CREMATED IN SLEEP

Ten People Met With Death in a
Theatre at Hurley, Wis.
consin.

Their Escape Cut off by Rapid Spread
of the Fire—The Town Was
in Danger.

THE DEAD.
C. W. Cleveland, Hurley, attorney;
Tim Ryan, Ironwood, actor; F. L. Gay,
store manager, St. Louis; Thos. Or-
sain; Thos. Le Clair, Hurley; Clara
Boone, actress; H. C. Clifford, actor;
Harry Raymond; Geo. Benoit, prize
fighter, advertised as champion of
Canada; D. B. Kenney, Ishpeming.

CRITICALLY INJURED.

Anna Scott, actress, arm and leg
broken, bruised; Jennie Bender, ac-
tress, head and shoulder crushed;
Laura Russell, actress, nose, foot
broken, head crushed, probably die;
Billy McLaughlin, waiter, Ashland,
badly injured, probably die; Hobbs,
name unknown, badly burned.

Ironwood, Mich., Nov. 6.—Fire broke
out in the Klondike theatre and
saloon at 8 o'clock this morning. Ten
lives perished in the flames and five
were critically injured. Three build-
ings were totally destroyed, and sev-
eral others damaged.

The Klondike theatre is a total loss,
which is put at \$8,000, with \$2,700 in-
surance, running to the Fred Miller
Brewing Co. of Milwaukee. The Mon-
arch, saloon, Mike Cummings, prop-
rietor, loses \$5,000; Phoenix saloon, Had-
dington & McPherson, proprietors,
\$4,000; Marble Hall, D. P. McNeil, prop-
rietor, damaged, \$1,000; Constantine
Emporium, damage, \$500. Several other
buildings were slightly damaged. A
death was probably the cause of the
fire.

It was a three-story frame building.
The Klondike was one of the most
notorious resorts of Hurley, engaging
twenty-five people. The fire spread
with amazing rapidity, overcoming
many before they had a chance to
escape. Many jumped from the second
and third story windows, receiving
serious or fatal injuries.

The injured were taken to the court
house and later to a hospital in Iron-
wood. Some of the first to discover
the fire barely escaped with their
lives. The whole building was a mass
of flames in ten minutes.

When the Hurley and Ironwood fire
departments arrived there the build-
ings were doomed and others were
abaze. The street car line was dis-
rupted for several hours by the short cut-
ting of wires.

Tim Ryan, of Ironwood, got out of
the building, but returned and was
overcome by heat and smoke. Those
who escaped lost their wardrobes.

A similar report on the same site
burned fourteen years ago, when thir-
teen lives were lost.

The Klondike was run by Ed. Le-
Clair. Emma Ross, the divorced wife
of the elder LeClair, had recently
acquired title to the property, and was
to have taken possession on the 18th
inst. The Ross woman runs a dance
hall at Gliddie, Wis., and has had
trouble with LeClair. The talk on
the street is to the effect that the
building was burned to prevent the
property passing into her hands.
The Klondike, with other places of
the sort, were closed a year prior to
the election last fall. They were made
a local issue and allowed to open this
year. The sentiment is against them.
The skeletons were recovered and
taken to the undertakers, but none
was identified.

IN THE PAST

Mr. Marshall in a Retrospective Mood
When The Planet Visited him
This Morning.

"I was just thinking," mused Jas.
Marshall, the pioneer Queen street
grocer, when called upon by The Plan-
et reporter this morning "what this
city was like a while back. I remem-
ber one time that a yoke of oxen got
stuck in the mud in front of the Gar-
ner house, and could not budge. Why
the place around here was almost a
swamp. I planted potatoes in the
road in front of Con. Shea's house some
time in May, and in September the
ground was so wet that they all be-
came rotten."

On Queen street here, then called the
Gravel road, there was a very large
ditch, which in spring you could put a
heat into and go out to Charing cross
in it. The only time you could drive
on Grey or any of the other streets
there was when they were frozen over
probably for a few weeks in the sum-
mer."

Mr. Marshall then recrossed his legs
and lapsed again into reading The
Planet, and incidentally smiling over
Jack's big ears.

A DEADLY BICYCLE.

Toronto, Nov. 6.—Mrs. S. Magee Tan-
nery, of Belleville, was knocked down
at 12.30 p. m. to-day, on Yonge street,
by a bicycle ridden by Robt. Finley, of
No. 144 Brunswick avenue, and died
of her injuries six hours later, at the
general hospital. She was 32 years old
and had lived in Toronto for a short
time. An inquest will be held to-mor-
row night.

FEWER BOERS IN THE FIELD

Than the Number Killed Wound-
ed or Captured During
Past Week.

Clearing Cape Colony — Boer Losses in
the Fight With Col. Benson's Col-
umn heavier than supposed.

London, Nov. 6.—In his weekly re-
port to the War Office Lord Kitchener
says that October 28 the British col-
umn report that 68 Boers have been
killed, 11 wounded and 275 made pri-
soners. There were also 28 surrenders.
Cape Colony, east of the western rail-
way, is clear of all but 400 of the
enemy.

BOER LOSSES HEAVY.

Pretoria, Nov. 6.—On the approach of
several converging British columns on
the scene of Col. Benson's fight near
Bethel, the Boers scattered into small
parties and retreated in all directions.
The latest reports are to the effect
that the Boer losses were heavier than
at first supposed. Gen. Botha is now
believed to have gone north, probably
with the intention of joining forces
with the commandos north of the
railway.

GEN. HAMILTON'S SUCCESS.

Bloemfontein, Nov. 6.—During Octo-
ber Gen. Hamilton's column, operating
in the southern part of the Orange
River Colony, took fourteen prisoners
and captured a quantity of stock. The
Hertzog brothers and Commandants
Lategan and Newbold narrowly es-
caped capture. Skirmishes occurred
almost daily, the Boers attempting
many times to ambush the British.
When they were attacked they would
quickly vanish. Rain greatly delayed
the operations.

SICKNESS AMONG BOER ANIMALS

Pretoria, Nov. 6.—An outbreak of
boer sickness among the Boer ani-
mals is reported from several quarters.
It is said that the sickness is severe,
and that it may have important in-
fluence in finishing the conflict.

SURRENDERED TO BRITISH.

Nine Boers with eight rifles have
surrendered to the Constabulary post
at Boschfontein, near Rustenburg. The
British horses are now in good condi-
tion.

LOOTED THE POST OFFICES.

Cape Town, Nov. 6.—Details have
been received here of a Boer raid early
last month on the West Coast. A
patrol visited the post office at Steen-
berg's Cove, St. Helena Bay, burned
the stamps and postal orders, looted
the local store, and stole twelve horses.
The following day thirty-six Boers en-
tered Vredenburg post office, smashed
the instruments, rifled the safe and
placed the government officials in jail.
The patrol subsequently visited Roo-
tes Bay. While they were engaged in
looting there the gunboat Partridge
arrived, and the Boers fled. The Par-
tridge fired eight rounds at them.

FELL IN SERVICE

Salvation Army Man Called to his Reward
Suddenly.

Joseph Martin, a former resident
of Chatham, died in Lafayette, Ind.,
from heart failure.

The remains were removed to Chat-
ham Tuesday evening and the funeral
took place this afternoon from the
Salvation Army barracks to the Maple
Leaf cemetery.

Mr. Martin was, until a few years
ago, a member of the Union Bapt-
ist church. He entered the service
of the Salvation Army and with his
wife and family left for Saginaw,
Mich., last spring. He was then re-
moved to Lafayette, where he was the
captain of the S. A.

Last Sunday he was opening a ser-
vice and announced the first hymn,
"Lord Jesus, be present now." When
he had sung two verses of the hymn
he sat down in a chair with his head
on his hands. He then got up and
started for the door of the building,
when he was walking down the aisle
he fell dead.

Deceased has been married for about
20 years and leaves a widow and two
children, a boy and a girl, to mourn
his loss.

The funeral was largely attended.
Ensign Hollett and Adj. Coombs con-
ducted the burial service. The pall-
bearers were Messrs. Knott, Smith,
King, Stanton, Hardacre and Coates.

MISSING BRIDE TURNS UP.

Woodstock, Ont., Nov. 6.—Mrs.
Arthur Cooper, the young bride of a
Burford farmer, who ran away from
her newly-made husband a week ago,
turned up last night rather unexpect-
edly. She arrived in Woodstock dur-
ing the evening, and engaged a lively
rig and driver to take her out to her
father. When she arrived her hus-
band received her with open arms, but
saying the driver, he took him for the
man who had been responsible for her
long absence, and was just going to
take vengeance on the innocent fel-
low, but before he could do so the man
jumped into the rig so hurriedly that
he forgot to leave the woman's valise.
Mrs. Cooper said she had been in De-
troit, Benton Harbor and other plac-
es.

MR. PARDO
DEAD SURE

Thinks he is Bound to get the
Nomination Again and Be-
lieves he Will Win.

People are Supposed to Vote Liberal—
Little Canvassing Needed—Govern-
ment Stronger than ever he says.

"I am not worrying much about the
coming election," said T. L. Pardo, M.
P. P., to The Planet yesterday.

"West Kent is all right. It has al-
ways voted Reform and I feel sure
that it will not go back on us this
time."

"Are you again going to be the can-
didate?" asked the reporter.

"Well, now," replied Mr. Pardo,
"that rests entirely with the Reform-
ers of the constituency, although I
have been assured by my friends that
I am to receive the nomination again."

"Will you accept the nomination if
offered?"

"O, yes, I will certainly run again
if I am given a chance, and I feel
sure I will be. I have no reason to
doubt my election. In fact I never in
my life felt more confident of success,
for if I did not feel sure that I would
win, I would not be so anxious to run
again. You know," he added, "the
Reform Government is stronger for this
election than it has ever been before.
All over the province the feeling is
Reform, and it is thought that the
Reform Government will be returned to
power with even a larger majority
than it has at present."

"Are you doing much canvassing?"

"No; nothing except what I can do
while attending to my business. The
constituency leans so strong towards
Reform that there is hardly any need
for much canvassing."

"Of course," he added casually, "I
am not leaving the field entirely to
the Conservatives, and never fail to
put in a word where needed."

Mr. Pardo returned to Cedar Springs
last night after spending the day in
town.

DECLINED THE HONOR.

London, Nov. 6.—The Exchange
Telegraph Company to-day says that
Andrew Carnegie, prior to leaving
Scotland for the United States, was
offered a Baronetcy, which he declin-
ed.

THURSDAY, NOV. 7.

A SATURDAY MARKET.

The farmers who are accustomed to come to the Chatham market are hereby notified that next Saturday, Nov. 9, will be a market day in this city, and business will be done as usual. The celebration of the King's birthday anniversary has been postponed until the following Monday. The merchants' stocks are full, and it is the buying time for winter goods. Bring in your produce Saturday, get your winter goods and go home happy.

THE CENTRAL SCHOOL.

The teachers and students of the Central School have been actively engaged in their spare moments for some weeks past in preparing an enjoyable concert program to be presented to their friends and parents at the Grand Opera House to-morrow evening. They have been diligent and painstaking and the result has been the completion of an excellent series of attractions which will contribute to the completeness of one of the best concerts ever presented in the Maple City.

The citizens should make it a point to encourage this commendable effort by an exceptionally liberal patronage. The promoters well deserve it and the program merits it.

And it is, perhaps, not out of place here to pay well deserved tribute to Mr. J. W. Plowes, the energetic and able principal of the school. The regime of this young and vigorous educationist has been marked by the rapid progress and splendid development of the school, and its present high standard of efficiency is, we believe, largely attributable to his earnest efforts and those of his loyal staff.

The Planet congratulates the principal, the staff and the students of the Central School on what has been accomplished and bespeaks for their annual entertainment to-morrow night the success it so well deserves.

THE CURLING CLUB.

The Maple City in her illustrious history has been the possessor of many splendid athletic institutions and associations which have done her credit and brought honors within her walls.

No organization has done more in this respect than the Curling Club, the membership of which includes many of our best citizens. These stalwarts of the stone and beam have steadily acquired strength and skill which has brought them provincial recognition and heralded the name of Chatham in the honor rolls of various associations.

For the past few seasons the club has located its headquarters at the drill shed, where many improvements were made and an excellent rink provided. It is to be regretted that the necessities of the militia have occasioned an abandoning of this ideal locality, but the curlers of Chatham have made-up by an early reorganization and the taking of immediate steps to procure other and, if possible, even more advantageous quarters.

In their efforts they should secure the hearty endorsement and support of the citizens at large. A permanent rink is almost a necessity in Chatham and the curlers will prove public benefactors in erecting one.

Every one should lend a hand in pushing the project along.

THE SCRAP IRON ASSESSMENT.

Three judges have decided that Hon. J. M. Gibson's alleged appeal of the Scrap Iron Assessment Act is not worth the paper that it was written on. By their decision the corporations throughout the province are relieved of their just share of taxation. In the city of Toronto alone \$40,000 will be struck off the tax bills of

the Street Railway Co., Telephone Co., and Electric Light Co., and the burden shifted to the shoulders of the taxpayer.

The history of the Ross Government's legislation on the assessment question is the history of a shameless betrayal of public interests to corporation greed. Usefulness is rightly regarded as the essence of value in determining the amount of which any property shall be assessed. A man owns a farm. The assessor assesses that farm according to its degree of usefulness as a farm. A store, a factory, or a every stable is likewise set down according to its usefulness, or in other words, for what it would bring "as payment of a just debt from a solvent debtor." Corporation wealth, according to the law enacted by the Ross Government, is assessed on a different basis. Uselessness, not usefulness, is made the essence of value. Instead of the plant of a telephone, electric light or street railway company being set down according to its value for the purpose for which it is used, the assessor is directed to assess the poles according to their value as firewood, and the rails and wires as scrap iron.

Against this injustice many protests were entered. The Ross Government was prolific in promises of relief, but nothing was done. Finally, at little over a year ago, the Premier appointed a commission to enquire into and report on the whole Assessment Act. Early in the last session that commission brought down a preliminary report in which it recommended the enactment of a measure to remove the scrap iron injustice. The Premier, unable to ignore the recommendation of his own commission, brought in a bill in harmony with its report. That bill adequately met the grievance that the people complained of, placing, as it did, the property of corporations on the same level as regards assessed value, as the property of private individuals. But the conversion of Mr. Ross was short-lived. (Before the session ended he withdrew the bill and in its stead Hon. J. M. Gibson introduced the farcical measure through which three judges have now driven a coach and four.

At the time, the Conservative Opposition pointed out the uselessness of the Gibson bill. Mr. Foy introduced a bill framed on the lines recommended by the Assessment Commission. In moving the adoption of this measure the member for South Toronto plainly showed the Government's proposed relief was no relief at all, that instead of the property of any corporation in the city of Toronto being assessed in six heaps, it would be assessed in one heap. The decision of the court is an affirmation, complete and unassailable of the capacity and public spiritedness of Mr. Whitney and his followers.

The judgment handed out on Saturday only accentuates the total subservience of the Ross Government to the corporations. The Assessment Commission's bill would have amply safeguarded the people's interests and inflicted no injustice on the corporations. But the corporations took the Government by the throat, forced it to abandon all serious effort at relief and make a farce of the whole business by fathering the measure that has now been laughed out of court. It is surely time that this condition of affairs was changed.

Every day seems to bring forth new evidence of the faithlessness and unscrupulousness of the Ross Government. That Government has been digging its own grave wide and deep, and in the interests of the Province and the interests of the Liberal party itself, the electorate should see that the funeral obsequies are fittingly carried out.

HOPEFUL VIEW

The hopeful view consumptives take of their own cases is strongly in their favor. Each year is showing a larger percentage of cures.

One of the best reasons for good hope is the record of Scott's Emulsion as a medicine for consumptives. So long as the system is strong enough to use medicine of any kind it can use Scott's Emulsion.

The reason for its helpfulness in this disease is because of its long tolerance by the patient; one does not tire of it as quickly as other medicines and that is where the great benefit comes.

Scott's Emulsion
It is especially used monthly by over 10,000 Ladies. Safe, effective. Ladies, take your druggist for Scott's Emulsion. Take no other, as all medicines, pills and imitations are dangerous. LI HUNG CHANG END IN PEKIN

China's Grand Old Man Has Reached the End of His Career.

Stomach Trouble of Long Standing Swiftly Brought Death.

Pekin, Nov. 7.—Li Hung Chang died at 11 o'clock this morning. He had been unconscious since yesterday morning. From that time every moment was expected to be his last, with the exception of a slight rally at midnight. His family had installed native doctors in charge of the patient, the regular physicians having refused to attend him unless the Chinese doctors were dismissed.

At 9 o'clock last evening the burial clothes were put on. The courtyard of the yamen was filled with life size paper horses, and chairs with coolie bearers, which his friends sent, in accordance with Chinese custom, to be buried with him. Several ministers of the powers called to express sympathy.

The wife of Earl Li and his two sons and daughter were with him. Chinese officials thronged the yamen. Telegrams have been sent summoning Prince Chang, who is now on his way to meet the court, and Chou Fu, provincial treasurer, from Pao-Ting Fu. The former will assume the general charge of governmental affairs, and the latter will act as governor of Chihli until Li Hung Chang's successor in that office, who will probably be Yuan Shi Kai, is appointed.

Li Hung Chang—pronounced "Lee Hoong Chang"—Dr. Douglas says—often called "the Bismarck" and "the grand old man" of China, was born 78 years ago in Hefei, province of Anhui. His progenitors were very ordinary people. Li's career has been romantic and remarkable in conservative, tradition-bound China. His life-story is as striking as that of any count of Monte Cristo of fiction.

When the Taiping rebellion broke out in China in 1853—a rebellion led by half-Christianized fanatics—Li emerged from the obscure literary world of China to take the part of the government.

He raised a regiment of rebels. His gallantry brought him to official notice and in 1859 he became viceroy of Fukien province. CONNECTION WITH GORDON. In 1860 the war with England and France paralyzed the imperial forces, and the Taiping chief carried all before him.

He threatened Shanghai and caused the native merchants to raise money for defense, and to engage an American named Ward to lead the force against the rebels. This was the beginning of the Ever-Victorious army, which "Chinese" Gordon afterwards commanded. With the keenest observation which distinguishes him, Li Hung Chang, learned to recognize the superiority of the foreigner in the field. He therefore joined with Ward's force, and the combined army did excellent work against the Taipings. In 1862, Li was appointed governor of Kiangsu.

A series of events led to the appointment of Gordon as chief of the Ever-Victorious army, and with him Li had several skirmishes over the barbarous treatment of prisoners. On the famous occasion of the treacherous murder of the Wangs, Gordon's grief and anger were unbounded.

"On Li," says Dr. Douglas, "the whole strength of Gordon's condemnation rested, and in the first moment of rage, armed with a rifle, he went to Li's boat, determined to execute summary justice. Li, however, had seen enough of Gordon's state of mind and hurried off to warn him. Li took the hint. With all speed he left his boat, and fled to the city, where he succeeded in hiding himself, though Gordon sought him day and night."

After a time Gordon cooled down and gave up the chase, and it speaks well for Li that in spite of his ignominious flight he afterwards felt the greatest respect and affection for the man who had taken so practical a method of showing his displeasure at treachery.

AS AN ADMINISTRATOR.

The rebellion came to an end on July 19, 1864, and Li had then plenty of opportunities for exercising those administrative powers which he possesses in so marked a degree. "He at once," Dr. Douglas says, "set about encouraging the natives to return to the towns and villages, and he appealed to the throne to grant a remission of three years' tribute to the harassed and impoverished people."

Peace did not last long, and later on the Nienfai rebellion broke out. Li again proceeded against the enemy, but with little success, and in 1868 was degraded for apathy. Fortunately he was shortly afterwards able to report a decided victory, and was given back his yellow jacket and other honors. He was appointed viceroy of Chihli, and became the most powerful statesman in the empire.

DEGRADED FROM OFFICE. Li advocated China's war with Japan. After the battle of Yalu, Li saw his mistake and strongly advocated peace, but was degraded, and the emperor and his advisers were not convinced of the futility of going on with the contest. But when it was absolutely necessary to make peace Li's advice was eagerly sought for in Peking, and though an old man he consented to go to Japan to negotiate terms.

Li's part in recent events in China is too fresh in the public mind to need repetition.

HAS LONG BEEN ILL.

For a long time the aged statesman has been ill with a stomach difficulty. Physicians for months have fed him on a kind of macaroni, against which

"WHIZ!!" WALK A MILE

Is a laconic definition of a toboggan ride. It's quick work going down the slide, but it's a long climb back to the starting point. It is very much that way with health; it is quickly lost and slowly regained. While the first symptoms of failing health appear, proper care may prevent the descent to utter weakness and debility. Usually the complication of disorders known as general debility has its origin in a diseased condition of the stomach and other organs of digestion and nutrition. These diseases are perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. It cures through the stomach disorders which have their origin in a diseased condition of the stomach.

There is no alcohol in the "Discovery," neither opium, cocaine nor other narcotic.

"It was all run down and no strength; had sharp darting pains all through me; head and back ached every day," writes Mrs. Frank Caswell, of Salamanca, N. Y. "I was also troubled with a distressed feeling in the stomach and pain in front of the hip bones. I had a severe cough and it nearly killed me to draw a long breath. I was so sore through my lungs."

"I wrote to Dr. Pierce telling my symptoms as near as I could. He sent me a very kind letter, advising me to try his medicine, which was decidedly better. I took two bottles of 'Golden Medical Discovery' and two of the 'Pleasant Pellets,' and am sure I never felt better in my life than when I quit taking them."

Dr. Pierce's Pleasant Pellets are a cure for biliousness.

he frequently revolted, although told it was the only method to prolong his life.

Li was a great friend and admirer of Gen. Grant. A few years ago he visited the general's tomb in New York and planted a tree there. While in Japan arranging the treaty of peace in 1896 Li was shot by a would-be murderer. He carries the bullet in his head to this day.

Li's wife died several years ago. He has several children. His wealth said to have been largely secured while in office from a habit of levying tribute in public funds, has been estimated at many millions, making him the richest man in China and one of the richest in the world.

THE MEANING OF "FIASCO"

Barrister Geo. G. Martin Defines His Position and Issues a Challenge.

Threatens to Let Someone in for Buying the Cigars for the Male Portion of the Whole City.

To the Editor, The Planet.

This Italian word—Fiasco—which really and properly means something ridiculous, a fake or humbug, has, through the original controversy between Mr. Marx and Mr. Patterson, assumed colossal importance. The word is generally used regarding some performance, play, or opera, and is thundered into the ears of the unfortunate performer who fails or breaks down. This is the definition given in the Universal Dictionary of the English Language—a huge work of four volumes. Mr. Marx used the following expression: "It is unfortunate that the Pan-American turned out a financial fiasco." Mr. Patterson took exception to the word "fiasco," as not being the proper word in that sentence. Well, I believe friendly cigars were bet, and the discussion led to the Planet—a very high authority. I read the decision of The Planet, which was in favor of Mr. Marx. Now, I assumed the temerity to not only be in his hall, but to actually contradict both. The Planet very courteously published my definition of the word "fiasco." I clearly showed I think, that Mr. Marx was wrong, and I fully prepared to satisfy any scholar but himself that what I urged was correct. Marx was not satisfied but appealed to Caesar, The Monetary Times.

The Monetary Times was invoked, like old Baalam, to curse my argument, definition, but behold! It blessed them altogether. The question was most unfair and cunningly put to The Times, with the view to obtain a reply favorable to Mr. Marx. Who could but see that this word was "unjustifiable and ungrammatical" in the sense used by Marx? I certainly never did. In The Planet I said quite the opposite, viz.—"The word 'fiasco' may be properly technically speaking, but it is not well chosen." These are my words and I will stand by them, even if I have to play Samson and pull down the whole temple of Literature.

Mr. Marx is surely scholar enough to know that among literary men there is such a thing as the choice of words and expressions quite outside of their being strictly justifiable or grammatical; and the word "fiasco" was just the word to leave at home in the expression used by Mr. Marx.

Suppose your child was sick unto death, and you called in all the leading physicians and trained nurses to attend it, but the darling died. Would it be an elegant or well chosen expression for your neighbor to say next morning—"It is a pity that the skill and services of the doctors and trained nurses turned out a fiasco?" This would be justifiable and grammatical, but would any gentleman of education and literary refinement use that word? I am ready for him. The good Apostle Paul tells us that many things are lawful that are not expedient. Mr. Marx is surely scholar enough to know that among literary men there is such a thing as the choice of words and expressions quite outside of their being strictly justifiable or grammatical; and the word "fiasco" was just the word to leave at home in the expression used by Mr. Marx.

Suppose your child was sick unto death, and you called in all the leading physicians and trained nurses to attend it, but the darling died. Would it be an elegant or well chosen expression for your neighbor to say next morning—"It is a pity that the skill and services of the doctors and trained nurses turned out a fiasco?" This would be justifiable and grammatical, but would any gentleman of education and literary refinement use that word? I am ready for him. The good Apostle Paul tells us that many things are lawful that are not expedient. Mr. Marx is surely scholar enough to know that among literary men there is such a thing as the choice of words and expressions quite outside of their being strictly justifiable or grammatical; and the word "fiasco" was just the word to leave at home in the expression used by Mr. Marx.

Head Ache?

Eyes burn? And ache? Painful to read by lamplight? Letters blur and run together? Then you need the service of an optician.

Strong probability that you require glasses. Better let him examine your eyes, anyway. He can tell you in a few minutes just what you should do. And you can find out in no other way.

VISITED EAU

Government Inspector Views Work and
Discusses Well-Deserved Allegations.

The waves were rolling high, washing over the pier, the wind blew furiously, a few hunters dotted the marsh and shooting boxes everywhere, many deserted summer cottages, and a deserted summer settlement—such was the scene that greeted those who went to Eriau this morning via special Lake Erie train to inspect the work done on the pier.

Government Engineer Gray, Gen. Agent Tison, of the Lake Erie, W. A. Hadley, R. M. Paxton, and A. T. MacDonald were on board the special.

When the party reached the Eau the air was chilly from the strong west wind that was blowing and lashing old Erie into fury. The place had lost its summer appearance and merriment and the only signs of life were where the Lake Erie workmen under foreman Geo. Morgan, were engaged in building a new dock from the north-east end of the present dock along the deep water, where the boys used to fight for money and to take the steam.

Engineer Gray was highly pleased with the work under the able foremanship of Mr. Paxton. He was highly pleased with the work on the pier. He also commended Gen. Agent Tison on the excellent work the Lake Erie have done, and on the splendid shape in which the railroad have put their docks. The east pier, where the light-house is, is well finished and will be completed by spring.

Conductor Fred. Pook was in charge of the special train.

GOOD CITIZENSHIP.

Editor Planet.—

I solicited Mr. McKeevenquest to purchase stock in the Chatham Mineral Baths, and without hesitation, he put his name down for quite a block of stock, with the following remarks: "Yes, I am only a citizen of Chatham, and hope everybody in the city will take some, as I believe it will be a success and materially help to build up Chatham."

Now, Mr. Editor, this is the kind of talk and action that the city of Chatham wants, when a good proposition is laid before them, one that will be a benefit to our city, helping along, boom it, and make it a success.

Yours truly,
T. A. SMITH.

CANADIANS IN MICHIGAN.

Bay City, Mich., Nov. 6.—Five coaches loaded with farmers from Western Ontario arrived here yesterday afternoon to study the best sugar industry. During the afternoon they inspected the various factories, visited the farms, and watched the process of beet pulling and topping. They were also quite interested in the preparation of the soil for next year's sugar beet crop. This morning the entire party were taken to the Bay City factory. The Canadians were more than pleased with what they saw, and there is no doubt that the sugar factory promoters, who propose erecting a sugar factory at Berlin, Ont., will now have little trouble.

BY NIAGARA'S POWER.

Toronto, Nov. 6.—The street railway and the Niagara Power Company are negotiating with regard to the utilization of the power from Niagara Falls. Conferences have been in progress for several days between Gen. Field, of Buffalo, and Mr. Blackwell, an electrical engineer, of New York, representing the Power Company, and Mr. Keating, manager of the railway company, as to the terms upon which the street railway company would rent power. Several power companies at Niagara Falls, it is said, have been endeavoring to make arrangements, but it looks as if the Niagara Power Company will be the one which will do the business. It will be a year or year and a half before the street cars will be run by Niagara power.

The Best Business College.
In selecting a business training school the best is not only the cheapest, but it is the only one to be considered. Business colleges are a feature of modern life, and as business is now a science which is studied as it never before. The best business college in America, in every point of age, efficiency, enterprise and proved results, is the Detroit Business University, Detroit, Mich. It points to fifty years of success, and has educated more students and found more positions for them than all other business colleges in Michigan combined. This is pre-eminently the college which fully meets the requirements of our ambitious young people, and it invites the strictest investigation of its claims. All interested should write for its illustrated catalogue, mailed free.

It is more richly illustrated than any previous book with Mr. Seton Thompson's own inimitable drawings, of which there are more than two hundred. Do You Wear Glasses?

If not, do your eyes ever have any of the following symptoms of eye trouble:

A sense of drowsiness, heaviness of the lids, spasmodic twitching of the lids, and if the eye strain has been of long duration, reflex nervous disturbances of great variety and not limited to the eye and frequently the eyes are not suspected of the trouble. The most common result of eye strain is headache, and it is probably safe to say that defective eyes are the most frequent cause of headache. Treatment will not remove these troubles, as we cannot change the shape of the eye, but we can by proper glasses remove these troubles and also correct any other required by glasses at

The only damage done to the wagon was the front axle was broken, thus rendering it unfit for use. Mr. Stringer procured another wagon and proceeded home.

His left foot struck the rail and was terribly crushed, the whole train passing over it. He was removed to Galt hospital in an unconscious condition, where the injured foot was amputated. Phillips was also severely bruised about the head and chest.

FUNNY NOTION

Two Local Sportsmen Thought They Would Practice Marksmanship and Their Game Left in Disgrace.

That spirit of restlessness that fills the hearts of the sportsmen at this season, made a big man, a small man and a sportsman, all of whom must be nameless for the purpose of this story, seek the haunts of the wild.

With rare modesty, they seek to hide their identity from those curious to know them. Let them therefore be known to the Big Man, the Little Man and the Sportsman.

The curtain rose shortly after 10 a. m. not so many weeks ago. The stage was King St. When first discovered, as the players say, the dramatic performance was in vigorous discussion. The Sportsman had just stowed two jugs of whiskey and two loaves of bread in one of Henderson's rigs, and the Big Man was objecting that there was too much bread.

The second scene was laid on King St. one day of recent date, when a friend met the Big Man and expressed surprise to see him back so soon.

"Well," replied the Big Man, "we no sooner got down to the Club and got comfortably settled with the whiskey handy, than the other two fellows actually wanted to go out shooting."

I told them that the punter would go out and do all the necessary shooting, but they would go out, so I left in disgust and came home."

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CAUGHT IN A WHEEL.

Toronto, Nov. 6.—William MacLean, aged 20, clerk and assistant draughtsman of the Economical Gas Apparatus Construction Co., of this city, who lived with his father at 9 Hurley street, was killed this evening at Toronto Junction by the fly wheel of a gasoline engine. The company had an experimental plant at Toronto Junction, at which it is perfecting an invention for the manufacture of gas from peat. MacLean, with some other employees of the company, was at work on some experiments, and one of them started the heavy fly wheel of the large gasoline engine used in the experiments with their hands. The wheels revolved at high speed and MacLean was caught in the wheel and dashed against an oak beam, causing instant death.

WEAKNESS OF MEN AND WOMEN

Could we read the hearts of every man and woman, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Diseases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never take any return of the disease. We will give you a guarantee bond to that effect. We would have you sincerely against the promiscuous use of mercury, which does not cure blood poisons but simply suppresses the symptoms.

WE CURE OR NO PAY.
Don't let your life be drained away, which weakens the intellect as well as the body. There is no room in this world for mental, physical or sexual dwarfs. Our New Method Treatment will stop all Unnatural Losses, Purify the Blood, Strengthen the Nerves, Restore Vitality, and make a man of you. If you are in trouble, call and consult us. Consultation Free. We treat and cure Brains, Stomach Diseases, Piles, Stricture, Unnatural Discharges, Gleet, Kidney and Bladder Diseases. No cutting or operations. No detention from business. Everything confidential. Consultation Free. Booklet Free. Question Blank Free for Home Treatment.

The very alarming spread of the swine plague in this district can no longer be brushed up. We feel it our duty to our fellow-farmers to give publicity to the alarming proportions this dread disease has assumed and to drastic remedies to combat and stamp the plague out. We do not know just to what length the inspector's duties extend, but his duty should reach farther than the ordering of hogs slaughtered and the premises disinfected. He ought to have authority to see the carcasses properly disposed of, for there is not room for question or doubt that the disease has been spread by carelessness in disposing of the dead animals.

Rich and Poor Alike Suffer From Catarrh in this Climate

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.
One well-known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Risdel says, "in patients who had lost the sense of smell entirely and even where the hearing has been

gun to be affected from catarrh, I have had fine results after only a few weeks use of Stuart's catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, Catarrh Tablets are especially useful in nasal catarrh of the throat, clearing the membranes of mucous and speedily overcoming the hacking, coughing and expectoration.

Any sufferer from Catarrh will find Stuart's Catarrh Tablets will give immediate relief and being in tablet form and pleasant to the taste, are convenient, and always ready for use, as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Gaiacol, blood root and Hydrastin.
All druggists sell the tablets at 50 cents for complete treatment.

HARTY WONT RUN.

Kingston, Ont., Nov. 5.—It is understood that Hon. Wm. Hartly, who was asked by a committee of Liberals to stand again for the Ontario Legislature, has regretfully declined, as business and the state of his health demand his retirement at the close of the present term of the Legislature.

A SERIOUS CLASH.

Jerusalem, Nov. 5.—The Church of the Holy Sepulchre, surmounting Christ's tomb, was the scene of a quarrelsome affair Monday last, between Franciscans and Greeks, during which there were a number of casualties on both sides. The dispute arose on the question as to which community had the right to sweep the church. Troops had been posted in the vicinity for several days in order to prevent the anticipated clash, but they were overpowered by the contending parties.

AMHERSTBURG FIRE.

Amherstburg, Ont., Nov. 5.—About 3.30 this morning a fire was discovered in the frame store, corner Murray and Simcoe streets, occupied by A. E. Harris, grocer, and owned by the Poulford estate. Harris lived with his family, consisting of wife and three children, up stairs. They barely escaped in their night clothing. Everything in the building was consumed. Harris had \$600 insurance on stock and furniture. The loss will be light. The building was also insured.

A DYNAMITE OUTRAGE.

Scranton, Pa., Nov. 5.—A north-bound car in the Scranton Railway Company, while going from this city to Carbondale to-day, was dynamited at the upper end of Mayfield and hurled crosswise off the track. Every window and the front platform were shattered. The motorman, a non-union man, was hurled into the street and severely bruised. The conductor escaped unhurt. Two Italians were thrown from their seats in the car and injured. This is the first outrage of the kind in connection with the strike of the company's employees.

FOR A NEW TREATY.

Washington, Nov. 5.—Ambassador Choate, while in Washington last night, called upon Secretary Hay to-day, and had a long talk about the projected Hay-Pauncefote treaty and other matters with which the United States embassy at London has been concerned during the past summer. Mr. Choate will remain over in Washington until to-morrow to see the President. Lord Pauncefote, the British ambassador, has notified Secretary Hay formally that the British Government accepts the American proposition relative to the Clayton-Bulwer treaty as the base for a new treaty. Within a day or two the state department will begin the preparation of the convention itself. As this document is expected to come in for the most minute scrutiny and the closest criticism when it reaches the United States Senate, the department officials are preparing to exert themselves even more than usual to ensure absolute accuracy of expression and to avoid ambiguities which might lead to misinterpretations in the future. It is possible that this work will be finished in about two weeks.

FOR ME.

Under an eastern sky,
Amid a rabble cry,
A man went forth to die
For me!

Thorn-crowned his blessed head,
Blood-stained his weary tread,
Crown-laden he was led
For me!

Pierced were his hands and feet,
Three hours o'er him beat
Pierce rays of noontide heat
For me!

Thus wert thou made all mine;
Lord, make me wholly thine,
Grant grace and strength divine
For me!

In thought and word and deed
Thy will to do, O lead
My soul, even though it bleed,
For me!

Courage is true wisdom—it is safer to take the bull by the horns than by the tail.

WAR OFFICE WILL ACCEPT

Canada's Offer of a Strong Cavalry Contingent for Service in South Africa.

Another Report Says the Imperial Authorities Need no More Canadian Volunteers.

London, Nov. 6.—The British War Office, it is understood, will accept Canada's offer of a strong cavalry contingent for service in South Africa. A DIFFERENT STORY.

London, Nov. 6.—The offer of the Royal Canadian Regiment stationed at Halifax, to go to South Africa, though it is highly appreciated, will be declined with many thanks. It is unlikely that any more Canadian volunteers will be accepted, as the Imperial government is impressed with the belief that the war will soon be over, and that if more soldiers are required to handle the Boers the home supply will be sufficient.

VICTIM OF A CONSPIRACY

New York, Nov. 6.—General Buller, (says the London correspondent of the Tribune) considers himself the victim of a South African conspiracy, and threatens to unmask his assailants. Unlike Gen. Roberts, who rallied the political as well as the military forces in South Africa and did not make an enemy except when compelled to do so, General Buller lacked flexibility in dealing with men, and excited much opposition. At Westminter Buller's friends now assert that he will vindicate his reputation by exposing the machinations of the conspirators who have been traducing him, and by telling the secret history of the Jameson Raid and other operations.

The Hague, Nov. 6.—Boer advisers state that the Boer losses in the fight at Fort Italia, in Zululand, where Col. Murray was killed, were 9 killed and 10 wounded. Gen. Buller was in command of the Boers.

ANOTHER BOER REPORT

The Hague, Nov. 6.—A report has reached here that the Boer commandant, Maritz, entered Bushman's Land, northeast of Cape Town, with 40 men. In a short time the commandant had increased to 350. He attacked and defeated 600 mixed English troops and Kaffirs under Major Gendwine, taking 120 prisoners. Commandant Maritz liberated all prisoners except the Kaffirs, who were found guilty of spying, and these were shot. He found documents at the headquarters of the English, ordering the seizure of farmers' horses. The Boer commandant says this has caused the revolt to spread.

COL. GORDON CONVALESCENT

Ottawa, Nov. 6.—Miss Richards, one of the Canadian nursing sisters in South Africa, writing to a friend in this city, states that Lieut.-Col. Gordon, of Montreal, is convalescent.

WERE IN TEARS

Many Melted During the Argument of Admiral Schley's Eloquent Address.

Washington, Nov. 6.—The climax of the Schley court of inquiry came this afternoon, when Mr. Rayner, the chief counsel for Admiral Schley, concluded a brilliant argument of over three hours with a peroration so eloquent and impassioned that all within the sound of his voice were profoundly touched. This remarkable trial, he said, sought to condemn the man who brought a successful termination by sea to the war with Spain. In vivid colors he painted the picture of the heroic and gallant deeds of the fleet, fighting the entire Spanish fleet, until the Oregon appeared out of the smoke. The thunder of the Brooklyn, music for the ears of his countrymen, he said, aroused Admiral Schley's envious foes. He pictured the victorious sailor suffering from a few hours' sleep for three long years, while the fires of persecution leaped around him, and now awaiting the verdict of the court. "And when it comes," he concluded, "he can from the high and exalted position that he occupies, look down upon his traducers and maligners, and with excellent pride exclaim: 'I care not for the venomous gossip of clubs drawing-rooms and cliques, and the poisoned shafts of envy and of malice. I await under the guidance of living Providence, the verdict of posterity.'"

Books From Scarlet Fever Homes to be Destroyed to Prevent Contagion.

"I have asked the health inspector to give a list of the houses where scarlet fever," said Dr. Charteris at the meeting of the Library Board last evening, "and have instructed the librarian not to give out or receive books from persons living in houses where there are such cases. The scale of scarlet fever will carry disease for fifty years. I hope the board will sanction what I have done."

"It would be a good idea to have the books in these houses returned and then burned by the librarian," said S. B. Arnold. "A book is a bad thing for carrying disease away, as a person is continually waiting his fingers so as to be able to turn the leaves, and a sick person, especially when convalescing, reads a good deal."

It was then moved and carried that Dr. Charteris' action be approved and that the librarian be instructed to have such books brought in and burned.

The chairman, Mr. Thomas Scullard, being unavoidably absent, Dr. Charteris was moved to the chair. Those present were, Dr. Charteris, S. Smith, S. B. Arnold, I. L. Davis, W. J. Twohey, A. Sheldrick.

The following accounts were ordered paid:

W. E. Hamilton, proof reading, \$2. Gas account, \$4.98.

Repairs, 85 cents. Gas lighter and handle, \$1.25.

Barnes-New, \$25.00. Book Supply Co., \$28.13.

Total, \$62.21.

The purchase of some books on Mr. Kinley's life and the Story of the Boer war, offered for sale by Mr. Berube, was left with the Library committee.

The librarians' report was read and adopted, as follows. It was as follows:

Books given out, 1385. Fines, \$3.81. Cards, \$3.80. Catalogues, 45c. Papers, 35c. Total, \$8.41.

It was moved and carried that a list of the papers and magazines be brought in for subscription at the next meeting.

A communication was read from T. C. Massey, secretary of the school board, to the effect that S. B. Arnold had been appointed by the school board to the Library Board in R. A. Hughes' place.

Somebody at this juncture inadvertently, or otherwise, remarked that the usual introduction into the board was to put up an oyster supper.

"Doc" took them at their word, and the crowd was seen about nine o'clock doing ample justice to some of Harry Hall's good things.

COLLISION AT WINDSOR

Detroit, Nov. 6.—While abreast of the Grand Trunk, slip, Windsor, at 2 o'clock this morning, the transfer steamer Landow collided with the barge Sophia Minch, owned by Connolly Bros., Buffalo. According to the statement of Capt. J. Madden of the Minch, the transfer steamer struck his boat on the port side almost amidships. The Minch was in tow of the steamer Zella, and was bound from Ashtabula to Portland. The barge, Connolly Bros., was also in tow. The damage was estimated at \$10,000 by Capt. Madden. No one was hurt.

Theatrical

The graduating exercises of the Central School for to-morrow night at the Opera House, is now a grand success financially, as nearly all the plan of the reserve seat sale has been emptied, much to the credit of Principal Plewes.

The Passion Play for Saturday night is well worth remembering, and comes to Chatham cheerfully recommended as an entertainment of the most worthy presentation of the loftiest themes.

The Montreal Star says of the Fables:

"The Fables captivated the audience before the first number of the program was finished. Of the program, too much cannot be said in praise. It was well chosen, admirably executed and thoroughly enjoyed. The clever conductor, Miss Nichols, was generous with encores, and the result was that the audience heard several numbers not on the program, and of a brilliant, popular nature that they did not expect. The volume of tone in the forte passages was truly remarkable, while in the softer passages the shading was as exquisite as only a woman's hand could make it."

The sale of seats opens Monday, Nov. 11, at the Grand West, 13.

The offering at the Grand for Saturday evening, Nov. 16th, will be "The House that Jack Built," a rollicking comedy, the latest of the Broadhurst stamp, and it will, from all reports, prove even better than "What Happened to Jones" and "Why Smith Left Home," although written upon entirely different lines.

The proceeds of the ten meetings of the First P. M. Presbyterian church amounted to \$291.93. The ladies decided at their meeting yesterday to hold their rummage sale on the 19th November.

He who forgets the ladder by which he ascends may yet need it for a descent.

BOYS' Reefers and Overcoats

Tailoring for boys is an art by itself. It isn't just a pocket edition of men's tailoring.

An artist has to study anatomy before he can draw figure subjects acceptably; a tailor has to know much about boys before he can make clothes adapted to their needs.

No more fashion plate overcoats find a place in this stock for growing fellows. We make them if anything stronger than their fathers' coats. It's really an exceptional father that slides down the balusters or climbs telegraph poles in his overcoat. But the style of grown up garments is worked in—the same upright boxy effects.

Frieze is a favorite reefer material for dozens of reasons—one being that its close tough texture keeps the wind out so well.

We have line of black frieze reefers with storm collars, in sizes 22 to 32, at according to size, \$2.50, \$2.75 and \$3.00.

Gray cloth cloth reefers with wool lining and storm collar—a coat that looks and is warm, sizes 22 to 28, at according to size \$3.50 and \$4.00.

Boys' overcoats of very dark oxford gray cheviot, a fine close weave that will turn wind and rain. Made like the fashionable coat for men, with elegant trimmings all through. \$4 to \$5.50.

DISTRICT DOINGS, WALLACEBURG

Nov. 7.—A very quiet wedding took place yesterday at the residence of W. A. Taylor, Dufferin Ave., when Miss Nora Taylor, one of our popular young ladies, was united in marriage to Chas. R. L. Wilder, of Detroit, by the Rev. Dr. Cook.

A Harrison left this week to accept a position in Detroit.

Carrier boys are not authorized to collect subscriptions. One collector calls in each town once a month; if a subscriber wishes to pay his account before the collector calls he must remit direct to The Planet Office, Chatham, as we will not be responsible for monies paid to carriers.

5,000 MEN ON STRIKE.

Seranton, Pa., Nov. 6.—President Nicolls, of District No. 1, United Mine Workers of America, this evening, issued an order putting on strike the 5,000 employees of the Temple Iron Company in their eight mines in the Lackawanna & Wyoming Valleys.

This action is taken on the authority of the district executive board and arises over the refusal of the Temple Company to reinstate fifty workmen who had been discharged.

ALF. TO STAR

Received a Generous Offer From the Marks Bros.—His Capacious Appetite Makes Him Dubious.

Alfred Wrigley—he of the ruddy countenance and delicate burn hair—lays claim to being the "Only Original Irish, German or French Comedian in the West."

His fame is so far reaching, he says, that Tom Mix has offered him a position in the troupe—provided Mr. Wrigley will pay his own travelling expenses and his own board.

"Alf" is considering the offer, so he tells, but he scarcely thinks that he will be in a position to accept. The only original has decided to devote himself to the stage and to art, but he has no immediate intention of starving in the act. He has ideas of his own regarding art, but he has no particular contemplation of dispensing with his food supply and leaving his father's roof for the sake of being a star upon the stage and receiving the cabbage bouquets and eggs of the howling thousands.

GOOD GAME

Considerable football talent was brought out yesterday afternoon in the game between the Business College and the city team, which resulted in favor of the latter by the score of 2-0.

The college team put up an excellent game, especially Bowyer, of Ridgeway, in goal. Sheldon scored the first goal and Adams the second. The line-up of the teams was as follows:

C. B. C. Goal—Bowyer.

Backs—Cameron, Carter. Half backs—McNaughton, Thatcher, Lettels.

Left wing—Benson, Benny. Right wing—Coogrove, Ainsley. Centre—Jensen.

The city line-up was: Goal—Smith. Backs—Courtney, Wilson. Half backs—Bolton, Brundage, Angus.

Left wing—Bowman, Sheldon. Right wing—Adams, Anderson. Centre—Mowbray.
