. The state has nearly 300,000 acres of cotton under cultivation and the Soviet government is spending \$20,000,000 on irrigation.

The state is now producing several million pounds of cotton annually.

M. D. Orakhelashvili, president of the Trans-Caucasian republics which embrace Azerbaijan, Georgia and Armenia, said the Karata-Kaloki canal now being built will irrigate 150,000 acres. Several new railroad lines are under construction, the most important of which is the Julf-Baku line which will link Western Persia with Baku and other Caspian ports.

The part the American Near East Relief organization has played in forming the foundation for Azerbaijan's development is praised on every hand. Among the most destitute and ignorant the care which the relief offered through the American people is understood and appreciated.

In these people, said Mr. Orakhelashvili, will be found the best expression of thanks and appreciation for the help given the thousands of orphans and refugees in this part of the world.

## THE LAMB FAIR HELPING BREEDING INDUSTRY

The lamb fair of which many are being held during the fall months by the Federal Live Stock Branch in co-operation with the provincial Departments of Agriculture, is not only helping the commercial sheep raiser to get full value for his lambs according to their quality, but it is likewise building up the trade of the breeder of pure bred sheep.

It is being demonstrated at all these fairs that the best areas are most profitable and that an inferior ram is dear at any price. Frequently the exhibitors of the best lambs also bring their rams to the fair for competition with others, and the sheep men are wide enough awake to observe the likeness of these better lambs to their sires.

This was demonstrated at the recent Sherbrooke Lamb Fair where an exhibitor, Mr. Woodside, won first in pens of five, in pens of ten, and in pairs of ewe lambs. He also won second in pairs of wether lambs. These lambs were all sired by the Shropshire ram that won third prize in a class of six. The first and second winning rams had no offspring at the show. Likewise, the offspring of the first prize ram, owned by Mr. Young, stood third in pens of five, second in pens of ten, and won prizes also in pairs of ewe lambs and wether lambs. It would be difficult to estimate the value to a neighborhood of a demonstration of this character where twenty-five exhibitors and many other sheep raisers were brought together to complete and study sheep and lambs in relation to marketing.

Creation of a new industry in Western Canada covering a product which is now imported into this country to the value of about five million dollars annually is foreshadowed by the samples of hemp now on display at the Windsor Station, Montreal, according to G. G. O'Malley, Development Engineer, Canadian Pacific Railway. Mr. O'Malley stated that considerable work had already been done in the West of Canada towards the creation of such an industry. Efforts to promote companies have been made in recent months and there is no doubt that fine stands of hemp can easily be grown in certain districts.

# Quaker Flour

Always the Same—Always the Best

For flaky pastry, delicious cakes, and large, light loaves of bread.

A product of The Quaker Mills, Peterborough and Saskatoon

Stains may be removed from a marble mantelpiece in the following way: First of all, wash with soap and water, then wipe dry, and apply a paste made of finely powdered bath-brick or carbonate of soda, and lemon juice. Rub this well into the discolored parts and rinse off in clean, cold water.

Arthur Edward Shave, in the employ of the Canadian Pacific Railway since August 18, 1908, when he was appointed clerk in the office of the Treasurer, has been appointed assistant treasurer of the company. Mr. Shave became assistant chief clerk in the office of the Treasurer in 1915 and was promoted Chief Clerk in 1919.

The apple is a typical Canadian fruit and among the finest grown in the Dominion. It is incomparable as a Christmas gift for friends and relatives in Great Britain. In order to facilitate shipments, the Dominion Express Company are offering special rates. Standard boxes containing about 150 and standard barrels holding about 375 will be sent from Quebec or Montreal up to the close of navigation to any station on a railroad in Great Britain or Ireland at a cost of \$3 and \$5, respectively.

To perpetuate the memory of the late P. Alexandre Peterson where engineers in this part of the country gather, a portrait of the famous engineer, done in oils by the late Robert Harris, Canadian artist, is to hang in the Engineering Institute on Mansfield street. The late Mr. Peterson, former engineer of the Canadian Pacific Railway, took a leading part in the railway construction in Eastern Canada during the latter part of the last century.

According to a report just issued from Canadian Pacific Railway headquarters, an average of one instance of gross carelessness on the part of automobilists every seventeen days is the record during the last three years and two months in connection with level crossings in New Brunswick, Quebec, Ontario and the Atlantic provinces. These instances number 49 from September 1, 1922, to October 31 last, or a period of 1,157 days. They resulted in injuries to 53 persons, of whom two died.

## ROYAL YEAST CAKES

**For Perfect Bread**

**NOTE:**  
If you take YEAST for your health, try this: Soak a ROYAL YEAST cake over night in tepid water with a little sugar. Stir well, strain and drink the liquid. Delicious when taken in orange juice.

**STANDARD OF QUALITY FOR MORE THAN 50 YEARS**

E. W. GILBERT CO. LTD.  
TORONTO, CAN.

### A child's job is to grow up!

Infants' Adjustable Sleepers as \$1.50 to \$2.00.

Let Stanfield's help with their patent Adjustable Combinations and Sleepers for growing children.

CHILDREN don't readily outgrow Stanfield's Adjustable Sleepers and Combinations because an outfit bought for a child of two, three or four years can be easily adjusted to fit him as he grows older. The adjustable feature makes these garments a real economy. Combinations and Sleepers are made in all sizes from 2 to 8 years, adjustable to fit two or three more years as required. Perfect-fitting and comfortable—do not gap at the back or sides. Double weight over the abdomen and back gives extra warmth and protection to the stomach and kidneys—provides a health insurance.

Stanfield's Underwear is so soft it will not irritate the tenderest skin. There is no better fabric for dainty baby wear. You can feel the luxurious, downy softness of Stanfield's. Happy, healthy children will enjoy wearing it and you, yourself, will be delighted with the comfort and health-protection it affords them. Ask your dealer to show you Stanfield's Underwear for Infants and Growing Children. Made by the makers of Stanfield's Unshrinkable Underwear for all the family.

### SOME NEW RECIPES FOR DESSERTS

#### Pineapple Whip

One can shredded pineapple, 1 can marshmallow cream, 1/2 pint cream. Drain liquor from pineapple and add to the marshmallow. Let stand for one-half hour and then add the cream, whipped. Serve in sherbet glasses.

Marshmallows which have been cut in small pieces may be used in place of marshmallow cream.

#### Cantaloupe Frappe

Cut the edible part of a chilled cantaloupe into small cubes, sprinkle lightly with sugar to taste, pile into sherbet glasses and serve either as an entree or dessert. Very quickly prepared and very refreshing for a hot day.

#### Spanish Cream

1 1/2 cups, granulated gelatine, 3 cups milk, 3 egg yolks, 1/2 cup sugar, 1 tsp. salt, 3 egg whites, 1 tsp. vanilla. Reserve 1/2 cup milk, to soak gelatine. Scald the remaining 2 1/2 cups milk. Separate the eggs, beat the yolks, add sugar and salt; stir in the scalded milk slowly and cook in double boiler until custard thickens stirring all the time. Remove from fire, add soaked gelatine and stir until dissolved, then strain. Cool slightly. Beat whites until stiff, fold into mixture. Flavor and turn into wet mold. Chill. Serve with custard sauce or cream.

#### Orange Trifle

Soak one envelope of gelatine in 1/2 cup of cold water. Add 2 cups boiling water and 1 cupful sugar. Stir constantly until cool. When cool, stir in 1 cupful orange juice and pulp and the juice of a lemon. When nearly congealed, beat in 1/2 pint of cream, which has been whipped. A little of the grated orange peel added before the cream has been added is both decorative and tasty. This pudding is particularly appetizing as a dessert to be served after hearty dinner, such as a Thanksgiving meal, when a too heavy dessert is to be avoided. It serves eight people.

### HOUSEHOLD HINTS

The right tool at hand at the right moment is an invaluable time and labor saver. For instance, a good pair of kitchen scissors, sharp and of the best steel have many uses. They are handy in cutting up meat for steaks, to broil on skewers, or for beef tea. In preparing fish they may be used in removing fins, skin, head and tail. They are handy for fixing fruits and fancy garnishes, and in pastry making, when cutting strips for latticed crust, or for the twists about tarts. In candy making, they are useful, and for cutting up lettuce. They should be carefully kept, cleaned after each using and slipped into a case after they are cleaned.

There is a new set of nested refrigerator dishes, enameled pans, that are wonderful room savers in the ice box. Flanges on the dishes allow them to rest one on the other easily without crushing their contents, and their little groups of perforations on the dishes near the tops, at sides and ends, that allow a free circulation of air over their contents. There is the bottom, long, deep dish, two square ones and a long shallow one on top. This allows space for putting away meat, vegetables and other left overs on top. There are also small straight sided covered pitchers that are handy for sauces or other liquids that must be kept in the box, but owing to their shape they take but little room.

The wire rack to wash lettuce in is a great time saver, for the lettuce rinsed off, then put into the running water to thoroughly rinse and a chill. Wooden forks and spoon sets are invaluable in salad making. They do the mixing well without breaking the lettuce, and the bowls of the spoons are deep enough to mix the needed amount of dressing in them.

In cooking meats, the long handled fork is a great help. Meats or fowl may be turned over in the water with them, tried, lifted or handled in any way that is required. The stout ones with the handle fastened through and through, are the best, for they do not bend or break. The extra length handle is very convenient when lifting a ham or other heavy piece of meat from the pot.

The spoons of our grandmothers are again being appreciated and we find them in size suitable for the sugar bucket, flour canister, for tea and coffee and even for meals in their containers. One wooden spoon has been painted a la Russe and is used on the tea table to pass cigarettes in, or nuts, or the popular hard candies. If the tin spoons are enameled, they will not rust and they may be washed off quite as readily if they get sticky.

The kitchen needlebook is very handy, for there will be found the right sized needles for sewing up meat or fowl, linen thread for the purpose and a white thimble that can be rinsed off if it gets greasy.

### PARENTAL RESPONSIBILITY

One of the subjects to which increasing attention is being given today by those who are concerned for the care and welfare of youth is the home life of our boys and girls. There is a conviction that in multitudes of homes, the boys especially, at a very early age, get out of hand, and ignoring the wishes and the bidding of their parents, become a law unto themselves. Respect for authority and obedience to law, it is said, are on the decline among the young. At a recent conference in New Orleans, the House of Bishops of the Protestant Episcopal Church emphasized the need of parental control in our social order. The bishops see a weakening of the ties of home life and a lowering of its standards "due to a lack of parental control" and to the absence of definite religious influence; and they go on to ask whether we can fall to see the connection between this situation and the spirit of lawlessness, the startling increase in crime, and especially the increase in the number of youthful criminals.

On the same day, at Washington, President Coolidge gave expression to his concern for the lawless tendency of the youth of the nation. What is needed, he said, is not more government action, but more "home control" through parental action. The president quoted high authority to the effect that a very large proportion of the outcasts and criminals come from the ranks of those who lost the advantages of normal parental control in their youth. "They are refugees from broken homes."

The New York Times takes the question up editorially, and says that, "the tendency is to shift the responsibility to the school, the Church, or some institutional agency. But the home should be the nucleus in the social structure. Without an effective home influence in each unit of society, general disaster must come." The Times recognizes the difficulty of the problem of youthful home training—more difficult perhaps, to-day, with all our facilities for the religious instruction of the young, than ever before; and it adds: "In complex social condition not only is the assistance of the school and of the church needed in enabling parents to do their whole duty by the child, but also that of those who know the psychology of the child and the ways of bringing the child into such relationship with the child as to insure not only his good, but the larger good of the state."

To meet this need and to help parents who are desirous of more effectively discharging their sacred responsibility towards the young, parent societies are being organized in many communities of the United States. For the same end a national convention of parents has just been held in New York City, at the Waldorf-Astoria, at which well-known specialists in child psychology and child training were among the speakers. The purpose of the Federation for Child Study, which called the conference, is to focus both branches of learning—child psychology, and men and women in their new relationship to the child as educators—on the problem of the home.

While gratefully acknowledging the value of the work now being done for the young the Church in the Sunday school and other organizations, and the increased opportunities afforded to secure religious training for their children, we cannot close our eyes to the temptation thus presented to parents to rely too much upon these outside helps and to delegate their responsibility to others. For the ultimate responsibility for the religious education of the children undoubtedly rests upon fathers and mothers in the home.

### Field Inspection of Potatoes for Certified Seed

The acreage inspected this year for certified seed potatoes was considerably below that of 1924, which, however, was not unexpected.

The area inspected throughout the country—not including British Columbia—was approximately 13,500 acres, of which 10,000 acres, or seventy-five per cent, passed the two field inspections. With an estimated crop from this area of 175 to 200 bushels per acre of the Irish Cobbler variety, and 225 to 250 bushels of the Green Mountain variety, there will again be a large quantity of certified seed potatoes available, sufficient for extensive planting in Canada next season, and for extensive export to other markets where the favorable reputation of such seed has become firmly established.

As an indication of the merits of certified seed potatoes, it will be interesting to readers to note comprehensive information has recently been collected by Mr. H. C. Moore, of East Lansing, Michigan, on the results obtained from 11,627 test plots of certified versus non-certified seed planted in all parts of Canada and the United States, and that the average increase per acre in favor of the certified seed was 46.4 bushels, and in Canada alone, 88 bushels. This information, and the knowledge, through personal experience, which large numbers of growers have acquired during the past few years, warrants the state-

## Add One or Two

to Meat Pie, Hash, Croquette, Stew or Soup — and enjoy the rich flavour and nutriment of prime fresh beef.

## "OXO" CUBES

ment that there is no doubt about the quality of seed which has fulfilled certification requirements.

Some outstanding features as a result of inspection for certified seed are, the general improvement in cultural practices, followed by the growers who enter their fields for inspection, the interest which they evince in the various diseases, and the practice of the methods recommended for their control, and the honest efforts they put forth to comply with the tuber inspection standard when preparing their crops for sale. These features are of great assistance to the efficient conduct of the inspection service, and are much appreciated.

Any growers interested in the above work, or desirous of securing a supply of certified seed for planting next season, may secure further information by communication with the Dominion Botanist, Central Experimental Farm, Ottawa.

### PROVINCIAL DEPARTMENT OF AGRICULTURE OCTOBER CROP REPORT

November 15, 1925.

The provisional estimate of the yields of grain received today as issued by the Dominion Bureau of Statistics shows increases over the forecast estimates in the quantities of all small grains excepting wheat and rye.

Much less than the usual amount of fall ploughing has been done on account of the very heavy rainfall. The month closed with a total rainfall of 8.03 inches—the greatest for a period of twenty-five years. The temperature during the last two weeks was low. These two factors caused farm work generally to lag. Cattle were housed earlier than usual on account of the inclemency of the weather. This will have an influence in reducing the year's surplus amount of hay.

The production of dairy products and milk supply was greater than during corresponding months of last year and prices, particularly during the closing months of the year, were high. The highest price of the year was realized for the October output for cheese. Local markets for farmer's products have shown a brisk demand for butter, eggs, poultry and pork.

The crop of strawberries and small fruits was in excess of last year's crop and prices were very much higher. Strawberries, in carlots, sold at an advance of thirty per cent (30%) over last year's prices. The apple crop, on the other hand, has realized a lower price than last year. The crop, which in the early part of the season gave indications of being short, improved toward picking time and is only slightly below an average crop.

The harvesting of the root is in progress. Some activity occurred in the shipping of turnips to U. S. markets where the price during the latter half of the month was attractive.

The Bureau's provisional estimate of the potato crop is expected to vary but little, if any, from the earlier forecast of 3,500,000 cwt. The prevailing tendency of rising prices for potatoes apparently reached its height for the fall shipping season on October 31st. The jump in price from \$2.50 to \$5.50 per barrel during the month provided the sensation of the season's trading. A large part of the exportable surplus of potatoes variously estimated at from two-fifths to one-half has been sold off the farms.

The total production of grain crops is as follows:

|           | Acres   | Bushels per acre | Bushels   |
|-----------|---------|------------------|-----------|
| Wheat     | 13,396  | 17.2             | 230,000   |
| Oats      | 225,402 | 31.3             | 7,065,000 |
| Barley    | 5,966   | 23.8             | 142,000   |
| Rye       | 1,806   | 14.8             | 26,000    |
| Beans     | 1,510   | 13.4             | 20,000    |
| Buckwheat | 44,799  | 22.9             | 1,026,000 |
| Mixed     | 3,248   | 28.3             | 92,000    |
| Grains    |         |                  |           |

### The Winter Growing of Rhubarb

Rhubarb can be successfully grown in any warm cellar during the winter, and it is much more tender and delicious than even the earliest grown outdoors in the spring.

Strong, vigorous plants should be selected, we prefer those with deep red color. In digging the plants leave as much clay as possible attached to the clump, and cut off the crown roots that protrude. The clump is then exposed until it freezes hard, and should then be stored in a shed until required for the cellar. If the rhubarb clumps are brought in about every two months, they should apply

the average family with this delicious pie plant throughout the winter. When the rhubarb plants are brought in, they should be put in deep boxes or stood on fine cinder dirt that has been dampened, and the spaces around the clump should be filled in to the level of the crown with the same cinder dirt. Ordinary soil will do. The box should be covered to keep the plants in darkness, unless the cellar should be warm, with a temperature of about 60°.

When the stalks are about 18 inches high, they should be pulled. When pulling, remove both the large and any small stalks, as the small stalks, if left, might start decay. Three or four pullings should be secured from each clump, when it can be removed and replaced by another one brought in from the outside storage. The cinder dirt should be kept moist throughout the forcing period. The rhubarb plants that have been forced during the winter can be replanted in the garden. They should have from two to three seasons growth before using again for forcing.

### EGGS OF TODAY AND YESTERDAY

Every householder must recognize the value of the grading of eggs. While in by-gone times a certain percentage of every dozen bought for family consumption would probably be a bit tainted or stale the housewife of today can know exactly what she is buying, whether specials, extras, firsts or seconds. An eight-page pamphlet just issued by the Dominion Department of Agriculture that can be had freely for asking from the Publications Branch, Ottawa, goes into the value of eggs for food, tells what is being done to ensure their purity, gives particulars of the different grades and furnishes recipes of various uses to which eggs can be put. It also contains interesting facts of which the following are a few:

The wise consumer in buying will insist on graded eggs.

Eggs are the breakfast food of the nation and have great food value.

Eggs contain all the necessary elements for the growth and proper development of the young and the replacing of waste tissue in the adult. Eggs being a perishable product care should be taken in their keeping. Keep eggs in a cool, dry place and away from anything smelly, such as fish, onions, cheese or kerosene.

There are no substitutes for eggs. Eggs enrich the blood and keep it in proper solution.

Eggs are invaluable and indispensable in health and in sickness. The absence of eggs in the diet is harmful.

Mothers should consider how much eggs foster the growth and development of their offspring.

An egg, at least, a day is a practical necessity. Two or more are better.

The old Maori village of Whakarewarewa consists of rude houses perched over boiling springs and fumaroles and the natives use these vents as stoves, wash tubs and bath tubs. There is always a supply of hot water at hand for any purpose. Foods being prepared in this manner need little watching as they never suffer from over cooking or burning.

### More Than Economy in Carnation

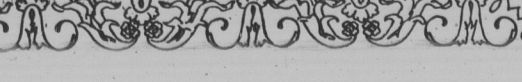

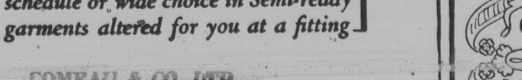

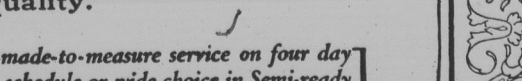

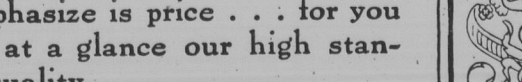

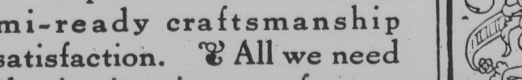

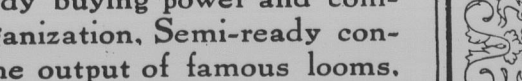

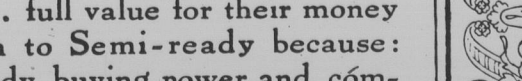

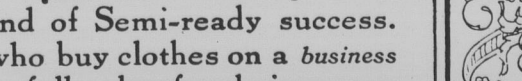

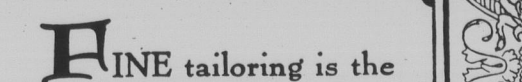

Housewives merely thrifty see real economy, in using Carnation Milk regularly. But housewives, both thrifty and resourceful, see besides economy a pure, nourishing, ever-ready supply of wholesome milk. For your grocer has Carnation, so you need never run short. Carnation Milk is just pure, fresh milk, evaporated to double richness, kept safe by sterilization. Economical because it keeps. Pure, rich milk in a modern package—that's all. Order several tall (16 oz.) cans or a case of 48 cans.

Send for copy of Mary Blake's Cook Book—address Carnation Milk Products Company, Limited, Aylmer, Ontario.

## EARTH TREMOR SHOOK HOUSES

Buildings in Manila Were Badly Shaken By a Violent Earthquake.

Manila, Nov. 20.—A strong earthquake occurred at 8:15 o'clock tonight. The tremor continued for a half hour. The weather bureau estimated the centre of the disturbance to be 300 miles from Manila. No damage was reported although buildings in Manila were shaken perceptibly.

Washington, Nov. 20.—A serious earthquake apparently centering at a great distance from Washington, left its record today on the seismographs of Georgetown University. It began at 6:12 a. m., Eastern time, and still was in progress at 9:40 a. m. Father Tondorf, in charge of the instrument, described the shock as "very severe."

## TO BE HONORED BY HIS NATIVE TOWN

General Booth to be Given Freedom of Halifax, Yorkshire.

London, Nov. 16.—General Booth, of the Salvation Army, is to receive the freedom of his birthplace, Halifax, Yorkshire, where his father, the late General William Booth, founder of the Salvation Army, was at one time a Methodist minister.

Two other townsmen of Halifax, one of them being a prominent brewer, and the other a notable testator, will receive the freedom of the city at

## NEW LAMP BURNS 94 p. c. AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give ONE FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

## SHOT FRIEND WHO WANTED TO DIE

Hospital Employee Claims He Killed Man "Out of Kindness"

Washington, Nov. 15.—Because the victim asked him to do it as a favor, Joseph A. Pickard, 25, told the police, he shot and killed Joseph F. Stein, 45, here last night as a quietly arranged act of kindness.

"I did it because I hated to see him live when he wanted to die," was Pickard's plea when held on a murder charge after confessing to the police that he shot Stein in his room in the basement of a hospital where both worked as window washers.

"I tried to kill Stein Tuesday night," he was further quoted, "but the revolver I had failed to discharge. I traded this revolver yesterday for a 45-calibre revolver. Then we went to Stein's room. He bowed his head and I placed the revolver against it and fired."

Pickard said Stein wanted to die because he had "wrecked his life" but other employees at the hospital said there had been ill-feeling between the two men.

Pickard's story to the police is that after failing several months ago to obtain a passport for Europe, Stein became morose. He wanted to kill himself, he is quoted as saying, but "he didn't have the nerve and he asked me to do it."

## OBITUARY

Mrs. Muriel Ellis.

After an illness of two weeks at the home of Mrs. R. L. Ellis, her sister, Mrs. Muriel Ellis, the beloved wife of Garret Ellis, died on Tuesday evening, November 10th.

The funeral service, which was held on Thursday afternoon in the Union Church, Jacquet River, was attended by a congregation that filled the building and overflowed into the graveyard, was conducted by Rev. R. J. Coleman, assisted by the Rev. George Millar and the Rev. F. E. McLennan. The hymns sung were: "Now the laborer's task is O'er," and "Peace, perfect peace." The sermon was preached from the words recorded by St. Luke: "There talked with Jesus two men, Moses and Elijah, who appeared in glory," and the truths emphasized were: The Christian dead are alive, are consciously alive, in glory, together in glory, know one another, and are with Jesus.

Interment was made in the well-kept cemetery adjacent to the little church. A large circle of friends feel very keenly the passing of one so young and of such a sweet disposition. The profusion of amazingly beautiful floral tributes was greatly admired. The pall bearers were: Dr. Ellis, C. L. Fenderson, Jack Barbarie (Campbellton), G. W. Ellis (Bathurst), Stewart Ellis and Stewart McAlister. Mrs. Ellis was the daughter of the late Primrose Brown, the faithful and efficient station-agent for many years at Jacquet River. She leaves to mourn her early demise her mother, Mrs. Sarah Brown, three sisters; Mrs. C. L. Fenderson, Mrs. R. L. Ellis and Miss Louise Brown; also one brother, Claude Brown of Loggieville.

**SEAWEED AS A FERTILIZER**

Seaweed is a useful fertilizer for all classes of crops along our Atlantic and Pacific coasts where it can be collected at many places in large quantities at little expense. It is especially valuable for roots, vegetables, and other plants with an abundance of foliage, which require potash and nitrogen. A new pamphlet issued by the Chemistry Division of the Dominion Department of Agriculture gives the results of analyses of samples of seaweeds collected from different beaches. These analyses show that seaweeds are essentially potassic in character and they also contain a high percentage of nitrogen. According to the pamphlet which may be obtained free from the Publications Branch, Department of Agriculture, Ottawa, seaweed compares very favorably, weight for weight, with barnyard manure, and besides it does not bring to the farm any weed seeds or insects or fungus pests. Its manurial value is greatly enhanced by its ready decomposition in the soil, rapidly liberating its constituents in forms available for plant nutrition. The best way to use it is to apply it direct to the soil as soon as possible after collecting. (Issued by the Director of Publicity, Dominion Department of Agriculture, Ottawa.)

## DUBLIN POLICE

RAIDED 100 HOUSES

Seized a Quantity of Republican Literature

Dublin, Nov. 14.—Under the authority of the recently passed Treason Act, which makes it illegal to maintain any military organization, the police today raided 100 houses in Dublin. A quantity of Republican literature, including maps and documents were seized, and a number of arrests were made. Most of those arrested, however, were subsequently released, but two men were arraigned before the police magistrate and remanded.

Similar raids and searches are now part of the regular routine of the police force in Dublin and other places throughout the country.

## LEAD TREATMENT IS SUCCESSFUL

Liverpool University Professor Endorses the Claim Made for New Cure.

London, Nov. 15.—"We cannot any longer keep secret our cancer treatment successes," said Dr. Adam, vice-chancellor of Liverpool University, today in explaining statement made by Professor William Blair Bell, director of cancer research at Liverpool University, to the Toronto Academy of Medicine yesterday. Professor Bell told of several incurable cases of women suffering from cancer being cured by lead injections at the Liverpool Infirmary.

"Professor Bell's declaration has been forced as a result of the astounding successes we have had in several cases," continued Vice-Chancellor Adam. "Many cases regarded as inoperable have been cured owing to the dangerous nature of the treatment it has been possible to treat only those cases which had been given up as hopeless. I admit there have been cases of recrudescence owing to doses being too small, but the success achieved indicates great strides have been made toward the discovery of a real cure. We have not wished to make the situation

public before, because we were dealing with very sharp tools.

"Indeed it will be understood that putting something into the body that will kill the cells of a tumor and not the cells of the body must be very fine indeed. Most cases treated have been Liverpool cases, for the reason that the treatment has been used with the greatest care until we know quite definitely the limits of its uses. Otherwise deaths would be occurring everywhere through misuse of the treatment. A painfully large number of cases have gone too far for any good results, so that the proportion of cases cured to those treated does not give a true indication of the value of the treatment. Since, however, we have more knowledge and have been able to pick our cases the proportion of people cured and returning to work has been increased. Two hundred cases have been treated in all."

## Gas on Stomach Won't Let You Sleep

Gas pressing on heart and other organs sometimes causes a restless, nervous feeling and prevents sleep. Adierka helps any case gas on the stomach, unless due to deep-seated causes. The QUICK action will surprise you. Because Adierka is such an excellent intestinal evacuant it is wonderful for constipation—it often works in one hour and never grips. (A McO McDonald.)

## MARITIME RIGHTS AT WINTER FAIR

Eastern Canada Nearly Swept the Boards in Ayrshires and Guernseys.

Toronto, Nov. 16.—British Columbia and the Maritime Provincial dairy herds took a large proportion of the awards at the Royal Winter Fair which officially opened yesterday. Ontario maintained a lead in Holsteins and Jerseys, but there were very few prizes for that province in Guernseys and Ayrshires.

Eastern Canada nearly swept the boards in Ayrshires, the stiffest competition coming from E. A. Walls, of Sarnia, E. C., a newcomer in Eastern show rings, who did extremely well on his initial appearance here.

A. A. Roberts, Highfield, P. E. I., won first in the junior yearling bull and E. C. Budge, Montreal, first for junior yearling, with the P. E. I. experimental farm school. Cow five years and over in milk, Eastern Bros., Charlottetown, won first.

## U. N. B. WILL MEET

ENGLISH DEBATORS

Fredericton, Nov. 15.—The first trial debate of the students of the University of New Brunswick was held in the Library Saturday night. A team

will be chosen next Saturday evening to meet the Imperial debating team which is to be here on Jan. 26. The Imperial team, made up of English college debaters, is touring the Dominion and will debate in Halifax, the Nova Scotia Colleges, Mount Allison and Saint John before coming here. The subject that the U. N. B. team is debating is: "Resolved, that the Go-

## B. C. POWERLESS TO STOP KU KLUX

Only Federal Government Can Prevent Organization of Klan

Victoria, B. C., Nov. 16.—British Columbia is powerless to cope with the activities of the Ku Klux Klan members of Canada, the Legislature learned yesterday after they had been urged in a formal notice to prevent the Klan from organizing in the province.

Only the Federal Government can prevent the Klan from going ahead with its plans, officials of the Attorney General's Department announced. It is now considered likely that the resolution before the House asking the Provincial Government to outlaw the Klan will be altered and a petition be made to the Federal authorities at Ottawa to take action.

neva protocol is worthy of the support of Great Britain and her Dominions," U. N. B. has the negative.

There were five speakers Saturday night. In the order in which they spoke they were: Edwin Stewart, D. H. Fulton, D. R. Sheldrick, B. S. Keirstead, R. Brundage, Thomas Foulkes, president of the Literary and Debating Society was in the chair.

Why Ford is the universal quality car

# ADAPTABILITY

Adaptability is an outstanding quality of the Ford.

It is used everywhere for every conceivable type of transportation with uniform success. Its readiness for any task is proverbial.

Such adaptability says all that need be said for the basic Ford qualities.

## LOCAL ITEMS OF INTEREST

News Notes of Town and Country  
Happenings Gathered by Graphic-Reporters

**FOR THE MARITIMES**  
At least 60 families of British settlers will be brought to the Maritime Provinces by the Soldier Settlement Board next spring.

**HERE ON SUNDAY**  
Rev. Thomas Marshall Secretary of the Temperance Alliance for New Brunswick will occupy the pulpit of the United Baptist Church, Sunday morning the 22nd and St. Andrew United Church Sunday evening.

**BRANT AND GEESSE PLENTIFUL**  
Harold G. Cole and F. W. Winter returned home Saturday afternoon from a successful hunting trip to the Caraqueet Shore, securing a large number of brant and geese, which they report are quite plentiful in that section.—Moncton Times.

**HOT SUPPER**  
In the Hall of Wesley United Church on Friday, Nov. 20th, (this week). The menu consists of roast meats, boiled ham, creamed potatoes, green peas, dressing, pickles, chow, etc.—then tea and coffee with various other good things—all for 50 cents. Nov. 12—4w.

**ENGAGEMENT ANNOUNCED**  
Mr. and Mrs. John D. Ross, Hope-town, P. Q. announce the engagement of their eldest daughter, Marjorie to Mr. Frank Raynor Clough, only son of Mr. and Mrs. S. Clough of Chester, Pa. The marriage will take place in December.

**SHOT A BLACK FOX**  
Arthur Stone of the Moncton Post Office staff, while on a shooting trip last Friday had the good fortune to shoot a fine specimen of black fox. He brought the animal down with a shot gun near Harrisville on the Shediac Road, from where it has been reported two black foxes have been seen recently.

**CABINET LINEUP**  
When Parliament meets, the Cabinet as represented in the House of Commons will consist of:  
Hon. Ernest Lapointe, Minister of Justice.  
Hon. J. A. Robb, Minister of Finance and Trade and Commerce.  
Hon. W. R. Motherwell, Minister of Agriculture.  
Hon. Dr. J. H. King, Minister of Public Works and Labor.  
Hon. Charles Stewart, Minister of Interior and Immigration.  
Hon. Lucien Cannon, Solicitor General.  
Hon. George Boivin, Minister of Customs.

## BONAVENTURE VOTE TO BE RECOUNTED

Hon. Justice Pouliot, of the Superior Court, was delegated by Sir Francois Lemieux, Chief Justice, this morning to sit at New Carlisle and preside over the official recount in Bonaventure County, which has been petitioned for by Major Theo Paquet, the Conservative candidate.

Major Paquet alleges that several ballot boxes were opened and he insists that a recount will give him a majority over his opponent, Hon. Charles Marcell.

**THE LEAVINGS**  
We have today the assurance of the Moncton Times that "nothing is further from the truth" than that "Premier Baxter will hand over the development of Grand Falls for the benefit of the 'big interests.'" If The Times is in a position to speak for Premier Baxter, we are glad to have this assurance, and we sincerely trust that The Times will not be disappointed. But what did Premier Baxter, himself, say in his last utterance on the subject? After eulogizing the members of the present hydro commission, he said:

"They recognize that the power at Grand Falls should be available in the first instance for grinding wood into pulp and transforming that pulp into paper. Subject to that, they believe that those who desire to make use of the power should have an opportunity of purchasing it."

This may not amount to handing over the development for the benefit of the big interests, as The Times puts it, but it looks very much like it. The development of Grand Falls was undertaken for the benefit of the people in general—that all might share in the advantages of cheap light and power. But Mr. Baxter and his commissioners are not interested in the people or in what the people want. Their first concern—the Premier says so himself—is to see that the big companies which want power to grind pulp and make paper should be supplied. After that, the people can have what is left.—Moncton Transcript.

"Speaking about journalistic courage, I can name a paper which has more grit than any other, and one you would hardly think of either." "What paper is that?" "Sand-paper."

## SOCIAL & PERSONAL

The Misses Viola MacDavid and Frances Harvey were visiting friends on Friday at Flatlands.

Miss Viola MacDavid spent a few days in Matapedia the guest of Miss Zeta Farrell.

Mr. Kenneth Demeau spent a few days last week in town the guest of his mother Mrs. W. R. MacDavid.

Mrs. James Farrell and Miss Margaret Lyons of Matapedia spent a few days in town the guest of friends.

Mrs. Adam Haley of Matapedia spent Monday in town.

Messrs. Frank Ward and Alex. Esson are enjoying a hunting trip to Barbicou.

Miss Jean Jardine of Newcastle was in town last week attending the hall at the Chateau Restigouche.

Miss Robina Miller left on Monday evening to spend her vacation in Montreal and New York.

Mrs. Cameron Adams of Matapedia spent Tuesday and Wednesday in town.

The many friends of Mr. Vincent Haley of Matapedia will regret to hear that he is at present a patient at the Hotel Dieu Hospital.

Mr. J. A. Le Brun left on Sunday evening's limited for an extended trip to Quebec and other cities.

Mrs. Gordon Craig entertained at a bridge of three tables on Saturday evening.

The prizes were won by Miss Helen Crockett, first and Miss Hope Quinn second. The guests were Misses Mary Andrew, Rena Murray, Edith Jones, Ila Andrew, Lillian Hamilton, Blanche Crockett, Helen Crockett, Hope Quinn, Winnifred Delaney, Catherine Andrew, Lydia Matthews, Georgia Graves and Alma Wetmore.

The many friends of Mrs. M. M. Mowat will be glad to learn that she is recovering from her recent illness.

Mrs. Irby Jellett of Cross Pt. is visiting friends in Chatham.

Mrs. Gordon Stout and son Kenneth spent last week in Newcastle the guests of Mrs. Harold Russell.

## WAS INDUCTED TO NEW CHARGE HERE

Rev. D. Quigley Now Pastor of Presbyterian Church—Large Attendance At Last Night's Meeting.

At a largely attended meeting in the Orange Hall last night the Rev. R. S. Quigley Ph.D., formerly of Hopewell, N. S., was inducted into the charge of pastor of the Presbyterian Church here. Several clergymen from outside points were present and a number of people from other districts also attended the service.

Rev. Mr. Craze of Bass River, N. B. Moderator of the Presbytery of Miramichi, performed the induction ceremony. Rev. Dr. R. M. Stephenson, F. R. G. S. of Moncton, addressed the newly inducted minister while Rev. F. G. McIntosh delivered the charge to the congregation.

In his address to the minister Dr. Stephenson outlined in a comprehensive way the responsibility of the pastor to his congregation and the great opportunity for service a minister had in any community in which he was stationed. Addressing the people Rev. Mr. McIntosh emphasized the duty of every member of the congregation, pointing out not only the value, but the necessity of continuous interest and hearty co-operation in all phases of church work. His address was a thoughtful and helpful one and was listened to with keen interest by all in attendance.

### Pres'ntation

A pleasing feature of last night's service was the presentation, after the induction ceremony by Mr. A. R. Wheeler of a full Communion Service to the Presbyterian congregation here. This consisted of four trays of individual glasses and two silver bread plates. Two collection plates were also included in the gift.

### Extended Call

Mr. Carruthers, a prominent elder of Chatham was present at last night's meeting and personally extended a call to the Rev. Dr. Stephenson on behalf of the Presbyterian church of that town.

A social hour followed the induction service and the ladies of the congregation served refreshment. The hall was crowded almost to the doors.

### Other Clergymen

Among the clergymen present at last night's meeting were Rev. A. M. Scott of Bathurst and Rev. Thos. Joplin who has recently been in charge of the Presbyterian congregation at New Carlisle. A strong delegation from Dalhousie was also in attendance. The names of the delegates follow: Messrs. B. McKinnon and Wm. McNeill and Mrs. James Connacher, Mrs. H. E. Mott, Mrs. Walker and Miss Cameron. Elder Disbrow of Bathurst also attended the service.

A porter at a London club had been very persistent in his attentions to a rich member, but his services never gained the usual tip. The porter was hopeful, however, and assisted him into the taxi that was to bear him away.

"Well, day, sir," he ventured to remark, with an expectant smile.

"Yes," growled the member, "and no change coming, either."

"Mumsey, may I go to the circus this afternoon?"

"My dear child, what an idea! Fancy wanting to go to a circus when your Aunt Emily is here!"

"Johnny, I want you to run a message for me."

"Shan't."

"Johnny, is that the way to speak to your father?"

"If you please, I shan't."

## RIFLE CLUB HOLDS ANNUAL MEETING

Officers Elected For 1926—New Regulations Also Passed At Recent Meeting

The annual meeting of the North Shore Rifle Association was held in the Town Hall on Friday Nov. 6th at 8 p. m. The club officers for the ensuing year were elected at this meeting. These are as follows:

President—J. H. Moores  
Vice-President—A. J. McIntyre  
Secy.-Treas.—Colin MacKenzie.  
The Executive Committee is composed as follows: Capt. W. W. McNair, Capt. A. A. Gillis, Major N. C. McKay, Lt. R. L. Ruet and Capt. W. M. Ferguson.

On motion it was agreed that an entrance fee of \$2.00 be charged any one wishing to join the association in addition to the annual \$2.00 fee. The Executive Committee was also authorized to provide two additional targets on the rifle range.

After some discussion Messrs. H. R. Barnes and J. Jardine were appointed to collect all outstanding dues. A further motion was carried to the effect that no member be issued more than 200 rounds of ammunition per season and that no member be issued a rifle until his 1926 dues are paid. A further regulation was also passed to the effect that if any member requested additional ammunition this, if available, should be sold at the rate of 2¢ per round.

The North Shore Rifle Association now has a membership of over one hundred and an active and most enjoyable season on the range, is being anticipated by all, during the summer of 1926.

## GREAT PROSPERITY FOR CAN

Sir Henry Thornton in Inspecting Rebuilding of Scribe Hotel.

"Canada is on the threshold of great prosperity," stated Sir Henry Thornton, President of the C. National Railways recently inspecting the work of rebuilding the Scribe Hotel which promises to be the finest railway office in the country. "The causes are purely economic continued Sir Henry. "The standard of living since the created a greater demand for which the United States are wheat producing countries satisfy. The Dominion of therefore must supply it and have to dig in whether we or not. More people come the American capital invade Canada, but money has no ity. Even if it had as long builds up our country and our people with work we at come it.

"The Duke-Prince alumnus present at Chateaux A'Canon, only a forerunner of what ing. To accelerate it the National Railways has seen Fifty Ave. and forty-third New York, a ground floor which with the offices here tainly attract American We cannot go on living on and we must have a policy from the outside. As traffic solution of Canada's railway so service is the way to c The returns show that we a giving service."

## LOCAL HUNTERS FOUR LARGE

J. G. Christie and Dr. Roy Successful Trip In Ch River District.

Messrs. J. G. Christie, Manager of the Royal Bank here and Dr. Roy, who returned here recent a hunting trip in the Chateaux were successful in bringing down of the largest buck deer in Campbellton this season, average weight of 200 pounds each dressed.

Accompanied by Guides Art Joseph Levesque of Mount the hunters left on Nov. 3rd South East. While on the they saw as many as 27 deer one morning. The guides, Joseph and Arthur Levesque, known throughout the Chateaux and the result of the trip test their ability as trailers of the game. Both Mr. Christie and Roy would recommend them to any sportsmen anticipating in their territory. All four deer heads were partly the specimens and one quirtette had ten point antlers.

"Name three articles of stard." Student: "Two cuffs and a
