

"BEST SCHEME YET ADVANCED; SHOULD BE ADOPTED BY CITY

Leading Dundas Street Merchant Strong Supporter of
the High Pressure Fire Fighting System
Set Forth by Col. Little.

Mr. Archibald Sreaton, head of the firm of A. Sreaton & Co., Dundas street, was interviewed this morning by The Advertiser in regard to the high pressure fire fighting system, which will also furnish water for industrial and other purposes, and which has been put before the public in a very plain way by Col. Little, through a report made for the latter by Expert Engineer Chipman.

Mr. Sreaton is a representative merchant, and one of those who would be subject to the special tax to be levied in case the scheme is adopted by the city. Consequently, his views are of much interest.

He stated that after giving the matter much consideration, he is in favor of the scheme as outlined by Col. Little and Mr. Chipman.

Favors the Scheme.

He pointed out that for many years a high pressure river water scheme for fire fighting, industrial purposes, street watering, etc., has been advocated, but until the present it has not been placed before the public in a plain, concrete form.

As a merchant, Mr. Sreaton felt that the scheme will meet with the approval of businessmen, because it will mean a great reduction in insurance.

"I believe," Mr. Sreaton stated to the reporter, "that the businessmen will save much more in insurance each

year, than they will be compelled to pay for their share of the cost of the high pressure system. And the city will have plenty of spring water for drinking purposes for years to come, and plenty of water for fire fighting, street watering, industrial purposes, etc.

Against River Water.

"I am in favor of the scheme as being the best yet advanced," he concluded. "It is within our means and I think it should be adopted."

Col. Gartschore, manager of the McClary Manufacturing Company, which firm lately installed a private high-pressure fire fighting plant of its own at the up-town works, stated that he has not as yet had time to go thoroughly into the scheme as put forth in the Chipman report, but he said that he is, and has always been, in favor of a high-pressure system.

The Best Yet Advanced.

"The advocates of river water for drinking purposes may talk until they are gray, but they will never talk the people into drinking river water."

This was the statement made by Mayor Judd in his office today when seen by The Advertiser.

His worship stated that as yet he has seen nothing to make him change his mind in regard to the Komoka

Continued on Page Eight.

Freight Traffic Is Very Heavy

The way in which the Grand Trunk freight business keeps up is a source of surprise even to the officials of the road.

As a rule, the traffic is heavier in the winter months, but this summer there has not been the slightest falling off. The business continues as brisk as ever, and if anything there are more trains passing over the lines daily.

"Is the traffic all eastbound through freight?" an official was asked today.

"Not by any means," was the reply. "Of course, the bulk of it is eastbound, as is always the case, but the amount of west-bound business is on the increase. The freight from the branches is also above the average."

"For the summer months, I guess the Grand Trunk's freight is heavier now than it ever was. There is no sign of it letting up."

BIG COAL STRIKE IS THREATENED

Unless Compromise Settles the
Trouble, 40,000 Men Will
Quit Saturday.

Pittsburg, May 30. — A strike of at least forty thousand coal miners in the Pittsburg district is booked for beginning Saturday morning and unless the operators and workmen of the United Mine Workers of America come to a compromise some time tomorrow the strike will surely occur, as the ultimatum has been sent to the operators that unless the new automatic steam, or shaker dumps, lately introduced at the mines of the district, are taken out, not a pound of coal will be mined after Friday night.

Both Sides Are Ready.

In reply the operators, headed by Francis L. Robbins, president of the soft coal trust, and whose mines have been equipped with the new machinery, have sent word to the mine workers to go softly, that if a strike should be declared and the mines forced to shut down, they will never be re-opened with the same workmen, nor will any of the striking workmen ever be allowed to work in any of the mines here again.

Both sides seem ready for a strike, and there is now every indication that it will come, and if so it will be a long struggle, for preparations have been going on for some years for this test of strength.

The Pittsburg district of the United Mine Workers will be backed in their strike to their end by the national body, as it is recognized as a fight in which operators all over the country, as well as every man who works underground, is interested.

Will Reduce Wages.

This is the first district in the United States where the machinery has been introduced, and the miners of the district have been chosen because of the proximity of outside help for the operators in a fight, and that if the machines are allowed here they will quickly be forced into every mine controlled by the United Mine Workers of America. The workmen claim the machines will reduce their wages about 17 cents per ton.

The steam or shaker dump is a contrivance used in separating different grades of coal, and the miners claim it works greatly against their interests in crediting them with more on the books. President Feehan, of the miners, and President Robbins, of the operators, each declare tonight there will be no backdown.

COMPETITION MEANS SAVING OF \$24,000

Sewers Will Not Cost Nearly as Much as
Was Estimated.

The city of London has done well by the competition for sewer contracts in this city.

At the beginning of the year Engineer Graydon estimated that it would cost \$80,000 to put down the South London main sewer, the Ottawa avenue main sewer, the north end main sewer and the sewer on Dundas street.

All the contracts have now been let and they do not total \$36,000. As a consequence the city is about \$24,000 to the good.

THE REBELLION SPREADS

Thirty Thousand Chinese Insurrectionists Under Arms Near Amoy.

Amoy, China, May 31. — An insurrection has broken out forty miles southward of Amoy. Thirty thousand rebels are under arms and are stated to be well led. The revolt is spreading to towns near Amoy. The victory of Fuchow is sending 8,000 troops to deal with the rising and warships are expected here shortly.

BRITISH FLEET AT HALIFAX.

Halifax, May 30. — A British special squadron, comprising the first-class cruisers Good Hope (flagship), Hampshire, Roxburgh and Argyll, under the command of Rear Admiral Sir George M. Melville, entered the harbor at 10:30 a.m. today and are now anchored off the dockyard. The Dominion cruiser Petrel met the ships at the harbor entrance and escorted them to their moorings.

REV. W. J. FORD, LL.D.

The new president of the London Methodist Conference, Rev. W. J. Ford, LL.D., of Gloucester, has been a member of the conference since 1881. Prior to that time, however, he had been stationed in another conference. He has occupied a number of important positions. His first station in the London Conference was Berlin, where he spent 1881 and 1882. From there he went to Port Stanley, remaining two years, going in 1885 to Essex Center, where he was stationed for three years. The order named he spent one year at Forest, three at Parkville, three at Dresden, two at Clinton (Ontario Street Church), three at London (Centennial), three at Essex, and two at Gloucester, his present charge. He was financial secretary of the Windsor district for two years, and he occupied the same position in the Essex district for one year. Mr. Ford has also been chairman of the Sarnia, Chatham, and Windsor districts. He was in 1891 assistant secretary of the conference, and a year later filled the position of secretary.

STRIKE TIES UP FRENCH PORTS

117,000 Seamen Have Quit Work
Because of Meager Addition
to Pension.

Paris, May 31. — French commerce is threatened with complete paralysis as a result of the general strike of sailors belonging to the naval reserve, which went into operation at daylight today at all ports of the country. The naval reserves comprise almost all of the entire maritime population devoted to seafaring life. They number about 150,000 men, of whom 50,000 belong to the war fleet. Practically the entire personnel of the merchant marine, as well as the longshoremen, are included in the naval reserve. The executive committee of the National Seamen's union ordered the strike because the Government's new bill, increasing pension from \$40 to \$72.50, in the case of seamen, and from \$156 to \$200 in the case of captains, as being inadequate. The reports thus far received indicate that the tie-up is complete. At the Mediterranean, Atlantic and channel ports, the crews generally left their ships. The Government promptly ordered the army transports at Marseilles to be placed in commission in order to insure a mail service between France and her African possessions, but the transportation companies were taken by surprise, and at the mercy of the strikers. The officials of the French transatlantic company hope that the steamer La Provence will be able to sail from Havre tomorrow. Legally, the companies are in a position to coerce the men, but it is regarded as more likely that they will try to effect a compromise.

BARRINGTON MUST HANG.

Jefferson City, May 31. — The supreme court has decreed that "Lord" Frederick Seymour Barrington, now in jail at Clayton, Mo., shall be hanged July 25 for the murder of J. P. McCann, a St. Louis horseman.

THE WEATHER

TOMORROW—SHOWERY.

Forecast. Toronto, May 31.—8 a.m. Fresh to strong easterly winds; fine to day, becoming showery on Saturday; stationary or a little higher temperature.

TEMPERATURES.
Stations. 8 a.m. Min. Weather.
Calgary..... 52 38 Cloudy
Winnipeg..... 52 38 Clear
Port Arthur..... 48 36 Clear
Toronto..... 51 38 Clear
Ottawa..... 54 48 Fair
Montreal..... 50 48 Cloudy
Quebec..... 50 48 Cloudy
Father Point..... 42 38 Cloudy

The first column in the above table records the temperature at 8 a.m. this morning, and the second column records the minimum temperatures during the 24 hours previous.

LOCAL TEMPERATURES.
The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended at 8 p.m. Thursday were: Highest, 65°; lowest, 37.5° above.

WEATHER NOTES.
Showers have occurred in several districts since yesterday morning, chiefly in the Western and Maritime Provinces. The weather remains decidedly warm in British Columbia and the Yukon, but cool elsewhere. A marked depression covers the Mississippi Valley, attended by a wide spread rain area.

NEW PRESIDENT OF CONFERENCE REV. W. J. FORD IS ELECTED

Former Pastor of Centennial
Succeeds on Second Ballot
Over Rev. A. H. Going.

[Special to The Advertiser.]

Goderich, May 30. — The business of the ministerial season was completed this morning. Candidates for the ministry on trial were received as follows: St. P. Haselwood, St. Thomas; Frank J. Grant, London; G. C. Gifford, Stratford; R. J. Currey, B. A., Goderich; Roy E. Mitchell, Sarnia; F. E. Cledale, Sarnia; John P. Haywood, Windsor; W. C. Graham, Chatham; Thomas A. Ajlin, Chatham; David Hicks, Chatham; Arthur R. Johnson, Sheddin; W. P. E. James, Ridgeway.

The case of S. P. Westaway was referred to the general mission board. On motion of Rev. S. Bond, a motion was unanimously passed expressing appreciation of the long and eminently useful labors of the ministers superannuating. Rev. Dr. Langford, Rev. Dr. Harmon, Rev. B. Clement and Rev. J. C. Pomeroy.

The pastoral address was presented and read by Rev. R. J. Garbutt. The address was read by him printed and read in all the churches.

At the request of the Goderich district the conference agreed to the ordination of the Rev. R. J. Currie, B.A., of Walton, for special reasons.

By request of the Alberta Conference, expressed by telegram, it was decided to grant ordination to Rev. G. W. Sparling and R. Plesner.

New President Chosen.

The general business sessions of the conference opened this afternoon at 2 o'clock. After the call of the conference roll, the conference proceeded to the election of officers for the ensuing year.

On the second ballot Rev. Mr. J. Ford, LL.D., of Gloucester, was elected president. Mr. Ford's opponent was Rev. A. H. Going, of Exeter, who, like Mr. Ford, is a former pastor of Centennial Church, London. On the first ballot Mr. Ford secured 104 votes, 114 votes being necessary for election. Mr. Going on this ballot secured 49 votes.

On the second ballot Mr. Ford secured 158. Mr. Going secured 48.

Rev. W. G. H. McAllister, M.A., of London, was elected conference secretary. Mr. McAllister declined the appointment for special reasons, and another ballot was taken, resulting in the election of Rev. Geo. H. Long, of Highgate.

Rev. T. W. Blatchford, B.A., and Rev. W. H. Graham were appointed assistant secretaries.

Following the election of officers the conference listened with great interest to an address by Dr. Jas. Allen, associate missionary secretary.

Rev. Dr. Burwash, chancellor of Victoria University, was introduced to the conference. He spoke at length of the success and interests of the educational work under his charge. The chancellor stated that the past year has been the best in the history of Victoria. The number of registered students in all departments was four hundred and thirty-six.

Tomorrow night a mass meeting in the interests of education will be held in the conference church, which will be addressed by Rev. H. W. Locke, of Kincairdine, and Rev. J. W. Graham, B.A., of London.

NATURAL INCREASE WAS VERY SMALL

Deaths Almost Equaled Births in
London During May—Pneumonia's Victims Many.

According to statistics compiled by City Clerk Baker, the natural increase in population of the city of London during May was only 12, there having been 82 births and 70 deaths.

As compared with May, 1906, there was a falling off of 11 births in the number recorded. In 1906 there were 93 births in May, and 82 in the same month of 1904.

The marriage figures for the month are also very much the same for the past four years.

In the month about to close 27 were recorded; in May, 1906, there were 29 marriages; May, 1905, 29, and May, 1904, 27.

The death list for May this year shows a material increase over the three previous years.

During the present month there were 70 deaths recorded, against 60 for the same month of 1905, 61 for 1906, and only 54 for May, 1904.

Heart disease and pneumonia resulted in many deaths this month.

According to the returns, there were 3 deaths from cancer, 4 from paralysis, 1 from pneumonia, 8 from heart disease, 2 from apoplexy, 2 from tuberculosis and 2 from accidents. The other deaths were caused from a number of ailments, which, as a usual thing, are not regarded as serious.

The greatest age recorded was 88 years.

NO ELECTION THIS YEAR

Liberal Whip Calvert Says There'll Be
Another Session.

Ottawa, May 30. — W. S. Calvert, M.P., Liberal whip, says that word was given to the leader of the Opposition that there would be no dissolution before another session of Parliament was held. "There will be no general election this year," said he.

THE DEFENSE IN EMMERSON CASE

Hotel Porter Says the Ladies
Were Too Noisy.

SAID HE WOULD SEND THEM OUT

The Magistrate Reserves Decision as to
Whether Case Will Be Sent to
a Higher Court.

Frederickton, N. B., May 30. — After recess today the defense in the Emerson hotel case endeavored to have a blue-print of the Albion Hotel put in as evidence.

Blue Print Rejected.
From the St. Lawrence Hall, Mr. Emerson said that he and the two women went to the Albion Hotel, where they were assigned to rooms, but did not register. Mr. Hazen produced what he said was a blue print copy of the Albion Hotel register of June 10, and it was passed to Mr. Emerson, who said his name was not there. Hon. Mr. Pugsley objected to the blue print being offered in evidence, saying that its title was written in another handwriting, which he thought was that of Detective Sketfington, who was present. Mr. Hazen said that Mr. Pugsley's guess was far from right. The magistrate would not allow the blue print to be offered as evidence. Mr. Emerson said that he thought the Albion was a hotel of good reputation.

Woman Had No Pass.
Mrs. Beauthier did not have a pass in June last on the L. C. R. While in Montreal, on the occasion in question, he practically was in communication only with Mrs. Allen and Mrs. Beauthier. He said only his own bill at the Albion. The witness said that he was in the House of Commons at Ottawa on March 28, and heard the speech of Mr. Bourassa on the personal conduct of ministers. Mr. Hazen read the report of Mr. Bourassa's speech from Hansard, and Mr. Emerson said it was about what was said. Mr. Hazen offered the copy of Hansard in evidence to show that the matter was under public discussion before the alleged libel was published, and thus was relative to the case.

Admitted Hansard.
Mr. Pugsley spoke twice to the court, claiming that the speech of Mr. Bourassa was not relative to the case, and if allowed in evidence, would make a loophole for much more to come in. There were, he said, many ready to put a party out of power by putting their personal standings in a bad light, but it remained for Mr. Crockett to publish this slanderous article.

Mr. Hazen further contended that the copy of Hansard should be admitted on the grounds that it was wanted to show that the matter had been under public discussion before being published, and that it was of public interest. His honor admitted the copy of Hansard as evidence, subject to the objection. Quotations from speeches in the same discussion by Mr. Fowler, of Kings, and Sir Wilfrid Laurier were then read to Mr. Emerson.

A Toronto Cartoon.
There was some discussion between counsel as to members of the court discussing the moral standing of members, and then Mr. Hazen continued on his plan to show the incredibility of witness, by asking as to whether Mr. Emerson had ever seen in the Toronto World a cartoon of four members of the Government sitting in the stocks, stating to the court that the idea was to show that Mr. Emerson did know that he was the one accused of being ejected from a hotel. Mr. Pugsley objected to this matter being taken up as irrelevant. Mr. Hazen in support of his contention expressed surprise that in a case where a man was being tried for a criminal charge that the Attorney-General should make such an objection and said that he could not quite understand the position of the Attorney-General today, whether he was attempting to counsel for the crown, or for Mr. Emerson. Mr. Hazen claimed that Mr. Crockett, being liable to penalties, should be given the proper latitude to prove his innocence.

Looking After His Client.
Mr. Pugsley claimed that he was doing nothing more than properly look after his client.

Continued on Page Two.

CAPELLE TO DIE FOR KILLING DOW

The Court Decrees That He Be
Executed at Parry Sound
on August First.

Parry Sound, Ont., May 31. — Marano, the Italian companion of Capelle, in the Dow murder case, was found guilty of assault on Angus McLeod, one of those who interfered against the Italians in the row at McCormack's on a Christmas Day.

At the close of the sittings of the assizes today, Judge Telford pronounced the sentence of death in the case of Capelle, the execution to take place at Parry Sound on Aug. 1. Marano gets three years in the penitentiary.

Capelle, fatally stabbed Dow, who was protecting Mrs. McCormack from assault by the Italians.

FREIGHT IS PILING UP

The Situation at the Head of the Great
Lakes Worst in Years.

Detroit, Mich., May 31. — A Duluth dispatch says: The steamer Huroon of the Northern Navigation Company, which arrived here from Port Arthur with passengers and a large load of pluge freight, reports freight conditions at the Canadian head of the lakes to be the worst in years. Freight is piling in on every train, and the docks and warehouses are in such a congested condition that fast loading is impossible. Capt. Foote said it would be some time before the situation was fully relieved.

TWO MILLION ORGANIZED WORKERS MUST MOUNT THE WATER WAGON

Rebellious Brewery Workers Are
Ousted by President
Gompers.

Chicago, May 31. — The last barrel of "union" beer in Chicago, and the whole country, according to an edict of the American Federation of Labor, will be manufactured today. At midnight, the Brewery Workers' Union will cease to exist in the eyes of the national labor leaders, and the two million organized workmen in the United States will be asked to "get on the water wagon," or use some other kind of beverage. The brewery employees have rebelled against President Gompers, and the national labor executive council, and they are to be disciplined. The method adopted is that of expulsion.

Secretary Kemper, of the local union, said the 3,000 brewery workers in Chicago will go on brewing beer whether the American Federation of Labor regards it officially as a "union" product or not.

The trouble has been growing for several years. Two months ago the national labor council met in Washington, and gave the Brewery Workers' Union until June 1 to comply with an order to oust all engineers, firemen and teamsters from its organization. These men were under the protection of the union, which was in conflict with the principle of trade autonomy upheld by the federation. The brewery employees then took a vote and 98 per cent of the membership refused resistance to the order, which meant about the present situation.

THE CHRONICLE QUILTS

Prominent Chicago Newspaper Obligated
to Cease Publication.

Chicago, Ill., May 31. — The Chicago Chronicle this morning announces that it will cease publication with this issue, owing to the fact that the paper has been unprofitable for some time.

The official notice, signed by the editor, H. W. Seymour, follows: "As it has not been profitable of late, publication of the Chronicle will be suspended with this issue. All liabilities of the Chicago Chronicle Company will be met as usual in the regular course."

The Chronicle began publication on May 28, 1895, as the only Democratic morning paper then in Chicago. John R. Walsh, one of the chief owners, and formerly president of the Chicago National Bank, refused the support of his paper to W. J. Bryan during Bryan's candidacy for the presidency, and during the last national campaign the Chronicle came out as a Republican newspaper.

NEW AUTO RECORD.

New York, May 31. — Manuel Cedrino, the Vanderbilt cup driver, broke the ten-mile record for middle-weight cars at the Empire City track yesterday, covering the distance in 9 minutes, 47.1 seconds. The previous record was 10 minutes, 1.2 seconds, held by Bernin.

Cedrino continued on to fifteen miles, and covered the distance in 14 minutes and 45 seconds, which is also a world's record for middle-weight machines.

Cedrino continued on to fifteen miles, and covered the distance in 14 minutes and 45 seconds, which is also a world's record for middle-weight machines.

Cedrino continued on to fifteen miles, and covered the distance in 14 minutes and 45 seconds, which is also a world's record for middle-weight machines.

Fulton, C. P. and T. A., London.

EMMERSON

(Continued from page 1.)

ing after his client. He then read the alleged libel which he characterized as a slanderous article and wanted to know how on earth articles printed in different papers throughout the country were relevant to the small part of the editorial which appeared in the Gleaner, the charge being that Mr. Crockett caused it to be published and that it was libelous.

Reason for Evidence.

Mr. Hazen felt that it was bad taste and bad judgment for the leader of the bar of the Province to get up in the court and make a political speech such as he had made. Mr. Hazen withstanding said that his desire was to use the evidence he was asking to introduce to show concerning the credibility of the witness, Mr. Emmerson had admitted that he was in a hotel in Montreal with women. By means of the cartoon, besides showing the credibility of the witness it was also proposed to show that public discussion on the matter had taken place.

Mr. O. S. Crockett, M. P., for the defense, also pressed for the admission of the evidence, stating that Mr. Emmerson had said that he had no idea upon earth who the parliamentary charges referred to, and in this connection it was decided to take up the credibility of the witness. If Mr. Emmerson had seen the Toronto World's cartoon they could argue on that point.

The Question in Dispute.

The following question was then put by Mr. Hazen: "I ask you, Mr. Emmerson, was your attention drawn to a cartoon in the Toronto World of March 1, entitled, 'In the Stocks,' and do you know who the ministers of the crown there represented?"

The magistrate ruled out the question.

The report in the St. John Sun of Mr. Emmerson's speech at Moncton, where he was reported to have said that he left St. Lawrence Hall with ladies was read, and Mr. Emmerson said it was a correct report.

"Most unqualifiedly," said Mr. Emmerson, when he said he did not know he was meant, when Mr. Bourassa made the statement of a minister being at a hotel with women, it was a matter of fact. I could not conjecture who was referred to, and I never associated the fact of my having been there with the ladies referred to.

"I never knew or heard of the talk about Ottawa or Montreal," continued Mr. Emmerson, "and I was accused of such things, and if I had I would have been." The balance of this sentence could not be heard.

Mr. Hazen then quoted further from the speech of Mr. Bourassa regarding the property of the crown being used for certain purposes and Mr. Emmerson told of hearing the speech.

Returned As His Guest.

Continuing, Mr. Emmerson said that he left the Albion Hotel in Montreal early on the morning following the night he had gone there with Mrs. Allen and Mrs. Beauthner, and that he did not see them before leaving the hotel. When Mrs. Beauthner traveled from Quebec to Montreal in his car, she did so as his guest, Mr. Emmerson said, and had no pass or ticket. Mrs. Allen, he said, was a daughter of a man who had for 40 years been confidential clerk to the witness' father.

The Re-examination.

On being re-examined by Mr. Pugsley, Mr. Emmerson said that so far as he knew Mrs. Allen was a woman of unimpaired character, and so far as he knew Mrs. Beauthner was also a woman of good character. Regarding going to the Albion Hotel, Mr. Emmerson said that he did not think that the register clerk was in the hotel office when they entered. Nothing of the kind happened between him and the women. He sent the women down to pay his bill as a matter of convenience, and left St. Lawrence Hall as a matter of gallantry, but perhaps it had not been the right thing for him to do.

The connection which Mr. Peters had with the Record Foundry was explained by Mr. Emmerson, who said that he had made the trip to Montreal to see him, and that Mr. Peters lived at the St. Lawrence Hall, but was out of town.

Mr. Emmerson said that he had never been ejected from any place alone or with women. When leaving Montreal, Mr. Emmerson said that Mrs. Allen and Mrs. Beauthner went to the station and asked for a pass for Mrs. Beauthner to use in transportation back to Quebec, but he could not give it there, as he had none with him.

Prosecution Case Finished.

Mr. Emmerson was allowed to leave the stand, and it was announced that the case for the prosecution was finished.

Ex-Minister Recalled.

A few moments later Mr. Emmerson was recalled, and went on the stand once more, and Mr. Pugsley read to him a portion of the speech of Sir Wilfrid Laurier in the famous "wine, women, and graft" debate, saying there would be an investigation if anybody would lay formal charges. Mr. Emmerson said that Hansard had a fair report. This completed the case for the prosecution.

Col. Marsh then called upon Mr. Crockett to stand up. The counsel had a brief conference, and Mr. Crockett dispensed with the reading of the depositions.

Says It Is True.

His honor then asked Mr. Crockett if he had anything to say, using the usual form in which it said that he had nothing to fear from any threat, and nothing to hope from any promise or favor, etc.

Mr. Hazen, speaking for Mr. Crockett, said that Mr. Crockett admitted writing and having published it on the 7th of March. He said that he was further instructed to say that the statements were true; that at the time that he wrote them Mr. Crockett had the reasonable grounds for believing them to be true; that they were relevant to the public interests; that they were published in the public interests; and that they had been the subject for discussion in New Brunswick and out-

CARTER'S LIVER PILLS.

CURE SICK HEADACHE

Headache, yet Carter's Little Liver Pills are equally reliable in Constipation, curing and preventing the same. They are gentle and do not grip or purge, but by their gentle action please all who use them.

As they would be almost useless in those who suffer from this distressing complaint, but fortunately their goodness does not end here, and those who are afflicted with this little evil will be able in so many ways that they will not be willing to do without them. But after all sick headache is the base of so many ills that here is where we make our great head. Our pills cure it while others only cure the result.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.
Small Pill. Small Dose. Small Price.

side of New Brunswick previous to the time that they were published.

The defense then opened their case, it being then 12:30 o'clock. George M. Smith, of Montreal, accountant for the estate of Henry Hagan, was the first witness called for the defense. The late Mr. Hagan died in 1902, and the estate owned the St. Lawrence until May 1 last. He had had control of the books of the hotel until May 1. Mayor McLeod, who was conducting the examination of witness produced the hotel register of the St. Lawrence Hall including the pages for June last. Mr. McLeod asked to have the register admitted as evidence.

Admits the Register.

The counsel at this stage of proceedings engaged in a wordy war lasting for some time, Mr. McLeod accusing Mr. Pugsley of trying to browbeat him and trying to run the whole court. Mr. Pugsley claimed that Mr. McLeod was acting in an extraordinary manner. Mr. Pugsley addressed Mr. Pugsley at the "Learned doctor." Col. Marsh decided to admit as evidence the portion of register with the names of Hon. Henry R. Emmerson, Mrs. George C. Allen of Moncton, and Mrs. A. Beauthner, of Quebec.

At a few minutes after one o'clock the court adjourned until 2:30 this afternoon.

The city council chamber, which is being used as a court room, was completely filled with spectators all morning, those present including many from outside of the city, and the greatest of interest was shown in the various questions which came up.

Afternoon Evidence.

The defense this afternoon called Mr. John Lloyd, night clerk at the St. Lawrence Hotel, Montreal. Mr. H. F. McLeod took charge of the examination.

The witness testified that he was a resident of Montreal when he was night clerk at the hotel, and had been for 36 years. On the night of June 8, two ladies registered at the hotel as M. Morter and M. Boutellier. On June 10 H. R. Emmerson, registered at the hotel. There are two parts to the hotel, the old and new part, joined by a bridge, under which is the office. He went on duty that night at 11 o'clock. There was a noise during the night. On that night about 12 o'clock he was smoking in the office. About that time the watchman was going round.

Mr. Pugsley here objected to Mr. Lloyd's evidence. McLeod contended that the evidence was admissible, as Mr. Lloyd was in charge of the hotel, and knew everything that was going on.

Mr. Lloyd, continuing, stated to Mr. McLeod that Mr. Dean was the night porter. Mr. Lloyd swore that a complaint had been made by one of the porters, a Mr. Chapman, that a gentleman in an adjoining room made a complaint to him that a noise was being made, as a result of which he could not rest.

Pugsley Objects.

Mr. Pugsley objected to Mr. Lloyd's testimony that complaints were made to the witness that night. Mr. O. S. Crockett, M. P., contended that the evidence was clearly admissible by all the rules of evidence, and cited cases where his honor had before ruled in accordance with the present contention. Mr. McLeod complained that it was a waste to shut out the testimony. Mr. Lloyd said that he had given the porter some orders. When Mr. McLeod asked what the instructions were the attorney-general and some others of the prosecution's counsel jumped to their feet and objected. Col. Marsh ruled the question out.

"I am surprised that the attorney-general has so far forgotten himself as to come to the city and ask you to fall in line with such extraordinary ruling," said Mr. Crockett.

Warm Passages.

Mr. Pugsley said that he would not consider Mr. Crockett's impertinent observation. Mr. Crockett remarked that the attorney-general came here and tried to run the court. The question and the report were ruled out. Then the examination of Mr. Lloyd continued. He said that the tall one of the women appeared not properly clad for the street. She asked for her bill. He gave it to her, and she asked for his (Emmerson's) bill, too, which he gave to her. She was talking rapidly to herself, and appeared

Mad. The trio left the hotel. Mr. Lloyd said that it was 12 o'clock when Mr. Emmerson and the women left the house. It was fully 16 years before that since the witness had seen Mr. Emmerson at the St. Lawrence Hall.

The Cross-Examination. The Attorney-General then commenced upon the cross-examination of Mr. Lloyd, and the counsel for the defense set up objections to the manner in which the Attorney-General persisted in leading on his witnesses. The Attorney-General called for a ruling, and Col. Marsh allowed the attorney to continue. The witness said that he would not necessarily see Mr. Emmerson at the hotel if he was there.

Asked to Keep Order.

On examination by Mr. Hazen, the witness said that he was supposed to keep order at the hotel, and that on the night of June 10 he was called upon to cause order to be kept in a room, or otherwise, the people would have to leave the house. The magistrate refused to allow any evidence to be taken as to what room the noise came from. Mr. Lloyd later stood aside to be recalled, after saying that in 16 years, up to June last, he did not see Mr. Emmerson register at the St. Lawrence Hall.

In Dressing Gowns.

Harry Dean, a former imperial army soldier, who has seen service in India, Egypt, and other places, is an Englishman by birth, and in June of last year he testified he was night porter at the St. Lawrence Hall. After 12 o'clock the night porter, acted as night watchman, and on his rounds through the parlor at 12 o'clock he saw two women clad in dressing gowns going towards Mr. Emmerson's room. They wore dressing gowns, and he knew that room 9 was open and not occupied. At 1:30 a.m. he heard loud talk, and loud laughter 20 yards away. It was a loud and hilarious noise. He approached the room, No. 137, which was Mr. Emmerson's, and heard a lady's voice and a man's voice. He rapped on the door and heard somebody moving about. A tall woman unlocked the door, and the room was in darkness. He told her that the noise must stop. She said "All right!" and shut the door as he was going away. The witness said he then went to Mr. Lloyd, the night clerk, and made a report.

Then Mr. Dean was asked to tell what he reported to Mr. Lloyd. It was ruled out, causing Mr. McLeod to remark, as he pointed to Mr. Emmerson, "Here's a man who came here, and says he wants to have his character vindicated, and he shuts out the evidence."

Saw Mr. Emmerson.

Mr. Dean says he went to Mr. Emmerson's room and delivered his message. He told the woman who came to the door that the noise must stop or they must leave the hotel. As he was leaving the room one of the ladies was seen by the witness in the hall, and Mr. Emmerson was also seen going across. He also saw the women when they were leaving the hotel, and he saw one woman talking to Mr. Lloyd.

Mr. Pugsley cross-examined the witness, and Mr. Dean said that he did not know whether there was a light in the bathroom off Mr. Emmerson's room or not. All he saw was the reflection from a light. He did not know the women's names, but he recognized the tall one.

This concluded the evidence, and the case was adjourned until Monday.

GUATEMALA'S CONSPIRACY

Cabrera Orders Trial To Be Held in Open Court.

Guatemala City, May 30.—Public trial of the seventeen persons convicted and sentenced to death for alleged complicity in the plots to assassinate President Cabrera, began here yesterday afternoon before the military court of appeal.

The hearing will probably take three days, as all of the testimony taken during the first secret trial is being read in public.

Soldiers and officers of Cabrera's army crowd the court room, which is very small, and few civilians are able to get in. All of the foreign ministers are present, except Philip Brown, the charge d'affaires of the United States legation.

The proposed note of the diplomatic corps to the Government, protesting against the first trial in these cases, has not been delivered, according to Mr. Brown, and probably will not be, as the Cabrera Government has shown that it

desires to give a fair trial. Mr. Brown denied that he had taken part in preparing the appeal.

The trial is exciting much interest in the city. Many citizens believe the Government has been mistaken in charging some of the prisoners with conspiracy, and believe they will go free.

LONDON, FRIDAY, MAY 31.

MR. CHIPMAN ON THE WATER
SUPPLY.

The report of Engineer Chipman is a highly important contribution to the question of the city's water supply. It is owing to the enterprise and public spirit of ex-Mayor Little that the information contained in it has been elicited and laid before the citizens to assist them in arriving at a solution.

Mr. Chipman's opinions derive weight from his past services to this municipality, and his high reputation as a civil and sanitary engineer. He designed the new sewerage system of this city twelve years ago, and superintended its construction. The plans met with much criticism and opposition at the time, but citizens are now agreed as to the efficiency of the work, and London may congratulate itself upon having listened to his advice.

Mr. Chipman is also one of the experts who have on different occasions reported upon the problem of the water supply. In 1903 he recommended, in preference to other schemes, the metering of 70 per cent of the services, which would have reduced the consumption of water by one-fourth. Mr. Chipman is still favorable to the installation of meters to check the abnormal waste of water, but since 1903 the necessity of a better system of fire protection in the congested districts of cities has been painfully taught by the great fires at Baltimore and Toronto. A number of cities in the United States and Canada, Toronto and Winnipeg, among others, are adopting the high-pressure system to effect reductions in insurance rates, and strengthen their fire-fighting facilities.

This is the plan which the fire underwriters have asked London to adopt, and which will bring insurance rates to a lower point than any other. The pressure at the pump-house would be 250 pounds, and at the fire hydrants 300 pounds. Engineer Maury reports that under the Komoka scheme the pressure could not exceed 75 or 80 pounds at the corner of Dundas and Richmond streets, and might be considerably less. This could be increased, but only by the installation of another pumping plant which would add materially to the annual expenditure. Mr. Maury reports that under his own scheme of river filtration the pressure in the center of the city could be raised in time of fire to not less than 100 pounds net. For fire-fighting purposes the advantage is therefore greatly in favor of the separate system.

Mr. Chipman calls attention to the enormous wastage of water in this city, a fact which has impressed itself on everyone who has given attention to waterworks matters. He estimates that 1,500,000 gallons per day which is pumped is not consumed. Allowing a waste of 700,000 gallons through leaky mains, there is a waste of 800,000 gallons daily through the carelessness of householders, and defective plumbing fixtures. By metering 50 per cent of the services, the saving would be 600,000 gallons. Another saving of 500,000 gallons of spring water would be effected by taking river water from the high-pressure service mains for street watering, factories, railways, livery stables, hotels, etc. This total saving of 1,800,000 gallons would suffice, in Mr. Chipman's opinion, for a population of 57,000 people if the city continued to grow at the rate of the past two or three years. The springs between Byron and Kiltworth, which are included in the Komoka scheme, could be added when needed and would supply 8,000 people. The Cronyn and White springs could later supplement the supply by 750,000 gallons daily, sufficient for 10,000 people. Mr. Chipman has, therefore, estimated that with these additions London may be supplied with spring water for domestic purposes until the population reaches 75,000.

In brief, Mr. Chipman's plan would tide the city over for about twenty years, assuming that its annual growth would be between three and four per cent, the rate of increase since 1903. Twenty years hence the city could resort to filtered river water at a comparatively small expense, as the filtration plant could be located at the station of the separate high-pressure system. Thus the money now spent on a high-pressure system would not be thrown away if citizens ever have recourse to river water for drinking purposes. As an alternative twenty years hence, the ratepayers could take in the springs at Komoka and postpone the use of river water for another long period, provided the water in the neighborhood of Komoka is suitable.

This is a disputed question, the present water commissioners claiming that the purity of the supply can be guaranteed, while Engineers Maury and Chipman report adversely on this point.

The cost of installing the high-pressure system is estimated at \$200,000, and the annual charges at \$25,000, which would include interest, sinking fund and cost of operation. The annual charges under the Komoka scheme, according to Mr. Maury, would be \$47,167, and under the river filtration scheme \$32,309. The initial cost of the Komoka scheme would be \$660,000, and of the river filtration scheme \$429,000. To the cost of the separate system must be added \$50,000 for new mains for the domestic system. These mains, in Mr. Chipman's opinion, will have to be laid in any event as the proportion of four-inch and six-inch pipes in the distribution system is too large. This expenditure, however, could be spread over several years. The cost of metering would be defrayed by the saving in pumping and by the sale of the water saved from waste by the meter system. A point which Mr. Chipman does not touch upon is the fact that the Grand Trunk Railway Company, in place of pumping its own water, could be supplied from the high-pressure service, thus increasing the city's revenue by \$6,000 per year.

If the people of London must drink river water they will postpone it as long as possible. The prospect of enjoying spring water for at least another twenty years, at a reasonable cost, is one which will appeal to the great majority of them.

THE CANADIAN BANKS.

The statement of the Canadian chartered banks for the month of April contains features which are certainly satisfactory, the chief of which is an increase in deposits of \$6,641,386. Of this increase \$3,570,979 was in deposits payable on demand and \$3,071,307 in those payable after notice. In view of the drain which has of late been made upon the amount on deposit in the banks, this showing is certainly gratifying. In March, current loans in Canada reached the record mark of \$579,957,554; in April they jumped to \$586,149,735. An increase of nearly one and a quarter million dollars in foreign deposits is recorded for April. There has been a restoration of foreign balances, and the net increase of the amounts due from banks and agencies in the United Kingdom and elsewhere, as against the increased amount due from these agencies, amounts to close on \$5,000,000.

To the growth of the branch bank system is to some extent attributed the increase in deposits. Upwards of two hundred branches have been established by the seven new Canadian banks organized during the past seven years. According to the official report they had 192 branches at the beginning of October last, the Sovereign Bank counting 69, the Metropolitan 21, the Crown 19, the Home 8, the Northern and Sterling 37 each, and the United Empire 1. Since then several other branches have been started. At the same date the twenty-eight older established banks had 1,373 branches, making the aggregate number of branches of the thirty-five Canadian banks 1,565. An inference drawn by the Monetary Times from the increased deposits is that the large sums of money which have been loaned by the banks have obtained for the borrowers a certain amount of profits. So much cash has been loaned during the past six months, the deposits at the same time declining, that it is certainly time some satisfactory result were shown in the bank statement. That there is still marked industrial expansion throughout the country is evidenced by the increase in current loans. From all parts of the Dominion come reports of launching of new industries, which cannot but aid in affording still further strength. In the matter of loaning large amounts the banks have wisely displayed caution, as a rule, making sure, as far as possible, that the money is invested in enterprises that will prove profitable.

As for drinking river water, sufficient unto the day, etc.

The Woodbine book-makers who are so much in the public eye have no connection with the Canadian Society of Authors.

Hon. Edward Blake will have the sympathy of all Canadians in his illness. This country has produced no greater intellect.

Sir V. Caillard congratulates the shareholders of a British-Canadian loan company upon the "almost monotonous record of prosperity in Canada." But it is not nearly so monotonous as the period spent in waiting for prosperity.

Hon. Clifford Sifton has been asked by Lord Strathcona to co-operate in the project of the all-red line. If Mr. Sifton puts his shoulder to the wheel it is bound to move.

"Mr. Chipman retains his opposition to the Komoka streams, and states that for every gallon of water obtained from new springs in the vicinity of Byron and the Cronyn springs the cost will be over \$1. That is, 100,000 gallons will cost \$100,000—

a heavy price, indeed."—Free Press. Our contemporary should read Mr. Chipman's report again. The cost of adding the Byron and Cronyn springs he estimates at \$100,000 for 1,000,000 gallons.

INCURABLE.

(Cleveland Leader.)
"Why don't you marry the girl?"
"I'd like to, but she has an impediment in her speech."
"What sort of impediment?"
"She can't say yes."

TOUCH LIGHTLY.

(Cleveland Plaindealer.)
When you lend a helping hand
Try to lend it right;
Too much weight is hard to stand—
Let your touch fall lightly.

A PAINTED FACE.

(Chicago Chronicle.)
Benedick—That luminous paint is a splendid invention.
Singleton—What do you use it for?
Benedick—We paint the baby's face, so we can give him a drink in the night without lighting the gas.

THE PURPLE SHIRT.

(Punch.)
I had a fannel shirt of purple hue.
A choice example of the hosiery art:
There came a friendly man who had to do
With washing, and removed it in a cart.
On a Monday had I seen this done;
The sign of yet another week begun.

I had a picture, mostly purple, too—
A graph reflecting on a marble slab—
And this another friendly man withdrew
And bare it from me in a four-wheeled cab.

"Now for a time," quoth I, "my labors cease,
Ere I begin another masterpiece."

Alas! the nymph returned—her journey wait;
A week she kept me in acute suspense;
And with the washing came the shirt again.

Yet with this all-important difference:
It had (unlike to any work of mine)
Hung but a few brief hours upon the line.

HIS IDEA OF SUSPENSION.

(Philadelphia Ledger.)
"Your sentence is to be suspended," began the merciful court.
"Great Scott, Judge!" exclaimed the prisoner, "if I'd known chicken stealing was a hanging offense I wouldn't have stole."

WITHOUT KNOWLEDGE OR PROOF.

(Yonkers Statesman.)
Bacon—What becomes of all the bugs in winter?
Egbert—You can search me.

THE OLD SYSTEM.

(Kansas City Times.)
Mr. Askum—The new gambling law makes you change the system of betting, doesn't it?
Mr. Gambel—Yes; but there is still no change for the better.

QUERY ANSWERED.

(Life.)
"An old subscriber writes us to know what a married couple can live comfortably on," said the editor.
"Tell her a thousand a year more than they have," answered the correspondence editor, wisely.

THE OVER-ZEALOUS CANINE.

(Judge.)
Once a farm became infested
With a horde of railway trains.
And an active, double-breasted
Yellow canine took the pains
To run out both night and day
Bark and scare the trains away.

When he heard the sound encroaching
He would waken up and growl;
When he saw the train approaching
He would run at it and howl.
Then without the least delay
Chase it down the right of way.

Then he'd go back home and say
With a sense of deep alarm,
"Well, they almost got the farm."
This fabled dog's name was
Off the statesman and the saint
Think they're doing good, but ain't.

A STATESMAN.

(Chicago Daily News)
Little Willie—"Say, pa, what is a statesman?"
Pa—"A statesman, my son, is a politician who knows a band wagon when he sees it."

TASTES IN COMMON.

(Brooklyn Eagle.)
He—"So they are engaged, eh? Have they any tastes in common?"
She—"Oh, yes! They chew the same kind of gum."

WISHING.

(Charlotte Observer.)
I wish I was a humming bird.
I'd nest in a willow tree.
Den nothin' but soppy'n' what goes on
With a willow tree.

I wish I was a snake, I'd crawl
Down in a deep snake pit.
Nothin' but venture down in dar',
'Twd be so dark an' cool'.

But jest a nigger in his shack,
Wid de firelight in de chinks—
Soppy'n' him see him uvvy time,
He even so much as winks.

It's a natural fact dat many a time
I wish I was upp'n' wil',
A coon or a owl or a possum or crow—
Less waise a little while.

I'd like ter sleep in a holier gum
Or roost in a long leaf pine.
Whar nothin' 'd come to mess wid me
Or ax me whar I gwine.

THE TEACHER'S WISDOM.

The ideal teacher must be in possession of a wealth of accumulated wisdom. These hungry pupils are drawing all their nourishment from us, and have we got it to give? They will be poor, if we are poor; rich if we are wealthy. We are our source of supply. Every time we cut ourselves off from nutrition we enfeeble them. And how frequently devoted teachers make this mistake! dedicating themselves so to the immediate needs of those about them that they themselves grow thinner each year. "We all know," the teacher's face is not a case. Supplying a multitude of needs, we need wealth sufficient for a multitude. We should be clutching at knowledge on a mistake to reject a bit of truth because it lies outside our province. Some day we shall need it.—Atlantic Monthly.

MUNYON'S
GREAT GIFTHis Remedies To Be
Given Away Absolutely Free.Ten Thousand Bottles of His
Guaranteed Rheumatism
Cure Now Being Distributed
From the Business
Office of the London Free
Press, 430 Richmond St.Distribution Opened This Morn-
ing at 8:30 o'clock, and Will
Continue Until 6 o'clock
on Saturday.

EVERYBODY INVITED.

Every Sufferer of Rheumatism Is
Asked to Call and Get a Free Bottle.

Professor Munyon is here, and has decided to make another distribution of his guaranteed Rheumatism Cure. This makes the fifteenth distribution Professor Munyon has made in this city.

His proposition is certainly a fair one. He does not ask the people to invest one penny. On the contrary, he invites everybody to call for a free bottle. Even the body to see them to appreciate the reduction. One style has a square yoke of fine valenciennes lace and a prettily embroidered front; the other has straight rows of embroidery inlaid. Both are short sleeved and buttoned in the back. Reduced for the first time. Regular \$2.75 values, for \$2.33

Men's Overalls

Five dozen Black Duck Overalls, with bibs, double stitched and riveted; all sizes. Special75c
Boy's Plain and Striped Wool Sweaters. \$1.00 values at 85c and \$1.50 values at \$1.00

J. H. Chapman & Co., 126, 128, 128 1/2 Dundas St.

as does the speedy one.
"This little boy," began the noted trainer and rider, leading the way to a nearby stall, "is called Revina. He's green, and as yet has no mark—but watch him." And Dan looked wise.

Revina is a brown-colored animal, sired by Wild Brins; dam, Raven, by Highland, and is five years of age. He is owned by Johnston Bros., and "Everybody knows this fellow," McEwen continued as he threw open the top door of Geary's stall.

Geary, as most horsemen know, has a mark of 2:08 1/2, and was sired by the famous Five Points, dam Albion. The gelding is chestnut in color, and is a pacer. Geary is known from one end of the Grand Circuit to the other, and is a money-getter of the first water. Johnston Bros., of this city are the owners.

Another pair of most promising-looking animals owned by the same firm, and under Mr. McEwen's care, are Henry Winters, a green horse, and Lil Bar, who has a mark of 2:12 1/2. The first named is a bay stallion of 5 years, by Ed. Winters, dam, Charming Bunker, by Bobby MacGregor; while the latter is a bay trotting mare, 8 years old, by Montgomery, dam, Wilkes. Lil Bar possesses a world of speed, and Mr. McEwen can be pardoned if he takes a reasonable pride in her development. That he does so, however, he will not admit.

A splendor-looking chestnut gelding is Elidenbaron, a green horse owned by Mr. W. O. Hargrave. Although having no mark as yet, this splendid trotter is well thought of about the Queen's Park stables, and her future as a speeder seems assured.

Dr. O'Neil will some day be obliged to give announcement of a horse-christening, for it looks count for anything his beautiful black filly now out at the park will surely make good. Of course, looks don't always count for much in racing, but then McEwen said that the animal looked "most promising," and that's quite a bit to get out of Dan without a pry of some kind. This animal is by Satrap, dam Murphy, by Royal George, and is a half-sister to the well-known speedy Spy.

The man who said that there was nothing in a name was whispering through his Panama. Mr. J. J. Johnston has a trotter named Daily Bread which is a winner, and has a mark of 2:20 1/2. The animal, which is a brown gelding, is by Daily News, and he is expected to make some of the fastest looks to their laurels the coming season. Mr. McEwen has only had him in charge for about a month.

The veteran driver's usually stern face relaxed into a broad smile as he came to the last stall in his portion of the stable.

"I'm not saying a word about this fellow," he announced, and in another second the door had been thrown open, and Silver Joe, one of the most beautifully spotted horses ever seen on the local track—and incidentally reputedly one of the speediest—stuck his nose out and looked up in an inquiring manner. "Professional horse?" queried the inquisitive one.

"Nope. I had him with me

J. H. CHAPMAN & CO

Special Attractions for
SaturdayTwo Lines of Waists
Reduced
Lines Nos. 1847 and 776.

Two very attractive styles in Ladies' Fine White Persian Lawn Waists on sale today and tomorrow. You must see them to appreciate the reduction. GILLETTS

HIGH GRADE

CREAM TARTAR

ABSOLUTELY PURE.

SOLD IN PACKAGES AND CANS.

Same Price as the cheap adulterated kinds.

E. W. GILLET COMPANY LIMITED

TORONTO, ONT.

purposes. Sandy Points is the name of the equine candidate for track honors, and if he is one-half as chipper on the track as he is in the stall there will be nothing to the 2:40 class but Mr. Baker's horse.

When the owner walked up to the stall, Sandy Points proceeded to knock off his hat, failing in which, he made a gallant and nearly successful effort to devour the scribe's pad. He certainly is a coxer, that fellow. Stretching his neck out to its utmost length a few moments later, he attempted to take a loving nip of his master's ear. He nearly got there, too, and looked like a spoiled child when he failed. Actually, he seemed to pant, while in his eyes reposed a look of entreaty and reproach combined.

Sandy Points is a chestnut gelding and was sired by Five Points, dam Veris, and raced last season at Stratford, but was out of condition at the time and did not show up as well as he might have.

This concludes the list of horses at the track at present, but more are expected daily. The big crowd, however, will not come in until after the Wingham and Preston meetings, when it is expected that some 200 will be stabled at Queen's Park for the London June meeting, the entries for which close next Tuesday.

Mr. Donald Fraser, the secretary of the racing association, was a visitor at the track yesterday, and expressed himself as being entirely satisfied with the outlook for the coming meet.

"It will be greatly surprising if at least 300 horses are not stabled here between now and June 11," he said, "and we've got accommodations for another hundred if they come in."

It is not probable that more than twelve of the horses stabled at the track now will enter the big events, inasmuch as the London horses have been handicapped in the matter of training, owing to the bad weather.

The production of copper in the United States in 1936 exceeded 901,000,000 pounds.

The beginning and the end of the meals of the day should be Chase & Sanborn's SEAL BRAND COFFEE. It's the first thing for breakfast—the last for dinner—and the "best thing" in every meal.

A WOMAN'S BACK WAS NOT MADE TO ACHE

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burden of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Mrs. Thos. Craig, Almonte, Ont., writes: "I was doctoring for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Doan's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers, or will be mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

Rubber Carriage Tires

These tires can be obtained from any dealer, or direct from our Toronto Sales Branch, Front and Yonge Streets.

Higher than Government Standard.

St. George's Baking Powder

"Talk about your Pure-Food Laws! They're not needed when you buy articles like St. George's Baking Powder!"

"St. George's is made of materials purer than the law requires."

"The Cream of Tartar used in it is 99.90% pure! The law allows Cream of Tartar, containing from 10% to 15% of lime, to be sold as 'pure'!"

"If you want white, light, wholesome, and delicious biscuits, cakes and pies, St. George's is the Baking Powder to get."

Good recipes, and new ones, will be sent you in a dainty booklet, FREE, on request. Write to-day—as the edition will soon be exhausted. National Drug & Chemical Co. of Canada, Limited, Montreal.

THE COMING TRIP 'ROUND THE WORLD

Sure To Be a Most Enjoyable Affair—Outline of the Attractions.

The buildings for the "Trip 'Round the World" are being erected in the armories, and everyone is busy getting ready for the "trip," which starts on June 5, the Lieutenant-Governor, Sir Mortimer Clark, officiating. The booths are most picturesque and interesting, and apart from the entertainment (which will be of a charming and delightful character), they are quite worth seeing.

In addition to the regular programme, which will be conducted in the main hall, and which will consist of "The Grand March," the "Grand Drill" under direction of Mr. O'Donnell, the "Cadet Fancy Drill," and the fancy drill by the Collegiate girls, under the direction of Mr. Gregory, there will be musical and literary entertainments in each booth, the music, singing, dancing and entertaining being altogether characteristic of the country represented.

The Scotch concert will entice many of the St. Andrew's Society to the Scotch booth, where a delightful evening is promised, with Mr. Cyril Dwight-Edwards, Canada's foremost baritone, in charge.

The thatched cottage which represents Ireland will interest the Irish Revue Society and all the sons of Erin.

The Dutch booth is delightfully quaint and picturesque, and will be one of the most attractive in the armories.

Afternoon tea, à la Anglaise, will be served from the cabin of an ocean liner, the ladies to be in sailor costume.

The French booth, with Mrs. Gervard in charge, will be typical of Parisian life.

With Mrs. Harold Richardson in charge of the American booth, and assisted by some American ladies now resident in the city, it goes without saying that this booth will be one of the most popular in the fête.

The Italian, Swiss and Spanish booths, with their picturesque attendants, and the sweet music of the Italian harpers, and the Spanish guitar, will no doubt prove a great attraction to a large number.

The Canadian booth is dear to everyone. There are none who are not interested in this booth, and with its purely Canadian goods and eatables it is expected that it will be most liberally patronized.

The Japanese booth, however, in charge of Mrs. (Dr.) C. T. Campbell, bids fair to be a strong rival. The Japanese tea-room, matronized by Mrs. Samuel Stevely and Mrs. (Dr.) C. W. Belton, will be the feature of this booth. A dainty luncheon will be served here each day from 12 to 2, with the Japanese ladies as hostesses. In addition to this there is a kimono and a Kuroki table, the latter so-called after the famous general Baron Kuroki, where Japanese articles of all kinds may be purchased.

Other attractions being planned include a fortune-telling alcove, a fish-pond, a flower-show and a section allotted to fun-making contrivances. These indicate that the Japanese booth will have a full share of the patronage.

Taking it altogether, the entertainment will be the most instructive and interesting affair ever given in London.

No one should miss the "Trip 'Round the World."

CHINESE FAMINE BROKER

Weather Conditions Give Promise of Good Crop Yield.

Shanghai, May 30.—The famine which has prevailed for many weeks, causing hundreds of deaths and great suffering, has been broken. The crops are still thin, but the hot weather of the past month has been favorable to a good yield.

American gifts have supplied milk regularly to 1,000 babies at the Hsu Chiao Fu Temple, while 300 more have been nourished occasionally. The children are left with their parents or relations, as the Chinese dread foreign orphanages.

What is left of the gift will be turned over to the Red Cross Society to relieve individual cases of need and to grapple with the next crisis.

BALLOON BLOWN TO SEA

Military Aeronauts Missing When Bag Was Picked Up.

London, May 30.—A military balloon, piloted by Lieutenants Caulfield and Leake, of the Royal Engineers, which was sent up from Aldershot camp on May 28 during the review in honor of Prince Fushimi of Japan, was picked up at sea by a fishing smack this morning, some distance from Exmouth, county of Devon, at the mouth of the Exe, in the English Channel. The fate of the two officers is a mystery, but it is hoped that they may have been picked up by a passing vessel.

King Edward and Prince Fushimi witnessed the ascent of the balloon. A strong wind which was blowing at the time soon carried it out of sight, and it was not again seen until sighted by coastguards the same evening, near Exmouth, when the balloon was being carried out to sea.

LITERARY NOTES.

"The Clerk's Book," by Frank Farrington, is the title of a neat little volume published by the Merchants' Help Publishing Company, N. Y. It is a book filled with wise and clever maxims, which should be read by every young man and woman entering on a business career. It is written with the express purpose of assisting the clerk, and the reading of it will prove beneficial to all who wish to succeed in life. Postpaid, 25 cents.

LIVELY DOINGS ARE PREDICTED

County Council Has Some Warm Sessions Ahead of It Next Week.

Lively doings are predicted when the county council begins its regular session on Monday next. A number of important questions will come up for discussion, and as there appears to be a great difference of opinion among the councillors, discussions pro and con should wax merrily.

One of the first questions to come up is that of the county assuming charge of the Guest bridge in London Township. This structure was erected about sixteen years ago, the county and the township each bearing half the expense. The Guest bridge was built with the idea of saving the county the cost of erecting three structures along the town line between London Township and Nissouri, and is built along a side road. Inasmuch as the side road runs off the town line the fifth concession, the former road is impassable beyond that point even at the present time. Some time ago the bridge was condemned, and the township made overtures to the county, asking that the latter take control of and replace it. It is highly probable that the county will assume the burden which the township has maintained since the erection of the bridge, inasmuch as it is possible for the township to insist on the bridging of the town line, which would mean a great expense to the county.

The township has another iron in the fire—the Proof Line road purchase—and it cannot, from all appearances, afford to be too hasty in any of its actions.

It will be remembered that some time ago London Township asked assistance from the Government, the county and the city, in the matter of purchasing the Proof Line road, in order to do away with the payment of tolls. Nothing definite has as yet been done in the matter, although several joint meetings have been held by the city and county councils. Recently the Government decided to grant the sum of \$3,200 toward the \$1,000 asked for the road, and it is possible that the county will give \$3,200, the city \$2,000, and the township the remainder, \$2,600.

The county roads question is one which will create a great deal of discussion, and just what the county will do in the matter is a problem. Originally the township and the Government shared equally in the cost of maintaining the main roads throughout the county, under county council bylaw 580. Recently the Government proposed that the county should assume the entire charge of the work of maintaining the main roads of the county, under the county good roads system. The Government will contribute one-third toward the work of grading, drawing, and renewing several main roads, such as Adam, etc., which means that it will help to maintain the roads for several years at least, as much repairing must needs be done.

Some time ago a check for approximately \$6,000 from the Government as the county's share toward the roadwork done last year. The money, which was proportioned among the townships, as follows, represents the total amount spent on improvements on Middlesex County main roads during the past year.

London \$100, Metcalfe \$273 82, West Williams \$275, West Nissouri \$104, Lobo \$15, Westminster \$554, Biddulph \$751, Delaware \$227, Mossa \$324, Dorchester \$620, East Williams \$650, Newbury \$155, Adelaide \$297, McGillivray \$256.

In the matter of the proposed tuberculosis hospital, toward which the county and city councils have been asked to contribute, the committees of the two councils will meet on Saturday next at 4 p.m.

50 Cents Per Week.

Will buy a handsome Cabinet Organ. Large sum of money ready on hand at \$10, \$15 to \$25, thoroughly renovated and money refunded if not satisfactory. Heintzman & Co., 217 Dundas, corner Clarence.

A SURE CURE FOR HEADACHE.—Bilious headache, to which women are more subject than men, become so acute in some subjects that they are utterly prostrated. The stomach refuses food, and there is a constant and distressing effort to free the stomach from bile which has become unduly secreted there. Farmer's Vegetable Pills are a speedy alternative, and in neutralizing the effects of the intruding bile relieve the pressure on the nerves which cause the headache. Try them.

NOON IN LONDON

What is Going on in Town When the Clock Strikes 12.

Noon, the dinner hour, the hour of comfort and pleasure and relaxation—the one hour in the twenty-four which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in London the shadows on anxious faces turn to lines of good will, and if villainous hot blood, pies, spices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true, and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles.

In hundreds of the best homes in London and adjoining towns the handy little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but sustaining action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction.

A 50 cent box lasts for a couple of weeks and will ward off a dozen attacks of indigestion. W. T. Strong gives a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction. 54-c-v-x-v

Always the Best of Everything for the Least Money.

See These Six Newest Styles of Handsome White Wash Skirts

Tomorrow, we would like the pleasure of showing you these six newest styles in white wash skirts. They have all the charm of freshness combined with unusual smartness of appearance. The summer girl will look neat and trim in any one of the half dozen styles. Which will you choose?

Materials are fancy and plain piques and linen. Some are embroidered. Others are self-trimmed. The prices will agree with your ideas of economy, too....\$2.50, \$3, \$3.50

More Than a Score of Fresh, New White Blouse Styles

More than a score of different styles in daintiest new white blouses to show you tomorrow. The waists vary from the neat, simple tailored styles to the more elaborate affairs of the lingerie order. You never saw a more pleasing collection. There's not a single unbecoming design—rather, they are becoming to a degree. And all so stylishly designed and well made, too. Come and look them over Saturday.

Plenty of Persian lawns and cool, sheer muslins, as well as a goodly lot of the dainty, silky-looking mercerized blouses. Embroidered fronts, lace and embroidery yokes, rows of tucks are employed in various fetching ways for trimmings. Prices are strongly in your favor.....\$1 to \$6

Two of the Latest Blouses at \$2

The unique way in which German Valenciennes insertion is introduced to outline a pointed yoke of embroidery and pin tucks will appeal to the woman who revels in something different from the usual designs. Pin tucks are found in clusters under the yoke, too. Opens at back, which is nicely tucked. ¾ sleeves. The price is exceedingly reasonable.....\$2

A new style direct from Philadelphia, which is recognized as one of the dressiest cities in the States, and where many of the most popular waist styles originate. This one has a handsomely embroidered front below a round yoke of German Valenciennes lace. The collar is of lace, too, and the ¾ sleeves also edged with lace. Open at back. White lawn is the fabric. Price is just....\$2

The Guide Chart a Winning Feature of Ladies' Home Journal Patterns

The problem of how to lay a pattern on your material is most easily and economically solved by the Guide Chart, which is included with every Ladies' Home Journal Pattern. It shows at a glance how to place each piece to best advantage. When the many advantages of these new patterns become really known it will be next to impossible to sell any home dress-maker any other kind. We are agents for London. Mail orders given prompt attention. Call and get a Style Book for June free.

All-Wool Cashmeres at 25c Yard

A RUSH PRICE FOR SATURDAY ONLY.

Just the thing for children's dresses—and economically-inclined mothers should be out in force tomorrow. Every thread all wool. Nice dressy finish. Two shades of brown, light navy, pale blue, green, pink and cream. Excellent value at 35c. Saturday only, at the rush price of.....25c

Save 28c Yard On Wool Taffeta

Just think! Wool Taffeta—that handsome, sturdy, dust-shedding fabric—at a big reduction for Saturday. You'll surely not care to miss the saving. Fine lustrous finish. Do You Eat Bread?

If so, do you not think that you might as well eat only the best? The best bread is that which contains the most nutriment and the least waste matter, and is absolutely pure. You cannot have good bread, however, unless you have good flour.

"FIVE ROSES" FLOUR

contains more gluten and nutriment, in more easily digestible form, than any ordinary brands, whilst it contains practically no cellulose or waste matter. In addition, it is more economical, as, pound for pound, it will make more bread and better bread than the flours so-called "just as good."

Its purity is assured by the care with which it is made, and users of it can rely upon getting the best flour for bread which the world offers.

Ask your grocer for it.

SHIPPERS AND FREIGHT AGENTS HAVE A HEART-TO-HEART TALK

Committee of the Board of Trade
Discusses Western Delays
With Freight Men.

The shippers' committee of the board of trade met the local freight agents of the railway companies entering London yesterday afternoon, and conferred as to the best means of overcoming delays in shipments from London to points west.

The railwaymen appeared to be perfectly frank, and ready to meet the wishes of the committee on all points. But they stated that they doubted whether the remedy proposed by the board of trade would result in any great good to the shipping interests of London, should it be applied.

In brief, the representatives of the companies stated that they are out for business, and that they are doing all they can now, and have done all it was possible to do in the past, to handle the freight of London shippers expeditiously, because it is a matter of dollars and cents to them.

"Barkis is Willin'."

If the shippers of London will guarantee the freight in sufficient quantities, the companies are willing and ready to accept such consignments, and ship direct to Western Canadian points. But it was stated that if a car was delayed 24 hours in London so as to make up a carload lot, the consignments would not reach the west any sooner than would a shipment sent to Toronto, where it would be transhipped for the west on a mixed train.

After an exchange of views, Chairman Buttrey, on behalf of the committee, thanked the railwaymen for their attendance, and the meeting adjourned.

The following members of the shippers' committee were present: Chairman Harry Buttrey, Aid. Stevens (president of the board of trade), Walter Thomson, S. J. Allen, Fred Kerrigan, Adam McMahon and Secretary Nelles.

Railwaymen Present.
The railwaymen present were: L. McDonald, of Hamilton, chief freight agent of the Grand Trunk Railway, and who has charge of the London district; Freight Agent Gordon and Master of Transportation Crombie, of the Canadian Pacific Railway, London; General Freight Agent Young and Superintendent Tate, of the Pere Marquette, London; and General Freight and Passenger Agent Evans, of the Michigan Central, city.

The railwaymen were in the board of trade rooms promptly at 5 o'clock, and but two members of the board were present. After waiting for some minutes Mr. Bamford began to joke the board.

"Now, who is it that keeps things late?" he asked.

Then when the wait was further continued, he remarked:

"I move we discuss pedigree stock."

This sally caused a laugh, but before anything more was said the members

of the committee put in an appearance, and the meeting was proceeded with.

Object of the Meeting.

President Buttrey explained the object of the meeting, which, he said, was to have a heart-to-heart talk with the railways, with the object of wiping out the delays in shipments from London to many points in the Canadian west. He further explained the means which are being resorted to to get the nature of their grievances against the companies. Also to have the shippers pool their shipments, so as to ship in car lots from London to the west.

Mr. Bamford, of the C. P. R., stated that in response to Mr. Buttrey's request, he had produced a list of those shippers who ship in small lots from London to Western Canada. It was a lengthy list, but he did not think that the shippers could consolidate western shipments at London instead of at Toronto as at present. He did not think, from the fact that the shipments are consigned to so many points, that it would be possible to do as the board asked.

Shipments Transshipped.

Mr. Buttrey asked if it is not true that shipments from London are transshipped at many points between London, and say, Calgary or Regina.

"The freight agents admitted that this is true."

"If we could get the shipper to load a car for Regina, for example, would you accept it?" Mr. Buttrey asked.

"That depends," Mr. Bamford replied. "If the load was sufficient, we would accept it if the goods were all for Regina and points west of Regina."

Mr. McDonald, of the G. T. R., remarked that if the wishes of the board were met, it would ultimately lead to cars being held on the siding, and with them certain shipments here, for perhaps two or three days.

"Better have a shipment delayed for two or three days at London than sixty days on the road," Mr. Allen said.

"I think you're stretching the length of the delay on the part of the railroads," Mr. McDonald replied.

Mr. Bamford said that as a result of the railway being unable to move the wheat last winter, because of the coal strike in the west and the cold weather, dollar wheat is now holding the boards.

The board couldn't see that the railways are entitled to any credit on the wheat score, however.

Only Covers Four Months.

"Your grievance only covers four months in the year," Mr. Gordon, of the G. T. R., remarked.

When shipments are being made to the west during the navigation season, he said, they would only go perhaps to Sarnia, where they would be placed in a boat and sent to the Northwest. Carload lots would be of no advantage in such cases. Consequently, it is only during the months of December, January, February and March that the shippers could take advantage of carload lots.

"If you gentlemen will consolidate enough freight to fill a car for Calgary or any other point west, we will accept it," said Mr. Bamford, and I'll wager the G. T. R. will accept it."

Mr. Buttrey said that the western buyers claimed that they can get goods in the winter from the Maritime Provinces quicker than from London.

Afraid of London.

Mr. McDonald said that 90 per cent of the complaints to the G. T. R. are from eastern shippers, who are afraid the London shippers will beat them out.

"I have nothing to say against the local or district service," Mr. Buttrey replied. "The freight and passenger services are excellent. It is only the western freight service in the winter that we have cause to complain of."

Mr. Bamford declared that last winter the C. P. R. did everything in its power to handle the freight sent over the line. But the winter was a bad one in the west, and the coal strike tied up the railways for a time.

"Then you don't think we could do very much good by having the companies agree to accept carload lots for the west?" Mr. Buttrey asked.

"I honestly believe it impossible to improve the freight service very much," Mr. Bamford answered. "Of course, I can only speak for the C. P. R."

Pointer for Shippers.

To Mr. Buttrey, Mr. Gordon said that all shipments for Cobalt from London are transshipped at Toronto, where three cars are made up daily for Cobalt. To all the big points a car is made up each day out of London, as far as it is possible to do so.

"If the shippers would mark shipments properly, they would have less trouble," Mr. Bamford told the committee. "In some cases, only the initials of places to which consignments are made are placed on the goods, consequently much freight goes astray and the railways are blamed for it."

"I'll instruct our shipper to mark his shipments full," Mr. Buttrey said. "The point is a good one."

"If a shipment isn't properly marked, we simply return the goods," Mr. Gordon said.

Mr. Buttrey pointed out that the committee was anxious to secure pointers from the freight agents, so as to improve the manner of handling freight.

Mr. Crombie Explains.

Mr. Crombie, the Grand Trunk trainmaster, explained, in fairness to the C. P. R., that at the time the latter company was being blamed for failure to handle shipments expeditiously, the Grand Trunk had an embargo on certain classes of freight. Consequently, in this regard the one road was in as bad a position as the other. He declared that the Grand Trunk is ready and willing to accept carload lots for transshipments, but he said that if a car is held back 24 hours in order to make direct, the shippers would be no further ahead than if the goods had been simply sent in the ordinary way and transshipped for the west at Toronto.

"A shipment will not leave Toronto any sooner in your own car," he said, "than if it will be shipped on a mixed

train. If you can fix things so we can ship your goods in carload lots to the west, we are anxious to do it. As you know, the money for us lies in the long haul."

Mr. Buttrey explained that the intention of the committee in regard to carload lots is to do away with the loss of shipments which occur when shipments are transshipped at various points for the west and frequently mis-carried, one part of the shipment going to one point and another part to another point.

After some further discussion the meeting adjourned.

FARMER LOST HIS \$1,300

Had No Faith in Banks, So Buried Gold in His Garden.

Kokomo, Ind., May 30. — Leonidas Pickett, a well-to-do Howard County farmer, admits a loss of \$1,300 in gold through a practice of burying his savings in the ground on his farm. Doubting the safety of banks, he put his money in a sheet-iron box in a corner of his garden. The last time he made a deposit his cash on hand amounted to exactly \$1,300.

Not having occasion to use any of the money, he did not visit the place where it was buried for several weeks. One day he desired to make another deposit. Taking a spade, he went confidently to work to uncover the sheet-iron box. He failed to find it.

At first he thought he might have missed the location of the buried treasure, and he made several other excavations. His search was in vain. Pickett was so chagrined over his loss that he did not tell anyone of it for several weeks. Recently, however, he employed detectives to try to recover the missing money. Through them the fact of Pickett's loss became known to some of his neighbors. The story was so remarkable that some of them questioned him regarding it, and he admitted it was true.

INSURANCE AND ABSTAINERS.

Toronto, May 30.—At the meeting of the Ontario Medical Association today, a paper was read by Dr. F. P. McMahon, of Toronto, on alcohol and life insurance. He said that, dividing policyholders into two classes, abstainers and non-abstainers, the former showed a less insurance risk, and therefore special advantages should be given to both classes. This view was upheld by Drs. J. L. Davidson and A. Davidson, of Toronto.

Have you ever seen the Heintzman & Co. Tonic Design Piano? It is conceded to be the most artistic and classical piano made in Canada, and best value ever offered. Please call and examine same in our warehouses, 217 Dundas, corner Clarence. 23-4f

ANCHOR LINE

A BLOOD AND KIDNEY TONIC.

Make your own Blood Medicine by mixing one ounce Fluid Extract Dandelion, one ounce Compound Salsolone, four ounces Compound Syrup Sarsaparilla. Shake well in a bottle, and take one teaspoonful after meals and again at bedtime. Any good druggist can supply these ingredients.

This is said to be a splendid Blood Tonic and system restorer because of its gentle action in restoring the kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, restoring ill-health and sour blood.

Everyone should take something to cleanse the blood from time to time, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used. Mix this yourself, then you will know what you are taking.

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price \$1.00 per bottle or 6 bottles for \$5.00

LUNCHEON ON WEDNESDAY

Tickets for Luncheon at Armories Are Limited to 300.

The Daughters of the Empire will tender a luncheon to the members of the Canadian Club of London at the opening of the "Trip Around the World" in the armories on Wednesday next, June 5, at 12:30 o'clock sharp. His Honor Lieutenant-Governor Clark, K. C., will be the guest of honor and will address the members. Those who have enjoyed the many pleasant gatherings of the Canadian Club in London during the past winter in connection with their luncheons, have appreciated this feature of bringing in social contact all classes of the community. The luncheon on Wednesday adds additional interest, from the fact that it is being tendered to the members of the club by the Daughters of the Empire, the loyal object of which organization is such that it appeals to the sentiment of every Canadian subject. The attendance at this meeting of the members promises to be the largest of the year. The presence of the Lieutenant-Governor will give citizens a chance to welcome him on this his first official visit. The tickets, it is understood, were at first limited to 200, but these were so quickly taken up the executive have further increased the limit to 300. This will positively not be exceeded, and those who do not apply in time will only have themselves to blame.

WARNING TO CONTRACTORS

City Engineer Says They Must Live Up to the Specifications.

City Engineer Graydon today notified all cement sidewalk contractors that they must keep up to the specifications or else have their contracts canceled.

At the same time all inspectors were notified that unless they are at work promptly at the hour when the contractors' men begin, their services will have to be dispensed with.

It appears that complaint has been made that the proper amount of cement is not being used in the mixture, and that the inspectors have not been overly careful in looking after the contractors.

FAREWELL TO DR. ENGLISH

Medical Profession Banquets Popular Physician at the "Kennels."

The medical profession of this city, about thirty strong, gathered at the "Kennels" last night to tender a farewell banquet to Dr. English, who was recently appointed to the position of superintendent of the insane asylum at Hamilton. Dr. Hogg and Niven presided over the short programme of speeches and music which followed the dinner.

Dr. C. L. Campbell proposed the drinking to the health of Dr. English, and the doctor replied with a few well-chosen words expressing his regret at leaving his fellow physicians of this city.

Many speeches followed, the prevailing note of which was regret at losing Dr. English, who had been the best citizen the city had ever owned as a guardian of public health. All the speaker complimented the Government on its wise choice, especially from the standpoint of administration at which Dr. English is an adept.

Special—\$25—Special
For the next 30 days only we will sell a beautiful French Bar Weber Upright Piano, 7 1/2 octaves, 3 pedals, colonial style, all improvements, at \$255, payable \$25 per month. Other dealers in London will ask you \$375 for a piano as good as this one. Hamilton & Co., 221 Dundas street, Chicago.

MAKES A VERY SERIOUS CHARGE AGAINST COUNTY CONSTABULARY

Lawyer Says They Have Been
Robbing Poor for Twenty-
Five Years Past.

"The constables have been antagonizing the rich and robbing the poor for 25 years," declared Mr. E. T. Essery this morning in the county judge's court before Judge Macbeth, when the adjourned sessions again resumed. And as a consequence of the remark, the county constabulary, headed by Mr. John Hughes, is as wroth as it is possible for county officials to be.

"It is all very well for a person to make a statement like that when hidden behind the robes of an attorney," said one of the constables to the Advertiser afterward, "but outside of a courtroom it would in all probability lead the speaker into difficulties of a legal nature."

The case before his honor this morning was that of Constable Northgreaves, who Mr. Essery has charged with superseding his authority in a recent county magistrate's case, involving the ownership of two horses.

When Mr. Essery made the remark, Mr. Ed Meredith, K.C., who is acting for Northgreaves, retorted that it was a pretty strong statement to make.

"It may be," replied the other attorney, "but it is true and I can prove it."

CONDENSED LOCAL NEWS

—The weekly tea at the Kennels will not be held on Monday next, June 5.

—The Advertiser's new serial story, Sir Conan Doyle's "Hound of the Baskervilles," begins tomorrow. It is a thrilling tale of mystery and romance.

—Mr. T. G. Marquis, the well-known author and educationist, is in the city in the interest of an English publishing house.

—Miss Jean Galbraith, who has been the guest of her sister, Mrs. W. A. McCrimmon, of this city, for the past two weeks, has returned to Newark, N. J., where she is taking a hospital training course.

—There were eight fire alarms during the month of May. Six were for fires, and two were for test runs. Three were box alarms, four were "phone calls," and one was a verbal alarm. There were no serious fires during the month.

—Chairman Fitzgerald, of the board of education, has ordered the principals of all the schools under the control of the board to hold flags on the school grounds on Wednesday next, when Lieutenant-Governor Clark will visit the city.

—The annual meeting of the East Middlesex Conservative Association will be held at the Conservative Club Rooms, Nos. 229 and 231 Dundas street, tomorrow (Saturday) at 1:30 o'clock p.m. A large and representative attendance from all parts of the riding is looked for.

—Mr. J. B. Grafton, senior member of the well-known clothing firm of Grafton & Co., underwent a very serious operation a few days ago at the Johns Hopkins Hospital at Baltimore. Word received in this city yesterday stated that the operation was successful and steady improvement was expected by the physicians. Mr. Grafton is 51 years of age.

—A farewell was tendered Miss Nettie Helling last evening by the staff of Lind, Kerrigan & Co., at the home of Miss Lena Griffin, 562 King street. Miss Helling, who for the past five years has been connected with the office staff of the above firm, leaves on Monday for Vancouver. On behalf of the staff, an address, expressing regret at her departure, was read by Mr. Ralph Ripley, and Miss Josephine Cameron presented her with a beautiful bouquet of red roses and a jeweled comb. Miss Helling carries with her the best wishes of a host of friends in this city.

—The remains of the late Mrs. John Milne, of this city, were taken to Essex yesterday for interment. Rev. E. B. Lancelotti, pastor of the Dundas Street Methodist Church, of which the deceased was a member, conducted the services both at the house and the grave. A number of London friends of Mrs. Milne accompanied the remains to Essex, her former home.

—Rev. J. J. Ross, of the Talbot Street Baptist Church, will on Sunday evening begin a series of special sermons, as follows: June 2, "Is the Bible God's Word?" June 9, "Is Jesus Christ Divine?" June 16, "Is the Holy Spirit a Person?" June 23, "Is God the Father of All Men?" June 30, "Is the Judgment Present or Future?"

MONTH'S BUILDING PERMITS.
Twenty-seven building permits were issued by City Engineer Graydon during May. These cover fully fifty buildings.

FREE DISTRIBUTION.

Advertiser readers will remember the successful distribution of free samples of Munyon's Rheumatism Cure held here on several occasions. Four years ago the distribution was held from this office by Mr. William Rabbitts, jun., the genial representative of Munyon's. Mr. Rabbitts is again in London, and has announced another distribution for Saturday from the Free Press business office. Any of our readers can procure a sample on Saturday.

AN IMPORTANT APPOINTMENT.

The many friends of Mr. John M. Empey, B.A.Sc., D.L.S. and O.L.S., will be glad to hear of his being appointed district engineer and surveyor at Calgary by the Alberta Government at a very high salary. Mr. Empey is ambitious and successful and is steadily climbing upward. During the last four years he has been in the services of the Department of the Interior at Ottawa. In the surveyor-general's office, which position he resigned a few days ago, after receiving his new appointment. His friends wish him every success in his new work, wherein he has charge of all public works in Calgary district.

BEST SCHEME YET ADVANCED

Continued from page one.

scheme, which he believes is the best for the city to adopt.

The North Branch.

Ald. Stevenson, who is a well-known physician and a member of the board of health, made the statement today to the mayor that the water of the coves is purer than the water of the north branch, where the river water advocates propose to secure a supply for the city.

Ald. Stevenson says he can procure the reports of analyses of water made at the instance of the local board of health to determine the best places from which to secure an ice supply, and which will show that while the water of Dexter's dam was polluted, the water from the coves was pure.

Dr. Stevenson is an out and out spring water man, and he says that if we must have filtered water, let us filter spring water from down the river west of Springbank for domestic purposes.

Plenty of Water.

Secretary McElheran, of the board of education, is strongly in favor of the high pressure fire fighting scheme, and of retaining Springbank water for drinking purposes.

He feels that the people of London will never consent to drink river water until they are compelled to, and he does not think the compulsory period has arrived.

With filtered water for street watering and industrial purposes, he believes there will be plenty of Springbank water for domestic purposes for years to come.

SITE FOR SUBSTATION

Engineer of Hydro Electric Commission Seeking One in London.

An engineer of the Hydro-Electric Commission was in the city today, and it is said he was looking up a site for a substation for Niagara power.

Mayor Judd stated that he had not seen the engineer, but it is understood he was a caller at the city hall this morning.

Niagara power matters, so far as the city is concerned, are not very well advanced, and it is said that nothing will be done until Hon. Adam Beck's return from England, which will be some weeks hence.

HAD HIS LEG BROKEN

Fred G. Willis, of Hamilton Road, Injured in Runaway.

Mr. Fred G. Willis, of the Hamilton road, met with an accident while driving this morning, which resulted in his sustaining a broken leg and being badly shaken.

Mr. Willis was driving southward on Adelaide street, near Dundas, and when he reached the intersection of the street car tracks, which are higher than the road at this point, throwing him on the ground. A physician was called, and the injured man was taken to his home, where he is recovering rapidly from the effects of his mishap.

The horse deposited the rig against a tree, but was caught before he had gone far.

MUST KEEP THE PEACE

Biddulph Township Farmer Bound Over by Squire Chittick

Thomas Hurlston, of Biddulph, appeared before Squire Chittick this morning on a charge of using threatening and abusive language to Edward Thompson, a neighbor. He was bound over in the sum of \$400 to keep the peace.

A Policy of Progress

The widespread belief that if any article in the drug line is so bad as it is, it is better to have it than to have it at all, is founded on fact. We have always aimed in the past to protect the public from unworthy goods or unfair prices, and this will continue to be our policy while we stay in business.

Strong's Drug Store

If you want the best baking powder, get Strong's.

plaint, or any of his family, and did not suppose that he ever would be being out of the country. That one of the other of the two parties was slightly mistaken as to what had taken place on the day of the alleged threatened assault, Squire Chittick decided to take for granted the positive side of the evidence presented, and accordingly, Hurlston was bound over.

Mr. Judd tried to get an admission from Thompson to the effect that he had as his object in having Hurlston arrested the influencing of the case of attempted assault which Hurlston must face at the June assizes, but he was unsuccessful.

Christmas attempted to stab Thompson with a pocket-knife, but merely succeeded in cutting a piece out of the front of his coat.

Mr. J. F. Faulds is acting for Thompson.

DR. FALCONER ACCEPTS

Will Come to Toronto in a Couple of Weeks.

Halifax, May 30.—It is practically settled that Principal Falconer will accept the presidency of the University of Toronto. His formal acceptance will not be given until he goes to Toronto, the week after next, and meets the board of governors in person, but his resignation of the principalship of the college here will be presented to the board of trustees and by them forwarded to the general assembly, which opens in Montreal next week.

HON. EDWARD BLAKE ILL

Nationalist Member for South Longford Has Paralytic Stroke.

Toronto, May 30.—A dispatch from London says that the Hon. Edward Blake, Nationalist member for South Longford, suffered a paralytic stroke Wednesday, but that he is now making satisfactory progress towards recovery.

FIRE AT ADELAIDE

The Grist and Saw Mill of Mr. Fred C. Barrett Badly Scorched.

Strathroy, May 30.—The grist and saw mill owned by Mr. Fred C. Barrett was destroyed by fire Wednesday night.

The fire started in the grist mill and quickly spread to the saw mill. The loss includes a considerable quantity of feed, flour and timber. The total loss is placed at about \$10,000.

—Mr. F. A. Talbot has taken out a building permit for a brick cottage, to be erected on a land running between Athol street and Wilson avenue, in West London.

PRODUCE MARKETS.

TORONTO.

Wheat is in the hands of 600 men, who offer it daily at 90c. Ontario wheat is now about as scarce and flour, and Ontario 90 per cent patents can scarcely be secured at \$3.25 per barrel. A good deal of Manitoba wheat is being used. The quotations for oats are firmer. Rye is about off the market, and rye is steady at 75c. Quotations are:

Wheat—Ontario No. 2 white, 90c asked outside, 88c bid. C. P. R. east, 85c bid on 50 rate to Toronto, 85c asked in store at Montreal, No. 2 white, 90c outside; No. 2, spring, 85c asked outside, 82c bid. C. P. R. east; No. 2, 80c. 81c asked outside; Manitoba, No. 1 northern, 95c bid on track at Midland.

Barley—No. 2, 55c bid outside; No. 3, 52c bid outside.

Peas—No. 2, 80c asked outside, 75c bid. Oats—No. 2 white, 45c asked in Pere Marquette, 45c asked on a 6c rate west of Toronto.

Corn—No. 3 yellow, American, 62c to 62 1/2c, lake and rail, 62 1/2c to 63c, all-rail, Toronto basis.

Flour—Very little on the market. On (ario 90 per cent patents, \$3.25 from seller; Manitoba, first patents, \$4.75; second, \$4.15 to \$4.20; bakers, \$4.05, at Toronto.

Milled—Bran, \$2.10 to \$2.22; shorts, \$2.20 to \$2.35 outside.

Butter—Easy, quality better, creamery grades, 21c to 22c; dairy prints, 19c to 20c. Cheese—Steady, 15c to 15 1/2c.

Eggs—Steady, 17c to 18c.

Hogs—Alive, \$7.10, fed and watered; prospects favor a decline; dressed hogs, \$9.25 to \$9.75.

DAIRY MARKETS.

MADON, Ont., May 30.—Six hundred and eighty-five boxes of cheese were offered here today; no sales.

KINGSTON.

Kingston, May 30.—A year has made difference in the price of cheese. In 1906 this week's price was 17c; today 31c boxes of colored and white, all registered on the Frontenac board, sold at 12c.

OIL MARKETS.

LONDON, May 30.—Petroleum, American refined, 5 1/2c bid, 5 1/2c asked.

ANTWERP.

Antwerp, May 30.—Petroleum, 21 francs 65 centimes.

PITTSBURGH.

Pittsburgh, Pa., May 31.—Oil opened at 6 1/2c.

JUGAR MARKETS.

LONDON, May 30.—Raw sugar—Muscovado, 10c 5d; centrifugal, 11c; beet sugar, May, 10c.

TORONTO.

Toronto, May 30.—Sugar—Firm. Montreal granulated, \$3.25; barrel, yellow, \$4.60; Ontario beet, \$4.55; in bags, 50c less.

COTTON MARKETS.

NEW YORK, May 31.—Cotton—Futures opened at 11 1/2c; July, 11 1/2c; August, 11 1/2c; September, 11 1/2c; October, 11 1/2c; November, 11 1/2c; December, 11 1/2c; January, 11 1/2c; February, 11 1/2c; March, 11 1/2c.

LIVESTOCK MARKETS.

OLD COUNTRY PRICES.

London, May 30.—Canadian cattle are steady at 11 1/2c to 13c per lb. Dressed weight, refrigerator beef is quoted at 9 1/2c per lb.

LOCAL MARKET.

Friday, May 31.

Hay did not sell as quickly today as had been the case in the earlier part of the week. There were nearly 30 loads offered. Sales were made mostly at \$14 and \$14.50 per ton. Straw was a little dull of sale at \$5 and \$6 per ton. There were about ten loads on the stand. Oats were scarce today as there were only 13 loads offered, which were sold at \$14.25 to \$14.45 per cwt.

HAY MARKET.

TORONTO, May 30.—Baled Hay—Firm, at \$12 to \$13.50 per ton for No. 1 timothy, and \$11.50 to \$12 for secondary grades, in cars here.

Baled Straw—Steady, at \$6.75 to \$7 per ton, in car lots here.

ENGLISH MARKETS.

LIVERPOOL, May 31.—Wheat—Spot, No. 2 red western winter strong, 7s 1d; No. 1 California firm, 7s 1d. Futures quiet; May nominal; July, 7s 2 1/2d; August, 7s 3 1/2d; September, 7s 4 1/2d; October, 7s 5 1/2d; November, 7s 6 1/2d; December, 7s 7 1/2d; January, 7s 8 1/2d; February, 7s 9 1/2d; March, 7s 10 1/2d;
