ON THE BATTLEFIELD (via Paris), Sept. 18.—The gigantic battle, or, more properly, the most important of all battles, continues day and night along the entire front from Noyon to the frontier. The fighting did not consist of one sustained and combined movement, but in reality of several combats proceeding incessantly at the strongest points of the Germans' depending line along the River Aisne.

Before retiring behind their big guns they sacrificed many of their number—displaying resolution which approached desperation. A vigorous counter-attack from the allies ensued, during which a small extent of ground was gained.

unflinchingly, advancing and occupying some of the advanced German positions, but at terrible cost. Behind the fighting line on the Aisne-Pulstern road still lie many of the dead who fell in the fighting of Sept. 5. Laborers engaged in the task of interment said that altho they had buried a great number more than a thousand bodies still remained.

(Russian Official)
Canadian Press Despatch.
PETROGRAD, Sept. 18.—The following communication was issued today by the chief of the general staff: "On the front in eastern Prussia the armies of Gen. Rennenkampf definitely stopped on Sept. 17 the offensive movement of the Germans. At several points the Germans are falling back and shifting to new positions."

Yusevoff and Annapolis is reported to be overrun by Cossacks who are leading the Russian advance. The Russian army now in Galicia will be left there to complete its work, for, according to a Rome despatch, an army of 900,000 Russians is marching into Central Poland, followed by another army of 2,000,000, while a third army, also aggregating 2,000,000 strong, is coming from more distant regions and will reach the front by October.

THE TALE OF THE TOP STOREY
Told at Dineen's.
You have most probably heard it said that "with a good hat, a clean collar and a shoe shine" a man was dressed. Literally it is hardly correct, but there is certainly a great deal to be said for the decoration of the "top storey." Men have become noted as smart dressers for no other reason than that they always wear a becoming hat—a hat that had lines—was the correct shape for their face, and was of good material and workmanship. These are the kind of hats sold by the Dineen Company.

Most Violent Fight.
The fight just before daybreak was the most violent of all. The Germans appeared to throw into the charge all that remained of their energy, but were rolled back with enormous losses.

LIEUT.-COL. LOWTHER WOUNDED IN FIGHT
Canadian Press Despatch.
LONDON, Sept. 18, 10:20 p.m.—The war office has received from headquarters at the front under date of September 18 the names of twelve officers who were killed, 34 who were wounded and seven who are missing. Among those killed was Lieut.-Col. B. H. Montross of the Sussex Regiment. Lieut.-Col. H. C. Lowther of the Scots Guards is among the wounded. Lieut.-Col. Lowther was formerly secretary to the Duke of Connaught.

SUCCESSES CONTINUED.
Canadian Press Despatch.
LONDON, Sept. 18.—Reports received from Petrograd today say that the Russian pursuit of the Austrians continues and that the Russians have gained important successes over the Austrian rear guard. Convoys of two army corps with thirty guns and ammunition and 5000 prisoners are said to have been captured. The whole of the Austro-Russo border between

Canadian Press Despatch.
LONDON, Sept. 18, 8:01 p.m.—The official press bureau says the government has received information that the German Government is prepared to communicate lists of British prisoners in their hands in return for similar lists of German prisoners there. It is contemplated that such lists, which will include information as to the physical condition of prisoners, will be interchanged periodically.

Canadian Press Despatch.
PARIS, Sept. 18, 6:25 p.m.—The French and German Governments are arranging thru Washington for the exchange of prisoners of war. It is understood that James W. Gerard, the American ambassador to Germany, has cabled Germany's adhesion to the plan.

AUSTRIAN REAR GUARD CONTINUES TO RETIRE

Special Direct Copyrighted Cable to The Toronto World.
PETROGRAD, Sept. 18.—(Dated Thursday, received Friday Night.)—There are now being distributed thru-out Galicia copies of a proclamation by the commander-in-chief of the Russian army, promising the people of Austria and Hungary liberty and the realization of their national ideals. The document is printed in nine languages.

The enemy has again been routed in an effort of the Germans to effect a junction with the already vanquished Austrian forces. The Evening Freeman says: "At our frontier we now firmly await the shock of the enemy's attack as in the first days of the war." The combined forces of the Austrians and Germans have left Kiel and the German troops also have begun to leave Kalish.

COUNTER ATTACKS FAILED.
An official communique issued today says: "The battle continued during the day of Sept. 17 along the front from the River Oise to the Woivre, without important changes in the situation at any point. On our left wing, on the heights to the north of the River Aisne, we have made slight progress against certain points. Three offensive counter-attacks undertaken by the Germans against the English army failed. From Craonne to Rheims we ourselves repulsed some very violent counter-attacks executed during the night. The enemy tried in vain to take the offensive against Rheims."

AN ARTILLERY DUEL.
The excellence of the German artillery fire and the number of heavy guns which they have been able to bring into action has rendered extremely hazardous the use of infantry and cavalry. The allies have greatly strengthened their artillery in the last day, and the battle is now largely an artillery duel. Occasional attacks by one side or the other of the most desperate character merely emphasize the conflict which will ensue when a turn of the tide comes in either direction.

GERMAN CAMPAIGN FAILED.
Speculation as to the German plan of campaign is rife on all sides. It is said that the failure of the crown prince to make an impression on Verdun caused a complete upset of the kaiser's plans, and the continued delay of his heir in retreating from an untenable position further complicated the campaign. He was left almost unsupported by the enforced retirement of Generals Von Kluck and Von Buelow on the German right. This flank seems to be the special objective of the allies. Both Sir John French and General Paul Pau have concentrated their energies on perfecting a turning movement of the enemy's right similar to that carried out on the Marne. The principal results to date have been a slight retirement of the Germans on the heights across the Aisne.

Military experts believe that unless the kaiser's forces can make substantial headway in the next few days they will be compelled to retire on the line of the Meuse, protecting their communications and attaining stronger defensive positions. On the other hand, if the allies lose, they must reform and fight the battle of the Marne over again. It is believed that the first phase of the campaign has gone heavily against the Germans.

KING GEORGE'S SPEECH.
In a speech from the throne, King George today said: "My navy and army have with unceasing vigilance, courage and skill sustained in association with our gallant and faithful allies a just and righteous cause. From every part of my empire there has been a spontaneous and enthusiastic rally to our common flag. We are fighting for a worthy cause, and we shall not lay down our arms until that purpose has been fully achieved."

Reports from Servian sources state that the Servian troops have evacuated Semlin, captured from the Austrians some days since. They claim continued successes at several points.

THE GERMAN REPORT.
From official German sources, via Amsterdam, comes the following statement: "In the battle of Sept. 17, between the Oise and the Meuse Rivers, there has been no decisive victory. The indications are that

the resistance of the enemy is beginning to decline. The effort made by the French, with great bravery, to break through the German extreme right wing has failed. The centre of the German army is slowly advancing. Sallies by the French division of Verdun have been repulsed without much trouble.

GERMAN LOSSES 3200 DAILY.

Official German casualty lists admit losses of 3200 per day as the average cost of the war in human life during the last fortnight. Captain Wedigo Von Model, personal aide and intimate friend of Crown Prince Frederick William, has been killed in action on the Aisne.

Vienna denies the report of Austrian overtures for peace, and proclaims her intention to resist until the last.

FAMOUS PRUSSIAN GUARDS ANNIHILATED.

The Paris correspondent of the Exchange Telegraph Company says: "All accounts received in Paris agree that the famous Prussian Guards corps, the elite of the empire, and the especial pride of the German emperor, has been practically blotted out, from the battles which have been waged along the Meuse, Marne and Aisne rivers."

MOTOR FORCE KILLED UHLANS.

The official information bureau announces that on Sept. 16 Commander Samson, with an armored motor car force attached to the naval flying corps, encountered a patrol of five Uhlans near Souleuvre, France, killing four and wounding and capturing the fifth. The British suffered no losses.

PRINCE UNDER KITCHENER'S ORDERS.

The Prince of Wales was very anxious to go to the front, according to a statement issued this evening by the official press bureau, and tried to get Lord Kitchener's consent to go. But as he had not completed his military training, Lord Kitchener submitted to the King, "that for the present it is undesirable that his royal highness should proceed on active service."

GERMANS HEAVILY REINFORCED.

The Copenhagen correspondent of the Central News Agency has forwarded the following despatch received from Berlin: "The situation of the German troops in the great battle on the western frontier is good, especially in the centre, where the Germans have received substantial reinforcements. The end of the battle is expected soon."

STRONGLY ENTRENCHED ON SAMBRE.

A despatch to the Exchange Telegraph Company from Ostend says: "The Germans are entrenching themselves strongly on the River Sambre from Mauberge to Namur. I have seen important defensive works at Thuin, Farciennes and Floreffe. Many inhabitants of these places had been forced by threats to perform labor on the works. I have been told that the same kind of fortifications are being erected on the Meuse from Givet to Namur, but it is impossible to cross the Sambre to see for myself. I believe, however, my information is accurate."

ALLIES' CAVALRY ACTIVE.

An announcement issued by the official press bureau this evening says: "According to a report received this afternoon, there is no particular change in the situation. There has been some activity on the part of the allies' cavalry, but without at the present time any definite result."

FIGHTING MOST DESPERATE.

The Exchange Telegraph's Paris correspondent, in a despatch received tonight, says: "A comprehensive account of the five-days' battle on the Aisne River, which he described as the fiercest in the western theatre since the beginning of the war, was given by a French officer who arrived in Paris today.

"On the morning of Sept. 14, the officer said, the Germans called a halt, but by afternoon the battle had become general. All the next day the battle was of a ding-dong nature, the Germans evidently awaiting reinforcements. During the night, however, they delivered a furious attack on the extreme left, but the British and French troops gallantly met the onslaught, repulsing the Germans no fewer than ten times with fearful losses.

"The Germans still came on, however, seeking to pierce the French line. There had been nothing like it since the beginning of the campaign. The enemy hurled dense masses of troops at us in a supreme endeavor to check our forward progress, but when dawn came we still held the position, and even had gained ground slightly.

"The artillery duel was continued through the next day. The morning of Sept. 17 again saw desperate fighting. This time we threw the Germans back some ten kilometers, capturing 600 men and a lot of mitrailleuses."

GERMANS WITHDRAW HUGE FORCE.

LONDON, Sept. 19.—(2 a.m.)—The Daily Telegraph's Rome correspondent says he learns from an authentic source that eight German army corps have left France and Belgium for the Russian frontier.

A German army corps of two divisions consists of 30,000 men, and of three divisions 45,000 men. The force withdrawn, therefore, is at least 240,000 men, and may be 360,000.

ALLIES' LEFT WING ADVANCES.

PARIS, Sept. 18.—(11.05 p.m.)—The following official communication was issued this evening: "There is no change in the general situation, except that we have continued our progress on the left wing, and that a lull in the battle is noticed."

NO CESSATION IN FIGHTING.

The gigantic battle, or, more properly, the most important of all battles, continues day and night along the entire front from Noyon to the frontier. (The fighting did not consist of one sustained and combined movement, but in reality of several combats proceeding incessantly at the strongest points of the Germans' defending line along the River Aisne.

REVOLVER DUEL IN MID-AIR.

The newspapers today related the story of an aerial duel between a French aviator and a German airman at an unnamed place during a battle. After long manoeuvring, the Frenchman succeeded in ascending above the German. Both men used revolvers. The German was seriously wounded and his machine turned over and fell among British troops. He was dead when picked up.

CHINA WON'T BE THREATENED.

PEKIN, Sept. 18.—Chinese officials have reminded the German legation here that the Germans have sent reservists and contraband of war over Chinese territory since the war began. The communication was in answer to Germany's threat of reprisals upon China for permitting the Japanese to land troops on her soil in Japan's attack against Tsingtau and Kiaochow.

The communication, which was handed to the German charge d'affaires, also stated that Kiaochow was leased to Germany under a direct, and that threats of German reprisals after the war might lead to an active hostile attitude by the Chinese government.

CANADA CAPTURES GERMANY'S TRADE

Already Some Orders Formerly Placed in Kaiser's Domain Given to This Country—More Enterprise by Canadian Firms Urged to Secure Teuton Business Abroad.

By a Staff Reporter. OTTAWA, Sept. 18.—Sir George Foster, minister of trade and commerce, stated today that as a direct result of the war, new business was already coming the way of Canada. Already orders have been received from Great Britain that formerly went to German firms. Sir George also stated emphatically that nine-tenths of the orders going round to the effect that orders were being placed in the United States which could be filled in Canada, were pure fiction. In fact, he said, in every case the British dominions are being given the first opportunity by the motherland to fill orders, but of course, there were some requirements which Canada could not supply.

Leak of Enterprise Shown. With regard to the capture of German trade, Sir George said that while already some firms had shown considerable enterprise, and were doing

business which used to go to German firms, there were not the efforts being made that might have been expected. "We have got to get the manufacturer and the retailer together," he commented, "and we've got to get the consumer to forget for a while when he buys a Canadian-made article that he is putting profits into a manufacturer's pocket, and to realize that in his giving enterprise to a German workman who has been out of work and whose wife and children need bread." Sir George mentioned a visit he had made to a retail merchant a day or two ago. This man stated that 60 per cent of the glass and crockery on his shelves came from Germany. He wanted to get a German workman to take his place. "There is an opportunity here," said the minister, "to get manufacturers, retailers and customers together for the benefit of themselves and for the benefit of Canada."

GEN. OTTER ACCEPTS COMMAND OF HOME GUARD

Great enthusiasm greeted General Sir W. D. Otter's acceptance of the office of colonel in command of the Toronto Home Guard. The announcement was made at a public reception at the Toronto Hotel last night at Baycote Park. "I wish to announce my acceptance of the honor you have thrust upon me," said General Otter. "I can now in my time look upon myself as one of your own people, and I am glad to take care of the hearts at home. I am extremely gratified to be in command of such a lot of men as you are. I am confident that the proper spirit is with you."

GERMANS BEATEN IN EAST PRUSSIA

Offensive Movement of Enemy Definitely Checked, is Petrograd's Report.

(Continued From Page 1.) and along the Serbian frontier the Austrian public is waiting with dumb patience for some definite news as to what is really happening.

Ever since it became known that Russia was making great headway in Galicia the comment in Vienna newspapers has been guarded, the editorials dealing chiefly with the German campaign in western Europe. The presence of 70,000 Polish refugees from Galicia, however, added to the constant arrival of trainloads of wounded, tends to offset this reticence.

The police recently issued a decree warning persons against spreading unfavourable war news under threats of the severest penalties. Spies are found everywhere, in cafes and on the streets, trying to overhear private conversations and then hastening to the police and denouncing suspected persons. Hundreds of arrests already have been made and many persons have been placed under more or less strict police surveillance.

Six Slav deputies in the reichsrath have already been imprisoned. These include Dr. Kramarz, the Czech leader.

AUSTRIA TO BREAK AWAY.

ROME (Via Despatch), Sept. 18.—(7.40 p.m.)—An Austrian official denial from Vienna that any initiative toward peace has been taken by Austria is causing much comment here, because it contains no assurance that peace would be concluded together with Germany. The Austro-German treaty originally contained a clause specifying that the two countries should act reciprocally.

1000 CANNON TAKEN.

ROME, Sept. 18.—(Via Paris 8.30 p.m.)—Reports from Russia suggest daily the magnitude of the Austrian defeat. The number of cannon captured by the Russians is now placed at 1000.

SWITZERLAND MAY ASK FOR INDEMNITY

Berne, Switzerland, via Paris, Sept. 18, 5.30 p.m.—Although the extreme measures which were adopted during the first weeks after the war began have been relaxed, Switzerland is still under the pressure of mobilization. This is taxing the financial resources of the government as it now spends 1,400,000 francs (\$230,000) daily on the army. It is said that Switzerland intends to ask for an indemnity at the end of the war owing to the stoppage of manufactures and industries.

The minister of militia was especially pleased with the infantry action on both sides. The next manoeuvre will embrace the entire force. These will begin on Monday next.

DECEPTIVE PEACE WORSE THAN WAR

Would Be Breathing Space for German Militarism to Prepare Revenge.

Canadian Press Despatch. BORDEAUX, Sept. 18, 5.55 p.m.—The report of a project of mediation by the United States among the warring nations has elicited much public and newspaper comment here. Referring to the American Government's attitude, according to which a conference to fix the basis of peace already has been summoned to meet in Washington, the Times says: "There are men who are numerous in America, perhaps thought to render a service to their empire by stirring up opinion, but of the English or the opinion of any other impartial country, sees thru this game and has already given its verdict."

"There is a disaster greater than war. A hasty, deceptive peace would give only a breathing space which would enable German militarism to prepare its revenge, and a war worse than the present."

Both will leave with the first contingent, and are the only girls chosen from Toronto.

Militia Council Deliberates on Selection of Officers for Division.

CANADIAN PRESS DESPATCH. VALCARTEER CAMP, Que., Sept. 18.—When the first Canadian contingent comprising about 22,000 officers and men sail for England, about 10,000 will be left behind. It is expected that the latter will not form the nucleus of a second Canadian division, but Col. Sam Hughes said tonight that many of them would be sent to England a few weeks after the departure of the first lot of Canadian soldiers. The date of sailing of course will be kept a secret as far as possible, but it is probable that the Canadians will have some training on English soil before joining the British and French forces on the continent. How many are those who will not be taken with the first contingent, but will follow later to provide for wastage, such as sickness and accidents, the minister would not say. But undoubtedly a considerable number of the disappointed ones will cross the Atlantic sooner than they expect.

MILITIA COUNCIL MEETS

The militia council, presided over by Col. Sam Hughes, met last night for several hours today, dealing with "routine matters" according to the minister, but it is believed that there was some deliberation on the selection of officers. The board of examiners has completed its work, but the list of officers chosen has not yet been issued.

SIX NUNS MENTIONED FOR DEVOTED NURSING

CANADIAN PRESS DESPATCH. BORDEAUX, Sept. 18, 3.30 p.m.—Six nuns in the Convent of St. Charles are mentioned in army orders for the splendid devotion they displayed in nursing over 1000 wounded soldiers in their establishment, despite the incessant and murderous bombardment which has continued since August 24. The sisters stuck to their post while the civil population completely abandoned the town.

ONE HUNDRED REJECTED

One hundred more men arrived from Valcartier last night, having been rejected as physically unfit. Of the number, 43 belonged to the 4th Highlanders, and a small number of Queen's Own men, and the rest belonged to Winnipeg, Vancouver and other western cities. Poor eyesight, hearing and weak hearts were the reasons for most of the rejections.

GOVERNMENT SHIP SUNK IN COLLISION

Fourteen Lives Lost by Ramming of Montigny by Collier—Disaster Resembles That of Empress of Ireland—Second Officer Lachance Died Attempting to Save Children.

THE DEAD

MRS. JOSEPH RICHARD, of Quebec, aged 40 years, and seven children, ranging from 2 to 14 years of age. MRS. JOSEPH LAVALLEE, of Montigny, 35 years of age, and four young children. JOSEPH LACHANCE, second officer of the Montigny.

CANADIAN PRESS DESPATCH. QUEBEC, Sept. 18.—Fourteen lives were lost shortly before five o'clock this morning, when the government steamer Montigny was rammed by the Black Diamond collier Langan at Beaujeu, some 26 miles below Quebec City.

The Montigny was on her way from Quebec to the Gulf and the Straits of Belle Isle, Newfoundland, where she was taking the families of two lighthouse keepers and their wireless stations and the signal service stations down the coast.

The boat struck in a bank of fog not far from Crane Island. The victim's Montigny is not a passenger-carrying vessel, but she has quarters for the families of two lighthouse keepers and on this voyage Mrs. Richard, wife of the lighthouse keeper at Belle Isle, with her seven children, was on board, with Mrs. Lachance, wife of the lighthouse keeper at Flower Island, who perished with her five children.

Second Officer Lachance is among the dead. He died with two children he had in his arms trying to save them.

After passing Crane Island, about 4.15 a.m., the ship in bed and those on deck heard the lighthouse signal to the engineer to "stand by!"

A couple of minutes after the signal was given there was a heavy crash, and those who were in bed rushed on deck to find the ship had been in collision and was badly damaged. The wireless operator got his apparatus ready to send signals, but the engine was out of gear, and the water rushed in and destroyed the dynamo.

Orders were given to lower the boats, but before they could be executed the ship went down.

The Langan kept close up to the damaged steamer, and her crew, the majority of whom are Chinese, worked like trojans lifting the people from the sinking steamer onto their own vessel.

Some of the men on the Montigny endeavored to throw the children overboard, but the little ones would not leave their mothers. The second engineer had two children under his arms, but he waded away from him, and he had barely time to drag on the Langan before his own vessel went down.

When the Montigny sank the Langan lowered two boats and sent them to look among the floating debris to see if anyone was floating.

They found two of the Montigny's boats and the bodies of two children. The Langan then proceeded up the river, and when she came to Grosse

PREMIER IN ROLE OF PEACEMAKER?

Sir Robert Borden and Two Cabinet Ministers Off to Valcartier.

FRICION REPORTED

Officers Said to Resent Bitterly Criticisms of Hon. Sam Hughes.

OTTAWA, Sept. 18.—Sir Robert Borden, Sir George Foster and Hon. Robert Rogers left for Valcartier to-night, where, it is understood, the premier's aid will be sought in straightening out some serious difficulties that have arisen in connection with the organization of the overseas force.

They will probably remain also for the review of the troops on Sunday, at which the Duke and Duchess of Cornwall will be present.

It is understood here that Hon. Sam Hughes has been free of his criticisms of officers in the presence of men under their command and that resentment over this treatment has resulted in protests to Premier Borden being made.

Pungent Criticisms. It is stated that on one occasion Col. Hughes, accompanied by the com. postcommandant and staff, first made their appearance when a certain battalion was drawn up in column awaiting his arrival. Apparently nettled because he was not received with the "Present arms," the minister rode up to the commanding officer and ordered him to take charge of his regiment. "That is if you can," he added.

During the subsequent manoeuvres Col. Hughes repeatedly rode up to senior officers and abused them for imagined breaches of discipline. To one officer, a veteran, and generally conceded to be one of the most efficient officers in Western Ontario, he addressed some particularly pungent remarks, declaring that he was not fit to be in the service.

"God pity the men," exclaimed the minister, after watching one manoeuvre.

Many of the officers were given orders, and hardly had the commands been issued before Col. Hughes criticised the recipient for not having them carried out. A typical instance of this came when a colonel was ordered to put the battalion thru the attack.

"From where is the attack coming?" he asked, preparatory to making disposition of his command. "Get out," shouted the minister. "You would all have been shot, to pieces by this time," he then ordered another officer, a junior captain, to take the senior's place. Long before the former had carried out the manoeuvre, however, Col. Hughes had ridden from the scene.

Geo. A. KINGSTON, Commissioner.

ONTARIO COMMISSION ON COMPENSATION IS NOW READY FOR WORK

Alexander Wright and George A. Kingston Chosen To Work With Samuel Price, K.C.—Court Will Open January 1st, 1915—Government Thinks No Delay Is Necessary.

The personnel of the workmen's compensation commission is now complete. The Ontario Government announced last evening that A. W. Wright and Geo. A. Kingston will serve with chairman Samuel Price, K.C., of St. Thomas, in this court, which opens on Jan. 1. Alexander Whyte Wright has been chosen as the second member and vice-chairman of the commission. He is known as one of the first and strongest advocates of public ownership in Ontario, a thoughtful writer on economic questions and a careful executive. Born at Elmira, Ont., about 70 years ago, his life has been largely spent in Canada. His gift of oratory gave him a place in the election campaign of 1878, won by the Conservatives. In 1895 he was appointed by the Dominion Government a commissioner to enquire into sweatshop conditions. In 1897 he went to New York to edit The American Artisan, having acquired considerable journalistic experience in his younger days as editor of The Guelph Herald, The Orangeville Sun, The Stratford Herald and The Toronto National and Labor Reformer. On his return some

years later he became Conservative organizer for Ontario. His present home is in Niagara, although he lived for many years in Toronto.

An Eminent Lawyer. Samuel Price, K.C., whose appointment as chairman of the commission was announced July 21, is eminent among the lawyers of the province. He lives in St. Thomas, and specializes in actuarial work and the more abstruse branches of his profession. He has served on royal commissions, and once declined the chairmanship of the Ontario Railway Board.

Has Studied the Subject. The third member of the commission, George A. Kingston, is 48 years of age, and has lived in Toronto continuously since 1889. He was born near Stirling, in Hastings County. During the seven years which followed his graduation from Osgoode Hall in 1892, he practised law.

For the next ten years, until 1900, he was engaged in the insurance business, much of this time however as claims solicitor for the Employers Liability Assurance Corporation. This experience gave him a very special opportunity of studying the subject of Workmen's Compensation, and especially the relation of rate to risk, and the relative hazards of various employments.

While engaged in this work he published in 1909 a compendium of Workmen's Compensation Laws in the various provinces of Canada. He was then assistant manager of the Union Trust Company since June, 1910.

No Delay Necessary. Now that the commission has been chosen the next step will be the organization of the department, and it is likely that the commissioners will be called together shortly for a conference. One of the more important appointments yet to be made is that of medical referee, and several names are obtaining consideration.

It is the government's intention to set the court in action on the date arranged in the house. Although there has been suggestions that industrial conditions will warrant any delay.

Chairman Price will receive \$10,000 annually as his salary. Mr. Wright \$8500 and Mr. Kingston \$7500.

MOVE TO CONCRETE KINGSTON HIGHWAY

Whitby Residents to Approach Government — To Give Work to Idle.

At a meeting in Whitby last night, a deputation was appointed to request the Whitby council with a view to join in petitioning the provincial government to convert the Kingston road into a permanent, concrete highway the same as is proposed regarding the Toronto-Hamilton road in order to give work to the unemployed during the winter. A deputation will also ask the Oshawa Board of Trade to join in the movement.

GERMAN COUNT WOUNDED.

PARIS, Sept. 18.—Among the wounded prisoners in the hospital at Saint Mandrier is the Count of Honthal and Bergen, a lieutenant in the Saxon cavalry of the Imperial Guards, and a son of the Saxon minister of foreign affairs, who was made a prisoner at Pont a Mousson.

THE WOMEN WORKERS

Interest in the group of apartment houses which have been taken over by the local council was shown last evening when a very fair representation of business women met in the Margaret Eaton studio in an invitation of the council for an informal conference. The housing committee, explained the object of the call, and Mrs. Huestis gave a glowing account of the apartments, their location and equipment. The completeness of the houses would undoubtedly appeal to many hundreds, were they but aware of the opportunities offered. Plans for a large living-room, kitchen, basement, bathroom, balcony, electric fixtures, hot water all the year around, blinds and lawn, all from \$450 a month to \$12.00.

The location on Bain avenue was described as most desirable, the view being delightful. A member of the council, who will have supervision, will reside on the premises and every attention will be given to the comfort of the tenants. It is the intention to have a home-party in the near future to which business girls and women will be invited where they may make arrangements and have a "try-out" generally.

Mrs. Irvine may be seen at the Ryrie Building from 11 a.m. to 2 p.m. and will be glad to give further particulars.

At the first executive of the Political Equality League, held at the home of the president, Mrs. Hector Prenter, it was decided that the first meeting would take the form of a supper to be held at the Brown Betty Tea Room, September 29 at 8:30 p.m. Professor A. T. De Lury, vice-president of the Polity Club, has consented to give an address.

For the purpose of supplementing the 150 kit-bags already sent out, the ladies' committee of the U.E.L. met at the rooms of the Woman's Art Club yesterday afternoon, when a supply of articles and towards the additional 50 which it is the intention of the women to contribute.

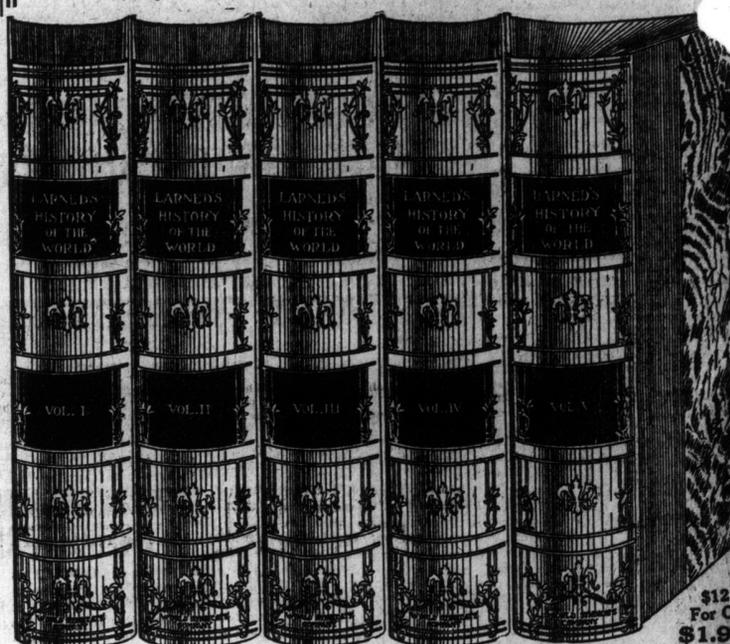

Every kit-bag is worth from \$5 to \$7, and the material and workmanship are all of the best. Col. Byerson dropped in and looked over the stock in hand, and promised in the near future to let the members something of his late experiences in Valcartier.

Canadian Order of Foresters

The position of the Canadian Order of Foresters with reference to those of its members who already have or who may hereafter enter the active service of Great Britain, or of any of Britain's allies, in the present war, is as follows:—

- 1. The Insurance and Sick and Funeral Benefits of all members admitted to the Order prior to August 1, 1914, will be good and valid, notwithstanding that they serve in the armies or navies of Great Britain or of any of Britain's allies in the present war. 2. The Insurance and Sick and Funeral Benefit premiums or assessments of those members admitted prior to August 1, 1914, serving as aforesaid, will, during the war, or for one year, should the war last longer, be paid out of the General Fund of High Court. 3. This provision for the payment of premiums or assessments is not by way of loan, and will not be a charge on the policy. It is a gift or bonus to those who take up arms in defence of the Empire in the present crisis. 4. If the war should last longer than one year, we hope to be able to renew this bonus. 5. We have extended these provisions to those who may serve in the armies or navies of Britain's allies, for the reason that many of our members are French Reservists, and some are Reservists of Belgium and Russia, and we feel that all are fighting in defence of the British Empire. 6. Notice should be given by or on behalf of members affected to the officers of the Subordinate Courts in which they hold membership.

GOVERNMENT MEASURE WILL GUARD AGAINST UNJUST FORECLOSURES

Mortgage-holder Will Be Required to Secure an Order From a Judge Before Forcing Payment—Legislation to Be Retroactive—Time for Payment of Debt Principals May Be Extended at Judge's Discretion.

With a view to relieving some of the distress prevailing because of unsettled financial conditions, the provincial government announces its intention of introducing at the next session of the house a measure which will prevent foreclosure or forfeiture of mortgages or securities, and will extend the time for the payment of principal moneys. This was the nature of a statement made by Hon. Dr. Pyne last evening on behalf of the government.

It was stated that the government did not consider that conditions warranted a general moratorium, but that it had been brought to attention that mortgages and vendors of property were taking advantage of their legal position to foreclose mortgages and securities. In the majority of these instances the mortgagors and purchasers were unable to make the payments, although they had already paid large amounts. It would be most unfair that they should lose their properties.

Judge's Order Necessary.

Under the special act, mortgagors, holders of agreements of sale, options and similar securities must secure an order from a judge before taking proceedings for foreclosure or forfeiture. The judge will have power, on a proper case being made out, to relieve from forfeiture and to extend payment. The legislation will be made retroactive, but will interfere in no way with rent, interest or other payments of this character or in cases where the judge is not convinced that relief is demanded.

This action follows the agitation of the past few weeks, which, culminating in a resolution of the Provincial Industrial Association early in the week.

Never Did Better.

Conspicuous in clean linen and a flaming tie, a newsboy found time during the busy rush of yesterday afternoon to say that he was "coining money at the rate of \$2 a day." A pearl crescent-tiepin further evidenced the newsboy's claim to prosperity. He said that business had never been better than during the last week. Since the outbreak of war he had been making an average of \$12 a week, and the rapidly with which he was disposing of "extras" gave the impression that the claim was borne out.

KNITTING INDUSTRY FOR WOODSTOCK

Proposition to Council to Move Shawinigan Plant to Town.

Special to The Toronto World. WOODSTOCK, Ont., Sept. 18.—If the corporation of Woodstock is prepared to lend \$50,000 to the Oxford Knitting Company, the principal and interest to be repaid to the city in thirty equal annual instalments, the Oxford Knitting Company proposes purchasing the woollen knitting plant of the Shawinigan Knitting Company and to move that plant from Shawinigan, Que., to Woodstock. They would also purchase the plant at least 400 hands at their plant, for 11 months of the year during the term of agreement. The company offers to secure on the land buildings and plant which, when the local and Shawinigan plants are combined, will be valued in excess of \$275,000.

This proposition has been submitted after due consideration by the board of trade to the city council, and it will probably submit a bylaw to the ratepayers shortly. It is also proposed that a committee shall visit the plant of the Shawinigan Knitting Company in the near future to determine the size and importance of the work carried on there.

MACHINE GUNS FOR MISSISSAUGA HORSE

Equipment Presented to Regiment—Twenty-Five Men Will Be Recruited for New Corps.

The 9th Mississauga Horse has been presented with two machine guns and the necessary equipment, including packs, saddles and ammunition, and a machine gun corps is being organized in that regiment. The guns are of the latest pattern, and are carried on pack saddles, being fitted on a tripod ready for action. The guns weigh 35 pounds each, and the tripod weigh 85 pounds. One gun and tripod can be carried on each pack horse, and two additional horses are used to carry 500 rounds of ammunition. Instead of the use of a water jacket to cool the barrel, two barrels will be used, and when one becomes too hot to be used it can be removed by a man wearing asbestos gloves, and the second one is attached. Each gun can fire 400 shots a minute, and 500 shots can be fired before the barrel gets heated.

The machine gun section will number 25 men, and they will be selected from the best riders and athletes that can be secured. The officer in charge of this corps will train his men so that they will work together so as to secure the highest order of efficiency. The equipment was given to the regiment by some of the officers and their friends.

It is expected that a large grain business will be carried on in St. John during the near winter. Called to the Bar.

The call to the bar was given to 25 young men who passed the final examination for barristers this year. They constitute the remainder of the class which graduated last May. One of the number, N. M. Young, was to have been called today, but his call will have to be postponed on account of his departure to Valcartier. The first year class entering Osgoode this fall will be smaller than has been for many years. Only 95 have entered this year, contrasting strongly with the 120 who entered the first year during the last term.

on a satisfactory scale next month. Those who are in touch with the lumber situation feel that business will be on a good footing next season.

While there has been some complaint about the dislocation of business, caused by the war, it is worth noting that both the customs and inland revenue receipts at St. John for August show an increase over the corresponding month last year. The quantity of lumber shipped to trans-Atlantic ports was greater this season than last year. Bank clearings have also been well up to the mark.

The provincial exhibition last week was a wonderful success, both in point of attendance and in quality and quantity of exhibits. Those people who had been predicting "little interest in the exhibition on account of the war" were agreeably surprised. On the first day there were 14,000 people on the grounds, and relatively large numbers attended the days following.

MADE IN CANADA.

Canadian milliners will now be able to supply their patrons with "made in Canada" feathers, as a number of the big feather manufacturing companies have already taken steps to have fancy feathers—hitherto imported from Germany—made at home. Up to the present time the making of vulture, hackle and pheasant feathers has been entirely controlled by Germany, but a number of big firms, including the Ostrich Feather Manufacturing Co. of Ontario street, will employ expert French dyers for the purpose of carrying on this special line of work.

Patriotism in Business

There has been nothing better in connection with the war than the attitude of the municipal councils throughout the province. They have risen to the occasion in a way that challenges comparison with other governmental bodies.

We do not refer merely to the patriotic action of many municipalities in providing for assistance to the government or to local detachments of troops, but to the maintenance of ordinary routine and the despatch of affairs which might, under more timorous control, have been left over for a time less fitting for settlement than the present.

There is no time like the present for any business that can legitimately be transacted. Postponements will only weaken confidence and increase the reluctance of others to go ahead with their projects.

There was vigorous testimony borne at the recent meeting of the representatives of municipalities in connection with the Provincial Industrial Association, to the willingness and desire of the cities and towns to do all that could be done, and there were many ingenious suggestions made about carrying on business and providing ways and means.

Berlin was a case in point, with the plan of borrowing from the citizens at five or six per cent. the money which the banks would not lend, and would only pay three per cent. upon to the depositors.

Hamilton comes along now with the resolve to buy the mountain face as a park. This is not courage or rashness, but commonsense. Hamilton also cheerfully took her part in the proposed pavement of the Lake Shore road. Other places are doing a lot in keeping the life of the community going at the ordinary pulse-rate.

We do not need to get into a fever, and we should not be stricken with paralysis. There are many agencies in Toronto which are liable to come under the influence of one or other of these weaknesses. It is deeply to be regretted that this should be so. All who have any influence upon the powers that be in any body or corporation or official authority should do what they can, not to retard any movement or any business development that will help to keep the country on normal lines, but to take the opportunities for employment which are the most direct means of alleviation of the present social crisis.

We have nothing to criticize in the attitude of the city government here. The administration evidently fully realizes the necessity of keeping things moving. Any red-tape difficulties which occur in the treasurer's department should be overcome as quickly as possible. If the Germans were levying a hundred million indemnity on Toronto with an army in the streets the treasurer would not be asked if he were authorized by by-law to make the payments. He would be up wonderful sums or swing for it. We ought to be grateful that we are not as Belgium is, and we can show our gratitude practically by refusing to allow our citizens to be placed in any position approximating to that of our unfortunate allies.

Waiting With Confidence

Following the same policy that prevailed during the long series of engagements that resulted in the German armies of invasion falling back to their present positions a veil of silence has been dropped over the field of war in Western Europe. Little or nothing of real importance has been disclosed, but the general assurance is given that the situation is favorable to the allies' arms. Confidence will be increased by the evident satisfaction which marked Lord Kitchener's review of the position and the high tri-

bute he paid to the skill and resource of the British commander-in-chief. Fortunate indeed has the empire been in having at the helm of affairs a government so able, a secretary of war so competent and untiring, and leaders by sea and land who so command the affection and devotion of their officers and men.

The empire awaits the issue of this gigantic struggle with the calmness of assurance. In it is nothing of self-deception, no infatuation that the record is to be free from occasional reverses and failures. There are inevitable in a campaign covering so wide an area and presenting endless varieties of locality and circumstance. But the empire believes that only one end and silent ally the countries that are fighting for national independence have, and that is time. Germany has already lost the advantage of swift action. The morale of the German armies too has been badly injured, and that means much to men taught to believe themselves invincible.

No Racial Domination

Underlying all the arguments used by German apologists who seek to transfer responsibility for the Pan-European war to the shoulder of the allies is the assumption that some one race must dominate every other. This is the fatal weakness of their plea, and supposing it to be true no basis for a final world-peace, which indeed can only rest on recognition of racial rights and national independence. A domination such as that which Germany seeks in Europe and indeed in the world cannot last. It may succeed for a time, as similar efforts have succeeded in the past, but no rule resting on force and regardless of the consent of the governed can possess durability. Prussia has not conciliated Poland nor Alsace-Lorraine and never will while it seeks to compel by the iron hand what can only be induced by a just and liberal policy.

Germany claims right to a place in the sun, and to that it is entitled. But it is not entitled to an exclusive place or to deny to other nations—even the smallest and weakest of them—the right to their fair share of the sunshine. But the Divinity-appointed rulers of Germany—as they so believe—hold themselves at liberty to destroy the independence of other nations. They wish to bestride the narrow world like a Colossus and to reveal at the sight of pettier nations walking under its huge legs and peeping about to find themselves dishonorable graves. No nation must or should be dominant except in the sense that it leads the world in justice, freedom, order and respect for the rights of even the weakest of its partners in the commonwealth of the world.

TO PREVENT LOSS.

Editor World: Would you kindly insert a paragraph in your paper to the effect that any parties shipping parcels by express or registered mail to men in the 48th Highlanders should enclose receipt for same in a letter addressed to the commanding officer, and that the transport section may look after these parcels and hand them over to the men, thus avoiding loss.

TO CURE CATARRHAL Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that has been used with effect for a complete cure after all else has failed. Sufferers who could scarcely hear at a watch time have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription is nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there is no cure but for this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in what may well be called a gift-day. Laboratory, 74 St. Antoine Street, Montreal, P.Q., who make a specialty of it.

Fairly Active Market in Domestic Flour — Butter Quiet — Cheese Active.

MONTREAL, Sept. 18.—Cables on Manitoba spring wheat were weaker today, at a decline of 4d to 1d per quarter. The demand was poor, and sales of a few ordered loads of new crop No. 1 northern were made at 39c for October-November shipment.

The butter market is quiet, and prices would more likely be for round lots. At the auction sale today 27c was bid for finest creamery and refused. Cheese is more active, with an increased demand from over the cable. Demand for eggs is good.

APPLE CROP LARGE THRUOUT COUNTRY

Nine Hundred Thousand Barrels Alone in Annapolis Valley.

EXCELLENT IN QUALITY

Good Apples Will Find Fair Market in British Isles.

Special to The Toronto World. OTTAWA, Sept. 18.—The following has been received: Annapolis Valley, N.S.—Apple crop estimated at 900,000 barrels, which is equal to 1912 and 60 per cent increase over 1913. Fruit coloring slowly and will be later than usual, but of best quality in years. Prices low for early varieties and markets dull. Plums, pears and crabs plentiful but very little demand. Weather ideal.

New Brunswick—Crop equal to 1912 and double 1913, but smaller in size. Famous McIntosh and Wealthy a full crop. Winter apples fair. Practically no scab. Local markets fair. Okanagan Valley, B.C.—Weather unsettled and season two weeks early. Wealthy and Gravenstein now ready. McIntosh and Jonson at the end of the month. Crop fair.

Kootenay Valley, B.C.—Crop 60 per cent of 1913 and equal to 1912. Wealthy, Gravenstein good crop. Baldwin and Wagner fair. Others light. Pears and plums good. Northwestern States—Estimate about 15,000 cars. Demand exceedingly light, trade buying only from day to day. Small likelihood of exporting very large quantity to Canada.

No buying in orchards, the only movement being by consignment. Georgian Bay District, Ont.—Apple crop 15 per cent increase over 1913, and 20 per cent over 1912. Pears double last year. Plums about one-third of last year. Weather conditions favorable.

REAL REVIVAL TO COME GRADUALLY

Toronto reports to Bradstreet's say that business continues generally quiet, with a slight improvement being noticeable in the dry goods trade, which is expected to become more marked as the weather becomes colder. No really rapid betterment of conditions is looked for, however, until the fall. Anything like a real revival will come very gradually. Building operations continue to be confined to a small number of houses, and work in many other lines of activity is slack. Wholesale grocers report business to be rather slack, attributing this, in part, to the heavy stocks of staples laid in by retailers during the summer. The leather trade is slightly more active than it has been, a moderate trade being done with the States at firm prices. Demand at wholesale footwear establishments is poor. Millers report the demand for millfeeds to be keeping up well, with the possible exception of bran, 44c to 45c.

WANT NEW YORK FUNDS.

NEW YORK, Sept. 18.—It is estimated that the net earnings of the Steel Corporation for the third quarter will be around \$21,000,000, or about \$800,000 more than reported in the second quarter. If this forecast proves correct, then the corporation will again have to report a deficit of around \$5,000,000, which would mean a total deficit of approximately \$15,000,000 for the first nine months of 1914.
