RED CROSS ORGANIZATION

Officers Elected at Meeting Held in Bridgetown on Last Wednesday

A meeting for organization of Annapolis County in the Red Cross Membership Enrollment Campaign was held in the Board of Trade rooms, Royal Bank Bldg., Bridgetown, Wednesday, May 11th.

Representatives from the various County towns were present.

On motion Dr. Armstrong, Medical Health Officer, was elected temporary Chairman and Mrs. D. Owen, of Annapolis, Secretary.

A letter of regret was read from Dr. Chisholm, of Prov. Health Dept., stating that owing to illness he had been obliged to return to Halifax.

After some general discussion of the following County officers were elected:

President, Dr. Armstrong, Bridgetown.

Secretary, to be filled by appointment by President.

Executive Committee: Mayor Warren, A. A. Dechman, M.D., Bridgetown; L. R. Morse, M. D., H. H. Whitman, Lawrenceport; Mayor Darling and Dr. Sponagle, Middleton; F. C. Whitman and C. C. King, Annapolis Royal.

It was decided that the various towns have a supervision over the adjoining rural sections and that the matter of soliciting members be given to the school teachers in the country sections and that an endeavor be made to get at least a membership fee (\$1.00 from every family in the County.

In the larger centres the Women's Institutes and other organizations will undertake the work.

Sixty per cent. of money collected is to be used in the County for public work: County Health Nurse, School work, etc.

Advertising matter and literature explaining the peace programme and crusade for good health that is to be carried out will be distributed at once, so that every person in the County may know before being asked for their dollar, all about it.

We believe Annapolis County will give a ready response to this crusade.

IS CANADA TO BAR THE DOOR?

Under the above title the Employers' Association of Manitoba has issued in pamphlet form a small folder dealing with the restrictions that the Canadian Government has placed on immigration, pointing out that any excess in unemployment at the present time, is due to the fact that the public stopped buying goods made dear by too high a cost of production in which labor largely figures and that Canada needs new people, not only on the farms, but in all lines of industrial activity where it is now almost impossible to get men to do the great amount of necessary rough labor to keep the wheels of industry moving.

What would Canada have done in previous years without immigration? Where will Canada be if the results show before the Ottawa House that all immigration be suspended until a normal condition of affairs is established is considered? asks the writer. "Lobbyists have been busy at Ottawa for some time, picturing before the members, the fearful results that will likely follow if Canada does not bar the door of immigration. There is abundance of work in Canada and there will be plenty for everybody to do—immigrants and all—for years to come. The present difficulty is that labor and capital will not gamble on the high cost of production, and therefore, it is not the scarcity of work that is causing the trouble but the scarcity of capital.

"The propaganda that Labor leaders have been spreading in the Labor Press is of an entirely selfish and class distinction. The phase of the immigration question considered by them is how will immigration affect labor supply, or to be more concrete, how will it affect wages? Labor leaders speak of possible immigration aggregates that will likely flood Canada, but they never eliminate the 30 to 40 per cent. of women, school children, and under, included in immigration totals, that do not enter the labor market. Statistics show that of every twenty male immigrants over 21 years of age, the average is about three skilled laborers, ten unskilled workers,

and the other seven of professional and miscellaneous occupations."

"There is a general impression that the only immigrants Canada needs are those going directly on the farms. That may be true but will the immigrant coming to Canada go directly to the farm? Mr. W. S. Bennett, member of the United States Immigration Commission, who worked two and half years investigating the question of immigration abroad, challenges any statement that the cities are the wrong place for the immigrant as far as the immigrant is concerned."

"Mr. Bennett goes on to say that the Immigration Commission found the fact to be that 98 per cent. of the immigrants in a general way and sometimes very specifically, know what employment they are going into before they leave their homes, their wives and other dependents. He has an opportunity in the first few months, to gain a wider knowledge of Canadian conditions from people of his own birth who are all ways to be found in the cities and towns if when the immigrant first lands he is not trained or even equipped to go out on the prairies to settle down and get a living from the soil, what is the use of sending him out there to become a disgruntled and dissatisfied citizen? Immigration is a problem of great consequence to the people of Canada today. Immigration has a great influence on industry and on our prosperity which is the basis of revenue for the government. The public generally, should seriously protest against any government action which would prevent the entry of desirable immigration into Canada. A constructive policy of selective immigration is needed and it is up to Canada to establish a constructive policy based on a careful examination of conditions here and abroad to the end that it may safeguard our interests and promote the general welfare, regardless of any one class."

Certainly there are people who should not be permitted to come into the country, because in the very nature of things their admittance means conflict and radical social disturbance in our midst. Canada already has its share of this class.

THE SECOND SPRAY

By G. E. Sanders

This spray should be applied immediately before the blossoms open and in most seasons is the most important spray in Nova Scotia apple orchards.

This is the spray that must be depended upon to control the Green Fruit Worm, which will start feeding on the leaves while the blossoms are out. When applied under high pressure it is as effective as the first spray in the control of the bud-moth and it is of considerable value in the control of the codling moth, since a large proportion of the codling moth larvae feed for a time on leaves before attacking the fruit.

The second spray has to protect the leaves, blossoms and young fruit from apple scab and other fungus diseases over the blossom period until the third or calyx application of spray or over a longer interval than between any other sprays or dusts, and for this reason should be very thoroughly applied.

If liquid is used from 100 to 150 gallons per acre should be applied and the pressure kept above 200 lbs.

The formula for the second spray is 3 lb. blue stone, 10 lb. arsenate of lime and 1 lb. arsenate of lime to 40 gallons of water.

If dust is used an extra quantity should be applied. Say over 50 lbs of copper arsenic dust per acre or over 75 lbs. of sulphur lead arsenate dust per acre.

Drop a post card to the Dominion Entomological Laboratory, Annapolis Royal, N. S., for a spray or a dust calendar or special information regarding spraying.

DAYLIGHT SAVING

(Ottawa Journal)

The clocks were turned ahead an hour on Saturday night, and until next autumn the people of Ottawa will enjoy daylight saving. The verb is apt, because that extra hour means much to city dwellers. They are not so selfish, however, as to be insensitive to the opposition which many farmers assert against this measure, and sincerely wish it were otherwise. They regard it as wholly due to misunderstanding.

If those who live outside the city do not care to accept the change involved in moving the hands of the clock an hour ahead, all they have to do is to leave the clock alone. They live and work under such circumstances of personal independence that each farmer might be said to be head of a little kingdom of his own. He fixes his hours of toil to suit himself, gets up when he likes,

works as long as he likes, and goes to bed when it suits him.

Even in the city there are people who do not clearly understand daylight saving. They hold that it compels them to get up an hour earlier every morning, and they grumble about it as though it were a fact.

What would happen to such people if they ever went to live in Great Britain, where they would be required to get up five hours earlier every morning, can only be conjectured. No doubt there were individuals who were so sincerely disturbed when scientific men began to teach that the earth was round. Even under standard time it is quite unavoidable that those who live at the eastern end of the zone must get up, an hour earlier, by the sun, than do those at the western end.

The lesson to be learned is that all clock time is arbitrary, and we certainly could not get along only using sun time.

Turn schooner Ononette, Captain Longmire, which went from St. John, in ballast, to New York, rather than accept the low freight rates on lumber, arrived at her destination on Sunday and will return to St. John with cargo of hard coal.

F. W. Pickles, of Annapolis, has sold for the owners the tern schooner Peace and to Captain Medley Blenkhorn, Captain C. W. Blair and others of Parrsboro. The Peace and is a fine vessel of 201 tons register, built in 1919 and classed for thirteen years. For the present she will be employed in the coasting trade.

Making the second former Annapolis Royal three-masted schooner to be reported lost within a week, advises state that the Edna V. Pickles became water-logged off St. Andrew's Bay, Florida, and sank, the crew abandoning the vessel after all efforts to save her proved useless. The other schooner was the C. W. Mills reported destroyed by fire in southern waters. Both vessels were sold a couple of years ago to American parties in the south, but retained their Canadian registry. The Mills was bound from Pascagoula for Havana, lumber laden. Crew saved.

THE CRUSADE FOR GOOD HEALTH

Many people wonder why the Red Cross did not stop its work when the war ended. That was what it did after the South African War, and it was expected to do the same after the great war. But the Red Cross was not to be allowed to stop, it

was destined to take on the new obligations of a peace time programme, even before it had completed its war work.

The war had made vividly clear some things which a quarter of a century of peace might not have revealed with so much impressiveness. The war had given us a revelation, for it may fittingly be called a revelation, of the relative worth and ability of the ordinary man and woman. The spirit of the race had not decayed. But the war had revealed also the shockingly poor physical condition of a great proportion of the men of the Empire. In the alleged progress of civilization, in the organization of industries, in the developments of big business for creating and controlling wealth, regard for the intrinsic worth of human life—of men and women in good health living and working under wholesome conditions—had been to a large extent neglected. Think of the significance of this. During the last year of the war, from 1st November, 1917, to 31st October, 1918, the number of men called up to the army in Great Britain was 2,425,184. The summary of the results of the medical examinations of them shows the following facts: Of every nine men, three were fit and healthy, two were in infirm health, three might be described as physical wrecks, and one as a chronic invalid, with a precarious hold on life. Since that was the physical condition of the men at their most vigorous age, what would be the condition of health among the women and children. It is not reported that the disabilities were the results of active diseases; they were evidently in most cases the consequence of poor nutrition, neglect of personal hygiene, and unsanitary conditions of working and living.

It was inevitable that serious consideration should be given to such an alarming state of affairs in respect to health and that action should be taken for the purpose of remedying it as soon and as far as possible. Remembering the great part the Red Cross had played during the war as an auxiliary of the governments, the minds of statesmen and others naturally turned towards it as an organization which could help the governments immensely in the efforts which they must take for the improvement of health and the prevention of disease.

Every child born in Canada should have an opportunity of starting life in sound physical health, of growing to maturity in and through the healthful exercise of its powers and continuing to live in good health under wholesome conditions until the full course of life is run. Towards that end the Red Cross calls upon all intelligent men and women to join the Crusade for Good Health and to join the Red Cross which can do more for the country in peace than it was able to accomplish in war.

RUN ON MAIL ORDER PLAN

Would be Able to Compete in Every Way With Instant Store

The local merchant deserves to have the first opportunity of supplying the requirements of the district in which he is located. If the buyers at his store would be content to have him conduct his business on the same basis as a mail order house he would be able to compete with them in every respect. If Jones the merchant kept only samples and catalogues on his premises, and sold from these for delivery ten days later, cash in advance, he would be able to undersell the mail-order house.

Imagine going into the corner store for a pair of overalls. Jones exclaims "Yes, we will sell you a pair of overalls. Here is a picture of them. They will cost you the listed price plus the carrying charges from the manufacturer plus the cost of the postal order commission—and you can expect to get them in ten days' time. Call here and see if they have arrived in that time, but pay your money now."

If the local merchant conducted his business in that manner his customers would be indignant. But would he not be justified in doing so, for his largest competitor transacts his business in precisely that way, and the same people do not object. They obtain a catalogue every spring. It is filled with pictures and listed prices. They select their purchase, write out an order for them, pay for a money order, wait ten days, go to the express office, pay the carrying charges and pack them home—and think they have done a good stroke of business.

When they do patronize their local merchant, it is to buy something they want in a hurry. They expect him to keep his shelves stocked with a variety of merchandise for their selection. They examine each article at will, order it, delivered at their homes, and pay for it in thirty days' time, or when they are ready to do so. They expect the merchant to store goods for their convenience, to make deliveries, and finance their buying—and expect to pay nothing for the service.

A large number of friends met at the home of Mr. and Mrs. Levi Acker on Tuesday evening, May 3rd. A surprise birthday party for our teacher, Miss Muriel Slauchenwhite, was the intention of the gathering and the party was well planned for it was a genuine surprise. The evening was passed very pleasantly and both the settlements, Springfield and Lake Pleasant, were well represented. One feature of the evening was the presentation of a nice gift from the Lake Pleasant friends to our teacher. The young folks closed the evening with the national anthem and with many birthday wishes and the assurance of a very pleasant evening departed to their homes.

This is the third year Miss Slauchenwhite has been employed as teacher in our section and her efforts have been crowned with success. She has the honor of having in her school two students who took Grade 10 exams, at Middleton last year and who made the highest and third highest average on six subjects at that station, namely, Miss Ruth McNayr, 443, and Miss Blanche Allen, 430. These same students are writing Grade 11 exams, this year and we sincerely hope they will be successful. In addition to her school work Miss Slauchenwhite is taking a course in show card work. During her stay she has made many warm friends in this village, and one at least outside the bounds which may prevent us from securing her services as teacher for the ensuing year.

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Meaford, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache, and I also had a female weakness. I felt dizzy and nervous, and was without energy. I had to force myself to do my work, and was always tired. Saw a Pinkham advertisement which induced me to take the Vegetable Compound, and my back gradually stopped aching and I felt lighter in spirits. I am recommending the Vegetable Compound with pleasure to all I meet who complain as I did."—MILDRED BROOK, Meaford, Ont.

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

On the Old Farm in Springtime

I was out driving a three-horse team on the old farm, writes Mr. Edward Crane, of Kimbarn, Ont., "when part of the harness broke. While fixing it, one of the horses kicked out and knocked my arm against the sharp edge of the harrow. I was severely cut about the elbow and wrist.

"Not being able to leave out to get the wound dressed, dirt got into it, and my arm grew so stiff and painful that it looked as if I was in for a bad time. As soon as I could, I washed the wound and dressed it with Zam-Buk. Next day the arm was much less sore, and the stiffness less troublesome. I continued to use the herbal Zam-Buk freely and in a few days it healed the injuries splendidly. Zam-Buk should be on every farm."

Zam-Buk is the purest, safest and most wonderful healing substance in the world. Invaluable for eczema, ulcers, ringworm, poisoned sores, burns, scalds, pimples, boils, and other spring skin eruptions. All dealers 50c. box, \$ for \$1.25, or from Zam-Buk Co., Toronto.

CORRESPONDENCE

To the Editor of the MONITOR:— DEAR SIR: First of all I shall tell you who I am. I am the "Brook Road". I live between Clementsvale and Clementsport, in a most picturesque section of the country. I am a very necessary member of the community and want to be a useful one as well. So I am putting my case before the public. You see the "Highway Board" know me, but consider me too insignificant to bother with, to an extent worth while. I spoke to several to write to you, but finally saw the Rector and he promised to set forth my case for me, and I know he will. The fact is I need a doctor, a real doctor, I have suffered too much from faith healers. When I tell you, my back-bone is exposed in many places, when I tell you great sores and little sores cover a large part of my body. When I tell you to an extent worth while. I tell you that great cuts furrows have been plowed in my back, to say nothing of pimples of various sizes and shapes, and broken ribs, you can see I need a doctor. I am sick of promises and plasters. The soothing message of a split-log drag would have eased me greatly, if done while my skin was soft, out OH! OH! they will wait until I am shrunk and hard, until my blood is dried up, and then they apply plasters and bandages, and express wonder that I'm not well. The members of the Board at the time of the commission were too busy to questions of men to hear what the roads had to say. But I am told that in the great capital of Nova Scotia, a big Road Convention is being held, that really big men are there, if so perhaps they will see the reason of my plea, and I plead for my brothers throughout the province. I am not a federal aid road, at least the Board have not yet said so, but there my be a chance. All I ask is treatment, sensible and honest, with instruments fitted for my case. I demand what the people have paid for. "The life of the roads of Nova Scotia." "THE BROOK ROAD" Per A. W. L. Smith. Clementsport, N. S., May 12, '21.

"ITS GRANDEST IN THE WORLD"

St. John's Woman Says Tanlac Restored Her Health After Four Years Of Suffering

"I suffered for four years before I got Tanlac, but since this medicine restored my health six months ago I have been feeling just fine," said Mrs. E. Clayton, Walsh's Square, St. John's, Newfoundland.

"I had indigestion and dyspepsia, could hardly eat enough to keep me up and what little I did eat would bloat me until the pain was often so bad I just had to lie down. My nerves were so shattered I could scarcely sleep, and just any little noise would upset me completely.

"I had dreadful headaches and always felt so tired I could barely stay up, and just before I got Tanlac I couldn't even look after my housework. The fact is, I was in such a miserable condition that I was afraid to be left alone even for a few minutes.

"I tried a lot of different medicines, but nothing relieved me until I got Tanlac, but it certainly made me feel like a different person. My appetite is so good now that I am always ready to eat, and I can eat anything I want without the least trouble. My nerves are so quiet I sleep like a child every night and never have a headache or the least worn out feeling. I am certainly in fine condition and I just think Tanlac is the grandest medicine in the world."

Death has once more entered our village. On Friday, May 6th, Mr. Elijah Risteen departed this life, leaving to mourn their loss his wife, one son and one daughter beside an aged mother and three brothers. We extend our sincere sympathy to the family.

WEDDING BELLS

NASON-CLARK
A wedding of much interest took place Wednesday afternoon at 5:15 o'clock in Centenary church, when Miss E. Jean Clark, daughter of Mr. and Mrs. Charles A. Clark, 128 Wentworth street, and Stanley S. Nason, were united in marriage by Rev. J. A. Goodwin. The bride wore a navy blue and gray traveling suit, trimmings of black, with touches of color, gray squirrel furs, gray hat and shoes, and carried a bridal bouquet of Ophelia roses. She was unattended. The ceremony was performed in the presence of the relatives and immediate friends of the family. Mr. and Mrs. Nason left last evening for a wedding trip to points in the province. On their return they will reside at 128 Wentworth street.

Both the principals are well known among the young people of the city. The bride is a graduate nurse of the Boston Homeopathic Hospital, and is the daughter of Charles A. Clark, accountant of the department of marine and fisheries. The groom had three years service overseas with the 6th Siege Battery. He was a member of the original battery which left here in May, 1916, and served with them in France until the armistice. On his return he was for several months on the staff of The Daily Telegraph, and is at present a member of the teaching staff of the city schools.

The bride was the recipient of a large number of gifts, including several substantial cheques.
(The bride's grandfather was a native of Granville, where many relatives still reside.)

What else could you expect of Mr. Edison but the BEST?

THE best thing we can say about the New Diamond Amberola is that it was created by the greatest inventor in the world—Thomas A. Edison. You wouldn't expect anything but the best from his mind and hand.

That, too, is why the Amberola is so surprisingly low in price. Come hear it and compare it with any "talking machine" you have ever heard, at any price.

LOCAL DEATH ROLL
(See also Page Three)

MRS. EMMA SPROWL
A Clarence correspondent writes: The many friends and acquaintances in this community were shocked to hear of the sudden death of Mrs. Emma Sprowl of heart failure at the home of her daughter, Mrs. W. A. Poole, Everett, Mass., on Saturday morning, May 7th, at 12.30 o'clock. The deceased was formerly Miss Emma, daughter of the late Joseph and Caroline Palmer, of Melvern Square. She was twice married, her first husband being the late Elijah Sprowl, of Clarence, by whom she had four children, Rosy, who died in infancy; Everett and Josie, of Clarence, and Mrs. W. A. Poole, Everett, Mass. Her second husband was the late William Sprowl, of N. B. Shortly after her marriage she united with the Clarence Baptist Church and remained a consistent member until her death. Early last autumn she went to reside with her daughter in the U. S.

The remains were brought home and laid to rest in the Paradise cemetery. Before leaving Everett, Rev. Hughes, Pastor of the Church in that city, conducted a short service at the home. An impressive service was held at her late home on Sunday afternoon, conducted by Rev. Hadden Balcom, Text Judge 11.7. The large concourse of friends showed the esteem in which she was held. She leaves to mourn, besides her two sons and daughter, four step-daughters, two step-sons and nine grandchildren, one sister, two brothers and several nieces and nephews. The entire sympathy of the community is extended to the bereaved ones. Undertaker Reid had charge of the burial service.
