

Ottawa Government Favors Loan of \$25,000,000 to Canadian Northern

N.T.R. Investigation Cost \$63,000—Reforms in Flection Act Agreed Upon—U.S. Senator Criticizes President Wilson—C.P.R. Spends \$85,000,000 on Extensions

GOVERNMENT FAVORS C.N.R. LOAN RUMOR APPARENTLY WELL-BASED ISSUE WILL SPLIT PARTY LINES

Report That Loan of Twenty-Five Millions is Proposed, Moves R. B. Bennett to Expression of Strong Disapproval—Railway Promises Adequate Security.

OTTAWA, Feb. 18.—(Special.)—It was reported this afternoon, on what seemed to be good authority, that the government had definitely decided to ask parliament to sanction a loan of \$25,000,000 to the Canadian Northern, with common stock of the company as collateral security. The company's argument is that they need the money to complete and equip the road, that they will put up security, that they have never defaulted in a dollar's interest, and that, with this loan, the fixed charges on their whole transcontinental line will be less than \$30,000 a mile, as against twice that on the other roads.

The report of the proposed loan spread with rapidity and created great interest on both sides of the chamber. Members assembled in groups discussing the rumor, and R. B. Bennett of Calgary, who is outspoken in his opposition to any such legislation, was observed in close conversation with the minister of public works.

Bennett an Insurgent.
Mr. Bennett stated this evening that he had been assured by a leading member of the government that the proposed loan to the Canadian Northern had not been decided upon by the cabinet. The Calgary member added, he personally would oppose the loan, even if it were proposed by the government, and would take the opportunity to state his views on the railway situation in the west in a manner that would startle, if it did not impress, the house and the country.

Generally speaking, the decision upon a subject of this kind would largely depend upon the recommendation of the prime minister, the minister of finance, and the minister of railways. No one pretends to say what Mr. Borden's position and Mr. Cochrane is expected to leave the capital for a prolonged absence next week, but Mr. White is said to have been convinced that the financial aid asked by the Canadian Northern should be extended to that corporation in the public interest.

A number of Conservative members, it is said, will follow Mr. Bennett against the proposal. The measure, however, could easily pass with the assistance it would receive from many Liberal members. The opposition, it may be said, is divided, and if rumor be correct, Hon. George P. Graham will favor the loan and Mr. Fred Pardee will oppose it.

Cost of N.T.R. Enquiry.

OTTAWA, Feb. 18.—(Special.)—An echo of the National Transcontinental scandal was heard in the house this afternoon, when at the question hour Hon. Frank Cochrane stated that the investigating commission had concluded its labors, and that all expenses had been paid. The disbursements total \$63,888. Mr. Gutelius was paid \$27,465, Mr. Lynch-Staunton \$24,038, and the balance is accounted for by clerical expenses.

RETAILERS SEEK MANY REFORMS

Would Make False Advertising Criminal Offence—Special Department at Ottawa Suggested.

OTTAWA, Feb. 18.—The ninth annual convention of the Dominion Board of the Retail Merchants' Association of Canada, assembled here Tuesday and Wednesday, came to an end tonight, when a banquet was given in the Chateau Laurier.

Some very important subjects were taken up at the convention during the two days' session. Among other subjects, they decided to press forward legislation during the present session, if possible, to make the false advertising of any article a criminal offence. They will ask the government to institute a department under the minister of trade and commerce for the purpose of the retail trade similar to the department that are now in operation for the protection of the laboring and agricultural classes. They propose starting a campaign for the purpose of educating the public regarding the necessity of the retailer, and claim that for every dollar invested by the manufacturers and producers, over ten dollars is invested in distribution.

The next annual meeting will be held in Toronto.

EXPENDITURE ON N.T.R. REACHES LARGE TOTAL
OTTAWA, Feb. 18.—(Special.)—Hon. Frank Cochrane laid upon the table today the interim report of the National Transcontinental Railway Commission, which shows that the government has actually expended in the construction of the road between Moncton and Winnipeg to date \$140,862,147. The expenditure during the past ten months was \$10,814,944.

RAILWAYS USED INFLUENCE ON PRESIDENT

Senator Bristow So Charged in Denouncing "No Exemption" Policy Regarding Panama Tolls—Republicans and Democrats Joined to Defend Wilson's Course.

WASHINGTON, Feb. 18.—Accusing President Wilson of inconsistency in his views of the binding effect of the Democratic platform and charging that "greed of the railroads and the audacious claims of Great Britain seem far more potent with our president than the appeal of the womanhood of the nation," Senator Bristow, Republican of Kansas, turned discussion of woman suffrage in the senate today into a vigorous debate on the proposed repeal of the free tolls of the provisions of the Panama Canal Act.

Senator Bristow's attack brought to the defence of the president several Republicans as well as Democratic senators, while it served also as the signal for opening the fight within the Democratic party against repeal of the tolls exemption provision. Senator Chamberlain of Oregon, Democrat, dramatically declared that he would not "stultify" himself by telling his constituents that he had not kept his platform pledge on the toll question "because the president" of the

(Continued on Page 3, Column 1.)

One of the Injured

Two spectators at the opening of the legislature got too close to the cannons when the salute was fired in Queen's Park yesterday afternoon and both were severely burned about the face by flying powder. They are Percy Sawyer, 195 College street, and Harold Wrightson, 10 St. Joseph street. Both were taken to the General Hospital and had their injuries dressed.

Of the two Sawyer was the more severely burned, receiving several burns on his face. Wrightson had but one burn on his left cheek.

OUTLAY BY C.P.R. WILL BE HEAVY

Eighty-Five Millions for Extensions in West This Year and Last.

MONTREAL, Feb. 18.—C.P.R. extension plans last year and this year will involve a total expenditure of around \$85,000,000, according to authoritative forecast current here. Vice-President Bury is in Montreal conferring with the head of the road, but neither as yet has handed out an official statement. The large amount, noted, however, is said to be spread over a number of years, and double-tracking and other parts of the program will be proceeded with conservatively as the need arises.

At the present time there are 132 miles of double track under way between Sudbury and Port Arthur, on the Lake Superior division, while alone will cost \$6,000,000; 178 miles of double track between Brandon and Calgary to cost \$5,000,000; 128 miles between Revelstoke and Vancouver, to cost \$7,000,000.

Before the C.P.R. is thru with its present program of work in the west, including the irrigation works, the double-tracking and the new truckage, amounting to 100 miles, it will have spent something like \$50,000,000 in the western part of the country since its inception.

DEFENCE LEAGUE MAKES PROGRESS

Increase in Membership Will Be Secured by Educational Campaign.

The executive of the Canada Defence League met last night in St. George's Hall, Elm street. The principal items of business pertained to the alteration of the membership fees and the ways and means of increasing its membership.

It was decided that in future the fees would be as follows: President, \$5; members of the executive committee, \$2; 32; associate members, \$1.

It was decided to interest the various educational institutions in the league, as a means towards increasing its membership.

The following men were added to the executive committee: Prof. A. P. Coleman, Dr. Fletcher McNeuman, J. H. Adams and T. B. Mowbray.

It was decided to hold the general meeting of the league at the Ontario College of Pharmacy on Thursday, March 5.

DUFFERIN SCHOOL OLD BOYS
Dufferin School Old Boys will hold their 15th annual celebration in Mr. Conkey's large banquet room, on Friday evening, Feb. 20, 7 o'clock. The response already received ensure a complete success. No boy from the old school will regret having attended what promises to be the most successful reunion ever held.

DEMAND REFORM IN PUNISHING CORRUPTION

Political Leaders United in Condemning Law Which Shields Serious Offences in Elections and Penalizes Technical Violations—Committee to Deal With Question.

(Special to The Toronto World)

OTTAWA, Feb. 18.—The house spent the greater part of the day discussing a resolution offered by A. K. Maclean of Halifax, calling for the appointment of a special committee to consider amendments to the Elections Act and the Corrupt Practices Act. The resolution which adopted the phraseology of a similar resolution proposed to the house some years ago by the present prime minister, declared that it is desirable to enact more effective provisions to punish bribery and fraud at elections, to ensure thoro publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes, and to prohibit contributions thereto by corporations, contractors and promoters, to expedite the hearing of election petitions, and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thoro investigation of corrupt practices, and, if necessary, to appoint an independent prosecuting officer charged with that duty, to simplify the procedure thereof, and to enforce the laws so amended.

Public is Apathetic.
Mr. Burnham (West Peterboro) protested against encumbering the statute book with any more amendments to the Elections Act. Our trouble was "popular apathy and cynicism," which saw no

(Continued on Page 3, Column 3.)

STREET CARS COLLIDED

TWO KILLED, SIX DYING

INDIANAPOLIS, Ind., Feb. 18.—Two persons were killed, six probably fatally injured, and 25 others hurt here tonight, when an outboard English avenue street car was crushed between two heavy traction cars. The accident occurred at Virginia avenue and South street, and was caused by slippery rails.

The dead: James Horan, 16 years old, crushed, and Jacob K. Hardy, 48 years old, crushed.

Seriously injured: Harry Oliver, both legs cut off; John Kaney, body crushed; Mrs. E. Fessler, spine injured; Virney, body crushed; P. C. Joshua, George Shirk, body crushed; Harry body crushed.

SALVATION ARMY WILL HOLD RALLY IN FRISCO

SAN FRANCISCO, Feb. 18.—More than 100,000 members of the Salvation Army from forty-six countries will assemble here August 15 to 22, 1915, at a convention of the International Salvation Army. It was announced today.

It will be personally directed by Gen. Bramwell Booth.

Major Fletcher Agnew of Chicago has been appointed Salvation Army secretary to the exposition, and is preparing an extensive Salvation Army exhibit.

F. W. STAIR TO BUILD NEW MONTREAL HOUSE

F. W. Stair left Toronto for Montreal last night to close a deal for the erection in Montreal of the largest burlesque house in Canada. It will be built on St. Catharine street, near Bloor, and will have its main entrance on St. Catharine.

There will be no stairs in the new theatre, which will have runways instead. The season will be for thirty-two weeks, and the burlesques playing there will be the same companies which play the Star in Toronto.

Martin Harvey's Local Engagement.

Of the number of noted English actors visiting America this season probably the most distinguished is Mr. Martin Harvey, who will be in Toronto next week. Three plays are to be presented here, seats for which go on sale this morning at the Princess Theatre.

Men's Fur-Lined Coats.

It seems like a good time right now to purchase a fur-lined coat, especially with the Dineen Company offering some exclusive lines. On sale at Dineen's today there is one special line of coats at \$75. These are lined with the very best of selected muskrat and wild wide otter or Persian lamb collars and lapels. The W. and D. Dineen Co., 149 Yonge street, corner Temperance street.

LYING ON TRACK SOUGHT DEATH BY TRAIN

Dr. Serson Recalls Strange Actions of Bert Newman, Lunatic, Who Wandered From Mimico and Has Not Been Found—Two Other Madmen at Large.

(Special to The Toronto World)

Following the report of the roamings of Bert Newman, the Mimico lunatic who wandered away from his boarding house on Southampton avenue, Mimico, Tuesday, still another madman was captured by George Stanford at his home on Brown's line yesterday, and it is reported that a lunatic enjoyed brief liberty from the Mimico Asylum yesterday morning.

An Italian Madman.

According to County Constable Geo. Simpson, a short, swarthy Italian entered Stanford's residence and with no incentive whatever, commenced roughing it up generally in the household. Stanford, in the backyard, heard the racket and captured the man, whom he turned over to the county constable, who in turn brought him into a city police station, and from thence he was taken to the Toronto jail. His identity, Mr. Simpson has been unable to ascertain.

The Italian told a wild tale of running all the way from Welland to escape some person whom he feared. It appears he has relatives in that town.

Escaped from Mimico.
The escape from Mimico Asylum was of brief duration, when a harmless inmate evaded the guards and escaped into the surrounding country. He was at liberty but an hour before being captured.

Late last evening Bert Newman was reported still at liberty. County Constable Simpson was so deluged with reports of the man's whereabouts that he was at a loss to know just where to set out to hunt him. A report came to him that he was "captured east of Port Credit, and still to be seen" that at 7 o'clock last evening he was seen walking south on Keele street.

Newman Weak-Minded.
According to Dr. Serson, who attended Newman, he has always been quite harmless, but was undoubtedly weak-minded. According to the doctor he was more likely to harm himself than any other person. He was found on one occasion lying with his head across a track on a railroad siding, waiting for a train to come along and kill him. Happily for him the siding was one which was rarely used.

BEWARE THE BRASS FAN.

ILD MAN STUFFED LINDS

Jeff: Is that yo, John? Are ye noe gannin' Florida th' year? An' fanna's this thing editorial loons are discussin' about unearned increment?

John: I yest to think unearned increment meant a Crimey sager that hadn't been buried. But it's th' cream on township real estate.

Jeff: God save us, John, but ye hae muckle in yer pow. An' hoo about th' cream on cesty property?

John: That's different, Pop. Th' cream on down town stuff belongs to them that owns it. But Billy's cream is out in th' township, an' it belongs to us—you an' me an' th' Lan'marks what made this here town. Besides I skum off my cream on Bay street too soon, an' it's only mat'ral that I get it back. An' I'm goin' to get it off Billy!

Jeff: "Certainment, Vons-avee raison," as Sir Weelford says th' us who mak' up th' Auld Gaird frae Quebec. Billy got it fer a song—probably he steal't frae th' widows an' th' orphans up th' Don.

John: "Couse he did. An' he ain't no good, anyway. He can't rite, he can't speak in th' house, he can't read th' ritual like me—all he can do it try an' get in on th' dealowery."

Jeff: He's a prince o' prevaricators w' a face o' triple brass an' the hide o' Ahassurus.

John: We'll take it out of his hide, wop. Jeff: God be thankit for his providence—John: —An' th' industry o' th' Tely an' th' Globe in forcin' restitution to th' deservin' Lan'marks. We'll put th' boots in him, yeh bet, Pop. An' sell him out o' haws an' barn, an' cael, afore ye guth him.

News From The Parliament Buildings

BETTER FARMING IN THE PROVINCE

Speech From the Throne Throne Forecasts Legislation to Assist Agriculture.

LARGER REVENUE SOON Taxes Will Be Put Upon Available Sources on Equitable Basis.

The speech from the throne, read by Sir John Gibson at the opening of the legislature yesterday, was as follows: Mr. Speaker and gentlemen of the legislative assembly: It affords me pleasure to welcome you to the discharge of your duties at this the third session of the thirteenth legislature of this province. Our thanks are due to an over-riding Providence for the abundant harvest with which Ontario was blessed the past year, which has had a steady effect on financial and industrial conditions generally. In common with our fellow-citizens elsewhere throughout Canada the people of Ontario have experienced great satisfaction from the return of his Royal Highness the Governor-General, this country, accompanied by her Majesty the Queen, the Duchess of Cornwall, whose restoration to health has been a matter of general thankfulness. My government was represented at the interprovincial conference held last fall in the City of Ottawa, in which every province in the Dominion participated. The proceedings of the conference relating to several important subjects of public interest will be laid before you for your consideration. In accordance with the announcement made at the last meeting of the legislature a commission on roads and highways has been appointed and has begun the preliminary work for a scheme of road improvement throughout the province. Public hearings were held at various places by means of which the views of municipal authorities and various organizations were elicited. The information thus obtained will be embodied in the report of the commission. An agreement has been reached with the Government of Canada for carrying out in this province the provisions of the Agricultural Instruction Act passed by the Dominion Parliament to cover a period of ten years. Ontario's first instalment, aggregating \$15,000, has been received, and is being spent along the lines of instruction and demonstration. Better Agriculture. It is gratifying to observe the increased interest on the part of the farmers of the province in approved agricultural methods. An indication of this is found in the fact that the attendance at the Ontario Agricultural College is about double what it was ten years ago, while the number of new students registered at the opening of the present term shows a marked advance over that of the previous year. To meet these conditions an enlarged equipment has been provided, and plans for further extensions are now receiving attention. The number of district representatives of the Ontario department of agriculture has been increased and the work of the individual representatives has been made more effective. One marked feature has been the holding of rural school fairs with a view to interesting the rising generation in better agriculture—seventy of these fairs having been held during the past season with marked success. It is hoped to extend this work until the whole province is served. Hydro Extensions. In consequence of the increased consumption of power the Hydro-Electric Power Commission has been enabled to make a further reduction in the price of electricity. The commission has under consideration the duplication of the main transmission line and is constructing a high tension line to the western boundary of the province. Information regarding radial railway projects has been furnished to communities asking the assistance of the commission, while the efforts to interest agriculturists in the use of electricity have been continued with promising results. During the past year the commission organized a department for the inspection of electrical installations and equipment in order to afford protection to life and property. The policy of road development in Northern Ontario under the special legislation of 1913 has been extended from the eastern to the western boundaries of the province. About 500 miles of roads with the necessary bridges and drainage facilities were wholly or partially constructed last year, involving an expenditure of about \$1,100,000. The effect of this work upon settlement and upon the value of farm lands has already been noticeable. The mineral production of Ontario during the past year was the largest yet recorded, there having been a considerable increase in the output of nickel, copper and gold, while the yield of silver was about equal to that of the previous year. I am glad to know that there is a prospect before the mining industry of a period of further expansion. An outstanding feature of the educational situation during the year has been the extension of industrial training throughout the province. In nearly all the large industrial centres evening classes have been organized under the Industrial Education Act passed in 1913, showing the widespread desire for this class of instruction. Sufficient progress has been made in the work of the Central Prison farm at Guelph to warrant the anticipation that the Central Prison at Toronto will be vacated in

Registrar of Norfolk

It was announced at the prime minister's office at the close of the afternoon's session that W. Murray McGuire of the village of Waterford, has been appointed registrar of deeds for the County of Norfolk. His duties will begin at once.

November next. The plan of prison reform adopted in the new institution has passed the experimental stage and is proving satisfactory in every respect. The labor of the prisoners being utilized also in connection with the brick manufacturing plant established at Mimico, the product of which is used only for public institutions.

The new hospital for the insane at Whitby is well advanced, and it is believed that a large section of it will be completed and afford accommodation for 500 patients by the latter part of the present year. The commission, appointed to revise and consolidate the statutes of the province, having completed its labor, has presented its final report which will be laid before you. In the meantime the distribution has already been commenced. During the past year the province received the federal subsidy of \$2,134,000 in all of the Timiskaming and Northern Ontario Railway. A regular train service has been inaugurated on the Elk Lake branch and the extension to the Abitibi River has been completed. Settlement in the district served by the railway continues to advance, while the enquiries made by prospective settlers afford hopeful indications for the future. Legislation respecting compensation for workmen for injuries, representation in the legislative assembly and other matters of public importance will come before you for consideration.

More Income.

The growing financial demands of the province, consequent upon its development and the extension of its public services and activities, call for increased expenditures from year to year. To meet these conditions a larger revenue will be necessary, which, with your approval, will be obtained from a number of available sources on an equitable and reasonable basis. A serious and protracted illness has befallen my prime minister, the leader of this house of assembly, evoking the deep sorrow and sympathy of the whole community. It is very gratifying to know that the recovery of health and strength seems now to be assured. The public accounts will be brought before your consideration at the earliest moment, and the supplementary estimates for the current year will be submitted without delay. It is my earnest hope and belief that your deliberations will serve to advance the best interests and welfare of this important province.

LIBERAL QUERIES COMING IN EARLY

Member for Monck Wants to See Plans for Government House.

FOR MARRIED WOMEN

T. R. Mayberry Will Again Introduce His Bill to Grant Suffrage.

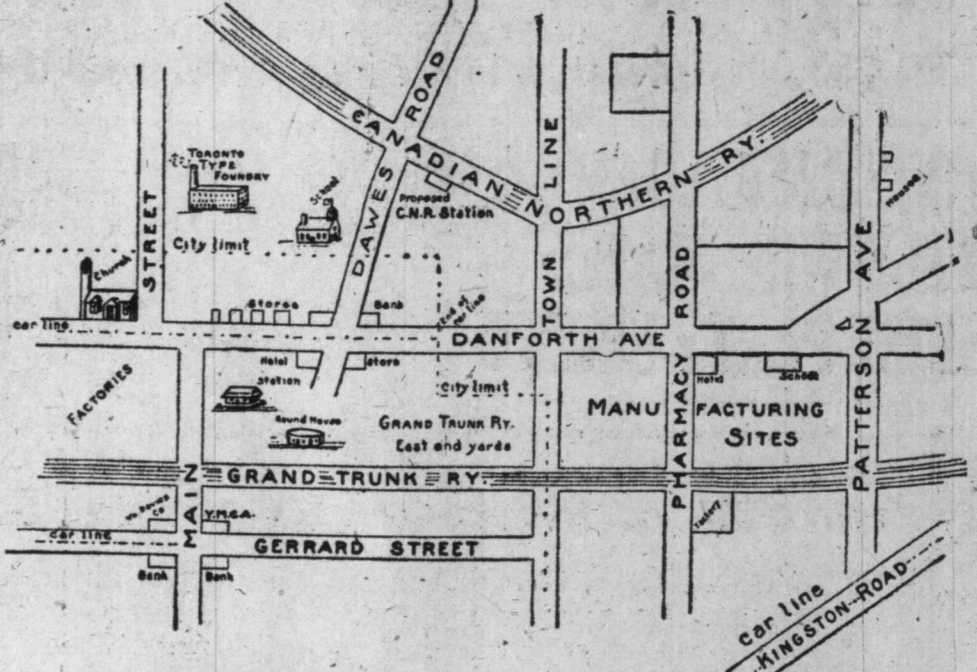

Once more the Ontario Legislature has settled down to business. The opening day passed off with the usual display of formality, boozing of a parade of militia and the assembly in the chamber of a host of fashionably-dressed ladies and their male escorts. Lieutenant-Governor Sir John Macdonald, in robes of state, and attended by special emissaries, entered the house to the strains of a military band, and the whole gathering, amid the creaking of seats and the rustling of silks, arose to do honor to the launching of the third session of the thirteenth legislature of the province. Was No Hitch. Altho Sir James Whitney and Hon. J. J. Foy, his right hand minister in the cabinet, were absent, the machinery of the occasion passed off without a hitch, and the ceremonies of the afternoon, by their brevity, constituted a new record in the pages of the clerk. The customary bursts of laughter followed the appeal of the Speaker for newly-introduced members to take their seats, occupied at the time by feminine guests. Following the exit from the chamber by Sir John and his escort, the assembly rose to hear the prayers, and with a flourish of music outside the chapel service was carried off through the main entrance of the house. The opening of the house this year was in some senses auspicious. Late in the morning the whole cabinet visited Sir James in the General Hospital, and a very enjoyable half hour was spent. At the same time the appointment of Dr. R. F. Preston, chief Conservative whip, to the position of minister without portfolio in the cabinet, was discussed, and shortly afterwards was formally announced. This arrangement supplies a vacancy which has been due since the death of Hon. Col. Matheson, shortly over a year ago, and also grants a new minister to eastern Ontario. Dr. Preston in his new office proved an appreciative onlooker of the day's proceedings. It is understood that C. R. McKee, of Dufferin, will assume charge of the whip's duties during the present session.

Questions Submitted.

Following close upon the motion for adjournment, came some evidence of the zeal with which the members of the opposition intend to prosecute proceedings this year. There will be a lull in the number of questions to be asked to the administration and some of the more recent affairs of public interest throughout the province have already appeared in the form of questions to be asked ministers. These were submitted to the speaker and will appear upon the order paper of Thursday. William McDonald of Centre Bruce (Lib.) is determined to ferret out the connection of Provincial Inspector John Patterson to the Scott Act campaign recently held in Wellington County, and in the course of his enquiries asks Sir Snider whether or not a Conservative government would be formed if a new office was constituted for him, and also seeks the dates of his presence in Wellington, Peel and Huron Counties during the month of the temperance work. The announcement in the address from the throne concerning the completion of the life insurance drawn from a query from L. Richardson of West Wellington (Lib.) to the total estimated cost of the life insurance drawn from Oxford, in turn, was championed by the workmen's compensation commission, with details as to their trips, etc. Once Elliott of West Middlesex comes forth to champion the cause of the married women who want the franchise. Altho his measure was hopelessly snuffed last year, he will bring it in again unchanged. Its principles involve revisions of the Municipal, Assessment and Voters' List Acts. The Resume Trip. The visit of Hon. Dr. Reame to Europe this year is under the attention of T. Marshall of Monck, and he asks the amount of money already expended upon the new government house, the expense of completion and whether the minister brought home ideas as to furnishing it. The visit of Hon. Dr. Reame to Europe this year is under the attention of T. Marshall of Monck, and he asks the amount of money already expended upon the new government house, the expense of completion and whether the minister brought home ideas as to furnishing it. GUELPH FACTORIES WILL CLOSE DOWN

Five Concerns Have Posted Notices of Intention—Result of City's Appeal. MANY HANDS AFFECTED. Deputation to Wait on Council Urging Withdrawal of Proceedings.

(Special to The Toronto World) GUELPH, Feb. 18.—Notices have been posted in five factories, controlled by the proprietors of the Guelph Carpet Mills and Guelph Worsted Spinning Co., that all five will be closed down indefinitely on Saturday.

This move is said to be a result of the decision of the court in the spring of 1913 and 1914, in which the two above-named companies were awarded \$25,000 damages and costs. A meeting of the four hundred employees of the factories concerned was held this afternoon and was decided upon the mayor and city council at the same time to appeal the decision, and to appeal the case, in order that the factories may start up again.

ONE CHINEE IN FIVE WAS HALED INTO COURT. Chief Grasett reported to the board of control yesterday upon the Chinese population. There are 41 proprietors of restaurants and 123 employees. There are 262 proprietors of laundries and 796 employees.

SMALLPOX STORY EXAGGERATED. Only Four Cases Under Suspicion at Caledonia and Doctors Unable to Clear Definitely.

CALEDONIA, Ont., Feb. 18.—The report sent out from Hamilton that the schools, churches and moving picture theatres here were closed because of a big smallpox outbreak is exaggerated. While it is true that places where the public assembly have been closed, this measure is merely due to an extraordinary case under suspicion here, but four have been unable to say definitely that any of the patients are smallpox victims.

APPLES IN NOVA SCOTIA. (Special Correspondent.) WINDSOR, N. S., Feb. 18.—The total apple crop in the Valley, which includes the Windsor and Pictou districts, last year amounted to 45,000 barrels of an estimated value of \$70,000. Most of the crop is exported to Great Britain. There is also a good business done in evaporating apples in this district.

BOARD RECOMMENDS JOHN PATTERSON

He Will Probably Be Appointed City Treasurer by Council. NEEDS BIGGER STAFF To Carry Out New Policy—Finance Commissioner Not Endorsed.

the promotion of Mr. Patterson to city treasurer, and Mr. Black to assistant, Mayor Hocken said.

"I object," said Controller Church, "and I'm also against having a commissioner of finance."

"We'll leave the matter of commissioner for further consideration," Controller McCarthy declared. "I believe this city is big enough to have a specialist in handling our securities."

"I'm opposed to a commissioner," Controller Simpson said. "There should be only one head of the treasury department." Controller McCarthy declared.

"So far as this board is concerned, we're not going to recommend a commissioner of finance," Controller Simpson said.

"All right, that's settled," Mayor Hocken agreed.

"When will we take up the appointment of the commissioner?" Controller McCarthy queried.

"Not until we get Chief Thompson's report to the civic survey report," Mayor Hocken replied.

LAND IS SUITABLE FOR SIMPSON PLAN

Toronto Owns Fifteen Hundred Front Feet of Cheap Land. SPEND NO MORE MONEY Till Funds Are in Sight is Latest Board of Control Dictum.

Controller McCarthy insisted in the board of control yesterday that no expenditures be recommended until the money is provided for. The property committee had sent on for approval a resolution to expend \$48,000 upon a cold storage plant for the municipal abattoir, and the works committee had sent on a resolution that the Gerrard street viaduct over the Don cost \$182,000 more than the \$200,000 originally appropriated.

After it was asked that the legislature would be asked for authority to allow the cold storage plant to be built, the extra \$182,000 for the Gerrard street viaduct was discussed.

"We know that the provincial engineer has demanded a stronger viaduct than could be built for \$200,000," Controller McCarthy said, "and we also know that a viaduct nearer grade will cost more money. If the legislature will give us authority to spend the extra \$182,000 we can go ahead with construction, but if we do not get that authority then we should submit a bill to the ratepayers before we think of construction." This was agreed to.

For Workers' Homes. Commissioner Forman reported that the city owns 1500 front feet of property worth less than \$40 per front foot and available for the erection of workingmen's homes. The board will again wait on the provincial government for a definite answer as to the power of the council to build the homes.

A strong appeal was made by J. Ross Robertson for financial aid to the Hospital for Sick Children. This work has so increased by the influx of immigrants that over 25,000 patients were

NEWS FROM THE CITY HALL

BOARD RECOMMENDS JOHN PATTERSON

He Will Probably Be Appointed City Treasurer by Council.

NEEDS BIGGER STAFF To Carry Out New Policy—Finance Commissioner Not Endorsed.

Unanimously the board of control yesterday recommended the promotion of John Patterson to city treasurer, and A. E. Black to assistant treasurer, their salaries to be \$7500 and \$4000 respectively.

Mr. Patterson is to be relieved of much detail work, so as to be free to specialize on debenture sales, on sinking fund account, and on providing additional revenues. He is to be given an increase in staff to carry out this new policy.

Provided Mr. Coady sends a written request for a retiring allowance, the council will be asked next Monday to fix the amount.

There is no likelihood of a position of finance commissioner being created. Three Years' Salary. Mayor Hocken brought up the matter by stating that the statutes limit a retiring allowance to three years' salary. "We should recommend that Mr. Coady be retired," he said. "I suggest that we recommend three years' salary (\$24,000) for a retiring allowance. Then the council will feel that we wish to be reasonable, but a clearing take the responsibility of deciding the amount."

"I'm satisfied," said Controller Church. Controller Simpson objected to recommending so large a sum.

"I'll support the mayor's recommendation on condition that Mr. Coady applies by letter for three years' salary," said Controller McCarthy. "I won't stand in the way of Mr. Coady getting his claim before council."

Must Put His Claim. The recommendation of a retiring allowance of three years' salary was sent on to council. Mayor Hocken promising that Mr. Coady would present a claim in writing.

PROVINCE WILL PAY FOR CARE OF INSANE

Under the agreement between the provincial government and the city the Burnside Home on the old General Hospital property will become not only a detention house, but a clearing house for those who are being examined and accommodated for this work has been in the Toronto Jail.

The city is given the free use of the Burnside Home temporarily. Its share of the expense will be in making the building habitable, in providing a psychiatric clinic and in maintaining patients until they are adjudged insane. The provincial government will equip the building in hospital effects and maintain the patients who are committed to the asylum for the insane and awaiting accommodation there.

There are 25 rooms for patients in the Burnside Home, which are sufficient for all purposes in the meantime.

CITIZEN COMMISSION MAY NOT BE CONVENED

It is fully expected now that the agreement of purchase for the clearing of the city will be ready for presentation to the city council at the first meeting in March, or at a special meeting soon afterwards.

There has been so much delay on the part of the Manufacturers' Association in appointing a representative committee of citizens to investigate and report upon the proffered solution of Toronto's transportation problem that it is doubtful if there is time now for the committee to deal with the matter.

PRESIDENT WAS HOTLY ATTACKED

Charged With Bowing to Railroads and "Audacious Claims" of Britain.

DISLOYAL TO PARTY

Senator Bristow's Allegations Resented on Both Sides of House.

(Continued From Page 1).

United States does not agree with me.

Conversion Not Easy. While senators were thus engaged in the first open discussion of the approaching battle in congress over the chief executive's desire for reversal of the Panama policy, the president was himself engaged with leaders of the house of representatives who are opposed to repudiating the declaration of the party platform. He discussed the situation with Majority Leader Underwood and Representative Kitchin of North Carolina, but so far as could be learned did not convert them to his view that the provision granting the Hay-Panamafoe treaty and embargoes the administration in its foreign relations.

A Dark Insinuation. When Senator Bristow said that the transcontinental railroads had for years been behind the fight against free trade for American vessels, and that they had influenced the president, Senator Kitchin, a member of the foreign relations committee, took the floor to declare that the president was actuated in his

thing wrong in electoral corruption.

"When I see the word 'scandal' in the headlines of a newspaper," continued Mr. Burnham, "I lay aside the paper and take a nap."

The people of Canada, the West Peterboro member observed, were sick and tired of scandal talk. They were in the position of the man awakened by his wife for the fiftieth time with the news that burglars were in the house. The man, according to Mr. Burnham, had replied: "Burglars be blowed! Let them take the house if they want it. I am going to sleep."

Judge Doherty, minister of justice, thought Mr. Burnham was too pessimistic, but at the same time feared that the Dominion Election Act, by its very severity, defeated its own purpose. It put in the same category innocent acts with those which were inherently corrupt. Bribery, he submitted, should be prevented, and also personation, which was a growing evil in our large cities. He was not prepared to say that a public prosecutor should not be appointed and charged with something

might be said in favor of making all campaign contributions public.

Will Appoint Committees. He did not favor compulsory voting, but thought it might be wise to require every voter to attend and register at the polling subdivision on election day. He had nothing to say respecting Mr. Maclean's suggestion that by a representative of the English Government, whose action had been instigated by the American and Canadian transcontinental railroads and British shipping interests.

Mr. Boyce (West Algoma) questioned the sincerity of the member for Halifax and thought it was a case of Saan reproving sin for the Liberals to preach against electoral corruption.

Sir Wilfrid Laurier ventured to doubt if the Conservatives were in a position to cast the first stone. As for himself, he was ready to admit that his own party was not free from sin.

Severely Defeats Justice. This observation being greeted with ironical cheers and laughter from the government benches, Sir Wilfrid protested that the subject in hand should be addressed in acandid and non-partisan way. He was inclined to think with Judge Doherty that the Elections Act was unduly severe in some respects. A young friend of his returned to parliament had been unseated and disqualified because he gave a hack-driver a \$2 bill for his fare. On the other hand, in a riding where the most damnable practices had been resorted to the successful candidate prevented by simply resigning his seat. He opposed Mr. Maclean's suggestion that election day be made a public holiday as tending to promote public disorder.

Trials a Farce. Mr. Borden, in adjourning the debate, said the committee might accomplish something, also similar committees in the past had not. The problem was full of difficulties and it was far from being settled in England, where the nursing of constituencies and other forms of corruption flourished in spite of the law and the judges. He doubted if it were wise to put in the Elections Act provisions not sanctioned by public opinion, such as the

conveyance of voters to the polls. The great need for reform, in his opinion, would be in the trial of election cases and he was inclined to agree with Sir Wilfrid Laurier that election protests and election trials had become little better than a farce. They were too expensive and the delays were intolerable. Sawing-off election protests was a great evil, which the appointment of a public prosecutor might largely do away with. The house could rest assured that before the next election the government would endeavor to improve the Elections Act and provide cheaper and more summary procedure in controverted election cases.

Beaches League Standing.

The Beaches League is rapidly getting down to their finals. Tuesday night, by the unexpected defeat of the Don Rowing Club by Auna Lee, the senior championship went to the Kew Beach Club. In the western intermediate series, Multnomah and Broadviews are tied for the honors, while in the eastern section, Yorks and Eastern Stars are tied. Coxwells have two more games, one with each of them, however, and if they win both they will tie up this group also. Broadviews and Broadviews are the only juniors to have a clear lead in any group, three teams being tied in one group for the honors, while in the other the next game will either decide it or tie it up again. The juveniles are still battling away and a win one way or the other may shift things around a lot. The standings:

Kew Beach	Won.	Lost.	To Pl.
Don R. C.	4	2	0
Auna Lee	3	3	0
Grand Trunks	0	6	0
.....	Intermediate—Western—		
Broadviews	3	1	0
Multnomah	2	1	0
Beverleys	0	4	0
The tie to be played off.

QUEER CEREMONIALS IN THE MAKING OF SWORDS

The making of swords in Japan is attended by queer religious ceremonials. Prayer is offered before the work begins and a number of rites must be performed before a sword can be declared perfectly made. Just before the final sharpening and polishing of the sword says Harper's Weekly, they are offered, one by one, for the blessing of the sword god. On the walls of the houses in which the work is done are representations of the god of the swordmakers, and the chief goddess, Ame Terasu. There are also rectangular bits of paper prayer and ropes of straw—charms to keep away evil spirits. No woman is allowed to enter the place, since the presence of women is supposed to be conducive to the appearance of demons who would certainly bring disaster to the honorable sword.

The particular treatment of the steel used for the manufacture of Asiatic swords had not a little to do with the reputation for the latter, for the damascening or "watering" of choice Persian and Indian arms gives a most attractive appearance to the work. Much the same thing was in evidence in the making of Damascus gun barrels, until it was discovered that fluid steel was preferable for the latter, at least from the manufacturer's point of view.

In the case of sword steel the "watered" effect is produced by a process of crystallization so that when the metal is forced out, a more or less regular pattern is seen running thru it. The effect is pleasing to the eye, tho it is said that the quality of the metal is neither better nor worse for being treated in this fancy manner.

NEWS OF SPECIAL INTEREST TO WOMEN

Theatres and Concerts

Alice Lloyd, the twinkling star of two continents, under the direction of Wm. Morris, will be the attraction at the Alexandra next week, with matinees on Tuesday, Thursday and Saturday, at popular prices.

Miss Lloyd, who is known through the theatrical world as England's greatest comedienne, will be seen in a new song repertoire, including "Parisian Crinolines," "Mother, Mother," "The Girl's Left Behind Me," "Twenty-One," "Lady Policeman," "Ship Ahoy," "Splish Me," "Who Are You Getting At," "Newly Introduced Your Book," "Stealing on the Line," "Tourist and the Maid," "Nothing Doing," "Mary Todd the Soldier," "The Girl's Left Behind Me," and others.

ALMA DAUGHTERS' ANNUAL LUNCHEON

Graduates of St. Thomas Ladies' College Spent Most Pleasant Afternoon.

The twelfth annual luncheon of the Toronto Alma Daughters was held yesterday afternoon at Simpson's, and the members spent a most enjoyable afternoon. Among those present were Mrs. D. Petrie and Mrs. Deering Hamilton; Mrs. Fletcher, Gravenhurst; Principal Warner, Mrs. Bipse, Miss Thompson, St. Thomas, and Mrs. Johnson, representing the Toronto Trafalgar Daughters.

The New Arcadia Club.

The Arcadia Club, Bay street, will shortly be ready for their opening ball, the date for which has been announced. The alterations and decorations are completed. The object of the club is to provide a place where the young people of Toronto may receive proper instruction in all forms of social dancing, and will supply the long-felt want for a properly supervised and safe place for the young folks to dance.

BRUCE OLD BOYS' AT HOME.

The 14th annual at home of this association will be held on Friday, Feb. 20, in the Temple building, corner Richmond and Bay streets. The dancing starts at 9 a.m. and will be kept up until 2 o'clock.

OFFERS COME SLOWLY FOR STEAMER NICHOLAS

(Special to The Toronto World) SARNIA, Feb. 18.—Only one bid for the wrecked steamer Nicholas has been received by the agent of the underwriters, and that is from A. B. McKay of Hamilton, Ont., who tendered \$5000. The offer was telegraphed to the underwriters in England.

GIRLS RALLIED TO THEIR UNCLE SAM

Made "Funny Noises" When Leading Lady Featured the Canadian Ensign.

THEN WENT ON STRIKE BUT TROUBLE IN THE ZIEGFELD CHORUS WAS PATCHED UP TACTFULLY.

Business common sense conquered petty national pride yesterday when the chorus girls of the Ziegfeld Follies decided that they would make up their trouble with the management and with Joe Collins, who the girls asserted had not as usual waved the American flag, but had given the Canadian ensign undue prominence in one scene.

PRINCIPALS ASK FAIR TREATMENT

Those Who Are Not in Proper Places on Schedule Complain.

The public school principals have asked that those principals who are not in their proper place in the schedule be allowed to attain that position by yearly increases of a unit and a half. The usual advance is \$100 per annum. There are principals who have been such for three or four years who receive the salary of a second-year principal.

MASONIC TEMPLE OPENED.

GUELPH, Feb. 18.—(Special)—The local members of the A.F. and A.M. religions opened the new Masonic temple on Quebec street last night, over 300 being present.

DON'T FAIL TO LEARN THESE DANCES

The Toronto World has made special arrangements with expert dancers to give instructions to its readers at each matinee at the Alexandra next week, which will be given Tuesday, Thursday and Saturday. There will be a coupon printed each matinee day which will permit you to go upon the stage and receive instructions from these world-famed dancers.

WOMEN TEACHERS FOR ASSISTANTS

Local Council Suggests That Male Principals Have Experienced Aid.

HEAR MARTIN HARVEY HE WILL SPEAK TO I. O. D. E. AT THE PRINCESS A WEEK FROM FRIDAY.

A large number attended the executive meeting of the local council of women in the Margaret street hall yesterday. Mrs. Huestis presided. The treasurer reported a good balance, \$278.50.

Invitations were received from the Henry Pollard Chapter, I.O.D.E., to hear Mr. Martin Harvey at the Princess Theatre on Friday afternoon; from the Jewish Council of Women to hear Mr. Stephen Wisse of New York, and from the Y.W.C.A. to hear Dr. Peter Roberts on immigration some time in March.

BEAUTIFUL BERMUDA.

Bermuda, noted for its beautiful flowers and climate, is again attracting a great deal of attention. Each year seems to be more attractive than the previous, judging from the number that are selling to this beautiful island. The three steamers—Arcadian, Bermudian and Caribbean—making the trips this year are being booked to capacity, and accommodation is being taken up many weeks before the steamer actually sails.

Mr. Rhys D. Fairbank, chairman of the Toronto branch of the Canadian Manufacturers' Association, was appointed to the commission to study transportation problems in Toronto. This completes the commission, which is all follows: Sir William Meredith, President of the Board of Trade; Mr. Fairbank; J. W. Woods (Board of Trade); President Falconer (University of Toronto); and Joseph Gibbons of the Trades and Labor Council.

WATERLOO'S SHORT COURSE.

GALT, Feb. 18.—(Special)—A short course in agriculture was opened today at Waterloo, and will continue for three days. Over one hundred farmers, representing various townships, are taking advantage of the opportunity of securing instruction in judging. R. B. Smith of Columbus is in charge of beef cattle and R. S. Stevenson of Ancaster, of milk cows.

EFFICIENT HOUSEKEEPING

BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Ten Dollars a Week.

HOW can a family of five—two children, a baby, a man and his wife—live on ten dollars a week? The first answer that comes to mind is, "they cannot," but ten dollars a week is exactly the sum that eighty per cent. of city dwellers have. Out of this income ten dollars a month must be saved for rent, the remainder must clothe the family, supply the provisions and provide for the special needs of the baby.

Then there is the matter of soups. Days when there is meat for dinner the liquid in which it is cooked, and the bones, are carefully saved. Not to make a huge soup, but a broth, rich enough to take the place of the meat which must be absent, for soup and meat are not for the same meal when five are to be fed three meals on an appropriation of sixty cents.

THE GARDE RACHEL

Are you an expert on preparing modish little dishes such as omelettes, souffles, etc.? If not, and if you would like to learn the latest and at the same time the most economical recipes, come to Miss Lillie Miller's cooking lecture Friday at the big upstairs hall of the Hotel Marlborough, 22 College street. Lecture lasts for one hour and starts at 11:30 a.m. sharp.

THE BABY'S TEETH

The average baby cuts his teeth somewhat in this fashion: About the eighth month he begins to drool more than he has before, the lower gum becomes swollen and somewhat inflamed and between this time and the ninth month he begins to drool more than he has before, the lower gum becomes swollen and somewhat inflamed and between this time and the ninth month he begins to drool more than he has before.

DAUGHTER APPEARED IN HER MOTHER'S PLACE

A young Jewess appeared in the place of her mother on a serious charge of neglect, which threatened to permanently injure an eight-year-old little girl. The child stood before Acting Commissioner Graham in a most unwholesome state. A pale, wan little visage bespoke much suffering and a bandaged face threw a little light on the situation. It soon set, the mother will not allow the little one to be further treated by the Sick Children's Hospital authorities, as she considered the first operations fruitless.

WOMEN WILL FIND MORE NEWS OF INTEREST TO THEM IN THE WORLD'S MAGAZINE PAGE EVERY MORNING THAN IN ANY OTHER PAPER.

SISTER VERONICA IS LAID TO REST

Had Been for Fifty-Nine Years in the Life of Religion.

The funeral of one of the oldest members of St. Joseph's community took place yesterday from the chapel of the Sacred Heart Orphanage, Sunday, Feb. 15. Sister Veronica, who was born to her last earthly resting place in Mount Hope Cemetery. The deceased sister, whose family name was Walsh, was in her eighty-fifth year and in the fifty-ninth of her life as a religious. Irish by birth, she came with her family from her native land and settled in Hamilton, but the greater part of her time was spent at the House of Providence and at the orphanage in which institutions her devotion to the poor endeared her to many hundreds who professed by her ministrations. On account of her virtuous remembrance of events in the life of Toronto, Sister Veronica was regarded as a very interesting and charming conversationalist.

OLD LONDON IS SCENE OF ROMANTIC WEDDING

LONDON, Feb. 18.—A romantic wedding of two Americans took place here today, when Perry Crawford of San Jose, Cal., and Miss Irma Zichow of Detroit, Mich., were married in Regent Square Church.

A Lesson on Omelettes.

Are you an expert on preparing modish little dishes such as omelettes, souffles, etc.? If not, and if you would like to learn the latest and at the same time the most economical recipes, come to Miss Lillie Miller's cooking lecture Friday at the big upstairs hall of the Hotel Marlborough, 22 College street. Lecture lasts for one hour and starts at 11:30 a.m. sharp.

Nethersole's Tribute.

Olga Nethersole, the famous English emotion, who has been in nearly every civilized country and traveled throughout the length and breadth of the globe, has paid a high tribute to hotel accommodation in Winnipeg in a letter addressed to Charles L. de Rouville, resident manager of the Hotel Marlborough, who has been in charge of her week's run at the Orpheum Theatre, she wrote: "Before leaving I would like to tell you how very comfortable and pleasant my stay may be at your beautiful hotel. Your staff and service is perfect and the cuisine excellent."

ST. CECILIA'S SODALITY.

SAVED WIFE FROM DRINK

Winnipeg Man Saves His Wife Through Samaria Prescription.

How terrible the effects of the curse of drink when a woman is afflicted. Wives and daughters often save their husbands or fathers from the drinking habit through giving tasteless Samaria to them in their tea, coffee or food. But this is the story of a young husband in Winnipeg who overcame all difficulties and saved his wife.

Hints on Beauty Culture

If You Have Cold Feet, You Lose in Efficiency

By MAGGIE TEYTE

Prima Donna Chicago-Philadelphia Opera Company.

WHAT can I do for cold feet? A woman wrote me that query in a letter which was both pathetic and serious. It seems the poor soul has suffered in silence all her life. She says with perfect seriousness that she has never known what it was to have warm feet from the first of November till the first of May. She says having cold feet interferes with her efficiency. It takes her mind off all other matters. And she asks quite tragically what to do for them.

At the risk of being thought frisky I reply to her and all her similarly afflicted sisters—warm them and keep them warm.

Cold feet are a menace to health. They show there is something wrong with the circulation, and in order to be well the blood must circulate properly. And in order to be beautiful we must be well.

It seems to me the woman who will confess to having endured cold feet for goodness knows how many years lacks efficiency in more ways than one. There is no virtue in the patient endurance of fits and evils which can be remedied.

Bathing and friction are the two simplest and most effectual ways to cure cold feet. No sensible person who has the slightest understanding of the laws of hygiene, or the least desire to be well and look well will go to bed with cold feet. If your feet are cold when you are ready for bed give them a hot mustard bath and a rub with alcohol. Then slip on some linted bed slippers till they are warm beneath the covers, when the slippers can be removed.

In the morning rub the feet with cold water and alcohol. If you have been wearing thin stockings and thin-soled shoes, mend your ways. A great many persons wear feet of the finest wool over their hose or silk stockings when the weather is severe or stormy, and they wear heavy street boots. Cold feet mean red noses and pinched faces, and a general unwholesome drawn expression. Cold salt and water used every morning and followed by an alcohol rub is a good way to start the blood doing its work in the feet.

If, after trying all these things and exercising as I have advised you to do daily, you still suffer from cold feet, please see your family physician. It is the case for the man of medical skill, not for the beauty doctor. And I don't even pretend to be that. I do happen to know some of the ways to make the most of the looks nature has given us, and I am as glad as can be to pass the knowledge along.

This is the season when you want to take care of your complexion. We are eating more and heartier food because we need it to combat the exigencies of the winter weather. Therefore we are apt to over do it and get our systems clogged and out of order.

If you find your liver getting sulky and your brain lagging in consequence thereof, try to remedy it by eating less starches and more fruit and vegetables. Oranges, apples, prunes and grapes are excellent. Tomatoes are golden. They start your liver working at once. And if your liver doesn't work you will be repeating the harvest in a sorrow and a tangled skein.

If you find your skin having a shriveled look it is the sign you need some good skin food.

If you can get perfectly pure olive oil it is an excellent skin food. But it is wisdom to dress a bit of bergamot in the oil, or it is apt to both darken the skin and cause hair to grow. So use it only occasionally.

A good and inexpensive skin food is made from 5 cents' worth each of white wax, spermaceti and powdered camphor mixed together with the addition of enough pure olive oil to make it smooth.

If the water you have to use on your face is hard, soften it with a bit of cream or skin food application, holding the face with bay rum or witch hazel.

Great Novels in a Nutshell

"Ivanhoe"

Condensed from the SCOTT novel by ANITA von HARTMANN

GREEN and Wamba, the jester, servants of Cedric the Saxon, were driving home a herd of swine one evening when they were overtaken by a party of Norman horsemen.

"Are we near Rotherwood, the dwelling of Cedric?" a Knight Templar inquired.

"Hold this road till you come to the swollen cross," said Wamba. "Then take the path to the right."

Gurth chuckled as the horses' hoofs died away.

"If they follow my directions, Wamba," he grinned, "they will hardly reach Rotherwood this night."

But the Norman found a Palmer, a stranger returned from the Holy Land, asleep by the cross.

"If thou wilt take us to Cedric's in safety," they told him, "thou shalt have both thanks and reward."

Cedric received the travellers courteously, and when they had seated themselves before his bounteous board, his beautiful young ward, the Lady Rowena, came down to talk with them.

"Were there none in the English army," Rowena inquired, "worthy to be mentioned with the Knights of the Temple?"

"The English monarch did, indeed, bring a host of gallant warriors," replied the Templar, "second only to the Knights Templar."

"Second to NONE?" broke in the Palmer.

"King Richard held tournament, and each knight cast to the ground three enemies. Seven were Knights of the Temple."

"Couldst tell the names of the English knights?" asked Cedric.

The Palmer mentioned five. "The name of the sixth dwells not in my memory," he said.

"Sir Palmer," said the Templar, scornfully, "I myself will tell the name of the knight before whose lance I fell—Ivanhoe. Were he here in England for next week's tournament I would challenge him to combat."

"If Ivanhoe returns from Palestine," replied the Palmer, "I will be his surety that he defeats you."

Early next morning the Palmer arose to warn a Jew, who had taken shelter under Cedric's roof, that the Templar had designs upon him, and hurried the

ABILITY PLUS FAITH WILL WIN

Carolyn Thomson, Who Says "Confidence" is the First Step Toward Success.

Sign Posts for the Ambitious

By Madge Marvel

HAVE faith in yourself and don't be afraid of the big job," is the motto which Carolyn Thomson, youngest American prima donna, has adopted for her own, and which she offers to all other girls who want to succeed in the world.

"I don't go in for a blind faith," qualified Miss Thomson, in a recent interview. "But if you know you have ability, after you have looked at yourself from every angle, then aim high. The chances are you will land better than if you reached the lower place for which you might have tried with less faith, and there is always the chance of reaching the top if you aim for it."

Carolyn Thomson comes from Minneapolis. She is just 13 years old. Her mother is Mrs. Lucretia Thomson, prominent in society and club life. When Joseph P. Blumenthal, Jr. decided to put a second company of the musical success, "Adèle," on the road, 90 young women

Peter's Adventures in Matrimony

By Leona Dalrymple

Author of the new novel, "Diane of the Green-Yan," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as Judges.

The truth, plain and unvarnished, says home or else he sneaks away and plays golf at the Country Club.

It was not that one might call an "uplift" reason, this trotting obediently to church to rub it into Mrs. Jackson's ears, but that she had a long history of reflected that, after all, it probably was "religious" to fit on Sunday. Needless to say I went with Mary. I haven't been married long enough to take a holiday from such topics.

A suburban church parade is a thing to be shunned. It would make any one melancholy, I think, to wander through town in the wake of several other subdued couples decked decently in Sunday togs and talking of a hodge-podge of topics which they deem suitable for Sunday airing.

Mary, in particular, wears an air of devoutness that I find most distracting and becoming. Together with the mist of haze under her hat and the pious gravity of her pretty eyes, it's most catching. I wonder if a woman deliberately adopts that nun-like air because she means to, or because it's vastly becoming. A man once told me that a woman with a saintly expression on her face was not the result of temperament but rather the result of sophisticated art. She knows that her features lend themselves to a beautiful austerity of expression, and, therefore, adopts it. But that man was a hopeless cynic. Mary, I feel pretty sure, has a strong religious sense.

There was a minister in the pulpit this particular Sunday from a distant city, a brilliant chap, who held up all power-

Secrets of Health and Happiness

Wishes Inspire Dreams, Which Often Come True

By Dr. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins),
Copyright, 1914, by L. K. Hirschberg.

DREAMS are the step-children of every-day life. They are the children of idle brains, begot of vain fantasies. They are of thinner substance than helium and coronium, the most tenuous of gases. They are more inconstant than Childe Harold or Don Juan. Dreams are the stuff that Cupid sprays upon his arrow points. Madmen and youths, philosophers and poets are saddled with them.

Dreams in their foundation have the breath of life; they blow hot and cold upon your waking life; they take the weight from daily toil.

Some dreams are only dreams unnatural and full of contradictions. Others are more than fiction.

The horrible nightmare after a winter's entertainment and the happy midsummer night's dream are both born of realities. Dreams, according to the seers, portend coming events and poets add fuel to dreamful superstitions by singing that "at break of day, when dreams, they say, are true."

Dreams are not interludes which fancy makes when March Heben sleeps the mimic water. Compendia of melody of disjointed images, a mob of pictures, and a court of slaves. Light tunes are more, greater tunes are sad; but are the "mimic water" run down the face, that neither were, nor are, nor ever can be.

According to Prof. Sigmund Freud of Vienna dreams are merely the dimly realizations of the suppressed longings, unsatisfied wishes and unfulfilled ambitions of your everyday life.

These mental cravings and uncompleted yearnings of your real, workaday world are often the worries of a mother over an absent son; the fright of a wife that a drunken husband may be killed; the fear of a maid that her sweetheart may leave her; these and many analogous "worries" are really suppressed longings which are repeatedly carried out by the inevitable logic of your fanciful mind to the sad ends which you pray, hope and wish not to take place.

Thus dreams come true: It is not a superstition to admit that dreams are actually fulfilled.

It is a superstition to believe their completion is an occult, mysterious or "spirit" manifestation.

When the wife dreams that her drunken husband is killed, and it actually happens some weeks later, this merely shows that she was always afraid that his habits, his occupation and his professions would thus terminate.

The wish is father to the thoughts and mother to the dreams. Shylock was always in fear lest his usurious wealth would be stolen, hence his worry: "There is some ill brewing towards my rest, for I did dream of money-bags tonight."

Prof. Henri Bergson, the French philosopher, is also convinced that dreams are the presagers of joyful or sorrowful news, according to your wishes.

O, I have passed a miserable night, so full of ugly sights, of ghastly dreams, that I would spend another such night, though I were to pay a world of days.

I would not spend another such night, though I were to pay a world of days.

—Richard III.

Answers to Health Questions

L. T.—My husband is always snatching books away from my 12-year-old boy. Is he correct in preventing our son from reading?

No. Fathers are unjust if they do so. It is better to encourage and to study with aggressive outdoor play. The two must balance each other.

F. K. F., Pottstown, Pa.—My hair comes out from dandruff; give me a formula to keep it. Can gray hair be restored to a natural color? Is there a cure for corns?

Resectin, 10 grains; sulbur, 30 grains, and red vaseline one ounce, with any pleasant scent, massaged into your scalp of alternate nights will soon save what hair is left.

Gray hair is due to air taking the place of the dark pigment grains of the normal hair. The only way to restore its former splendor is to make new, young hairs grow up to replace the gray ones.

Corns have been known spontaneously to disappear after a number of years. It is with care to administer a local anesthetic, such as a dentist does, to remove the teeth, and lightly cut away the flesh under and around the corn. A scar then takes the place of the old nuisance.

J. R., Philadelphia—Is there a cure for "neuritis" in the arm, hip and leg?

If you will give a fuller explanation of your habits, your occupation, your diet and your past history it may be possible to help you.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care this office.

Advice to Girls

By Annie Laurie

Dear Annie Laurie—The dearest little sweetheart in the world. She's been visiting some friends here for a week or so. I've been in love with her ever since the first time I saw her. Her mother came to take her home the other day and I in-vited mother and daughter out to dinner with me.

And the mother came down to greet dressed like a girl of sixteen. But worst of all, she had on a slit skirt that showed her leg up to the very knee. I could see that my sweetheart was awfully ashamed about it. She has never called me up since, and I don't know what to do. I think she saw how I felt and is mad at me for it. But, still, I don't know how I could help showing my feelings. What would you do about it?

SORRY.

POOR Sorry. What a time you did have, to be sure—and poor little sweetheart. I'm sorry for her, too.

What do you know about sweetest heart and her mother? Is mother a widow, and has she worked hard and sacrificed much for many years to

WILLIE JONES.

With the Bark on

When it comes to choosing a husband every woman hopes for the best.

Many things that they say they said were really never uttered before.

Easy money is sometimes hard to retain.

The taking of a better half does not always better a man's condition.

Money is often more convincing when it is silent than when it talks.

Laugh, and the world laughs with you. Weep, and the world laughs at you.

The hand that rocks the cradle is not a success at rocking chickens.

Bluffing at the wrong time has cost lots of money.

Fought Fair.

"Did her father flick when you asked for her hand?"

"Oh, no. He had taken lessons in boxing and had different ideas about fighting."

In the Way.

Marie—I never like to kiss a man with an insulator.

Meric—An insulator? What do you mean?

"Why, a mustache, of course."

Anxious for Misery.

"There is plenty of trouble in store for that man."

"Yes, and he is so anxious to get it that he is willing to pay storage charges."

Did Not Save.

"He said she would kill himself if she did not marry him."

"So she saved his life, did she?"

"Well, she married him, but he died within a year from depression."

They Often Are.

"So she hired a private detective. But the experiment was a failure."

"Well, she thought the private detective was too public."

Suited.

"Her hair so bathed in dees fresh-lime places without a bathin' suit," said Langrid Lawrence.

"Well," replied Toyle Knott, "dat would suit me."

THURSDAY MORNING, FEB. 19

THINGS DONE AND UNDONE.
When every allowance has been made for the program outlined in the speech from the throne yesterday, it will not cover up the memory of the many things that yet remain to do. "These things should yet have done, but not left the other undone" is a phrase that is rarely sufficiently appreciated. A government that has done and is doing so much as the Ontario Government in matters of routine and in reforms which are not extraordinary and do not affect the ordinary man, is apt to lose sight of the number of things it is not doing. It is on the things undone that the opposition grows fat. It is with the things omitted that the public was discontented. It may seem ungrateful where so much is offered still to be asking for more. But the demand never ceases in a community instinct with the progressive pulse of Ontario. There is nothing that any nation or state has anywhere that Ontario should not possess in equal measure. Every movement that makes for better citizenship and a wholesome national life must be considered by those who have the welfare of the province in charge.

The compensation for workmen will consume a lot of time and is a big measure in itself, but it is almost the only new thing on the government program. Nearly everything else is of a routine character, and the people are apt to think that routine matters run themselves and no great credit is due to those who maintain a high state of efficiency in all such affairs. We do not think it is necessary to turn the country upside down every session, but there is a big solid body of public opinion anxious to know what is going to be done for municipal reform in the larger cities and especially Toronto; taxation and assessment reform; and the agricultural situation in Ontario. The roads question seems to be in good hands, but what about these other?

PUBLIC TELEPHONE AND TELEGRAPH SYSTEM.
Premier-General Borden's recommendation in favor of the United States Government acquiring the telephone lines and using them for telegraph as well as telephone purposes in competition with the two private telegraph companies has caused a change in the direction of the latter systems. In the annual report made by the trustees of the Mackay Companies it is remarked that "the proposition will hardly commend itself to the intelligence and fairness of the American people." That estimate naturally depends on the success with which the purveyors of public services meet the public demand. Judged by this standard the efforts of the telegraph companies on this continent have failed in their primary duty. The telegraph service, outside of the larger centres of population, has not been so universally available as it ought to be, and as it never will be until it is conducted in the public interest and without regard to the necessity of providing dividends and stock returns for shareholders and share speculators. In the Mackay report the old instance is again given, as an argument against public ownership and operation; that the telegraph system of the United Kingdom shows a steady deficit. But, as usual, it carefully omits to point out that the cost of nearly one-half in the minimum rate made shortly before the introduction of telephones explains the deficit. The telegraph companies are shown an average deficit of the British postoffice which over all yields a large revenue and the telegraph profits maintained for the public benefit.

The United States would be far better served to-day had the federal government followed out the principle of the postoffice system and made all the means of communication of intelligence a public monopoly. In the United Kingdom every postoffice in a sufficiently populated district is also a telegraph office, and every telegram directed to a point within reasonable distance is delivered free. This is carrying out the true idea of a public service; that it shall provide the greatest good for the greatest possible number. But that idea does not appear to a private company, whose aim is to cultivate only the districts that will yield a profit on the business done. The Mackay trustees try to affect public opinion in the United States by pointing out that they will

pay for the Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newsboys at five cents per copy. Postage extra to United States and all other foreign countries. Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World.

\$2,000,000,000 to pay for the physical properties and the earning capacity of the telephone and telegraph plants, which earning capacity, they add, must be paid for under the decision of the supreme court of the United States. But that need not debar the United States Government from establishing a competitive telegraph service by the utilization of the telephone lines. Nor does it apply to Canada, where parliament has jurisdiction unfettered by the terms of a written constitution, framed and established by men, long dead, who placed the protection of personal property above the general interest and welfare of the working masses of the people. The United States Government, thru the parcel post, has already entered upon competition with the express companies. There seems to be no reason why it should not also secure better service, more universally available, in telephones and telegraphs.

JOKES AND JOKERS.
Because ex-Controller Foster was not tried for perjury, as he was entitled to be, The Telegram seems to think he was hardly used. Surely The Telegram might let poor Mr. Foster alone now that he is down and out. The attempt to draw comparisons between Controller McCarthy and ex-Controller Foster is utterly futile, and The Telegram has but little regard for its old friend, Mr. Foster, in taking this course. "The controversy with Controller McCarthy's policy," says, "was kept inside the four corners of the house of commons by Will Crooks, the Labor member for Woolwich." The members of the Labor party had been greatly incensed by a demand put forward by the Unionist for legislation to be known as "alien deportations" as the labor leaders deported from South Africa after the recent general strike. A storm of protest filled the house, in the midst of which the Labor member for Woolwich shouted:

SWEDISH PARLIAMENT TO BE DISSOLVED SOON
STOCKHOLM, Sweden, Feb. 18.—The new Swedish Cabinet proposes dissolving parliament and after the elections submitting its plans for the reform of the national defence. Premier Hammerskjold made this announcement in the second chamber of the Riksdag, the premier said, had entrusted him with the task of settling the national defence, without reference to political considerations. The funds necessary for carrying out the reform would be raised by a special tax. He asked the assistance of all parties in support of his scheme of national defence.

LOOKING AHEAD.
Canada, with its immense natural resources, can never suffer any permanent setback. Temporary recessions there may be, as there have been, but sooner rather than later the wave will return with added force. Years of unusual prosperity led, particularly in the west, to excessive land speculation. Profits were anticipated rather than earned in values than from productive work. When the crimp in money came it made the last holders the victims and compelled those living on speculation to abandon the field and seek other and more legitimate fields of endeavor. During the process of readjustment some hardships are inevitable, but the end will be healthier conditions in all branches of business.

ADMITTS EXTRAVAGANCE.
(From The Calgary Albertan, leading Liberal paper west of Winnipeg.)
But after due consideration for all that, it can hardly be denied, judging from the report and the cost of the railway (National Transcontinental), that the work was done in a most extravagant manner. The government did not use the same supervision that a railway company would have done. A railway would have built the road for much less money. The initial error, it seems, was made in the appointment of a commission, composed of men who knew little of railways or the building of them. With such a commission "unscrupulous contractors seem to have taken extreme liberties." The Alberta advises its readers to await further information before coming to a definite conclusion. From the report that we have, it seems that there was sad mismanagement and gross extravagance.

SPARK STARTED FIRE IN MATTRESS FACTORY
Starting from a spark from a carding machine, fire did about \$100,000 damage to the premises of the James M. Purvis Mattress Works at No. 2 Esplanade at 9 o'clock yesterday morning. The spark flew directly into a quantity of highly combustible materials near the machine. The building destroyed was a one-story frame structure, to which the damage was \$2000. The balance of the damage was caused by water to destroy machinery and stock. The loss is only partly covered by insurance.

WESTERN HOSPITAL HAS TWO STAIR INJURY CASES.
Mrs. Pike Hurt Her Back—Salvation Army Captain Fell in Barracks.
Mrs. Pike, 23 Borden street, fell downstairs at her home yesterday and severely injured her back. She was taken to the Western Hospital in the ambulance.

FOREIGN NEWS

WANT LIGHT ON SALE OF TITLES
Unionist Peers Will Support Resolution Calling for an Investigation.

LONDON, Feb. 18.—It was decided today at a meeting of Unionist members of the house of lords and the house of commons that the peers should support the motion of Baron Amptill for an inquiry into the charges brought by the newspapers of the purchase of titles by subscriptions to party funds. This will be done at the resumption of the debate tomorrow in the House of Lords on the scandal connected with the purchase of Marconi shares by members of the British cabinet, at a time when contracts were pending between the government and the company, a party member of the cabinet.

WOULD BAR THORNTON AS UNDESIRABLE ALIEN

LONDON, Feb. 18.—Henry W. Thornton, the new American general manager of the Great Eastern Railway Company of England is an undesirable alien, was the motion made by Mr. Crooks, the Labor member for Woolwich. The motion was supported by a demand put forward by the Unionist for legislation to be known as "alien deportations" as the labor leaders deported from South Africa after the recent general strike.

O'BRIEN IS RE-ELECTED WITHOUT OPPOSITION

CORK, Ireland, Feb. 18.—Wm. O'Brien, leader of the Independent Irish Nationalist party, was re-elected as member of parliament for Cork City. He recently resigned in consequence of a speech by Augustine Bowles, M.P. for North Louth, who declared that the Independent leader had lost his hold on Cork. Mr. O'Brien accepted the challenge and immediately vacated his seat, but the regular Nationalist party decided not to oppose him. John B. Redmond, deputy leader of the party, ground as much as possible any differences between the two wings of the Nationalist party.

MASTERMAN IN DANGER OF DEFEAT IN ELECTION

LONDON, Feb. 18.—Great interest centers in the British Green election tomorrow, where Mr. Masterman, who seeks re-election thru becoming a cabinet minister, has only a slim majority. Alleged unpopularity of the National Insurance Act with the poorer classes in the London district, which was largely held home rule. In three columns for instance, of a Unionist evening paper devoted to this election, the night, home rule received only the most casual reference.

NO PEACE CONFERENCE IN 1915

LONDON, Feb. 18.—Francis Dyke Acland, parliamentary under secretary for foreign affairs, informed the house of commons today that he would not recommend to hold the third Hague peace conference devoted to this election, but a committee must sit for two years in advance of the meeting preparing a program and the committee has not yet been formed.

SUFFRAGE NARROWLY DEFEATED.

CAPE TOWN, Union of South Africa, Feb. 18.—The House of Assembly today rejected the bill for women in the Union of South Africa, which was introduced into the House of Assembly today. The bill was defeated by a narrow majority of 45 against 42 votes.

SENTENCED TO LASHES BUT LATER REMANDED

William Gray Will Face the Court Again—Chinamen Fined for Gambling.
Domiciles, dice, money and their passion for gambling led 15 Chinamen into police court yesterday, and after a brief hearing fines were levied totaling \$15. Park Road, 55 West Queen street, paid.

SPARK STARTED FIRE IN MATTRESS FACTORY

BARON VICTIM OF MILITANT'S WHIP
Was Mistaken for Cabinet Minister and Given Severe Beating.

LONDON, Feb. 18.—A militant suffragette armed with a whip savagely attacked Baron Wearable, while he was walking today, with 200 other guests, for the train to Northampton, to attend the wedding of the Hon. Sidney Peel, son of Viscount Peel, and Lady Della Spencer, daughter of Earl Spencer. The woman apparently mistook the elderly peer for one of the cabinet ministers. Lord Wearable was walking with his wife along the platform, when she was struck from behind by a militant who struck him a severe blow with a powerful dog whip, as the result of which he fell to the ground. The incident caused a lively sensation among the big party of fashionable people, many of whom were members of the nobility. Their anxiety was relieved when it was found that Lord Wearable had not sustained any serious injury. The woman was arrested.

O'BRIEN IS RE-ELECTED WITHOUT OPPOSITION

CORK, Ireland, Feb. 18.—Wm. O'Brien, leader of the Independent Irish Nationalist party, was re-elected as member of parliament for Cork City. He recently resigned in consequence of a speech by Augustine Bowles, M.P. for North Louth, who declared that the Independent leader had lost his hold on Cork. WANTED IN GRAFT CHARGE WAS LOCATED IN OTTAWA
MONTREAL, Feb. 18.—On Ottawa special to The Gazette this morning says:
James Ross Ness, former manager of Liptons, Limited, in England, and one of the 18 defendants in the British army canteen graft charges, a man for whom the London authorities have been searching, and for whom a summons has been issued in this province, has been located in Ottawa, and his address is the Roxborough Apartments. He is manager of the Ontario and Manitoba Flour Mills Co. At first Mr. Ness denied his identity, but afterwards admitted he was the man sought. In his statement in regard to the matter, however, he denied that he was implicated in any corrupt practices in Malta in 1905—while he was acting as manager for the Lipton firm—with Col. Whittaker, who was then commander of the second battalion of the Yorkshire Light Infantry. This is the allegation that has been made in the case as regards Mr. Ness' connection with the affair.

HOMESEEKERS' EXCURSIONS AND SETTLERS' TRAINS TO THE WEST.
Those taking advantage of above Excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the west. It is the only all-Canadian route. Only line operating through trains to Western Canada. No change of depot. Only line operating through standard and tourist sleepers to Winnipeg and Vancouver. All equipment is owned and operated by Canadian Pacific Railway, affording the highest form of efficiency.
Homeseekers' fares will be in effect each Tuesday, March 3 to Oct. 27 inclusive, and round-trip second-class tickets will be sold via Canadian Pacific Railway from Ontario points (Azilda and east) at very low fares—for example, from Toronto, also west and north of Toronto, to Winnipeg and return. This is the allegation that has been made in the case as regards Mr. Ness' connection with the affair.

FIFTH RACE—One mile: 1. El Pato, 104 (Molesworth), 5 to 1, 2 to 1 and even.

2. Dutch Rock, 106 (Taplin), 8 to 1, 3 to 2 and 4 to 5.

3. Old Gotch, 90 (Haynes), 7 to 1, 5 to 2 and 6 to 5.

Time 1:47 4-5. Callithumpian, Philletina, Lady Pender, Joe Woods, Cisko, Wise Mason and Ben Uncas also ran.

SIXTH RACE—One mile: 1. Curicue, 100 (Haynes), 8 to 3, 3 to 2 and 1 to 2.

2. Ocean Queen, 106 (Taplin), 5 to 2, 7 to 10 and 1 to 2.

3. Amoret, 102 (Carroll), 6 to 1, 8 to 5 and 4 to 5.

Time 1:44 3-5. Star Bert, Commendation and Cordie F also ran.

ALBION CRICKET CLUB.

The grand concert under the auspices of the Albion C. C. (Garrett) takes place this evening at the Orange Hall, College street and Euclid avenue, at 8 1/2 sharp. Everyone is invited to come for a pleasant evening.

WEST END Y. AND ETONIAS.

The big basketball game of the season is billed for tonight on the Eatonias floor. This game is the first of a series of two to decide the senior city championship. The following will represent the big store boys: Defence, Hunter, Stair, (captain) and Rankin; centre, Neate; forwards, Solvetti and Carrick. Referee—J. Malcolm.

Hotel Krausmann, Ladies' and Gentlemen's grill, with music. Imported German Beers, Plank Steak a la Krausmann, Open till 12 p.m. Corner Church and King Streets, Toronto.

Today's Entries

AT JUAREZ.

JUAREZ, Feb. 18.—Entries for tomorrow are as follows:

FIRST RACE—Selling, 3-year-olds and up, 6 furlongs: 1. Adz Keonedy, 100

2. Red Beard, 102

3. Downland, 103

4. King Stewart, 110

5. Elm Fern, 117

6. Doncaster, 117

SECOND RACE—Selling, 3-year-olds and up, one mile: 1. Transact, 90

2. Pretty Dale, 98

3. Sadie Shapiro, 105

4. Shorty Northcutt, 105

5. Sister Flossie, 106

6. Joe Woods, 108

7. Mar. Tighman, 112

THIRD RACE—Purse, 3-year-olds, six furlongs: 1. King Worth, 102

2. Jeniel, 100

3. Bob Henrich, 110

4. Hodge, 100

FIFTH RACE—Selling, 4-year-olds and up, 1 furlong: 1. Manasseh, 98

2. Black E. Susan, 95

3. Busby, 100

4. B. O. Mawr, 105

FIFTH RACE—Selling, 8-year-olds and up, 5 1/2 furlongs: 1. Birdman, 101

2. Jewel Asia, 104

3. Ed Adams, 104

4. Colinet, 107

5. Wakefield, 110

6. J. Wakefield, 110

7. J. Wakefield, 110

8. J. Wakefield, 110

ATTORNEY-GENERAL IS IN WASHINGTON

Will Take a Few Days Off for Rest—Discusses Financial Conditions.

NEW YORK, Feb. 18.—"Many persons in Canada will be compelled to face heavy losses in land investment owing to the inflation of prices in real estate, mainly in the western provinces, in the last few years."

These prices are beginning to adjust themselves, according to Hon. J. J. Foy, attorney-general of Ontario, who left yesterday on his way to Washington.

General business in Canada, he says, has recovered since the financial stringency of last fall was relieved.

The Ontario Legislature opened today, but Mr. Foy says that not much work will be done this week. He came to New York for a rest, intending to go on to Atlantic City, but the drop in temperature made him feel that New York would be preferable to the Boardwalk, and he stayed here.

"One of the important measures to come before our provincial parliament is the Workmen's Compensation Act, which in its general form, will be much the same as the law that will go into force in this country on July 1," said Mr. Foy. "As it is a government measure, I think there is no question that it will go thru."

Canadian Banking. Speaking of business and financial conditions, Mr. Foy said: "While I have not made a careful study of the United States new currency law, I think it will undoubtedly have a beneficial effect. Our own banking laws are very satisfactory. Our banks have a much larger capital than Americans, running from a few millions of dollars up."

Our currency is very elastic, banks being allowed to issue their own paper money to a limited extent, giving security partly by holding government bills of large denomination. This elastic quality of the United States currency bill is designed to furnish the attorney-general expects to return home late in the week.

CORNWALL, Feb. 18.—(Special.) John T. Bush, a respected and life-long resident of Dixon, Ontario Township, died very suddenly on Tuesday, Mr. Bush had just returned home from Wales and went to the stables to do the night work, when he was seized with a weakness of the heart and passed away before a physician could be summoned. He was in the sixty-fourth year of his age. His wife, three sons and five daughters survive.

SCOTTISH RITE MASONS GATHER AT LONDON.

LONDON, Ont., Feb. 18.—In the neighborhood of three hundred Scottish Rite Masons are in the city for today's and tomorrow's exercises in connection with the annual gathering. Among the notable Masons present are Grand Commander Ben. Allen, Toronto; P. W. Broderick, Toronto; Judge Macswatt, Serbia, and others.

Senator Wm. Gibson of Beamsville and other prominent Masons are expected tomorrow.

\$225 Niagara Falls and Return: Saturday, February 21. Tickets good leaving Toronto via Grand Trunk 9 a.m. fast express, Saturday, Feb. 21. This train carries passenger-library-buffet car and modern first-class coaches, arriving Buffalo 12.30 noon. Tickets are valid returning on regular trains up to and including Monday, Feb. 23, 1914. Tickets are now on sale at city ticket office, northwest corner King and Yonge streets, Phone Main 4209.

\$10,000 Challenge

To All MANUFACTURERS, DEALERS and OWNERS of Automobiles With "Poppet Valve Motors" ---ANYWHERE

If at any time within ninety (90) days from date you, or any of you, accept this challenge and thereafter submit a Poppet Valve Automobile Engine for public test in Canada, under the direction of such person as the Dean of the Faculty of Applied Science of the University of Toronto, or the Dean of the Faculty of Applied Science of McGill University, shall certify as being competent to undertake the test, and if you receive from such person a certificate stating that in such test your engine has met the requirements hereinafter stated, you shall be the winner of this challenge.

The only condition of acceptance is that you notify this Company of your desire to accept the challenge and deposit the sum of Ten Thousand Dollars (\$10,000) with some responsible person agreeable to both parties, with whom this Company shall at the same time deposit, the same amount, Ten Thousand Dollars (\$10,000).

If you fail to obtain such certificate within thirty (30) days from the date of deposit, you shall be named the loser.

The winner shall have his deposit returned. The deposit of the loser shall be paid over to a committee to be named by Mr. A. W. Campbell, Deputy Minister of

The certificate shall certify that the following requirements have been met, all of which have been fully met, and some surpassed, by the Russell-Knight Engine (made in Canada).

Requirements

1. Engine to run 300 consecutive hours with throttle locked wide open, without stop of any kind due to the motor or any of its accessories, as follows:

- 24 hours at 500 revolutions per minute
- 24 hours at 600 revolutions per minute
- 24 hours at 700 revolutions per minute
- 24 hours at 800 revolutions per minute
- 24 hours at 900 revolutions per minute
- 24 hours at 1000 revolutions per minute
- 24 hours at 1100 revolutions per minute
- 24 hours at 1200 revolutions per minute
- 24 hours at 1300 revolutions per minute
- 24 hours at 1400 revolutions per minute
- 24 hours at 1500 revolutions per minute
- 24 hours at 1600 revolutions per minute
- 12 hours at 1700 revolutions per minute

2. Make the complete run without adjustment, replacement or repair of any kind, except to spark plugs and except to advance magnet until piston speed reaches 1000 feet per minute.

3. At 1000 feet of piston speed per minute, develop at least 35 per cent. above its A.L.A.M. rating.

4. Average double its horsepower, according to A.L.A.M. rating, for the last sixty consecutive hours of the run.

5. Develop a total number of brake horsepower hours, such that when divided by 300 (the number of hours of the test) the average brake horsepower so developed shall exceed the A.L.A.M. rating of the motor by at least 30 per cent.

6. Gasoline consumption not to average more than .75 lb. gasoline per brake horsepower hour.

7. Oil consumption not to average more than .045 pint of oil per brake horsepower hour.

8. Either before or after the 300-hour run, in a separate test, develop 200 per cent. of its A.L.A.M. rating at a speed of 2000 revolutions per minute for a five-minute period.

It is obvious to anyone that there are no unreasonable, or self-favoring, or "joker" conditions in this challenge. The conditions are simply those of true motor efficiency, economy, endurance and worth, and the Russell-Knight Motor has fully met them all.

Therefore, until this challenge is accepted, and disposed of, do not allow anyone to say that any other car, with any other motor, is just as good as the Russell-Knight car (made in Canada).

RUSSELL MOTOR CAR CO., LIMITED

Toronto, the 18th day of February, 1914

(Signed) J. N. SHENSTONE, President.

MOTOR LEAGUE DAY DREW LARGE CROWD

Sign Posts to Be Used as Guides to Motorists Are Shown.

BIG TOTAL IS EXPECTED

Seventy Thousand Visitors Will View Automobile Exhibits.

Yesterday was motor league day at the motor show, and motorists from all parts of the province streamed into the city to attend the reception tendered by the officers of the league. Oliver Hezwood, past president of the league, was the speaker at an afternoon meeting, and quite a gathering was present to hear his remarks on questions vital to motorists.

One of the most interesting booths of the show is that of the motor league, which is showing samples of the 10,000 sign posts which are to be placed all over the province some time this spring.

A Great Attraction. That this year's show is proving a greater attraction than those held previously is illustrated in the fact that about twenty per cent. additional admissions have been taken, and the officials expect that by Saturday night 70,000 will have visited the show.

The large motor hearse, owned by A. W. Miles, which is the first to be used in Toronto, has been taken away from the show. While this car was on exhibition it was placed among the motor trucks, and apparently believing that this was not the proper place for it, the owner took it away.

CANADIAN AND U. S. MOTOR BOATS HERE

National Motor Boat Show to Be Held Next Week at Exhibition Grounds.

The first motor boat show to be held in Toronto will start on Wednesday next in the transportation building at the Exhibition Grounds. The National Motor Boat Show, as it is called, is a new venture in Toronto. Those held in various cities including Montreal, have been attended with great success.

Not only motor boats and accessories but all kinds of craft will be exhibited. More than fifty manufacturers from all parts of Canada and the United States have signified their intention of bringing their exhibits to Toronto, and present indications are that every inch of space in the large building will be taken. The show is being held under the auspices of the Canadian boat manufacturers.

STRAKER-SQUIRE CAR CENTRE OF INTEREST

The increasing popularity of the British-built car in Canada, is indicated by the large crowd that surrounded the Straker-Squire exhibit at the motor show. This machine, which the makers claim is the world's best medium-powered car, has a reputation second to none among motorists who know.

Like many other successful manufacturers, the Straker-Squire people concentrate on one type of chassis and its construction has the benefit of years of experience.

The car has a four-speed gear box and many other features which are usually only seen in much more expensive cars. True, it lacks shock absorbers and is part of the regular equipment. Several types of body may be had for this machine.

The Canadian agency is controlled by Reynolds Bros., 200 Dalhousie street, Toronto.

FORMER LAKE CAPTAIN IS SUMMONED BY DEATH

(Special to The Toronto World) ST. CATHARINES, Feb. 18.—Ex-Ald. Arthur W. McMaugh, who gained considerable prominence in the city council last year in having the hydro electric bylaw submitted in the face of what seemed impossible adverse odds, died this afternoon, after several months' illness.

He was born in Quebec City 60 years ago, but had made his home in St. Catharines for the greater part of his life. He was first an engineer and afterwards a captain, sailing several steamers for the late Sylvester Nelson between Montreal and Chicago. Later he had taken up electrical studies.

A widow, two daughters and two brothers, Captain James of Toronto, and Willif of St. Catharines, survive.

BLACK CAT INDUSTRY.

(Special Correspondent.) NORTH SYDNEY, Feb. 18.—There is one industry here that your correspondent regards as unique. Ivan Bailey has gone into the business of raising black cats. His idea is to produce a cat family all pure black, and it was informed by a Prince Edward Island fox expert that the man who succeeds in producing cats of a pure black color and good size will make a big fortune in a short time. It is a difficult proposition and a resident of this city thinks he can solve the problem. At any rate, his experiments are attracting the attention of the fur growers in the Maritime provinces.

WELL-KNOWN HORSEMAN DEAD.

NORTH BAY, Ont., Feb. 18.—The funeral took place today at Mattawa of Salem Desjardins of North Bay, who died suddenly while attending the ice races in Ontario. The deceased was a hotelkeeper and a well-known horseman. For several years he had fast trotters on the big racetracks of Canada.

BOX 34, WORLD

**No Hill Too Steep
No Sand Too Deep**

SEE THE JACKSON AT THE SHOW

1914 Jackson "Olympic"—\$1800, Fully Equipped.

UNSURPASSED AT ANY PRICE--
in comfort, riding ease and silence

Three things are yours in the Jackson "Olympic" to the same degree as in the highest priced and most luxurious car.

Perfect comfort in the tonneau, due to the roomy body and the extra deep upholstery.

Riding ease such as only full elliptic springs, front and rear, can give.

Absolute silence, from the radiator fan at the front of the motor to the driving gears in the rear axle.

Thus the Jackson "Olympic" places at your disposal the features which heretofore have made the costliest cars worth their prices.

We have made the upholstery luxuriously soft—10 inches deep.

We have made the seat backs shoulder high and tilted the seats slightly to the rear.

And the body is very wide—the sides extending beyond the wheels.

The spring action will be a revelation to you.

The four elliptic springs possess from 33 1-3 to 100 per cent. more ability to absorb road shocks than the ordinary motor car types.

You actually have to listen to hear the "Olympic" motor run.

You hear no click or slap of valves, because they are perfectly adjusted and enclosed. You do not hear the fan because of its extra-long plain bearing. You do not hear even the carburetor's intake of air.

The transmission is quiet because both shafts are mounted on bearings of the separated-ball type, that run in a bath of oil.

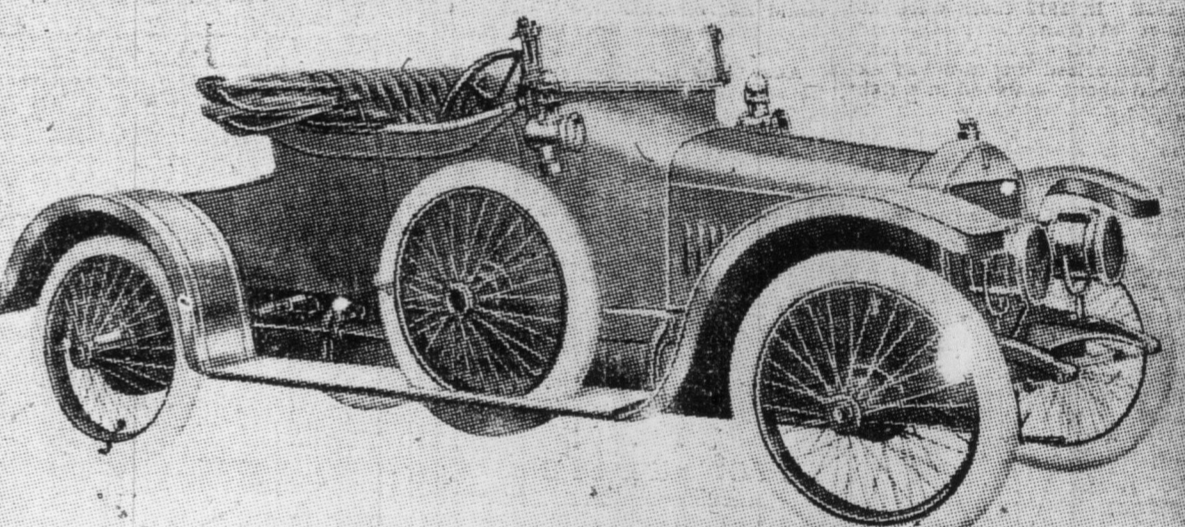

The rear axle does not hum because the gears are of correct pitch, fitted to a thousandth of an inch. There is no interval between the transfer of the load from one tooth to the next; and the gears run between long roller bearings with ball thrust bearings to preserve perfect adjustment.

In power and durability we sincerely believe the motor to be the best in the world. It has proved out in the hardest sort of service, and in the severest road and track racing.

We will furnish a demonstration at any time at your convenience.

MOTOR BUSES BEST BY CIVIC OWNERSHIP

Oliver Hezzelwood Suggests Auxiliary Service for Toronto—Speedier Than Street Cars.

ARE A SUCCESS IN LONDON

Tramways There Engaged in Fight for Existence With New Form of Transportation.

Motor buses as an auxiliary to the street railway service for Toronto had a preponderance of arguments in their favor as set forth in an address by Oliver Hezzelwood before a hundred men interested in the subject at a motorist luncheon in McCowley's yesterday. Mr. Hezzelwood summed up the points for motor buses in this city as follows: absence of trolley poles, rails and wires from streets, absence of obstructions in the pavement, greater frequency of service, greater speed, the taking up and discharging of passengers at the curb, ability to divert routes in case of fire and accidents without stopping, unrestricted areas of service in case of war, excursions and special functions, the adaptation of routes to the traffic demands without extra cost, less obstruction to the public, paying a greater percentage to local improvement, cleaning of streets for the motor bus traffic an advantage to all, less noise than from street cars, the adaptation of the mileage or zone basis for the advantage of short distance passengers, so that many who now walk would be induced to ride; a competitive transportation system with seats for everybody; buses could handle all the surface traffic and buses all the long distance traffic; instantaneous service to congested districts, whereas with a street railway of the very simplest it would take two or three years to build extensions.

Mr. Hezzelwood also summed up the objections that might be raised to such a service, including the problem of snow removal, uncertainty of the control of the streets by the city or street railway, no city exactly similar to Toronto ever having tried motor buses; greater stress and strain on the roadbed, civic ownership and the expected opposition of those opposed to it.

Comparing With Street Cars. In London these buses were mostly gasoline or petrol driven, and the fuel was subjected to a heavy tax. As compared with the tramway there was a difference of about one-quarter of a cent a mile in cost of operation in favor of the motor bus. The motor bus ran at the rate of nine miles an hour; the tram eight miles an hour. Applying this ratio to Toronto, the bus would average over the street car a saving of about one minute per mile traveled. At this rate Toronto's one hundred

NEW TORONTO OFFICE AND FACTORY OF THE FORD MOTOR CAR COMPANY

Work will be started shortly on one of the finest factory and office structures in Toronto to be erected on the northwest corner of Dupont and Christie streets. This building, which will be five stories, and of absolute fireproof construction, is to be the Toronto home of the Ford Motor Car Company of Canada. Faceted brick will be used, while the exterior trimmings will be in terra cotta. The flat slab construction will give a maximum space between columns. There will be a total floor area of 108,605 square feet, while the roof, which will be paneled with tile and used for testing purposes, will contain 21,000 square feet. The company's show rooms, garages and general offices will be located on the first floor.

and fifty million passengers a year are losing by street car 64,184 days, which at fifty cents a day would mean a loss of \$32,092. As to obstruction the passengers on motor buses would meet with forty-eight-ninetyths of the obstructions they would meet on street cars. Thus if the Toronto system were changed this would amount to a saving of fifteen minutes to each unit, a large item in a year, enough to pay interest and keep a sinking fund on an investment. The London General Omnibus Company paid an eight per cent dividend on two million dollars paid-up capital in 1911. In New York a ten cent motor bus service on Fifth avenue much overworked had a net income of \$184,455 on an invested capital of \$80,000, and another company was now going to compete with five cents.

Suggested Route for Toronto. Mr. Hezzelwood estimated that for a system of twenty buses in Toronto to operate 300 hundred days a year each the cost would be \$150,000 for the cars and garages, and the annual charges from the operation would be \$160,000 and the income \$189,500, or a profit of nearly twenty per cent. He suggested that a service might be put on from Annetta street crossing the railway tracks at Royce avenue, running thence to the bottom of the hill on Bloor street, down St. George and Beverley to Queen and round by Wellington street. It double-decked cars could not be used as there was a single decked type which could be put in service.

Answering the objection about snow, he said that this winter no snow of sufficient depth had fallen to stop the service of motor buses, and he analyzed the snowfall of seventy-two years to prove that no need existed to fear that this difficulty could not be overcome. Brief addresses were also delivered by Controllers Simpson, Church and McCarthy, who all said they appreciated the advantages of this form of transportation.

BOARDS OF TRADE. The third annual meeting of the Ontario Associated Boards of Trade will be held in Toronto, Feb. 24 and 25. The board will tender the delegates a banquet to be held at the Prince George Hotel Tuesday, Feb. 24, at 7 p.m.

DR. H. L. BRITTAIN FOR CIVIC BUREAU

Research Department Will Be Under Management of New Brunswicker.

HAS BEEN IN NEW YORK

Dr. Brittain's Most Notable Achievement is the Ohio State Survey.

The provisional council of the Toronto Bureau of Municipal Research announce that they have been able to secure the services of Dr. Horace L. Brittain as managing director of the local bureau, which is being organized to carry out the suggestions and reports contained in the civic survey report which is about to be issued in its complete form.

From New Brunswick. Dr. Brittain was born in King's County, N.B., in 1874, and received his education in his native province, graduating from the University of New Brunswick in 1895. In 1898 he took his M.A. degree in political science. He then taught for seven years in New Brunswick—in all grades of schools from the one-room rural school to the city high school. For five years Dr. Brittain was principal of the Horton Collegiate Academy, the preparatory school of Acadia University, Wolfville, Nova Scotia.

Three Years in New York. In 1904-1907 he took post-graduate work at Clark University, Worcester, Mass., receiving the degree of doctor of philosophy in 1907. Following his graduation he was city superintendent of schools for five years in eastern Massachusetts, and for the last three years has been with the New York Bureau of Municipal Research. He has conducted surveys in Syracuse, N.Y., Dobbs Ferry, N.Y., Waterbury, Conn., two rural counties in Maryland and a state-wide survey in Wisconsin. During the last year he has conducted a state-wide survey in the State of Ohio, in which he had the assistance of 150 men and women workers. This survey has just been completed.

Comes Here Next Month. As a result the legislature of the State of Ohio has passed laws entirely remodeling the school system of the state. The report of the Ohio survey has caused widespread interest and demands for copies have been received from all parts of the United States and Canada.

Dr. Brittain commences his work with the Toronto bureau on March 1.

YOUTH MEETS DEATH IN TRYING TO BOARD TRAIN

ST. JOHN, N.B., Feb. 18.—Boarding a train at Bloomfield, on the Intercolonial Railway, today to come to the city, Frank Gilchrist, the 16-year-old son of James Gilchrist, superintendent of immigration for New Brunswick, was killed.

GRAND TRUNK EXPRESS ESCAPES FROM DYNAMITE

QUEBEC, Feb. 18.—Passengers on a G.T.R. express narrowly escaped death by a dynamite explosion at St. Romauld. As it was, several were cut by broken glass, and all were badly frightened. The fuse for a blast on some I.C.R. construction work near by was lighted just when the express was approaching. It was flagged too late and was stopped only when it reached the spot where the explosion was due. Every window in one side of the first-class car was shattered by the flying rock, and some of the passengers were knocked down.

COAL SHORTAGE AT YONKERS. Ice Conditions on Hudson Bad and Navigation Blocked.

NEW YORK, Feb. 18.—Ice conditions in the Hudson River are worse than they have been for years, and navigation from New York to Yonkers has been closed for several days. The blockade remained intact today and the federal authorities confessed themselves helpless to remedy the situation. A coal famine threatens Yonkers and 1,000 men employed at the federal sugar refinery there face the prospect of idleness unless the blockade is raised before the refinery stockpiles are depleted.

FIRM EXPORTS FURNITURE.

WINDSOR, N. S., Feb. 18.—Another industry which has made splendid progress is the Windsor Furniture Factory, which employs from 75 to 80 hands, and has a good export business to South Africa and other countries. This firm are turning out a splendid line of goods, which have attained a fine reputation with the trade.

GAVE LIFE FOR EMPLOYERS.

NEW YORK, Feb. 18.—William Lehman, a night watchman at a coal yard in Brooklyn, gave his life early today in a vain effort to save \$75 belonging to his employers. The money was taken by burglars who blew up the office safe and left the watchman bound and gagged after giving him a beating, from which he died. Lehman, 32 years of age, was at work and gave them a hard fight, until he received a blow that crushed his skull.

GUELPH CUSTOMS VACANCY.

GUELPH, Feb. 16.—(Special.)—It is understood that at a meeting of the advisory committee of the South Wellington Conservative Association, in Guelph on Saturday afternoon, ex-Mayor George J. Thorp was recommended by a large majority for the position of collector of customs at Guelph, rendered vacant by the death of the late Jeremiah Hallett. If the ordinary course is followed, Mr. Thorp's name will be submitted to the minister of customs at Ottawa, who will carry thru the necessary order-in-council for his appointment.

Smokers! Here's Your Chance!

Alfred Wilson, Limited, is Going Out of the Retail Business

Our entire stock of Tobaccos, Pipes, Cigars, Cigarettes, and Smokers' Supplies of all kinds, must be sold before the first of April. The lease of this store has been bought by others and we must vacate. As we are giving up retail business we must dispose of our stock of goods before that time. It is composed of the newest and best in all lines. Prices have been cut lower than you have ever known them to be in Toronto before, and the chance to "stock up" is positively unprecedented in the annals of local merchandising.

Watch them on the main streets, always running, and always running safely.', 'Chauffeur, owner, and probably three or four friends, all had a hand in the tire selection you see here. Each and every one had the time to find the reasons why Dunlop Traction Tread is the "Most Envied Tire in All America."', 'NEVER DID RIM CUT', 'DUNLOP TRACTION TREAD', 'FIT ANY RIM', '66 Cubic Inches Greater Air Capacity'.

CHURCHILL IS SILENT ON THE NAVAL ISSUE

LONDON, Feb. 18.—Several members tried to draw Winston Churchill in the commons today regarding the naval strength in view of the absence of any Canadian ships, but the minister declined to anticipate his statement on the naval estimates.

VANDERBILT MANSION DESTROYED THRU FIRE

JERICHO, L. I., Feb. 18.—The country house of Mrs. William K. Vanderbilt, Jr., valued with its furnishings and art treasures at nearly \$1,000,000, was destroyed today by fire. The only occupants were a caretaker and servants.

CANADIANS WERE WINNERS. Fifteen Hundred Dollar Trophy For Oats Goes to Saskatchewan.

DALLAS, Texas, Feb. 18.—The \$1500 trophy for the best peck of oats, contested for at the National Corn Exposition, went out of the United States permanently when J. C. Hill & Sons, Lloydminster, Sask., were awarded the trophy for the third consecutive time.

NEWBORO'S POSTMASTER DEAD.

BROCKVILLE, Feb. 18.—(Special.)—The death is reported at Newboro of W. H. Leggett, postmaster, who succumbed to Bright's disease, the cause of a very prominent family of the Township of South Crosby, and was identified with the commercial life of Newboro for upwards of fifty years.

AGED DENTIST DEAD.

KINGSTON, Feb. 18.—Dr. Leonard Clements, dentist for fifty years, probably the oldest in actual service in Canada, died this forenoon, aged eighty-five years. He retired a few years ago.

FARMER HANGS HIMSELF.

EXETER, Feb. 18.—After brooding over the death of his wife, who was buried on Saturday last, William Bray, aged 69, of Osborne Township, hanged himself to a barn on his farm between bedtime last night and dawn today.

APPROVE CONSTRUCTION OF ALASKAN RAILROAD

WASHINGTON, Feb. 18.—The administration Alaska railroad bill, authorizing the president to construct a \$35,000,000 railroad from Alaska's coast to its great coal fields, was passed by the house late today by a vote of 280 to 87.

MARKET IS STEADY TRADING IS LIGHT

Mackay Common Shares Are Firmer Under Skilful Handling.

C. P. R. STOCK ERRATIC

Among the High Grades Gas the Only One With Weakness.

Steadiness marked the Toronto exchange yesterday. There was not much speculative activity and nothing on the surface to indicate much in the direction. The market for Mackay was handled with adroitness here in New York. Traders watched the operations with much interest, and surmised that the dealings may be the prelude of an advance. The shares advanced a fraction, but the operations are too skilful to permit of much floor trading scalping.

RANDOM NOTES ON THE MINING STOCKS

One of the greatest features of the present mining market is the activity being developed among the lower-priced gold and silver stocks. The heavy trading in Porcupine Lake is having a good effect on the market as a whole, and several of the cats and dogs have come to life.

In the opinion of one of the best informed mining brokers there is at present a short interest in Porcupine Lake amounting to 50,000 shares. For some time interest in the P. has been lagging, and the shorts did not cover any particular reason for covering. But public interest in both Cobalt and Porcupine seems to have returned with a vengeance, and the shorts are being covered by the great activity on the local exchanges during the past week, and it would not be surprising to see a raid on the shorts within a few days. Lake was much stronger yesterday, selling up to 9 1/2, and it is possible that this movement has started in already.

One of the best indications of the re-opening of activity in mining issues is shown by the large number of sales made after the exchanges are closed. For some months practically nothing of this sort has been done, but within the last few days the market has reacted quite a trade is being made in the late part of the day. Late yesterday afternoon Porcupine Gold was in great demand, and the shorts were closed as high as 14 1/2. There was also considerable enquiry for Teck Hughes, and one broker reported a sale late last night at 3 1/2.

News leaked out yesterday that another strike has been made on the Teck Hughes property at Kirkland Lake. The president of the company confirmed the report, and said that the No. 2 vein had been struck at the 75-foot level, and that several other important developments had been made. The vein where struck is six inches, and while no assay has been made, the ore is said to be very rich, and probably contains free gold in large quantities.

A large portion of Teck Hughes stock is now held under option by the British syndicate which has been so active in the Kirkland Lake district of late. There is an installment on the option of \$30,000 to be paid on March 1, which money is to go into the development of the Teck Hughes property.

Teck Hughes was very strong on the market in consequence of the strike, and on the Standard Exchange sold as high as 2 1/2, while many sales were registered on the local curb.

Trading in Great Northern was a big feature on the Standard Exchange yesterday. It is said that the sale of the block of Teck Hughes stock to the British syndicate nets the Great Northern in the neighborhood of \$90,000, and the new find on the property, which was announced yesterday, should have the effect of encouraging the holders to take up their option.

Bailey was much stronger yesterday. This stock has been a great public favorite, if the company would give out information quite a movement should result.

News was circulated yesterday that a strike had been made on La Rose property, adjacent to the Foster boundary. It is said that the vein leads towards the Foster line.

RAILWAYS' HOPES ABRUPTLY DASHED

Stocks Advanced on Report That Wilson Favored Increase in Rates.

THEN CAME DAMPER

Denial of Rumor Caused Late Selling Movement at New York.

NEW YORK, Feb. 18.—The stock market was curiously upset today by conflicting reports concerning the probable disposition of the freight rates case. The movement of prices hinged almost entirely on these reports which, as they were circulated in Wall Street, were so contradictory that before the day was over speculators were badly confused.

Uncertainty as to the disposition by the Interstate Commerce Commission of the eastern railroads' application for a 5 per cent. increase in freight rates has exerted a repressive influence on the market for so long that speculation was greatly relieved when news came from Washington that President Wilson favored a speedy decision. The street, however, did not stop at that, but jumped to the conclusion that the president favored an increase in rates. A Wall Street news agency published the statement that information from a "source close to the Interstate Commerce Commission" indicated that a "favorable decision" would be rendered in an early date.

On the strength of these assumptions the market, which had been dull and irregular earlier in the day, advanced strongly. The railroad stocks led the upturn, but were followed readily by the industrial and most of the representative shares made gains of a point or more.

MONTREAL TREND WAS IRREGULAR

Laurentide Again Held Chief Speculative Interest—Richelieu Was Stronger.

MONTREAL, Feb. 18.—Prices moved irregularly in the local market today and after a series of conflicting movements when strength in some issues was followed by weakness in others in an erratic and confusing way. The first finished the day with a strong advance. The undertone on the whole was irregular.

LONDON MARKET CLOSE WAS DULL

LONDON, Feb. 18.—Money supplies are abundant and discount rates were firmer today. The recent plethora of new issues continue to weigh down the stock market, and trading was slow and easy today. The chief declines were in home securities, rubbers and Russian mines. The continental favorites hardened in the late trading.

American securities opened quiet and steady Canadian Pacific advanced 1 1/2-5-8, and the rest of the list followed, but later the market moved slightly and closed dull.

BULLISH TONE TO MINING-MARKET

Rise in Great Northern Featured Standard Stock Exchange.

There was a general bullish sentiment on the mining market yesterday, with scarcely an exception stock on the list. Peterson Lake was less active, but held very well within a range of two points. The "getting out" movement seems to have subsided, and it is likely that Peterson Lake will have a rest for the next few days.

PRICES OF SILVER

London bar silver, 25 1/2 d. unchanged. In New York commercial bar silver was 57 1/2 c per ounce. Mexican dollars, 4 1/2 c.

LETTER FROM HONDA

A correspondent of The World in Honda, Colombia Republic South America is enthusiastic over the gold producing power of the lower Miel. In a communication, he states in part: "The last shipment of gold from the Pato Gold Dredging Mine exported 275 pounds of pure gold in September, but a cisco mine was purchased for \$80,000 in American gold. In the five years, 1907 to 1911, the gold extracted in the Pato mine was \$2,465,166, and it has largely increased in the past two years. Two mining experts left yesterday (Jan. 29) for San Augustin. Other engineers are arriving in February to join these experts. I may add that the two experts have gone to the Samaria River, a tributary of the River La Miel. The lower Miel is owned by residents, and their mines are 1, 2, 3, 4, four leagues from mouth up the Pato. The option on these four exceedingly rich mines expires in September, but it is presumed that the sale will be verified long before that, as Mr. Newberry spent a month there, and also he was dumb as regards the property, another of his companions rushed off to the States when Mr. Knox left the property after a month's examination. The owners were ignored. It is stated that these mines contain at a conservative estimate \$225,111,640.

MONEY AND EXCHANGE

Glazebrook & Co., Toronto, exchange and bond brokers, report exchange rates as follows at the close: N.Y. rds., 1-64 pm, 3-64 pm. Counter, Mont. fdr., 1-50 cl, 3-64 pm. GRAIN PRICES INCLINED TO SAG

Disappearance of Demand for Wheat for Export Discouraged Bulls.

CHICAGO, Feb. 18.—Flattening out of export business today took the edge off the market for wheat. Prices at the close were steady but 1-8 to 3-8c down, oats off 1-8 to 1-4c, and provisions varying from unchanged figures to a decline of 2-1/2 to 5c.

Beginning of the corn harvest in Argentina, implying shipments of the new crop soon from that country, had a bearing on the market.

Buyers backed away from provisions because of the weakness in receipts.

ST. LAWRENCE MARKET. Receipts of grain produce were 300 bushels of rye, 23 loads of hay and 3 loads of straw.

Wheat, fall, bushel, \$0.93 to \$0.94. Barley, bushel, \$0.80 to \$0.81. Oats, bushel, \$0.41 to \$0.42.

Alaska, No. 1, bushel, \$0.50 to \$0.50. Alaska, No. 2, bushel, \$0.50 to \$0.50.

Apples, per barrel, \$2.50 to \$4.50. Apples, per bushel, \$0.40 to \$0.50.

Butter, creamery, lb., \$0.22 to \$0.24. Butter, separator, lb., \$0.22 to \$0.24.

Wheat, No. 1, car lots, \$15.00 to \$15.00. Wheat, No. 2, car lots, \$12.00 to \$12.00.

Wheat, No. 1, car lots, \$15.00 to \$15.00. Wheat, No. 2, car lots, \$12.00 to \$12.00.
