Mysterious Change of Faith.

At Saturday night's meeting of the civic sub-committee the amended offer was adopted, and furthermore some of those who up to the end of last week so strongly opposed the franchise being disposed of till it expired nearly two years hence have to-day sudden, ly become champions of the present company's proposition.

"Why it is," exclaimed a gentleman well versed in Hamilton civic matters to The World, "If am at a loss to tell, for the sunded offer is very little better than the original. I am afraid there is something—But I guess I hadn't better say any more, he suddenly remarked.

These sudden conversions are very peculiar, to say the least, and The World proposes to find the why and the wherefore.

Why the Offer Should Be Rejected.

The fact that under the company's new hole derives and further in the content of the civic objects and the present company's new deaded to the railway when the present franchise expired, but since I have learned that there is no possibility of this, the opposition being cost, first to proposition, but I must say that I think the amonded offer is was adopted offer is well in the city and the city company's new the company's new had a condition being to propose to the company's new hole and the the city committee to try and enterty of the condition being to strong, I have dopped that there is no possibility of this, the opposition, but I must say that I think the amonded offer is well

why the Offer Should Be Rejected.

The fact that under the company's new offer Hamilton's share of the receipts for the disposal of the franchise would only be \$12,-

offer Hamilton's share of the receipts for the disposal of the franchise would only be \$12,000 a year compared with Toronto's \$120,000 is reason enough for the present offer being rejected and the franchise being put up for competition. If the company has increased its offer once it can do so again. A valuable asset like that of Hamilton's street railway smould not be disposed of at haphazard.

Mr. Meredith then entered on a short and brilliant reply to Mr. Ross. He raised the enthusiasm of his followers by the venemence of his assault on the iminister's position. out flat-footed against Mr. Ross' action. He declared that the Minister's speech was a piece of special pleading. There could be no doubt that when the House agreed to the arrangement to devote \$1:20,000 to build a new college they thought they would never hear of Upper Canada College again. It was certainly astonishing to hear the revelations which they had just listened to. The explanation just made by the minister might be satisfactory to the House, but it would certainly not be satisfactory to the country. Upper Canada College was an institution origanized in the interest of a favored class, and the people of this province would not be disposed to condone the unauthorized expenditure which the Minister had not denied. They will justly find fault. The heaviest charge the Liberals brought against a Dominion Government was this of entering on unauthorized expenditures, but here they, themselves, were guilty of what they condemned in others.

Mr. Hardy, who had been trying to get a chance to stem the tide of rebellion for some time, at length caught the Speaker's eye. He said that Mr. Meredith appeared to attach no meaning to the word equipment, whalever. DESCRIPTION.

The Insurance Corporations Act.

Editor World: It would seem by subtion 2 of section 6 of this act that it is roposed to treat the associations now regis-ered under the Dominion law as insurance ompanies, and not as friendly societies, and fore the provisions requiring that the

for the purposes of the act. In so doing ne will render a service to the members of at sleast one of the associations alluded to.

Upon the whole the proposed act seems a teominendable measure and one calculated to do much good, and will not, I should suppose, be objected to (except perhaps in unimportant details) by any reputable residuals.

Editor World: The proposal to hold a grand review in Montreal next Queen's Birthday brings to mind the fact that there been no demonstration in Toronto on Her Majesty's birthday for the past 15 years. remain at home for a change, and have a grand review in Toronto, leaving Montreal to provide its own show for that day? We could invite two or three regiments to visit us, hold a review on Garrison Common, and fire a feu de joie, march past, etc. It need be no expense to our own volunteers. Let the visiting regiments be entertained by the city, the cost of two meals is the only outlay. The cost of traveling is always borne by the regiments themselves when taking their trips. If this suggestion were taken hold of by the commanders of the various city corps, backed up by the council, it could be made a success. It is not unreasonable to ask our volunteers to let us see them in review once in 15 years on such an occasion as the Queen's Birthday; every town and village in the Empire tries to celebrate the day in some special way, why not Toronto, which is better able to make a display than any other city in the Dominion? If the press will bring the subject before the public it is sure to gain ground.

Henry Alien & Co., New York, to John J. Dixon & Co.: Today's stock market was in the hands of the bull workers for about half of the day and they worked hard. Somehow, however, snags seemed to be struck just about the time a full head of manipulation steam was on, and stocks that were the strongest came tumbling out of long accounts by wholesale. Reading got down to 53 and even the recent rising Yanderbits slouched off. The fact that the Attorney-General of Pennsylvania is going to carry the coal combine into court and try to smash it seemed suddenly to dawn upon Wall-street as possibly an unpleasant proceeding. Stop orders were caught by wholesale and the market began to go down. Richmond Terminal was lifted from 12½ to 13¾ on a report that insiders were really not sitting up nights trying to do one another injury. They are a happy family, each one helping the other to make a profit. This humorous view of things faded a little before close of the market and the stock got down to 13 again. GRATEFUL-COMFORTING

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Occoa Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunareds of subtle making are floating around us rendy to attack wherever there is a weak point.
