[Special to The Advertiser.] Port Burwell, Dec. 14.—The C. P. R. coal boat, Ashtabula, aground outside the harbor here, is in very bad shape and

is flying signals of distress. During the night the wind shifted, and a 50-mile gale from the southwest is piling the seas mountain high.

The crew of thirty men are still on the vessel, but in spite of the distress signals not al boat can reach her. The men are on the upper deck, and are safe unless the big craft goes to pieces, when there would be little chance of saving them.

The Ashtabula is filling with water, which is pouring into Port Stanley Man Who Met Death on her hold in tons.

### WHERE THE ASHTABULA IS LYING

Port Burwell is on Lake Erie, about 25 miles east of Port Stanley. It is entered by one railway, the C. P. R. This railway was built some ears ago by Mr. John Teale, and ran only to Tillsonburg.

The C. P. R. later took charge of it, and extended it to Ingersoll. The Government has spent many thousands of dollars on the harbor, until today it is one of the finest on Lake Erie.

The Canadian Pacific entered into the coal business, and the Ashtabula, which ran for a very short time out of Port Stanley, was placed on the

For some years she has been one of the most trustworthy vessels of the lakes, and aside from a few minor accidents has never been in any serious distress. She is a sister-ship to the ill-fated Bessemer.

She is 350 feet long, and about the same dimensions as the lost steam-She is in charge of Capt. Higginson, who has sailed the lakes for many

years, and who has the reputation of being one of the most careful as well as one of the best equipped sailors on fresh water. Port Burwell has a population of about 400. The population is made up

largely of fishermen and the families. Some years ago it was a summer resort of some importance, but of late ears few people have gone to the port for a holiday.

The breakwater out of the harbor has produced a sandbar, and the pheomenal lowering of the water following a northeast blow, is the cause of the Ashtabula going on the sandbars.

The vessels is equipped with compartments for water ballasting, and is modern in many of its improvements.

The storm of last night and today is one of the worst experienced in years.

Erie. Pa., Dec. 14.—The Big Four Twentieth Century, No. 26, second section, en route from St. Louis to New York, was in a rear-end collision with passenger train No. 10 on the Lake Shore Railway at North East, Pa., sixteen miles from here last midnight. By a seeming miracle, but three Italians were killed, seven other persons seriously injured, and probably twenty-five more or less cut and bruised. According to the story brought here by persons aboard a relief cut and bruised. The men are in the upper deck and while not suffering greatly as yet from cold or exposure, they are greatly endangered.

So serious is their situation that the life-saving crew from Port Stanley was hurried to the scene and efforts are being made to land the crew.

35 Men Aboard.

There are 35 men aboard, in charge of Captain Haagenson one of the crown and a splintering of wood, and before any warning cry could be uttered, the rear coach of the train No. 10 had been splintered by the heavy engine hauling the Twentieth Century. North East being but a hamlet and at night cut off except by railway telegraph lines from the outside world, news of the wreck travelled slowly. After midnight a report reached here that two freight trains had run together head on, at North East, with no fatalities. By a roundabout way, the report was found to be erroneous.

### YOUNG LIBERAL CLUBS CHALLENGE

There will be a progressive euchre evening at Hyman Hall on Wednesday, the second of the series. Fine prizes will be offered for competition. All Liberals are expected, and all others are invited. There will be a meeting of the Liberal Club executive at the same time to reorganize the debating committee, and make arrangements for the mock parliament.

Other clubs are taking this matter up. Already there is a challenge from the Young Liberal Club of Hamilton for a joint debate, which will be dealt with at this meeting. A communication has been received from the Liberal clubs in Toronto, asking for the co-operation of the Liberal Club here in arranging a series of joint debates in Liberal clubs

throughout the province. This question will have to be dealt with by the meeting. Every member of the executive is expected to attend the meeting on Wednesday evening.

LONDON, TUESDAY, DEC. 14. CANADIANS AND THE BRITISH ELECTION.

Great Britain with those of this coun-

Canadians should be thankful that the Dominion Government refused to listen to the suggestion that it should formally demand a preference for Canadian products in the British the political crisis in Great Britain, ther says: The British tariff reformers would have been able to claim, with some plausibility, that they had the moral support of the Canadian Parliament and people. Canada would be a makeweight for the House of Lords in its intolerable pretensions, and would incur the reproach of the progressive elements in the mother country.

The issues raised in the British elections do not remotely touch party controversies in this country. Canadians are free to view the struggle from the standpoint of their individual opinions or prejudices. There is evidence that the great majority of them, Liberal and Conservative, are in sympathy with the programme of the present British Government, and hope that the power of the House of Lords will be curtailed, because the peers are the defenders of land monopoly and other the Canadian people in favor of the sincere and well-grounded. House of Lords, for no apparent reason except that the opposing parties in Great Britain are labelled Conservative and Liberal. The Montreal Star insults the intelligence of its readers by the suggestion that the tie between Canada and the mother country will be weakened by a victory for the British Government. The Toronto News does not go this extreme, but both the News and the Star are trying to present the case for the Unionist party in a more attractive 'ight than the facts warrant. They have invented a Unionist land policy. Says the

"The trend of Liberal policy has been towards the establishment of state in one of its manifestations; the party does not seem to favor a policy of setting the small holder up is an actual owner. the advanced Unionist wing, on the other hand, is to make the small holder the out-and-out proprietor of his bit of land; its view is that the existence of a million or two peasant is to be attained by simplification of legal procedure, by aid in financing the purchase of allotments, by developing agricultural co-operation, and by aid in local taxation."

The News has published several articles to the same effect. It is true that a few members of the Unionist party speak of the desirability of encouraging peasant proprietorship, but the party has put no programme of the kind before the people. On the contrary. Lord Lansdowne, the ruler of the House of Lords, has declared definitely comprises the majority of that chamagainst such a proposal. On Nov. 17 ber. As Mr. C. R. Sims, the Unionist

Under the Liberal small holdings act of 1907 no fewer than 56,972 acres had, down to Oct. 2 last, been acquired for secure

occupation by nearly 14,000 men. Ninety-five per cent of the applicants for small holdings want to lease the land, for the simple reason that they cannot afford to purchase it. The policy of the present Government is the only one that will give the landless men, the tenants and farm-hands without capital, a hope of acquiring land. The present act gives these small holders a security of tenure which enables them to look upon the land as their own. ### SIR CHARLES "CALLED."

The Chicago Record-Herald takes Sir Charles Tupper to task for asserting in his letter on the naval question that "all parties in the United States agree in their desire to obtain possession of Canada," and asks, "When and where has he observed manifestations of that agreement, of that alleged desire?" The Chicago paper does not suspect the present leaders of the Dominion parties of sharing in Sir Charles Tupper's apprehension, and is quite certain that no party in the you felt slippers? ## DEALING WITH CRIME

Warden of the Central Prison Speaks of Crime and Its Causes.

The few who attended the public meeting held in the school room of the First Presbyterian Church last night were treated to a most interesting address on dealing with delinquents, by Dr. Gilmour, warden of the Central Prison, Toronto.
"What we need today," he said, "is

ontrol Prison, and Millman & Co., legislation that will give us control condstock, to the epileptic hospital in over delinquents while they are out of prison. It is one of the saddest of prison. It is one of the saddest facts in our work that there are more commitments between the ages of 16 and 21 than any other. There are two great classes of delinquents, the habitual and the accidental. The habitual delinquent is the man who makes a business of crime and spends a large part of his time in prison. The accidental delinquent is of the type who has lived respectably and through some has lived respectably and through some stress of circumstances falls. In the last fourteen years 9,000 men have been in the Central Prison, and 60 per cent of them were under 30 years of age.

The Causes.

"Heredity and environment have much to do with their fall. In a new country like Canada environment plays a far stronger part than heredity. dealing with juvenile delinquents I am most uncompromising enemy of institutional methods. Where any possibility of home life being re-stored or of a foster home being obercer; by the Duncan estate to Co- tained, it is unquestionably better than placing boys with criminals. strongest hope of the worst lies in loving contact with the best. As a rule delinquents respond to the best. In the majority of cases the fall of a boy can be traced to his parents or his environment. When we love our children as we should love them we have the key of their deliverance. It is a simple thing to give a check or to put our hands in our pocket, but it has nothing like the far-reaching effect that a personal kindness to one who has fallen has. The very essence of dealing successfully with delinquents is a proper sense of how to sentence. What would you think of a physician is directed against no class of peo-le, against no economic or needed oc-le, against no economic or needed oc-upation. The rather strenuous slogan let him out whether he was cured or not? If a man deserves to be sent to prison he deserves to stay there until he is fit to come out.

One Argument.

"If it is his own conduct that puts the least, interfere with public accomnodation, except to make that accomnodation, except to make that accomnodation make that accommodation more accommodating, congenial and homelike. It does not seek to remove a public benefit, but it does remove that which seems to many a public nuisance and a potent menace boy who was in the Central. A very hearty vote of thanks, moverneed the control of the contr ed by Inspector Edwards, and seconded law, as it is the duty of the church, by Mr. J. H. Chapman, was conveyed to Dr. Gilmour by Rev. J. G. Inkster, who presided.

## Why Stanfield's Make Underwear

TP to 20 years ago, most everyone considered that all Underwear-no matter how well cut and made-would shrink and harden.

In those days, the makers were working on the wrong idea. They were trying to find a way to finish Underwear so that it would not shrink, instead of trying to find a way to get the shrink out the wool before the yarn went to the knitting machines.

The late C. E. Stanfield -who knew wool as only a man can know it who studies it from the sheep's back to the wearer's back -gave his attention to the problem for years. Living in Nova Scotia, he soon realized

that woolen underwear, and the best of pure woolen underwear, was the only kind that would and could protect the Canadian against the rigorous Canadian Winters. He found that as underwear was then made, he could not make woolen underwear that would not shrink, mat and harden. He devoted himself to this problem and after many years of experimenting, he finally discovered a method by which he could take the shrink out of the wool before the garments were knitted.

This method, improved and perfected, has made possible the immense business of Stanfields Limited, with a larger output of their special classes of Underwear than any other factory in Canada.

The Stanfields make underwear today because Canadian people find Stanfield's Underwear the most comfortable, the most durable, and the warmest for its weight. The Stanfields are making more underwear every year because the buying

public demands more of it. Popularity is a good test of quality. In 3 standard weights-Light (Red Label), Medium (Blue Label) and Heavy (Black Label) and 17 other weights and qualities to suit the

needs and requirements of every man and woman. The best dealers everywhere handle Stanfield's Underwear. Catalogue showing styles, and sample of fabric, sent free for your address.

There is in man the two natures, the outer and the inner, a spiritual man, and it is the latter that, according to the speaker, would remain a conscious entity after death. "Man may exist out of the body

lived before the body.
"The incidents of the thief on the cross, Moses and Elias on the Mount of Transfiguration, and the rich man and Lazarus, were used as illustrations that not only was there a spirit, but that the spirit was conscious. Bible says that the abode after death called a prison house, and we read that they are prisoners of hope, again showing a consciousness in the intermediary life. Death does not mean annihilation, but a separation-the body separated from the spirit."

The Other Side. Mr. R. W. Phillips, of Guelph, represented the Christadelphians. Mr. Phillips defined spirit under five heads: 1. The breath we breathe. 2. Where it enotes a being, as an angel. 3. The spirit emanating from a being. 4. As a conscious state of feeling. 5. As phantasma, a ghost, a nothing.

In rising to refute the arguments of Bishop Evans, Mr. Phillips stated with conviction that no quotation made by the preceding speaker could be made to signify an intermediary life, nor brought forward any argument that

### RENFREW SECURES LESTER PATRICK

Nelson, B. C., Man, Former Captain of Montreal Wanderers. Signs Up for Season.

MILLAR AT ANY PRICE

Are Instructions Issued and New Point Will Bring Another Crack East With Him,

Ottawa, Dec. 13.—It was announced this morning that the Renfrew hockey club had closed with Point Lester Patrick, of Nelson, B. C., former captain of the Mon-treal Wanderers, whom every team in the east with Stanley cup ambitions had been seeking. Renfrew have also signed with Frank Patrick, and the two leave Nelson on Wednesday night, reporting at Renfrew next Monday. Patrick has instructions to get Millar

from Edmonton at any price. Patrick will bring another star east with him, thus completing the Renfrew team. Renfrew is paying him \$2,000 for the season, making it \$5,000 for himself and

### SHAKEUP DUE IF WARD IS ELECTED PRESIDENT

President Herrmann recently recounted his fight with Murphy and its result to a Cincinnati friend and told him that he will quit the National League if Murphy lands Ward as the president. If a compromise candidate wins and is suitable to Herrmann and Dreyfuss, they will stay: if unsuitable, they will go.

The plan is to make the American League a ten-club circuit for the first year and then later to weed out Detroit and Washington, glving Detroit to the American Association and Washington to one of the Eastern or Southern Leagues. President Johnson of the American League knows the situation and has gone over it carefully with Herrmann and over it carefully with Herrmann and Dreyfuss several times. That Herrmann wanted to get Murphy out of organized baseball is also known here, though Herrmann naturally would say nothing whatever about the deal.

Tug Was Powerless. Word was sent to the Government tug Hercules at Port Stanley, but it would be suicidal to attempt to make Port Burwell in such a blow, and the cap-tain refused to leave the harbor. tain refused to leave the harbor.

The tug from Ashtabula also refused to make an attempt to rescue the men, as it would spell disaster for all parties

oncerned.
The case became so desperate that message was sent to Port Stanley to send the life-saving crew. Capt. Brown consented, and at 11 o'clock, they left consented, and at 11 o'clock, they left the Port for the scene of the wreck on special train.

The Pere Marquette brought the crew to St. Thomas, and the M. C. R. took charge of the train after that.

Train Was Rushed. Clearance orders were given the speand she was hustled with all possible speed to Port Burwell.

Hundreds of people lined the shore and watched the wreck. Every movement was followed closely, and as the monwas followed closely, and as the mon-ster ship listed, a gasp would involun-terily come from the watchers as they anticipated that she would list and turn turtle. Hour after hour the tremendous seas crashed through the ship, and every movement appeared to be her last.

### SEPARATE LAVATORIES FOR THE PUPILS

Inspector Edwards Thinks Children Should Be Taught To Wash Themselves.

At the public meeting in the First Presbyterian Church last night, Inspector Edwards, in moving a vote of thanks to Dr. Gilmour, of the Central Prison, for his address, stated that one of the things he loopes to establish in connection with the city schools is separate lavatories for the boys and girls where they can wash and be taught to keep themselves clean. Rev. J. G. Inkster also spoke favoring this idea, and said he hoped some-thing would be done, as among many of the children cleanliness was not generally observed. He thought it would be a great thing to teach them to keep themselves clean.
