## WOMAN KILLED AT SHERBROOKE BY BOMB

**On Opening Mysterious Packet Delivered by Postman, Mrs. Blodeau Met Almost Instant Death, Sister-in-Law Was Injured and House Wrecked.**

SHERBROOKE, Que., June 17.—(Can. Press.)—An infernal machine sent thru the mails, when opened this morning, killed Mrs. Blodeau, wife of Thos. Blodeau a contractor, and wounded Miss Blodeau, her sister-in-law.

The infernal machine was delivered in the ordinary way at noon. Mrs. Blodeau was proceeding to open it, when the parcel exploded and she fell to the floor, terribly injured, death was almost instantaneous. Miss Blodeau, who was with her sister-in-law at the time the parcel arrived, was hurled across the room by the explosion, and injured about the body. A portion of the house was completely wrecked.

No motive has so far been unearthed by the police to explain the sending of the bomb. The explosion also blew down a portion of the house. Miss Blodeau, in the course of an interview at the hospital, said the infernal machine was about six inches in length. When Mrs. Blodeau began to open the parcel, there was a blue flame followed instantly by the explosion.

A search of the room revealed pieces of a letter which had evidently been inside the package containing the bomb. Writing upon these pieces is in French and the police think that they will not be able to join the fragments together to form the whole letter, the writing will give them a clue.

Coroner Bachaud swore in a jury to-night and took the testimony of a few witnesses. The first witness was Alphonse Blodeau, husband of the dead woman. He was not present when the accident occurred and consequently could give little evidence of importance. He stated that he had no reason to suspect any person.

**Addressed to Husband.** Omer Gaumont, postman, who delivered the fatal box, was the next questioned. He stated that the box was addressed to Mr. Blodeau and not to Mrs. Blodeau. He handed her the box, which was about six inches long by two high and two wide. He then left and when about a hundred feet away heard the explosion. He rang in a fire alarm, and upon the arrival of the firemen, accompanied them into the house, where they found the dead woman. As far as he knew the box was stamped with Canadian stamps.

**ALMOST KILLED IN HOME.** KINGSTON, June 17.—(Special.)—Mrs. John Geach narrowly escaped death in her own home at Portsmouth. Men were blasting on a roadway close by. As the blast went off, the limb of a tree jammed thru the side of the frame dwelling and made a hole in the house. Mrs. Geach had just stepped out of this room a few minutes before the accident.

**Imported English Straws.** The fact that we have the most complete and varied assortment of imported straw hats for men in Canada is sufficiently proved by the enormous increase there has been in our business this present summer over the business we have done in past years.

Of course Toronto is growing and all successful businesses show an increase this year over any previous year. But the hat business has been subject to more competition and wider claims from retail hat makers than ever in the history of this business in Toronto.

## TAX DESCENDS AS FAMILY GROWS CHANGE MADE IN U. S. INCOME BILL

WASHINGTON, June 17.—(Can. Press.)—An additional exemption of \$500 for each child of a family in the income tax section of the tariff revision bill was determined upon tonight by the senate finance sub-committee, of which Senator Williams is chairman, and the change will be recommended to the majority members of the committee tomorrow.

Having determined upon this important amendment to the income tax, the sub-committee is also considering recommending a change in the \$4000 exemption in the Underwood bill to \$3000. This, it is argued, would greatly increase the revenue, and with the additional exemption proposed for children, would not impose hardship upon the heads of families.

Tomorrow the full committee will take up the income tax and administrative features of the bill, having concluded the sundries schedule late tonight.

## JUDGE, SENTENCING MILITANTS EMPHASIZES SIN OF SUICIDE

**Women, Given Severe Penalties, Express Readiness to Starve to Death, and Judge Phillimore Points to Government Canon Against Self-Slaughter — Suffragettes Not Dismayed.**

LONDON, June 17.—(Can. Press.)—Six of the most prominent leaders of the militant suffragettes' organization and one of their male supporters were today found guilty at the central criminal court of conspiracy to commit malicious damage to property. The trial has lasted several days.

The women were officials of the Women's Social and Political Union. They were: Miss Harriet Kerr, Miss Agnes Lake, Miss Rachel Barrett, Mrs. Beatrice Saunders, Miss Annie Kenney and Miss Laura Lennox, while the man was Edwy Clayton, an analytical chemist.

The jury handed in a recommendation to mercy in the cases of Miss Lake, Miss Lennox and Miss Barrett. Justice Phillimore passed sentence on the militant suffragettes as follows: Miss Annie Kenney, 18 months; Mrs. Beatrice Saunders, 15 months; Miss Harriet Kerr, 12 months; Miss Rachel Barrett, 9 months; Miss Agnes Lake and Miss Laura Lennox, 6 months each, and Edwy Clayton, the analytical chemist, 21 months. All the prisoners were committed to the third division, which entails hard labor.

Each defendant was ordered to pay one-seventh of the costs of the prosecution.

## PRESENT REPORT NEXT MONDAY

**Sir William's Reply to City's Memorandum Will Be Brought Up at Special Meeting.**

Sir William Mackenzie's reply to the city's memorandum of requirements will be submitted to the council at a special meeting next Monday.

"There were two conferences yesterday between Sir William Mackenzie and controllers and myself upon the memorandum we submitted to him, setting forth the requirements of the city in purchasing the Toronto Railway Company and Toronto Electric Light Company properties," Mayor Hocken said.

"Another conference is necessary this morning. That will not permit time for the preparation of the memorandum by Sir William for submission to the city council. A little more delay will be beneficial, rather than hurtful, for I wish to be deliberate in the negotiations, and to present to the council only results that are unquestionably in the interests of the city.

## "Suff" is Released

LONDON, June 17.—(Can. Press.)—Lillian Linton, the suffragette who was arrested at Doncaster on June 9 and was awaiting trial at the Leeds assizes, on a charge of being implicated in the Kew Gardens outrages, was liberated from prison today. She had been on hunger strike since her arrest.

## CONGRESS WILL HEAR MESSAGE

**On Currency Reform From President Wilson, Who Typed It Himself and Made No Changes.**

Special to The Toronto World.

WASHINGTON, June 17.—President Wilson will read his message to congress on currency reform to the house probably Friday.

Sunday afternoon, while the women folk of the White House were out riding, the president, stood his desk, loosened his collar, rolled up his sleeves, sat down at a typewriter in his study and "knocked off" his message.

Today the president submitted it, just as he wrote it on his typewriter, to the cabinet. No changes were suggested and the president will read from the original copy.

This is the first message the president has actually "typed" himself, since entering the White House, though he used to do so when governor of New Jersey.

**Shot in the face by a gun in the hands of her fourteen-year-old brother, Mary Sedore, aged 12, lies in the General Hospital in such a serious condition that her recovery is doubtful.**

The accident occurred at the Sedore home near Brown Hill, on the Metropolitan car line. The lower part of the girl's face was terribly mutilated by the bullets from the shot gun.

As far as can be learned, the girl's brother made a practice of shooting groundhogs on the farm. Yesterday morning he prepared to go out for a little sport while the father was away. He took the gun from the corner and started to clean it.

On the last occasion when he had the gun out, the boy left a cartridge in it so as to be able to shoot woodchucks on the way home. He evidently forgot to take this shell out and the weapon was therefore loaded when he snapped the trigger.

## STEFANSSON OFF FOR LAND OF ESKIMOS

**Expedition Given Send-Off by Sir Richard McBride and Civic Dignitaries of Vancouver — Karluk Carries a Huge Quantity of Supplies For Five Years' Trip.**

VICTORIA, June 17.—(Can. Press.)—The Karluk, with the Stefansson expedition aboard, got away late this afternoon. At 10:30 o'clock this morning the Karluk turned within hailing distance of the navy yard wharf, where the lieutenant governor and Sir Richard McBride boarded the vessel, wishing Godspeed to the members comprising the expedition.

The Karluk cruised in the harbor this morning, adjusting compasses and at 3 o'clock cleared for the north. There was an interesting conversation aboard the Karluk when a deputation of civic dignitaries composed of Mayor Morley and a number of aldermen, presented four Canadian flags to the captain of the vessel.

To Plant British Flag. Mr. Stefansson was charged with the safekeeping of the flags which will be planted on any land that comes within the British Empire, as the result of discovery made by the expedition. The ship never sailed from Victoria, that carried a more varied cargo. In addition to the heterogeneous heap of foods and miscellaneous equipment necessary for an expedition of this character, there is stowed on the deck of the Karluk huge piles of overflow supplies.

Mr. Stefansson was banqueted yesterday by Premier Sir Richard McBride and members of the provincial parliament.

Sir Richard presented the explorer with a piece of plate in commemoration of the departure of the expedition. Capt. Bartlett of the Karluk said today that it was not only possible but altogether probable that the expedition would return to civilization via Melville Sound, Lancaster Sound and Barfin Bay.

## CHIEF WALDO IS NOT DISMISSED

**New York Aldermen Reject Recommendation of Committee Which Investigated Craft Charges.**

NEW YORK, June 17.—(Can. Press.)—The board of aldermen rejected today by a vote of 45 to 29 its special police investigating committee's report, that recommended among other things the removal of Police Commissioner Waldo from office. The report was a majority one, prepared after an enquiry made subsequent to the murder eleven months ago of Herman Rosenthal, the gambler, by gunmen hired by Police Lieut. Charles Becker.

The refusal to adopt the report followed a wordy wrangle, in which it was freely charged by Tammany Democrats and by fusionists that politics was largely behind both preparation of the document and the opposition to its acceptance.

## BIG FIRE CAUSED BY UPSET STOVE

**Woman Knocked It Over While Trying to Spank Her Son—Fifteen Buildings Destroyed.**

MONTICELLO, N. Y., June 17.—(Can. Press.)—Mrs. B. Wolfe of Ferrand, Sullivan County, near here, tried to spank her young son last night and in doing so upset an oil stove. In the fire that followed 12 business houses and three dwellings, including the Wolfe house, were destroyed. The loss is estimated at \$75,000.

## ANOTHER FEATURE

Toronto is the construction centre of the country, and, recognizing this, The World will, starting today, give complete reports of all contemplated work, and progress of building construction across the country, treating Toronto particularly.

This new feature, added to the regular realty columns and news of municipal affairs affecting real estate, will further emphasize The World as the authority of the allied realty and building interests.

## PASS THE HOSPITAL GRANT

If the City of Toronto was offered a hospital of the magnificent dimensions of the new General Hospital on College street, provided ten acres of land were given as a site, the aldermen and controllers would jump at the offer. By agreeing to an additional grant of \$210,000 this afternoon, the city council will simply be paying for the site upon which the best hospital on the continent has been erected. The site cost \$610,000, and as the city already has given \$400,000, the additional grant of \$210,000, will put the city in the position of contributing the site.

There is no doubt but that the ratepayers of Toronto take the same view of the situation and will vote in favor of the bylaw, when it is submitted. The trustees of the Toronto General Hospital have contributed a large proportion of the money which has made possible one of the best hospitals in the world.

To engage in Toronto a hospital that will engage the attention of the civilized world, and to have it opened tomorrow free of debt thru an additional grant of \$210,000, is something to appeal strongly to civic pride and philanthropy.

## BERLIN DOCTORS ASSAIL VACCINE

**Friedmann Has Failed to Make Good His Claims Is General Verdict.**

BERLIN, June 17.—(Can. Press.)—The last meeting of the Berlin Medical Society showed that the drift of opinion of Berlin physicians was strong against Dr. Friedrich F. Friedmann, the Berlin physician who claims he has discovered a cure for tuberculosis.

Prof. Max Westenhofer of the University of Berlin reported that a post-mortem examination of one of Dr. Friedmann's patients, who had been young and strong, showed a marked acceleration of the tubercular process after treatment. Altho Dr. Friedmann had assured a cure, tuberculosis showed plainly at the point of infection.

Prof. Westenhofer censured Dr. Friedmann for failing to give scientific data and for going abroad to exploit his remedy.

Frau Rabinowitsch, professor of bacteriology, said that the Friedmann cultures apparently were made in cold blood, which experience had shown does not give a harmless product.

Prof. Max Wolf of the University of Berlin, who had examined patients treated by Dr. Friedmann, reported that he had found no improvement.

Prof. Ludwig Schieler, who represents Dr. Friedmann during the latter's absence from Berlin, was alone in defending him. He declared that undoubted cures had occurred and announced on behalf of Dr. Friedmann that the vaccine would be placed at the disposal of the physicians after the doctor's return.

## UNFAIR TO MAKE FREIGHT CAR STANDARD

**Proposal to Limit Height Would Work Out in Interest of American Manufacturers Argument Made by Canadian Shippers—Railway Board in Dilemma.**

OTTAWA, June 17.—(Special.)—That a case of discrimination against the Canadian shipper lurked in the apparently innocent matter of the standardization of Canadian freight cars at a height of 13 feet 6 inches, was shown at this afternoon's sitting of the railway commissioners. It was represented that by such action an American manufacturer competing against a Canadian one would get practically a lower rate.

It has been urged that the height of freight cars be limited to 13 feet 6 inches, so that trainmen would be safeguarded and grade separation facilitated.

**Put Limit on Height.** After some discussion Chairman Drayton proposed an order that no freight car of a greater height than 13 feet 6 inches should be loaded on any line under the board's jurisdiction between points in Canada, from a United States point to a Canadian one, or vice versa. This would not interfere with the movement over lines of cars over which they had no control.

Vice-President Dalrymple of the Grand Trunk objected that this would prevent the sending back of an empty car of greater size, received from the U. S., to which the chief commissioner answered that this point might be omitted, but also remarked he could see no reason why any such cars should be admitted to Canada at all.

**Would Favor U. S.** In this regard it was pointed out by Mr. J. E. Walsh, traffic expert of the Canadian Manufacturers' Association, that if the Canadian manufacturer were not to be allowed to use those "long" cars, and the American shipper was allowed to send them into Canada, the latter would practically get a lower rate. This would be so because the minimum carload rates, that is, the sums which the shipper has to pay, are based on the length of cars, but not on actual capacity. If the American shipper could use a car of the same length, but greater height, he would consequently be able to ship more at the same rate as the Canadian manufacturer restricted to a limited height of car, and could therefore ship similar commodities to Canadian points at a greater advantage. One way to overcome this would be to base minimum ratings on cubical capacity, and the board will probably take this into consideration.

## IRISH PREACHER MAY COME HERE

**Rev. Alexander McLurg Invited to Take Charge at Cowan Avenue Presbyterian Church.**

At a meeting in the Cowan Avenue Presbyterian Church last night, a call was extended to Rev. Alexander McLurg, of Artstraw Presbyterian Church, Newton Stewart, Ireland. The salary is \$2800, and it is likely that he will accept the call.

Rev. Mr. MacLurg was a fraternal delegate to the Presbyterian Congress in Toronto. During his stay here, he preached at the Cowan Avenue Presbyterian Church. The congregation were at once taken with his speaking powers and the manner in which he translated the Bible teachings.

The church is now without a pastor, Rev. T. M. MacDonald having resigned on Jan. 1 last.

**Welsh Disestablishment Advances** LONDON, June 17.—(Can. Press.)—The Welsh disestablishment bill passed its second reading in the house of commons this evening by a vote of 367 to 258.

## LAUD KAISER AS TRUE FRIEND OF PEACE

**Sovereigns of Federated States of German Empire Pay Tribute to Emperor's Policy of Upbuilding Armament to Guarantee Security — An Advocate of Sports.**

BERLIN, June 17.—(Can. Press.)—The "day of the people" yesterday, in the celebration of the completion of 25 years' reign by Emperor William, was succeeded today by that of the allied sovereigns of the federated states of the empire, who, including the mayors of the three city republics—Hamburg, Bremen and Lübeck—presented their congratulations to their colleagues and leader at the castle.

Most of the rulers arrived in Berlin last night or this morning, and gave the sons of the emperor a busy session in receiving them at the various stations. They gathered at the noon in the Pillar Hall of the castle and tonight were present at a state banquet presided over by the emperor.

**Empress III.** The Pillar Hall is not in that part of the castle ordinarily used for state functions. It is situated in the portion devoted to the private apartments of the imperial family, and was chosen to enable the Empress Augusta Victoria, who is indisposed, to participate with the emperor in the reception of the German rulers.

The prince regent of Bavaria, acting as spokesman, said the emperor, as director of the foreign policy of the German Empire, had shown himself to be an upholder of peace and at the same time an upholder of the emperor's might, which was the safest guarantee of honorable peace. He praised him as the creator by his personal initiative of the German navy.

**Exemplar of All Virtues.** The prince regent then spoke of the economic progress made during the emperor's reign of the emperor over Germany, and praised his majesty as the patron of every moral, noble and beautiful impulse in the empire.

The emperor was then presented by the prince regent with a table centrepiece in the shape of a ship. The emperor thanked his colleagues for their steady support during his reign. He emphasized among other elements of progress the attention devoted to sport and the cultivation of the ideal of "a sound mind in a sound body."

## GERMANY BARS MEXICAN ISSUES

**Further Evidence Afforded of Severe Money Stringency in Berlin.**

BERLIN, June 17.—(Can. Press.)—The issues of the proposed Mexican National Railways and Mexican Government loan were barred from the German market today by the Prussian minister of commerce, Reinhold Sydow. He notified the banks interested in the syndicate in charge of the loans that they could not be listed on the bourse.

This action was taken as a sequel to the request of the German Government to the great German banks to desist from further foreign flotations, in view of the monetary pressure.

It is understood that the German underwriters of the loans will endeavor to place their quota abroad.

ONTARIO AUTOISTS FACE DIFFICULTY

Quebec Refuses Use of Roads to Unlicensed Chauffeurs.

PASS EXAMINATION TOO Motor League Officials Ask Provincial Government to Act.

The Ontario Motor League and the provincial government are in conjunction with a rather peculiar situation with regard to the inter-provincial privileges of motorists.

This, apparently, Quebec is not willing to adopt, and in consequence perplexity arises, particularly in eastern Ontario, over the outcome.

Quebec, by a new list of regulations, requires every outside chauffeur to purchase a license and submit to a rigorous examination.

To attempt a solution of the difficulty, President Oliver Heszelwood, and Secretary G. Robertson, conferred with Hon. W. J. Hanna yesterday.

Mr. Hanna stated the facts of the case as he had become acquainted with them by the president of the Ottawa Valley Motor Association, and hoped that within a short time a satisfactory arrangement could be reached.

The difficult centres in the fact that Ontario chauffeurs are not at present required to pass an examination of any exacting nature.

One of the objects of the deputation was to seek the advice of the minister on the motor league setting a series of examinations for the chauffeurs of the province.

The sentiment in some parts of eastern Ontario over the action of Quebec is acute. Failing solution before long, it is suggested by some that the present reciprocity legislation be revoked because of Ontario conceding rights and receiving none.

DESTROY ALTARS ALONG WAYSIDE

Chinese Discard the Old and Get New, Genuine Religion.

The following extracts from a letter just received from missionary in Kong Moon, South China, confirm the optimistic reports constantly being received as to the transformation of China.

As to the appeal of the Chinese Government, for a day of prayer, and solicitation as to the motives that prompted the appeal Archdeacon Barnett, wisely said that whatever elements might have combined to produce the request, the people had a right to believe that their truest, most prayer would bring blessing.

"Speaking of unity, a day was set apart in Hong Kong recently for prayer standing over in all the churches, and the bishop preached a most helpful sermon on the subject. It was interesting to note that all denominations took part in the prayer services for China, held in the cathedral. The sermons being given by both Anglicans and non-conformists, almost 2000 being present.

The student campaign conducted by Dr. Mott and Mr. Eldry, was wonderful. It resulted in the enrolment of 7057 students in bible study classes, pledged to daily prayer and reading the Word.

"In Canton two weeks ago, I learned that all the wayside altars had been destroyed by order, the work of breaking the images being done by criminals under the direction of guards. Moreover, all the images have been removed from the smaller temples, and are to be seen in the office of the minister of education. What will take their place? Many of the people interested in this iconoclastic movement are not Christians.

These extracts show that the change has come for China, and that the revolution may be violent and accompanied with much suffering, and that the time has come for concerted action on the part of Christians. Many things can wait, but the situation and opportunity in China will not wait.

The resolution adopted by the Presbyterian General Assembly, is in line and is opportunity with the proposal to unite Anglo-Saxon Christendom in concerted effort for China, as the immediate advance necessary to the winning of the world for Christ. Our Lord and Saviour, Jesus Christ."

PRESS WOMEN IN THE NEW WORLD

Party of One Hundred Writers Get a New Thrill Every Minute.

GO TO THE END OF STEEL They Visit the Mountainous Country of B. C. and Are Overjoyed.

(BY STAFF REPORTER.) EDMONTON, June 17.—The feminist movement has taken a tangible and triumphant form. In other words, the itinerary of the Canadian Pacific Railway and the Grand Trunk Pacific, which is to be the route of the steel, with all its attendant beauty of her train, nor Caesar on his laurel-leaved entry into Rome, nor Napoleon when proclaimed emperor, nor Wellington after Waterloo, nor one of the heroes of Henley, nor of the baseball field, ever approached the triumph of the travels of the Press Women of Canada, now the guests of our two great railways.

The gathering means so much. It is an aggregation of the women of Canada from city and country of almost every corner of our domain. If those who compose the party do not measure up to this in actual numbers, they do so by representation. There are really 108 in the party, but they represent the entire literary and artistic work and spirit of the women of Canada. Newspaper workers, magazine writers, makers of books, illustrators, poets—all are here. Even the art of publishing is represented, for the only woman publisher in the world, Mrs. Alice Harriman of New York, is a guest of our great Canadian railways.

The unsurpassed scenery of the country thru which we are traveling is one ground for the claim to an itinerary of unqualified magnificence. We are now on the return after having experienced the thrill of travel to the limit of things civilized. We have been to the summit of the snow-capped peaks about in all directions, which means the termination of the Grand Trunk Pacific Railway, the point nearest the ocean, and the last inch north of the serpentine track which blazes the way for the great iron horses of commerce and traffic.

The Canadian Women's Press Club traveled all one night and until 2 o'clock the following day, during which they covered 303 miles of fine new railway, and the most magnificent landscape conceivable, to reach their ultimate thule.

Another and altogether new world has opened to the majority. Some few before had seen the mountains, as modern traffic permitted, but not till now was there opportunity for seeing the wonderful things that lie between Edmonton and Tete Jaune Cache, or "Stop 49," not yet on the map, but which later will be set down as Hannington, B.C.

Quebec chemist pronounced good by even the experienced travelers amongst us, occasional tunnels, and hope and there bridges, showing that not even nature herself could bar the progress of commerce. Three years ago this part of the road was not yet begun. When the portion now building eastward from Prince Rupert and stretching out to the east, called the new line, had been constructed line from Edmonton to Tete Jaune Cache, shall have accomplished its ardent desire, another continuation of the road, and another established, another feat recorded to the credit of our engineers and builders. Meantime industries, particularly the fish trade, will be given a most perceptible gain by the facilities afforded by the opening up of this new line on the Grand Trunk Pacific Railway.

It is almost a pity that the written word cannot convey the sense of the excitement of fashion, or that the space of our newspapers is deemed too precious to afford opportunity for description. But the delight of the moment, the thrill of the mountains is imperative. Lifting its glistening head out from the nebulous veil that envelops it, when the giant comes first into sight, Mount Robson, the greatest, the kind, calls for recognition. "Tell the children of the cities about me," is his clarion call; "tell them of my icy summits, my towering peaks, my shining and shining like covering of whiteness. The dome to which I ascend and strive to penetrate is the fairest of azure blue. My sides are covered by terraced ridges made by the hand of Dame Nature herself and are interwoven with pale blue glaciers fallen from my utmost heights, divided by the snowy peaks of the mountains. I am so colossal that it would seem as if a child might run to bridge the intervening space and kiss my feet, but the tallest of the sons of man would cover many miles and still find my alluring surface many other miles beyond reach of his hastening feet.

Blazing the Road. This is but one message of the miles of mountains which form the walls of the delightful valley thru which the Grand Trunk Pacific train is now carrying us. Little construction camps are all along the line. The whitewashed tents of the press women and from among the trees, logs lie piled around, occasional trains of mules with their drivers are leveling the land, groups of men, shovelling, digging or laying stones, raise their heads from their work and then wave friendly hands in answer to those of the women in the passing train.

Nature makes the progress of the work a triumph, and man as represented by the officials of the Grand Trunk Pacific and of the Canadian Pacific, is doing the rest. If attention to every conceivable want that can be satisfied under the conditions of travel can be satisfied, then surely this is being done. First-class Pullmans, easy beds, a menu fit for princesses, the story books not forgetting the luxuries of ice, fruits, cream and beautiful fresh bloom—roses and carnations—these are the things that are provided. The most alert and courteous waiters yet met are in attendance, and Mr. George Ham of the C.P.R. the most courteous and representative of his road, is our never-failing chaperone. "Everyone loves Mr. Ham," said one of his press girls this morning, "we don't mind how much he loves us all provided he doesn't love anyone else particular. No one could possibly do more than this popular pilot of the press women and his praises are sung at every turn. Equally solicitous for our welfare is Mr. C. W. Warrack, publicity representative of the G.T.P., and the courtesy of the road road to the women, who

GOVERNMENT WILL PAY UNION WAGES

That Has Always Been Its Policy in the Past, Says Dr. Reaume.

FACTS MISREPRESENTED

Carpenters in Queen's Park Will Draw Same Wages as Elsewhere.

The Ontario Government is prepared to pay union wages to all carpenters in their employ. This was the statement of Hon. Dr. Reaume, minister of public works, when approached yesterday as to his attitude.

"Whatever the union rate is decided to be will be adopted and paid by the government," he said. "I understand that the union rate is the rate agreed between the employes and the employer."

The minister did not appreciate the statements appearing in the press to the effect that carpenters in Queen's Park were not going to enjoy the same salaries as their associates in other places. The facts were misrepresented, he claims.

To make the position of the government clear he gave for publication a letter which he sent to the secretary of the builders' exchange a week ago. It stated that on his return to the city he had understood the strike to settle at the rate fixed at 45 cents per hour. In consequence the architect had raised the wages to that figure. Finding later, however, that the settlement had not been made, the architect was instructed to pay only 42 cents until the strike was finally settled.

Beyond this explanation the minister did not wish to say anything. He indicated, however, that the government was willing at all times to concede with the union scale ultimately arrived at.

CARNEGIE EAGER TO BE ABSORBED

Steel Trust Didn't Do the Coaxing, Says Former Director.

NEW YORK, June 17.—(Can. Press.)—Former Judge James H. Reed of Pittsburgh, a director of the U. S. Steel Corporation, and former counsel of the Carnegie Steel Co., today enlightened the hearing of the suit to dissolve the corporation by a description of the negotiations between Andrew Carnegie and J. P. Morgan for the sale of the Carnegie Co. to the corporation.

His evidence was introduced to show that Andrew Carnegie was anxious to sell the company to the corporation in the confidence of the government, and that Mr. Morgan sought to secure the company in order to suppress competition.

"Pierpont, I am the happiest man in the world. I have unloaded this burden off my back to your shoulders. I am off for Europe. That is what Andrew Carnegie said to me when J. P. Morgan when Mr. Carnegie agreed to sell him the Carnegie Co., according to the witness.

Reed said he had attended the so-called Galt dinners to steel manufacturers and had never heard of any agreements or understandings made at these dinners. The facts were misrepresented, he claims.

"Judge Galt would exhort us like a Methodist preacher in a camp-meeting," said the witness, "telling us not to cut prices and to get everything in our own net. The policy he laid down saved a thousand men from bankruptcy. If prices had gone down, ruin would have followed."

TORONTO UNIVERSITY GETS A RHINOCEROS

Unusually Fine Animal Died at Brantford and Skeleton Will Be Preserved.

It is not often that a rhinoceros has the chance of dying in Canada. Too often they are compelled by crush of circumstances over which they have no control to pass away unwept, unhonored and unsung, in dense jungles of the African wilds. This high honor of dying in Canada—however, has come to the specimen in the menagerie collection of the Barnum and Bailey circus. The rhinoceros died on Monday night when the circus was in the city.

COL. J. W. ALLAN'S NEW MARKET MAYOR

Chief of York Rangers Elected by Overwhelming Majority.

Members of Old Council Were Defeated For Office in Two Instances.

By a vote which more than doubled that of his nearest opponent, Lt. Col. J. W. Allan, who has just resigned the office of Mayor of Newmarket, was elected Mayor of Newmarket on June 2 of seven members of the council as the result of the election held by authorizing the town council to enter into an agreement with Toronto and York Radial Railway for the purchase of power. Col. Allan, who was nominated on the hydro ticket, received 476 votes, while the 23 candidates for the old council, the York Radial candidate.

Mr. Keith, an opponent of the hydro project, was elected to the council with a majority of 28 over C. E. Lundy. The councillors elected are Dr. Boyd, Wm. Dolan, E. B. Smith, William Helmer, George Hill, with A. W. Evans and Howard Kane tied for the remaining seat.

The issue was involved by the introduction of local option interests into the campaign. Mr. Keith declared himself a strong supporter of local option, and his victory over Mr. Lundy is in a great measure due to this issue.

Of the three ex-councillors who broke their pledge and stood for office again, two were defeated, and the third, Mr. Keith, was elected. The resignation of the council was a surprise to the public, and it is a measure of the principle involved, brought into the polls who had not voted for years.

Mr. Allan is at present at Niagara Falls, and will not return to Newmarket until the end of the week.

MORAL CRUSADER MADE WRONG GUESS

R. B. St. Clair's Evidence Failed to Convict Court of Woman's Guilt.

R. B. St. Clair got rather a severe setback in the police court yesterday morning in his endeavor to prove the morals of Toronto. Late Monday evening the reverend gentleman thought he saw a woman accosting men on the street, and straightway summoned a policeman and had her arrested.

In the woman's court yesterday she vigorously denied St. Clair's allegations, and maintained that she was a respectable woman; that she has a situation, and is steadily working at it. "There is absolutely nothing to be brought here on this charge," declared the magistrate and discharged her. Mr. St. Clair's evidence was taken, but Magistrate Kingsford preferred to believe the woman, who gave her name as Miss Mary Lewis. She is colored.

GREER WILL TESTIFY AT INQUEST TONIGHT

More Light Will Probably Be Thrown on Bruce's Death.

GALT, June 17.—(Special.)—Evidence which will throw further light on the mystery surrounding the death of James Bruce is expected to be forthcoming at the inquest tomorrow night when Detective Greer will present the result of his investigations.

The story of "Coom" Gerrard, now under arrest, is said to be to the effect that Bruce had been warned by the Galt police he would be arrested if he failed to keep away from the house of his friend and get others to help. After seeing the man asleep he left him and knew no more about his doings that night.

S. WELLINGTON WOMEN'S INSTITUTES.

GUELPH, June 17.—(Special.)—There was a good attendance at the annual meeting of the South Wellington Women's Institutes, and considerable business was transacted. The reports showed that there are nine clubs in the new hospital for consumptive children, recently opened at Weston, which were entirely equipped by women's institutes.

The officers for the year are: District president, Mrs. M. P. Barry, Rockwood; district secretary-treasurer, Miss E. Friendship, Paisley Block; first and second vice-presidents, Mrs. McWilliams, Puslinch and Miss Ariss, Guelph; directors, Mrs. Hamersley, Guelph; Mrs. Lewis and Mrs. Greive, auditors, Miss Whitehead and Miss Petty.

BURGLAR'S PLEA UNAVAILING

JUDGE EMPHASIZES SIN OF SUICIDE

Continued From Page 1. GUELPH, June 17.—(Special.)—Alfred Fields, the colored man who was caught in the act of breaking into the grocery store of H. King, on Elizabeth street, was brought before Magistrate Watt this morning. Fields, in his defence, declared that he was so drunk that he did not know what he was doing, and begged the police magistrate to give him another chance.

HUSBAND LOYAL TO WIFE UNDER ARREST

Woman Charged With Raising Cheques Has Home in Renfrew.

CORNWALL, June 17.—(Special.)—Chief of Police Smyth has received a letter from James McKenna of Renfrew, Ont., making enquiry as to whether any date had been set for the trial of his wife, who was arrested last week at Spencerville for raising \$1000 cheque to \$3000, and asking if he had any communication with him. If she would be allowed to do so.

The woman appeared before Judge O'Reilly today and elected to be tried by jury at the fall assizes, which opens here on September 23. The woman appeared under the name of Frieda Helen Howard, but from the enquiry from Renfrew, it would seem that her right name is Mrs. McKenna.

CONFIRMATION SERVICE

The annual confirmation service, held last evening (St. Alban's Day) in the cathedral, was attended by a large congregation. A full choir rendered the musical part of the service very heartily. Canon MacNab, in charge, presented a class of 39 candidates for confirmation.

The thank offering for the building fund given at the service was the largest sum ever received at any previous confirmation. The bishop's address was a strong exhortation and full of Godly counsel.

NEWS OF WESTERN ONTARIO

CALL TO REV. W. J. KNOX.

LONDON, Ont., June 17.—(Can. Press.)—The First Presbyterian Church of this city has decided to call the Rev. W. J. Knox of Pembroke to its pastorate, which has been vacant for some time. Mr. Knox was formerly at Stratford.

SPITE IS ALLEGED.

STEFFAN DENIES COMMITTING SERIOUS CRIME. BERLIN, Ont., June 17.—(Special.)—Frank Steffen, the young man arrested on a serious charge on Friday last, was given a preliminary hearing before Justice of the Peace Rohleder and committed for trial. He was then taken before Judge Reade and pleaded not guilty, and his trial was set down for Friday.

The contention of the defence was that the accusation was the result of spite against the young man's family, and evidence was brought to prove that the young man was in a field working when the crime was supposed to have been committed.

Some interesting developments are looked for on Friday next.

JUDGE CHISHOLM TO RETIRE.

GALT, June 17.—(Special.)—A local paper announces the approaching retirement of Judge Chisholm, county judge of Waterloo for 19 years. His honor is 77 years of age, two years beyond the age limit defined by statute. County Crown Attorney Ward Bowley is 83, but has not any notion of giving up office, he says smilingly, but in earnest.

MEETING ENDS IN ARRESTS.

LONDON, June 17.—(Can. Press.)—An attempt by the Women's Freedom League to hold a meeting in Downing street tonight was suppressed by the police. Two of the women Mrs. Marianne Hyde and Miss Bunting were arrested.

SERGEANT LANNIN GOES TO STRATFORD

The Toronto Police Commissioners decided yesterday afternoon to send three delegates to the convention of the Canadian chiefs of police at Halifax. The theatre censor's report was laid over until next meeting.

Sergeant Crowe and Detective Wallace were given leave of absence to go to the old country, while the resignation of Constable Allen (No. 40) was accepted. He becomes ineffective Sept. 1. The resignation of Sergeant Lannin, who has been appointed chief of police at Stratford, will be accepted, and the sergeant given one month's leave of absence.

MAJ. HUGHES SERIOUSLY HURT.

KINGSTON, June 17.—(Special.)—Major H. T. Hughes of the Royal Canadian Engineers, was thrown from his horse at Barfield camp and was seriously injured.

Sir Ian Hamilton, Col. Sam Hughes and Major-General W. H. Cotton arrived in the city tonight by special train over the C.P.R. They will inspect the Barfield camp and attend the closing exercises at Royal Military College, tomorrow afternoon.

Mr. H. W. Simpson, of Simpson Bros., and Mr. F. P. Jeffrey, sailed on Wednesday from New York for England.

WOMEN DEFEND SIN OF SUICIDE

Continued From Page 1. Women Defiant. "I am quite prepared to do that," Miss Barrett (excitedly) "We shall all suffer strikes." Mrs. Saunders: "Mr. McKenna will not keep me in prison against my will."

Miss Kenney: "They have got to let me out or kill me. I think your summing up was most biased and unfair. You ought to be ashamed of yourself for finding me guilty of the crime of murdering women."

A large crowd gathered outside Old Bailey to witness the departure of the women for the prison, but there was no demonstration.

Decorate for the Holiday Season
Toronto is much favored by tourists from all over the continent. They flock to our gates during June, July and August, and go away highly pleased with our city. Why not give the city more of a holiday appearance by decorating our residential streets so that the visitors on the street cars and trolley-rides throughout the city may be more favorably impressed with its appearance? Why not decorate the verandahs in a blaze of color? The World has made it possible to do so at a very nominal cost; these gorgeously-hued Pennants lend themselves to attractive arrangement.

Try Skin Absorption Instead of Cosmetics

(From The Woman Millant). The constant use of rouge and powder invites a coarse, roughened condition of the skin, eruptions, enlarged pores and wrinkles. If you've learned this from experience, suppose you quit cosmetics and try what I recommend. Ask your druggist for an ounce of ordinary mercurized wax and begin using this tonight. Apply like cold cream, washing it off in the morning. Keep this up for a week or two. The wax will literally absorb the coarse, colored and blemished top skin, but so gradually as not to discommode you at all. Just as gradually the clean, velvet, naturally tinted underkin comes to the surface. And mercurized wax becomes your everlasting friend. For those wrinkles and large pores, make a face bath by dissolving an ounce of powdered exfolite in a half-pint with hazel. This has remarkable astringent and tonic properties, and beneficial results come quickly.

"GROW OR GO" IS MOTTO OF W. C. T. U. And Toronto Branch Report Shows Members Live Up to It.

After Liquor Traffic, White Slavery, Morals, Drama and Suffrage Discussed in Reports.

The feature of the opening session of the annual meeting of the Toronto Women's W. C. T. U., which was held in the new Willard Hall on Gerrard street yesterday, was the annual address of Mrs. Fred C. Ward, the president. The comfortable furnishings of the big assembly hall in which the meeting was held were the best evidence that the W.C.T.U. was flourishing, and Mrs. Ward did not fail to call attention to the fact. She pointed out that this was the first annual meeting under the new conditions and climaxed all by stating that 300 new members had been added during the year and that the total membership was now 1550.

"But this is not nearly enough for a city the size of Toronto," she added. "Grow or go" is the best motto for us at this time." Mrs. Ward told of the progress that was being made by temperance workers in many countries in Europe and among her encouraging reports she stated that even in Germany there was now a growing sentiment against beer drinking.

BOARD APPROVES HOSPITAL GRANT

Trustees' Appeal For Funds For New General Goes to Council.

An appeal for \$210,000 was made to the board of control by the trustees of the Toronto General Hospital. That amount is the "cost" of the land upon which the several buildings have been erected. The trustees stated that the expenditures to date is \$3,475,000. To meet this there has been the city's grant of \$400,000, the government's grant of \$800,000 and private subscriptions of \$1,895,000, the bulk of which was subscribed by the trustees. That leaves \$1,075,000 to be raised, for which is available about \$250,000 for the old hospital property. Other expected subscriptions, together with the proposed additional \$210,000 from the city, would clear the institution of debt.

The appeal for the extra grant was sent on to council and will be disposed of this afternoon. The present corrective measures are sufficient. The estimated expense is \$2500. The deputations will again wait on the board next Tuesday with a perfected proposition to be sent on to council. The board insisted that the women's organizations again urge the appointment of a commission to make a survey of vice conditions and report to the city council.

A bylaw to appropriate nearly \$3,000,000 for sites for public and high schools will be given to the council this afternoon. "We should raise the pay of the police, commencing next August," said Controller Foster.

"No more this year," Controller McCarty declared. A bylaw is to be put thru the council today to reduce the discount on water bills from 20 to 10 per cent. This will produce about \$65,000 additional revenue.

The foremen of the street cleaning department asked for raise of pay from \$4 to \$20 per week. The request was referred to Commissioner Wilson.

MISS CLEGG MAKES A HIT.

Clegg and McRae are giving one of the most sensational bicycle acts ever seen at Scarborough Beach. Miss Clegg is a Toronto girl, who first learned to ride a wheel on the streets of this city, and whose increasing skill eventually led to an offer to appear upon the vaudeville stage.

In the past four or five years she has given performances in practically every large city in the United States, and has been called the "Queen of the Bicycle." Her act is a most remarkable one, indeed. The comedy of the bill is provided by Le Roy Wilson and Tom, the acrobats, who give a very amusing and at the same time clever performance. The music is rendered by the band of the 15 Highlanders, and the moving pictures in the open air continue to be a prominent attraction.

BOARD APPROVES HOSPITAL GRANT Trustees' Appeal For Funds For New General Goes to Council.

An appeal for \$210,000 was made to the board of control by the trustees of the Toronto General Hospital. That amount is the "cost" of the land upon which the several buildings have been erected. The trustees stated that the expenditures to date is \$3,475,000. To meet this there has been the city's grant of \$400,000, the government's grant of \$800,000 and private subscriptions of \$1,895,000, the bulk of which was subscribed by the trustees. That leaves \$1,075,000 to be raised, for which is available about \$250,000 for the old hospital property. Other expected subscriptions, together with the proposed additional \$210,000 from the city, would clear the institution of debt.

The appeal for the extra grant was sent on to council and will be disposed of this afternoon. The present corrective measures are sufficient. The estimated expense is \$2500. The deputations will again wait on the board next Tuesday with a perfected proposition to be sent on to council. The board insisted that the women's organizations again urge the appointment of a commission to make a survey of vice conditions and report to the city council.

A bylaw to appropriate nearly \$3,000,000 for sites for public and high schools will be given to the council this afternoon. "We should raise the pay of the police, commencing next August," said Controller Foster.

"No more this year," Controller McCarty declared. A bylaw is to be put thru the council today to reduce the discount on water bills from 20 to 10 per cent. This will produce about \$65,000 additional revenue.

The foremen of the street cleaning department asked for raise of pay from \$4 to \$20 per week. The request was referred to Commissioner Wilson.

The Plinkier's Opportunity. The summer service of the Niagara-St. Catharines Line is now in effect between Toronto and Niagara Falls, through the Garden of Canada, Dalhousie City and Garden City are making four round trips daily except Sunday, across Lake Ontario, a pleasant sail of little more than two hours. The management reports that they still have a few good dates open for picnic engagements, but their service is even more popular than in previous years, and it will be advisable to make early application in order to avoid possible disappointment.

The attention of intending picnicers is especially directed to the improvement of this kind. Dalhousie City, with moderate rates and frequent service, makes it one of the most suitable spots available to residents of Toronto.

MISS CLEGG MAKES A HIT.

Clegg and McRae are giving one of the most sensational bicycle acts ever seen at Scarborough Beach. Miss Clegg is a Toronto girl, who first learned to ride a wheel on the streets of this city, and whose increasing skill eventually led to an offer to appear upon the vaudeville stage.

In the past four or five years she has given performances in practically every large city in the United States, and has been called the "Queen of the Bicycle." Her act is a most remarkable one, indeed. The comedy of the bill is provided by Le Roy Wilson and Tom, the acrobats, who give a very amusing and at the same time clever performance. The music is rendered by the band of the 15 Highlanders, and the moving pictures in the open air continue to be a prominent attraction.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

"THE young man I am engaged to is only making eight hundred dollars a year. Can we live on that?" is the timid query in the morning mail. Bless you, children, of course you can. Whole families on every side of you are doing it. City and government employes, teachers, stenographers and bookkeepers by the score get no more. But whether you live happily, or not, depends entirely upon yourself.

You must like housekeeping and be willing to learn to be an economical housewife. You need not be a first-class cook, but you should know the fundamentals of plain cooking, and be willing to go to market with a basket on your arm, and carry home your provisions. Then you can have an abundant variety of attractive food. You should be able to make good bread; it is more wholesome and economical than the baker's article. With plenty of good bread you have the means of making butter toast, milk toast, bread pudding, French toast, you can always have a savory bread stuffing with your roast, and homemade bread and milk alone is excellent fare, seasoned with love.

You must do your own plain sewing, and mend your clothing thoroughly. The washing you should not do, but the ironing, including shirts, will have to be done at home. No woman deserves the name of wife who is not willing to do her part, if necessary, to help earn the living.

Webster tells us "Comfort is a state of quiet enjoyment," so you must keep a tight rein on your tongue, to have a comfortable home. When your husband comes home tired at night and tells what he has had to contend with all day long, you must listen quietly and not take that moment to complain about being poor or to tell that the gas bill is unreasonable or that the bread didn't rise.

This is the time you must remember to tell "him" you married for love, not money, and that the rich sometimes become poor and, by the same token, you may some day be millionaires.

If two young, sensible persons cannot marry and live contentedly on eight hundred a year, I doubt if they could on eight hundred a month.

Hundreds of families are doing it; raising children and paying for a home besides. The credit is always due to the woman who must be a good manager; willing to work year after year, taking her pay in love as she goes along. The Lord knew what He was about when He set a married pair at housekeeping in Eden and they had much less than eight hundred a year.

Don't be afraid, young folks, if you are reasonably sure that you can count on having that much regularly. Look at the lonely old bachelors and homeless women in the world; there isn't one of them that doesn't wish they had a home and a family.

Presented With Copper Salvagers From Nelson's Flagship "Victory."

#### PROFESSOR'S TRIBUTE

Dr. McLennan Says Wright at College Always Displayed Initiative.

Dr. C. S. Wright and Frank Debenham, the newly-returned members of the Scott Antarctic expedition, were the guests of the Antarctic Heroes Ladies Guild yesterday afternoon at the Margaret Eaton School. Each of the young men was presented with a copper salver made of metal from Nelson's ship Victory, and inscribed with the famous words: "England expects that every man, this day, will do his duty."

In introducing the young men, Rev. Alfred Hall remarked that Dr. Wright could wear his salver suspended as a charm from the watch and chain presented to him by the city. It is about a foot in diameter. The salvers were presented by Lady Willison, president of the guild.

After the explorers had thanked the guild for the reception and gifts, Prof. McLennan of the University of Toronto addressed the guild.

Dr. McLennan, as professor of physics, had a great part in the training of Dr. Wright during his university course, and referred to his erstwhile pupil in terms of congratulation. While at college, he said, he recognized in Dr. Wright one of those few students who are possessed of initiative. "A professor cannot create brain power in a pupil. He can only help him to find out those tendencies which he has derived from his parents and grandparents. That is my philosophy."

Dr. McLennan spoke of the proportionally large number of graduates of the physics department who took their places on the frontier of exploration work. Three men had left college for the Hudson Bay region in recent years, and another who had presented a member of the party which is conducting a magnetic survey of the world in a ship unique among water craft in that it is built from hull to masthead without the use of iron or steel, wooden plugs and copper nails holding the timbers together.

Before the presentation a reception was held when Lady Willison received the large number of women who assembled to honor Dr. Wright and his companion from Australia, Miss Pearl Forfar sang "Time Will Bring the Roses."

#### PUPILS SANG WELL AT NORMAL SCHOOL

Feature of Closing Exercises Was Fine Rendition of Vocal Numbers.

A very pretty scene took place at the closing exercises of the Normal Model School yesterday afternoon, when 300 boys and girls crowded the hall of the museum building, while their parents and friends watched them from the galleries receive their promotions.

The feature of the afternoon was the musical program given by the children. For weeks past A. T. Crinson, Mus. B., has been training every child from the primary to the highest grade the art of singing and reciting. They started the entertainment by singing "O Canada" in chorus, with variations ranging from simple melodies to extracts from grand opera were then given, and in all of them the children sang in perfect form and reflected great credit upon the conductor. Perhaps the best two numbers on the program were Burns' favorite part song "Ye Banks and Braes" and the "Soldiers' Chorus" from Faust, sung by the boys of form four.

At this point in the program William Scott, B.A., the chairman, said a few words to the teachers and the parents of the children, congratulating them upon the splendid efforts they had put forth in making the past year a great success.

The closing number was the "Penguins' Chorus" from Tannhauser, sung by the whole school.

#### THE TRIPLE TIE BY A. H. C. MITCHELL

(Continued From Yesterday.)  
Gordon looked at his watch. "I can only spare half an hour—say forty minutes, Judge," he laughed. "You see, I am taking some lessons and the hours are from 10 to 12 in the morning and 2 to 4 in the afternoon."

"I am glad to hear that you are starting right in to improve yourself, Gordon. Lord knows there were many mountains where you were forced to spend all your life."

"I have no complaint to make, Judge. I enjoyed every minute of it. But I formed an ambition up there that I want to see realized."

"I'll tell you as soon as I feel sure I can win out," laughed Gordon.  
"To his wife Deery telephoned from his office that there would be a great dinner for dinner. "I may do some business with him at some future date," he explained. "I have nothing to do with it at present. He is a friend of Judge Barbee's. In fact, the judge is a sort of guardian of his. He has lived all his life in the mountains, but you would never know it to talk with him. He has been in the city before, but you would never suspect that either. Please pass the word along to Mildred and tell her she will be interested."

"At five minutes of seven o'clock that evening Gordon Kelly entered the Deery residence and a moment later was escorted into the living room by Mr. Deery, who presented him to his wife.  
"This is Mr. Gordon Kelly, dear; my wife, Mr. Deery said. Deery and after courtesies had been exchanged, he added: "Where is Mildred?"

"At that moment his daughter crossed the threshold, and as she caught sight of Gordon she stood stock still. Recovering herself instantly, she advanced and held out her hand as the young man was presented to her. Before half a dozen minutes could be spoken, dinner was announced.

"I don't intend to talk of the weather, Mr. Kelly, but I would like to ask if you were caught in the storm this morning," said Mrs. Deery, as the napkins were unfolded.  
Gordon intercepted a quick warning glance from Mildred, who was seated opposite him, and then answered: "I certainly did, Mrs. Deery. I was caught out in the suburbs and caught in the rain, too, but fortunately I found a friendly hand and was able to dry my clothes; otherwise I should have been in a predicament."

"You were fortunate after all," smiled Mrs. Deery. "but Mildred was out in the whole drenching rain and had a most exciting adventure. You haven't heard a word about it, Galen. Mildred, tell Mr. Kelly and your father all about it."

"I will tell them," please, mother," pleaded Mildred, with a slight flush.  
Thereupon Mrs. Deery related the incidents of the morning, exaggerating only so much as it is a woman's right to exaggerate. She omitted, however, the mean part played by Fort. Cain. Neither did she mention the hand-holding episode, for in truth her daughter had not told her of it.

"That was very kind of you to turn back, Miss Deery," said Gordon, with a smile. "As near as I can make out the young man was at fault in not looking out for himself."

"I think you are fishing for compliments for that young man, Mr. Kelly," returned Mildred. "You men always stand up for each other that way."

It was evident to Gordon that Mildred desired to conceal from her parents that he, Gordon Kelly, was the young man whom she first saw him in her home, she had made no sign of ever having seen him before. Gordon could not fathom her reasons for wishing the matter kept secret, but he felt bound to respect them.

Mrs. Deery started another topic.  
"My husband tells me you have lived all your life in the mountains northwest of here," she said. "Didn't you find it lonesome up there?"

"Oh, mother, let Mr. Kelly tell us what he thinks of Atlanta," broke in Mildred quickly. "Isn't it a fine city, Mr. Kelly?"

She flushed again slightly, the Gordon could not understand why she did so. "It certainly is, Miss Deery, but the thing that impressed me most when I arrived here, was the rumble of it. Where I have lived the only noise we hear is the sound of the wind thru the trees."

The conversation drifted into small talk. Mildred turned aside every attempt made by her parents to draw out Gordon in regard to his life in the mountains, and this was another thing in connection with the young woman he couldn't understand.

The dinner ended and Mrs. Deery asked if Gordon would care to play bridge.

"That is an accomplishment I haven't acquired," laughed Gordon, "but I must try it some day."

"Take my advice and don't do it," declared Deery. "In a moment of mental abstraction I allowed myself to learn the rudiments of the game. Never again!"

He held up his right hand impressively. "Since that fatal hour my wife and daughter have insisted on dragging me shrieking to all sorts of bridge parties for the benefit of the Old Ladies' Home, or some such charitable affair."

"They all laughed at this. It was not until Gordon was taking his leave that he managed to have a word with Mildred alone. He said: "Tell me why you make a mystery of my connection with your adventure of the morning?"

"Sh-h," she replied with a sly look. "It's a secret."

"And why wouldn't you allow me to tell of my life in the mountains?" "Sh-h," repeated Mildred with an adorable smile. "That is secret No. 2."

"I won't say so—some time."

"By the way, Mr. Kelly," said Deery, coming up to where they stood. "You ought to know some of the young men of Atlanta who will take lunch with me tomorrow. I will have you meet one of them, Forrest Cain, who, I know, would be glad to make things pleasant for you while you are in Atlanta."

"Thank you, Mr. Deery," replied Gordon. "I'll be in Atlanta in a slight pressure of business. Unfortunately I have another engagement."

Deery noticed the hesitations, but made no comment beyond "Well, some other time, perhaps."

#### THE GARDE CONDUCTED BY RACHEL R. TODD M.D.

#### TRIMMING THE FLOWERING SHRUBS

It may seem to some folk, too early to speak about the trimming of their flowering shrubs. But it is not—by any means, because already many of the early bloomers have commenced to form their seed pods, and others, not quite so far advanced as the forming of the seed pods, have at least begun to show signs of extreme shagginess.

Another point. Share the bloom from your shrub with every person whom you think you may favor. Do not forget the various institutions and hospitals. Sprays of flowering shrubs are quite as much appreciated by a vast number of people as the finest rose. Only the other day we were surprised and delighted to see the deep pleasure that a few small bunches of the sweet-scented yellow flowering currant afforded to one who, sick and lonely and away from home, lay gazing for hours on the dainty wee blossoms.

Still another point. Those persistent "suckers" that shoot up from the base of many of our choicest shrubs should be cleared away without delay. These growths are always strong, sturdy, and consequently greedy, usurping the food that should be taken up by the main plant. Nothing in the garden shows carelessness or ignorance more definitely than the presence around the various shrub-trees of the same "suckers." They are unyielding, useless, detrimental to the proper growth of the tree, and never fail to give a neglected tree to the just as much as the presence of dying blossoms and withered flower sprays do to the upper part of the plant.

Do not be afraid to clip your shrubs generously, especially such as the lilac, spiraea van houttei, golden bell, weigela, and in short, such as produce bloom on the new wood of the previous year. Every tiny twig that shoots out after the clipping of the dead flower sprays, will produce new bloom next year. The more freely one clips just so much more freely will new shoots appear.

In clipping, always try to remove any wood that may seem to tend to choke or crowd too much. Round your trees out in a clean and tidy manner. One long, lone, straggly branch that has far outgrown its fellows will tend to spoil the whole look of an otherwise perfect specimen.

### PATTERN SERVICE NEWS FOR WOMEN

#### NO OTHER WAY

25 25 By GORDON HOLMES 25 25

(Continued From Yesterday.)  
"I'll prove to you that this is no comedy, but dull and deadly earnest," cried the little man, snatching the parcel from the rack. "This is Exhibit A in the Kyrie inquiry, a witness whose testimony would be most valuable if they were alive and had the gift of speech. It could talk, too, in its own way, and frighten people out of their wits when untimely aroused. It could take unfold whose lightest word could harrow up your soul; freeze the young blood; make his two eyes, like stars, stare from their sockets; thy knotted and combined locks to part, and each particular hair to stand on end, like quills upon the fretful porcupine."

"The quotation from 'Hamlet,' delivered with some histrionic force and marked clearness, was accompanied by a stripping of the paper wrapping of a square box, painted green, with glass front and sides. Within reposed a fine stuffed owl which Clancy held before Steingall's indignant eyes, while it was, of course, equally visible to others.

In spite of his annoyance, the chief inspector realized that there must be some method in his subordinate's mad-dash, and he completely at a loss to account for it; but he deemed it best now to play up to the lead given so confidently. What else could he do? Apparently Clancy meant to blab out the whole story!

"So you have brought that, have you?" he said, catching wildly at the first noncommittal words his perplexed brain could evolve.  
"Yes, you remember, it was given me by an Absecon policeman. Mrs. Kyrie's gardener killed it, after it had attacked the lady in her own garden, causing her to scream out something dreadful, as the man said."

"It is a curiosity, certainly," admitted Steingall, still trying to supply Clancy with a cue; for, by this time Mrs. Delamar had abandoned pretence, and was gazing at the two men with an alarm they were well aware of; the other woman, who was taking in this scene with unrestrained astonishment, probably attributed her furtive eyes and parted lips to a nervousness induced by the little man's eccentric behavior.

"A curio? Isn't it an inspiration, too?" cried Clancy. "Don't you understand that this bird shared the secrets and the vigils of the dead man? It watched his comings and goings; for, he, too, was a night prowler, and it may be, met his fate at the claws of some human campfire. This very owl must have seen him starting on that last fatal voyage; or, if one might hazard a far-fetched guess, was present when his dead body was placed in the casket by the hands of those who killed him. Can't you catch some hint of the tragedy from the creature's baleful eye? It is only glass, we know; but it has been chosen by an artist, and is wicked as a snake's. I am only going to make one small alteration in the setting. I brought back from the Palm Beach road a piece of the rock on which Claude Waverton's body was flung, and it ought to go into this glass case with the owl that hooted Mrs. Kyrie with its dying breath. Don't you agree?"

"It's a queer notion, but the two may have a good deal in common," said Steingall, mopping his forehead vigorously, because the weather was warm, and the atmosphere of the room had become sultry. Suddenly the train plunged into the Hudson tunnel, and the change from daylight to electric packages was a great surprise.

Clancy repeated the case in the brown paper, tied the string carefully, and replaced it on the rack. Then, seemingly for the first time, he glanced at the two women, and for a fraction of a second his eyes encountered those of Mrs. Delamar. She was deathly pale; but so composed in manner that he fancied she was about to speak.

"I suppose you are pining for a smoke," he said to Steingall. "Shall we go forward?"  
They went out, and the going woman caught Mrs. Delamar's contemplative gaze.

"What a peculiar man the little one is!" she exclaimed. "And do you think they really are detectives? I should not have expected to find such persons traveling in a parlor car."  
"One never knows whom one may be traveling with nowadays," said Mrs. Delamar, glancing up at the square packages.

"That was really a very fine owl," he spoke of? I remember reading something about the death of a man named Kyrie. Oh, I know now—the body was found in a boat. But why should the detective drag Waverton in the case?"  
"Why, indeed?" sighed Mrs. Delamar, opening her writing case, and beginning a letter forthwith. If the conversation did not stop, she was sure she would scream; so she scribbled a memorandum of Clancy's words in the form of a letter to Tearle, but only to force the other woman into silence.

Once again she looked at the parcel. Would her vis-a-vis go to the dining car? she wondered. If so, and the man had not returned, she would certainly pitch that horrible bird thru the window, and take the consequences if its loss was attributed to her.

Oddly enough, Clancy read her thoughts. He claimed that he had the faculty of projecting himself into the mind of a criminal, and the destruction of the owl was just the uselessly vindictive sort of act he would expect from Mrs. Delamar.

WEDNESDAY MORNING, June 18.

LAUGHING LAST.

The Winnipeg Free Press would be more than human if it failed to call the attention of Colonel J. A. Currie, M.P. for North Simcoe, to the recent decision of the United States Supreme Court in the Minnesota rate case.

Two years ago The Free Press extensively investigated the subject of railway freight rates and called attention to the extortionate and discriminatory rates prevailing in western Canada.

Is it behind this wireless company which has prevailed on the Dominion Government to postpone to an indefinite period, the construction of a state-owned cable across the Atlantic?

Ontario, however, has many remarkable scenes as well as Niagara. Four of the five great lakes are associated with Ontario, and along their coasts, especially perhaps in the Georgian Bay region, and in the 1000 Islands and stretches of the St. Lawrence River, Ontario has a wonderful birthright.

The railways succeeded in showing the courts that the rates established by this board were absolutely wrong, that they were virtually confiscatory in their nature, inasmuch as it was impossible for the railways to carry freight for the rates that this revolutionary board had established there.

No wonder The Free Press feels vindicated now that the United States Supreme Court, by unanimous vote, has upheld the Minnesota rates and ordered two of the big railways to disgorge some three million dollars in excess fares.

U. S. NAVIGABLE WATER POWERS. What is described as one of the most momentous decisions ever rendered by the United States Supreme Court was recently given by that tribunal in connection with the ownership of running water in navigable streams.

In substance, the supreme court holds that the power of congress over navigable streams is absolute and that the power of the states within which they are situated is secondary to that of congress.

Is it a STOOL PIGEON? Is the wireless controlled by the cable combine?

It is significant that whenever the popular demand for a state-owned cable under the Atlantic becomes almost irresistible, public attention is suddenly diverted to the consideration of the great advantages possessed by the wireless over the cable.

Of all, Mr. Meighen deserves all that can be said of him. He is not only a profoundly capable, but absolutely straight, his departure from the house of commons would be a calamity to Canada. And now for the Progressives.

The Liberal party in power did not give the country a progressive government, but the Liberal party in opposition might become the progressive party of the country.

An excellent selection has been made by the Local Council of Women, for the membership of the proposed vice commission. When the commission is appointed, the first thing it should do would be to publish a list of the landlords who rent houses for immoral purposes.

Ontario for a Holiday

People who are thinking of their holidays just now should not overlook Ontario. It is a reproach to the people of the province that they know so little of the beauties of their own district of the British Empire.

Ontario, however, has many remarkable scenes as well as Niagara. Four of the five great lakes are associated with Ontario, and along their coasts, especially perhaps in the Georgian Bay region, and in the 1000 Islands and stretches of the St. Lawrence River, Ontario has a wonderful birthright.

The railways succeeded in showing the courts that the rates established by this board were absolutely wrong, that they were virtually confiscatory in their nature, inasmuch as it was impossible for the railways to carry freight for the rates that this revolutionary board had established there.

No wonder The Free Press feels vindicated now that the United States Supreme Court, by unanimous vote, has upheld the Minnesota rates and ordered two of the big railways to disgorge some three million dollars in excess fares.

U. S. NAVIGABLE WATER POWERS. What is described as one of the most momentous decisions ever rendered by the United States Supreme Court was recently given by that tribunal in connection with the ownership of running water in navigable streams.

In substance, the supreme court holds that the power of congress over navigable streams is absolute and that the power of the states within which they are situated is secondary to that of congress.

Is it a STOOL PIGEON? Is the wireless controlled by the cable combine?

It is significant that whenever the popular demand for a state-owned cable under the Atlantic becomes almost irresistible, public attention is suddenly diverted to the consideration of the great advantages possessed by the wireless over the cable.

"DEBORAH" DREARY DRIVEN. So Says Secretary of Dominion Alliance. MONTREAL, June 17.—(Can. Press).

"It leaves a dirty taste in the mouth," said John H. Roberts, secretary of the Dominion Alliance, after witnessing the presentation of "Deborah" advertised here as "the play which made Toronto famous," at His Majesty's Theatre last night.

"I fail to see," he continued, "any moral lesson it could teach. I would welcome any problem play which discussed the sexual question in a healthy manner. But the only excuse for the presentation of 'Deborah' to my mind, is its ability to draw money at the box office. At that I think the crowd should get their money back. In my opinion they had been led to expect more than they received. 'Deborah' is regard as dreary drivel."

# Finest Hospital in Canada and One of the Most Modern in the World

**SURGICAL WING**—Donated by Mr. J. C. Eaton in memory of his father, the late Timothy Eaton.

**THE OUT-PATIENT DEPARTMENT, UNIVERSITY AVENUE.**  
Five hundred patients can be treated daily in the new Out-patient Department. This building and equipment is a donation from Mr. Cawthra Mulock.

**THE BEAUTIFUL MAIN ENTRANCE ON COLLEGE STREET.**  
The "front door" of the hospital is approached through a formal courtyard, railed off by an ornamental fence of the same design as the rest of the College Street front. The visitor then finds himself in the Administration Building, where the offices of the hospital management are situated.

**FOUR GREAT BOILERS AT THE POWER HOUSE.**

Four boilers, each with a self-feeding furnace of the approved type, and the automatic steam-working clinker bar, provide 500 horsepower to heat the buildings of the entire block, as well as to generate electric power for lighting and other purposes. A steam laundry is located next the power house, with a capacity of 45,000 pieces per day. Machine shops, carpenter shops and an ice-making plant add to the independence of the new hospital.

## TORONTO HOSPITAL SUMS THE TOTAL OF MODERN EXPERIENCE

In Plan and Equipment Unsurpassed by Any Older Hospital in the World.

### NEWEST GOOD IDEAS ALL INCORPORATED

All That Modern Hospital Science Has Discovered or Achieved Are Provided.

### TORONTO GENERAL LEADS

No One Need Worry About the Hospital Facilities of This City Now.

Like the building of a battleship, the building and equipping of a modern hospital is based upon the accumulated knowledge and preceding experience of the world at large. Toronto's General Hospital is the newest hospital on the continent at the present time, and probably the newest hospital of first-class importance in the world.

It embodies, therefore, all the improvements, all the successful ideas, all the innovations common to the most modern hospitals in Europe or America, together with the new ideas that have been born since these other institutions were established together with many worked out from ideas resulting from local enthusiasm.

The trustees and officers, the architects, the expert hospital specialists brought to Canada for the purpose, Toronto's General Hospital is the newest hospital on the continent at the present time, and probably the newest hospital of first-class importance in the world.

Visitors to Berlin may inspect the Virchow Hospital. But it was built 15 years ago, and science has kept moving. Guy's Hospital in London is famous, but the famous hospitals are apt to be old ones. Toronto's hospital is new, modern, absolutely.

Visitors to Berlin may inspect the Virchow Hospital. But it was built 15 years ago, and science has kept moving. Guy's Hospital in London is famous, but the famous hospitals are apt to be old ones. Toronto's hospital is new, modern, absolutely.

In the United States are many fine hospitals, but only one newer, and therefore possibly as complete, and as advanced as the new Toronto General. This is the new Cincinnati Hospital now in course of construction. It is to hold 600 patients. The Toronto hospital will have room for 670. The Healy hospital, Mount Sinai, New York City, is noted for its thoroughness and the completeness of its equipment, but it, too, is older. The Rockefeller Hospital is small. The Roosevelt Hospital is large, but it lacks many of the advantages of the new Toronto General. The Roosevelt of New York is old and small by comparison. Detroit has a fine hospital, Cleveland has, but representatives of the fine American hospitals are now coming to Toronto to see the latest development in hospital construction and equipment.

Among Canadian hospitals the Royal Victoria of Montreal is a famous Canadian hospital, but it holds about 200 patients only. The new Toronto General Hospital will accommodate about 670. The Montreal General Hospital will take 400, about the same number as the old Toronto General Hospital on Gerrard street.

**UNIVERSITY AVENUE ENTRANCE, WHERE PATIENTS ARE ADMITTED.**  
In the receiving lobby the patient's case is verified and the doctors assign the proper ward or department. Clothes are removed and cared for against infection, and special arrangements have been made to guard against spread of contagion where symptoms are in doubt.

**A TYPICAL WARD IN THE BIG NEW GENERAL HOSPITAL.**  
All the public-wards are bright, airy, and spacious, the floors being covered with dull red "battleship" linoleum, which is practically noiseless, and so smooth as to allow no place where dirt or disease germs could find lodgement. The walls and ceilings are also finished with a hard enamel-like surface.

**MAGNIFICENT LAWNS AND GARDENS ARE PROVIDED.**  
The hospital buildings surround a great central garden space of land, where fine old city trees were left standing when the old ramshackle houses were cleared away, and where ten thousand flowering shrubs and evergreens, donated by well-known seedsmen, have been planted.

### 3 P. M. IS THE TIME SET

A Thousand Points of Interest Arise in a Round of the Buildings.

A tour of the new Toronto General Hospital begins with the administration building. The visitor enters by the front door thru the College street gate and courtyard. It is a beautiful entrance and approach from the architectural standpoint. Once within the administration building the center of the information bureau immediately presents itself just in front of the doorway to the right. Here visitors are to be told about the hospital or its patients, or make enquiries for any member of the staff. To the left is the office of the secretary. The administration building also accommodates the 35 resident physicians, who have private rooms on the top floor.

By turning to the right after passing thru the various business offices connected with the administration of a great hospital like this, the visitor can pass from one building to another. The spaces between being connected by corridors, ante-rooms, and arcades. Each building is distinctly by itself.

OFF-DUTY HOME OF THE "GUARDIAN ANGELS OF THE SICK."

The nurses have each a private room, with a comfortable single bed, a writing table, an easy chair and a mission bureau. Downstairs they have parlors, reception-rooms, and a piano, and a library, just like a woman's club. Duty and sickness seem far away.

however, thus segregating the different departments and eliminating even the minimum possibility of cross contamination that remains after the expert battle against germs has been waged in the wards and sterilizing rooms.

Another point the visitor will be quick to notice in walking thru the big, airy wards and spacious corridors, and that is the way the walls, the ceilings, and the floors have been finished so as to be kept easily and perfectly clean. Everything is absolutely smooth

and hard. No cracks or roughness anywhere. No place where dust or germs could collect or lodge. No place where water or dampness could soak in. The floors are covered with a beautiful dull red kind of noiseless linoleum. It has a dull glister, and given about as much chance for dirt to stick or water soak in as a mirror glass. This is the kind of linoleum they use on the decks of the battleships in the German navy. It seems odd, doesn't it? That we should borrow an idea from the German navy—especially to fight germs! But science knows no political boundaries, and the Red Cross is respected as the sign of the hospital, even on the field of battle.

To the left of the administration building is the surgical department, a \$300,000 gift of Mr. John C. Eaton, in memory of his father, the late Mr. Timothy Eaton.

The emergency hospital was donated together with its equipment and the ambulance cars, fitted as they are with pneumatic beds, by two sisters recently deceased, namely, the Misses Shields, in memory of their father, the late Mr. John Shields of Toronto.

The Pathological Building. The pathological building, on the corner of Christopher street and University avenue, the last building on the western block shelters one of the most important departments of the whole hospital. A larger sum of money will be expended here every year in experimental work, without which, medical science, like any other science, would be at a standstill. Research work has been provided for in the Toronto General Hospital by an endowment fund in connection with Toronto University. Experimental work, both in medicine and in physiology, is undertaken.

The Power Plant. Along Elizabeth street lies the Obstetrical Building, and at the corner of Christopher stands the power-house, where four 500-hp. produce 500 horsepower, generating electricity for the lights, elevators and medical appliances, besides heating all the buildings. Along Elizabeth street comes first the laundry, then the machine and carpenter shops, and then the private patients' building, which fronts on the gardens. An ice-making plant is situated just off the power-house. The nurses' home is situated opposite the obstetrical building with a tennis court and shrubbery garden between.

The Nurses' Home. A fine avenue of chestnut trees, planted year after year for a street boulevard by the city, has been left standing, and makes the walk delightfully shady. The nurses' home is just like a woman's

club, and is well worth a visit. Each nurse has a little room of her own, and common parlors and reading rooms with a piano and a beautiful dining-room are situated on the ground floor.

Roof Wards and Fire Escapes. The resident doctors have rooms on the top floor of the administration building. Roof wards and great wide balconies are also features of several other buildings for use of the patients. Fire escapes are provided by elevators

MEDICAL WING.

THE PATHOLOGICAL BUILDING.

The Pathological Department is under the auspices of the Toronto University. Here all research work, such as chemical analysis of blood and tissue samples, is conducted. This department is of inestimable advantage, as, without experts in this branch of the work, timely diagnosis of disease would be difficult and sometimes impossible.

down shafts of brick built outside the buildings, entrance to them giving off the balconies.

Visitors should be sure to see the central kitchen, and the serving kitchens in each ward where food is kept warm by modern methods. The kitchen is the equal of a great big first-class hotel's.

The Hospital Kitchen. The main kitchen of the hospital is in the angle of the surgical wing.

Here are situated the battery of four coal ranges, the charcoal broiler, the dry steam ovens, the steam kettles and soap boilers, the gas ranges, the steam dish-washing cabinet, and the other paraphernalia of an up-to-date hotel kitchen. With the difference that it is larger than any average hotel, and has more work to do.

Visitors are cordially welcome tomorrow evening in the kitchen and every place else.

SOUP KETTLES OF A GREAT HOSPITAL'S ULTRA-MODERN KITCHEN.

The new Toronto General Hospital will have to feed over 1000 people a day, more than a big hotel, and cooking for sick people must be very carefully done. The kitchen is the last word—steam kettles, charcoal broilers, coal ranges, gas ranges, steam dish-washer—everything. The floor is one solid composition of tile—no cracks. Everything is white, and open, no dark corners for dust or dirt. All cooking smells are carried away by the big pipe.

ONE OF THE BROAD BALCONIES FOR OPEN-AIR TREATMENT.

Fresh air is one of the most valued medicines in a hospital for all sorts of cases. Those who are strong enough to sit out are to have balconies. Those who can walk have the gardens. The picture also shows the Sick Children's Hospital, across Elizabeth street.

The doors of the new hospital will be thrown open to the public at 8 o'clock tomorrow evening. Everybody is invited to make a tour of the buildings and see everything there is to be seen. The Highlanders' and Queen's Own Bands will play.

# Yachting Trial Races a Repetition **Bowling** Middlesex 113 Canadians 70 **Trotting** First Day at Seaforth

### GODERHAM TRIUMPHS AGAIN SKIPPING SAME TWO YACHTS

Brought the Nirwana and Vivian II Home in Front Once More—Some Nice Jockeying at the Finish—Bill Jarvis' Swamba Secured Second Place.

Another trial for the selection of the George Cup defender was necessary yesterday because two yachts succeeded in each winning a race on Monday, and now the judges have been forced to order another trial to be held today, as yesterday the same two yachts and their skippers practically duplicated their performance of Monday.

The Nirwana, skippered by Norman Goderham at the helm took the first race by a narrow margin after the interchange of skippers, the Vivian II was pushed thru by the same skipper and won by a second one. The only difference was that the Swamba nosed out the Nirwana for second place and she again looms up as a possible contender.

The day early in the afternoon was hardly what could be desired for racing purposes as the wind from the north was only a slight breeze, but by the time the yachts had turned the first leg, the first race it had freshened considerably and gradually increased in volume until at the conclusion of the race and well on into the second half a gale was blowing. Suddenly it dropped and another breeze from the northeast came along, and it bothered the skippers more than a little.

The first race was over two legs of a triangular course with a run to leeward and a reach to starboard. The Nirwana finished all by herself with Skipper Goderham on board, while the Vivian II

and the Swamba had a tidy lead for second place, the Vivian II eventually beating her opponent on the second and splendid work of Skipper Swamba. Bill Jarvis was at the helm of the Swamba. The finishing time for the three boats was as follows: Nirwana 4:32.20, Vivian II 4:38.07, Swamba 4:38.13. The race started at 3:44 p.m.

The second race was a very close one, each racing their steps over the course, and the Nirwana once again took a lead to windward. All the way the Vivian II was pushed thru by Skipper Goderham at the helm, but this time with the other two yachts hardly more than a length or two behind. This race was started at 3:54 o'clock, and they turned the first leg as follows: Vivian II 5:14.21, Nirwana 5:14.30, Swamba in the final spurt, all three yachts in the lead, jockeying for positions, but the Vivian II, skippered by Jarvis, nosed out the Nirwana, while the Swamba nosed out the Vivian II. The times of finishing were as follows: Vivian II 5:41.04, Swamba 5:41.34, Nirwana 5:42.03.

The third trial will be sailed today, and an effort will be made to get H. Lockhart Gordon to take one of the boats and try and give Norman Goderham a race. So far nothing definite has been secured regarding the possibilities of the yachts as in the races it has been the skipper who did the work.

### TRESIDDER CIRCLES FIELD IN HALF-MILE

Finished Third With Seventeen Men Ahead of Him—Gardner Runs Century in 10.02.

Last night under ideal weather conditions Central Y.M.C.A. ran off their seventh set of weekly handicaps. Over fifty men and boys went out to enjoy the keen competition. The first event was the 120 yard hurdle race with fifteen starters, which was won by the veteran Jack Boyers, who was followed by Gardner and McKeenize. Gardner ran well, but was unable to catch the youngster who has fine style and lots of speed. The feature event of the evening was the 350 yard walk with seven men. Jack Tresidder was the scratch man and was handicapped up to 105 yards. He won the first quarter Jack Boyers was leading with Pritchett second and J. Small third. Tresidder began to come and slowly but surely moved down the men in front, and at the 100 yard mark he had only three men to get. Boyers ran the last hundred at top speed and won easily, winning by ten yards with McKeenize third and Pritchett fourth. The half mile walk was a race all the way between Art Mandley and Carl Mandley, Mandley winning out in the last few yards. His time was 32.7.

The boys' events had the best turnout of the season and had two events, the 220 yard dash and the running hop, step and jump. The 220 was easy for Blondy Hutchins, who won from scratch in 28 sec. Hutchins won the jump with 32 feet 2 inches.

The summary is as follows:

120 yard hurdle race (12 yards): 1. J. Boyers (10 yards); 2. W. Newell (6 yards); Time 1:04.5.

350 yard walk—1. J. C. Boyers (100 yards); 2. C. McKeenize (100 yards); 3. J. Tresidder (spricht); Tresidder's time was 2:03.15.

800 yard walk—1. Art Mandley (sc.); 2. L. Mertens (sc.); 3. C. Reeser (29 sec.).

Boys' Events.

220 yard dash (12 yards): 1. E. Hill (12 yards); Time 28.45.

Running hop, step and jump—1. W. Long; Distance 32 feet 2 inches.

Notes: Art Mandley worked the century in 10:2.5. Phillips and J. Tresidder, 40 yards.

The track brothers came late and ran the sprints in good time.

The Central squad was glad to see Alex. Cameron back from Medicine Hat. He had a good work out in the pole vault and hurdles.

Herm Duke, Nelson Ward and Jack Pritchett were practicing near ten feet in the pole vault.

Demand For Horses At the Repository

A pretty good local demand for horses was experienced at The Repository yesterday, when one hundred and eighty of all classes were exposed for sale, and nearly a hundred of them were sold. There was a limited business in good heavy draughts and expressors, but a better demand for a useful serviceable horse of any class. Consignments are very good, and for this season of the year, when trade has often in the past gone dull, the amount of request for horse rule satisfies shippers. Some of the buyers were: R. T. Avonch, Kingston road roan mare, \$260; T. Hanna, Islington chm, \$125; John J. Walsh, pair bay mares, \$27.50; Parisian Laundry, grey gelding, \$27.50; L. White & Son,

The Coolest Suit In the World!
THE HIT OF THE SEASON!
Do not let another day go by without leaving your order for one of these mohair suits.
The coat is next to nothing in weight, has no lining to speak of, and just a semblance of padding to keep the shape and curve the shoulders properly. Patch or cut-in pockets.
The trousers are cut neat and trim, with the cuffs and belt loops, side and hip pockets, narrow or medium width—as you prefer.
Materials in fancy or conservative patterns. There are pencil stripes, small checks, narrow wales and mixtures, on drab, brown, grey and dark grounds.
So light you'll scarcely feel the weight. To your measurements at

KELVIN PARK

The City of Toronto

Does not afford a better opportunity for Real Estate investment than lots purchased to-day in beautiful Kelvin Park.

Here Are Some Facts

That the shrewdest Real Estate investor will recognize as being worth while, and the man or woman who is making their first investment will plainly see that

Kelvin Park is the Buy To-day

These Facts Are Beyond Dispute

- Dec. 20, 1911—Lots 1, 2 and 3, purchased for \$4,500. Nov. 19, 1912—Resold for \$6,375. Profit, \$1,875. Nov. 26 (7 days after)—Lots 2 and 3 were resold for \$5,000. Lot 1 is now held for \$3,750.

- Dec. 8, 1911—Lots 26 and 27 sold for \$3,300. Nov. 14, 1912—Resold for \$5,087. Profit, \$1,787. Now held for \$75 per foot. Dec. 8, 1911—Lots 160 and 161 sold for \$3,690. Nov. 23, 1912—Resold for \$5,842. Profit, \$2,152. March 28, 1913—An offer of \$9,240 refused.

These are only a few samples of the profits that have been made in Kelvin Park.

NOTE.—Any person or persons desiring to confirm the above statements, will receive the name and addresses of the various purchasers, together with any other information that may be desired, upon request to our Financial Department.

We have waited until now before placing these facts before the public, in order that we could get the roads graded and lots defined and to be assured that the improvements would be put in the property.

THE PROFITS THAT HAVE BEEN MADE BY EARLY INVESTORS CAN BE MADE BY YOU. THERE IS SURE PROFIT IN EVERY LOT, AND, REMEMBER, THIS PROPERTY HAS NOT BEEN ON THE MARKET FOR OVER A YEAR.

All roads are now graded, sewer, water and electric light will shortly be in the property, and everything will be ready for the Builder.

THIS SPECIAL SALE WILL COMMENCE ON WEDNESDAY MORNING, JUNE 19TH, AT 10 O'CLOCK. THE FIRST MOTOR CAR WILL LEAVE OUR MAIN OFFICE AT 9.30, AND THE SALE WILL CONTINUE ALL DAY. OUR SALESMEN WILL BE ON THE PROPERTY.

Real Estate Investors or Home Builders cannot possibly overlook the ideal location of KELVIN PARK.

Agents Wanted

AN ESTABLISHED corporation, manufacturing an office appliance which has been successfully marketed in the U. S., European continent, Australia, South America and in parts of Canada for 23 years, at selling prices ranging from \$275 to \$650, desires to enter into a contract for its exclusive selling agency in Toronto and adjacent territory. Product appeals and is sold only to largest and best business houses. A man with knowledge of accounting and business systems combined, with some selling ability and experience preferred. Man must have sufficient capital to finance his own selling, and to buy the product outright at a big liberal discount. This is a splendid opportunity for a clean-cut man of brains, energy and determination. State age, experience, moral, business and financial references. Address Box 58, World. ed 7

**BANK SHARES AT NEW LOW RECORDS**

High-Grade Securities at Prices Very Attractive to Investors.

**TORONTO MARKET DULL**  
 Midsummer Apathy Ruling Factor—General List at Lower Levels.

Further weakness in the bank shares, several of which made new low records in years, was the only feature of the Toronto stock market yesterday. Elsewhere a slightly easier tone was shown and at the close a fair-sized list of small declines mainly evidenced the lack of sustained buying power. Speculation was quiet, the customary midsummer dullness being more pronounced than of late.

The market during the last few sessions has drifted into a rut, and from present indications a period of restricted trading and erratic up and down price swings is promised. Any recovery from the recent depression will be gradual, but should any adverse factors develop, sentiment will be open to bearish conviction on very short notice.

Only six issues in the general list underwent any change yesterday. Brantford dropped a shade over half a point for the session, with the quotation down to 87 3/4 at one period and the close at 88. The easier feeling was no doubt due to the further reaction in C.P.R., which was off another two points to 215 1/2 in New York, but regained all its loss before the close.

The movement in the bank stocks carried four of those high-grade issues down to levels where they should appear still more attractive to investors. Standard sold over a point, down to 215 1/2, its lowest since 1908; Toronto was off 1 1/2 to 204, a new low since 1911; Imperial at 211 1/2 and Merchants at 187 1/2 were at figures not duplicated since 1911 and 1908, respectively.

**ANNUAL MEETING OF TORONTO EXCHANGE**

Former Board of Governors Was Re-Elected—Expansion During Year.

At the annual meeting of the Toronto Stock Exchange, held after the close of the session yesterday afternoon, the former officers were re-elected for the ensuing year, as follows: President, F. G. Oaker; vice-president, E. H. Freedland; treasurer, H. R. Tudhope; secretary, S. Temple Blackwood; executive committee, W. H. Brown, J. O. Buchanan and G. T. Oaker.

**ANNUAL FINANCIAL REVIEW.**

The 13th volume of The Annual Financial Review, the recognized authority on Canadian securities, has been published by the Standard Publications Co., Toronto. The work has been prominently before the public for a number of years, and, therefore, it needs no introduction. Suffice it to say that the latest edition is larger than any of its predecessors. It comprises 704 pages, as compared with 612 in the 1912 volume, and contains statements of several companies heretofore not included. The data given includes current annual statements, high and low prices of stocks and bonds for each month of ten years, the number of shares sold each month in the stock exchanges, dividend payments, and increases in capital stock, particulars of franchises, when bonds are redeemable and a mass of other facts relative to the financial history of the different corporations. As a reference work it is indispensable to the banker, broker and the business world generally; it will also prove invaluable to the general investing public as a guide to the listed issues on the stock exchanges.

**BANK STOCKS AS GOOD INVESTMENTS.**  
 The decline in the Canadian bank stocks, due primarily to the world-wide investment situation, and secondly to the money stringency in the Dominion, has carried these high-grade issues down to levels where they appear very attractive as investments. The double-liability clause attaches to such securities, but this is not a factor of any consequence in respect to the old-established institutions. The following table gives the decline since the first of the year and the yield at present prices:

Stock	Open	Price	Low	Yield
Year	Year	Now	Since	Pct.
Commerce	221	201 1/2	181 1/2	5.4

**BANK CLEARINGS OF THE CONTINENT**

Canadian Cities Hold Their Usual Rank—Toronto in Tenth Place.

There were no changes in the position of the leading cities of the continent in point of bank clearings last week. Of the Canadian centers Montreal came fifth, Toronto tenth and Winnipeg twelfth, the same rank they have held for some time now.

Of the first fifteen cities in the list six showed decreases from the corresponding period last year. The exhibit was more satisfactory year. The aggregate for the week and the previous week, and the percentage of increase or decrease compared with the same period of 1912:

City	Last Week	Year	Prevs. Week	Per. Inc.

**FOREIGN CROPS IN GOOD CONDITION**

Generally Favorable Weather Throut Europe—Rain Is Needed in Britain.

Broomhall's weekly foreign crop summary, issued yesterday in Liverpool, follows:

**United Kingdom.**—The wheat plant is heading under favorable conditions. The spring crops are in need of rain. **France.**—The crop outlook is generally favorable, and the plant is making good progress. The outlook is mostly midling. Supplies of native wheat are moderate. There are complaints regarding this year's crop. Outlook moderate. Supplies of native wheat very fair.

**Russia.**—In the south the crop outlook is favorable. In the Volga region the centre of the promise is for a moderate crop. Supplies at the ports are generally good. **Roumania.**—Crop outlook is favorable. Supplies small. **Hungary.**—Present outlook promises good yields. **Austria.**—The crop outlook is favorable. In the north there has been some deterioration, but generally a good average crop is expected. **India.**—A moderate harvest is indicated. **Asia Minor.**—Crop outlook is favorable. **India.**—Offers of wheat are smaller with the holders firmer. **Australia.**—A crop is expected that there will be a larger acreage than this year.

**BROKERS CLASH WITH CLEARING HOUSE**

But It's Only in a Friendly Baseball Match This Afternoon.

One of the big sporting events of the season will take place this afternoon at Centre Island, when a baseball team composed of members of the Standard Stock Exchange will play for the title, "world's near-champions," against the famous team of the clearing house of the exchange (Trusts & Guarantee Company). A lively scrimmage is anticipated, as the brokers say they will bring home the pennant or die in the attempt.

**NEW YORK STOCKS SHOW FIRM TONE**

Early Weakness Soon Overcome and Many Gains Are Recorded.

**READING WELL BOUGHT**  
 Harriman Issues Also Are Stronger for Brighter Outlook For Dissolution Plans.

**NEW YORK, June 17.**—An uncertain course was followed today by the stock market which was dull to the point of stagnation much of the time. The close of the day found prices of many representative stocks well above yesterday's final figures, also below the highest quotations of the session. The main market yesterday apparently was discouraging to foreign holders of American securities, who sold freely in this market today. Foreign selling was a large factor in the decline of the market at the opening, and London disposed of about 20,000 shares of the day found prices of many representative stocks well above yesterday's final figures, also below the highest quotations of the session.
