SERGEANT-MAJOR IS DISCHARGED TO JOIN AMERICAN ARTILLERY

C. D. Willis Secures Commission With Uncle Sam.

DID FINE WORK HERE

Helped Train Members of the 63rd—Wants To Get Over Quickly.

Sergeant Major C. S. Willis, formerly of the 63rd Depot Battery, and recently company sergeant-major of the Forestry and Railway Construction Depot at Carleton Place, has been given his discharge to enlist in the United States Army.

Sergeant Major Willis had considerable experience in artillery, and did excellent service under Major Cameron in training the members of the 63rd Depot. When Major Cameron took over command of the Forestry and Construction Depot, Sergeant Major Willis was among those of the 63rd non-coms. to go with him into his new work.

As he had qualified for a commission under the Canadian methods in the Royal School of Artillery at Kingston last December, he was anxious to get overseas, but owing to the possibility of the 63rd remaining here for the winter, he decided to secure his discharge and return to the United States, thinking that in this way he would arrive overseas more quickly. From here he went to Minneapolis, where he secured a commission in the United States Artillery.

Sergeant Joseph of the 1st Battalion, has taken over the duties of sergeant-major of the Forestry and Construction Depot.

IN POLICE COURT

Charles Seales, colored, appeared in police court today, charged with using grossly insulting language to Harry Ryder, a neighbor and returned soldier, who resides near Carleton Heights.

Seales said he did not know whether he was guilty or not. Ryder said that the language Seales used towards him would turn a hole through the wall of his house.

He called me a dirty, black nigger, and I naturally resent any such insult to my race and nationality," said Seales.

Finally, when it looked as if hostilities might arise in court, the magistrate poured oil on the troubled sea by warning Seales to be a trifle more choice in his language in the future.

Cow Breaks Her Chain.
William Andrews, who was summoned to explain why he had trampled down the garden of his neighbor, William Brennan, was asked to pay the costs of the summons and attach a stronger chain to "Bessie."

He explained the animal had broken the chain he used to keep her confined in a certain lot. He stated that although the cow had trampled all over the potato patch, she had done no damage. This Brennan contradicted.

Five Motorists Fined.
Five motorists charged with exceeding the speed limit and running over the costs each, and a similar number of bicyclists, for riding on the sidewalk, were asked to pay over \$1 and costs each.

Get Benefit of Doubt.
A young man charged with intoxication pleaded not guilty, and was given the benefit of a doubt after his witnesses had been heard and was allowed to go. He was defended by J. M. McEvoy.

Alkali in Shampoos

Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary milled coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and run it through. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get milled coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Why Toil Over A Tub?

Science offers you the "1900" Washer. With one in your kitchen you can face wash-day with a smile. For these wonderful labor-saving machines have made it possible to wash clothes more efficiently than human hands can. Put your wash-day problem up to me. State whether you prefer a washer to operate by hand, engine power, water or electric motor. Thirty days free trial. If you don't want it then, return it at my expense. Address me personally.

C. K. Morris, "1900" Washer Company, 857 Yonge Street, Toronto.

GOT A MILITARY KICK TO MAKE? TAKE IT RIGHT TO HEADQUARTERS

Assistant Adjutant General Ready at All Times to Hear Complaints, and to Give Speedy Solution.

Complaints with regard to soldiers, their pay or allowances, separation allowance or assigned pay payable to soldiers' wives, delayed or incorrect reports of casualties, and in fact all matters military, should be taken at the proper officials at militia district headquarters, Carleton Heights, and not left to the newspapers, the clergy, members of parliament or other interested parties to get right. If such complaints are not taken to the military authorities directly, an inevitable delay results, whereas if dealt with by the proper officials the matter in question can usually be adjusted in the shortest possible time.

A letter issued by the assistant adjutant-general of this district urges that all matters relating to soldiers and kindred subjects should be taken to the military authorities, who will give prompt and sympathetic attention to any grievances. Military district headquarters here should receive all complaints arising in the counties of Essex, Kent, Lambton, Elgin, Middlesex, Oxford, Waterloo, Wellington, Perth, Huron and Bruce.

Letters addressed to the assistant adjutant-general, militia district headquarters, London, Ont., will receive prompt attention, and if information is desired it will be gladly furnished.

LETTER CARRIERS WOULD ACCEPT IF COMPANY DECLINES
Regard Offer of Department to Street Railway as Fair
\$42.50 FOR CAR FARE

The members of the London Letter Carriers' Association have forwarded a resolution to the dominion postoffice department to the effect that they are willing to accept \$42.50 per man per year and pay their own street car fare if the London Street Railway Company declines to accept the above figure offered by the Government.

The above resolution was framed and adopted at a meeting of the letter carriers on Wednesday evening. They regard the offer of the Government to the street railway company as fair and consider that if the company cannot see its way clear to accept the Government offer that they will, providing the department sees fit to transfer the letter carriers to the street railway company. The decision of the street railway company will have to be given out by the department first, before the letter carriers' proposition is dealt with.

"We are quite willing to accept the offer made by the company. If the letter carriers decline, and have informed the department of that effect," said a letter carrier today.

DIFFER ON EFFECT OF EMBARGO DECREE ON CANNED GOODS
Grocers Not Agreed That Vegetables Will Advance.

"What will be the effect of the placing of an embargo on the present on canned vegetables?" was a question asked today at several grocers. The answer in each case was, "We simply are obliged to hold what we have on hand until the embargo is lifted."

T. J. Brown is the president of the association of the use of canned vegetables will be practically any consideration at the moment. "I haven't given the matter any consideration at the moment," he said.

Another Dundas street grocer takes quite a contrary view. He says, "I don't think there will be any noticeable advance in the price of canned goods. The reason is that there should be a largely increased demand for fresh vegetables to take the place of the canned goods which it will not be possible to obtain."

Five motorists charged with exceeding the speed limit and running over the costs each, and a similar number of bicyclists, for riding on the sidewalk, were asked to pay over \$1 and costs each.

Get Benefit of Doubt.
A young man charged with intoxication pleaded not guilty, and was given the benefit of a doubt after his witnesses had been heard and was allowed to go. He was defended by J. M. McEvoy.

THIS LONDON MAN LOST TIME FROM WORK CONSTANTLY

Fell Off Sixteen Pounds in Weight, He Says.

COULDN'T WALK 3 BLOCKS

Feels Better Since Taking Tanlac Than He Has in Two Years.

"I was constantly losing time from my work, and I don't believe I could have held out the summer if I hadn't taken Tanlac," said R. R. Beirness, a well-known machinist and brass finisher of the Empire Company, living at 1074 Florence street, London, while in the Standard Drug Store, limited, for more of the medicine, a few days ago.

"I had been going down hill for two years," he continued, "and during this time had dropped down from one hundred and fifty pounds to one hundred and thirty-four. I was badly constipated, felt tired and drowsy all the time, but was very nervous and couldn't get any sound sleep at night. I had absolutely no energy and would get up in the mornings feeling just as bad as if I hadn't gone to bed. I often had dull headaches, felt dizzy and a little walk of two or three blocks would almost exhaust me. My appetite was very poor, and what little I did eat disagreed with me, and I would come home in the evenings from my work all fagged out, and just wanted to lounge around, feeling no interest in anything."

"When I saw Tanlac advertised and decided to try it, I was laying off because I felt too bad to work. So I bought me a bottle and soon went back on the job and haven't lost a day since. I am now buying my third bottle, and am feeling better and have more energy than I have in two years. The Tanlac laxative tablets are the best thing I have ever tried for constipation. I'm relieved entirely of that tired, sluggish feeling and am getting to be like myself again. I can sleep every night like a rock and always ready for my three hearty meals a day. Tanlac is one medicine that I can conscientiously recommend, and I have just sent four bottles to four friends at Port Dover, to whom I recommended while there on my vacation. Well, it does the work, and for that reason I think everybody ought to know about it."

Tanlac is sold in London by Standard Drug, Limited, under the direction of a special representative, and by an established agency in every town.

BOARD OF CONTROL NON-COMMITTAL ON C. N. R. GOVT. PURCHASE

The board of control did not express any opinion this morning on the purchase of the 63rd Depot by the Dominion Government. A communication was received from the Single Tax Association, Toronto, asking the co-operation of the board in condemning the purchase.

"That is a matter for our legislators," declared the board, "and we have no right to interfere," said Controller Shaw.

The communication was then filed.

LOST APPETITE POOR BLOOD
C. E. Sapper Says Dr. Cassell's Tablets Best Tonic Anybody Can Take For Weakness.

Sapper A. Hartley, Canadian Engineer (home address 307 Westcar street, London, Ont.), says: "I used Dr. Cassell's Tablets when I was in the South African War and during the war I have taken them since whenever I felt run-down, and I have found them to be the best tonic anyone can take for loss of appetite, nervousness of the blood, and general weakness of the system. I never fail to recommend them, and mean to have some with me always as a tonic service."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie & Co., Limited, 10 McCaskey street, Toronto.

Dr. Cassell's Tablets are the supreme remedy for Dyspepsia, Kidney Troubles, Sleeplessness, Anemia, Nervous ailments, and all the ailments of the blood and weakness in children. Specially valuable for nursing mothers and during the critical periods of life. Price 50 cents per tube, six tubes for the price of five, from Druggists and Storekeepers throughout Canada. Don't waste your money on cheap imitations. Get the genuine Dr. Cassell's Tablets.

Proprietors, Dr. Cassell's Company, Limited, Manchester, Eng.

GRANDPA DIDN'T NEED CASCARETS FOR THE BOWELS

Two hours a day sawing wood will keep liver and bowels right.

You who take exercise in an easy chair must take "Cascarets."

Enjoy life! Remove the liver and bowel clog which is kept in the bowels, your tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headache, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you have ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken, like salts, pills and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cross, sick, bilious or feverish children a whole Cascaret an yime—they act thoroughly and are harmless.

Admitting that he had broken his parole by leaving Port Arthur on Sunday last without securing permission from the chief of police there, Mike Krusie, an Austrian youth, who appeared in police court today, was remanded to jail for a week.

In the meantime the Port Arthur authorities will be asked to furnish more information regarding Krusie.

He was charged with violating the order-in-council issued on September 20, 1916, which places restrictions on the movements of alien enemies in Canada.

Having only a limited knowledge of the English language, Krusie professed not to understand what was meant by the permission of the chief of police being required before he left Port Arthur.

He was arrested at the Grand Trunk depot last night by Detectives Down and Egerton on the arrival of the Windsor train.

CORP. MUNNOCH GETS BAR TO HIS MEDAL
Londoner Sacrificed Limb and Had Four Operations.

Corp. John Munnoch, son of Mrs. John Munnoch, 105 Waterloo street, this city, has been recently awarded by His Majesty the King the bar to his military medal, which is the same thing as a second medal. It is the first time that the bar has been awarded to a Western Ontario man. Corp. Munnoch some time ago was awarded the military medal for conspicuous service. The heroic manner in which he afterwards continued to do his bit is evidenced by this second recognition. He has done so, however, at great sacrifice. He is at present in the North-Western Hospital, Gosport, near Newcastle-on-Tyne. Just before his bravery first merited such attention from the military authorities he was severely wounded in the hip, and the injuries to one leg necessitated amputation. He has subsequently undergone four operations.

FOR THE LAST AUGUST SATURDAY

August is no longer known by this store as the "month between," when past activities are forgotten and only the hopes of the beginning of fall are in mind. That was years ago. Today, August is a month of aggressiveness; it is the month of going and coming—new things coming in and summer stocks going out, and it is quite natural that you should find many, many new things here quite a bit ahead of the season. Quite in time to prepare for those who will soon be going to school or back into the thick of commerce.

Bryant Washburn in "The Man Who Was Afraid"

Photoplay News

PATRICIA

Bryant Washburn in "The Man Who Was Afraid"

"The Man Who Was Afraid," an Es-sen-say production, starring Bryant Washburn, is the feature screen attraction at the Patricia Theatre today and Saturday. The picture is replete with soul-stirring situations.

Washburn portrays the character of Benton Clune, who, influenced by his mother's frantic pleas, refuses to answer the president's call to arms. The girl he loves spurns him, calling him "slacker." Lacerated by these taunts, Clune hurries his mother from him and joins his regiment in the battlefield.

The enemy in overwhelming numbers threaten them with annihilation. Braving a perilous trip through the enemy lines, Clune gets reinforcements and saves the day. Thus he redeems himself and wins the girl.

Bryant Washburn has done a remarkable piece of acting in this production. He has stepped out of his comedy-drama characterization, for which he is justly famous, and executed a straight dramatic role which is pleasing in its newness and notable for its realism. It is not so often that we find an actor on the screen who can render two such widely varying impersonations with the same degree of perfection.

There is a mitigating circumstance for a man's failure to answer his country's call. It is his mother. The mother, whose whole life is wrapped up in her son, cannot be blamed for clinging to him, nor can she be charged with dishonour who pauses momentarily at her pleas. Mr. Washburn's interpretation of this thought, upon which the story is based, is one of the big appeals in this picture. It strikes directly to the heart and sticks there.

Yet patriotism wins out, as it should. The all-consuming love of country finally predominates. The mother yields her claim to the nation, and the son, branded "slacker" and spurned by the girl he loves, because of his hesitancy, rushes to join his regiment on the battle line.

And here the picture deals still more tenderly with the mother's noble sacrifice. The regiment is suddenly threatened with annihilation by an overwhelming enemy. Colonel calls for a volunteer to face almost certain death in a perilous journey for reinforcement.

Those who heard the son, a "slacker," hold back. He steps forth and accepts the hazard. He saves the day after a trip through the enemy's lines, which is replete with hairbreadth escapes, and thus wins redemption and the girl he loves.

A Fox comedy, "A Footlight Flame," is one continual round of fun. Fox comedies are noted for their originality in introducing screamingly funny situations.

Small and Jordan, high-class sinners, will continue to give the excellent entertainment of their splendid singing. They are the best vocal team that has appeared here in months, and their rendition of the most difficult selections from the masters is a treat that no music-lover should miss.

Mary Pickford at the Patricia All Next Week in "A Romance of the Redwoods."

Mary Pickford, "the sweetheart of the screen," in one of her most popular productions, "A Romance of the Redwoods," will be seen at the Patricia all next week.

MAJESTIC

Harold Jarvis' Engagement Closes on Saturday Night.

Harold Jarvis, the famous tenor, whose singing at the Majestic has pleased immeasurably the patrons of this popular theatre, will conclude his engagement there on Saturday evening.

Owing to concert engagements made months ago, Mr. Jarvis has found it impossible to further prolong his stay at the Majestic. He will start at once on a tour that will cover a greater portion of the United States and Canada. Today and Saturday Mr. Jarvis will sing that historical song, "The Admiral's Broom," and a ballad, "The Lord of Long Ago."

Today and Saturday may be the last years of hearing the famous tenor. Manager Logan has secured the services of a singer to replace Mr. Jarvis, who will commence his engagement at the Monday matinee. Watch for the announcement on the Saturday photoplay page.

The Majestic Concert Orchestra, under the leadership of Mr. Joseph Tiri, has been tendered this week the greatest ovation at any time since its organization. "The Vision of Salome," is received at each performance with tremendous applause. The effects are realistic, and add to the charm of the selection.

The feature screen attraction is "A Kiss for Susie," starring Vivian Martin in the role of Susie Nolan, and Tom Forman as Phil Burnham.

The following is a synopsis of the play:

Susie Nolan is the youngest daughter and head of the family of Jim Nolan, one of the best bricklayers in the city. Today and Saturday Mr. Jarvis will sing that historical song, "The Admiral's Broom," and a ballad, "The Lord of Long Ago."

and then always arranges to have lunch with her father. As a poor carrier he calls on Susie and is well come.

One day Phil's mother learns that he is not at Palm Beach—goes to Schwartz and makes him take her to town. She then orders Phil back into society.

One day young Jim makes Susie turn over her small hoard of cash to him and save him from arrest. A few minutes later a lawyer arrives, telling of Uncle Daniel's death. The Nolans promptly move into more pretentious quarters. The two older children resign with a fast crowd, and Susie, seeing that wealth is bringing their ruin, plans with Schwartz, and has her father invest his money, and believe he loses it in the stock market. Lizzie and young Jim treat Phil as a fortune-hunter until they are back in their same quarters, when Phil returns and offers Nolan his bricklaying job back and tells who he is. Susie realizes that in spite of all that has happened Phil really loves her, and the two are happy.

The senior members of the firm of Burnham & Schwartz is dead, and Schwartz looks after the business for his firm. The widow of his partner has social aspirations for the son, Phil, but he wishes to enter the firm, and instead of going to Palm Beach, as she requests, begins at the bottom as a hod-carrier. He meets Susie one noon-time.

cantile firm, and Lizzie Nolan, the big sister, is a stenographer, who is simply waiting for her father's wealthy brother, Dennis, to die, so that she can live a life of ease. Susie looks after the house and daily carries her father's lunch to the job, where he chances to be working.

BOB TO RUN FOR CONSERVATIVES IN THIS CITY?

Mr. Rogers Said To Have Been Approached By Emissary From London.

HAS NO LITTLE GREY HOME West Through With Him, But He May Be Offered Chance To Run.

Hon. "Bob" Rogers may be the Conservative candidate in London. It is known that the former minister of public works is looking for a seat in the House of Commons. The west does not look good to him any more. He is through with it, or the west is through with him. The latter is feeling like the job himself. He has the backing of the straight-line Tories, and the press of Ontario, the Conservative press, has been very kind to him. It is understood that emissaries have gone to Ottawa among the Tories to sound Mr. Rogers on the possibility of running in London. It would be a great thing for him. "Bob" in this fair city for a time. He would really be diverting.

CITY BREVITIES

PERMIT FOR HOUSE.—A permit was issued this morning by Building Inspector Piper to James Coulthard for a one-story house on Egerton street to cost \$1,200.

TAKEN ON STRENGTH.—Prov. Lieut. George William Lang, general list, having reported for duty, has been taken on the strength of Carling Heights Camp, and has been detailed for duty with the rank of lieutenant with the Forestry and Construction Dept. It is announced in camp orders.

DANCE AT SPRINGBANK.—A pleasant time was spent last night at Springbank at a dance held under the auspices of No. 4 Nursing Division, St. John Ambulance Brigade. A fine program was carried out under the leadership of Harold Skinner. The proceeds will be added to the funds with which the nurses expect to purchase a new ambulance. The success of the affair is due to the committee in charge, consisting of Mrs. J. F. Thomson, Miss Sykes and Miss D. Thomson.

NEW COTS ON SALE.—London reports to Bradstreet's that new crop cots are already on sale with sellers asking 65 cents, f. o. b. in car lots, but for the crop begins to move. New quantities as yet, and farmers are receiving about \$2.08 to \$2.19 a bushel, which places the dealer's price considerably above an export basis. Autumn trade promises confident about trade for the coming months. Deliveries of fall goods are well advanced, and the beginning of the Western Fair within the next fortnight is expected to usher in a satisfactory fall business.

MAYOR BUSILY ENGAGED ON DEVICE TO SAVE LIFE AND PERHAPS SUBDUCE THE SUBS!

His Worship Demonstrates With Inner Tube at Port Stanley, and Says One Can Keep A Live While Submerged by Taking Air Through Valve.

Although he has been keeping the matter quiet, Mayor H. A. Stevenson is said to be working on several war inventions in which he has great belief. The mayor's interest in the mechanical side of war problems is well known. He has many unusual theories, and some of them are quite simple in application.

Tricks Out the Device.—A striking instance of the mayor's ingenuity occurred recently at Port Stanley, when the initial try-out of a life-saving device was launched. The appliance conceived of by the mayor is an inner tube of an automobile tire. After disarming himself and donning a bathing suit, Mayor Stevenson, accompanied by his device, jumped into the waters of Lake Erie.

After having waded a considerable distance from the shore in order that the spectators would not doubt the genuineness of his device, the mayor encompassed himself with the tube and floated for five minutes amid-steam.

The thing was a huge success and the spectators around the wharf were confident toward the winning of the war, but it looks as though the mayor's previous contributions when the devices of the mayor are perfected.

It is rumored that while floating in his life-saving appliance, the mayor was suddenly approached by a couple of young men, who doubted the genuineness of the device. According to the rumor the young men seized the tire or the mayor and pushed it or him under water. However, the mayor was not to be caught napping. He immediately released his hold of the tube, opened the air valve, and breathed his full of the air inside the tire.

It is said that the young men tried to duck the inventor innumerable times, but that, being foiled in each instance when the mayor breathed from the valve of the tube, they gave up in discouragement.

May Catch the Subs.—Much interest is being manifested regarding the success of an anti-submarine device which the mayor is said to have been working on.

Mayor Stevenson stated that the idea of the appliance came to him when he heard of the drowning accident near a pump-house some days ago.

London has already done her part toward the winning of the war, but it looks as though the mayor's previous contributions when the devices of the mayor are perfected.

WHITE RAINCOATS FOR COPS ON DARK DAYS IS EDICT OF MAYOR

To facilitate the work of traffic officers and to lessen accidents it is understood that safety zones will be established on the main thoroughfares throughout the city during fall week.

Following the method in vogue in the larger American cities the London policemen will be issued with white waterproof coats and helmets that they may be made more conspicuous in the crowds during a fog or darkness. Mayor Stevenson conceived the idea when visiting Philadelphia and Washington, and stated today that the inauguration of this system of handling the crowds will be put into practice shortly.

CITY "SOAKED" ITSELF BY REFUSING COAL

The city council does funny business at times. Last April London refused to take a coal supply, and W. Heenan & Sons offered to put in the amount required for \$2 a ton, some \$8.80. This was the only tender, and the aldermen promptly threw out the tender.

Some time ago the board called for new tenders, and this morning they were opened. The best price was that of W. Buchanan, who offered to furnish a supply for \$2.35 a ton. This was accepted.

"We simply lose a few dollars of the city's money by the action of the council," commented Controller Little.

EFFECT OF EMBARGO ON SULPHUR IS FELT IN CITY IMMEDIATELY

A long distance telephone message was received by a local manufacturer of paper boxes at noon today to the effect that the embargo on sulphur from the United States to Canada had gone into effect this morning.

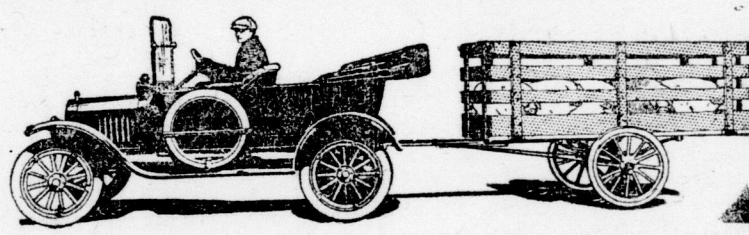

As a result of the embargo, it is anticipated a scarcity in wrapping paper and cardboard will be experienced. To what extent this shortage will be felt will determine whether or not there will be an advance in prices.

ANOTHER VAST CREDIT FOR RUSSIA FROM U. S.

Washington, Aug. 24.—Another credit of \$100,000,000 to Russia was made today by the United States Government. This brings the total of credits to \$275,000,000. Some of the money proposed to be used to purchase railway supplies and equipments in this country.

BRANTFORD CAN HAVE FUEL DEPOT IF WISHES

Toronto, Aug. 23.—The city of Brantford's application to the Ontario Railway Board for approval of its bylaw for the establishment of a fuel depot at this morning, and the board, after hearing the arguments on both sides, decided that if the people voted in favor of it the proposal should go through.

PERMANENT HOME AS MEMORIAL TO RETURNED MEN

Plan Outlined by Sergt. "Jack" Rawlings Adopted by Veterans.

PLAN TO RAISE FUNDS

Great War Association Favors Scheme to Build Club in the City.

Returned soldiers are to have a permanent home in this city, if the movement set on foot at the meeting of the officers and executive of the Great War Veterans' Association last night is carried through to a successful conclusion.

The plan, which has been in contemplation for some time, was put under way by Sergeant John Rawlings, who at the meeting in the rooms of the Great War Veterans' Association, in a paper which he read, outlined a plan which he had worked out, by which funds would be raised with which to erect a memorial to the returned heroes in the shape of a permanent home.

Need Adequate Quarters.—It was pointed out at the meeting that there was a great need of an adequate place for clubrooms, dormitories and other accommodation for returned men. The present rooms of the association, although comfortable, are not large enough to provide the accommodation that is required.

A headquarters is also needed for the work of the Great War Veterans' Association, whose sole aim is to look after the soldiers who have returned or who will return from the front, and to promote the welfare of the widows and orphans of those who do not return. The number of returned soldiers to be looked after is estimated at only a small percentage of the number that will require accommodation after the war is finished, and even now the number of returned men is increasing continually.

In Other Cities.—It was stated at the meeting that other places are leaving London behind in this regard, and in Stratford, Toronto, and Kitchener handsome homes for returned men have been already erected. In the latter place a memorial home costing \$5,000 has been erected recently.

Many people have expressed the opinion that some memorial should be erected to the memory of the departed heroes of the present conflict, and the plan to erect a memorial to the heroes of the war was approved. It was decided that the memorial should be a building to house the widows and orphans of the men who have given their lives in the cause of the Empire.

Support Promised.—The support of a number of citizens has been promised to the returned men, and they are about to ask the citizens of London generally to support the project wholeheartedly, and to subscribe generously to the fund which would be used to erect a home that will be worthy of this city.

The plan, adopted by the returned men, was approved, and the following building committee was appointed last night to work out the plans for raising funds for the proposed home: President, Lieut.-Col. Colos, First Vice-President, Lieut.-Col. Colos, Second Vice-President, Lieut.-Col. Colos, Secretary, Lieut.-Col. Colos, Treasurer, Lieut.-Col. Colos.

Decline to Agree.—The board of control had a busy time at the session this morning, a great deal of routine business being disposed of. It was decided on the recommendation of City Engineer Brazier, to have the Robert W. Hunt company high rise the street railway at Richmond street and the street railway at Richmond street at the expense estimated at \$130.

The Underwriters' Association wrote, saying that it objected to an 80-gallon pump on the motor aerial truck, as proposed by the city. A separate motor electric fire engine was proposed. The board thought this impossible, and decided to retain the present fire engine. The city will purchase a motor ladder for the use of the brigade.

"We cannot pay out \$8,000 for a motor ladder," Controller Little said. "Our present engine is sufficient."

A portion of Ardavan Place will be paved, provided the residents petition for it. There is some doubt about the petition, and the council will have the residents settle it among themselves.

Paid.—In response to a question from the trades and labor council, the city engineer was instructed to inform that body that Contractor W. J. Boss paid \$750 a day for the use of the city in the construction of the Richmond street pavement. The rental is rather high, as the machine cost about \$600 when new. Mr. Boss paid nearly \$200 for its use.

The Salak Company was awarded the contract for making the firemen's uniforms for \$15.50 a suit, being the lowest. The city is to furnish the material. Dambra & Walsh will make the uniforms for the chief and the assistant chief for \$44.60.

Purchase of Property.—On the recommendation of Assessment Commissioner Grant, it was decided to offer the three owners of property necessary for the opening of Elinas street, from Adelaide to William, \$2,500, \$2,500 and \$400 respectively for the property, and if it is not acceptable the work will not be proceeded with.

G. Bindner was offered \$800 for property needed for opening Gordon street, and if he does not accept the matter will be taken to a court of arbitration.

Secretary A. M. Hunt of the Western Fair Association has been asked for fire protection for the fair buildings. It was thought that more fire alarms should be installed, and that the company be stationed in the grounds at all times during the fair. The matter was referred to Controller Saunders and Fire Chief Aitken with power.

Advised to L. and P. S. R.—Colin St. Clair Leitch, St. Thomas, wrote on behalf of Leonard Dyer of that city, asking for compensation for an injury received on the London and Port Stanley Railway on July 20. He complained that the car was overcrowded, and that Dyer was injured by a coal car, which was out of the track. His head was injured, and he was otherwise injured. As this is a matter for the London and Port Stanley Railway Commission to decide, the letter was referred to that body. If an answer is not received shortly, Mr. Leitch will enter suit.

McMurphy was awarded the contract for a sanitary sewer on Princess avenue, from the old city limits to Charlotte street, for \$68.99, his tender being the lowest.

Where is Money?—The Webster Construction Company was low on the contract for building a storm and sanitary sewer on Maitland street, from Carling's Creek to Oxford street, the price being \$6,925.50, but it was not decided to do this work until it has been discovered where the money was coming from.

It was decided to advertise for sludge pumps for the disposal works in the East End.

Wedding Bells.—A quiet but pretty wedding was solemnized at St. Peter's Cathedral on Thursday, August 23rd, when Miss Harriett Baker was united in marriage to Harold J. O'Rourke by Rev. Father Harding. Miss M. O'Rourke made a lovely bridesmaid, while the groom was assisted by E. Delaney.

After a short honeymoon Mr. and Mrs. O'Rourke will take up their new home in Toronto.

Had Terrible Pains in Kidneys and Back.—Dear Mr. Editor—I want to write you about "Anuric." I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine, but it didn't help me. I heard of Dr. Pierce's Anuric Tablets, and I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely,

MRS. WILLIAM KELLER.

Note.—This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great institution at Buffalo, N. Y., have thoroughly tested this prescription, and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country, in a ready-to-use form. If you cannot obtain it send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

PERMANENT HOME AS MEMORIAL TO RETURNED MEN

Decline to Agree.—The board of control had a busy time at the session this morning, a great deal of routine business being disposed of. It was decided on the recommendation of City Engineer Brazier, to have the Robert W. Hunt company high rise the street railway at Richmond street and the street railway at Richmond street at the expense estimated at \$130.

The Underwriters' Association wrote, saying that it objected to an 80-gallon pump on the motor aerial truck, as proposed by the city. A separate motor electric fire engine was proposed. The board thought this impossible, and decided to retain the present fire engine. The city will purchase a motor ladder for the use of the brigade.

"We cannot pay out \$8,000 for a motor ladder," Controller Little said. "Our present engine is sufficient."

A portion of Ardavan Place will be paved, provided the residents petition for it. There is some doubt about the petition, and the council will have the residents settle it among themselves.

Paid.—In response to a question from the trades and labor council, the city engineer was instructed to inform that body that Contractor W. J. Boss paid \$750 a day for the use of the city in the construction of the Richmond street pavement. The rental is rather high, as the machine cost about \$600 when new. Mr. Boss paid nearly \$200 for its use.

The Salak Company was awarded the contract for making the firemen's uniforms for \$15.50 a suit, being the lowest. The city is to furnish the material. Dambra & Walsh will make the uniforms for the chief and the assistant chief for \$44.60.

Purchase of Property.—On the recommendation of Assessment Commissioner Grant, it was decided to offer the three owners of property necessary for the opening of Elinas street, from Adelaide to William, \$2,500, \$2,500 and \$400 respectively for the property, and if it is not acceptable the work will not be proceeded with.

G. Bindner was offered \$800 for property needed for opening Gordon street, and if he does not accept the matter will be taken to a court of arbitration.

Secretary A. M. Hunt of the Western Fair Association has been asked for fire protection for the fair buildings. It was thought that more fire alarms should be installed, and that the company be stationed in the grounds at all times during the fair. The matter was referred to Controller Saunders and Fire Chief Aitken with power.

Advised to L. and P. S. R.—Colin St. Clair Leitch, St. Thomas, wrote on behalf of Leonard Dyer of that city, asking for compensation for an injury received on the London and Port Stanley Railway on July 20. He complained that the car was overcrowded, and that Dyer was injured by a coal car, which was out of the track. His head was injured, and he was otherwise injured. As this is a matter for the London and Port Stanley Railway Commission to decide, the letter was referred to that body. If an answer is not received shortly, Mr. Leitch will enter suit.

McMurphy was awarded the contract for a sanitary sewer on Princess avenue, from the old city limits to Charlotte street, for \$68.99, his tender being the lowest.

Where is Money?—The Webster Construction Company was low on the contract for building a storm and sanitary sewer on Maitland street, from Carling's Creek to Oxford street, the price being \$6,925.50, but it was not decided to do this work until it has been discovered where the money was coming from.

It was decided to advertise for sludge pumps for the disposal works in the East End.

Wedding Bells.—A quiet but pretty wedding was solemnized at St. Peter's Cathedral on Thursday, August 23rd, when Miss Harriett Baker was united in marriage to Harold J. O'Rourke by Rev. Father Harding. Miss M. O'Rourke made a lovely bridesmaid, while the groom was assisted by E. Delaney.

After a short honeymoon Mr. and Mrs. O'Rourke will take up their new home in Toronto.

Had Terrible Pains in Kidneys and Back.—Dear Mr. Editor—I want to write you about "Anuric." I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine, but it didn't help me. I heard of Dr. Pierce's Anuric Tablets, and I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely,

MRS. WILLIAM KELLER.

Note.—This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great institution at Buffalo, N. Y., have thoroughly tested this prescription, and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country, in a ready-to-use form. If you cannot obtain it send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

When Women are Weak

Women who feel weak, languid and depressed—who look pale and dull-eyed, and have lost appetite and fresh looks—need a tonic that will purify the blood, help the organs of digestion, regulate the liver and bowels, and strengthen the system. It long has been known that

Beecham's Pills

are a blessing to weak women, for they quickly correct womanly ailments, improve the appetite, purify the blood and re-establish healthy conditions. They are safe to take as they are purely vegetable and without any harmful drug. A few doses will bring better spirits, improved health and a feeling of fitness.

Worth a Guinea a Box

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

PILES

Are you a sufferer? Know that terrible aching, dragging-down pain, that robs you of pleasure, even of rest, and makes life miserable? Don't you believe in the law of averages? If a remedy has cured hundreds of people, don't you think it likely it might at least cure you?

Just give Zam-Buk a fair trial! Mr. J. McEwen, of Dundas, suffered from piles for fifteen years. He says: "I tried pretty nearly everything, but got no permanent relief until I tried Zam-Buk. This balm relieved the pain; continued use completely and permanently cured me."

The rich herbal essences of which Zam-Buk is composed, quickly relieve, move congestion, relieve the dull, gnawing, burning pain, and cure. All druggists and stores, or post-paid from Zam-Buk Co., Toronto, for price, 50c. box, 2 boxes \$1.25.

G. N. R. RECEIVERSHIP IF NOT PURCHASED BY GOVT. OR OTHERS

Important Information Is Gleaned By Persistent Questioning.

CLOSURE MAY BE USED

Borden Apparently Determined To Force Bill Through House.

Ottawa, Aug. 23.—The Canadian Northern bill is to be put through Parliament by closure. In fact, the first step in closure had been made. For several days the bill to buy the Mackenzie & Mann stock has been in committee, and the Government has not succeeded in getting the first clause moved. Tonight the finance minister moved that the first clause of the bill "do now stand over."

I presume that this means closure, said W. M. German of Welland. There was no reply from the Government, but Sir Robert Borden and Sir Thomas White smiled at the Liberal questioner with a condescending expression, which was a denial of the charge.

The first step in closure is the first step in the closure of the House. This step may be followed by closure, or it may be followed by a bill or a part of it over, the Government puts itself in position to apply closure at its pleasure.

Mr. German protested that a measure involving the spending of such a large amount of money should not be made law by closure. Soon after commencing the bill was dropped for the sitting and other matters taken up.

Only once has closure been applied in Parliament and that was on the Borden naval bill. Strong opposition to the Canadian Northern measure is being shown from the Liberal side. While the measure has had second reading, it has not been advanced an inch in committee. Information as to the owners of the Canadian Northern securities and statements on the financing of the road are demanded.

Like Pulling Teeth.
The Government is producing it with reluctance. The finance minister gave some information today and was asked for a good deal more.

The most interesting items were: A statement of the Canadian Northern stockholders; news that fifty-one million dollars worth of Canadian Northern stock, owned by the Mackenzie & Mann Company, had been pledged with the Bank of Commerce; and the statement by the finance minister that the Canadian Northern there had to be receivership, Government ownership or ownership by the Canadian Pacific.

The finance minister read the following list of shareholders of the Canadian Northern which he had received from the company. These shareholders are as follows:
The minister of finance and receiver-general of Canada, in trust for His Majesty \$4,000,000
Sir William Mackenzie 10,000
Sir Donald Mann 10,000
D. B. Hanna 10,000
R. Wood 10,000
E. J. Mackenzie 10,000
Z. A. Lash 2,000
Hon. F. Nicholls 2,000
R. M. Torne 2,000
Hon. H. W. Richardson 2,000
W. J. Christie 2,000
W. K. George 2,000
British Empire Trust Company, Limited 324,000
John Aird and H. V. P. Jones, in trust 1,000,000
Mackenzie & Mann Co. 53,614,000
Total \$58,614,000 With Magnates.

Hon. Wm. Pugsley asked details of the holdings of Mackenzie & Mann Company, Limited. Sir Robert Borden replied that the secretary of the company had written him that the \$58,614,000 of capital stock, par value, Mackenzie & Mann Company, Limited, \$2,000,000 was in trust for certain officers and employees of long standing; the balance, \$56,614,000, was held by Mackenzie & Mann Company, Limited, pending incomplete financial arrangements for distribution amongst Lazard Brothers, London, Eng.; and the British Empire Trust Company, London, Eng.

The minister of finance added that the list of shareholders presented to the House was as it stood June 30 last, but had there been any changes since, nor had there been any for years before. Messrs. George, Christie, and Richardson had no personal interest in the shares with which they were referred to. These had simply been transferred to qualify them as directors of the company. E. H. Wood had also written him, apart from the qualification shares, he had no interest, direct

or indirect, in the Canadian Northern Railway.

Request Not Relevant.
In reply to Mr. Pugsley, the minister of finance said he understood that William Mackenzie and Sir Donald Mann were the proprietors of the Mackenzie & Mann Co., Limited.

This had no bearing on the question before the House. He held that it was not even relevant to know the names of the shareholders, but he had secured this information for the House. Mr. Pugsley thought that if it was of any importance to know who the shareholders of the Canadian Northern were, it was also important to know who the shareholders of Mackenzie & Mann Co., Limited, were. It was also important to know the names of the shareholders of the British Empire Trust Company, Limited, and the Lazard Brothers, London, Eng.

Mr. Pugsley replied that the \$58,614,000 held by Mackenzie & Mann Co., Limited, was with other assets, pledged to the Canadian Bank of Commerce. However, that information was not relevant to the question before the House. The real question was, should the Government buy the stock, and it was for the arbitrators to learn the value of the stock.

Waste-Paper, Says Pugsley.
Mr. Pugsley claimed that intrinsically waste-paper was worth the value of the construction of the Montreal tunnel, Sir Thomas said that at the present time outstanding claims for damages to the amount of about \$50,000 were in the course of adjustment. All the land which the company had to clear of way had been paid for. Easements claiming the mountain had not in many cases yet been adjusted, the no damage would be sustained. These claims were to stand over by agreement until one year after the operation of the tunnel.

Mr. Pugsley stated to the operation that the Ontario and Quebec lands were not pledged as security for stock. He added that, judging from the report of sales, the agricultural lands of the company are worth about \$15 per acre.

May Cost \$60,000,000.
Mr. Pugsley claimed that there was a growing dissatisfaction in regard to this bill which the Government could not long ignore. These expressions of dissatisfaction were to be heard in all the great financial centres. The legislation, he said, would probably cost the country more than \$60,000,000.

Hon. Arthur Meighen said that it was not his purpose to reply to the "press gallery" portion of Mr. Pugsley's speech. He did not take much stock in the assertion of the member for St. John that the stock would cost the country at least sixty million dollars. Apparently Mr. Pugsley had no con-

DOLLAR DAY at GRAFTON'S

Here's the story—simple—to the point. Most of you know this store—its standards, its merchandise. You know the remarkable values we offer at regular prices—you know general conditions today; you may even consider that we would be justified in carrying over to next season merchandise as fine and thoroughly good as you know it to be here; and from a dollars-and-cents standpoint that's true, but this store's unchanging policy demands that all goods must be sold in the season for which they are made—and sold they will be. Men's, Youths', Boys' and Children's Clothing—Every popular style of suit has been marked in this great Dollar Day Sale. You are sure to find the very suit you want. All lines are reduced as follows:

\$12 TO \$13 SUITS CUT TO 9 ONE DOLLARS

The suits in this lot represent our most popular selling lines for the season, beautiful patterns, dependable fabrics and fine tailoring. You won't find their equal anywhere. At Nine One Dollars

\$15 TO \$18 SUITS CUT TO 12 ONE DOLLARS

Here is a splendid lot of extremely fashionable suits on which we are simply sloughing the prices. Here is real evidence of our determination to effect quick clearance. Take your benefits in these suits. At 12 One Dollars

\$20 TO \$22 SUITS CUT TO 15 ONE DOLLARS

High-Grade Suits in every detail of fashioning, pattern, fabric, quality and tailoring. These are offered to you now at a popular price. They won't be here long. At 15 One Dollars

\$24 TO \$26 SUITS CUT TO 18 ONE DOLLARS

The man who gets first choice of this wonderful collection of the newest in this season's suits will find rich picking. Try and be one of the first—you will be well paid. Here's the offer 18 One Dollars

Three Prizes To Be Given By Grafton & Co. On London's Dollar Day, Saturday, August 25th

Each customer making a purchase of one dollar or more will be entitled to a guess on the number of tickets issued in our store on Dollar Day.
First Prize—Man's Suit or Overcoat, value \$20.00
Second Prize—Man's Pants, value \$5.00
Third Prize—Sweater Coat, value \$3.50
On Monday, August 27, a representative from The Advertiser and Free Press will count the tickets and announce the winners in the Monday evening issues.

Boys, Come to the Big Dollar Day Sale

DRUMBO DOCTOR AGAIN IN TOILS OF BORDER POLICE

Once More Arrested for Performing Illegal Operation.

DETROIT, Aug. 22.—Dr. George A. Fritch was arrested at his home, 172 High street west, this afternoon on a charge of performing an illegal operation. Mrs. Christine Gordon, believed to be dying, made the accusation. Detectives took Fritch to the woman's home, and they say she identified him as the doctor who operated on her. Dr. Fritch was convicted of killing Mabelle Millman several years ago, but a second trial he was acquitted. The jury was roundly denounced in public by the late Judge Phelan. Fritch is a Canadian, and came here from Drumbo, Ont., some years ago.

Mr. Graham himself, had repeatedly stated that a receivership was not to be thought of in connection with the Canadian Northern system. It was late, therefore, to call for a receivership. It was true that many railways in the United States had been in the hands of the receiver, but the credit of the country was not involved with the credit of those roads, to hold it with the credit of the Canadian Northern.

G. P. R. Is Receiver?
"If that road goes into the hands of the receivers," continued the finance minister, "then there are only two organizations strong enough to hold it, the Dominion Government or the Canadian Pacific Railway."

The finance minister said that if this was peace time, foreclosure might be feasible, that it might be possible to close it down, to close it down, to close it down. Under foreclosure all the debts would be paid, and the situation as it could not be dealt with now. The proper course was to keep the equity of the road in order that a loan was due now which was done unless the company as a company was preserved.

Blames Predecessors.
Ever since the present administration had taken office, the Canadian Northern and the Grand Trunk Pacific had been in such a position financially, that they had to turn to the Government for aid. The Government had been compelled to face the situation, not of its own making, but due to the policy of the Laurier administration. Sir Thomas said that both the Government and the Opposition, including

Mr. Meighen—What city?

Mr. Meighen—Refer to Montreal.

Mr. Meighen—That is a big city.

Mr. Meighen—It is against conscription also.

Quotes Financial Men.
Hon. George P. Graham then quoted a statement which appeared in the Montreal press today, signed by a sum-

DAILY BIBLE QUESTION CLUB

SUGGESTIVE QUESTIONS ON THE SUNDAY SCHOOL LESSON.

By Rev. T. S. Linscott, D.D. (All Rights Reserved.)

August 19, 1917.

"The Captivity of Judah." II. Kings, xxv, 1-21.

Golden Text—As I live, saith the Lord of the wicked, Ezekiel, xxxiii, 11.

1. When the rich, the educated, the manufacturers, and the merchants, are carried away from a wicked city, and all the equipment for fighting, to a king, when he and his army are captured by the enemy?

2. When the rich, the educated, the manufacturers, and the merchants, are carried away from a wicked city, and all the equipment for fighting, to a king, when he and his army are captured by the enemy?

3. Upon which class does the all-round prosperity of a people most depend? (This is one of the questions which may be answered in writing by members of the club.)

16. Verses 13-17.—A country rich in cathedrals, in paintings, in architecture, and other works of art, with a large population of farmers, and artisans, and a conquering few demands it to surrender the former or the latter, what should its decision be?

Exhibition, Toronto, was awarded three first prizes and two seconds in china painting, conventional and realistic, are among the London exhibitors for 1917 in Toronto.

Miss Agnes McEachran of Muskogee

Cynthia Grey's Mail-Box

She Didn't Get Them.

Dear Miss Grey—I want to let you know that I haven't any recitations that do not belong to me. I think "Edith Highland Vireo" sent some for "Edith" with a request to return them to you, so that you could send them to me. I'm enclosing a stamped envelope for same.

Miss Grey, I would like your opinion about something. I have a white button coat and a cream serge skirt. Do you think it would be advisable to dye them a plum color for the fall? The coat is plain and loose. Would you trim it with anything? I want to make myself a tam. Would the plum color be best? Thanking you, Miss Grey, I remain,

P. S.—Am enclosing recipe for cold meat relish. Hope some of the Pages will try it and see how they like it. Cold Meat Relish.—One quart each cucumber and onions. One large cauliflower, two green peppers. Chop fine, sprinkle with salt and let stand overnight. Drain off next morning. Add

one quart vinegar, three cups white sugar, two ounces mustard seed, half ounce celery seed (I use chopped celery, one bunch). Let come to a boil. Make a paste of half cup flour, quarter cup mustard, quarter ounce turmeric. Pour over pickle. Let simmer for twenty minutes.

Ans.—I am sorry if you did not get "Edith H. G." recitations, for they were mailed to your address given on a previous occasion. Or at least they were mailed to some "Marion" residing in "K." and it is too bad if they have gone astray en route.

Your idea for the coat and skirt sounds very practical to me, and plum should be a good shade to use. Perhaps you could brighten the coat by means of a white cloth collar and cuffs and a few fancy metallic buttons. Could you use plum corduroy for your tam and white?

Your relish sounds excellent for use with cold meat.

Chow-Chow.

Take six cucumbers just before they ripen, peel and cut in strips and remove the seeds, four white onions, six good-sized heads of cabbage, chop all fine; let them stand in salt water overnight. Then pour off the water and add vinegar and spices to suit taste.

Piccaililli.

One peck green tomatoes, one dozen onions, six red peppers, one-half ounce ginger, one-quarter of an ounce of mace, one tablespoonful of black pepper, one box of mustard, 5 cents' worth of celery seed, one pound of brown sugar, slice onions, tomatoes, and peppers, put in a jar with salt.

Some Foods Cheaper, But Rent Ascends; Living Still Costly

[Special to The Advertiser.]
OTTAWA, Aug. 23.—A slight halt in the upward trend of food prices is recorded by the labor department as having taken place in July. The department's index number of wholesale prices for the month was practically

unchanged from that for June, and the weekly budget of food retail prices at the middle of the month was lower at \$11.62 as compared with \$11.89 for June.
Retail prices for potatoes were lower, but there were also decreases in eggs, butter, cheese, bread and flour, although eggs later began to rise.
Coal averaged slightly lower, but wood was upward. Some advances in rents also occurred.

FILM COMPANY BURNED OUT.
PROVIDENCE, R. I., Aug. 23.—The plant of the Eastern Film Company, located near Roger Williams Park, was destroyed by fire, with an estimated loss of \$100,000.

DETERMINATION OF ENTENTE IS BEWILDERING TO HUN CHANCELLOR

In View of German Successes,
He Cannot Reason
It Out.

NOT READY FOR PEACE

Extensive War Aims of Germany's Enemies Are
Recounted.

THREE ADDED ENEMIES

Siam, Liberia and China
Dragged Into War by
United States.

LONDON, Aug. 23.—What purports to be a verbatim report of the speech of the Imperial German chancellor, Dr. Michaelis, received by the British admiralty, per Wireless Press, and through Reuters' Hialese correspondent, is in part as follows:
"As regards our enemies, their number has increased since the adjournment of the Reichstag by three, namely, Siam, Liberia and China. These countries have no convincing reason for entering against us. They acted solely under pressure of the Entente and the United States, the latter having great influence over China and Liberia. We have made it clear to these countries that we shall bring them to account for the damage done under international law to German interests."
After referring to the solidity of Germany and her allies, the chancellor read a telegram from Field Marshal von Hindenburg that the military situation was more favorable for Germany than ever. The chancellor added:

"Our success on land corresponds with our success on the sea. In the month of July, according to the latest reports received, 31,000 tons of shipping were sunk. When we take into consideration our results on the one hand and the failures of our enemies on the other it appears to be inconceivable that our enemies show no disposition to prepare the way for consideration of terms of peace, not to mention peace which includes renunciation."

"I was able to show recently by information regarding a Franco-British secret treaty, what far-reaching war aims France had, and how England supported French desires for German land. Only recently a member of the British cabinet declared that there would be no peace until the German armies had been thrown across the Rhine. I am now able to show that further arrangements were made by the enemy regarding their war aims, some of the details of which were already made known to the committee on an earlier occasion. I proceed in chronological order.

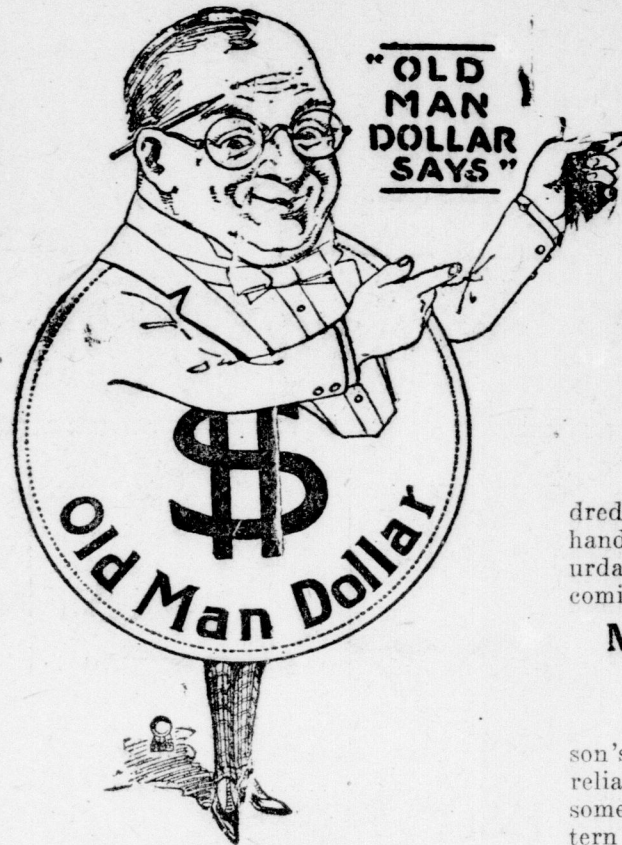

"On September 7, 1914, the enemy coalition decided only to conclude a joint peace. On March 4, 1915, Russia made the following demand for which England approved by note on March 12, and France by note on the same date, namely: Russia to receive Constantinople with the southern part of Thrace as far as the Euxine-Midia line; the islands in the Sea of Marmora; the islands of Imros and Tenedos, and on the Asia Minor side, the peninsula between the Black Sea, the Bosphorus and the Gulf of Ismail (Ismid) as far as the River Sakaries in the east. This basis was laid down and the negotiations continued their course in 1915-16. In the course of them Russia obtained the promise of the Armenian vilayets of Trebizond and Kurdistan and Mesina and the hinterland extending northward as far as Sivas and Kharput.

"Dividing Turk Country.
"England's share was to be Mesopotamia, and the rest of Turkey in Asia was to be divided into English and French spheres of interest. Palestine was to be internationalized and the other districts inhabited by the Turks and Arabs, including Arabia proper, and the holy places of Islam were to be formed into a special federation of states under British suzerainty. When Italy entered the war she demanded her

CONSERVATION OF FOOD SENDS THE PRICES SOARING

Food Controller's Actions
Send Prices Up on Fish—
Meat to Follow Suit.

TORONTO, Aug. 23.—When the food controller undertook to provide the Toronto consumer with fish, prices rose. A similar result is about to follow close upon his efforts to conserve beef and bacon for Allied use. Not only are Toronto consumers doing without their beef and bacon, but also in the near future they will be compelled to pay more for the veal, lamb and mutton substitute which the controller permits in all restaurants.
"Lamb for which I paid 23 cents a

pound last week, I am now paying 25 to 27 cents for," said Mr. Ed Mallon of St. Lawrence market, today. "Mutton is now 20 cents, while it was as low as 15 cents last week. Veal that is now 24 cents a pound was only 20 and 22 cents last week."

COUNCIL OF CITIZENS
STANDS BY KORNILOFF

Petrograd, Aug. 24.—The Council of Citizens has voted full confidence in Lieut.-Gen. Korniloff, commander-in-chief of the Russian armies, and Premier Kerensky. The council adopted a resolution approving of the general's course as the only rational one, and denying the right of workmen and soldiers to interfere. He was eulogized as the "only general able to restore order and lead the country out of a critical situation."

NOTED CHEMIST DEAD.
Amsterdam, Aug. 24.—Adolf von Baeyer, a prominent German professor of organic chemistry, best known as the discoverer of synthetic indigo, is dead at Starnberg.

PARTY FUSION IS BROUGHT ABOUT IN SELKIRK, MANITOBA

Liberals and Conservatives To
Agree on Candidate.

[Special to The Advertiser.]
WINNIPEG, Aug. 23.—Party fusion was today accomplished in the federal constituency of Selkirk. During the last week meetings of Liberals and Conservatives have been held at Stonewall and at Selkirk. An agreement has been arrived at and a joint committee appointed to select a tentative candidate, whose nomination is to be ratified at a meeting to be called in the future. Speculation is rife as to the status of J. E. Adams of Selkirk, who two years ago was nominated as the Liberal candidate for Selkirk. The South Winnipeg Liberal commit-

tee on arrangements met this afternoon and selected the committee of fifteen, which will be authorized to confer with the Conservatives of the constituency for the purpose of selecting a union candidate.

This evening the South Winnipeg Conservatives met W. J. Boyd, president, intimated that the offer made by the Liberals at the mass meeting on Tuesday was cordially accepted by the association, and a committee of fifteen was selected to meet the other parties.

ROYAL MAIL STEAMER
MAY HAVE BEEN SUBBED

South American Port, Aug. 24.—A dispatch received here from Rio Janeiro says there are persistent but unconfirmed rumors in circulation that the Royal Mail Steam Packet Company's steamer Desna has been torpedoed. The Desna registers 11,554 tons, and was built in 1912.

OATS MADE GOOD SHOWING.

Wilton Grove, Aug. 23.—The hay crop in this district was the best in years, and oats are uniformly reported to be very good. A number of samples of oats were sent to the Lambeth contest, and did credit to the Wilton Grove district.

Clean to handle. Sold by all Drugists, Grocers and General Stores.

TENT CATERPILLARS NUMEROUS IN CITY; SHOULD BE DESTROYED

Owners of Trees Ought to Take Action, Says Prof. Dearness.

The Advertiser is indebted to Professor John Dearness for answering questions sent in recently by readers. The replies are as printed below:

The letter and specimens referred to me from your South London correspondent show that the three-lined potato beetle is at work in some of the south end gardens. This beetle in the adult stage, marked by three black lines on its wing covers, is a narrower, more active insect than the common Colorado beetle, which has ten lines on its wing covers. S. L. C. very well

describes the larvae, as they may be seen devouring the potato leaves. Similar in shape to the Colorado larvae, of a dull, dirty yellow color and usually feeding in rows from the under side of the larger leaves. Both kinds are about equally voracious, but the three-lined one is less apt to seek the young growth on the ends of the stems, and has not so many broods in the year; it is therefore less destructive. The Paris green and lime or arsenate of lead treatment—quarter to a half-ounce in a ten-quart pail of water—is effective against both species.

The stem disease inquired about—no specimen sent—is not explicitly enough described to determine whether or not it is blackleg. This name is given to a bacterial disease which is on the set when it is planted this works up from the set, which is usually soft rotten by the time the stem reveals the infection. The latter can be rather easily pulled out of the ground and will be found to be flabby and darkened as far as it was covered. Any potatoes that may form do not reach half their normal size. Treating the seed by formalin prevents the disease, but there is no remedy for it. If the potatoes are planted, crop reports placed the loss due to this disease in the Maritime Provinces at nearly three-quarters of a million dollars in the year 1915.

The stem decay, so far as S. L. C. describes, might also be caused by late blight. This disease works mostly from the leaves downwards, and can be prevented or controlled by thorough and repeated spraying with Bordeaux mixture. About the city this summer I have observed no less than three other potato-stem troubles, but S. L. C.'s is probably one of the two mentioned above.

Third: "Tent caterpillars are bad on trees hereabout. What is the best remedy for them?"

The name "tent caterpillar" is properly applied to an insect that weaves a silken tent in early spring, hatching from eggs laid by the parent moth on the twig. The thin tents, so numerous on the trees in and around the city at the present time, are spun by the full webworm. The eggs—several at a time—are deposited on a leaf and the colony extends the web as it requires new feeding ground. If the webs are within reach, it is often the best plan to cut off the unsightly branch and destroy the worms, but it is easy, if it is desirable to spare the branch, to spray the leaves around the web with arsenates as for the potato beetle. It may be added that this insect is more abundant this year than usual. Owners of trees should take the little trouble required to destroy the webs and their occupants.

RAISED \$80 TO AID HOSPITAL

More than eighty dollars for apparatus, to be used in the military convalescent hospital here, was realized at a garden party held under the auspices of the London Township Red Cross Society, and the Grove Church on Saturday, August 18, at the city. An extensive program occupied most of the evening, and included a wide variety of selections.

The accompanist for the evening was Miss Steinberg. She also contributed instrumental selections to the program. Vocal solos were given by Miss Kernan and Mr. Callard. Miss Newbury and Miss Road gave several excellent renditions, and Allan Stead played several violin selections. Two exceptionally pleasing numbers were claret solos by Mrs. Roy Griffin. Miss Mildred Yates contributed a piano selection.

DELEGATES WILL BE TAKEN TO PT. STANLEY

Plans are being completed for the entertainment of the delegates to the annual convention of the Union of Canadian Municipalities, to be held here on Monday, Tuesday and Wednesday of next week. The headquarters of the convention will be at the Tecumseh House, where the committee meetings will be held. The general sessions will be held in the Masonic Hall.

The session was open on Monday morning, when committees will meet. In the afternoon the convention proper will convene. Mayor Stevenson, president of the union, will preside, and will read a report covering the work of the past year. Later the visitors will be welcomed to the city.

The business will be proceeded with at once, and an adjournment will be made. The delegates will then be taken to Port Stanley in special cars provided by the London and Port Stanley Railway. A banquet will be tendered them at the latter place, expected that Hon. W. J. Hanna, food controller, will be one of the principal speakers.

Toronto will send a delegation, headed by Mayor T. L. Church. Montreal will come with a considerable representation. It is possible that Mayor Mederic Martin, M.P., will be here.

Other cities will be represented. While not certain yet, it is expected that a number of western cities will send delegates.

dent of the union, will preside, and will read a report covering the work of the past year. Later the visitors will be welcomed to the city.

ALMOST 80 YEARS IN DISTRICT. Dorchester, Aug. 22.—The funeral of Miss Jeanette Jackson held Wednesday afternoon from her late residence, Nilstown, to the Dorchester Cemetery, was the largest seen here for some time. Rev. Dr. McCrae of the Hamilton Road Presbyterian Church, London, conducted the services.

Miss Jackson had spent nearly all the 80 years of her life in this district. One sister, Margaret, with whom she lived, survives, also two brothers, John and David, all deceased.

The pallbearers were Messrs. Andrew Thompson, Fred Brown, Joseph O'Brien, Andrew Brownie, L. Pearson, and G. Piper.

MRS. KIESO SICK SEVEN MONTHS

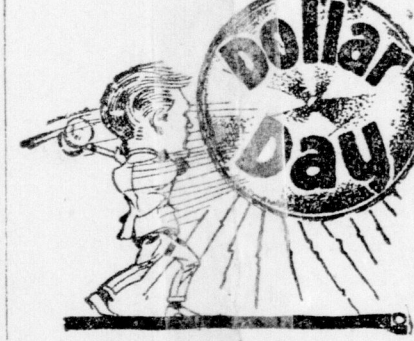

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Aurora, Ill.—"For seven long months I suffered from female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unfit to do my housework. I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is."—Mrs. Carl A. Kieso, 596 North Avenue, Aurora, Ill.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in Canada is cordially invited to write to the Lydia E. Pinkham Medicine Company (confidential), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

LOST HIS LIFE THROUGH ALCOHOL

A harrowing tale of the terrible effects of strong drink, whereby a fall from the water wagon occurred and a life was lost, has come to the attention of this paper. In this case a physician of high repute was accessory to what might be catalogued as a crime, or at least a near crime.

The physician in question was attending a heart-trouble patient in a home of highest white ribbon principles. He is a man of good temperance principles himself, but this was a case where he regarded a stimulant as essential for the sufferer. At least, he advised that an alcoholic stimulant should be kept on hand in case of emergency, and, on his order, a little brown jug was brought into the home.

The jug was somewhat unwieldy to handle, so the ingenious member of the family conceived the brilliant idea of emptying at least part of the contents into two or three small bottles and placing these on a shelf in the cellar, where they would be easy of access and easy to handle in case of a sinking spell on the part of the patient.

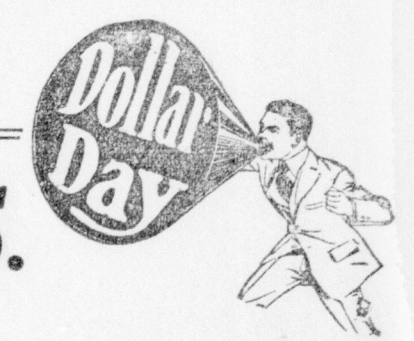

The next morning, it happened, the ingenious member had an errand down cellar. Immediately when she opened the door she was assailed by the fumes of alcohol, with which the whole place reeked. The bottles were lying on their sides, corked and out, and the greater part of the contents of each spilled over the shelf.

The mystery of the tapping of the bottles was explained by the presence

of a bloated old rat, who sat up on the floor and blinked his eyes and didn't have enough sense left to crawl away to cover until he had slept off his jags.

A rat hunt extending over several weeks came to an end in that household. The trap that had been set for weeks without success was placed in front of the uppper and he walked right in. That is how he lost his life.

SOLDIER HURT WHEN AUTO WAS DITCHED

While the party of soldiers from the convalescent hospital were returning to the city on Wednesday evening, after their visit to Parkhill, the auto of Robert J. Webster went into the ditch near Hyde Park and had one wheel torn off and was otherwise damaged. One of the soldiers was severely shaken up and was carried into the house of Mr. Player, where he was cared for for the night.

BURIED AT EXETER.

The death of Mrs. Thos. Kavanaugh took place very suddenly in the General Hospital, Cleveland, Ohio, on Sunday after a short illness of peritonitis. The remains were brought to the home of her parents, Mr. and Mrs. John Keen Exeter. Interment took place Tuesday to Exeter Cemetery. The services were conducted by Rev. Yelland. Mrs. Kavanaugh is survived by one son Edward, of London; her parents, Mr. and Mrs. John Keen Exeter; two sisters, Mrs. A. E. McCormick and Mrs. F. C. Treadgold, both of London. She was formerly a resident of Crediton.

London's Largest Jewelers

See the Display of Goods In Our East Window for \$1 Day, Saturday, Aug. 25

On all other goods that exceed the price of \$1.00 there will be a reduction of \$1.00 on every \$10.00 purchase. This is a better discount than we can obtain from any of the manufacturers from whom we buy goods. These prices are only good for Saturday, August 25, London's Dollar Day, as we wish to help make this day a big success.

STUPENDOUS AUGUST SALE

The values offered are becoming this year's furniture sensation, and little wonder. Even reductions on the usual-priced furniture draw crowds. But to get reductions on furniture that is ordinarily the lowest-priced good furniture in town is an opportunity that far-sighted folks will not miss.

Regular Merchandise From Our Regular Stock

This is not special sale goods. It is the same standard furniture we have offered all season—furniture of certain quality and of extraordinary money's worth. There is but one reason for our holding this sale—the only logical reason for a general sale—CLEARANCE. So we do not need to pad our stocks with furniture of doubtful quality. When we sell the furniture we now have, our clearance purpose is accomplished.

Time Grows Short--Come TOMORROW

A few days and this sale is history. The furniture market, like all other wholesale markets, is extremely unstable as regards price. And we can never hope to equal the wonderful offers of this sale again. Come tomorrow.

LOST HIS LIFE THROUGH ALCOHOL

A harrowing tale of the terrible effects of strong drink, whereby a fall from the water wagon occurred and a life was lost, has come to the attention of this paper. In this case a physician of high repute was accessory to what might be catalogued as a crime, or at least a near crime.

The physician in question was attending a heart-trouble patient in a home of highest white ribbon principles. He is a man of good temperance principles himself, but this was a case where he regarded a stimulant as essential for the sufferer. At least, he advised that an alcoholic stimulant should be kept on hand in case of emergency, and, on his order, a little brown jug was brought into the home.

The jug was somewhat unwieldy to handle, so the ingenious member of the family conceived the brilliant idea of emptying at least part of the contents into two or three small bottles and placing these on a shelf in the cellar, where they would be easy of access and easy to handle in case of a sinking spell on the part of the patient.

The next morning, it happened, the ingenious member had an errand down cellar. Immediately when she opened the door she was assailed by the fumes of alcohol, with which the whole place reeked. The bottles were lying on their sides, corked and out, and the greater part of the contents of each spilled over the shelf.

PRESENTS SELF AS RETURNED MAN TO PASS A CHECK

Alleged Impostor Being Sought
by Soldiers.

MAY BE ALMS SEEKER

Great War Veterans Anxious
to Secure Clue as to Guilty
One's Whereabouts.

Members of the Great War Veterans' Association here are looking for a man who, claiming to be one of their number, passed a worthless check at a local

drygoods store Thursday. The check was a personal one and not a pay-check issued to returned men. When it was sent to the bank it was returned marked "No funds."
Inquiry at the Soldiers' Aid Commission did nothing to reveal the identity of the man, so the matter was brought before a number of the members of the Great War Veterans' Association. They have promised to search for the man. It is thought that he may be the same person who was reported as begging from a number of citizens, claiming that he was a returned soldier and was starving. The returned men are anxious that he should be found, and to learn if he is really a returned soldier. It is not improbable, they point out, that among the hundreds of men who have returned there would be a few who were dishonest, but they think he is most likely a fraud and is merely using his claim to military service to arouse sympathy and make his swindling an easier matter.

MANITOBA HARVESTING.
Winnipeg, Man., Aug. 23.—Eighty-five per cent of the wheat crop of Southern Manitoba has been cut, while in other districts the average runs from ten to eighty per cent, according to a crop report issued by the Manitoba Department of Agriculture.

MANY HORSES INJURED ON RIDOUT ST. HILL

A state of indignation resulting from alleged mistreatment of horses by the city when the animals are allowed to descend and ascend the grade just over the Ridout street bridge toward Craig street, is prevalent among residents of the locality.

It is said that the state of the bridge with which the road is laid is such that as many as six horses per day slip on the road, and many sustain painful injuries. The animals are unable to gain a sound footing on the smoothly-laid bricks.

A fine specimen of a horse, pulling a wagon of the Belton Lumber Company, fell on the slippery bricks recently and blocked a street car for five minutes before a sufficient number of men were found to remove the animal to the side of the curb.

When the horse regained its feet it had not gone more than five yards before it fell again. The beast fell four times in different parts of the grade before eventually succeeding in gaining the bridge, where it was able to walk. The animal was so badly hurt that blood was bespattered all over the road.

NO MORE PAVING THIS YEAR WHEN ADELAIDE ST. DONE

Board of Control Will Call in
Prof. Marshall Soon.

AN EXTRA INSPECTOR

Specifications To Be Revised
at Completion of Present
Work.

Pavements were discussed at some length by the board of control this morning, and it was finally decided to put an additional inspector on the Adelaide street pavement to cut off the work at the completion of this job, and to have Prof. Marshall come to London and revise the specifications. In the meantime, City Engineer Brazier will secure the specifications of the American and Canadian Good Roads Associations.

City Engineer Brazier brought the matter to the attention of the board. He wanted some instructions as to specifications and inspection. The board had passed a resolution asking Professor Marshall and himself to revise the specifications. Mr. Marshall had not seen the work of construction, and he would like to have him.

"Mr. Marshall should see this work," was Dr. Shaw's opinion. "He saw the work on the hydro shop the other evening, and declared that better stuff was going into the pavements in London than into the hydro shop."

"The board is not to do that at the present time," said Controller Moore. "Prof. Marshall told the mayor that the sand and gravel were perfectly good, and that the pavements were all right," said Controller Saunders.

Mayor Stevenson could not recall the conversation. If more that an additional inspector be put on Adelaide street," declared Controller Moore.

"That is, an extra man over the one we have," asked Controller Saunders. This was answered in the affirmative, and the extra man will be named.

Secure Specifications.
"I move that the specifications of the American and Canadian Good Roads Associations be secured," declared Controller Moore.

The board agreed to this. "We want to see what is what in this matter," he stated.

"We will run the price of pavements up here," was the opinion of Controller Saunders.

It was also decided to have Prof. Marshall come to London when the next paving is done on Adelaide street.

"Mr. Marshall has never seen how we put down pavements," said Mr. Brazier. "I would like to have him come here."

He will be asked to come here. It was also decided to stop pavement construction with the completion of the Adelaide street pavement to Central avenue.

"We have been held up because of the lack of broken stone," explained Mr. Brazier. "We have 33 days' work more for the surface gangs, and that will run us until cold weather."

The board may later decide to put down a pavement on Richmond street, from Bathurst to the T. R. tracks, but if this is done it will be constructed by day labor.

TRAINS ARE TIED UP FOR LACK OF FIREMEN

A shortage of railroad firemen, which has become more acute during the past two weeks, is tying up the trains at the terminals several Grand Trunk freight trains. The scarcity is due, it is claimed, to so many having gone overseas, and others having laid off ill owing to long hours.

The class of freight held up is known as "dead freight," live freight, coal, stock, war munitions, coal and iron ore being moved in preference to ordinary merchandise.

BRIDGES DOWN AS COUNCIL TRIES TO AWARD CONTRACTS

KINCARDINE, Aug. 23.—The town council has been busy trying to award contracts for the three bridges. At a meeting on Monday evening the council decided to award the contract for the bridges on Broadway and Durham streets were awarded to the firm of \$2,000 for the former, and \$3,200 for the latter.

It was found that the contractors had taken the engineer's estimate of quantities, which were wrong, and the firm refused to sign up for the work. The other tender was from the Hunter Bridge and Boiler Company. Keyes offered to put in the extra cement at \$4 per yard. This brought its offer under its competitors.

The offer was made at tenders had been opened. The council, it is claimed, should have awarded the tender to the Hunters, but did not do so. On a vote it was decided to call for new tenders. The work is being delayed and because main entrances to the town are down, causing much inconvenience.

Surprise for Enemy.
The Canadians made their assault before dawn this time, and their attack was preceded by a protracted and exceedingly intense bombardment of the German positions. The Germans, exhausted by the long strain of constant counter-attacks which they have been delivering, found the Canadians in their midst with little warning. But the defenders did not give up without a struggle, and there was considerable bayonet fighting.

An advance upon two German artillery positions adjoining the crasser to the northwest earlier in the night also involved stiff hand-to-hand fighting. About the crasser are numerous shell-shattered buildings, many of which have been strongly fortified by the Germans.

within the city, which is rapidly approaching the point where it will furnish most inhospitable quarters for the enemy.

Despite heavy counter-attacks from the enemy during the night, the British today were holding strongly the positions which they reached yesterday along the front varying in depth from a few hundred yards to half a mile.

In the other part of the front, before Lens, the Canadians last night and this morning made still further advances on their southwest front, of the Souchez River.

Push Forward in Night.
Last night the Canadians also pushed forward toward two strong fosses adjoining the Green Crassier to the northwest. The situation at Lens has been more or less quiet as a whole since yesterday morning.

Fighting still continues east and northeast of Ypres. The British line runs approximately through a point in the centre of Inverness Cope from north and south, but north of it the Germans are in possession of a large machine gun position, which dominates the northern portion of the wood, and these guns add to the difficulties of the situation for the British.

Through Hall of Bullets.
The British made their advance into Inverness in the face of an extremely severe machine gun fire from the wood and from points to the north and south. The ground here is marshy and hard for the infantry to traverse, and the British forced their way forward to the wood, where they threw themselves on the Germans with bayonets and heavy counter-attacks failed to dislodge the British from the line where they finally rested half way through the wood.

Similar sanguinary fighting also occurred a little north in the Giencon wood, where there was a nest of machine guns.

In the Ypres-Menin road sector of the fighting the British penetrated the German defences to a depth of about 500 yards over a front of about a mile. Strongholds are reduced.

In a bigger battle farther north the British reduced many exceedingly strong German concrete redoubts and strongholds, which had figured in much of the fighting heretofore. One of these, which was the scene of a strenuous struggle before the British finally subdued its garrison, was counter-attacked determinedly by the Germans later in the day. The counter-attack was driven off with considerable loss to the Germans.

On the east the British penetrated to an extreme depth of half a mile, thus clearing much ground they had failed to hold in the bitter battle of last Monday.

FREE PANTS Most Daring Clothes Offer Ever Made!

IN LONDON

The Event Which Marks the Step From
Summer To Fall

Suitings and Overcoatings

Yes! A Pair of Pants Absolutely Free!

FREE! FREE! With every Suit or Overcoat. That is the proposition in brief but emphatic language. A pair of Pants FREE at this time of the season, when the cost of woollens is soaring in price and scores of other firms are unable to secure goods. Men of London, stop and think what this means to you. Every yard of the cloth on display comes direct to us from the mills. And from us to you. That's the secret of it all. That's why we can make this great Made-to-Measure tailoring offer. Not the tawdry, trashy ready-made clothing, picked up in some foreign clothing factory, where disease germs live and thrive on dust and dirt. No! Not cheap cloth either, but the best of imported cloth. Weaves and patterns that the high-priced tailor will envy and cannot offer you at any price. Patterns made exclusively for our own clientele. New in the season's stock to meet the trend of correct fashion for Fall and Winter. Hundreds of the smartest designs and new color effects. And you can select your style from 37 of the new fashion plates. Any style you wish in Suit or Overcoat, and not a single penny charged for extras. The price you pay will cover all extras. And the tailoring and trimmings will not be skimmed. Your clothes will be cut and tailored by our most careful and capable tailors and cutters. Every thread and button by our own staff.

One Day Only---Saturday!
We Invite You To Come!

OUT-OF-TOWN MEN

If you cannot come to the store on Saturday, we will hold this offer open to you until last mail on Monday, up to which time a letter from you with a small deposit, will entitle you to the full Free Pants benefit. We will send you full assortment of samples, together with the latest Fashion Plates, simple self-measuring chart, by which you cannot make a mistake, and if we should fail to satisfy you, your money will be returned.

REMEMBER, A PAIR OF PANTS EXTRA WITH EVERY SUIT OR OVERCOAT FROM THE FINEST RANGE OF FALL AND WINTER FABRICS IN LONDON.

Store Opens at 8:30 a.m., Closes at 10 p.m.

The Price of Peace Is Prussianism Destroyed

"There can be no peace until Prussianism is destroyed," says the New York World, in answer to the Pope's peace proposal. "Whether it is destroyed from without or from within rests mainly with the German people themselves, but destroyed it must be if there is to be peace in the world. That is now the beginning and the end of the war aims of the Allies, and unless achieved, autocracy has triumphed and German militarism is master of civilization."

"Germany must be beaten and know she is beaten," says the Louisville Post. And the Chicago Herald warns us that a peace on the Pope's terms "would be a truce, not a peace."

Not only do strong supporters of the war dismiss the "Pope's Peace" as a German peace, while they urge strenuous waging of war till Germany is made either "powerless or free," but pacifists, Socialists and German-Americans agree in predicting the failure of the new papal efforts at mediation.

In THE LITERARY DIGEST of August 25 is an interesting article reflecting the opinion of the press of the country on this newest of the peace proposals.

Elihu Root's Faith in the Russian Republic

"We Bring Back an Abiding Faith That This Great Free Self-Governing Democratic Government Shall Be Maintained Intact," says Elihu Root; and Others of the Commissioners Are Similarly Quoted in "Russia and Ourselves," an interesting Article in This Issue. Other Articles in This Valuable Number Are:

Dollar Day Bargains In East London Stores

EAST LONDON WILL LIKELY LEAD CITY IN NEW FACTORIES

Some Work Under Way and
Much More Planned.

Some towns grow, others remain stationary, and others slip backwards. The same is true of the various sections of a single town or city. In the case of London, the flow of humanity from one place to another on the face of Mother Earth, it is inevitable that some population, and the wealth that it

produces, increases in one place it decreases in another. This law is part of the eternal order of things; it is as obvious as that law which causes the sand to flow from one end of the sand-glass to the other, and the people of this city cannot escape it. But if anyone has any doubts as to whether to class London as the growing, the stationary, or the slipping variety of community, let that person turn to the fast-growing industrial city in the east end of London, where visible signs of expansion are to be seen on every hand. There he will find a veritable city within a city, and, if figures mean anything, a casual glance at the figures that denote the cost of buildings at present under construction or in contemplation in East London will convince the most skeptical that the east end of this city is about to forge ahead in the forward march of the close of the war. If dollars and cents spent on individual buildings convey any meaning to the mind of the doubtful citizen, then he will ask no

further proof of the building figures of the present period to know with certainty that his city is far from slipping backwards, that it is not at a standstill, and, moreover, that it is going ahead in a substantial yet irresistible manner, and at a rate that will leave all previous records in this regard in the background. Building Up Rapidly. It can be safely said without an iota of exaggeration that buildings are at present under construction in London's east side which will entail an expenditure of at least \$100,000. If there is added to this the proposed expenditure of at least \$200,000 on buildings at present contemplated, the grand total of \$300,000 to be spent on building in East London is reached. Construction work on other buildings, which no figures are yet obtainable, will bring the total amount to be expended on buildings in the near future to well over the half-million mark. More than a moment's thought is required to see that even a partial significance of the fact that \$300,000 a cool

DOLLAR DAY BARGAINS at Young's London East Store

half-million dollars—is to be paid out for the repairs to the extent of \$100,000, and the additional repairs to be made by the board on its own responsibility will be paid out of the fund.

Big New Mills. Among the largest of those buildings under construction at the present time is the new Hunt Mills, which are now about half-completed, and which will have the roof on in the near future. This will, when finished, have cost about \$200,000. Repairs and new construction necessitated by the recent fire at the London Hospital for the Insane will entail an expenditure of about \$20,000. This work is also under way at the present time. Repairs and remodeling work at the Western Fair buildings, which are required to put them in shape after their use as camp buildings, the military authorities, will cost \$10,000, and painting, decorating and other work to be done by the Western Fair board before the buildings will be ready for their full will likely cost about \$2,000 in addition.

The militia department will provide for the repairs to the extent of \$100,000, and the additional repairs to be made by the board on its own responsibility will be paid out of the fund.

Another building now under construction is the new garage on Dundas street, west of the city hall, which, when completed, will be occupied by Dursi & Sons, who are now occupying the building which was formerly occupied by the military authorities, will cost \$10,000, and painting, decorating and other work to be done by the Western Fair board before the buildings will be ready for their full will likely cost about \$2,000 in addition.

that is about to dawn in the East End, and the better one becomes acquainted with the facts, and the more one realizes the huge dimensions of the growth that is foreshadowed, the more enthusiastic one becomes over the prospects for the future. To say that the outlook is bright is to say the least. The outlook is bright, and indeed, the imagination is seriously taxed in attempting to picture, even in a hazy way, the East London of the future.

Business in East London is exceptionally good. This is the combined result of a number of the most influential business factors of the east side, which, when asked by The Advertiser as to the outlook for the future, are emphatic in the assertions that there is a continuous brisk demand for goods in the east side, and that while the summer has proved excellent, the outlook for the fall is if anything better. Many of these spokesmen state that this year was a record, and the air of optimism is strong in the east-end business circles.

The outlook for the coming months looks exceedingly bright. Many of the retailers are making extensive preparations for the fall, and are much encouraged by the fact that the volume of business will be increased.

Plan Extensions. With many of the factories in the east end making or arranging to make large extensions to their plants, many new families are coming into the city, and the demand for housing is increasing. Many new residences have been built, and a great deal of this fact there is hardly a house to rent in the whole of the east side. This remarkable expansion year for the east side, as far as the merchants are concerned, and that is the way of increased business.

Nearly every retail businessman in the east end is looking forward to a good business during the coming season, and in most cases the east side merchants are laying in large stocks of merchandise to cope with the increased demand which they feel is about to prevail.

Eight hundred volumes have been added this year to the east branch of the public library, and by the end of the year the collection of books there will number 4,000. The increase in the size of the library has been amply justified by the patronage that has been given by the East London people. Last year's circulation of 40,000 volumes at the branch alone was the equal of work being done in the smaller libraries of the city, and this year bids fair to go yet higher. The public library board has made very marked improvements to the branch this year, and the grant by the city council of additional accommodation, enabling the board to provide a separate reading room for adults and also making the place more roomy and convenient.

Businessmen in the east end are of one opinion in declaring that the local water-bids fair to be repeated at the year's end, and that the value of the city is a great value to that part of the city. A corner that was formerly an eye-sore to the whole district has become a real part of the life of the community. Naturally, in a collection of 4,000 all such recommendations will be given careful consideration.

A hard cough

that tears you every time it comes, yet persists in coming, usually disappears under the healing power of Robert's Syrup of Cod Liver Oil and Tar. The powerful effect of the oil having been removed, the extractive principles remain to build up wasted strength. Combined with tar this makes a wonderfully powerful corrective for the irritation set up by Coughs, Colds or Bronchitis. Use—

VOICE OF THE PEOPLE

LONDON'S DANGER PLACES.

To the Editor of The Advertiser:

It seems useless for the ordinary citizen to make suggestions that would protect dangerous places, or help minimize such dangers as are presented for the unwary public on every hand in and around London. Some three or four years ago I wrote the Humane Society of this city, while Rev. Mr. Heakes was secretary, and suggested that lifeboats with lines attached, also long poles with a triple hook at the end, or some such convenient means of help for drowning persons, be hung at all bridges and other places, so help could be rendered at once in case of need. I received reply that my suggestions would be placed before the society, and there it seems to have died, while since many have been drowned who might have had a chance if appliances had been at hand, instead of at the fire hall. The above idea is what has been practiced in England as long as I can remember, more than

30 years. The only lifeboat at the pump-house was thrown to the late Mr. For, but did not reach him. Not a rope could be procured, hose pipe being substituted, which proved useless. Appliances may or may not be of any use if handy, but their entire absence is certainly an invitation to continued fatalities. Everyone cannot swim, and if they could, many things may hinder them from jumping in to rescue drowning persons, such as weak heart, or a weak state of health, or lack of knowledge how to handle a drowning person. Many a good swimmer has been lost in trying to rescue another. Mrs. Thomson's letter and appeal in The Advertiser on Tuesday should not be allowed to fall on deaf ears. Yours, etc., R. S.

PENTECOSTAL REVIVAL.

To the Editor of The Advertiser:

I will esteem it a great favor if you will grant me space in your valuable paper to write a few words of defence for the Pentecostal movement.

The Prophet Isaiah says in the first chapter, "Who hath believed our report and to whom is the arm of the Lord revealed? I can give your request a good report of the above move-

ment for the last five and a half years and if they will believe the report that I give them they will find themselves asking the same question as they did at Pentecost when the holy ghost fell upon the hundred and twenty. "What search this?" Being the son of an old-time Methodist minister I have from boyhood seen Christianity from a very real standpoint. My parents lived out in the home that they preached, and consequently I was drawn to the Lord Jesus Christ when but a boy. As years went by I began to see that our orthodox churches had not the same power as the apostles had when the church was first formed. There seemed to be nothing, but deadness all around, and church congregations were dwindling down as the ministers had gone to depart from the simplicity of the gospel. At the annual Methodist conference the great topic under discussion was how to hold the congregations and attract the young people. Very seldom was it, how can we get souls saved and born into the kingdom? I first came in touch with Pentecost at All Saints Church, Sunderland, filled with the spirit of God, and proselytized as in Acts 2, men and women joined with the spirit of God and proselytized under the anointing, speaking in other languages and sick and diseased healed. I have been privileged to see many cases of real miracles. If you want to see the genuineness of the movement visit the homes of Pentecostal people in your city and they will gladly witness to all that God has done for them. These things that you see and hear are spiritual not spiritualism, which is the Devil's counterfeit for the real power of God. The Apostle Paul says in I Corinthians 14, "But the natural man receiveth not the things of the spirit of God; for they are foolishness unto him, neither can he know them, because they are spiritually discerned." We have people from almost every denomination assisting both Pentecostal assemblies in London since my arrival here four months ago, and then found them to be a real God-fearing, spirit-filled people. Those who are fighting us are doing it in ignorance, and sooner or later they will discover that they are fighting against God. Rev. Edward Armstrong, who is coming to carry on the meetings, is a man who was a large part of the time in the States, and gave up a handsome stipend so that he might be free to preach a full salvation and was moved by faith for many years now, and proved God for spirit, soul and body. As people are set for the defence of the gospel in this day and generation of ours when there is much of the wisdom of man mixed up with modern Christianity, I esteem it a privilege to witness to these people and share with them the reproach that false reports have cast upon them. The Jewish nation to Paul upon his arrival in Rome, "But we desire to hear of thee what thou thinkest; for as concerning this sect we know that everywhere it is spoken against, and when they had appointed him a day there came many to him, to whom he expounded and testified the kingdom of God, both out of the law of Moses, and out of the prophets, from morning till evening. And some believed the things that he spoke, and some believed not. So, dear sir, I am persuaded of this way that it is according to truth, and Jesus said, "These signs shall follow them that believe. In my name shall they cast out devils; they shall take up serpents; and they shall drink any deadly thing; it shall not hurt them; they shall lay hands on the sick and they shall recover." I am yours sincerely, E. BRAMWELL REED, London, Aug. 23, 1917.

AN ENGLISHMAN'S PROTEST.

To the Editor of The Advertiser:

You question in your editorial comments, "We wonder what our friend Mary Jane thinks of the people who made a frolic out of a local funeral." Should not the question have been, "What do our Chinese friends think of the Mary Jane Dick and Harrys who took part in the frolic?" When we first landed on your shores some years ago, Mr. Editor, one of the first things that impressed us was the polite, urbanity and courtesy of the Chinese as opposed to the rudeness and discourtesy of the average Canadian. We have dined in their restaurants, and witnessed at intervals their never-failing self-restraint under most trying circumstances. Students from our universities particularly have acted towards them in most objectionable manner at various times before the war, and committed acts and created disturbances which they would not dare do in a Britisher's restaurant! We were thankful to read your protest against the behavior displayed by the morbidly curious at the funeral, which must have distressed our Chinese citizens with our barbarism!

We pride ourselves upon our civilization, and what has it produced? Vulgar curiosity, impudence and irreverence! "Why oh why is Confucianism forsaken?" That is the question that is troubling our mind. Personally, we appreciate his teaching, but there is still hope for us, Mr. Editor, for does not Confucius teach us that "his grace does not lie in falling, but in not rising again?" Tapping mouths, curious eyes and irreverence are not signs of sympathy or comradeship. The greatest tribute we ever had paid us in this country was in a Chinese restaurant. A friend with whom we were dining said to the waiter who was serving us and who had the privilege of helping to eat the former grasp of the English language, "You would do anything for this lady?" "Yes," he replied, "like a white man's mother."

We were thankful that, in spite of racial differences and the disabilities we labored under in expressing ourselves, of being mutually understood, that a boy had recognized, and felt, that behind all the faulty phenomena occasioned by speech and acts, lay appreciation of the desire to help. If we imitate some of the plodding patience which characterizes their life amongst us it will be a good thing for the community. If the tragedy that has saddened their communal life tends in some measure to relieve the isolation that our national ignorance and prejudice subjects them to, then their friend's death may not have been in vain.

Personally, we have to thank them for many services pleasantly and cheerfully rendered with a quiet charm of manner which is the product of their ancient civilization and a tribute to Confucianism. We who live in the spirit beyond the narrow confines of national prejudice are indeed wondering "what they think of us."

Let us hope that the curious who trooped through the house of the departed at least learnt something of the beautiful art that influences the life of the Chinese and realized the mediocrity of the average Canadian home. They have much to teach us—let us be receptive and learn. It would not hurt us to sit at the feet of wisdom for a change. "ENGLISHMAN," August 23, 1917, London, Ont.

HARVEST HELP EXCURSIONS, \$12.00 TO WINNIPEG.

The Grand Trunk Railway System will sell Harvest Help Excursion tickets to Winnipeg on following dates: August 21 and 22, from all stations Toronto and east to Lyn, Ont., and north to Huntsville, Meaford, etc. August 23 and 24, from all stations Toronto and west and south. Al Jolson heads the great popular list, singing "Tillie Tiwillow," his laughing-success from "Robinson Crusoe, Jr.," and a timely sensation is furnished by the newest comedian in the Columbia ranks—Billy B. Van, comic star of "Have a Heart," singing "Napoleon," cleverest topical hit of the show. Altogether, there are thirty popular hits listed, of a brilliance and snap scarcely ever equalled.

Fourteen great dances, including eight novelties; exquisite song-gems by Charles Harrison and Oscar Seagle; hymns by Rodchever; chime solos, marches, trios and instrumental novelties on drum-and-piano, accordion-banjo, accordion, xylophone and orchestra bells wind up a list that is bound to have a popularity unprecedented. Better see your dealer today, if you want to enjoy a feast of entertainment such as you rarely get.

The New Drink, Buttermilk

ONE OR TWO GLASSES EVERY DAY.

Is a Health-BUILDER

Mr. Bank Teller says: "For some time now, in fact ever since the beginning of summer, I have been going into the Ontario Creameries almost every day for a couple of glasses of Freshly-Churned Buttermilk, and I must say it's 'great stuff.' It touches the thirst spot, tones up my stomach and is putting me through the summer, feeling just fine all the time. 'Buttermilk for mine.' He is only one of many patrons of our buttermilk counter who could say the same thing. We churn several times during the day; the buttermilk served is always fresh direct from the churn, and it is very refreshing as well as healthful, pleasant to drink, as well as nutritious. Two large glasses for 5c. One glass, with cream cheese sandwich, for 5c Saturday only.

HOUSEKEEPING IS A BUSINESS. ECONOMICAL COOKING IS A SCIENCE.

Our Consumers' League

BY ISOBEL C. ARMSTRONG.

After a long absence, "The Ordinary Person" is paying us another welcome visit this week, bringing along with her practical ideas and suggestions which she always seems to have packed up in her kit bag, and in addition to these, a little sheaf of war-time thrift recipes. The editor of this department can vouch for the entire reliability of at least one of the recipes. When she arrived at her office the other day she found awaiting her a sizeable box which rattled. Just as every daughter of Eve has done since pastboard boxes, paper and string were invented, she tried to guess the contents before taking off the lid. Evidently she doesn't possess a particle of psychic gift. Her eyes literally popped with amazement when she discovered half a dozen tempting-looking oatmeal cookies. They were as good as they appeared, crisp, toothsome, just the right flavor, and literally melted in the mouth. The letter which accompanied them, and which is given herewith, will explain why the editor says those cookies were evidently not baked for Christmas:

Dear Miss Armstrong,—You've probably heard of the little Scotch boy who, when his American cousin asked for sugar as well as milk with his porridge, turned to his mother and said, "Ma, the widdle thins it's Christmas." I feel that we have come to the stage where we realize that we can be well fed without every day being Christmas. So I'm sending along a few of the recipes that have produced many "bravos" and "bonnie lassies." I'm disappointed that the win-the-war women are not tackling the high cost of living, but surely there are enough women in London, outside of those executives, to form a housewives' league, whose whole object would be to bring together producer and consumer (in that story of the Red Mullet there was no mention of the middle-man.) I shall sign the pledge under protest, knowing well that a workman's wage does not allow of many luxuries or wasting of food. There is waste in our midst that is too proud to make itself heard, but will soon be quite visible in the pinched faces and lack of vigor of our growing children. Want of milk and fat, and still the ice cream parlors are crowded and I'm told Canadian condensed milk makes its way across the border. We have the "Finest school on the American continent," and proud of it, but it would be cause for greater pride if we could say our children were the sturdiest and best-nourished in Canada. London, with its cottage homes, its lawns and pure water, is an ideal city to raise a family, but the only way to build up human bodies is through the food they eat, and children who are fed on substitutes will not thrive for a time at least. The children are very conservative in their likes and dislikes.

Quoting from the letter of a London (Eng.) teacher to the mothers assuring them of the safety of the children during the air raids: "Your children are nearly as precious to us as to you. . . . They won't even know what is going on if WE CAN HELP IT." Let us mothers make this our motto in the matter of food.

"THE DEIL TAK' THE HINDERMOST."

"This conservation campaign reminds me forcibly of the time when as children we ran through the turnstile gate shouting to our lagging companions, 'The deil tak' the hindermost.' We have given our boys and girls to help garner the harvest and fruits. The old war-time distribution gave an equal share to 'those who stayed with the stuff' as to those who went out to battle. Some of us perforce must stay with the stuff, and we to buy the spoil at something near its first cost. Who will bridge the gap between producer and consumer? Black currants on the farm at 10c a quart, and in the stores same day at \$2.10 for 11-quart basket. Who got the dollar?

A hint to the gardeners: Now's the time to set our raspberry and strawberry plants. If the canes are planted near the fences and trained there they take up very little space. Are there not empty cellars at the military and convalescent hospitals, which if gathered to one central place, the London housewives would be glad to fill? With the price of sugar and fruit so high the price of the container is quite an item.

OAT CAKES.—Two cups finest oatmeal, half cup white flour, pinch salt, half teaspoonful baking soda, 1 tablespoonful dripping, fryings or shortening, 1 tablespoonful hot water poured over fat. Mix with the hand till a ball can be formed. Cut in three pieces; roll each out round, and cut in quarters; or roll all out in one sheet and cut with biscuit cutter. Make griddle (or frying pan or clean stove lid) hot; rub with slightly greased paper. Put on cakes, and brown slightly on both sides. Put on pie plates in warm oven to crisp. Eat with cheese.

Oatmeal scones very quickly; takes very little water to moisten it; sugar may be added if liked.

OATMEAL FOR EGGS.—When frying sausages or bacon, pour away some of the fat, add to pan a cupful of finest oatmeal. Stir continually, holding above gas flame. When brown and dry serve with meat in place of eggs.

BUTTERMILK SCONES.—One and a half cups white flour, 1 1/2 cups Graham flour, 1/2 teaspoonful salt, 1 teaspoonful sugar, 2 level teaspoonfuls baking soda. Sift all together. Rub in with fingers lard or dripping size of walnut. Mix with enough buttermilk to make a dough fit to handle (the softer the dough the lighter the scones). Roll out in three round pieces, cut in quarters and bake or griddle both sides, or make in one large round piece and bake in round layer cake tin in oven. Currants may be added.

BROWN LOAF.—One and a half cups white flour, 1 1/2 cups Graham flour, 1/2 teaspoonful salt, 1 teaspoonful sugar, 1 teaspoonful soda, 1 heaping teaspoonful baking powder, 2 cups buttermilk. Mix all well together. Put in well-greased loaf tin. Let rise for 10 minutes and bake in slow oven for 12 hours. Do not cut for 12 hours.

Buttermilk is 10c a gallon if carried home.

OATMEAL DUMPLING.—Three parts finest oatmeal, 1 part finely chopped suet, salt and pepper to taste—finely chopped onion, or mixed spice may be used if liked. Moisten slightly with water. Turn on to well-floured white cloth (cotton), and roll loosely. Plunge into boiling water or stock pot. Cook at least one hour.

THE ORDINARY PERSON.

"GOOD WORK," SAYS MEDICUS.

Again, Medicus to the rescue! How can a poor, mere writer person be expected to settle down with a thud to thinking up improving things to think and talk about immediately after a wonderful holiday, with mind still full of the panorama of waterways, islands, cities, mountains and northern light-swept skies? Medicus has arrived just at the psychological moment when copy is required for our Consumers' League Page, and this is what he has to say:

Dear Editor Consumers' League:

I've been thinking of writing to you a number of times since I made my last appearance in your page, to tell you how much I approve of some of the work you have been doing. This isn't to say there is anything the matter with any of it, but, as a medical man, I am especially interested in the child welfare end. You couldn't do anything more important than to keep hammering away on the subject of the conservation of child life. If you succeed in getting that child welfare nurse appointed and definite work inaugurated along this line in London, you will have good reason to feel that you have accomplished something most worthy through your department. It is bound to come sooner or later, but the longer it is delayed, the more lives will be lost and the more under-efficient citizens we are going to have from a health standpoint.

We need at least one welfare nurse in this city and three would be still better. The thing is to get a start and one thoroughly equipped nurse, suited for the position, would soon so successfully demonstrate the need of child welfare work that I don't think there would be much difficulty about passing estimates for assistants—provided we had a rational council.

Of all the folly, it seems to me the greatest to try to save money at the expense of human life and the health of the citizens. It is the most short-sighted policy imaginable, especially now, when the crying need is for physically fit men to do the fighting, and people as physically fit to carry on the work at home. Nobody realizes better than I do the importance of thrift and the conservation of all the food resources. I am heartily in sympathy with canning demonstrations and the establishment of canning centres such as I have been reading about in your paper, in order that every bit of the fruit and vegetable crop which can't be eaten may be canned or otherwise conserved.

But with all this agitation and education in London along the lines of conservation of the material things in order that the children of the front may be abundantly fed, let there be definite effort to conserve the lives of our future citizens and defenders, and lay the foundations for their robust manhood and womanhood.

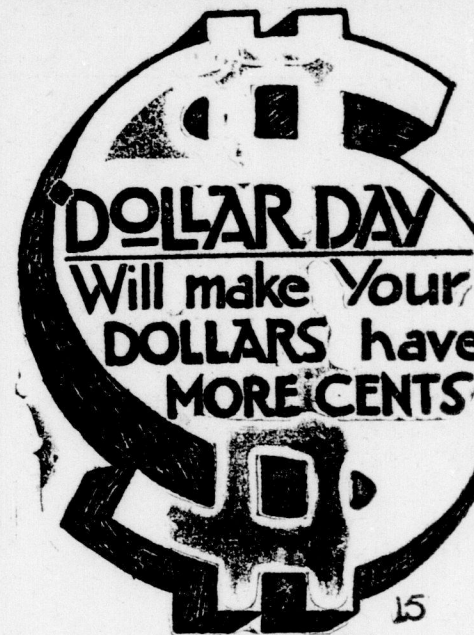

I don't like to know my own city, but it doesn't make me especially proud to see the way London is lagging behind other places in child welfare work. I noticed some time ago that you referred to the child welfare week in Hamilton. This is being followed up in an excellent manner. Recently I saw an article which drew attention to the reasons why Hamilton is a much safer place for a baby to be born in than a number of smaller places, for the reason that the death rate among infants has been appreciably reduced by the movement there along child welfare lines. To me, nothing was more interesting during the convention of the Canadian Medical Association held in Montreal than a visit to a park where babies can be brought in the morning, left in charge of nurses for the day, and where the little ones are examined by a doctor, and all the time under medical supervision.

I started out with the intentions of just writing a few words to tell you and your readers how entirely in sympathy I am with the efforts you are making through "the power of the pen" (as it is the typewriter) along infant welfare lines. Keep it up, and good luck to you. I'm coming again, soon, as soon, in fact, as I can collect some thoughts which may prove helpful to your Consumers' League circle, and put them in shape. With best wishes,

MEDICUS.

ATTACK BY "TORY" ON "SIFTON GOVT." IN HOUSE OF COMMONS

Lt.-Col. "Jack" Currie Wants Straight Party Fight.

BORDEN LOSING FRIENDS

Two Months' Fiddling With "Forming a Government."

[Special to The Advertiser.]
OTTAWA, Aug. 23.—There is a substantial wing of the Conservative party that does not favor the formation of a "sifton government." It wants the coming election to be a contest between the Conservatives and the Liberal party, with independent candidates of all varieties taking their chances as in the past.

This feeling has been smoldering for some time. It found voice in the House of Commons tonight, and for the first time there was an open declaration by Sir Robert Borden that his new cabinet-making activities are not approved by some of his followers.

Practically Rebellion.
Lieut.-Col. "Jack" Currie, a Conservative and a soldier, who was at the head of a Canadian regiment in the famous fight at St. Julien, expressed sentiments that amounted practically to rebellion against the leadership of Sir Robert Borden. His words were no more significant than the fact that they were received with approving applause by a considerable number of Conservative members.

"We don't want any so-called union, national or fusion government. I'm a Tory, and the fellows over there are Liberals. We understand each other and we had better fight it out on these lines," said Col. John A. Currie. "We don't want a government of 'hear, hear' and 'that's right' and 'go to it.' Col. Currie opposed the placing of the soldiers' ballots of the words 'Government' and 'Opposition' in place of the names of candidates. He proposed that the names of the parties, 'Conservative' and 'Liberal,' be substituted.

Takes Jibe at Sifton.
"The way things are going these days," said Col. Currie, "we don't know if the Government for whom the soldiers would be asked to vote will be a government that anybody in this House would support. We get up every morning to see that a government has been formed or is being formed. One gentleman has been busy at the job of forming a government for us for the past two months and all the time the House is kept waiting; the country is kept waiting and the boys at the front are kept waiting."

"One gentleman," continued Col. Currie, "has been giving the making of governments in this country, like attention and he has been busy at it for two months. This House has been sitting by waiting for this government to come through and I do not think there is a single soldier in the trenches who will feel inclined to vote for any government that this gentleman would

Millions of Babies enjoy Mennen's

bring forth. (Cries of "that's right," "go to it").

Squeezes French Government.

"I refer to Sir Clifford Sifton," proceeded Col. Currie. "Sir Clifford Sifton, as we all know has figured in the courts during the last year. It was shown that he was the recipient of about a million francs, which, as a middleman he squeezed out of the French Government, and out of the French people, for whom we are sending our soldiers to fight. In the interest of the people of this country, let us have on the ballots the names of the parties so that the soldiers will know what they are voting for."

"As to what my honorable friend has said," began W. E. Knowles (Liberal) in reply. "I am not sure that the government being formed, or to be formed by Sir Clifford Sifton, and if there was any injustice to be done to any person because of that, if our boys at the front would resent it, I suppose another notice could be published in the Gazette giving the names of all the candidates under his (Sir Clifford Sifton's) wing, and I hope, possibly, a list of those not under his wing, for I think the latter list would be the one that would be favored more by the soldiers."

"In justice to Sir Clifford Sifton," proceeded Mr. Knowles, "it should be said that the sum of money he made out of the French Government was made in a horse transaction, and it was a well known policy that the finer rules and principles as in the case of the county of Kines, N. S., do not prevail with regard to horse trading. With regard to the money Sir Clifford Sifton made, we must remember that fact and judge him as we would judge any other man desiring to make money as a horse trader. (Laughter and cheers.)

A Poser for Chertsey.

Previous to Col. Currie's speech there was an exchange when Hon. C. J. Chertsey submitted the clause providing that votes polled for "Government" and "Opposition" respectively, should be given to candidates in the various ridings who had been recognized and approved by the prime minister or the leader of the Opposition.

"But suppose the prime minister and the leader of the Opposition both claimed the same man," queried Mr. J. H. Sinclair, Guylford.

"If we do both claim him, all the happier for the candidates," replied Sir Robert Borden.

Mr. Knowles said that under present conditions it appeared impossible for either leader to command a united party. There were "straight Oppositionists, Liberals and Conservatism."

As opposed to the record and the conduct of the Government. In a number of constituencies Mr. Knowles was satisfied that the fight would be between a straight Oppositionist and a Conservative Liberal, in which cases he desired to know to who the vote would go.

Tell Candidates Names.

Hon. Judge Chertsey said an effort would be made in all cases to communicate the names of candidates to the soldier-electors, while Premier Borden remarked that question of votes would be given to no candidate unless he was recognized by the leader of the Opposition, while Government votes would be given to no candidate unless he was recognized by the leader of the Government.

The Amendments Approved.

The three chief amendments to the result of the conference today, and moved in the House tonight by the minister of justice provide:

(1) That in the case of a soldier who is a non-resident of the Dominion, but a Canadian by birth, he shall vote in the constituency in which he lived when last in Canada.

(2) That the bags in which the votes are polled in France shall be locked in England and not unlocked until they are returned to have the vote counted, the ballots to be placed in the bags through a slit.

(3) That scrutineers representing both parties shall be in attendance whenever a vote is taken in France. Several minor amendments were adopted.

30 TO 40 BUSHEL'S YIELD IS PROMISED IN SASK.

Southern Part of Province Visited by Needed Rain.

REGINA, Aug. 23.—Several Saskatchewan districts in the southern portion of the province which have been badly in need of rain have obtained relief during the past few days. Prospects generally have improved, and in one case, at Carleton place, fields are reported as likely to yield from 30 to 40 bushels to the acre. Some hail damage is reported. Cutting is general and harvest labor is scarce.

AUGUST 25

WILL KEEP PRESSURE UP.
KINCARDINE, Aug. 23.—At the meeting of the electric light and water commission the question of proper pressure for fire protection came up. James Malcolm of the Andrew Malcolm Co., addressed the commission, pointing out that unless the pressure was raised to 40 pounds in the standpipe, it would affect the town's insurance rates. The commission have decided to see that the pressure is kept up to the required point. The town council also asked it to have this done.

REOPENING BATHING HOUSE.
KINCARDINE, Aug. 23.—Frank Cuyler has purchased the bath and bathing houses on the beach from Mr. Mason of London. They have been closed this season, but Mr. Cuyler will open them at once.

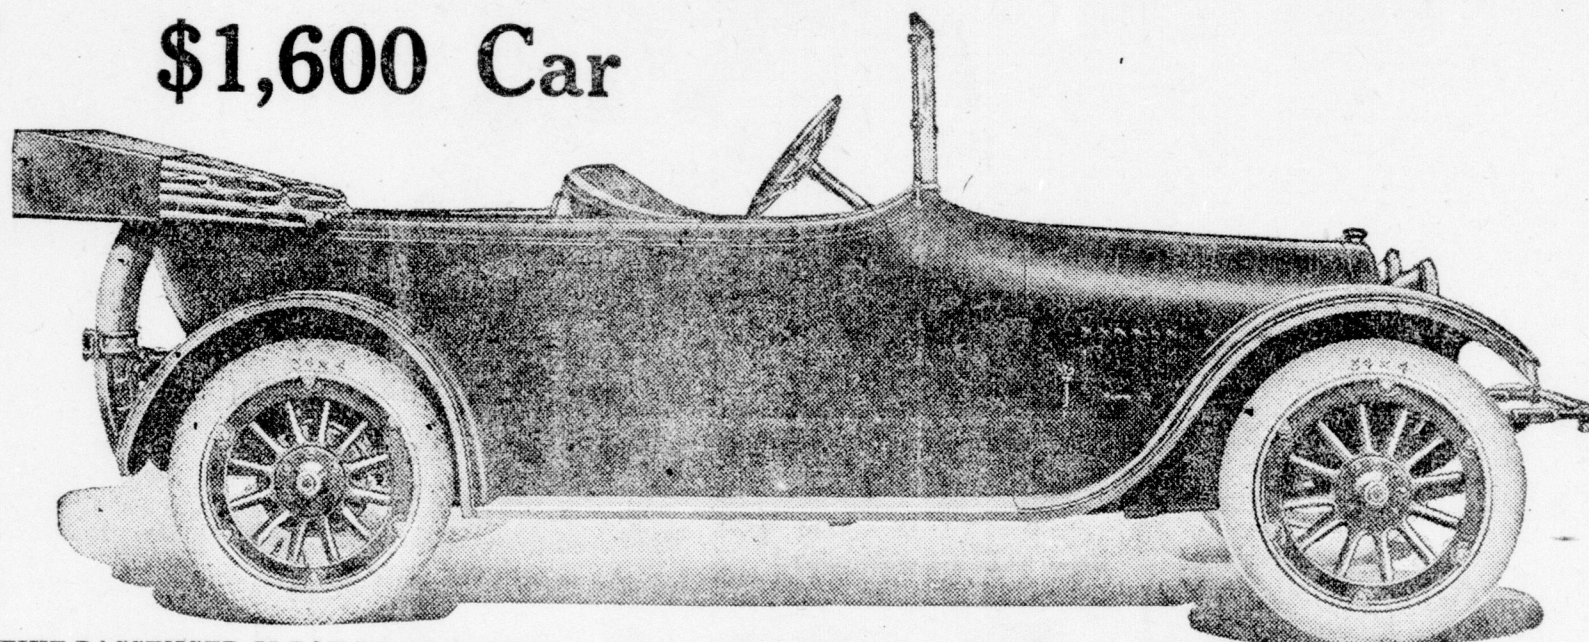

\$14,000 FOR BRIDGES.
KINCARDINE, Aug. 23.—The township council of Kincardine will be put to an expense of about \$14,000 this year for new bridges and culverts, to replace those washed out. It means an assessment of about \$12 extra on every 100-acre farm. The council will put it in this year's taxes.

WEDDING BELLS
YOUNG—HENRY.
KINCARDINE, Aug. 23.—The marriage of Miss Evelyn Henry, daughter of Mrs. Samuel Henry, to Dr. D. R. Young, of Port Francis, was solemnized here at the home of her brother, E. A. Henry. Rev. F. Ballantyne, London, a cousin of the bride, performed the ceremony.

BLACK WALNUT BEDROOM SET, VALUE \$150 EACH.

JURORS' VERDICT FIXES DEATH ON SARNIA PRISONER

Coroner's Jury Findings Say
Zanzow Slew Smith.

SARNIA, Aug. 23.—The jury which investigated the killing of Frank Smith, after being out for more than an hour tonight, brought in a verdict "that Frank Smith came to his death at the hands of Alex. Zanzow on the night of August 16, from a knife-thrust over the heart."

Tonight's session of the jury, under Coroner Dr. Wm. Logie, was the second, the first having been on Tuesday night, when an adjournment was taken to hear further witnesses, Zanzow, accused by the verdict, refused to testify at the first hearing.

George Chenick, of Shamrock street, the first witness, stated that he had

known Smith for a year. He saw him on the night of the murder after he had fallen. He also saw Waseel Spreas. He saw Mike Zubick chase Zanzow, and Zanzow threatened Zubick with something that looked like a knife. Witness helped to bring Spreas back to the police. He saw the mysterious "Louie," who has never been captured, at 8 o'clock on Christina street. He described him as a man 5 feet 5 inches in height, clean-shaven, grey eyes, and said he wore a grey suit. He said he lived at Point Edward, but witness did not know his last name.

Eyewitness of Fight.

Joseph Waltham, who lives at Chipewa and Vidal streets, just across from the scene of the murder, saw the men go into the bush at 6:45, and later saw them fighting in the field. He saw a man in a green hat and another man with a mustache, fighting with Smith. He saw Zanzow hit Smith. He saw five in the party, and after Smith was struck they ran away. He identified photos of the scene of the murder. He thought Spreas was captured about an hour after the fight. Witness had known Smith for years and he always had borne a good reputation.

Arthur Laroc, who lives at the same place, saw Zanzow hit Smith. He saw Zanzow hit Smith, and he saw Smith fall, and was with him when he died.

FORD PARISHIONERS SAY BISHOP HOLDS \$7,000 FROM PARISH

Claim Judgment Against Him
Given by Rome.

WINDSOR, Aug. 23.—Alleging that Bishop M. F. Fallon, head of the London Diocese, is withholding \$7,000 from the parish, the parishioners of Our Lady of the Lake Church, Ford, have placed a guard at the church doors to prevent a priest of the bishop's choice from taking charge.

According to one of the church laymen, Father Lucien Beaudoin, late pastor of the church, obtained judgment against Bishop Fallon for \$7,000, a court in Rome ordering that the diocese head pay that amount to the parish.

Facing interdiction of the parish,

which means that no church services, marriages or baptisms would be allowed in the edifice, a majority of the congregation, in a resolution passed on Wednesday night, declared that unless Bishop Fallon appointed a priest in sympathy with bilingualism, the doors of the church and presbytery would not be opened.

Father Laurendeau, who was prevented from entering the presbytery yesterday, although he displayed official papers from Bishop Fallon naming him priest of Ford parish, was formerly secretary of a court presided over by Bishop Fallon, who suspended the late Father Beaudoin and other priests for insubordination, laymen of the border church stated today. This is one of the reasons they object to Father Laurendeau's appointment.

While a majority of the congregation is backing the fight against the bishop, some expressed regret today at the action of a few who drove Father Laurendeau and other priests from the church on Wednesday, preventing them from eating a dinner provided by the women of the parish.

Father Laurendeau, who is an opponent of bilingualism, is claimed by the majority of the Canadians in charge of St. Martin's Church, South London, before being appointed to Our Lady of the Lake Parish. He was born in Kent County, near Chatham, and was educated at St. Therese College, Quebec.

WATSON WINS TROPHY IN SARNIA GOLF

SARNIA, Aug. 23.—One shot up on the match, W. A. Watson carried off the Holley La Gro-Holley trophy in competition with F. Hobbitzel at the local golf links yesterday. Today's trophy, presented by Messrs. Holley-La Gro and Holley of Detroit, who spend their vacations at Waukegan, will be competed for annually, and will be added every year. Messrs. Watson and Hobbitzel were the only two entrants left when the competition simmered down to the finals, and their play-off was marked by a close score, which has featured the event from start to finish. On the first round the score stood, Watson, 43; Hobbitzel, 41, and in the second round, Watson 41, Hobbitzel 40.

WILLIAMS LOSES TO N. W. NILES OF BOSTON

Steady Rain Drizzles Down On Spectators and Players at Forest Hills.

FOREST HILLS, N. Y., Aug. 23.—Playing in a steady rain which varied from a drizzle to a downpour, N. W. Niles of Boston defeated R. Norris Williams II., also of Boston, three sets to one in the only match staged in the national patriotic singles tournament at the West Side Club here today. Niles won the first, third and fourth sets, while Williams secured the second, the scores being: 6-2, 4-6, 6-4, 6-3.

The holder of the national championship does not lose his title as the result of today's defeat, however, since the tournament is without titular value, being played for the benefit of the Lavin Tennis Association ambulance fund.

No attempt was made to play the other half of the semi-finals, which would have brought together R. Lindley Murray of Niagara Falls, N. Y., and John R. Strachan, of San Francisco. These two survivors of the lower half of the draw will meet tomorrow, weather permitting, and the winner will play Niles in the final round on Saturday.

ARKONA BASEBALL.

ARKONA, Aug. 23.—On Labor Day two games of ball will be played, starting at 2 p.m., between the original Arkona Giants and a London all-star team. Many citizens are desirous of seeing the old Giants in action again, and all the members that have not enlisted have agreed to come to Arkona Labor Day, as they are all living in Ontario. Following is the line-up: "Babe" Smith, "Nig" Jeffries, Sam Smith, "Smookey Joe" Allen, H. Smith, Bell, Gibson, Towle, Eastman, Evans, Quinn. The London team will represent a strong line-up, and interesting games are assured. In the evening a grand concert will be held. A girls' pipe band, the only attraction of its kind in Canada, and Sam Munroe, boy comedian, and Oliver Sinclair, eminent Canadian tenor, will furnish the program. A record crowd is expected.

CLOSE RACING IS FEATURE AT OWOSSO

OWOSSO, Mich., Aug. 23.—Despite the fact that each event on today's card in the township racing at the county fair were won in straight heats, both events were featured by thrilling finishes that repeatedly brought the crowd to its feet. Not a heat out of the six was won by over a foot or two, and most of them were copied by a nose.

Anna Mack grabbed the 2:18 pace from a field of twelve starters. Nellie Chimes, b.m. (Baldwin), led to the half in the first heat, but Anna Mack nosed her out by a great spurt on the stretch. Anna Mack was always in the lead in the following two heats, but Nellie Chimes fought her to the end, the two pacing almost neck and neck.

Billy Lake was winner in the 2:25 trot. Groceries, b.m. (Shankett), was fair to medium b.h. (Evans) was dis. Sunny Jim, g.m. (Baldwin) was dis. John B. b.h. (McKinney) was dis. Time—2:15 1/2, 2:13 1/2, 2:13 1/2.

CITY OF LONDON TAXES

Payable by Aug. 31, 1917.

Taxpayers are hereby notified that the

second installment of taxes for the

year 1917 is due, and payable on or

before Aug. 31, 1917, and must be paid

by that time to be entitled to the

discount.

The tax collector will be in his office

for receipt of taxes during office hours

and on Aug. 28, 29, 30 and 31, and the

office open from 9 a.m. to 5 p.m. and

from 8 p.m. to 9.30 p.m.

To avoid the rush do not put off

payment to the last day.

JAMES S. BELL, City Treasurer.

Aug. 23, 24, 25, 27, 28, 29, 30, 31.

NOTICE TO CREDITORS

In the estate of Emma Sercombe,

late of the City of London, in the

County of Middlesex, widow.

Notice is hereby given that all persons

having claims or demands against the

estate of the late Emma Sercombe, who

died on or about the tenth day of

July, A. D. 1917, at the City of London,

are required to send by post, prepaid,

to William John Sercombe, executor of the

last will and testament of the said

deceased, or to the undersigned solicitors

for executors, their names and full

addresses and full particulars in writing

of their claims.

And takes notice that after the 25th

day of August, 1917, the said executors

will proceed to distribute the assets of

the said deceased among the persons

entitled thereto, having regard only to the

claims of which they then shall

have received notice, and that the said

executors will not be liable for the

estate or any part thereof to any person

of whom claim they shall not then

have received notice.

Dated at London this 9th day of

August, 1917.

Quality Goods at Right Prices.

Financial, Market and Commercial Section

THE LOCAL MARKET

Live hogs resumed their irascible advance toward the expected \$19 mark today, when every porker offered on the market brought \$18 per cwt. This unprecedented price is an advance of 75c over yesterday's quotations, and an increase in hog values over those of two weeks ago of \$2.15 is confidently anticipated that the \$19 mark will be reached before the end of the month, and at the rate of the advances of the last week, the next few days will see values well over the present prices of Toronto and Detroit.

An advance in live hogs necessarily entails a jump in dressed porkers, and the latter meat sold today at the increased price of \$22.45.

Vegetables remained unchanged, a few being particularly scarce. Tomatoes are not being offered in the plenty they generally make the offering of this vegetable of the year. It appears that tomatoes are not ripening at the rate that was expected of them and each day marks a lessening in the quantity offered.

Corn will likely be easier tomorrow, as it is expected that a big offering will be on the market. Corn prices range at present from 12c to 12 1/2c per bushel, but will undoubtedly come down to a minimum value, around the 10c mark before long.

Farmers in the district are busy, and are contentedly offering a few more of their products. It was estimated by prospective buyers that the morning's offering of butter, eggs and other products would be disposed of this morning, because of the particularly good demand. However, only five loads came in, and the big range in hay prices was lessened to 8 1/2c the highest price for a load being \$9.50.

Flourations in dairy produce caused considerable confusion yesterday, as the butter and eggs sold at lower prices than those of the previous market day, but resumed their normal behavior today, when it was seen that dairy produce was becoming a rare commodity, because of the better demand for the slightly-lower offering.

GRAIN.

Chicago, Aug. 23.—Wheat today kept to its recent dull routine, with occasional transactions of an evening up character. The opening was steady, the September price being \$2.10. Later trades were at a decline of 2c.

TORONTO.

Toronto, Aug. 23.—Grain quotations are as follows: Wheat—Ontario, No. 2 winter, \$2.15 1/2c, outside, including to London, new crop, Manitoba, No. 1 northern, \$2.40, No. 2 northern, \$2.40. Oats—Canada western, No. 2, 70 1/2c. Barley—New, \$1.20 1/2c, outside for malting.

MONTREAL.

Montreal, Aug. 23.—There was a fair demand for grain today, and a moderate amount of business was done for both local and country account at steady prices. Sales of three cars of new crop wheat, outside, were made at \$2.30 per bushel, on track.

Corn—American, No. 2 yellow, \$1.55 1/2c.

Oats—Canadian western, No. 2, 74 1/2c.

Extra No. 1 feed, 75 1/2c.

Barley—Manitoba feed, \$1.26.

OVER 500 ATTENDED RAILWAY EMPLOYEES' PT. STANLEY OUTING

Tug-of-War and Baseball Game Features of Sports.

PORT STANLEY, Aug. 23.—The Brotherhood of Railway Trainmen and the Brotherhood of Firemen and Engine-men of the C. P. R. and Grand Trunk annual picnic here today was attended by 500 people. The committee, with Mr. Hall, chairman, and Mr. Kelly secretary, arranged one of the best outings ever held. The most popular place on the grounds was the refreshment booth, where oranges, drinks and ice cream were given away. Candies were supplied to the children. All events were keenly contested. The two leading events were a game of ball between the C. P. R. and the Grand Trunk. The Grand Trunk won by a score of 10 to 3. A tug-of-war between the C. P. R. and Grand Trunk was won by the C. P. R. The events were as follows: Children under 8—H. Daniels. Children 10 and under (boys)—C. Bradford. Girls under 10—Helen Buckle. Boys under 12—Norris, Bradford. Girls under 12—Green, Drake, Blair. Boys under 15—Blaney, Bradford. Girls under 15—Lutton, Kelleher, Blair. Girls' race—Bradford, Burns. Elongement race—Mr. Proctor, Mrs.
