

# The Conception-Bay Plan.

"TRUTH—Ever lovely since the world began, The Foe of Tyrants and the Friend of Man."

VOL. 2

HARBOUR GRACE, NEWFOUNDLAND, WEDNESDAY, AUGUST 18, 1858.

NO. 43

## Post Office Notice—Registration of Letters.

On and after the 1st April next, Letters may be registered in Newfoundland by the payment by a fee of 6d. currency on Local Letters, and 6d. sterling on Letters for the United Kingdom and for British Colonies, not passing through the United Kingdom, a further fee will be charged on Letters forwarded through the United Kingdom.

The safe delivery of those Letters, will not be guaranteed by the Post Office; yet their inland transmission will be comparatively secure, from the means that will be adopted to trace them to their destination.

The postage on Registered letters must be paid in advance.

Full information respecting the Registration of Letters may be obtained on application at the General Post Office, or Post Offices in the external districts.

W. L. SOLOMON, P. M. G.

Post Office Department, 1st. March, 1858.

## Office of the Board of Works,

April 8th, 1857.

The following resolutions were adopted by the Board on the 4th inst.:

**Resolved.**—That the Board of Works will not be accountable for any expenditure on Roads or public Buildings, or any institution over which it has control, except such expenditure shall be ordered by the Board,—such order to be verified by the written order of the Chairman and Secretary for such expenditure.

**Resolved.**—That no surveyor or Inspector of Roads, or servant of the Board, shall give or have authority to give any order for supplies, or work of any description, without first obtaining the written order of the Chairman and Secretary.

## NOTICE TO MARINERS.

THE BOARD OF WORKS hereby give notice that the temporary Light exhibited on Green Island, at the entrance of Catalina Harbor, Trinity Bay, since the 1st March last, was on the 13th instant, removed, and replaced by one of a more brilliant character and extensive range. This is a FIXED WHITE LIGHT burns at an elevation of 92 feet above high water, exhibited every night, from sunset to sunrise, and in favourable weather will be seen from E. N. E. seaward, to W. 12 miles. Vessels bound Northward by keeping this Light open with the North-head of Catalina until Bonavista Light opens with Cape Le Jean, will give the Flowers Rocks an ample berth—or when coming from the Northward and bound for Catalina, by giving the N. Heads a moderate berth, you will clear the Brandy's Rocks by steering for Green Island Light. Green Island is situated in lat. 48. 30. N. long. 53.03 West.

## LET US REASON TOGETHER.

### HOLLOWAY'S PILLS.

#### WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Infirm, of all climates, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines and offers them to free and enlightened people, as the best remedy the world ever saw for the removal of disease.

#### THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

#### DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorder of the liver, dyspepsia, and stomach complaints generally. These soon give a healthy tone to those organs, however deranged, and when all other means have failed.

#### GENERAL DEBILITY—ILL HEALTH

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

#### FEMALE COMPLAINTS.

No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without them.

HOLLOWAY'S PILLS are the best remedy known in the world for the following Diseases:—

Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowel Complaints, Colic, Constipation of the Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, King's Evil, Liver Complaints, Lumbago, Rheumatism, Retention of Urine, Sciatica, Sore-throats, Stone and Gravel, Secondary symptoms, Tic-doulaireux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness from whatever cause, &c. &c.

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar,) London, and 80, Maiden Lane, New York; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 3d.—3s. 3d.—and 5s. each Box.

There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Wholesale and retail by  
T. McCONNAN.

## A MARVELOUS REMEDY FOR MARVELOUS AGE.

### HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part.—Disease of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas and Rheumatism, Scorbatic Humours.

No remedy has ever done so much for the cure of disease of the Skin, whatever form they may assume, as this Ointment. Scarcely a Sore Head, Scrofula, Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health. Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

#### Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Bad Breasts, Burns, Bunions, Bite of Mosquitoes and Sand Flies, Cerebra, Cheigo-foot, Chilblains, Chapped hands, Corns, (soft) Cancers, Contracted and Stiff Joints, Elephantiasis, Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Scalds, Sore Nipples, Sore Throat, Skin-diseases, Scourvy, Sore-heads, Tumours, Ulcers, Wounds, Yaw.

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar) London, and 80, Maiden Lane, New York; also by all respectable Druggists and Dealers in Medicines throughout the Civilized World at the following prices:—1s. 3d., 3s. 3d., and 5s. sterling, each Pot. Sub-Agents.—John McCarthy, Carbonear; N. & J. Jillard, Harbour Grace; John Stentford Brigus.

## PHENIX FIRE ASSURANCE COMPANY.

Lombard Street, and Channing Cross, London

[ESTABLISHED IN 1782.]

Insurances against Fire are effected by the PHENIX COMPANY upon all descriptions of Property in Newfoundland, on the most favourable terms; and the experience of nearly three quarters of a century has manifested to the public the promptitude and liberality with which all losses have been adjusted by them.

Persons Insured by this Company do not depend upon restricted funds for the payment of their claims; the Security offered by the PHENIX OFFICE being unlimited, comprising in addition to the large invested Capital of the Company the whole fortunes of a numerous Proprietary, composed of some of the most opulent gentlemen and merchants in the United Kingdom.

Rates of Premiums, and all particulars of Insurance, will be made known on application to the undersigned, by whom Policies are issued free of charge.

W. & G. RENDELL,

Agents for Newfoundland

## Post Office Notice.

# THE CONCEPTION-BAY MAN.

(From Willmer, July 31.)

## FOREIGN OFFICE DESPATCH.

ALEXANDRIA, July 23.

The steamer Bombay arrived at Suez from Bombay this morning.

The following intelligence from the *Bombay Standard* of July 3, 3 p.m., has reached this by telegraph:—

Sir Hugh Rose reached Gwalior on the 16th of June from the south west; Brigadier Smith approached it from the south east.

Early on the 17th a series of severe conflicts ensued on both sides of the town.

On the 19th the enemy were beaten and dispersed in all directions, and the town captured by us.

The fort was next day found abandoned. The Maharajah was conducted in state to his palace on the 19th.

Four of our officers have fallen. During the four days we had captured twenty-seven guns, many elephants, and a vast amount of treasure.

The fugitives had the Agra force in front; Napier on their rear; Rose and ours on their right and reftank, (qr. left flank?)

A large force under General Roberts left Nusserabad on the 29th, in the direction of Jey-pore, where the mutineers are supposed to be assembling.

On the 13th General Sir Hope Grant gained a brilliant victory at Nawabgunge, near Lucknow, capturing a large number of guns, and driving the enemy across the Gogra.

On the 9th the celebrated Moulvie, for whom £5000 had been offered, was killed. Oude continues much disturbed.

The Governor-General, on receiving Lord Ellenborough's despatch, issued a proclamation giving amnesty to all but murderers. The results are not yet known.

Telegraph arrived by the Wanderer on the 28th of July, 4 50 a.m.

STOFFORD, Rear-Admiral

## THE CONCEPTION-BAY MAN

WEDNESDAY, AUGUST 18, 1858.

We have read with deep and absorbing interest the proceedings, of our St. Johns Citizens upon the occasion of the landing of the Atlantic Telegraph Cable upon our shore.—The welcome to the noble mariners, who, most providentially, were enabled to accomplish the vast enterprise was, as it should be, profound & enthusiastic: The addresses were admirable expressions of the universal feeling on the occasion, and the replies at once subdued and dignified, were the frank avowels of men who knew that they had earned the meed of praise, but would still deprecate its excess and devoutly ascribe the whole to that benign power, by whom they had been protected and permitted to succeed. The St. Johns press too entered into a generous rivalry on the occasion and all appeared actuated by the same spirit of candid and approving sentiment, and this disposition was in some instances still further elevated, by the endeavour to rectify the injustice of omitting to blend the name of F. N. Gisborne Esq. the original designer of the unrivalled project, and the pioneer of vast preliminary undertakings in this Country and in America—with the celebration of its triumphant consummation. Having thus yielded due merit to all, we must take the liberty to remind our readers, that the 'Conception Bay Man' was the first paper on either side of the Atlantic to notify the great event. About four hours after the end of the Cable was landed, our press was employed recording the termination of the world renowned project,—no mean honor for our obscure little paper.

The following hurried observations made on Thursday 5th Inst. we take leave to republish.

We have delayed this publication to be amongst the first to notice the greatest triumph of science and maritime perseverance over natural obstructions and difficulties, which has ever fallen to the lot of the press to record—the successful completion of Transatlantic Telegraph Communication. Hail Britannia! Hail Columbia! Henceforth and forever remain the joint guardians of Civil and Religious Liberty, the great promoters of Peace Progress and Civilization throughout the world.

SOME time since we deemed it our duty to notice the scenes of Rowdyism which our streets exhibited, mostly amongst sailors, when we stated generally that such occurrences may be attributed to the foreign practice of drawing the knife upon slight occasions. We have been since credibly informed that the last row was not thus occasioned.—It appears that the police had captured a prisoner, and were conveying him to gaol when a rescue was attempted, and the Spaniards either offered or were called upon to assist the police, which they did, but were ultimately overpowered and maltreated, and the prisoner rescued from the police.

It will be satisfactory to the Inhabitants to learn that the Spanish authority in this Island

has been promptly exercised to prevent, at least on one side, all cause of disturbance for the future, it remains for our authorities to act with similar promptitude and energy. The following extract from a letter with which we have been honored by the Spanish Consul is conclusive upon the above point.—

"I have taken every measure that the present state of this Consulate permits, to prevent a repetition of these occurrences, by sending rules for the guidance of the Captains of Spanish vessels to the Vice-Consul of your town, and enjoining him to see that they be properly observed."

(For the Conception-Bay Man.)

"Water, water, everywhere,  
And not drop to drink."

MR EDITOR,—I am surprised that this Town is so badly supplied with water, more especially when I consider that there is a sum of money in the chest for that purpose.—Along with my neighbours I feel the great want of water. Public benefactors should, in my opinion, use their means and influence to afford all of us the benefit of a good supply, as the Health of every town requires abundance, and the better the supply the better will be the state of the Inhabitants. P. P. P.

(To the Editor of the Conception Bay Man.)

SIR,—allow me thro your columns to draw public attention to the great and alarming evil of dogs, generally at this season in a half rabid state, being permitted to go at large; the consequence has been heretofore dreadful, tho alas too soon forgotten. In Barenead a few days, since a little boy, son of James Curlew, aged four years, was so dreadfully bitten in the face, that twelve stitches were required to close the wound, and slighter wounds from the same cause are of no unfrequent occurrence,—then as to animals thirty sheep have been destroyed in one night in Barenead and Port de Grave alone; many persons who some time since possessed ten or twelve sheep each are now without one on this account. Goats have also been destroyed in great numbers, and in some instances calves and even cows: Must such a barbarous state of things be suffered to continue? Dogs are of very little service of late years in winter, and during summer are perfectly useless. If our magistrates possess the power to correct this evil, they should exercise it at once, and if not the sooner that power is conferred by law the better. It is to be hoped that the people are neither so ignorant nor so obstinate but that they would submit to a salutary rule for the public safety and the general benefit. This country is peculiarly adapted for grazing, and goats and sheep would multiply upon our hills but for the cursed dog nuisances. The loss to the country cannot be estimated, and human suffering and even death have often been the consequence.

If this matter were taken up by the press generally I think the remedy would soon be forthcoming. Tho no sufferer myself, on the part of hundreds who are, I respectfully solicit its advocacy and support.

Port de Grave, } HUMANICUS,  
Aug. 14, 1858. }

We last year inserted a communication from a subscriber on the above subject, and endeavoured to draw the attention of the government to the same.

Behind most other colonies in many things, there is nothing which more strongly marks our absence of thorough civilisation, than this abominable and truly dangerous evil. We hear the same complaint repeated from every neighbouring harbour, and even in this place, with our court and crown officer, magistrates and new police force the evil is rampant—the destruction of sheep and goats is a thing of frequent occurrence, and very much cattle have been thus shockingly destroyed. In this neighbourhood not long since, a child was severely bitten.

When some dreadful case of Hydrophobia presents itself to the horrified gaze of the people, the evil may be properly laid to heart, and not before, unless influenced by the considerate or coerced by the authorities. C. B. Man.

To the Independent Electors of the District of Harbor Grace.

GENTLEMEN,—

Called upon by an influential portion of the community whose good opinion I gratefully appreciate, and to whose judgement I feel bound to defer; I cannot hesitate to offer myself as a Candidate for your suffrages, to represent this important district in place of the Gentleman who has lately accepted the office of Her Majesty's Solicitor General of Newfoundland.

The first principle of Responsible Government, I apprehend to be,—Government by the People—when their representatives become placemen it is evident they must waver between their duty to their constituents and their own personal interests, which may be more

readily advanced by a blind subserviency to party or sycophancy to the ruling power, than by a faithful maintenance of the rights and privileges of those whose confidence they forfeit, thus bringing the Liberal or Responsible principle, which they pretend to advocate, into general disrepute.

It shall be my earnest endeavour, if returned as your Representative, to oppose and discountenance by all means such a foul perversion of the spirit of the Constitution, and to this end I promise not to accept of office myself, and to discourage to the best of my ability, the continuance of a practice which has brought so much odium upon the liberal cause.

A Native of the Country, it is scarcely needful for me to express my ardent desire to participate in the Legislation which, morally socially and politically, should elevate my Countrymen, and contribute generally to the comfort happiness and prosperity of the people; and as a Dealer and a Mariner I cannot act otherwise than sustain the particular interests of those with whom I have long been associated, the Sealers and Fisherman of my native land.

Agriculture and its great auxiliary, Good Roads, should certainly engage the earnest attention of the legislature, and I shall neither be dilatory nor parsimonious in supporting the necessary appropriations for these most essential objects.

No Country can rise in the scale of civilisation, or even long remain free, unless a comprehensive and liberal system of Education be generally adopted. Education therefore, shall be deemed one of the primary objects of my earnest attention.

The erection of light houses along our northern line of coast is a subject of vital importance to my fellow mariners, and one in which the Inhabitants of this Bay are deeply interested; my best exertions shall be made to induce the Government to contribute liberally for this laudable, humane, and life preserving object.

Outport interests generally shall be faithfully advanced by me, but the requirements of the district I aspire to represent shall, if successful be the particular objects of my strenuous and uncompromising advocacy.

Reduction of taxation can only take place after the reduction of extravagant public expenditure. It shall be my constant endeavour, if returned, to prevail upon the Government so to effect the latter that the former may be reasonably expected.

I shall avail myself of an early opportunity to express my sentiments freely upon French claims and Labrador taxation.

I have the honour to remain,  
Gentlemen,  
Your most obedient faithful servant  
WILLIAM HAYES.  
Harbor Grace, 28th July, 1858.

For the Conception-Bay Man.

MR. EDITOR.

Permit me to publish, once for all my reply to several questions, which have been put verbally to me.

"I returned for this District I will certainly vote for Carter's Bill, for the purification of the Assembly, and assist to carry out its provisions in the most effectual and stringent manner.

"I will further vote either for the removal of duties upon Labrador imports, or in support of the principle of having its permanent settlers fairly represented in the Assembly.

"And I will strenuously oppose the assumption of French exclusive right to our common fishing ground and Harbors, and at all proper times evince my hostility to that erroneous interpretation of Treaty, proffered by Governor Darling, and most unaccountably supported by our ministry.

Please supplement my address with the above.

Harbor Grace } WILLIAM HAYES.  
Aug. 16th 1858 }

John Stark, Esq., Chief Clerk and Registrar, and Garland C. Gaden, Esq., Sheriff, left this Town yesterday, in the *Ellen Gisborne*, to join the Honourable Judge Robinson, at St. John's, and to proceed on the duties of the Northern Circuit, in the hired Brigantine *Glance*, Captain Graham.

DIED

At the residence of his son, Twillingate, on Thursday morning last, August 12th, Doctor Sterling, Sr., aged 72 years.

On the 9th Inst. after a lingering illness borne with Christian Resignation, Jane, Relict of the late Robert Andrews aged 70 years.

On Friday night last, after a protracted illness, much and deservedly regretted by his numerous friends and neighbours Edmond Foley Publican Aged 56 years.

BRITANNIA LIFE

**Assurance Company**

1, PRINCESS STREET, BANK, LONDON.

ESTABLISHED—1837.

Empowered by Special Act of Parliament, IVN Vt. cap. IX.

**ADVANTAGES OF THIS INSTITUTION.**

INCREASING RATES OF PREMIUM.

A Table especially adapted of the securing of Loans or Debts, and to all other cases where Policy may be required for a temporary purpose only, but which may be kept up, if necessary throughout the whole term of Life.

HALF-CREDIT RATES OF PREMIUM.

Credit given for half the amount of the First Seven Annual Premiums, the amount of the unpaid Half-Premiums being deducted from the sum assured when the Policy becomes a claim.

SUM ASSURED PAYABLE DURING LIFE.

The amount payable at the death of the Assured, if he die before attaining the age of sixty out to the assured himself, if he attain that age thus combining a provision for old age with assurance upon life.

ORPHAN'S ENDOWMENT BRANCH.

Established for the purpose of affording to parents and others the means of having Children educated and started in life, by securing annuities, to commence at the Parent's death, and to be paid until a child, if a son, shall attain his 21st year, or, if a daughter, her 25th year of age.

BRITANNIA MUTUAL

**LIFE ASSOCIATION.**

1, PRINCESS STREET, BANK, LONDON.

INSTITUTED—1839.

Empowered by Her Majesty's Royal Letters Patent.

Annual Division of Profits—applied in reduction of the current year's Premium.

Policy-holders entitled to participate in the profits after payment of Five or Seven Annual Premiums according to the table of Rates selected.

Premiums charged for every three month difference of age—not, as is usually the case for every whole year only.

Half-Credit Policies granted on terms unusually favourable to the assured, the amount of half premiums for which credit is given being liquidated out of the profits.

At the last Annual General Meeting a reduction 30 per centum was made in the current year's premium on all participating Policies.

Age of the Assured in every case admitted in the Policy.

Medical Attendants remunerated in all cases of the Reports.

(MUTUAL.) Extract from Table with Participation in profits after Seven Yearly Payments.

THE CONCEPTION-BAY MAN.

RETURNING HOME.

Summer gales were gently blowing,  
Sunshine smiled on sea and land,  
While the foamy tide was flowing  
Far upon the sparkling sand.

Restless feet were seen to wander,  
To and fro along that shore;  
Tones were heard both deep and tender,  
Hopes and memories counting o'er.

There were thoughts of rapture, turning  
To one hour of promised joy;  
And a mother's heart was yearning,  
Fondly for her sailor boy.

Yet there passed a cloud of sadness,  
Sometimes o'er that sunny scene;  
While the exulting tone of gladness  
Sunk as if it ne'er had been.

"Mother," said a voice of sorrow,  
"He may come with wealth and fame,  
He may come—perchance to-morrow,  
But—will he return the same?"

Then the mother's voice too faltered;  
Yet she smiled, and strove to say,  
"Summer birds come back unaltered,  
Singing still the self-same lay."

Thus they mused; while each was catching  
Glimpses of a distant sail,  
More and more intently watching,  
Trembling, lest their hope should fail.

No. The welcome shout is sounding!  
See the flag is floating wide!  
While the gallant bark is bounding,  
Swiftly o'er the sweeping tide.

Now she comes, and now retreating,  
Still she sports with wind and wave;  
Still delays the hour of meeting,  
Though the well-known signals wave.

Who is he, whose step advancing  
Foremost on the vessel's prow,  
With his eagle-eye is glancing,  
While the foam beats on his brow?

Once that cheek was bright with beauty,  
And that brow was free from stain;  
Many a night of anxious duty,  
Has the sailor known since then.

Many a cloud has burst above him,  
Many a storm has left its trace,  
Since the faithful hearts that love him,  
Felt his long, his last embrace.

Is he changed? his locks of brightness  
Once in golden ringlets grew;  
Once with youthful step of lightness,  
Like a mountain-deer he flew.

Is he changed? He sees his mother,  
Who that bounding step shall tame?  
To his home, the son—the brother—  
Tried and true, returns the same.

(From Punch of July 17.)

THE ENEMY OF THE ATLANTIC TELEGRAPH.

Far down underneath the Atlantic's vast billow,  
The Telegraph Cable was sunk in the deep;  
In the bed of the sea it possessed such a pillow,  
That philosophers fancied it snugly would sleep.  
For the tempest that lashes the surface of ocean  
Into mountainous waves when the stormy winds blow,  
Produces no sort of perceptible motion  
In the depth of the water a few miles below.

The fact is, however, the Telegraph Cable  
Has a second time failed in the lowermost main,  
And why, all the sages are wholly unable,  
By proof or conjecture the cause to explain,  
Nor is it a very great matter for wonder  
The question should puzzle the learned and wise;  
As touching the Cable 'tis like they should blunder  
Being out of their depth when they get where it lies.

But what's dark to the sage may be clear to the simple,  
Who take an unprejudiced view of the case,  
And—

That sprouts on the nose of an Alderman's face,  
The serpent enormous old Neptune's grand rancour,  
Cuts the Cable right through with teeth sharp as a knife,  
For though, where they sink it, "the storm is a stranger,"  
There, BYRON says also, "the Sea-Snake hath life."

It would be no joke to incur the rebuke of Punch; but from his well known above-board straight-forward way of dealing, and his love of truth, we feel quite secure in venturing to add to the above announcement of the reason why "The Telegraph Cable has a second time failed," the cause of its success on the third and last attempt, which, it will of course be presumed was received by Submarine Telegraph from the parties best acquainted with the facts.—Post.

THE ENEMY CONQUERED—THE ATLANTIC TELEGRAPH TRIUMPHANT.

PUNCH's statement was right—for the mermaids had told it, [was nipt—] Who remained in their halls when the Cable But, strange to relate,—as they throng'd to behold it— [Cable slipt.] Down the throat of the Serpent the cut Had he "Swallowed a Whale," he perhaps might digest it,  
And no ill effects from the banquet may feel,  
But the ELECTRIC CURRENT, life's current arrested,— [CAL EEL!] For the "Sea-Snake" was not an ELECTRI-

How startling the sight, in the depth of the ocean,  
When, stiff as the Cable, extended each fold  
Of the Serpent—so late full of mischief and motion— [cold.]  
Struck down in an instant—now rigid and  
But though sad below—'twas good news above—  
water [tempt made] And the Fleet thus encourag'd, a third at-  
Neptune paused, ocean slept, o'er the scene of self-slaughter— [WAS LAID!] AND THE TELEGRAPH CABLE IN TRIUMPH!

Telegraphic and General News Agency, and Agency of the European and American Telegraphic Association.

By the steamship Arago, intercepted off Cape Race, English dates have been received at this agency to the 28th July, 1858.

SUMMARY.

The debates in Parliament were interesting. The Jews' Relief and Outfit Bill, as amended by the Lords, had passed and Baron Rothschild was sworn in the House and took his seat on Monday morning, when he voted for the first time.

C. P. R. James, Consul at Richmond, Virginia, is appointed to Venice as Consul general. M. Barbar, of Naples, takes his place.

The Duke of Malakoff has received invitation from Lord Lyons to go in the royal Albert Flag-ship to Cherbourg.

There was to be a ministerial dinner to celebrate the close of the session.

An extraordinary discovery of old coins had been made in France.

The Calcutta Mail brings interesting news from India and China, confirming telegraph news published in the Morning Post of Friday last.

There had been a heavy gale at Liverpool. A splendid present had been made by Napoleon to Ireland.

The Australian Mining Company, after considerable discussion, resolved to discontinue mining operations for the present.

There had been a great meeting of the Jews to commemorate the passing of a law admitting Jews to Parliament.

Louisa Pym and Harrison have accepted a new opera from Balfe.

Prince Adelbert of Prussia has been invited to Cherbourg by Napoleon.

The Sardinian Squadron on its way to Cherbourg has received orders to alter its course and cruise on the coast of Candia.

The Christians have been insulted and menaced at Alexandria—aggressions have been immediately punished.

The trial of the Salerno prisoners had come to a close—seven were condemned to death, and several to twenty-five years in irons.

Mehomed Pacha, Minister of Police, has been sent to Candia on a special mission. He is provided with fresh instructions.

Sir H. L. Bulwer presented his credentials to the Sultan.

Queen Isabella and her Royal spouse are progressing on their pleasure trip.

The President of the Swiss Federal Assembly has been elected.

The people of Nuefchatel have rejected the new Cantonal Constitution.—Morning Post.

REPORT OF THE CHAMBER OF COMMERCE.

The Chamber of Commerce, in submitting their Report at the close of their year of office deem it a duty to state—

Commercial Body, that during a year of almost unprecedented pressure which entailed prostration and ruin in many mercantile communities, the trade of this colony has experienced but comparatively slight derangement; and entertain the hope that the caution now observable in mercantile transactions will ere long give place to more extended confidence, and that business will regain its wonted activity.

In common with most other productions, the staples of this Island suffered a serious decline in value during the commercial crisis; the effect of the decline has, however, been greatly mitigated by the proportionate or even greater depreciation of those imports necessarily required for our trade and fisheries; so that the prices at present commanded by our staples abroad, may be considered as fairly remunerative as when they were nominally higher, yet burdened with a greater cost of production.

The Seal Fishery of the past season was not attended with the success that all would have wished. Owing to an uninterrupted continuance of easterly winds at the latter part of March and throughout April, a large body of our sealing fleet was jammed in White Bay and Green Bay for many weeks, and had to return with very few seals; and thus, notwithstanding some unusually large trips were brought in, the catch on the whole fell far below an average in number, but more remarkable so in weight.

It is the opinion of the Chamber that the experience of the past voyage confirms the views entertained by many of the necessity of some regulation (either legislative or by mutual understanding between those engaged in the seal fishery) to prevent the indiscriminate destruction of what are termed "cats" or pup seals. Many such were brought in this year, yielding but trifling remuneration to those who took them; while had they been allowed to attain their full size, they would have afforded a paying return to many vessels.

It is hoped that the Cod Fishery, still in progress, will prove remunerative to those engaged in it, and that the continued increased consumption of its products in the Brazils will relieve other markets from an over-supply, and avert those ruinous prices which for many years prevailed in European markets.

It is not in the power of the Chamber to announce any reduction of duty on our staple by the government of either Spain or Portugal; but not only does the former government maintain its high and differential duty in favor of national vessels, but it has thrown fresh impediments in the way of our trade by prohibiting the forwarding of vessels to other markets after clearing for and proceeding to Spanish port, and by demanding an increased duty on cargoes if forwarded to a Spanish port, after calling at an intermediate one. The attention of the chamber for the ensuing year should be directed to the remedying of this evil, if possible.

The Chamber has heard with concern that encroachments have been made by the French on our Fishery rights at the south western part of the island, and a determination expressed by them to carry their encroachments still further during next season. It cannot, however, but believe that these have been committed in ignorance that the late Convention had not gone into operation, and that they will not be repeated when proper representations on the subject shall have been made by our government. As our Fisheries constitute the sole dependence of our hardy population, we cannot guard too jealously our every right to them, more especially so when we reflect that if not guarded, they will pass into the hands of a rival who, fostered for national purposes by government subsidies, would be enabled at first successfully to compete with us, and ultimately to drive us from our customary markets.

During the last session of the Legislature an Act was passed, having for its object to foster and regulate our Herring Fishery, which the Chamber hopes will be found to operate beneficially, and to tend to advance the character of our herring in foreign markets—as it can only be matter for regret, that the fishery, which should constitute an important element of our wealth, is now almost valueless, in consequence of the little attention given to the proper taking, curing, and packing of the Herring.

The importance and necessity of more frequent communication by mail was forced upon the attention of the Chamber at the commencement of the winter, when mercantile matters in Europe and America were in a state of great derangement, and led the Chamber to apply to the local government to provide the means for a semi-monthly mail from Halifax. Their application was promptly and favorably attended to, and though the benefit to the colony at large was no doubt more sensible felt during those anxious months than it would be on ordinary occasions, yet the Chamber believes that much convenience and advantage would result if a similar arrangement were made during the ensuing winter, and until Direct Steam Communication with Great Britain and the United States (unfortunately too long delayed) shall be permanently established.

It is a matter of heartfelt gratification to the Chamber that before closing their Report, they are enabled to announce the successful submerg-

of many scientific and enterprising men for some years past, but the success of which had indeed become very problematical from the disastrous results attending the first two attempts. The accomplishment of this great enterprise will doubt be the means of conferring inestimable benefit to the Trade and Commerce of both hemispheres; and the Chamber would express a hope that now that they have become more more closely linked, they will acquire increased activity and enterprise, and aid in the diffusion of increased prosperity.

The thanks of the Chamber are due and are respectfully tendered to His Excellency Sir Alexander Bannerman for the lively interest he has at all times manifested in matters calculated to promote the Trade and Fisheries of this colony; and the Chamber considers it fortunate that the interests of the island are now presided over by one so practically acquainted with the peculiar avocations of the inhabitants.  
WALTER GRIEVE, President  
St. John's, Newfoundland,  
August 5th, 1858.

From Willmer & Smith's European Times.

The last news from India is not very cheering neither is it desponding, but it seems to give point to Lord Ellenborough's views on the same subject. The rebels have gained some two or three advantages which will embolden them, more especially the Calpee victory near Gwalior. It was apprehended long ago that what is now taking place would occur,—namely, that whenever we beat the rebels in any district they would turn up in another. The climate is their best friend, and we greatly fear it will sorely tax the energies of this country before peace and order can be effectually restored. Now that we know the worst, it is useless to disguise the fact that the recent debates in Parliament arising out of the secret despatch have not been without their effect on Lord Canning. His recent policy has been sufficiently conciliatory to satisfy the wishes of those who quarrelled with the terms of his celebrated proclamation, and yet it is firm enough to show all who are engaged in the revolt that the British Government has both the will and the means of achieving peace by the strong arm. We hear nothing of Lord Canning's resignation, which, in the present state of India, would be a dire calamity. His lordship has now an opportunity of making a name as a statesman and a practical administrator, and he is evidently not disposed to forego the chance—the only one it may be, which his career will offer.

We learn from Halifax that when the news arrived that the Cable was successfully laid the excitement in that city was intense, every building, public and private, was illuminated, A salute of 100 guns was fired from the Citadel in honor of the great event. The authorities in Boston had ordered a similar display. The Governors of Canada, New Brunswick, &c., and many of the chief men in the United States, have already forwarded their congratulations to Mr. FIELD. Many enquiries were received as to when the line would be in working order. Communication as yet, has been confined to the operators. The QUEEN'S Message was expected yesterday.—Telegraph.

MAILS will, until further notice, be made up at this office at 10 o'clock, a.m., for Harbinger Grace, Carbonear, and Briggs, on Tuesdays, Thursdays, and Saturdays.

W. L. SOLOMON,  
General Post Office,  
St. John's, 18th May, 1858.

HOLLOWAYS OINTMENT AND PILLS. Jaccations of the flesh, bruises and fractures, occasion comparatively little pain or inconvenience when regularly lubricated or dressed with Holloway's Ointment. In the nursery it is invaluable as a cooling application for the rashes, eruptions and scabious sores, to which children are liable, and mothers will find it the best preparation for alleviating the torture of a "broken breast." As a remedy for cutaneous diseases generally, as well as for ulcers, sores, boils, tumours and all scrofulous eruptions, it is incomparably superior to every other external remedy. The Pills, all through Toronto, Quebec, Montreal, and our other chief towns, have a reputation, for cure of the dyspepsia, liver complaints, and disorders of the bowels; it is in truth, co-extensive with the range of civilization.
