BLAMES OFFICIALS FOR VICE IN TORONTO MAY CHOOSE CLARK AS WILSON'S RUNNING MATE

Rev. R. B. St. Clair Says Questionable Resorts Flourish Under Shadow of City Hall, and Charges That Present Police System Is Abominable—Praises Inspector Geddes.

Rev. R. B. St. Clair, superintendent of the department of investigation of the Toronto Vigilance, passed scathing strictures upon the whole civic government at the meeting of that association at College street and Ossington avenue, last night...

BALTIMORE, July 2.—(Can. Press.)—The Democratic national convention became a love-feast to-night when it to select running mate for Gov. Woodrow Wilson. The intense bitterness of the past week seemed to have disappeared.

Blames Officials. "I charge the officials, from Mayor Geary down, with responsibility for the existence of that vice resort at that time. If I had a mayor with municipal backbone, he would make every effort to Europe and more into such places as was Hagerman-street before the campaign of this association."

HAMILTON COUPLE DROWNED WHEN LAUNCH STRUCK BOAT

Edward Haigh and Miss Hattie Gayvey Have Been Missing Since Monday, and Impression is That They and Not Foreigners Were Victims.

HAMILTON, July 2.—(Special.)—Circumstances brought to light Monday night were Edward Haigh of 212 East Main-street, and Hattie Gayvey, 53 East Stuart-street, were rowing from which the couple were drowned was positively identified by Harry Lewis, 159 East Ferrie-street, as one which he rented to Haigh Monday afternoon.

BABY WAS DEAD BESIDE MOTHER ASQUITH REIGN SURELY DOOMED

Doctor Refused to Give Certificate Until an Inquest is Held—Woman Had No Medical Attention.

An inquest was opened last night at the morgue into the death of a six weeks old child, the daughter of Miss Antikka Maffie of 235 Royal-ave. On Monday evening the child was in splendid health and when its mother retired for the night, the child was asleep beside her in bed.

Toronto Willing to Help

Acting Mayor Church last night sent the following telegram to the mayor of Regina: On behalf of city council and citizens of Toronto, we deplore your great loss and affliction. Board of control sending aid tomorrow. We are at your service and ready to do anything we can for you. Dearest sympathy. Answer.

NAPOLI BLAMED FOR HUMBER MURDER

Jury Finds That He Inflicted Knife Wounds Which Killed Mike Gyryda—Police Should Have Power to Search Foreigners For Concealed Weapons.

Mike Gyryda came to his death thru knife wounds inflicted by Joe Napoli at the fight at the Humber Bay Polish colony, a week ago last Sunday. This was the verdict arrived at by Coroner Ricker's jury at Humber Bay last night.

Evading Witness. One witness, Kunka, tenant of the house where the fight occurred, proved to be very evasive, and Crown Attorney Greer, after several vain attempts to elicit straight answers to him, suggested that a couple of days in jail would probably help him to remember.

WILSON IS HOPE OF DEMOCRATS LANDSLIDE ON 46TH BALLOT

An Uncertain Outlook.

The selection of Woodrow Wilson by the Democratic convention yesterday as their nominee for president of the United States does not clear the air; rather, the complexity of the political situation increases. In a word, things are more uncertain than ever, and what is to happen no man at this stage can say.

In the first place, the convention of the Democrats have yet to decide on a platform, and Mr. Bryan and the redoubtable W. R. Hearst have yet to declare themselves in what regard, and in regard to the attitude of Mr. Wilson associated with that platform. We still believe that Bryan, unless he has his own way, or rather, unless his political ideas of reform and progress are recognized to the full, will bolt and take with him many friends of the representatives and twenty-two Democratic and four states send a delegation equally divided as between Republican and Democrat.

And now let us come back to Mr. Wilson and see what kind of a man he is and see what strength or weakness he is possessed of. He is not in the ordinary acceptance of the term a public man not has he any great following among the public men in the United States. He is a professor, an outsider, and has been so far a good deal of a trimmer.

SOLENN RATHER THAN ELATED IS MOOD OF WOODROW WILSON

Feels Weight of Responsibility More Than Honor, He Says on Hearing News—Once Gave Up Hope and Released Delegates, But They Refused to Quit.

SEA GIRT, N. J., July 2.—Gov. Wilson was seated on the verandah of his summer residence with Mrs. Wilson and his daughters when he received the news of his nomination from his managers.

Plotted to Kill Kitchenner. LONDON, July 2.—(C.A.P.)—A Daily Mail special from Cairo states that the British adviser to the ministry of the interior, public prosecutor and commandant of the Cairo police, conferred with Lord Kitchenner this morning. It is understood the conference was connected with the discovery of an alleged conspiracy to assassinate Premier Kitchenner and the Khedive, who is in London. Four persons have been arrested, and the investigation is being continued.

Found Dead in Park. W. L. Ness Succumbed to Heart Trouble While Sleeping. The dead body of W. L. Ness, 45 years of age, of 89 Margaret-street, was found in Bayside Park yesterday afternoon by the caretaker of the park and was taken to the morgue. Dr. Gilmore, who examined the body there, said that death had been due to heart trouble. Ness had evidently gone into the park to rest a few minutes and had been stricken while sleeping. He had been an employe of The Mail and Empire.

Federal Aid for Regina. OTTAWA, July 2.—(Special.)—As soon as the government has resolved definite details as to the tax which Regina has sustained by the cyclone of Sunday, and the amount of relief required, Hon. Geo. H. Peirce, the acting premier, will call a cabinet council to consider the question of relief. That a generous relief will be forthcoming is certain, more particularly as the buoyant revenue of recent months would warrant a generous vote.

Clark's Vote Slumped Heavily Towards Finish and Final Count Was Wilson, 990; Clark, 84—Even "Boss" Murphy of New York Forced to Yield.

MISSOURI LOYAL TO BITTER END

By this time it was apparent Wilson would win on the 46th ballot, and the convention was in an uproar, delaying the call for a long while. Over in the Nebraska delegation, Bryan sat with a broad smile on his face. Delegates surrounded him, grasped his hand, and patted him on the back. Charles F. Murphy was on his feet in the aisle in front of his delegation. Several men spoke to him, but he contented himself with giving a characteristic nod and grunt.

At 12.09 Chairman James took his place on the platform of the National Democratic Convention, and after brief preliminaries balloting was resumed. At 12.15 the chairman directed the call of the roll for the forty-third time. There was a general impression that to-day would find some means of breaking the deadlock.

Clark's Last Stand. At 12.09 Chairman James took his place on the platform of the National Democratic Convention, and after brief preliminaries balloting was resumed.

WILL SOMETHING HAPPEN? One of the hot-weather stories circulated in Toronto yesterday was that there is to be a reorganization of the provincial educational department, and that James L. Hughes is to become minister of education. Mr. Hughes is now in England. He is still chief inspector of public schools, and will hold the position until his successor is appointed. According to an insider, holding a position of considerable public prominence, "something is going to happen in educational circles which will astonish the public."

MANY HAPPY RETURNS to Joseph Gregory, the big, stalwart messenger of the Canadian Bank of Commerce, born at Belfast, Ireland, July 3, 1862.

FOURTH OF JULY VISITORS. We expect to have a crowd of American cousins visiting us to-morrow. The advance guard will likely arrive this morning and naturally we desire to let them know just what we have to offer them beyond a glad hand and an earnest welcome. There are now some goods which are not hampered by the prohibitive duty on foreign goods, such as English-made hats for men, which are the best made anywhere in the world. Our American visitors should take this opportunity while in Toronto to visit the Dineen Company's big hat and fur store at 140 Yonge-st. Dineen is sole Canadian agent for the hats made by Henry Heath of London, England, maker of hats to His Majesty King George.

SEVEN GOOD NUMBERS

Five Thousand Have Been Brought Over By C. N. R. Alone, Half of Whom Remained in Ontario—More Than 6000 Have Been Handled by Dominion Agents

The officials of the Immigration Department of the Canadian Northern are greatly pleased by the results established so far this season. Up to the present time the C. N. R. steamships, Royal George and Royal Edward, of the Canadian Northern, have brought from Great Britain 5000 settlers this season, and of these fully fifty per cent. have landed in Ontario.

The World was informed by the head of this department yesterday that not only was this greatly in excess of last year and all previous years, but that the same rate of increase would be kept up all season and establish a grand record. In fact, the ships were now carrying capacity loads, and he had no doubt whatever but that when the new Canadian Northern steamship, which is being acquired, was added to the service of the Royal Line, the number of settlers brought here by this line from Great Britain would be increased by at least a third more. A large percentage of those being brought over are taking up C. N. R. homesteads in the west.

A marvelous increase in the number of immigrants arriving was also reported yesterday by the officials of the Dominion Government Immigration Department. The officials of this office, who handle most of the immigrants for Ontario, had passed their hands during the month of June 6007 Britishers, who have been placed throughout the province. This is an increase of nearly 2000 over June of last year, and brings the total of between twenty-five and thirty thousand immigrants for Ontario handled by this department so far this season up to a record that is three times greater than for the same period of any previous year.

"We could easily place among the farmers of Ontario at the present moment and additional 5000 of this class of British immigrant we are this season bringing out," said the official head of this department yesterday in Ontario, to The World yesterday afternoon. "The farmers of this province are now calling loudly for the agricultural possibilities of Ontario."

Carpenters Seriously Hurt by Falling About Thirty Feet From a Building in West Toronto.

The collapse of a scaffold at a house in course of erection on Oakmount-road, near Conduit-street, resulted in a fall of nearly thirty feet for two carpenters who were employed shingling the roof yesterday. William Gates of 288 Clendennan was seriously bruised and sustained rather severe internal injuries, chiefly pulmonary. Speers' ambulance was immediately summoned and the injured man removed to the Englehardt Hospital, where he was attended by Dr. R. R. Hopkins. His companion escaped with a few bruises.

Another death which occurred last night was that of Rosella Maud Schermerhorn, the 15-year-old daughter of Mr. and Mrs. Schermerhorn of Westwood and Keele-st. Her death was due to pneumonia. She had been ill for some time.

Dr. Edward Ryan of Kingston was elected president of the Ontario Medical Council at its annual session yesterday afternoon. Dr. Klotz of Ottawa was chosen vice-president; Dr. Bray of Toronto, registrar; and Dr. H. Wilberforce Alkins, superintendent of the Rockwood Hospital for the Insane, Kingston, and is one of the best known physicians in Ontario.

Dr. R. J. Gibson of Bait St. Marie, retiring president, delivered his valedictory address, which covered the work accomplished during the year. The board of examiners, in their report of the examination results, said that they were very satisfactory, more so than in previous years, on account of the dropping of the primary and intermediate examinations. There were 160 graduates who tried the spring finals, and of these 112 were successful, and 83 plucked. In last autumn's examination only four out of 11 were unsuccessful.

Escaped From Central Prison About Eight Months Ago. About eight months ago John Mulhall and Albert Smith made a get-away from the Central Prison, where they were serving a term of 18 months for thefts committed in Toronto and vicinity. Yesterday afternoon Mulhall was arrested by Sgt. Wilson on Queen-st. and he is locked up in No. 1 police station. Various knives and other articles, evidently stolen, were found in his possession.

CATTLE THIEVING AROUND GALT. GALT, July 2.—(Special.)—Horse and cattle thieving is becoming epidemic in this district. The local police were today notified of several daring thefts. Seven years ago, Bill Hammet, one of the notorious Hammer brothers, was convicted here of wholesale lifting from nearby farms and sentenced to seven years in Kingston. Chief Gorman has an idea that the same desperado may be again operating hereabouts. On conviction, he is threatened to kill Gorman when released from prison.

NEW INDUSTRY FOR BRANTFORD. BRANTFORD, July 2.—The A. K. Britton Company of London, manufacturers of gent's furnishings, will establish a factory here to employ 100 hands. The company is being reorganized with a capital stock of \$100,000, a considerable portion of which is being subscribed locally.

Ridley Cricketers Defeat Hamilton

College Boys Make It Four Straight by Fifty Runs in One Innings.

Scorecard for Ridley vs Hamilton. Ridley won the fourth game of their tour yesterday in Hamilton, defeating Hamilton in a one-inning game by 50 runs. The score: Ridley (1st Innings) 75, Hamilton 25.

Scorecard for St. George's vs St. George's. St. George's defeated St. George's yesterday afternoon. The game resulted in a victory for the home team. The score: St. George's 15, St. George's 5.

Scorecard for West End Handicaps. West End Handicaps to-night. The races will be interesting and will attract a large crowd. The score: West End Handicaps 10, to-night 2.

Scorecard for Motorcycle Meet. Another one of those stellar attractions, the exhibition half-mile track near the Exhibition grounds, will be staged Saturday afternoon, under the auspices of the new Canadian champion, Joe Barlow.

Scorecard for Henley Draw. HENLEY-ON-THAMES, July 2.—The Argonaut crew has been drawn against Sydney in their heat for the Grand Challenge, and the winner of this heat will row New College to qualify for the final.

ACCIDENTAL DEATH. After hearing the evidence submitted in the case of Mary Pearson, who was injured in Yonge-st., near Charles-st., and subsequently died in Grace Hospital, the coroner's jury brought in a verdict of accidental death.

BURKE'S IRISH WHISKEY. For more than 60 years, Burke's Irish Whiskey has steadily maintained its reputation for uniform excellence. For Sale by All Leading Wine Merchants.

Vaniman Balloon Explodes Five Meet Terrible Death

Huge Dirigible Craft Which Cost Half-Million Sank Into Ocean Off Atlantic City, Vaniman Brothers and Crew Being Imprisoned in Walls of Flame.

ATLANTIC CITY, N.J., July 2.—(Can. Press.)—While three thousand spectators stood to witness the start of a single balloon, the big dirigible balloon, Akron, was shattered by the explosion of the gas bag, and blown to atoms at 6:33 this morning, a half mile off shore, over the ocean.

Mass of Flame. The dirigible was sailing at a height of 1000 feet, and had been in the air since 10:30 a.m. It was carrying 400,000 cubic feet of gas, was rent by the terrific force of the explosion, perhaps caused by expansion from the sun's rays. It burst near the middle. A mass of flames hid the ship from view.

First the understructure, or car, in which were penned the unfortunate men, held in by a mesh work put on after the second trip of the balloon broke away from the envelope. It upended, the bow turning first in a slow arc. Then it reversed suddenly and plunged downward. Directly above, twisting in a long spiral was the gas bag, a smoking mass of rubber and canvas with flames shooting out from a dozen sections as it collapsed. It fluted a moment and then streaked down after the car.

Empire Chambers of Commerce Endorse Preferential Trade

Resolution of Toronto Board of Trade Was Adopted at Great Congress in London, Eng.—Messrs. Gundy and Morley Were Presented to King George—Meet in Toronto in 1915.

F. G. Morley, secretary of the Toronto Board of Trade, has just returned from London, where he attended the eighth Congress of Chambers of Commerce of the Empire. Mr. Morley reports the meetings held June 11, 12, 13 and 14 as the most important on record. All resolutions were discussed with the keenest of interest.

The delegates were welcomed on behalf of His Majesty's government by the Right Hon. Mr. Asquith, and for the City of London by the Lord Mayor. The meeting was held in the historic Guildhall, and the delegates presented numbered between three and four hundred.

FINE CROPS IN ALBERTA

Growth is Splendid Throughout Province and Record Showing is Expected.

CALGARY, July 2.—(Can. Press.)—The salient features of the crop reports from all over the province are the universally splendid growth made in every district, following the recent heavy rain, and the increased acreage under cultivation. Given propitious weather during the next two months, there should be a record crop in Alberta. Both in the north and south spring wheat is heading out and has reached a growth varying from 8 to 24 inches.

There is every indication also of a very good hay yield, the majority of points reporting excellent grass crops. Alberta is previous year. A. crops are about two weeks ahead of the same period last year, and it is estimated that in southern Alberta the yield will be 90 per cent. greater than last year. Winter wheat is averaging 90 inches and will be ready for harvesting within three weeks. Both oats and barley appear well advanced and in splendid condition.

OTTAWA, July 2.—(Special.)—The following official statement was given out to-day on behalf of the government: Messrs. P. E. Gibbs and W. D. Staples, members of the grain commission, were in Ottawa to-day submitting to the Hon. J. D. Reid, acting minister of trade and commerce, plans and specifications for the new government elevator to be built at the head of the Great Lakes. Already the site has been secured, and it is definitely decided that the capacity of the elevator shall be 2,500,000 bushels.

THE GRAIN ELEVATOR Site for Big Public Plant at Head of Great Lakes is Secured.

The grain commissioners expect to have the work all under way within a very short time, and the last words of Messrs. Gibbs and Staples as they left for Port William were: "The farmers of the west will have a government-owned and operated elevator built as quickly as men and money can build it."

Leafs Drop First in Overtime Bat Out Win in Second Fixture

Toronto Started With Lead But Hustlers Caught Them and Won Out in Eleventh to 3.

After looking to have the first battle of the double-header called and stored in the cellar, the Leafs let the Hustlers catch them in the eighth box, and then Ganzel's men found Maxwell weakening in the eleventh and batted out three runs, getting the decision, 6 to 2.

Maxwell was going well in the early sessions and the home squad looked to have things all their own way.

Four innings Maxwell had the south shore hand breaking their backs, and the sign of a safe connection did they were an easy out.

WEDNESDAY MORNING, JULY 3, '12. WOODROW WILSON AND THE DEMOCRATIC PARTY.

The Democrats have probably taken what appears to them to be the safest course in naming Woodrow Wilson for president. The convention, which was sufficiently tied up with the interests and corrupt politics to pass by William J. Bryan, feared to nominate anyone to whom the great commoner was opposed. The effect will be to keep Bryan and the progressives in the Democratic party without ousting therefrom Ryan, Belmont and the reactionaries of the eastern states who made Parker the candidate in 1904 and knifed Bryan in three presidential elections.

If Mr. Wilson is regarded as a true progressive who will be guided by Bryan and the Bryan ideas, it is assumed that the same influences in the Democratic party which twice elected McKinley, and four years ago elected Taft, will be found in this campaign supporting the president for re-election.

On the other hand, if Mr. Wilson and the Democratic organization leans for support upon Wall-street and Tammany Hall, they will have to concede to the new Progressive party every state west of the Mississippi River. The party comes at this late date into the contest really as a third party. The issue between progress and reaction is already sharply presented by Roosevelt and Taft. The Democratic candidacy in spite of all protestations will be regarded as an attempt to establish a halfway house and to compromise in a matter where compromise is out of the question.

The present campaign is, moreover, one in which the independent voter will not throw away his vote by preventing a choice in the electoral college. The house of representatives is a tie so far as the Republican and Democratic parties are concerned. Should Taft, Roosevelt and Wilson all receive some electoral votes, but no one of them a sufficient number to elect, it is impossible to forecast which one of the three would be chosen by the house of representatives.

Had Bryan been nominated at Baltimore he might have induced the progressive voters, Republican and Democratic, to rally to his support, and he would have defied the reactionary elements in the Democratic party. We doubt if Prof. Wilson has the virtue, the popular support, the wide acquaintance and the long association in the public mind with progressive principles to do this. He will naturally desire to be elected and, with the solid south to start with, he will endeavor to carry New York and a few of the big states where reactionary influences are powerful, leaving the "sage brush" country to Roosevelt.

Demoralizing as the rotten boros of the Black Belt have proved themselves to be in the case of the Republican party, they have worked even greater injury to the Democratic party. The southern states present a spectacle unique in the political annals of any country. The black voters are excluded from the franchise and the white voters all belong to one political party. The Democratic party for nearly forty years has been able to carry Mississippi, Alabama, Arkansas and other states, by practically a unanimous vote, without spending a dollar, without making a letter, without making a speech, whether it favored soft money or hard, high tariff or low, peace or war, free trade or protection.

A few years ago the solid south could elect the president with the aid of New York and Ohio. The Democrats needed little beyond New York. Thus the party, as a party, did not look to public sentiment or appeal at any time to the country at large. It would have ceased to exist in many western states except for the immigrant vote which became Democratic, at least so far as the Irish Catholics were concerned, in the time of the Know-Nothing party.

We doubt if Wilson can succeed where Bryan failed. His temptation will be the politician's temptation to go for results. We doubt if he could appeal to public sentiment in competition with Roosevelt. He may be deterred from doing so by constant admonitions based upon Mr. Bryan's failures as a presidential candidate. Mr. Wilson himself regarded Bryan as something of a nuisance only four years ago; he lives perilously near New York influences and his associations and environments in the past have been such as to make him a conservative, whatever support to progressive principles he may have given in an academic way or as a politician.

The great conflict of ideas represented by the contest between President Taft and ex-President Roosevelt must be adjudicated by the people at the polls, or by violence. Mr. Wilson must either be in sympathy with Mr. Taft or with Mr. Roosevelt; he cannot be in sympathy with both. He will soon be forced to place himself on one side or the other of the great issues convulsing the American republic. He must be prepared to lose the support of one wing of the Democratic party. There is not a reason which would justify William J. Bryan supporting Wilson which would not compel Theo. F. Ryan to support Taft. There is not a reason which Mr. Bryan could truthfully assign for supporting Wilson which would not compel Mr. Bryan and those who think with him to support Mr. Roosevelt, or at least to detach themselves from the Democratic party.

We would not be surprised to see Wilson worse beaten than was Parker or Bryan. Parker lost one element and Bryan another. Mr. Wilson is in danger of defections from both.

THE SHOW FLYMAN SHOULD RETIRE. The sooner the flying machine and the dirigible balloon go out of the exhibition business the better. The risk is too great—that of making a spectacle. More than half the deaths that have occurred, occurred in connection with exhibitions or spectacles. There were two people killed in the States on Monday from a flying machine, in which they were giving an exhibition. There were five killed yesterday at Atlantic City; a big advertising balloon exploded in Germany last week; and flying exhibitions advertised all over the continent, other deaths must follow.

The flying machine, either as a balloon or as an aeroplane, is in the experimental stage and should be confined to that and that alone. As long as the experiments are being made it is not necessary to take the risk as to time or weather, and other variable conditions; but the moment the experiment is associated with an exhibition and gate receipts, an effort must be put forth to keep faith with the public who have paid in money. It will be time enough to give exhibitions of this kind when the art of flying has been perfected, and sooner or later it will be perfected, we believe. Great progress has been made of late, but all the progress has been made by the experimenters as such and not by the exhibition men. There have been more deaths of show flyers than there have been of real flyers trying to improve the machine and the method of handling it.

POLITICAL CONTRIBUTIONS. Parliament might pass a law requiring political parties to publish the names of contributors to their funds, with the amount contributed by each; but we doubt if it would avail a great deal toward putting an end to the political influence of great corporations. We are more given to the making of laws than to their enforcement. The act against illicit commissions was passed as a cure for graft, but no prosecution under its provisions resulted. The Mackenzie King anti-combines bill was intended to put an end to trusts and mergers, but they are still flourishing. The federal government has not concerned itself to enforce the federal law.

Then, again, political parties are not recognized by law in Canada as they are in the United States. We have no national committees to be charged with the duty of accounting for party funds to the government. Each parliamentary candidate might be required to file some statement of the kind, so far as his own election is concerned, but he will be kept very busy without this if he obeys all the present provisions of the electioneering act.

It would do no harm to have the people know how much money the two political parties receive from the big railway corporations, from the banks and from all concerns interested in the making and un-making of statutes and in the enforcement and non-enforcement of laws. Publicity is always good, but full publicity cannot always be obtained by the passing of statutes. Perhaps both parties might be more sensitive about the sources of their campaign contributions were a third party to arise which would decline to receive money from corporations that are before parliament every session asking for legislation. Until such a party exists there is more than a possibility of a gentleman's agreement preventing any statutory probe from being inserted too far.

AUSTRALIA AND BRITISH EMIGRATION. In the current number of Canada, an illustrated weekly journal published in London, England, appears an interesting letter from an emigration booking agent, in which the writer refers to the competition of Australia in that field. For every enquiry, he says, one now gets for Canada, there are two good enquiries for Australia. "There is no comparison this year," he continues, "between the two classes of enquiries for the Dominion and the Commonwealth. It is the bone-die farmer's son, the yeoman farmer's son, with his £200 to £500 capital, who is going to Australia, and that emigration is growing enormously." The writer goes on to say that it has

NEW SOLICITOR FOR THE G. T. P. H. H. Hansard of Winnipeg, One of the Best Known Lawyers in Canada, Joins Railway.

A despatch from Winnipeg announces the appointment of Mr. H. H. Hansard, a lawyer well known in that city, as chief solicitor of the Grand Trunk Pacific Railway, succeeding Mr. D'Arcy Tate, who now holds a similar position on the Pacific Great Eastern at Vancouver. Mr. Hansard has been connected with the G. T. P. for only a little over a year, but during that time has made a decided success of everything that he has undertaken. The new chief solicitor is of Canadian parentage, both his father and mother having been born in New Brunswick. He was educated at Malvern and Oxford, where he took an honor degree in law before returning to his native province, where he took a further course in the St. John Law School. He entered the St. John bar and practised in that city for several years. Subsequently and for a considerable length of time he was chief solicitor of the department of railways and canals at Ottawa, in which capacity he was largely responsible for the drafting of the Dominion Railway Act of 1903, by virtue of which the railway commission has its being. His appointment as assistant solicitor dates back to Jan. 1, 1911.

The medical health officer will continue his warfare against the rooster nuisance. When told that the city solicitor had given his opinion that his bylaw was ultra vires, Dr. Hastings said he would deal with the matter with the powers conferred upon him by the Public Health Act, and treat the nuisance as a violation of health. He would instruct his inspectors, he said, to gather the necessary information, and if necessary the department would take action to silence the rooster.

KEEP THE SKIN CLEAR

The Daily Hint From Paris

Home Helps

Closing the House.

Many a housewife is getting things in readiness to go to her summer home in these preparatory days. It is well to bear in mind that the greatest care should be exercised in the closing of a house so that it will be found in good condition on one's return.

First of all, the beds should have attention. See that every mattress is brushed and then allowed to stay in the open air and sunshine for at least a day.

The blankets should be shaken, and brushed, if possible, before being packed away.

The pillows should be beaten and pinned to the line in the warm sunshine; if the covers are soiled, now is the time to see that new ones are made. Do not delay till it is time to put them to daily use again.

Do not make up the beds in rooms which are not likely to be used. Simply throw a light weight coverlet over them. It is not unhealthful to sleep in a bed which has been made up for weeks or months.

See that all hangings are taken down, brushed and put away. The removable looking places for moth. Also pack away all bric-a-brac. If left out, it will only gather dust and increase when the house is reopened.

Have the rooms cleaned as to floors, windows, walls and woodwork.

Above all, leave no foodstuff around; of course, dry groceries, if in cans or glass jars or in tin boxes, are reasonably safe from the invasion of mice or insects, but even in the most perfect these foodstuffs careful judgment must be used.

Cleaning Velvet.

To clean light colored velvet, corduroy or felt, rub the soiled portion lightly with the cut surface of a day-old loaf of white bread, cutting off the surface as fast as it becomes discolored.

To Clean Jewelry.

Gold rings, brooches and other articles of jewelry that are set with precious stones can be cleaned with warm water and a white soap and a very little ammonia. Use a soft old tooth brush to get in between the setting and the stone. For rings set with pearls, quashes and pearls the water cleaning should be avoided, but for the hard transparent gemstones, the Polish the rings and pins with a soft chamamo and they will be wonderfully bright and sparkling.

Seasonable Recipes

The making of mayonnaise often troubles the inexperienced, while in reality, if the egg is fresh and cold, the oil thoroughly chilled, and the work done quickly and deftly, the process is a very simple one. For rings set with pearls, quashes and pearls the water cleaning should be avoided, but for the hard transparent gemstones, the Polish the rings and pins with a soft chamamo and they will be wonderfully bright and sparkling.

Mix one-fourth teaspoonful of mustard, one-half of oil, one-third of vinegar, one-fourth of salt, one-fourth of sugar, and one-half of egg white. Beat the egg white until it is stiff, then add the oil drop by drop, and stir constantly. As the mixture thickens, add the mustard, salt, sugar and vinegar. Add oil alternately with vinegar or lemon juice until three-fourths (tablespoonful) of vinegar and one-third of oil has been used. The mixture is beating constantly. After the mixture is well thickened, the oil may be added a little at a time, until the mixture is as thick as desired. The beating should be continued vigorously.

During the making of mayonnaise, if the conditions are not right, the mixture often becomes curdled. The same thing may take place if too long a time is taken in its preparation. Should it become curdled, a smooth consistency may be restored by adding remaining half of egg-yolk and adding mixture slowly to it, beating constantly. A mayonnaise, when done, should be stiff enough to hold its shape.

Crepes Glips.

The busy mother will find her laundry work decreased if she will make little princess slices of white cotton crepe, to serve as pocket cover and inside skirt. These crepe combinations trimmed with tulle lace are very pretty and need no ironing, thus enabling one to change as often as desired, without involving extra work on ironing day.

Dainty Collar.

To wear with colored linen dresses, a sailor collar of sheerest mull is most effective. It requires a half yard of material. After cutting the collar out, finish the edge with an inch-wide rill of finely plaited net. Curve to match may be made with rounded or square corners, and edged with the plaited net. If a touch of color is desired, a row of featherstitching where the net is joined to the collar supplies it.

Italian Roller.

In the array of jabot and belt sets are these in Italian relief embroidery. These sets come in a large variety of designs ready to embroider. These bits of embroidery are just the thing to add to your summer work bag supply.

Many babies who have been fed exclusively from the breast, until they are three or four months old, will not touch a rubber nipple, and if sudden weaning is necessary, there is often great trouble in nourishing the child. All this difficulty and danger is done away with if the baby is used to a bottle from the start.

NOW IS THE TIME TO BUY BERRIES

Strawberries are plentiful at the Local Fruit Market, But Dealers Say There Will Be None Soon.

"Anyone wishing to buy their strawberries for preserving will be unwise to delay any longer," said a wholesale fruit dealer to The World at the Toronto fruit market, Yonge-street, yesterday afternoon. "Altho the berries are now the most plentiful they have been this season, from now on they will grow scarcer and in a week or ten days time they will be off the market for good. Their place will be taken by raspberries, which, with the present hot weather, are coming on in the market. The berries fetched eight dollars a crate, in about a week's time will be plentiful."

Strawberries came in with a rush again yesterday and through the day following the going out of the strawberries, in about a week's time will be plentiful."

California peaches began coming in yesterday, but are selling at a lower price than the Georgia peach because of their smaller size. They are somewhat greener than the Georgia peach and as a result do not spoil on the dealers' hands like the others. California peaches fetch \$2 a crate and Georgia peaches \$2.50.

A novelty put on the market yesterday were California peaches in quart cardboard boxes. These sold at the rate of \$2 a box and were in good demand.

Texas tomatoes came in yesterday and sold at a dollar for a 15-pound case, as compared with the same price for a 21-pound case of Canadian hothouse variety.

Cuba pineapples have now ceased coming in and their place is taken by the fresh arrivals of Florida pineapples, which are selling at \$2 to \$2.50 a crate.

Wholesale fruit prices at the Toronto fruit market are: Strawberries, 10c to 12c a box; Canadian cherries, \$2 a small basket, 75c large basket; California cherries, \$2 to \$2.50 a crate; California peaches, \$2 a crate; Georgia peaches, \$2.50 a crate; Florida pineapples, \$2 to \$2.50 a case; California pineapples, \$2 to \$2.50 a case; lemons, \$2.25 to \$4 a crate; bananas, \$2 to \$2.50 a bunch; cantaloupes, \$2 to \$2.50 a crate; California apricots, \$2 a case.

FALSE REPORTS OF DAMAGE TO FRUIT

ST. CATHARINES, July 2.—(Special.)—Robert Thompson, a prominent fruitman and officer of the St. Catharines Cold Storage Co., stated today that there is positively no foundation for statements appearing in certain Toronto papers to the effect that the fruit outlook in the Niagara district is poor.

The report, he says, is entirely misleading. Grapes never looked better, according to Mr. Thompson, who is in a position to know. Tomatoes are coming in fine. Currants and gooseberries are reported as good. Apples, which have no stock on hand and which are contracting for a large supply of fruit this year. A few growers are trying to raise the price, but cry in order to obtain high prices.

SNOW IN NEW BRUNSWICK.

(MONCTON, N.B., July 2.—(Can. Press.)—A severe hailstorm passed over Hillsboro on Sunday. Chartersville, near here, had enough to make sleighing almost possible. In Moncton a few flakes of snow were visible, and Campbellton reports a slight flurry of snow.

TRAVELERS AT JAIL.

Hon. Adam Beck Will Meet Dominion Railway Board To-day.

Hon. Adam Beck, chairman of the Hydro-Electric, left for Ottawa last night, where the hydro-electric commission will hold a joint sitting with the Dominion Railway Board. At certain points the hydro-electric transmission lines cross railway tracks and the commissioners of both boards will decide whether conduits should be built to carry the hydro wires at such points.

TWO BODIES IDENTIFIED.

NIAGARA FALLS, Ont., July 2.—(Special.)—The body of a woman supposed to be Mrs. Bertha Richmond, Buffalo, Eagle Park wharf victim, was taken from the river below the falls today.

To-day, the body recovered yesterday was identified as that of Miss Christina Wacker, Buffalo, another Eagle Park victim.

George Irish, Batavia, to-day identified the coat and hat found on Luna Island as his mother's clothing. He believes the woman became dependent and went over the falls.

138 FACED MAGISTRATE

Police Court Calendar Yesterday Was Unusually Heavy.

Exactly 138 persons faced Magistrate Ellis in the police court yesterday morning. Of this number eight were women, and, with one exception, they were all allowed to go. Mrs. Mary Bains was given 30 days. Her visits to the court had been too frequent of late. Nearly all the men were drunk.

George James, for interfering with three little girls, was fined \$10 and costs.

Late Train Out of Toronto for Montreal at Night Via Grand Trunk Railway System.

The Eastern Flyer now leaves Toronto 10:45 p.m. daily, carrying first-class coaches and electric-lighted Pullman sleeping cars, thus affording passengers an opportunity to spend the evening in Toronto and return to Montreal the next morning at 7:40 a.m. Other trains leave Toronto 7:15 a.m., 8 a.m. and 8:30 p.m. daily. The 8 a.m. train carries parlor-library car and dining car to Montreal, also through Pullman sleeper to Boston. Remember, the Grand Trunk is the only double-track route to Montreal. Secure tickets, berth reservations at city ticket office, northwest corner King and Yonge-streets. Phone Main 4292.

TRACION STOCKS UPWARD MOVEMENT CONTINUED. Rio and Sao Paulo in Prime Demand at Advancing Prices.

A sharp rally in Rio and Sao Paulo, both of which were in remarkably good demand in the Toronto Stock Exchange yesterday.

Rio, at its top price yesterday, stood at 152, a net gain of 3 points from Saturday's high price and within less than 5 points of the record level attained about a week ago.

Reacted on Baltimore News. Profit-taking later wiped out most of these advances and business came to a standstill.

On the basis of the above figures, which indicates a surplus of 22,326,228 4/3 per cent on the new common stock, the payment of 6 per cent dividend would appear to be a fair contribution from the Sao Paulo Electric.
